VOL. 3, No. 233 — SNYDER, TEXAS, TUESDAY, JANUARY 27, 1953 — EIGHT PAGES — PRICE 5c

Feather Named Chamber Head For This Year

Herbert Feather, 41, publisher of the Snyder Daily News and partner in the Times Printing Co., was unanimously elected president of Scurry County Chamber of Commerce for 1953 at a joint meeting of the outgoing and incoming directors last night.

Feather, who will assume duties following the annual chamber banquet Feb. 13, succeeds G. Edward Bolger.

One new member was also appointed to the board last night to fill the place of Haskell Beard, whose formal letter of resignation was read. Russell Yorgesen, local accountant, received the unanimous vote of the board and was also elected to the post of treasurer, left vacant by Feather.

Other officers elected were J. T. Hughes, manager of radio station KSNY, as second vice president and Clyde Willbern, attorney, first vice president. The office of third vice president was abolished.

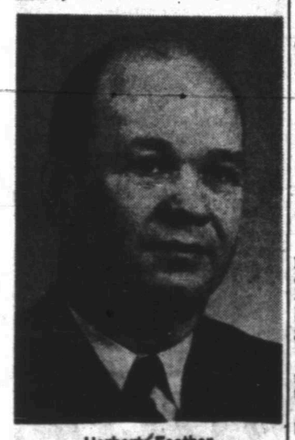

Feather moved to Snyder in April, 1950, as publisher of the newspaper after acquirng an interest in its ownership. He had previously been advertising manager of the Big Spring Herald.

He was born in Oklahoma, is a graduate of Oklahoma A&M, is a veteran of World War II, and lives with his wife at 3750 Dalton Drive.

A financial report of the chamber read at the meeting shows that expenditures were $19,403.37 for 1952. Receipts, including some $300 taken in for this year's banquet, were $20,159.14.

New directors installed last night were H. W. Cargile, Snyder banker; Hughes; Claude McCormick, Phillips 66 jobber; Willbern, and George Frazier, Snyder banker.

Out going directors are Ralph Geisenhoner, Nolan Watson, Walker Dabbs, Jim Mixon, and James Rosser.

Herbert Feather

King Wildcat Will Complete After Testing

Shell No. 2-1 Burnett, wildcat in King County eight and one - half miles southeast of Guthrie is preparing to take potential test and complete.

It drilled to a total depth of 6,439 feet in Ellenburger dolomite but had no possibilities of production at that depth. It then plugged back to 5,607 feet in Pennsylvanian and set casing there.

It perforated at 5,520-540 feet, and in three hours it flowed 34 barrels of fluid through a 12-64th inch choke. Most of that fluid was oil. The perforated section was washed with 500 gallons of mud acid.

It is 660 feet from south and 1,969 feet from west lines of section 1-TTRR.

SHARON RIDGE

Rube and B. L. McKinley of Snyder have completed their No. 3 Mills Patton, Northeast Mitchell County project in the Sharon Ridge 1700 field.

On potential test it pumped 40.18 barrels of 28-gravity oil with no water.

Top of pay was found at 2,660 feet and total depth is 1,693 feet. The pay section was treated with 5,000 gallons acid. Five and one-half inch casing was set at 1,660 feet.

It is 330 feet from north and 990 feet from east lines of section 195-3-H&GN.

DRILLING REPORT

Texaco No. 2 M. A. Fuller, North Scurry wildcat now on total depth of 8,120 feet in lime, is preparing to set and cement five and one-half inch casing on bottom. It will then perforate and test in the Mississippian, where it showed for discovery.

Wrather No. 1 Davis, Mitchell wildcat, is now on total depth of 6,615 feet in Ellenburger and has set five and one-half inch casing at 6,598 feet. It will test in the open hole where it flowed some oil and try to complete as a discovery.

Humble No. 5-B Sorrells in the Diamond M Canyon field of Southwest Scurry County is now on total depth of 6-809 feet in lime and swabbing. So far it has not developed any oil in the section just above the total depth.

Lario No. 1-D Griffin, Southeast Borden wildcat, is circulating while waiting on orders on total depth of 7,250 feet in reef lime. So far no report has been made of any development of any production in the reef.

Richardson 1 Bass No. 1 Nail in Southeast Mitchell County cored at 6,285-317 feet and recovered 32 feet shale and sand with no shows. It is now drilling at 6,326 feet in shale.

Sun No. 1 - A Jones in the Coronet 2900 field of Northeast Howard pumped eight barrels of oil with no water in 24 hours. It is still pumping.

Magnolia No. 2 Martin in the Kelley - Snyder field of Scurry is now testing for water shutoff on casing after drilling out cement to 7,348 feet.

Humble No. 1 Nachlinger in the Buffalo Creek Ellenburger field near Hermleigh is drilling at 4,877 feet in sand and shale.

Fighting Not So Heavy On Korean Front

SEOUL (AP)—Allied warplanes today hammered Communist supply routes and front-line positions on the frozen Western Korean Front.

Outnumbered U. S. Sabre jets damaged two Communist MIG15 fighters over Mig Alley in Northwest Korea.

Only light ground action was reported as Gen. J. Lawton Collins, U. S. Army chief of staff, began his seventh tour of the battlefront since the war began 2½ years ago.

Collins was accompanied by Gen. Mark Clark, United Nations Far Eastern commander, and Gen. James A. Van Fleet, retiring Eighth Army commander. Van Fleet's successor, Lt. Gen. Maxwell Taylor, left Washington for Tokyo today.

The Russian-built MIG15s were damaged in a battle between four Sabres and 20 Communist jets 20 miles south of the Suhlo Reservoir in Northwest Korea. Allied losses, if any, are announced in a weekend summary.

Farther south, F84 Thunderjet fighter-bombers for the second straight day blasted the once attack-free Communist supply route from the capital at Pyongyang to the Red truce camp at Kaesong.

Since November, 1951, the U. N. Command had permitted the Reds to send daily supply convoys to their truce delegation at Kaesong free from attack.

But on Jan. 15, the Allies limited the immunity to Sundays only. They charged the Reds were using the route to supply front-line troops.

Blistered B-36 Believed To Be Bomb Carrier

FORT WORTH, Jan. 27 (AP)—The history making "H-bomb" believed exploded recently in the South Pacific was dropped by an airplane from Carswell Air Force Base here, the Fort Worth Star-Telegram learned today.

The heat-scarred B36 has been returned to service after decontamination and repairs.

Primed to top flight condition by a specially selected crew of airmen and then flown away by a super-selected crew, the big brother to the B29 "Enlos Gay" which dropped the first atom bomb over Japan, took off here shortly before the Nov. 1 blast date, the newspaper said.

The aircraft, with its blue-ribbon crew and "top-top secret mission," picked up the most devastating chunk of machinery and molecules ever assembled in the world's history at "a western state" and proceeded to the Eniwetok Island area for the drop.

The bomb-bay doors through which the hydrogen bomb plummeted were freshly painted before the airplane left Carswell.

They were blackened, scarred and blistered when the plane returned.

84 Degrees Yesterday

The temperature soared to a maximum of 84 degrees yesterday, and the low last night was 43 degrees, according to Mrs. D. P. Strayhorn, official weather observer. The reading at 7:30 o'clock this morning was 51 degrees.

British Jet Is After Record

LONDON (AP) — Britain's record-breaking twin-jet Canberra bomber flashed into the skies early today in an attempt to fly from England to Australia in less than 24 hours.

The sleek blue bomber will try to cover the 8,608 miles to Darwin with only three refueling stops—at Fayid in the Suez Canal zone; Karachi, Pakistan; and Singapore.

The plane took off at 8:36 a.m. (3:36 a.m., EST), carrying a pilot and a navigator.

The present London-to-Darwin record was set in August, 1946, by a Royal Air Force Lancaster, which made the trip in 45 hours 35 minutes.

The Canberra, world's first twin-jet bomber, made the first double crossing of the Atlantic in a single day last August.

The plane, which belongs to the Ministry of Supply, is being flown to Australia for secret experimental work at the Commonwealth Guided Missile and Rocket Testing Ranges at Woomera, in the heart of the uninhabited Australian desert.

The pilot is RAF Flight Lt. Leslie Morris Whittington, 29-year-old test pilot. The navigator is Flight Lt. John Anthony Brown, 30.

The day's sharpest ground action occurred northeast of the Punchbowl area on the Eastern Front. A South Korean patrol skirmished with a reinforced North Korean platoon for 13 minutes, then pulled back as Allied artillery pounded the Reds.

A day after Edwin H. Heller of Wynnwood, Pa., destroyed two MIG 15s in combat and was promoted to Lieutenant-colonel he failed to return from another combat flight. Fifth Air Force said his Sabre Jet was feared downed by cannon fire from a MIG.

Drunk Drivers Drawing Fire From Legislators

Defense Claims Mary Parsons In Insane; Delay Is Denied

WICHITA FALLS, Jan. 27 (AP)—Dist. Judge Arthur Tipps denied today a defense motion for a third delay in the murder trial of Mary Jean Parsons after attorneys argued about her sanity.

The 22-year-old Tulsa heiress is charged with shooting her husband of less than a month, Army Lt. Richard O. Parsons, in their El Paso apartment Feb. 16.

Defense Attorney Lesley Humphrey told the court the blue-eyed, blonde defendant, who has been kept in a private mental hospital since the shooting, "is insane at this time."

She was found sane at a hearing in El Paso last May.

Her attorneys had asked that the trial be continued because six important defense witnesses, four of whom testified in the sanity hearing, were absent.

JURORS DIVIDED

Dist. Atty. William Clayton of El Paso argued that the motion should not be granted because Mrs. Parsons had not signed the motion. He said she should have signed because she was found sane in the El Paso hearing.

Humphery replied, "the judgment of the (sanity hearing) jury has no probity whatsoever in this matter.

"She is insane at this time. We call the court's attention to her condition. When we do she becomes to that extent a ward of the court."

Judge Tipps then granted the state's motion and the defense took exception.

He also divided prospective jurors into groups of five and ordered them to report to court at intervals during the next three days. The first group was directed to return to court at 1:30 p.m.

Two previously scheduled trials were postponed after defense attorneys pointed out technical flaws in the selection of jury venires.

SITS QUIETLY

The blue-eyed blonde sat quietly as her attorneys attempted to get her trial continued for the third time. Beside her were her wealthy parents, Mr. and Mrs. Burther Fleeger, Tulsa. Fleeger is a prominent manufacturer.

Mandatory Jail Sentence Urged

AUSTIN, Jan. 27 (AP)—The Legislature today levelled a double-barrelled blast at killers on highways.

Sen. Carlos Ashley, Llano, introduced a bill to slap a mandatory five-day minimum jail sentence on drunken drivers.

Rep. Thomas R. Joseph Jr., Waco, introduced a bill to "take death off the highway by putting more patrolmen on the highway."

The present drunk driving law calls for a non-mandatory jail sentence of 10 days to two years or a $50 to $500 fine. Ashley believes a mandatory sobering-up period behind the bars would help curb drunken drivers.

Ashley's bill leaves the fine as it is. It sets up the jail sentence "and" the fine, not "or" the fine.

Joseph's bill, one of several before the Legislature to cut down the highway death toll, would increase license fees for chauffeurs from $3 to $5 every two years for commercial vehicles and $1 to $2 for private operators.

"This would give Col. (Homer) Garrison's department of public Safety four and one-half million dollars more for the next biennium. It would allow him to put on 130 more patrolmen and to set up longevity pay for all patrolmen," said Joseph.

"You can have all the auto inspection laws you want, but they'll never take the place of more patrolmen on the highways."

His bill was one of several introduced on first reading in the House.

A big-money bill designed to hold state spending from the general fund to $162 million for the next two years for state departments, colleges, courts, hospitals and special schools was introduced in the Senate. Hearing on the identical measure already has been started by the House appropriations committee.

The Senate finance committee said it would begin hearings on the money bill this week.

Public hearing on a bill to provide a tougher penalty for sale of narcotics to minors was set for 7:30 p.m. tonight. The bill, by Rep. Grainger McIlhany of Wheeler, would require a sentence of 10 years to life imprisonment on conviction of selling, bartering, or giving narcotics to a person under 18.

Penalty under present law is 2 to 10 years.

A proposal to let pari-mutuel betting on horse races return to Texas on a local option basis continued to kick up informal reaction pending hearings by the House state affairs committee at a later date.

A spot check of 23 house members from all parts of the state showed them 3-to-1 against the bill, introduced by Rep. Ed Sheridan of San Antonio. But Sheridan anticipated approval by the state affairs committee. He said he would seek a hearing in about three weeks.

REPRESENTATIVE FROM SNYDER TO INTRODUCE BILL

AUSTIN — Wives know their own minds, it is assumed, in a bill which Rep. C. F. Sentell of Snyder plans to introduce in the Texas House this week.

The bill would make it no longer necessary for wives to acknowledge a legal instrument "privily and apart."

Present law requires that a husband leave the room so that the instrument may be explained to the wife in private, Sentell pointed out.

"That may have been necessary once, but we've outgrown it," Sentell said.

"Makes me feel silly to have to ask the husband to leave and then explain it to the wife. Chances are she already knows as much or more about it."

Under this new bill, the woman would make her acknowledgement the same way as the husband.

Chances Good For Changes In Labor Law

WASHINGTON (AP)—An influential senator said today a series of changes proposed by Sen. Taft (R-Ohio) in the Taft-Hartley labor law have a good chance of being accepted by unions and industry.

And Chairman H. Alexander Smith (R-NJ) of the Senate Labor Committee told a reporter that all of Taft's proposed amendments to the T-H law seemed to fall into an area in which both unions and industry can agree.

Taft, GOP majority leader and principal author of the labor law bearing his name, dropped five bills into the Senate hopper yesterday proposing about 16 different changes in the present law. Most of the proposals Taft had introduced before in Congress, without getting them enacted.

Some of his main suggestions: (1) increase the members on the National Labor Relations Board (NLRB), which administers the labor law, from five to seven; (2) completely separate the functions of the NLRB's general counsel from the NLRB itself, and (3) make employers as well as union leaders file non-Communist affidavits before they can avail themselves of the NLRB.

Jews Tell Of Red Treatment

MUNICH, Germany, Jan. 27 (AP)—Jewish refugees who fled recently from behind the Iron Curtain told today of new waves of anti-Semitic terror in red-ruled Hungary and Czechoslovakia.

"The oppression of Jews in Hungary is worse than in the Nazi time," said one refugee in his early 20s who asked that his name be kept secret. He added that the new campaign is being led by former Nazis—now faithful followers of the Communist regime.

Others told of the deportation of Jews to Russia and of how many are herded into forced labor camps where they must work long hours on roads, anti-tank defenses and air raid shelters along the frontiers and around big cities.

Refugees from Czechoslovakia said Jews hardly dare appear in public, and buildings are plastered with signs reading "hang the Jews" and "the Jews are the ruin of Czechoslovakia."

Reds Say U. S. Pilot Shot Down In Red China

TOKYO, Jan. 27 (AP)—Red China claimed today that Lt. Col. Edwin L. Heller, a leading U. S. Sabre jet pilot, was captured after his plane was shot down Friday.

Peiping Radio said Communist MIG jet cannon fire downed Heller's plane in Manchuria, near Pehcheng (possibly Pengcheng, across the border from Uiju in North Korea).

Six Reported Killed In Blast

AIKEN, S. C., Jan. 27 (AP)—An explosion wrecked an electrical store in the center of town today and at least six persons were reported killed.

The blast in the Jones Electrical Co. Store demolished the building and a fire broke out.

Mayor O'Dell Weeks said it was known definitely that six persons were in the building at the time of the explosion. He expressed belief their bodies were buried in the debris.

The blast occurred while an investigation was being made of a leaking gas line serving the store. Windows in adjacent buildings were shattered and a number of automobiles were buried under wreckage.

WEATHER

NORTH CENTRAL TEXAS — Partly cloudy, mild Tuesday afternoon. Colder Tuesday night and Wednesday.
WEST TEXAS — Partly cloudy, colder Tuesday night and Wednesday and in Panhandle Tuesday afternoon. Lowest 25-35 in Panhandle and Upper South Plains Tuesday night.
EAST TEXAS — Partly cloudy, mild Tuesday afternoon. Colder Wednesday and in north and central portions Tuesday night. Fresh to strong southerly winds on the coast, shifting to northwesterly.
SOUTH CENTRAL TEXAS — Partly cloudy Tuesday afternoon, night and Wednesday. Colder Wednesday. Fresh to strong southerly winds on the coast, shifting to northwesterly.

Rape-Slayer Of Ex-Texan Being Sought

WESTPORT, Conn., Jan. 27 (AP) Police today sought a 29-year-old Negro handyman as the rape-slayer of a young mother—a native of Waco, Tex.,—whose knifed and garroted body was found last night in a house here she had occupied only two weeks.

State Police Sgt. Louis Marchese said William Davis was accused of the crime by his wife, Dolly.

Marchese said Davis and his wife did part time housework for Mrs. Penny Evans, 30, whose nearly nude body was found by two Westport policemen after Stamford authorities reported that Mrs. Davis had telephoned them saying:

"My husband has just killed a woman."

The state policeman said the Davises had gone to Stamford by separate taxicabs to visit their child.

AUTOPSY PLANNED

Mrs. Evans' body, clad only in sweater and brassiere, was found sprawled grotesquely on a bed, an electric clock cord tightly coiled about her neck in which there were five stab wounds.

Medical Examiner Harry Phillips said Mrs. Evans had been sexually assaulted. He said her blood was splattered on the walls of the bedroom, indicating she had attempted to fight off the attack.

The body was removed to Norwalk Hospital where an autopsy was scheduled.

ROAD BLOCKS

Police, after questioning Mrs. Davis, who was brought here from Stamford last night, quoted Mrs. Davis as saying that when her husband told her he had killed Mrs. Evans, she left him and called Stamford police, who in turn notified local authorities.

Road blocks set up in the Stamford area failed to find Davis up to a late hour, and a nine-state police alarm was sent out over an interstate police communications system.

Delay Action In Oil Case

WASHINGTON, Jan. 27 (AP)—The Eisenhower administration today delayed for 90 days a grand jury investigation into an alleged world oil monopoly.

This was done to permit the new attorney general, Herbert Brownell Jr., to give further consideration to the case.

U. S. Dist. Judge James R. Kirkland signed an order, requested by government counsel, putting off the grand jury investigation.

Leonard J. Emmerglick, special assistant to the attorney general who has been in charge of the case, told Judge Kirkland the 90-day delay will permit Brownell "to study, consider and confer" upon the pending investigation.

Emmerglick said the new attorney general will confer with interested departments and agencies of the government, particularly in regard to the question of national security.

The grand jury was authorized in August and empanelled in September, but it has had nothing to do as a result of a series of legal maneuvers by attorneys representing major oil companies involved in the inquiry.

President Eisenhower Issues His 1st Executive Order Today

WASHINGTON, Jan. 27 (AP)—President Eisenhower issued his first executive order today. It gives official status to a three-man committee studying ways to streamline the executive branch of the government.

The committee was instructed to find ways "to promote economy and efficiency" in the executive agencies.

Still bothered by a slight cold, Eisenhower stayed in his room at the White House today but aides said he was up early working on his state of the union message to be delivered to Congress Monday.

Yesterday Eisenhower created a strategy board to plan psychological maneuvers in the cold war.

The President named eight men for the project and instructed them to report to him by June 30.

The White House announcement said:

"The committee will survey and evaluate the government's information and related policies and activities with particular reference to international relations and the national security."

It is a "psychological strategy board," James C. Hagerty, White House press secretary, told reporters.

The President, fighting a slight cold, canceled all but one appointment today. He planned to attend a reception for 160 diplomatic representatives and their wives. Apart from that, he did not expect to leave his study, where he is working on the State of the Union message he will present to Congress Monday.

Hagerty described the President's condition as "a light case of sniffles" and said the cancellations were for precautionary reasons only.

Court Collects 1st Bond Ever Actually Forfeited In County

For the first time in the memory of any courthouse officials, a bail bond in a criminal case has actually been forfeited here. The bond, ordered forfeited last Wednesday, was paid this morning by one of the sureties, both of whom were Lubbock men.

It was a $250 appearance bond ordered forfeited when the principal, Coleman Steen, 44-year-old Lubbock Negro cafe operator and gambler, failed to appear as defendant in a county court trial in which he was charged with carrying a pistol.

Steen appeared in court the following morning, was told of the forfeiture order, and was placed under a second bond setting of $2,500. He never made the latter bond and remained in jail until this morning when he pleaded guilty to the charge and was assessed a fine of $100 plus court cost of $23.50 and was sentenced to eight days in jail. He was given credit, however for the time spent in jail already and was released when the fine and bond were both paid.

Steen was arrested Jan. 17 by E. W. Green highway patrolman. Steen said he was en route from near Waco to Lubbock when he was arrested by Green who said he found the .38 caliber pistol in the glove compartment of Steen's car.

Several times, bonds have been ordered forfeited by courts here, but none has been forfeited by contest. Wayland G. Holt, new county attorney, said procedure of bond forfeiture would be enacted in all cases in which he was prosecutor and that bonds could and would be forfeited here.

Everything Is 'Friendly' Over Dispute Of Water Districts

STANTON, Tex., Jan. 27 (AP)—Both sides in a West Texas water fuss say they are ready to sit down and talk things over rather than air their controversy further in court.

Directors of the Martin County Water District decided at a meeting here last night they were ready to listen to requests for temporary water supplies from Big Spring, Odessa and Snyder.

Earlier officials of the Colorado River Municipal Water District, made up of the three cities, said they were ready to talk "on a friendly basis."

The Martin County Water District was organized more than a year ago to regulate production of underground water after the Colorado River district bought water rights in Martin County. The three cities need supplementary water supplies to tide them over until a reservoir is completed on the Colorado River in Scurry County.

First, the Colorado River district got a court injunction preventing the Martin County district from enforcing its production regulations. Last week the state Supreme Court dissolved the injunction.

George Thomas of Big Spring, attorney for the Martin County district, said the directors studied the Supreme Court decision last night but made no decision on enforcement at this time.

Thomas said the directors were interested in reports that the Colorado River district wanted water on a temporary basis only.

"It was our understanding they wanted the water on a permanent basis for 10 years or so, at which time it would all be gone," he said. "If the Colorado district continues to take the water as they have in the past we intend to enforce our regulations right down the lines."

Before the meeting Martin County judge James McMorries said the three cities could obtain water from Martin County "if they don't act greedy."

"If they will only approach us on a friendly basis," he said, "we can work this thing out without going through the courts again. We don't mind giving the boys a drink of water, but we don't want to give up the water to the extent of drying up our own reservoirs."

R. T. Piner of Big Spring, head of the Colorado River district said the three cities were drawing water from Martin County "as sparingly as possible."

He said his group hopes "regulations can be adjusted to better meet the situation for all interests and to spare both districts the expense and unpleasantness of litigation."

Move To Get Grand Jury Back In Session

ALICE, Jan. 27 (AP)—Jim Wells County Atty. Sam Burris said today he would ask the State Supreme Court to compel Dist. Judge C. Woodrow Laughlin to rescind an order dismissing a grand jury here.

Burris said the order Jan. 1 dismissed the current grand jury whose term expires March 1. The county attorney said the panel he seeks to re-convene is the one which indicted Laughlin recently on charges of defrauding the county in selling it his law library. The charge was dismissed after Laughlin returned the money and took his books back.

Burris left Alice early today for Austin, where he said he would file the mandamus action upon arrival.

Remington Convicted In Case Of Perjury And Red Dealings

NEW YORK (AP) — William W. Remington, 35, former government economist, was convicted today of perjury in denying he ever gave secret government data to Elizabeth Bentley for relay to Russia.

He also was convicted on a second perjury count for falsely denying knowledge of the existence of a unit of the Young Communist League at Dartmouth College when he was a student there in the 1930s.

Remington was shaky on his feet after the verdict. Before it was announced, he sat pale and nervous at the defense counsel table, fidgeting and aimlessly picking at the leaves of a pocket dictionary.

He could be sentenced up to 10 years in prison and $4,000 in fines on the two counts. This would be twice the penalty he drew on a previous conviction which he got reversed on appeal.

The Federal Court jury's verdict—announced at 3:30 a.m. — left further charges hanging over his head.

The jury acquitted the handsome onetime $10,000-a-year Department of Commerce employe on one count of a five-count indictment. This charged him with falsely denying he ever recruited any one into the Communist party.

On two other counts the jury of 11 men and one woman reported it was unable to agree. These involved his denials that he ever attended Communist party meetings at Nashville, Tenn., when he was employed by the Tennessee Valley Authority, or that he ever paid Communist party dues.

Miss Bentley, admitted former courier for a Soviet spy ring, was a prosecution witness against Remington at both trials. She said he gave her, War Production Board information.

The government can bring Remington to trial again on the two deadlocked counts if it wishes, Judge Vincent L. Liebell said. If convicted on these two counts, Remington could be sentenced to a possible maximum of another 10 years and $4,000 in fines.

Defense Counsel John McKim Minton Jr. told reporters he would seek to have the verdict set aside on the ground it was contrary to the law and the evidence.

All five perjury counts grew out of Remington's testimony at his first perjury trial, two years ago, at which he was convicted and sentenced to five years and a $2,000 fine.

He was found guilty then of perjury in denying before a federal grand jury that he ever had belonged to the Communist party. The conviction was upset on appeal on the ground that the first trial judge, Gregory F. Noonan, was vague in instructing the trial jury on what constituted Communist party membership.

PHOTOS FOR THE GIs

Since Miss Pat Barfield, Baylor University senior from New Boston, Tex., was chosen by the GIs in the Far East as the "college homecoming queen they'd most like to come home to," she has received from 10 to 50 letters a day, and already has sent 250 autographed pictures in reply. Pat is 20, weighs 120 and is 5 feet 5. The contest she won was sponsored by the 8th Army Public Information Office and the Pacific edition of Stars and Stripes.

Bootlegger Advises Another In Jail Here: Guilty Pleas

Fines and court costs totaling $900.50 were paid to the county clerk office this morning by Rolen Ogle, 27, of Crosbyton, who suffered an $1,800 financial setback because of his arrest while transporting liquor here.

Ogle pleaded innocent to the bootlegging charge in county court yesterday, was placed in the county jail in lieu of $2,000 bond, but yesterday afternoon decided to enter a plea of guilty. He was fined $750 plus court cost of $23.50, saying he decided to plead guilty after learning from Anderson Davis, Jr., Snyder Negro now serving a four - year bootlegging sentence here, that "juries in this county are pretty rough on bootleggers."

Ogle also paid fines and court costs totaling $127 in justice of peace court when he pleaded guilty to a charge of speeding and to another charge of disregarding a stop sign. He was arrested Saturday night near Dermott after a high-speed pursuit by officers for about 26 miles.

The sheriff's department confiscated 41 cases of wine, beer, whisky, and gin with a total wholesale value of more than $850 from Ogle's car. Ogle said bootleg retail prices of the liquor would total about $1,600.

Ogle's car, a 1950 Oldsmobile, was seriously damaged in the chase, he said.

Air Reservists Hold Meeting

Air Force reservists met here for their first time last night to organize a reserve unit here, and the group voted to meet at 7:30 o'clock each Thursday night.

Meetings will be held in the high school distributive education room in a temporary building near the gymnasium.

Maj. J W. Jackson, Lubbock reserve officer, and M-Sgt. D. W. Nunn of the 9827th Volunteer Air Reserve Training Squadron in Lubbock met with the 15 Snyder reservists, some of whom had inquired about the possibility of forming a flight attached to the Lubbock squadron.

Holding two hour meetings each week, the reservists will have films and other training aids furnished by the Air University.

Dick Roberts, a member of the new flight, urged all Air Force reservists to attend the meetings. He added that reservists may earn points for promotion and retirement through the local organization.

County Ups Prisoners' Fare, Pays For Autopsy

The county commissioners yesterday afternoon passed an order increasing allowance to sheriff's department for feeding of prisoners from 90 cents to $1 per man per day.

The commissioners court also voted to pay a bill of $150 to Dr. John Y. Battenfield for his services in performance of an autopsy on the body of Crecenciano Gaona, 27, murdered near here Christmas. The court had previously ordered payment of Gaona's hospital bill of about $65, but a physician's bill of $250 for services before the deceased's death has not yet been paid by the court. Ganoa underwent an emergency operation between the time he was stabbed in the head and abdomen and the time of his death about four hours later.

The court took no action on replacement of one of the two courthouse janitors. Luke Hammit, janitor about two years, quit his position yesterday. Another janitor, Fred Pitner, remained on the job.

Flying Discs Told Of By Air Force

U. S. AIR BASE, Northern Japan, Jan. 27 (AP)—The U. S. Air Force tonight reported a small, metallic, disc-shaped object made a controlled, sweeping pass at an American jet fighter-bomber and was observed at very close range by another pilot.

The report, from Air Force intelligence files, said the sighting was made over Northern Japan at 11:20 a.m. March 29,1952, by Lt. David C. Brigham, Rockford, Ill.

It was a bright, cloudless day. Brigham said he got a very good look at the object from about 30 to 50 feet for about 10 seconds.

The pilot described it as "about eight inches in diameter, very thin, round, and as shiny as polished chromium; had no apparent projections and left no exhaust trials or vapor trails."

SECOND INCIDENT

He said it caught up with an F84 Thunderjet, hovered a few moments and then shot out of sight. The F84 pilot, whose name was not revealed, did not see it.

It was the second disclosure in a week by Air Force Intelligence of mysterious flying objects over northern Japan near the Russian-Siberia area.

Brigham was flying a prop-driven reconnaissance craft at 6,000 feet when an F84 Thunderjet drew alongside.

Then, he said, he saw the disc to the right of and just behind the Thunderjet. He said it appeared to be traveling 30 to 40 miles an hour faster than the F84, which was going 150-160 miles an hour.

MANUEVERING PRECISE

"It closed rapidly and just before it would have flown into his fuselage it decelerated to his air speed almost instantaneously," Brigham reported. "In doing so, it flipped up on its edge at approximately a 90 degree bank. Then it fluttered within 20 feet of his fuselage for perhaps two or three seconds, pulled away and around his starboard (right) wing, appearing to flip once as it hit the slipstream behind his wing tip fuel tank.

"Then it passed him, crossed in in front of him and pulled up abruptly, appearing to accelerate, and shot out of sight in a steep, almost veritcal climb."

"Its maneuvering throughout was always clear and precise," the pilot said.

Jan. 21, the Air Force disclosed that "rotating clusters of red, white and green lights" had been sighted over northern Japan by American airmen.

BIRTHS

Mr. and Mrs. A. L. Taylor of Knapp are parents of a daughter born in Battenfield Hospital at 2:15 o'clock this morning. The baby weighed eight pounds and eight ounces.

Mr. and Mrs. Vincent L. Quinlan of the Magnolia Camp west of town are parents of a son, Vincent L., III, who was born Friday in West Texas Hospital in Lubbock. Mrs. Quinlan and son were to have returned home today.

Miss Baker Priest, Utah Republican, appeared Jan. 26 before the senate finance committee, which quizzed her on her qualifications for the job of treasurer of the United States, to which President Eisenhower named her.

Mr. and Mrs. Ralph Mitchell and sons, 2805 Avenue H, visited during the week end with her mother, Mrs. J. E. Pruet, in Putnam, Tex.

Odors To Give Gas Smell Escaped Near Town Here Yesterday

Chemicals used to give butane a recognizable odor caused a stir of excitement in East Snyder last night, police said.

Members of the department on duty after 11 o'clock said that dozens of phone calls came to the department reporting the odor, all stating they believed there was a dangerous gas break in a line in the area, and they feared the gas would catch fire.

But when the gas company was called and investigated they found that only the harmless orderizing chemical was escaping.

The chemical is used to give a recognizable odor to natural gas butane, and propane, all of which are oderless in their natural states.

Gun Shot Victim Is Reported As Improved

Raysell Vaughan, 17, who suffered pelvic injuries from a hunting accident near here Sunday was reported yesterday afternoon as improved.

Vaughan is in Hendrick Memorial Hospital in Abilene where he was taken after being struck by the blast of a 12-gauge shotgun. Vaughan and three other youths were handing the guns through the fence when one discharged.

Vaughan is the son of Mr. and Mrs. J. T. Vaughan who live on Thirteenth Street near Avenue I.

Navy Having Many Troubles

WASHINGTON, Jan. 27 (AP)—The Army wants universal military training. The Navy doesn't.

The Army is helped by the current qualitative distribution method of parcelling out recruiting quotas among the armed services; the Navy is hurt by it.

The Navy concedes its guided-missile crone-airplane publicity out of Korea last September was overdone.

The Navy calls Air Force Assn criticism of its "Exercise Mainbrace" in North Atlantic waters last fall unwarranted and inaccurate.

The Navy is having trouble getting career officers.

These are some of the issues brought out by top military personnel before the National Security Commission of the American Legion, which concludes a three-day meeting today.

Lt. Gen. A. C. McAuliffe, Army assistant chief of staff for personnel, said universal military training (UMT) is "the only sound approach" to maintenance of a strong defense establishment. But Rear Adm. R. N. Smoot, assistant chief of naval personnel, said his service thought UMT would be no substitute for Navy training. So it would be expensive and impractical, he said.

Bond Set For Cafe Man Under Liquor Charge

Appearance bond was set in county court yesterday at $1,000 for James E. Riley, Snyder cafe operator held in the county jail on a charge of selling liquor.

Riley, of Riley's Cafe in the 2400 block of Avenue S, has been convicted several times here on bootlegging charges. He was arrested Saturday night by J. D. Frith, deputy sheriff who said he witnessed the alleged sale.

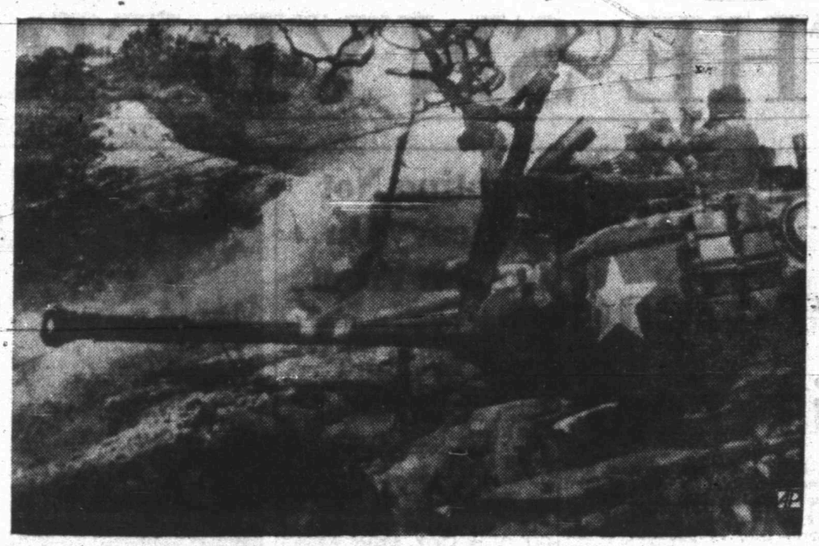

In 1952 each man, woman and child in the United States owned an average of $1,840 as his share of the federal, state and local debts.

TANK AND INFANTRY ON HILL

A tank (foreground) and mobile artillery unit are side by side while aiding Allied units fighting to dig out Chinese Communists entrenched on "Spud" Hill in Korea, about 12 miles southwest of Chorwon. Chinese repulsed the attackers 15 yards from the hill crest with a terrific crossfire.

Cash Register Taken Sunday Is Discovered

The cash register stolen from Gordon's Drive In Sunday night in one of four burglaries here that night was found abandoned in a field near Ira yesterday, Homer Whisnand, sheriff, said.

F. C. Rhoads, manager of the cafe, identified the register, and said that approximately $198 in cash was missing from it.

Some checks which had been taken in by the cafe during Sunday were found at the same spot, Whisnand stated.

The burglars had broken into the cash drawer on the register and had severely damaged it. Rhoads estimated that damages to the register would cost about $37.50 to repair.

Whisnand said that he and Howard Gibbons, deputy, found the register in a cotton field about one-half mile south of the Big Spring highway about one mile northeast of Ira. They had been tipped that an object which appeared to be a cash register was in the field.

W. J. Ramsey, police sergeant, said nothing else has developed on any of the burglaries.

Sunday night the drive in cafe, the East Elementary School, the North Elementary School, and the Jack Rape Humble Service Station at Avenue N and Twenty-fifth Street were all burglarized.

Approximately $60 was taken from the office of the North Elementary School office, and about $30 was reported missing from the service station. Nothing was taken at the East Elementary School, officers said.

Ramsey said that police officers are investigating several leads on the burglaries, but have nothing definite to work on yet.

HOSPITAL NOTES

The following admissions and dismissals at Battenfield Hospital are those whose names were released by the hospital.

Patients admitted: Mrs. Bobby McCormick, 3024 Avenue A, medical; Barbara Lee Barham, daughter of Mr. and Mrs. J. W. Barham of Snyder, medical; John T. Holley and daughter, Tenny, of route No. 1, medical; Mrs. Zane Tombs, 510 Fifteenth Street, medical.

Patients dismissed: Mrs. E. P. Russell and baby girl, route No. 1; Mrs. Charles Harris, 320 Twenty-ninth Street, medical; E. E. Pinkerton, 1005 Twenty-third Street, medical.

Marines Gum Bridge Traffic

SAN FRANCISCO, Jan. 27 (AP)—Some 40 U. S. Marines fresh from Korea were stopped by police and MP's last night when they tried to stage a "liberty march" toward San Francisco across the crowded six-lane upper deck of the Bay Bridge—reserved strictly for autos.

The leathernecks, some of 2,000 landed earlier in the day from the transport Gen. M. C. Meigs, were given liberty from Treasure Island Navy Base in the center of San Francisco Bay at 8 p.m.

Hiking up Yerba Buena Island from the base, they missed the turn to the lower deck train loading platform of the San Francisco-Oakland Bridge.

Emerging on the upper deck, they saw the lights of the city beckoning across the water and proceeded to turn the highway into a footpath.

That is until hundreds of autos began backing up behind them.

Then four carloads of highway patrolmen and two of armed service police halted the impromptu parade a quarter of a mile from the Treasure Island entrance.

The officers herded the marines to the lower platform to await a train to San Francisco—which is all the liberty-bound leathernecks had wanted in the first place.

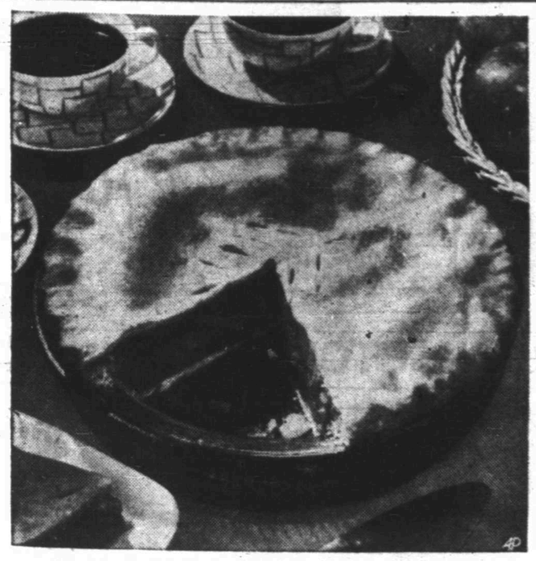

Man is the only mammal known to produce two types of twins, one type from two eggs and the other from one egg.

Smoke is unburned fuel and can be largely eliminated through proper burning of the fuel in the right kind of equipment.

Apple Cheese Pie . . . new favorite

Put Apple Pie On Menu, If You Want To Thrill Family

By The Associated Press

Does your family just love apple pie? Then try this new recipe for that old favorite and surprise them. The tangy layer of cheese in this pie teams perfectly with the layers of sweet fresh apples. Its pastry has a new trick: You roll out pie crust mix with butter or margarine for extra richness.

Pie fanciers usually like the flavor and tender texture of McIntosh apples in pie as well as in sauce. This bright deep red apple, juicy and firm, is also a good one to tuck into a lunchbox.

The Northern Spy is another apple that does well in pie as well as in sauce. And lots of apple addicts hail it as particularly delectable for eating out of hand. The Northern Spy is a bright striped red color.

Still another fine choice for pie and sauce is the partially red, to dull solid red, Baldwin. If you're baking Baldwins, you'll find they hold their shape.

These three varieties — McIntosh, Northern Spy and Baldwin — are all fine for use in winter salads as well as for general cooking use. For salads, leave the skin on if you like. Slice the apples into thin fan-shaped pieces and mix French dressing. Add a few pecans or walnuts and serve this classic Waldorf combination on crisp greens. It's a suitable salad to serve with baked ham for a buffet supper; or with pork chops for dinner. It tastes good, too, with roast chicken.

The baking apple supreme, to many people, is the Rome Beauty. Yellow or green, mottled with red and striped with carmine, it has a way of looking elegant when it's baked and glazed.

APPLE CHEESE PIE

Ingredients: 1 package pie crust mix, 6 to 8 large tart apples, 1 cup sugar, 1 tablespoon flour, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 2-3 cup grated sharp cheddar cheese, 3 tablespoons butter or margarine.

Method: Prepare pie crust mix as directed on package. Divide in half. Roll out ½ on lightly floured pastry board. Line 9-inch pie pan; trim edges. Pare apples; quarter; core; slice thin. Mix sugar, flour, nutmeg and cinnamon; rub a little of this mixture into pastry in pie pan. Arrange sliced apples in pie pan; add remainng sugar mixture; top with grated cheese. Roll out remaining pastry. Dot with 1 tablespoon butter; fold in thirds; roll out again. Repeat until all butter is used. Roll out thin in circular shape; cut slits in center to release steam; place over apples; trim off excess pastry; flute edges. Bake in hot (425 F.) oven 40 to 45 minutes or until apples are tender.

For Spring In Your Walk!

Especially flattering ensemble version! Under matching bolero, dress is a soft cap sleeve basic with skirt in six gentle gores. A treasure, too, because it has the simplicity needed in a season of prints!

Gloria Likes Is Feted At Shower In Humble Hall

Miss Gloria Likes, who will be married today to Lt. Bryan Sumner, was honored with a personal and linen shower yesterday afternoon at the Humble Recreation Hall.

Hostesses were Mrs. W. T. Dabbs Mrs. W. A. Watson, Mrs. W. J. Young, Mrs. M. M. Marin and Mrs. J. B. Smith.

Mrs. C. A. Likes, mother of the honor guest, assisted in receiving guests.

The tea table was laid with a white cloth and centered with an arrangement of yellow roses and miniature wedding bells. Festoons of white satin centered with white forget-me-nots surrounded with yellow lace also carried out the chosen colors of the bride-to-be. Similar festoons decorated the gift table.

Mrs. Roger Smith of Lovington, N.M., cousin of the honor guest, registered guests.

Successful Actress At 80, Began Career 18 Years Ago

HOLLYWOOD (AP)—What is left for a woman who is widowed at 62?

"All I could look forward to was a life of dinner parties and teas," says Mrs. Gertrude Hoffman. "So I decided to be an actress."

That was almost 20 years ago. At 81, Mrs. Hoffman is still leading a busy life as a film actress, and her friends and family never cease to wonder.

For 38 years, she was happily married to Ralph Hoffman, founder of the Santa Barbara Museum of Natural History. Then the naturalist was killed during an expedition to the Channel Islands off the California coast. Her three children had grown and left home and she couldn't face an inactive life in Santa Barbara.

"One of my daughters, who had been living in Europe, hurried home with the intention of making her home with me," she recalled. "I had quite a time convicing her that I really wanted to go to Hollywood to be an actress. Uusually it's the other way around: The daughter wants to leave for the movie life."

So Mrs. Hoffman came to Hollywood, only to face the heartbreaks of most film newcomers.

"For nine months, I made the rounds of the studios," she said. "I would get furious when a snip of a boy with his feet on a desk would say, 'Nothing today, Gertrude.' They all told me I had to have an agent to get a job. The agents said I had to have a job to get an agent."

Finally she landed a part in a Warner Oland film at RKO. From then on she earned a comfortable living with her portrayals of grande dames, although one of her most noted roles was a lifer in the prison film "Caged."

At 81, Mrs. Hoffman has started a new career—TV. She has been playing a leading role in the Gale Storm-Charlie Farrell series "My Little Margie." This can lead to pretty strenuous things.

In a recent chapter, she and Gale were crashing Hollywood. Mrs. Hoffman was dressed in a clown's outfit with a putty nose, and the pair had to race down a studio street and jump on a motor scooter. "I ran as fast as my legs would carry me," said Mrs. Hoffman.

The rugged life doesn't seem to dim her vitality. She drives her own car 20 miles to the studio daily and drives the 2½-hour jaunt to visit her daughter in Santa Barbara several times yearly. On the day I saw her, she had been up since 6 a.m. studying her lines for the next "Margie" show.

Helps For Homemakers

Send your questions to "Helps for Homemakers" Snyder Daily News or call 3-5466.

Darning holes in the fingers of gloves was always a terrific task for me until I learned an easy way to do the mending. I drop a marble into the glove finger and it makes a perfect darning egg. K.

• • •

There must be something that can be done with canned green beans to make them different from plain seasoned ones. I already served them in a salad. Mrs. O.

Green Beans Dill are actually better with fresh beans, but canned ones could be used. You'll need the equivalent of a pound of fresh beans, ½ cup chopped onion, 2 tablespoons fat, ½ teaspoon salt, dash of pepper, ¾ teaspoon dill seed, and 1 hard-cooked egg.

Cook the onion in fat until golden. Add to hot green beans along with other seasoning and dill. Toss together. Sprinkle with hard-cooked egg.

• • •

Could you tell me how to make demitasse? I am sure it takes quite a bit more coffee than the regular brew, but I have no idea how much more. L.

Use 2 level tablespoons of coffee to ½ cup water. Serve black. You can make it as you do other coffee.

• • •

How do you remove onion odor from knives? Just plain soap and water haven't done the trick. K. L.

Try adding a little ammonia or vinegar to warm dishwater.

• • •

When guests come unexpectedly, I am almost always at a loss for something to serve if it is mealtime. Could you suggest something easy to keep on hand besides plain canned food? M.

Keep canned ham on hand and a supply of wooden skewers. To serve 4, cut about 20 1-inch squares of the ham ½ inch thick. To go with these you'll need 20 whole mushrooms or 20 pineapple chunks or that many apple cubes. Or you could use part mushrooms and part fruit. Alternate them on skewers and place in shallow pan on broiler rack 4 or 5 inches from heat. Broil about 8 minutes, turning as ham browns.

PERSONALS

S. S. Steinberg, 3111 Fortieth Street, entered Saint Mary's Hospital in Lubbock Friday where he was to undergo surgery today.

Mrs. Bryan Jordan, Sr., 3610 Avenue Y, is at West Texas Hospital in Lubbock where she underwent surgery Thursday.

Andy Trevey, who lives west of town, is at Harris Memorial Hospital in Fort Worth.

Mrs. James G. Gibson, 1911 Coleman, returned home from Root Memorial Hospital in Colorado City where she had undergone surgery

Dress Seller Learns About His Women

By DOROTHY ROE
AP Women's Editor

A man who should understand women is Phil Meyers of Cincinnati, who employs 50,000 of them and sells dresses to millions throughout the United States and nearly 40 foreign countries.

But Phil is still learning. The latest thing he learned is that you can't expect several thousand girl office workers to type up orders for millions of dresses every year and never seen the darn things.

These frustrated females recently complained to the boss that if he expected the office workers for Fashion Frocks, Inc., to retain their sanity, then, by golly, he'd better produce some of the dresses they were always writing about.

The upshot is that a unique fashion show will be staged next week in the business offices of the firm in Cincinnati, with secretaries, stenographers, clerks and bookkeepers modeling the clothes.

A special runway will be erected across the sea of desks, and the girls who have been building up complexes will get a chance to express themselves at last, and actually wear those fashions which thus far have just been numbers on an order blank.

The office staff members are training for the big show at a series of evening classes (for which they are paid overtime), and instructors from modeling schools have been engaged to teach the girls how to walk, turn, make up and so on.

During the performance of "Styles in the Aisles," work will be abandoned for the afternoon and the steno-models will parade before an audience of fellow workers. The company will provide a free buffet lunch and even an orchestra.

More than 100 dresses will be modeled—from house dresses to cocktail and evening frocks—and after it is all over Meyers feels that the air should be cleared.

EVENTS OF THE WEEK

TUESDAY

Order of the Eastern Star Study Club, 7 p.m., Manhattan Banquet Room.

Couples duplicate bridge, 7:30 p.m., Country Club.

Hobby Club, 7:30 p.m., Fellowship Hall.

Invitational charity ball for polio benefit sponsored by Altrurian Daughters Club, 8:30 p.m., Country Club.

SATURDAY

Saturday Duplicate Club, 8 p.m., with Mr. and Mrs. Elmer Muhlbach, 3103 Fortieth Street.

Mr. and Mrs. V. T. Tracy, Colorado City Highway, were in San Angelo during the week end on business.

Mrs. Chandler Wants To Be Housewife, Not Star

By BOB THOMAS

HOLLYWOOD (AP)—Marjorie Hoshelle is one movie actress who doesn't want to be a star. Her reasons are simple enough: One star in the family is enough.

Marjorie is the wife of Jeff Chandler and the mother of their two girls, Jamie, 5, and Dana, 3. She is also an actress in her own right and is currently playing an "Eve Arden type" role in "Dangerous Crossing."

She is in the peculiar position of wanting to act but preferring not to be too successful at it. This sounds odd, but she has her reasons.

"I like acting because I've done it all my life," she explained. "I did a lot of pictures before I was married to Ira (Jeff's real name). Our first daughter came in the first year we were married, so I had to quit the business entirely. It was a hard adjustment for me to make.

"Being a wife and mother was a whole new world. I learned to cook and sew and work in ceramics and other things that I found very interesting. But I missed the stimulation of acting; so I have gone back to it on a limited basis.

"I want to do good parts, but I don't want to work too often. My children mean too much to me; no matter how good your help is, a child still needs a mother's care. I have no ambitions to become a star. Our family life is complicated enough with one star."

The Chandlers were separated some time ago, but have since worked out their problems and become reconciled. Hollywood buzzed that her ambitions for a career were a source of their troubles.

"Ira and I both laughed when we read those reports," she commented. "We both knew that was far from the truth. He has never been against my working.

"Our troubles were the same that hit any marriage. We came to a point where we had to make an adjustment to each other. It was complicated by the new kind of life we were living. We made the adjustment and now we are happy again."

The Chandlers married in 1946 after he got out of the Army. He went into radio acting and rose rapidly. Then came the movies and his fast ascent to fame after playing Cochise in "Broken Arrow."

"Naturally, it changed our life," Marjorie declared. "We ceased to have the freedom that we used to have. We found that out when we decided to go out to a drive-in to eat one night. We took the two girls along, and it was going to be an outing as a family unit.

"While we were parked in the drive-in, five different strangers came up and conversed with Ira. We realized that we no longer had a family unit in public.

"It's the same thing when we try to plan a vacation. There are so many places Ira can't go now, because he knows he won't have any privacy. And he's the kind who can't refuse any requests; he's obliging to everyone."

But she added that his stardom also has decided advantages, principally the increase in revenue and the satisfaction of being a success in his chosen field.

One thing is a bit confusing about Marjorie—her last name. She is known professionally as Hoshelle. Her legal married name is Grossel, Jeff's real handle. But the fans and her newer friends know her as Mrs. Chandler.

"So when I call anyone on the phone I always say, 'This is Marjorie Hoshelle Grossel Chandler,'" she said.

PERSONALS

Mr. and Mrs. Troy Roane, 1905½ Thirty - first Street, visited during the week end with her parents, Mr. and Mrs. J. F. Alderman in Gorman, Tex.

R. E. Fildes of Cisne, Ill., has been a guest in the home of his daughter, Mrs. James G. Gibson, and Mr. Gibson, 1911 Coleman.

Mrs. Annie Williams Edwards and Mrs. Lora W. Flack of Wichita Falls are recovering from a car accident in which Mrs. Flack suffered broken ribs and Mrs. Edwards a broken collar bone. They are daughters of Mrs. H.V. Williams, 1111 Twenty - eighth Street.

Mr. and Mrs. Lee Gibson and daughter, 401, Thirty - fourth Street, were week-end guests of her parents, Mr. and Mrs. C. M. Funderburg of Breckenridge.

Guests in the home of Mr. and Mrs. Earl Perser, 218 Thirty - fifth Street, are his parents, Mr. and Mrs. H. H. Perser, of Linden, Tex.

For 1953...
None so New as

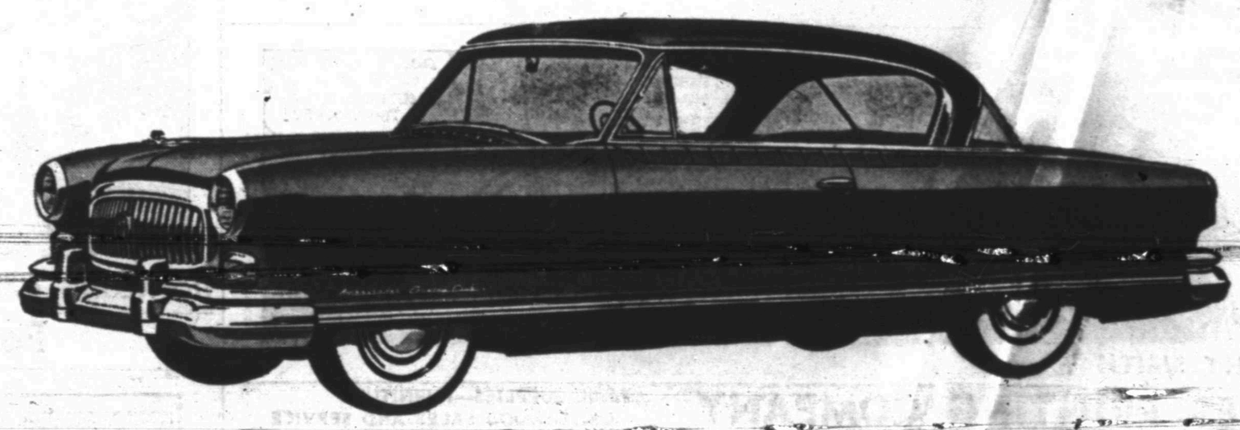

Only the world's costliest custom cars and Nash Airflytes wear the regal Pinin Farina crest.

Pinin Farina's Latest Masterpiece

Most Beautiful Cars of Our Time

There's none so new as Nash! That's the enthusiastic verdict of millions who have seen and admired the new 1953 Nash Ambassador and Statesman Airflytes.

See and drive them—you'll agree.

You'll see none so new in beauty. No other with these swift, clean continental lines. No other with the glamour of Pinin Farina styling. No other with so wide a windshield or rear window.

You'll drive none so new in performance. No other but the Nash Ambassador offers a Super Jetfire engine, plus the new custom-power option, the "Le Mans" Dual Jetfire engine . . . and a new kind of Power Steering. In the Statesman there's a new Powerflyte engine.

There's none so new in comfort. No other with seats so wide, both front and rear. No other with Airliner Reclining Seats, Twin Beds, or Weather Eye Conditioned Air System.

In your next car get the best, the newest in motoring. See your Nash dealer and drive the world's most beautiful, most modern cars—the new 1953 Airflytes.

THE ADVENTURES OF PATSY

Tigers Work Defense Trying To Prepare For Sweetwater

The first of three home games this week will be played tonight in the high school gym by the Snyder Tigers when they meet Sweetwater, one of the district's roughest teams.

Sweetwater agreed to change home dates with Snyder when the school discovered that it had the return Snyder - Sweetwater tilt scheduled for here Feb. 13, when the Chamber of Commerce is to hold its annual banquet in the gym. Vernon will come to Snyder for a regularly scheduled game Friday night, and Big Spring will come here Saturday night for a re-scheduled game postponed Jan. 16 because of icy roads.

The Mustangs, who have lost only six of 17 starts, are expected to be one of the roughest teams the Tigers have met this season. The Mustangs hold the same district record as do the Tigers, one win and one loss.

Led by Carl Anderson, a 6 foot, 6 inch standout who leads district scoring with 445 points for the season and 48 in two district games, the Mustangs will be up against a hard-working Snyder defense. The Tigers have been drilling defense every day since district play began.

Lamesa held Anderson to 22 points, four points below his season game average, and downed the Mustangs 58 - 52. The Tigers last Friday night defeated the Lamesa squad 64-60, while Sweetwater was beating Big Spring 57-44.

In the championship game of the Odessa tourney, Lubbock edged the Mustangs 77-74 in an overtime contest. Lubbock defeated Snyder 71-59 and 68-55. In the game for third place of the Coleman tourney, Sweetwater dropped Commanche 65-49. Snyder edged that team 51-48 in the first round of the Howard Payne tourney.

Also included on the Sweetwater record are wins over Midland, Pecos, Jefferson of El Paso, Stephenville, Ranger, Ballinger, Anson, and Winters. They had two losses to San Angelo and one each to Carter Riverside and Brownwood.

Along with Anderson, Sweetwater threats are Harold Green and Dell Greer, both high scorers. Defensive standouts for the Tigers who will attempt to cut down on Anderson's scoring are Bill Boyd and Ned Underwood.

Underwood is one of the top offensive players for the Tigers, leading scoring with 226 points. Starting tonight will be Underwood, Boyd, Deanie Floyd, Reagan White, and Joe Cargile, all top performers this season. Others will be Joe Galyean, Douglas Ayers, Ray Courtney, Jimmy Bennett, and Miles Davis.

The Tigers, who have scored 992 points to opponents' 944, have basketed 119 to 117 in district play. Sweetwater has basketed 109 to 102, Lamesa 118 to 116, Vernon 95 to 78, Plainview 106 to 103, and Big Spring 73 to 94.

The B squad, which will meet the Sweetwater B in the 6:30 o'clock opener tonight, holds an 8-2 season record and 1-1 district record. The team lost to Plainview B 50-37 and edged the Lamesa B in an overtime game 53-52.

The Sweetwater B squad has lost both its district tilts, to Lamesa 51-40 and to Big Spring 55-42. The Snyder B, in district play, has scored 90 to opponents' 102, Sweetwater 82 to 106, Plainview 106 to 86, Vernon 86 to 91, Lamesa 103 and 93, and Big Spring 80 to 79.

During the entire season, the Tiger B squad has scored 452 to 354. Its only losses were to Lubbock and Plainview B squads.

Jack Spikes, center who has scored 71 points for the team, will start, along with Steven Blair, 37; Don McNew, 16; Billy Sellers, 16; and Royce Pierce, 11.

The Vernon- Lamesa tilt will share the spotlight with Snyder and Sweetwater tonight as Lamesa tries to ruin Vernon's undefeated district record, and Plainview is expected to outplay Big Spring to move farther up the ladder.

Jacobs Gave Negro Chance In Boxing Ring

NEW YORK (AP) — Mike Jacobs died without having received an award which would have been richly deserved and of which he would have been immensely proud —an award for having done more than any other man to open the world of sports to the Negro athlete.

The old ticket broker and promotional genius who was buried here yesterday did it for money, certainly. He would have been the last to deny that. But he also liked to recall that, but for the opportunity he gave a youngster named Joe Louis some 15 years ago, Negro fighters might still be on the outside looking hungrily at the riches of the sport.

"Look it up," he would growl. "How many Negro champions were there when I promoted my first fight between Billy Petrolle and Barney Ross here in 1934? I'll tell you—one, Panama Al Brown was the bantamweight champion, and he couldn't get any real money fights in this country. He had to stay abroad to make a living.

"And if I hadn't given Louis his chance how do you know he wouldn't have spent his career trying to get a shot at whatever white fighter held the heavyweight title? Did Harry Wills ever get such a chance?"

Whatever Mike's motives, he did give the Dark Destroyer his chance, and other Negro fighters followed close upon Joe's heels during what will inevitably be recalled as a golden era of boxing. Soon Henry Armstrong, Little Perpetual Motion from the West Coast, was winning the feather, light and welterweight titles in the late '30s. Since then, until Rocky Marciano skulled Jersey Joe Walcott last summer and Sugar Ray Robinson recently announced his retirement, Negro fighters have dominated every division except the flyweight and lightheavyweight.

Says 4-Minute Mile Possible

NEW YORK (AP)—Fred Wilt says he's certain the four-minute mile will be run within the next year or two but he figures a European, and not Australia's John Landy, will be the one to do it.

"The four-minute mile isn't just a possibility, it's a certainty," the slender FBI agent, America's ace distance runner, said today. "Personally, I think the ultimate human speed for the distance is not four minutes but around 3:55.

"I have always felt that Gundar Haegg (Sweden's world record holder with 4:01.4) or Arne Andersson (4:01.6) could have done it long ago if they'd been accustomed to running the mile instead of the international distance of 1,500 meters.

"I also have thought Glenn Cunningham and Chuck Fenske from our own country could have done it under favorable conditions—that is, if a special effort had been made with proper pacers, and so forth.

"As for Landy—he's good, sure. But there are a bunch of Europeans who can run with him right now. They haven't been getting the publicity Landy has but they're potential four-minute milers, nevertheless."

Wilt, world indoor record holder in the two miles (8:50.7) and Sullivan Award winner last year, said personally he thought a couple of Germans have the best chance of running the mile in four flat.

"The outstanding prospect, in my opinion, is Germany's Werner Lueg," he said. "He's done 3:43 and 3:41 for 1,500 meters.

"He's only 21, not near his peak. There's another German youngster named Dohrow—I don't know his first name. They tell me he's terrific. Recently had a great clocking for 800 meters. Either one of these fellows could do it."

Mangrum In Another Win

PHOENIX, Ariz. Jan. 27 (AP)—The wandering golfers headed south today for the $10,000 Tucson Open tournament, and leading the procession was the familiar figure of the No. 1 man of the 1953 winter tour, Lloyd Mangrum.

Mangrum registered his third triumph in five tournaments this month when he breezed home an easy winner in the $10,000 Phoenix Open yesterday.

The 38-year-old artist from Niles, Ill., and Los Angeles cooled the field with his spectacular eight-under par 63 in the third round and put the finishing touches on yesterday with, for Mangrum, a conservative one-under par 70.

It gave him a total of 272,which was 12 strokes under par for 72 holes and six in front of his field.

Thus far Mangrum has won the Los Angeles Open, the Bing Crosby and Phoenix events, placed second in the $10,000 Thunderbird Country Club Invitational at Palm Springs, Calif., and fourth in the San Diego Open.

Mangrum set off on the final round yesterday with a four-stroke lead over young Bo Wininger, Oklahoma City. At the 63rd hole Bo had managed to cut his margin down to three strokes.

Mangrum played the back side cooly and carefully in 35 strokes and Bo began to fade. He three-putted the 18th and accepted a one-over 72 and a total of 278.

It left Wininger in a tie with Johnny Bulla, Pittsburgh, and Ted Kroll, New Hartford, N. Y., who had 66s.

Southern Football Loop Proposed By Promoter

DALLAS, Jan. 27 (AP)—J. Curtis Sanford said his newly proposed Southern Football League will hold a meeting here "within thirty days."

Sanford has proposed a professional football league composed of teams from Dallas, Houston Birmingham, Atlanta, Mexico City and New Orleans. He said "We are screening all potential owners in the six cities which will be represented in the league."

He declined to say who the prospective owners were.

Sanford was the originator of the Cotton Bowl football game New Year's Day and was a director in the defunct Dallas Texans, members of the National Professional Football league.

Baylor Romps Over Houston In 77-62 Game

WACO, Jan. 27 (AP)—The Baylor Bears ran up their biggest score of the season in downing the University of Houston 77-62 here last night in a March of Dimes benefit game.

John Starkey paced the Bruins by dropping in 22 points, followed closely by Tommy Strasburger with 18 and Jim Wieland with 16.

Baylor picked up a 23-11 first quarter lead but the Cougars came back to narrow the count to 36-33 at the half. Wieland, Strasburger and Starkey began bombarding the goal and the Bruins pulled away to a 60-47 third quarter edge.

Unbeaten Seton Hall Still 1st In Nation

NEW YORK, (AP)—Seton Hall, rolling along as the nation's only undefeated major college basketball team, was voted No. 1 team in the nation today for the second straight week.

The powerful Pirates, who made Memphis State victim No. 19 during the week, were voted tops by 44 of the 85 sportswriters and broadcasters in the poll.

They piled up 679 votes on the usual basis of 10 points for first place, 9 for second, etc. for a comfortable margin over second place Indiana. The Hoosiers, runner-up for the second straight week, received 12 first-place votes and 595 points, while Washington held third place with a dozen firsts and 545 points.

La Salle, which led the poll for the first two weeks only to be supplanted by Kansas State, climbed past the Midwesterners this week. La Salle took over the fourth spot, shoving Kansas State down to fifth.

Illinois, still without a first-place vote, held sixth place, but all was confusion below that. Fordham jumped back up to seventh from 10th, moving Oklahoma A & M down a peg. Western Kentucky, which last night walloped Tampa, 117-58, took over the ninth position and De Paul, a 58-47 victor over Oklahoma A&M last week, became No. 10.

Out of the select circle were North Carolina State, which lost by 70-69 to North Carolina, and Kansas, 72-68 victim of Colorado. N. C. State is 12th, Kansas 14th.

1.	Seton Hall (44)	679
2.	Indiana (12)	595
3.	Washington (12)	545
4.	La Salle (4)	485
5.	Kansas State (1)	439
6.	Illinois	335
7.	Fordham	183
8.	Oklahoma A&M (1)	171
9.	Western Kentucky (3)	129
10.	De Paul	104
	The second 10:	
11.	Louisiana State (1)	95
12.	North Carolina State	85
13.	Seattle (2)	73
14.	Kansas	65
15.	Eastern Kentucky (1)	64
16.	Navy	54
17.	Notre Dame	53
18.	North Carolina (1)	49
19.	Manhattan	48
20.	Tulsa	43

AFTER ATTACK FAILED

An American soldier, wounded in a futile assault on Spud Hill in Korea, is carried by four buddies toward a first aid station while in the background other wounded are being helped from a personnel carrier. Spud Hill is at the southern end of a hill mass called T-Bone Hill, about 2 miles southwest of Chorwon. The carefully planned UN assault bogged down and was beaten back by the Chinese as the attackers got within 15 yards of the crest. They were caught in vicious crossfire and forced to give up the attack.

Gulf Coast Begins Baseball April 13

PORT ARTHUR, Jan. 26 (AP)—The Gulf Coast Baseball League decided yesterday to start its 148-game schedule this year on April 13 and play the last games on Sept. 7.

On opening day Lake Charles will play at Port Arthur, Galveston at Texas City, Brownsville at Harlingen, and Corpus Christi at Laredo.

League directors agreed to an eight year all-star game rotation plan. Lake Charles won the 1953 honor and Laredo will be host in 1954.

The league also agreed to hire a combination promotion director and statistician. He will be on call by all eight cities to boost special attractions at home parks.

Directors also decided on 16-player rosters with 12 veterans and four rookie players.

Nardico Named Best Fighter

NEW YORK, Jan. 27 (AP)—Danny Nardioco, the busy Tampa, Fla., light heavyweight who knocked out Jake La Motta, is rated "Fighter of the Month" for January in the copyright monthly ratings of Nat Fleischer, editor of Ring Magazine.

Eddie Chavez, San Jose, Calif., who upset champion Jimmy Carter in a non-title fight; Welter Champion Kid Gavilan, who whipped Vic Cardell, and Gil Turner, an easy winner over Bobby Dykes, San Antonio, all drew attention by their work during January.

Turner's win over Dykes moved him into first place among Gavilan's contenders and Chavez moved from 10th to fourth place in the lightweight rankings.

The ring ratings list Randy Turpin of England, the ex-champ, as the No. 1 in the middleweight scramble for Ray Robinson's vacated title. Bobo Olson of Honolulu drew the No. 2 spot.

Despite Harry Matthews' announcement that he is to be considered a heavyweight, Ring rates him No. 3 in the light heavy contenders behind Joey Maxim, the former champ, and Philadelphia's Harold Johnson.

Dykes, formerly No. 3 in the welters, was ranked No. 8 in the middleweights because he no longer can make the 147-pound limit.

Oberlin was a co-educational school from its beginning in 1833, a somewhat unusual status at that time.

OPEN SEASON

By DALE WALTON

Tiger cagers are gradually improving their free throw records, which appear to be all-important in the coming close district contests.

It could be said that the Tigers lost their first game, that with Plainview, because they did not make more of their free throws. Plainview downed Snyder by two points, 57-55. Plainview made 19 free throws out of 32 tries, a little better average than that of the Tigers, who put in 23 out of 40 for 57.5 per cent.

The Tiger average gained to 58 per cent in last Friday night's game with Lamesa, when they made 18 out of 31, but the Lamesa group, who averaged 66.6 per cent on 14 out of 21, lost that game because of the Tigers' hustle for field goals.

All district games now appear that they will be close, such as the one tonight, in which the Tigers meet Sweetwater here. Free throws might mean the difference in any of the tilts.

The Tiger team average is now 51.8 on making 310 out of 598, and it's bound to gain, as it has in the past five games.

The squad started out district play with a game average of 48.7. The following two games had free throw averages of more than 50 per cent, but the team slumped again for two games of 40 per cent averages. Their lowest average of the year was 39.1 per cent against Arlington.

The highest average so far was the Denver City game in the Brownfield tourney, with 65.6 per cent, then the team followed that up with a 63.6 average against Brownfield. Next was Levelland and a 55 per cent average, then came Plainview and 57.5 and Lamesa with a 58 per cent average. Their average for the last five games was 60.2.

Joe Cargile, third high scorer of the team with 124 points, leads the team in free throw average with 74 per cent on making 20 out of 27.

Next is Joe Galyean, who is sixth high scorer with 84 and holds a 61.5 per cent free toss average on 32 out of 52. Third high with 55 per cent on 33 out of 60 is Douglas Ayers, fifth scorer with 91 points. The team's highest scorer with 226 points, Ned Underwood, is fourth in free throws with 51.6 per cent on 64 out of 124.

Other percentages are 50.7 for Bill Boyd, 50.3 for Jimmy Bennett, 50 for Deanie Floyd, 49 for Ray Courtney, and 44.7 for Reagan White.

Almost one-third, 310 out of 992, of the team's score of the season has been made on free thorws.

* * *

An organization in Sweetwater is feeling out interests in cities in this area in forming a semi-pro baseball league this spring.

The group asked for response from those in Snyder who would like to get into a six-city league.

Pro Football Put On Trial

PHILADELPHIA, Jan. 27 (AP)—The government has five witnesses scheduled for today's second session of its attempt to prove the National Football League's television policy violates the Sherman Anti-Trust Act.

W. Perry Epes, chief government counsel in the case being tried before U. S. District Court Judge Alan K. Grim, said these witnesses would attempt to acquaint the court with the technical side of TV—size of audiences, marketing areas, and research.

The witnesses, in order of their expected appearance, are Martin Codel, Radio News Bureau of Washington; H. M. Beville Jr., Director of Research for the National Broadcasting Company, New York; William F. E. Long, Radio and Television Manufacturers Association, Washington, and David Klein, The Pulse, Inc., New York.

The government made one thing very clear in its first day of presentation yesterday. It is not attempting to force teams to broadcast or televise their games. Epes made a point of saying that the government's only interest in this case was to attack what it believed to be a combination of conspiracy, agreement among clubs that takes away freedom of individual choice.

National Field Trials In Courtland, Alabama

COURTLAND, Ala., Jan. 27 (AP)—Eight more fine bird dogs competed today in the second series of heats in the National Field Trial Club's Derby Stake.

Observers accorded opening day honors to Melody Man, owned by Jimmy Hinton of Tuscaloosa, Ala.

Others with finds yesterday included Wayside Proctor King, owned by Dr. P. T. Kilman of Malakoff, Tex.

Leahy Gets Longhorn

HOUSTON, Jan 27 (AP)—Notre Dame football coach Frank Leahy will get a set of horns from a Texas longhorn to decorate the den in his home.

Houston oilman George Strake, member of the lay board of trustees of Notre Dame, turned Leahy's request over to Jack Calvin, state circulation manager of the Houston Post.

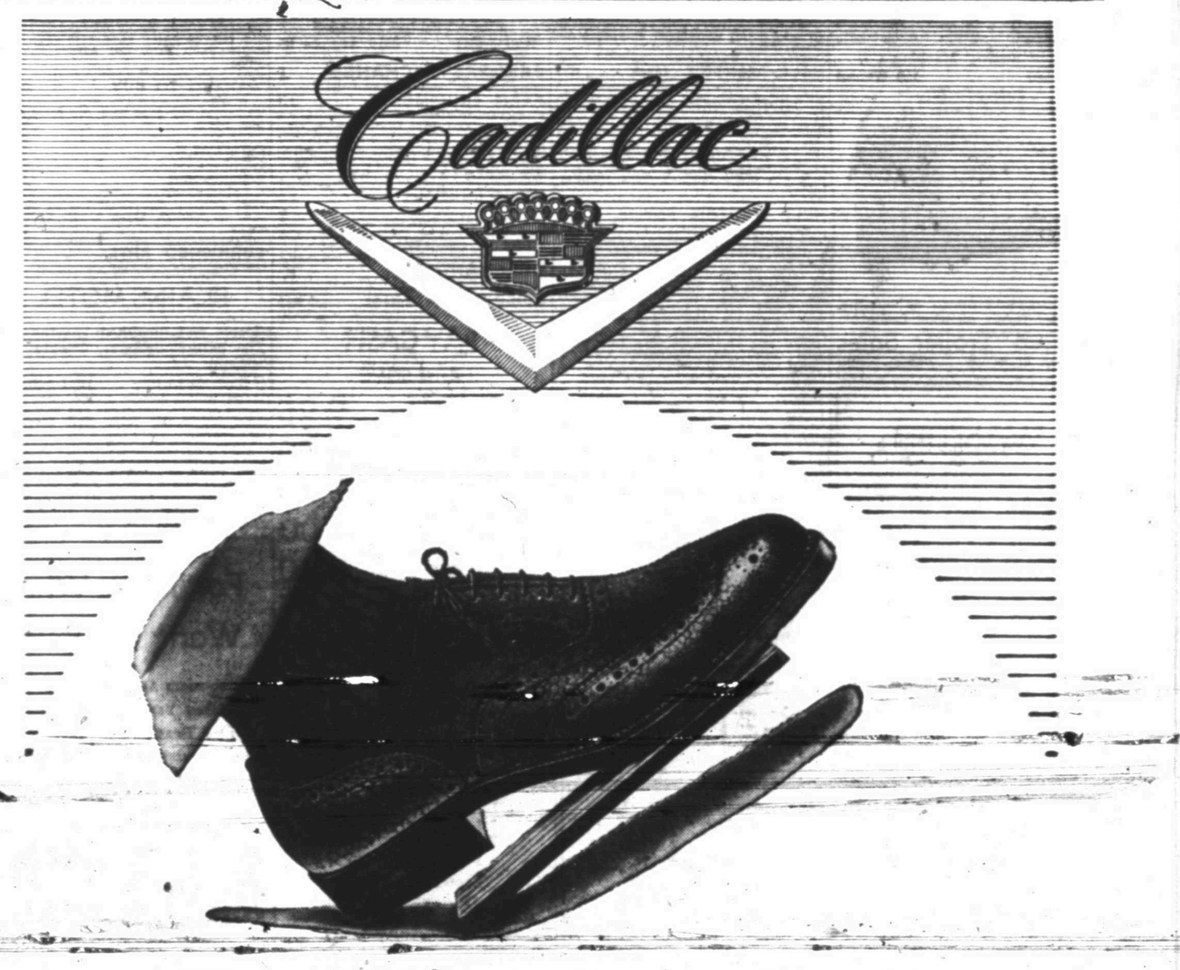

Calvin found a 5 foot 2 inch set and is having them crated for shipment to South Bend, Ind.

Cadillac

Tread Lightly—Proud Foot!

That's a mighty proud foot you see there. It's resting on the accelerator of a gorgeous 1953 Cadillac.

But we have a serious and timely warning for that proud and happy foot: *Tread lightly!*

Down under that accelerator is a dynamic 210-horsepower engine—coupled with the smoothest, quickest-acting Hydra-Matic Drive in history.

That great power was put there for the driver's safety—and to provide that smooth, effortless, steady ride which is the *essence* of luxurious motoring.

It was not put there to enable a Cadillac to dominate the highway—or to dash into the lead when the traffic light turns green—or to out-maneuver the other cars on the road.

So don't *ever* exhaust that accelerator—unless you're in an emergency, and must do so for reasons of safety.

If other drivers covet the honors at the stop light—just let them go. They are first away by your courtesy—and that should be satisfaction enough for anybody.

Just be happy and satisfied with the great luxury this powerful engine brings you—the infinitely smooth performance . . . the quick "lift" that comes when you nudge the throttle . . . the great reserve for a burst ahead in case of necessity.

And be happy, as you can't *help* being, with the scores and scores of other wonderful things about this magnificent car—its easy, relaxing ride, for instance . . . its distinguished and inspiring beauty . . . its rich, luxurious interiors . . . its honored and respected name . . . and its truly amazing economy.

Yes—there is so *much* about a Cadillac to inspire and delight its owner that he doesn't need the additional thrill of unleashing its spectacular performance when it isn't necessary.

So that's why we're sure he'll "*Tread lightly!*" He isn't in competition with anyone.

Bankers Learn Farm Problems In Kentucky

LOUISVILLE, Ky. (AP) — A two-seated tractor may be the answer for Kentucky's bankers. Then they could ride beside the man that grows the crops. That is how close they are trying to get to the farm situation.

So unusual is the agricultural program of the Kentucky Bankers Association that other state associations are turning from watching it to adopting it.

Its purpose is to educate the banker to the needs of the farmer, even if it involves getting a little hayseed in the financier's ears.

To accomplish its aims, the association became the first in the country to hire a full-time agricultural representative to work the year around on farm improvement. That was done five years ago.

The job now is held by William C. Johnstone, an agronomist at the University of Kentucky for 29 years.

Popularity of the program was reflected by the attendance at nine meetings across the state last fall. Bankers and farmers got together at chosen farms to discuss rural problems—from fertilizer to finances. The bankers talked about soil conservation, the values of good pasture, the diseases of tobacco and other problems. They got better acquainted with the farmers too.

Johnstone explains the program as having three objectives:

1. To help increase the farm income of the state.
2. To aid bankers to serve more efficiently agriculture's money needs.
3. To educate farmers to the essentials of sound banking and rural credit.

Agricultural activities of the banks include field days and recognition meetings, agriculture credit clinics, banker-farm management meetings and a monthly newspaper column, distributed by the association, called "Farm Facts for Kentucky Folks."

Added to these this year will be a forestry meeting to analyze problems connected with full use of timber lands.

OIL WELL BLAZED IN GULF

Firefighters battled against time to extinguish this offshore oil well fire and prevent flames from spreading to other nearby wells. The Pure Oil Company, owner of the well, flew in a firefighting specialist from California to aid the fight. The well exploded Jan. 25, but 45 workmen on the rigging escaped injury. The well is located in the Gulf of Mexico, 36 miles south of Morgan City, La.

New Farm Secretary Keeping Everyone Guessing Of Plans

WASHINGTON (AP)—Secretary of Agriculture Benson says he will have further "important announcements" this week on his plans for streamlining the Agriculture Department.

Introducing newsmen to aides he has appointed to help him run the department, the new Republican farm chief promised additional information soon on his plans for cutting costs in the department and for increasing its efficiency.

This information is expected to go a long way toward answering questions raised when Benson, in his first official act, announced last Wednesday a regrouping of the department's 20 bureaus in four groups.

Benson has said that he will be guided by a desire to save money and to take the government out of agriculture to the fullest extent possible permitted by the interests of the nation and of the farming industry.

Many queries about Benson's plans have come from farm-minded congressmen, some of whom have been critical of the new secretary because of his refusal to go into detail at a recent Senate Agriculture Committee hearing, about what he intends to do.

The new secretary cannot go far in altering present programs and activities without Congress' consent. Many such programs are required by law. In this class are the controversial farm price support activities which this year may require the disbursal of 2⅛ billion dollars in government funds for loans and other operations.

Likewise, virtually every activity carried on by the department has strong backing from strong commodity or regional groups of producers and distributors.

Some of Benson's appointments have in themselves suggested possible sharp shifts from present farm policies and programs Strongly represented in those appointments are groups which were unfriendly to former Secretary Charles F. Brannan and to programs established by the Roosevelt-Truman administrations.

Those groups include the powerful American Farm Bureau Federation and the state-controlled land grant colleges and extension services.

Furthermore, Benson's plans to trim department activities comes at a time when farm prices and incomes are going down and when some congressional farm leaders contend that there is need for greater government aid for agriculture rather than less.

Questions being asked by farm leaders in and out of Congress as result of Benson's statements and appointments include:

Will he recommend a drastic cut in the present 250 million dollars annual soil payments program? Under it subsidies are paid farmers who carry out approved farming practices.

What will happen to the system of 90,000 farmer committeemen who help administer farm programs? They work on a part-time basis. The system has been criticized on the ground that it constitutes a powerful pressure group for farm policies.

Will there be considerable decentralization of programs involving research, administration of price supports, production controls, and education with the state-controlled land grant colleges and extension services getting major roles?

Will such government credit agencies as the Farm Credit Administration and the Farmers' Home Administration be divorced from the Agriculture Department?

Road Proposals Around Lake Thomas Studied

Plans are underway for a 19½-mile farm-to-market road around the upper end of Lake Thomas, and the State Highway Commission is now studying the proposal.

The road would start from the Big Spring Highway in Howard County and run north through Vincent, around Lake Thomas, and into Borden County.

Borden County officials were reported to say they would give $50,000 toward the project, while the Colorado River Municipal Water District would give $25,000 and Howard County would give enough to pave the three and one-half miles in that county.

R. A. Schooling, member of the CRMWD board, said he and James Rosser, another member, met with interested officials last week to discuss the proposal. He added that the road involved is the old Vincent road running near the Murphy school.

Financer Saved From Agents

WASHINGTON (AP)—Serge Rubinstein, rich Russian-born financier, is safe from being seized and taken to Ellis Island at least until Feb. 27.

The U. S. Court of Appeals, dividing 2-1, late yesterday ordered that no steps be taken toward seizing Rubinstein pending further arguments in his case.

This was the fourth time in four weeks the court had intervened to prevent Rubinstein from being taken into custody on a deportation warrant growing out of his World War II conviction of draft dodging.

The arguments Feb. 27 will be on an appeal from a ruling last Friday by U. S. District Judge F. Dickinson Letts denying Rubinstein's application for a temporary injunction.

Judges Henry W. Edgerton and David L. Bazelon said there was a serious legal question whether the attorney general has authority to haul Rubinstein off to Ellis Island.

They stressed that the financier has been at liberty on bond throughout the long deportation proceeding against him, and that government attorneys did not raise [illegible] issue of [illegible].

But Judge Charles Fahy said he would not intervene. He explained that Rubinstein, if taken into custody, could test the legality of his detention by applying for a writ of habaes corpus.

The various legal moves by Rubinstein's attorneys, beginning Dec. 30 when he was supposed to surrender, are designed to keep him off Ellis Island until they can contest in the courts the legality of the deportation proceeding.

Former German Officer Found Dead In Brush

TAMPICO, Mexico (AP) — Police said today they still had not solved the mysterious death of Oswald Frank, former German Panzer division officer whose almost decomposed body was found covered with brush near the sugar mill where he worked.

Frank's body was found yesterday. He had been missing for six days.

His employer said the 42-year-old World War II veteran was a strict disciplinarian and had made many enemies among employes. Police theorized one of these might have done him in.

Frank came to Mexico several years ago to work as an engineer.

Air Strength Of Reds Said Hike By 3,000

PARIS (AP)—New information has boosted Allied estimates of Russia's jet plane strength to 8,000 aircraft—3,000 more than American military intelligence agents figured only a few weeks ago.

This was revealed last night by a top-ranking U. S. Army officer, who said the new information was picked up recently by American agents. These reports said the Russians had stepped up their jet production considerably.

The size of the Atlantic Allies' combined jet fleets is a military secret but it is believed to be a great deal less than the Soviet Union's. To counter the Russians and their satellites, the North Atlantic Treaty Organization hopes to build eventually an air force of 4,000 planes.

The informant said the Russians are believed to have a total of about 20,000 "high quality" warplanes of all types and an air force of half a million men.

The Soviets, he added, also have stepped up their airbase building program all along their western frontier and in the European satellites—Poland, Czechoslovakia, Hungary and Romania.

"They have built 70 to 90 bases along that frontier, and they are stocking them with jet fighters," he declared, terming this a "very big threat against Central Europe."

The Western Allies have built or are building a string of 95 airfields across Europe, including 30 already set up in West Germany.

Final Rites Today For Floyd Carroll Blakely

Funeral services were to have been held for Floyd Carroll Blakely, 49, at 2 o'clock this afternoon in the First Baptist Church.

Blakely who had been a resident of Scurry County for 39 years died Sunday afternoon in his home at 414 Twenty-ninth Street. The Rev. E. K. Shepherd, First Baptist Church pastor, was to have officiated at the services. Shepherd was to have been assisted by the Rev. T. Gerald Cates, Calvary Baptist Church pastor and Ted Norton, Church of Christ minister.

Pallbearers were to have been Floyd Evans, Levert Lewis, Everett Clarkson, Fred Davis, Jack Inman, Clarence Williamson, Prentice Smith and Elmer Evans. He is survived by his wife, one daughter, three sons and three brothers.

Burial was to have been in Snyder cemetery under the direction of Bell Funeral Home.

Rochester's Son Sued For Divorce By Wife

LOS ANGELES (AP) — Eddie (Rochester) Anderson's son Billy, 24, has been sued for divorce by Mrs. Geraldine Anderson, 24.

She alleged cruelty in her complaint yesterday, asked for reasonable alimony and said Anderson recently signed a contract to play pro football for $6,500 a year. He formerly was a halfback at Compton Junior College.

The couple married in 1950 and separated last Jan. 19.

Old world camels and new world llamas are closely related and are believed to be the only living members of their family of animals.

West German Socialists Are Gunning For Political Power

By The Associated Press

BONN — Western Germany's Socialist party, second strongest in the federal parliament, figures that it must win power in next year's national elections — or face a long period in the wilderness as a declining opposition party.

Wilhelm Mellies

Like the Republican party in the United States before Gen. Eisenhower's victory, the Social Democrats feel that mere gains won't be enough. They must get out of the role of opposition and achieve the responsibility of governing by toppling Chancellor Konrad Adenauer's coalition regime which has governed Germany since 1949.

They don't believe they can win an absolute majority, but would have to find a suitable partner for a coalition.

Unless the socialists achieve power, they fear much of their popular support will melt away and they may even lose some of their leading lights.

One of the leaders the socialists count on most heavily for their 1953 campaign is a man they call their "top sergeant."

He is Wilhelm Mellies, a lanky, grey-haired, bespectacled ex-school teacher who is the party's new deputy chairman and chief of organization.

Mellies, a member of parliament from Lower Saxony, was elected deputy (vice) chairman at the last party convention in September at Dortmund. He thus became right-hand man to Erich Ollenhauer, who was elected chairman as successor to the late Dr. Kurt Schumacher.

Two Refuse Needle

FREDERICK, Md. (AP)—Only one student and one faculty member refused to be needled yesterday as Frederick County health officials inoculated more than 900 persons in an attempt to stamp out yellow jaundice at nearby Thurmont Public School.

Gamma globulin in the blood derivative used in a similar mass inoculation in Texas experiments last year, was injected into the blood streams of all school personnel except the two who balked.

Yank Warned In Ga. Town

AMERICUS, Ga. (AP)—Police are trying to find an anonymous telephone caller who threatened to beat a former Ohio clergyman who came to Americus last summer.

The Rev. Kempton Oakes, 31-year-old former athlete and pastor of the First Christian Church here, said the caller told him Sunday to get out of town after daring him to come down to the corner and fight. He told police the man said he could "beat hell out of damn-yankee."

The minister also complained that someone dumped garbage into his new automobile shortly after the telephone call. Police Chief R. M. Cansler assigned officers to investigate.

Last week City Recorder Billy Smith dismissed charges against two of the clergyman's neighbors following complaints by Oakes that they allowed their dogs and chickens to run loose in his newly planted garden.

The minister, who served his church for nine years at Mansfield, O., and surrounding communities, said last night he does not intend to leave Americus. He said his anonymous caller may have been drunk.

New FRIGIDAIRE Filtra-matic DRYER

Built-in Filtrator eliminates plumbing and vents!

This completely new and different Frigidaire Filtra-matic Electric Clothes Dryer does away with all clothes poles, racks and lines. Lets you dry clothes any time, anywhere in the house regardless of the weather. Clothes come out fluffy-soft, sweet-smelling ... and you can dry them the way you like... bone-dry for immediate storing, or damp-dry for ironing. See the new Filtra-matic!

Buy a new Filtra-matic for $259.75

$00.00 Down—And The Lowest Terms Ever!

Live-Water Action Gets Clothes Really Clean!

Come in. See a demonstration of Frigidaire Live-Water Action in the Automatic Washer. There's nothing else like it. Gets the "deep-down" dirt ordinary washing actions can't touch. Porcelain finish, too!

New Prestoe-Matic Electric Ironer

Sit down! Take it easy! And do your ironing better than ever in only half the time. New, exclusive Prestoe-Matic Foot Control leaves both hands free. And the long, open-end roll takes large pieces easily.

$299.75

"SNYDER'S OLDEST APPLIANCE DEALER"

KING & BROWN

NEW CARDINALS AFFIRM FEALTY

Twenty-four new Cardinals of the Roman Catholic Church were elevated in Rome on Jan. 12 in the first great consistory since February 1946. Ceremonies of ancient pomp and pagentry, such as this scene of the afirmation of fealty, featured the week-long rites presided over by Pope Pius XII. The most Rev. J. Francis McIntyre, archbishop of Los Angeles, is among the newly created cardinals appointed to restore the death depleted College of Cardinals to its full strength of 70. He will be the fourth U. S. cardinal along with Edward Cardinal Mooney of Detroit, Samuel Cardinal Stritch of Chicago and Francis Cardinal Spellman of New York.

Hung Jury In Trial Of Former College Basketball Champion

NEW YORK (AP)— The perjury trial of William Spivey, onetime All-America basketball great from the University of Kentucky, ended early today with the jury unable to agree whether he had a role in the big college sports scandal of two years ago.

The jury of eight men and four women, after deliberating more than 10½ hours, reported itself deadlocked and then was dismissed by General Sessions Court Judge Saul S. Streit. The trial began Jan. 14.

While defense attorneys announced immediately they would ask for dismissal of the indictment there was no indication what Dist. Atty. Frank S. Hogan had in mind concerning a possible new trial.

Spivey, seven-foot center who was the top scoring ace of the crack University of Kentucky team in 1950-51, issued a statement through his attorneys saying he was "disappointed" that the jury did not return a verdict, but was "satisfied" that a majority of the jurors were for acquittal.

It was learned that the panel had deadlocked at 9 to 3 for acquittal.

Of the 32 players at eight schools involved in the college basketball scandal, Spivey was the only one to stand trial. The others either pleaded guilty or turned state's evidence, but Spivey steadfastly denied ever discussing a "fix" before a game or taking a bribe.

He stood on this denial when he went before a New York County (Manhattan) grand jury about a year ago. The result was an indictment charging he lied on both counts, that he had discussed a "fix" with gambler Jack West and that he had accepted a bribe.

West is one of the 25 fixers named in the scandal. He and several others now are in prison.

The 23-year-old Spivey repeated at his trial, testifying in his own defense, that he had no part in the basketball scandal.

Key witnesses against him were two former teammates, Walter Hirsch and Jim Line. Both Hirsch and Line testified that Spivey agreed with them to rig the score of a Kentucky game during the 1950 Sugar Bowl activities in New Orleans, and they added that Spivey received $1,000 for his part in the alleged deal with West.

The players allegedly did not agree to lose the game but to keep Kentucky's winning margin within the limits—the so-called "point spread" set by bookies in quoting odds before a game — necessary for West to win his bets.

Line and Hirsch both admitted, under cross-examination, that their trial testimony varied on some points with their grand jury statements. Hirsch conceded that he told the grand jury he did not believe Spivey ever got money for a "fix."

POLICE RECOVER TEETH FOR MAN; GAIN GRATITUDE

There appears to be no end to the things police are requested to do here.

The last request to the department came from a man who had lost his teeth in Snyder and asked the department to recover them for him.

Capt. Howard B. Hutchinson, retired Navy man from Palo Alto, Cal., stopped at the B & B Steak House while driving through Snyder, and he left his teeth in the rest room there about two weeks ago.

Hutchinson missed his teeth by the time he arrived at Santa Fe, N.M., and he called the department, telling them that he left his teeth at "some cafe" in Snyder. Miss Burnell Sinclair, police secretary, began calling cafes and finally located the teeth at the B & B and mailed them to Hutchinson.

In a letter to the department this week, Hutchinson said he was a "very, very grateful man."

Pope 'Much Improved'

ROME (AP) — Pope Pius XII was reported "much improved" today from the attack of influenza and bronchial pneumonia which has kept him in bed since last Thursday.

The 76-year-old Pontiff's temperature "has gone down to normal," his doctor reported. There still was no indication when he would be able to leave his apartment or resume his duties.

Communists May Lose More Members By Attacks On Jews

By JAMES MARLOW

WASHINGTON (AP)—The present burst of anti-Semitism behind the Iron Curtain probably will drive some more Communists out of the party here and in Western Europe.

The traditional reasons for Communists quitting the party in this country have ranged from disillusioning shock to gradual distaste, disagreement, loss of interest and final belief communism was a humbug.

The American party has lost members for new reasons in the past few years. J. Edgar Hoover, FBI chief, lists them this way:

Increasing awareness of the true, conspiratorial nature of communism; the congressional investigations; and fear of prosecution as a result of the conviction of some of the top Communists.

In his most recent statement on party membership, made last summer, Hoover said there were 24,647 known Communists, a drop from 43,217 in 1951.

It has been estimated that the party over the years had more than 700,000 members who are now ex-Communists.

Members and fellow travelers have been shocked away from the party from time to time by some Russian move which they seemed to believe couldn't happen till it did.

For example: when Russia signed the nonaggression pact with Hitler's Germany in 1939, opening the door for World War II. Until that moment Russia had posed as the bulwark against fascism.

Others, who kidded themselves Russia was the peaceloving nation it claimed to be, went out the door when the North Korean Communists invaded South Korea. They knew it couldn't have happened without Russia's okay.

But through the years Russia had represented itself as the one nation, in a world where Jews had been persecuted for centuries which would not permit anti-Semitism.

If party members had doubts, because of stories of anti-Semitism that leaked out, Stalinists could always point to the Soviet Constitution of 1936:

In Article 123 of that document mistreatment of the Jews is plainly forbidden. It says racial discrimination is a punishable crime.

But the stories permitted to come out from behind the curtain in recent months make it clear that anti-Semitism has become now a policy of the Kremlin.

Attacks on Jews have begun in Eastern Germany, the satellites, and in Russia itself. The Russians have allowed these stories to be transmitted to the outside world through their very careful censorship.

It is clear the Russian leaders want these events to be known for exactly what they are: attacks on Jews because they are Jews.

Draft Term To Be Same

WASHINGTON, Jan. 27 (AP)—The head of selective service reiterated today he is still worried about manpower—but not enough to recommend keeping draftees in uniform longer than the present 24 months.

Maj. Gen. Lewis B. Hershey said in an interview he is not now recommending any changes in draft legislation and thinks the first thing to be done is "intensive work by the executive department to get more manpower available."

Gen. Hershey said specifically he is not recommending any extension of service beyond 24 months.

From Congress, too, came a damper on recent talk that such an extension might be under consideration.

Chairman Saltonstall (R-Mass) of the Senate Armed Services Committee wrote to the editor of the Washington Evening Star that he wanted to be disassociated from any such plans.

Gen. Hershey said the manpower committee of the Office of Defense Mobilization has been going over possibility of getting more military manpower from among deferred fathers, college students and youths who have just completed college.

He said one million fathers are now deferred on dependency grounds.

"The first approach to getting more manpower from this group in my opinion, is to get the guy who was deferred for an education and then became a father," Hershey said.

College deferment standards perhaps should be changed, Hershey said, to require higher qualifying scores on the selective service college qualification test or higher class standing. Now a qualifying score on the test is 70. Hershey mentioned the possibility of raising that to 75.

The Morrill Act, establishing the land grant colleges in the United States, was passed by Congress in 1862.

In-law Trouble For Barrymore

HOLLYWOOD (AP) — The John Barrymore juniors say they had mother-in-law trouble, but no marital spat, at the windup of their Palm Springs honeymoon last week end.

Mrs. Barrymore, the 26-year-old actress Cara Williams, said they invited her mother, Mrs. Florence Williams of Los Angeles, to their Palm Springs hotel for the week end.

Mrs. Williams, said her daughter, announced that "I don't approve of this marriage" and "I don't like your husband." However, they took her to dinner and drove her to another hotel.

The second phase of the week end which led to rumors of a honeymooners' squabble had to do with a cut on young Barrymore's arm. His bride said he was posing for some shots for a photographer friend, did a handstand but lost his balance and fell through a window. The arm cut required five stitches.

Barrymore, 20, son of the late "Great Profile," whose domestic difficulties made numerous headlines said. "We had no fight at all. I love Cara with all my heart."

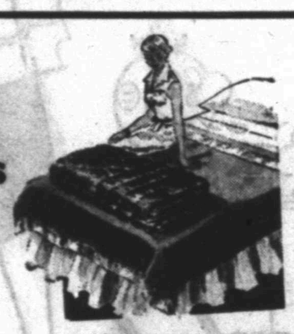

The couple was married Dec. 23 at Las Vegas, Nev.

Competition begins with the search for oil.

Competition gives you the best petroleum products in the world at the lowest prices

Improved drilling and producing methods increase supplies of oil at reasonable prices.

Pipe line companies seek to improve their service and to reduce the transportation cost of oil and finished products. Their success is a major factor in keeping prices of petroleum products low.

Competitive refineries never let a day pass without trying to find a better way to make more and better petroleum products for your use.

Your service station dealer competes in product quality and service with all the other dealers in your neighborhood.

The U. S. oil business is one of the most highly competitive industries in this country and, for that matter, in the world. Every time you buy a gallon of gasoline or a quart of motor oil, there are at least 100 companies that would like you to buy from them.

Your purchase stimulates competition far beyond the service station driveway where you make it. It stirs scientists to find more oil for your use. It urges production men to produce oil more efficiently and economically and with less waste. It extends through low-cost transportation pipe lines to refineries that seek better ways to make more and better petroleum products to compete for your business.

Is this competition a good thing?

It certainly is. It's a good thing for you because you get the best petroleum products in the world at the lowest prices. It's a good thing for the country because it stimulates the continuous development and conservation of a vital natural resource. And it's a good thing for the oil business: competition keeps the industry strong, vigorous, progressive.
