

MERCHANDISE THEFT RING TO BE UNEARTHED

DALLAS, Oct. 25.—A quiet investigation started in North Texas more than a month ago by five state rangers today appeared likely to result in grand jury indictments and the sensational exposure of a state-wide ring of merchandise hijackers from fences with political and official ramifications.

More than 25 men have been placed in widely separated North Texas jails, it was revealed, to prevent knowledge of the investigation leaking out to leaders of the ring, whose headquarters, rangers said, are in Dallas and Fort Worth.

The 25 persons arrested, among them gangsters and fences, are in jail at Dallas, Waxahachie, Fort Worth, San Antonio, Hillsboro, Austin and other cities.

Rangers said their separation was to keep co-operating attorneys from effecting their release.

News of the rangers' activities did leak out, however, and immediately "attorneys, politicians and wire pullers" went to Austin to demand the removal of the officers from North Texas, rangers said.

MAY CAUSE A PRICE RISE ON COMMODITIES

WASHINGTON, Oct. 25.—The government today began its open market gold purchases at a rate of \$31.36 an ounce in President Roosevelt's new price lifting and monetary program.

Jesse Jones, chairman of the board of the Reconstruction Finance corporation, made public the country's gold price after a conference today with the undersecretary of the treasury and farm credit administrator. Payment for the gold will be made by the R. F. C. in its new 90-day debentures.

Government economists believed general rises or declines in all commodity prices, including what the farmer receives for his wheat, could be caused by raising or lowering the figure at which the government would buy gold. A rise in gold, it was assumed, would cause a corresponding rise in prices. This view was disputed, however, by some economists.

Jones said more than \$1,000,000,000 was available for the vast experiment. He indicated that if this amount was insufficient to bring about the desired results, the administration would call on congress for additional funds.

It was estimated the gold purchases would approximate \$1,000,000 a week.

JUDGE TRUMAN CONNER DIES AT TEMPLE

Chief Justice Truman H. Conner, a member of the Second Court of Civil Appeals since 1898, died in a hospital at Temple at 10:40 o'clock Thursday morning. Members of the family were at the bedside.

He was stricken last Saturday at the hospital where he had gone for a clinical examination. He had been in ill health since last winter when he suffered an attack of influenza.

Judge Conner rounded out 46 years of continuous service as a judge on July 4, 1933. With a single exception he had served longer on the bench than any man known in the United States.

Born at Peru, Ind., he came to Texas when a youth with his parents. He was educated at Marvin College, Waxahachie, during 1873-1874. Later he attended Trinity University, then located in Tehuacana, graduating from the law department in the class of 1876.

He began his practice of law in Eastland and in 1887 was appointed by Governor Ross as judge of the Second District Court. He was elected chief justice of the Second Court of Civil Appeals in 1898 and had served continuously in that position since that date.

Judge Conner was married to Miss Sallie Jones, Cook county, in 1882. He was married a second time to Mrs. Ophelia Polk, daughter of Judge J. H. Brigham, district judge, Bastrop, La., and consul under President Cleveland at El Paso and Jamaica. Later he was married to Miss Mozella Eleanor Dry, Fort Worth.

Judge Conner was a member of the Masonic Lodge, Knights Templar, Knights of Pythias and the Methodist church.

As a hobby, Judge Conner has been interested for more than 30 years in legends of buried Spanish gold in Eastland county.

In recent years Judge Conner talked of taking up the trail again for the treasures, which were mentioned by J. Frank Dobie in his "Coronado's Children."

Members of his immediate family include his wife, a son, George M. Conner, an attorney of Fort Worth; three daughters, Mrs. T. R. James, Fort Worth; Mrs. James Dailey, El Paso, and Miss Margaret Conner, Albuquerque, N. M.; a brother, Earl Conner, Eastland and a sister, Mrs. Maude Coleman, Miles.

Many Pleas of Guilty In 88th District Court

A number of criminal cases were disposed of in Judge B. W. Patterson's 88th district court Saturday and Monday.

Sam Allen entered a plea of guilty on a charge of having burglarized the office of Dr. C. C. Jones, dentist, in Cisco, and was given a two-year sentence in the penitentiary. He also entered a similar plea to stealing gold from the same office and was given a like sentence of two years in the penitentiary. Allen claimed California as his home.

Howard Nichols, charged with burglarizing the Gulf Oil company's Eastland warehouse and stealing some oils, was given two years in a case of burglary and theft after having pleaded guilty. Nichols, apprehended while at the warehouse because of a burglar alarm that had been set, was taken into custody on Oct. 19, indicted on Oct. 20 and on Oct. 21 was tried, found guilty and sentenced.

C. C. Coalson entered a plea of guilty on a charge of stealing pipe. He took advantage of a statute that provides that where the stolen property is voluntarily returned a fine instead of a penitentiary sentence may be imposed. In this case Coalson was fined \$25 and costs, which made the total fine and costs, \$90.90.

Henry Cooper, on a plea of guilty to a charge of burglary, was convicted and given a two-year suspended sentence.

Jack Ingram entered a plea of guilty on charges of burglary, theft and driving an automobile while intoxicated. He was given a three-year sentence in both the theft and burglary cases and one year for driving while drunk.

Baptist General Convention to Be Held at Dallas

DALLAS, Texas, Oct. 26.—The Baptist general convention of Texas which will hold its 85th annual session at Fort Worth beginning Nov. 7, will this year celebrate the 100th anniversary of the beginning of Baptist work in Texas. The convention program will give large space to "Our Century of Progress," and will present the story of the first Baptist organization in Texas. This church was organized in Illinois and moved to Texas as a unit, crossing the Sabine river in November, 1833.

Dr. J. Howard Williams, general secretary of the convention, announces that Texas Baptists will celebrate their "Century of Progress" with a great mission offering amounting to \$134,000. Some \$50,000 of this fund has already been paid in, and Dr. Williams expressed himself as being very hopeful that Texas Baptists would raise the remaining \$85,000 within the next two weeks.

During this fall Texas Baptists have held 107 associational meetings all over Texas, with record attendance in almost every instance, demonstrating the progress of the past century. When the first organized group of Baptists came into Texas 100 years ago, there were less than 50 Baptists in the state. At this time there are more than 500,000 white Baptists, and a total of more than a million of all races according to Dr. Williams.

At the Fort Worth meeting, representatives from various mission fields will speak of the work Baptists are doing there, and the convention will receive reports from the work of Baptists all over the world. More than 5,000 visitors are expected to attend the convention.

EDUCATORS OF OIL BELT MEET AT ABILENE

ABILENE, Texas, Oct. 24.—With L. A. Woods, state superintendent of public instruction, a guest and chief speaker, more than a hundred school executives—teachers, principals and city and county superintendents gathered here yesterday for principal and superintendents' fall meeting of the Oil Belt Educational association.

A general assembly, at which Mr. Woods discussed "The New Educational Set-Up in Texas Schools," sectional meetings followed, with principals and superintendents, and a banquet last night at the Hilton hotel comprised the program. Afternoon meetings were held at the high school building.

Curriculum, administration, reorganization and financing were named by Mr. Woods as the four main problems before Texas school leaders.

"The important things to be taught," he said, "are how to make a living and how to live."

"Get one thing in mind: Schools are organized for children, not for teachers, trustees and administrative officers. We're just the necessary evils," the chief school executive said.

Not more than 10 per cent of the persons being trained in schools and colleges are needed or equipped by nature for teachers, he declared. The other 90 per cent should be trained in the vocation of life, he said.

C. Wedgworth of Snyder presided at the superintendents' sectional meeting, where Dr. D. M. Wiggins of Simmons university was the speaker.

"Uniformity in the Curriculum," was the theme of the principals' discussion. W. P. Palm, principals of the Eastland high school, spoke on "Subjects Offered Each Year." Other speakers were Miss Tomlinson, Abilene high school, "Order of Presentation of English in High School;" Supt. R. F. Holloway, Ranger, "Order of Units Presented in High School Mathematics;" J. F. Bailey, principal of the Breckenridge high school, "The Evaluation of Credits from Unaffiliated High Schools;" E. F. Neimats, Sweetwater was group chairman.

L. E. Dudley, president of the association and principal of the Abilene high school, was toastmaster for the banquet, in the Hilton crystal room.

A section of the local high school orchestra, directed by R. T. Bynum, played during the dinner hour, and Ed Shumway, Boy Scout executive, led in a round of group singing after the meal and also gave a solo, playing his own accompaniment.

Dr. E. B. Surface, local minister and Dr. J. W. Hunt, president of McMurry college, were the speakers. Dr. Surface presenting humorous snatches of philosophy and a rich assortment of jokes that kept the audience in gales of laughter and Dr. Hunt speaking seriously on problems which he said are challenging educators of today.

Besides Mr. Woods, three representatives of the state department of education were present: J. W. O'Banion, assistant state superintendent and director of supervision; John Olsen, a supervisor of the state department, and Miss S. B. Mann, deputy superintendent with headquarters in Abilene.

Mr. O'Banion extended greetings of the department at the banquet, and discussed work of the affiliation and classification committee and the state board of education toward raising standards of affiliated and rural schools.

W. C. Blankenship, superintendent of public schools at Big Spring, offered the invocation.

Banquet registration showed 118 in attendance.

Book Club

Charmingly Entertained

Mrs. Walter I. Clark entertained the Book club at her residence on South Seaman street, Thursday in one of the most original and delightful affairs the club has enjoyed this season.

The 1 o'clock luncheon, given in honor of the new members, an annual affair, was a bookish entertainment in both menu and program.

The buffet table, beautiful in its arrangement, centered with a silver bowl filled with small, bright flowers, and flanked by pink candles, in low silver holders, held the Arnold Bennett salad; squash a la Willie Cather; baked potatoes a la Ludwig; George Sand rolls; and last course of ice cream a la Mencken; cake in G. B. Shaw style; and Sinclair Lewis coffee.

Four tables, flower centered, with places marked with unique cartoons of each member, containing both the printed program and menu, carried out the pink and lavender color motif.

The program was devoted to the reviewing by Mrs. H. B. Howard, of Hervey Allen's "Anthony Adverse," a very fine analysis.

Mrs. Scott W. Key, president of the club, in her graceful fashion, expressed a warm welcome to the new members present, and the guests of the day, Mrs. J. M. Armstrong of Fort Worth, and Mrs. Hume, of this city a recent addition to the social set.

Members present were Mmes. W. E. Chaney, L. E. Edwards, Curtis A. Hertig, E. E. Freyschlag, Scott W. Key, Milburn McCarty, H. S. Howard, James A. Jarboe, Harry Porter, P. G. Russell, John W. Turner, Virgil T. Seaberry, Charles Fage, Byron Meredith, McEwen, and hostess.

Gay Week-End Promised

Eastland will have plentiful entertainment, Thursday, Friday and Saturday, in the various Halloween carnivals, parties, and other

features in observance of this season, dear to the American heart.

The spook party of the Martha Dorcas class, tonight, will have some pranking features and not the least will be the fun of awakening the echoes in a vacant house, which will not be exactly vacant on this occasion.

Everyone going to this original entertainment is requested by Mrs. W. E. Coleman to assemble in front of her residence on South Seaman street, corner of Sadosa, and to await their mysterious escort to their destination.

Clubs, organizations, and what not, are putting on a series of stunts Friday night at the high school auditorium, in a program sponsored by the Thursday Afternoon club, the oldest literary federated organization in the city.

The entertainment is the annual gesture of the club in their support of the public library, open to the public in the community clubhouse four afternoons a week.

The stunt show will have a snappy curtain raiser in "The Merchants Revue," featuring many delectable babes, and every one of whom will be given a souvenir after the performance, and the winner, a prize.

Thomas Hickey of Hillsboro has been engaged as master of ceremonies, so state the general chairman, Mrs. F. M. Kenny, president of the sponsoring club, and Mrs. M. J. Pickett.

A list of merchants has already been announced who will enter their choice of children, and the latest addition includes J. C. Penney store, Moorhead Motor Company, Baldrige Beauty parlor, Jim Horton, Magnolia (Wayne Jones), Stephen Printing company, and Piggly Wiggly.

There will be snappy music furnished throughout the evening and those going will have a rare and diversified entertainment, that will tickle the mental palate.

Along comes the Halloween parties of the South Ward school and the West Ward school, both opening 6 p. m., Saturday night, on the square; the first in the same building they used last year, and the West Ward in the Charlotte hotel.

BATTLE LINES FOR FIGHT ON PRICES DRAWN

WASHINGTON, Oct. 24.—Battle lines for a new fight over retail price control was being drawn today in trade circles and the NRA. For from disposing of the issue, a master retail code promulgated by the president to take effect next Monday seemed merely to have deflected the limits within which the controversy now will be fought to a finish.

Knocking out an original provision to ban sales of goods at less than wholesale cost, plus 10 per cent, the code forbids sales at less than cost, with the added declaration that "the selling price of articles of the consumer should include an allowance for actual wages for store labor, to be fixed and published from time to time by the trade authority."

The issue affecting all stores now is how much of the labor cost the trade authority will decide should be included in the prices below which goods cannot be sold. In addition to the price battle the NRA faced a problem in enforcing the retail code.

Recovery officials conceded there would be a flood of protests at the outset from stores out of sympathy with the Blue Eagle.

They believed, however, the highly competitive nature of retail trade would make the code self-policing to a large extent. Merchants know almost exactly what competitors pay for goods or labor. They are expected to be quick to report violations.

Under the recovery act violators are subject to fines, imprisonment and injunction proceedings. The code authority and the national retail council are empowered to set up local committees to assist enforcement.

Romans 13:12-14; 14:7-9, 15-21
TEMPERANCE

Paul wrote the Epistle to the Romans near the close of his stay in Corinth, A. D. 57. He expected to follow his letter to the great city of Rome, soon after its reception.

He wrote of great theological truths of the Christian life, picturing sin, adultery, murder, theft, covetousness and others as the dark side against the spiritual life.

The opening verses of our lesson, 12-14, tell how to fulfill the great law, "Thou shalt love thy neighbor as thyself."

"But put ye on the Lord Jesus Christ."

He speaks of Christ as the armor of light. Light always brings understanding. There is no power or wisdom that does not come from God.

"Let us walk becomingly as in the day."

Only the light and knowledge of Christ can bring that desire to the human heart to be clean in the sight of man and God at all times.

"And make no provision for the flesh, to fulfil the lusts thereof." This means literally to deny the flesh. It also suggests the sad thought of the elaborate pains with which so often sin is planned and sought.

Every saloon or beer parlor or drinking club is a provision for the flesh.

Alcoholic drinks destroy that person's chance to live, when he imbibes such drink and then loudly declares his right to live his own life without interference. It also leads to darker sins that will destroy all love of the spiritual life and put that person outside of God's protecting love.

Nor thieves, nor covetous, nor drunkards, nor revilers, shall inherit the Kingdom of God.—I Cor. 6:10.

It is the Christian's privilege to wear this "armor of light, the Lord Jesus Christ, the comfort and warmth of his heart and life."

It is this that will make him walk honestly, bravely and happily through all confusion.

It is this armor that will make him understand.

For none of us liveth to himself, and no man dieth to himself.—Romans 14:7.

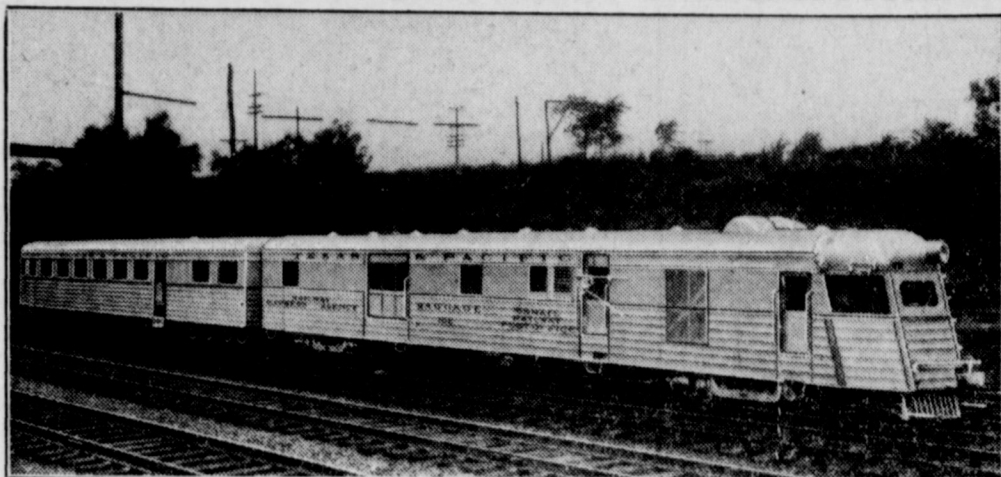

For the Kingdom of God is not meat and drink; but righteousness, and peace, and joy in the Holy Ghost.—Rom. 14:17.

Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind; and thy neighbor as thyself.—Luke 10:27.

And in the next verse Jesus said, "This do and thou shalt live."

If you would have real freedom and real life, then seek and put on the armor of light, Christ, "King of Kings and Lord of Lords," and let him lead you into a life of service and happiness where there is no need of "the kick" from strong drink.

FIRST STAINLESS STEEL PASSENGER TRAIN TO BE PUT IN SERVICE BY TEXAS & PACIFIC

America's first complete stainless steel, high-speed, super-comfort railway train will go into service early in November, it was announced by Frank Jensen, general passenger agent of the Texas and Pacific railway. This gas-electric, rubber tired and air conditioned train was built by the Edward G. Budd Manufacturing company of Philadelphia. It will be placed in experimental service between Fort Worth and Texarkana on the Denton division of the T. & P. following its exhibition in Chicago at the Century of Progress.

It is hoped that the train will answer the need for economical rail passenger transportation with maximum speed, safety and comfort, Mr. Jensen said. Other great railroads are planning and discussing somewhat similar improvements in equipment but it has remained for the Texas and Pacific to place the first complete train in actual service. As the T. & P. pioneered in providing air cooled and air conditioned dining and lounge cars for its passengers, so it is now the first to introduce air conditioned coaches for the comfort of southwestern travelers.

The new T. & P. train is made up of two units, the forward combination motor, mail, baggage and express car and passenger car trails with accommodations for 76 passengers in three separate compartments. The power plant consists of two 240-horsepower gasoline engines with electric drive and auxiliary generators for the air conditioning, refrigerating and heating apparatus all of which is located in the forward car, leaving the passenger trailer free of all moving mechanism to assure utmost riding comfort and silence.

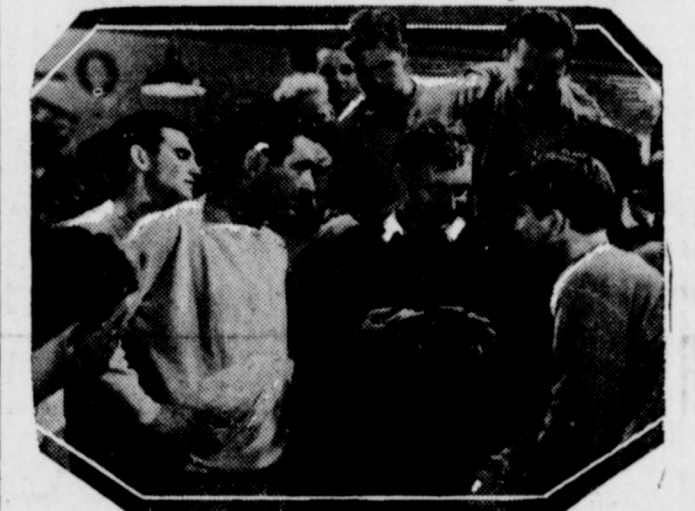

In keeping with the best traditions in the design of railway equipment, the rear car is finished and furnished even more luxuriously than the best appointed steam trains. Individual seats, deeply upholstered and covered with blue leather harmonize with the two tones of gray used in decorating the walls and ceiling. Electric lights are of indirect design and completely concealed as are the ducts for the air conditioning system.

Entrance to this car is back from the front end, separating the colored compartment at the front from the white compartment. A smoking and observation compartment is at the rear end.

In appearance the new T. & P. train departs radically from the usual railway train, Mr. Jensen said. Both cars are constructed entirely of "Shotweld" stainless steel and making a striking appearance in their natural bright finish. The rakish nose of the forward car is accentuated by the streamline roof and fluted metal sides of the cars which suggest the high speed of which the train is capable.

The new T. & P. train is said to surpass in riding comfort anything on rails. While the pneumatic tires on the wheels and the automotive type roller bearings in the axles contribute materially to riding comfort, the body and spring construction and heat and sound insulation also are major factors in providing for the complete riding ease of passengers. Safety features of the train include a quick-acting duplex braking system, complete automatic lighting and signal equipment and automatic power and electric shut-off.

Tense Atmosphere of Football Game Re-Created for "Saturday's Millions"

To the spectator sitting in the grandstand, many feet from the scene of play, football is apt to impress as a game of silence, with the players moving about like automatons. One may see a defensive backfield man rush up and down the line, slapping his team-mates on the back, but there is no sound. Apparently no one says a word.

But on the field of play the atmosphere is decidedly different. Raucous cries fill the air. The enthusiastic back-slayer addresses his fellow players in strident tones. "Get in there, fellows! Stop these guys! Watch that center! They can't make it, they can't make it! Good work, Jim!"

The whole team takes up the cries. "Into it, fellows! Come on, let 'em have it! Third down, third down! Watch it—here it comes! Here's the play! Look out—it's a pass! It's a pass, it's a pass!" And the team plunges into action, their lusty shouts drowned out by the cheers from the grandstand.

What is said to be the screen's most thrilling football game forms a part of "Saturday's Millions," Universal's stirring gridiron drama which is the feature attraction at the Lyric Theatre Monday, with Robert Young, Lella Hyams, Johnny Mack Brown, Mary Carlisle, Andy Devine and Lucille Lund in featured roles. The picture, which was directed by Edward Sedgwick, tells the story of a college football star who regards the game simply as a "racket."

BANK VAULT IS LOOTED BY ARMED MEN

PALESTINE, Texas, Oct. 26.—Four heavily armed bandits entered the Robinson State bank here today and escaped with from \$2,500 to \$3,000 cash after locking three officials in the bank vault.

The officials released tear gas in an attempt to repel the bandits.

Two of the bandits followed a negro porter into the building at 6:30 a. m., tied him up, and as the three officials entered shortly after 8 a. m., they were herded into the rear of the bank.

One official was forced to open the vault in the rear of the bank, another the smaller vault in the front.

From the rear vault the bandits took two boxes containing silver amounting to about \$200 and from the front vault they obtained about \$2,500.

After locking the officials in the large vault, the bandits began working on a small vault, attempting to enter the inner safe, which was set to open at 10 a. m.

The imprisoned officials pulled a lever inside the vault which released tear gas in the bank proper. The bandits fled in an automobile.

SOUTHLAND GREYHOUND

and Lions Quet Draws Many Visitors

By Elvie H. Jackson
Lions club heard a magnificent address from Dr. W. J. Danforth of Fort Worth, district governor of District E, Lions International, at their annual ladies' night banquet and afforded their friends, ladies, and out of town guests an opportunity to hear this noted speaker, who proved a delightful treat, in his address.

Lion McGlamery, president of the club, and wife, Secretary Ernest H. Jones and wife, Mr. and Mrs. Horace Conley, and Mr. and Mrs. T. M. Collier, received the guests in the lobby of the Connelley hotel. The banquet was arranged on the roof garden of the hotel. The three sides of a square with the connecting table seating the speaker, officers and noted guests, were arranged in pleasing appointments.

The speaker's table seated President and Mrs. McGlamery, Dr. and Mrs. W. J. Danforth, N. N. Rosenquest, Mr. and Mrs. Horace Conley, Mr. and Mrs. Jess Meroney of Ranger, Mr. and Mrs. W. H. LaRouge of Cisco.

The program opened with a group of songs, led by Lion Meroney, and invocation by Judge Clyde L. Garrett.

The introduction of visiting Lions and welcome address by their president, B. E. McGlamery, was followed by a talk by Russell Stephens of Abilene, whose subject, "New Ideas of United States Government," was interestingly presented.

Following the banquet courses of shrimp cocktail, fruit salad, and dinner plate of fillet mignon on toast, with baked potato, green beans, hot rolls and last course of apple pie a la mode, and coffee, the speaker of the evening was presented by Lion McGlamery.

Dr. Danforth paid a tribute to the key members and stated this is the week that Lions International has set aside to honor key members.

A compliment was paid the Eastland Lions, whom the speaker declared had eight key members. Many high lights were brought out in the ideals of Lionism, chief of which was that the great religion of the Lion, lay in service to humanity.

A group of Abilene entertainers was presented in a dancing, cabaret feature, the 10 members

putting on a beautiful performance.

Drys Put Over State Beer Law

AUSTIN, Oct. 25.—Texas wets are belatedly awakening to the discovery they sold a prospective wet birthright for a mess of 3.2 potage.

With the present swing to repeal, they might well have pressed for repeal of state-wide prohibition in its entirety, instead of limiting their efforts to obtaining the amendment that permits only beer and wine.

The inside story of how the submission of the beer amendment was successfully put over in the regular session of the legislature has now been told. The dregs precipitated it.

During a noon recess there was a compromise. Dry leaders joined in the beer amendment movement. Rep. C. F. Sullivan of Gainesville was selected as the compromise leader because he was one of the driest of the dregs. Sullivan, at first adamant, was convinced Texas constitutionally dry on liquors for two years more at least, was a good trade. Sullivan and the prohibitionists then offered the beer amendment. The wets who had been clamoring for beer couldn't in good grace refuse to support it. Only six members of the entire house voted against the proposal.

Now with national prohibition repeal slated for a speedy discord, the Texas "prohibs" are chuckling at the way they have kept Texas semi-dry.

Murder Case Is Affirmed by Court

AUSTIN, Oct. 25.—The state court of criminal appeals today ruled John Allen must serve 40 years' murder sentence because bills of exception appeared to have been filed two weeks too late.

Allen was convicted in Gregg county of killing Roy King, his landlord, in 1932. The court formerly held a statement made by King after he was shot and before his death was improperly admitted at Allen's trial. The court today granted the state a rehearing and affirmed the sentence.

Farm Strike Meets With Opposition

DES MOINES, Oct. 26.—Opposition to the farm strike developed today among Midwestern farmers as state and federal officials prepared for a conference to discuss agricultural relief.

Eight hundred farmers from Iowa, lead by a sheriff, defied pickets stationed at the Missouri river bridge near Plattsmouth, Neb., and escorted 50 livestock trucks to market today.

The ground of farmers expressed confidence in the national administration ability to solve farm problems if given time, and charged most of the farm strike pickets were non-farmers and transients.
