Tire Board Approves 104 Applications Last Thursday

The Tire Panel of the Dawson County War Price and Rationing Board approved the following tire and tube applications at their regular meeting Thursday afternoon, May 6.

GRADE I TIRES

Haskel West, W. L. Lauderdale, E. L. Hatfield, E. Brand, John B. Bagwell, Walter Sellers, J. Fred Smith Jr., Roscoe Holton, Fred Dunn, Dan Corley, Willie T. Coker, W. M. Yates, Otis B. Goodson, William G. White, H. J. Woodul, Charles T. Trammel, J. T. Little, E. O. Hadaway, S. P. Bruce, John R. Westmoreland, Billie L. Marshall, Suttle Purcell, J. M. Allen, J. M. Merrick, S. L. Stephens, Jerry L. Meyers, G. R. Gorman, John W. Gist, Ray D. Lawler, Bud Herndon, James F. Finney, John S. Jeter, John O. Goodson, Clay Randolph, Jerline R. Felts, Alfred L. Sirkel, Henry C. Powell, John F. Jackson.

GRADE II TIRES

Tracey Campbell, Clifton C. Rander, V. O. Key, Aylor Coley, S. B. Moore, G. L. Pritchett, Robert L. Deatherage, Lee Hudson, Curtis A. Sanders, T. S. Johnson, Alfred Elkins, T. J. Corbitt, C. P. Wortham, J. W. Shaw, George M. Tyler, A. L. Braswell.

PASSENGER TUBES

Tracey Campbell, William L. Lauderdale, A. L. Braswell, Emery L. Hatfield, Walter Sellers, J. Fred Smith Jr., Roscoe Holton, Willie T. Coker, James B. Taylor, Suttle Purcell, S. B. Moore, J. M. Allen, G. R. Gorman, John W. Gist, L. L. Peters, E. L. Allen, T. J. Corbitt, G. M. Tyler.

FARM IMPLEMENT TIRES

Edward C. Hatch, James B. Taylor, Aubrey F. Pitts, Robert Huse, T. B. Franklin, W. L. Womack, James H. Bridges, R. N. Lacaster.

TRUCK TIRES

L. J. Hale, Charles Roberts, Henningsen, Lamesa, Inc., Gulf Research, Dawson Ind. School, McGuire and Campbell, Jenkins and Woods, Texas Utilities, Victor B. Hohn, Petty Laboratories, E. R. Yates, Painter and Mayfield, Ruben L. Jones.

TRUCK TUBES

L. J. Hale, McGuire and Campbell, Jenkins and Woods, Petty Laboratories, E. R. Yates.

Black Markets Boom In Belgium

LONDON (AP) — Food supplies are so inadequate in German-occupied Belgium that stores no longer are able to furnish authorized rations of many products and people are forced to resort to Black Markets and their skyhigh prices, says the Belgian News Agency.

On the Brussels Black Market butter costs \$5.50 a pound, sugar \$1.25 a pound and a bar of soap 95 cents. The agency says flour costs \$1.60 a pound, a pair of men's shoes cost \$56.00, women's shoes \$40 and a shirt \$8.00.

Only second-hand shoes are available for children.

HOW TO LOSE FRIENDS IN ONE EASY LESSON

GOLDSBORO, N. C. (AP)—Mrs. R. G. Creech registered surprise when she saw her husband pull dozens of letters from his overcoat pockets. She was more surprised when she opened them. They were last year's Christmas cards he had forgotten to mail.

Lamesa Students Win Places At Austin Meet

Mary Ellen Tarter won second place in the State Shorthand contest to lead the Lamesa student delegation in Austin last Friday and Saturday in the State Interscholastic League contests.

A. J. Broyles was tied with Emil Martinez of Brackenridge High School, San Antonio for third place in Tennis Boys Singles.

Ann Boyd and Jack Reese, placed fourth respectively in the Senior Girls and Senior Boys declamation events.

Virginia Broyles was defeated in the first series of play in girls tennis and no report is at hand about Betty Renner's placement in Shorthand.

The delegates report the meet was well attended by contestants and the competition was said to be close and hard.

The student delegation was accompanied by Sup't. Rogers, Mr. and Mrs. Jack Broyles and Mrs. Fred Reese.

Truth About Farmers' Income

Income to the nation's farmers rose to a new high in 1942, but the increase was not evenly distributed, says C. E. Bowles, specialist in organization and cooperative marketing for the A. and M. College Extension Service.

He explains that the net return from agricultural production to farm operators for their labor, capital investment, management and unpaid family labor was about 10 billion 200 million dollars, according to the U. S. Department of Agriculture. Benefits of the higher farm income were largely wiped out since prices paid by farmers for farm and home necessities reached the highest point in 20 years. Farmers make up 22 1-2 per cent of the population but receive only about 13 per cent of the national income, Bowles adds.

Farmers in different section of the nation and growers of various crops shared unevenly in the increased income. Income from crops was up '37 per cent over 1941 but was considerably below the figures for the last war period. Certain crops relatively unimportant in Texas, such as flaxseed, soybeans, potatoes, winter cover crop and vegetable seeds brought growers about twice as much income in 1942 as in 1941. Income from cotton and cottonseed reached the highest point in 13 years and for Texas was 29 per cent over the previous year. For each dollar of this increase in cotton income 95 cents came from the sale of lint and only five cents from the sale of cottonseed. Livestock producers fared better with incomes about 39 per cent about 1941.

Bowles says that for each \$100 of income received by Texas farmers in 1942, only \$5.67 was from government farm programs. For the nation as a whole, government payments to Texas farmers were 5 per cent below 1941 and 30 per cent lower than in 1940.

Lt. Col. L. B. Reed Speaks To Okla. City Rotary Club

FORT SILL, Okla. (Spl.)—Pointing to the danger of set punishment for military offenses, Lt. Col. Louis B. Reed, staff judge advocate for the Field Artillery Replacement Training Center of Fort Sill, told Oklahoma Rotarians this week that justice must be tempered with judgment to fit the case of the individual.

"You cannot measure human nature as you can corn, cotton or any material commodity," Colonel Reed declared, "nor can you assess judgment in any case without considering the manner in which the law is violated, the seriousness thereof, the intent and motive and the temptation involved."

Speaking to an audience of 1,200 Rotarians at Oklahoma City, Colonel Reed, judge of the 106th judicial district, Lamesa, explained the "Legal Problems of the Newly Inducted Soldier," and what the Army is doing to solve their problems.

The colonel was named this week as Legal Assistant Officer for the Replacement Center, which office he will handle in addition to his regular duties.

Establishment of the office was effected for the benefit of officers and enlisted men. "Who are troubled about legal matters or who need advice on the best method of straightening out difficulties which may exist in their families at home."

Canning Sugar Applications Can Be Made May 15

Persons with spoiling fruit may now make application for extra sugar for canning, the food panel of the Dawson County War Price and Rationing Board revealed this week. Unless you now have fruit that is spoiling you are requested to wait until May 15 to register for canning sugar, the rationing officials state.

All those applying for canning sugar must present their War Ration Book 1 for each person requesting sugar.

The following information should be given to the ration clerk at the time application is made:

1. The name of the consumers on whose behalf the application is filed and the serial numbers of their War Ration Book No. 1.
2. The number of quarts of fruit canned in the preceding calendar year.
3. The number of quarts of fruit then in the possession of the individual or family unit applying.
4. The number of quarts of fruit to be canned during the period for which the application is being made.
5. Whether or not sugar is to be used for preserving.
6. The excess sugar supply as of the time of registration.

BETTY JEAN WHITE ELECTED AS YELL LEADER

Miss Betty Jean White, daughter of Mr. and Mrs. W. G. White of Lamesa has been elected yell leader at Hardin Simmons university by the student vote. She is a junior and a member of the colorful Cow-girls.

Lamesa and Dawson County Gets Good Rain Sunday

District 2-T Lions Meet At Lubbock On May 16 and 17

LUBBOCK, May 10. — Over 200 official delegates from the 66 Lions Clubs in District 2-T of Texas are to be in this city May 16 and 17 for the 1943 annual meeting of the district, which will be in the form of a "War Conference." The central theme is to be, "What Can Service Clubs Do In The War Effort?"

All local arrangements for entertaining the visitors and presenting the various features on the business programs of the two-day event have been completed under the direction of Harry Morris and Dr. Marshall Harvey, president and secretary, respectively, of the Lubbock Lions Club.

D. A. Skeen, Salt Lake City, Utah, second vice-president of Lions International, will be one of the speakers on the Monday morning (May 17) session. Others who will participate include Roy Keeton, Austin, state secretary of the Texas Lions Clubs, H. C. Pender, Lubbock, past district governor, and Murray H. Fly, Odessa, retiring district governor of District 2-T.

Climaxing the conference will be the Governor's Banquet and Ball Monday evening. Ralph Randall, Panhandle, an outstanding humorist will act as master-of-ceremonies for that feature.

Included in the territory of District 2-T are all the Lions Clubs in Texas west of Wheeler, Childress, Snyder, McCamey and Fort Stockton. Reports to officials of the host organization indicate that all of the 66 clubs will be represented.

Sunday afternoon will be given over to registration and fellowship, with a special religious service at the First Baptist church in the evening.

Formal sessions of the conference will get underway at 10:00 a. m. Monday morning in the auditorium of the First Baptist church. International Vice-President Skeen, and others will take part on that program.

The Convention Bureau of the Lubbock Chamber of Commerce is assisting various committees of the Lubbock club in arranging for the forthcoming gatherings.

Plans Utopia For Maimed Soldiers

JOHANNESBURG (AP) — Legless Murrrough De Burg Nesbitt, 48-year-old South African, is planning a Utopian village for maimed soldiers.

A civilian, Nesbitt lost both his legs, and was told he would be crippled for life. He defied the combined verdict of thirteen doctors, and, fitted with artificial limbs, learned to swim, ride, dance, play golf. On one occasion he discarded his limbs and topped all South African high-dive records with a 78-foot leap into the sea. Today the only sign of disability is a slight limp.

Nesbitt claims that as he overcame all handicaps maimed soldiers should be able to do the same. He aims to make his village self-supporting.

A welcome rain was received in Lamesa and Dawson County late Sunday afternoon and night, with the official rain gauge of Lamesa showing participation of 1.106 in Lamesa proper.

As far as the Courier can learn the rain was general over the county, averaging from one inch to several inches. Rain was reported to have fallen all the way from Lamesa to Lubbock and from Lamesa to Big Spring.

Hail accompanying a hard down-pour of rain here in town, is thought to have seriously damaged victory gardens and fruit trees.

Farmers in the southwest part of the county report small crops to be damaged in spots where hard down-pours of rain fell, some lakes are reported to be full in that part of the county. Reports from north of town are that from one inch to 2 inches of rain fell.

Many farmers in the county had already planted, others had reported it too dry to plant. The rain was badly needed in every section of the county. The last small rain fell on April 8 and measured only .84 here in town.

Senior Class Play To Be Given On Friday Night

"Ever Since Eve," this year's Senior Class play promises to be one of the best high school productions in years, according to all those who have looked in on rehearsals which have been held daily for four weeks.

The play is a new comedy written by a pair of Hollywood actors, who have been in the profession since they were high school students and every situation is full of human interest.

Billy Jo Norris has the leading male role and is doing a splendid portrayal of Johnny Clover, who desires to start a high school newspaper. Billy Sue White plays opposite Billie Jo and represents the attitude of a group of other girls who are determined to have a part in the publication of the school paper. Just how they work this out and finally succeed in "horning in" makes a hilarious comedy that will linger in the minds of those enjoying it for a long time to come.

There is a strong supporting cast made up of: Lotta Bess Baldwin, Anne Hurt, Anne Manning, Frances Bartlett, Marvin Standefer, Fred Reese, Bill Carpenter, Dale McIlroy, Tucker Phinizy, and a group of football boys.

Plan now to see this delightful comedy. Admission will be 25c and 35c. The play begins at 8:30 in high school auditorium Friday evening, May 14.

Stations Must Check Gas Stamps

According to a report from the Dawson County War Price and Rationing Board filling stations must not accept Gasoline Stamp No. 6, until after May 22, the date it becomes valid.

Filling station operators must check closely before tearing a stamp from a Gasoline Ration Book, and be sure that valid stamps are used, the board states.

Pressure Cooker Rationing Hints

Suggestions for making the best use of Texas' quota of rationed pressure cookers were drafted here last week by the State Advisory Committee on pressure cooker rationing after a conference with representatives of the Texas USDA War Board.

Members of the committee present included Mildred Horton of the A. and M. College Extension Service, chairman; Mattie A. Trickey, Dallas, of the Farm Security Administration; Ruth Huey, Austin, of the department of homemaking education; and Ed Voltin, War Board Assistant, AAA.

Thus far the Texas USDA War Board has not been advised what Texas' share will be of the 150,000 war model cookers being manufactured by authority of the War Production Board. County Farm Rationing Committees of the County USDA War Boards will be responsible for the pressure cooker rationing program, but they may obtain assistance of advisory committees composed of three women familiar with rural and urban needs for cookers.

In addition, county committees may be set up, consisting of the county home demonstration agent, the FSA home supervisor, and a homemaking teacher to be designated by the department of homemaking education. The state advisory committee is suggesting to these representatives that they give instructions on the use and care of the war-model pressure cookers to all persons and groups obtaining them.

"We recommend use of the steam pressure cooker as the only safe method for canning non-acid vegetables and meats," members of the committee said following their conference. "Home Canning of Fruits and Vegetables," a publication of the Texas A. and M. Extension Service will be used by the three agen-

Protect Dairy Cows From Flies

Dairy cows cannot be expected to give maximum production when they are annoyed by bloodsucking flies. According to Dr. H. G. Johnston, entomologist for the A. and M. College Extension Service, the horn fly and stable fly are the chief tormenters of cattle in summer. These species also are capable of transmitting certain diseases of both cattle and humans.

The most effective means of controlling horn flies is a trap so placed that cows will be compelled to pass through it daily going to and from water, pasture or the barn. A series of curtains within the trap

acts as the technical guide in canning.

framework brush the flies from the animals and they are caught in screen wire traps along the side. Plans for constructing the trap may be obtained from the county agricultural agent.

These flies also may be killed by using a spray containing pyrethrum extract and kerosene. It is not necessary to direct the spray into the animal's body, Dr. Johnston says. Better results are had by developing a fine mist with a good hand or power sprayer around the animal, especially the legs and under body.

Production of dairy herds may be lowered as much as 50 per cent when the stable, or biting housefly, becomes abundant. The most practical means of control is elimination of breeding places. Straw and peanut litter to be used for bedding should be baled or otherwise stored in a dry place. If dry storage space is not available proper stacking in

the field at threshing time, and keeping the base of the stack free of loose straw or litter will greatly reduce stable fly breeding. Manure and soiled bedding should be spread on the field at least once weekly or stored in dry bins.

Dr. Johnston recommends pyrethrum oil sprays also as effective for stable flies.

EWEDEN LOSES 166 SHIPS IN WAR

STOCKHOLM (AP) — Since the outbreak of the war until the end of 1942, Sweden's merchant marine lost a total of 166 vessels, or 447,365 gross tons, including ten fishing boats of 601 gross tons. In addition 1,011 persons lost their lives, according to a report by the Swedish Board of Trade.

One of the earliest American newspapers was the Boston News Letter, first published in 1704.

Beavers Invade West Va. Farms

CHARLESTON, W. Va. (AP) — Those pesky beavers art at it again in West Virginia, so many of them will have to start building new lodges.

During the past years, the conservation commission said the animals not only lived on their normal diet of willow, birch and other woods, but got away with quite a few garden and farm crops. In addition, the fur-bearing animals were flooding too many meadows in some of the counties.

To put a halt to the destruction, 23 beavers were live-trapped and taken to areas on state and federal lands where conditions for their establishment were more favorable.

Announcing...

THE FIRST MONTHLY

DAIRY SALE

WEDNESDAY MAY 12TH, 1943
AT 2:00 P. M.

At the A Bar Ranch 4½ miles northwest of Lamesa on the Brownfield highway and 1½ miles west.

Realizing the important part that dairy products are playing in the Food for Freedom Program we are attempting to assist the dairymen and farmers of this section in the War Effort by devoting the livestock facilities of this ranch to the handling, fitting and selling of high grade dairy cows.

Cows sold by us will be guaranteed to be exactly as represented and a production record will be furnished on all producing cows.

It is our aim to establish a reputation for handling high producing dairy cows and any cow acquired by us, in the course of our dealings, which does not meet our high standards will not be sold for a dairy cow.

We have over 100 head of fine dairy cows on hand now. 75 will be sold at this sale and the balance will be available for inspection and will be sold at a later date.

75 cows will be sold, 35 Fresh Heavy Producers with calves, 40 Heavy Springers.

HOLSTEINS AND JERSEYS

By all means do not miss this sale

Immediately preceding the sale an interesting talk will be made by Prof. W. L. Stangel, President of the Holstein-Friesian Association of America.

MRS. K. W. ROSE, Owner

JIMMIE WILLIAMS, Mgr.

Col. Kenneth Bozeman, Auctioneer

Cotton Tweeds To Be Popular For Home Sewing

NEW YORK, N. Y. — Cotton tweed that make up beautifully into coats and suits are the most talked-about newcomers in the Spring-time fashion firmament. The tweeds are now being seen in window-pane plaids of soft-toned pastels and in high shades, as well as the conservative monotone plaids and checks. Some of them are co-related so that a stripe can be used in a suit, and the related plaid in a coat.

And speaking of coats, suits, and Spring, cleverly designed suits will be tops. The most popular will be built around the dirndl theme; and whether it's to be a pinafore or a basque dress, it still will be full skirted, slim of waist and prettily ruffled.

Fabrics and colors will be determined by the availability of fabrics, which means that most of them will be made of cottons, such as: chintz, calico, upholstery cloth, table cloth cottons, percales, gingham and piques. Also highly popular will be a new "quiltweave" that looks like a giant waffle pique, yet has enough body for the cool days of Spring.

For the junior miss, Spring's suits will feature lower waistlines, and even in the two-piece styles, the waistlines will be dropped and jackets cut longer over the hips in the best "Sloppy Joe" tradition.

Sailors' Kicks Please Kiefer

By HARRY C. NASH
AP Features

NORFOLK, Va. — Adolph Kiefer's record-busting days are behind him — at least for the duration — but the Chicago-born swimming star gives them little thought as he works at something vastly more important than any title he ever won.

"Teaching fellows something that may later save their lives," is the way the holder of all the world's backstroke records explains what he's doing as a chief specialist in the Navy at the Norfolk Naval Training Station.

"I get a big kick out of doing something which I think will help a little," Kiefer said modestly. "Just now we are teaching instructors who, in turn, will teach recruits at other stations."

Kiefer has observed that most bluejackets who undergo the swimming tests can swim in acceptable fashion under normal conditions, "but, as we all know, when a ship is sunk and men must climb aboard rafts to save their lives, normal conditions no longer exist."

"Our swimming program is being made more practical every day. We try, as best we can, to simulate actual abandon ship conditions and teach men what to do when they have to swim for their lives."

Under Kiefer and other swimming instructors here, the non-swimmer is taught fundamentals and how to remain afloat until aid arrives. "It's not necessary to teach style or form, but just show the men how to swim until help comes," Kiefer explained.

Kiefer, now 24, established his first world's record when he was only 15. From 1935 until early April, 1942, he was unbeaten in his backstroke specialty. Then Harry Holiday of Michigan whipped him narrowly in the national AAU indoor meet.

SWEET PILOT

PUEBLO, Colo. (AP) — The two dozen children who attend Wilson school in the prairie country 20 miles southeast of Pueblo would like to know the identity of the airplane pilot who regularly flies low over the schoolhouse, dips his wings in salute and then drops candy bars.

Mr. and Mrs. Matt McCall had as their guests Saturday Mrs. McCalls Brother A. A. Reagan and Mrs. Reagan of Dallas. They all went to Lubbock for the week end with their parents.

Lofly Virgil Of Big City's 'Eyes'

By HOWELL DODD
AP Features

NEW YORK — The top of a Manhattan skyscraper in early spring is no place to fool with the weather. So, when he climbed out into the terrace, the observer of the Aircraft Warning Service, was dressed for the occasion.

Under an enormous fur coat he wore an ordinary overcoat and a suit, a sweater, an extra pair of pants and long woolen underwear. A knitted cap and scarf protected his head and neck and over his shoes he wore fur-lined glases which he considered the most important single item of his attire.

His eyes were constantly shifting, sweeping across the sky, searching for anything that might appear out of the distant haze.

"A fellow develops roving eyes and sharp ears," he said. "I can sleep through any thunderstorm, but the sound of a plane motor will usually wake me up."

At the edge of the parapet, braced against the wind, another spotter was gazing out across Long

Island. He identified a tiny speck of reflected light as a plane on the runway at LaGuardia Airport almost six miles away.

From time to time planes would appear — a B-24, a transport, a group of Thunderbolts. Each time they were duly noted and reported by telephone to the Army Information Center.

After about thirty minutes, we were glad to climb back inside. There we drank coffee and talked with a distinguished looking moustachioed gentleman, a former alderman who was waiting to go on duty. The post is manned on a 24-hour schedule by typical middle-aged New Yorkers. The youngest, 44, is a stevedore; the oldest, a retired business man of 65.

They are intent and earnest, for they realize that some day they may be reporting enemy bombers over Manhattan. I asked whether they would seek any shelter after an actual raid started. The answer was simple:

"We stick to our post until expended."

Old manuscripts show that the manufacture of writing ink had reached a high degree of perfection in the middle ages.

BRITISH BEAT BOMBS IN BATH-TUBS

LONDON (AP) — What a nice safe spot in an air raid? Try the bath tub.

This suggestion comes from London householders who have been reinvestigating the safe spots in their homes. They say the best natural shelter is the bath. So they are making their baths as bed-like as possible.

They point out that the bath is practically the only spot in a house that is almost always out of the direct line of the windows. It also acts as a dugout against "side at-

tacks" and stray pieces of flying glass. Some advocates of bath "shelters" have even made wooden roofs for their tubs as further protection.

Fathers who did not marry off their children before they were 18 were fined in Canada's early days.

'Solid Sender' Idol Says Hitler Of Jitterbugs

By RAY PEACOCK
AP Features Writer

NEW YORK — Three-years ago round-faced Charlie Spivak gamble a sure thing: his \$1,000-a-week job against the uncertain future of a dance-orchestra leader. And he won.

Today, Charlie, who plays what is modestly billed as "the sweetest trumpet in the world" is causing a major shakeup of the Big Ten in the dance-band field.

The well-established Martin Block "Make Believe Ballroom" semi-annual popularity poll ranks him sixth. He rated ninth in Billboard's highly indicative 1942 poll of college students. Downbeat styled him as the band which made the most progress in 1942. The real payoff will come in Billboard's 1943 collegiate poll, soon to get underway.

Spivak frankly caters to the youngsters. Jitterbugs — and right now a lot of them are wearing service uniforms — turn up wherever he appears.

Keeps Quality

The band has a personnel of 22 — eight brass, including Charlie; five saxes, four rhythm, and five vocalists. Since last summer Charlie has had to make a dozen changes because of the draft, but he kept up his quality by taking over Glenn Miller's entire trombone section when Miller went into the service. His vocalists include the Stardusters, one of whom is pretty June Hutton, sister of Ina Ray.

While Charlie has accomplished all this in three years, becoming an orchestra leader was just a process of evolution.

The broad-shouldered leader has blue eyes and brown hair, was born 30-odd years ago in New Haven, Conn. His parents were Russian, his father a grocer. Charlie began playing a trumpet in bands as soon as he finished high school, and by 1925 was with Paul Specht. He played for Ben Pollock, the Dorsey Brothers, and Ray Noble, where he sat alongside Miller in the brass section.

Then he turned to free lancing in radio. He was on ten to twelve commercial programs a week. Some paid \$100 and more. Multiply it out yourself, Junior. But Charlie was unhappy.

"I had to play a certain style, not the way I wanted to. I didn't want to get old on the job. So I went with Bob Crosby — for \$85 a week. After Crosby it was Tommy Dorsey. Then the leader bug got me. All the boys I had played with were leading bands of their own. So I would try it."

His climb to success curiously has been associated with the Hotel Pennsylvania, in New York. The

Says Hitler Apes Caesar

PITTSBURGH (AP) — You wouldn't believe it, but the Latin course in Winchester - Thurston girls' school here is tremendously popular — all because Anna Mary Gerwig, one of the instructors, is giving Caesar a modern parallel in Hitler.

Caesar, like Hitler, started his conquests on small, unarmed nations, Miss Gerwig says. The path of his legions in Helvetia was smoothed by Orgetorix, an early-version Quisling. The Helvetians burned villages and grain fields before the advancing Romans, just as the Russians have done.

Caesar also built a "Maginot Line," says Miss Gerwig, a 19-mile ditch and wall along the Rhone river, with "pillbox" forts at intervals.

TOURISTS INCREASE AT MORMON TEMPLE

SALT LAKE CITY (AP) — War or no war, the number of visitors to Temple Square, site of historic Mormon Temple in the heart of Utah's capital, actually is increasing.

John H. Taylor, Temple Square mission president, reported that in the first two months of this year 27,029 visitors were counted compared with 25,076 in the same period last year and 24,774 two years ago.

first time his band played there, three years ago, he relieved Miller's band for an hour at a time. The second time, only last spring, he filled in for four weeks until Jimmy Dorsey could move in. The third time was over last Thanksgiving and Christmas, a full-fledged eight-week booking, during which the Pennsylvania's dining room set attendance records.

'Solid Sender'

In between the first and second dates he ran into hard times. His original band broke up at Cincinnati for lack of bookings, and when he did get a date at the Glen Island Casino, in New Rochelle, N. Y., he had to hire a new band. But the Casino was lucky for him, as it has been for many other name bands, and it was in 1941 that he began getting underway.

Today this solid sender has more opportunities than he can handle. After a current midwestern theatrical tour, he has a date at the Hotel Sherman in Chicago, bookings on the west coast, a tentative motion picture and a prospective radio show.

Charlie married a St. Paul girl and has a son, Joel, eight this past April, who has broken into print several times as a song writer. They make their home in Englewood, N. J.

Governor Signs Loan Shark Bill

Rep. R. Emmett Morse (left) of Houston hands Gov. Coke R. Stevenson (center) a pen to sign the loan shark injunction bill while Sen. Weaver Moore (right), also of Houston, look on. Rep. Morse and Sen. Moore sponsored the legislation, which authorizes the Attorney General and county and district attorneys to enjoin persons or firms which habitually violate the 10 per cent interest rate maximum in Texas. It permits service charges of \$1 for each \$50 of a loan.

The Washington National Monument at Washington, D. C., is 555 feet high.

In the 19th century travelers on the western plains often killed buffalo simply to eat the tongue.

Victory Garden Sure Cooperates

GUYMON, Okla. (AP) — Nora Key went out to spade up a plot of ground for a Victory Garden and got food production immediately. The first spadeful turned up a big carrot. Then she dug up another and another until she had about as many as she would need. The carrots were an unexpected dividend from last year's garden. The frosts of winter had not damaged them a bit.

DRUNKENNESS DECLINES IN LONDON

LONDON (AP) — Fewer than 9,000 persons were arrested for drunkenness in London during 1942, compared with 12,000 in 1941 and 20,000 a year before war.

Miss Elizabeth Arnett Takes Vows With Captain Richard Bennett Friday Afternoon

The marriage of Miss Elizabeth Arnett, daughter of Mr. and Mrs. W. D. Arnett and Captain Richard Bennett, son of Mrs. Grace Bennett of Albuquerque, New Mexico, was solemnized Friday afternoon at

5 o'clock in a single ring ceremony read at the home of the bride's parents, by Rev. E. D. Landreth, pastor of the First Methodist church.

Mrs. Noble H. Price sang "Because" (D'Hardelot) preceding the ceremony, accompanied by Mrs. Carl Rountree who offered the traditional wedding march, "Bridal Chorus" (Wagner).

The couple exchanged vows as they stood before an altar formed of baskets of peonies and carnations. Roses decked the other rooms.

The bride, who was given in marriage by her father wore a light blue gabardine suit and chartreuse blouse with navy accessories. Her corsage was made up of orchids.

A reception was held after the ceremony at the home of the Arnetts. The serving table was laid with a normany lace cloth and centered with a bouquet of white and yellow Iris and Snapdragons. A three tiered wedding cake and punch were served to immediate family members and a few close friends. Mesdames J. E. Garland, J. H. Clark, Tom Burnside and Stanley Wilkes presided at the bride's table.

Mrs. Bennett is a graduate of the Lamesa High School and has attended Texas Technological college where she majored in speech. She attended the School of Dramatics at Dallas two years and has had little Theatre work in Dallas, Charleston, South Carolina, and Albuquerque, New Mexico.

Captain Bennett is a former student at the University of Chicago where he held membership in Sigma Chi. A captain in the infantry, he is to be stationed at Macon, Georgia. The couple left immediately after the reception for Macon.

MISS HELEN McCOY BECOMES BRIDE OF GERALD COSTIN

Miss Helen McCoy, daughter of Mr. and Mrs. Roy McCoy, became the bride of Mr. Gerald Costin, son of Mr. and Mrs. S. B. Costin Friday May 7, at 3:30 at the home of Rev. and Mrs. E. F. Cole.

Rev. Cole, pastor of the First Baptist Church read the double ring ceremony.

The bride was attractive in an aqua blue crepe dress and black and white accessories. Her corsage was made of gardenias. She was attended by Wanda Jean Esmond who wore a yellow gabardine suit and brown accessories.

Mrs. Costin is a graduate of the Lamesa High School and for the past year has been employed at the AAA Office. Mr. Costin is also a graduate of Lamesa High School and for the past several years has been employed at Bryant Drug Co.

Immediately following the ceremony Mr. and Mrs. Costin left on a short wedding trip.

Guests attending the wedding were Mr. and Mrs. Roy McCoy, Mr. and Mrs. S. B. Costin, Pvt. and Mrs. H. B. Costin and Judy, Mary and Lois McCoy, Wanda Jean Esmond, Mr. and Mrs. Roy Cole of Baltimore, Maryland, and Rev. and Mrs. E. F. Cole.

MRS. R. B. KERBOW TO REVIEW "THE ROBE" TUESDAY

The Smile On Sunday School Class of the First Methodist Church will sponsor a book review "The Robe" by Lloyd C. Douglas Tuesday evening May 11, at 8:30, at the First Methodist Church.

Mrs. R. B. Kerbow will review the book. Price of admission is twenty five cents and tickets are now on sale at the Campbell Grocery.

LOVE NOT BLIND IN THESE DAYS

CARLSBAD, N. M. (AP) — This want ad was culled by A. Heinz, Carlsbad attorney, from his hometown newspaper: "Wanted: Owner of 1940 Buick would like to correspond with widow who has two good tires. Object, Matrimony. Address 'Old Bachelor' and please enclose picture of the tires."

—BUY WAR BONDS AND STAMPS—

Vacationers Must Be Careful Of Swimming Pools

Some timely advice to vacationists and picnickers was released from the State Health Department today by Dr. Geo. W. Cox, State Health Officer.

It was pointed out that, in view of wartime restrictions, vacation pleasures are apt to be limited to excursions and picnics at nearby lakes, rivers, and ponds of unfamiliar depths and currents, and without the usual lifeguard supervision associated with bathing beaches and commercial swimming pools.

"Swimming and water sports are beneficial to good health provided one's physical condition justifies this type of exercise," Dr. Cox asserted, "nevertheless, they possess dangerous possibilities if the rules of safety are disregarded."

The following simple rules for bathing and swimming in safety were suggested: at least one hour should elapse after a meal before entering the water; never dive into unfamiliar waters; upon the first indication of fatigue, come ashore and don't re-enter the water; leave the water immediately, if chilled; do not enter the water when overheated; learn to float; never attempt to rock a boat in a spirit of fun; never swim in water that may be polluted. Swimming

Want To Blow For A Drink?

NEW YORK (AP) — When 50 Coast Guardsmen splurged with a dinner and dance at Cortland House, in Bay Shore, Long Island, the expense money came from a little brown jug on the bar.

Pasted on the jug was this verse: "Naughty little cuss words Like 'bother,' 'dash' and 'blow,'

These, and other wuss words Can send you down below. So keep them back behind your throttle Or pay your fine into the bottle."

The little brown jug is back on the bar, hopefully empty.

Professional scribes do a large business throughout all of Africa, penning letters for those who have not learned to write.

close to or even a few miles below sewage outlets is inviting the possibility of acquiring diseases.

"Excursions, picnics, and swimming parties contribute much to a healthy, happy, normal life, which is especially desirable at this particular time when the whole nation is under the strain of war," Dr. Cox said. "It is by no means advisable to eliminate these excursions from our summer program, but it is important that they prove beneficial and not disastrous."

How To Tell A Good Student

FORT HAYES, Kas. (AP) — The best college students finish their examinations either first or last, says Dr. Donald M. Johnson of the Fort Hays state college psychology department. Mediocre students usually complete their papers in the middle third of the period.

It's Dr. Johnson's theory that the first third of the students are speedy because of superior intelligence; the last third are the plodders who get good grades by pains and persistence; the middle third are the fellows who aren't very interested in the subject.

Scientists have never found an adequate explanation for the strange, geometric "canals" on the planet Mars.

Safe Canning Methods

Only two methods of home canning are recommended by the Extension Service, A. and M. College of Texas, as being safe, preventing spoilage, and retaining the maximum amount of food value, flavor, texture, and color.

One method, says Winifred Jones, Extension specialist in food preservation is to process meats and vegetables, except tomatoes and ripe pimientos, in a pressure cooker. The other method is the water bath for fruits, tomatoes, and ripe pimientos.

She explains that the pressure cooker offers the safest known method of canning the non-acid vegetables and meats because it destroys bacteria in these foods, including the most dangerous — the bacillus botulinus. If these bacteria are not destroyed in the spore stage they may grow and later produce a toxin or poison in the food.

"The worst part about this poison is that you usually cannot smell, taste or see it, yet one small bite could cause death or severe illness she says. The bacillus botulinus is destroyed by maintaining pressure at 240 to 250 degrees Fahrenheit. In an oven or water bath the temperature of the food inside the jar

never goes higher than 212 degrees, because the only way to get liquid higher than 212 degrees is to maintain pressure.

Open kettle canning is not recommended by the specialist because research has proved there is a greater percentage of spoilage and the food often becomes mushy in texture. It is best not to can fruit and tomatoes in a pressure cooker because they keep easily when processed at 212 degrees Fahrenheit in a water bath. Further directions on modern canning methods are

Firemens School At A. & M. College On May 23-28

Dr. C. C. Hedges, head of the Chemistry Department of the Agricultural and Mechanical College of Texas, has announced May 23-28 as the dates for the 14th Firemen's Training School. An attendance of around 400 is expected this year.

These schools are held at the College each year for the benefit of volunteer firemen in small towns or rural areas and not for paid firemen in larger cities where each department has its own method and course of training and instructors.

Three primary courses highlight the 1943 school: General basic training course, Red Cross lay-instructor first aid course and fire-department instructor course. Where a community has a volunteer firemen attending the general basic training course it gets a 3 per cent reduction in the whole town fire rate.

Details of the program will be announced by Dr. Hedges at a later date.

Plans so far announced call for those attending the firemen's training school to be housed in the dormitories at the College and to take their meals in the Mess Hall. A nominal fee will be charged to cover the actual cost of conducting the school.

Strippers Strip The Tailor

By ROBERT N. COOL
AP Features Writer

CLEVELAND — Burlesque business has let Joe Goldberg down, and his cleaning and pressing show now depends upon unromantic travelers.

"Before the war, three and sometimes four burlesque shows would be playing in Cleveland at once," Goldberg sighed. "And the girls seemed to wear more in those days. Now—one show across the street. And whatever they're wearing isn't enough to keep the wolf from the door."

For 20 years Joe has been known as Cleveland's theatrical pants presser. Autographed photos of Ann Coria, Sonja Henie, Margie Hart and Eddie Cantor — as well as many lesser vaudevillians — decorate the booths in his bus-terminal shop. It is plain to the trouserless traveler, marooned in one of the booths, that Goldberg's heart is still behind the footlights.

Evils Of Nudity

"Too much nudity isn't good," says Mr. G. "It is bad for morals and business. Ah, the things I have seen in the old days."

Middleaged with darting black eyes and a ready smile, Joe Goldberg is proud of his reputation among traveling road companies.

"Jack Kirkland came to Cleveland in 'Tobacco Road,'" he recalled. "I did work for Mr. Kirkland, but from the cleaning point of view Tobacco Road was a flop. They had to have their costumes dirty."

This did not apply to the Ballet Russe and the Metropolitan Opera Company, however. They are good customers.

Goldberg got his start, he says, through a brother who was a burlesque booking agent in New York. The strip-teasers playing Cleveland needed someone they could trust to take care of cleaning costumes. On his first job Joe established his reputation for reliability.

Frequently he worked until dawn to get flimsy garments back to the dressing rooms at curtain time. His reputation spread far and wide.

Ran From Circus Fire

Last summer he saved a circus a lot of money. Six hundred costumes were in his truck when he drove onto the grounds, just as fire broke out. It was a disaster that cost the lives of many animals and ruined quantities of equipment — but the costumes were saved.

"When I saw the flames I turned around and drove out of there," Joe states.

Now, with one son in the Army and burlesque road companies hamstrung by transport troubles, he is just waiting for the war to end.

Good Health Vital In Raising Chicks

Raising what they have is the main problem confronting Texas producers of poultry. According to W. A. Boney, poultry veterinarian for the A. and M. College Extension Service, Texas poultry flocks are 17 per cent larger than at the same time a year ago.

Doing the job efficiently means better brooding, ranging pullets on ground free from visible parasite eggs and placing them early in clean houses with deep litter, sufficient feed, water, space, light nests, ventilation, grit and oyster shell.

A five per cent reduction in mortality of hens would mean an increase of 200,000,000 dozen of eggs and 100,000,000 pounds of poultry meat, Dr. Boney says. Frequent culling and marketing of unprofitable birds is one means of increasing the supply of poultry meat.

Keeping young stock away from old stock, and daily cleaning and disinfecting of houses and utensils protect against outbreaks of disease. Phenothiazine in quantities of 1-2 ounces, or three level tablespoonsful, in the mash 100 hens would consume in two days, is 100 per cent effective against the cecal worm whose eggs transmit blackhead to turkeys. It also is effective against the large round worm of poultry, Boney says.

The bluestone and vinegar treatment along with this is proving effective in controlling blackhead and other protozoan diseases. The mixture comprises two ounces of powdered or small crystals of bluestone dissolved in one pint of vinegar. It is administered by putting one tablespoonful in each gallon of drinking water in non-metal containers for two or three days, and never given more than five successive days at one time.

See the county agricultural agent for information for prevention and treatment of poultry diseases.

NOTHING BUT HARMONY IN THIS EX-MARRIAGE

KINSTON, N. C. (AP)—A lawyer served notice on a Philadelphia woman that her husband here was instituting suit for a divorce and got this reply:

"He can have it with my best regards. All I want is a copy. I hope this will help get it quicker."

"Then there will be more girls and they'll wear more clothes," he says. "Joe Goldberg will be ready."

Harvesting Seed From Spring Pasture

Harvesting the spring crops of grass and any of the clovers for their seed is wise conservation says Roberts R. Lancaster, pasture specialist for the A. and M. College Extension Service. It suggests an important service which farmers, who have the crops, can render for themselves, for other farmers and, ultimately, for more food for Victory.

Lancaster explains that pasture seed which are greatly needed and of high value ripen as late as May. But as seed which is too mature will shatter, early harvesting is necessary. Some green seed, and perhaps some which is moist, will get in. Accordingly, care is necessary in curing to prevent heating and molding. Large areas may be combined, and the seed spread under a roof and stirred frequently with hand strippers or by stripping with hands alone.

The Soil Conservation Service has taught to cut rescue grass when a few seeds begin to ripen. But the SCS also harvests rescue ripe to the point of shattering with all-crop combines which can be adjusted to practically eliminate all weed seed. Bundling the crop is not advisable when using a grain binder. It should be allowed to cure like hay before threshing. Let it lie about four days, depending upon weather, then stack for further curing.

The same method and care should be used in harvesting and curing rye grass. Raking and sweeping is another way to get rescue and rye grass seed for home use.

Dead bur clover vines can be gathered with a horse rake without mowing. Then the burs on the ground are swept up with large stable brooms. White Dutch clover is ready to harvest when about 75 per cent of the heads are brown. Generally, harvesting is by mowing with a windrow attachment on the cutterbar. Afterward, the crop is allowed to cure before threshing. But when too dry and mature it should be cut when moist with dew.

WORK AT NIGHT

PEARL HARBOR (AP) — Night time is baking time on submarines, when they rest or cruise on the surface, while on patrol. Bread, pies and cakes are baked and other foods cooked, there being no cooking or baking while submerged.

Rabbits Prove Profitable

Beginning with two rabbits which were gilts, Gene Tucker, Harris County 4-H Club girl, with the help of her sister has developed a profitable business venture and is producing meat for Victory which finds a ready market.

Gene's rabbit colony now consists of 36 does which include New Zealand Whites, Chinchilla Black, and America Grays plus three New Zealand White bucks. Since she began her rabbit demonstration she has sold approximately 200 rabbits, receiving \$1 each for fryer rabbits. These weigh three to three and one-half pounds at two months of age. She estimates the cost of feeding a rabbit to the fryer stage at 25c cents.

The three hutches in which the rabbits are housed are in the backyard of Gene's home near LaPorte. One hutch, because the space is limited, is triple tiered with double bunks on each tier, while the other hutches are singled tiered. Gene says the three-decked hutch is difficult to clean and therefore is not entirely satisfactory.

Each hutch is 18 inches above the ground because of the heavy rainfall in the Harris County area, explains Frances Purnard, assistant county home demonstration agent.

Gene says if the proceeds of her demonstration had not been so successful she would never have consented to killing the first pet.

Now, however, even her mother pays for those she uses.

Governors' salaries range from \$3,000 to \$25,000 a year.
