VACCINE OFFICIALLY CALLED SAFE, POTENT

TIME FOR A LAUGH—Any time is time for a good laugh, G. C. Coleman, above, says, but persons all over the nation are being urged to break into a big laugh and celebrate National Laugh Week this week. Coleman, a cafe operator here, doesn't require as much stimulation for a big laugh as some persons do, but he says there is something for everyone to laugh about if they will look for the gay side of things. (Lee Watson photograph)

Water Supply District For Reagan Asked

AUSTIN, April 11 — A water supply district composed of all of Reagan County was introduced in the Texas House and Senate by Rep. Obie Bristow of Big Spring and Sen. Dorsey Hardeman of San Angelo.

Telegrams and letters concerning the water district poured into Austin over the week end following introduction of the bills last week.

Ratio so far has been about 25 for, to 1 against the proposal, Bristow, said Monday.

Endorsements of it have come from the Big Lake Lions Club, Garden Club, 20th Century Club and private citizens and businessmen. Opposition has come from some individuals.

The district would be created to supply water for an area where present water is described as a "menace to health," "harmful to plumbing" and generally a nuisance.

Big Lake is the only incorporated town in the county and is sponsor of the legislation. Mayor J. M. Sappington of that town has been leading the drive for creation of a water district.

The bill does not set out any specific new supply, but Bristow said he understood the plan is to provide water from deep wells, possibly in Tepee Draw between Big Lake and Barnhart.

The countywide water district would be empowered to issue bonds up to $850,000, with approval of voters.

The district would have power to levy an ad valorem tax set by directors. Sponsors estimate that, with only the city of Big Lake as a customer, the cost would be about 15 cents per $100 valuation. With the possibility of more industrial and domestic customers using the new supply, it could work out that revenue would retire the bonds with little or no tax assessments required.

Chemical analysis shows that Big Lake's present water has total solids of 2,150 parts per million. U. S. Health Service does not recommend for domestic use water with total solids in excess of 1,000. The proposed wells in Tepee Draw would produce water with 464 total solids, the Big Lake Wildcat, local newspaper, reported.

The present water supply is "a menace," one Big Lake physician wired Bristow. "It is absolutely harmful to the urinary tract. . . it casues gastroenteritis of a moderate to a severe degree . . . critical cases of diarrhea in infants is attributable to it," he said.

Storm Warning Is Out Today

By The Associated Press

Threats of tornadoes kept North and East Texas residents jittery Tuesday as slashing rainstorms swept across parts of the state.

The rains were accompanied at some points by hail and strong winds which did some damage.

A new tornado and severe thunderstorm warning was issued at midmorning by the Weather Bureau for the area between Bryan and Tyler, 140 miles apart. The Weather Bureau said the danger area extended 40 miles on each side of a line between the two Southeast and Central-East Texas cities.

In the early morning hours, a similar warning was issued for North Texas but no tornadoes developed. Slashing rain, some hail and high winds did occur in that section.

The storms brought a renewed warning of flood threat on the lower Trinity River.

Meanwhile Texas braced for cold weather as the third spring blizzard of the year moved across the Rocky Mountains halting travel in some places and marooning some travelers.

Snow up to 12 inches was reported in Wyoming.

Partial Texas rainfall totals to the Weather Bureau at midmorning included Cleburne 1.60 inches, Rosser 1.40, Paris 1.16, Wills Point 1.05, Fort Worth .56, Dallas .68, San Angelo .03 and Mineral Wells .38.

The Weather Bureau repeated its warning of Monday to remove livestock from lowlands of the Trinity. The river was expected to flood near Liberty Tuesday.

Livestock warnings again were posted in Colorado and a cool front expected to bring freezing temperatures to Texas in a late rare spring norther knocked thermometers lower in the Panhandle.

An alert issued by the New Orleans La. Weather Bureau at midnight ended at 6 a.m. with no tornadoes reported. Fort Worth, Breckenridge, Olney, and Lubbock had heavy winds with drenching rains accompanied by lightning and hail, but little damage was reported.

A rumor of a tornado shortly after midnight northeast of Dallas was completely false. Police at Garland said they had no such reports but did have some heavy rain and a little hail. Greenville, Tex., police said heavy rain, accompanied by stiff winds, struck there around 3 a.m.

After dawn, dust still was in the air in West Texas and seemed to be moving eastward. However, it had cleared at Dalhart, which at 4:30 a.m. reported 8 miles visibility. After dawn, San Angelo had a mile and a half visibility, Wichita Falls 5, Midland 5, Abilene 3. Wichita Falls at 4:30 a.m. had reported 15 miles visibility.

Thunderstorms rumbled throughout the night from the heavily-populated Dallas-Fort Worth area northeastward. Heavy rain fell at Dallas intermittently through the early morning hours. Wind knocked out power at Seymour and Fort Worth and unroofed a building on Fort Worth's north outskirts. Garland, where the tornado was rumored, had wind, hail and rain at 2:45 a.m. The rain struck Greenville, in the heart of Texas' blackland cotton area, about 3 a.m.

The heaviest hail apparently fell in the Olney area in the vicinity of Wichita Falls, but there had been no reports of damage at dawn.

Tuesday morning's tornado alert came in a terse message from New Orleans which merely said:

"Tornadoes expected from midnight to 6 a.m. (CST) either side of a line from Fort Worth, Tex., to Paris, Tex."

But shortly before 6 a.m., police at Paris said rain that started about 2 a.m., accompanied by a "little wind," still fell but that there had been no reports of damage from an area 20 miles around the Northeast Texas city.

WEATHER

North Central Texas: Clearing and cooler this afternoon. Generally fair and colder tonight and Wednesday. Lowest in 40s tonight.

West Texas: Generally fair, cooler this afternoon and tonight. Cool Wednesday. Lowest 26-36 in Panhandle, 32-42 in South Plains and 38-50 elsewhere tonight.

Patterson Is For Omnibus Tax Bill

AUSTIN — Reps. Patterson of Snyder, Bristow of Big Spring, Kirklin of Odessa, and Anderson of Midland were among those voting for the omnibus tax measure which met a setabck in the Texas House last night.

Voting against the bill with the majority were Reps. Armor of Sweetwater and Cobb of Seminole.

Segregation Issue Is Moving In Court

By JERRY T. BAULCH

WASHINGTON (AP) — Arguments before the Supreme Court on how and when to wipe out racial segregation in the public schools moved briskly today with attention focused on Virginia and South Carolina.

Those two states, like Kansas and Delaware—whose views were given yesterday—want time and freedom to integrate in their own way.

But attorneys for Negro children in all four states want the high court to order color lines eliminated by the start of school next fall; certainly not later than September 1956.

Both sides agree for the most part that the Supreme Court should turn over to lower federal courts the job of supervising the desegregation process. However, the states want the district courts to be given little if any instruction on how to carry out the task while the Negroes insist the Supreme Court should spell it out.

The Supreme Court last May 17 ruled unanimously it was unconstitutional for the states to maintain separate schools for whites and Negroes. But it put off until now trying to decide how and when unified school systems should be achieved.

Some deep south states—Georgia, Louisiana, Mississippi and South Carolina—have said they will keep their separate schools regardless of what the Supreme Court does.

Virginia has told the court "prolonged social disorder" will result if desegregation is pushed too rapidly.

The cases before the court deal with students in specific localities in Kansas, Delaware, Virginia, South Carolina and the District of Columbia.

However, any ruling will directly affect all 17 states which have complete or partial segregation.

The court heard both sides of the Kansas, Delaware and District of Columbia cases yesterday and started a combined hearing on Virginia and South Carolina before recessing after 3½ hours of argument.

After arguments in the Virginia and South Carolina cases today, six states not directly involved in the specific cases at hand get a chance to make "friend of the court arguments." These are Florida, North Carolina, Arkansas, Oklahoma, Maryland and Texas.

The arguments will be completed possibly tomorrow, by Solicitor General Simon B. Sobeloff speaking for the Justice Department.

Justice Frankfurter asked yesterday how a Supreme Court decree could be forced in the lower courts. Spottswood W. Robinson, attorney for Negro parents in Virginia and South Carolina, suggested possible contempt proceedings or civil action. Atty. Gen. Harold R. Fatzer of Kansas said he believed the Federal District Court in his state could "enforce its own decrees."

In arguing that the high court should order desegregation "forthwith," Robinson said he was unable to find any case in which the Supreme Court had found a constitutional right was violated and then "delayed in effecting that right" because of "local hostility" or custom.

Attorneys for Kansas, Delaware and the District of Columbia all argued they were making progress toward school desegregation and should be allowed to continue their efforts.

Salk Report Causes News Madhouse

WASHINGTON (AP) — Secretary of Welfare Hobby will formally license the Salk polio vaccine for general use at 4 p.m. today.

Mrs. Hobby's signature is a legal requirement before any new medical product such as the vaccine can be sold commercially.

The Welfare Department announced shortly after noon that the signing ceremony would be held in the secretary's office.

The go-ahead for licensing of the vaccine came from Dr. William Workman, chief of the Biologics Control Laboratory of the National institutes of Health.

He had arranged in advance to telephone to Washington his appraisal of the vaccine on the basis of the evaluation made public at Ann Arbor earlier today. Workman went to Ann Arbor to speed up his report.

By JOE FALLS

ANN ARBOR, Mich (AP)—A tense, emotional scene in the news room greeted announcement of the Salk polio vaccine's success today.

It was a madhouse as newspaper men and radio and television announcers reached for their copies of Dr. Thomas Francis Jr., historic report.

There were more than 200 persons jammed into the rectangular news room of the plush Rackham Building on the University of Michigan campus.

Photographers and motion picture men stood on chairs, tables—anything—to get their shots.

Several men accompanied by guards, started to bring the reports from the smiling men.

Then, as if in a shower of mercy, the men dipped into the boxes and threw the reports into the air. Newsmen scrambled for them as though they were thousand dollar bills.

Then everybody bumped into each other in a hectic race for telephones, teletypes and microphones.

Before pandemonium broke loose, newsmen stood around and talked quietly, nervously sipping coffee from paper cups.

The big question was: "What time is it now?"

The seconds seemed to tick by with heavy slowness that only added to the tenseness.

When the men carrying the reports tried to enter the room, calls of "It's here, it's here; there they are" filled the smoke-saturated room.

It was a strange sight to see hardened newsmen scrambling for the white sheets of paper.

It was a sight not soon to be forgotten.

Child, Mailmen Are Dog Bite Victims

The third instance of a dog biting a child here in recent days occurred late yesterday afteroon, police reported.

The seven-year-old daughter of Mr. and Mrs. Arvill D. Ferguson, 2907 Avenue I, was bitten on the face by a dog.

Prentis Smith, police desk dispatcher, said that the dog caught the girl's upper lip and cheek in his teeth and that the skin of her cheek was broken, and the lip is swollen.

The dog, which did not have registration for vaccination tags, was picked up and impounded for observation for 12 days.

Officials of the Snyder post office reported to police this morning that untagged dogs had bitten postmen in recent days. The bitings occurred at 502 Thirty-fourth Street, 611 Thirty-fourth Street, and 3604 Avenue M, according to the post office officials.

VACCINE PROCESSING—Donald Wegemer, research assistant to Dr. Jonas E. Salk, prepares a chemical solution which will be used to grow cells from monkey kidneys. Polio virus is then injected into the cells and preserved until ready for mixture in the Salk anti-polio vaccine. Dr. Salk was due a report at Ann Arbor, Mich., on the results of last year's nationwide vaccination test.

Ford Enters Talks On Union Demands

By NORMAN WALKER

DETROIT (AP)—The Ford Motor Co. today joins the dramatic, high-stakes poker game being played in the booming auto industry over the union demand for guaranteed year-around employment.

Representatives of the CIO United Auto Workers start new contract bargaining talks with Ford similar to those begun last week with General Motors Corp.

Walter Reuther, president of the UAW and the CIO, has said he expects to put over the guaranteed annual wage idea with the big automobile producers, then spread it throughout the UAW's claimed 1¼ million membership and eventually throughout American industry.

Both Ford and GM, while avoiding taking any public stand on the year-around pay plan, have stressed in pronouncements this week that they have done a good job in regularizing pay and employment.

Ernest R. Breech, Ford board chairman, said in a speech to New York financial writers last night that Ford is doing "everything in our power to maintain stable employment in an industry that has usually been subject to wide swings in consumer demand."

Ford workers have been averaging better than 40 hours a week of work for some time and enjoyed an average $107 weekly pay in March, Breech said. He said his company is paying out a lot of money in premium overtime pay instead of hiring temporary workers who would only have to be laid off.

In 1927, he said, when Ford shifted from the Model T to Model A cars, the company was shut down completely for 4½ months and it was a full year later before full production was attained.

By contrast, he said, less than a quarter of Ford's 136,000 production force was laid off as long as two weeks in the change-over to 1955 models.

At Belleair, Fla., NAM President Henry G. Riter III said yesterday that guaranteed annual wage talk is meaningless until someone learns how to guarantee annual sales volume and income to industry.

Accident Strands Mother And Daughter

No one was critically hurt in an automobile accident early yesterday morning which left a young mother and her small daughter stranded helpless beside a lonely road for four hours.

The accident occurred about 12:30 o'clock yesterday morning when the car driven by Mrs. Bobbie Lawrence, 25, 1700 Twenty-eighth Street, overturned 17 miles north of here on the Polar road.

Bill Zimmerman, highway patrolman, said he later learned that Mrs. Lawrence's 1951 Chevrolet club coupe overturned when she failed to negotiate a turn in the road. The car came to a stop upside down in a ditch.

Mrs. Lawrence removed her skirt and wrapped her two-year old daughter in it. They were found at 4:30 o'clock by two Latin-Americans who drove them to Snyder. Mrs. Lawrence was hospitalized.

The car was rendered a total loss, Zimmerman said.

Tests Find Shots Highly Effective

Local officials are prepared to administer inoculations of Salk vaccine just as soon as the go-ahead signal is given.

Miss Leah Davis, county health nurse here, said this morning that Dr. D. O. Reilly of San Angelo, acting health unit director for this county, will pick up the vaccine for this county in Austin and deliver it here. The vaccine can probably be here within a very few days.

Machinery has already been set up for giving the shots to all first and second grade children in the county. Dr. Cecil Yarbrough, superintendent of schools, this morning was checking with elementary principals to make sure all parental permission slips had been signed for children included in the free inoculation group. Physicians, nurses, and other groups have volunteered their aid in the program.

Dates for inoculations will be announced later.

By ALTON L. BLAKESLEE
Associated Press Science Writer

ANN ARBOR, Mich. (AP) — The Salk polio vaccine is safe, effective and potent, it was officially announced today.

The vaccine was found 60 to 90 per cent effective in preventing paralytic polio in tests last year, anxious parents were told today by Dr. Thomas Francis Jr. of the University of Michigan.

Dr. Jonas E. Salk of Pittsburgh immediately declared he is sure the vaccine is potentially almost 100 per cent effective and can bring complete triumph over polio and its lieutenants of terror and tragedy.

Dr. Francis' official report declared the vaccine had produced an "extremely successful effect" among children with bulbar polio, the most dangerous type.

There is no doubt that children now can be vaccinated successfully to end the threat of polio and the anxiety it causes every year.

The vaccine was found incredibly safe and with only .4 of 1 per cent of children suffering minor reactions.

So-called "major reactions" were almost completely lacking.

The time of protection from the vaccine appears reasonably good.

"The effect was maintained with but moderate decline after five months."

Paralysis occurred in 33 children who received the vaccine in areas where children were given either the real vaccine or dummy shots. None died.

Just one child given the vaccine died of polio and this death followed removal of tonsils two days after his second shot of vaccine in an area where polio was already prevalent.

Urges Only Two Shots

Dr. Salk urged that children this year be given only two shots of vaccine in order to step up the effectiveness of the vaccine. He said the shots should be spaced two to four weeks apart with the third one delayed for at least seven months afterward.

Dr. Salk said he finds the best protection comes when the shots are spaced this way instead of being given all within five weeks as was done last year.

He said some variations in the vaccination results were apparently due to some bad or impotent batches of vaccine.

Salk also urged that children vaccinated last year be given a booster shot as soon as the vaccine is available.

Licensing of the vaccine by the National Institute of Health is expected within 48 hours to make possible a quick beginning of the huge vaccination program.

It is estimated there will be enough vaccine for 30 million children, but if Dr. Salk's recommendation of two shots instead of three immediately is followed this would make possible innoculation of 45 million children.

Dr. Francis revealed his report at a meeting of 400 scientists and doctors.

Out of 1,800,000 children in the test program, 1,013 cases of polio developed.

In areas where the vaccine and dummy shots were used interchangeably 428 out of 749,236 came down with polio.

In observed control areas where only second graders were inoculated 585 of 1,080,680 children developed polio.

Of children receiving dummy shots 115 became paralyzed.

In the areas where vaccine was used on some, and others merely observed, 38 children became paralyzed as opposed to 330 who did not get the vaccine.

Four children who received dummy shots died of polio as against none of those vaccinated in areas where dummy shots and vaccine were used interchangeably.

In areas where it was known that children received vaccine not one died while there were 11 deaths among children who were being merely observed.

Protected Families Well

The vaccine protected well against outbreaks of polio within families.

Only one out of 223 vaccinated children developed polio from family contacts as against eight out of 244 who received dummy shots.

The report said the choice in picking field trial areas had been fortunate in the fact that polio was more prevalent in those areas last year than in previous years, thus giving a more effective test of the vaccine.

In areas where dummy shots were used there were 7,049,236 children in the first through third grades. Of the 60.8 per cent asked to participate in the tests 26.8 per cent, or 200,745, received three shots of vaccine and 26.9 per cent, or 201,229, three dummy shots.

In the observed control areas there were 1,080,680 children in the first three grades and 221,998 second grade children or 20.5 per cent received the three shots.

The vaccine was given only to children—none to adults. However, it has been recommended that vaccine in future be given pregnant women. There is not yet sufficient vaccine for injection of adults generally.

On the question of safety, Dr. Francis said 931 children who were vaccinated and 939 given dummy shots had minor reactions, each the same percentage, .04.

Of the so called "major" reactions, none could clearly be attributed to inoculation. There were nine in children receiving vaccine and 13 such reactions in those getting dummy shots.

These findings failed to implicate the vaccine as a significant cause of untoward reactions.

There was no evidence to blame the vaccine as a source of infection, the report declared.

Among children who developed paralysis there was no evidence that the paralysis localized or involved the left arm where all injections were given.

Needs Careful Consideration

Dr. William G. Workman of the National Institutes of Health declared the vaccine "warrants careful consideration for licensure" attesting to its safety, purety and potency.

"It may be taken as a reasonable assumption that with the excellent cooperation that the manufacturers have always given it will be possible to provide the immunity which may reasonably be expected," Dr. Workman said.

The vaccine is designed to protect against all three types of virus which cause human paralysis but it varied in its apparent ability to halt the different types.

Dr. Francis said in the dummy-vaccine shot areas, the Salk vaccine was 68 per cent effective against Type 1, 100 per cent against Type 2, and 92 per cent against Type 3.

"This clearly agrees with previous demonstrations that most lots of vaccine were less antigenic or potent against Type 1 than against the other two types. In addition the effectiveness of different lots of vaccine varied considerable as measured by the occurrence of polio," Dr. Francis said.

He said it is not possible to give a single figure expressing the numerical or percentage effectiveness of the vaccine in a complete sense.

"If the results from the observed study areas are employed the vaccine could be considered to be 60 to 80 per cent effective against paralytic polio, 60 per cent against Type 1 polio, and 70 to 80 per cent against disease caused by Types 2 and 3," he said.

"There is, however, greater confidence in the results obtained from the strictly controlled and almost identical test populations of the placebo (dummy shot) study areas.

"On this basis it may be suggested that vaccination was 80 to 90 per cent effective against paralytic polio; that it was 60 to 70 per cent effective against disease caused by Type 1 virus and 90 per cent or more effective against disease from Type 2 and Type 3 virus.

"The estimate would be more secure had a larger number of cases been available."

Dr. Francis said there was no significant difference in the rates of nonparalytic polio in test and control groups.

Dulles' Firing Corsi May Be Very Costly Political Error

By JACK BELL

WASHINGTON (AP)—Secretary of State Dulles appeared today to have committed a potentially costly political error in the Edward J. Corsi case.

Ironically, he may have been motivated by an eagerness to get along with Democrats in Congress —specifically with Rep. Walter (D-Pa), who had tangled bitterly with Corsi.

Dulles terminated his "old friend" Corsi's employment as special assistant in charge of speeding immigration of European refugees after Walter said Corsi had once belonged to groups later tagged as subversive. Corsi disputed that. He said his support for liberal immigration policies was responsible for Walter's opposition to him.

Corsi announced yesterday he will not accept a substitute job offered him by Dulles—that of surveying the possibility of settling some immigrants in Latin America.

Corsi is a veteran GOP officeholder in New York state. The political implications were pointed up by the public plea of Republican National Chairman Leonard W. Hall that Corsi continue to serve the Eisenhower administration.

Democratic Gov. Averell Harriman of New York promptly jumped into the matter by saying he had offered Corsi sometime ago a job on the State Refugee Commission. Aides said the job is an unsalaried one.

Arriving in New York from a Florida vacation, Harriman said: "I think it's utterly outrageous and disgraceful, whether you are a Republican or a Democrat, that a man is fired just because someone makes an allegation against him after he has held office for 25 years as a servant of the public."

In a bitterly worded letter to Dulles rejecting the substitute post, Corsi gave administration critics some new political ammunition.

He called the administration's refugee program a "scandalous failure" with fewer than 1,000 admitted to this country in 16 months. He said it had been sabotaged by "an intolerent minority both in Congress and within the department itself."

"I cannot believe that if Mr. Walter can compel my retirement from the refugee relief program before my work has even begun, that similar attacks may not result in a similar unexpected severance from my new assignment," he wrote Dulles. "I have no intention of putting this probability to the test."

He blamed what he called sabotage of the program to admit 214,000 refugees by 1956 on "the people who wrote the law, including Congressman Walter himself, and the people in the State Department who are administering the program."

Security chief R. W. Scott McLeod handles the program for the department.

There was no comment from McLeod; Walter could not be reached.

The State Department said Corsi had been appointed for 90 days during a security check and couldn't be continued on the rolls because that time was up and the check wasn't complete. In announcing last week the abrupt end of Corsi's job, Dulles said no question of security was involved.

What Dulles may have gained in the way of cooperation with Walter, Republicans may have lost by giving minority sections of the electorate cause for reflection. Corsi has been a leader among Italian-Americans within the Relican party.

Dozens of religious and civic groups interested in the refugee program have filed protests over the Corsi ouster.

WORKING CALVES to get them ready for Sunday's roping show here are Rufus Hart, left, and Joe Rollins, officers in the Snyder Roping Club. Some of the country's top ropers will be here for the events. (Lee Watson photograph)

Top Ropers To Compete Here Sunday

The Snyder Roping Club has scheduled roping events for Sunday afternoon here, with 11 of the country's top ropers to be on hand.

The ropers will compete for a $2,200 purse, with money to be awarded go-round winners and those with best averages. Rufus Hart is president of the club.

The ropers will work six calves each in the contests, which will be held at the grounds of the Scurry County Rodeo Association southwest of Snyder.

Most of the ropers coming here have won national events at various times during the past few years.

Toots Mansfield of Big Spring heads the list of ropers coming here Sunday. Mansfield has won world championships for roping seven times. Also coming from Big Spring is Sonny Edwards.

Doyle Riley of Ballinger, formerly of Snyder, is also among the ropers. Riley has won several high places in national roping events and last year won roping in Madison Square Garden.

Don McLaughlin of Fort Worth, another who will compete, has been world champion roper three times in succession.

Others include Troy Fort, Buddy Grof, Rex Beck, George Epperson, Jim Bob Altizer, Ray Wharton, and John D. Hollyman.

The roping show will also include jackpot events for local ropers, Hart said, adding that the jackpot roping is open.

The show will get underway at 2 o'clock Sunday afternoon. Admission will be $1.25 for adults and 50 cents for children.

D. G. Hamilton Funeral Held

Funeral services for David Gasnot Hamilton, 33, were held at 2:30 this afternoon in the Twenty-fifth Street Church of Christ with Ted Norton, minister, officiating. He was assisted by the Rev. C. T. Partain, pastor of the Fluvanna Baptist Church.

Pallbearers were J. C. Tomlin, F. C. Schillingberg, Andrew Minnick, Earl Wooten, Harold Parker, Alton McCain, Charlie Teal and Doc Minnick. Burial in Snyder Cemetery was under the direction of Bell Funeral Home.

Mr. Hamilton died early yesterday morning in a Lubbock hospital where he had been a patient for several weeks and had undergone surgery. He was born April 14, 1921, in Borden County, the son of Mr. and Mrs. Will Henry Hamilton, now residents of Fluvanna. He had lived in Borden and Scurry Counties all his life.

Mr. Hamilton attended school in the Miller community of Borden County. He served with Co. C of the 99th Signal Battalion during World War II. He was employed in ranch work by Dan Gibson at the time of his death.

Survivors in addition to his parents included his wife, the former Bessie Mabel Paulk, to whom he was married in 1946 in Snyder; a daughter, Bonnie Dee Hamilton of Spokane, Wash.; two brothers, William Park Hamilton and Joe Hoy Hamilton of Snyder.

Elkins Rites Set Tomorrow

Funeral services are to be held at 10 o'clock tomorrow morning in the San Angelo Park Heights Baptist Church for Leonard Elkins, 45, the cousin of Edwin Minor of Snyder and Mrs. Autry Eubanks and James W. Minor Ira.

Mr. Elkins died at 6:50 yesterday morning following a heart attack. His sister, Mrs. Gladys Smith, of San Diego, Calif., had been killed about 9 o'clock the previous night in an automobile accident. Double funeral rites for them are to be held sometime tomorrow in Irving. Mrs. Eubanks and her mother, Mrs. Mattie Minor of Tyler, are making arrangements to attend those services.

Mr. Elkins had been ill since he suffered a heart attack about six weeks ago, and had been hospital ized much of the time since then. He was manager of the San Angelo Dr. Pepper Bottling Plant. He had moved to San Angelo from Irving about two years ago, and was owner of the Elkins Bottling Co. in Irving. A graduate of Southern Methodist University, he was formerly employed by the Texas Co. and owned two service stations in Dallas. He was a deacon in the Park Heights Baptist Church and president of the Concho Valley Baptist Brotherhood.

AREA OIL ROUNDUP

Three Wildcats Set In Mitchell County

Drilling is to be started in the near future at three shallow wildcats in west Mitchell County. Two of them are to be operated by O. P. Leonard of Fort Worth and the third is to be undertaken by Cosden Petroleum Corp. of Big Spring.

Leonard's No. 1 D. J. Barber will be 330 feet from north and west lines of 16-28-tls-T&P. It is projected to 3,500 feet.

Leonard's No. 1 J. L. Morris will be 330 feet from south and east lines of 8-28-tls-T&P. Scheduled destination is 3,200 feet.

Both wildcats are approximately two and one-half miles southwest of Westbrook.

Cosden No. 1-36 Susie B. Snyder will be nine miles southeast of Coahoma and near the west line of Mitchell County. It is 330 feet from north and west lines of 36-30-tls-T&P. Operator plans to test to at least 3,250 feet.

SCURRY COUNTY

Texaco has filed application to drill the No. 231 P. L. Fuller 14 miles north of Snyder in north Scurry County. The project is designated a wildcat.

Location is 1,993 feet from south and 665 feet from west lines of 560-97-H&TC. Rotary contract is to 8,000 feet. Drilling will begin immediately.

F. C. Lattner of Abilene has filed an amended drilling application to plug back to 1,750 feet at the No. 1 J. E. Brown, one-half mile west of Dunn. The hole is now bottomed at 1,805 feet. It is located 990 feet from south and west lines of 133-3-H&GN.

Sun Oil No. 1-D Shannon, 11½ miles northwest of Snyder, is drilling below 1,907 feet in lime and anhydrite. Nine and five-eighth-inch casing was cemented at 1,906 feet.

Three new locations have been set for drilling in the Sharon Ridge 1700 field of south Scurry County.

Empire Oil Co. of Texas Dissolved of Dallas will drill the No. 4-C Chapman three and a half miles southeast of Ira. Drillsite is 330 feet from south and west lines of the northwest quarter of the southwest quarter of 100-97-H&TC. Cable tools are to drill to 1,700 feet.

R. F. Townsend Trustee No. 3-A Holiday is to be drilled 990 feet from south and 330 feet from west lines of 120-97-H&TC, three miles southeast of Ira. Cable tool contract is to 1,800 feet.

Townsend's No. 3-B Holiday is to be 990 feet from south and 330 feet from east lines of the east half of the southwest quarter of 120-97-H&TC, also three miles southeast of Ira. It is also to drill to 1,800 feet.

BORDEN FAILURE

Trice Production Co. of Longview No. 1 T. J. Good, south Borden County, has been plugged and abandoned at total depth of 7,892 feet. Operator plugged the project after salt water developed on swabbing tests through perforations from 7,870-885 feet.

Location was 660 feet from north and west lines of 22-32-t3n-T&P, 18 miles south of Gail.

TESTING SPRABERRY

Forest Oil Corp. is preparing to run casing for tests of the Spraberry at the No. 1 W. E. Love and others, a wildcat 15 miles southeast of Lamesa in southeast Dawson County.

A drillstem test from 7,345-535 feet, open two hours, recovered 710 feet of heavily oil and gas-cut mud. Flowing pressure was from 250-325 pounds, with 15-minute shut-in pressure 1,475 pounds. Operator drilled to total depth of 7,615 feet in lime, where the casing is to be run.

FIELD LOCATIONS

Superior Oil and Sunray Oil have asked permits to drill two new tests in the SMS-Canyon sand field of northwest Kent County.

Superior and others will drill the No. 4-2 Mary Lula Reed 660 feet from south and 1,350 feet from west lines of 2-2-H&GN, 15 miles northwest of Clairemont. Contract depth is 6,500 feet.

Sunray No. 4 M. L. Reed is to be 1,983 feet from north and 1,593 feet from west lines of section 2, John Rodman survey, 12 miles northwest of Clairemont. Contract is to 6,200 feet.

In the Good-Northeast Canyon reef field of Borden County, Texaco will drill the No. 5-B A. M. Clayton. Drillsite is 1,987 feet from south and 667 feet from east lines of 29-32-t4n-T&P, 12 miles southwest of Gail. Rotary contract is to 8,200 feet.

EARL STEWART, 20-year-old son of Mrs. Eula Scott, 3607 Avenue M, recently completed basic Air Force training at Lackland Air Force Base, San Antonio.

Chamber Still Seeks New Office Location

The Chamber of Commerce board of directors last night heard a report from its committee which is seeking office space and then asked the committee to make further studies.

The chamber office must be moved in the near future. The committee, headed by H. W. Cargile, reported on space available and cost of repairing it. The board asked the committee to check further into rental space or into office space to be owned by the chamber. Members of the committee other than Cargile are Max West and Stanley Noah. Two more members will be appointed.

The board also heard reports on various projects in which it has been active or will be within the next month. Included was the recent meeting to discuss Deep Creek watershed problems, the National Guard's open house program held recently and its armory project coming up in the near future; and several meetings.

Officers Look For Stolen Car Today

A state-wide alarm was sounded by shortwave radio from the sheriff's office here this morning when the 1951 Chrysler sedan of Garland Armstrong, Snyder attorney, was reported stolen from the parking area of the courthouse.

Armstrong said he had the keys in his pocket at the time the car was taken, about 9:15. His wife also had keys, however, and the alarm was cancelled when she reparked the car there an hour later.

Japs Study Atoms

TOKYO (AP)—Japan has set up a government group to push the study of peaceful use of atomic energy.

Chamber Education Group Sets Up Work

The Chamber of Commerce education committee, headed by Bob Dupree, met this morning and appointed two sub-committees to work on projects coming up soon.

One committee will check into the possibility of holding a business-industrial education day here. It is made up of Fred Auforth, Don Hire, and Frank Wilson.

The other panel, made up of Gene Best, Steve Birdwell, and H. W. Cargile, will work with the schools in a career conference to be held April 26.

More American men than women have died from cancer each year since 1949.

HOSPITAL NOTES

The following admissions and dismissals at the two Snyder hospitals are only those whose names have been released by the hospitals:

BATTENFIELD-JONES

Admissions: Curtis Fletcher, Ballinger; John Brotherton, Snyder; Mrs. J. C. Bigham, 2005½ Avenue F; Jack V. Crawley, 2002 Avenue R.

Dismissals: Mrs. Myrtle Burrow, route 1; Glenn Jarrell, Arah route.

COGDELL MEMORIAL

Admissions: Mrs. J. W. Headstream, Dermott; Mrs. Jess W. Rogers, 423 Twenty-eighth Street; Mrs. G. G. Gohlke, 1405 Thirty-[illegible]; Naxey Davis, Arah route; Mrs. Wade Pipkin, 3765 Highland Drive.

Dismissals: Mrs. Wade Pipkin, 3765 Highland Drive; Mrs. Floyd Allmand, 316 Thirty-sixth Street.

Bigger Aid Promised

WASHINGTON (AP) — Moving to spike Communist propaganda guns, President Eisenhower has announced the United States is ready to give a bigger lift to Asian nations in their quest for economic development and a "rising standard of living."

The President said last night he will send Congress next week a foreign aid program "including economic aid to the free nations of south and east Asia."

The announcement was made as delegates began gathering for an Afro-Asian conference at Bandung, Indonesia. Red China is one of the nations expected to play a leading role there—a role that might involve an attempt to woo nations friendly to the United States.

It seemed likely the foreign aid message would be timed close to the opening of the Afro-Asian conference next Sunday.

Eisenhower mentioned no dollar amounts in his announcement, but indications are the program will come to about 3½ billions. About two-thirds of this would be earmarked for Asia.

Woman Admits She Slew Three Children

MACOMB, Ill. (AP) — Mrs. Betty Thelen, 26, a former mental patient, has admitted slaying her three small children by suffocation, police said.

Coroner Roy Louderman said Mrs. Thelen told him she suffocated the children yesterday by locking each in a piece of baggage. She told him, "They were sick, dying inside and there was no hope for them." They cried all the time, wouldn't mind her and wouldn't go to the bathroom, she said.

Her husband Kenneth found the bodies of his daughter Kathy, 3, and his two sons, Terry, 2, and Jimmy, 7 months, when he came home for lunch. Mrs. Thelen said they had been in a suitcase and two small trunks for about three hours.

Louderman said Mrs. Thelen, a slender brunette, had been in a private mental institution and that she twice had attempted suicide. She was held by authorities without charge pending further investigation.

Lost, Stolen Items In Sheriff's Office

The sheriff's department here still has the reputation of operating somewhat of a lost-and-found bureau, the latest objects turned in being a comb vender and a billfold.

The comb vending machine was brought to the office late yesterday afternoon by Pat Moore, county commissioner, who said he and workers found it beneath a bridge six miles southwest of here on the Block Line Road.

The vender was believed by officers to have been stolen from a service station. It had not been damaged, and Moore said a dime was found in it. A number written in pencil on the machine was 4-4487 and was thought to be a Midland or Abilene telephone number.

The other item found was turned into the office this morning by Patricio Martinez. The billfold contained a dime and several papers, including a driver's license for Nell Smith Winter, 40, route 2, Snyder.

Radioactive isotropes worth 30 million dollars are sold each year in the United States.

AIR FORCE basic training was finished recently for Max Ray Hall, 18, of Snyder, at Lackland Air Force Base, San Antonio. Hall is the son of Mr. and Mrs. E. R. Hall, Post Highway.

Mad Gunman Killed, Plot Falls Short

LOUISVILLE Ky. (AP) — Three hours of horror for a mother and her children and a 20-year-old grudge ended in death yesterday for a mad gunman.

Guy C. Shearer chairman of the Kentucky State Alcoholic Beverage Control Board fired the shot that finished the revenge plot of Thomas Fay Redfern 35, short of its objective.

After holding Mrs. Shearer and her three children as hostages, Redfern sat down to discuss his mission with Shearer, Police Chief Carl Heustis and Dr. S. Spafford Ackerly, a psychiatrist who had befriended him several years ago.

Shearer, who had flown to Louisville from his office at Frankfort, listened as Redfern, flushed with anger, reminded him of an arrest 20 years ago when Shearer was a probation officer.

"I want compensation for what you've done," Redfern cried.

He reached for a gun in his belt.

Heustis lunged across a desk and felled Redfern with a flying tackle. Dr. Ackerly grabbed the man's gun hand by the wrist and forced it floorward.

Shots rang out in Shearer's fashionable East Louisville home and Redfern went limp with a bullet through the heart.

Shearer had fired a pistol obtained from a state trooper as he entered his home.

Police with heavy arms and tear gas surrounded the place after Shearer got word from Redfern by telephone that his family was being held hostage to await his arrival.

73 Witnesses Are Being Subpoenaed In Washburn Trial

SAN ANGELO, Tex. (AP)—State and defense attorneys have subpoenaed 73 witness for the trial of Harry L. Washburn, charged with murder in the death of Mrs. Harry E. Weaver.

The state said yesterday it has subpoenaed 62 witnesses and the defense said it has subpoenaed 11. The trial is scheduled for April 25.

Mrs. Weaver, wife of a prominent San Angelo businessman, was killed Jan. 19 when an automobile she was trying to start exploded from a planted bomb.

Washburn, her former son-in-law, and Andrew H. Nelson, also of Houston, were charged with murder.

Rules Given For Private Use Of Atoms

WASHINGTON (AP)—The Atomic Energy Commission announced today the regulations under which it will license utilities and other private firms to use nuclear materials for peaceful purposes.

This is one of the key steps designed to pave the way for expanded development and use of the atom in industry, medical treatment and other peaceful pursuits.

The new rules will not be effective until the lapse of 30 days, during which interested persons may submit suggestions and comments.

The AEC said these are the key provisions in the regulations:

1. "The applicant must be a reliable person, qualified through training and experience to use the material safely."

2. "The applicant's equipment and facilities must be adequate to protect health and minimize danger to life or property."

3. "The use to which material is to be put must be authorized by the Atomic Energy Act." The authorized uses include power development, medical therapy and other peacetime purposes.

4. "The licensee must keep records of special nuclear material received, on hand and transferred, but the regulation does not prescribe detailed accounting procedures nor the type of physical protection to be given the material."

5. "Licenses for special nuclear material to be used in reactors will contain provisions allocating the amount . . . estimated to be necessary for operation of the reactor during the period for which it is licensed. Similar long-term allocation may be included in the licenses for other uses if needed by the applicant."

Men Remain In Jail In Lieu Of Bonds

Two men charged yesterday with bootlegging remained in the county jail at noon today in lieu of release on bonds set at $1,000 each yesterday afternoon by the sheriff.

Homer Whisnand, sheriff, set the bond amounts in the absence of the county judge, Edgar Taylor, who was out of town. Judge Taylor was expected to return Thursday.

The men, each charged with selling whisky to an officer of the liquor control board, are Earnest James, 22, Negro, and Martin Jack Kosta, 53, Best Hotel. Both are ex-convicts, having served terms for felony offenses.

Registration Up This Year

The tax assessor-collector's office reported this morning that the official count of vehicles registered for the 1955 calendar year from Feb. 1 through April 1 was 8,690. The figure, declared by the county auditor, Jimmie Billingsley, Sr., exceeded that of a year earlier by 358.

These figures were only for cars registered during the two-month registration period. During the 12 months ending on April 1, 1954 car registrations totaled 11,908. New cars registered for the 1955 calendar year during that two-month period were also registered for part of 1954, as required by law. Thus, there was no overlap in figures.

New cars registered after April 1 will not be registered for any part of 1954, however.

The annual total registrations by years since 1946 are: 3,514 for 1947; 3,760 for 1948; 8,798 for 1949; 13,299 for 1950; 13,835 for 1951; 12,887 for 1952; 11,677 for 1953; and 11,908 for 1954.

The 1955 annual total will be the 8,690 registered from Feb. 1 through April 1 plus all 1955 registrations to be made from that date through next April 1. Most of these will be new cars and cars brought to Texas from other states.

Magnesium weighs two thirds as much as aluminum and a fourth as much as steel.

Warming Continues

The mercury rose to 87 degrees here yesterday as the warming trend continued. The overnight low was a mild 52 degrees, with the 7:30 reading this morning showing the same temperature. The blowing dust which was very slight in Snyder yesterday was present is much greater amounts this morning.

WOMEN

INTERNATIONAL DESIGNER PATTERN

S-260

by Alan Graham

Eventually everyone succumbs to the charm of the schoolgirl jumper. The one above has the squared, higher neckline in the fashion of today. The bodice seams with their perpendicular angles accentuate the smaller bosom look. The skirt of half-inch released pleats begins where the elongated top ends. Make it in linen, cotton, shantung, faille or even crepe or lightweight tweeds. Size 12 requires 3¼ yards of 54-inch material for the jumper and one-half yard of 39-inch material for interfacing. To order the pattern, No. S-260, send $1 to International Designer Patterns, P.O. Box 993, G.P.O., Dept. SX-13, New York 1, N.Y. Add four cents for handling. State your bust, waist and hip measurements to be sure of receiving the proper pattern size.

'Queen Of High Wire' Can't Keep Her Feet On Ground

By DOROTHY ROE
AP Woman's Editor

What makes a beautiful girl risk her life twice daily from April to November, teetering perilously on a thin thread of steel 50 feet in the air?

What does she think about when she walks blindfolded across the high wire, rides a bicycle across it, and then walks down a 45-degree-angle wire when the act is over?

"I do it because I was born to do it," says Josephine Berosini, blonde, bespangled and 29. "And what I think about is just that stretch of wire 10 feet ahead."

When Josephine, queen of the high wire, staggers slightly on her perilous perch high in the rafters of Madison Square Garden, a gasp goes through the crowd watching Ringling Brothers and Barnum & Bailey's "greatest show on earth."

Cynics may say, "It's an act. She won't fall."

But in the five generations of Berosinis who have walked the high wire, tragedy has struck four times.

Her uncle and aunt fell to their deaths while the family troupe was still in Europe. Another uncle spent years in a hospital after a fall in Buffalo in 1939.

And in 1950, Josephine stood frozen in horror as her 23-year-old brother Otto fell to his death during a performance in Waco, Tex.

The Berosinis were a family group on the high wire up to then. Otto's death broke up the group. Otto's fiancee, who had joined the troupe, left the high wire for good. So did Josephine—or she thought she did.

But the girl who started her feats of the high wire at the age of 5 could not stay away.

"I felt at first that I never wanted to see the wire again," she says. "I kept telling myself there must be other ways to make a living. But when the family troupe broke up, I knew I had to go on alone.

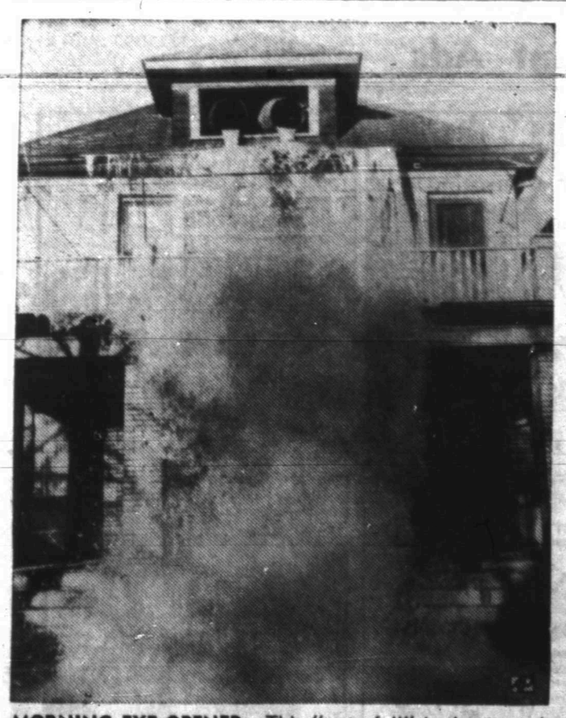

"It was only two months that I was out of the show. I started practicing my brother's act alone, while my father watched from the ground. He said he ought to be there, at first. It was like after my first fall, when I was only 6, and my father made me go right back on the wire, so I wouldn't let the fear get me.

"This time he didn't make me go. But the feeling that I must go on had been bred in me too long to deny.

"I hope my brother knows, and understands that I did this thing because his spirit pushes me on."

Family Decides To Keep Stray Puppy

SOUTH BEND, Ind. (AP) — The James Ameigh family had been trying to get rid of Tippy, a 6-month - old stray puppy, since Thanksgiving. Yesterday, the Ameighs and their five children were awakened by Tippy's barking. The house was full of smoke from a defective furnace. "From now on," said Mrs. Ameigh, "that puppy will have the place of honor in our home."

MORNING EYE OPENER—This "waterfall" is the cascade of moonshine mash poured from barrels after police staged an early-morning raid on a still in a Detroit, Mich., home. Police found the still and 10 barrels of mash but no persons at work at the still.

Crawford Is Teacher For Lucy Marlow

By BOB THOMAS

HOLLYWOOD (AP)—Lucy Marlow, a brown-haired beauty who wants to be a movie star, has the best possible teacher—Joan Crawford.

As a matter of fact, Lucy started out her film career as a make-believe movie star. She was the gushy actress who appeared at a premiere in early scenes of "A Star Is Born." Her brief performance made such an impression that she landed a contract. Now she is playing her biggest role thus far in "Queen Bee." She portrays a young girl who idolizes a Southern matron (Crawford). The picture shows Lucy's disillusionment as she discovers her idol is really a wicked woman.

Crawford, who has lasted longer than any star in Hollywood history, is naturally a starlet's ideal. When "Queen Bee" started, Lucy said to the star: "I'm new at this, and you know so much. I wish you would criticize me."

So Joan took Lucy under her wing. It's been quite an education.

"I've learned all kinds of things," the young actress remarked. "She knows everything about lighting. Miss Crawford—she says to call her Joan, but I still can't get used to it—can stand in a whole bunch of lights and know which one of them is not focused correctly.

"I'm amazed at how she makes every minute count. Whenever she isn't busy on the picture, she's handling some business or answering fan mail. She answers every letter herself.

"I've learned a world of things about wardrobe. She went with me to a fitting and showed me things I should know. Like having a low collar in back so the full line of the neck would show. And avoiding tight collars, so they won't make lines in the neck when you turn your head. And having loose sleeves so the fabric won't wrinkle when you lift your arms."

JOHNNY REESE

Speakers To Include High School Senior

A senior from Amarillo High School is to be among the speakers at the Seventh District federated club convention opening here Thursday. He is Johnny Reese, who has filled numerous speaking engagements before clubs in Amarillo as an individual speaker and as moderator for panel discussions.

Johnny is a second year member of Amarillo High School's debate team, and president of the school's chapter of the National Honor Society. He is a member of the Thespian Club, Speech Senate, Ken Club, Allied Youth, and Hi-Y. He participated in the formation of the Youth Traffic Court, and has served as judge in the court during the summer sessions and the regular school term.

In December, Johnny was elected governor of the eighth annual Hi-Y Youth in Government Model Legislature at Austin. He is active in the young people's program of the Polk Street Methodist. His parents are Mr. and Mrs. Byron Reese.

Johnny is to speak at 2:30 Friday afternoon, taking as his subject "Youth Speaks Out." He will be followed by Dr. Evelyn Carrington of Dallas, psychologist and director of instruction in Shady Brook School.

Activities of the convention will begin with the opening of registration at 1 o'clock Thursday in the foyer of the high school auditorium. All the convention sessions will be held in the auditorium, and all the meals are to be prepared and served in the high school cafeteria.

Wayland Holt Guest Speaker For Club

Wayland Holt, county attorney, was guest speaker at a luncheon meeting of the Opti-Mrs. Club Friday. Mrs. Erich Arnold, program chairman, introduced Mr. Holt.

In the business meeting, Mrs. Woodrow Worthington, Mrs. L. Z. Bridgeman and Mrs. Arnold were named to a committee to nominate new club officers.

WHAT'S GOING ON

Shirley Ramsey, daughter of Mr. and Mrs. A. M. Ramsey, 306 Thirty - fourth Street, spent the weekend at home with her parents. She is a student at Baylor University.

Mr. and Mrs. J. O. McNew and son, Don, 3713 Noble Drive, Mrs. C. O. McNew of Big Spring, and Mrs. Dale Beck of Snyder, visited in Alpine over the weekend with Mr. and Mrs. L. D. McNew.

Mr. and Mrs. Huion Stanfield and daughter, Karen, of Big Spring spent the weekend in the home of Mrs. Stanfield's parents, Mr. and Mrs. B. F. Wilson, 2211 Twenty-seventh Street.

Karen Bastness of Juneau, Alaska, spent the Easter holidays with Myrle Wayne Neal and her parents, Mr. and Mrs. Ralph Neal, 701 Twenty-fourth Street. Myrle and Karen are both students at Howard Payne.

Mrs. Estell Brown and sons, Walter and Forrest, of Denton were weekend guests in the home of Mr. and Mrs. F. W. Lattner, 3024 Avenue A.

Mr. and Mrs. Jerry Jennings of Sweetwater and Mr. and Mrs. Floyd Hodges of Post spent the weekend with Mrs. Walker Huddleston, southwest of city.

Weekend visitors in the home of Mr. and Mrs. J. L. Roddy, 2211 Avenue O, were Mrs. F. O. Stark and M-Sgt. and Mrs. John H. Roddy of San Antonio and Mr. and Mrs. N. J. Fulford of Fluvanna.

Mrs. L. P. Houston and daughter, Suzanne, 1010 Twenty - fifth Street, spent the weekend in El Paso visiting Mr. and Mrs. Denton Lambert, who are former residents of Snyder.

Mr. and Mrs. E. E. Carlile of Ira had in their home for Easter dinner Mr. and Mrs. Ernest Wiggins, 3766 Highland Drive, Mr. and Mrs. Frank Bryant and children and Mr. and Mrs. Jess Grizzle and son of Ira, and Mrs. Frank Wood of Andrews.

Wyatt Burkhalter of Lubbock visited Sunday with Louise Crook and her mother, Mrs. J. P. Crook, 2808 Thirty-seventh Street.

Mrs. C. E. Walker, 1002 Twenty-eighth Street, visited Sunday in San Angelo with Mr. and Mrs. E. B. Seals.

Mr. and Mrs. C. W. Addison spent the weekend in Plains with his parents, Mr. and Mrs. A. N. Addison. Also guests in the A. N. Addison home for Easter were Mr. and Mrs. C. R. Addison, Mr. and Mrs. Leon Cheatham, Mr. and Mrs. Austin Addison, Jr., Mr. and Mrs. Jesse Beering, Melba Burt and Willie Mae Addison.

Mrs. Gene Green, 2711 Avenue V, spent the weekend visiting her parents in Midland, Mr. and Mrs. N. M. Gibbs, and other relatives in Odessa.

Air Force Is Trying Diet

TRIPOLI, Libya (AP) — Operation Fatty is trimming waistlines for bulgy members of the 17th U.S. Air Force at nearby Wheelus Field.

Lt. Col. Claud M. Mears, 42, of Helena, Mont., commanding officer at the base hospital, said he lost 14 pounds as the result of a slimming diet he drafted in conjunction with U.S. Air Force dietitians.

The diet provides 1,000 calories a day—and admonishes to eat nothing between meals and cut out both alcoholic and soft drinks.

Each member of the Air Force is weighed weekly. Bulgers are directed to the base hospital for trimming down action.

A typical menu:

Breakfast—Two small grapefruit, two poached eggs, one slice of toast, one pat butter.

Lunch — Average serving roast beef, half cup green beans, tossed salad with lemon or vinegar dressing, two peach halves.

Supper — Large broiled steak, half cup peas, pears with grated cheese salad, two small tangerines.

Coffee is served with all meals but minus cream or sugar.

Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-5456.

Here's a sweet and spicy dessert made with frozen squash.

NEW ENGLAND CUSTARD

1 package (12 ounces) frozen winter squash
2 eggs
1½ cups milk
¾ cup firmly packed brown sugar
¾ teaspoon salt
½ teaspoon nutmeg
¾ teaspoon ginger
1 teaspoon cinnamon

Allow the squash to stand at room temperature several hours to thaw. Beat the eggs in a large mixing bowl until the yolks and whites are combined. Add the milk and beat to combine. Add the thawed squash, brown sugar, salt and spices, and beat to combine. Ladle into six custard cups, and place the cups in a baking pan. Fill the pan with boiling water so that the water comes at least half way up the custard mixture. Bake in a moderate oven (350 degrees) one hour, or until a metal cake tester or small knife inserted in the center comes out clean. Place the custards in a pan of cold water immediately so the cooking will stop. Chill. Serve in the cups or turn out. There will be a little of the egg-milk mixture that has separated from the squash at the bottom of each custard cup.

RESERVATIONS ARE DUE FOR CONVENTION

Members of federated women's clubs in Snyder who wish to make reservations for meals during the seventh district convention may do so by contacting Mrs. Harold P. Brown, reservation chairman. It is important that these late reservations be made as quickly as possible, she said. All the meals will be served in the high school cafeteria, and all convention sessions will be held in the high school auditorium. No reservations are necessary for the meetings in the auditorium, and club women who wish to attend only part of the day's meetings may do so.

WOMEN'S CALENDAR

TUESDAY

Tea for Presbyterian women honoring Mrs. Julian Hendren, 3-5 p.m., with Mrs. Worth Saynor, 2907 Avenue T.

Change In Meeting

The East Elementary Parent-Teacher Association will meet on April 18 rather than next Thursday night as originally scheduled. A musical program is to be presented by first and second grade students under the direction of Mrs. Tim Dennis.

Gloria Benitez Is Egg Hunt Winner

Gloria Benitez won first prize in the Easter egg hunt sponsored yesterday afternoon by St. Elizabeth's Altar Society. Consolation prizes went to Polly Whatley and Linda Miller, and Janice George was awarded the prize for being the youngest contestant.

The Easter basket project of the club, was described as successful at a recent meeting of the Altar Society. Proceeds will go for charity. Mrs. John Josefy, Mrs. Jack McCortey and Mrs. Ben F. Wilson were named to the Sparkle and Shine Committee. Mrs. A. J. Perche and Mrs. L. J. Muir were hostesses. The Rev. Edward Chrisman led the program discussion on the United Nations request for the cooperation of women's clubs in certain of its programs. The Altar Society voted against cooperation.

Murphy HD Club Has Demonstration

A demonstration on curtains and drapes was given by Mrs. J. M. Sterling when the Murphy Home Demonstration Club met Friday with Mrs. Gilbert Richter.

Plans were made for an additional club meeting on the fourth Friday of each month for social purposes. Routine reports were made by a substitute secretary in the absence of Mrs. Olen Horn who is on a trip to the Rio Grande Valley.

Refreshments were served by eight club members and a guest, Mrs. G. F. Hembree.

Don't Neglect Slipping
FALSE TEETH

Do false teeth drop, slip or wobble when you talk, eat, laugh or sneeze? Don't be annoyed and embarrassed by such handicaps. FASTEETH, an alkaline (non-acid) powder to sprinkle on your plates, keeps false teeth more firmly set. Gives confident feeling of security and added comfort. No gummy, gooey, pasty taste or feeling. Get FASTEETH today at any drug counter.

See how Mercury costs you less— gives you more for your money

HERE'S WHAT YOU GET

Exclusive styling: Mercury's styling is distinctive—designed for Mercury and Mercury alone.

Super-torque V-8 power: Horsepower is up to 188 in all Customs and Montereys and 198 in the Montclairs. But more important is the new way Mercury puts this horsepower to work for *everyday* driving. You get far more *usable power*.

Special features at no extra cost: Eight of Mercury's eleven models have dual exhausts as standard equipment. All models have 4-barrel carburetors, ball-joint suspension, special high-compression spark plugs. Better see us soon.

HERE'S HOW YOU SAVE

1. You can get more for your present car. Our high allowances are based on high-volume sales.
2. Mercury's low prices start below 13 models in the low-price field.*
3. You save on operating costs with Mercury's famous economy and low upkeep.
4. You protect future trade-in value. Mercury consistently leads its field for resale value.

*Based on comparison of manufacturers' suggested list or factory retail prices

Hopes Run High For Bettering State's Tourney Facilities

By HAROLD V. RATLIFF

It is to be hoped the University of Texas and the Interscholastic [illegible] their announcements that something would be done about the pe[illegible] facilities for the state basketball tournament.

The tournament has outgrown the Austin gymnasium and the parking situation is terrible. School people from over the state can't get into the place to see the games and finding a parking place is a major project.

Waco would like to entertain the tournament. It has a field house seating 10,000 and parking facilities are unlimited.

Unless the university does something about the situation it will be a good idea to take the tournament to Waco or Dallas (it'll have a big field house also shortly).

The comment was that while parking around the gym at Austin is difficult there are parking places "within three or four blocks." That's quite a revelation. There are places to park "within four blocks" of most any stadium or gymnasium but if you have to park a mile away it's better to stay at home anyway.

They don't even have parking facilities for the regular employes around Gregory Gym. One newspaperman had his automobile taken off to the pound and had to pay about six bucks to get out because he tried to park within shouting distance of the gym.

The crowds at the games were so big they overflowed into the aisles and stood up around the lower stands.

It is proper that the tournament be held in the home of the Interscholastic League but there should be the proper facilities for it even there.

And speaking of the University of Texas, you don't hear any blasts these days from coaches of other Southwest Conference schools that "Texas always gets all the material."

Time was when Texas automatically became the favorite in most any sport because it was supposed to be so rich and powerful it could get all the top athletes.

In recent years this has been dropped.

This year's summary gives you the idea why. It's probably the worst year in athletics in the university's history. The football team flopped, the basketball team couldn't beat a carpet and now the baseball team is a setup.

[illegible] through to prevent a total washout [illegible] off. The university folks can't complain about being put on the spot.

Now it's Texas' turn to lament that it can't compete with those big schools at Dallas, Fort Worth, Houston and Little Rock and there ought to be a better distribution of the athletes.

The old guard of Texas golf—the fellows who brought this state its greatest glory on the links—has passed on. Ben Hogan, Lloyd Mangrum and Jimmie Demaret haven't won a tournament in a coon's age.

The rising star is Billy Maxwell, who won a tournament quicker than anybody ever has in pro golf and who has managed to finish in the money in all of them.

Byron Nelson, the old master, said three years ago that Maxwell was the boy to carry on for Texas. Byron had been playing the chunky little fellow, then an amateur.

Maxwell is meeting success in golf but he doesn't appear to be giving much thought to his public relations. When he shoots a bad score or loses he spurns the newspaper men and sulks. He couldn't be copying from Sam Snead, however. Sam evaded the newspaper men whether he won or lost. So Billy only has to straighten out one-half of his public relations.

Top Women Golfers In Babe's Meet

BEAUMONT, Tex. (AP)—The nation's top women golfers were moving into Beaumont today for the $5,000 Babe Zaharias Open with the Babe herself feeling fit and ready to take down first money.

The tournament was named for Mrs. Zaharias, famed Texas woman athlete, and she won the first one two years ago just before undeoing an operation for cancer.

The Babe has just had a physical checkup and found to be in perfect condition with no trace of the cancer found.

Louise Suggs of Lexington, Ky., the 1954 champion and heaviest winner on the winter trail, will be the favorite for top money here, however.

Other women sharp shooters already on the scene and taking tune-up rounds over Beaumont Country Club course are Patty Berg of St. Andrews, Ill., Marlene Bauer and Alice Bauer Hagge, of Sarasota, Fla.; Betty Bush of Evansville, Ind.; Marilyn Smith of Wichita, Kans, and Betty Danoff of Dallas.

Others of the women's tour will be arriving today.

The 54-hole tournament starts Friday and runs through Sunday. Twenty professionals and 15 amateurs are expected to make up the field. Among the highly regarded amateurs is Mrs. H. C. Riedel of Dallas, the Texas champion.

Reynolds To KC

WICHITA FALLS (AP)—Sammy Reynolds, former amateur golf star who turned professional last fall, has become assistant pro at the Mission Hills Country Club in Kansas City.

George Kline Named Throckmorton Coach

THROCKMORTON (AP) — George Kline, who has been coach at Dalhart, has been named head football coach of Throckmorton High School. He succeeds Morris Mercer, who resigned.

Kline, former Texas Christian University player, coached in Colorado before going to Dalhart three years ago.

ABOVE THE BLEACHERS

By DALE WALTON

Hermleigh's top all-around athlete, Neal Wilcox, is already making plans to participate in the annual North-South all-star grid game, which wil be played before those attending the Texas Coaching School in San Antonio Aug. 5.

Wilcox will be a member of the North squad, which will be coached by Carrell Royal of Mississippi State.

Hermleigh has produced some of the best athletes in this part of the country, and Wilcox will probably be remembered among the top few.

The 17-year-old senior is not just a football player. Last season he was one of the school's best basketballers, helping the team on rebounds.

This spring, Wilcox was third high pointer in the District 18-B track and field meet, with only half a point's difference between him and the first place participant.

Wilcox has been sought out by head coach Sammy Baugh at Hardin-Simmons and plans to go there and play football with the Cowboys.

The outstanding end has been placed on the all-district team two years and was chosen to an all-area team during the same two years. His team last fall played to a regional championship, as far as Class B goes, under the coaching of Ray Isaacs.

Wilcox scored 49 points for the grid team last fall, most of those on touchdowns by passes and end-around plays. The year before he scored 35 points. During the grid season, he weighed about 190. His weight is now about 185.

Other Hermleigh seniors are also being lined up for college football teams. Kemp McMillan and Powell Tartar are both planning to try out at Ranger Junior College, while Wendell Goodman and Clarence Stahl are thinking about Howard Payne.

Others from this area chosen for the North squad are Jim Millerman of Abilene, Hollis Gainey of Colorado City, Bob Harrison of Stamford, Charles Knight of Albany, Jerry Cramer of Breckenridge, Kennedy Schrum of Midland, Don Dendy of Haskell, and Frosty Robison of Big Spring.

Former Texas Hurler Dies Following Fight

PUEBLO, Colo (AP) — Funeral services for Ed (Bear Tracks) Greer, former Texas League pitcher who was a loading machine operator for the City of Pueblo, were held yesterday.

Greer, 54, died last Friday soon after a fight with Joseph Baca, member of a city jail work gang. An autopsy showed he had suffered from a heart ailment.

Police Chief Roy Harper said witnesses told him Greer reprimanded Baca for the way the prisoner was shoveling sludge at a sewage disposal plant and a fight followed.

Harper said Greer took Baca to the plant superintendent for return to jail and a few minutes later slumped over dead.

A native of Concrete, Colo., Greer won a reputation as a right-handed fast-ball pitcher with the Denver Bears of the Western Baseball League. Later he hurled for Fort Worth of the Texas League. He was known by the nicknames "Caveman" and "Bear Tracks."

Trotters Have 12-7 Edge On All-Stars

HOUSTON (AP) — The Harlem Globetrotters and College All-Stars left Texas today with the Trotters boasting a 12-7 edge in the national basketball tour.

The Globetrotters whipped the Collegians 92-66 here last night as a crowd of 10,096 looked on. They led at the half 42-28 and clowned through the last half.

W. C. Clifton topped the scoring with 18 points. Tom Gola paced the Collegians with 16.

KC Starts Another Try With Majors

KANSAS CITY (AP)—Kansas City takes its third shot at big league baseball today with the American League's new Athletics opening their season against Detroit.

The recently completed Municipal Stadium was ready for a capacity crowd of 35,000 paying customers.

Connie Mack — a household name with baseball folk for more than half a century — is scheduled to hand the ball to former President Harry Truman, who in turn will deliver his ninth opening day pitch.

The 92-year-old Mack flew in with the A's yesterday from their exhibition windup and smiled and waved throughout an hour-long parade that attracted almost 200,000 well-wishers. He was managing championship teams at Philadelphia years before many of the present crop of players were born.

Enthusiasm of Kansas City fans has been boiling for weeks even though the A's are almost to a man the eighth-place outfit that represented Philadelphia last year. There's a new manager — Lou Boudreau, fired at Boston late last season. He replaced Eddie Joost, given the boot under the new setup here.

Alex Kellner, aging but still capable left-hander, gets the opening pitching job. Bucky Harris' Detroit Tigers start a campaign to move up from their fifth-place spot of 1954 with Ned Garver, right-handed veteran, on the mound.

Kansas City was a member of the National League in 1889 and the old American League in 1900.

Houston Netter Wins Over Big-7 Champ

HOUSTON (AP)—John Been of the University of Houston defeated Oklahoma's Ken Taylor, three-time Big Seven champ, 6-1, 6-1, yesterday and the Cougars went on to down the Sooners 7-0 in a tennis match. It was the season's first defeat for Oklahoma's and Houston's fourth triumph in five matches.

Dressen Finds Himself Atop American Loop--For Awhile

By JOE REICHLER
The Associated Press

Charlie Dressen is right back where he was when he left — in first place.

He's in a new league and a new town, but the peppery little guy lost after leading them to two successive pennants is still riding high.

After his first game as manager of Washington, he and his Senators find themselves right on top today by virtue of yesterday's 12-5 opening day victory over Baltimore in the American League's only game. The rest of the circuit gets going today.

The National League had an early opener too. This was ruined for the home folks, however, when Chicago thrashed the Redlegs 7-5 for the Cubs' sixth successive opening day triumph.

The Cubs blasted four Cincinnati hurlers for 11 hits, including home runs by Gene Baker and Harry Chiti. Ted Kluszewski, the majors' 1954 home run king, hit one for the Reds.

In Washington, a pair of veteran right-handers — President Dwight D. Eisenhower and Bob Porterfield — combined their talents to throttle the Orioles with six hits.

The chief executive jinxed Washington's opposition for the second straight year, tossing out the first ball. Porterfield picked up from there and went the distance. A year ago, the Senators beat the New York Yankees 5-3 in their opener.

All 16 clubs swing into action today. Kansas City makes its American League debut at the refurbished Municipal Stadium against Detroit. The city whooped it up for its new heroes yesterday with a colorful parade through the downtown streets. it hopes to do the same today after southpaw Alex Kellner takes the mound against the Tigers' Ned Garver.

Today's largest crowd is expected in Cleveland, where some 50,000 will open defense of the American League title against the Chicago White Sox. Bob Lemon, a 23-game winner, will oppose Virgil Trucks, who won 19.

The runner-up New York Yankees open at home against Washington with lefty Whitey Ford opposing the Senators' Maury McDermott.

Baltimore faces the Boston Red Sox. Joe Coleman is slated to face Frank Sullivan of the Red Sox.

The National League Lines up with New York's champion Giants at Philadelphia, Pittsburgh at Brooklyn, Cincinnati at Milwaukee and St. Louis at Chicago.

Robin Roberts makes his sixth straight opening game start for the Phils. He will be opposed by 21-game winner Johnny Antonelli.

Warren Spahn takes the mound for the Braves against Cincinnati's Gerry Staley in Milwaukee.

The Cards' Brooks Lawrence squares off against the Cubs' Paul Minner in Chicago.

The smallest crowd—17,000—figures to be on hand in Brooklyn when Carl Erskine faces Max Surkong of the Pirates.

Southwest Baseball Race Goes On Line

By The Associated Press

First place in the Southwest Conference baseball race goes on the line Tuesday afternoon when Southern Methodist and Texas A&M clash in Dallas.

Each unbeaten in conference play and each boasting a 3-0 record, the teams might well decide the championship.

Southern Methodist will send its ace pitcher, Tommy Bowers, against Texas A&M's talented southpaw, Joe Hardgrove. Bowers has won three conference games, two against Texas and one against Texas Christian. Hardgrove has beaten Baylor and Rice.

In other conference games Tuesday, Baylor will play Texas at Austin and Texas Christian clashes with Rice at Fort Worth.

Hernandez Is Winner

EL PASO (AP)—Cheho Hernandez of Juarez, former middleweight champion of Mexico, won a unanimous 10-round decision over Charlie Salas of Phoenix, former high ranking welterweight just out of the service, here last night.

All three judges gave Hernandez each of the 10 rounds. There were no knockdowns, however.

Hernandez weighed 158 and Salas 153.

The fight was billed as for the border middleweight title.

Big State To Open With 2 Newcomers

By The Associated Press

Two new clubs will be in the field Tuesday night when the Class B Big State League opens its ninth season.

Port Arthur and Texas City are the newcomers although the latter doesn't yet have a home. It must play on the road until May 14 when a new park will be finished.

Tyler, Waco, Austin, Harlingen and Corpus Christi are back.

Port Arthur will be at Tyler, Waco at Austin, Harlingen at Corpus Christi and Texas City at Galveston to open the campaign Tuesday night.

Howard Green, starting his fifth year as president of the league, forecast 10,000 for the four games.

Green is predicting a sharp upturn in attendance over last year when the all-time low of 465,856 was registered. He bases his forecast on advance ticket sales among the clubs.

The league will play a 147-game schedule and Waco, the leader by a wide margin last year, is again a favorite. Port Arthur, Tyler and Corpus Christi are the other top-rated clubs.

Most of the managers are new. Only George Hausmann of Austin was a skipper in the league last season. The other managers are: Waco, Stann Wentzel; Tyler, Jodie Phipps; Harlingen, Ford Garrison; Corpus Christi, Connie Ryan; Port Arthur, Lou Fitzgerald; Texas City, Malone Sanders; Galveston, Jodie Beeler.

Eagles Meet Buffs In Feature Game

By HAROLD V. RATLIFF
Associated Press Sports Editor

The second round of Texas League openers comes Tuesday night with Fort Worth expecting to again capture the attendance trophy but the big game is at Dallas where Houston's swaggering unbeaten Buffs clash with the unexpectedly tough Eagles.

Houston led in opening attendance in the first round with 7,431 but Fort Worth is expecting 8,500 tonight.

Dallas looks for about 6,000 to turn out. Had the Eagles been able to come home undefeated they might have drawn a lot more than that. But Dallas took a 12-0 thrashing from Beaumont in the second game of a doubleheader last night and is tied with San Antonio for second place.

Houston rolled to its fifth straight victory by licking Oklahoma City 3-1 as young Ted Wieand handcuffed the Indians with only two hits for eight innings. Harry Holtsma finished and didn't allow a man to reach base in the ninth. Jack Cardey walked four straight Houston batters to force in the two runs that won the game in the eighth.

A couple of sparkling pitching jobs highlighted the Dallas-Beaumont double-header. In the opening game John (Red) Murff limited the Exporters to six hits while his mates got seven, but it required an extra inning for the Eagles to win. Bill White's homer with one on in the eighth gave Dallas a 2-0 decision.

In the nightcap, Beaumont won the ball game before the Eagles knew what struck them and polished it off with a 7-run blast in the seventh. Beaumont lashed 10 hits off four Dallas pitchers while Jim Atkins was giving up only five to the Eagles.

San Antonio beat Tulsa 6-2 to win its third straight game. Tulsa was dropping its fourth straight and hasn't yet to win one in the young league race. The Oilers could get only five hits off Hal Hudson and Mike Burack.

Shreveport finally won one, licking Fort Worth 7-1 in a game called after the seventh inning to allow the clubs to catch their trains. Russell Harris, a young righthander just out of the Army, proved to be the first steady pitcher the Sports have found. He allowed the Cats only four hits and would have had a shutout but for wildness in the sixth.

The second round of openers tonight has Houston at Dallas, Beaumont at Oklahoma City, Shreveport at Tulsa and San Antonio at Fort Worth. Oklahoma City and Tulsa expect 3,000 each.

In the first round last week San Antonio drew 3,282, Beaumont 6,272 and Shreveport 3,807.

Brundage Is Loud On Olympic Changes

By GAYLE TALBOT

NEW YORK (AP)—The Olympics boss, Avery Brundage, has come away from Melbourne highly agitated at the lack of preparation for the 1956 games and talking out loud about the possibility of having to change the location at this late date.

From the moment the announcement came that Melbourne had been awarded the great sports festival, we have regarded the choice as the most improbable thing ever done by the athletic fraternity, and they have done some dillies.

This feeling is completely apart from the Aussies' failure to get cracking with the physical setup required to conduct the games, though the last time we were there, early in '53, it already was apparent that trouble and delay were in the offing in that respect. Our feeling, rather, has been one of horror at the thought of Melbourne trying to absorb an olympics crowd, or even the hundreds of newsmen who ordinarily report the event.

Brundage, of course, received the red carpet treatment. Chances are that a hotel suite, with private bath, was waiting for him. We will wish to our dying day that the austere Chicagoan had just dropped off a plane, taxied into the city and upped to one of the charming lady hotel clerks who have a corner on that job in the country Down Under.

If he had gone to any one of Melbourne's two or three fairly modern hosteiries, the odds are about 8-1 he would have found himself back on the city's wide sidewalks within three minutes, feeling numb. If, on the long chance, he did get to sign his name, the odds are at least as great that the Midwest hotel tycoon would have discovered he was sharing a community bath with an entire floor of confirmed bathers.

Having gone through this for a month on our maiden visit to Melbourne with a Davis Cup tennis team—and with a reservation, yet—we are in position to state that it is not an ideal arrangement. It is irksome to pad the length of a corridor and around the corner only to hear splashing beyond the door, and there is a mental hazard which grows with the passing days. The third time it happened to him, Brundage probably would have moved the games to Tokyo.

Though Melbourne has a million population, it can bed down no more transients than the average city of 100,000 in this country. Only one of its hotels—not a large one—boasts a private bath with each room.

ARTHRITIS?

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set.

Limited space prohibits telling you more here but if you will write me, I will reply at once and tell you how I received this wonderful relief.

Mrs. Lela S. Wier
2805 Arbor Hills Drive — 55 P.O. Box 8896
Jackson 7, Mississippi

Arcaro Under Suspension

NEW YORK (AP)—Eddie Arcaro starts serving a 20-day sentence today for two infractions of racing rules but the nation's No. 1 stake rider says he'll be in shape to pilot the highly regarded Nashua in the Kentucky Derby May 7.

"You have to be in condition to handle that horse," said Eddie after being advised the Bowie stewards had set him down 10 days for "careless" riding in the fourth race at the Maryland track Saturday. Previously, he had been suspended 10 days by the Jamaica stewards for the same violation Friday.

Eddie starts serving his Jamaica suspension today. When he completes that sentence, the Bowie suspension will start. That means he'll be able to resume riding May 4.

Eddie said he'll have three days of riding, in addition to exercising horses, before the Derby and added, "I'll get in a couple of races before the big one at Churchill Downs."

Arcaro blamed nobody but himself for the suspension.

"I certainly did deserve both of them," he said. "I don't know what I was thinking about."

He was found guilty of bearing out with Betsann at Jamaica and with Singalea at Bowie. The Jamaica suspension is based on calendar days, the Bowie one on racing days.

Tex-N. M. League Sees Big Attendence

ABILENE, Tex. (AP)—The West Texas - New Mexico League opens its 16th season next week with a new classification, a new member and hopes for an all-time attendance record.

The league has advanced from C to B and El Paso has taken over the franchise operated at Borger since the 1939 season.

League President Hal Sayles predicted attendance of a million for 1955 which would top the 674,465 set in 1949.

The expected upsurge is due to a bargain season ticket offer by most of the clubs this spring.

"We already have more season tickets sold than the league drew in total attendance last year," Sayles said. Abilene, for instance, has sold 2,000 books of 70 tickets which, if used, would assure the club of 140,000 admissions right now. Most of the other clubs have put on similar campaigns depending on volume to offset the reduced tariffs.

Sayles said all the clubs are reporting increases in box seat sales, fence and program advertising—another good omen.

The league openers April 20 will find Albuquerque at El Paso, Clovis at Amarillo, Pampa at Plainview and Lubbock at Abilene.

There will be five new managers and only one pilot, Jackie Sullivan at Plainview, will be back at his old stand. Grover Seitz, starting his 14th year as manager in the league, is back at Pampa after three seasons at Clovis. Frank Benites, last year's manager at Lubbock, will be at Clovis.

The new managers are Eddie Bockman at Albuquerque, Gene (Red) McQuillen at Amarillo, Bob Westfall at Abilene, Ronald R. (Mike) Curnan at Lubbock and Syd Cohen at El Paso. The latter is new to the league but is a holdover pilot of the Texans, who operated last year in the Arizona-Texas League.

The league also came up with a complete turnover in the front offices. The eight club presidents are serving their first year in that capacity in the league. They are Harry Corcoran, Albuquerque; A. F. Madison, Amarillo; Jay Haney, Abilene; Eddie Jones, Clovis; Dick Azar, El Paso; Sam West, Lubbock; Harold Miller, Pampa, and Sam Chapman, Plainview.

Climbing Pyramid Quick Way To Take Inch Off That Waist

By HAL BOYLE

CAIRO (AP)—Leaves from a tourist's notebook:

At last I've done something Napoleon Bonaparte didn't do. I've climbed the great pyramid at Giza, one of the seven wonders of the world.

It's the quickest way I know for a fat man to take an inch off his waistline in 40 minutes. But your afterward.

The great pyramid, one of three at Giza, now a suburb of Cairo, is the largest of Egypt's 80 pyramids. It was the tomb of Cheops some 4,500 years ago. Legend has it that it took a hundred thousand men 20 years to build it.

The pyramid weighs about five million tons, contains more than two million huge stones, covers 13 acres at its base. It originally rose [illegible] now are missing.

My ambition to scale the monument arose after reading that Napoleon, a plump man himself, had refused an invitation to do so during his campaigns here.

While some of his staff officers made the ascent, the bored commander got busy with pencil and paper. When they returned, he told [illegible] pyramids to build a wall ten feet high and one foot thick entirely around France.

Presumably this was Napoleon's way of showing his boys that, while they are working up sweat performing a juvenile feat, he had kept his brain busy doing something useful.

When I told a Cairo acquaintance I wanted to climb the great pramid, he remarked cheerfully:

"You know a number of soldiers were killed during the last war climbing around on these pyramids. They say getting up isn't as bad as getting down. Someone estimated that if you fell from the top of one pyramid, you would bounce only four times before landing in the sand at the bottom."

This cooled me off for two days, then I decided to go ahead anyway. After all, thousands of tourists have made the trip up and down safely through the centuries. My insurance was paid up, and there was this wish to get an edge on Napoleon.

To cut down the burial rate of tourists, the government now insists you have to make the climb with a guide. This was something of a problem in my case. A couple of natives took a look at my stomach and turned me down.

I could read their minds. They knew their ancestors had had enough trouble raising the heavy stones in place centuries ago. Why should they have to bother with rigging up a block and tackle to get down a fat man like me, in case I collapsed like a tired balloon during the trip?

Finally, after I crossed the palm of veteran guide Ahmad Ganm with enough piasters to send his family to mecca, he consented against his better judgment to make the gamble.

We started up at 8 a.m. Ahmad, who has a small gray beard, began loping up the stones like a goat in a nightgown. I followed him, slowly and painfully, hugging each stone as if it were a rich old aunt who might leave me money in her will.

The guide wanted to go faster. I kept halting him to ask questions, discuss the beauty of nature—anything that would give me time to surreptitiously catch my breath.

At last we reached the summit. Hundreds of climbers had scratched their names on the peak, including dear old Kilroy.

The view lifted the heart with a tremendous pulse of exhilaration. It was worth it to be standing there atop the most gigantic monument ever built by man.

But the thrill was dampened by the thought of the climb down. I asked Ahmad who is 59 and first made the ascent at 17 how many times he had climbed the great pyramid.

"More than one thousand times," he replied.

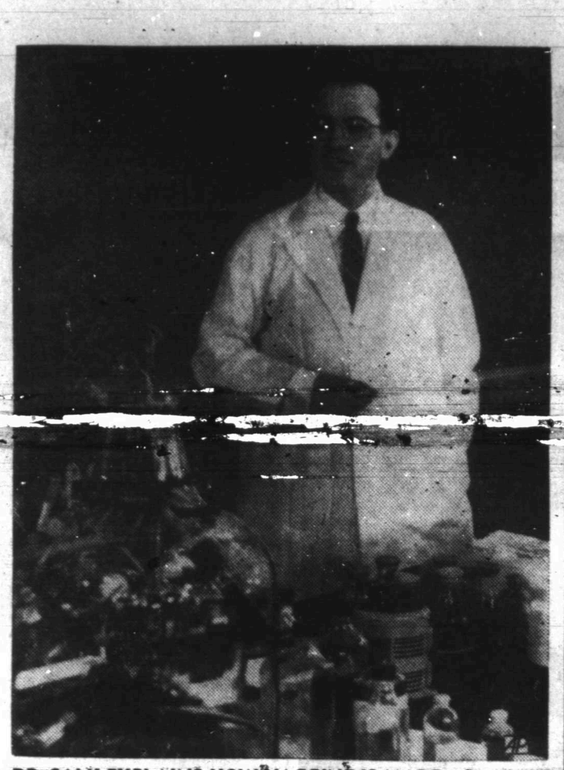

"Ever lose a tourist?" I asked him. Not that I cared, of course. Just to make conversation.

"No."

I felt better. Still I kept thinking of what would happen if I slipped. Only four bounces in a 450-foot fall. I slid most of the journey down on the seat of my pants, a stone at a time, my eyes closed most of the way. Every time I sit down for the next week I'll remember the great pyramid.

THIS IS MAKING A LIVING THE HARD WAY—Evelyn D'Smith, 27-year-old Hollywood stunt girl, tumbles down a flight of 15 steps while doubling for Actress Marliyn Erskine in a CBS television show, "Private Worlds." She got paid $350 for the stunt, which she said was one of the most difficult she's ever undertaken. She emerged with two bruised ankles and a bump on the head.

DR. SALK EXPLAINS HOW VACCINE IS MADE—Dr. Jonas E. Salk takes time out from his work in laboratory at the University of Pittsburgh to tell newsmen how the red-liquid vaccine, which he developed to fight infantile paralysis, is made. He gave a detailed description of the process before leaving for Ann Arbor, Mich., where results of a nationwide test on the success or failure of the Salk polio vaccine are to be made known.

Huge Tax Bill Fails To Pass House Vote

AUSTIN (AP)—Administration efforts to rush a huge state tax bill to an initial vote of approval before midnight last night ended in stunning defeat.

By a 79-68 vote, the Texas House rejected the omnibus tax program calling for increases of one cent a gallon on gasoline and a penny a pack on cigarettes, plus higher beer and wine license fees.

The vote flashed on the board at the front of the House. Proponents and opponents eyed the results in amazed disbelief.

A recess until 11 a.m. today was ordered when the House clock's hands passed midnight and the point of order was raised that a new calendar day had been reached, halting efforts to reconsider the action.

Renewed consideration of the bill was not deemed likely before Friday, but there was the possibility administration leaders might seek earlier debate. Though a bitter defeat for Gov. Allan Shivers and his House lieutenants, stalling of the bill does not preclude its eventual passage in substantially the same form.

The 79-68 vote does not mean majority opposition to increasing taxes, advocates claimed.

Many of the members voting against Rep. Stanton Stone's tax plan had made it clear throughout yesterday's nine-hour debate that they would go along with the revenue-raising bill if it were amended to meet their objections. Speaker Jim Lindsey, who cast the tie-breaking vote on a motion to bring the issue to a direct vote before midnight, told a reporter that this parliamentary maneuver might have been the reason the House balked.

The motion had the effect of cutting off consideration of a number still wanted to offer.

Administration leaders were racing the clock because they knew the hour of midnight would mark a new calendar day which would interrupt consideration of the tax measure. Tuesday is set aside for consideration of proposed amendments to the constitution. That dropped the tax bill down the work calendar, making it pending business behind various constitutional amendments.

Stone didn't want to comment on the House action at first. He said any interpretation he put on it would "just be speculation," but then he added:

"I think we took a calculated risk and lost."

General sentiment of members voting against the omnibus tax plan was that they thought the administration was trying to push the bill too fast.

"It was a mass protest against the desperate effort of the Shivers and Lindsey team to cram a 100-million-dollar sales tax down the throats of the people of Texas," said Rep. D. B. Hardeman, Denison leader of the liberal element in the House.

Rep. Jo Ed Winfree, Houston, lone member to speak against the bill immediately before the dramatic vote, said afterward he interpreted the decision as indicating the "House is against the bill now."

"But what they do later will depend on what the governor can do to the men who voted against him. Right-thinking men won't change

Rep. J. O. Gilliham of Brownfield, an administration supporter in many instances, said rejection of the tax program "verified what I said Monday morning, that they were trying to rush us into something we didn't know anything about."

Rep. W. G. Kirklin of Odessa, originator of the cigarette tax increase feature in Stone's bill, said he was surprised at House failure to give the measure initial approval but considered it far from dead.

Rep. Maury Maverick Jr. of San Antonio, who had denounced the tax bill earlier in debate as "a conglomeration of single-shot sales taxes," was gleeful over the 79-68 vote.

Alexander Graham Bell, inventor of the telephone, was a noted

Adlai Gives Advice But No Big Answers

By JAMES MARLOW

WASHINGTON (AP)—Adlai Stevenson is the latest to give President Eisenhower unasked advice on what to do about defending or not defending the Matsu and Quemoy islands if the Red Chinese attack.

So far as is publicly known Eisenhower hasn't made up his mind.

But Stevenson, making a 4,000-word broadcast last night, never quite got around to saying flatly the islands should or shouldn't be defended. Matsu and Quemoy, unlike Formosa 100 miles offshore, are close to the Red China coast.

Stevenson expressed gloom at the thought of getting into war with Red China over Matsu and Quemoy. But he never directly tackled this No. 1 question:

What should the United States do about stopping attack on the islands if it came tomorrow or next week or any time before this country could carry out some of Stevenson's suggestions for making defense of the islands unnecessary?

Stevenson, who won fame as a wit when he ran against Eisenhower for the presidency in 1952, had no light touches in last night's talk, no lively phrasing, no memorable figures of speech.

This country is pledged to defend Formosa, where Chiang Kai-shek has his main Nationalist forces, but not to defend the tiny islands of Quemoy and Matsu.

Eisenhower's position, as his administration explains it, is to decide if the time comes whether a Red attack on Matsu and Quemoy would endanger Formosa and therefore require American intervention and war with China.

This lack of decision may puzzle the Reds and make them wary of a move that might end in war with the United States. But it has also puzzled Americans and caused the broadest kind of argument.

Some of Eisenhower's own Republicans, particularly Sen. Knowland of California, want the islands defended. Some of Stevenson's own Democrats don't.

So Eisenhower, before he makes up his mind, is enabled to learn what support he can expect at home and abroad on any decision he makes. This may be the real reason he hasn't made up his mind at least publicly.

What was Stevenson's solution for the Formosa problem? One that might take a long time in doing, too long, perhaps, if the Reds attack in these next few months. He proposed:

This country should try to get its allies and uncommitted nations to declare open opposition to war in the Formosa Strait and "stand with us in defense of Formosa against aggression," pending some final settlement.

Businessmen Skeptical Of Metal Hikes

By SAM DAWSON

NEW YORK (AP) — The rise in metal prices when many other commodity prices are weak has businessmen wondering today if metals are pointing to another fling at inflation.

Or are they acting, as they so often have in the past, as a barometer — in reverse? Frequently the metal price pointer has swung around to "fair" about the time that the rain started in other parts of the economy.

Usually metal prices are the laggards. Inflation appeared in the prices of other commodities first. The metals followed belatedly. Often they have taken their biggest spurt after other prices turned soft, and historically, metal prices have held on and been the last to turn down in periods of deflation.

Prices of farm products, on the other hand, often are quick to change — and sometimes forecast it.

In the futures markets, where men contract to buy or sell commodities five or more months from today, prices of most commodities have taken sharp dips in recent weeks. But spot prices — what is paid for immediate delivery — remained pretty firm in March, after dropping in February.

This indicates that traders expect the price picture to change. They are betting that prices will be considerably lower in five months or so.

Copper is an exception. The price for future delivery of the metal is higher in most cases than the going price in the spot market.

Metal producers can point to special reasons why prices of their products have risen of late.

Demand has improved. Auto makers and other durable goods manufacturers have stepped up production of products made of metal. The European industrial boom went merrily along while the United States was having its mild recession. This made a big market for metals abroad.

Copper supplies have been short because of strikes here and in Chile and Africa. Aluminum supplies have been tight because of heavy demand from defense factories, such as aircraft, as well as from the makers of civilian goods.

The metal trades are expecting supplies to stay tight well into the summer. As long as industrial production keeps up its fast pace, prices of metals may stay high for some time to come. But many observers doubt if price strength in metals will rub off onto other commodities.

Hardin-Simmons Exes To Meet Here Monday

A meeting of former Hardin-Simmons University students has been called for next Monday night by Mr. and Mrs. Geln Richardson, both H-SU exes.

Richardson said there are about 100 Hardin-Simmons exes in the Snyder area and that some had been thinking of organizing a Snyder club of the exes.

The meeting will be held at 7:30 o'clock next Monday night in room 118 of the high school building.

Exams By Television

NEW YORK (AP)—Television was used for the first time in testing candidates for elementary school principalships yesterday. Some 270 watched a third-grade teacher conduct a class, then wrote supervisory reports on technique and performance.

Fine Paid By Proxy In County Court

An assessment totaling $48.20, including court costs and fine, was paid by proxy yesterday after a deputy sheriff, Howard Gibbons, drove to Albany to return the defendant to Snyder.

The defendant was Mrs. Eddie Green, about 45, Albany. She entered a plea from Albany to the court here, saying she was guilty of swindling by worthless check. Her fine was $10, the regular court cost was $23.50, and the extra court cost assessed for mileage in the trip to Albany was $14.70. She also redeemed the $3 check given the school cafeteria system.

Soviets Fire Farm Chiefs

By RICHARD R. KASISCHKE

MOSCOW (AP)—Two state-farm directors have been fired and ordered to pay personally for big livestock losses on their farms last winter.

Soviet Agriculture, official newspaper of the Ministry of Agriculture, and Minister of State [illegible]

It is the latest results of the Soviet government and Communist party's purge in inefficient and corrupt managers of collective and state farms.

Nikita S. Khrushchev, party first secretary, has said that 30,000 of the nation's 90,000 directors of collective farms fall in that class and will be replaced by party reliables.

Benediktov has ordered one state-farm director haled to court for prosecution on charges of cheating and negligence. He has warned all others they will be held strictly accountable for any fraud or laxity.

(State farms deliver all their produce to the government. Collectives deliver [illegible] and peasant [illegible] produce for free sale in city markets.)

Soviet Agriculture said the directors of state farms in Penza and Tula provinces in the Russian Soviet Federated Socialist Republic wasted fodder, kept cattle in unsanitary conditions and permitted big losses to the state.

Benediktov decreed that state farm ministers of all 16 Soviet republics must take immediate action to stop livestock losses and make negligent managers pay for them.

CAN'T HEAR APPLAUSE—Mary Max Thompson, above, 22, a newspaper linotype operator from Los Angeles, Calif., could not hear the applause when she was named a beauty queen. She is deaf. The petite brunette was named "Queen of the Deaf" by the 11th annual convention of the American Athletic Association of the Deaf, in session at Los Angeles. She won over 19 opponents.

8-Year-Old Learns To Drive Car Alone

NEW YORK (AP)—While an astonished policeman held the door, 8-year-old Frank Biondo slid from behind the steering wheel of his father's car and announced that driving was no problem at all.

"Why, it was simple," he said, calmly overlooking the fact that he had bumped two cars and passed six red lights during his drive through Brooklyn.

The boy told policeman Albert Leone he was just driving over to see his grandmother. He said he had taken the car keys from his mother's coat pocket. He learned to drive by watching his parents, he said.

He was charged with juvenile delinquency and released in the custody of his mother for a hearing May 17.

Bennington Sails

NEW YORK (AP) — The aircraft carrier Bennington, repaired and completely overhauled, sailed out of Bayonne Naval Supply Depot yesterday on her way back to regular duty. An explosion aboard the Bennington 11 months ago killed 103 men.

Heating, Air Conditioning Outfits Team

By SAM DAWSON

NEW YORK (AP) — The urge to cool off in hot weather is aiding the comeback of an institution of grandfather's day—the hot-air furnace.

The warm-air heating industry is teaming up with the air-conditioning industry. Add in some assists from the all-but-total elimination of coal as a fuel in American homes, the rapid increase in the use of oil and natural gas in the heating units, and the nation's home building boom.

Result: a 45 per cent increase in sales of the warm-air heating industry in the last five years. The American Institute of Management estimates wholesale totals last year reached 183 million dollars on 773,500 units sold.

The present warm-air system isn't too much like the cast-iron furnace into which grandfather shoveled coal, to let the hot air rise through ducts to the upper floors.

Now it's streamlined, made of steel, is equipped with electric blowers and fans, regulated by thermostats, and maybe heated by oil and gas.

And of late, it is increasingly being combined with cooling equipment to serve as an all-year round conditioner of air and controller of temperature in the modern home.

The institute forecasts that the warm-air heaters—which fell out of favor for a time—will stage an even greater comeback in the next 10 years. It foresees a continuing sizable market for new homes, in almost unlimited replacement markets for the outmoded and inadequate or faulty installed furnace units."

"Old at 40, 50, 60?" —Man, You're Crazy

Forget your age! Thousands are peppy at 70. Try "pepping up" with new, higher-potency Ostrex Tonic Tablets. For weak, rundown feeling due solely to body's lack of iron which many men and women call "old." Get Ostrex for pep, vigor, younger feeling, today. "Get-acquainted" size 50¢. At all druggists.

Fire Truck Wrecked After False Alarm

OAKLAND, Calif. (AP) — John Cox's headache turned out to be one for his whole fire station here last night.

Cox, a tillerman on a hook and ladder rig, obtained permission from his captain to step across the street to get some aspirin.

While he was in the drugstore, an alarm rang.

Away went the book and ladder truck—without a tillerman.

At the first corner, the wildly swinging ladder trailer bashed into an automobile, smashed the car, part of the fire equipment and was itself disabled. It had to be towed back to the station.

Fire Chief James Burke ordered an investigation to determine why no one noticed there was no tillerman when the truck took off.

It was a false alarm.

Some lizards are difficult to distinguish from snakes.

Asia Army To Be Discussed At Meet

MANILA (AP)—The feasibility of organizing military units from the eight Manila Pact nations into a Southeast Asia collective defense army will be discussed this month by the SEATO military committee. Philippine army sources said. The United States, a pact member, is opposed to the plan.

More than 600 planes arrive from or depart to foreign countries at U.S. airports each day.

EXTRA BONUS

If Winning Entry Is Deposited With One Of Merchants Below!

Read These EASY Instructions

Send In Your Completed Puzzle!

Here's How To Play It....

SOLVE the clues across and down as you would any other crossword puzzle.

CHOOSE from each clue the word you think best fits the definition.

LETTER the answers in the blank spaces provided in the puzzle until all the white squares have been filled in.

Here Are The Rules:

(1) Anyone may enter except employes of The Snyder Daily News and members of their family.

(2) Entries must be made in crossword puzzle form. They can be on the form printed here for your convenience or on a hand-drawn facsimile the same size.

(3) A cash prize of $250.00 will be paid for the correct solution. If more than one correct solution is received, the prize will be equally divided among the winners. If no correct solution is received, the week's prize will be added to the award for next week's contest.

REMEMBER: There is only ONE correct solution and only a correct solution can win. There is only one answer that in the decision of the judges is the BEST word fitting the definition in each clue. The decisions of the judges shall be final and all contestants taking part agree to accept those decisions as a condition of entry.

(4) After you have filled in the puzzle, clip it evenly and deliver to The Snyder Daily News to arrive before 5:30 P.M. Wednesday or post marked midnight Wednesday.

Any entries received after the deadline, whether by mail or hand delivery, will be declared ineligible.

This Week's $250 Clues

CLUES ACROSS:

1. Often lives in the ground.
6. In wartime, a dispatch rider might possibly need to ——— his machine with great care.
7. Many children resent being ———.
9. When a man's ——— dressed, he may be annoyed if his wife insists on him changing his shirt.
