County To Get New Texas Well Near Farnsworth

Ochiltree county got back into the drilling picture this week with the announcement by The Texas Co. of the location of the Sophie Pearson Daniels well located 13 miles south and two miles west of Farnsworth. The well is to be drilled in Sec. 138, Blk 4-T. The Cree Drilling Co. has the contract and members of the crew moved into Perryton Sunday. This is the only well in Ochiltree county being drilled at the present time. Several crews are living here while working in Texas county's Hardesty field, however.

Oil Well Worker Killed Instantly in Sunday Accident

Jesse Edwards, Jr., 20, working with the Rip C. Underwood Drilling Co., was killed instantly Sunday morning when he was thrown into the machinery of a drilling rig at the wildcat oil test in the Balko community. The accident occurred at about 10:35 a. m. Sunday at the rig, located four miles east and one mile north of Bryan's Corner. Cecil Rowden, toolpusher for the operation, said Edwards was engaged in pulling the tool from the well when a cable looped around him, throwing him into the machinery of the rig. He was decapitated, Rowden said. The body was brought to Perryton by a Boxwell Bros. ambulance and later taken to Stinnett, where funeral services were held. Edwards was born Jan. 28, 1934 in Ballinger, Texas, and graduated from Texline high school in 1953. He was a resident of Stinnett at the time of his death, but had been living in Guymon, driving back and forth to the well. He is survived by his parents, a sister and a brother.

Reserved Seats for Shamrock Contest

The Shamrock schools have sent a quantity of reserved seats for Perryton-Shamrock game Friday night and these may be secured at the superintendent's office by those who desire them. The tickets sell for \$1.25 each and are between the 40-yard lines on the east side of the field, according to Supt. Gilbert Mize. Although the Rangers are heavy favorites in the game, a number of fans are expected to follow them to Shamrock.

Wrestling Card Announced for Next Wednesday

First wrestling card for the winter season will be presented at the Veterans Memorial Building next Wednesday night, Oct. 20, by the Veterans of Foreign Wars. A ring and bleachers have been built in the auditorium and it is planned to hold wrestling matches each Wednesday night. The first event will pit Larry Wright against Vern Taft of Salt Lake City. The first main event will see two girls wrestlers, Mary Jane Mull vs. Ida Mae Martinez. Mary Jane is from Columbus, Ohio while Ida Mae Martinez is from Mexico where she claims the Mexican championship. The second main event will see Andre Drapp of France go against Scottie MacFarland of Scotland. The first match begins at 8:15 p. m.

'Fanny, Farmer's Daughter,' Set For Tuesday

"Fanny, The Farmer's Daughter," billed as a hair-raising heart-breakin' melodrama, will be presented at the school auditorium Tuesday night by the Jennie June Club. Curtain time is 8 p. m. The story is about Fanny, an innocent farmer's daughter, and her experience with a villain from the city. Charles Price is cast as Mortimer Montague, the villain while Margaret Mary Leicht has the lead role of Fanny. The play is designed for laughs, and there will be plenty of them in the traditional melodrama situations. Other members of the cast include Warren Cudd as Flapjack Farmington; Clair Brillhart as Corbett Ganfield; Lena Mae Brillhart as Tessie Tutwiler; Jane Hudson as Dorene Dashingway; Betty Cudd as Hettie Hemingway; Kathleen Lewis as Tillie Lovegrove. The play is directed by Mrs. G. K. Rupprecht. Between-acts entertainment will be furnished by a male quartet, "The Fatal Four," composed of Bob Holt, Gene Cudd, See No. 2 Page 6.

Revival Opens at Christian Church On October 20

Rev. Harvey M. Redford of Dallas will lead a series of revival services at the First Christian church during the week of Oct. 20-29, announces Rev. W. O. Harmon, minister of the church. Arrangements for details of the series of meetings are under the general direction of Jim Anderson and his committee on Evangelism for the Church. Rev. Harmon states that this is the first time in several years that the Christian church has undertaken a "preaching" revival and he urges all his members and friends of the community to take advantage of the fine preaching to be heard. Rev. Redford is not a stranger to the Panhandle, having been pastor of the Herford church for See No. 3 Page 6.

Rangers Are Favored In Shamrock Game

Irish Still Winless In Five Starts

Derailed by Phillips last week, 30-0, the Rangers will be heavily favored to get back into the win column this week when they meet the Shamrock Irishmen at Shamrock. Game time is 8 p. m.

Shamrock has yet to win a game, having been defeated by McLean, Wellington, Lefors, Childress and Hereford. The Irish have made three touchdowns this year but haven't scored in their last two outings, reminding Perryton fans of the Rangers back in 1949 and 1950. Coach Scott McCall had seven lettermen back this season, and he has only a few backs from last year's squad. The team is young and relatively inexperienced but has played good football at times this year, according to Ranger scout reports.

The Rangers will be ready to go this week, having recovered from the bruising battle against Phillips last week. All hands have taken part in some quite rough scrimmage this week and no serious injuries have been reported. The Ranger Band and pep squad will make the trip for this conference game and a section of reserved seats has been set aside for Perryton fans.

Probable starting lineup for the Rangers will be Bill Thrasher and Bill Farrington at ends; Bill Helton and Jack Wright at tackles; Bob Williams and Don Hulsey at guards; Marvin Flowers at center; Shorty Dear, Dempsey Gyer, Jimmy Todd and Gene Good in the backfield.

Fair Meeting Is Postponed

Only 13 persons showed up for the annual meeting of the North Plains Fair Association Thursday night and it was decided to postpone the annual meeting until some time after the first of the year when more people could attend. Officers and directors are to be named at the next meeting. Ivan Day, second vice president, conducted the Thursday night meeting in the absence of president Percy Powers and first vice president C. J. Frantz, Jr.

Many Take Part in School Fire Prevention Week

The best participation in a Fire Prevention program in years was recorded in the Perryton elementary school this year when the pupils made home inspection reports, fire prevention posters, and were issued helmets by the Jaycees and Perryton Fire Department. Elementary principal Kenneth Precise said that there were 335 home inspection reports sent home and 476 were returned with the signature of the child's parent. There were 329 Fire Marshal hats issued in the first three grades. Grades 2-B, 2-C and 2-D had 100 per cent return of the home inspection reports while grade 1-A and 2-A had 96 per cent return. All pupils took part in a fire prevention parade down town Friday afternoon.

Final Winner In Yard Contest To Receive Trophy

Winner of the yard beautification contest sponsored by the Chamber of Commerce and Perryton Garden Club will be announced next week. Judging is being done this week and is to be concluded Friday. There will be three winners named in the judging, and an overall winner for the year will be selected. The three winners will receive prizes and the top winner for the year will get a handsome trophy from the Chamber of Commerce. Winners have been named on three separate contests this year. All homes are judged on five parts, including general appearance, originality of plant material to the home, alleys, lawns, suitability of plant material to the home. First place winners in the previous three judgments are Mrs. O. O. Cox, Mr. and Mrs. Irvin Hergert, Mr. and Mrs. Drew Ellis. The Garden Club committee in charge of the contest includes Mrs. O. A. Schuster, Mrs. A. S. Brillhart and Mrs. Dan Manning.

Women Back LaMaster In Congress Race

"A big factor in my campaign for congress is the all-out support of the woman-voter," Pete LaMaster explained today on his return from southern counties of the district. LaMaster Coffee Clubs are operating in most cities in the district and more are being formed every day, the Perryton candidate reported. "Women appreciate the fact that I am earnestly seeking the job as your representative, that I am a veteran, and that I am not afraid to want to help Mr. Eisenhower finish his job in Washington." "Women are credited with a big part of the Eisenhower victory two years ago and I feel that they are still anxious for Eisenhower to have help in congress," LaMaster pointed out. Pete will be in Perryton today, Dumas Friday and Dalhart Saturday.

Examine 530 In Health Check at Local Schools

There were approximately 530 elementary school children who took part in the school health check sponsored Tuesday and Wednesday by the Parent-Teachers Association. A decided improvement was noted this year in general health of the children, reported Mrs. Jess Cudd, PTA health chairman. The doctors give the annual health check credit for finding and remedying many physical defects, Mrs. Cudd said. There were 15 mothers who assisted with the health check. The PTA committee was composed of Mrs. Cudd, Mrs. Drew Ellis and Mrs. George Clennan. Contributing their services during the two day health check were Dr. Roy Sanford, Dr. D. B. Pearson, Jr., physicians; Dr. Manse Wood, Dr. Max Wood and Dr. Aubrey Keiso, dentists; and Dr. Reese Nowlin, optometrist.

Perryton Man Still In Berger Hospital Following Car Wreck

B. C. Jones of Perryton is still in the North Plains Hospital at Berger in serious condition following a head-on automobile collision on the Canadian River bridge north of Berger last Wednesday. Jones suffered a brain concussion, deep cuts around the head, a dislocated hip and other minor cuts and bruises. Driver of the other car, Wylie D. Gardener, 50, of Lindsay, Okla., died a few hours after the wreck. Highway patrolmen were unable to learn why Gardener was in the wrong traffic lane. The collision occurred about 300 feet from the north end of the bridge, as Jones was driving north and Gardener was coming south. The wreck occurred on Jones' side of the bridge, as he was trapped between the high guard railing of the bridge and the oncoming car which met him head-on in the wrong lane. After the terrific impact, both vehicles rested only four feet apart. Gardener was thrown to the pavement. Jones was pinned inside the vehicle, where the car seat had to be broken in order to remove his unconscious body. He did not regain full consciousness until Friday. Jones had attended a Community Public Service Co. meeting.

City Police Warn About Stop Signs

A campaign to enforce observance of the city stop signs has been put in force by the city police department with several tickets issued this week to those who have failed to stop. "People have become lax in observing these signs and we want to see that cars come to a full stop at intersections where there is a stop sign," said police chief Roland Shearer. The situation is especially bad around the school, Shearer said. Stop signs along 5th and 6th were put there several years ago to make these through avenues and speed up the flow of traffic to and from school. It is especially dangerous for a car to cross 5th or 6th avenue without stopping, since these avenues have the right of way, Shearer pointed out. Two policemen have patrolled around the school this week to warn motorists of violations and to issue tickets where necessary.

Raise Insurance On Courthouse

Ochiltree county commissioners met Monday and spent most of the day discussing the insurance program for county buildings. It was voted to increase the insurance on the courthouse from \$100,000 to \$175,000. This insurance was divided between the firms of Sibley Jines and Son, Erickson Insurance Co., F. B. Sumpter Insurance Agency and the W. B. LaMaster Realty Co. The commissioners also voted to rent the east one-half of the county warehouse to the Monarch Mud, Inc., of Duncan, Okla., and the company is to move in immediately. It was voted to pay \$60 due on the airport lease to Wilson K. Long. The treasurer's quarterly report was approved and the monthly bills paid. Present for the meeting were County Judge H. R. Slaughter, commissioners John King, Ivan Day, Herman Hargrove and George Yates, county attorney Jack M. Allen and county clerk Sue Ragan.

LIGHT'S DIAMOND JUBILEE

1879

1954

Man's first source of artificial light was the cave man's firebrand or pine torch.

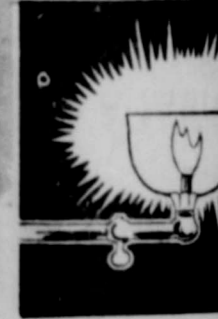

The oil lamp, using fish oil or animal fat with a moss wick, was known to the Phoenicians as early as 4,000 B. C.

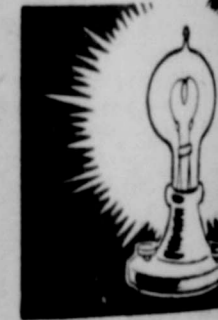

Tallow candles came into use during the Middle Ages and served as a source of light for centuries.

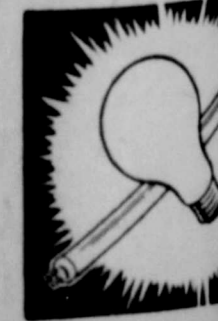

Cool oil lamps followed the discovery of oil in Titus County, Pennsylvania, in 1859.

Gas light was known to be used early as 1816. By 1875, its use had been increased by the gas lamp.

Thomas A. Edison's incandescent lamp—perfected on October 21, 1879—revolutionized lighting.

In 1911, the Mazda lamp was introduced. Other improvements followed, and today's lamps are more efficient and longer-lasting.

Today light is only one of the ways in which electricity has changed our lives—making homes, farms, offices and industry more productive.

Celebrating the 75th Anniversary of Thomas A. Edison's Invention of the Incandescent Lamp

Down through the ages, Man has ever turned to Light—for vision, for protection, for communication.

But not until Thomas A. Edison perfected the incandescent lamp in October, 1879, did Man have a truly efficient and economical source of light.

Edison's historic invention ushered in the Golden Age of Light and Electrical Living. For Edison did more than invent the incandescent lamp. He built the first central station electric system and contributed many other electrical inventions that made possible the great power systems that serve Mankind today.

So, on Light's Diamond Jubilee, we are proud to join the nation in a salute to Thomas A. Edison. His genius has powered America's progress and brought better living to us all.

The First!

Phillips 66 brings you the first All-Weather Motor Oil which has proved it meets the most exacting standard ever established for automobile lubrication...

Mil-0-2104, Supplement 1 level.

The toughest standard ever set for automobile lubrication is the Mil-0-2104 Supplement 1 test. New Trop-Artic is the first all-weather motor oil to meet the requirements of this test. It is an oil which will serve you winter and summer... an oil so good it can double the life of an automobile engine!

Compared to ordinary motor oils, new Trop-Artic reduces ring wear 40% or more. It cuts oil consumption 15% to 45%. It keeps pistons and bearings cleaner... longer-lasting. It saves you money by increasing gasoline mileage. This has been demonstrated in tests representing over 150,000 miles of driving.

Trop-Artic is truly an all-weather oil... S.A.E. 10W through S.A.E. 30. Therefore it flows instantly for easy starting at sub-zero temperatures, and yet it retains the film strength necessary to prevent engine wear under high temperature driving conditions. It isn't just heavy duty. It's double duty.

Any car, in any climate, at any time of the year will perform better with Phillips 66 Trop-Artic. It is a worthy companion product to Phillips 66 Flite-Fuel, the new high performance gasoline recently introduced by Phillips. It pays to stop at the station where you see the Phillips 66 Shield.

Q. I have a 30-percent service-connected disability, which I incurred in Korea. Would that alone be enough to entitle me to Public Law 16 training?

A. No. A service-connected disability alone is not sufficient to entitle you to Public Law 16 training. You also must be in need of training to overcome the handicap of your disability. Need would have to be established at a session with a VA counselor.

Q. I am going to a vocational school under the Korean GI Bill. I understand that I am allowed 30 days of absences a year. Do legal holidays and week-ends count as absences?

A. No. However, other days during school vacation periods—such as Christmas and Easter—would be counted as absences.

Q. I have a permanent GI in Mounts and family.

insurance policy on the endowment plan. At the end of the endowment period, how will I be paid the money—in a lump sum or in monthly installments?

A. You may choose to receive the proceeds in either manner—lump sum or monthly installments, ranging from 36 to 240 in number.

Q. I pay premiums on my GI insurance once each year. In advance. What would happen if I were to die shortly after making my yearly advance payment?

A. The present value of premiums paid in advance of the current month would be refunded to your beneficiary.

Several persons from Boyd attended the P. T. A. meeting at Turpin Tuesday evening.

Manganese Process

PATERSON, N. J. (AP)—A refugee scientist, Dr. Ernest S. Nossen, has perfected a new process for extracting high grade manganese from low grade ore. Manganese is used in making steel. In the Nossen process, manganese is dissolved out of ore with the use of nitric acid. The acid can be recovered and used again.

Grows His Own Tobacco; Thinks It's Right Easy

PARIS, Texas (AP)—Sherman Slusher of Paris grows his own "makin'" in his back yard. And the 15 stalks of tobacco in his garden are just as healthy as they would be on a large Virginia plantation. The plants are four feet high with dark green leaves about 14 inches across.

Slusher, a 58-year-old night watchman with 28 years service at Paris Milling Company, had never tried to raise tobacco before.

"My daddy used to raise it," he said. "I remember because my grandmother used to smoke the home-grown stuff in her pipe."

"I've been wanting to try my hand at growing it for many years but I couldn't find any seeds. Finally found a man over in the west part of town who had some. I got some seed from him and gave it a try."

Slusher planted the seed, which are about half as big as a mustard seed, in an especially prepared hot bed.

"Had to burn a brush pile to get the ground hot," he explained. "Soon as the ground was cool enough to work I planted them."

The seeds stayed in the ground about 60 days before coming up. In fact they were so late Slusher had forgotten them. He had to get a neighbor to help identify the plants. Together they figured them out as tobacco.

When the plants were about six inches high they were transplanted to their present position. Slusher says he is going to make "cotton bolls" twists out of the tobacco. This amounts to drying the leaves, pressing them together and twisting them. Some sort of sweetening will be put between the leaves such as honey, syrup, apple cider or sugar and water.

The finished product may not be neat, Slusher admits, but it sure will be powerful.

He believes the tobacco could stand the drought Lamar County has been having but he keeps it well watered just in case.

So far he has had no trouble from tobacco worms. He attributes this to dry weather also. Grass hoppers have worked on most of the other plants in the garden but so far they have not picked up the tobacco habit.

Slusher is planning a bigger "plantation" next year. He already has his seed.

DANVILLE, Va. (AP)—J. R. Jenkins was flying his radio-controlled model airplane when it got off the beam and crashed behind some trees. A truck stopped, the driver scooped up the plane, and Perkins was out of the airplane business.

Insurance Endowment

CHARLESTON, S. C. (AP)—Colleges with endowment troubles might take a look at a student-conceived plan in operation at The Citadel, South Carolina's state-supported military college. In 1948, two students computed that if 100 members of each graduating class signed up for a \$2,600 insurance policy and kept it up, in 20 years the annual income from dividends would be about \$30,000. The dividends could form an endowment and the men would have the insurance.

The fund went into operation with the class of 1953 as 115 seniors signed up. One hundred members of the most recent class entered the plan.

Insurance men figure there will be \$6,400 in the fund four years from its start, and that by then scholarships can be awarded from it.

For the seniors taking out the policies, the plan means they acquire insurance they might otherwise never think of getting at that time of life.

The products of the petroleum industry are literally everywhere. Every hour of the day, oil or natural gas serves you and virtually every other American. Oil is indispensable to our way of life; it makes the United States a better, safer country to live in.

You may wake in the morning in a room warmed by a furnace burning fuel oil or natural gas.

You drive to work, and your car burns gasoline, uses petroleum oils and greases for lubricants, rolls on tires of synthetic rubber which had their beginning in an oil refinery.

The plant where you work may depend on oil or natural gas as the source of its power. The oil and gas industry supplies 65% of the nation's energy requirements.

Meanwhile, if you live in Texas, your children are attending schools to the support of which the oil industry pays heavy production and ad valorem taxes. And your U. S. Army, Navy and Air Force plan the national defense with confidence that the oil industry has developed the proven reserves that can fuel their machines of war. Oil also supplies munitions — TNT for instance.

Finally, the lady of the house may prepare dinner on a stove fueled with natural gas, and you may go to bed in pajamas laundered with a petroleum detergent, after reading a newspaper printed with ink made from oil, in a room decorated with a paint manufactured from petroleum.

... And that's only a beginning.

The products of the petroleum industry, oil and natural gas, head the list of our most useful resources. A progressive, competitive oil industry, encouraged in the future as in the past, will undertake the further development that will keep them there.

Answers for Junior
CHICAGO (AP)—Parents puzzled by their youngster's probing questions can get help from a new company organized to deliver the answers to junior's scientific problems.
Millard Deutsch was inspired to start it by his 8-year-old son's questions about the how's and why's of things like radio, machinery, health and weather.
When his son wanted to know about radio, pop asked a big radio company for the answers. For weather, he consulted an instrument company. He arranged to distribute the answers so other dads could benefit.

YOU WANT: 100% support for the administration you elected two years ago. Intelligent treatment of your problems by a man whose background qualifies him to understand them.
Active and alert representation by a member of the Eisenhower team, whose voice will be HEARD in Washington.

I, "PETE" LaMASTER, am applying for the job!!

Before you support any candidate you'll want to know his background, his record, his convictions.

LeROY "PETE" LaMASTER
DESCRIPTION: Age 36; resident of Perryton, Texas; native Texan; attend Baptist Church; married to Carolyn Conley of Perryton;
EDUCATION: Perryton High School; John Tarleton Agricultural College; Texas Tech.; Bachelor of Science Degree in Agriculture from Texas College of Arts and Industries in Kingsville;
EXPERIENCE: Asst. Supervisor with Farm Security Administration; during more than three years in Navy spent twenty months aboard ship in Pacific; Since 1946 a farmer and stockman on farm near Perryton; eighteen months in South America studying the peoples and governments there.
POLITICAL CONVICTIONS: Born a Democrat, like most natives of the Texas Panhandle. Now I have come to the conclusion that my political views are not entirely in keeping with those of the Democratic Party, as it has been controlled by the radical left wing element and big city machines. My convictions more closely conform to those of the EISENHOWER ADMINISTRATION. I believe I can render a greater service to you folks in this District as a Republican representative.

Toy Library

OMAHA (AP)—Children's Mem-
orial Hospital has a toy library
for its young patients. When the
collection of toys donated to the
hospital outgrew the cupboards
where it was kept, a specially
equipped room was set aside.
Volunteer women distribute
them. Biggest rush at the toy li-

diverting homesick youngsters
starts.

Stop Taking Harsh Drugs for Constipation

Avoid Intestinal Upset! Get Relief This Gentle Vegetable Laxative Way!

For constipation, never take harsh drugs. They cause brutal cramps and griping, disrupt normal bowel action, make repeated doses seem needed.

When you are temporarily constipated, get relief that is gentle—without pain, without harsh drugs. Take Dr. Caldwell's Senna Laxative contained in Srup Pepsin. The extract of Senna in Dr. Caldwell's is one of the finest natural laxatives known to medicine.

Dr. Caldwell's Senna Laxative tastes good, gives gentle, comfortable, satisfying relief of temporary constipation for every member of the family. Helps you get "on schedule" without repeated doses. Even relieves stomach sourness that constipation often brings.

Buy Dr. Caldwell's. Money back if not satisfied. Mail bottles to Box 280, New York 14, N. Y.

Farm and Ranch Operations Revealed In Farm Census

WASHINGTON (AP)—An army of more than 2,000 census workers soon will fan out over vast reaches of Texas to find out all they can about farming and ranching in the state.

The agricultural census, which the Census Bureau takes each five years, will get underway in parts of South Texas on Sept. 28. Enumerators will start Oct. 30 in the rest of the state. It's the citrus crop that accounts for the early check-up in the Rio Grande Valley.

Actual questioning of farmers and ranchers will take place over four to six weeks. A rough standard to be used in determining whether a place qualifies for coverage in the survey is that it must be three acres or larger in size, or produce at least \$150 worth of crops or livestock.

Each individual checked will be asked approximately 100 questions but the work will be speeded by special census forms which require only an "X" mark to designate the answers to many of the questions.

The enumerators, a spokesman for the Census Bureau said, will want to know the age, sex and race of the individual farmers and ranchers. They will ask if the individual is tenant or owner, the size of the property, the acreage of various crops and the total production of crops and livestock.

They will inquire about expenditures for labor, machinery, feed and similar items and take an inventory of equipment and facilities, including trucks, tractors, television sets and whatnot.

They also will seek to learn the value of each farm and ranch and the amount of any mortgage on it.

The Census Bureau spokesman said the farmers and ranchers are expected to give full, true answers to all questions because the information is strictly confidential—not even the FBI will

be permitted to examine the completed questionnaires. The information will be used only for statistical purposes. A report on the nation as a whole and each state will be issued next spring.

Six field offices will be established in Texas to direct the farm census: Amarillo, Austin, Corpus Christi, Dallas, Houston, and San Angelo. The one at Corpus Christi will be set up first, to handle the Rio Grande Valley survey.

In charge of each field office will be a supervisor. His staff will be composed of an assistant supervisor and two clerks. The field work will be directed by crew leaders, each supervising a dozen or so enumerators.

The number of crew leaders and enumerators to work out of each of the six field offices: Amarillo, 24 and 322; Austin, 24 and 338; Corpus Christi, 19 and 242; Dallas, 23 and 373; Houston, 24 and 359; San Angelo, 25 and 276.

The over-all operations throughout the state will be directed from the southwest regional Census Bureau offices in Dallas.

Supervisors will be paid at the rate of \$5,000 a year for approximately four months of work. The crew leaders will receive \$13 a day. Enumerators will be paid on a piece-work basis, but the Bureau spokesman said a reasonably diligent enumerator should make about \$10 a day. They get 7 cents a mile for use

of their automobiles. The supervisors are appointed by the Census Bureau on the recommendation of Administration leaders, Republican National Committeeman Jack Porter of Houston in the case of Texas. Supervisors are to select the enumerators. On this level politics isn't likely to be a factor, and enumerators may include housewives and school teachers, the Census Bureau spokesman added.

Zoologists say the Kiwi, New Zealand flightless bird never takes a drink of water unless it is sick.

MR. and MRS. DOUGLAS FISKIN

Fiskin Wedding Solemnized at A. Hill Chapel on October 3

A. Hill Chapel on the West Texas State College campus was the setting October 3 at 4 p. m. for the wedding of Douglas Fiskin and Douglas Fiskin.

Mr. Fiskin is the daughter of Mrs. J. R. Gunter, 718 S. 1st St., Perryton, Texas. Mrs. Fiskin's parents are Mr. and Mrs. C. C. Fiskin of Perryton.

The ceremony was performed by Rev. Don Anderson, pastor of the Baptist Church of Perryton, at the double-ring ceremony.

The bride wore a dress of white and lavender with white tapers. The bridesmaid wore a two-piece dress of pale blue faille and a blue hat. She wore white gloves and carried a nosegay of white asters tied with blue and white streamers.

L. J. Ehrlich was best man and Teddy Joe Gunter, brother of the bride, was usher.

Wedding guests were registered by Mrs. L. J. Ehrlich. For her daughter's wedding Mrs. Gunter chose a brown faille dress and brown accessories. Mrs. Fiskin, the bridegroom's mother, wore a navy faille dress and white accessories. Their corsages were of white gardenias.

Following the ceremony a reception was held. The bride's table was laid with a white linen cloth and centered with an arrangement of white and lavender dahlias. A tiered wedding cake was inscribed with "Donita and Doug."

Miss Ola Mae White of Portales, N. Mex., aunt of the bridegroom, served the wedding cake and Miss Margaret McAdams, college roommate of the bride, poured.

Mr. and Mrs. Fiskin are at home at 2614 Second Ave., Canyon.

Mrs. Fiskin is a graduate of Perryton high school. She attended Texas State College for Women at Denton two years and is a senior student at West Texas State College at Canyon. Mr. Fiskin graduated from Follett high school, attended Texas Technological College at Lubbock and is a student at West Texas State College.

Out-of-town wedding guests included Miss Ola Mae White of Portales, N. M., Boog Coplen of Portales and Mrs. N. H. White of Durham, Okla., grandmother of the bridegroom.

'Naked Alibi' Is Powerful Film Drama

A powerful film drama is brought to the Ellis Theatre screen on Sunday and Monday when "Naked Alibi" will be shown, starring Sterling Hayden, Gloria Grahame, Gene Barry and Marcia Henderson.

The story is about a girl out of nowhere who gets trapped between cop and killer.

Hayden is a detective obsessed with the certainty that "honest citizen" Gene Barry is guilty of a series of brutal police murders, so obsessed that he gets fired from the force for his stubbornness. Following Barry to Border City, Hayden comes up with pay dirt—here Barry is transformed into a free-spending, pathologically brutal mob ruler—here Hayden encounters sultry cabaret singer Gloria Grahame, Barry's part-time girl friend.

From this point Hayden's pressure on Barry gets tougher and tougher and mounts in intensity as Miss Grahame, seeing Barry for what he is, joins forces with Hayden in the pursuit. But not before she insinuates herself into Hayden's affections.

And in a desperate race against time, punctuated by Barry's sadistic attempts to wipe out both cop and girl-friend, "Naked Alibi" swings back into the sleeping city as a roof-top gunfight gives the picture a climax that captures the raw realism of "Naked Alibi."

Dr. Nowlin At Optometry Meet

Dr. Reese Nowlin of Perryton will preside over the Friday evening activities at the second annual Tri-State Optometry Seminar in Amarillo on November 5-7.

More than 400 optometrists are expected to attend the seminar to hear three of the nation's outstanding men in the visual sciences. They are Dr. Louis Jaques, Sr., Los Angeles; Dr. Edmund F. Richardson, past president of the American Optometric Assn.; and Dr. Charles R. Stewart, popular young dean of the University of Houston College of Optometry.

The program will open with general discussions Friday evening, Nov. 5.

Romance, Danger In Tense Film

Something new in the way of science fiction comes to the Ellis Theatre Friday and Saturday when "Tobor the Great" unfolds the latest model space pilot. The picture concerns a gigantic mechanical man whose name is derived from the word robot spelled backward.

But Tobor is no monster killer. His purpose is to solve a strictly 20th century problem. He is to pilot an experimental space ship. By means of electronically received and sent telepathic impulses Tobor's chief task is to report back to earth-bound scientists the conditions he finds in the interplanetary atmosphere.

To that end two scientists, the grandson of one of them, and some science reporters work on the development of the almost perfect mechanical pilot. When Tobor responds by showing affection for the young grandson of the scientist, they know their work is almost completed.

Complications arise in the form of enemy agents who wish details on the construction of Tobor, to use for destructive purposes.

A man can jump about 4 times his body length, a kangaroo about 5 times, a frog 12 times and a flea 200 times.

STEWART IS being watched by James Stewart, Grace Kelly Ritter in this absorbing, suspense-filled scene from "Rear Window" which opens at the Ellis Theatre Tuesday, Oct. 19. It's a Technicolor.

Stewart Tops Cast Hitchcock's 'Rear Window'

Hitchcock, the master of suspense, has come up with an absorbing "Rear Window," starring James Stewart, which comes to the Ellis Theatre on Tuesday.

Just a background of the famous Greenwich Village "Rear Window," starts by introducing us to Mr. Stewart, renowned news photographer confined to a wheelchair with a broken leg suffered during the perils of his dangerous du- has nothing in the world to do but while away his time in his Village apartment until his leg heals. He is visited by the insurance company nurse, Thelma Ritter, and by his beautiful career-minded girl friend, Grace Kelly. Between these visits Mr. Stewart idly gazes out of his window at his neighbors.

One dark night he sees what he believes to be a murder. It is then that the suspense mounts, with teeth-chattering terror fashioned in the inimitable Hitchcock manner. It reaches a crescendo pitch that rivals anything that has ever been flashed on a motion picture screen.

Irrigation Loans

The Department of Agriculture announced in August that "Irrigation Farm Loans" would be available, but not too much detailed information has been issued as to how to get these loans. The loans are to be handled through the Farm Home Administration, which ordinarily loans only to those who cannot secure loans from any other source.

A government loan for irrigation purposes, if available without the vast amount of red tape and delay, would mean a lot to this area. Interest in irrigation is climbing all the time, helped along by the dry weather of the past few years.

At least one firm from the South Plains is moving into Perryton and will drill irrigation wells and finance them as they drill. They have already secured a number of applicants and it appears as though an irrigation boom is in progress.

In the long run, a lot of irrigation wells would mean as much or more to this area than the same number of oil wells.

Working for Yourself?

Whether you work on a salary or are in business for yourself, you are really working for someone else these days.

If you are a breadwinner and earn as much as \$4500 annually, and work an average of 8 hours a day, more than one-half of your day's pay is earmarked before you start.

You must work two hours and 35 minutes each day for the tax collector; one hour and 37 minutes to buy food for your family; 35 minutes to buy clothing for the family and 42 minutes for transportation.

All these account for five and one-half hours of the 8-hour day. The other two and one half hours can be used to buy medical care, travel, insurance premiums, pay the house payment, give to the church and charities, etc. No wonder so many of us run out of hours before we get around to paying for those "extras."

GENERAL TELEPHONE COMPANY
OF THE SOUTHWEST

A Member of One of the Great Telephone Systems Serving America

General Telephone System has tripled its plant and equipment in six years

From the SIDELINE

with HAROLD HUDSON

Well, the big football game has come and gone, with the results not entirely unexpected. Most folks thought that the Rangers would score against Phillips, but the score wound up 30-0 just the same. The Rangers were wound up tight as a fiddle string and made more mistakes, probably from tension, than during any other game this year. Still, they did their best and we suspect that this will be about as close as Phillips is played in this district this year.

We still can't see anything fair about the other AA schools having to play class AAA competition at Phillips each year. Of course it is good advertising for Phillips 66 products, we suppose, there can't be much other satisfaction in consistently trimming outclassed opponents year after year.

Living on a small income wouldn't be so hard to do, if it weren't for the effort to keep it a secret, too.

The Herald got a "news release" from a public relations firm of Gregory-Giezendanner Co. in Houston the other day, advocating the constitutional amendment to raise from two years to four the terms of district, county and precinct officials. Guess who had the news release sent out? None other than the recently organized Texas Federation of District, County and Precinct Officials.

The monetary cost of war is staggering, but we never realized quite how much until we read in a government pamphlet the other day what the last three other have cost. What amazed us is the cost per day of World War II, the one in which we had a part. It cost the government \$221,043,000 PER DAY to fight that war. This lasted 1,347 days and has cost a total of \$499,678,266,000 thus far. We get lost when we try to conceive of a figure larger than a thousand, but even we can see that \$221,043,000 per day is a huge sum. The World War I cost was \$37,350,000 per day while things cost more in the Korean War, making it cost \$91,048,000 per day.

They say the way to achieve happiness is to have a high standard for yourself and a medium one for everyone else.

Myles Kelly, the Soil Conservation Service chief and a former Texas Aggie, says the past week end was one of complete frustration. First off, Perryton lost their football game to Phillips. Then on Saturday afternoon he was pulling for Texas to beat Oklahoma and of course the Okies won. Then Saturday night, Texas A & M playing Houston was behind, 10-7, but had the ball on the 2-yard line with 54 seconds to play. They ran a play, Houston was offside, drew a penalty to the one and it was first and 1, with still 12 seconds left. Then the Aggies stalled around and didn't get the play run, losing, 10-7.

The next night, Kelly and his wife went to the picture show, where the plot concerned a fellow who murdered people on trains. After he had done away with the third one, the camera shifted to a rear view of the

tracks out of the back of the train, and faded into "The End" leaving Kelly gnashing his teeth and muttering to himself, wondering what happened to the characters and plot.

Sports Editor Harold V. Ratliff of the Associated Press had a good column the other day based on the premise that Southwest Conference football is growing duller by the minute. The game is a head-butting proposition these days. The lines batter each other and the backs drive for three or four yards and the emphasis is on ball control.

There are few good passers and few passes thrown. The game is now "plain vanilla" and is no different in the Southwest Conference than on the West Coast or the Midwest. The about of the stirring run, the long pass such as demonstrated by SMU and TCU just a year or so ago, are no longer. The emphasis now is on conservatism. This is perhaps one reason why the crowds are dwindling.

The Parent Teachers Association hope that there is a good response to the free X-Ray Survey to be here next week. The survey was skipped last year. The year before, however, Perryton had less people take the X-Ray than the previous year, and earned the dubious distinction of being the only town on the circuit to show a drop in attendance.

The Jennie June Club, which will present "Fanny, the Farmer's Daughter," an old fashioned melodrama, next Tuesday night, is going first class on this deal. They plan to give flowers to the women and fake mustaches to the men at the door. They have scoured the country for authentic costumes, and will have the real McCoy in old time furniture on the stage.

What we want to see, however, is this male quartet, "The Fatal Four" in action. This is Bob Holt, Gene Cudd, Jack Allen and Clyde Ragsdale and if there is a singer in the bunch, we've yet to be convinced. However, they claim they're pretty good and we're going to be there to find out.

Mrs. Mark Burton and Miss Glenda Foster were guests of Mr. and Mrs. Winfred Walker of Amarillo last week end.

Paul Haywood, Keith Flowers and Pete Peterson attended the OU-Texas football game at Dallas last Saturday.

Wolf Creek Philosopher Famous Men Read Comic Books

(Ed. note: The Wolf Creek Philosopher gets around to discussing the comics this week, but we're not sure what point he makes.)

Dear editor:
I have been listening to the discussions and reading about em, these discussions on comic books, and while I'm not an authority on this type of literature as very few of em turn up out here and the newspapers I get hold of arrive too irregularly for a man to keep up with the comics and there ain't nothin more puzzlin than to come in late on a comic series and find somebody bleedin to death and not be able to figure out what's funny about it, but I have been going over the situation in my mind and have come to the conclusion that if comic books have the power

to make delinquents out of people, somebody sure ought to investigate the comics the present generation read when it was young.

Anybody who could draw a comic book that'd result in the kind of war-like world we got on

our hands now must have been the champion delinquent maker of all time.

Go in further back, I don't know who drew the comic books Julius Caesar read, but he must have been awful.

Coming further up, who drew Hitler's funnies? Stalin's? By the way, them Chinese funnies must have been pretty devastating too.

Gettin out on another plane, who drew the comic books all these housin authority officials read when they was young?

I don't want to name any names, but occasionally a Congressman turns lip givin evidence a few comic books must have slipped through to him when he was growin up, and nearly every state legislature in the country produces a few characters who obviously got hold of some comic books when they was at the formative stage.

When you stop to think about it, this world from the start of history certainly would have been a different and more peaceful place if the comic book manufacturers hadn't been at work.

Understand, speakin seriously,

Public Cordially Invited

Man's inseparableness from God is the keynote of the Lesson-Sermon to be read at Christian Science services Sunday. The subject will be "Doctrine of Atonement." Selections from the King James Version of the Bible and "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include these from Psalms (51:15-17): "O Lord, open thou my lips; and my mouth shall shew forth thy praise. For thou desirest not sacrifice; else would I give it: thou delightest not in burnt offering. The sacrifices of God are a broken spirit: a broken and a contrite heart. O God, thou wilt not despise."

From the Christian Science textbook will be read the following: "Every pang of repentance and suffering, every effort for reform, every good thought and deed, will help us to understand Jesus' atonement for sin and aid its efficacy; but if the sinner continues to pray and repent, sin and be sorry, he has little part in the atonement—in the atonement with God—for he lacks the practical repentance, which reforms the heart and enables man to do the will of wisdom" (p. 19).

The Golden Text is from I John (2:1): "If any man sin, we have an advocate with the Father, Jesus Christ the righteous."

Mrs. Tyson Black were Dumas visitors Thursday.

Mr. and Mrs. Andy Hoover called in the Martin McCarty home Sunday afternoon.

Mr. and Mrs. Fred Hale and Doug, and Mr. and Mrs. Ralph Hale visited in the A. C. Dial home Thursday.

Mr. and Mrs. Fred Pshigoda, Duane and Vernon visited at Shattuck Sunday.

The Busy Bee 4-H Club will meet Saturday October 16 at 10 a. m. with Thomasene and Georgia Ann Swink.

Mrs. J. T. Trew called on Mrs. John Hardy and Mrs. William Flowers, Saturday.

The southern end of Lower California is about the same latitude as Arabia.

Rangers Fall Before Phillips Attack, 30-0; Passes Stopped

The Phillips Blackhawks scored in every quarter Friday night to bury the Rangers, 30-0, and erase what was considered the biggest threat to another district title for the Hawks. Displaying fast backs, hard charging linemen and stout defensive play, the Blackhawks dominated the game in all departments.

The Rangers passing attack, which had worked so well all year, was completely smothered by Phillips. The linemen rushed passer Shorty Dear very hard, and the defensive secondary covered the Ranger pass receivers like a blanket. Perryton completed only four passes of 14 attempts and gained only 31 yards in the air.

The Rangers fumbled the ball five times, evidencing their nervousness. Phillips recovered three of these fumbles and converted two into touchdowns.

Perryton threatened in the first and second quarters, driving to the 17 in the first and to the 12 in the second, but both drives fizzled out. The first drive covered 72 yards and the Rangers were still very much in the ball game. The Rangers penetrated past midfield only twice in the second half.

The first Phillips touchdown was a typical Blackhawk maneuver. After taking the ball on their own 12, the Hawks made three yards, putting it on the 15. From here, fullback Don Meek took a handoff, broke over right tackle, cut down the sideline and scored standing up to make it 6-0. Meek was flagged all the way by Shorty Dear and Bill Farrington, but they couldn't catch the fleet lead.

After this touchdown, Perryton took the ball on their 10 and marched down to the Phillips 18, with Dempsey Gyger making most of the yardage, aided by Jimmy Todd. At the 18, however, the attack bogged down when an end-around by Jerral Allred, failed to click. Dear lost 6 yds. attempting to pass, another pass fell incomplete and Dan Pearson's attempted end run failed to make a first down.

The Blackhawks scored twice in the second quarter, Jimmy Gray making both touchdowns. He plunged from the 8 for the first one and plunged from the

three for the second. A Ranger fumble on the 44 was recovered by the Hawks to set up the third scoring drive.

Don Meek, who attempted four extra point kicks, failed to make a one, and Jimmy Gray also failed on the other one.

With the score 18-0 against them, Perryton drove down to the Phillips 12, with Dempsey Gyger and Gene Good making the yards, Gyger looking especially good on off tackle plays. At the 10, however, a bit of Ranger strategy misfired.

Shifting from the T formation to the single wing, five yards were lost when Dan Pearson fumbled and recovered. A pass was incomplete then a screen pass was completed, but lost five yards to give Phillips the ball on the 20.

This was the last time Perryton threatened to dent the scoring column, and it was 18-0 at the half.

The third quarter was scoreless until the period was nearly over, then Don Meek plunged from the two to make it 24-0. The Rangers had staved off a Phillips drive earlier, when Jerral Allred recovered a fumble on the 9.

Another Phillips touchdown was averted early in the fourth quarter when the Blackhawks had the ball on the Ranger 8 with first down. On an attempted pass, quarterback Stan Wilder fumbled and was chased back to the 25, where the Ranger center Marvin Flowers recovered the ball.

A late Ranger rally was thwarted when guard Royce Phares intercepted a Dear pass on the 15 yard line. The game ended with Phillips on the Ranger 25.
