Uncle Sam Moves To Bolster Alaska Forces

Fresh Troops Will Be Sent To Far North

"Strange Doings" In Territory Are Denied By Chiefs

(By The Associated Press)

WASHINGTON, April 16—The Army, without a single combat foot soldier in Alaska today, is borrowing from its mobile reserve to build up the garrison in that northern outpost next door to Russia.

Anti-aircraft and other ground combat units from the west coast and Hawaii will leave for Alaska shortly "to undergo summer training in conjunction with air units," the Army said.

To Bolster Forces

The effect of this "summer training" will be to bolster the present 7,000-man force now there pending action in Congress on the proposal of Gen. Omar Bradley, Army chief of staff, to expand the permanent garrison to 15,000.

The number of troops to be borrowed from the Hawaiian command and from the 2nd division at Ft. Lewis, Wash., was not disclosed. The Army announcement last night said only that they would establish a "balance" between air and ground forces in Alaska.

The 2nd division is part of the small mobile reserve of some 54,000 troops upon whom the United States counts to bolster overseas forces in event of a sudden emergency.

Defense For Islands

The Hawaiian command is not considered part of the mobile reserve, but defense for the islands. Troops sent from there for training in Alaska are expected to be anti-aircraft personnel.

The Army's admission that it has no combat troops in the Alaskan command was by indirection.

In announcing the training assignment, the Army statement commented that "at present about 60 per cent of the garrison is air and the remainder Army service troops." Service troops are personnel whose job is to maintain installations, handle supplies, load and unload cargo at ports—but not to fight.

Reports Are Denied

Meanwhile, both the Air Force and the Alaskan Army command denied reports of strange doings in the territory. These reports included an arrertion by Rep. Margaret Chase Smith (R-Me) that Russian planes had "violated" Alaska by flying across the bor-

16 Countries Adopt Charter

Resolution Of Thanks Given United States

Common Recovery Program Is Top Goal Of Group

(By The Associated Press)

PARIS, April 16 — Sixteen nations and Germany's western zones unanimously adopted today a convention binding themselves into a permanent European organization of economic cooperation.

The nations are those taking part in the European recovery program (ERP), or Marshall plan. The organization is to assure efficient use of the $5,300,000,000 the United States has pledged in the program.

Signed At Conference

The 28-article, 3,000-word convention was adopted and signed at a conference of foreign ministers and others in the French foreign ministery.

"A strong and prosperous European economy," says the preamble, "will contribute to the maintenance of peace."

The chairman, British Foreign Secretary Ernest Bevin, put the charter to the delegates at 12:25 p. m. there were no objections: so he declared it adopted officially.

U. S. Sent Thanks

Before the morning meeting adjourned, the conference unanimously adopted a resolution to send thanks to the U. S. for its "generous response in assisting Europe in its present critical state." This was proposed by Irish Foreign Minister Sean MacBride.

The delegates approved Bevin's suggestion that they reassemble in a closed meeting at 5 p. m. Their deputies are to meet 45 minutes earlier to prepare this afternoon's agenda.

This will include choosing a secretary general, two assistants and other officers and selecting a permanent headquarters for the organization.

Nations Are Named

The document names these contracting powers: Austria, Belgium, Britain, Denmark, France, Greece, Eire, Iceland, Italy, Luxembourg, Norway, The Netherlands, Portugal, Sweden, Switzerland, Turkey and the French, British and American zones of Germany.

They agree to try to get back on their economic feet as quickly as possible in order to be able eventually to dispense "with any foreign aid of an exceptional character."

They promise to "augment their production, develop and modernize their industrial and agricul-

Twenty-Three Dead In Army Arsenal Blast

Plans For Second Bogota Revealed; 26 Reds Arrested

(By The Associated Press)

RIO DE JANEIRO, April 16 — Federal police declared today the explosion of an Army arsenal, fatal to 23 persons, was intended as the beginning of a communist plot for a "second Bogota" here May 1.

The police said the Communists intended to kill the Brazilian war minister, Gen. Canrobert Pereira Da Costa, who left the vicinity of the arms depot 50 minutes before yesterday's blast.

The official account said Da Costa was saved only by an unexplained delay in the explosion.

Bodies Still Sought

Bodies still are sought in the debris of the Deodoro arsenal. The injured are estimated to number 100 to 200.

Twenty-six Communists have been arrested so far, the police statement said, and "directly implicated" in the explosion. The plot was attributed to a high leader of the Communist party, which is outlawed in Brazil. Police withheld his name, but said his arrest was expected soon.

OPEN WARNING TO UNCLE SAM GIVEN

WASHINGTON, April 16 (AP)—An open warning and a guarded hint that Colombia's blood-spattered revolt pattern may be used in the United States spurred a congressional committee today to dig deeper for facts.

For one thing, the lawmakers want a complete explanation of why the State department went ahead with the Pan American conference at Bogota despite definite word that the Communists were plotting trouble there.

Marshall Was Scornful

The department itself said Secretary Marshall scornfully rejected any notion that "a handful of Communists" could intimidate the American republics.

But Rep. Clarence J. Brown (R-Ohio) saw the situation in a different light.

"Why," he asked, "did they (department officials) go blindly into this conference knowing there might be trouble? Why did they permit themselves and the country to be put in a ticklish position?"

Brown said he wants the answers to those questions and will try to get them at hearings to be

22,000 Persons In 8 States Homeless Due To High Water

Mighty Ohio Endangers Wide Area; Rains Causing Other Streams To Sweep Higher

(By The United Press)

Flooding rivers and streams rushed toward high crests today and left 22,000 persons homeless in eight states.

The most critical situation was along the mighty Ohio river which was pouring a huge crest downstream and endangering thousands of homes in West Virginia, Pennsylvania, Ohio, Kentucky, and Indiana.

The Suwanee, made famous by Stephen Foster's song, went higher as new rains fell near Tallahassee, Fla.

Hundreds were driven from their homes in Minnesota and North Dakota as the Red river hit its highest level in 51 years. The rise appeared to be slackening today. The Snake river reached its highest crest since 1897 at Grand Forks and flooded basements at Alvardo, Minn.

Wheeling, W. Va., was hit hardest, with 10,000 of the city's residents forced to take shelter in schools and with friends. Most of the persons rendered homeless lived on Wheeling island. Only 40 per cent of the island's 10,000 residents stayed in their homes today.

The Ohio crested at 44.3 feet, 8.3 feet over flood stage, at Wheeling last night.

One house began to crumble and six occupants were rescued from the second floor by boat. Another house caught fire as the flood waters swirled about it. Firemen extinguished the blaze from boats by pumping flood water onto the flames.

OVERDOSE OF SLEEPING TABLETS

Mrs. James Roosevelt Rushed To Emergency Hospital Today

(By The Associated Press)

BEVERLY HILLS, Calif., April 16 — Taking the wrong pills from a bedside box in the early morning darkness sent Mrs. James Roosevelt to a hospital today for treatment for an overdose of sleeping pills, her physician reported.

Her condition was described as "good" several hours later.

Dr. Blake Watson, family doctor for the wife of the late President's eldest son, gave this account:

Husband Called Police

He said Mrs. Roosevelt, 32, awoke about 5 a. m. with a cold and a headache, reached for a box of pills on a bedside stand which she thought were headache tablets. Instead, she swallowed several sleeping pills. She quickly awakened her husband, who called police. She was rushed to Emerg-

PREMIER READY FOR EMERGENCIES

Troops Mobilized For Italian Vote

(By The United Press)

ROME, April 16.—Premier Alcide de Gasperi mobilized 330,000 troops, carabinieri and police today, putting them on an emergency footing for Italy's fateful elections beginning Sunday.

He told his forces to remain on emergency call until final election returns are known next Wednesday or Thursday.

Move To Viminale

De Gasperi also ordered some of his top officials to take up lodging in the government palace, Viminale, on election eve. They included Interior Minister Mario Scelba, who controls the security forces, Randolfo Picciardi, vice premier in charge of public order and a number of top police and troop commanders.

All official government orders during the elections will originate at Viminale.

Ready For Action

The Premier told other ministers they should spend all their time in Rome beginning Saturday, except for visits to their home districts to vote. He explained that he wanted to have a quorum present in the capital for emergency action at any time during the critical election period.

These unprecedented precautions were taken against any possible Communist coup. Forty-eight hours before Italians start flocking to the polls, the Communist front charged that the moderate De Gesperi government had secretly joined a military alliance of western European nations.

King-Size Financial Headache In Store For Next President

(By The Associated Press)

WASHINGTON, April 16.—The government's biggest budget surplus in history has passed its peak and started downhill.

Administration analysts who reported this today predicted privately that the next President—Democrat or Republican — will confront a king-size financial headache.

They say the reason is the delayed impact to be felt from contracts being authorized now on which no payments are due until later. As an example they cite the $2,245,000,000 in contract authority voted by the House yesterday as part of a $3,198,100,000 air power bill.

Fortunes Are Ebbing

The budget books won't show the two billion dollar amount until the planes are delivered—and paid for—a couple of years from now.

But even with the current (1948) fiscal year certain to mark up a far bigger surplus than the $1,155,000,000 record set 21 years ago, the government's financial fortunes are ebbing.

Since this month began, the government has been overspending its income by more than $10,000,000 a day, thus whittling down a surplus that has hit $7,800,000,000.

May Slip Into Red

A number of administration officials have said that a year or so hence the Treasury may slip back into the red from which it emerged in 1947 for the first time in 17 years. They say the only things that could prevent that are higher taxes or less spending.

Congress has trimmed some items in the $39,700,000,000 spending program President Truman proposed in January. But it also has added some new outlays and is considering others.

Senator Bridges (R-NH) said today that Mr. Truman's budget "has proved to be as full of 'hidden costs' as a second-hand automobile."

Economy Is Refused

At the same time the chairman of the Senate appropriations committee took some of his fellow Republicans in Congress to task for "refusing to go down the line for that economy which was promised the American people." Bridges wrote an article for the Manchester (N. H.) Union.

Among the extras Congress has voted are a $150,000,000 boost in subsistence pay for veterans in college, and $160,000,000 more for foreign aid authorized along with the European recovery program.

Also counted as an increased outlay next year is $500,000,000 for refunds expected to result from the income tax cut.

Pending proposals which could bring further increases include $500,000,000 in pay raises for government employes. This item, like some of the others, also could mean a continuing cost in later

Man Heaves Box Through Window Of Store

Morning Quiet Shattered By Clatter Of Glass; Lifetime Ambition Is Realized

PHILADELPHIA, April 16. (AP)—The early morning quiet of the swank Chestnut street shopping section was shattered today by the clatter of smashed glass.

Policemen Robert Livingston and Harold Hammerle had been eying a man idling along the street. Suddenly he snatched an empty milk bottle case from a newsstand, darted to the front of the Bailey, Banks & Biddle Co., jewelry store. Before the officers could interfere the man heaved the box through a plate glass window 15 feet long and six feet high. It fell in smithereens at his feet.

The display of silverware was not touched, the officers reported. Livingston said the man as he was being led to the police station, kept repeating:

"I did it! I did it!

"It's something I wanted to do all my life. It's this very window I wanted to break!"

COUNCIL TO CONSIDER U.S. PLAN

Hope For Truce In Palestine Is Dim

(By The Associated Press)

NEW YORK, April 16.—Chances for a Palestine truce appeared remote today as the 57 United Nations assembled in special session to tackle the Holy Land crisis.

The security council continued its labors on the truce problem as assembly delegations moved on to the meeting, at Flushing Meadow park.

The council meets at 9 o'clock tonight at Lake Success to act on an American-sponsored cease-fire program which also called for a political standstill in Palestine.

The special assembly was called to re-consider the partition plan adopted at the regular assembly session last Nov. 29. No alternate plan has yet been submitted for consideration, but the United States has announced it will press for a temporary U. N. trusteeship.

Today's program is expected to be devoted entirely to the election of officers and organization of committees. This would open the way for the start of general debate either Saturday or Monday.

The only formal document beopened was a special report of the fore the delegates as the session five-member U. N. Palestine partition commission. This called on the assembly to consider a number of urgent measures, including sending troops to the Holy Land to restore order.

Postponed By Gromyko

It had been expected the truce question would be disposed of yesterday by the security council, but Soviet Delegate Andrei A. Gromyko proposed a 24-hour postponement to allow time to study a series of amendments suggested by the Jewish agency.

Moshe Shertok, head of the Jewish agency's political department, told the council the Jews could not agree to a halt in Jewish immigration to Palestine. He also declared that withdrawal of Arab bands from other countries must be an essential condition to any truce.

On the other hand, Faris El Khoury of Syria and Mahmoud Fawzi Bey of Egypt, speaking for the Arabs, refused to agree to either of these conditions. They expressed willingness to accept the truce plan, with reservations.

Prison Term Is Suspended

Judge Dan Blair of 72nd district court this morning suspended a five-year sentence assessed after William Johnson, 19, a negro, had pleaded guilty of burglary of Lubbock Tailoring company.

The case, tried several weeks ago, resulted in a mistrial when a jury could not agree on a verdict. Johnson was represented by the law firm of Burks and McNeil, the state by E. G. Pharr, assistant district attorney.

Fine Is Assessed

In county court, it was announced that C. T. Childers, about 32, of Lubbock, had pleaded guilty of liquor law violation and been fined 100 and costs.

D. W. Robertson, justice of peace, fined three women carnival performers $15 and costs each for for disturbance. With costs, assessments ran to $27.15 each, Robertson said.

The sheriff's department said H. P. Perry of Lubbock route 3 reported a battery and generator stolen from his place.

Intruder Flees

That department was informed by Mrs. Dick Calley of 1711 Twenty-fourth that when she went home about 8:30 o'clock Thursday and turned on lights, someone who was "attempting to enter the house by a rear window ran."

Deps. Sheriff Tom Cannon and Leonard Lott arrested a 33-year-old McKinney man who was employed near Idalou and jailed him upon request of Collin county officials who said they would require bond in a check law violation case.

Police said the state highway patrol had recovered an automo-

Disputed $11,000 Is Held By Police

MIAMI BEACH, Fla., April 16 (U.P.)—Police held $11,000 in cash here today, trying to decide whether it belongs to Mrs. Julia Grech, a New York janitor's wife, or to Stephen S. Enoff, native Bulgarian now living in Mansfield, O.

Mrs. Grech had Enoff arrested when police found the money on him. She claimed he made off with it after she gave it to him to hold while she went swimming.

"If she says it's hers, let her prove it," Enoff told detectives. "I won it at the dogs."

Parking Meters Are Placed On Square

The last haven of all-day parking in downtown Lubbock was singing its swan song today.

For, come Saturday morning, parking meters will start collecting nickels around the courthouse square where, since the devices were installed a decade or more ago, parking has been free on a first-come, first-served basis.

But that will be all over tomorrow and starting at 9 a. m., it'll cost you just as much to park around the courthouse square as anywhere else. Parking spaces will be provided for members of the official family and other officials, such as members of the liquor board, state rangers, etc.

Workmen were busy today installing the 60 parking meters, which will bring in a total of about $27 a day to city revenues.

Price Support Plan Favored

WASHINGTON, April 16. (AP)—The House agriculture committee voted unanimously today to extend government farm price supports to June 30, 1950. The legislation now goes to the House floor for action.

Generally, farm commodities now are selling at prices above support levels.

The bill would reduce the support of cotton from 92.5 percent of parity to 90 per cent of parity. (Parity is an artificial price base designed to give farmers a purchasing power equal to that in some previous favorable period, usually 1909-1914.)

Provisions Of Plan

This is what the committee proposes:

1. Price supports at 90 percent of parity for the basic commodities cotton, wheat, corn, tobacco, rice and peanuts. These supports now are at 90 percent with the exception of cotton which is at 92.5 percent.

To Continue Authority

3. Continue government authority to impose acreage restrictions and to set marketing quotas. However, Chairman Hope (R.-Kans) said that, because of the large demand for food and fiber, there is little likelihood of any marketing quotas in the next year and a half.

Without the legislation, price supports on no-basic commodities will end Dec. 31.

Resumption Of Train Service Predicted

WASHINGTON, April 16 (AP)—Train service, restricted by the coal strike, should be fully restored in the next week or 10 days, railroad officials said today.

The government ordered a 25 percent cut in both passenger and freight service requiring the use of coal during the mine strike and planned to impose a second 25 percent cut. These orders were revoked last Tuesday after John L. Lewis told his union diggers to resume work.

Today's Cotton

Prices on the Lubbock spot cotton market today:

Middling 13/16 32.25... middling 7/8 33.25.

Ladies' 17 J. Benrus "Embracable" $59.50. King's, 1020 bdwy. adv.

Brakes Put On Air Force Act

WASHINGTON, April 16 (AP)—Purse-string holders in the Senate put the brakes on the 70-group air force bill today.

Senators Bridges (R-NH) and Gurney (R-SD) said the $3,198,100,000 measure which whopped through the House by a 343 to 3 vote will get a close going over in the Senate appropriations committee.

Called Controversial

Bridges, the committee chairman, noted that the 70-group air force proposal added to the bill on the House floor is "highly controversial." He said he has not decided whether he will support it.

Gurney, No. 2 GOP member of Bridges' group and chairman of the armed services committee, declared that he sees no reason for rushing the 70-group appropriation through the Senate.

"The Air Force will need men as well as planes," he told a reporter. "We want to wait until we can get all the facts, and that will be some time next week."

Gurney estimated that expansion of the Air Force to 70 groups would cost about $6,000,000,000 a year from now on.

Embalming Fluid Is Said Used On Meat

FORT WORTH, April 16. (U.P.)—A meat wholesaler was fined $200 today for using a meat preservative which city health Director Dudley A. Reekie called "embalming fluid."

Corporation court judge W. H. Gilmartin levied the fine and took testimony on two cases involving retailers charged with the same offense.

Greek Army Launches Spring Offensive

ATHENS, April 16. (AP)—A reliable informant said today the Greek army has launched its long planned spring offensive with three divisions of troops—from 20,000 to 30,000 men—against the Communist guerrillas.

Army officials kept the spot of the opening attack a secret.

Ten Per Cent Boost Given Curb Workers

NEW YORK, April 16. (AP) — A strike against the New York curb exchange was settled today with a 10 percent pay increase and bonus agreement.

There was no provision for the union shop demanded by the AFL United Financial Employes when the walkout began March 29.

The settlement did not include employes of the New York stock exchange, whose strike continued in full force.

Picket lines before the curb exchange building, just two blocks from Wall street, faded after announcement the curb's governors had ratified an agreement. The union had approved it yesterday.

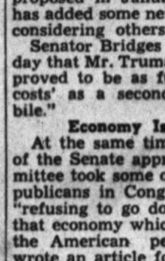

BUILDING DESTROYED

UVALDE, April 16. (AP)—Fire of unknown origin destroyed the Veterans of Foreign Wars building in Uvalde Memorial park early today.

The veterans built their headquarters last year with volunteer labor, using war surplus army barracks as material.

Hedy Lamarr Files Suit For $200,000

SANTA MONICA, Calif., April 16 (AP)—Hedy Lamarr doesn't like the look she says Look Magazine gave her. She dislikes it so much she filed suit for $200,000 yesterday against the magazine, alleging that a Look article in the April 13 issue made it appear she had her nose altered by plastic surgery.

Hedy Lamarr

The suit said the magazine used two photographs of the actress as "before and after" examples of nasal plastic surgery.

This, declared Hedy's complaint, was untrue. The actress' counsel added: "It is a positive fact that her features have been unaltered and have remained in their natural state since her birth."

A Look representative in New York said "we have heard nothing about the suit."

ONLY BROKEN ROPE

BERLIN, April 16. (AP)—The Russian flag was missing today from the flagpole at the four-power Allied control building, but officials said "there's no significance—it's only a broken rope."

Sterling Silver "Didy Pins" $2.50 pair. King's Jewelry. adv.

Deadly Poison Is Found By Chemists

CHICAGO, April 16 (U.P.) — A chemist at Northwestern university said today that scientists have isolated a poison so strong that "a quarter of a pound in the water supply of a city the size of Evanston, Ill., would kill everybody in that city.

Robert K. Summerbell, head of the Northwestern chemistry department, said the substance was the most poisonous simple compound known. He said the poison was isolated by Dr. Byron Riegel and a group of research workers in experiments conducted in connection with cancer research.

The Weather

WEST TEXAS: Fair this afternoon, tonight and Saturday. Not much change in temperatures.

EAST TEXAS: Fair this afternoon, tonight and Saturday. Warmer in east and south portions tonight. Moderate southeast winds on coast.

EXTENDED FORECAST — Texas Gulf Plains, Northeast Texas, western Louisiana: Temperatures will average 6-8 degrees above normal. Little trend through Monday, falling trend Tuesday or Wednesday. Precipitation light with scattered showers and thundershowers Tuesday.

Texas west of Gulf Plains: Temperatures will average 6-8 degrees above normal. Little trend through Monday, falling trend Tuesday or Wednesday. Little or no precipitation indicated.

Plants Of GM To Be Closed

DETROIT, April 16 (U.P.)—General Motors Corp. announced today that it will close all its automobile fabricating plants, idling 200,000 workers, by April 23 because of the effects of the coal strike.

GM said it was running out of pig iron and steel supplies as a result of the coal strike but that its automotive assembly plants would remain in operation "as long as available material permits."

In a statement the corporation said that the foundries, machine shop and press rooms in all automotive divisions will be closed by the night of April 23.

To Notify Employes

"It is hoped that receipts of material will permit the resumption of operations in these fabricating plants by May 1," GM said.

"The assembly plants will continue in operation as long as available material permits," the statement continued. "Some of the non-automotive plants will also be affected. The employes of each plant will be notified by the local plant management as to when they will be affected."

GM said that some production already had been curtailed in the restriction of metal supplies that also was expected to hit other auto manufacturers in the near future.

He Figures His Return At 5,565 To One

Man Claims His Investment In Second Hand Chair Brought $31,000 In "Change"

(By The United Press)

MILWAUKEE, April 16.—Edward Dougherty, 41, told police today that he made a pretty good investment when he bought a second hand chair for $5.75 about 15 months ago.

He said it paid off at 5,565 to 1.

Dougherty said that after he took the chair home from the Goodwill Industries, Inc., he began thinking about how he used to find coins dropped from people's pockets among the furniture cushions when he was a kid.

He poked around in the chair, he said, and came up with $31,000.

"It took me more than four hours to count," he said.

Dougherty said the money went as easily as it came. He said he only had $131 left yesterday when police arrested him and another man on a morals charge involving a 16-year-old girl.

However, deputy sheriffs found $500 in one of four safety deposit boxes Dougherty had rented. They also found IOU's totaling $4,500 for loans he made to friends.

Dougherty did not account for all the money he said he spent, but told police he used $12,800 for a house, $2,200 for a car, $1,200 for a truck, $3,500 for furniture, and

Review Given By Mrs. Hall

Mrs. A. W. Hall reviewed "Prayer, The Mightiest Force In The World" (Frank C. Laubach) when Homebuilders club and guests met with Mrs. E. J. Dresser, 2501 Twenty-second, Thursday night. Mrs. Max Garrett was co-hostess.

Members present were Mesdames George Birdwell, J. C. Dean, Florence Sanderson, J. R. Hartsfield, W. A. Lindsay, N. S. McBride, H. R. Miller, Velma Morris, Jack Ray and Wayne Thrush.

Guests were Mesdames C. C. Chambers, Rufus Raney, E. L. Lansford, W. S. Denney, A. C. Turner and G. C. Franklin.

Needle Clubs At Meetings

Amiga club members spent Thursday afternoon quilting in the home of Mrs. Arthur Dean on Thirty-fourth.

At the meeting were Mesdames R. E. Bennett, J. T. O'Neal, S. A. Beard, J. T. Meek, J. M. Wells, W. A Terrell, R J. Williams, C. L. Goble, Earl Jackson, L. E. Benefield, S. C. Rawlings and C. W. Marsh.

A meeting was planned for May 5 and will be held in the home of Mrs. Beard, 2522 Twenty-first.

IN HOLMES HOME

Friendly Menders club's Thursday luncheon was held in the home of Mrs. R. R. Holmes, 1315 Thirty-second, with the following attending:

Mesdames L. D. Hogan, Bill Smith, Louis Martin, L. L. Judd, Weldon Gibbs, S. A. Stapleton, G. W. Oatman and a new member, Mrs. M. L. Ailes.

The club will meet April 29 with Mrs. Stapleton, 1314 Thirty-second.

IN LIVELY HOME

Mrs. Jack Melton was hostess to 1940 Needle club Wednesday afternoon in the home of Mrs. C. B. Lively, 2213 Twenty-seventh.

Present were Mesdames R. W. Caruthers, L. F. Lively, C. B. Lively, Raye Peeks, J. C. Pharr, R. M. Sholders, H. G. Urguette and E. D. Van Meter.

The club will meet May 12 with Mrs. Van Meter.

Mary Martha Class Has Party At Dennison's

When First Baptist Mary Martha class met Thursday for a party in the home of Mrs. J. W. Dennison, 2617 Twenty-fifth, Mrs. J. F. Nix described her Hawaiian trip. Mrs. Mike Fry presided and Mrs. W. H. Trice led a prayer.

Assisting hostesses were Mrs. H. C. Burrus and Mrs. Joe George.

Others attending were Mesdames W. C. Fry, Walter W. Nichols, W. M. Alexander, R. O. Mayes, T. J. Jackson, George H. Moore, Walter Herrin, E. F. Harman, W. H. Floyd, Lillian Slay, Robert E. Miller, G. P. Howell, Lola Fields, Carl Owens, Walter Wright and J. H. McLeod.

MARY HAWORTH'S MAIL . . .

Parents, Who Leave 17-Year-Old Daughter Alone To Do Club Work, Find Her In An Affair

DEAR MARY HAWORTH: We have a daughter, 17, who has always been very truthful with us; and we are members of several organizations that require a good deal of time.

We have to be away from home several nights each week and have always felt perfectly safe in allowing Dora to invite her friends in when we weren't there. Of recent months she has been going steady with a young man several years older than she, and has insisted that only he keep her company of evenings.

One night last week we returned home earlier than usual from a customary club meeting and the house was dark as we approached. As we entered the drive, a light went on in the living room, and there we found our daughter and the young man, she improperly clad and both looking guilty.

FATHER'S DUDGEON EVOKES DEFIANCE

HER father ordered the young man to leave at once and never to see Dora again. He left, dejectedly, after telling Dora that he would see her, and to remember that. Later, in response to my questions, Dora admitted an affair had been in progress for some time; and she told her father he was crazy if he thought he could keep them apart.

She said they planned to be married, that she saw nothing wrong in their behavior, that she would leave home if necessary to see the young man, and that if we tried to stop her, she would do something drastic.

In view of her attitude, should we stand firm in our decision to end the relationship? Or allow Dora to continue seeing the man? We are anxiously awaiting your advice, as her entire future may depend upon prompt action.

Signed J. B.

PARENTS PARTY TO THE WRONG

DEAR J. B.: Dora's unabashed attitude in the showdown scene has a lone-wolf ring, as if she neither loved, respected nor feared her parents, a reaction to reproach which is not surprising in a girl whose mother and dad had long since figuratively abandoned her to her own devices, to grow like Topsy, while they busied themselves like a pair of jugglers with assorted club politics.

No doubt you feel morally outraged, disgraced, etc., to learn of her unchaste behavior when your backs were turned. But seen in perspective, the illicit relationship to which she clings is more of a reproach to yourselves than to Dora and her swain, inasmuch as the chain of precipitating factors developed in consequence of your neglect of her. And unless you can fully accept the truth, in chastened spirit that prohibits "throwing stones," it isn't likely that you can influence them for the better.

With Dora now 17 and the man a few years older, it isn't humanly possible to halt the affair by force. It is proverbial that Eros laughs at locksmiths, so it doesn't make sense to think in terms of standing firm in a decision to end the relationship. Yet on the other hand, common decency requires you to apply reasonable restrains, if possible, since you are vested with grave responsibility for the general welfare of your teen-age daughter.

CALM SUASION IS ADVISABLE

IT is obvious that the father's high dudgeon in ordering the young man off, never to see Dora again, made a bad matter immediately worse, since now you have outlaw defiance as well as their fever to contend with.

Hindsight is the most elementary form of wisdom, yes; but if in that hour you had confronted them with humane expression of dismay at their misconduct, then calmly insisted on four-way discussion of their misguided behavior and how to rectify it (with your help), I think you might have got control of the situation.

I'd say it's half-past the zero hour, to be asking constructive advices now, when you feel completly licked and know the balance of power has slipped from your hands. However, it might be helpful if your husband would corral the young man for an earnest peaceful inquiry into the quality of his interest in Dora, also admitting his own sorry feeling of having failed her, and talk in terms of working together to give her really protective love, in the event he sincerely cares.

Luncheon Meeting Held By Ex-Newcomers Club

Members of Ex-Newcomers club who met at Hilton hotel Thursday for a luncheon were:

Mesdames J. E. Jeffreys, T. W. Butler, C. W. Barcus, W. A. Wyche, H. L. Voelker, Tom Toombs, Oscar Ray, Ted Whitehead, Georgia Kaiser, Hayden Garrett, Vera Salmon, Tom Jones, A. H. King and Ernest Conley.

Mrs. Conley who was chosen as the outstanding member of the year will be honored at the City Federation's "Every Woman's Tea" next Thursday.

Party Is Courtesy For Mrs. Winnier Seymour

Mrs. Winnie Seymore who will move into a new home soon was honored at a party given by Mrs. May Flynn and Mrs. W. M. Ross Thursday afternoon in the Flynn home at 1414 Eighteenth.

Guests were Mesdames Dora Graves, Dovie Griffin, Hattie Meredith, Dunn, Lou Stubbs, Abbie Nelson, Anna Musgrove, K. Carter, J. M. Witt, Daniels, Jewell Smith, Velma Edwards and Miss Mae Murfee.

Pupils Will Appear In Speech Festival Here

A speech festival will be given tonight in the chapel of First Methodist church by pupils of Mrs. Grady Sims. The public is invited to attend.

Younger pupils will tell stories from 6:30 until 8 p.m. and older pupils will give declamations from 8 until 9:30 p.m.

Several musical numbers will be played by pupils of Mrs. Lillian Butler.

Nurses Are To Sponsor Bake Sale Saturday

District 18, Texas Graduate Nurses association, will have charge of a bake sale Saturday at Rebbie Steger dress shop, 1302 Broadway. Proceeds will go toward the building fund for the Lubbock Women's clubhouse.

Book Review, Election Held By Tech Women Graduates

Members of the Tech Council of Women Graduates elected officers and presented Dean James G. Allen in book review Thursday night at the Yaqui room of the Hilton hotel. Elected were:

Mrs. Charles Cathey, president; Mrs. Ernest Griffith, vice president; Miss Marguerite Harris, secretary; Miss Anne Birkman, treasurer; Mrs. George Wilson, reporter; Mrs. Rex Webster, representative to the Lubbock Women's club Advisory committee.

Mrs. Elmer Tarbox was chairman of the nominating committee and other members were Mesdames John Hardin, Wilson and Douglas Adams.

Miss Reuby Tom Rhodes introduced Dean Allen who reviewed Thornton Wilder's best seller, "The Ides of March."

Mrs. James L. Snyder, retiring council president, presided for the business session.

Distribute Circus Tickets

Tickets were distributed to the Gainesville circus which the Lubbock Women's club is sponsoring in cooperation with the Lubbock Lions club May 7-8. Three-fourths of the proceeds will go toward the clubhouse building fund.

It was announced the council netted $99 at a recent bake sale.

The final social of the year will be a tea May 16 in honor of graduating women seniors.

Mrs. Owen Gilbreath, retiring vice president, presided at the refreshment table.

Other retiring officers are Mrs. Hurley Carpenter, secretary; Mrs. Gerald Jarvis, treasurer; Mrs. Neil Wright, jr., representative to the Lubbock Women's club Advisory committee; Mrs. Joe Bob Johnston, reporter.

Period Furniture Topic For Hurlwood Club Talk

"All the furniture in a room does not have to be the same finish; a table, for instance, of a contrasting color, helps to add interest," Miss Clara Pratt, county home demonstration agent, told members of the Hurlwood club Tuesday afternoon. The program on "Period Furniture and Furniture Construction" was held in the home of Mrs. Ernest Marquis.

Nineteen members and two guests attended.

Mrs. R. H. Johnson will be club hostess April 27.

Newman Club To Attend Mass In Body Sunday

Texas Tech Newman club will receive communion in a body for the intention of the successful outcome of the Italian election Sunday at 8 o'clock mass at St. Elizabeth's church. Breakfast will be served later at the parish hall.

Mike Rimar, chairman of the Catholic Action committee, is chairman of arrangements for the breakfast which will be presided over by Harold Luke, president of the Newman club.

Mrs. Wallace Glover To Represent Music Club

Mrs. Wallace Glover was chosen as the year's outstanding member by the Allegro Music club and will represent the group at a tea City Federation is giving Thursday at the Hilton hotel. She is president of the organization. "The "Every Woman's tea" will feature an address by Mrs. J. W. Walker of Plainview, outstanding club woman in this area.

Rebekah Noble Grand Is Honored On Birthday

Mrs. Elmer Pattillo and Ed Frederickson were initiated as members of the Rebekah lodge at a meeting held Thursday night in IOOF hall.

Following the meeting, a surprise birthday party was given for Mrs. J. W. Chism, noble grand. The birthday cake which was baked by Mrs. A. C. Davis was decorated in pink and green, Rebekah colors.

Mrs. T. C. Porter gave a reading.

TEL Class Has Program And Social Thursday

An afternoon meeting for Calvary Baptist TEL class was held Thursday with Mrs. Mitt Bullard. Brad Bullard presented two vocal numbers and Mrs. Charles Rhodes read the poem, "Home," by Edgar A. Guest.

A devotion was brought by Mrs. J. A. Giles and prayers were led by Rev. C. J. McCarty and Mrs. W. J. James. Business was presided over by Mrs. E. F. Williams.

Twenty persons attended.

Personals

Mr. and Mrs. A. C. Sanders, sr., and four of their grandchildren have returned from Fort Worth where they attended the Ice Capades of 1948. Grandchildren going with them were Karen Sue and Joan Sanders, children of Mr. anw Mrs. Gordon Sanders; Sharon Sanders, daughter of Mr. and Mrs. Cecil Sanders and Akie Sanders, son of Mr. and Mrs. A. C. Sanders, jr.

Gift Shower Honors Bride

Mrs. Wade Gilliam, bride, was honored at a shower given by Mesdames Hub Lee, Guy Barclay, Tony Gilson and Acie Cope at the conference room of Hub Lee Tire company Thursday night.

The tea table was laid with an ecru lace cloth and centered with an arrangement of bridal wreath and white candles. Mrs. Lee presided at the punch bowl. Angel food squares were decorated with rose buds and lettered with "Jean and Wade."

Guests wrote their favorite recipes for the bride.

Mr. Lee showed movies for the group.

On the list were Mesdames Jim Peel, Alva Smith, J. R. McKinley, Dewey Flanagan, S. C. Myres, Henry Bartlett, W. W. Atwood, Margaret Phillips, Jewell Mitchell, Pearl Bourland, Alice Wynn, Lillian Gothart, Miss Irene Roberts, Mr. and Mrs. W. C. Montgomery, and Bill and Jim Cope and Messrs. Guy Barclay, Tony Gilson, Acie Cope and Wade Gilliam.

IBEW Auxiliary Elects In Bloodworth Home

Officers elected by the IBEW auxiliary Thursday night in the home of Mrs. Earl Bloodworth, 2024 Sixth, were as follows:

Mrs. H. D. Reid, president; Mrs. Allen Loter, vice-president; Mrs. Garret Fox, secretary-treasurer; and Mrs. Jack Shisler, reporter.

Others attending the meeting were Mesdames U. L. Huckabay, Jack Melton, Jack Bryant, Jerry Holleman, W. S. Pool, Jim Pruitt, Neal Essary and George Duey.

U. S.-Born Men See English Brother

FORT WORTH, April 16. (U.P.)—There was a family reunion at the train depot yesterday.

A. L. Preston arrived from Southrampton, England, to see his brother, S. A. Preston of Breckenridge, Tex., and L. G. Preston of Boonesville, Ark., for the first time in his life.

Their parents moved to the United States some 40 years ago, leaving A. L. Preston behind in the custody of an English uncle and aunt. S. R. and L. G. were born after the family reached this country.

TO SPEAK HERE—R. Conroy Scoggins, of Houston, state deputy of Knights of Columbus at 8 o'clock Saturday night in St. Elizabeth's parish hall. The social will be for all men of the parish and their friends, said Anthony L. Borho, grand knight of Lubbock Knights of Columbus.

Texas Wins Second In Safety Contest

AUSTIN, April 16. (AP)—Second-place honors in the Southern group of the National Traffic Safety contest for 1947 went to Texas, the National Safety council informed Gov. Beauford H. Jester yesterday.

Texas competed with 14 other state. It was first in 1942, 1945 and 1946, second in 1938 and 1941, and third in 1939.

Metallic paints, such as shiny white paint used on radiators, may cut down the amount of heat given off, points out the Department of Agriculture. The darker the paint, the more heat given off the radiator, it says.

Hero Accepts National Chairman's Post

Election Of MacArthur Urged By Gen. Jonathan Wainwright

(By The Associated Press)

SAN ANTONIO, April 16.—The hero of Bataan and Corregidor today urged his countrymen to elect Gen. Douglas MacArthur their President.

Retired Gen. Jonahan M. Wainwright, who took over command of American troops in the Philippines from MacArthur, urged the general's election as he accepted the national chairmanship of Veterans-for-MacArthur-for-President clubs.

"I am honored to have any connection with anything which will further the nomination and election of General MacArthur as President of the United States" Wainwright said.

"MacArthur must go down in history as one of the world's greatest captains of all time."

Wainwright, now in the grocery business, accepted the appointment from Warren Wright of Gary's Lake, Ill., national coordinator of the MacArthur-for-President clubs.

Texas Agriculture Commissioner J. E. McDonald and national representatives of the MacArthur movement were guests at a banquet last night.

McDonald, elected to office at a Democrat, had previously declared that he would support MacArthur, who is seeking the GOP presidential nomination.

There were reports that MacArthur Republicans and southern Democrats who oppose the nomination of President Truman would hold a conference to discuss possible joint aims.

Nearly half of the U. S. merchant fleet consists of tankers.

RECIPE

How to make tender, flaky pie crust every time!

Crisco and Crisco's sure-fire pastry method (given below and on the Crisco label, too) will give you flaky, tender pastry every time.

TROPICAL ORANGE PIE

(Yield: one 9" pie)

CRISCO PASTRY:
½ cup Crisco
1½ cups sifted flour
½ tsp. salt
3 tbsps. water

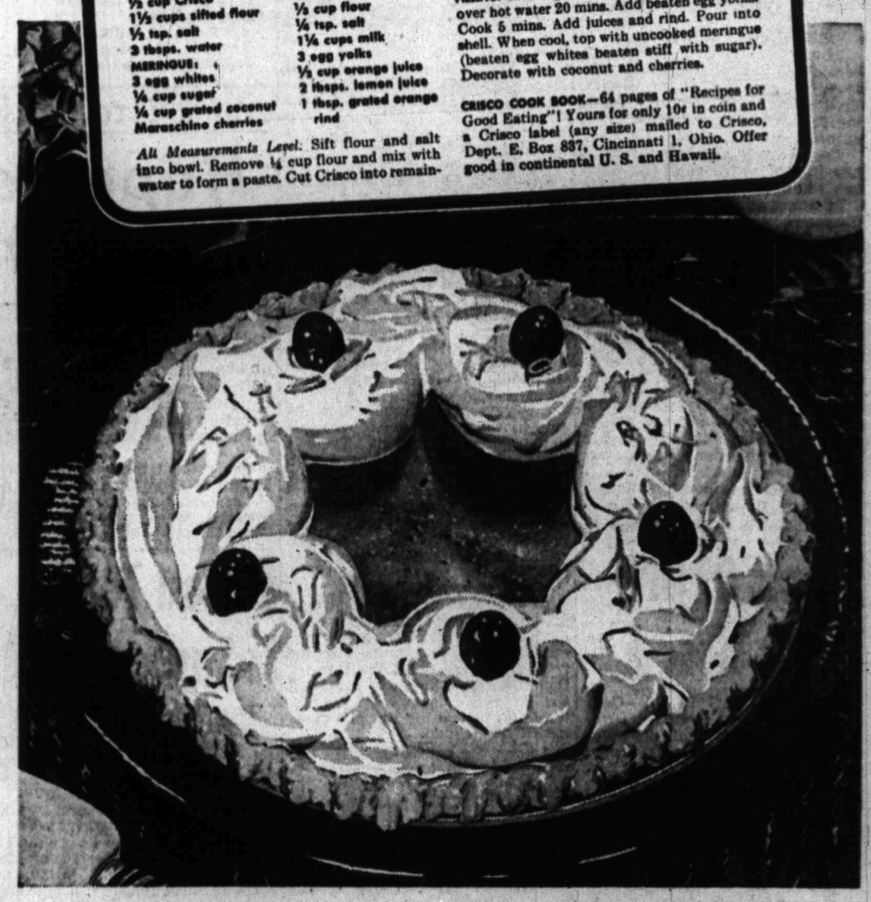

MERINGUE:
3 egg whites
¼ cup sugar
¼ cup grated coconut
Maraschino cherries

FILLING:
¾ cup sugar
½ cup flour
¼ tsp. salt
1¼ cups milk
3 egg yolks
½ cup orange juice
2 tbsps. lemon juice
1 tbsp. grated orange rind

All Measurements Level. Sift flour and salt into bowl. Remove ¼ cup flour and mix with water to form a paste. Cut Crisco into remaining flour until the pieces are the size of small peas. Add flour paste to Crisco-flour mix. Shape into a ball. On a floured board, lightly roll out a circle of dough 12" in diameter and ⅛" thick. Line pie pan. Allow pastry to extend ½" beyond edge. Turn edge under and flute with fingers. Prick pastry closely over bottom of pan. Bake in hot oven (425°F.) 10-12 minutes.

FILLING: Mix sugar, flour, salt and milk. Cook over hot water 20 mins. Add beaten egg yolks. Cook 5 mins. Add juices and rind. Pour into shell. When cool, top with uncooked meringue (beaten egg whites beaten stiff with sugar). Decorate with coconut and cherries.

CRISCO COOK BOOK—64 pages of "Recipes for Good Eating"! Yours for only 10¢ in coin and a Crisco label (any size) mailed to Crisco, Dept. E, Box 837, Cincinnati 1, Ohio. Offer good in continental U. S. and Hawaii.

Sweet meringue...tangy filling...flaky crust—

Goodness, what Goodness!

And goodness, how easy to make! Just follow the recipe above, and your pie will taste as de-lus-cious as it looks. We promise you a crust so-o-o flaky and tender that your family will eat every last bit!

How can we be so sure? Because new, improved Crisco and Crisco's sure-fire pastry method take all the guesswork out of pastry. You just *can't* get soggy or tough crust when you use pure, all-vegetable Crisco and the magic Crisco pastry recipe. *Anybody*; even a beginner, can be sure of flaky, tender, digestible pastry *every* single time!

But don't use Crisco just for pies! Snowy, creamy Crisco is a wonder for turning out light cakes and crisp, *digestible* fried foods. (Yes, 9 out of 10 doctors say Crisco is easy to digest!) Whatever you cook—cakes, pastry or fried foods—you'll find you're a better cook with Crisco!

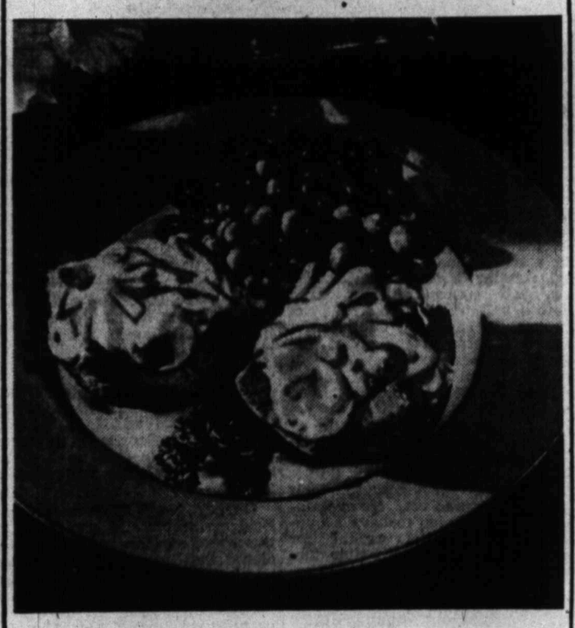

USE CRISCO

IT'S DIGESTIBLE!

Be thrifty—buy the 3-lb. economy size!

TODAY'S "Good Luck" Toast Tip!

Ever try crunchy, rich toast baskets for creamed chicken or tuna? They're delicious . . . spread and toasted with GOOD LUCK Margarine. And easy as a wink!

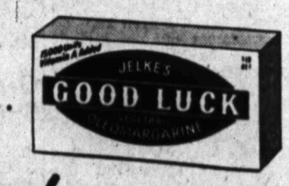

Spread both sides of trimmed bread slices with melted GOOD LUCK Margarine. Arrange bread slices in muffin tins, points up. Toast in hot oven.

Then—when you fill these toasted baskets, make your cream sauce with GOOD LUCK, too!

Here's why GOOD LUCK makes everything taste better. It's made better . . . from sweet skim milk and the clearest, purest vegetable oils, blended in GOOD LUCK'S own special way.

Millions prefer this better margarine for both cooking and table use. Try GOOD LUCK just once, and you'll see why!

VFW Officers Are Installed

Wm. Earl Creel was installed as commander of the local post of the Veterans of Foreign Wars and Mrs. Tom Everheart became president of the V.F.W. auxiliary in joint installation services last night at Fellowship hall of First Christian church.

Creel and Mrs. Everheart assumed the offices being vacated by Tom Everheart and Mrs. Bennie Jackson.

Preston West, a past commander of district 7 of the V.F.W., installed officers of the men's organization, and Mrs. Jackson performed the installation of officers of the auxiliary.

Visitors Attend Services

Aproximately 80 persons were present at the ceremonies, with visitors on hand from Post and Slaton. Refreshments were served, gifts were exchanged among some incoming and outgoing officers of the groups and awards were presented to those persons who secured five or more new members in the recent membership drive.

In addition to Creel, other officers of the V.F.W. who were installed in last night's ceremonies were: senior vice commander, Douglas Adams; junior vice commander, Robert C. Kershner; Quartermaster, Jewell C. Marbut; judge advocate, James H. Bryant; chaplain, Truman E. Bradshaw; surgeon, Medford S. Riley.

Other Officers Listed

Three-year trustee, Preston T. West; post adjutant, Jewell C. Marbut, officer of the day, James W Sanders; patriotic instructor, Manual D. Brooks; post service officer, Bud Myers; post legislator, William Royal Ferguson; guard, George P. Lawley; U. S. color bearer, Marvin L. Lang; bugler, Edward O. Summers; public relations officer, Henry C. Hamblen; sergeant-major, Glen E. Self; quartermaster-sergeant, O. E. Eubanks; post historian, Lynn B. Rowan; and publicity officer, Roger Hively.

Other officers of the auxiliary installed were: senior vice president, Mrs. C. H. McIlroy; junior vice president, Mrs. Christine Moore; secretary, Mrs. Henry C. Hamblen; treasurer, Mrs. Tommy Kidwell; chaplain, Mrs. Hazel Moyer; condustress, Mrs. Lewis B. Coffey; guard, Mrs. Jewell C. Marbut; flag bearer, Mrs. Helen Surrat; banner bearer, Miss Emma Mayo; historian, Maidee Reichling; patriotic instructor, Mrs. Nannie Young; musician, Gladys Harral; three-year trustee, Mrs. W. R. Gainer; trustees, Mrs. Bud Myers and Maidee Reichling; and color bearers, Mrs. Bud Myers, Mrs. Mary Morgan, Mrs. Roy Milam and Grace Moreau.

Demolays Elect New Officers At Meet

Officers for the next four months were elected by DeMolay, in a meeting last night at the First Methodist church.

Elected were: Master Councilor, Jim Bob Bryan, son of Mr. and Mrs. H. E. Bryan of 2408 Thirty-first; senior councilor, Jackie Martyn, son of Mr. and Mrs. C. D. Martyn of 2819 Twenty-fourth; junior councilor, Dorrance Guy, son of Mr. and Mrs. Chas. A. Guy of 2610 Twentieth; scribe, Charles A. Ross, jr., son of Mr. and Mrs. Charles A. Ross, sr., of 2507 Twentieth; and sheriff, John Kallas, son of Mr. and Mrs. Gust Kallas of 2319 Eighth.

In addition, 18 appointive officers were named.

The chapter is sponsored by the Masonic order. Adult leaders include John Ross Bradford, sponsor, and C. O. Boydston, treasurer.

The chapter, which has approximately 75 members, meets each Thursday night at the First Methodist church, with the exception of the first Thursday in the month when the meeting is held in the Masonic hall. Age limits for membership are 14 to 21.

TO SEEK HIKES

DALLAS, April 16. (AP)—Wage hikes of about 25 cents an hour will be sought for union employes of Ford Motor Co., and Braniff International Airways, John W. Vinson United Automobile Workers (CIO) director for a four-state area said here yesterday.

THE SHOW GOES ON—"Anything for a laugh." That's what people always say about circus clowns. They'll knock themselves silly just to give little boys—and big boys, too—a treat they'll always remember. Take Lulu, for instance. Here she is, performing in New York, giving two boys a thrill that comes once in a lifetime. Lulu's husband was a clown, too. They had worked together for 20 years. His name was Albertino. The two were on the radio the night before this picture was taken. And Albertino fell dead at the microphone. But, with circus clowns, it's anything for a laugh. So Lulu covered her tears with greasepaint, and went on with her act.

White Russians In Shanghai In Fear Of Kremlin's Long Memory

(By The Associated Press)

SHANGHAI, April 16 — The White Russians read the news of Chinese Communist successes and an old fear comes to them from across three decades. Many believe the fate they escaped when they fled Russia at the time of the Bolshevik revolution will catch up with them should the Chinese Communists ever gain control of Shanghai.

They feel that the Communists, whom they identify closely with Moscow, will single out their section of Shanghai for special treatment. An estimated 8,000 White Russians live in Shanghai. Life has been mostly a grim fight for mere existence since 1937, when the Japanese came.

Dreads Reds

Among the White Russians are a number of officers who fought against the Bolsheviks. They are sure Moscow has a long memory. "I have a good job here," one former White Russian army officer said. "Shanghai has been kind to me. But I fought for the czar. If the Reds get here. . ."

He paused and drew his finger across his throat.

He is better off than most White Russians. They find employers are not disposed to hire any Russians —White or Red. And they are hit like everyone else by the violent inflation. The White Russians look longingly toward South America for haven. Emigration to the United States is forbidden for most of them, but South American countries present less difficulties.

Money Is Problem

Argentina, Chile and Venezuela, however, all require that those planning to move there have approved guarantors already in residence. One hopeful aspect, White Russians say, is that a group of Ukranian refugees already lives in Buenos Aires and has sufficient influence to help in obtaining visas.

Even with a visa there still is the problem of raising the estimated $800 apiece it will require for the White Russians to ge to a new country and make a start. Manay of the White Russians say they would have left long ago if they could have raised the money. Try to save $800 on an average wage of $100 a month in inflation-ridden Shanghai.

There are only two sets of quintuplets alive today—the Dionne sisters born in Canada in 1934 and the Diligenti quintuplets born in 1943 in Argentina.

Sherman Pool Halls Ordered To Close

SHERMAN, April 16 (AP) — Sheriff Fred Prestage today ordered all pool halls in Grayson county to close.

He said they were a source of growing complaints that they were a resort for truant juveniles and hip pocket bootleggers.

He pointed out that the operation of pool halls is a violation of a state law.

Dawson Commissioner To Be Buried Today

LAMESA, April 16 (Special)— Funeral services were planned for 3 p. m. today in Midway Baptist church for L. I. Dean, 67, member of the Dawson county commissioners court who died in a local hospital at 5:40 a. m. Thursday.

Rev. T. L. Nipp and Rev. E. F. Cole were to officiate at the services and burial was to be in the Lamesa cemetery under direction of Higginbotham Funeral home.

Dean, a prominent member of the Midway community and a Dawson county resident for the past 31 years, suffered a heart attack Tuesday afternoon and remained in critical condition until his death.

A deacon in the Midway Baptist church, he had long been active in church and community affairs. He was county commissioner for a short time about 25 years ago, and was elected county commissioner of Precinct 1 in 146.

Survivors include his wife, Mrs. Ida Dean; four sons, L. I., jr., Jim, Alex and Elmer Dean, all of Lamesa; five daughters, Mrs. Jim Gibson, Mrs. Jack Pelham and Mrs. Gaston Robinson, all of Lamesa, Mrs. Carol White of San Angelo, and Mrs. Bud White, Albuquerque, N. M.; four brothers, A. J., Ellis and Buck Dean, all of Anson, and Claude Dean of Robert Lee; two sisters, Mrs. Annie Love and Mrs. J. A. Glazner, both of Lamesa; and 22 grandchildren and 3 great grandchildren.

Summer Weather Hits Los Angeles Area

LOS ANGELES, April 16. (AP)— Summer-like weather hit Los Angeles with a record yesterday.

The maximum was 89, the hottest April 15 in the weather bureau annals. It was the warmest here since last Oct. 31. The all-time record for the month was 100 on April 23, 1910.

Desert areas were considerably warmer, the Civil Aeronautics administration station at Indio reporting 103, highest since September.

The newspapers, meantime, featured pictures, illustrating five inches of snow in Vermont.

Trial Of Tojo Closed Today

TOKYO, April 16. (U.P.)—The war crimes trial of former Premier Hideki Tojo, who pulled the trigger on Pearl Harbor, and 24 other wartime Japanese leaders ended today after more than 23 months of testimony.

The fate of the 25 Japanese generals, admirals, diplomats and government ministers was placed in the hands of the Far East international military tribunal, which is expected to hand down its verdict in six to eight weeks.

The defendants were charged with 55 war crimes ranging from murder to conspiracy to enslave the world.

Final Plea Made

The final prosecution plea urged the tribunal to make the defendants bear the penalty for the guilt of a choice that plunged half the world into war. The prosecution made no demand for death penalty for any of the defendants.

Two defendants died since the trial opened May 3, 1946. They were Admiral Osami Nagano, former chief of the naval general staff, and Yosuke Matsuoka, Japanese foreign minister in 1940 and 1941.

Red Fox Makes Good Pet For Youngster

CAMDEN, Mich., April 16. (U.P.) —Neighbors marvel at the tamed ways of Sandy, pet red fox of the Lester Laphams.

Lapham took the fox from a litter a year ago and raised it on milk, commercial dog food and bones.

Sandy romps with his young master Jerry Lapham, 7, paws with his forefeet to greet visitors, stands guard inside the family car on trips to town and buries bones like a dog.

Besides his fine bushy tail and sandy red coat, Sandy's only fox-characteristic is his refusal to live in a kennel. He has dug his own tunnel in the ground.

Services Set Today For J. T. Childers

Funeral services for James Thomas Childers, 81, who died at 7:30 p. m. Thursday at the home of a son, H. W. Childers of 1918 Ave. Q, were planned for 3 p. m. today in Rix Funeral home chapel, with Dr. C. A. Bickley, pastor of Asbury Methodist church, officiating.

Rix Funeral home announced burial would be in Memorial Park cemetery.

Mr. Childers had been in ill health the past year. He had lived with the son since retiring from business 15 years ago.

Pallbearers were to be Reuben Loftis, Urban Clark, Joe Ferrell, Howard Baum, W. V. Martin and Cliff Eason.

Survivors include one daughter, Mrs. W. A. Cantrell, Fort Worth; two sons, H. W. Childers, Lubbock, and Tom Childers, Dallas; four brothers, Henry Childers, Ferris, and John, Allen and Ellis Childers, all of Ripley, Miss.; two sisters, Julia Mercer and Mattie Spencer, both of Ripley, Miss.; 14 grandchildren and 14 great grandchildren.

Ammunition Is Sold 36,000 Tons For $1

FRANKFURT, April 16 (AP)—Approximately 36,000 tons of captured German ammunition has been sold to an Italian firm for one dollar, U. S. Army headquarters announced today. The ammunition will be demilitarized for use as scrap metal.

Under decree of the Allied Control Council, all captured ammunition in Germany must be demilitarized by May 1.

YOUR PUDDINGS WILL BE SIMPLY MARVELOUS

With milk the important ingredient, be sure to use Daricraft—because homogenized Daricraft helps you get a smoother better-blended pudding. The taste buds on your tongue encounter many more tiny surfaces of food flavor. But that's only half the story. Daricraft Homogenized Evaporated Milk also has an *improved flavor* that adds great deliciousness. And when you pour on a generous measure of cold Daricraft, or top it with a big mound of Whipped Daricraft (because Daricraft whips easily when thoroughly chilled) your puddings are super-marvelous.

KEEP YOUR CREAM PITCHER FULL OF CHILLED DARICRAFT . . . for use in coffee, on cereals, fruits, and desserts. The improved flavor is delicious. It is economical and safe, and is just naturally good for you. Daricraft whips beautifully when properly chilled. Many doctors recommend it for infant feeding.

Daricraft HOMOGENIZED EVAPORATED MILK

Colombia Starts To Clean Up Wreckage From Bloody Strike

BOGOTA, Colombia, April 16 (AP)—The Colombian Workers confederation proclaimed the end today of a general strike and the government moved to clean up wreckage from last week's bloody uprising.

The nation-wide strike accompanied the revolt, which caused some 300 deaths. Both were touched off by the assassination Friday of liberal party leader Jorge Eliecer Gaitan.

A confederation spokesman said union chiefs met yesterday with liberal party leaders and agreed to give full support to Dario Echandia, a liberal, who was taken into conservative President Mariano Ospina Perez' cabinet as minister of government (interior).

Fires Reported

The U. S. State department said it has unconfirmed reports there were serious oil refinery fires Wednesday in Colombia's Baranca-Bermeja fields. There are a number of United States citizens and American interests there.

The department also said it has reports that a handbill signed "Communists cell No. 1" was circulated in Buenaventura, 200 miles southwest of Bogota. The handbill said "Yankee imperialism wants to convert us into military, political and economic colonies.")

It was difficult to learn how much the strike harmed the national economy. So many businesses and industries were wrecked during the rioting that their operations stopped for several days.

Banks reopened in the battered capital yesterday and laborers were busy cleaning up the rubble-strewn streets. The bodies of many riot victims are believed still under the wreckage of burned-out buildings.

Health authorities issued orders to prevent an outbreak of epidemics. The sale of milk in tin containers was banned.

H. Edward Russell of St. Louis, Mo., in charge of the Caribbean zone of the American Red Cross, has brought seven tons of medical supplies into the city. He conferred with Colombian officials on plans for a registration system to determine the exact number of riot casualties.

The food picture brightened when the national supplies institute announced yesterday there were supplies available in Bogota to feed the populace for 30 days.

Some 40 tons of food have been flown in by the U. S. Army for delegates to the Pan American conference, disrupted by the revolt.

The conference has resumed sessions and now is meeting in a school building in a Bogota suburb.

Delegates agreed to include economic matters among those in a modified agenda. It was decided in committee to approve a simple treaty for economic cooperation among western hemisphere nations and leave the details to an economic conference scheduled to open next September.

State Of Crisis

The nation has been kept in a state of political crisis by the refusal of Gaitan's widow to permit his burial until Ospina Perez resigns the presidency.

Some of the 3,000 prisoners who escaped from Bogota's two jails during the riots are seeking readmittance. Prison officials said some of them claimed they were forced to escape by other prisoners.

The government believes some escaped prisoners helped destroy the office of national identification which contains the records of all criminals."

Alcoholics To Hold Meeting Here Today

The first session of the sectional meeting of members of Alcoholics Anonymous to be held in Lubbock this weekend will be conducted at 8 p. m. today in Senior High school audtiorium, with approximately 1,000 persons expected for the two-day meeting.

Another session will be held at 8 p. m. Saturday in the Junior High school auditorium. Both night meetings are open to the general public.

"Bill W." one of the founders of AA 14 years ago, will be the principal speaker at the open sessions. Three other speakers, including one woman, will also be heard.

The Alcoholics Anonymous movement now has 58,000 active registered members in more than 1,900 groups throughout the country. Registrations for the Lubbock meeting have already been received from points as far away as Denver, Albuquerque, Tulsa, Oklahoma City, Dallas, Houston, San Antonio and El Paso.

Judge Roy Bean's Daughter Is Displeased About Wild Stories

By BOB WEDDLE
United Press Staff Writer

You've heard of Judge Roy Bean and the law west of the Pecos. But the chances are that what you heard is not true.

Mrs. Zulema Bean Voss of Houston, one of two surviving daughters, doesn't like what has been said about her famous father.

"It is," she says, "time for someone to tell the truth about Papa." A fragile little lady with dark eyes and brown hair, she adds, "the only thing about Papa that anybody could object to was that he was a Republican."

Many Stories

Texans have heard hundreds of stories about Judge Bean and his rulings from the bench of his frontier court in the Jersey Lily saloon at Langtry, Valverde county, during the 1880's and 1890's.

Those tales have been published in books, newspapers and magazines, and a film play purporting to be a biography of Judge Bean was produced several years ago.

"All that has been my heartache for years," Mrs. Voss recently told Sigman Byrd, Houston Press reporter. "Especially that picture. It even had Papa shot to death by a Texas Ranger in Del Rio.

Died Natural Death

"That's so ridiculous. Papa died a natural death, of a stroke.

"Then they had Papa burn the homesteaders' crops," said Mrs. Voss. "Why, there weren't any crops to burn around Langtry. There was hardly enough grass for Papa's sheep."

How the idea got started that Judge Bean appointed himself a justice of the peace, Mrs. Voss doesn't know. The record, she says is clear on that point. He was appointed on Aug. 2, 1882, by the ccunty commissioners court and he posted the required 1,000 bond.

Not Hard Man

"Papa was not a hard man at all" she says. "He was the most wonderful, kind and gentle father a girl could have but he was strong, and he was a good judge. That's why people said unkind things about him, I suppose."

Mrs. Laura Mellor of Chicago is the other surviving daughter of the famed frontiersman. The two daughters, whose mother died when they were small children, were reared in a San Antonio convent.

After finishing school, they returned to Langtry to live with their father.

Funeral In Del Rio

Mrs. Voss and her late husband were living in New Orleans when Judge Bean died, and they went to Del Rio for the funeral.

"Everybody had only kind things to say about him then," she recalls.

"It was later that people began trying to outdo each other, telling wild stories about the law west of the Pecos.

"Papa was the law, all right, but he was just a good, kind man with a hard job to do in a rough country."

Atom War Before 1953 Is Foreseen

COPENHAGEN, Denmark, April 16 (AP)—A leading Swedish atom scientist says there is going to be an atom war befor 1953 unless international controls are adopted.

Gunnar Knoes, Swedish engineer and scientist, told a news conference here last night:

"There will be an atom war before 1953 if no international control based on political power and an international detective corps has been established."

Knoes, who is working with Niels Bohr, the Danish atom physicist, and other scientists to create an international atomic bomb control organization, said Russia will possess the bomb before Jan. 1, 1953. By that time, he said, the atom bomb will be so developed that the whole United States can be paralyzed with only one.

WANTED HONOR

After discovering the moons of Jupiter and naming them in honor of his friends, Galileo was offered fame and wealth for life if he would name his next great discovery for Henry IV, King of France.

Stripteaser Says It Was Art And Dance Of Love—Judge Says "No!" Fine: $350

LOS ANGELES, April 16 (AP)—Stripteaser Lili St. Cyr said it was art and an interpretive dance of love but the judge said it was lewd and covered the case with a $350 fine.

Mrs. Anna Biggs, owner-manager of the burlesque theater where the performance was given Dec. 16, was sentenced to 30 days in jail and fined $500 for producing an indecent show

Even Dropped Hands

During the two-day hearing ended yesterday before Municipal Judge Byron J. Walters a young vice squad officer, Cletus O. Smith, testified that Miss St. Cyr "shed practically everything." He said she removed a black veil, a net skirt and a beaded jacket.

Then when she faced the audience, he said, "only her hands kept her from being nude and she quickly dropped them." Furthermore, said he, she then reclined on a table surrounded by silk pillows and did a number of "bumps and grinds."

The prosecutor, Walter Allen, showed the judge some movies taken of the dance. Allen, in arguments, declared that Miss St. Cyr danced in the nude "except for a pair of shoes and some net stockings."

Harem Love Theme

To all of this Miss St. Cyr retorted that her arty dance interpreted a harem love theme and would only be suggestive "to anyone who doesn't understand the story."

"As for being nude, I had on a net brassiere," she said.

"Maybe it's one of those new fangled things, made of liquid which goes on like glass or something," said Allen, a bachelor.

Judge Walters decided the dance was "suggestive, vulgar, and a serious menace to morals of those who viewed it."

Man Who Slapped His Mother Goes To Jail

SIOUX CITY, Ia., April 16 (AP)—Arthur Harsha, 32, who admitted in court today that he slapped his mother, will spend the next 60 days in jail.

Harsha pleaded guilty before municipal Judge George M. Paradise to charges of intoxication and assault and battery in connection with a slapping he administered his mother, Mrs. Lucinda Harsha.

THEY PICKED SHAPE

Vienna rolls are made to represent the Turkish crescent. Two baker boys saved Vienna from the Turks in 1683, and were given the privilege of making rolls in any shape they desired. They chose that of the crescent.

The United States has more than 13,000 elementary school principals.

New Rinso with Solium
—the scientific Sunlight Ingredient
puts sunshine in your wash
...even on rainy days!

That's why ONLY NEW Rinso—
1 WASHES WHITE CLOTHES WHITER THAN BRAND NEW
2 WASHABLE COLORS GET BRIGHTER THAN BRAND NEW

IMAGINE! On rainy days or sunny days . . . whether clothes are hung indoors or out . . . new Rinso with Solium, the scientific Sunlight ingredient, puts a new brilliance in your wash—a brilliance never known before!

White clothes wash whiter *than brand new!* Washable colors look brighter *than brand new!* You'll see yellowed or grayed clothes made whiter *than brand new!*

And the oftener you wash clothes with new Rinso containing Solium, THE WHITER AND BRIGHTER THEY GET. What's more, you'll see these results no matter how hard the water. Get new Rinso containing Solium today.

SOLIUM . . . the miracle Sunlight ingredient . . . is an exclusive development of wartime scientific research by the world-famous laboratories of Lever Brothers Company.

No other soap can give these results because no other soap contains Solium

NEW Rinso WITH SOLIUM . . . SO SAFE FOR CLOTHES . . . SO KIND TO HANDS

Move To Help Ropesville Farmers Get Gas For Plowing Made By Two Lubbock Legislators

Urging action to alleviate the threat of shutdown in farming operations in the Ropesville area, where approximately 30,000 acres of new crop land has been put under the plow in the past three months, State Senator Sterling J. Parrish and State Rep. Preston E. Smith of Lubbock dispatched telegrams Thursday to the offices of Attorney General Price Daniel and the Texas Railroad commission at Austin.

Sending of the telegram followed a survey of the area Thursday by the two men which revealed that farmers have been having difficulty getting gasoline to run their tractors for the past several weeks and face prospects of an even shorter supply in the future.

DANIEL PROMISES ACTION

"Have wired Ropesville parties to determine and advise me whether there is joint action and agreement between stations or distributors in refusing to sell new customers." a telegram from Attorney General Price Daniel to Senator Sterling Parrish and State Rep. Preston Smith said today. "If such collusion exists, it would be in violation of anti-trust laws and we would institute suit to stop same. They are to interview station operators and distributors and advise me so that I will know whether evidence of collusion exists. If so, I will send an assistant there immediately."

Paper Reveals Situation

"Farmers in Ropesville area, comprising 30,000 acres of new land, face critical gasoline shortage and possibility of having to buy 'gray market' gasoline in order to plant crops due to allocation orders to bulk dealers and 'no new customers' rule by major companies over the South Plains area. Urge you use facilities your office toward solution of problem at earliest possible date," the telegram, signed by both men, read.

The shortage was brought to the attention of the two legislators by Troy Morris, editor of the Ropes Plainsman, weekly newspaper, who told of repeated efforts of farmers to secure gasoline in the past few days to no avail.

All three bulk dealers in Ropesville are under short allocations and could use twice as much gasoline as they are getting, the two men found.

A farmer with approximately 250 acres of crop land needs at least 4,000 gallons of gasoline to prepare his land and plant and cultivate his crop. Many farmers had only a few days supply on hand they said Thursday and the Ropesville dealers say their April allocations are already used up.

"If something isn't done, we'll have to start buying 'bootleg' gasoline," Lloyd Arant, who resides 6½ miles northwest of Ropesville, said. "If it rains and everybody starts planting at once, there simply won't be enough gasoline to go around, and some of us won't be able to plant when we should.

"Believe me, it's sure important to get our crops in at the right time after it rains and we've got to have gas to do it," Arant added.

One Ropesville gasoline dealer, who had been out of gas for seven days, got a transport load of 4,040 gallons Wednesday night and by mid-afternoon Thursday, it was practically all apportioned out to his customers. He is scheduled to get only one more load this month.

The "No new customers" rule invoked on dealers by the major oil companies is working an unusual hardship in the Ropesville area because of the Spade lands to the northwest which were put into farms this spring. The land lies from four to 14 miles of Ropesville and most of the new farmers are doing their trading in Ropesville.

Some Use Kerosene

"Some farmers are even going back to their former homes to get gasoline supplies because of the rule," one man said.

Other farmers in the area are operating tractors on kerosene and butane, but reports said these supplies were almost as short as gasoline.

Adding to the need for gasoline is the fact that approximately 50 new irrigation wells have been drilled on the Spade land in the past several weeks and many of the engines running pumps are operated by gasoline. One farmer was denied enough gasoline to "pump out" his well the other day after having completed it.

T. K. Markham, who farms 311 acres seven miles northwest of Ropesville, was in Ropesville Thursday morning asking for gas. He has a 285-gallon storage tank which won't hold enough to allow a complete "going over" of his land. He estimated that he would need more than 2,000 gallons to knife, plant and knife after planting even if he got a stand on the first planting.

"If we have to plant over, of course, we'll need more gasoline," he said.

Others Reported Short

J. C. Pointer, who farms three miles east of Ropesville; Bud Rucker, who has a farm five miles west; Noel Beatty, who resides on the Ropesville project, and O. W. Dalton, who is farming 500 acres five miles northwest of the community, were among those who reported short gasoline supplies. Dalton, who operates two tractors, has only 300 gallons of gasoline on hand. This won't last until he can get half of his crop planted, he said.

E. L. Coble, who is farming the R. B. Gray place, a little farther to the northwest, was operating his tractor on butane Thursday and "ginning right along." He said he hoped the butane supply held out until he got his crop laid by.

One reason farmers were anxious to get into their fields was the fact that some of the land has started blowing and if it isn't plowed, it will get worse and more land will blow.

The two Lubbock men were awaiting a reply from the state officials last night, hoping that something would be forthcoming to provide a greater supply for the area.

MEDAL FOR UNKNOWN SOLDIER — At the White House in Washington, Prince Regent Charles of Belgium, left, presented President Truman with a Belgium War Cross to be awarded the American Unknown Soldier of World War II, who is yet to be chosen.

Perryton Station Is Granted FCC Permit

WASHINGTON, April 16 (U.P.) — The Federal Communications commission has announced a standard grant to the North Plains Broadcasting Co., Perryton, Tex., on 1400 kilocycles with 250 watts power and unlimited broadcasting time.

Partners in the station include Van W. Stewart, publisher of the Ochiltree County Herald, and Carl Ellis, president of the First National bank, Perryton.

Captain's Ashes Are Scattered At Sea

PORT ISABEL, Tex., April 16 (U.P.)—Donald MacLean got his wish today.

The 39-year-old deep sea boat captain died of polio Monday. Before he died, he asked to be buried at sea.

Today, a tug boat chugged out from Port Isabel and scattered MacLean's ashes over the Gulf of Mexico.

Members of the Brazos Santiago Pilots association were honorary pallbearers.

Early Christmas For Returned Army Nurse

DALLAS, April 16. (AP)—Christmas came this week for Capt. Myrtel Drake of the Army nurse corps.

Last Christmas Capt. Drake, a Dallas nurse before she donned khakis, was in cheerless Berlin, Germany.

When she returned home recently after two years in Europe her friends decided to so something about the home Christmases she had missed.

They gave her a Christmas tree party with all the trimmings last night.

BODY IS FOUND

KERMIT, April 16 (U.P.) — Police yesterday found the body of a man identified as J. R. (Buddy) Schott, 25, Eunice, N. M., on the railroad tracks. He apparently had died instantly after a passing train cut his body in half.

Crosbyton Rites Set For Jim Campbell

CROSBYTON, April 16 (Special) Last rites for Jim Campbell, 29, Crosbyton farmer who died about 9:30 p. m. Wednesday in the Crosbyton hospital, were planned for 4 p. m. today at the First Methodist church here, with Rev. Elmer Crabtree, pastor, officiating, assisted by Rev. Carl Grissom, pastor of Crosbyton Baptist church.

Marr Funeral home announced burial would be in Crosbyton cemetery.

Survivors include the wife and four small children; the parents, Mr. and Mrs. John Campbell of Crosbyton; two sisters, Mrs. B. C. Dement of Hereford and Mrs. Cecil Blackwood of Crosbyton and four brothers, Arthur and Roy of Crosbyton, J. W. of Ralls, and Robert, on U. S. government duty in Tokyo.

Pallbearers will be Bill Jones of Ralls, Albert Mankins of Floydada, Jim Blagg, jr., Duard Reed, Grady Evans and Ed Blackwood, all of Crosbyton.

Smuggling Ring Said Smashed

MIAMI, Fla., April 16 (AP)—A ring alleged to have smuggled aliens into the United States by air was reported smashed today.

Arrest of a Miami flight instructor and three New York City Chinese was announced by the department of justice in Washington.

Frank Hornyak, in charge of the immigration border patrol office in Miami, said Edward William Murphy, 33, also known as T. A. Bass, had been arrested on a charge of smuggling and released in $500 bond.

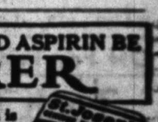

Peter Chu Twai, Chin Toy and Chin Du Foo, arrested in New York on charges of conspiracy, will be brought here for prosecution, Hornyak said.

Murphy admitted, Hornyak said, that he had made five flights from Cuba to Chicago, Philadelphia and New York, bringing in 19 Chinese and four Europeans, for which he was paid $600 to $1,500 each.

Hornyak said the alleged head of the smuggling ring had not yet been arrested but was under close watch by border patrol agents.

Commissioner Watson B. Miller of immigration and naturalization said in Washington the inquiry "may lead to disclosure of other evasions of our immigration laws."

First Arrivals For Saturday Relays Expected Here Today

LUBBOCK EVENING JOURNAL
SPORTS
PAGE SIX. LUBBOCK, TEX. FRIDAY, APRIL 16, 1948

First of 35 West Texas and eastern New Mexico cinder path teams scheduled to compete in the first annual South Plains Relays Saturday at the Texas Tech oval will arrive here this afternoon, meet directors have announced, and the final phase of preparation for the track and field carnival had been completed with the appointment of meet officials.

Four representatives of the sponsoring organizations will be tourney directors, it was announced, with E. J. (Pinkey) Lowrey of the Lubbock Public schools serving as referee; A. C (Stump) Hamilton, City Recreation department, director of field events. Coach Maxey McKnight, representing Texas Technological college, is one of the meet directors but will be out of town at the time of the relays.

Other appointments included J Mule Davis, head timekeeper; Joe Holmes, starter; Bob Parker, official scorer; Bill Floyd, clerk of the course; Wes Youngblood, announcer; G. B. Morris, marshall; and Dell Morgan and Polk Robison, place judges.

Sam Allen will assist Holmes as starter and Davis will be aided in the timekeeping department by Dean W. L. Stangel of Texas Tech, Pat Pattison of the Lubbock High coaching staff and Joe Bob Foster.

Late arrival of entries from San Angelo, Midland and Panhandle boosted the entry list to 35 teams, officials reported, including 350 individual performers. The Midland cinder path squad is headed by versatile Dunny Goode, ace 440-yard dash specialist; while the San Angelo squad boasts Gene Jett, who defeated Odessa's Byron (Santone) Townsend in the high jump event at the District 4-AA meet last weekend.

Teams Arrive Today

Other contestants for team championship honors include Pampa, Amarillo, Plainview, Lubbock, Big Spring, Abilene, Pecos, Seminole, Seagraves, Brownfield, White Deer, Hobbs, N. M., Andrews and Levelland.

At least six of the squads—Abilene, Pampa, Odessa, Pecos, Hobbs and San Angelo—are slated to arrive here this afternoon or early tonight. The rest of the teams will arrive at Tech's oval before the first preliminary gets underway at 9:30 o'clock Saturday morning.

A special luncheon for all coaches and their staffs will be held at noon Saturday in the Yaqui room of the Hilton hotel, officials announced.

Off For Triangular Meet At El Paso

Tech Track, Tennis And Golf Squads Meet Miners, Aggies

Texas Tech track, tennis and golf squads left early this morning for El Paso, where they will engage similar squads from Texas Mines and New Mexico A. and M. Saturday afternoon and night.

The track squad was the largest group to make the trip, Coach Maxey McKnight taking 18 men along with him. Two trackmen from West Texas State Teachers college joined the Red Raiders last night and will take part in the track meet.

Reynolds Seen As Spark

Spearheading the cindermen from Tech will be Charley Reynolds, Border Conference sprint champion. The Raiders look for him to capture the century, the 220-yard dash and gain points on the sprint and medley mile relay teams.

Backing him up will be Ed Clepper in the high hurdles and Charles Pinnell in the high jump. Clepper and Pinnell also will take part in other track and field events to make the Raiders stronger.

In addition to these men, Coach McKnight also is taking Ernest and Edgar Hawkins, Seth Murphey, Moon Mullins, Costin Bufkin, Joe and Ed Wilson, Walter Hobgood, Doug Barber, Dingy Davis, Henry Briscoe, Jim Cruser and Sebron Hall.

Net Squad Revamped

A shake-up has marked the Tech tennis team, with Shaff DeGaish, one of the leading candidates for quarterback on the Raider football team, leaving the squad. Ed Scudday, who has been showing continued improvement all spring, beat Joe Wheatley in a trial match this week and has been selected as the number four man.

The Raiders will be headed by Jake Broyles and Glen Ivy, two of the top men in the Southwest, and Carl Schmidt will take over the number three spot.

The Tech golf team will enter its sixth meet of the year at full strength, with Elmer McKinney the chief hope, backed closely by Jerr. Stoltz. Both have been consistent this spring and give the most promise of returning points.

The other two men on the squad also have been showing improvement and should give the Raiders a strong four-man team. In addition to McKinney and Stoltz, the links squad will include E. C. Feagan and Ted Forsythe.

Westerners To Play Levelland

Levelland High's Lobo nine will invade the Champan field diamond at 3:30 o'clock this afternoon for a return practice tilt with the Lubbock Westerner baseball team, winner of the initial clash Thursday afternoon at Levelland, 12-3.

The Westerners combined three hits and four Levelland errors to push six runs across the plate in the first inning of the game yesterday, then coasted to the triumph behind the hurling of Lefty Jackie Martin and Morris Turner.

Lobo relieter Dwain Dodson held the visitors in check during the second and third frames, but the Westerners unleashed another scoring splurge in the fourth stanza to clinch the victory.

Galey, Wilson Connect

Second-sacker Charles Galey and Outfielder Jim Wilson led the Lubbock crew at the plate with doubles, although safe blows were scattered through the Westerner lineup.

Two Westerner regulars—Pitched Denny Davidson and Outfielder Jack Alderson — were benched by injuries. Davidson has an infected hand and Alderson is out of action with an ankle injury.

The starting lineup for the Westerners included Bill Wylie, catcher; Jackie Martin, pitcher; Dorrance Guy, first base; Charles Galey, second base; Billy Tatum, shortstop; Bobby Griffin, third base; Dwight Moore, left field; Bob Rooker, center field; and Jim Wilson, right field.

Starters for Levelland were W. A. Wise, catcher; Biff Warren, first base; Larry Roberts, shortstop; J. T. Pugh, second base; Bobby Hart, third base; Jack Adudell, left field; Dwain Dodson, center field; and E. C. Seifert, right field.

A device which automatically adds distilled water to an automobile battery has been invented.

The Standings

YESTERDAY'S RESULTS
Texas League

Dallas 6; Tulsa 4.
Beaumont 1; Houston 0.
Oklahoma City 7; Fort Worth 7.
Shreveport 5; San Antonio 3.

THE STANDINGS

If pockets on Junior's trousers or Dad's work clothes tear at the top corners, stitch them with a diagonal stitch when they are new. Start from the top corner and proceed southeast or westward as the case may be for ¼ to ½ inch and then straight down until it meets the first cross row of stitching.

Golf In Technicolor Now Actuality

Multi-Colored Tee, Fairway Marker System Is Perfected

BORGER, April 16. (U.P.)—Golf in technicolor became an actuality today.

The 5,980-yard Huber golf course here in the middle of the wind-swept Texas Panhandle inaugurated use of the multi-colored tee and fairway marker system known as "enchanted golf" and designed to make the game a bit easier for the duffer and strangers to the course.

Invented by Gordon Burch after hearing his golfer friends complain there was nothing new in golf, enchanted golf uses brilliant colors to designate distances from the greens and a simple (now that you think of it) tee marker that tells you all you need to know about that particular hole.

Colors Indicate Distance

Burch, who manufactures glass marble torpedoes for oil and gas wells, chose red, white and blue as his code colors—red stands for 100 yards, white for 200 yards and blue for 300 yards. Combinations of these colors are used to indicate distances over 300 yards.

Dual tee markers are cylindrical in shape and carry colored bands to show the yardage of the hole, an arrow pointing the direction, a colored graph to show the layout (whether dog leg, hills, ravins, water hole, etc.) and a colored tasselstring to show wind direction. For odd yards, Burch utilizes a blank square to designate 25 yards, a circle for 10 yards and a triagle for 5 yards.

Fo rexample, a tee marker with a red and blue band, a square and a circle would mean that the hole was 435 yards in length.

Watch For Colors

If the golfer's drive should travel only 135 yards from the tee, he could look for a fairway marker and, seeing that it was blue, know that he still was 300 yards from the green. Yellow markers show the halfway points between the 100-yard markers.

Burch, who devised the system as a hobby, has made no plans to market his invention, but said today that word of his undertaking already had spread and that he had received requests for fuller details from several sections of the country.

Joe Houck, professional at the Huber course, owned by the Huber Oil company, doesn't think enchanted golf will materially aid the professionals.

"But it should improve the game of ordinary, every day players considerably," he said.

Los Angeles Team In Bowling Lead

DALLAS, April 16. (AP)—Ohren & Sons of Los Angeles is the only new leader today in the women's international bowling congress.

The California five grabbed the lead in the regular team division last night with a 2,615, displacing the Longview, Texas., Independents.

Janem Moss and Eleanore Bunger, Corpus Christi, stayed atop the doubles division with 1,123.

Leaders are:

Team (regular)—Ohren & Sons, Los Angeles, 2,165; Independents, Longview, Tex., 2,480.

Singles—Hazele Steele, Madison, Wis., 609; Virginia Bottorff, Syracuse, N. Y., 607; Eleanor Bunger, Corpus Christi, 603.

Doubles—Moss-Bunger, Corpus Christi, 1,123.

Navy Leads In NAAU Scraps

HEMPSTEAD, N. Y., April 16 (AP) — A navy squad recruited from the far corners of the world held the stoutest team position as the National Amateur Athletic Union wrestling championships entered the second day of tussling today at Hofstra college.

The 20-man navy outfit, composed of ten officers and ten enlisted men chalked up 13 victories by falls and five by decisions in the long opening session yesterday.

Leaders In Tourney

The defending team titlist, Cornell college of Mt. Vernon, Iowa, emerged with seven falls and two decisions. Oklahoma A. and M. and Southwestern Tech of Wetherford, Okla., each had six falls and two decisions while Auburn had five falls.

The tournament, a test for the Olympic wrestling tryouts later this month at Iowa State, moved through the first round and most of the second yesterday. Finals are set for Saturday.

The team championship is determined on points, five going to the champion, three to the runner-up, and one each to the third and fourth place men.

The individual defending champions all won as expected, but two 1947 runners-up met defeat. In the most spectacular match of opening day, Ed Miller, Ithaca, N. Y., 1947 king at 145 pounds, bested last year's second man, Rodger Snook of Cornell college, by a unanimous decision in the second reund.

In the first round, Leland Merrill of the New York Athletic club won a decision over Dr. M. A. Northup of the San Francisco Athletic club, runnerup last year at 165 pounds.

SMU And A&M Meet For Second Place

(By The Associated Press)

Southern Methodist university and Texas A. and M. tangle for clear title to second place in the Southwest conference baseball race tonight in Dallas.

In the only other game slated today, Rice meets Texas Christian university at Fort Worth.

Pace - setting Texas knocked SMU out of a first place tie and into a second place deadlock with A. and M. Tuesday.

Tomorrow, Texas and Baylor tangle at Waco, while Rice-TCU and SMN--A. and M. meet again.

Italian talc, noted for its high purity, is almost 99 per cent magnesium silicate.

Between . . . The Lines

— By JOE KELLY —

It's hard to believe that one ball club can do such an about face in the course of daily ball games. Tuesday night Lubbock wins 14-1; Wednesday night they lose 16-1; and Thursday night they win 7-4. It's typical of early season baseball and not unlike regular season play. And much of the difference in the scores is attributable to the pitching, which also is apt to be hot and cold.

• • •

Last night we had a well-pitched game for a change, with Cotton Russell giving the Big Spring batters little to hit. Only one extra-base blow was gleaned off his slants and that was a triple after things were under control in the ninth. The rest of the time he had the situation well in hand. Russell still has much to learn, as he would be the first to admit, but his performance last night definitely stamps him as one of the most promising of the Hubber staff. He has a sense of humor, shows remarkable poise for a high school ex and certainly is willing to learn. We'll see more of him.

• • •

It was unfortunate that they had the rhubarb last night, for probably Perez had no intention of beaning Russell and we doubt that the latter's first pitch to Perez the next inning was aimed to hit him. It's baseball, of course, to take those close pitches with a flare up of rage, but when Perez started for the mound with his bat, it was going too far. Manager Jackie Sullivan lost no time getting over to the scene and Floyd Walker also moved in rapidly. Fortunately, no blows were struck and the incident died out.

• • •

We were talking to Red Norman, the plate umpire, after the game. He was laughing about the ruckus and the way it broke up. He said that things looked bad for a few minutes, with the hot blooded Mexicans considerably perturbed. He did the only thing he knew, using the only Spanish at his grasp. Motioning for the players to move back, Red kept chanting at them "buenos noches! buenos noches." Suprisingly, it worked. The players suddenly began laughing and went back to the bench, the game went on.

• • •

Which seems to be a good place to comment on the umpiring in these exhibition games. Both Norman and Curtis Barrett have been doing a good job, calling them impartially and generally satisfying both teams. We disagreed on a decision last night, when Frank Boothe hit a high infield fly. We thought the ball touched a player before going in foul territory. We apologize at this time, after talking to both umps. And something the four or five hundred fans didn't know, Norman's right arm was swollen almost twice normal from a ball that hit him midway through the game. He was in pain through the contest and the arm still bothered him when he left the park.

• • •

The Hubbers didn't make an error last night, the first time this season the club has gone through a nine-inning tilt free of a damaging mark. Chick Fowler and Charles Scarborough, outfielders, were the only two men who didn't have an assist. Newt Secrest handled 11 chances, Floyd Walker handled eight, Jack Haynes handled five and Frank Boothe handled four to lead the Hubbers. Haynes, incidentally, did a fine task of subbing for the injured Al Smith. He handled four ground balls nicely and was alert in covering second to nip Echiavarri coming down from second on a hit to rightfield.

• • •

THE ROUNDUP: Manager Pat Stasey's face ought to be red today after Secrest nipped him off first with a good peg to Walker . . . LaVern Roach is the subject of four photo and four news pages in The Leatherneck, official Marine Corps magazine, for April . . . Five of the Hubbers' eight hits last night were for extra bases and they were good for a total of 17 bases . . . Boothe, before the game last night, said that there were only two things wrong with his batting: "I don't hit the ball when I swing and when I swing, I don't hit the ball" . . . Marshall Gettys, Tech tackle, caught a hip pad just below the lip, necessitating eight stitches. The next day he wore a nose guard for protection and that jammed into his jaw, just below his lip, calling for four stitches. Now he's watching practice from the sidelines . . . The showing of Shaff DeGaish, erstwhile tennis player, is the sensation of the Tech spring football season. Other quarterbacks will have to be good to beat him out . . . Don't forget that Texas Tech rodeo at the Fairgrounds today and tomorrow . . . See you tonight at Rosenthal Field.

Dallas Grabs League Lead.

(By The United Press)

The Dallas Rebels today held two Texas league victories good enough for a slight lead in the two-day-old league race.

The Rebels turned back the Tulsa Oilers, 6-4, last night in Dallas to make a complete sweep of their opening series.

Beaumont beat Houston, 2-1, in ten innings at Beaumont. Shreveport at San Antonio and Oklahoma City at Fort Worth battled to ties in games that had to be called to enable the teams to catch trains.

Orrell Goes The Route

Joe Orrell went the distance for Dallas, giving up 10 hits. He got himself into trouble occasionally but got right out of danger again. Two snappy double-plays helped. The game featured home runs by catcher Pete Deem of Dallas and second baseman Jim Shilling of Tulsa. Harry Perkowski started on the mound for Tulsa and gave up 5 runs before John Stone took over in the fourth.

A single by left fielder Bill White batted in the winning run as the Beaumont Exporters trimmed the Houston Buffs in the tenth inning. The victory squared the series at a win apiece.

The Oklahoma City Indians and Fort Worth Cats battled to a 7-7 draw that was called at the end of the seventh inning. The Indians rallied in the late innings, being helped along by a total of six Cat errors. Fort Worth got 13 hits; Oklahoma City, 11.

Two Homers Scored

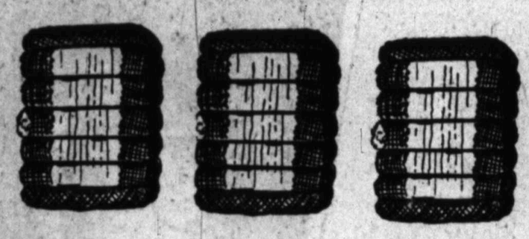

Right fielder George Corona of the San Antonio Missions became the first league player to hit two home runs this season. He slapped out four-basers in the 2nd and 3rd innings last night, each time with a man on base. But Corona's efforts weren't enough as San Antonio and Shreveport fought to a 5-5 tie. The game was called at the end of eight innings.

Tonight, Dallas and Fort Worth begin an invasion of Oklahoma, playing at Oklahoma City and Tulsa, respectively. The other four teams merely move the sites of their series.

All four home cities—Oklahoma City, Tulsa, Shreveport and Houston—will be battling for the opening day attendance trophy tonight. Thus far the largest opening day crowd was at Fort Worth, where an estimated 9,000 attended Wednesday's opener. Shreveport won the trophy last year.

Hubs Beat Broncs, Play Pampa Here

Big Marvin Alexander, six foot, two-inch hurler from Dallas, will make his first appearance on the mound for the Hubbers tonight at 8, when the Pampa Oilers return for their second exhibition game of the spring season at Rosenthal Field.

If Virgil Richardson, the hefty first baseman, has returned from his Nebraska home in time, he will relieve Floyd Walker of initial sack duties and the latter will do the receiving.

Seventh On Home Lot

This will be the seventh exhibition game the Hubbers have played on their home grounds and they will be after their sixth victory. The Hub City crew has scored wins over Pampa, Odessa and Big Spring here, with only Amarillo able to defeat Manager Jackie Sullivan's lads.

Last night the Hubbers spotted the Big Spring Broncos two runs in the first inning and then, behind the steady six-hit hurling of Rookie Billy George "Cotton" Russell, the Hubbers pounded out eight hits good for a 7-4 victory.

Visitors Start Early

The visitors didn't waste any time in getting two runs across the plate in the first frame last night. Ace Mendez, leading off was hit, George Lopez singled him to third and Mendez scored on a wild pitch. Lopez came in on Jake McClain's single to right.

Lubbock rocked along for two innings on one hit, but finally reached Frank Perez for four hits and five runs. Russell started things off with a booming double to centerfield. Haynes, up from Odessa to relieve the injured Al Smith, poked out a single to left sending Russell to third. And both runners scored on Manager Jackie Sullivan's lofty triple to center field. Floyd Walker drew a pass and Boothe, with the count three and one, drove the next pitch over the rightfield wall.

Two bases on balls and a long line single to rightfield handed the Bronchs a run in the sixth, which was nullified by Haynes for Lubbock, the rookie hitting the first pitch over the left field netting.

Boothe Gets Homer

Boothe put the Hubbers another run in front the next inning, when he slammed into a one and one pitch for a long smash over the centerfield wall.

Traspuesto and Rodriquez teamed to get this one back in the first half of the ninth. Traspuesto was hit by Russell, stole second, went to third on an infield out and scored on a pinch hit triple by Rodriquez.

Russell tightened at this point and induced Mendez to strikeout, ending the game.

DIAMOND DUST: Hubber homers were impartial, one going over each wall. . . . Chick Fowler made two brilliant catches on line drives, one in the eighth and one in the ninth. . . . Boothe said he was in a slump, but that was before the game. . . . Perez beaned Russell in the fourth and, when Russell's first pitch to Perez in the fifth broke behind him, he started for the mound with his bat. . . . Both teams milled on the field and the rhubarb was broken up. . . . The only error of the game came when Traspuesto and Echiavarri both went for a foul fly near the screen. . . . Boothe displayed a great throwing arm in the second inning . . . And Walker's chatter is one of the most helpful things in the infield play. . . .

The box score:

BIG SPRING	AB	R	H	O	A	E

Umpires Gather At Dallas For Clinic

DALLAS, April 16. (AP) — Between forty and fifty umpires from the Big State, Lone Star, Evangeline, West Texas-New Mexico, Longhorn and Sooner baseball leagues are expected here today for the first session of a three-day umpires clinic sponsored by the National Association of Professional Baseball Leagues.

These circuits comprise zone 6 of the minor league organization. George Johnson of the national body will be in charge of the clinic.

Decathlon To Open 23rd Kansas Relays

LAWRENCE, Kas., April 16. (AP)—The 23rd annual Kansas relays—one of the major trials for the United States Olympic team candidates—opens today with the gruelling decathlon.

The favorite was Irvin (Moon) Mondschein of New York university who has three national A. A. U. championships to his credit.

Half the decathlon events—broad jump, 100 meter dash, shot put, high jump and 400 meter run—were scheduled today.

Also entered in the event were Bob Goode, Texas A. and M., and Charles Baker, Arkansas.

TOURNEY IN FINALS

HARLINGEN, April 16. (U.P.)—Mrs. W. M. Morgan, of Baytown, Texas public links champion, was favored to beat Mrs. Jack Watson of Harlingen in the 13th annual valley women's invitational golf tournament today.

Jeweler, Laundry Teams Take Lead

YOUNGEST PREXY — John E. Brown, Jr., is the youngest university president in the nation, after his elevation to the presidency of John Brown University, Siloam Springs, Ark. Brown is only 26.

Leadership in the South Plains Softball league went to Bluebonnet - Sunbeam Laundries and Thomas Jewelers last night as each posted their second victories in as many starts.

The twin bill, unreeled at Jumbo Webster field, saw the Jewelers blast Golden Light Coffee, 12-1, in the first tilt, and the Sunbeamers take Baldridge Bakery, 6-4, in the nightcap.

In the initial game, the Sunbeamers scored their second victory in as many league starts, downing Baldridge Bakery, 6-4.

Sunbeamers, Jewelers Lead

The end of first week of league play finds Bluebonnet-Sunbeam and Thomas Jewelers with two wins each, no losses, and Golden Light and Cloverlake sharing second-place with one loss each, no wins. Baldridge is in cellar position with two losses in two starts.

The league's first home run came in the bottom half of the fifth frame in the Baldridge-Sunbeam game, with Sunbeamers' Shortstop Ralph Earhart getting the circuit clout. In the nightcap, Leftfielder Jim Reiger poled a fourth-inning four-bagger for Thomas Jewelers.

PLAY SLATED TUESDAY

Play will be resumed in the South Plains Softball league at 8 o'clock Tuesday night at Jumbo-Webster field, featuring Cloverlake vs Baldridge and Bluebonnet vs Golden Light Coffee. In the Texas Softball league, Baldridge plays two games with a representative team from Monahans at Jumbo-Webster field Saturday night in two of that league's season openers. In the other season opener, Bluebonnet-Sunbeam clashes with a San Angelo nine at San Angelo in a doubleheader.

Noel Leads Hurlers

Jackie Neel, on the mound for Bluebonnet last night, struck out 13 men to run his strikeout total for 14 innings to 32, far ahead of totals established in that department by other league hurlers so far.

Best all-around mound performance in a single game, however, belongs to Willie Holder, whose one-hit masterpiece against Golden Light last night was coupled with two strike outs, no free bases.

Rightfielder George Jackson, playing for Thomas Jewelers, kept several Golden Light sluggers from reaching first by his recovery of line drives deep into right field territory.

Line scores:

Baldridge	300	000	1	4	4	2
Bluebonnet	101	031	x	6	11	3

Hubbard and Overbeck; Neel and W. James.

Thos. Jewelers	015	240	0	12	13	4
Golden Light	000	010	0	1	1	9

Holder and Billy Kelley; George Young and George Glikerson.

Yankees, Bums Picked To Win

By LEO H. PETERSON
United Press Sports Editor

NEW YORK, April 16.—Save up some nickles—the fare may be a dime by then—for another subway world series next October.

That's how the 1948 major league pennant races shape up to this observer, who is picking last year's champions to repeat—the Dodgers in the National and the Yankees in the American.

Here's how I think they will finish:

National	American
Brooklyn	New York
St. Louis	Boston
Boston	Cleveland
Cincinnati	Detroit
New York	Philadelphia
Pittsburgh	Washington
Chicago	Chicago
Philadelphia	St. Louis

Goes Against Odds

That's picking against the odds for the Cardinals are favored in the official betting lists at 8 to 5 with the Braves at 2 to 1 and the Dodgers held at 3 to 1. In the American the Yankees and Red Sox are co-favorites.

It could be two of the closest pennant races in history. Only the Cubs and Phillies in the national and the Senators, White Sox and Browns in the American seem out of it. There is hope for all others.

The Dodgers are my National league choice because, as last year, they will have the strongest bench in baseball. They can have nearly any one of their key players hurt and come up with a substitue just as good. They have the balance it takes, despite the absence of an outstanding clean-up hitter. There are no stronger arms than those possessed by the Dodger hurlers. Last year there were no wilder ones, either, but the Brooklyn hurling kids show promise of harnessing their stuff better this season.

Trouble Seen For Cards

The Cardinals are likely to run into the same trouble as last year—mediocre catching and lack of reserves. Manager Eddie Dyer maintains that last year the Cardinals had the best nine man ball club in the league and there were few who disputed his claim. But that's the way his club shapes up again this season—if a key man is hurt there isn't an adequate replacement available.

Manager Bucky Harris claims his Yankees are 25 per cent stronger than they were last year and backs it up with imposing evidence. We agree with him and thus pick the Yankees over the Red Hughson may not be able to come back and that Mickey Harris and Dave Ferriss still are question marks mitigated against selecting the Red Sox. Joe McCarthy can't hope to win the pennant unless two of these hurlers come back to their 1946 form. The chances are against it.

The Yankees also have it over the Red Sox in reserve power, just as the Dodgers have it over the Cardinals.

Japanese War Brides Barred In Australia

CANBERRA, Australia, April 16 (U.P.)—No Australian, whether soldier or civilian, who marries a Japanese woman will be allowed to bring her to Australia, the government has ruled.

The federal minister for immigration, A. A. Calwell, said "if an Australian soldier wants to live with the Japanese wife, he could do so in Japan."

He said "no obstacles will be placed in his way of getting passport facilities to leave Australia."

"No Australian woman whose son or husband is buried in New Guinea or some other Pacific battlefield will have her feelings outraged by any Australian who would flaunt a Japanese woman before her eyes," Calwell said.

Crystal Sets Are Popular In Soviet

MOSCOW, April 16 (AP) — The crystal detector receiving set is back again in the Soviet Union.

Many U. S. boys have made crystal radio receivers. But there are Russian farms without electricity and it is impossible to manufacture tube sets in a few years sufficient to put one in every home here. So Soviet inventors have turned to the same principle at the "one you made yourself." But it has some improvements which make it almost unrecognizable.

New sets have a "constant" crystal which does not require continual readjustment. And the design has been so improved that some models use a small loud speaker. The range is also broader.

Young amateur radio enthusiasts in Pioneer clubs and Komsomol clubs manufacture the sets.

Nobody here lenvisions crystal sets as a permanent substitute for radios using tubes. But the local attitude is that it will do until it is possible to meet the demand for tube sets.

Butterflies are considered a delicacy by native tribes in many regions of the world.

THEY SHOUT FOR 'LEATH TO TRUMAN AND THE POPE"—Rain didn't dampen the spirits of the 3000 women who staged this Communist demonstration in San Giacomo Square, Trieste. Shouts of "Death to Truman," "Death to the Pope," and "Down with Anglo-Americans" interrupted Red speakers. (Photo by Julius Humi, NEA-Acme staff correspondent.)

"Again We Say Without Fear Of Successful Contradiction" --- Cliches Being Dusted Off

By WILLIAM J. CONWAY
Associated Press Staff Writer

CHICAGO, April 16 — You'll soon be hearing the old familiar words and phrases.

Political orators will "point with pride" and "view with alarm."

"Nothing under the canopy of heaven" can stop them.

For every campaign year is an open season for cliches "from the rock ribbed coast of Maine to the sunny slopes of California."

They're Ready

"Look at the record" — that reaches back to the "founding fathers."

A man decides to "toss his hat in the ring." His "worthy opponent" does likeswise.

One will "stand on his record." Don't he argues, "swap horses in mid-stream." Another says "it is time for a change," and a new hand "must take the helm of the ship of state."

"Both 'stand four square' for "government of the people, by the people and for the people." Both regard "public office as a public trust." They praise "sons of the soil." They remember "the forgotten man."

Not even "the generations still unborn," are forgotten. Thousands of candidates "take the stump" to "carry their case" to the people. They pause only to "mend their fences."

"Pot Boils"

The "political pot boils." Issues "transcend party lines" but they are "joined" anyway. The "rising tide of public opinion" springs from the "grass roots" and sweeps on "like a prairie fire." The battle of ballots" rages.

Somebody "hurls a bombshell" at the "lords of labor." Somebody else "turns his guns" on the "big corporations." That starts the "mudslinging" by the "smear brigades."

Now it's a "political battle royal." Everybody's in it—"fat cats," "starry-eyed visionaries," the "vested interests," "tories," "fellow travelers," "back room bosses," "reactionaries," "parlor pinks" the "machine" and the "courthouse crowd."

They're "playing politics with human misery." The "party line" is busy. There are "political footballs," "canards" and "eleventh hour roorbacks."

Others Cited

Somebody leaves the door ajar." A "wheelhorse" emerges from a "smoke filled room" and "drags a red herring across the trail."

But whatever transpires in the "whispering campaign," it is almost certain to be "a lie fabricated on the whole cloth." Or "a stench in the nostrils of all decent citizens." Or "a smoke screen, a s..are and a hollow mockery."

It may smack of "regimentation," but the voters "march to the polls." They will "exercise their franchise" and "write the verdict."

The winners receive a "mandate." The losers "bow to the will of the majority."

Deaths Last Night

DR. ALFRED C. LANE

CAMBRIDGE, Mass.—Dr. Alfred C. Lane, 85, a former president of the Geological Society of America, who 22 years ago was credited with inaugurating an international plan for the exchange of scientific information on smashing the atom.

THOMAS A. MELLON

PHILADELPHIA.—Thomas Alexander Mellon, 74, retired president of the Mellon-Stuart Co., and nephew of the late Andrew Mellon, noted banker, philanthropist and former Secretary of the Treasury.

VINCENT VALENTINI

BALTIMORE.—Vincent Valentini, 52, New York script writer for the movies and vaudeville. He was born in Baltimore.

Wild Chase Ends In Arrest Of Driver

WICHITA, Kas., April 16 (U.P.)—A Wichita traffic violator went to extremes to try to avoid a fine.

With police in pursuit,, he zigzagged on a busy street, running red lights and stop signs and once going through a filling station drive to cut a corner.

Finally he drove into a garage, going up the winding ramps to the 10th and top floor and leaving his car on a grease rack.

Officers found the car but no driver. They learned he had slid down on "firehouse pole" garage employes use to the sixth floor then down a second to the ground floor.

But all to no avail. Traced to his home by his auto license tag, the man was arrested, taken to court and fined.

Game Seen As Series Preview

BOSTON, April 16. (AP)—A series that many fans—and some experts also—think will be a preview of next fall's world series will begin today at Braves field when the Boston National leaguers entertain the rival American league Red Sox.

The teams have met twice in their Florida training camps, the Braves winning 4-1 at Bradenton and the Sox 3-1 at Sarasota.

The "home" team, with several new men in uniform, will be the strongest and best balanced group of warriors since 1914 when a world championship last was won by a Boston National league club.

Sox Under New Skipper

The "visiting" Sox will make their first Boston appearance under new manager Joe McCarthy who, like Tribal pilot Billy Southworth, has a terrific will to win.

City series also open in New York and Chicago today.

The inter-league rivalries will be in full swing by tomorrow when the two St. Louis clubs and the Philadelphia teams begin their sets.

In New York it's a review of the 1947 world series with the Yankees entertaining the Brooklyn Dodgers in the first of three games.

Pitchers Are Chosen

Frank Shea and Allie Reynolds will work for the Bronx bombers while Lefty Joe Hatten and Rex Barney toil for Brooklyn. The contest was scheduled originally for the Dodgers' Ebbets field, but a resodding job there is still incomplete.

In Chicago it's the North Side vs. the South Side with the Cubs playing host to the White Sox for the first of three. Hank Borowy will start for the National leaguers against Joe Haynes.

The two clubs played seven games during spring training on the west coast with the Cubs gaining a 4-3 advantage.

Notes from other camps:

ATHLETICS HUSTLING

BALTIMORE, April 16. (AP)—Connie Mack says he's convinced it's more than coincidence that his Philadelphia Athletics have been hustling faster and hitting harder since Ferris Fain rejoined the team.

"He is a much more valuable player than any box score could show," said Mack. "Perhaps that is the reason he was with San Francisco so long before being called to the majors." The first baseman reported late after a knee operation this winter.

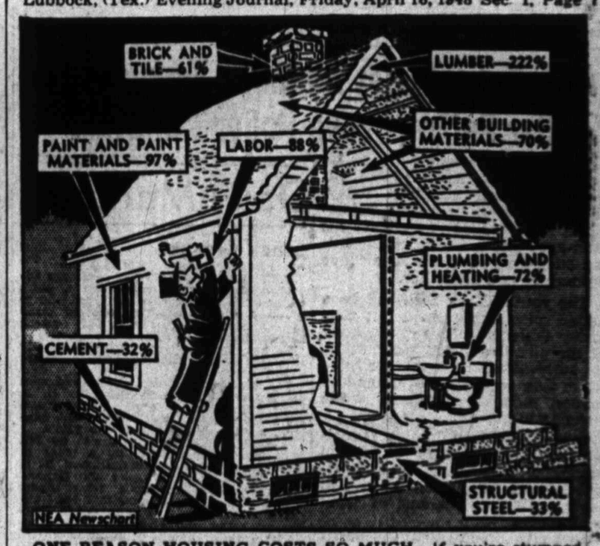

JANSEN TO TEST ARM

OWENSBORO, Ky., April 16. (AP)—Larry Jansen, expected to be the opening day pitcher for the New York Giants, will give his arm a final test today against the Cleveland Indians. Jansen has yet to go a full nine innings. Sheldon "Available" Jones, who blanked the Indians on four hits yesterday, will probably get the starting nod if Jansen doesn't impress today.

Even Telephone Is Taken In Burglary

SHERMAN, April 16 (U.P.) — Police today hunted the "thief complete."

When service station operator R. W. Rodriguez sought to telephone police yesterday after discovering that his station had been burglarized, he found that the thief also had taken the telephone.

ONE REASON HOUSING COSTS SO MUCH—If you're stumped by the sky-high prices of homes today, this chart may give you a partial answer. According to the Bureau of Labor Statistics, the cost of all building materials jumped 107 per cent between Aug., 1939, and Oct., 1947, the latest figures available. Percentage rises for individual items are shown on the chart.

Peace Stalled In Costa Rica

SAN JOSE, Costa Rica, April 16. (AP)—Peace negotiations in Costa Rica's civil war were stalled today.

The Rev. Father Benjamin Nunez, representing rebel leader Jose Figueres who outlined peace terms, left San Jose abruptly yesterday and returned to Cartago. Cartago, 15 miles south of here, is Costa Rica's second largest city and it is reported figueres has set up a provisional government there.

Fighting Slackens

No announcement about Father Nunez' departure came from diplomatic representatives helping to arrange a peace, nor from the government.

Fighting in the six-week-old civil war was reported slackened on all fronts.

Figueres led the revolt when congress annulled the presidential election of Otilio Ulate Blanco on fraud charges brought by his opponent, Rafael Calderon Guardia. Figueres backed Ulate's candidacy.

(Dispatches from Mexico City said Gen. Ren Picado Michalski, Costa Rican security (war) minister and brother of President Teodoro Picado Michalski, had arrived there enroute from the United States to San Jose.)

Russians Say Planes Cure Whooping Cough

MOSCOW, April 16 (AP)—An announcement from Riga says many children have been cured of whooping cough by taking them aloft in an airplane and keep them there for an hour or more.

Special planes have been equipped for this treatment and the report says the children appear to be as thrilled over their rides as their parents are over the treatment.

All hoofed animals walk on their toenails.

Frightened, He Piped Exhaust Into Car

Youth Confesses He Killed Young Girl After Putting "Love Potion" In Drink

(By The United Press)

MEDINA, O., April 16.—A 19-year-old youth admitted today, sheriff's officers said, that he became frightened and killed his teen-aged girl friend after she collapsed from the effects of a "love potion" he had given her.

The youth, Clark Hill, had been under questioning since last Saturday when he brought the body of the girl, Jeannette Weimer, 19, to authorities. He said she died when they were both overcome by carbon monoxide fumes while sleeping in his car.

A coroner's examination revealed that the girl died of carbon monoxide poisoning, but authorities became suspicious when Hill told conflicting versions of what took place.

In a signed confession to Sheriff Charles W. Williams, the young foundry worker said that he put a "love potion" in a milk shake he bought the girl after they had attended a movie Friday night.

Hill said that after the girl drank the milk shake they drove out a country lane where they made love.

The girl collapsed and Hill became frightened. His confession said that he crawled under the car and rigged the exhaust so fumes would enter the car.

He left the girl in the car and walked around for an hour before returning and shutting off the motor, the confession said for the rest of the night Hill said he sat in the car beside the dead girl pretending that he, too, was overcome by gas.

"Car passed us by but no one noticed," he said.

Finally at 1:30 Saturday afternoon two boys walked by and spoke to him. Forgetting that he was pretending to be overcome Hill answered them. This incident, Sheriff Williams said, was the principal means by which they broke down Hill's story.

Hill finally drove the car to state highway patrol headquarters. He was taken to a hospital, where he was kept under continued questioning until he confessed.

Alaska Forces

(Continued From Page One)

ders and a Ketchikan newspaper story that a B-29 which crashed near Nome last December had been hit by a Russian shell before it crashed.

The Air Force said:

None of its planes has crossed the border of Russia "nor have there been any confirmed reports of Russian aircraft crossing the border of Alaska."

The B-29 which crashed on December 24 did so because of pilot error, mistaking a snowy hill for a cloud. There was no indication ow any damage to the plane before the crash.

Other Highlights

The military picture also had highlights elsewhere.

Dispatches from Germany said that Gen. Lucius D. Clay, American commander in Europe, had asked that the 28-plane superfortress group just arrived in the western occupation zone send some of its squadrons on a sortie over Berlin.

Berlin is the No. 1 tension spot. The Russians there currently are engaged in what some diplomatic authorities consider an effort to squeeze the western powers out of their sectors in the city.

Clay's reported request is a drastic departure from previous policy.

Visiting B-29 squadrons heretofore have been under strict instructions to stay well clear of the Russian zone of occupation.

It is presumed that in the proposed sortie the superfortresses will stick closely to the 20-mile wide corridor from the United States zone to Berlin. However, if the planes fly in squadron formation, they will need plenty of room to make a turn over Berlin.

Navy Reveals Plans

In Washington, the Navy allowed another glimpse at its planning. It disclosed the names of three submarines to be converted to unusual uses.

One will be converted to carry cargo, presumably weapons for use by command troops. Another will become an undersea troop transport. And the third will be a radar "picket" submarine. The job of such a craft is to prowl far out, surface and see what it can pick up on its radar scope in the way of activity telling of ship and aircraft movements.

Rich Chair

(Continued From Page One)

$1,500 to remodel another house. His estranged wife, Marie, 37, confirmed his story. She said she left him two months ago.

Dougherty and his friend, Roman Gronwicz, were held under bonds of $5,000 and $3,000 pending their trial on the morals charge May 3.

Sheriff George M. Hanley said he will attempt to learn, meanwhile, whether Dougherty's story of the $31,000 is true and, if so who put the money in the chair.

The Richmond - Williamsburg area of Virginia was a well-settled and prosperous country when Southwest Virginia was still a virgin mountain fastness.

Daily Markets

Stock Market

STOCKS RISE, GRAINS FALL

NEW YORK, April 16 (U.P.) — Stocks advanced fractions to more than a point today while grain markets cracked sharply on announcement that Britain plans to cut food imports from the western hemisphere 50 per cent.

Volume for the first four hours was at a rate of more than 2,000,000 shares for a full day.

The British treasury announcement came after a warning that the U. S. farm surplus this year may be the greatest since that of the 1930's, which precipitated the depression of the 1930's.

Superior Oil of California was up 3¾. Lion and Mission Corp. up a point or more each. Jones & Laughlin and U. S. Steel rose a point. Chrysler and General Motors firmed. Chemicals were higher with Allied up 1½. Douglas lost 1¼ while Consolidated, Curtiss Wright, Glenn Martin, Lockheed and Grumman rose fractions to more than a point in Lockheed. Union Pacific was up 3½ and American Telephone a small fraction. Phelps Dodge rose nearly 2 and Home Gold Mining was up ⅝.

Cotton Market

NEW YORK REPORT

NEW YORK, April 16 (AP) — Cotton futures declined sharply today following the economic cooperation administration's statement that early buying for foreign needs will be confined largely to foodstuffs this caused a wave of liquidation and prices sold about $3 below the high levels reached in early dealings. Cotton traders had expected a heavy movement of cotton within the current crop season.

News that Great Britain will cut imports to the western hemisphere was also disturbing to traders.

Private Atlanta advices said that crop preparations made good progress in that territory during the past week, with some cotton up to good stands in south Georgia.

Cotton closed easy.

	Open	High	Low	Close
May	37.80	37.76	36.86	37.00-15
July	36.94	37.09	36.14	36.48-50
Oct.	33.53	33.64	32.78	33.26
Dec.	32.78	32.86	32.03	32.40
March	32.52	32.65	32.17	32.18

Spots closed nominal at 39.12 off 55.

NEW ORLEANS REPORT

NEW ORLEANS, April 16 (U.P.) — Cotton closed steady.

	Open	High	Low	Close

Livestock

FORT WORTH REPORT

FORT WORTH, April 16 (AP) — Cattle 400; calves 100; ready for clearance at fully steady prices; few lots medium to good beef steers and yearlings 23.00-28.00; one choice yearling heifer 30.50; beef cows 17.50-22.50; most canners and cutters 12.00-17.00; sausage bulls 16.00-22.00; good and choice fat calves 28.00-29.00; plain and medium calves 18.00-25.00; culls 17.00 down; scattered lots of stocker yearlings and calves 22.00-27.00; few stocker cows 17.00-20.00.

Hogs 400; butchers steady to weak; sows and pigs unchanged; top 21.50; good and choice 180-280 lb. 21.15 to mostly 21.50; good around 275 lb. butchers downward to 17.00; sows mostly 15.00-50; few to 16.00; good 100-135 lb. stocker pigs 15.50-17.00.

Sheep 2,300; killing classes steady; feeders scarce; medium to choice spring lambs 19.00-23.00; good and a few choice shorn lambs with No. 2 pelts 21.50-22.00; cull shorn lambs downward to 11.00; good shorn ewes 12.00; cull and common shorn ewes 6.00-8.00.

KANSAS CITY REPORT

KANSAS CITY, April 16 (AP) — Cattle 1,230; calves salable 100 total 200; indications how late weak demand on fed steers; 4 loads of choice medium weight fed steers bought to arrive at 30.00; load choice strong weights 29.50 and 2 loads good grade at 28.50, also bought to arrive; little done on dozen medium to good fed steers carried over from Thursday; other classes too scarce to test market.

Hogs 2,100; fairly active, uneven, opened steady to 25 higher; closed 25-50 higher; top 21.50 to all; small lot 21.50 to all; small lot 21.75; good and choice 170-240 lb. 20.75-21.50; 250-280 lb. 18.50-20.50; 290-400 lb. 16.75-18.25; sows steady at mostly 15.50-16.50; stags 16.00 down.

Sheep 12,500; active, receipts confined to the truck division; fed lambs around 50 higher; odd lots ewes steady; 99 head good and choice 101 lb. fed wooled lambs 25.00; around 200 head medium and good clipped lambs with No. 3 skins averaging 82 lb. 21.75; odd lots ewes 12.00.

Grain Market

CHICAGO REPORT

CHICAGO, April 16 (AP) — Heavy selling hit grains late in the session on the board of trade today, knocking prices down sharply. Trading was very active and the market made wide moves in both directions.

Wheat closed 4¼-4¾ lower. May $2.48-2.47½, corn was 4¼-7¾ lower, May $2.35-2.35½, oats were 1⅞-1¾ lower, May $1.16-1.16⅛, and soybeans were unchanged to a cent lower, May $4.03.

FORT WORTH REPORT

FORT WORTH, April 16 (AP) — Wheat No. 1 hard, 2.56½-61¼.

Oats No. 2 white 1.43-46½.

Corn No. 2 white 2.81-85.

Sorghums No. 2 yellow milo, per 100 lbs. 2.95-4.00.

Produce

CHICAGO REPORT

CHICAGO, April 16 (U.P.) — Produce: Poultry: 8 trucks. Market slow, no price changes.

Butter: 432,717 pounds. Market firm. 93 score 83; 92 score 81½; 90 score 81-81½. Carlots 90 score 81½; 89 score 80½.

Eggs: (Browns and whites mixed) 32,947 cases. Market steady. Extras 70-80 per cent A 46-47½; extras 60-70 per cent A 45-46½; standards 43½-44½; current receipts 43; checks 39.

Markets At A Glance

NEW YORK, April 16 (AP)—

STOCKS — Higher; leaders at new peaks.

BONDS — Higher selected rails pace advance.

COTTON — Lower; heavy liquidation.

CHICAGO:

WHEAT—Weak; trade active; government not buying.

CORN—Very weak; profit-taking; trade active.

OATS—Weak; cash prices lower.

HOGS — Steady; practical top $22.50.

CATTLE — Strong to 25 cents higher; top $30.75.

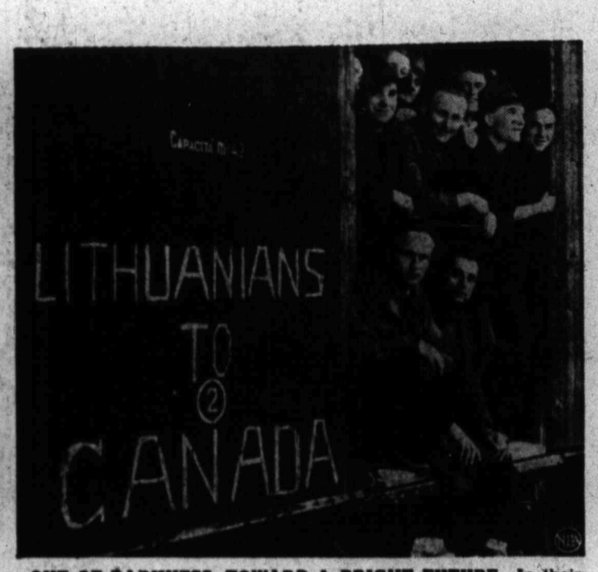

THE DRAWBACK

If infectious diseases were eliminated, all parts of the tropics would be suitable for habitation and agriculture, according to the Encyclopedia Britannica.

Stick a package of matches to a package of cigarettes with cellophane or adhesive tape. It will prevent lengthy forays into your handbag.

T. N. RUSSELL, Manager

OUT OF DARKNESS, TOWARD A BRIGHT FUTURE—In their past lives is little save hunger, misery and loneliness. They are Displaced Persons. Or, rather, they were Displaced Persons. Now, however, they are people again, and people with a bright future. They are some of the group of 860 Balkan and Baltic nationals, heading for Canada. At left, Erika and Ingrid Braun play in the nursery on board the U. S. Army transport General Stewart, a far cry from the stark DP camps. At right, some of the men smile from the boxcar which brought them to Genoa, Italy, where they boarded the transport.

ERP Charter

(Continued From Page One)

tural equipment, increase their exchanges, reduce progressively barriers to mutual tade, encourage full employment of their manpower."

"Generous Intention"

They recognize "the generous intention of the American people" in supplying the dollars with which they hope to meet their goals.

In article one, the nations "assign themselves as their immediate task the setting up and execution of a common recovery program." To this end they "hereby institute a European organization of economic cooperation."

They pledge themselves to better use of "the resources at their disposal in their homelands and in their overseas territories."

They will set up within the framework of the organization "programs of production and of the exchange of goods and services," the charter says.

To Abolish Restrictions

They will seek, it adds, to abolish restrictions "on their exchange and on their reciprocal payments."

The charter specifies they "shall be able to call upon the manpower available in the territory of every other contracting party," since, for example, Italy has a labor surplus and France a shortage.

They provide for "organs of inspection and supervision" to be sure American aid and their own resources are used efficiently.

They agree to "furnish the United States government appropriate assistance and information relative to the European recovery program, and to make recommendations to it."

Prison Term

(Continued From Page One)

bile belonging to C. B. Berry of 2420 Twenty-ninth. It, a light new coach, had been reported stolen in 1200-block Main Thursday.

Two Are Arrested

The patrol arrested two Wichita Falls persons, one of whom, 20, may be charged with liquor law violation and reckless driving. The other, 18, was charged with vagrancy.

Patrolmen T. A. Rowland and Jack Taylor Thursday night chased a car they believe was occupied by the two, probably 15 to 20 miles, in and out on dirt roads. They finally "lost" the other car.

The younger man, arrested on the side of the road, admitted after questioning that he had been in the fugitive car, officials said.

Mrs. T. H. Sneed of 1952 Ave. N complained to police that approximately $8 had been taken from her residence. She gave description of a suspect, investigators said.

U. S. Finances

(Continued From Page One)

years.

However, the big item which will swell not only next year's budget but those for the following years, is military expenditures.

In January, President Truman estimated national defense spending at $11,000,000,000. The expanded preparedness program he recommended last month alone would shoot the estimate to $12,800,000,000 next year. Some government analysts said it would mount to nearly $16,000,000,000 the following year, and above $17,000,000,000 the year after.

was covered by 12 feet of water.

River experts said flood damage would be unusually high in the flooded areas of Wheeling because the crest is expected to linger, laying down a heavier than usual coat of mud and silt.

Four thousand persons were homeless in the Cincinnati area and another 1,000 homes were threatened.

Army engineers said the Ohio will crest all along its length by Sunday evening. They were heartened by forecasts of generally clear weather. They said that if the skies remained sunny for a week further damage might be averted.

Manufacture of a pair of modern shoes involves 515 separate and distinct steps and as many as 291 separate items.

Mrs. Roosevelt

(Continued From Page One)

ency hospital, then to St. John's hospital in nearby Santa Monica.

Roosevelt, state Democratic chairman, was with her at the hospital but could not be reached for comment.

The police said Roosevelt told them his wife, the former Romelle Theresa Schneider, a native of Independence, Wis., had been suffering from insomnia since the birth of their third child three months ago.

The baby, a daughter named Anna Eleanor, was born Jan. 10. The Roosevelts also have two sons, James, two, and Michael, 16 months.

Mrs. Roosevelt, who was a nurse, cared for Roosevelt when he was ill at the Mayo clinic, Rochester, Minn., then came to California with him during his convalescence. They were married in April, 1941.

Clerk's Deputies Become Air-Minded

Deputies county clerk evidence a sudden rash of airmindedness.

Mrs. Floe Swenson, chief deputy of 2508 Twenty-sixth, and her attorney brother, W. D. Benson, jr., boarded a Continental airliner this morning for Albuquerque, where he recently moved from Lubbock. She will return Sunday night.

Miss Evelyn Matthews, of 1320 Sixteenth, who never caught a fish, will try her luck on a San Antonio vacation, which will include participation in "fiesta week." She will take off aboard Continental tonight and be gone a week.

Mrs. W. O. Rieger of 2304 Fifteenth, accompanied by her husband, has returned from a two-weeks vacation in Denver. The Riegers flew by Braniff airliner.

Validity Of Warrant Is Argued In Trial

A county court jury spent much of the morning in a jury room while counsel argued over validity of a search warrant, in the liquor law violation trial of Archie Charlie Mack, about 40.

Prospects early this afternoon were for more of the same, court officials said.

The law firm of Burks and McNeil represent Mack. The state is represented by County Attorney John Steele.

One state witness took the stand at the morning session. The defense objected to the proffer of proof relating to a liquor search, and the jury was retired by County Judge Walter Davies.

The jury is composed of A. F. Williamson, B. A. Hanna, J. B. Snelling, Hugh Slagle, Bruce Mullens, and O. P. Thomas.

Women's Federation Names Ideal Mother

BRECKENRIDGE, April 16. (U.P.) —Mrs. Jerry Freese of Vernon today was named the "ideal club mother" of the first district of the Texas Federation of Women's Clubs.

The award was given to Mrs. Frese at a luncheon closing the 47th annual district convention of the federation here.

Brazil Plot

(Continued From Page One)

set later.

He is the chairman of a House committee set up to look into the background of the destructive Bogota uprising — particularly to learn whether this country's central intelligence agency (CIA) had warned Marshall there might be trouble in the Colombian capital.

Evidence Of Warnings

Yesterday's hearing brought evidence of a number of such warnings. Afterwards the State department volunteered that it had been fully aware of the situation itself and that Marshall had commented "saltily" the American republics were not going to be intimidated by Communists or anybody else.

But the thing that stood out in sharpest focus was the double admonition in Congress that trouble may be ahead in this country.

First Rear Adm. R. H. Hillenkoetter, head of the CIA, told Brown's committee that "conditions in Colombia are similar to those in the United States except that they are advanced a couple of years."

Hillenkoetter said Jorge Gaitan, the Colombian liberal leader whose assassination touched off the revolution, was a figure "like Henry Wallace in our country"—a man who played along "with the extreme left and the Communists."

Branded "Contemptible"

Wallace was not immediately available for comment. But C. B. Baldwin, his third party campaign manager, called Hillenkoetter's assertion "contemptible."

The second warning in Congress came from one of its own members.

Rep. Donald L. Jackson (R-Calif), an observer for Congress who flew back from the Bogota conference to report to his colleagues, declared:

"The uprising in Bogota was not something that just happened. It represents additional stitches in the cloth of violence.

"It can and will happen in New York, Chicago and San Francisco . . . unless the march of Communism is halted . . ."

Jackson said Congress should pass a law to curb Communism.

To prevent needles and pins from rusting, stick them into a piece of flannel which has been saturated with machine oil.

Galveston Shipping Tied Up By Strike

GALVESTON, April 16 (AP)—A strike by members of the Brotherhood of Railway Carmen of America, AFL, today tied up most of the waterfront and made idle more than 3,000 dock laborers.

More than 2,000 Longshoremen and approximately 100 railway employes were directly affected. Hundreds of other workmen were forced into idleness.

The walkout stopped the loading of several ships, including the SS Prince Willem II, loading for the Netherlands with 9,000 tons of European Recovery program wheat.

John S. Freeman Claimed By Death

John Samuel Freeman, 63, of Anton died about 11:45 o'clock Thursday night while he was being taken to Littlefield hospital for treatment of illness.

The body is to be taken to Windom and services and burial will be there, Bryan McDonald & Son Funeral home announced.

Survivors include three sons, King D. Freeman of Dallas, Oscar A. Freeman of Honey Grove and J. D. Freeman of Anton; three daughters, Mrs. Idell Butler of Anton, Mrs. Clara O. Olsberg of a South Dakota town and Mrs. Ina Bricker of a California location, and 18 grandchildren.

Two English Boys Make Good Deal

LONDON, April 16. (AP) — Two Newcastle boys, Teddy and Clinton Edmonds, made a good deal with Mayor Quigg Newton of Denver, Colo.

The boys were fascinated by bubble gum, which they saw demonstrated in an American film. There is none to be had here, so the boys used their sweet ration coupons to buy six bars of chocolate. They sent them to Mayor Newton whom they had read about, suggesting a swap—chocolate bars for bubble gum.

The mayor came through handsomely, sending 200 pieces of bubble gum, five pounds of candy and a long letter, which arrived here yesterday.

Startling Influx Of Russians To The Panama Canal Zone Noted; Many Ships Pass Through

BALBOA, C. Z., April 16. (AP)—Well informed sources said today Panama Canal authorities are taking special precautions against five Russian ships at the Canal's Atlantic terminal.

The ships, described as fishing craft, arrived unannounced Wednesday morning in Cristobal harbor. They include a steamer and four auxiliary vessels. They are believed enroute from Leningrad to Vladivostok.

The informants said they were boarded Wednesday afternoon by Canal authorities and an intelligence official and have been under watch from launches.

The ships are anchored off Cristobal flats, these sources reported, and not allowed to tie up at docks. And plans are being made to oil four of them by tug. The steamer, which requires coal, would have to come alongside coaling docks to get it.

Official sources would give no information on the reported precautions.

CHIEF INTEREST SAID IN PANAMA CANAL

NEW YORK, April 16. (AP)—Rep. J. Parnell Thomas (R-NJ) reports what he terms a "startling influx" of Russians into Panama since early in 1947.

He claims "there is reason to believe that their chief interest is the . . . Panama Canal Zone."

Fifteen Soviet ships "of the fishing type" passed through the canal in the last six months of 1947, Thomas says, and one of them anchored off the Atlantic side of the canal for several days.

Thomas, chairman of the House committee on un-American activities, recently returned from an on the spot investigation in the Canal Zone. He was forced to cut short his trip because of illness.

Few Troops On Hands

Writing in the current issue of Liberty magazine, Thomas said the 6,000 U. S. troops in the Canal Zone could do little more than care for the wounded and bury the dead in the event of hostilities.

The Soviet nationals, Thomas said, travel with the approval of the Russian government, which rarely gives such permission.

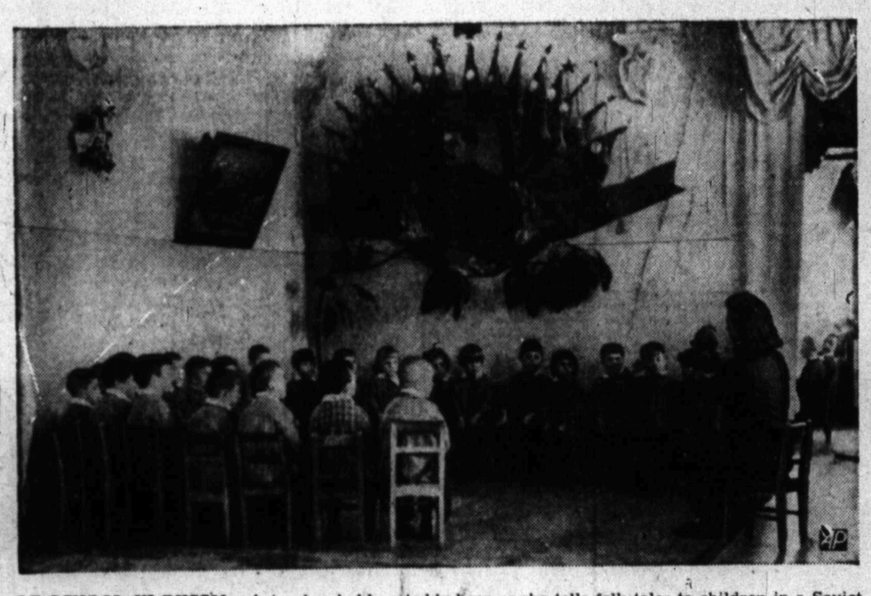

Persons from the Russian vessel which anchored off the canal went ashore, Thomas said.

"They made contact with known Russian agents and with leading Communists."

Thomas added:

"We have only 18 anti-aircraft guns . . . to defend the whole canal, and only eight of them—four on each side—are fully manned.

"We have no searchlights. The mine fields are not laid. Many of the mines are not in good condition, and days, even weeks, might be needed to put them in perfect shape. The Air Force, what we have of it, is good, but the whole defense lacks the spirit of alertness."

AT SCHOOL IN RUSSIA—A teacher holds a teddy bear as she tells folk tales to children in a Soviet nursery school as they sit beneath a portrait of Marshall Stalin. The agency which supplied this picture didn't name town in which school is located.

Three More Texas City Suits Filed

NEW YORK, April 16. (AP) — Three suits asking 1,340,000 in damages were filed against the federal government here yesterday in connection with the Texas City disaster a year ago today.

The government is charged with negligence in processing of ammonium nitrate loaded aboard the French freighter Grand Camp. The vessel exploded and touched off a series of fires and other explosions.

Four insurance firms, the Firemen's Fund Insurance Co., Home Insurance Co., Glen Falls Insurance Co., and the Insurance Co. of North America, asked damages of $750,000 because of destruction of a wheat flour shipment destined for the French government.

The General American Transportation Corp. asked $300,000 for destruction of railway box cars and other property.

The Carbide and Carbon Chemicals Corp. asked $290,000 for destruction of buildings and other property.

Pistol In Hands Of Chum Kills Child

McGREGOR, April 16. (AP) — Curtis Lofland, 11, was fatally shot here last night when the pistol in the hands of a playmate discharged.

Constable Billie Wheat said the playmate told him he thought the gun, which he found on a dresser, was a toy.

The boy was reading a comic book when the shooting occurred. His sister, Mary Beth Lofland, 14, who was seated by his side, ran for help.

His parents, Mr. and Mrs. Lowell Lofland, were enroute home from Waco at the time of the accident.

Justice of the Peace B. J. Allen said an inquest would be held today.

Symington's Plea For More Air Power Puzzles President, Also

BY JAMES MARLOW
Associated Press Staff Writer

WASHINGTON, April 16 — If you're wondering — Hey, what goes — about the armed forces, that's what President Truman is wondering, too.

The armed forces were going to be made stronger — according to a set plan — to back up our stop-Communism policy.

Then . . . wham . . . the boss of the Air Force upset the apple-cart.

Here we were, going along all right, or so it appeared, under a new law passed by Congress to make the armed forces work better than ever before.

Big Boss

This is the way the new law said the armed forces were to be set up in what Congress called "unification:"

Big boss over all — Secretary of Defense Forrestal; under him —Secretary of the Army, Royall; Secretary of the Navy, Sullivan; Secretary of Air, Symington.

Each service usually wants something different from the others. Forrestal was supposed to get them to agree and keep them all in line.

But look what happened.

In mid-March President Truman told Congress Communism abroad must be stopped. He asked a program to build up the armed forces.

Defense Program

Right away Forrestal told the entire military high command — meaning the top men under him —to work out a defense program.

Then, in the days that followed, Forrestal and those top men of his went before:

1. The Senate armed services committee.

2. The House armed services committee.

Both committees are supposed to draw up bills for both houses of Congress to vote on. The bills may differ.

If they do, and are approved, House and Senate will have to get together to agree on one single bill for both houses.

Forrestal and his top aides — and this includes General Omar N. Bradley, Army chief of staff— told the committee this:

"Need Draft, UMT"

1. We need a draft to build up our armed forces right away.

2. We need universal (compulsory) military training to build up a pool of trained men to back up our armed forces if needed in an emergency.

3. If we don't have UMT, we'll need a permanent draft to keep the armed forces built up.

4. We ought to have an air force of 55 groups.

Then W. Stuart Symington, Secretary of Air, upset the applecart in such a way that even the President is confused.

More Said Needed

He told the House armed services committee:

1. Russia is building the greatest air force in the world.

2. Instead of a 55 group air force, we need a 70 group air force.

3. We need the 70 group air force more than we need UMT.

Here was the Secretary of Air apparently going contrary to Forrestal and the other top people in the armed forces because:

They had insisted the most important thing right away was a draft and UMT.

Yesterday the full house took matters out of the hands of the armed services committee and voted for a 70 group air force.

But how come Symington — who's supposed to be under Forrestal — can sound off with something different from what Forrestal says?

Doesn't Know

Mr. Truman was asked this question at his news conference yesterday. He said he doesn't know the answer.

If he doesn't know the answer, how can you or anybody know?

Anyway, Symington's 70-group air force isn't a sure thing. The House approved. The Senate still has to decide.

The same is true of the draft and UMT: all of it still is in the hands of Congress; nothing is settled yet.

Slender Steel Rod Survives Heat Test

SCHENECTADY, N. Y., April 16. (U.P.)—A slender steel rod was withdrawn from a laboratory torture chamber this spring, apparently little the worse for being subjected to a 1,000-degree Fahrenheit temperature and a stress of 6,000 pounds for 50,000 hours.

The one-half inch test-specimen had endured the heat and tension since one month before the Pearl Harbor attack.

The objective of General Electric Co. engineers is to determine how a given alloy will behave as part of a hot, spinning turbine. If the sample becomes distorted in a short time, the alloy is rejected for that use.

The little steel rod was given an especially long test because of the laboratory's particular interest in properties of molyvanadium steel for use in turbines.

Now Seen In Poor Man's Stork Clubs

Oldtime Free Lunch Has Foot In Barroom Door, Boyle Says

By HAL BOYLE
Associated Press Staff Writer

NEW YORK, April 16.—The oldtime "free lunch" is back—at least it has one foot in the barroom door.

It is coming back the hard way, one street at a time. So far it has been seen here chiefly in poor men's Stork clubs along the Bowery and Third street.

Rat cheese and salami sandwiches now bloom again in scattered bars in the shadow of the "el" like spring flowers poking up through old snow.

Comeback Is Significant

The new free lunch is only a morsel of its old robust self. But its comeback on Third avenue is significant. Why? Because Third avenue is to the elbow-bending gentry what the Aberdeen proving ground is to artillery—a testing field that sets the trend.

In the bars along this noisy thoroughfare where roaring overhead "el" trains make conversation a muscular feat, Park avenue comes to ogle "the characters." "The characters" like to ogle right back.

Fads that become popular here often set the pattern for the town —spread one way by "the characters" and the other by the penthouse "swells." This may spell a new future for the free lunch.

Time was when the free lunch was big enough to give a harvest hand the colic.

Remember?

For a nickel beer a hungry citizen of good standing could waddle over to a counter creaking under plates stacked with roast beef, baked ham, boiled ham, oysters, steamed clams, three kinds of cheese, hardboiled eggs, lunch meats, pickles, relish, stacked bread and huge slices of raw white onion, fragrant of Bermuda.

What happened to the "free lunch?"

It didn't die out entirely. It survived in anemic form in the present cocktail hour custom of serving canapes.

But if the free lunch makes a real comeback the canapes will be cut out—the hor d'oeuvres will have had their hour. This will be true in the homes as well as in the bars.

Whether she wants or not, a hostess will have to serve her cocktail guests king-sized pastrami sandwiches instead of embalmed minnows. That'll be the day!

FLIGHT COMPLETED

FORT WORTH, April 16 (AP)—Ten Eighth Air Force B-29 bombers yesterday completed a 5,700 mile training flight from Germany in a little more than 30 hours.

HE'S A HUMAN POWER LINE — Doing research on high-frequency electricity, Dr. Fitz-Hugh B. Marshall, of the Westinghouse Research Laboratories, Pittsburgh, Pa., serves as a human power line. Current flows from the rod in his right hand across his body and into the fluorescent lamp. Then, in a fiery arc, it jumps to a terminal rod. This high-frequency current just skims along the surface of his body, and does no harm.

Photographers Will Convene In Marlin

MARLIN, April 16. (AP)—A field of bluebonnets—a pretty girl—and Marlin is the Mecca for amateur photographers April 24 and 25.

On those days southwest camera fans will gather for the eleventh annual Texas Bluebonnet Photo fiesta.

Their background will be the sloping fields around Marlin, where the bluebonnets are blue and many. The fiesta Committee will arrange for photographic models to pose among the flowers.

The committee acclaims the fiesta as the largest gathering of amateur photographers in the southwest. George S. Buchanan, editor of the Marlin Democrat, is fiesta director.

During the two days, demonstrations and displays of the latest in photographic processes and equipment will be shown.

Congress Candidate Speaks At "Half"

BALTIMORE, April 16 (AP) — Boosters of Democrat Paul Burke for Congress used a new technique to draw a crowd at a political rally last night.

They placed a television set in the middle of a roped off street. The set was turned in to a professional basketball game.

During half-time, Burke, who seeks his party's nomination to Maryland's third congressional district seat, addressed the crowd.

He had an audience of 2,000.

Civil War Veteran, 102, Vividly Recalls His Days In Army Under Lee And Jackson

WICHITA FALLS, April 16. (U.P.)—One of Texas' 11 remaining Confederate veterans celebrated his 102nd birthday today, but there was no special observance scheduled.

He is Thomas Evans Riddle, who says his memory doesn't work very well on recent events, but still is vivid when it comes to recalling events during the Civil war.

Helped Hang 11 Thieves

Riddle, who lives here in Wichita Falls after spending most of his life as a farmer, also recollects his days as a deputy sheriff in Texas when he "helped hang 11 horse thieves."

Although nearly deaf, Riddle apparently still is hale and hearty. His ample hair is white, he walks erect and his sight seemingly is unimpaired.

The prized possession of the Tennessee-born centenarian is a .48 caliber "five-shooter," issued to him during the war between the states and which "has never been bought nor sold."

"I've shot many a squirrel's eye out with it," he boasted.

Riddle was not wounded during the Civil war, where most of his "warrin'" was done in Virginia under Generals Lee and Jackson, but he said that seven holes were shot through his shirt.

His only airplane ride was taken during the "German war" and he described it as "the best ridin' I ever did."

"I'd like to take another ride one o. these days," he added.

His one disappointment, he maintained today, was that he didn't get to go overseas with "the boys" during the last war."

Clay Denies He Sent B-29's Over Berlin

BERLIN, April 16. (AP)—Gen. Lucius D. Clay denied today he had ordered a squadron of B-29 heavy bombers, now visiting Germany, to make a sortie over Berlin.

Clay described as untrue a report to this effect obtained yesterday from American Air Force officers in the western occupation zone.

The bomber squadron arrived at Fuerstenfeldbruck yesterday on a training flight from the United States.

Tennessee To Vote As Unit

NASHVILLE, Tenn., April 16. (AP)—Tennessee Democratic delegates will go to the national convention in Philadelphia free to cast the state's 28 ballots as they choose. But they must vote as a unit.

The state convention yesterday rejected a strong anti-Truman resolution and voted instead to leave the delegates to the national conclave uninstructed on the presidential nomination but instructed to vote as a unit.

It was only after an hour's debate, however, that the convention by voice vote turned down the anti-Truman resolution which would have pledged delegates against the President in the convention.

Defeat For Crump

The resolution would have pledged the party's state presidential electors to vote against Truman and put the Tennessee party on record as saying "we shall never cast our votes for him, but, on the contrary, will vote for a true Democrat representing the best interests of the people of Tennessee, the South and the nation."

Rejection of the anti-Truman resolution was a defeat for Shelby county (Memphis) Democratic leader E. H. Crump, whose county delegation of more than 400 backed it.

The convention voted to oppose President Truman's civil rights program and the proposed FEPC bill.

Rhone Improvement Plan Is Published

GENEVA, April 16 (AP)—A Swiss association for the extension of inland waterways is working on a project, in collaboration with similar interests in France, to make the Rhone river navigable from the Mediterranean to Geneva, thus providing landlocked Switzerland with a valuable outlet to the sea.

Swiss engineers believe the scheme is practicable, although Geneva lies more than 1,000 feet above sea level.

ACTRESS—Adele Mara of the films wears two-piece costume designed for swimming as well as play.

"Girl Behind Every Tree—But No Trees"

Johnston Island, Pacific Air Base, Is Lonely Spot For GI's

By JAMES E. ROPER
United Press Staff Writer

JOHNSTON ISLAND, April 16—They tripled the size of Johnston Island, but it still is the smallest and most-forgotten American naval base in the Pacific.

Even the Navy is about to forget the island, turning it over to the new, independent Air Force on July 1.

The Air Force originally planned to take charge last year, but somebody forgot to list the island in the Air Force budget. So the Navy has remained.

The built-up island, which the Japanese shelled on Pearl Harbor day, has an aircraft runway 5,700 feet long, because that's as long as the entire island is.

Clinging to the sides of the runway—like smoke stacks on the sides of an aircraft carrier—are the workshops and the homes of the 500 persons who man this key base on the Trans-Pacific air routes.

Life Is Quiet

All Army and Navy transport planes land at this coral aircraft carrier 824 miles east of Honolulu, but life still is so quiet that they change the movie program twice a day.

There's no place to go: the total area is only 160 acres, and none of it more than seven feet above sea level.

Newcomers are told that a naked girl hides behind every tree. But there are no trees.

A man has to be stationed here for six months before he may bring in his family. Living is so crowded that only 42 wives have been allowed to move here. But there is a Quonset hut school for the eight school-age children.

Three have been born here. They are the first native Johnston Islanders because the island was uninhabited until Americans arrived.

Like Towline

From the air, Johnston looks like a ragged-sided aircraft carrier towing a rowboat. The "rowboat" is Sand island, a speck of coral connected with Johnston by a 6,000-foot coral reef that resembles a towline.

This "suburb" of Johnston is tangled by antenna of Army and Navy radio transmitters which keep the big trans-Pacific transport planes on their routes from Honolulu on to Kwajalein, Guam and the Far East.

Johnston also has a "subdivision"—the islands' 50-yard-square northeast corner, which is known as "Birdville." Over that area swarm thousands of Moaning Birds and Sooty Terns, the remnants of the bird sanctuary that was set up here at the direction of President Calvin Coolidge in 1926.

In 1934, President Franklin D. Roosevelt turned the atoll over to the Navy, which dredged up sand and dirt from the ocean floor to build the air base that has become a permanent part of America's air defenses.

Many Firemen Reduce Their Time On Duty

CHICAGO, April 16 (AP)—Firemen are putting in less time now in 150 cities.

The International City Managers association says working hours were cut in the last year. Many cities reduced duty time from 84 hours per week to 72. The forces in many others went on a 48 hour week. Two adopted a 40 hour, five day week.

Cattle Suffer Food Shortage In India

NEW DELHI, India, April 16 (AP)—India has the largest cattle population of the world but is in short supply of bullocks and milk.

India's cattle suffer like her population from food shortage and most of them are walking skeletons.

Pressure on land is heavy and there is keen competition between man and animal. There is no scientific breeding and worthless cattle are not destroyed. The cow is sacred to the Hindu.

GOP Victory In Texas Is Seen

DALLAS, April 16. (AP)—Chances are bright Texas may go Republican in the presidential election, Mrs. Lena Gay More, state Republican leader from Brownsville, said here.

Mrs. More yesterday said dissatisfaction over President Truman and splits within the Democratic party were two factors that favored a Republican victory in Texas.

Republican candidate Herbert Hoover carried Texas in 1928.

The national Republican committeewoman for Texas arrived here to attend a political institute today.

The institute, sponsored by the Dallas county women's Republican club, is primarily a school for instruction of women party members in preparation for the state convention in Corpus Christi in May.

Mrs. Carl G. Stearns, Houston, vice-chairman of the state executive committee, is also here to attend the institute.

Delegations from Kilgore, Tyler, Waco and Fort Worth are expected to attend.

Speakers include Henry Zweifel, Fort Worth; Mrs. Margaret R. Conger, Waco; Mrs. Charles L. Bacheler, Kilgore; Frank T. O'Brien, Amarillo, Mrs. More and Mrs. Stearns.

KENTUCKY WAS FIRST

The first state to take a direct part in road building was Kentucky, which had a state highway department as early as 1821, according to the Encyclopedia Britannica.

IT'S GOOD TO KNOW
Mrs. Tucker's HOME MAKING HELPS
Those persons who never fail to put in their "two cents" usually have change coming.

©1948 M.T.P.

IF your family likes any kind of dessert... as long as it's cake covered with chocolate... here's a delicious a-piece-ment plan.

HOT MILK CAKE

1 cup cake flour
1 tsp. baking powder
¼ teaspoon salt
2 eggs
1 cup sugar
¼ cup MEADOLAKE MARGARINE
½ cup milk
1 tsp. vanilla

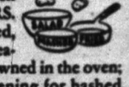

Sift flour, measure and sift again with baking powder and salt. Beat eggs until light, then add sugar gradually, beating until the mixture is light and lemon colored. Add dry ingredients, mixing well. Heat milk only until MEADOLAKE MARGARINE is melted (do not boil), then stir into batter. Add vanilla. Bake in a 9-inch square layer cake pan or a 6x10-inch rectangular pan which has been brushed lightly with MRS. TUCKER'S SHORTENING and dusted with flour. Bake at 350 degrees for 30 minutes or until done. Cool and frost with:

SOFT CHOCOLATE FROSTING
(Glossy and does not harden)

Beat 2 egg yolks until light and lemon colored. Add gradually 1½ cups sugar, beating well. Add ½ cup milk, 1 tablespoon MEADOLAKE MARGARINE, a few grains of salt. Boil hard 2 minutes, stirring constantly, then add 2 squares (2 ounces) unsweetened chocolate, melted.
Beat until of consistency to spread. Makes enough to cover tops and sides of two 8-inch layers.

1 potato, 2 potato, 3 potato, 4... and Mrs. Alice McClendon, Waxahachie, Texas, receives 10(¢) for this unique suggestion:
To save time in preparation of the inevitable 3-meals-a-day, try cooking a quantity of potatoes at a time. By cooking them with the peelings left on, for the first meal they can be peeled and mashed while hot. Store remainder in refrigerator for use a dozen different ways later: Potato Salad; peeled and sliced, then browned in a small amount of MRS. TUCKER'S SHORTENING; cubed, covered with a thin white sauce seasoned with cheese, if desired, and browned in the oven; cubed finely and browned in shortening for hashed brown potatoes; halved and brushed with MEADOLAKE MARGARINE to brown around chops, steaks.

3¢ = $10

3¢ may bring you $10 when you join Postal Potluck. Send your suggestions, ideas, recipes and home helps to Mrs. Tucker's Homemakers' Department, Sherman, Texas.

For flavor... for-fineness... you'll find Meadolake Margarine a better spread for your daily bread... and you'll find it more economical, too!

"FEATURING QUALITY FOODS"

Station KFYO Is To Continue Pioneering In Area With FM

Radio station KFYO will pass another milestone at 7 a. m. Sunday when the station begins a regular schedule of frequency modulation broadcasts from a 3,000 watt transmitter installed on the eighth floor of the Lubbock National building.

While no special event is planned to mark the passing of the new radio milestone, DeWitt Landis, station manager, can look back at other occasions that have kept KFYO to the front as a Texas station.

The Lubbock station was at first a wandering minstrel in the broadcasting industry. It was founded by the late T. E. Kirksey at Bentonville, Ark., in 1923, a comparatively puny 15 watter. Kirksey operated the station there for a time, then sold it to a Texarkana firm which moved the plant to that city.

Repurchased Station

In 1927 Kirksey repurchased the station and moved it to Breckenridge where the power was increased to 100 watts. Later it was shifted to Abilene and gained a 250-watt power rating. On April 23, 1932, Kirksey and station KFYO moved to Lubbock. He operated the station for four years when it was sold to its present owners.

"Judge" Landis became station manager on the date of the sale, April 8, 1936. He came to Lubbock from radio station KGNC in Amarillo. He is a former newspaperman and has worked at almost all of the positions in a radio station.

KFYO is believed to be the first radio station in the United States to have put in an exclusive news wire (United Press). In fact the station pioneered in the news broadcasting field. In 1944 the station added Associated Press radio leased wire.

Member Of Network

The Plains Radio Broadcasting company station has been a member of a radio network since 1938 when it joined the Mutual Broadcasting company chain. In 1944 the station joined the American Broadcasting company, then known as the NBC "blue network." Mutual was dropped in 1945.

W. S. Bledsoe, chief engineer for the broadcasting firm, joined the station in April, 1936 and has been here since that time except for a brief period with KGNC in Amarillo.

Frequency modulation (FM) was just being put into use when the war interrupted its development so far as general broadcasting use was concerned. Following the war, larger stations over the nation either changed exclusively to FM or added the new method of broadcasting as an adjunct to their normal AM band programs.

FM Receivers Common

Radio receiver manufacturers followed the trend toward FM by at first construction only the more expensive sets to receive the extra high frequency radio waves, but within the last two years FM sets have become cheaper and more common to the trade until now only the very lowest price sets lack the FM band.

FM broadcasting has its advantages and, at the same time, certain drawbacks.

As advantages, it offers static free reception and a higher fidelity of reproduction. Interference from other radio stations on the same or nearly the same frequency is eliminated. FM's most serious drawback, from the broadcaster's viewpoint, is that it has a limited range as compared to AM broadcasting.

FM broadcast range is limited by the fact that the frequency modulation waves travel in nearly straight lines, not "bending" with the curvature of the earth as do AM waves, and after passing the "horizon line" are lost into space.

Because of this "line of sight" action by FM broadcast, frequency modulation antennas are placed as high as possible so that the largest area possible may be served. The KFYO antenna stands 135 feet above the Lubbock streets, and engineers estimate that KFYO FM programs can be heard 35 to 40 miles away.

Bledsoe has emphasized that FM is not "miracle broadcasting." It is static and interference free, he said, but the condition and construction of the FM receiver has a great deal to do with the fidelity of reproduction of the original program. "The more expensive sets with their larger speakers and better constructed sounding boards naturally give the finest results with FM," Bledsoe pointed out.

KFYO's AM and FM programs will be identical, Landis explained, as programs for both transmitters will originate at the same time in the station's studios on Avenue J. The station has added the FM to give owners of the more modern sets a chance to take advantage of the clearer reception and higher fidelity offered through frequency modulation.

The station's AM broadcasting schedule begins at 6 a.m. and closes at 12 p.m. on week days. FM programs will begin at 6 a.m. and close at 11 p.m. on week days. On Sunday, the AM schedule begins at 7 a.m. and closes at 11 p.m. The FM programs will begin at 7 a.m. on Sundays and close at 10 p.m. on the Sabbath.

SHEER COMFORT — Screen actress Dona Drake is all set for a restful night in this sheer sleeping suit, modeled after the ones in style in 1919. Dona wears it in a scene in the movie, "So This Is New York."

MOTORISTS' AID

An English inventor devised a reversing signal that warns drivers in the rear of a motorist's intention to back up. The device automatically sounds a horn and lights a signal when the car is shifted into reverse.

Race To Get U. S. Flag To Italian Town By Election Day Will Begin In Amarillo

AMARILLO, April 16 (AP)—The first lap of a race to get the little Italian town of Manduria an American flag is to start today.

If the air-ground race is successful, the flag from the Texas Panhandle will be displayed Sunday, national election day.

Leaves Today

An airliner is to leave New York City today for Rome and two airline representatives tomorrow will carry the flag the remainder of the way by automobile.

The story behind this gesture is Mrs. Carmela Pitts' one-woman, long distance campaign against Communism.

The Amarillo Italian war bride began a letter-writing campaign among her family and friends in her native Ponza and elsewhere in Italy about six months ago.

A friend of Manduria, Nena Juliano Gregori, who was matron of honor when Carmela married Corp. Eugene Pitts two years ago at Naples, wrote recently for an American flag to display on election day.

The Amarillo Globe and an airline are cooperating to deliver the flag on election eve.

Will Anger Communists

In asking for the flag, Nena Gregori wrote:

"We want one to hang in front of our house on election day. This will anger the Communists, but that is what we want. I tried to make one but it did not turn out well. Also I want to ask you to pray with all your heart to St. Anthony (patron saint of Manduria) that the Communists do not win."

Parents Show Kids Basketball Tricks

STELLA, Neb., April 15. (U.P.)—Youngsters here have a great deal more respect for the athletic prowess of their elders.

The mothers and fathers showed their offspring how to play basketball and volleyball in three laugh-packed games before a crowd of 300.

For the cage game against their sons, the fathers were equipped with stretchers, first aid kits, liniment, canes and football helmets. But none of the aids was necessary. The dads bested the youngsters, 28-22.

The mothers defeated their high school daughters 8-0 in the second basketball game, but the daughters had the best of the argument in the volleyball encounter, 16-12.

Electricity, Coal Costs Are Compared

GENEVA, April 16 (AP)—Is coal or electricity more economical for industrial power? A research project proposed to the electric power committee of the Economic Commission for Europe may seek the answer.

Another proposal before the committee suggests a survey and comparison of the safety regulations in different countries. International regulations may eventually be drawn up.

"SPIRAL BEAN"

A vegetable curiosity of the desert is the "screw bean," a product of the mesquite bush. The peculiar beans spiral in regular rows down to a point, and are used as a food by Indians of Death Valley, Calif.

OUT-PERFORMS ALL OTHER SHORTENINGS!

An utterly different shortening, SWIFT'NING* is making history in the story of foods. It's a baking, frying marvel!

ONLY IN SWIFT'NING—THIS SPECIAL "QUICK-MIX" INGREDIENT FOR CAKES! Delicate, snowy-white Swift'ning is ideal for *all types* of cake. This wholly new kind of shortening contains a wonder-working "quick-mix" ingredient, makes perfect cakes by *any* mixing method.

FLAKIER PIES THAN WITH ANY OTHER TYPE OF SHORTENING! Tests prove Swift'ning makes piecrust flakier than shortenings of other types. And Swift'ning is tasteless, odorless, keeps without refrigeration. You can get it in 3-lb. and 1-lb. tins or 1-lb. cartons.

HIGHLY DIGESTIBLE! EXTRA NUTRITIOUS! No other shortening is more digestible than Swift'ning. And it contains two important nutritional essentials in greater quantity than shortenings of other types. You'll love Swift'ning for baking *and* for frying. It gives finer all-round results than *any* other shortening!

*Swift'ning is the trade-mark for Swift & Company's new, improved Bland Lard.

Stalin's "Red Roses" Blooming In West, Costa Rican Asserts

MEXICO CITY, April 16. (U.P.)—Communist parties, which are operating in every country in the western hemisphere with two exceptions, plan new uprisings in at least three other Latin American countries in the near future, Gen. Rene Picado, Costa Rican minister of public security, said today.

He predicted that there will be either as armed revolts or well-planned labor stoppages, in Chile, Venezuela, and the British Caribbean colony of Jamaica.

Exceptions Listed

"There are well - established Communist parties, operating openly or under different names, in every territory and colony in the western hemisphere, including the United States, with the exception of Honduras and the Dominican republic," General Picado said.

"Red roses will continue to bloom in the western hemisphere, which now is Stalin's garden across the Atlantic," Picado said, expressing deep concern over the recent revolt in Bogota. He agreed with U. S. Secretary of State George C. Marshall that it was a "red plot."

He warned that the United States must give "more careful consideration to Latin American affairs," and said the same importance should be attached to the June 1 elections in Cuba as now is being given Sunday's Italian elections.

U. S. Should Act

"The United States government and the American people should realize by now that destiny has made the United States and Russia leaders of the world, one facing the other," he said. "This situation has developed so fast that the United States does not have the feeling of responsibility to the rest of the world that it should have."

General Picado revealed that the pesce settlement now being worked out in his own country by his brother, President Teodoro Picado, and rebel leaders prevented what "would have turned out to be the most horrible butchery in the history of Latin America."

Ready For Defense

"The government was ready to defend San Jose, the capital, and other cities such as Heredia, Alajuela, Puntarenas and Liberia, where there are strong military forces, with a house-to-house defense," he said.

In Costa Rica, members of the Communist Vanguardia popular party, which supported the government, were armed to assist in fighting against right wing rebels.

General Picado is en route to Costa Rica after a visit in the United States.

I. W. Wilson, Ralls, Is Taken By Death

I. W. Wilson, about 67, of Ralls, died about noon today at his home following about six months' illness.

A son, R. W. Wilson, lives at 1105 Ave. X in Lubbock.

Funeral arrangements had not been made early this afternoon. The body is at Marr Funeral home in Ralls.

Survivors include his wife: two sons, Odell Wilson of Lockney and the Lubbock son; three daughters, Mrs. Donald Blackmon of Ropesville, Mrs. Neil Rose of Dallas and Miss Annette Wilson of Ralls, and two grandchildren, Bobby Gale and Vicki Ann Wilson.

Sleeping Under Car Results In Injuries

FORT WORTH, April 16. (U.P.)—A 60-year-old man was recovering from face and chest bruises today, convinced that sleeping under parked automobiles is dangerous business.

The man solved his housing problem last night by bedding down under a car parked in a parking lot. Later in the night the owner of the car returned and drove off.

The sleeper was rudely awakened.

PLANT PATENTS

More than 700 patents have been issued on plants since the passage of an act in 1930. Plant patent No. 1 was granted on a climbing rose Aug. 18, 1941.

WAIT TILL THEY HEAR ABOUT WISCONSIN!—Toshiyo Oda, the man with upraised arms in the foreground, calls Gen. Douglas MacArthur a "living saint." With his friends, he paraded through the streets of Tokyo with signs boosting the General for President. But Toshiyo will probably be a bit downcast when the news from Wisconsin reaches him. Some Japanese say the primary defeat will cause MacArthur to "lose face" in Japan. (Photo by NEA-Acme staff correspondent Richard C. Merguson.)

Rising Temperatures Expected For Texas

(By The United Press)

Rising temperatures were expected over most of Texas today, as generally fair skeis were reported.

No precipitation occurred during the last 24 hours, and none was expected.

The weatherman predicted a fair weekend, with temperatures approximating the high readings of last weekend.

Minimum temperatures early today ranged from 41 at Big Spring to 61 at Presidio. Amarillo reported 47 degrees, Lubbock 50, Waco and Houston 54, Austin 50, San Antonio 51.

Maximum readings yesterday ranged from 71 at Galveston to 96 at Presidio.

The forecast called for fair weather over the entire state today and tomorrow with warmer weather in the east and south portions of East Texas tonight and no important change in temperatures in West Texas.

Five Children Hurt In Overturning Bus

RICHARDSON, April 16 (U.P.)—Five school children were injured late yesterday when a school bus overturned after three-vehicle collision.

Injured were Alice Nettles, 9; Magdalene Combs, 17; Joyce Calk, 13; Pathy Witley, 17, and Rosie Ann Wright, 7.

They were given first aid in a Dallas hospital. Attendants said none of them was in serious condition.

His Drunk Cure Was Failure On Himself

LOS ANGELES, April 16 (U.P.)—Leland M. Woods, 41, head of a chain of alcoholic cure institutions, was sued for divorce today on grounds he always was drunk.

Mrs. Lillian L. Woods, 39, said her husband drank so much he no longer could attend to the cures for other people's drinking which had made him a $1,500,000 fortune.

Congratulations To

Mr. and Mrs. Carl E. Shipman of Abernathy on birth of a daughter weighing 6 pounds 13 ounces at 4:40 a. m. today in West Texas hospital. The father is a salesman.

Mr. and Mrs. Sam C. Dickson of 1716 Ave. K on birth of a son weighing 6 pounds 3½ ounces at 7:39 a. m. Thursday in West Texas hospital. The father is a clerk for the Santa Fe.

Mr. and Mrs. Tom Whitaker of Tinnie, N. M., on birth of a daughter weighing 7 pounds 15½ ounces at 5:01 a. m. today in Lubbock Memorial hospital. The father is a rancher.

Mr. and Mrs. A. D. Snider of 2418 Ave. J on birth of a son weighing 10 pounds 3 ounces at 6:13 a. m. today in Lubbock Memorial hospital. The father is employed at the Palace laundry.

Mr. and Mrs. C. L. Pendley of 1809 Ave. V on birth of a son weighing 6 pounds 9 ounces in Porter-Sistrand clinic at 3:43 a. m. today. The father is employed by Norwood Drilling company.

Mr. and Mrs. Wilson Dickson of Lubbock route 3 on birth of a daughter weighing 5 pounds 2 ounces at 8:40 a. m. today in West Texas hospital. A Caesarean section was performed. The father is a farmer.

Mr. and Mrs. J. D. Webb of Lorenzo route 1 on birth of a son weighing 7 pounds 5 ounces at 7:40 a. m. today in West Texas hospital. The father is a farmer.

Commencement To Be In Tech Stadium

Decision has been made to conduct commencement exercises of Senior High school in the new stadium at Texas Technological college, so that seating space will be available for all persons wishing to attend.

"The students and administration realized that not nearly all the people who wanted to have been able to attend," it was stated from the high school. In the last several years, two tickets have been issued to each senior for them to give to parents or guardian for use to obtain seats in the lower floor of the high school auditorium, which seats about 1,200 persons. The only space open to other relatives and friends was the balcony.

Seniors recently voted on whether they preferred to have the commencement exercises in the stadium. About 400 voted in favor and 22 voted against holding the exercises in the stadium.

A student program will be presented at commencement exercises, to be conducted May 24. The commencement sermon will be presented in the high school auditorium, Sunday, May 23, by Dr. Jack M. Lewis, First Presbyterian pastor.

The knitting machine was invented by William Lee of England, in 1589.

Everything but the squeal?

...Not quite

Utilization of livestock by-products is important to all farmers and ranchers. Of the total dollars received by Swift & Company for lambs, 15% to 25% comes from by-products. Cattle by-products amount to 10% to 20%. With hogs it is 2% to 5%. When bidding on live animals, Swift & Company's buyers estimate the yield and grade of edible meat. In their estimate they figure, too, the value of all by-products, including hides and wool.

Livestock by-products have greatly increased the value of your meat animals. Since earliest times, man has used hides and wool to make clothing. But only in the past half-century has research found the present great variety of uses for by-products. Fats, and lanolin from wool, are the base of many cosmetics, healing creams and beauty aids. Photographic film is coated with a gelatin compound. Other uses of gelatin and glues are almost endless. Animal fats are the main raw material of toilet soaps.

Life has been lengthened for people with diabetes, anemia and other diseases. They are helped by drugs such as insulin, liver extract, pepsin, adrenalin. These are all made from the glands of livestock. But for the painstaking care of meat packers, these glands would go to waste. This happened during the wartime "black market" in meats, and the supply of insulin ran low.

With the growth of meat-packing plants, the war on waste began in earnest. Science found new ways to use by-products of your animals. Bristles make brushes. Bones make knife handles. Hair makes upholstery padding. Bones, blood and scraps go into animal and poultry feeds. Yes, we find use for every valuable part of cattle, hogs, and lambs.

Each new use for by-products adds value to livestock . . . and directly benefits producers.

Speaking of By-Products . . . Here's a movie about 'em—just the film to complete your community or school program: a 16mm. sound, color cartoon, "BY-PRODUCTS." It runs 10 minutes—and tells the story of livestock by-products and their uses. You may also want to show "MEAT BUYING CUSTOMS," another 10-minute cartoon. For a history of the livestock-meat-packing industry, you'll like "LIVESTOCK AND MEAT"—49 minutes, black and white. "A NATION'S MEAT" is a shorter version—30 minutes—full of information on the American meat supply. Then there is "COWS AND CHICKENS . . . USA," a story of diversified farming—the dairy and poultry business in a nutshell. Please give us at least a month's advance notice to handle bookings. We can ship by express or parcel post. Only cost to you is payment of express or postage one way. A 16mm. *sound* projector is required. Order from Agricultural Research Dept., Swift & Company, Chicago 9, Illinois.

OUR CITY COUSIN

Let City Cousin pull and jerk . . . He'll find "a cinch" is real herd work!

We All Want the Top Dollar

You, as a producer of livestock, want to get the best price for your animals—"the top dollar." As a salesman for Swift & Company, selling the products which result from these animals, I, too, want to get the top dollar.

The meat packer's buyer has to judge the grade of the animals and estimate how they will yield. He then makes his bids in competition with buyers for many meat packers and other commercial slaughterers. To get the animals, he has to offer going prices. Otherwise he just won't get them; somebody else will. And that "going price" which he *must* pay depends on the number of animals on the market and the demand for them.

After Swift & Company has made the animals which it has purchased into meat and by-products, we must *sell* them, again in stiff competition. If we don't offer meat at the going price, retail meat dealers will buy from somebody else who does. *This competition in both buying and selling is so keen* that we have to operate on a margin of profit which averages but a fraction of a cent per pound of product handled.

In our business, as in yours, it takes hard work and good management to come out with money ahead on a year's operation. Our efficiency in selling meat and by-products results in important economies and savings. Only through such savings can we earn our profit—and help increase the value of your livestock.

O. E. Jones
Vice-President, Swift & Company

• • •

Mr. Jones, "guest editor" this month, is Vice-President of Swift & Company in charge of sales and advertising.

A Steer is NOT all Beef

Let's take a look at this steer. It weighs 1,000 lbs. It's not all steak. In fact, only a little more than half is salable beef. Hanging in Swift's cooling room, our steer has become two sides of beef. Together they weigh 543 lbs. What happened to the rest? Modern meat packers save everything of value from the steer—heart, tongue, liver, sweetbreads and other fancy meats. Hides for leather; bones, blood and scraps for animal feeds. Glands for medicines. All told, 161 lbs. of the steer is saved in by-products. But 296 lbs. is shrinkage and material of no value. Only the meat and by-products can be sold.

What happens to the money the meat packer receives? It is used to buy livestock and other raw materials. It meets the expenses of slaughtering, dressing, refrigerating, transporting and selling. It pays rent, insurance, taxes—all the costs of doing business. The amount remaining after all of these expenses are paid is the meat packer's profit. Over a period of years, Swift & Company's profit has averaged a fraction of a cent a pound on the products we sell.

That's the explanation of the "spread" between livestock prices and wholesale meat prices.

Phenothiazine Stands Up

Dr. I. B. Boughton

by Dr. I. B. Boughton

Texas Substation No. 14, Sonora, Texas

Ample proof that sheep roundworms can be controlled in West Texas by free-choice feeding of phenothiazine-salt mixture, with no danger of poisoning, is revealed in a 4-year test at this station.

The test was made to find the answers to two specific questions: 1) Whether phenothiazine-salt mixture, fed to sheep free choice, would control stomach and other roundworm infections. 2) Whether long time use of such a mixture would be poisonous to sheep.

Answering both questions, it was effective and it was not toxic.

Sheep used in the test were fairly heavily infested at the start, showing an average of 1180 worm eggs per gram of manure in ewes and an average of 1700 in lambs. The count decreased steadily to 60 for ewes and 30 for lambs by the fourth year. The worm eggs in the manure did not hatch, an important point since the failure to hatch shows that the infestation of the range was being reduced.

But don't throw away the drench gun. In 8 Minnesota flocks, where sheep were given a phenothiazine drench and had free access to phenothiazine-salt mixture, the lambs weighed 93 to 104 pounds. They dressed out 47.4 to 48.9%; and over 90% of the carcasses graded AA.

On the other hand, in flocks where the sheep were given the phenothiazine-salt mixture *but were not drenched*, the lambs weighed 87-99 pounds; they dressed out 46.6 to 47.4%; and 11% to 40% graded AA.

Soda Bill Sez:

. . . the best way to get out of trouble is to plow right through it.

Martha Logan's Recipe for
FRIED CHICKEN WITH GOLDEN GRAVY

(Yield: 5-6 servings)

1 frying chicken (2½-3 lb.)
½ cup yellow corn meal
¼ cup flour
1½ tablespoons salt
½ teaspoon pepper
6 tablespoons bland lard
About ¾ cup water
3 cups milk

Clean, wash and cut up chicken into serving pieces. Dry. Combine corn meal, flour, salt and pepper in paper bag. Put chicken pieces into bag, close top and shake bag until pieces are well coated. Reserve excess corn meal-flour mixture for gravy. Brown chicken well in hot bland lard in heavy skillet. Add ¼ cup water. Cover tightly and simmer slowly for 1 hour or until chicken is tender. Add remaining water as needed. Remove chicken and keep it warm while preparing gravy. Combine corn meal-flour mixture with the drippings in skillet. Brown lightly. Stir in the milk and cook until corn meal is cooked and gravy thickened. Serve gravy with chicken.

Nearly One-Third Of Nation's Soft Coal Miners Remain Idle

PITTSBURGH, April 16 (AP) —One-third of the nation's 400,000 soft coal miners today grimly maintained their protest strike pending the federal court's verdict on John L. Lewis.

The trial of the United Mine Workers chieftain on charges of contempt ended yesterday, except for the final judgment.

Monday morning Judge Alan T. Goldborough will announce whether Lewis and the UMW are guilty of failing to heed a court order of April 5 to end the 29-day soft coal walkout.

Walkout Ended

Tried on similar charges in 1946, Lewis was fined $10,000 and the UMW paid $700,000.

The walkout, by which miners enforced their demands for $100-a-month pensions, ended last Monday. An estimated 250,000 miners have returned to the pits, the number growing from day to day.

On the fourth day after the settlement, however, more than one-third of the UMW members still refused to return to their jobs. Thousands of these were in the old, strike-hardened Pennsylvania soft coal region, where the UMW has fought many of its bitterest battles.

Only about 44,000 of Pennsylvania's 96,000 soft coal diggers were at work. Most of the others had gone to their union meetings and voted to postpone their return "until after we learn what the court does about Uncle John."

A large portion of the "captive" mines, on which Big and Little steel lean heavily, remained idle despite the industry's desperate need of fuel. Fayette county, in the heart of the western Pennsylvania field, reported only 800 of its 15,000 miners working.

There were other strong centers of resistance to the back-to-work movement.

None of Utah's more than 4,300 miners re-entered the pits.

Ohio has 16,000 soft coal diggers but Adolph Pacifico, UMW district president, said his latest information was that only 700 to 800 of them had returned. He said most of them apparently were awaiting the Lewis ruling, though flood waters may have kept some from their jobs.

20,000 Absent

In West Virginia, only one union local reported voting against the return but 20,000 of the 120,000 miners failed to show up at their mines.

At least 7,000 were idle in Alabama, 2,000 in southwest Virginia, 1,500 to 2,000 in Indiana, and 1,100 in Colorado.

The Pittsburgh Steel Co. announced the reopening today of its coke plant and one blast furnace at nearby Monessen. Another blast furnace, it said, will be returned to production Saturday. About 350 workers will be recalled.

The Lackawanna railroad will call 700 locomotive and repair shop workers back on Monday.

But these were only a few of the 160,000 workers idled in various industries as a result of the coal shutdown. Generally, the attitude of the steel companies and the railroads was the same as that of the miners: They are waiting to learn "what the court does about John L. Lewis."

Abernathy Admitted To Jaycee Region

EL PASO, April 16. (AP)—The Texas state Junior Chamber of Commerce convention here admitted eight new clubs and made five regional changes yesterday.

The new clubs are located in Abernathy, Alpine, Monahans, Electra, Overton, Rusk, Hayes county (San Marcos) and Jacksonville.

Mason was shifted to region five; Lampasas, San Saba and Llano to region eight and Crockett to region nine.

Communists Plan More "Little Red Schoolhouses" For World

By DEWITT MACKENZIE
AP Foreign Staff Writer

An undoubtedly anxious Moscow hasn't been slow in devising measures to try to offset the damage suffered recently by the Communist world revolution at the hands of the now thoroughly aroused democracies.

We have seen evidence of this in many events. Among developments there have been the hostile red machinations against the allies in Germany, intensification of the strong-arm drive to capture control of the Italian government in the election next Sunday, the fierce effort to overthrow the government of Colombia and disrupt the Inter-American conference meeting in that country, and simultaneous attempts to precipitate revolution in other South American states.

New Efforts

The latest—and in some ways the most formidable—is the disclosure by the Cominform in Belgrade that a world-wide speedup of the Marxist ideological campaign has been got under way. The Cominform is a composite name for the "Communist International Information bureau" which was created some months ago in Poland under direction of Moscow. That's what the communists call it, but observers generally hold it to be a revival of the old Comintern, or general staff for world revolution, which had headquarters in Moscow and was "abolished" by Stalin as a beneficent gesture towards the democracies while they were fighting beside him against Hitler.

The Cominform newspaper now informs the faithful that the speedup of the Marxist campaign has been begun with the opening of Communist party schools. It is disclosed that one school has been opened in the Soviet zone of Germany, near Berlin, and another is to follow.

In All Countries

Since this program is part and parcel of the world revolution, we may be sure that the speedup of the ideological campaign will be undertaken in all countries, including the entire western hemisphere. Apropos of this, the Cominform newspaper brags that Communist membership in Brazil has risen to 200,000. Be that as may, it is obvious that Communism is boring in everywhere.

This educational campaign is at once one of the most insidious and the most dangerous of the Bolshevist schemes for advancement of the Red ism. Hitler appropriated it and adapted it to his own plot for world conquest. He not only had centers of instruction for adults, but made special drive to nazify the children—with a terrible success which now is hampering allied efforts to rehabilitate Germany.

Nothing New

Of course communist centers for instruction are nothing new in the United States and in most other countries. Moreover, the Reds have been making a special effort to capture youth, and this has been furthered by winning over teachers, both in preparatory schools and universities, to repeat quietly but persistently the goodness of Communism. You probably have seen it, and I've seen it, in many places.

It has taken the democracies a long time to wake up to the real meaning of the Communist drive. They couldn't believe that their comrade-at-arms would turn and try to impose a totalitarian dictatorship on them. However, they've had that nonsense knocked out of them finally and know that they are up against an all-out drive to communize the world.

Ready To Fight

The democracies are ready to fight fire with fire and probably that's the reason the Cominform has decided to intensify the more subtle aspects of the Red revolution. An educational crusade is much more difficult to recognize and deal with than is the employment of open violence.

So the democracies are entering a particularly dangerous phase of the Red revolution. Still, as previously remarked, they are finally awake to the dangers and the signs are that they intend to meet the situation by governmental suppression of all red activities.

And this scheme for the building of more little Red schoolhouses will have to be dealt with promptly and thoroughly, unless a new generation of Communists is to be created.

CARNIVAL — By Dick Turner

"Y'know, Myrtle, for one and a half cents I'd close up shop today and go fishing!"

Shirley Temple Gives Advice To Star Of "Little Miss Marker"

By BOB THOMAS
Associated Press Staff Writer

HOLLYWOOD, April 16—Here are some words of advice to the new "Little Miss Marker" from the original one—Shirley Temple.

Receiving this counsel is a pert-faced, auburn-haired five-year-old from Pasadena named Mary Jayne Saunders. Chosen from 2,000 girls to play in a remake of the Damon Runyon story, she has a chance of following in the fabulous Temple footsteps. Now a wife, mother and screen veteran ("Fort Apache" is her 34th starring film), Shirley was asked for her advice to Mary Jayne.

Neews Wise Mother

"If her mother is like mine, she won't have to worry," said Shirley, who celebrates her 19th birthday this month. "At so young an age, children don't think for themselves. They need wise mothers to keep them on an even keel.

"My mother saw to it that I led as normal a life as possible. My studio work was done like play. Mother explained the scenes to me and I learned the lines for fun."

Shirley added that a child actress should be shielded from thoughtless grown-ups. "She shouldn't be allowed to hear many compliments about her work," the star advised. "Children are apt to become 'smarties' if that happens."

Jokesters Around

She said jokesters often instruct kids to walk up to some set worker, slap him on the back and make an adult remark. "When they did that to me," she added, "I always asked Mother first if I should do it."

Shirley agreed with my suggestion that the mothers themselves should be tested before children are selected for movie careers. Mrs. Temple was many times cursed by studio bosses for not bending to their demands on Shirley's services.

But parental strictness has had results. Even though she has been a film star since she can remember, Shirley is a normal, happy American girl. I imagine that's all the thanks that Mrs. Temple desires.

Hunters Go To Court For Popular Deer

WILKES-BARRE, Pa., April 16 (AP)—There was only one deer but two hunters and both claimed the carcass.

The result? A day in court.

Michael Sokol charged Nicholas Berella with assault and battery and theft of the deer.

Berella said he shot the animal seven times and that Sokol offered to settle for the deer's liver and one good steak.

The court found Berella innocent. He also kept the deer.

"Inside Tip" Given On UMT

Editors Told Bill Is Dead

WASHINGTON, April 16. (AP)—Several hundred of the nation's leading editors got an "inside tip" last night that Congress will not enact a universal military training bill this year.

It came from House Republican Leader Halleck of Indiana, one of five lawmakers who addressed the annual meeting of the American Society of Newspaper Editors.

"The first emphasis undoubtedly will be on selective service," Halleck told the editors when pressed for a prediction on UMT legislation.

Measure Not Cleared

Although the House armed services committee has approved a training bill, he said, the measure has not been cleared by the rules committee for a House vote and only about 40 members have asked for a floor showdown.

Halleck noted that it takes the signatures of 218 members to force such a showdown.

Halleck was joined in the general discussion of Congress by Senators Taft (R-Ohio), Eastland (D-Miss), Taylor (D-Idaho) and Rep. Monroney (D-Okla).

Taft defended the Taft-Hartley labor law and reiterated his belief that Congress cannot prohibit strikes without fixing wages, a course he said would lead to general governmental controls.

Program Is Rapped

Eastland criticized President Truman's civil rights program, and Monroney reviewed operations under the congressional reorganization act.

Taylor stirred up a lively discussion by describing the American press as "the greatest villain that ever inhabited the face of the earth when, day after day, they do everything that they can to stir up hatred."

Taylor, who expects to be Henry A. Wallace's third party running mate, said he does not believe war with Russia is probable or necessary and assailed what he called "a Red smear going on in the press."

How to remove barriers to free world movement of news was the topic for today's discussions by the editors.

Last year the ASNE urged that if the United Nations failed to win international acceptance for world news freedom, the United States should try for two-nation agreements with those willing to take part.

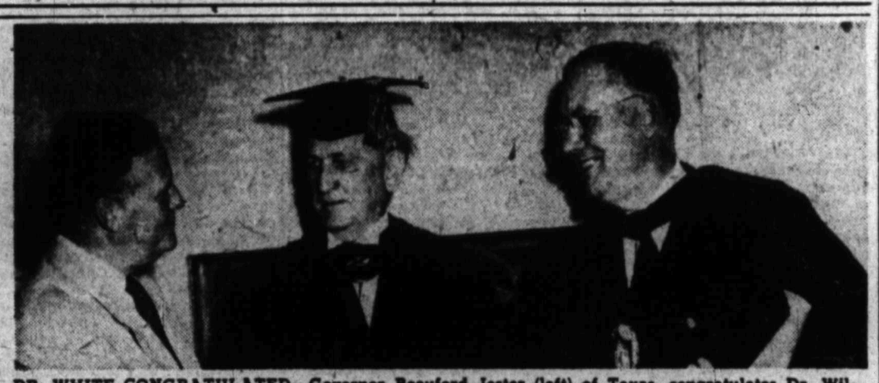

Resolution Expected

A resolution dealing with world news freedom may be voted on at tomorrow's final session.

The ASNE awaited today a report from its members on the American council on education for journalism. The council has been visiting journalism schools and will meet in Cleveland May 14 to

M. Neff, who retired as president of Baylor Jan. 1 after fifteen years as the school's head looks on (center).

Flag-Draped Body Of Manuel Roxas Is Brought To Manila

MANILA, April 16 (AP) — The flag draped body of Manuel Roxas was brought back today to this sorrowing capital of the young Philippines republic he served as president.

The capital, stunned by the 56 year old Roxas' unexpected death from a heart attack at Clark field last night, awaited the arrival of his successor, Vice President Elpidio Quirino, 57.

Quirino, himself ailing and under a physician's care for high blood pressure, was expected to return by tomorrow morning after breaking off a tour of the central Philippines.

Council Is Called

Quirino by radio called a session of the council of state, which consists of cabinet members, former President Sergio Osmena and former Justice Jose Yulo. He asked it to meet as soon as he arrives.

Secretary of Commerce Placido Mapa told reporters Roxas had been more worried recently by Quirino's health than his own.

Thousands of Filipinos thronged the depot when the funeral train arrived from Clark field, U. S. Air Base 50 miles northwest of Manila.

The crowd gasped at the sight of the train—a locomotive pulling several empty freight cars, a gasoline tank car, two third-class carriages containing the presidential guards, and Roxas' air conditioned first class coach.

Wife Kisses Forehead

Mrs. Roxas lifted the flag over the body and kissed the forehead of her husband.

The body lay in state at Malacanan palace, which was closed to all but members of the family, the cabinet and close friends.

Government and commercial radio stations were asked to eliminate dance music. Business houses opened. So did the stock exchange, but there was little trading. Everyone awaited announcement of the mourning period.

Quirino is strongly pro-American, as was Roxas. He negotiated the military assistance pact with the United States, although he in-

So Exciting To Be In Bootleg Trade

OKLAHOMA CITY, April 16 (AP) — Bootleggers in this prohibition state of Oklahoma have their little tiffs with the law — but for real thrills you must study their home life.

Wednesday deputy sheriffs said one was shot in the midriff by his wife—who explained she was aiming at a blonde who had her arms around him.

Last night police reported another bootlegger was winged in the leg by his sister. She told officers she fired for effect when brother raised a fuss at home.

Both women used .22's for the work, and doctors said the menfolk will be on their feet soon, as the wounds were slight.

Roosevelt Called "Carpet Bagger"

LOS ANGELES, April 16.—(AP)—"Carpet Bagger" was the label tagged today by a disgruntled Democrat on James Roosevelt.

City Councilman Ed J. Davenport, announcing to a Democratic luncheon club that he was switching his registration to Republican, asserted:

"Roosevelt was named chairman of the California Democratic central committee almost before his carpet bag was unpacked in 1946."

Besides, Davenport added, "the Democrats are bewildered, shifting, drifting and splintering."

Assistant For County Agent Is Appointed

In recognition of the rapid expansion of irrigation on the High Plains, and in an effort to eliminate waste and water loss, the extension service has appointed Robert V. (Bob) Thurmond, now assistant county agent in Lamb county, as associate county agent in irrigation in this area.

The announcemnt came Thursday from W. N. Williamson, district agent here after confirmation of the appointment by extension service headquarters at College Station

First Such Assignment

The appointment is the first such assignment in the state, Williamson said. Thurmond will be located here, but will work with county agents and farmers on irrigation matters throughout the Panhandle Plains area, in Districts 1 and 2 of the extension service. He will be under supervision of Williamson in this district, and Knox Parr of Amarillo in the Panhandle.

The appointment is effective May 1, but Thurmond, an agricultural engineering graduate of Texas A. & M. college, is to have two months of special training on irrigation problems before going into the field about July 1, the announcement said.

Thurmond has lived at Amherst as assistant Lamb county farm agent. He is the son of M. F. Thurmond, who is in charge of the USDA school lunch program at Austin. The family formerly lived at Bryan, where he graduated from Stephen F. Austin High school. He graduated at Texas A. & M. last year with a degree in agricultural engineering.

A war veteran, Thurmond entered the army as a private in 1943, was assigned to officers training school at Fort Benning, Ga., then was sent to Camp Hood as instructor at the infantry replacement training center. Before his discharge in 1946, he spent 14 months in the Philippines.

Thurmond is married, but has no children.

To Train Personnel

Explaining what he described as an educational program on irrigation, Williamson said the new work is designed to train county agent personnel, and assist farmers, in practical methods to reduce the costs in irrigation and increase crop production with available water by eliminating waste and losses.

Among other aims are contour mapping of fields, methods of fertilizer application in irrigation water, the economical application of water, and ditch locations.

Thurmond also will seek to instruct on length of water runs and depth of penetration. In short, he will be expected to design and make use of more practical and less wasteful use of water through

WARTIME SPIPPER — Capt. Charles A. Baker, war-time skipper of the battleship U. S. S. Texas who commanded the ship throughout D-day operations and Pacific island fighting, plans to take part in the dedication ceremonies on San Jacinto day, April 21, in Houston when the ship will be presented the state as a memorial.

Tests Will Be Given Firemen

Civil Service examinations to fill 20 firefighters' positions and two captains' positions in the Lubbock Fire department will be held at the Central Fire station, Tenth and Ave. J, on April 30, the city has announced.

Application blanks, which may be secured from the personnel office at City hall, must be filed not later than 2 p. m., April 26. The examinations for firefighter positions will be held at 2 p. m. on April 30, and exams for fire captain will be held at 10 a. m. the same day.

Must Meet Requirements

Several temporary employes of the fire department who are now on the job must also take the examinations. The positions will be filled from the applicants making the highest grades on the examinations.

An applicant for the position of firefighter must be not under 18 nor over 35 years of age, and must be able to meet the medical requirements prescribed in Civil Service rules.

Desirable, but not compulsory, requirements include the equivalent of a high school education, a fair degree of mechanical aptitude or training, some knowledge of first aid and artificial respiration and a knowledge of the geography of the city.

Applicants for the positions of

All-Western Days On At Tech Today

Western Style Parade Is Scheduled Here At 5 P.M.; Rodeo To Be Staged Tonight

The annual Texas Technological college All-Western Days and All-College Rodeo will get off to a roaring start with the traditional western style parade beginning at 5 p. m. today.

The first rodeo performance is scheduled for 8 p. m. in the arena at the Panhandle-South Plains Fair grounds.

Eleven college organizations had indicated intentions of entering floats in the parade up to late last night and many more are expected to enter before the deadline at noon today. A large plaque will be awarded the float that is judged the most typically western with the presentation taking place at the rodeo dance to be held in the college gymnasium tomorrow night, winding up the colorful two-day event.

The parade will form in front of Sneed hall, men's dormitory, on the campus, proceed around Memorial circle and down Broadway to Avenue H. It will turn left at Avenue H to Main, out Main to Avenue N, turn right at N and break up in that immediate area. Flags will head the parade followed by the Tech Matador band which in turn will be followed by the Block and Bridle club float. A large group of mounted horsement will come next and the various club floats will bring up the rear. The Block and Bridle club is an organization of agriculture students at the college which sponsors the celebration each year.

Entries in the various events in the rodeo were pouring in at an increasing rate Thursday with the deadline for entry set for 5 p. m. An impressive array of cowpunching talent have entered and should provide a well balanced and thrill packed performance. There will be competition in five events for the men and two for women entries. Bareback bronc riding leads in the number of men competing with brahma bull riding running a close second. Others are wild cow milking, saddle bronc riding and calf roping.

Three Women Enter

Only three women had entered the goat tying and cow milking competition provided for them by late Thursday. They are Josh Cook, Post; Betty Franks, Rocksprings; and Helen Calcote, Rankin. However, two girls, Helen Bishop of Winters and Betty Williams of Goldthwaite, have entered the bare back bronc riding competition. This fact is causing no little concern to rodeo officials who are wondering whether or not it is a joke. The girls have backed up their intentions with a $5 entrance fee.

Men entered by event up to press time are:

Bareback bronc riding: Glenn Phillips, Farwell; Sammy Elliot, Dalhart; John Wilson, Pecos; Dale Winders, Dimmitt; James West, Stamford; Bobby Carnahan, Hereford; Loren Blackmore, Canadian; Tommy Bell, Valentine; Grady Payne, Fort Worth; Jerry Martin, Westover; Ray Pardue, Lubbock; Jack Eike, Brownfield; Raymond Reeves, Floydada; Shelby King, Ysleta; U. O. Hobgood, Lubbock; and Lewis Washburn, Little Rabbit, Australia.

13 To Ride Bulls

Brahma bull riding: Phillips, Elliott, Wilson, Reeves, Winders, West, Blackmore, Bell, Joe Reeves, McLean; John Wertz, Midland; Joe Kincheloe, Vernon; Clyde St. Clair, Fort Worth; and Bud Halsell, Fort Worth.

Wild cow milking: Blackmore, Bell, Howard Fowler, Levelland; Ward Carroll, Panhandle; J. H. Heath, Holly, Colo.; and Bill Ware, Floydada.

Calf roping: Bell, Ware and Heath.

Two Awards Planned

The Block and Bridle club will give a $160 saddle to the best all-round cowboy. To be eligible the cowboy must enter at least one roping and one riding event. The best all-round cowgirl will be awarded a pair of boots. These

See TECH RODEO Page 7

Meeting To Be Held At Tech

Members of the West Texas Museum association, their guests and visitors will assemble at 6 p. m. today at Texas Technological college for the opening session of their 1948 annual meeting.

Outstanding personalities who have played an important part in the growth of West Texas are scheduled to speak. Carl Hertzog, nationally known typographer from El Paso, will give an address in the afternoon on the experiences of a publisher of Southwestern books. J. Evetts Haley of Canyon, who will be introduced at the evening session, will discuss the experiences of a frontier peace officer.

Chuckwagon Supper Planned

Immediately following the afternoon session the Texas Tech library staff will honor Mr. and Mrs. Hertzog, Mr and Mrs. Haley, Prof. D. E. Sheffy, secretary of the Panhandle Plains Historical society, of Canyon, and Mr. and Mrs. Harold Bugbee of Clarendon at a reception to be held in the library's new Southwestern History room.

A chuck wagon supper in Aggie Grove is planned for 6 p. m. with all association members, college faculty and students, and townspeople being invited. Reservations for the supper may be secured by contacting James G. Allen, dean

BY DREW PEARSON: SMALL NATIONS RESENTS U.S. PRESSURE ON PALESTINE ISSUE

Blue Chip Minnesota Bussinessmen Back Stassen

WASHINGTON—A lot of people have wondered where Harold Stassen's campaign expenses were coming from.

The ex-Minnesota governor, not a wealthy man, has spent the last two years touring the length and breadth of the USA, with campaign headquarters set up in several states. Naturally, this takes money. The matter of who is putting up the money is important to the voting public.

PEARSON

Most of Stassen's backers, it can be revealed, are blue-chip businessmen, including some of his old Minnesota neighbors. Several of the group, it should be noted, have progressive ideas and enjoy excellent relations with labor. Here are the chief Minnesota men behind Stassen:

Henry E. Atwood, president, First National Bank, Minneapolis.

Julian B. Baird, president, First National bank, St. Paul.

Harry A. Bullis, chairman of the board, General Mills, Inc.

Edw. B. Cosgrave, president, Minnesota Valley Canning Co.

Donald D. Davis, president, Minnesota and Ontaria Paper Co.

Daniel C. Gainey, president, Josten Manufacturing Co.

Jay C. Hormel, chairman of the board, Geo. A. Hormel & Co.

W. L. McKnight, president, Minnesota Mining & Manufacturing Co.

John S. Pillsbury, chairman of the board, Pillsbury Mills, Inc.

• • •

Underground Activities

A Commerce department employee was being quizzed by a loyalty investigator about a young lawyer in the same department.

"Does he belong to any underground organizaitons?" asked the investigator.

"Yes."

"Which one?" the investigator leaned forward eagerly.

"The National Spelelogical society."

"What do its members believe in?" asked the puzzled prober.

"They specialize in the study of caves and underground caverns."

NOTE—During the war, the lawyer being investigated had made a study of U. S. caves for the War department with a view to using them for storage in case of enemy bombardment.

• • •

AS delegates to the United Nations assemble on New York to consider unpartitioning Palestine, most of them will have in the back of their minds certain backstage things which happened when they first voted for partition.

For instance, the Liberian government, largely dependent on the United States and the Firestone rubber company, last winter got a phone call from Harvey Firestone asking that Liberia vote for partition. Haiti, also economically dependent on the USA, go a call from Adolph Berle, former assistant secretary of state, now adviser to the President of Haiti.

The French ambassador, following hints from State department friends, urged his government to vote for partition. The Chinese ambassador did likewise. Mexico, New Zealand, Colombia—all were discreetly pressured from Washington during the U. N. debate in November.

And having been told how to vote on Palestine last year, these nations now don't like to be told to vote the other way. They consider themselves sovereign states, not puppets voting as Uncle Sam cracks the whip and calls the roll.

• • •

American Handsprings

In diplomatic circles, it's discreetly stated that nothing has hurt American prestige more than our sudden somersault on Palestine. Comparing US foreign policy with British policy, diplomats point out that the British at least are consistent. Even though you disagree with them, you always know where the British stand.

But American policy is unpredictable. It is one thing one day and another thing the next.

For many years western European naitons were in the habit of following Britain's lead. She was the strongest nation in the western world. But now, with the United States the most powerful, they prefer to follow us—provided they know where we are. However, it hurts any nation's prestige to have to explain that its vote was reversed because the United States turned a handspring.

NOTE—Remarked one diplomat: "The United States is like the banker in a small town. You have many mortgages on other people's houses. So we always tip our hats to you, and usually vote with you. But the small-town banker isn't loved by the people who come to him for money, and that's why we don't always love you."

• • •

THE first of the ten Hollywood screen writers, charged by the Thomas committee with being Communists, is now on trial. Of the ten, inside word is that six are Communists and four not. The latter refused to answer questions because of honest conviction that Congress had no right to ask a man what party he belongs to.

Two years ago, a D. C. jury refused to convict Dr. Edward Rumely for contempt of Congress when he refused to answer questions about who contributed money to his Committee for Constitutional Government.

Rumely was backed by some of the big oilmen, by some of the Anderson-Clayton cotton executives and by Frank Gannett, New York's powerful chain newspaper publisher. Rumely himself has served time after being convicted for trading with Germany during World War I.

However, the jury let him off when he refused to tell Congress who his financial supporters were.

What influenced the jury was a charge by Judge James Proctor that the jury must be convinced Rumely "did not willfully default in failing to produce the required records" and that "the word willfully must be interpreted as having been done knowingly and with evil intent."

Judge Proctor has now been promoted to the court of appeals. Dr. Rumely still has failed to inform Congress—as now required by the lobbying act—who his financial contributors are, and a new contempt-of-Congress case is now before the D. C. court. It will be interesting to see whether Judge Edward Curran makes the same "evil intent" charge to the pury as Judge Proctor.

The PLAINSMAN Says:

That Girl on Broadway says nothing can cause more discord than constant harping.

* * *

Yes, blessed are the poor. Their names never turn up on a sucker list.

* * *

HERE'S a slogan suggestion for the "Texas For Truman" organization in our fair state:

"Don't change horses in the middle of a maelstrom!"

* * *

There are times when we wish we had lived in the Stone Age, with nothing much to worry us except that a saber-toothed tiger might eat us for lunch!

* * *

WITH its global rehabilitation program, the U. S. is engaging in the most unusual and spectacular experiment of all time, i.e., attempting to win a war with billions instead of bullets!

* * *

Just because a woman has difficulty in making up her mind doesn't mean that she encounters any trouble in making up the mind of her husband!

* * *

THE BLACK MEL

"But Once I pass this way,
And then . . . no more.
But ONCE . . . and then the Silent Door
Swings on its hinges—and no more."

INTO the moist soil of the Texas Gulf Coast has been lowered today all that is mortal of George Waverly Cottingham. Thus he becomes part and parcel of the land which nurtured him and made him great—made him great as an editor, great as a public servant, great as a Christian gentleman and great as a husband and father.

Yes, and the land which nurtured him, and of which he now has become an integral part, made him great as a friend, too. We know, because he was our friend; our friend of more than a score of years.

He was such a friend that it is with humility, as well as with sorrow, that we contemplate his sudden passing. For friends like George Cottingham do not come along every day, or every year—or often in a lifetime.

* * *

In lusty, sprawling, growing Houston—and over the vast Southeast Texas empire of which it is the focal point—"George Cottingham of the Chronicle" has been a moving force for good over three decades, and more. So thorough he was in what he did that the good he wrought will be felt there for a long time to come.

But more important, other good which was brought about by George Cottingham of the Chronicle will be felt throughout Texas, too, in the years to come, as it has been felt in the years past.

These Plains of ours are a far cry from Houston and from the influence of the great newspaper which reflected the editorial genius of George Cottingham. So George Cottingham was not generally known to people out here.

Yet the fact remains that many who live here—as well as many who live in other parts of Texas far removed from Houston—have been benefitted by the brains and the talents and the efforts of George Cottingham of the Chronicle. For it was George Cottingham who was largely responsible for the Texas Department of Public Safety and the services it performs for all Texans.

* * *

JUST as George Cottingham started on the Chronicle when it was a small city newspaper of no more than local prominence and helped make it the vital force it has become in the state and nation, he also started with the Texas Department of Public Safety when it was nothing more than an idea.

Just as he gave of his fine mind and sparkling energy to the building of the Chronicle, he gave of his best to the people of Texas in the building of the Texas Department of Public Safety.

He didn't think he was building monuments to the memory of George Cottingham when he was helping build the Chronicle and the Texas Department of Public Safety. George Cottingham didn't think selfishly.

But that is what he was doing and those two monuments shall long stand to remind Texans of his worth not only to Houston, but to the state as a whole.

* * *

Along with George Cottingham of the Chronicle, something fine and warm and friendly has gone from the newspaper scene in Texas.

There will be a void — a poignantly empty space—in future informal gatherings of the closely knit ranks of the "old guard," whose members are wont to get together now and then, secluded from the newcomers, to talk about the days that used to be. Jimmie North and Jim Record, both of the Star-Telegram; Allen Merriam of the Dallas Times Herald; Harry Withers of the Dallas News; Frank King, of the AP; Dwight Allison of San Antonio's Light and Charlie Green of the Austin American-Statesman; Emmett Watts of the Chronicle; Ben Donnell, of Wichita Falls Times and Record-News—and Max Bentley, formerly of the Chronicle and the Abilene Reporter - News who loved George Cottingham like a brother—we'll all get together again. But it will be different. It will be different, because George Cottingham won't be there.

No more will the telephone tinkle in The Plainsman's cubbyhole and George Cottingham's cherry voice be heard saying, "Can you hear the rain? It's raining cats and dogs down here and I thought you might be glad to hear some—even if it's 600 miles away!"

* * *

THE newsrooms of Texas today need not be draped in black, because on men's minds heavy lies the hand of grief.

The column rules on Texas editorial pages need not be turned upside down today in traditional mourning for George Cottingham of the Chronicle, because a deeper and more personal sorrow grips the hearts of newsmen from one end of Texas to the other over the passing of one of their favorite colleagues.

For George Cottingham of the Chronicle was a newspaperman's newspaperman—than which from the craft can come no greater accolade.

* * *

The American people must make a choice.

We must have military preparedness—or run a serious risk of our Way of Life becoming a Dead End Street.

* * *

That Man on Avenue Q says the cost of everything has risen a lot in the past several years, but nothing has become more expensive than making history!

* * *

Tinker, Evers and Chance were pretty good but we've never seen a triple play as rapid as the transfer of our money from us, to the bank, to our creditors!

* * *

THE board of directors of Texas Technological college soon will be looking around and about for a successor to President W. M. Whyburn. Chances are, they'll look high and low, and consider many possibilities before they are through—which is as it should be.

If we were a member of the board, we'd look over several of the boys on the ground — who have proven themselves at Tech. And we'd also look over two other very promising and successful young administrators in the field of education who live relatively near here.

We refer, latterly, to Dr. J. W. (Bill) Marshall, the president of Wayland at Plainview; and Dr. Richard M. (Dick) Hawkins, president of Sul Ross at Alpine.

Both these men have proven to be "balls of fire" in their respective posts. Each gives every indication of having so much on the ball that sooner or later he'll be called to a much larger field. Doctor Hawkins, incidentally, turned down the vice-presidency of SMU a couple of years ago.

Whether either Doctor Hawkins, or Doctor Marshall, is the man Tech needs, we would not even try to say and, anyhow, it's not our business to say so.

But we will say they're both worth consideration. Their records prove it.

Looking The Gift Horse In The Mouth

BY RUTH MILLETT: TO THE LADIES

The Feminine Viewpoint

IT'S a man's world, all right. Just look at the difference in these descriptive words and phrases, depending on whether one is referring to a man or a woman.

If he doesn't marry, he's a "bachelor" — glamorous word. If she doesn't marry she's on "old maid."

MILLETT

When it's his night out he's "out with the boys." When it is her night out she's at a "hen party."

What he hears at the office is "news." What she hears at a bridge party is gossip."

If he runs the family he is "head of the house." If she runs it she "wears the pants in that family."

If he is overly-solicitous of her he is a "devoted husband." If she is over-solicitous of him he is "hen-pecked."

If he keeps his eye on her at a party he is an attentive husband." If she sticks close to him she is a "possessive wife."

• • •

MIDDLE-AGE DIFFERENCE

IN middle-age he is "in the prime of life" or "at the peak of his his career." At the same age she's "no spring chicken."

If he is an easy spender he "doesn't deny his family anything." If she doesn't count the pennies she's "extravagant" or a "poor manager."

If he hasn't any small talk he's "the quiet type." If she hasn't any she is "mousy."

It all depends on one thing—whether you're speaking of a man or a woman.

Today's Thought

For though he was crucified through weakness, yet he liveth by the power of God. For we also are weak in him, but we shall live with him by the power of God toward you.—II Corinthians 13:4.

• • •

Nothing is so high and above all danger that is not below and in the power of God.—Ovid.

Journal Jabs

NOW that the price of prunes has dropped considerably, you can reduce your cost of living—if you call subsisting on prunes living.

• • •

Why the observation of the 100th birthday anniversary of the man who invented the hole in the doughnut? It was nothing.

• • •

If prices don't drop sooner or later, it will be the first time they never did.

By Bennett Cerf

"Try And Stop Me"

PRIMO CARNERA'S reputation as a heavyweight boxer is slightly tarnished, but he's making a big comeback as a wrestler—and he is still a source of joy to visiting reporters. When he arrived on the Coast recently, for example, a scribe asked him, "How do you like Los Angeles?"

Primo flexed his muscles, and answered confidently, "I pin him to the mat in two minutes."

• • •

A WELL-MEANING lady at a dinner party once mistook Julian Hawthorne, a novelist himself, for his famous father Uathaniel, "I've read your 'Scarlet Letter'," she told him happily, "and I think it's the most remarkable nove. you've ever written."

"It most certainly is," agreed Julian Hawthorne, "and the most remarkable thing about it is that it was written when I was exactly four years old."

BY MARQUIS CHILDS

Events Of Today Will Direct Next U.S. President's Path

WASHINGTON, April 16 — It will be nine months until another President of the United States is inaugurated. At the rate at which events are moving in the foreign field, a Republican president coming in on January 20 will find himself helpless to move in any direction except down the narrow road marked out for him by his predecessor. And that road may lead inevitably to war.

CHILDS

This grim and sobering thought has occurred to many leading Republicans. They talk of how the pieces of this of this world picture are being frozen into place beyond any hope of alteration.

Thus attitudes are being frozen here in the United States — the attitudes of policy-makers and the attitudes of plain citizens. Scarce reports of foreign submarines off the coast give people a creepy feeling of the pre-Pearl Harbor newsreel being played over again. Fear breeds fatalism—a sense of hopelessness before the march of vast and mysterious events.

In the same way it is possible that attitudes are being fixed in the other half of the world, where Communism is dominant. Once the ponderous wheels of the machine are started turning, it is hard to stop or reverse them.

The Republicans who are aware of all this are also afflicted with a sense of helplessness. While they talk about the halter which is being fashioned to put over the head of the next president, they do not know what to do about it during this interregnum of nine long fateful months.

• • •

The other evening John Foster Dulles, New York lawyer and leader of the peace movement in the Federal Council of Churches, met with a group of newspaper men here in Washington. Dulles, who has helped to shape the bi-partisan policy on European recovery, is as well informed as any American in the field of foreign affairs.

He talked about the urgent necessity to form a government agency that could meet Communism on the level of political aggression and conquest such as is threatened in Italy. This is not being done except in a sporadic and improvished fashion. All the emphasis is on stopping Communism and Russia through strength for eventual war.

The time for such an organization, which would have prepared practical aid for the pro-Democratic parties in Italy long in advance of the present election campaign, is now. In nine months, as Dulles frankly admitted, it may be too late. By that time the political battle may be lost and the commitment to war frozen that much tighter.

There is one approach that might offer a little hope, although no one seems to consider it seriously. It is the idea of a committee of non-political experts to be named by leading Republicans. The Republicans would then request that this committee be given access to all the documents on which the administration is basing present foreign policy.

Setting up such a committee would not be too difficult. The type of expert who comes to mind at once is Hamilton Fish Armstrong, director of the council on foreign relations. Others of the same stature and objectivity could be found who would be willing to serve.

• • •

SUCH a "study committee" would help to reassure the public. It would mean that another body of men skilled in foreign relations would be checking the judgment of the group now in command.

In short, it would be the nearest thing to a coalition government that is possible under the American system of divided powers and fixed terms of office. The Republican chieftains say gloomily that even this much is not actually possible since the committee would have neither responsibility nor authority. Furthermore it would be bound by secrecy, which would limit the possibility of referring any issue to public opinion.

There is little doubt that millions of Americans are deeply troubled over whether the United States is being committed to war. They want to be sure that all the possibilities for a peaceful settlement are being explored.

Recently, executives of the Federal Council of Churches discussed with Dulles the possibility of pressing for a meeting between President Truman and Stalin. Dulles counseled against such a move. He pointed out that, coming at this time, it would be taken by the Russians as an admission of weakness. His argument was that we must first convince the

Today's Journal Editorial

A REFLECTION ON PARENTS

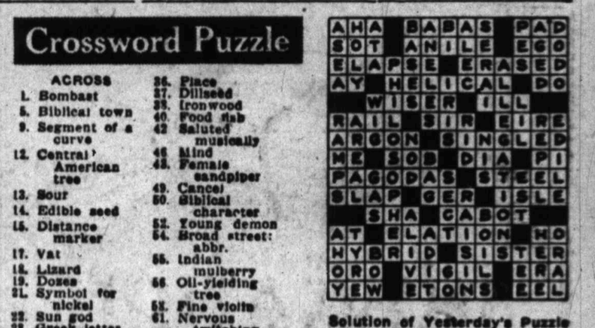

"Strikes" of high school students recently in Irving, near Dallas, and in Las Cruces, N. M., over official actions of school boards in both places point up the failure of many parents to force upon their youngsters a respect for orderly process in public affairs.

Regardless of whether school boards were right, or wrong, in the "firing" of school principals and coaches in Irving and Las Cruces, the fact remains that trustees are directed by law to conduct school affairs and that it does not come within the province of youngsters to direct their actions. Those who should be most criticized in connection with the "strikes" are not the kids involved, who cannot be presumed to have adult judgment; or the school trustees. Instead, those parents who permit their children to "cut" classes, display protest signs and otherwise engage in monkeybusiness are the ones who most bear the blame.

School "strikes," while in themselves of little consequence, are indicative of a break-down in respect for constituted authority. The fact that school kids can engage in them is indicative of bad thinking—or no thinking at all—on the part of their parents.

If school trustees anywhere are derelict in their duties, there are legal steps open to those citizens who wish to correct the situation. A school "strike" helps nothing, is illegal, has nothing to recommend it and is a reflection on the citizenship of every parent who has a child participating in it

Jews Claiming New Victories

JERUSALEM, April 16. (AP) — Jewish forces today claimed capture of another strong point on the strategic convoy road between Tel Aviv and Jerusalem.

Jewish sources said a Haganah (Jewish Militia) unit had pounded into the village of Saris between the hilltop community of Kastel and Latrun in the Judean hills. The Jews said Arab forces have used Saris as a rallying point for smashes at food convoys bound for Holy City Jews.

Informants said mortars and small arms were used to rout the Arabs.

Claim Victory

The Jews claimed a decisive victory over Arab forces under Fawzi Bey Al Kaukji yesterday at Mishmar Haemak 15 miles southeast of Haifa.

They said 2,000 Jewish fighters inflicted 200 Arab casualties and captured seven field guns.

According to Jewish sources their forces pursued the fleeing Arabs after launching their counterattack at Mishmar Haemak.

Personel Victory

Earlier reports from Cairo on the Mishmar Haemak battle said Fawzi Bey Al Kaukji's volunteer army was surrounded by 12,000 Jews. Later Arabs said they had been worried at the initial report, but that their fears were dispelled later. They did not explain.

The Jews, however, claimed the Mishmar Haemak fight—first on any large scale in northern Palestine—was a personal victory over Fawzi Bel Al Kaukji.

It is estimated that ice on the North American continent reached a thickness of 10,000 feet during the ice ages.

Manuel Roxas

(Continued From Page One)

sisted that all American bases be moved away from Manila.

Although he and Roxas worked together in the majority liberal party, some politicians predicted the whole cabinet would offer resignations and that some would be accepted.

Peace Is Sought

Peace and order is the top domestic problem facing Quirino. Earlier this week he asked the Philippines congress for 10 million pesos ($5,000,000) to intensify the campaign against the Hukbalahaps, the armed peasants now in rebellion.

Although Roxas had suffered from a heart ailment, he seemed in good health when he set out yesterday for Clark field.

Quirino served both in the Congress and in the cabinet before the war. When the Japanese came they imprisoned him in Fort Santiago. His wife and three of his five children were bayoneted to death by the Japanese in 1945 during the battle of Manila.

Quirino, who also is foreign minister, has a gloomy world outlook. Correspondents said he told prewar President Sergio Osmena yesterday at Cebu that another world war "is in danger of breaking out before Christmas." They said he urged Osmena to emerge from retirement and take an active part in Philippines affairs.

Tech Rodeo

(Continued From Page One)

awards will also be made at the Western dance Saturday night.

Activities Saturday will begin with a chuck wagon breakfast and the last rodeo performance is slated for 2:30 p. m. Tickets for the breakfast, which will be filmed for the college movie, cost 50 cents and can be obtained from any Block and Bridle member. The Sunset Serenaders will furnish music during the breakfast which will be served in Aggie Grove beginning at 6:45 a. m.

The more modern and conservative members of the student body will have a welcome respite from injuries to their pride incurred during former all-western celebrations at the college due to the fact that the traditional bull pen, for those not wearing western dress, has been ruled out this year. Western wear will not be compulsory and no classes will be dismissed for the event.

This will be the tenth rodeo held at Tech since the first one was presented in 1930. The Block and Bridle club has sponsored seven of them.

HE'S NOT SCARED — Mrs. R. G. Edwards of Atlanta, Georgia, smiles at three-year-old Richard Scott Edwards after he survived a four-story fall with no more damage than a few bruises. Richard scampered to the 4th floor of an apartment building when his mother's back was turned, entered an open apartment and fell from the open window. There were no broken bones and his mother said he didn't even cry much.

Last Tribute Paid George Cottingham

HOUSTON, April 16. (AP)—Houston said farewell today to George W. Cottingham, kindly editor of the Chronicle who rose to a position of eminence and respect in his native city.

Cottingham, 53, died Monday in New York.

The city hall flag flew at half-mast today from 9 a. m. to noon—the funeral hours. The city council, reflecting public regret, adopted a resolution of respect yesterday.

The Rev. Wilfred Dyer, C. S. B., was selected to celebrate high mass at St. Anne's Catholic church today, following earlier services at the Earthman Funeral home. The Rev. V. J. Burke and the Rev. D. L. Forestell, C. S. B., were assistants.

Burial was to be in the Garden of Gethsemani.

Cottingham had been editor of the Chronicle since 1935. He joined the paper's editorial staff in 1915 shortly after his graduation from the University of Chicago. Except for a few months on the Chicago Evening Post in 1917 and his service in the Army during World war I, his entire newspaper career was served on the Chronicle.

Through the week, messages of regret and esteem poured in from all parts of the country to his family and the Chronicle.

A representative tribute was in the rival Houston Post's story of his passing:

"A little man with a twinkle in his eyes and a kind heart for cub reporters."

County Agent

(Continued From Page One)

proper structures and spreading methods.

Extension service personnel and farmers as a whole in this area admit a heavy waste of water in many instances through breaking of ditches and many times over-irrigation of certain crops, and this has brought a movement in official circles for some form of irrigation controls.

Williamson believes that farmer cooperation in the extension serivce program will serve in a large measure to eliminate waste and gain maximum benefits from water used.

Museum Group

(Continued From Page One)

of men and the association secretary, or W. C. Holden, dean of graduate studies, at the college.

The second session, featuring the address by Haley will begin at 8 p. m.

The entire meeting is open to the public, association officials have stated. Those wishing to join the organization may register with Dean Allen or Dean Holden. Membership includes residents from throughout the Panhandle and South Plains areas.

Business matters pertaining to the association will be discussed at a luncheon meeting of the board of directors beginning at 12 noon at the Hilton hotel, with C. E. Maedgen, president, presiding.

An exhibition of rare and finely-printed books will be held in the southwestern history room of the library from 5 p. m. to 6 p. m., immediately following Mr. Hertzog's address. Several of the books to be exhibited were printed by Mr. Hertzog at El Paso.

The lining of pecan shells, that has a puckering effect on your mouth if you chance to get a bit of it, is being investigated as a possible source of tannin.

Firemen

(Continued From Page One)

fire captains must be not under 22 nor over 40 years of age, must have had at least four years of actual service with the Lubbock Fire department, and must be able to pass the physical requirements of the Civil Service rules. Desirable are at least a high school education, and completion of a standard course in fire fighting methods and techniques.

Salary of firefighters begins at $125 per month, plus the cost-of-living bonus which now amounts to $82.80 monthly. The cost-of-living bonus varies with the cost-of-living index figure on all commodities, the figure published monthly by the U S. Department of Labor.

Salary of captains is $150 monthly, plus the cost-of-living bonus of $82.80, making the total $232.80 per month.

Additional personnel in the fire department is needed to man the three stations now in Lubbock. The newest station is at Thirtieth street and Texas avenue. The new members of the department will be scattered among the crews of the three stations, where they will be able to take advantage of the knowledge and experience possessed by older members of the department.

U.S. Survival Depends On Air Power, Air Chief Of Staff Says

LOS ANGELES, April 16 (AP)—American survival depends on American air power.

That comes from Gen. Hoyt S. Vandenberg, new air force chief of staff.

"We have a deep conviction that no free nation can remain secure which does not forge for itself an unchallengeable air power," Gen. Vandenberg told a conference of aviation leaders last night.

Constant Readiness

Safety lies only in our preparedness, declared the air chief, adding "any adequate Air Force program must permit the constant readiness of first line units adequate to the basic tasks of the Air Force—defense of the United States and retaliatory strategic offensive capacity."

He urged the modernization and enlargement of the aircraft industry, as well. He expressed hope all new Air Force groups will be 100 per cent jet; he indicated the propeller-driven plane is through.

Earlier, the general told newsmen that "war with Russia is not inevitable . . . Anytime we resign ourselves to war's inevitability, we are giving up . . . The Russians are probably as well advanced in jet aviation as we are."

Gen. Vandenberg's plea for Air Force strength was underscored by other speakers at closing sessions of the California air policy conference. One, John F. Victory, secretary of the national advisory committee for aeronautics, summed it up:

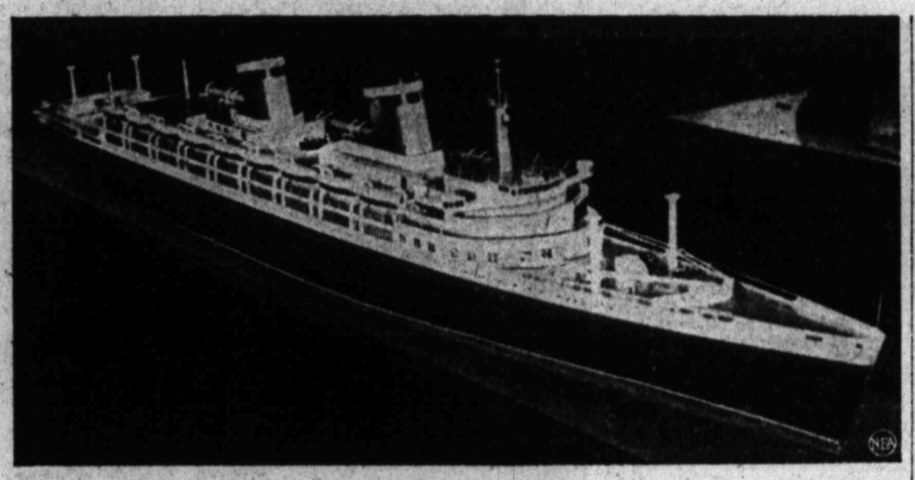

"The price of peace will be high, but the cost of adequate preparedness will be infinitely cheaper than the alternative."

Yangtze River Block Slows Chinese Ships

NANKING, April 16 (AP) — The Chinese did such a good job of corking up the Yangtze to stop the rush of the Japanese into central China in 1937 that they are having trouble getting it uncorked.

A barrier of sunken ships 180 miles east of Hankow delayed the Japanese all through the war. They removed two of the ships. But even so it slowed river shipping, especially in low water.

Now China, with the communists cutting so many railroads, badly needs the waterway. Twenty salvage firms found the ships firmly sunk in the silt, and gave it up as a bad job. So the government has directed the Chinese navy to begin preparations to blast out the sunken hulks.

PROPOSED LINER WILL BE QUEEN OF AMERICAN FLEET—This is a model of the $65,000,000 liner which the United States Lines say they will build to bolster the American merchant fleet. This ship would be 48,000 gross tons, and run between 900 and 1000 feet in length. Unnamed as yet, it would be assigned to European service.

SMU Professor Dies At Home In Dallas

DALLAS, April 16. (AP)—Eugene Chatfield Hodges, 43, professor of accounting at Southern Methodist university, died unexpectedly Thursday at his home here.

He died soon after returning home after a day of teaching at SMU.

Hodges was born in Gregory, San Patricio county, and was educated in public schools in South Texas, and at SMU.

He was auditor of the Corpus Christi Bank and Trust company for eight years. He came to Dallas in 1936 to open the southwest branch office of the United States Treasury disbursement office.

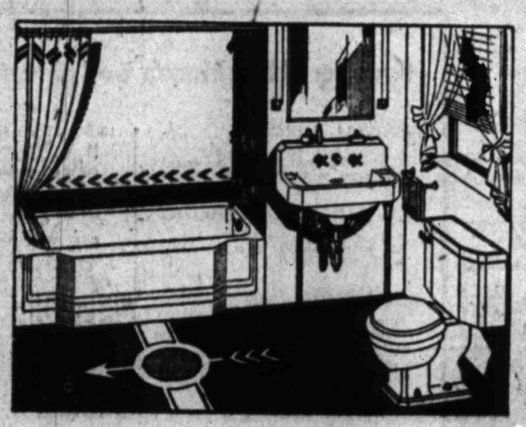

A professor of accounting at SMU for the last eight years, he also maintained a private office. He was a certified public accountant.

Surviving are his wife; his mother, Mrs. Esther Hodges of Taft, San Patricio county; a brother, Robert Hodges of Gregory; three sisters, Mrs. Berkley Walford of Dallas, Miss Lorraine Hodges of Taft, and Mrs. Roy Tolk of Amarillo.

GENERAL ELECTRIC Electric Sink DOES TWO THANKLESS KITCHEN TASKS

AUTOMATIC DISHWASHER (WASHES ALL THE DISHES) DISPOSALL® (DISPOSES OF GARBAGE) ELECTRICALLY

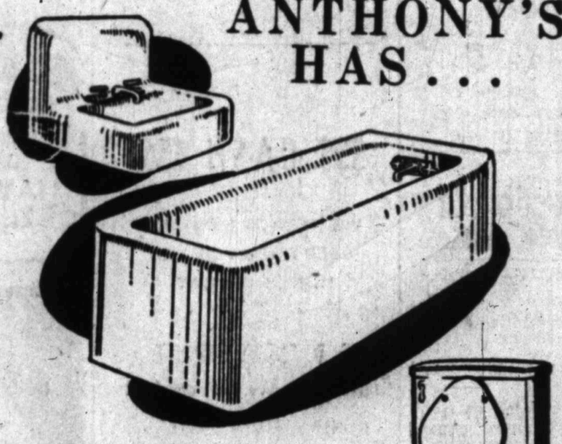

Think of it! No more dreary hours spent washing dishes. The dishwasher in the G-E Electric Sink will wash them sparkling clean — *automatically*. And its work-saving partner, the G-E Disposall, removes food waste the modern way — right down the drain and out of the house.
