

Truman and Taft in Sharp Dispute Over Labor Bill

Pampa News

VOL. 47—NO. 226 (14 Pages) PAMPA, TEXAS, FRIDAY, FEBRUARY 4, 1949

Cardinal Asks That Letter Be Considered Null and Void

BUDAPEST, Hungary (AP)—Josef Cardinal Mindszenty recanted in court today a letter he wrote before his arrest saying that if ever he admitted his guilt to government charges against him it would be "because of weakness of the flesh."

The cardinal, being tried on treason, espionage and black market charges to which he has pleaded partly guilty, rose from his seat in the dock and declared:

"I wrote this letter sometime in November, 1948, with instructions that it be forwarded to the bishops and archbishops of Hungary on the day I was arrested."

"That is what happened. Now I want to state that I see things differently from then when I drafted this letter, and I want to repeat what I said yesterday—that I regret my error. 'I want it to be considered that that letter is null and void.'"

As today's proceedings opened, Duke Paul Esterhazy, one of the richest men in Hungary before the war, entered a guilty plea. The duke was the fourth defendant to enter a plea. Six men are on trial with the cardinal, who was accused by the government prosecutor yesterday of seeking American assistance to help him flee the country by plane in order to escape trial on charges of treason, spying, plotting against the government and engaging in black market money deals.

The court said the cardinal, 66-year-old Roman Catholic primate of Hungary, admitted writing a letter to U. S. Minister Sheldon Chapin asking him to furnish a plane for the escape and offering \$4,000 for the pilot.

The cardinal admitted partial guilt yesterday in his defiance of the Communist-dominated state, but declared he had not plotted to destroy the country's "democratic system"—the most serious charge against him.

Esterhazy said today he considered the cardinal "head of the Hungarian royalists."

Ondras Zakar, the cardinal's secretary, pleaded "partly guilty" and Professor Justin Baranyay pleaded innocent yesterday.

The other defendants are the Rev. Miklos Nagy, secretary of the lay organization Catholic Action, the Rev. Bela Ispenyi, a priest, and Luszio Toth, a journalist.

Cardinal Mindszenty was allowed to put one question to Esterhazy. It was had the cardinal or any member of his court ever requested financial support from the duke?

Esterhazy's answer was "No." The spare cardinal bore him.

Socialite Has Armed Guards At Apartment

NEW YORK (AP)—A former Philadelphia socialite has barricaded her lavish Manhattan apartment with armed guards for 11 weeks to prevent her husband from recapturing it, one of the guards said today.

Mrs. Edith Maria Reuss Lord, 41, the socialite, could not be reached but one of the detectives on guard told a reporter:

"Of course, it's harricaded. I'm one of those doing the barricading."

The Daily News, in a copyrighted story, said "The battle of the flats" was disclosed in articles filed by Mrs. Lord in a separation suit against Robert P. Lord, 45-year-old attorney and manufacturer.

Mrs. Lord, the newspaper said, "recaptured" the apartment by force last November after she, herself, had been barred from it for two months. Since then she has lived there amid barking dogs and burlly bodyguards to foil possible counterattacks, The News said.

Girl Scouts Plan Activities

Sixteen Scouters met at the Scout House yesterday to discuss the art in preparation for the final baking.

The Girl Planning Board will meet at 4 p. m. today at the Scout office in the City Hall to decide on a name for the Juliette Law Fair, which will be held March 12 to commemorate the 37th anniversary of Girl Scouting. Mrs. E. A. McLennan, Mrs. Glenn Radcliff and Mrs. K. E. Thornton will meet with the girls.

A fifth grade troop will be organized this afternoon at Som Houston School. Mrs. I. T. Goodnight, program chairman, and Mr. Thornton will have charge of the meeting.

Members of the executive board of the Pampa Girl Scout Association met with A. C. Troop, president, this morning to make plans for the Girl Scout anniversary.

Need Lamps? Get them at Lewis Hardware Co.

Navy to Play Second Fiddle To Air Force

WASHINGTON (AP)—The Navy got the word today that it probably is going to have to play second fiddle to the Air Force in Congress.

Indirect notice of this attitude came in the form of "so-what?" reaction among lawmakers to an announcement by Secretary Sullivan that the Navy will have to lay up 72 ships and cut its strength 30,000 men to keep with President Truman's new budget.

This was in direct contrast to the strong sentiment that has grown up in Congress to push Air Force developments far beyond the 48-group setup proposed by Mr. Truman.

Chairman Inson (D-Ga.) predicted that the House Armed Services Committee will approve Monday a bill authorizing a 70-group air force.

Sullivan's statement that three aircraft carriers and 12 cruisers, plus lesser ships, will have to be put in moth balls was looked on as a roundabout bid for more funds than the \$4,674,000,000 set up in the budget.

Two Democratic members of the (See NAVY, Page 2)

Boy Scout Week Slated Feb. 6-12

Since the 38th anniversary of Boy Scouting will be Feb. 8, Mayor C. A. Huff has proclaimed the week Feb. 6-12 as Boy Scout Week.

The annual drive for funds of the Adobe Walls Area Council will get underway Monday morning under the chairmanship of L. N. Atchison. The Advance Gift Committee already has started into operation.

Whereas, Feb. 8, 1949 is the 38th anniversary of the founding of the Boy Scouts of America; and whereas, Congress has a program for all the boys of America; and whereas, the program has affected the lives of 15,500,000 American boys and men since 1910; and whereas, the active enrollment of 2,200,000;

I, C. A. Huff, Mayor of Pampa, do hereby proclaim the week Feb. 6-12 as Boy Scout Week and urge citizens to recognize the patriotic character of the service being rendered to Pampa by the Scout leaders, and to help in all possible ways to further this wholesome youth program.

(Signed) C. A. Huff Mayor of Pampa

Jimmie McCune, chairman of the Employee Solicitation Committee, presided at a banquet Wednesday night at the Court House Cafe. Seventeen superintendents from Cabot, General Atlas, and Texas Carbon Companies and Phillips Petroleum Company were represented.

Superintendents were issued kits to collect contributions from the 975 employees they represented. Other oil, gas and carbon companies will be contacted individually. McCune said.

Attending the banquet were: Charles Clark, Jonnie Brown, Howard Cody, E. J. O'Brien, Roy Gibson, Bill Loving, Calvin Whaley, Ralph Irvin, A. J. LeFevre, J. B. Steed, A. J. Montgomery, G. M. Singleton, R. S. Watson, J. L. Bevington, T. E. Umphress, Lawrence Smith, R. H. Bradford and Paul Beisenherz, executive of the Adobe Walls Area Council.

Old Couple Reunited, Separated

BRISTOW, Okla. (AP)—The 65-year-old bride of Bristol and the husband she found 42 years ago have decided to go their separate ways at least for the present.

Mrs. Ella Mershon said today it seemed best because neither she nor Barkeley Burris, 72, had much financial means.

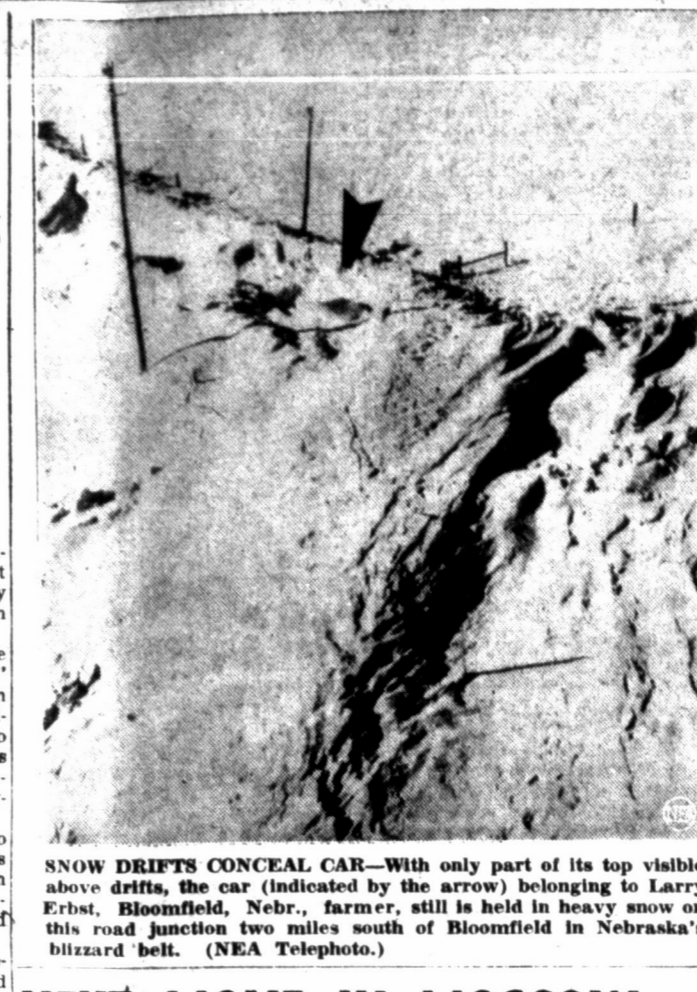

But she hopes—as Burris expressed it as he left by train in Plainview, Texas, that "something may turn up" to help them.

"We talked it all over," said Mrs. Mershon. "I want to do everything in my power to help him. But am a widow without much means and he is a Texas state pensioner. He would lose his \$50 a month if he moved to Oklahoma."

"He said as he left today 'I hate to go back without you.' But I didn't see any other way. I talked with the postmaster in Plainview and he said they all liked Mr. Burris and would help care for him."

Mr. Burris said rent was awful high down here. He was given a few dollars for a lunch. And perhaps later on I will talk it over again. I'm awful sorry about this but under the circumstances it seems the only way out."

Earlier this week Mrs. Mershon said she thought she would remarry Burris. However, under (See OLD COUPLE, Page 2)

SNOW DRIFTS CONCEAL CAR—With only part of its top visible above drifts, the car (indicated by the arrow) belonging to Larry Erbst, Bloomfield, Nebr., farmer, still is held in heavy snow on this road junction two miles south of Bloomfield in Nebraska's blizzard belt. (NEA Telephoto.)

Next Move in Moscow Debate Up to Kremlin

WASHINGTON (AP)—The next move in the Moscow-Washington debate over how to end the cold war is now clearly up to the Kremlin, diplomatic authorities agreed today.

Two possible major lines of Soviet counter action were foreseen here:

1. A new blast at the United States for rejecting Premier Stalin's so-called "peace" statements of last Sunday. This might be coupled with the familiar Russian argument that while Moscow is improving in East-West relations the United States is maneuvering toward war.

2. Some specific proposal for a settlement of one or more outstanding issues along the lines laid down by President Truman and Secretary of State Acheson.

Together these two American leaders have slammed shut the door on any kind of direct meeting between Mr. Truman and Premier Stalin for the purpose of making a "pact of peace" or trying to settle between themselves issues involving other countries— which mean all the real issues included in East-West conflict.

However, both the President and his secretary of state have left the way open for the Russians, if they want to end such struggles as that over Berlin, to come forward with proposals for action through established diplomatic channels.

At his news conference yesterday Mr. Truman declared that the United States would not go outside the framework of the United Nations to enter into talks with Russia or other powers on the world situation.

At the State Department this remark was interpreted to mean not only such U.N. agencies as the Security Council and General Assembly. It also would include other related agencies such as the Council of Foreign Ministers whose responsibility for handling the problems growing out of World War II is indirectly recalled. (See NEXT, Page 2)

John C. Childers Dies Suddenly

John C. Childers, 53, died suddenly in his room at the American Colony hotel yesterday, following a short illness.

Childers, who was born in Lewistown, Ill., on Aug. 30, 1895, came here from El Paso and had been in town about a week. He was a World War I veteran and a member of Elks lodge No. 1632 in Cut Bank, Mont.

His survivors include a daughter, Mary Elizabeth Childers of Pampa, and a sister, Marie Childers of San Francisco, Calif. Funeral arrangements, under the direction of the Duenkel-Carroll Funeral Home, are pending.

'Fighting Hearts' Award Made at Football Banquet

The Pampa Harvester football team was honored at a football banquet last night, sponsored by the Chamber of Commerce and given in the High School cafeteria. A host of guests were present, and movies of the Orange Bowl football contest were shown. But the high point of the evening was the honoring of a Pampa Harvester with the "Fighting Hearts" award, given for the first time this year.

Coach Tom Tipps, in making the presentation, stated that the award will be given annually to the boy with the most spirit and the most fight, to the one who had been the biggest inspiration to the team all season long, whether on the practice field or during a game. He stated that every star must have a fighting heart to attain greatness, and as the coaches' selection for the boy with the fighting heart he named Pete Cooper, a Junior, reserve half-back.

Master of ceremonies for the evening was G. S. "Pinkie" Vineyard. The invocation was given by Rev. Ed Henshaw. Dinner music was furnished by Ken Bennett's Combo, special music was offered by the Squeaky Door Quartet and the special guests, the Harvester coaches and the Harvester were introduced by Lieb Langston.

The guest speaker, Eck Curtis, backfield coach of the Texas Longhorns, was introduced by Dr. Calvin Jones. Curtis told of how Texas was chosen for the Orange Bowl, how they trained for the game, and of the future prospects for the Longhorns. He gave many fine tributes to Randy Clay and

'Inherent Powers' Center of Debate

WASHINGTON (AP)—A sharp new dispute between President Truman and Senator Taft (R-Ohio) pointed up the battle over the administration's labor bill today.

Mr. Truman started the ball rolling by saying he has ample authority as President and commander-in-chief to halt strikes endangering national health or welfare without any additional power in the new bill.

Taft retorted that even the suggestion the President has such power "is a threat to the liberty of the people."

The President, at his news conference late yesterday, was talking about the "inherent powers" which Attorney General Clark ascribed to him for dealing with critical work stoppages.

The administration bill would repeal the Taft-Hartley law and restore an "improved" Wagner Act. That would wipe out the Taft-Hartley provision for 80-day court injunctions to block "national emergency" strikes.

Clark has told Congress he believes the President still would have "exceedingly great" inherent powers to meet the situation, despite the fact there is no provision for court orders in the administration bill. That measure provides instead for a 30-day cooling off period, while emergency boards try to work out a settlement.

Mr. Truman agreed with his attorney general that the bill is a "pact of peace" and that it would afford him a "place to fight."

Then Taft, at a session of the Senate Labor Committee last night, took sharp issue with the President. He said:

"In time of peace, . . . there is no power without a statute to get an injunction."

"The very suggestion that such a power exists is a threat to the people of the United States."

"There is no authority anywhere to create a prima facie case of such powers on the part of the President."

Before the White House conference yesterday, Taft had made it plain that he did not agree with Clark.

Arthur Goldberg, CIO general counsel, was on the witness stand when Taft made his remarks.

Pontiac Will Show Latest Models Here

The Coffey Pontiac Agency, formerly at 220 N. Somerville, will formally open for business in its new building at the corner of W. King and Gray at 9:30 a. m. tomorrow.

The opening ceremony, led by a prayer by the Rev. E. Douglas Carver, pastor of the First Baptist Church, will be broadcast over Radio Station KPON at 9:30. A second broadcast will be carried at 3:30 p. m. tomorrow.

First local showing of the new 1949 model Pontiacs will be held in the new showroom. The new Pontiac is offered this year in two series—Chieftain and Streamliner. Both are in standard or deluxe models.

Included in the all-new repair and service department, is a Dinks spray booth, reported to be the only one of its kind in this part of the country. I. C. Coffey, owner of the agency, said.

The spray booth can handle a whole automobile at once. "All you have to do is drive up, in it," Coffey said. "It is completely ventilated and dust-proof."

The new Coffey building, on a 75-by-140-foot lot, contains more than 9,000 feet of floor space. Its design incorporates some of the most modern features for an automobile show room and service department. The building was begun Sept. 1, 1948.

Bond Set in Assault Case

Bond of \$2,500 was set yesterday afternoon by Justice of the Peace D. R. Henry on a warrant for Ronnie Timmons, charged with assault with intent to murder, shooting of Tommy Lee Johnson Monday night in the Flats.

The charge was lodged by District Attorney Tom Braly yesterday after authorities decided charges it was a felony rather than a misdemeanor.

Samuels is accused of shooting Tommy Lee Johnson, of the Flats, in the heel during a fracas in Samuels' house.

Judge Henry also set bond at \$2,500 for Ronnie Timmons, 25, former teenager, charged on two counts of forgery.

Timmons was picked up by Constable Bill Langley early Wednesday night in the 200 block N. Cuyler.

Officers said this morning the 18-year-old Timmons admitted forging a \$65 check on Floyd Bull, Lefors ranch, and a \$40 check on John T. Sims, east of town. Timmons has no previous \$40 check in his possession, when Langley nabbed him, officers said.

Rites Pending At Panhandle

PANHANDLE (Special)—Mrs. Nancy Elizabeth Howell, 75, died Thursday afternoon in her home in Panhandle following a stroke.

Mrs. Howell, who was born July 19, 1873, in Springfield, Mo., came to Panhandle in 1925. She was a member of the Church of Christ.

She is survived by two daughters, Mrs. M. Neal of Panhandle, and Mrs. Bonny Watson of Houston; by two brothers, Tom and Will Back of Dallas; by a sister, Mrs. Allen, Stowell of Dallas; and by four grandsons, and granddaughter, and four grand-grandchildren.

Funeral services are pending.

CARDINAL

(Continued from Page 1)
 fore it reached Chapin.
 The letter, dated Jan. 26 and introduced as coming from Cardinal Mindszenty, stated that his trial would begin on Feb. 3 and that he would be accused of selling "secrets" to the Americans.
 Before the letter was produced

Judge Olthys, one of the five judges of the People's Court, had asked the cardinal whether he had tried to escape. The cardinal at that time asked that he not be required to answer the question.

Minister Chapin has been named in the government's yellow book on the Mindszenty case as one with whom the cardinal had anti-government dealings.
 In his questioning yesterday, the cardinal acknowledged he had regretted writing to foreign diplomats and churchmen in an attempt to have the ancient crown of Hungary's kings lodged in Rome instead of Budapest, and promised that in the future he would bow to the sovereignty of the Hungarian republic.

This came after he had admitted writing a letter to the minister of justice offering to withdraw from his high office for a time in order to allow the Hungarian bishops to make peace with the state the Vatican permitted. He also promised not to interfere with the Vatican to prevent a settlement.

 after they are brought to the barn. The nurse cows may be kept in pens adjacent to the barns.
 Each exhibitor will be limited to two entries in the individual classes. Two seniors and two juniors, or one junior and one senior may be shown.

Only steer calves may be shown and must have been born on or after Oct. 1, 1947. Proof of age may be required in case of protest. Each calf will be weighed on scales designated by the superintendent. The weight will be used to determine the class of the animal. The tolerance is less than three percent for shrinkage will determine the sale weight.
 The two classes of the division will consist of a junior and senior class. The weight of juniors must be between 650 and 800 pounds and the weight of the seniors will be 800 pounds and over.

Prizes in each division will range from \$18 for first place to \$4 for eighth place. A trophy will be furnished to the grand champion and reserve champion.
 In the fat pig division all pigs must have been the property of the exhibitor and have been fed by him throughout a feeding period of not less than four months.

Each exhibitor will be limited to two entries in the individual classes. All pigs must have been farrowed after Aug. 15, 1948. The weighing of the pigs will be done in the same manner as the calves. The two classes in the fat pig division will have a first prize of \$18 to a fifth prize of \$1. The weight of the pigs in the junior class must be between 150 to 220 pounds and the weights in the senior class must be between 221 and 260 pounds. Trophies will be furnished to the grand and reserve champions.

CHILDLESS—Mrs. Gertrude Brucke, 21, who will be sterilized by a court order as a result of bearing her baby son to death in a fit of temper, holds another son, Donald, 31 months old, at the time of her arrest in Los Angeles, Calif. Her unborn child and Donald will be adopted by foster parents according to court order. (NEA Telephoto.)

MARTIN

 organizing in the United Nations Charter.
 Mr. Truman also declared that Stalin's Sunday statements had been completely and fairly answered by Acheson after consultation with the President.
 Acheson took the position in a news conference statement Wednesday that the United States and Russia were already committed to avoid war or the threat of force in their relations with each other or other nations. He said the commitment is in the United Nations Charter and implied that any new pact along the same line would be meaningless.

OLD COUPLE

(Continued from Page 1)
 Oklahoma law their first marriage still is legal.
 The couple was accidentally separated in 1906. Each later believed the other dead. Mrs. Mershon remarried and raised a family.
 Mrs. Mershon's second husband is dead.
 Burriss learned she still lived when he met her brother, Frank Owens, recently and he came by bus from Texas to see her on Tuesday.
 Mrs. Mershon said of their meeting:
 "I don't think I would have recognized him if I hadn't known he was coming. He has grown very old."

Man Is Fined for Reckless Driving

County Judge Bruce Parker this morning imposed a fine of \$20 and costs on M. E. Davis, Pampa, for reckless driving after Davis pleaded guilty to the charge.
 Testimony in the case revealed that Davis, traveling north on S. Cuyler yesterday, struck the front of a parked truck owned by W. B. Vandover, Pampa, causing approximately \$50 damage to the truck and an almost equal amount to the Davis car.
 There were no injuries.

ROYALL TO TOKYO

TOKYO—U. S. Army Secretary Kenneth Royall returned to Tokyo tonight for a "brief" meeting with Japan's economic situation by Gen. Douglas MacArthur's Staff.

Rogers and Evans Back Together

By **BOB THOMAS**
HOLLYWOOD—(AP)—Back together again!
 Not Ginger Rogers and Fred Astaire.
 This time it's Roy Rogers and Dale Evans.
 Republic's famed cowpoke and his wife are emoting together again for the first time in two years. The horse opera is called "Susanna Pass" and as usual, there'll be no kismet or things like that.

The Rogers separated professionally when they joined maritally. In three years, they had made 21 pictures together and were the top team on the sagebrush circuit. But when Republic Boss Herbert Yates heard the widower Rogers was a fan to marry up with his leading lady, he called the film team off.
 In two years, Roy had four or five different leading ladies. Finally, his fans clamored loud enough for Yates to agree to a rematch.
 Rogers' pictures follow pretty much the same line. He gets more smooching from his horse Trigger than he does from his leading lady. The closest he came to a real smack was in "Don't Fence Me In" when Dale kissed him on the forehead. He was unconscious at the time.
 I found Dale in her dressing room on her first day back on the job. "I haven't done a bit of work yet today, dad gum it," she said.
 Dale's deal is for just one picture and she didn't know whether they'd be back as a permanent team. However, this may be an indication. As we talked, a messenger brought a box of a dozen yellow and a dozen red roses. The card read:
 "I hope you're in all the pictures—Roy."

NAVY

(Continued from Page 1)
 Senate Appropriations Committee voiced characteristic reaction.
 Senator O'Mahoney (D-Wyo) told a reporter:
 "We've already got the biggest navy in the world. As long as we keep up to snuff on submarine warfare, I don't think we have to worry too much about the budget limits."
 Senator Russell (D-Ga.) said Congress is not concerned so much with what ships are being with what ones still will be afloat.
 In this connection, Secretary Sullivan said the reductions will be offset by addition of 30 ships to the operating fleet. These new ones include 24 destroyer types, two carriers, a heavy cruiser, a light cruiser and two submarines will be added.
 Sullivan's statement that the Navy will have to cut its manpower by 80,000 was seized upon as a new argument against Mr. Truman's request for universal military training.
 Senator McClellan (D-Ark) said "it just doesn't add up to be asking for UMT and cutting the Navy personnel at the same time."

Housewife Radios 16,000 Miles for Help in Storm

CHICAGO—(AP)—Locked out of her home in freezing weather, a housewife sent a radio message 16,000 miles to attract the attention of her father-in-law, an amateur radio operator, who was only a few feet away.
 Ham operator Ed Beane (W5MO) and Walt Ashton (W5BNT), both of suburban Oak Park, were engaged in three-way conversation with station ZD6KD, Johannesburg, Union of South Africa, several days ago.
 While Beane was busy at his transmitter, his daughter-in-law, Mrs. Rita Beane, stepped momentarily to the front porch. A gust of wind blew the door shut and she was locked out.
 Earphones clamped to her head, Beane was unable to hear her frantic poundings or the ring of the telephone as Mrs. Beane tried to reach him from a neighbor's home.
 Finally Mrs. Beane telephoned Ashton and asked him to get a message to Beane. Ashton, re-establishing contact with ZD6KD, about 8,000 miles distant, told the Johannesburg operator what happened.

In a moment the blissful Mr. Beane was startled to hear the voice of his far off radio friend as he said:
 "I say, Ed, old man, Mrs. Beane is locked out and freezing to death. Let her in!"

TRADITION FALLS

LONDON—(AP)—A government research team struck a blow at one of the Royal Navy's oldest traditional drills—sweeping the mess hall deck. They said the dust raised gives sailors tuberculosis. The scientists said vacuum cleaners should replace the brooms.

85 Businesses Failed in 1948

AUSTIN—Eighty-five businesses failed in Texas during 1948, the University of Texas Bureau of Business Research reported.
 For 1947, business failures totaled 55.
 There were 30 business failures in December, 9 in November, and 6 in December 1947.

 8:00 Toastmasters, City Council Room.
 8:30 E.S.A., Mrs. Herman Foster, 1705 Coffee.

Special Services At Church of God

The Church of God, 601 Campbell, announces two special services for next week in addition to regular services and the revival.

Saturday evening at 7:30, a special healing service is to be conducted by the Rev. C. C. Harris, the revival minister, and the Rev. Aubrey Mitchell, church pastor.
 Monday at 7:30 p.m., a District Youth Rally will be held. It is a fellowship meeting and will be conducted by Rev. Mitchell who is the district youth director. Representatives from Moberly, Moberly, Shamrock, Anadarko and Dumas are expected to attend the rally as their towns, with Pampa, comprise the district.
 Special prayer meetings are being held at the church every evening at 8:30 before the revival services. Special singing is conducted each evening at the revival and different groups present the music from time to time.
 The church wishes to have 100 people in Sunday School classes this Sunday in order to break its own record.

Christian Science Sunday Services

"Spirit" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, Feb. 6.
 The Golden Text is: "What man knoweth the things of a man, save the spirit of man which is in him? even so the things of God knoweth no man, but the Spirit of God" (I Corinthians 2:11).
 Among the citations which comprise the Lesson-Sermon is the following from the Bible: "God is a Spirit; and they that worship him must worship him in spirit and in truth" (John 4:24).
 The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "In the vast forever, in the Science and truth of being, the only facts are Spirit and its innumerable creations" (page 479).

Jesus Fulfilled What Was Promised

BY WILLIAM E. GILROY, D. D.
 Jesus began His ministry at home, which was the proper and natural place to begin, but also the most difficult.
 His sayings, "A prophet is not without honor, save in his own country," and "A man's foes shall be those of his own household," express a truth widely exemplified in human experience. How many men of genius have had to win their way and fame against the strong opposition of their parents, who assigned them for something else!
 Many men of achievement and fame won in the outside world have received belated honor from communities that regarded them with suspicion in their youth.
 Jesus, of course, did not have the embarrassment of the average youth, who rises to preach in his own home town. He had lived an exemplary life. As Luke tells us, He had increased in favor with men, as well as with God.
 There were no unsavory escapades, or unworthy incidents, such as might become all too vividly remembered by a youth speaking even in deep sincerity to those who had known him well.
 But to preach in Nazareth, nevertheless, was not easy for the Master. His own brothers as we know from John 7:1-5, did not believe in Him, or His professed mission, although at least two of them later became earnest Christians and leaders in the church.
 The favor with which His fellow townsmen had viewed Him soon disappeared as Jesus announced that mission and ministry; and with the blindness and prejudiced zeal that have been the curse of the otherwise religiously earnest all through the history of religion, they not only rejected Him, but they sought to throw Him from the brow of a nearby hill and kill Him.
 Jesus must have sensed these dangers, for "He knew what was in man." But He dared to face them, and to declare in the place where He was brought up, the consciousness of the mission and ministry to which He had been called, to fulfill the prophecy of Isaiah, "The Spirit of the Lord is upon me, because He hath anointed me to preach the gospel to the poor; He hath sent me to heal the broken-hearted, to preach deliverance to the captives, and recovery of sight to the blind, to set at liberty them that are bruised; to preach the acceptable year of the Lord."
 Why should such words, or such a claim, have moved anybody to anger? If He who announced such a ministry could not perform it, because anyone the worse? Gamaliel had much better sense and wisdom, "If the work be of man it shall come to naught; if it be of God ye cannot prevail against it."
 The Gospels tell the story of how those words spoken in Nazareth, and the ministry begun there, were vindicated in all that the Master said and did. In teaching, preaching, and healing, He fulfilled all that a great prophet had declared of God's plan and purpose.

CUSTARD PIE

In making custard pie the crust may be baked on the bottom side of a pie pan; the custard may be baked separately in a pan of the same size set in hot water and at a low temperature. After the custard is baked and the pie cooled so that the pan feels warm it can be transferred into the crust. To do this, run a spatula around the edge of the custard, lift it somewhat and shake and slide it into the crust.

Methodist WSCS Attended by 14

The WSCS of the McCullough Methodist Church met Wednesday afternoon at the home of Mrs. E. L. Roberson, 418 N. Zimpro, for a business meeting and pledge service.
 After the meeting, refreshments were served to Mmes. Kit Autry, E. H. Martin, Coyle Ford, Ezell Pettit, A. N. Franklin, Margaret Taylor, Carl Deckman, W. E. Weathered, E. N. Rogers, Max Frost, W. E. Cox, George Rath and Helen Monkes. Mrs. Margaret Taylor will be hostess to the next meeting.

Missionary Group Holds Meeting

Mrs. Clyde Gray gave the scripture reading when the Women's Missionary Society of the Church of the Brethren met Wednesday afternoon at the parsonage.
 A reading, "What Does Religion Offer Womanhood?" was given by Mrs. Ernest Rose. Mrs. Lucille Elison sang a solo and Mrs. Hubbard read "Let Us Go On."
 At the close of the program, the hostess, Mrs. Bill Cobb, served refreshments to those mentioned and Mmes. Garvin Elkins, Cecil Hubbard, Robert Zimmerman, J. E. Martin, Ralph Byrum, R. G. West and E. J. Simpson.
 The next meeting will be held in the home of Mrs. C. E. Elington, east of the city.

Lively Speech Is Acquired Asset

BY ALICIA HART
 NEA Staff Writer
 Any woman can decide at any age that she is going to become a "good talker." By "good" is not meant the amount of talking that one does, but the kind. The kind that will continue to draw people to you—even after your age has earned you the luxury of staying at home—must be good, lively and rich in substance.
 Good talk, first of all, stems from good subject matter. That's why a woman who earns a reputation for talking well is invariably a reader. She is also apt to be a good listener who allows other people to express their opinions.
 She is also apt to listen to informative discussions over the radio. Sometimes opinions heard over the air furnish patterns which a thoughtful listener can use for a better expression of her own ideas.
 As for the quality of your speech, make it lively. One woman of my acquaintance whose lively speech is an acquired asset confesses that she began to make it so by creating pictures in her listener's mind. "I found myself always listening more attentively," she says, "to people who used words that suggested color, sound, and movement, and who conjured up picturesque images, rather than to talkers who omitted these lively impressions."

LOWEST WITH HYDRA-MATIC
 The lowest-priced car on the market today offering an automatic transmission is the new 1949 Pontiac Silver Streak. General Motors famous Hydra-Matic Drive is optional at extra cost on all Pontiac six and eight cylinder models.

REVIVAL SERVICES

NOW BEING HELD AT THE **United Pentecostal Church**
 1046 WEST BROWN

The Rev. Everett J. Hamby, Combs, Arkansas, evangelist for 25 years, will be the speaker at these services.

SERVICES AT 7:30 P. M.

The Fundamental Baptist Church Invites you to their services.

Meeting at 710 West Foster. Sunday School 10 a.m. every member studying the Bible only. Preaching Services 11:00 a.m. and 7:30 p.m. Young People and Adult Prayer Services 7:00 p.m. It does make a difference what you believe.

WHAT FUNDAMENTAL BAPTISTS BELIEVE:

- We believe the whole Bible from Genesis 1:1 to Revelation 22:21 as the verbally inspired and infallible Word of God.
- We believe Jesus Christ was born of Mary the Virgin, and is the Son of God, and God the Son.
- We believe that Christ died for our sins according to the Scriptures, the just for the unjust that He might bring us to God.
- We believe that He arose from the grave the third day according to the Scriptures.
- We believe that He only is the great High Priest, and we need not the intercession of any man, but that Christ ever liveth to intercede for us.
- We believe that Christ will come in person, bodily, visibly, to establish His Kingdom on the earth.
- We believe that in order to be saved the soul must be born again. "Ye must be born again."
- We believe that every truly born again soul should declare his faith by the act of baptism (immersion in water) setting forth the Lord's death, burial and resurrection.
- We believe that the church is a body of baptised believers whose only mission is, not "reform the world," but to preach and teach the Gospel of salvation to the individual soul.
- We believe that the four-fold platform of the church is:
 - To recognize Christ as its only head.
 - To obey the Holy Spirit as its only Administrator.
 - To proclaim the Word as its only message.
 - To win lost souls as its only mission.

Summing it all up, The Fundamental Baptist believes in a supernatural Bible, which tells of a supernatural Christ; who spoke supernatural words; who performed supernatural miracles; who lived a supernatural life; who died a supernatural death; who rose in supernatural power; who ascended in supernatural splendor; who intercedes as a supernatural priest, and who will one day return in supernatural glory to establish a supernatural kingdom on the earth.

"My skates are in there, Pop—Willie had 'em on!"

Pontiac Has Two "New Looks" For 1949

This is the four door deluxe Pontiac sedan in the Streamline series. Forward thrust has been gained by lowering the hood. Body contour is in the modern manner and yet unmistakably Pontiac. Added safety is compounded by reduced pillars and a curved windshield whose glazing sweep has been increased nearly six inches. Both Pontiac Streamliner and Pontiac Chieftain lines use a 120 inch wheelbase and Hydra-Matic transmissions optional at extra cost.

1949 Pontiacs Unveiled in Two Completely New Lines

The long awaited 1949 Pontiacs will be revealed publicly tomorrow at Coffey Pontiac as two completely new and strikingly beautiful lines of motorcars.

Harry J. Klingner, general manager of Pontiac Division and vice president of General Motors, described the new Pontiac as "The finest motorcars we have ever produced."

Pontiac offers the public two "new looks" for 1949. The Chieftain series is an entirely new concept of functional beauty distinguished by its ultra-styled rear pattern. The Streamliner series is an extremely advanced rendering of the flowing design factors popularized by Pontiac.

Both Chieftain and Streamliner series use a 120-inch wheelbase. The Torpedo line has been discontinued, Klingner said.

Approach pattern of both Chieftain and Streamliner from Indian head hood ornament to massive, wrap-around bumper is a design triumph of suave yet rugged elegance accentuated by Pontiac's traditional Silver Streak, stylized for 1949 but still serving to make Pontiac the world's best identified motorcar.

Sleek surge has been gained by lowering the hood with an added safety factor compounded by reduced pillars and curved windshield whose sweep has been increased nearly six inches.

Body contour is in the modern manner and yet unmistakably Pontiac. Front fenders sweep through the doors to the rear fenders which are integrated with the rear quarter panels.

Roof lines have been lowered 2 1/2 inches resulting in a breathing silhouette. Rear fenders are classical in their uninterrupted symmetry. They are high-lighted by circular triple purpose stop lights and tail lights, which may also be converted to directional signals.

Just as the exterior of the 1949 Pontiac is distinguished by a complete lack of automotive "gingerbread," interiors carry out the motif of elegant simplicity. Comfort and safety predominate in Pontiac's selection of interior features.

Both lines have up to 38 percent more glass area front and rear. Seats are wider front and rear and also the doors. Floors are level with door sills.

The Pontiac ride has been improved by moving the rear seat forward of the rear axle, cushioned from the front and rear springs. An added dividend is added hip room by avoiding the space-taking wheel housing.

The front seat has been moved four inches forward and because of the increased width it has been possible to move the steering column two inches further to the left, giving additional elbow room to driver and front compartment passengers.

Basic elements of the new Pontiac ride, in addition to seat arrangement, are softer front and rear springs, extra low-pressure tires, a heavier frame, new front suspension based on airplane type shock absorbers functioning inside coil springs.

Pontiac will make ten body types for 1949 and with two exceptions each may be had as standard or deluxe models. Exceptions are the convertible which is available with deluxe equipment only and the sedan-delivery, a commercial vehicle new to the Pontiac line, standard equipped only. Two station wagons are available; in all steel construction and in wood-and-steel.

Pontiac owners may choose, as in the past, between the 90 horsepower, six-cylinder engine, and the 104 horsepower eight. Compression ratio with standard head is 6.5, well in the upper range of American motor cars and not requiring premium fuels.

Child Labor On Upswing

Child labor is on the upswing. In 1948 twice as many boys worked during the school year as worked in 1940.

"The proportion of youngsters working," stated Edith Stern, the February issue of the Women's Home Companion, "has more than doubled. The latest figures indicate that one out of every six of our 14 and 15-year-olds is now at work."

Yes, while the employment of children is generally on the increase, controls are being weakened and standards lowered. An example revealed by the magazine is that Federal appropriations for child-labor purposes have been cut 60 percent.

It is also known that whenever children work in industry the accident rate is high, the show that workers under 18 are one-and-a-half times more subject to disabling injuries than their elders, and nearly twice as many of them are permanently injured.

However many of our present-day forms of child labor are not always dramatic and they frequently pass unnoticed. It is not in our factories, mines or mills where the most exploitation occurs. Much of it, states the Companion, is hidden down back alleys—in laundries, in bakeries, in restaurant kitchens. In some cases it is right out in the open but hard to recognize for the evil that it is.

Crash Radio Set To Aid Rescuers

NEW YORK — A radio which begins operating at the time of an airplane crash, sending out a continuing signal, is now in the testing and refinement stage, according to Aviation Week.

The magazine says the idea for the crash set was conceived by R. C. Ward, Washington state patrolman, who has spent much time searching in the rugged mountain areas for 83 missing planes.

The 10-pound crash set is designed to be held in the tail of a lightplane, on rubber supports. A trip switch goes off on impact and starts the radio operating, while a counterbalance holds the 18-inch antenna upright. The transmitter sends a signal for 100 hours over an 18-mile area. In the event of a water crash, the set will float.

THOMAS ON COMMISSION

WASHINGTON — (AP) — Speaker Sam Rayburn named Rep. Thomas (D-Texas) to the Territorial Expansion Memorial Commission and Rep. Thornberry (D-Texas) to the National Capital Sesquicentennial Commission.

Browns Are Sold

ST. LOUIS — (AP) — Two brothers—Bill and Charlie Dewitt—bought controlling interest in the St. Louis Browns Wednesday, ending more than a year of rumors on the team's status.

The Dewitts announced at a press conference that they have purchased 56 percent of the stock owned by Richard C. Muckerman. Added to two percent they already held, they now have 58 percent in the American League baseball club.

The sale includes the Browns, five minor league clubs owned outright by the Browns and two ball parks—Sportsman's park at St. Louis and a new ball park at San Antonio, Tex.

No official sale price was announced but it is believed that they paid about \$1,000,000 for Muckerman's stock.

Charlie denied an earlier report that he planned to sell the St. Antonio Missions of the Class AA Texas League to a group of San Antonio businessmen.

Hogan Loses!!!

PHOENIX — (AP) — Jovial Jimmy Demaret made a change in his method of gripping the putter and yesterday won top money in the \$10,000 Phoenix Open Tournament. He scored a three-stroke victory over Ben Hogan in an 18-hole playoff.

Demaret, with the help of two putts sunk from nearly 30 feet, finished with a four-under-par 67 over the flat, 6,578-yard Phoenix Country Club course.

Since changing his grip, Demaret hasn't finished lower than third in tournaments. His play has netted \$6,570 during the month of January.

The Phoenix Open result was a reversal of the finale of the Long Beach, Calif., Open last week when Hogan bested Demaret in a playoff to break the 272 tie. Sunday the two men finished with totals of 278.

With this match, Bantam Ben, who does his golfing out of Hershey, Pa., but lives in Fort Worth, Texas, said goodbye to competitive golf for a while. He's going back to his Texas home to attend to some personal business, but will definitely rejoin the professionals at the Masters' Tournament in Augusta, Ga.

Sixth Child Comes As Answer to Prayer

HELENA, Ark. — (AP) — The 59-year-old wife of an elderly barber said the birth of her sixth child was "an answer to a prayer."

The father is 65. Mrs. Turley, a nurse, said she didn't realize she was going to have another baby until shortly before the child was born. Her other five children are dead.

Sports Round-Up

By HUGH FULLERTON, JR. NEW YORK — (AP) — Newark's Hy Goldberg reports that fight manager Jimmy White attended the Kid Gavilan-Ike Williams fight Friday in company with Aaron Seltzer, one of the guys he used to manage. . . They were rooting in opposite directions. . . After one round, White remarked: "Gavilan won that one easy." . . "What?" Seltzer yelled. "You think Gavilan won that round? Now I can understand why you screamed we was robbed after every one of my fights."

ONE-MINUTE SPORTS PAGE

A group of Kalamazoo, Mich., business men is reportedly ready to pick up any deficit tab, up to \$6,000, if the NCAA will return its college baseball finals to Kalamazoo next spring. . . Ed McKeever, who got the heavens to open for the Chicago Rockets, might be a good coach for that vacant Temple U. job. Ed might not turn out as good a team as Penn's George Munger but he could give George some competition on the banquet circuit. . . Four Chicago hockey fan clubs are getting together to stage a "night" for Doug Bentley in March. . . Knowing the habits of Blackhawk fans, we figure they'll probably throw something Doug's way. . . One of the season's better laughs comes from the southern story of a real student who went on strike because he didn't get his pay for tutoring a football star.

New York Conductor May Take Dallas Post

DALLAS — (AP) — The assistant conductor of the New York Philharmonic-Symphony, Walter Hendl, has signed an option and may become conductor of the Dallas Symphony Society, made the announcement.

Stanley Marcus, president of the Dallas Symphony Society, made the announcement.

Fired, Fires

Screen actress Teresa Wright, fired by producer Samuel Goldwyn for being temperamental, fired a return blast at Hollywood producers. She said they "treat us like cattle, boss us like children." Goldwyn had dismissed the 29-year-old star for refusing to go to New York for a publicity campaign.

Wacs Wear Army Pants

MOUNT WASHINGTON, N. H. — (AP) — The Wacs are wearing the Army's pants. On the frigid slopes of this highest mountain in New England ten rugged young women led by Lt. Ann Cummings of Newton, Mass., are testing new arctic clothing designed for soldiers.

Uncle Sam is trying to prove what every father of a white-shirted teen-aged daughter already knows, that girls can wear men's clothes. With Wacs now serving in Alaska and many northern outposts the Army wants to be sure its distaff side is equipped with the warmest clothing available.

The young women, all volunteers from Camp Lee, Va., are testing new jackets and trousers of nylon insulated with spun glass. This modern version of the age-old padded coats of China has proved far warmer than standard G. I. arctic clothing.

The project is part of a winter operation of the Quartermaster Corps headed by Major James E. Barnhill of Macon, Ga. Nearly 75 men are engaged in testing types of tents, snowshoes, clothing and skis.

Prices Showing Sharp Decline

NEW YORK — (AP) — Increasingly sharp declines in commodity prices in recent days are causing economic prophets to take another look at their forecasts.

Today is the anniversary of last year's big break in commodity prices, and although declines this year have been more gradual, they appear to be gaining momentum and are being watched closely by all business leaders for clues to the future.

The Associated Press commodity index of 35 weighted wholesale prices dropped Thursday to 169.40, lowest since Feb. 11, 1947,

Other rates going up include money orders, and registered and insured mail. But the three-cent rate for ordinary letters remains in force.

Stalin Carefully Avoided Commitments to Anything 80,000 Minors Crippled by Poliomyelitis

WASHINGTON — Joseph Stalin's answers in the past few days to questions about peace and meeting President Truman are about as uncommittal as any he could give. The only unusual thing about which he chose to say it, which Stalin had been anxious to patch up the rift, and wanted to make the move in that direction, he easily could have done business. He could have called in the American and other Western ambassadors, who have their embassies in Moscow for dealing with Russia and told them what he had on his mind. Instead, he bypassed them and piped out to the world a few statements in the form of answers to questions sent him by the International News Service.

In Hollywood

By ERSKINE JOHNSON
HOLLYWOOD JOHNSON
A small town bank teller and the wife of a garage mechanic are the screen's newest stars. Here's how it happened:
Miller and Cuddy, the bank clerk and his wife, Dalene, are the stars of the new picture, "The Law-Abiding Citizen," which is being shown in Hollywood. The picture is a comedy and is being shown in Hollywood. The picture is a comedy and is being shown in Hollywood. The picture is a comedy and is being shown in Hollywood.

Fugitives From Tyranny Find Peace

Fleeing from the tyranny of the Soviet zone, 150 refugees a day pour into eight crowded camps in western Berlin. Here they're able to relax in an atmosphere of freedom, even though the camps are jammed to capacity. Many of the fugitives were slave laborers in Russia's uranium mines. (Photos by NEA-Acme staff correspondent Al Cocking.)

TONIGHT ON NETWORKS

NBC--7 Paul Lavalle Band of 8:45 Tea and Crumpets.

AUSTIN -- Throughout America men and women have become conscious of the necessity for fighting the menace of venereal diseases.

Dr. Geo. W. Cox, state health officer, states that at the present time three rapid treatment centers are being operated in Texas, located at San Antonio, Waco and Rocky Mount, and that a total of approximately 15,000 patients per year are being treated in these centers. Ninety-six venereal disease clinics are also in operation throughout the state, and these clinics as well as the rapid treatment centers are primarily for the treatment of indigent and semi-indigent persons referred by physicians or local health units.

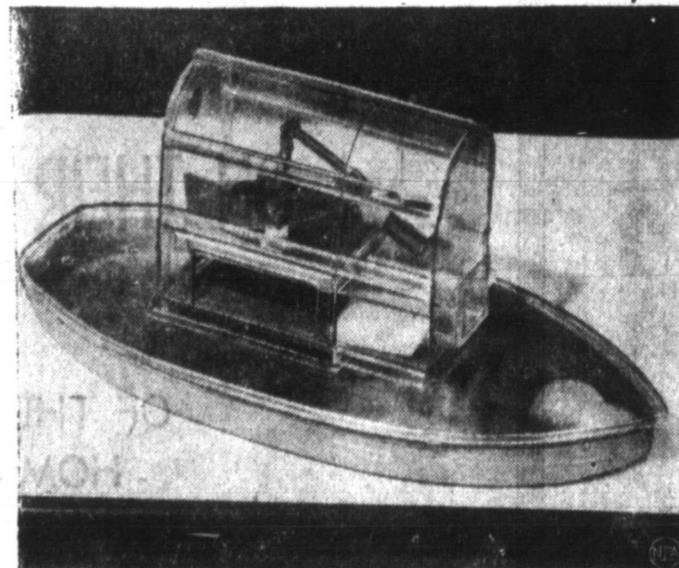

In the past two years a blood testing survey of more than 80,000 Texans has disclosed that between seven and ten percent of that number had positive tests for syphilis and that a large majority of them did not know they had the disease and had never had medical treatment for it. This vast reservoir of untreated syphilis is one reason for its continued spread, and it is a notable achievement in furthering public health that approximately 98 percent of these persons have been brought under treatment so that they can no longer spread the disease. More than 43,000 contacts have been investigated and placed under treatment until no longer infectious.

A continuous educational program carried on by the State Department of Health is another effective means for controlling venereal disease among our people, and reducing the number of crippled, blind and paralyzed persons who are annually the victims of syphilis and other venereal diseases.

Here's That 'Better Mouse Trap'

Providing the mouse in question can't swim, this new trap will dispose of him neatly. Shown in San Gabriel, Calif., the plastic rodent remover is said to catch up to 10 mice without emptying. Mr. Mouse approaches, steps onto a spring platform, gets dropped down the hatch, lands on a perforated aluminum bottom--and then he gets dunked in the water.

MAGNIFIED SPEEDOMETER
You can check the mileage figures on the speedometer of the new 1949 Pontiac Silver Streaks at a glance. Because mileage figures are printed on cylindrical discs, increasing their actual size

was practically impossible. However, a moulded magnifying lens of clear, transparent plastic is used to make the numerals appear almost twice their actual size.

Front doors are six inches wider and rear doors nine inches wider in the new 1949 Pontiac Silver Streaks. Added to deeper and wider windshields and rear windows, they mean increased visibility in all directions while driving a Pontiac.

Highlights of Caravan Trip Are Related

E. O. Wedgworth, one of the three Pampa delegates on the recent Highway 60 caravan, told of the trip's highlights at yesterday's Lions Club luncheon meeting in the basement of the First Methodist Church. He said the trip from Enid, Okla., to Los Angeles, Calif., on Highway 60 was made primarily to acquaint Oklahoma highway commissioners with the highway, which runs from coast to coast. J. C. McWilliams and J. L. Swindle were the other delegates from Pampa. The eight-day trip was made

More Prefer Midwives

NEW YORK — The midwife has virtually vanished from most sections of the American scene, a study by the statisticians of the Metropolitan Life Insurance Company reveals. At present, less than five percent of the confinements in our country are attended by midwives, as compared with about 10 percent in 1935 and with 40 percent just prior to World War I.

One factor in bringing about this decline has been the sharp reduction in the number of midwives permitted to practice, as a consequence of higher educational and training requirements, and stricter supervision and regulation. Currently, there are about 21,000 midwives practicing in the United States, as against some 62,000 a quarter century ago, the survey revealed.

Other factors have been the great expansion and improvement of hospital facilities, the better training and higher skill of physicians in obstetrics, the increased preference of the American people for hospital confinement and their ability to meet the hospital expense, particularly under prepaid insurance plans. In 1947 the number of babies born in hospitals totaled more than 3,000,000 which was five out of every six births.

Work Minimum Is Set at WTSC

CANYON — "Students who do not pass more than three semester hours of work will be suspended for the next semester," announced Dr. A. Kirk Knott, professor of English and dean of the Lower Division at West Texas State College.

Students who do not pass nine hours of work will be put on academic probation, Dr. Knott said. Those who fail all of their courses will be asked to withdraw from college.

In most cases students are given every reasonable chance to pass their work if their attendance is good and they are interested in the course, he said.

by 27 people in seven cars.

Clarence Kennedy announced that the first rehearsal for the 1949 Lions Minstrel will be held at 7 p. m. today in the Palm Room in the City Hall.

The return of the TSCW Capereites for this year's show has been planned, Kennedy said. Last year six Capereites participated in the minstrel, but this year even more of them will be in the show.

Paul Brown announced that with the proceeds of the latter two Top of Revues, Pampa now has approximately half of the \$10,000 goal set for the March of

Dimes.

Jimmie Parker, who was a polo player at Plainview for three and one-half months, appealed to the members of the club to "dig deeper" for those dimes. Parker said his total bill at the polo center amounted to approximately \$3,400. He cited several examples of the high costs of "polo treatment."

Ed Cleveland and Waldon Moore volunteered to assist Brown in the March of Dimes drive by calling on doctors, lawyers and mechanics that have not been solicited.

Arville Patterson, January

"Lions Sweetheart" announced the Senior Class play, "Home Sweet Homicide" will be presented at the High School Auditorium March 10-11.

Following her announcement, she introduced the February "Lions Sweetheart," Ottolene Patton, G. W. Yeargin, January "Cub Lion," introduced his suc-

cessor, James Prichard. Harry Kelley, on behalf of the club, presented H. P. Dosier, president, with a bell with the Lions emblem inscribed. The bell will be used by the president when he wants to get order. Mike Powell, former Pecos, Tex., Lions Club member, was accepted into the Pampa club.

**Pontiac Sees
Year of High
Auto Demand**

A year of continued high demand and sales volume was seen by L. W. Ward, general sales manager of Pontiac Motor Division, as the new 1949 Pontiac Silver Streaks make their public bow at the new Coffey Pontiac agency tomorrow.

Although Pontiac sales exceeded 245,419 during 1948, third highest year in the division's history, Ward expressed confidence that Pontiac sales during 1949 will top this figure. With recently expanded factory facilities, Pontiac is more than able to meet these added demands.

"We expect a very fine year," Ward said. "In fact, with the beginning of production on the new 1949 models, we are in a more secure and better competitive position than ever before."

"However satisfactory past demand has been for our product, we are confident that it will continue to grow in the future. Modern, functional styling and worthwhile mechanical improvements, make Pontiac an even more desirable car to own than before."

Production is already underway at the factory with substantial production schedules set for February.

**Engineers
Aid Video
Reception**

Television fans can thank Pontiac Motor Division engineers for an innovation which will improve video when subject to automotive interference.

Because many Pontiac engineers are video enthusiasts they were aware that electrical impulses from spark plugs, coil, distributor and their connecting wires may interfere with television waves and cause distortion on the screen when a car passes by.

Since electrical impulses are directly proportional to the length of wire through which they pass, Pontiac solved the problem by placing the ignition coil on top of the engine, thereby decreasing wire length by 75 percent and greatly eliminating any chance of video distortion.

**Betty Will Stick
To Violent Roles**

By BOB THOMAS
HOLLYWOOD (AP)—It looks as though Betty Hutton will stick to the violent screen roles that shot her to fame.

Right now Betty is getting the full treatment in "Red, Hot and Blue" pie-throwing and everything. Despite all the vehicles that have been announced, her next will likely be "Little Boy Blue," a night club yarn. Only other set for the cast as yet is Billy DeWolfe, thereby decreasing

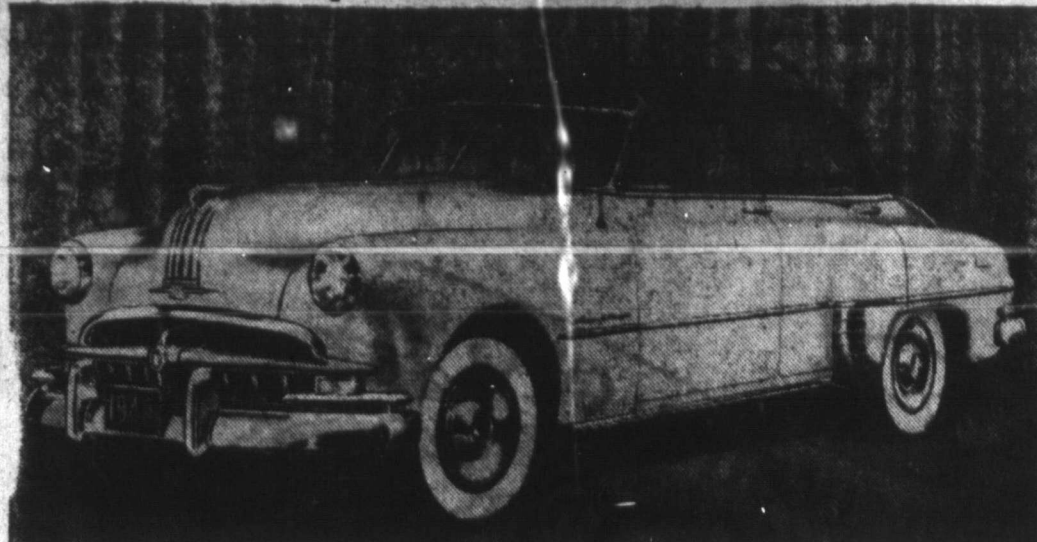

There's good reason for Betty's hewing to knockabout roles. "Dream Girl," in which she played a wistful Walter Mitty, was not among her best-selling pictures.

Star notes... Dorothy Lamour in Palm Springs nursing torn ligaments in her leg... reports here are that Lana Turner will be back sooner than expected. She's eager for work, friends say... Jose Iturbi, Kathryn Grayson and Johnny Johnston are planning to join for concert dates in Europe this spring.

Mary Astor is a regular student at Hollywood Art Center, where she's studying ceramics and sculpture... Claude Rains reports on the "Rope of Sand" set that his English film, "Passionate Friends" will have a new title in the U.S. "The Johnston office doesn't recognize passion," he remarks.

FLOWERS IMPORTED
CHICAGO (AP)—California is getting flowers—green-house variety—from Chicago this winter... Chicago wholesale florists were asked to send flowers after cold weather destroyed much of California's flowers, grown there in open fields.

Entirely New Pontiac For 1949

The Pontiac Chieftain line of which the four-door deluxe sedan is shown here has a 120 inch wheelbase. Roof lines have been lowered without sacrifice of comfort. Trailing pattern of the Chieftain series consists of two gracefully arched steps from roof crown to trunk deck to lower edge. Both Pontiac Streamliner and Pontiac Chieftain lines average 38 percent more glass area. Visor on car pictured is an accessory.

**Trellis Mae
Picks Wrong
Speech Topic**

By MAL BOYLE

NEW YORK (AP)—It was Mrs. Trellis Mae Feeble's turn to lead the weekly current events discussion at her club—the Crochet and Croquet Society.

"What's your topic?" asked her husband, Wilbur.

Trellis Mae looked up from her notebook and pile of newspapers.

"More husbands for married ladies," she said brightly. "Don't you think it's a wonderful topic?"

"I don't get it," said Wilbur. "I don't see why you say that."

Complained Trellis Mae. "It's very simple. I got the idea out of the newspaper. It says there's a lady schoolteacher in Germany who found there were 7 million extra German men."

"So she thinks German wives should be allowed more than one husband. It would keep the poor men from becoming lonely old bachelors. I am going to bring her idea up before our club members for discussion."

Wilbur read the article carefully. And a smug leer spread across his face.

"Why you've got the thing backwards," he laughed. "There are 7 million extra women, not men, in Germany. What this schoolteacher means is that men ought to be allowed to marry more than one woman. It's really a share-the-husband program, so there won't be any old maids."

"Let's see. I could get a brunette to cook my breakfast, a blonde to take to a night club, and a redhead to—"

"Oh, Wilbur!" wailed Trellis Mae. "You talk like a horrid old sultan. You wouldn't want any other wife but me, would you?"

Wilbur saw that her hot and cold running tear faucets were about to open.

"No, dear," he said hastily. "I'll stick by what my dad always told my mother: 'I wouldn't take a million dollars for you, and I wouldn't give a penny for another just like you.'"

Trellis Mae smiled and came over and sat in her husband's lap. She kissed him.

"I guess I had better pick another current events topic," she said. "That other one is too silly for words. It doesn't even make sense."

"Why don't you talk about Joe Stalin, the man in the Kremlin?" suggested Wilbur.

"What's he doing in there?" asked Trellis Mae. "Won't they let him out?"

Wilbur sighed and reached toward her notebook and newspapers. It looked like a long evening.

THINNER, STRONGER PILLARS

Although the size of windshield pillars on the 1949 Pontiac Silver Streaks have been greatly reduced to improve visibility, exhaustive tests show that improved design has left them equally as strong as the wider, old-type pillars.

"BEEFED UP" FRAME

The new 1949 Pontiac Silver Streaks ride on a box girder, four-way cantilever frame. This type was selected because laboratory road tests showed it provides more rigidity and resistance to distortion per pound of steel than any of the competing types.

OH, SAY CAN YOU SEE

Windshields are 5 1/2 inches wider; rear windows are eight inches wider and three inches deeper, and door windows are one inch wider on the new 1949 Pontiac Silver Streaks, insuring greater visibility for Pontiac drivers in all directions.

**Club Proposes Bones of Moses Austin
Be Moved to Texas; Missourians Protest**

ST. LOUIS (AP)—A proposal to move the bones of Moses Austin to Texas has drawn a protest from the director of the Missouri Historical Society and raised the question of whether anything remains of the Missouri and Texas pioneer.

The Potosi, Mo., Lions' Club recently suggested Austin's remains be moved to Texas provided the Lone Star State put up \$50,000 for construction of a Potosi town hall.

Austin, who with his son Stephen, led a colonization expedition to Texas in 1820, died in Missouri the following year and was buried at Potosi in Southwest Missouri's lead mining belt.

The elder Austin had a big part in developing the lead mining industry in the area.

Texasans have protested many times during the years that passed that the remains of Moses Austin be moved to Texas.

A cherry tree had taken root in the vault and cracked it open and time and weather had caused Austin's bones to disintegrate, Delaney said.

TRAVELUX RIDE

By moving the rear seat well forward of the axle, the new 1949 Pontiac Silver Streaks have achieved "Center Poised Seating" which cradles both front and rear seats between the front and rear springs. Sealed, scientifically calibrated airplane-type shock absorbers, plus extra low pressure tires and Nu-Cushion springing, complete what Pontiac engineers term "Travelux Ride."

An elephant has five toes on each front foot and four on each of its hind feet.

ADD UP TO COMFORT

Seven new features guarantee improved ride in the 1949 Pontiac Silver Streak line: extra low-pressure tires, low-rate chassis springs, Gentiflex front suspension, increased rigidity of frame, sealed, airplane type shock absorbers, 18 rubber body insulators and improved seat and back springs.

BYE, BYE WHINE

Ever hear an airplane suddenly make more or less noise when the pilot merely changed the pitch of his propeller? Pontiac Motor Division engineers experimented along these lines and came up with a reduced-pitch fan of greater diameter that decreases fan noise at high speeds.

Congratulations!

Mr. Coffey

Another enterprising business man has indicated confidence in Pampa and the surrounding trade territory by erecting a modern garage for the convenience of his customers.

Let's not overlook the fact that we furnished the plumbing and heating in this beautiful new building.

Home accidents killed 33,000 persons and injured 5,000,000 more during 1946, in the United States

Judgment Favors Plaintiff in Case

A judgment in favor of the plaintiff, L. P. Sandford et al., versus J. M. Thomas et al., was handed down this morning by District Judge Lewis M. Goodrich in

31st District Court on a trespass to try title suit.

The judgment awarded a quiet title to Sandford to Lot 6, Block 2 of the Wilcox Addition. The Court also granted a divorce to Eunice Alkin Stephens from Emmett L. Stephens on grounds of cruelty. The couple was married in April, 1947, and separated in October, 1948.

Brakeman Flags Train To Save Own Auto

JOLIET, Ill. —(AP)—Henry Adam's bright idea saved his automobile from being wrecked by a train. Adam's car stalled at the Ohio Street crossing as he drove to

work. Train No. 17 of the Gulf, Mobile and Ohio Railroad was approaching, but fast.

Adam, 27, who is a railroad brakeman, grabbed his brakeman's lantern and flagged down the train. The big diesel engine slowed and just nudged Adam's car. Total damage was a dented fender.

NOMINATION OKAYED

AUSTIN—(AP)—The nomination of Don J. Brockman of Seymour as district attorney of the 50th Judicial District was approved yesterday by the Senate Nominations Committee. It still must be approved by the Senate.

Harvesters Hit the Road in Search For Conference Title

WARREN'S WARM UP

By Warren Messer—News Sports Editor

QUESTION: What is the exact number of major league home runs that Babe Ruth hit?

FIGHTING HEART: The honor of being the first Pampa Harvester footballer to win the "Fighting Heart" award fell on the big shoulders of a little man last night, Morris "Pete" Cooper. He was selected by the coaches as the boy on the team that showed the most fight and team spirit through the entire season, every minute that he had a football suit on.

Hogan Reported As Doing "Good"

EL PASO.—(AP)—The condition of Ben Hogan, the nation's top professional golfer, was reported "good" today by doctors at an El Paso hospital.

Hogan was badly hurt Wednesday in an automobile-bus collision 25 miles east of Van Horn, Tex. X-rays late yesterday revealed that Hogan suffered a broken inner ankle bone of his left leg in the accident in which he also fractured his pelvis, broke a collar bone and fractured a rib.

Doctors planned to put the leg in a cast. Specialists today were to study new x-rays to check on a possible back injury to the famed golfer.

Hogan's wife, Valerie, suffered only minor injuries.

Lefors Mittmen Win

The Lefors boxing team won a dual meet from McLean last night in Lefors, 6 bouts to 4. John Matkin of Pampa was the referee. The next bouts for the Pirates will be Thursday, when they travel to Shamrock to tackle the Irish mittmen.

Last night's results:

87 pounds—Leon Herring, Lefors, defeated Harold Hugg, McLean, 16 points.

85 pounds—J. D. Redus, Lefors, defeated Butch Foster, McLean, 16 points.

85 pounds—Gerald Hugg, McLean, defeated Joe Dan Watson, Lefors, 16 points.

74 pounds—Gerald Tate, McLean, defeated Darwin Teeter, Lefors, 16 points.

60 pounds—Carroll Welch, Lefors, defeated Jack Hupp, McLean, 16 points.

70 pounds—Gerald Herring, Lefors, defeated George Graham, McLean, 16 points.

70 pounds—Ed Clemmons, Lefors, defeated Don Crockett, McLean, 16 points.

60 pounds—L. E. Cobery, Lefors, defeated Boots Bible, McLean, 16 points.

112 pounds—Alvin Blacksher, McLean, defeated Gene Parks, Lefors, 16 points.

118 pounds—J. W. Simmons, McLean, defeated Paschal Crutcher in the first round.

In the exhibition bouts:

90 pounds—Franklin Hankins, Lefors, fought Frank Wortham, Alameda, 16 points.

60 pounds—Jerry Copeland, McLean, fought Jack Rhodes, Alameda, 16 points.

140 pounds—Franklin Hankins, Lefors, fought Pitman Tremble, Alameda, 16 points.

135 pounds—Friday Todd, Lefors, fought Gene Ford, Alameda, 16 points.

Deans Take Over Helm At Clovis

CLOVIS, N. M.—(AP) Former major league pitcher Paul Dean took over the Clovis club in the Class C West Texas-New Mexico Baseball League yesterday. He bought the franchise from local residents several weeks ago.

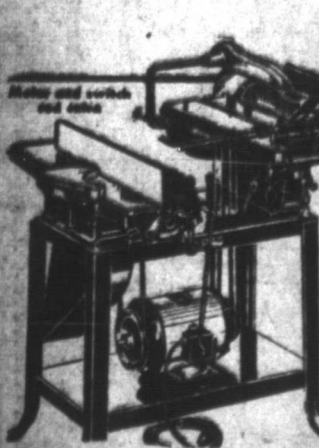

The former St. Louis Cardinals star will be field manager and do some pitching.

He plans to attend a league meeting Sunday at Amarillo, Tex.

DELTA Saw-Jointer Combination

- Both circular saw and jointer are mounted on one steel stand. The top units may be operated singly or together, without interference.
- One motor drives both tools — you save the extra expense of a full additional motor.
- 15" saw blade 1 1/2" stock; cross-cut 1 1/2" wide; rip in center of 30" panel.
- Jointer cutters boards 4" wide; cuts 1 1/2" deep.
- Both saw and jointer have lubricated-for-life ball bearings.
- Includes 15" circular saw, 6" jointer, steel stand, 1/2" and 3/4" wide, 1/2" and 3/4" depth and splitter bar.

Meet the Harvester Coach

The Pampa Harvesters took to the highways this morning in search of the district 1-AA basketball championship. And there is a very good possibility that they may find it down in the South Plains area. At least that is where they are going to look.

Tonight they meet a defense-minded Lubbock Westerner five, who at present sit on top of the conference race, by virtue of having played more games than the Harvesters, though they each have dropped one decision. On Saturday night the Harvesters stop off at Brownfield to engage the Cubs in a game. Brownfield is fighting it out with Plainview to see who is going to be the doormat of the league. The Cubs downed Plainview this year, for their first and only win since they have been in this district.

The game with Lubbock will be the important battle. The Green and Gold already hold two verdicts over the Westerners, the first by one point, the second by ten. But neither were played at Lubbock, where Lubbock is tough. The last couple of games the Westerners have been paced by a sharpshooting forward, Jim Sexton. Teaming with him is Charlie Galey who had been their scoring threat most of the season. The tallest man on the team is Jim Wilson, a big center standing 6-3. The probable starting guards will be Morris Turner and Blair Hankins.

The Harvesters will have to crack that one defense in order to win, but they have already done it twice, and they should be able to do it a third time. Short, fast passes and a good basket eye are needed to penetrate a zone, and Coach McNeely has the boys who can do it.

The stop at Brownfield may bring another some defense to confront them. The last time they played the Cubs they had no trouble scoring, winning by a 58-23 margin. Since then, Brownfield has been trampled by everyone in the league. Starting for Brownfield will probably be Farrie and Billings forwards, Garby at center, Line and Thompson at the guards. Garby is their toughest man, scoring 25 points against Amarillo the night after he had been held to 4 here by Davis.

The starting lineup for the Harvesters both nights will most likely remain the same as always. Gallimore and Bond, Davis, Douglass and Howard. Others making the trip will include Buton, Reno, Allison, Hyatt, McGray, and Dale Shaddock, the team's manager.

The rest of the league schedule Friday night takes Amarillo to Brownfield and Plainview to Borger, Saturday night Lubbock to journeys to Borger, a tilt they might drop to the Mannamens.

CLIFTON C. McNEELY, Pampa Harvester coach... Now in second season here... Harvesters hold 14-4 record since he took over in midyear of last season... Have also taken four tournaments, Spearman, Brownwood, Children twice... Spent three years with Army Air Force... Returned to go to college at Texas Wesleyan... Led nation in scoring with 725 points, second highest all-time mark in 1946-47 season... Missed three games with fractured wrist... High game scored 31 points, but TW lost 41-43... Practiced seven days a week... Offered jobs with Phillips Oilers, Boston Celtics, St. Louis Bombers and Syracuse in pro basketball... Went to grade school at all SWC schools... Married Peggy Gallagher, cheerleader at Wesleyan... is now 29, stands 5'10" and weighs 155 lbs.

Baseball Activity Perking Up in WT-NM League

The U. S. Mails will carry contracts to the 1949 Oiler baseball team sometime this week. The deadline for the players to receive the contracts is February 15, and they will all have them by that time. Business Manager Frank Stallings said yesterday.

There will be many new faces on this year's Oiler team. Among the boys that owner R. L. Edmondson has obtained since the close of last season are Ernest Velasquez, a shortstop from Clarksdale of the Cotton State League in Class C, Charles W. Bodine, an infielder from Dapona Beach in the Florida State League, Charles R. Ridgeway, from Fitzgerald of the Georgia State League, Richard C. Lockwood, a pitcher from Pauls Valley of the Sooner State League, Virgil Richardson, a slugger, a first baseman, purchased from Dallas, who had optioned him to Lubbock last season, Dave Peacock, a hard hitting outfielder was purchased from Sweetwater, and another outfielder, Dave Timmer, was drafted from Anniston, of the Georgia State League.

All of these new faces add up to what looks like a good baseball team for the Pampa fans next season.

In other business activity that has taken place in the front office of the Oilers this winter, Foster White was sent to Clarksdale in the Velasquez deal; George Payte was drafted from Gainesville, but Pampa and Borger both have claims on him; Tony Range went to Anniston in the Timmer deal; and the claim of Bob Bartholomew to be made a free agent was allowed, as he was under 21 years of age.

Sunday, Owner Edmondson and Manager Grover Seitz will attend the spring meeting of the West Texas-New Mexico League to be held in Amarillo. Little action is anticipated other than drawing up the 1949 schedule and making salary agreements. The meeting will be held in the Herring Hotel starting at 10 o'clock.

The rest of the league had considerable activity this winter, also. Lewis Flick, Charles Stumborg, Morris Cowser were assigned to Amarillo. Borger got Henry Piarito, Ernest Facco and Marion Grant. Lamesa got Eddie Mellilo and Wilfred Rheinigans.

Albuquerque sent Don Cantrell and Ray Machado to Texarkana, Amarillo lost Wilbur Scott, Bob Crues and Robert German, Borger lost Paul Mitchell, and Lubbock lost Jim Prince and Don Henslek.

All of that activity, and the fact that R. L. Edmondson was seen out near the fence with a can of paint makes it appear that the ball season isn't very far off.

BETTER BOWLING

By BILLY SIXTY

LAST PITFALL: Your delivery can be perfect up to the instant before the ball is released in the forward swing, and still be erratic.

It is at this point, just before release, that the arm must be permitted to swing through on its own power, which is the weight of the ball. Any attempt to apply "stuff," or spin, at this point will throw the arm out of its perfect arc or groove and send the ball high on the headpin. So you can see, there is a chance for error.

The wrist has turned easily, and it must continue to turn smoothly to the release of the ball. The arm will then swing through straight, and there will be sufficient spin on the ball to split all the pins.

The picture was taken from an action photo of Ray Schanen, an outstanding Milwaukee bowler, who rolled a 300 game in a recent world night match championship, and it illustrates several important things:

The first thing you'll notice is that he is finishing the stride with a good slide, the body thrown slightly over on the left leg in perfect balance. The extended left arm helps in maintaining balance. 2. The slide is in a straight line, the result of a straight stride, or run. 3. His shoulders are perfectly aligned.

Next notice how the body, in a crouch, is completely relaxed, as it must have been from the pushaway, in the beginning, to continue to be loose at this final stage of the stride. And last, his arm is swinging freely, like a pendulum, in a straight line... making it good all the way through.

Hickson Battles Paggi Tonight

The big, bad Gorilla is back tonight to try and whip young Billy Hickson in the main event on the Sportatorium wrestling card. Billy is just sharp enough to turn the tables on Gorilla Paggi, too, but probably not quite dirty enough. Gorilla has been wrestling long enough to know that what he can't get by fair means he can get by choking, slugging, kneeling, hair pulling and every other uncouth method.

Hickson, on the other hand, though he has been fighting a long time, has remained a clean, fair fighter. Only when he gets mad does he resort to houghhouse tactics. But the Gorilla is apt to get Billie's ire up, so it should be a rough and tumble match.

The preliminary event, a forty-five minute affair, will pit Billy Parks and George Burckman. Parks appeared here two weeks ago in a tag match, and proved to be a fine workman. He has a good knowledge of leverages and holds, is fast, and should be one of the better wrestlers in the circuit after he meets a few more of the boys and learns their methods. Burckman has never appeared here. He was scheduled to go last weekend, but

Whales can remain submerged for periods up to 90 minutes.

Reapers Win

The Reapers yesterday scored a double victory over the Phillips Junior High School. The Reaper B squad downed the Phillips varsity 23-4. High point man for the Reapers was Mary Bond, who accounted for nine of their points. Cook was second with seven. The score at halftime was 9-1 in favor of the Reapers.

PAMPA BOWL

BOWLING IS HEALTHY

LIVE on easy feet!

You can feel more fit the instant you slip into a pair of these soft, mellow calfskins because of the famed FREEMATIC cushion... an exclusive Rand feature which means featherbed walking comfort. Really fine leather, custom last and flexible leather soles to assure miles of good service.

13⁹⁵

THE RAND FREEMATIC

Smith Quality Shoes

POWER PLANT

that uses its Head!

THIS is the husky thrill-producer you find filling the bonnet of any 1949 Buick.

Look it over and you'll observe, among other things, that it is a **valve-in-head** straight-eight.

In simple language, this means that years ago Buick engineers lifted the valves from the side of the cylinder and put them on top—with some immediate advantages.

Such an engine "breathes" better. Gets a full, even charge on every intake—exhausts spent gases more easily—enjoys extra power, life and ginger.

And in such engines, compression ratios are relatively easy to establish. To step them up, the head is merely brought closer to the piston—no extra problems are presented getting fuel in and exhaust out.

Thus Buick power can—and has—kept pace with progress in fuels. Compression ratios suit gasolines actually available—and there's no

waiting for tomorrow's gasolines to get full performance.

That's enough reason to see your Buick dealer now, with or without a car to trade, to get your order in.

There are other things to notice about this engine.

It's a Fireball power plant—uses a special and exclusive type of piston that gets more good out of each fuel charge.

And it speaks with soft, new quiet. Self-setting valve lifters automatically keep valves properly seated, ending tappet noises for good.

With gasolines getting better, the swing to valve-in-head design will undoubtedly grow stronger. But that is what Buick has had all along—a power plant that uses its head to give extra lift and thrill.

BUICK alone has all these features.

Silk-smooth **DYNAROW DRIVE**—FULL-VIEW EASY DOORS and easy access "LIVING SPACE" INTERIORS with Deep-Cradle cushions • Buoyant-riding **QUAD-RUFLEX COIL SPRINGING** • Lively **FIREBALL STRAIGHT-EIGHT POWER** with SELF-SETTING VALVE LIFTERS plus HI-POISED ENGINE MOUNTINGS • Cruiser-Line **VENTIPORTS** • Low-pressure tires on **SAFETY-RIDERS** • **DUREX BEARINGS**, main and connecting rods **BODY BY FIBER**

*Standard on KODIAK, optional on other Buick models.

"Buick's the Buy"

Hamline Is Lone Unbeaten Team

NEW YORK (AP)—Hamline held the line alone today—the nation's only major unbeaten college basketball team.

The St. Paul school's 14-0 record stood by itself in the perfect class after the defeat of Villanova last night by Duquesne.

The Dukies stunned Villanova, which had won 12 straight starts, 65-37, at Pittsburgh in the feature game of a riotous evening's play.

Purdue upset Illinois' Western

Conference leaders, 55-53, at Lafayette and Butler scored their first victory over Notre Dame in seven years, 68-64.

Otherwise, play ran true to form with Kentucky, the nation's new No. 1 quintet in the Associated Press poll, leading the parade.

Adolph Rupp's Wildcats opened a heavy week of Southeastern Conference activity by humbling Vanderbilt, 72-50.

Minnesota supplanted Illinois, its conqueror last week, at the head of the Big Nine by defeating Northwestern, 61-40.

Western Kentucky won over Kentucky Wesleyan, 80 to 74.

Brigham Young whipped Utah for the second straight time, 65 to 45, to go into a tie with Denver for the Big Six Conference lead as Utah fell to third.

Nebraska, unbeaten in the Big Seven race, scored its third victory in the conference by nailing Kansas State, the defending champion, at Lincoln, 70 to 48.

Pat Kennedy, chief official of the Basketball Association of America, lost eight and a half points while officiating a Rochester-New York game.

PROFESSORS LET OUT—Climaxing several months of investigation, the Board of Regents of the University of Washington fired three professors for Communist Party affiliation in "precedent-shattering" action in the field of education. The three who were dismissed are Professor Herbert J. Phillips, top left, shown conferring with State Communist Party Secretary Clayton Van Lydegraf at the board's hearing; Associate Professor Joseph Butterworth, lower left, and Associate Professor Ralph Gundlach, lower right. Phillips admitted present Communist Party membership. (NEA Telephoto.)

SPORTS AFIELD

By TED KESTING

After all is said and done, the basic rule in hunting squirrels is to "go slow and quiet." You can know all there is to know about the habits of the bushy-tails and have complete accuracy with a .22, but if you can't "die" in squirrel timber your luck is nil.

Once you've learned to walk with an Indian tread, Lea Yeager, veteran squirrel hunter, says that the ability to recognize squirrel food trees is of great value. You have "lots of things to go by: size and shape of trunk; color and structure of bark; leaf size, color and pattern; and the site on which various trees are likely to grow.

There is one point worth knowing about oaks, or acorns. Some (the 20 varieties of white oak) are sweet, the others bitter. Squirrels pass up the northern oak with only a nibble if other foods are available.

In late October hunt out the likely food pockets—a grove of haws, a clump of red-berried dogwood, hazelnuts, frostbitten grapes. Osage orange "apples" are more of a winter than a fall food. Corn whether standing, shocked or cribbed, is good hunting any time of the year.

Weather has pronounced effects on squirrel activity. When zero temperatures prevail, they hole up in snug, leaf-filled dens. During hot, humid weather they are confirmed siesta takers.

One key point to remember is that neither fox nor gray squirrels hibernate in the true sense.

Invasion Prober

Paul C. Daniels is the U. S. member of a five-nation commission investigating Costa Rican charges that its territory has been invaded by armed forces from Nicaragua. Daniels is director of the State Department's Office of American Republic Affairs. Representatives from Brazil, Colombia, Mexico and Peru complete the commission.

Severe weather merely slows them down.

Squirrel hunters probably make more use of their ears than any other group of sportsmen, detecting as much game by ear as by eye. With ear trained to identify these sounds: the rattle of teeth on a walnut, the whirring of feet on bark, or steady plop of falling

HAROLD WRIGHT
Insurance Agency
"Right Service"
107 E. Foster Phone 1264

squirrel cuttings on leaves below, the hunter has twice the power of apprehending game. But a good squirrel hunter must also be able to see—to detect a gray squirrel flattened out on a limb, or rustles amid autumn leaves. With practice you can develop this skill to where the slightest movement registers "game!"

ONE JUROR NEEDED
BROWNSVILLE (AP)—Only one more juror needed to be chosen today to complete the jury for the trial of Michael H. Byars, charged with murder in the death of his wife. Mrs. Byars' body was found on a burned bed in the couple's Harlingen apartment last August.

It is estimated that only one out of three persons suffering from rheumatism in the United States receives treatment by a physician.
