Five Band Members Make Regional

Five members of the Pirate band from ACHS, Rockport, placed in the regional tryouts at Victoria.

All five made the region band, and all five were placed high in their section.

Chuck Wilson won the coveted first chair in the alto saxophone section, in which there are four players; Mickey Floyd was first chair in the contra-bass clarinet section which contains two players.

Reggie Wendell got second chair in the section of eight bass horns; Gerald Van Eiten was third in the baritone horn section of four; and Darrell Lichte placed fifth chair in the cornet section of ten.

All of these will play in the regional band clinic to be held in Beeville Jan. 8-9, with Dr. Ralph Mills of Sam Houston State College as conductor and clinician.

Chuck Wilson, on the alto saxophone, and Mickey Floyd, contra-bass player, are now eligible to advance towards the area band tryouts to be held in Three Rivers Jan. 23. This is the step that determines members of the All-State Band, and is a coveted try-out position.

The band, somewhat smaller this year than last, has still made an outstanding record under its new director, James O. Robertson, placing in first division in marching contests and having a number of its members in the district and regional band.

Members of the senior band, other than those named, include flute players Chris Sorenson, Betty Bauer, Marilyn Roy, Sallie McCord, Beth Bohmfalk, Melly Flores, Mary Ellen McHugh and Ruth Ann Shaver.

Clarinetists: Lola Lewis, Sherry Brundrett, Pat Weber, Mary Moore, Jeffrey Bauer, Yolanda Soliz, Mary Jane Garcia, Laura Gibson, Susie Nava, Judy Wilson, and Bob Caldwell.

In the cornet section, besides Lichte are Mickey Gray, Priscilla Carleton, Noralee Hesselstine, Amado Cruz, Randy Itchner, Jody Rouquette, Rennie Owens and James Dinger.

Trombones are Anna Belle Casterline, Jim Dietrich, Theodore Tipping, and Pat Wendell. Basses include Wendell, Mike Jeffers, David Vavra, James Baugh and Thomas

Heldenfels Is Granted Permit

The State Parks and Wildlife Commission said Monday it has put all Texas bays under a controlled dredging program allowing dredging with 300 feet of oyster reefs.

The decision drew a volley of criticism yesterday from area conservation spokesmen.

Dr. Clarence Cottam, director of Welder Wildlife Refuge at Sinton, said the 300-foot limit was "altogether too short." The president of the Rockport Sportsmen Conservation Association, M. W. Cochran, said he was surprised that the ruling covered all Texas Gulf Coast Bays.

The sweeping order accompanied a permit for Heldenfels Brothers, a Corpus Christi construction company, to take 100,000 cubic yards of shell from an area of Copano Bay near Bayside.

The order applies to all bays except Trinity and Galveston, where the order calls for a 300-foot neutral zone, was opposed by an organization called Save Our Shell (SOS). Oyster growers are attempting to have the order voided by the courts.

Opponents contended the 1963 order would allow damage to live oysters, which had been protected by a 1,500 foot neutral ground.

Of the other bays brought under the new order, Nueces is considered to be nearly out of shell due to dredging. There has been almost no commercial oyster production in Copano Bay recently.

News media were given a release Nov. 4 which said the (continued on page 8)

City Council Awards Bids On New Tractor

The City Council awarded bids on a tractor, passed an ordinance limiting speed on a section of Highway 35, approved purchase of a filing cabinet and two blinker lights, and then spent most of the rest of the meeting discussing the sewer installation in the south end of Rockport, without coming to any conclusion on the action to be taken.

There were four bidders on the tractor, equipped with a backhoe and loader. Low bidder was IHS Sales of Corpus Christi which quoted a price of \$4249.95 plus trade in of the city's old tractor, for an IHC tractor and equipment.

Roy Jackson Sales, Sinton, quoted \$4800.30 on Ford equipment, and were next low; Paul Hellmann of Robstown quoted \$5800 on a J. I. Case tractor and equipment; and Gulfside Equipment of Corpus Christi made a bid of \$6249.81 for John Deere Tractor and equipment. These prices were in addition to the trade in value of the old tractor.

The contract was awarded to the low bidder.

Councilmen then took the matter of a lower speed limit on Highway 35 in the school zone, and after considerable discussion passed an ordinance limiting speed between yellow flashing lights in the school zone to not more than 25 miles per hour.

The new ordinance begins at the south city limits of Rockport and limits the speed on Highway 35, on Loop Highway 70, on Farm to Market 881, on FM 2165, and sets an overall speed limit within the city on other streets of not more than 30 miles an hour. Speeds in alleys cannot exceed 15 miles an hour.

Purchase of two yellow flashing lights was approved, to be installed along Highway 35 at the beginning and end of the school zone. One will be at Magnolia and the highway; the other at Pearl and the highway.

The rest of the evening was spent discussing the sewer installation on First Street, recently done by the Mercer Construction Co. This installation has not proved satisfactory, and methods have been sought to remedy the situation.

Mercer was given a ten-day grace period in which to bring the installation to specifications.

School Choirs Give Many X'mas Concerts

The various high school choirs of the Aransas County School System, under direction of Mrs. Frank De Angelis, have given a number of concerts this week and have others scheduled.

On Monday night, the high school ensemble and a junior high group performed at the Texas State Teachers' Association annual banquet.

Wednesday the high school ensemble and the entire junior high group gave a program of Christmas music for the Rockport Rotary luncheon and in commenting on this afterwards.

On Thursday the high school sang for the Rockport Lions Club at their noon luncheon.

Friday, at 1:15 p.m., the high school choir will present a program for the general assembly consisting of many Christmas numbers.

These will include "Christmas Time is Near," "It's Christmas," "Sleigh Ride," "Bring a Torch Jeanette Isabella," "Carol of the Christmas Chimes," "Cantate Domino," "Carol of the Drum," "A La Nanita Nana," "Behold That Star," "Indian Christmas Song" and "O Holy Night."

Friday night the high school choir will sing carols to members of the high school faculty at their homes, and then will be guests at Mrs. De Angelis' home afterwards.

Local Sportsmen Write Parks and Wildlife Official

Local sportsmen, at odds with the recent Parks and Wildlife Department ruling on shell in Copano Bay, have written the following letter to Will Odom, chairman of the commission, and to the other commissioners:

Mr. Chairman and Commissioners: We have just heard of the granting of the permit to Heldenfels Bros. for dredging shell in Copano Bay.

In view of the heavy demand by the shell dredging industry to dredge shell from all the coastal bays, we are glad to hear you have limited this permit to 100,000 cubic yards of shell from Capano Bay. As you are aware the shell dredging will be done in one of the state's most valuable spawning bays.

No doubt the \$140,000.00 savings to the taxpayers on the road contract exerted considerable influence in favor of this particular application.

It is difficult for us to understand, when the muddy waste water is turned loose in the bay at the dredge site, only 300 feet distance from exposed shell reefs and, or, grassy nursery areas, how these natural resources are being given a fair chance for survival.

It may be that this dredging operation may have some advantage if it were used as a practical demonstration of the distances the muddy-silty dredge waste will travel under varying conditions of wind and waves.

The letter is signed by M. W. Cochran, James Hunt, R. L. Eckman, Pat H. Greene, Jerre Ledbetter, H. T. McDow, Ed Harper, Anthony del Rocco, Roy Burke, I. L. Sorenson, and L. Miller.

TSA HOLDS ANNUAL DINNER

The local chapter of the Texas State Teachers' Association held their annual banquet Monday night with about 90 people attending. Guests were Dr. and Mrs. H. F. Elliot, Mr. and Mrs. Otis Mundine, and Miss Ruth Lipscomb.

After dinner the junior and senior high school choirs entertained with a program.

TAKE TOAST OF THE COAST MAGAZINES

Local residents who intend to visit elsewhere during the Christmas holidays should stop by the Chamber of Commerce and pick up copies of the "Toast of the Coast" magazine to take with them and distribute, says Chamber of Commerce President, Miss Lola L. Bonner.

In so doing, they can answer a lot of questions about the area with ease and convenience, at the same time can spread the fame of Rockport far and wide.

City's Newest Business Builds Custom Trailers

This city's newest business is a custom-built trailer and houseboat company that has been operating in Fort Worth for the past ten years, but that will open here immediately after the first of January.

Edward Bayro, owner, has purchased the G. N. Dietzel property on south highway 35, across from the State highway barns, through Mrs. R. B. Sipe, and he and Mrs. Bayro have already moved to Rockport.

Bayro has been building custom trailers and houseboats, doing his own engineering and planning, and endeavoring to fit the wants of his customers to the room available in travel trailers running all the way from 13 feet long to huge ones that are just within the legal limit.

Last year, he says, he built about 100 of these rolling homes, according to the individual likes and dislikes of his customers, as well, tremendous house boat with all the comforts of home, which is now on Lake Possum Kingdom.

Bayro said he expected to employ eight to ten men at the height of the season, and says that after January, dealers begin to order, getting ready for next summer's travel.

Bayro also expects to handle parts and trailer supplies as well as supplies for camping. In his spare time, he plays the piano, organ or accordion, and Mrs. Bayro paints oil portraits.

Those taking part were Dennis Elliot, Miss Sallie McCord, Mr. and Mrs. Marvin Rice and daughter, Melinda, Miss Claudia Frye, Mr. and Mrs. Volney Cavitt, and Mr. and Mrs. Hugh Morrison.

Others participating in the program were J. Allen Frye, narrator; the Rev. Cecil H. Lang, Jr., the Voice; Mrs. J. Allen Frye, organist; and a chorus directed by Mrs. N. F. Jackson. Mrs. L. W. Hight was producer-director. She was assisted by Mesdames Ted Atwood and J. H. Schleider and Joe Cavitt.

MISS HERRING GIVE X'MAS PARTY

Misses Lydia Ann and Barbara Lynn Herring of Corpus Christi entertained with a Christmas party Saturday Saturday night, at the home of their grandparents, Mr. and Mrs. Roy Hinton.

Traditional decorations were carried out in the living room and music room with two glittering silver Christmas trees, the Star of Bethlehem and a large plush Santa greeting the guests. In the hall an antique Christmas bell hung for the 54th year in the family.

Games and contests were played throughout the evening.

The refreshment table was laid with an imported lace cloth over red satin. The table being skirted with a red floor length flounce. The centerpiece was an arrangement of Christmas ornaments in red and silver. Silver pine cones and silver tulle. Sandwiches, Christmas goodies, punch and cake were served to the 20 who attended.

After the grand march, the group gathered around the refreshment table, each guest holding a lighted candle and sang together, "I'm Dreaming of a White Christmas," "Silent Night," "Away in a Manger" and "Joy to the World."

From the Christmas tree, each person received a miniature Nativity set and filled Christmas stockings from Santa.

FIRST FISHING, THEN THE JOB

E. G. Simmons, coastal fisheries supervisor for the Parks and Wildlife Department, observed first-hand how one man feels about fishing.

As Simmons drove down the highway early one morning, he saw a school bus parked beside the road. When he stopped, to obey the law about passing a parked school bus, he saw that the children were reading, talking or sleeping, but no driver. Simmons finally spotted him, in waders, calmly running a trotline several hundred feet out in the bay.

HELDENFELS GRANTED—

(Continued from Page 1)

commission would hear the Heldenfels application Nov. 16, but no mention was made of a section of the official notice of hearing which allowed the commission to consider areas outside Copano Bay.

"With full awareness of our responsibility to all people of Texas, the commission has studied diligently, objectively and patiently all facts pertinent to the issue including ex-

tensive testimony developed in the hearing," the commission statement said.

"Recognizing the issue as one involving differences in opinion by various groups and at the same time in compliance with the requirements of a law passed by the last Legislature, we must take into consideration the critical needs of industry in the area."

Commission chairman Will Odom said the significant part of the order is that giving the department director authority to require withdrawal of dredges "if circumstances require."

Such authority was added later to the initial order for Trinity and Galveston Bays.

Odom said the provision allows the department to require dredgers to move even if they are more than 300 feet from live reefs, if dredging appears to be causing silting.

Cottam said allowing dredging within 300 feet of reefs and small islands containing live oyster beds would "endanger a tourist trade worth infinitely more than the dredging."

Cochran said he thought at the time of the hearing last month that the dredging limit would apply only to Copano Bay. "If we had known that

it would apply to all bays," he said, "I'm sure there would have been more people there to protest it."

Dr. Harry Hildebrand, professor of biology at the University of Corpus Christi and conservation chairman for the Corpus Christi Outdoor Club, said, "the ruling is contrary to all biological evidence as to whether the dredging will produce harmful effects. This will slow down Copano Bay as a tourist area and will have similar effects on other bays."

He said he was disappointed that the price of shell was not increased to provide money for restoring the bays. "Because the price of shell was increased," he said, "this means the state will have to use tax dollars to replenish the bays. The state has a responsibility to replant the oyster reefs, which they haven't carried out along the north shore of Corpus Christi Bay."

The commission said that shell was of sufficient commercial value to the state that permission, with restrictions, should be given for dredging operations. The order said in addition to the 300-foot limit that dredging operations must not change or destroy any land marks or change any currents that would interfere with navigation. The order also said permittees must remove and replant live oysters at their own expense and under the supervision of the Parks and Wildlife Commission.

FIDELIS CLASS HAS PARTY

Mrs. C. O. Lutz and Mrs. Roy Kuykendall were co-hostesses for the annual Christmas party of Fidelis Class of the First Baptist Church, held Saturday in the church recreation hall.

The entire entertainment of the afternoon was presented in relation to six of our best loved traditions of the Christmas season. Placed at various spots about the room were interest centers with an arrangement emphasizing each of the traditions. The program consisted of a number representing each tradition.

Miss Ruth Lipscomb served as reader, presenting each tradition with information concerning each and introducing the program numbers.

The tradition of the Fancy Feast was featured by the one o'clock luncheon with hand made Christmas trees and an Angel chorus.

Mistletoe Magis was represented in a pantomime by Mrs. Roy Mullinax as the shy young maiden, Mrs. Olga McLester as the not so shy young man and Agnes Brock as his kid sister.

The tradition of Beautiful Bells was told in story and poem by Mrs. Ed Whitfill and Mrs. R. F. McKnight.

Christmas Carols were enjoyed in group singing on the piano. The shepherd story was presented in poetry, scripture and prayer by Mrs. Mullinax.

The final tradition was that of Giving Gifts as all came and placed their gifts in the treasure chest which made the interest center for that tradition. This money gift is given each year by the Fidelis Class to be sent to South Texas Baptist Children's Home. Others attending were Mrs.

B. T. Hardeman, Mrs. E. A. King, Mrs. John Baugh, Mrs. Roy Ferrae, Mrs. George Thorman, Mrs. J. F. Dervage, Mrs. J. V. Ferguson, Mrs. D. R. Simmons, Mrs. L. V. McLester, Mrs. B. A. Bartoo and Miss Evelyn Townsend.

Plants That Never Bloom

Third Installment

As to helium plants there are only four in the world, three of which are in Moore, County, Texas. So it is easily understood why the average person would not know much about them. And the same applies to abstract plants, although there are many of them.

Modern Abstract and Title Company, Incorporated, is a 'closed' corporation in that all of the stock is owned by Emory M. Spencer of Rockport, Texas. The principal reason for operating as a corporation is to limit the liability. The plant has been owned by Emory M. Spencer since 1945. There are two divisions to the plant, the abstract of title division and the title policy division. At the head of the abstract of title division is Mrs. Wilhelmina Bracht, a native of Aransas County who has been with the abstract plant since its purchase. Another employee is Miss Lorna Hamilton who has been employed since 1952. At the head of the title policy division is Mr. Weldon B. Cabaniss, an attorney-at-law, who has been in charge of this division since about 1947. He has two employees, Mrs. Faynell Cole Harrell and Mrs. Helen Kellner.

Modern Abstract and Title Company is proud that it has been able to give, for the most part, summer and part time employment, to local high school and college students. In addition to the financial remuneration, they have received sound, business training under Mrs. Bracht and have had many occasions later in life to give Modern Abstract and Title Company as a reference in connection with their applications for other jobs. Among the students that have received this employment and training have been Rebecca Sue Rouquette, Mary Ann Barber, Ann Williams, Sandra Spencer, Linda Sue Armstrong, Geraldine Armstrong, Betty Mae Armstrong, Ann Mahan Wishert, Carol Currie, Patsy Allen, Bonnie Cron, Wilma Rouquette, Colleen Smith, Sheena Currie and Kathryn Rouquette.

HEALTH AND SAFETY TIPS

From
The American Medical Association

Glaucoma causes more than 12 per cent of all blindness, and it is estimated that one out of every 50 persons over the age of 40 has the disease. There are at least a million Americans who have this serious sight-robbing disease and don't know it.

Glaucoma is produced by a buildup in pressure in the eye accompanied by an imbalance of the flow of the fluid of eye fluids. What causes this increase in pressure is a question still engaging eye specialists.

Glaucoma seldom warns of its presence. Usually there is no pain, and often the disease is in an advanced state before the patient becomes aware of impairment in side vision. Occasionally there may be an acute attack, causing severe pain.

Glaucoma can be detected during physical examination by measuring the tension in the eyeball with a simple painless test. If discovered in early stages, progress of the disease usually can be checked and the remaining vision saved through treatment. Once it has been discovered, glaucoma

can be controlled by regular use of eye drops to reduce pressure, or, sometimes, by surgery.

The doctor can look for the four danger signs of glaucoma — (1) Gradual or sudden loss of side vision; (2) Frequent but unsatisfactory changes in glasses; (3) Blurred or foggy vision; (4) Rainbow-like halos around lights.

Anyone of any age can get glaucoma, but it is more common among persons over 40. Eye exercises are useless in treatment. Heredity may be involved, in that doctors have found that patients are more likely to get glaucoma if either parent or a brother or sister has had the disease.

Medical eye specialists recommend that everyone past 40 have an eye examination at least every two years by someone medically trained to diagnose glaucoma. Those who have glaucoma in the family should be examined each year.

SCOUT ROUNDTABLES TO BE DECEMBER 17

The cub leaders roundtable will be led by K. T. Edwards and Alton Luedke, both of Sinton, who will be assisted by Mrs. David Schmidt of Taft who will direct the handicraft part of the roundtable.

The Boy Scout troop leaders will meet under the leadership of T. L. Huffstutler, Mathis, and will be assisted by Stanley Brinkoeter of Sinton and W. J. Mott of Portland.

Luedke also announced that over 300 new boys have been recruited in the fall roundup program and that the Mustang District is nearing its goal of 1500 boys and that the Gulf Coast Council is nearing its goal of 14,000 boys. Both goals will represent the highest membership ever attained by either group.

Calling Long Distance?

Here's the fastest way...

Tell the Operator:

1ST

... the Area Code of the town you're calling

2ND

... the telephone number you're calling (also the person if it's person-to-person)

3RD

... WAIT until the operator asks for your number. She'll ask for it while your call is speeding to its destination.

FOR AREA CODES...

You'll find a list of Area Codes for frequently called cities near the front of your telephone directory. If you don't find it there, please ask the Operator.

FOR DISTANT NUMBERS...

If you need a telephone number in a distant city, the long distance Operator will connect you directly to information in the distant city. Just say, for example, "Please connect me with Denver information." No extra charge, of course.

Good Things Begin with a Happy Ring

Like so many other important rings in your life, a Gold Medallion on your home symbolizes a promise. It's a wonderful promise that says you will enjoy the benefits of total electric living... plenty of housepower for heating, cooling, freezing, cooking, cleaning, washing, drying—everything, including "light for living." If you are planning to build or remodel, let CPL promise you the happy ring of comfort, convenience and pleasure with a Gold Medallion.

As an extra warm thought for the winter season, keep in mind that clean, quiet electric heat is yours at a new low rate—and every Gold Medallion Home has electric heat.
