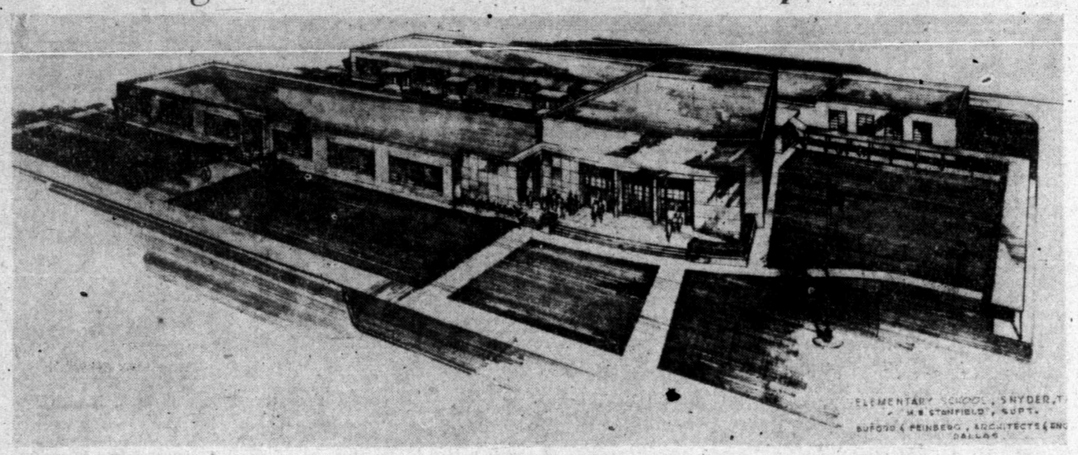
THE SCURRY COUNTY TIMES

VOL. I—No. 179 SNYDER, TEXAS—FRIDAY, DECEMBER 8, 1950 ISSUE NO. 105

Drawing of Two New Ward Schools Proposed Here



If the $3,500,000 school bond issue is approved by the voters in Saturday's election, work will begin soon on a new elementary school similar to the one pictured above. It will be situated in Southeast Snyder on a 12 acre tract of land purchased last week from Ross Riley about four blocks south of the Phillips "66" super station. Within a few weeks, it is expected another school, similar to the one above, will be built in Southwest Snyder. It is hoped both can be ready for occupancy by the opening of school next fall.

Defense Line Is Set 60 Miles North Of Parallel

Truman And Attlee Consider Blockading Red China Coast

By JOHN M. HIGHTOWER
(By The Associated Press)

WASHINGTON, Dec. 7. —President Truman and Prime Minister Attlee today were reported seriously considering a blockade of the Red China coast if United Nations troops are long beleaguered or are driven out of Korea.

The proposal was described by diplomatic informants as one of several ways considered for dealing with the Chinese Communist aggression, depending on what actually happens in the Korean fighting.

Negotiation of a settlement is another possible way and the President and Prime Minister are ready to consider any Chinese peace move provided it does not involve "appeasement."

TRUMAN TOUGHER

In general, it appears that Mr. Truman and his advisers are taking a much tougher line than Attlee on the Far East, both as to possible negotiations or as the putting direct pressure on the Chinese Reds outside Korea.

Informed officials said that Secretary of State Acheson put forward the blockade proposal at the secret Truman-Attlee meetings which are now in the fourth day.

Attlee was described as cold to the suggestion but willing to discuss it. Informants said it probably would come up again this afternoon, or tomorrow, as part of a new general look at the Far Eastern situation.

What Attlee clearly would like to get agreement on here—but what he apparently has little or no hope of obtaining—is a course of Anglo American action aimed at bringing the Far Eastern crisis to a close at the earliest possible moment and by broad scale negotiations with the Chinese Reds if necessary.

NO APPEASEMENT

President Truman is understood to have made emphatically clear to the British leader that the United States will have no part of any "appeasement," which Attlee himself has rejected, or (2) of any Korea settlement which involves bargaining on outside, non-Korean issues—for example Red China's desire for United Nations membership and for control over the Chinese Nationalist held Island of Formosa.

The British, however, feel that if a Korean settlement is at all possible it will involve hard bargaining perhaps over a wide area, and that such bargaining probably should be undertaken if necessary to a settlement.

Aides of Attlee represent him as being generally opposed to the idea of carrying on a "halfwar" against the Chinese Reds indefinitely.

Apparently his view is that if UN forces are expelled from Korea the Western Powers should wind up the Far Eastern conflict as rapidly as possible and concentrate all of their efforts on Western Europe.

Attlee's ideas as to what would be a reasonable proposal for a settlement presumably were sought at a forenoon conference he had with Madam Vijaya Lakshmi Pandit, the Indian ambassador.

30-MINUTE TALK

They talked for about 30 minutes at the British embassy. Reporters were told they discussed Korea and the possibility of a settlement, but the embassy would give no further information.

India has been active in trying to promote negotiation of the Korean problems.

The White House announced the Truman-Attlee conference will continue at least throught tomorrow. Stephen T. Early, acting presidential secretary, said it was impossible to say at this time whether they might extend beyond Friday.

Secretary of Defense Marshall arranged a luncheon at the Pentagon for Mr. Attlee and Mr. Truman before today's resumption of their conferences.

Reinecke Field Is Extended 1 Mile North

P. R. Rutherford has completed his No. 1 A. O. Murphy as an important north extension to the Reinecke field in Southeast Borden County.

Operator reported a daily potential of 515 barrels of 46.2 gravity oil gaged through a quarter inch choke.

Gas-oil ratio on the test was 1,195-1. Pay was topped at 6,935 feet. Total depth of the producer is 6,954 feet.

The open hole section was treated with 2,000 gallons of acid.

The No. 1 Murphy is 4,500 feet north of the nearest other producer in the Reinecke field.

Exact location is 660 feet from west and 467 feet from south lines of the lease of section 66, block 25, H&TC survey.

MORTON COUNTY

Drilling is to be started at once at an 11,000-foot wildcat in Central East Morton County. The prospector is approximately nine miles north of the town of Stanton.

It will be drilled as Callery & Hurt and Ted Weiner No. 1-18 Earl Powell. Location is at the center of the southeast quarter of the southwest quarter of section 18, block 35, T&P survey, T-1-N.

Rotary rig is now being moved to the drill site and actual drilling will start as soon as the equipment can be put in operation. Standard-Fryer Drilling Co. has the rotary contract for the prospector.

The project is being drilled on a block of several thousand acres which were recently acquired by Forest Oil Corp. and Pan American Production Co.

Forest and Pan-American farmed out the checkerboarded spread in the block to Weiner for the drilling of the 11,000-foot wildcat.

Weiner then made a trade with Callery & Hurt whereby that concern assumed a part of the obligation for the well in return for a portion of the acreage which had been obtained by Weiner.

Both operators will have an interest in the well. It is in the same section as is Magnolia's No. 1 Powell, a dry hole drilled in 1942 to a total depth of 8,300 feet in the lower Permian and abandoned there after failing to develop any commercial production.

TERRY WELL FLOWS

Honolulu Oil Corp. and Union Oil Co. of California No. 1 McGowan, one half mile south stepout from the Union No. 1 Laura Cotten, discovery of the Brownfield-South Canyon field in East Central Terry County, flowed at the rate of 72 barrels of oil per hour from the Canyon reef.

On a 55-minutes drillstem test over the section from 9,930-60 feet,

(See OIL NEWS, Page 8)

Minimum Of Five Degrees

Snyder shivered under more intense cold last night as the mercury receded to a chilling five degrees, following a maximum reading of only 35 degrees yesterday, Mrs D. P. Strayhorn, weather observer, said.

The rest of Texas began warming up today after severe freezes numbed the state three days in a row. Brigh sunshine over most of the area was expected to bring temperatures into the 40s and 50s this afternoon.

The bitter norther took two lives, killed more than a thousand cattle and damaged crops.

Generally, the Panhandle and South Plains were a few degrees warmer this morning as compared with yesterday, while deep South Texas was a few degrees colder.

Some representative temperatures, with today's minimums given first and yesterday's lows second:

Dalhart 6-2, Dallas 12-13, Corpus Christi 24-29, Bryan 12-17, San Antonio 14-21.

MODERATE TEMPERATURES

Early Friday morning, minimum thermometer readings are expected to be relatively moderate, particularly in West Texas, where the lows are due to range from 20 to 30 degrees. The East Texas forecast also calls for 20-30 degree mininums.

During the day yesterday, the mercury hung around the freezing point except in some deep South Texas areas.

For the second day in a row some Gulf Coast points had freezing temperatures. It was the first freezing weather for some for almost two years.

Minimum temperatures early Thursday included:

Dalhart 6, Childress 7, Amarillo 8, Wichita Falls and Mineral Wells 9, Lubbock 10, Fort Worth 11 Lufkin and Bryan 12, Dallas and Texarkana 13, San Antonio 14, Palestine and Junction 15, Austin 17, Waco and Palacios 18, Houston 19, Victoria 20, Presidio 21, Alice 22, Cotulla 23, Corpus Christi 24 and Del Rio 26.

Bond Election For Schools To Be Saturday

Property owners in the Snyder school district will go to the polls at the school tax office, 1924 Twenty-sixth Street, Saturday to voice their opinions concerning the proposal to issue $3,500,000 in bonds to build two new 18-classroom elementary school buildings and a new high school building.

The polls will open at 7 o'clock Saturday morning and will remain open for 12 hours.

The proposed issue is to provide for permanent facilities for educating children in the Snyder district. This is the unanimous desire of numerous oil companies here which were represented at a recent meeting with the school board when the election was called.

The oil companies will pay the major costs of all the projects in taxes. The present tax rate will not be increased because of the issue, since an increase is not necessary due to the vast increase in total valuation in the district.

One of the elementary schools will be situated in the east section of Snyder, and the other will be built near the proposed high school, which already has a site near the football stadium in the southwest section of town.

All Must Pay Shivers Says

AUSTIN, Dec. 7. (AP) — Gov. Allan Shivers urged Texans today to make "Operation Democracy" a fulltime program and to willingly pay whatever it costs to maintain democracy.

"Whatever it costs, we will have to pay—in money, in blood, in effort, in time and in devotion to whatever duty is placed upon us," the Governor said in a speech prepared for radio delivery at 12:30 this afternoon.

His speech on the ninth anniversary of Pearl Harbor Day launched the Texas American Legion's campaign against complacency and neglect of civic responsibility. Shivers was to light the first of 777 Texas "Fires of Freedom" at 7 o'clock tonight on the Capitol grounds in Austin.

He said the fires would symbolize the aim of the "Operation Democracy" program "Shining as beacons of hope in freedom's name."

British Troops To Stay With Korean Fight

LONDON, Dec. 7. (AP) — Defense Minister Emanuel Shinwell declared in the House of Commons today that "there is no thought in our minds or in that of the American authorities of withdrawal from Korea."

He said there may be "still harder tidings" from the critical front, however. 'No one knows what the outcome will be. It would be foolish to underestimate the size or determination of the Chinese intervention."

He told the House UN forces already face 270,000 Red Chinese soldiers, with 500,000 more in reserve.

He paid tribute to "the galantry with which our allies—particularly the U. S. soldiers, the main bearers of the burden—are fighting this desperate and unequal battle,

G.O.P. Leaders To Let Senators Pass On Ousting Acheson Move

WASHINGTON, Dec. 7. (AP) — Republican Senate leaders decided today to let all GOP senators pass upon a formal request "for the resignation or replacement of Secretary of State Acheson."

Senator Taft (R-Ohio), chairman, told reporters this was the decision of the Senate GOP Policy Committee.

Taft said the 11-member policy committee, after an hour and a half closed-door session, took no direct action itself.

CONFERENCE CALLED

Instead it agreed to call a conference of all 43 Republican senators early next week, probably Tuesday, for a discussion of the oust-Acheson move as well as the broader subject of foreign and military policies.

Even if the Republican senators agreed to back the demand, there is no assurance it would be met. President Truman has said repeatedly he has no intention of letting Acheson go.

Taft appointed a subcommittee to go over the wording of a replace-Acheson resolution sponsored by Senator Ives (R-NY).

Members include Ives, Republican Leader Wherry of Nebraska, Senator Millikin of Colorado, chairman of the Republican conference and Sen. H. Alexander Smith of New Jersey, a member of the Foreign Relations Committee.

"SOME DISCUSSION"

Asked whether there had been opposition to the move against Acheson, Taft said there had been "some discussion both ways."

He indicated that all Republicans present favored replacement of the secretary of state even though some questioned the idea of trying to make this a Republican party policy issue.

Taft told newsmen he wanted to stress that the conference would not be limited to the Ives-Acheson matter but also would cover "all phases of the foreign and military situation which presents such a threat to the security of our country."

By the time the conference is held, Taft said, details of the meetings between President Truman and Prime Minister Attlee of Great Britain should have been completed and some information made public.

"NOT TALKING"

Taft was asked how he felt about making the Ives resolution for ouster of Acheson "a party matter?"

"I'm not saying how I feel," Taft replied with a smile.

The cabinet member's removal long has been a target of individual Republican senators. They have denounced his foreign policies both in Asia and Western Europe and accused him of appeasing Russia abroad and pro-communism at home.

Recent setbacks by United Nations forces in Korea have provided them with fresh ammunition.

Attlee Stand Backed Up In London Today

LONDON, Dec. 7. (AP) — London morning newspapers today fully endorsed British Prime Minister Clement Attlee's Declaration in Washington that there will be no appeasement of Communist China.

"This should scotch foolish rumors in America that the Prime Minister had come to Washington in an appeasing mood," said the liberal News Chronicle.

"The sincerity of Attlee's words must be unmistakably apparent to Americans for all they know, not only of his record and his principles but of the British people," it continued.

"We shall not go a second time to Munich."

The Conservative Daily Graphic said Attlee "made the right reply to the clumsy Russian effort to drive a wedge between this country and America."

The pro-labor Daily Herald said the need to "sustain and strengthen the association between Britain and the United States is obvious and necessary.

"Destruction of that friendship would mean an unprecedented victory for the forces of aggression everywhere. It is a victory which will not be granted to them."

The Conservative Daily Telegraph comented:

'In this country there will be the fullest endorsement of Attlee's unequivocal hostility to attempts to break the ties between Britain and the United States and to any suggestion of suicidal appeasement."

Korean War In Brief

(By The Associated Press)

FIGHTING front — U. S. Eighth Army steadies itself on new 70-mile defense line 25 miles south of Pyongyang. Marines and Doughboys of 10th Corps battle through masses of Communists in retreat from Changjin reservoir. Americans reach Koto. Seven Chinese divisions blocking their way to Hamhung.

WASHINGTON — President Truman and British Prime Minister Attlee go into fourth day of crisis talks. They are said to be considering any reasonable settlement but rule out appeasement.

PARIS — France agrees to inclusion of German units in Western European army paving way for immediate formation of strong defense force.

UNITED NATIONS — Assembly political committee begins first full discussion on request to Red China to remove troops from Korea. Motion may pass assembly this week.

Jet Dog Fights In North Korea

U. S. FIFTH AIR FORCE HEADQUARTERS, Korea, Dec. 7. (AP) — U. S. F-80 jets reported damaging two Russian-made MIG-15 jets over North Korea today in two aerial dogfights.

The Fifth Air Force said none of the American planes was damaged.

One MIG-15 was reported hit over the town of Charyongwan, the other over Sonchon. Both towns are south of Sinuiju on the Korean-Manchurian border.

Four F-80 shooting stars led by Capt. Donald L. Loegering of Minneapolis, Minn., were jumped from behind in the first encounter by two Soviet jets.

The American planes escaped enemy fire and then swung around fast to make a headon firing pass at 600 miles an hour.

France Leads UN Move For Korean Talks

By MAX HARRELSON

LAKE SUCCESS, Dec. 7. (AP) — France led a western power move in the United Nations today for top priority consideration of Communist China's intervention in Korea. Russa immediately opposed the move.

The clash took place in the General Assembly's 60-nation political committee. Jean Chauvel, French delegate, said Chinese participation in the Korean fighting is a grave question that affects the peace of the whole world. He said it should take precedence over all other items before the committee.

Soviet Foreign Minister Andrei Y. Vishinsky said Chauvell's demand was "most unprecedented." He argued that the committee must continue with debate on Russia's charges of American aggression against Formos.

While the procedural wrangle tied up the committee, UN diplomats anxiously awaited word from Peiping whether the Chinese Reds are ready to accept any of the several pleas for a cease-fire. India's sir Benegal N. Rau, one of the leaders in the peace efforts, said this morning he still has received no reply from Chinese Communist Envoy Wu Hsiu-Chuan.

Speedy Action In Both Houses For Rent Control Extension

WASHINGTON, Dec. 7. (AP) — House and Senate raced today to see which will be the first to pass an emergency extension of rent controls.

The Senate has agreed to start voting this afternoon, on a bill to continue the federal program for two months beyond its present expiration date of Dec. 31, 1950.

The three-month extension bill is the top business before the House meeting at noon.

The President has requested a three-month extension.

Because of the parliamentary situation, the Senate appeared likely to pass its bill first. It could then be sent to a Senate-House Conference which would have to recommend a compromise.

Opponents of extension of the program made no advance claims of enough strength to beat either bill. They were hoping for the shorter extension.

If they are able to amend the House bill to cut the time down to 60 days, the bill could be sent to the President by the end of this week.

It is the first of the administration's "must" bills to reach the voting state in both chambers at the present short session of Congress.

DATE STAYS SAME

Supporters of the bill contend that unless the program is continued rents will soar after the first of the year except in cities which exercise the option under existing law of keeping the controls until June 30 of next year. Neither Senate nor House act would affect this June 30 date.

Opponents insist that rent control no longer is a federal problem but should be handled by local communities. With prices of most other things rising, they argue landlords are entitled to an increase in their income from rentals. They also say rents should not be controlled unless wages and prices are too.

It was this last argument which some members of the House Rules Committee advanced on Tuesday when they voted 6 to 5 against clearing the bill for House debate yesterday the committee reversed that decision, gained by a 6 to 5 vote—reportedly after Rep. Cox (D-Ga) switched.

UN Forces Burn Bridging Materiel

A trailer jeep filled with retreating American soldiers goes past a huge fire consuming bridging material in Pyongyang, Dec. 3. The material was originally airlifted into Korea and was burned so that it would not fall into the hands of advancing Chinese and North Korean Communist troops.

Marines Still Fighting Way Out Of Trap

United States Garrison At Wonsan Withdraws Under Heavy Cover

(By The Associated Press)

TOKYO, Dec. 7. (AP) — Allied troops braced on a new hill defense line 25 miles south of fallen Pyongyang today for a stand against steadily advancing vanguards of a million-man Chinese Red expeditionary force.

The line stretched inland 70 miles in northwest Korea from the Yellow Sea. It was a defense in depth on commanding heights and not a solid line.

The U. S. Eighth Army, with its long and bitter retreat at a halt, was greatly outnumbered and hard hit but still was a unified fighting force.

HEAVY RESERVES

The Chinese armies in front of it were estimated at 100,000 men with up to 30,000 combat reserves behind those Reds and hundreds of thousands more in Korea or moving up from Manchuria.

The Eighth Army force on the defense line is something less than the 110,000 men Lt. Gen. Walton H. Walker had when he was forced to retreat late in November.

Northeast of the new line, U. S. Marines and Doughboys battled in a blizzard in a dogged effort to break out of Red traps south of the Changjin Reservoir. They broke out of one and have to fight through another.

SITUATION CRITICAL

Underscoring the critical situation of the United Nations forces near the reservoir and elsewhere in the northeast was the withdrawal of the American garrison from the east coast port of Wonsan.

A bombardment by three U. S. destroyers and shore fire by South Korean Marines covered the pull-out of Wonsan. Presumably the American garrison at Wonsan was relatively small. It was not identified.

Wosan was captured Oct. 10 by South Korean troops. The same Marines trapped at the Changjin reservoir landed at the port Oct. 15 after a week-long sweeping of a minefield offshore. Because the port already had been secured, the Marines called it "Operation What-the-Hell."

Hamhung and its nearby port of Hungnam, 50 miles north of Wonsan, now becomes the allies' main escape route in the northeast. It is more centrally located for the widely scattered units of the 10th Corps.

NORTH OF NO. 38

The new line in the northwest is 85 miles north of Seoul, the Korean Republic's capital, and is 58 miles north of Parallel 38. General MacArthur described its as arching from the West Coast port of Chinnampo to Koksan, an inland town 53 miles southeast of Pyongyang.

There was no explanantion as to why the location of the defense line was announced. It previously had been a deep secret.

There were no set lines in the northeast. Three American and two South Korean divisions are all over the rugged map there, with the Marines and two regiments of the U. S. Seventh Infantry Division in the worst spot.

They pushed into Koto today after a bitter battle through heavy Chinese resistance south of the Changjin reservoir.

It took them 25 hours to batter their way eight miles from Hagaru.

The first elements of two Marine and two infantry regiments made their way into Koto late Wednesday.

STILL COMING

Associated Press Correspondent Jack MacBeth, the only correspondent in Koto, said eight hours later they "are still coming into Koto today."

A headquarters spokesman said "the pressure is heavy at Hagaru and the enemy is trying to capture as many of our men as they can."

The Americans still were faced with fighting their way out of Koto through heavy Communist concentrations to cover the 40 miles of winding mountain road southeast to Hamhung.

Weather

WEST TEXAS: Fair and not so cold this afternoon and tonight with lowest temperatures tonight 20-30. Friday partly cloudy and warmer.

EAST TEXAS: Fair and not so cold this afternoon and tonight with lowest temperatures tonight 20-30 in north and central portions. Friday partly cloudy and warmer. Moderate variable winds on the coast.

France Turns Around, Wants Germans In West Europe Army

By CARL HARTMAN

PARIS, Dec. 7. (AP) — France pressed today for an anti-Communist army in Europe, bolstered by German manpower, and named one of her top generals to head wavering French defenses in Red-menaced Indochina.

The cabinet announced it will call a meeting of the west European nations in Paris during January to draw up plans for an Atlantic Pact European Army. The announcement confirmed that France had agreed to immediate formation of West German combat teams in the Atlantic force.

For the Far East, France named Gen. Jean de Lattre de Tassigny as high commissioner in Indochina, with "full military and civil powers" to direct the war against the Communist-led Vietminh.

TAKES BOTH POSTS

De Lattre de Tassigny, who has been serving as commander of infantry in the joint general staff under the Brussels Pact, will take over the duties of both civil High Commissioner Leon Pignon and Gen. Marcel Carpentier, now in command of French forces harassed by Ho Chi Minh's Nationalists.

Today's announcement was the first official disclosure that France has withdrawn her insistence on delay in forming German combat units until a unified defense ministry has been created.

Information Minister Albert Gozier said the decision was an emergency measure providing for a "transitory" phase in European rearmament. France still hopes to see the unified defense ministry set up eventually.

Faced with strong opposition at home to the idea of a German army, French political leaders have until now opposed putting arms into the hands of any Germans before a unified European army is formed.

It is believed the darkening crisis in Korea has made the French more aware of the urgency of rearming Europe at once.

The switch in French attitude was seen as a victory for the United States, which wanted to get the Germans into a European army as soon as possible.

The move came as President Truman and Prime Minister Attlee announced in Washington that the western defense powers will push to build up Atlantic defenses against Soviet aggression.

Gozier said France will support an American compromise proposal, now before the North Atlantic Pact deputies meeting in London, for bringing West German troops into the western defense forces.

The U. S. proposal seeks to reconcile the American view calling for division-size German units—supporting Atlantic Pact nations—with previous French insistence that the Germans be allowed only the "smallest practicable" units. The units agreed on will number from 4,000 to 5,000 men each.

It also provides, Gozier said, that German troops be recruited by civilians under allied control, that they comprise no more than 20 per cent of the total forces raised, and that the Germans have no heavy arms, no general staff and no war ministry.

Both the decision on the German units and the appointment of De Lattre de Tassigny came after political struggles that threatened the collapse of the French cabinet. Compromises were effected which kept the Socialist opponents of German rearmament from withdrawing their support.

Gozier said the Atlantic Pact deputies will draw up a plan relating to western defense for the 12 foreign ministers of the Atlantic Pact countries to consider.

BONN, Germany, Dec. 7. (AP) — West German officials turned a cold shoulder today to the new plan for including German troops in the North Atlantic forces, which was announced by the French last night.

An official government spokesman declined immediate comment.

But high officials said privately West Germany would never accept any plan which discriminates against German contingents.

Permian Basin Oil News

Possible Field Opener Flows

Frankel Brothers and Shell Oil Co. No. 1 Williams, wildcat in Central-North Schleicher County, indicated as a possible discovery from the Wolfcamp of the Permian when it flowed naturally 92 barrels of oil plus two-tenths per cent basic sediment and water in 10 hours through a 28-64-inch tubing choke.

The flow came through perforations in the 5 ½-inch casing opposite the zone at 5,520-40 feet in the Wolfcamp lime of the lower Permian.

After the 10-hour test, operators shut the well in to test the casing for a leak. After that is found and filled it is planned to test further.

Gas-oil ratio of the petroleum production during the testing was 458-1.

This project is operating on a plugged back total depth of 5,606 feet. The casing is cemented at that point.

This prospective new field opener is 12 miles south of Mertzon and 660 feet from south and 810 feet from west lines of section 26, HE-&WT survey, Abstract 1,136.

It drilled to a bottom of 7,341 feet in the Ellenburger. That horizon made sulphur water and had shows of oil or gas.

Offset To Discovery In Terry County Completed

Tide Water Associated Oil Co. No. 1 Lucile Morley has been completed as a new well in the Corrigan Silurian field in Southeast Terry County, 14 miles southeast of Brownfield and 660 feet from north and east lines of section 1, block C-38, psl survey.

It flowed 24 hours through a three-eighth inch choke to make an initial production of 333.63 barrels of 35.60-gravity oil.

Twenty two per cent of the total fluid recovered was water. Gas-oil ratio was 62-1.

Total depth is 11,591 feet and five and one-half inch oil string is cemented at 11,590 feet. Proudction is coming through perforations at 11,540-11,589 feet. This section had been treated with 200 gallons of acid.

Tide Water No. 1 Morley is a west offset to the discovery well of the Corrigan-Silurian field.

Pecos Well Located

J. B. Tubb has staked location for a 3,000-foot cable tool wildcat in North Pecos County 13 miles southwest of Imperial.

It is No. 1 P. R. Robertson and is located 330 feet from northwest and 1,980 feet from southwest lines of section 12, block 10, H&GN survey.

Operations on this test will begin immediately.

Midland Prospector Recovers Oil From Spraberry on Test

Ted Weiner and associates No. 1-4 O'Daniel, Central-East Midland County prospector, one and one-quarter miles northeast of the Tex-Harvey field, is credited with recovernig 1,080 feet of clean oil during a three and one-half hour drillistem test in the Spraberry sand at 7,000-7,265 feet.

Gas surfaced in 35 minutes. There was no gauge or esumtae on the gas volume. No water was shown with the oil.

Operator is reported to be preparing to use the Hydrafrac treatment on the Spraberry between the top of that formation at 7,060 feet and the total depth at 7,265 feet.

On the top of the Spraberry at 7,060 feet the project has a datum of minus 4,420 feet, which correlates to be 16 feet high to the same marker in the nearest completed producer from the Spraberry in the Tex-Harvey field.

Location is 664.6 feet from south and 664.7 feet from west lines of survey.

No Oil Strains Logged In Union's No. 1 City Of Robert Lee, At 4,227

Union Oil Co. of California No. 1 City of Robert Lee, 4,500-foot wildcat in East-Central Coke County, is drilling below 4,227 feet in shale with no shows.

The project topped the McCutchen sand at 3,989 feet on a datum of minus 2,105 feet. The formation has been hard, tight sand and shale in drilling to present depth. No oil stains have been logged.

Operator plans to drill anead to 4,365 feet and then decide what to do with the wildcat. It appears definitely to be a failure in the McCutchen field pay zone.

Location is 330 feet from south and east lines of J. W. Hall survey No. 1, abstract 1342 and one mile east of Robert Lee. It is two and one-half miles southwest of the McCutchen-Cisco lime field in Central Coke County.

Woman's Calendar

THURSDAY

Miss Avanelle Kemp feted at bridal tea, 6:30 and 7:30 p.m. home of J. P. Pitner, Jr.

FRIDAY

Altrurian Christmas party, 3 p.m. Mrs. J. C. Dorward's, 1908 Thirtieth St.

Offset Staked For Glasscock Discovery Well

Amerada Petroleum Corp. spotted location for a north offset to a recently completed Spraberry discovery in Central-West Glasscock County.

It will be drilled as No. 1 K. S. Boone, at the center of the southeast quarter of the southwest quarter of section 17, block 36, T-3-S, T&P survey.

It will offset Hubbard S. Russell No. 1-20 Wrage-Henderickson recent discovery three miles east of the Tex-Harvey field in Central-East Midland County.

Two Locations Spotted In Southeast Hockley

Honolulu Oil Corp. and Signal Oil & Gas Co. are building derrick for one prospector in the four-well Ropes-Pennsylvanian field of Southeast Hockley County, and have spotted location for another.

Rig is being installed for their No. 3 Underwood, three-quarters of one mile south of their No. 2 Underwood, a drilling project and 694 feet from west and south lines of labor 13, league 5, Wilbarger County school land survey.

Location was made for the same concerns' No. 2 Burleson, three-quarters of one mile east of their No. 1 Burleson, which is in the process of completion.

The No. 2 Burleson will be drilled 694 feet from east and south lines of labor 9, league 5, Wilbarger County school land survey.

Both prospectors are to be drilled to around 9,500 feet, which is calculated to test the regular Pennsylvanian pay in the recently opened Ropes field.

The drillsites are approximately five miles south of Smyer.

To Deepen Dry Lubbock Wildcat To 12,000 Feet

A supplemental application has been filed by Bankline Oil Co., Wilshire Oil Co., and Basin Oil Co. requesting permission to continue drilling to 12,000 feet at their No. 1 Earl E. Elliott, wildcat in West-Central Lubbock County.

The prospector is now drilling below 10,793 feet in lower Pennsylvanian lime and shale.

No shows of possible commercial production have been encountered in the prospector thus far.

Location is 1,980 feet from east and 660 feet from south lines of section 33, block JS, EL&RR survey.

Mr. and Mrs. Frank Priddy who live at the Petroleum Distributing Co., will return this week from a vacation trip to Camden, Ark.

Wildcat Near Stanton 300 Feet High On Top Of Spraberry Sand

Southern Minerals Corp. No. 1 Houston, wildcat in Northwest Glasscock County six miles southeast of Stanton, is drilling below 6,821 feet in Spraberry sand, which was topped at 6,784 feet.

That is on a datum of minus 4,166 feet and makes it 300 feet high on the top of the Spraberry to the wells in the Germania field in Northeast Midland County.

No drillstem tests have been taken since the Spraberry was reached in the No. 1 Houston.

The Spraberry top in that exploration was picked by electric log.

Location is 660 feet from north and west lines of the southeast quarter of section 13, block 36, T&P survey, T-2-S and 10 miles east of the Germania and approximately six miles east and slightly north of the Germania-Spraberry field.

Charged On Liquor Count In Court Here

A county court jury yesterday afternoon returned a verdict of guilty in the case of Vernon Matthews, 36-year-old owner of the Log Cabin Cafe, charged with possession of liquor for purpose of sale in a legally dry area.

The jury assessed his punishment at 60 days in the county jail and a fine of $250 plus $23.50 court costs.

Crockett Wildcat

Champlin Refining Co. has filed application to drill a 6,000-foot rotary test in the Tippett field of extreme Northwest Crockett County, 12 miles southeast of McCamey.

It will be No. 1 Tippett and is located 1,172 feet from south and 440 feet from east lines of section 26, block 36, H&TC survey.

Lack of Vitamins B1, B2, Iron, and Niacin May Make You

HURT!

Don't despair because nagging aches and pains, due to deficiencies of Vitamin B1, B2, Iron and Niacin, rob you of rest, make life miserable. Today's great Hadacol may relieve the real cause, due to such deficiencies, for you as it has for folks like this.

Mrs. Rose Williams Winn, 4427 Maffitt Avenue, St. Louis 13, Missouri, says: "I have been troubled with pains in my legs off and on for a long time. I work in a Drug Store as Fountain help. I could hardly go up and down stairs without much effort, on account of such pains. About 4 weeks ago, I decided to try Hadacol. I did not have much faith, but I took one bottle and it gave such relief. I bought another one and I am completely relieved of the misery, and I will not be without Hadacol. I have told all my friends and they have started taking it also, with much satisfaction."

Many doctors recommend Hadacol. Trial size bottle, only $1.25; large family or hospital size, $3.50. Only Hadacol gives you that "Wonderful Hadacol Feeling." Strict money-back guarantee.

Agreement On Water Projects Is Reached By Three States

SANTA FE, N. M., Dec. 7. (AP)—A three-state accord for flood control, irrigation and city water supply projects along the Canadian River has been reached. Talks have gone on for months.

Its fate rested today with the Texas, New Mexico and Oklahoma legislatures. All three states must approve before the accord becomes effective.

For Texas, a limit of 500,000 acre-feet of conservation storage is provided until Oklahoma has 300,000 acre-feet. Thereafter Texas is limited to 200,000 acre-feet plus whatever amount is in conservation storage in Oklahoma. The water in conservation storage is determined by the maximum quantity in storage after each flood.

New Mexico retains "free and unrestricted use" of all water originating in the drainage basin above the Conchas Dam near Tucumcari. New Mexico also got the right to impound 200,000 acre-feet of water originating below the dam.

Oklahoma obtained free and unrestricted use of all waters in that state.

Commissioners who reached the accord yesterday include E. V. Spence of Austin.

The Canadian flies in New Mexico and flows across the Texas Panhandle into Oklahoma.

New Mexico and Oklahoma were left free under the agreement to settle the amount of water they may store from the North Canadian River which rises in Oklahoma. Texas was limited to water impounded for "municipal uses, household and domestic uses, livestock watering and the irrigation of lands cultivated solely for the purpose of providing food and feed for householders and domestic livestock actually living or kept on the property" under the North Canadian proviso.

Berkley Johnson, who sat in final discussions as federal government official, said he believed the accord "an equitable and sound" one. Sen. Chavez (D-NM) gave tentative approval. He previously had opposed a bill in Congress to authorize a Canadian River project to supply water to a half dozen West Texas towns.

Legion Meeting Monday Will Plan Yule Party

Plans for a big Christmas party for members of the American Legion here and their families will be discussed at a meeting of the Scurry County post Monday night at the clubhouse, it was announced today by Hilton Lambert.

"A special committee will be named to handle the program, and we plan to make this affair an event," said Lambert.

New members in the organization are being signed up every day, he said.

Funeral In Missouri For Man Who Died Here

Funeral services for Alward Azore Hudnall of 1200 Avenue R, who died here Tuesday morning will be conducted in Charleston, Mo.

Mr. Hudnall, 61 years of age, was found dead at his home, apparently having died in his sleep. He lived by himself, and had lived here about 10 years.

Survivors include a widow, four sons, three daughters, two brothers and three sisters.

All arrangements were under the direction of the Bolger-Barnes Funeral Home, who prepared the body for shipment by train.

Symphony and Chorus In Christmas Music

A chorus of 160 voices will join the San Angelo Symphony orchestra in a concert of special Christmas music at 3:30 o'clock Sunday there.

The orchestra, under the direction of Dr. Eric Sorantin, will be presenting its second concert of the season. The chorus will be under the direction of Miss Jean Barlow, San Angelo High school vocal music instructor.

The orchestra will open the program with the "Egmont Overture" by Beethoven, followed by four movements of Schubert's Symphony in B flat major. A third orchestral selection will be ballet music from "Faust," by Gounod.

Following the intermission, the chorus will join the orchestra to present the Halielujah chorus from "The Mestiah" and selected Christmas carols.

Anthony's Will Open Colorado City Store

The C. R. Anthony Co. has announced plans to open a store in Colorado City at 221 East Second Street, with formal opening planned in the spring.

Plans are now proceeding for modernizing the store front and installing modern lighting and fixtures throughout the building. Total floor space of the building will be about 7,000 square feet including storage rooms.

The C. R. Anthony Co. now operates department stores in seven states.

Funeral Today For A. J. Logan

Funeral services for Andy Joe Logan, 73, of 2911 Avenue Y were to be held at 3 o'clock this afternoon at the First Baptist Church.

Mr. Logan died yesterday morning at Hendrick Memorial Hospital in Abilene, where he had been since Nov. 27. He was receiving treatment for a heart ailment.

The Rev. E. K. Shepherd, pastor of the First Baptist Church, will officiate at funeral services. He is to be assisted by Boyd Fanning, minister of the Church of Chirst.

Mr. Logan was born in Coryell County near Gatesville, Tex. He had made his home in this county 42 years and was engaged in farming and held oil interests.

Survivors in addition to the widow, Mrs. Nettie Logan, include two daughters and three sons. Daughters are Mrs. Rex Miller and Mrs. Gordon Smith, both of Snyder. Sons are Archie Logan, Floyd Logan and Loy Logan, all of Snyder. Two brothers who survive are Thomas Logan and Doc Logan of Gatesville. A sister, Mrs. Lucy Rutherford, lives in Baytown.

Grandchildren are Charles Fred Miller, Miss Lynn L. Logan, Jo Ann Miller, Jeannine Smith and Miss Cynthia Kay Logan. Other grandchildren are Mrs. Wauree Neal of Ohio, Mrs. Jacqueline Daniels of Odessa, and Miss Patsy Logan of Plainview.

Pallbearers will be Bushy Hedges, Harold McClinton, Paula Moore, Albert Bills, Lewis Blackard, E. E. Thompson, Jr., Horace Williamson, Howard Crenshaw, and Wayne Smith.

Interment will be in Snyder Cemetery, under the direction of the Bolger-Barnes Funeral Home

Mathes, Active Promoter Of Youth Center, Man of Month

The Rev. Charles D. Mathes whose work with the youth of Snyder is well-known throughout the county. has been named by representatives of the civic clubs as the Man of the Month for November.

Chosen because of outstanding service in the building of the Youth Center in Snyder, which is now completed, Mathes was cited for his long hours of work in collecting donations of money and materials for the building and for creating a growing interest among citizens in the project.

MADE COLLECTIONS

As chairman of the center's building committee, he has been successful in procuring many donations of scarce materials and services of contractors.

He was chosen by a committee of six, each representing a different service organization in the city. On the committee were H. W. Cargile, Kiwanis Club, Frank Kubena, Veterans of Foreign Wars; Dr. D. K. Ratliff, American Legion; Lloyd Clark, Junior Chamber of Commerce; Jake Springer, Rotary Club; and the Rev. W. W. Adcock, the Lions Club.

Named Man of the Month — Charles D. Mathes—(Craft Studio photograph).

The third man to receive the honor since the Man of the Month idea was started by the Chamber of Commerce in early September, Mathes modestly stated his appreciation, saying, "I don't feel that I deserve any of the honor, having done only what I was required to do as a citizen who loves youth."

Mathes, a bookkeeper for the Universal Construction Co., has been working with the Youth Center project since its beginning, serving as a representative of the Lions Club and also representing the American Legion.

ENTERED MINISTRY

Born near Hillsboro, Tex., March 23, 1917, he was reared in South Texas, coming to West Texas a number of years ago. After his discharge for military service in World War II, Mathes, now acting chaplain for the American Legion post here, entered the ministry, attending the Bible Baptist Seminary in Fort Worth eight months, then attending the Southwestern Theological Seminary there, where he graduated with a degree in theology in 1949.

Mathes came to Snyder about a year ago with the construction company. He resides with his family at the company yard. The father of five children, he says he has "always loved children and wants to see the Youth Center progress for the benefit of tomorrow's men and women."

Wiley Brice Is Host At Dinner Saturday

Wiley Brice entertained friends with a dinner party and dance Saturday night at his home on Lubbock Highway. Assisting him in host duties were Mrs. Sig Line and Mrs. Lucille Bowling.

A buffet of ham, cold meats, bors d'oeurves, caviar, salads, vegetables, relishes and wine were served. Season's flowers decorated the rooms.

Others present were Miss Lyndal Westbrook, Mrs. Carolyn Reon, Miss Bess Line, Mrs. Frances Biow, Mr. and Mrs. Charles Egner, James Patterson, E. A. Brooks, Bob Melton, D. R. Price, Manuel Massey, I. D. River, and Jess Hagerman.

Requirements Lowered For Air Force Men

The U. S. Air Force has lowered its requirements for volunteers and is now also open to married men without prior service and to single men with dependents and also without prior service, according to an announcement made today by Sgt. William J. Wells, in charge of the Recruiting Station here.

Formerly the air force had been without dependents and to married men with prior service who could also qualify for ratings in the first three grades — master sergeant, technical sergeant, or staff sergeant.

Also heretofore the air force has required volunteers to pass a rigid written examination, which has now been lowered substantially and is much easier to pass, Wells said.

Several men in Snyder have previously failed the examination but could probably pass it now, he said, and they may try for service by coming to the recruiting office at 1924 Twenty-sixth Street. Volunteering for the air force does not in any way obligate a person to join another branch of service in case he is rejected, Wells added.

The requirements for cadets for ratings as pilots, bombardiers, and navgiators remains the same, the first requirement being a minimum of two years college training.

Miss Davis Hostess At Shower Honoring Mrs. Delbert Burrow

Miss Ruth Davis, 1406 Twenty-fourth Street, honored her friend, Mrs. Delbert Burrow, the former Miss Barbara Riley, with a gift shower Friday night in her home.

Assisting Miss Davis were Mrs. Don Baremore of Big Spring, Miss Oleta Ikard, and Mrs. Earl McDow.

The hostesses served punch, miniature cookies, and nuts from a table decorated in white candles, a miniature arch formed for the tiny mirrored bride.

Gifts were displayed, and over 20 persons signed the bridal register.

Miss Davis read two numbers, "I Love You" and "To Newly Weds."

The honoree was dressed in a brown crepe dinner frock, with brown accessories and yellow roses. The hostess, Miss Davis, chose a street length gown of coffee-colored satin with an elaborate lace bodice.

Syracuse University's new gymnasium is nearing completion and will be ready for occupancy in February.

NEWS FROM IRA

By MRS. MABEL WEBB

Mrs. W. O. Webb was at the bedside of her son, Jack, in the Root Memorial Hospital the first of the week.

Engagement of Miss Martin to Eugene Matthew Announced

Mr. and Mrs. O. J. Martin, Route No. 3, Snyder, announced Saturday the approaching marriage of their daughter, Joanne Martin, to Eugene Matthew son of Mr. and Mrs. O. L. Matthew, 2704 Avenue Q.

They will be married Christmas Eve.

Bridal Shower For Mrs. Allen

Mrs. Jack Allen, the former Miss Florence Womack, was honored at a bridal shower in the China Grove home of Mrs. Jim Merket last week. Other hostesses were Mrs. Frank Wilson, Mrs. Joe Hairston, Mrs. Bill Hariston, Mrs. O. N. Laster, and Mrs. Stanley Merket.

In the receiving line with the hostesses and honoree were Mrs. Swan Taylor, the bride's aunt; Mrs. Roy Allen, the bridegroom's mother; and Miss Ida Head, the bride's cousin.

Mrs. Leonard Allen presided over the gifts, with Mrs. Jack Merket at the bride's book.

On the piano was a Christmas arrangement of cedar, gleaming balls and a snowman. The dining table, overlaid with a lace clot, was tied with green and red bows, with a decor of red carnations and greenery.

Mrs. Bill Hairston read "Prayer of a Young Wife," Miss Joan Merket and Mrs. C. J. Smith gave vocal numbers. Miss Betty Lou Merket played throughout the bridal party.

The bride was presented her gifts by Gloria Merket and Cynthia Merket, youngsters who pulled in small red and green wagons laden with gifts.

Dinner Party In Home Of Dr. W. H. Williams

Dr. W. H. Williams, 2510 Twenty-eighth Street, entertained friends at a small dinner party Friday night in his home.

Steaks were served to the following: Mrs. Dorette Beggs, Mr. and Mrs. Lyle Galbraith, Mr. and Mrs. Leonard Tibet, Mr. and Mrs Bill Atwood.

Pistol And Forgery Charges Filed Against Three Men In Snyder

Two Negro men were assessed fines of $123.50 each, including court costs, this morning after pleading guilty to charges of carrying a pistol.

The pistol, the same in both cases, was confiscated by the sheriff's department from one of the men, Orbey Lee Hall, 29, formerly of Carthage. The other man was Homer R. McCullar, 23, formerly of Jacksonville.

A charge of forgery was filed today before W. C. Davidson, justice of peace, against a man accused of forging another's name as payee on a payroll check. He has not yet been apprehended.

Homes To Be Opened For Inspection

Twelve Snyder homes are to be included on the House Beautiful tour to be sponsored by the High School Service Club on Dec. 9 and 10.

Six homes will be visited on each of the scheduled days, Mrs. Garrett Harrell, club president, said. Mrs. Forest Sears, vice president, is also working on the steering committee.

Tickets for the tour are now on sale at Owens Department Store and at the Roe Home and Auto Store, or may be purchased from any club member. Proceeds from the sale of tickets are to be used to purchase a projector for use in visual education work at the high school.

Tours will be held from 2 to 5 o'clock on scheduled days. Tickets will carry a complete list of the homes to be included on that day, and the hour at which the home may be visited. Each of the ticket holders may join or leave the tour at any home she wishes.

Homes to be visited on the first day will be those of Maurice Brownfield, H. W. Sanders, Hugh Boren, Tom McClatchy, Billy Boren and Dick Randals. Homes to be toured on the second day are those of Forest Sears, Wayne Boren, C. R. Cockrell, Ophelia Blackard, Fritz R. Smith, Jr., and Weldon Johnson.

High School Student Council Undergoes Reorganization Here

The recently re-organized student council of the Snyder high school has announced the election of Barbara Lewis, secretary; Wanda Griffin, treasurer; and Judy Ivy, parliamentarian.

At the time of organizing, Grant Teaff, captain of the football team, was elected president and Anne Richardson was chosen vice-president.

Monday the new group of 20 council members attended a meeting of West Texas student councils in Lubbock.

The Snyder council meets the first Thursday of each month to deal with extra-curricular activities and foster projects for the good of the students as a body.

The grooms who walk Sam E. Wilson's horses to the post are outfitted in smart smoking jackets in the stable's red and green colors.

City Calls for Bids on New Jail, Agrees to Annex Area

Bids for the construction of the city's new jail and police station, to be built west of the present city hall on land now occupied by the Chamber of Commerce building, will be accepted by the city council Dec. 18.

The council, meeting Monday night voted to advertise for bids on the new building and on a new substation for the fire department, to be built somewhere in Southeast Snyder.

Plans for both buildings have been accepted by the council and blueprints are available for contractors at the city hall.

ANNEXATION

Harry Winston petitioned the council for annexation by the city of a three-block area at the southwest corner of the present city limits.

Four houses are being built or are planned for the area, and more development is foreseen when the new high school is built in that neighborhood, Winston said.

The council passed a motion accepting the petition to annex the area, including all of block 13, the north half of block 14, and the northwest two-thirds of the school block, all in Colonial Hill addition.

After the expiration of the legal limit of at least five days, it is expected that the council will pass the ordinance admitting the area into the city.

A motion also was passed to extend the sewer at Avenue V and Thirty-fourth Street into the area to be annexed, subject to a survey and recommendations by the city engineer.

Winston told the council that should the area to be served by the sewer line not justify the city's paying the cost of installation right now, he would build the line if the city would repay him at a later date.

The offer was described by councilmen as generous, and it was informally agreed that Winston would finance the extension of the sewer, the city repaying him in the future, probably out of the next bond issue.

RAISE SALARIES

A revised wage scale for the police department was adopted by the council. Recommended by Chester Barrington, chief of police, it was adopted by a unanimous vote of the council, to be effective Dec. 1.

New monthly salaries will be as follows

Chief of police, $325.

Assistant chief, $300.

Captain, $275 plus $10 clothing allowance.

Lieutenants, $270 plus $10 clothing allowance.

Sergeants, $265 plus $10 clothing allowance.

Patrolmen, $250 plus $10 clothing allowance.

Recruits, $225, jumping to $235 at the end of three months, and $250 plus $10 at end of six-month probation period.

OLD SCALE

The scale was formerly considerably lower. It was $275 for the chief, $300 for assistant chief, $250 for captain, $230 for sergeants, and $225 for patrolman.

Bairrington's recommendations did not include any provision for his own pay hike, which was suggested by the councilmen themselves.

Bids for the removal of the one-way steel bridge at Twenty-seventh Street and Avenue T were opened and the contract for demolition of the structure was awarded to the Snyder Iron and Metal Co., which offered to pay the city $150 and remove the bridge.

Other bids included A. R. Riley of Snyder, who offered to remove the bridge for a fee of $600, and Harry Newton, Inc., of Graham, Tex., who stated he would remove the bridge, piers, and sewer pipes for a fee of $1,950. Newton holds the city contract to build three new bridges and widen two others, construction work which is now in progress.

The council voted unanimously to contract with the Pittsburg Tank & Tower Co. of Pittsburg, Kas., to repair the old water tower in Southwest Snyder. The company's proposal was that it repair, clean, and paint the old tower for a total cost of $4,400, guaranteeing their work for five years.

Earlier the city had a bid of $7,500 for the same work.

Councilmen agreed to push the repair work forward during the winter months when demand for water was at its lowest point.

E. S. Prichard of Prichard & Abbott, Fort Worth, appeared before the council to ask if the city wanted to subscribe for his tax inventory service

Prichard said his firm was to begin work this week on an inventory of oil field supply houses, industrial establishements, utilities, and railroads for the school systems board of tax equalization.

The council deferred action on the proposal.

Aubrey Clark appeared before the council to ask restitution of land at the site of the old disposal plant, which was deeded to the city years ago by one of Clark's relatives, now deceased. The council asked him to prepare papers for deeding the property from the city to Miss Annie Nunn. The land in question is in the southeast section of the city, and is no longer used by the city.

School Site In East Snyder

The Snyder school board has completed the purchase of a 12-acre elementary school site in the east section of the city from Ross Riley, it was announced this morning.

The site is located about four blocks south of the Phillips 66 Super Station on East Highway and from another point is two blocks west of the highway, which runs northwest-southeast there.

Bonds Forfeited In County Court Today

Twenty-three appearance bonds were ordered forfeited in county court Tuesday when 13 persons charged with misdemeanor offenses failed to appear at the calling of their cases.

The cases set for jury hearing today were based on charges of driving while intoxicated, possession of liquor for purpose of sale in a dry area, illegal sale of liquor and unlawful transportation of liquor.

Those whose bonds were ordered forfeited were Vestal T. Hassler, 44, Snyder; Odell Laverne Allen, 2707 Avenue J; Herman Foster, 29, Snyder; Mrs. Paul Dwight Cline, 30, Snyder; Mrs. Ruby Goss, Snyder; Vernon Matthews, 36, Log Cabin Cafe; Eugene Shepard 44, Snyder; Mrs. Nina Mae Chaney, 23, Snyder; Mildred Davis Cooper, 30, Snyder; Billy Maxwell, 21, Log Cabin Cafe; J. T. Caulwell, Snyder; and L. T. Crawford 24, Snyder.

Four Treasure Hunt Prizes Are Awarded

Four winners have been announced in the 50-prize treasure hunt now under way in Snyder, Mrs. Jan Roberts, Chamber of Commerce secretary, said today.

First winner was 14-year old Hadden Jones, who held the lucky number to the walking doll given by Frank's Department Store.

Other prize winners include Mrs. E. Z. Arnold, route No. 1, who won the watch given by Williams Jewelry; and an unidentified little boy who won the costume jewelry set given by Robert's Jewelry; and Miss Ruth Schooling, 17, who won the "Wing" shirt and tie given by the Fair Department Store.

Final count of prizes offered in the hunt totaled 50 valuable gifts.

Other winners will be announced and the stores giving them as soon as they are won.

Snyder Youth Named To College Boxing Team

Clint Redd, 18-year-old son of Mr. and Mrs. Clint Redd of Snyder has been named to the eight-man boxing team to represent Kilgore College in the Golden Gloves tournament later this year.

Clint, a freshman pre-dental student at Kilgore, is the only lightweight chosen to represent the college on the five heavyweight, one middlelweight, on lightweight, and one bantamweight team.

Many Calls for Five-Cent Lunches, But Cost Still Is Quarter

A report in the Sunday Daily News reporting cost of feeding school children at the four cafeterias in Snyder Schools was in error.

Instead of meals at the cafeterias costing five cents without milk, and seven cents with milk, they cost stucents 25 cents, and adults 35 cents.

A government subsidy of five and seven cents is paid on the meals.

Lunches for adults in the cafeterias cost 35 cents and are not government subsidized.

In reporting the error Monday Elmer Taylor said that there had been evidenced a great demand for the five and seven-cent lunches by both school children and outsiders.

Christmas Party Is Planned by Junior Chamber of Commerce

Plans for the Junior Chamber of Commerce Christmas party were discussed at the meeting Monday and an entertainment committee appointed, Lindy Clark, president said.

Committee members will be Jack Kennedy, Renal Rosson and Dr. Robert H. Hargrove, Jr. The party will be held Dec. 21.

Club members also discussed the sponsorship of vending machines here and possible locations. Installation of the machines may start next week, Clark said, and about 50 will be available here.

Club members also saw one of the new Junior Chamber of Commerce shirts modeled by Dr. Hargrove.

Cold Wave Calls Halt On Street, Bridge Work

Bad weather may delay completion of the Twenty-sixth Street bridge, W. J. Ramsey, city superintendent, said Tuesday.

First of two final concrete pourings was planned for Wednesday and the last one for Friday, following which a curing period of about 10 days would be required, Ramsey said.

Except for bad weather the bridge would have been open to traffice by Christmas, it still might be possible if the weather clears he said.

Completion of the bridge, and work on the streets, sewers, and other city projects has been halted by today's bad weather and cannot proceed until warmer weather Ramsey said.

Two Partners Sell Interest in Gordon's

Gordon Goss yesterday announced a trade in interest in Gordon's Drive-In.

Eddie Ayoub of Snyder and Joe Jabor of Big Spring have sold their one-third interests, and the restaurant now is owned by a partnership of Goss and his brother, T. C. Goss of Colorado City, until recently of Snyder.

Water Cut-Off Saves Pipes

"If you don't have cut-offs on your water lines between the water meter and your house, you had better get them before winter weather causes real trouble, W. J. Ramsey, city superintendent, said Tuesday.

With the advent of cold weather, and more predicted, Ramsey recalls that one day last winter the water department received 47 calls about frozen pipes between 1:45 and 3:30 one afternoon following a cold spell — and last winter was unusually mild for this country, he added.

With 2,430 water connections the department couldn't possibly handle a flood of calls from frozen pipes in the proportion that might occur, Ramsey said.

This is about 1,000 more water connections than we had this time last year, Ramsey added.

To avoid freeze-ups in your water system, be sure that there is a cut-off valve between the meter and your house, and locate the valve for use in cold nights or days, Ramsey said.

A city ordinance specifies that there must be a cut-off valve between the meter and house.

"However, if you do have broken pipes call us and we will give service as quickly as possible," Ramsey said.

"A broken pipe might result in considerable water damage to your house and belongings before we could get there," he concluded.

Early Morning Fire Burns Trailer Home

An early morning fire destroyed the trailer home of a family of four and their car Tuesday, firemen said.

The trailer house and all the personal belongings of Mr. and Mrs. G. G. Watson, their eight-year-old son, and three-year-old daughter were completely destroyed along with their 1938 model Buick car at 1033 Thirty-third Street. The fire probably started from a gas stove that was connected by a rubber hose to a natural gas line, firemen said.

About 500 gallons of water were used from one pumper, one of two pumper trucks which went to the blaze. Firemen also said that 19 volunteer firemen reported to the blaze which was reported about 5:30 a.m.

Clothing Is Destroyed By Fire In Dwelling

A fire in a residence at 2501 Twenty-fifth Street was out when fire equipment and fireman arrived about 10:20 Tuesday morning.

W. W. Caddell, occupant of the house owned by A. R. Clardy, said that the fire started from a gas heating stove near a closet. Clothing in the closet caught fire, but had been put out by the time firemen arrived.

A quantity of clothing for Mr. and Mrs. Caddell was destroyed by the blaze.

City Gets $14,267 For Water, Sewer, And Garbage Collections

Collections for water, sewer, and garbage during November totaled $14,267.47.

Collections for water brought the city the greatest amount of revenue, a total of $8,559.44.

Sewer collections totaled $3,465.39, meter deposits, $1,085, and garbage collections, $1,143.23.

Meter refunds totaled $320.

Members of Service Guild Attend Party

Christmas decor and spirits brightened the annual holiday dinner members of the Wesleyan Service Guild held at the Village Monday night.

A full course Yuletide dinner was served. Gifts were exchanged and carols sung.

Mrs. R. E. Gray, a guest, gave a Christmas reading.

Present were Mrs. T. M. Deffenbach, Mrs. J. O. Littlepage, Mrs. Tom DeShazo, Mrs. Joe Stinson, Mrs. T. W. Pollard, Mrs. R. H. Odom, Mrs. W. E. McMillan, Mrs. Paul Keaton, Mrs. Hattie Simpson, Mrs. Will Crowder, Mrs. Bob Dupree, Mrs. Nancy Caton and Mrs. L. O. Bynum.

Life Membership Given Mrs. H. P. Brown In Methodist Women's Unit

Approximately 50 members and guests were present for a covered dish luncheon and regular meeting of the Women's Society of Christian Service at the First Methodist Church Nov. 27.

During the business session, Mrs. H. P. Brown, president of the society, was presented a lifetime membership. The membership was purchased by Mrs. Vida Hardy, and presented on behalf of the entirr group.

Mrs. Robert Eastus opened the worship service. Mrs. Lyman Yoder directed the program on the part of the church can play in a national health program. She was assisted by Mrs. Dick Sanders and Mrs. Clyde Godwin.

Christmas Programs For Study Clubs

Snyder's seven women's study clubs, which ordinarily meet twice monthly, are meeting only once in December, due to busy holiday schedules. Each club seems to be concentrating upon making the one December meeting a memorable one with turkey dinners, Yuletide plays, and impressive ceremonies

COSMORAMA

Cosmorama Study Club, meeting Dec. 13, in the home of Mrs. Sam Joyce, 2610 Thirty-second Street will exchange gifts and spend the afternoon preparing food and toy baskets for needy Snyder children

The club will as usual gather under their Christmas tree for a seasonal program. Mrs. W. J. Bryant will give the club's favorite reading, "The Other Wise Man" with Mrs. Bob Dunn singing in the background. The club will disband after this meeting until their Jan. 10 session.

ALTRURIAN

Mrs. J. C. Dorward, 1908 Thirtieth Street, will entertain the Altrurian Club today. The group plans to prepare baskets for the needy. As is their Christmas custom each year, the group will sing carols and enjoy Christmas fellowship at this meeting, their last until a January date.

ART GUILD

The Art Guild Study Club, meeting Dec. 19, will be entertained by Mrs. Tony Holcomb. Mrs. Armor McFarland is to be the program director for a special holiday scene. This club also will skip one December meeting.

ALTRURIAN DAUGHTERS

Altrurian Daughters Study Club will meet Dec. 18 at the Country Club for their annual Christmas dinner party, an impressive occeasion, the highlight of the club's year. The women will entertain their husbands, and exchange gifts. Hostesses for the party will be Mrs. J. D. Scott, Mrs. Charles Cooper, and Mrs. B. L. McKinley. The club will turn over funds from a project which has made money for a library for the Youth Center.

ALPHA CLUB

The Alpha Study Club met Tuesday afternoon in the home of Mrs. Alfred McGlaun, 1200 Twenty-fifth Street. A Christmas program will be led by Mrs. O. M. Fowler.

20th CENTURY

The Twentieth Century Study Club will hold a special holiday meeting Dec. 12 in the home of Mrs. W. H. Cauble, 1211 Twenty-eighth Street. Mrs. L. A. McClanahan will lead the program, each member answering the roll call with a Christmas verse. Gifts will be exchanged.

CULTURE CLUB

The Women's Culture Club will disband after this week's get-together until some time in January. Mrs. A. P. Morris, president, announces that new officers will be elected at the January meeting. The club has no special project going now, but held a party Tuesday

Ginnings For Scurry County Reach 31,500

Cotton ginnings in Scurry County had reached about 31,500 by late Saturday afternoon a survey of the gins showed.

Ginnings had slowed down some this week from last week, and a continued tapering off that would soon end the 1950 cotton harvest was indicated.

Ginnings had increased the county's total yield by about 2,000 bales this week over last week's reported 29,500 bales. But last week's report had shown an increase over the previous week of about 5,000 bales.

Most farmers are "scrapping-up" or going over their cotton fields, for the last time, ginners said. Many farmers have completed their cotton harvest, and most others are almost finished, they reported.

Snyder's four gins had ginned a total of 13,211 bales this season by Saturday's count.

COTTON GINNINGS

Snyder	13,201
Hermleigh	5,500
China Grove	3,541
Dunn	2,360
Fluvanna (Estimate)	3,200
Ira	3,626
Total	31,438

Tile-like flooring consisting of scrap wood with the end-grain exposed has been developed at Purdue University.

There's been a lot of talk in recent weeks about "the buying power of the dollar"—past, present and future.

We can't foretell the future—but we can tell you this right now:

You'll look a long way before you'll find a car that offers as much for the money as you can get in a 1950 Buick.

Close to half a million of these cars have been built and sold this year.

Close to half a million people have checked their features and prices against the field—and decided they'd *better buy Buick.*

As to prices—they start down below some sixes. And whether you price the SPECIAL, the SUPER or the ROADMASTER, you'll find, on a cents-per-pound basis, that few other cars can touch them for value.

And this is for sure! When it comes to performance—ride—the way they handle and hold the road—and thrifty use of fuel and oil—Buicks have never been finer.

That's another way of saying that coil springs on all four wheels—Dynaflow*—torque-tube drive—and Buick's high-compression, high-economy Fireball power produce an out-of-this-world combination.

So if you want your dollars to do extra duty—the time to act is now.

Look at the price tags—look at the features—sample the power and thrill that you get for your money—and you'll know what we mean.

*Dynaflow Drive is standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

ONLY BUICK HAS Dynaflow—
AND WITH IT GOES:

HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.) • NEW-PATTERN STYLING, with MULTI-GUARD forefront, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

YOUR KEY TO GREATER VALUE

WHATEVER YOUR PRICE RANGE

Better Buy Buick-Now!

Gen. Chennault On War Crisis

Speaking before a crowd of more than 250 persons at a luncheon in Sweetwater Dec. 1, Maj. Gen. Claire Chennault outlined a policy for halting the advance of Communism.

Chennault described his plan as being "so simple and sensible I doubt that it will be adopted," and summed it up by saying the U. S. should declare a policy now to help with arms, technical aid and leadership in fighting communism anywhere in the world.

"Russia's objective is to communize the world," Chennault said. "Communism feeds and thrives on darkness, misery, poverty, blackmail, torture and lies. That is the sort of thing we oppose. It is a vicious thing."

"We have done a good job in opposing it in Europe but nothing in Asia," Chennault continued. "When the Americans were taken out, there were 450 million Chinese who loved America. There were hardly half a million Communists.

"In 1946 General Marshall was sent in with a plan to force a coalition government upon China. After 13 futile months, he came out and said he washed his hands of the deal. Washington put out the propoganda that the situation was hopeless and we would do nothing."

Cheanault continued to describe the foreign policy, pointing out what he considered its weak points. He blamed the aggression in Korea on the fact that Acheson on Dec. 12 outlined a defense perimeter, and did not include either Korea or Formosa. Russia and North Korea were amazed when we did resist, Chennault said.

"The Chinese will fight and win if we arm them and give some leadership," Chennault concluded. "That will save time, blood and money. I know it will work. In six months China can be organized, if armed, and they will fight."

Chennault has been in Sweetwater visiting his brother. The luncheon was arranged especially to give business and professional men there the opportunity of hearing him speak.

Plaintiff sues for title and possession of said property, for cost of suit and general relief

Issued this the 27th day of November, 1950.

Given under my hand and seal of said Court, at office in Snyder, Texas, this the 27th day of November A. D., 1950.

EUNICE WEATHERSBEE, Clerk
District Court Scurry County, Texas

Hospital Bond Case Filed In Appeals Court

The civil law suit contesting the April 1 bond election to construct an $800,000 county hospital with 50 per cent federal aid has been appealed and is now in the hands of the court of civil appeals in Eastland, according to Lloyd Davis, attorney for the contestants.

Davis, a partner of the law firm of Pichinson, Davis & Hale, said last Friday he had received a notice from the appellate court that they had filed record of the case there last Monday.

A transcript of the case, in which A. S. Mauzey, district judge here, ruled that the election was valid, was sent to Eastland with a statement of facts from the court record, approved by attorneys for both the contestants and the contestee.

The next step to be taken before the appellate court renders its opinion of the district court's judgment is the filing of a brief by the attorneys for the contestants, which must be done within about 30 days of the filing of the record, Davis said.

After the filing of the contestants brief, the attorneys for the contestees have about 25 or 30 days in which to file their brief, Davis said, and the court then may rule on the district court's decision

Davis said he would file his brief in the next few days.

Funds Sought For Deserted Mother, Child

Lack of proper welfare facilities in Snyder has made it necessary for several public spirited citizens to take into their own hands the matter of a destitute young mother, deserted by her husband.

The mother, her husband and small child had been living in a bus at a trailer court in North Snyder. The husband was not working steadily and the financial burden of a family apparently became to great for him, so he disappeared.

The mother soon found herself unable to pay the required rent for the bus-home and was required to leave. A family of four, who also live in the trailer court, are keeping her and her baby now. But this family finds that they are not financially able to carry the extra load either.

The situation came to the attention of Mrs. Evelyn Bruce of the Snyder Welcome Service, and she has since solicited the aid of several persons in the city. The Kiwanis Club had provided enough groceries to see the two families through Tuesday.

The goal Mrs. Bruce is working toward is to raise enough money for the woman to return to her family in North Carolina and obtain work there. She was making an effort to get this done by Tuesday night.

So far $20 have been subscribed to this cause. Anyone wishing to make donations may do so at the Daily News office.

New Catholic Edition of
IN OUR IMAGE
Houston Harte's great religious book

...with Preface and Imprimatur of The Bishop of Amarillo

Houston Harte, outstanding Texas publisher and citizen, has won universal acclaim for his triumphal In Our Image.

• In response to many requests from Catholic clergy and lay people, Oxford proudly presents Houston Harte's epic masterpiece, *In Our Image*, in the Douay Edition.

Except for text, this book is identical to the original Protestant Edition . . . the same superb bookmaking . . . the same grouping of inspiring art and text . . . the same vivid portrayal of the Old Testament people as flesh and blood human beings.

Startling, vivid portraits in color, by Guy Rowe, noted *Time* cover artist . . . a triumph of artistic realism.

The dramatic Douay Text and these amazing paintings make you feel you now really know for the first time those heroes who walked with God.

IN OUR IMAGE should be in every Catholic home. You will ponder long over these 32 deeply moving portraits . . . and thrill to the Bible stories Houston Harte selected for the book.

In Our Image is a book for all the family to treasure, to enjoy. Stop in and see it at your bookstore today. In Catholic or Protestant editions, buckram bound, $10.00; French Morocco, red or blue, $25.00.

Portfolio of In Our Image Portraits. The 32 portraits by Guy Rowe are available without text in portfolio form. Portraits on deluxe coated stock . . . beautiful to frame. 32 portraits, 9 x 12 inches, $5.00.

Kiwanis Club Pledge To Aid All City Needy

Toys, clothing and food for every underprivileged child and needy family in Snyder for Christmas was assured by the Kiwanis Club at its weekly luncheon yesterday.

Sufficient funds derived from the football game last Saturday night insure that no needy child will be neglected if the name is given to some member of the Kiwanis Club, Dr. Woodrow W. Mikeska, chairman of the underprivileged children's committee of the club, said. Dr. Mikeska was appointed chairman of this committe to succed Bruce L. Greer, who resigned.

Harold Grant has volunteered to furnish a truck to pick up used toys and other gifts that will be assembled at the Matthew Furniture Store on East Highway. Grant's telephone number is 389-R. Anyone knowing of a needy child or family has been asked to call the flolowing telephone numbers: 1722, 929, 1089 and 1442.

It was announced following the committee meeting last night at the Snyder Hospital that the Kiwanis Club will take care of all letters addressed to Santa Claus.

"We don't want to miss a single underprivileged child or needy family in Snyder, so if anyone knows of such persons, please contact the phone numbers listed above," said Dr. Mikeska.

Members of the Kiwanis Club underprivileged children's committe besides Chairman Mikeska, include Leroy Johnson, vice-chairman; Harold Grant, R. M. Wemple, Ford Kenner, C. W. Bradley, Frank Fisher, and Dr. W. E. Jones. This committee will meet again at 7:30 o'clock tomorrow night at the Snyder Hospital to discuss further plans for Christmas gifts for the needy.

Dr. Ben Costin presided at the luncheon instead of Bill Brown, president, who was out of the city.

Testimony In Assault Trial Given Today

The trial of A. F. Smith, 48, charged with assault to murder Tommie Swaim, 19, on the night of Oct. 4 at the Log Cabin Cafe, got underway before a district court jury this morning.

R. J. Allison, the first witness placed on the stand by the state, testified that he was employed as a bouncer at the Log Cabin, by Vernon Matthews, owner.

Allison told the jury that he saw the start of a fight between Swaim and another man in the dance hall shortly after midnight.

DESCRIBES SCENE

"It was an awful fight before it was all over, with perhaps a dozen participating in it," said Allison.

Allison told of seeing Smith cut Swaim across the face with a knife.

Allison said that when he went to stop the affray, Smith also used a knife on him, cutting his pants and legs, which necessitated hospital attention.

"There were two fights, one inside and another on the outside," Allison said. He told the jury that when he tried to separate the fighters, Smith threw a coke bottle at him. He also said that Smith knocked Swaim out of the back door with a coke case.

When questioned by the defense attorneys, Allison said there were about 75 people in the dance hall during the fight. He told of seeing a knife during the scuffle but not a gun.

The next witness was Mrs. Vernon Matthews, wife of the owner, who, testifying for the state, said she did not know Smith, but he had been in the place three or four times. She then recited the events of the early morning of Oct. 5, in which she said an awful fight took place at the cafe, but she did not see Smith and Swaim fighting, as she was in the kitchen at the time.

LARGE GROUP

Mrs. Matthews told of the Smith party of several women and men coming to the place early in the evening and that their behavior was good until the fight started.

"Did you see a gun during the fight," she was asked by the state.

"Yes, my husband had a gun, but I never did see a knife while the big fight was going on," she replied.

She said the place was closed at the time the fight started, telling the jury that it was closed shortly before midnight.

Mrs. Matthews also told the jury that one of her waitresses found a knife later and she threw it in a trash can. The weapon, which did not close, was apparently a butcher knife at one time, with a sharp point on it, she said. The knife was eventually turned over to the sheriff's department.

"Inasmuch as the fight was outside the city, I called for Vernie Head, deputy, who came out to make the investigation," Mrs. Matthews said.

She also said that several days after the fight, a man whom she later learned was Smith came to the Log Cabin Cafe, and she directed him to a trailer nearby. She then called the sheriff's office, giving the license number of the car. But when the officer arrived, Smith had fled. He was arrested later.

SUSPEND TRIAL

At that juncture of the trial, the case was halted due to the absence of the prosecuting witness, Swaim. He and one other principal witness were absent when court convened for the trial this morning, both believed to have been awaiting transportation to Snyder from Big Spring.

In a courtroom speech, Judge A. S. Mauzey scored those who are responsible for persons being tardy during trial, saying that it may become necessary to impose fines in order to correct this situation.

"If all persons, witnesses and others, were as prompt as jurors in reporting for duty, then there would be less time lost in trying both criminal and civil cases," the judge said.

"There is too much lack of interest and laxity in court matters and this must be corrected or fines will be levied against the guilty one," he concluded.

The state is slated to place additional witnesses on the stand this afternoon, to be followed by the defense.

Pat Beene and James Rosser are representing Smith. A petition for a suspended sentence, if Smith is found guilty, has been filed by his attorneys.

Oil News

(Continued from Page 1)

gas was to the surface in nine minutes and water blanket in 14 minutes. Oil followed in 24 minutes. No water was made on the test.

Top of the reef has not been picked. Operator is now running electric log surveys and will run casing.

Location of the possible producer is 660 feet from north and west lines of the southwest quarter of section 72, block T, D&W survey. That makes it four miles southeast of Brownfield.

KING LOCATION

Ard Drilling Co. and Stanolind Oil and Gas Co. staked location for a 5,000 foot wildcat in northeast King County, which will be drilled as No. 10 R. B. Masterson.

Projected depth is calculated to take the explorer into the Canyon the upper Strawn.

Exact location is 660 feet from south and east lines of section 39, F. T. Knott survey, one and one half miles northwest of the J-Y Canyon field discovery.

DRILL IN STONEWALL

Skelly Oil Co. No. 1 William Flowers will be drilled in South Central Stonewall County five miles southeast of Aspermont.

It is to be drilled as that company's No. 1 William Flowers, 467 feet from north and east lines of section 54, block D, H&TC survey.

The No. 1 Flowers is projected to go to around 6,500 feet to explore the Ellenburger.

NEW DISCOVERY

Magnolia Petroleum Co. No. 1 H. F. Timmerman, Central West Midland County wildcat, 11 and ½ miles south and slightly west of the city of Midland has been completed as a new discovery from the Pennsylvanian lime through perforations at 10,440-485 feet, natural, for a 24 hour flowing potential of 400-29 barrels of oil.

Gravity of the petroleum is 44.2 degrees. The flow was through a 28-64-inch tubing choke. Gas-oil ratio was 1,770-1.

Shakeout was .5 of one per cent basic sediment. There was no formation water flowing tubing pressure was from 690 to 500 pounds and there was no pressure on the casing.

This new discovery is to be put on regular production as a new field producer.

The well drilled to a total of 13,030 feet in a mixture of Joins and Ellenburger dolomite. It did not find any possibilities of production in that formation.

It logged some slight shows of petroleum in the Montoya and in the Devonian. However, it flowed oil on a drillstem test in the Pennsylvanian while being drilled and operator elected to try to complete in that zone.

Location is 660 feet from north and east lines of section 8, block 40, T-3-S, T&P survey. It is two and one quarter miles south and slightly east of the opener of the Parks-Ellenburger field.

Slight Injury In Car Train Crash Yesterday

Aminor train-car crash at the Santa Fe railroad tracks and Avenue S yesterday resulted in slight injuries to the driver of the car, police reported.

A. W. Knight, 39, was taken to Snyder Hospital where he was released after treatment for injuries.

Trailer House Burns

Fire yesterday destroyed a trailer house and its contents at the Birdwell Trailer Court just west of where a small child recently died in a trailer house fire. The fire which occurred on Twenty-fourth Street in West Snyder about 3:30 yesterday afternoon was believed to have been caused by a short in its wiring, firemen said. One fire truck and three volunteer fire men reported to the scene, but arrived too late to save the house.

Rent Controls Alone Doubtful

By BARNEY LIVINGSTONE
(By The Associated Press)

WASHINGTON, Dec. 6.—A coalition of House Republicans and southern Democrats threatened today to stymie rent control extension unless general wage and price curbs are imposed.

Teamed up in the House Rules Committee, Dixie and GOP members tossed a monkey wrench into plans of House leaders to bring a 90-day extension of federal rent controls to a vote and probable passage today.

NOT CLEARED

Voting 6 to 5, the Rules Committee late yesterday refused—for the moment, anyway—to clear the bill for House consideration. Some southern members took a stand for total mobilization of the nation's economy.

Rep. Colmer (D-Miss) called for "complete controls on everything," and suggested Congress make it mandatory that President Truman invoke them, he now his discretionary powers to put controls into effect.

Colmer was joined by Rep. Cox (D-Ga), another rules committee member, who argued that if rent controls are necessary price-wage controls are too.

Dunlap's DECEMBER DIVIDEND DAYS

The Store of Christmas Enchantment

We invite you to share in this Two-Day Event — It will pay dividend savings for you to shop Dunlap's Friday and Saturday.

Ladies' COATS

One Group Only Ladies Winter Coats. Broken Lots and Sizes, but good representation. All wool fabrics in box and belted styles.

$27.95

COTTON PRINTS

An excellent selection of winter patterns in 36-inch cotton prints.

39c yd.

Wool FLANNEL

Warm wool flannel in solid colors and stripes. A real cold weather dividend buy

$2 yd.

Ladies' DRESSES

Only forty-five ladies' dresses in the group, so we advise you to be early for your dress. Not all sizes but every dress a value.

$9.95

Men's SWEAT SHIRTS

For you men who have to be out-of-doors on cold days. We offer these heavy cotton sweat shirts.

$1.49
