Business Population In Aransas County Climbs 5.4 Per Cent

Hall Clark, manager of the San Antonio office of Dun & Bradstreet, Inc., announced statement requests were mailed to 117 businesses in Aransas County. He said figures obtained from a physical count of the Dun & Bradstreet Reference Book for January, 1963 totaled 117 manufacturers, wholesalers, and retailers in this area, as compared with 111 in 1962—an increase of 5.4 per cent for the period.

Mr. Clark stated that during January business concerns in all parts of the United States are asked by Dun & Bradstreet for copies of their financial statements. This year requests are being sent to approximately three million business concerns—the corner grocery store worth a few thousand dollars as well as to businesses worth millions.

ARANSAS CHILD RULING REVERSED

Mrs. Margie Bolding Coates of Aransas County lost a six-year custody fight over her son, John Fleetwood Ogletree, Wednesday when the Texas Supreme Court upheld the custody rights granted her exhusband by an Alabama court and overruled three Texas courts.

An Alabama district court in 1957 awarded custody of the boy to his father, John Fleetwood Ogletree, who now lives in Houston, with instructions that the mother could keep the boy two months each summer and both parents would have reasonable visitation.

Following her marriage to Ernest Warner Coates, the mother won a permanent custody in a Harris County court of domestic relations. And then she took the son to her home in Aransas County in June, 1961, and refused to give him up. An Aransas County district court and a state and appeals court both upheld the Harris County ruling.

The Supreme Court backed the Alabama custody award, and Chief Justice Robert Calvert noted that no motions for rehearing will be entertained.

TIME FOR FOURTH QUARTER TAX ESTIMATES TO BE FILED

Deadline for paying the final installment on estimated federal income tax returns for 1962 is Tuesday, Jan. 15, 1963, Robert J. Kintner, administrative officer of Internal Revenue Service in Corpus Christi, reminded taxpayers today.

"If you have previously filed an estimated return and events occurring in the last quarter of 1962 indicate that your income will be substantially more or less than your original estimate, you should file an amended declaration on Jan. 15," he said.

This declaration, he added, should be marked "amended" and filed with the same District Director of Internal Revenue who received the original declaration. A blank amended declaration is printed on the back of the notice of payment due which the taxpayer received by mail.

The IRS representative said an original declaration of estimated tax for the year 1962 should be filed by Jan. 15 on Form 1040ES by taxpayers who first became liable for filing an estimate during the fourth quarter of 1962.

He continued: "There's one exception to these rules. If the taxpayer finds it necessary to file an amended declaration on Jan. 15, or if he becomes liable for filing on Jan. 15, he need not file or pay on that date if he files his final return for 1962 and pays in full the balance of tax he owes on or before Feb. 1, 1963.

"Many questions about your estimate or your tax return can be answered by telephoning the local IRS office," he advised.

Girl Scouts Receive Gift, To Stage Fund Drive This Month

Title to the Girl Scout Little House and the property on which it stands has been given to the Rockport-Fulton Girl Scout Neighborhood Organization by local oil man and real estate operator, Emory M. Spencer.

Trustees of the organization are Chester Johnson, John M. McDavid and Floyd Smith, all of whom have been closely identified with youth activities in this area for many years.

The Little House property has been used for a number of years by the organization through the courtesy of Spencer and his wife, but only within the last few days has it been formally transferred to the organization.

The building has about 2300 square feet of floor space, and stands on some three acres of landscaped grounds, and is used for an year round training program.

Spencer and his wife have been donors of other aid to the Girl Scouts and to the Episcopal Church.

They granted some twenty acres on the shores of Copano Bay, lease free, to the Whopping Crane Council of the Girl Scouts for twenty years. There the organization has constructed Copano Girl Scout Camp, consisting of dormitories, a dining and recreation hall, as well as wharf facilities on the bay.

The Council, which embraces San Patricio, Aransas and Refugio counties, now has girls from all these counties taking part in its activities. One hundred and twenty-five of these are from Aransas County alone, and estimates place the number of girls eligible for this work while training at some 500 in Aransas County alone.

The facilities at both spots are now valued at more than \$65,000, and offer the scouting program a chance to expand and to implement other activities.

In order to maintain and supply materials for the future of the program, the local group will conduct a fund-raising program, asking for some \$1200. Figured on the potential of 500 girls, this would make the cost of the program only \$2.40 per individual.

This is the first Girl Scout fund raising drive in some three years, and sponsors of the group are hoping for a good response to the plea for donations which will be made during the week of Jan. 21-26. Anyone not contacted is asked to mail their contribution to "Girl Scouts, P. O. Box 1059, Rockport, Texas."

FISHY STORY—Grigori Khokhlov threw his line overboard from his car, which he designed himself. The amphibious car, which will travel over the rough roads in Novosibirsk, in Siberia, and which will also take to the water has a motor which runs the four-wheel drive and propeller. This photograph is from an official Soviet source.

Mrs. R. R. Rice Is Co-Author Of Scientific Paper

Mrs. R. R. Rice of Rockport is a living example of a person who started a hobby and became so good at it that she is now counted an authority on the shells of the Gulf of Mexico.

Mrs. Rice, a little over ten years ago, began to collect shells in the vicinity and, dissatisfied with what she knew, studied so hard under men like Dr. Clench at Harvard University and similar conchologists that her knowledge is sought by others less expert than herself.

In the November, 1962 issue of the "Publications of the Marine Institute of Marine Science, of the University of Texas, she is joint author of a scientific paper on the "Mollusks of the Alacran Reef, Campeche Bank, Mexico."

The work was supported by a grant from the National Science Foundation for the study of the bio-ecology of the Alacran Reef, carried on by a crew of scientists, of which Dr. L. S. Kornicker was principal investigator.

Dr. Kornicker, co-author with Mrs. Rice, aided her in classifying and describing some 90 species of marine snails and 40 species of bivalve mollusks collected on the reef, to aid in a further study of the Campeche Bank.

The study was co-sponsored by the Instituto de Geologia, Mexico, under the leadership of Dr. Guillermo P. Salas, director.

In the foreword to the systematic portion of the paper, Alacran Reef is described as a shelf atoll, situated about 70 miles north of the Yucatan peninsula, and the largest reef on the Campeche Bank, a carbonate shelf extending about 175 miles into the Gulf of Mexico.

The paper describes mollusks collected on and in the immediate vicinity of the Alacran Reef, and is designed to facilitate identification of mollusks by investigators of the biology of the Campeche Bank. On this bank, the authors say, many geological and biological investigations may be expected within the next few years, because of its similarity to geological carbonate beds, and because of the relatively few carbonate areas in today's seas.

In general, Mrs. Rice and Kornicker say, the mollusks of Alacran Reef are similar to those of the West Indies, the Florida keys, and some areas off the east coast of Mexico, though differing considerably from the molluscan communities along the Texas coast.

SCHOOL DISTRICT CENSUS UNDERWAY

The annual nose-count of Aransas County pre-school and school children is underway, with Mr. and Mrs. Fred Diederich conducting the census.

The census takers will call on every home in the county, collecting information on all pre-school children, gathering data that is of great use to school officials in planning of the 1963-64 school session.

The enumerators need to know the full name, birthday, grade and any physical handicaps of the children, plus the full names of parents, and where they were living Feb. 1, 1962.

Results of the census will be tabulated and reports sent to the state department of education in which certain state school support will be based.

An increase in school population is expected.

BISHOP EVERETT JONES TO BE AT ST. PETER'S AFTER POSTPONEMENT

The Rt. Rev. Everett H. Jones, D.D., Episcopal Bishop of the Diocese of West Texas, was prevented by sickness from coming to Rockport last Sunday. However, he is due at St. Peter's this Sunday, Jan. 13, to administer the Sacramental Rite of Confirmation, to celebrate Holy Communion, and to deliver the sermon.

The service will be held at 9 a.m.

Historical Survey Committee Appointed

The appointment of a County Historical Survey Committee was announced today by County Judge John D. Wendell.

Members of the Aransas County Historical Survey Committee selected for a two year term are: J. L. Baughman, Mrs. W. B. Allen, Mrs. E. J. Johnson, Vernon Kley-pas, Miss Iris Sorenson, Rockport.

Governor-elect John Connally has designated Jan. 19 as Texas Historical Preservation Day. On this date all new County Historical Survey Committees are to meet on call of the County Judges to elect officers, appoint subcommittees and formulate plans for the year's work.

"The Texas State Historical Survey Committee is happy to have Aransas County included in the more than 240 counties actively working toward the goal of historical preservation," said Dr. Rupert N. Richardson of Abilene, president of the State Committee. "The committee wishes to thank Judge Wendell for appointing a Historical Survey Committee in this county."

Dr. Richardson pointed out that every county has a unique history, and Aransas County is no exception. The County Committee will be concerned with historic buildings, museum pieces, markers and records of the county.

The Texas State Historical Survey Committee works to coordinate the historical preservation work accomplished on the local level with programs carried on the state level. Currently County Historical Survey Committees are locating and marking graves of Civil War Veterans and sponsoring Historical Building Medallions to be placed on historic structures.

Nelson's Trial In Hall Murder Due on Jan. 28

John W. Nelson Jr., indicted on a charge of murder with malice in connection with the death of Horace R. Hall last Sept. 8, will be placed on trial Jan. 28, according to the calendar of Judge John H. Miller's 36th Judicial District Court.

Judge Miller will preside at the trial, scheduled to be conducted here.

The fatal shooting, in which the 54 year old Hall was killed by shots fired from Nelson's pistol, occurred at the Holiday Club at Conn Brown Harbor, which is in that part of Aransas County.

Nelson, 41-year-old Aransas Pass shrimp buyer and broker, and Hall—who was also a familiar figure on the harbor waterfront—were known to have had a long standing quarrel. After the shooting Nelson surrendered to Aransas Pass Police Chief F. N. Turnbough.

Aransas County Sheriff Arlie Shivers, who was expected to be a leading prosecution witness, has died in the meantime.

Nelson has been at liberty on \$5,000 bond.

COUNTY TAX DEADLINE COMING UP SOON, SAYS MRS. MARGARET WEBER

Chosen As One of Few To Contribute To Best School Practices Yearbook

Aransas County Schools have been selected as one of a hundred to contribute to the "Best School Practices Yearbook" for 1963, according to T. E. Dannelly, director of instruction.

This Yearbook is published by the West Texas School Study Council and Texas Technological College of Lubbock, and is based on a cooperative research program that provides for interchange of information on good school practices.

Dannelly, prepared the local report, assisted by R. D. Segler, local director of physical education, and describes the physical education program here as outstanding.

Member of Fulton Family Killed In Hallettsville Wreck

Mrs. Olenda Beaman, 75, a member of the Fulton family and well-known among older Rockport and Fulton residents, died in a Hallettsville hospital Sunday, after she lost control of her car, which ran down a 16-foot creek embankment, struck a large tree and then overturned.

Mrs. Beaman died of head injuries, and her husband, Corpus Christi accountant Reuben J. Beaman, former owner of Holiday Lodge, on Highway 35, just north of Rockport, died at 8:35 Monday in Ranger Memorial Hospital in Hallettsville.

The accident occurred at 1:40 p.m., 5.5 miles south of Hallettsville, on U. S. Highway 77, as the Beamans were en route to Memphis, Tenn., from Corpus Christi, where they have lived for many years.

Highway patrolman Richard Krause and Wilbert Horstmann of Hallettsville, said marks on the highway indicated that the car first went off the right shoulder of the highway. They said Mrs. Beaman apparently became excited in an attempt to get back on the highway proper and stepped on the accelerator rather than the brake.

The 1956 model sedan continued back across to the left side of the pavement and just before reaching a creek bridge, went down the embankment, crashed through a barbed wire fence, narrowly missed one tree, and then struck another, before overturning.

The car came to rest 150 yards from the point it left the roadway, and near the edge of the water-filled creek. Mrs. Beaman was thrown 20 feet from the wrecked car and her husband was pulled from the rear seat by Kubena Funeral Home ambulance attendants.

Beaman, a certified public accountant, was going to Memphis, Tenn., to audit books there.

Mrs. Beaman was a member of the Daughters of the American Revolution and Daughters of the Republic of Texas. She was a member of the Fulton family, which settled in Fulton.

Beaman had practiced as a CPA since 1914. He held accounting certificates in Ohio, Tennessee and Texas. He was a member of the American Institute of CPAs, the Texas Society of CPAs and the Corpus Christi chapter of Certified Public Accountants.

The Beamans are survived by a daughter, Mrs. Edward Scull of San Marcos; a son, Reuben Jr. of Cincinnati, Ohio and five grandchildren.

She is survived by a sister, Miss Nana Holden of Corpus Christi.

Beaman is survived by six sisters, Mrs. Rachael Williams of Phoenix, Ariz., Miss Mary Beaman, Mrs. Lusanna Ward, Miss Susan Beaman and Miss Alice Beaman all of Sidney, Ohio, and Mrs. Mildred Potts of Gibsonburg, Ohio, and a brother, James A. of Phoenix.

The family requests that contributions be made to favorite charities, in lieu of flowers.

Funeral services were at 2 p.m. Wednesday at Maxwell P. Dunne Funeral Chapel in Corpus Christi. The Rev. Wendell Bell pastor of the First Methodist Church at Garwood, officiated. Graveside services were at 4 p.m. at the Fulton Cemetery at Fulton.

METHODIST MEN TO HAVE PANCAKE SUPPER JANUARY 19

The Men of the Methodist Church have scheduled a pancake supper for Saturday night, Jan. 19, starting at 7:30 o'clock. Proceeds will go to support the men's projects. Everyone is invited.

standing. The program includes grades 1 through 12 and has been developed during the past ten years.

Among other things, the report points out that when President Kennedy's Council on Youth Fitness made its report in 1961, the local program already included all phases recommended by the Council.

The major objective of the junior high school plan in local schools are physical fitness, social efficiency, and development of a fuller understanding and appreciation of the student's local environment as well as the environment which is world-wide in its scope.

Through physical education activities under qualified leadership, and through study of and participation in dances, games and sports, these aims are developed in the students.

A more and varied program is offered at the high school level, the Dannelly-Segler report states. Students are required to take two years of physical education, and may elect to take it for two more years. At the higher levels, students have an opportunity to elect those activities which are of greatest interest to them, while maintaining skills in other areas.

Health education is an integral part of the program. It provides an opportunity for students to develop attitudes and practices that will contribute to personnel and community health.

As part of the program extensive testing is carried on. This includes physical fitness tests at the beginning of each year, begun at the fourth grade level and continued through high school. Results of these tests become part of the student's school record.

The physical education program is considered a vital part of the school as the knowledge, skills and attitudes developed are felt to be an important in progress of the students, the report states.

CPL Announces Expansion Plan

Central Power and Light Company today announced plans for a \$13,000,000 expansion of its Bay Power Station, which will more than triple the capacity of the plant located on the Corpus Christi ship channel. The project was approved at a meeting of the CPL board of directors in Corpus Christi.

E. S. Joslin, CPL vice president and general manager, said the power company had placed an order with the General Electric Company for a 175,000-kilowatt turbo-generator to be installed at Nueces Bay plant.

Construction work on the project will begin late this year, with the new addition scheduled to begin production in early 1965.

Joslin said the firm's decision to go ahead with an expansion of the plant was based on anticipated growth and increased use of electricity in Corpus Christi and the coastal area. He described the new plant addition as part of a \$60,000,000 expansion program the company has planned throughout South Texas for the next three years.

STATE DRAFT BOARD

QUOTA 173 FOR FEBRUARY
The state quota for Texas draft boards in February calls for 173 men, Col. Morris S. Schwartz, state Selective Service director, announced Tuesday in Austin.

The state's February call of 173 compares with a quota of 163 for January and 235 for December. The February call is the state's share of a national quota of 4,000 men, all for the Army.

Col. Schwartz also announced that local boards would send 1,450 men for pre-induction physical and mental examinations.

Local board quotas for the February call already have been figured and sent to the state's 137 local boards.

The February quota will be filled with men who are at least 22 year old on February 1, except volunteers and those legally termed delinquent under the draft law, who may be younger.

NAVY DOWNS THE AIR FORCE BY ONE POINT

In a hard-fought basketball game on the night of Jan. 2, The all-star team of Corpus Christi Naval Air Station downed the Rockport Air Force Station "Golden Eagles" by a score of 48 to 47.

The Navy went ahead in the first quarter by 15 points but were trailing by seven points at the half. They came back in the second half to lead by three points.

In the final seconds, Rockport scored two points to lose by one. The Eagles were led by Don Isom, with a total of 39 points. Burns led the Navy with 17 points.

The Eagles will go into the 32nd Air Division tournament, on Jan. 22, with high hopes. Competition has been rough on the Eagles, as they have constantly played against teams which have greater reserve and more choice of players.

In the tournament, they will be pitted against AC&W Squadron, which have equal choice of talent.

TRAINING HUNTING PUPS

If you can't afford the services of a professional dog trainer and want to do the job yourself, remember these important rules in dog training:

Don't start training until pup is 8 weeks old, except for house-keeping and other simple behavior lessons.

Teach commands only as fast as the pup can absorb them. Quit the lesson the instant the pup stops wagging his tail.

DRINKING CUP FOR DOG

Quail and coon hunters in Texas often run into hot weather that make it necessary to take along water for the dogs.

Remember to also carry with you some heavy aluminum foil to quickly shape up a drinking vessel for the pooch when he gets thirsty.

Mrs. George R. Clark, cousin of Les and Lorna Sontag, who has been visiting them during the holidays, returned to her home in Seattle, Wash. Tuesday.

JUST KIDS — Gay Bishop's two little buddies are just babies, yet they enjoy a friendly get-together, especially when it's dinner. Peter the bunny, nibbles a hickory nut, while Willy, the squirrel, sips milk from a doll's bottle. They live in Austintown, Ohio.

TRACING FALLEN GAME

Much game is lost due to high weeds and other rough terrain.

To lessen this trouble, when you shoot a bird, squirrel, etc., mark a two-foot line with your boot at once pointing toward the spot where the game fell.

Do this each time you down your game and you won't have to go after each kill as it falls. You can finish your shooting, then pick up your game at your leisure.

ALIENS MUST REGISTER AGAIN

Charles J. Beechie, district director of the Port Isabel district of the Immigration and Naturalization Service, advised today that the annual alien address report program is again under way.

The Immigration official pointed out that the address reports are required by law and willful failure to comply with these requirements may lead to serious consequences.

Forms with which to make the reports are available at all Post Offices and Immigration and Naturalization Service Offices. It is an easy matter to fill out one of the cards and return it to the same office.

Mr. Beechie added that trained personnel will be on hand in all offices of the Immigration and Naturalization Service to answer any questions the reporting aliens may have regarding immigration and naturalization matters. Sufficient trained personnel are not available to furnish this assistance in all Post Offices.

Mr. Beechie further pointed out that information furnished by an alien in making his annual address reports to the Government is confidential. It has, he said, been declared confidential by statute.

READY WHEN YOU NEED IT

You don't need an umbrella very often, but it comes in handy when it rains.

Your gas company provides an "umbrella" too, in the extra capacity to deliver up to TEN TIMES the normal gas load to Rockport and Fulton homes. This full capacity may be used only once in two to three years, but isn't it a comfort to know that there'll always be plenty of gas to heat your home no matter how low the temperature drops.

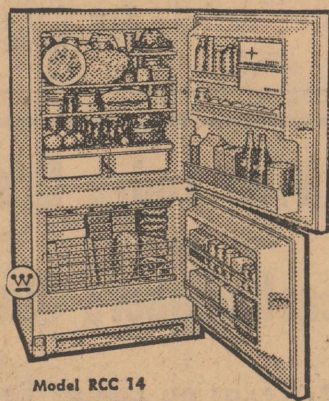

Not only do we extend and improve our lines to serve more customers better, as we did last summer, but we even have a "stand-by" line from the gas fields which we can use in case of emergencies.

Aransas Natural's job is to deliver you all the gas you need, whenever you need it. So you can depend on us to keep you warm this winter.

FORMER ROCKPORT RESIDENT FALFURRIAS' MAN OF YEAR

A former Rockport citizen, Ed Rachal—has been selected as Falfurrias' "Man of the Year" for 1962.

The pioneer cattleman was honored at the annual meeting for this event of the Business and Professional Women's Club of Falfurrias and received a framed plaque.

Rachal, born at Rockport, was reared in Portland and, in 1893 went up the trail to Oklahoma with a cattle drive, remaining in the state for seven years. From Oklahoma, he moved to Cotulla and then to Alice, where he worked for his cousin, the late Frank Rachal, who was long a prominent cattleman in that area. He also worked as a ranch hand on the Santa Rosa Ranch.

Rachal has resided in Falfurrias since 1903. In 1904 he and his brother started a grocery store there, but they later sold this and went into the cattle business. Among other civic gestures, he donated the Falfurrias Roping Club's present arena grounds and an addition to the cemetery in that city.
