Festival Boosts Ambulance Fund

With a successful Fun and Food Festival and auction last weekend raising about \$9,700, the Lynn County Hospital Auxiliary Tuesday voted to donate another \$10,000 to a fund to buy a new ambulance for the county.

The auxiliary met Tuesday in the hospital cafeteria with 11 members from the Emergency Medical Service (EMS) also present.

The amount donated Tuesday is in addition to another \$10,000 that the Auxiliary earmarked for the ambulance fund in April. "These donations bring the total amount in our ambulance fund up to about \$25,000," said Billy

Tomlinson, EMS volunteer. The new ambulance will cost about \$45,000. "We are greatly indebted to the Auxiliary for its support," Tomlinson added.

John Brooks, Hospital Administrator, added his appreciation for the Auxiliary, stating, "The Auxiliary has supported our EMS in the past with tuition costs for our EMS volunteers' training and with almost \$7,000 worth of equipment and donations for our ambulances. The Auxiliary's total expenditures for our hospital and ambulance now come to over \$70,000."

"The Auxiliary is in turn indebted to our community," Mrs. Melba Thomas, Auxiliary Pres-

ident, responded. "Our fundraiser's success depends upon the support and generosity of the citizens of Lynn County. We especially appreciated the willingness of the EMS volunteers to help us with the auction."

In other business, the Auxiliary discussed the possibility of either re-upholstering or replacing about six of the chairs in the hospital rooms.

He ended by saying that a safe and inexpensive weapon that can be carried in a purse, kept in a car, and beside a bed is a hammer that could be used to deter an unwanted intruder.

The PTO officers met Thursday at the elementary school. Among the items of business discussed were the Garage Sale, a lemonade stand at the Fourth of July picnic, school supply packets for elementary, and a Halloween Carnival. No action was taken on any of these except the garage sale as they were brought up for discussion only at this time.

The possibility of forming a Parent Volunteer for next year was also mentioned. These volunteers could assist in preparing materials, making bulletin

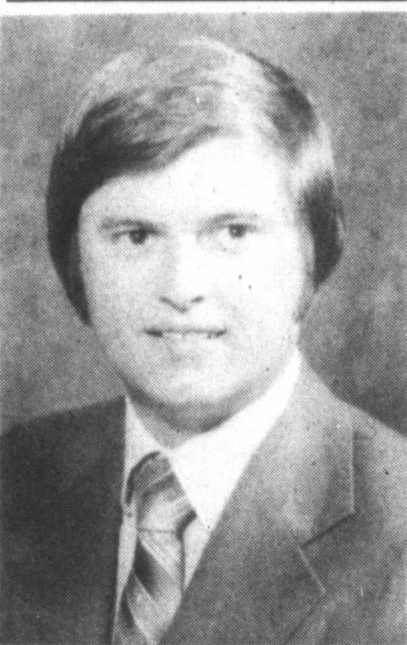

boards, helping with special projects, etc. These plans will be worked out with the help of Mr. Dockery and voted on at a later date.

The PTO Garage Sale and Scout Bake Sale went well Saturday. Many visitors attended the event in the school cafeteria and enjoyed looking over the items for sale while the younger visitors participated in the face painting, the manicures, and the beaded bracelets and key chains.

The PTO took in over \$200 while each of the Scout troops earned money for T-shirts and summer camp. Thanks to everyone who worked and bought to support the PTO.

The Girl Scout troops are still looking for leaders for next year. Anyone willing to help with any age level is encouraged to call 628-6330 for more information. This is for girls from kindergarten through sixth grade.

Letter To The Editor

I'd like to make a plea for everyone to be at the reunion June 25 so we can have a nice visit again, because when you are so near a hundred years of age the (I'll be 76, Dec. 15) chances are a lot of us will not be there next year. Aren't we on borrowed "time" after (70)?

I have traveled coming to the reunion since 1969 about 56,000 miles "more" than twice around the world. I feel I should get an award for the most miles traveled coming to the old settlers reunion. I don't believe "anyone" can beat these miles. If they have let's hear from them, O.K.?

Last time I heard of Jeffie Faye "Sutton", Odell, Milligan of San Simon, Ariz., she had terminal cancer. Plus, Burl Taylor of Modesto, Calif., he was terminal too. Jeffie Faye went to school same time I did at New Home in the 1920's. Burl lived at Joe Stokes School District at the same time.

I'll see you in June at the reunion June 25.

Sincerely yours,
Raymond Griffin

A Salute to Honoring Heritage

It is said you can take the boy off the farm, but not the farm out of the boy. The same is true with any heritage in which a youth grows up and pursues a career in other climes. The decision leaves a void, often causing occasions of remembrance of good times.

Some individuals do something more than remember. On their own time, they return to a ranch, for instance, at roundup time to ride, rope and brand calves as they once did.

Farm backgrounds may draw men and women back "home" for planting times and harvests. The same is true for those growing up in orchard settings. When the fruit comes on, you'll find them on ladders plucking away.

Ordinarily you might see these people as bank officers, owning a retail store, or in some other white collar capacity. The heritage urge is so strong they show up annually to help someone and never ask any wages, maybe taking some produce or fresh meat as pay.

The rural scene is easiest to observe these folks, but others do the same to match youthful years, spending vacations and off time to fulfill the urges.

This unusual laborer is a welcome addition in times of heavy workloads and we applaud those honoring their heritage.

News From ...

Tahoka Pioneer Museum

The Tahoka Pioneer Museum Board of Directors met Monday, May 9, at noon in the Board Room of the Museum.

Mabel Gurley, president, announced that the election of officers in June will require the Nominating Committee to present a slate of officers, and also a list of names with regard to new directors.

Winston Wharton reported that the roof repairs have been completed and inquiries are being made as to what might be done to remedy the rust spots that have developed on certain areas of the steel structure.

Auda Norman reported that the "Doll" display is in need of more dolls to adequately show what little girls played with in the old days. Dolls on loan would be especially appreciated.

Donor plaques have been added to the small farm equipment display in the garden area just west of the new Frank Hill Memorial Hall. The Sesquicentennial Plaque has been installed acknowledging participation in the Wagon Train celebration in 1986. The small garden east of the building is beginning to bloom and geraniums from Dr. K. R. Durham will brighten many spots in the garden.

Mel Leslie requested use of the Museum to have a meeting of the Red Raider Club in the near future and the request was approved. The Panhandle-Plains Historical Review, published the History of Lynn County by Dr. Don Abbe, and a few copies are for sale at the Museum.

Members present were Mabel Gurley, Lottie Jo Walker, Auda Norman, Madeline Hegi, Mel Leslie, Winston Wharton, K. R. Durham, Bill Craig, Melvin Burks and Mildred Abbe. Absent were Mary Louder, Jim Solomon, Weesie Carroll, Sonny Roberts and Maurice Huffaker.

Applications For Emergency Farm Loans Accepted Here

Applications for emergency farm loans for losses caused by freeze, hail, rain, flood, high winds and lightning March 1 through July 31, 1987, are being accepted at the Farmers Home Administration (FmHA) office located in Tahoka, FmHA County Supervisor Curtis Barlow said today.

Lynn County is one of 39 in Texas recently named by Secretary of Agriculture Richard

E. Lyng as eligible for loans to cover part of actual production losses resulting from the weather last year.

Barlow said farmers may be eligible for loans of up to 80 percent of their actual losses or the operating loan needed to continue in business or \$500,000, whichever is less. For farmers unable to obtain credit from private commercial lenders, the interest rate is 4.5 percent.

"As a general rule, a farmer must have suffered at least a 30 percent loss of production to be eligible for an FmHA emergency loan," Barlow said. Farmers participating in the PIK or Federal Crop Insurance programs will have to figure in proceeds from those programs in determining their loss.

"Applications for loans under this emergency designation will be accepted until Dec. 29, 1988, but farmers should apply as soon as possible. Delays in applying could create backlogs in processing and possible over into the new farming season," Barlow said.

The FmHA office in Tahoka is open from 8 a.m. to 5 p.m. Monday through Friday.

Adam Holland placed third in the medalist division out of 57 boys.

Jodi Williams and Misti Lobban, both played well in the girls' division.

Jodi Williams was third and Misti Lobban was 7th out of 27 girls in Medalist.

Boys teams score 9 holes District Standings: 1st Seagraves-A-186; 2nd Morton-202; 3rd Tahoka-212; 4th Crosbyton-237; 5th Seagraves-B-244; 6th Ralls-245; 7th Shallowater-251; New Deal and Spur- No Team.

Without clouds and other constituents of the Earth's atmosphere, the surface of our planet would reach a temperature of 176 degrees at the equator by day.

Students Have Successful Campaign

Students in Tahoka Elementary were recently given the opportunity to participate in an elementary school-wide effort. The goals, which the school hoped to accomplish, were two-fold:

1. To purchase something for the school that the students could say that they personally had a part in giving the school.
2. To develop the personal pride of the students in themselves and their school by letting them see that through their own personal effort that they can improve the school.

The campaign ended April 20 very successfully with Tahoka Elementary making a profit of \$1813.40.

The school administrators and teachers at Tahoka Elementary would like to thank the students and parents for their support in this endeavor. The top selling person on the K-3 building was Kristy Parsons. She won a BMX bike as the top seller.

The top selling classes were Mrs. Mackey's class and Mrs. Adams class. These two classes will receive \$40 each for a party. Cherrydale farm contributed a VCR to the school. Each child earned prizes if they sold at least a dollar's worth of merchandise. Those prizes were distributed

Monday and Tuesday.

The top selling person in the 4-5-6 building was fourth grader Angie Garcia. She won a ten-speed bike as the top seller in the upper grades.

NOTICE BY TEXAS DEPARTMENT OF HEALTH

The United States Environmental Protection Agency (EPA) sets drinking water standards and has determined that lead is a health concern at certain levels of exposure. There is currently a standard of 0.050 parts per million (ppm). Based on new health information, EPA is likely to lower this standard significantly.

Part of the purpose of this notice is to inform you of the potential adverse health effects of lead. This is being done even though your water may not be in violation of the current standard.

EPA and others are concerned about lead in drinking water. Too much lead in the human body can cause serious damage to the brain, kidneys, nervous system, and red blood cells. The greatest risk, even with short-term exposure, is to young children and pregnant women.

Lead levels in your drinking water are likely to be highest:

- (1) If your home or water system has lead pipes, or
- (2) If your home has copper pipes with lead solder, and
 - * if the home is less than five years old, or
 - * if you have soft or acidic water, or
 - * if water sits in the pipes for several hours.

Ways to avoid potential lead exposure are to "flush" faucets before use and to use cold water for drinking and cooking. You may wish to have your home tap water tested for lead content by a competent laboratory. You may also wish to check to see if lead pipes, solder, or flux were used in your home plumbing.

Grassland Water Corp. does not have a high lead content. This notice is required by EPA. For additional information, contact Grassland Water Corp., State ID#1530005, James Aten, Pres., Rt. 3, Post, Texas 79356. 19-1tc

For the cards we received, the food you prepared and brought to us, the flowers and every act of kindness, we are so grateful. As the kid's latest saying goes, "YATYAS - You Are Tahoka, You Are Special." God bless each and everyone of you.

BSE: DETECTION MADE EASIER

The American Cancer Society encourages all women over the age of 20 to examine their breasts once a month. Regular breast self-examination (BSE) is important because breast cancer symptoms may develop between annual clinical breast examinations or regular mammography. Through regular self-examinations, women become familiar with their breasts and may more easily recognize changes. BSE can help detect breast cancer at an early, highly treatable stage.

NOTICE BY TEXAS DEPARTMENT OF HEALTH

The last chemical analysis report of a sample of water collected from the water system indicated a fluoride content of 5.7 mg/l and a selenium content of 0.019 mg/l. These levels exceed the maximum limits of 4.0 mg/l for fluoride and 0.01 mg/l for selenium as set by this Department's Drinking Water Standards. The fluoride level may cause mottling of the teeth in children of 14 years of age and younger who use this water regularly. Your customers must be notified, quarterly, of this potential problem and a copy of this notification must be submitted to the Department for our files.

For additional information, contact Grassland Water Corp., State ID#153005, James Aten, Pres., Rt. 3, Post, Texas 79356. 19-1tc

PROTECT THE HANDS

Rubber gloves are not the best answer when doing dishes or other chores that expose the skin to irritants. In fact, 1/4 of all occupational dermatitis cases are caused by allergy to one of the chemicals in rubber. Wear plastic gloves instead, and buy them in a size larger to allow for cotton gloves inside to protect your skin from the dampness of sweating.
