Rodeo Sign Needed

Last Friday night, sometime after the rodeo, the Barq's AJRA Rodeo sign was stolen. This sign was not for our rodeo only. It was to be used in different cities throughout Texas. It was to have been used in Big Spring this last weekend and the citizens there were very disappointed to not have it.

If you have the sign or know where it is, please come by the Chamber office. No one will be punished for taking the sign, we would just like to have it back.

Swimming Lessons

A new session of swimming lessons will be offered beginning August 2 and Susan Anderson will be the instructor.

Cost of the lessons will be from $20 to $25, depending on the number of enrollment. For more information, phone Mrs. Anderson at 728-5720 in the afternoons.

Painting Exhibited

A painting of Diane Gregory, 1982 AJRA Rodeo Queen, will be exhibited through July 19 in the Colorado City Savings and Loan lobby.

Dick Powell, local artist, painted the portrait of Miss Gregory.

Pictures Available

The Colorado City RECORD has once again cleaned the picture file cabinet and is offering these photos for a nominal 25 cents each.

Persons may come and browse through the box of pictures and they will be sold on a first come basis.

Grand Jury Returns Four Indictments

The Mitchell County grand jury met Wednesday and returned four indictments against three persons in a short meeting session.

Welvin Edward Ross, 27, of 1104 College Street, Colorado City was indicted on charges of attempted rape when the grand jury met in session Wednesday.

The charges stemmed from an incident that allegedly occurred June 5 in the 600 block of 6th Street.

Gary Upshaw received two indictments from the grand jury, one charge of theft on an incident occurring May 11 and the second indictment was for burglary of a habitation that allegedly occurred May 13.

Upshaw is 33 years old and resides at 265 New Street in Colorado City.

The final indictment was handed down to Virgil Thomas Wood, 71, of Box 155, Westbrook on charges of DWI.

The subsequent offense allegedly occurred June 19 and the original offense was on August 18, 1975.

Bids Head List On CISD Agenda

Among the items to be presented at the CISD Board meeting tonight at 7 p.m., in the Administration Curriculum Center Board Room is the 1983 Mitchell County Appraisal District and the budget calendar.

Also on the agenda are the acceptance of a leave of absence, a resignation, appointments, and school board policies.

Bids on an air conditioning-heating system, truck, and sale of three buses will be opened.

There will be a report on storm damage, the Wallace Center, and annual evaluation of the TEA Five Year Priorities Plan.

Members of the Board of Trustees are S. L. (Mac) Morris, president, Eddie Piland, vice president, Edward Roach, secretary, Monte Jones, Joe Kirschbaum, Pat Thomas and Billy B. Bridgford.

Playdays Cancelled At Wallace

Playdays, a summer program for youth at the Wallace Community Center, has been cancelled due to lack of help, announced Vickie Rees, secretary.

She said they had planned to have the playdays every Wednesday throughout July, but they are unable to continue the project.

Disaster Relief Threatened

Crop Insurance Questioned

Would disaster relief to Mitchell County farmers discourage them from buying federal crop insurance?

"I don't think it would have anything to do with it," one farmer said, "because this situation we're in right now is a terrible disaster and the crop insurance is designed to handle normal crop situations year after year."

The disaster in question is severe damage to cotton crops throughout a widespread area of West Texas over the High Plains and Rolling Plains. It could be declared an economic disaster by Secretary of Agriculture John Block and farmers affected by the disaster could be aided by disaster payments administered through the Agriculture Stabilization and Conservation Service (ASCS).

Farmers who have the insurance here are not happy with the way it works and the ones who were interviewed by the RECORD have said that they will not buy the insurance for another year.

But that decision might be too hasty, as proponents of the crop insurance point out that it's a management tool which should be utilized and that it will pay off year after year.

"This is the only money put into a crop that you know you'll get back," said Dottie Sampley, District Director for the Federal Crop Insurance Corporation, whose office is in Big Spring.

She pointed out that you pay for your seed, chemicals, fuel, equipment and so forth, and "this is the only thing I know of that will guarantee you a nickle back. It's an expense just like Treflan."

There are some changes which need to be made in the program for Mitchell County farmers to be happy with it and Sampley said that both she and Field Supervisor Carl Nunn of China Grove are aware of them.

Hard to understand, too much paperwork and redtape, not set up for cotton, too many loopholes, not working as well as it was expected to–all of these drawbacks were pointed out.

But on the positive side are these: premiums are tax deductible and not due until harvest; premiums are reduced by five percent next year if no loss is reported and will eventually, over a five-year period, be cut in half; over 200 kinds of losses are reported for cotton, including insurance against low grades and low production; and most important, use of the insurance might keep a farmer from going bankrupt, especially if he is not a landowner.

There has been some in fighting in the USDA in the last few days over this issue and if lines are drawn squarely with disaster payments to farmers on one side vs. FCIC insurance on the other side, the farmer will be the loser because there is room for both of these plans to work and to work to the advantage of everyone, not just farmers.

"We don't want to give the impression that the government will always bail out the farmer," said Dave Lane, press aide to Sec. Block. "Do we give relief to those who have been hurt by the disaster or do we show faith in the farmers who entered the crop insurance program?"

FCIC's Sampley said that she does not see the issue that way, but rather the insurance is for year to year operation and such widespread disaster as the area has recently experienced is more of a one time event.

"If disaster payments are made to all farmers, fine. But if the disaster payments are made to all but the ones with insurance, then that would be discrimnatory and would not be acceptable," she said.

Use of the insurance for crops is something new to cotton farmers, although FCIC insurance is not new; it has been available since 1942.

Since it is new, many farmers do not understand the way it works and Bob Reily, local insurance man who sells the FCIC insurance, said, "I don't think they were ready for this," talking about the natural disaster brought on by hail, wind and flooding.

Of course, someone said that you naturally would rather have something for nothing than to have to pay for it. Crop insurance premiums are figured on the basis of yield and coverage desired and then payments are made in three phases,

Program Begun By CCPD

The Colorado City Police Department has begun a new program to "assist in the prevention of crime and to keep our community a safe place to live," according to Chief of Police Ed Wheat.

Since this is the season for trips and vacations, many residents will be leaving their homes unoccupied while away and due to the increased number of house burglaries the CCPD has established a free "housewatch" program to protect your home while you are away.

Anyone wishing to utilize this special service, whether you are going to be gone a week or a day just need to contact the police department leaving their name, address, phone number and address of where they can be reached in case an emergency should arise.

Chief Wheat requested that the citizen advise the department of any pets, if there will be any lights left burning and if anyone else will be checking on your house and if so what kind of vehicle they will be driving.

"This will keep us from embarrassment in possibly arresting the wrong person," said Chief Wheat. Also, the citizen should leave a house key with a trusted neighbor for cases of an emergency such as a fire. The citizen should also immediately advise the department upon their return so the police can discontinue the "housewatch."

Chief Wheat concluded, "This is a public service and is free. It's nice to know that while you're away, your house and everything in it is protected."

The CCPD will also be available at citizens' request to provide other free Crime Prevention Programs.

For further information, contact the CCPD at 728-5294.

Chamber Grosses $31,705 From Local AJRA Rodeo

The Colorado City Area Chamber of Commerce grossed $31,705 from the AJRA Rodeo, according to Linda McCombs, chamber secretary.

The four-day event ended Saturday night July 3.

Mrs. McCombs gave the following breakdown on the revenue received: $17,769 in entry and office fees from the contestants, $4,062 in advance ticket sales, $4,017 in gate ticket sale, $3,387.67 in concession stand sale and $2,470 for ads in the rodeo program.

"A definite figure to exactly what the Chamber cleared will not be available until all the expenses are taken out," added Mrs. McCombs.

Squirrely Northcutt, coordinator of the AJRA Rodeo, announced that out of the $17,769 in entry and office fees from the contestants, cash prizes in the amount of $12,710 were awarded to the winning contestants.

Northcutt said $2,340 stock fees were paid to the Chamber of Commerce. AJRA and the Chamber office split the office fees, giving them $1,125 each.

Some office fees were paid out to a few drawout contestants, but their entry fee kept, he added.

Lynn Bradbury of Colorado City received $112.60 for his first and sixth place ties in the rodeo.

Board Accepts Contract

The Mitchell County Tax Appraisal District Board members met for one more brief meeting to review a proposed contract with Prichard and Abbott for appraisal work over the next two years.

Wilson Hunt, with the firm in Fort Worth, agreed to strike the escalation clause from the contract.

The board accepted the contract following the deletion of the clause during the 14 minute meeting held in the CISD Administration office.

Monthly Meeting For County

The Mitchell County Commissioners Court will meet in regular session today at 1 p.m., in the County Courthouse to discuss several items, including the vacancy in the Precinct 1 Justice of the Peace office.

Other actions to be taken are the approval of the Appraisal District's 1983 budget, the setting of a date for a budget workshop, and the opening of bids for two tractors and a typewriter.

Also at this meeting, election judges will be appointed and a request for a lease for county owned oil interests will be considered.

Beloved Citizen Dies Suddenly

Lottie Dawson

Lottie Dawson, 72, a well-known and much loved citizen of Colorado City for many years, died suddenly in her home at 4:30 p.m., Wednesday afternoon.

Born Lottie Butler on January 18, 1910 in Smith County, she married Willie Dawson in 1943 in Aken, S.C.

Mrs. Dawson worked as a cook on many farms and ranches in earlier years, including those of J. W. Watson, near Iatan, and Mr. and Mrs. Ross Daniels. Later, she and her husband built and ran the Dawson Hotel that was located behind the Mobil Station on 2nd Street and she cooked at the cafe adjoining the hotel.

Very active in church matters, Mrs. Dawson was a charter member of the College and Dallas Church of Christ. She has been characterized as an excellent organizer who saw what needed to be done and made sure it was taken care of. She also distributed clothing to those in need.

For the last several years, Mrs. Dawson worked at the Civic Center, where many people were able to enjoy her superb cooking. Her chicken and dumplings have been described as "the best anyone ever tasted."

Mrs. Margaret Oyler, for whom Mrs. Dawson worked at the Civic Center, said sadly, "Those who never knew Lottie will never know what they missed."

Funeral services were at 2 p.m. Sunday in the College and Dallas Church of Christ with Gary Dennis, of the 22nd & Austin Church of Christ, officiating. Burial was in the Mitchell County Cemetery under the direction of Kiker-Seale Funeral Home.

She is survived by her husband; a son, J. C. Dilworth of Colorado City; a sister, Mary Dirken of Compton, Calif., and two brothers, Joe Butler of Los Angeles, Calif., and Ray Butler of Dallas.

Cactus Cafe Spotlighted At Folklife Festival

"West Texas hospitality" and chicken fried steak, "the national food of Texas," will be offered at the Cactus Cafe of Colorado City to Texas Folklife Festival visitors.

The Texas Folklife Festival is a truly unique celebration of Texas history, with emphasis on the state's ethnic diversity and cultural traditions. Some 6,000 participants will gather on the grounds of The University of Texas Institute of Texan Cultures in San Antonio August 5 through 8. They share with the more than 100,000 visitors their ethnic and folk entertainment, crafts, music, food and games.

Under the direction of the Rev. Monte Jones, the Cactus Cafe (run by the women of all Saints' Church in Colorado City) is reminiscent of all small-town Texas cafes–complete with potted cacti and checkered tablecloths. Besides the old favorite chicken fried steak, the Cactus Cafe also specializes in hot puffs and honey.

At the Texas Folklife Festival, nine entertainment stages feature talented Texans dancing, making music and singing. Festival-goers are invited onto the stage to learn the steps of the Cajun "fais-do-do" or jump between two poles in the Filipino "tinikling." Visitors sing along with gospel groups in the Brush Arbor and clap their hands to the beat of a bluegrass band. More than 100 performing groups fill the stages with the music and dance of 31 different ethnic and cultural groups.

Learning pioneer crafts and skills is also an integral part of the Festival experience. Visitors are encouraged to watch and learn frontier skills, from making yarn on a spinning wheel to thatching a roof, from baking bread to quilting. There are literally hundreds of craft demonstrations to see and try in the "Back 40" area of the Festival grounds.

While enjoying the sights and sounds which fill the 15-acre Institute grounds, visitors have an opportunity to try food from around the world. Of the 36 food booths which offer some 150 different dishes, 27 of them feature ethnic cuisine such as Alsatian parisa, Wendish noodles, Greek souvlaki, German sausage and Japanese teriyaki. For the traditionalists, other booths offer barbecue, chili, chicken fried steak and strawberry shortcake.

Tickets to the Texas Folklife Festival are $5 for adults ($4.50 in advance), $1 for children under 13 and children under six get in free. For more information write The Institute of Texan Cultures, P.O. Box 1226, San Antonio, Texas, 78294, or phone (512) 226-7651.

INSURANCE

From Page 1

based upon when the disaster occurred.

Using a yield of 400 pounds as an example, the figures would look something like this:

–Stage I, from planting to blooming, coverage would be for only 150 pounds and a disaster wiping out the crop would pay $90 per acre minus about $23 for premiums leaving about $67 per acre.

–Stage II, after blooming to opening, coverage would be for 225 pounds but a disaster would pay $135 per acre, less $23, leaving $112 per acre.

–Stage III, 300 pounds of yield would be 75 per cent of the total of 400 pounds, all that's insurable, and of that, at least 20 percent must be harvested to be eligible for payment and then that 20 percent would be deducted from the payment.

Farmers in Mitchell County who have the insurance are not happy with it.

"This is the third time I've planted," said Floyd Lee Ritchey. "After I got wiped out I replanted but in the blanks and that's not insurable so I just finished replanting for the third time, right in the row."

Besides being hard to understand the regulations, Ritchey said that he was disappointed in the payment he might receive.

"Looks like it should pay closer to the cost of production, because the way it's figured, an early season loss cuts you down too much on what you can collect," he said.

Darrell Carpenter said that this is the second year he's had the insurance and he doesn't think it does what it is advertized it will do. He lost 150 row acres hailed out and has replanted because he had broadcast Treflan and there's no market for sunflowers.

"Your biggest expense is now, so if you could get some money back, then you could keep going," Carpenter said.

"Too many rules and regulations" and "a bunch of paperwork" were the main things Donnie Dunn had to say about the insurance. He lost 325 row acres of cotton and has turned in a claim because in his estimation, it's too late to plant cotton, so he's planting grain sorghum.

He says that coverage in Stage I will pay about $40 to $50 per acre and he's supposed to get his check in 30 to 40 days, "But I'll be lucky if I get it in 60 or 90, I imagine."

"I don't think they were figuring on a deal like we got into," Dunn said, talking about the weather. He added that right after the storm, he needed to get into the field to do some sandfighting because the country was blowing away, "but the way I understood it, you're not supposed to do anything until after an appraiser looks at it."

That matter was cleared up by Sampley when she explained that sandfighting or cultivating would be okay but running rotary hoes would not because some of the cotton could be destroyed by the hoes.

"We have to wait seven days after a hailstorm" she said, saying that cotton will recover a lot in seven days, and then the appraisal is made.

Dunn said that's what happened at his farm but it was about ten days before he could get into the field after filling out some papers.

"I didn't understand it and still don't," he said. "It's too expensive for what you get back."

As a risk management tool, the insurance is useful, according to David Marion, County Supervisor for the Farmers Home Administration here.

"Each individual has different financial circumstances," Marion said, "So each case is handled differently, but some of the FmHA customers are urged to buy the all-risk insurance so that they can make some payment if a total disaster wipes them out."

"Now I could see at the time that the early loss part of the program was needing some help and that we'd better not get a bad loss in the early stages but that's what happened," Marion added.

Most of the people interviewed thought that changes needed to be made to the program but that these changes could be made to better suit the area cotton farmers.

Now does not seem the time to teach farmers a lesson about the wisdom of buying crop insurance, according to a statement made by John Ford, deputy assistant secretary sent by Block to survey the damage to cotton farms in the area.

Carpenter Named Second Runner-Up

Andra Carpenter

Adele Morgan, Rodeo Queen Contest chairperson, announced that an error in the point totals count for rodeo ticket sales has changed the line-up of Rodeo Queen winners. Although Diane Gregory is still Rodeo Queen and Jana Northcutt is first runner-up, the second runner-up is Andra Carpenter.

The error was discovered when the parents of one of the contestants asked for a recount. Officials found that two contestants, one of them being Linda Walker, who was originally named as first runner-up, had failed to meet the minimum requirement of $307 worth of rodeo tickets sold. Andra Carpenter sold $1,193.00.

Miss Carpenter will be given the $50 certificate, redeemable by any local merchant, that goes with the position of second runner-up.

The money each of the contestants collected for rodeo tickets is: Diane Gregory–$1,222.00, Andra Carpenter–$1,193., Jana Northcutt–$555.00, Holly Hicklin–$382.00, Naomi Mize–$307.00, Tina Tammen–$260.00 and Linda Walker–$138.

'Tax Sweetener' Good For All

There is a "tax sweetener" for nearly every working American under the dramatic new provisions championed by President Reagan in the Economic Recovery Act of 1981.

All taxpayers will benefit from the 10 percent cut in their personal income tax rate for 1982 and another 10 percent in 1983. And most wage-earners can now reduce taxes further while saving for their future by salting dollars away in an IRA or a Keogh plan.

The new tax law makes much previous estate planning obsolete. Taking a cue from Mark Twain's, "nothing is certain but death and taxes," the new law respects the inevitable and makes it possible to leave more to your survivors. For example, the new law permits an unlimited amount to be left completely tax-free to the surviving spouse.

It also permits much more to be willed tax-free to others, and it more than triples the amount you may give tax-free to any person or organization while living, thus reducing possible estate taxes.

These and other changes make it essential for every taxpayer, retired or not, to develop a realistic plan for later years, according to Clifton Fichtner, national director of the nonprofit Action for Independent Matury (AIM) in Washington, D.C.

"White collar or blue collar, everyone has an estate," he said, "and it is up to each individual to determine what happens to it."

Because the majority of Americans are living longer and healthier lives, Fichtner emphasized that everyone, especially those in midlife, should arrange assets now to assure a more rewarding future for themselves and their loved ones.

Many persons shortchange themselves by failing to do even simple estate planning, Fichtner noted and said, "You don't have to be a Rockefeller, a rich rock star or an Irish Sweepstakes winner to profit from practical estate planning.

He pointed out that planning should include matters such as possible widowhood, a second marriage, care of elderly, children's education, ownership of a business and change of residence.

The most important factor in such planning is the making of a legal will, Fichtner said and noted that a recent survey showed a majority of those earning over $25,000 did not have a valid will. When such a person dies, he said, the state in which he or she resides decides who gets what.

Palmer Stars As Opal In Upcoming Production

Coleen Palmer will once again fill the role of Opal Kronkie in "Opal is a Diamond," 17 years after her debut as Opal in "Everybody Loves Opal."

The Colorado City Playhouse production has been cast with the exception of one more truck driver, according to Joan Sorflaten, director. Mrs. Sorflaten is the drama teacher at Sweetwater High School.

Others receiving parts in the coming play are Gloria Erwin, Rosie Montefalco; James Aaron, III of Fluvanna, Mayor Hector Bissell; David Jones, Bob Royce; Leslie Jones, Mary Loden; two intruders, Doug Baum as Louie and Larry Hearn as Nick and three truck drivers, Elmer Ward as Chuck Master, Tommy Baker as Ole Hansen and Howard Nelson as Miggy.

Mrs. Sorflaten says she is excited about the play because eight of the 13 characters have never been on playhouse stage before.

Productions dates are the last two weekends in August, (19, 20, 21, 26, 27 and 28).

Greg Chaney will be the stage manager and he will be assisted by Elaine Fugate. Chaney will also work with Carl Beery Moore in set design construction and will handle the lighting.

Donnie Davenport, Tom Davenport, Charlotte Balantac and Tonja Balantac will take care of the scene shifts.

Anna Staats will be in charge of costumes, Robin Pace, props and Nancy Chaney, make-up.

Bob Reily is the production vice-president.

Palmer Named To List

Jill Palmer, of Grand Falls, formerly of Colorado City, was named to the Dean's Honor List at Sul Ross State Univernity in Alpine. She managed a cumulative grade point average of 3.4.

Criteria for eligibility includes enrollment as an undergraduate student for at least fifteen semester hours and maintaining an overall grade point average of at least 3.0.

Jill was congratulated by the Vice President of Academic Affairs.

She is the daughter of Mr. and Mrs. Lloyd Richards of Colorado City.

Farmers To Keep Watch For Insects

Area farmers have just finished sand fighting. This was followed by the replanting of fields through the end of the week. Area cotton ranges from must just emerged to a few fields with pinhead squares.

Weevil counts are still higher than normally expected during this time of the year. These weevils are the ones to watch because as the cotton begins to square, these weevils will be the ones to survive.

Traps were baited the week of June 21 and checked the week of June 28. The total amount of boll weevils caught per trap to date is .658, this count being considerably higher from last year's total of .04.

Since the cotton crop is delayed this year, protecting the first crop will be important. In a normal year, it is possible for the cotton plant to compensate for the loss from insects as the season goes along.

Farmers need to watch for the fleahoppers, especially during the first three weeks of squaring. This year the first week will be most critical.

The fleahoppers, about one-eighth inch long and pale green, damages the small square of cotton by sucking juices from it, causing it to dry up and fall off. Control measures are warranted when 25 to 30 fleahoppers per 100 plant terminals are found combined with less than 75 percent square set.

Deanna Myers, county entomologist, suggests a gentle insecticide with beneficials for treatment. Such insecticides are Dylox (R) or a low rate of Orthene (R).

Miss Myers said that bollworm egg laying should begin with a peak around July 14, with the eggs taking three to four days to hatch.

Other insect activity according to the entomologists office is an occasional aphid. A few differential grasshoppers have been seen in cotton near turnrows and bordering pastures. Grasshoppers will not be a big problem because the rains have kept the grass green in the pastures.

Richards Visits Colorado City

Candidate for State Comptroller Mike Richards stopped in Colorado City last Wednesday as part of his 13 day, 40 city campaign tour.

After talking with local merchants, Richards said the complaint he encountered most often was that businesses did not always receive fair treatment from the Comptroller's office. The cure for this problem, he stated, would be to "de-politicize that office."

Richards, currently State Senator from Harris County, stated that he is running for Comptroller because "it is essential in these times that we bring experienced, proven businessmen into government," rather than "professional politicians."

One last glimpse of some scenes in the Annual AJRA Rodeo Parade

Hobby Requests Federal Disaster Loans

Lt. Gov. Bill Hobby announced that he has asked U.S. Secretary of Agriculture John R. Block to provide federal disaster loans to farmers in the Panhandle and South Plains areas of Texas.

Hail and heavy rains have destroyed up to 75 percent of the agriculture crops in some counties in the regions, Hobby said. Most of the farmers either have no crop insurance or an inadequate amount of coverage due to the high cost, which compounds their losses, he said in the letter to Block.

"Time has dealt a further blow to these Texas farmers since it is now too late for the cotton farmers to replant cotton and must now plant grain sorghum or soybeans, neither of which have a base yield established or will be eligible for any program benefits," Hobby said.

In addition, the lieutenant governor said, many of the farmers in the Panhandle and South Plains regions already have accumulated substantial debts due to several years of low commodity prices and the ever increasing cost of agriculture production.

Hobby said that Block has the discretionary authority, under the Farm Act of 1981, to reinstate disaster loan programs. He urged the agriculture secretary to use this authority immediately to alleviate the economic emergency the farmers are facing.

Carl Graham Receives Military Promotion

Staff Sargeant Carl E. Graham, son of Mr. and Mrs. Elwood Graham of Loraine, has been selected for promotion to technical sargeant in the United States Air Force.

His wife Mammie and children, Chrystal and Brent also reside in Loraine.

Sargeant Graham was also recently selected to attend a month long Food Service Supervisor course at Ramstein Air Force Base Germany.

Sargeant Graham has completed one year of a two year tour at Rheinain Air Force Base Germany where he is currently the assistant dining hall supervisor.

Womack Hosts Club Gathering

The Fairview E.H.A. (Extension Homemakers Association), met Thursday, July 8, in the home of Mrs. Mary Womack at 108 E. 22nd St.

Mrs. Versie McMillan, president, presided. Recreation was brought by Mrs. Muriel Thurman and the roll call was answered by "Tips On Packing For Traveling."

Mrs. Edna Pace read the minutes and gave the treasurer's report.

The council report was read by Mrs. Billie Smith. Mrs. Velma Hester attended the council. The annual supper was announced for August 11.

Plans for the club's picnic were made. The place being the home of the Charlie Smiths in the Fairview Community on July 27.

Refreshments were served to members Mmes. Velma Hester, Bertie Strain, Muriel Thurman. Versie McMillan, Edna Pace, Billie Smith, the hostess and one visitor, Mrs. Bell Smith.

The program, on "vacationing in places of interest in Texas," was brought by Mrs. Mary Womack. She showed pictures of Texas, lakes and parks and told some interesting facts about them.

Center Offers Course

A basic Micro-Computer Course will be offered on Saturday, July 17, at the Wallace Center. The one-day course will be held from 9 a.m. until 4 p.m. Fee is $25.

Dr. Gene McClurg, Dean of Occupational Education at Western Texas College, will be the instructor for the class. Dr. McClurg has a Ph.D. from Texas A&M in Physics and is very qualified to teach this course.

This basic course will consist of a general understanding of the fundamentals of microcomputers. Terminology and practice with the computers will be stressed. Application of the computer to individual businesses will be discussed.

Students must pre-register by July 16. Registrations may be made by coming to the Wallace Center Community Education Office. For information, phone 728-2392.

This course is sponsored through Western Texas College.

Keeping Your Engine Cool

It's all too easy for your car to overheat if you don't know how to keep your cooling system in shape.

It's good to drain and flush the system seasonally to fight corrosion. A "reverse flush". is the most effective kind, and most service stations have the necessary equipment to handle the job.

You can have the coolest car around if your remember to clean the radiator and drain and flush the entire cooling system seasonally.

Ladies Prepare Treats

Summer Playday started at the Wallace Center Wednesday, July 7, and as youth activity is one of several national programs of the Veterans of Foreign Wars and its Ladies' Auxiliary, the local VFW Post 9178 and its Ladies' Auxiliary provided 12 dozen homemade cookies and punch as refreshments for snacks after lunch for the children and workers enrolled in the program.

Representing the Post and Auxiliary were Lenox Mosley, Post Youth Activity Chairman, Virgie Mosley, Ann Ingram and Mary Bell.

Rate Hike Is Requested

Lone Star Gas Co. Manager B. L. Swank filed an application for a rate increase which would raise the average residential customer's monthly bill in Loraine about $3.39 in the winter and $1.39 in the summer.

Based on Lone Star's rate application, a residential customer who uses an average of eight thousand cubic feet of gas a month paid $31.98 for gas service in the winter. Under the requested rate, that same customer would pay $35.37.

Commercial gas customer s rates would also increase under the requested rate schedule.

"Our customers are accustomed to dependable natural gas service," says Swank. "This rate increase is necessary to continue a high performance level and for other necessary expenses, such as maintaining and improving the local pipeline distribution system, which are vital to dependable service."

Lone Star's last rate increase in Loraine became effective February 1977.

"Since that time, every business, including Lone Star, has experienced increased operating expenses," says Swank. "And, of course, unlike other businesses that can raise their prices as expenses go up, we must apply to the city council for a rate increase. No one likes rising prices, but any business must earn enough money to meet operating expenses and still achieve a reasonable profit. Even though our expenses have gone up, Lone Star still has one of the lowest average operating costs per customer when compared to any of the other major gas utilities in Texas."

Head Coach Will Submit Resignation At Meeting

The Loraine School Board of Trustees will meet tonight in their regular monthly session.

Among the subjects to be covered are the resignation of head coach Ted Wiley and consideration of making the high school a closed campus. Also, Terry Ellison, of Dimitt, TX, application for principal, will be interviewed.

The 1982-1983 budget will be discussed and a date set for the budget hearing. The 1982 delinquent rax roll will be presented, along with the possibility of employing a delinquent tax attorney.

Also to be discussed are estimates on a metal building for the concession-restroom area at Johnson Field, purchase of classroom furniture, different types of roofs for school owned houses, appointment of a delegate to the TASB-TASA joint convention, and the roof and air conditioners on the main building.

Board Election Is Postponed

The Wilson Wyatt VFW Post 9178 held their regular meeting on Thursday, July 8.

The members present voted to postpone the election of the Board of Directors until the next meeting July 22 and that cards be mailed to all members in good standing.

They also voted to change the meeting time to 8 p.m.

It was announced that District Eight's called meeting would be held in Hamlin VFW Post 6014 on Sunday, July 11.

Commander Ingram announced that a State VFW Service Officer would be coming to the Post Home soon and that the service officer would hold a question and answer session concerning benefits for Veterans and their families.

It was also announced that the District Eight's Spring Convention would be held in the local Post on May 14 and 15, 1983.

Remedy To Fight Fleas

Area residents are beginning to experience an influx of fleas. Several measures can be taken to combat the pests.

Insecticides which can be used outdoors are Carbaryl (Sevin R), Propoxur (Baygon R), Diazinon, Malathion, or Pyrethrins. These should be sprayed on the yard and pets, and children should be kept out of that area until the chemical drys. All of the above, except Diazinon, are labeled for use on animals. They should be applied in the dust formulation or a shampoo formulation. Take care to keep the chemical out of the eyes and mouth of your pet.

Chemicals that may be used in the home are Chlorpyrifos, Methoprene, or Malathion. Along with this, edges of chairs and places your pet spends a great deal of time should be carefully vacuumed. Be sure and discard the vacuum sweepings immediately after finished to avoid re-infestation.

If your pet rides in the car often, it may also require treatment.

Be sure to read and follow all label directors and precautions.

The word "crystal" came from a Greek word meaning both ice and rock crystal since the ancients believed that rock crystal was a modified and permanent form of ice.

Announcing...

We (Howard and Ava Hardcastle) are retiring after having operated Hardcastle Refrigeration in Colorado City and Mitchell County for 36 years. We do so with a sense of pride for having done our best to give the best products and service to our customers. Our success has been attributed to the repeat business over the years of our loyal customers and friends; because of this we also leave with a sense of sadness.

We have sold our business to Don and Betty Bird, who along with Santos Reyes, have committed themselves to the same principles of business ethics that have led to our success over the years.

We hope you will visit Hardcastle Refrigeration soon and get to know Don and Betty and their girls, Shelly and Jennefer. We feel you will then know why, we think we are leaving the business in capable hands.

Local Women Express Feelings On ERA

Women all over the country are having some very mixed emotions about the ERA (Equal Rights Amendment) that was not ratified by the deadline June 30, when it fell short three states.

The amendment was ratified by the Texas State Legislature on April 19, 1972 and was one of the first states ratifying the amendment, but focusing on a local standpoint, the majority of women in Mitchell County, either feel as if they like things the way they are or it really didn't matter to them.

The proposed amendment stated, "Equality of rights under the law shall not be denied, or abridged by the United States or by any state on the account of sex. The Congress will have the power to enforce, by appropriate legislation, the provision of this article."

The amendment had ten years to be ratified by three-fifths majority approval of the states and the time period expired in 1981, but Congress extended the deadline through June 30, 1982.

Women locally were interviewed and asked how they personally felt about ERA not being ratified and below are some of the comments:

Marsha Rickard, director of the Loraine Leisure Lodge (married), "I'm kind of split down the middle, but as an individual, I'm pleased with the way it came out."

Gabby Gaona, 1982 graduate of Westbrook High School (single), "We do need equal rights, but we really have them already in our Constitution. If women want to be treated like men, let them and if they don't, it should be their decision, not law."

Rosa Ausbie

Rosa Ausbie, city employee (single), "It really didn't matter to me, because I already have rights like any man."

Pat Moore

Pat Moore, "I think women are not thinking this through and they should give it a lot more thought before forming an opinion. Because there's more to it than equal pay...and do they really want all that goes with it?"

Gaye Powell

Gaye Powell, salesperson (married), "I think women should have equal salaries, but I still like a man to open the door. So I guess I'm against it."

Donna Watson, news director (single), "As it was written, I was not for it, because the amendment was discriminatory. It descriminated against men and other races. I'm in favor of ERA, it is more than equal rights for women, it's called Equal Rights Amendment. I sure don't think it's a dead issue."

Lori Lowrance

Lori Lowrance, secretary (married), "I think it stinks! Why should we lower ourselves to a man's standards, we have it made."

Katie Kidd

Katie Kidd, salesperson (single), "I'm glad it didn't, at least women won't have to worry about going to war and fighting and men will still be responsible for making a living."

Ann McGuire, receptionist (single), "I'm completely satisfied with things the way they are. It had some really good points, but it also had some bad, so I'm glad the way it worked out."

Barbie Chambers, receptionist (single), "I'm glad it didn't pass, because women were not meant to be men. As far as pay for equal jobs, that would be good, but some things are really uncalled for."

Linda McCombs, Chamber secretary (married), "I'm against ERA, because we do have rights now, I like for a man to open the door and I don't want to be walked on and treated like a man."

B Chambers

L McCombs

Despite the ten year battle for ERA, it was defeated, but the defeat was not against the cause, equal rights for everyone, but instead reaffirms the fact that the Constitution is for everyone.

The struggle for ratification of this amendment has not been a total loss, because the nation is now aware of the plight of so many women throughout the country.

CCPD Continues On Burglary Case

Investigation is continuing and leads are being sought into the burglary of tools and equipment from the Weaver Truck Shop, old Hutchins Ford building. The articles valued at $1,365 were taken sometime between July 2 and July 6.

A Chicago drill press valued at $450, a portable air compressor valued at $450, and a bench spray gun valued at $165 were stolen. Also taken in the burglary was a red tool tray of Snap-on-Tools with the word "Crow" stamped on the handles. The tools were valued at $300.

The drill press was recovered July 8 and it was acknowledged by Raymon Weaver that it was the stolen press. Chief Ed Wheat is continuing the search for a suspect and the other articles.

HAIL Damage -- Recent hail storms riddled the vinyl siding on many homes in this area as well as damaging other types of home exterior products. Home owners looking for a more substantial and durable replacement material should look into today's quality vinyl-clad steel siding and trim covers. Today's steel siding carries a 40-year limited warranty with the first three years of both LABOR and MATERIAL covered 100%. If you desire more information write: Energy Products Div., P.O. COULD YOU USE AN EXTRA $540,585 WHEN YOU RETIRE?

THE NEW TAX-DEFERRED INDIVIDUAL RETIREMENT ACCOUNTS—IRAs.

That's a ridiculous question, of course. Because everyone could use an extra $540,585 toward their retirement.

And now, with a tax-deferred Individual Retirement Account (IRA) from our FULL SERVICE BANK,* almost everyone *can* have an extra $540,585. Even if you're already covered by a company pension plan.

To build such an impressive nest egg, you'll need to salt away $2,000 a year—for 30 years—into your own high-yield retirement account.

Or, as demonstrated in the box at right, you can deposit less than $2,000 a year and still end up with a sizeable amount of cash.

You can even set up a convenient payment schedule. Making deposits by the week, by the month or whatever suits you best.

WHAT A TAX-DEFERRED IRA COULD MEAN TO YOU
(Based on 12% interest compounded annually)

	$500 INVESTMENT at start of each year	$1,000 INVESTMENT at start of each year	$2,000 INVESTMENT at start of each year
Total Investment After 30 Years	$ 15,000	$ 30,000	$ 60,000
Total Value of Investment After 30 Years	$135,146	$270,292	$540,585

Note: This chart is intended to be an example of how regular deposits into an IRA can grow into a substantial sum. This is not a guarantee of interest rates or end financial results.

And because our retirement accounts are tax-deferred, you deduct your annual investment from your taxable income. So you'll pay no federal tax on an IRA until you start withdrawing funds (minimum age: 59½).

Then, when you retire, you'll probably be in a lower tax bracket, paying lower taxes.

If you're intrigued with the thought of reducing your tax load while increasing your security, call or visit the professionals at our FULL SERVICE BANK for all the details.

They could help make your retirement much more enjoyable. About $540,585 more enjoyable.

Baum To Address Chamber Directors

Jim Baum will address the Colorado City Area Chamber of Commerce when they meet Tuesday night at 7 p.m., in the Chamber board room.

Baum, heading a 101st year County Celebration committee, will present suggestions to the board.

Members of the celebration committee are Virginia Fuller, Woody Anderson, Tony Turner, Robert Hoback, Mac Perkin and Monte Jones.

Following his presentation, Squirrley Northcutt will report on the AJRA Rodeo.

Linda McCombs, secretary, will give a report of income and expenses of the AJRA Rodeo.

Eddie Piland will submit information on the prospects of hiring a new Chamber Manager.

Date and time of the Annual Christmas Parade will be discussed by the board.

Board members will also discuss the changing of the Chamber's regular monthly meeting date, from the first Monday to the first Tuesday of each month. The change, Mrs. McCombs said, was due to conflicting schedules.

The board will hear a complaint concerning employees parking in the downtown area and not leaving any spaces for customers.

Committee reports to the directors will wrap up the nights' meeting.

Bentsen Urges Cut In Wheat Acreage To Boost Farm Prices

Senator Lloyd Bentsen urged that Secretary of Agriculture John Block cut wheat acreage 25 percent next year in an effort to boost farm prices.

Bentsen, in a letter to Block, also called on the Secretary to support an aggressive program to export U.S. wheat to other countries.

"I have written Secretary of Agriculture Block and told him I think we should reduce wheat planting next year by 25 percent--15 percent by a set-aside and another 10 percent by a paid diversion," Bentsen said in remarks taped for Texas TV stations.

"He'll be coming out with his wheat program this month and it's important that he knows how I stand on it and how Texas farmers think he should be facing this program."

Bentsen said Texans will be watching very closely the action Secretary Block takes on the wheat program "because it will give us some tip as to how he's going to handle other farming programs."

"In addition, he must be much more aggressive than he has in the past in trying to develop export markets for our products. They haven't done near the job they should there," Bentsen said.

"Texas farmers are in serious condition and I'm going to be watching the Department of Agriculture to see what they do to take advantage of what's available in the law right now," Senator Bentsen said.

Rangers 1-1 Against Astros Last Week

Yankees Manhandle Pirates

Expos 13, White Sox 5

The Expos continue to threaten the Lions in the standings. The last game will be between the Lions and the Expos.

Aiding the Expos' winning cause was Benitez, Espinoza, Sanders, Hormon and Davenport each with one point. Garcia, Rodriguez and Bailey each contributed two points. Leija came in three times to score.

Helping the losing team was Arispe, Mayes, Hernandez, Arellano and Sosa.

Espinoza is the winning pitcher.

Lions 6, Braves 2

The Braves kept the Lions from running away with it in a close game.

Edwards scored both runs for the Braves in his bid to win the game.

Conner, Piland, Jackson and Diaz each put one point on the board while Chitsey crossed the plate twice.

Jackson chalks up a win.

Yankees 27, Pirates 2

The Pirates were slightly "outgunned" as the score shows. The Yankees' hitting power was too much for the Pirates to stop.

Astros 9, Rangers 6

Despite a three run homer by Arispe, the Rangers were narrowly defeated by the Astros in a close game. This game kept the Astros in second place position behind the Yankees.

Rangers 11, Astros 10

In this game, the Rangers bounced back to show that they wanted the second place berth too. Flanagan, for the Astros, hit a homerun but only got one point out of it. The Rangers are now one game behind the Astros.

Cubs 14, Steers 13

The Cubs got a jump on the Steers in the first inning–three points to none. The Steers were shy one point in the last inning.

The Cubs were aided tremendously by two homeruns by Raschke.

The Steers' Salazar also hit a homerun.

Cummings To Give Karate Lessons

James Cummings, Instructor of Martial Arts Academy in San Angelo, is the instructor for a new class in karate beginning July 13.

The class will be held in the Wallace gym each Tuesday and Thursday nights beginning at 7 p.m. and continuing for six weeks.

The tuition for the class is $25 and at least 10 students must be preregistered to begin. There is a discount if more than one per family registers. The first family members tuition is $25 and the second members tuition is $12.50.

Cummings has judged tournaments, has an excellent background in the art of self-defense and has a Black Belt in karate.

If you would like to enroll for this class, please phone or come by the Wallace Center before July 13. Our number is 728-2392.

Defensive Driving Offered

A course in Defensive Driving techniques will be offered at the Wallace Community Education Center in Colorado City July 28 and 29.

The classes are sponsored through the Western Texas College in Snyder. The classroom sessions offer pointers in preventing accidents in spite of the incorrect action of others and adverse driving conditions.

Each course will have two four-hour sessions each night from 6 p.m. to 10 p.m. Films and other visual aids will be used to demonstrate how to improve driving skills.

Persons completing this course will be eligible for a reduction in insurance premium rates, also for possible traffic ticket removal.

The fee for the course is $20. A special fee for the person 65 and over is $10.

You may register at the Wallace Center or for more information, phone 728-2392.

Q. There is one thing surer than death and taxes: I will wear out a set of tires long before the stated milage rating. Any hints for keeping the chariot shod longer than six months at a time?

A. Buy a good tire gage **and use it** - often. Americans are notorious underinflators, and the price of underinflation is paid in set-after-set of new tires. In warm weather, check the pressure once a month and once a week in cold weather (cold causes a natural drop in pressure). Check inflation when the tires are cold. And always inflate to the prescure shown in your owners manual or on the inflation sticker locatec on the glove compartment or driver's side door. Finally, change pressures as suggested by the manufacturer to coincide with the driving you'll be doing. Overinflation can ruin tires, too, so use that tire gage, and use it often.

Southwest Flavor Comes Through

One taste of these nippy chili cheese biscuits and you'll feel you're right out there in the sunny Southwest with its high flavors and down-home cooking. They're seasoned with chili powder–that tasty blend of chili peppers, oregano, cumin and garlic, plus some onion powder. The biscuits are from a prepared mix, so they're easy to whip up. Try them with steak, meatloaf, chicken, ribs or whatever you're serving. Or just eat 'em hot out of the oven with butter.

CHILI CHEESE BISCUITS

2¼ cups buttermilk baking mix
1½ teaspoons chili powder
1 teaspoon onion powder
Two-thirds cup dairy sour cream
¼ cup shredded Cheddar cheese

Preheat oven to 450 degrees F. In a large bowl combine baking mix, chili powder and onion powder. Add sour cream and cheese; mix until mixture is moistened. Knead to form a soft smooth dough, about 10 times. On a lightly floured board, with a floured rolling pin, roll dough ½-inch thick. Cut with a 2-inch biscuit cutter dipped in flour. Place on an ungreased baking sheet. Re-roll and cut remaining dough. Bake until biscuits are golden, 12 to 15 minutes. YIELD: About 12 biscuits.

Lobbying Trip Scheduled On Oil & Gas Concerns

The lobbying trip to Washington has been set for the week of July 18th. Representatives from about thirty oil and gas associations will go to Washington to tell Congress that now is especially not the time to add any new taxes on the petroleum industry.

The first half of 1982 finished sharply lower in just about every category compared to the last half of 1981. The National rig count has declined for six straight months and the last week in June was 2,874...twenty-eight percent below a year ago. Employment on rigs has dropped from 70,000 in December of 1981 to 45,000 in May of 1982. The Oil and Gas Journal says, however, the number of wells could finish up only about 3,000 wells less than the 1981 record of 80,537. The price of oil has flucuated recently while the price of gasoline has pretty much stablized.

The Mobil Oil Company is donating a total of one million dollars for summer job projects in Dallas, Chicago and New York in addition to numerous other civic projects. The young people will be employed to help senior citizens and handicapped people.

And, U.S. refiners consumed about twenty-one percent less energy per barrel processed than they were in 1972 according to the American Petroleum Institute.

In the Permian Basin our rig count for this week was 285. One year ago it was 438.

Oil Patch Report

Bentsen Halts Horsemeat Sales

Senator Lloyd Bentsen called for Secretary of the Navy John Lehman to remove horsemeat as an item for sale in U.S. Navy commissaries.

"I was extremely disappointed to learn that Navy commissaries are now offering horsemeat for sale in competition with American beef," Bentsen said in a letter to Lehman.

Bentsen indicated he has been advised that Navy commissaries, located in the Continental United States are selling the horsemeat for human consumption.

"For the past two years prior to this January, cattle had been selling for less than their cost of production. The cattle industry had been in a virtual depression. Meanwhile, because of the recession, consumer consumption of beef has been declining."

"But beyond the commercial concerns, there are humane considerations which must be dealt with. I have been told that there are serious problems associated with the transportation of horses intended for slaughter," Bentsen said.

"People who do this kind of transporting often overload horses into trucks that are not designed to carry them safely. They are sometimes transported without adequate provision for food and water."

"Further, as a result of the large increase in European demand for American horsemeat, prices have risen so high that firms seeking horses for slaughter often outbid prospective riding horse purchasers. Horses roaming free on public lands have reportedly been illegally removed for the horsemeat trade," Bentsen said.

"There are not enough horses in the United States for our armed forces to be promoting the development of a domestic horsemeat market. I urge you, for both commercial and humanitarian reasons, to order that Navy commissaries no longer offer horsemeat for sale," Senator Bentsen said.
