

Work Started On Sparenberg To Highway Road

Connection of Sparenberg to the county seat with an all weather road was begun last Friday when work was started on the WPA road project from No. Nine to Sparenberg.

The contract was awarded to G. E. Huddleston, contractor of Crosbyton. And the work will be done under the direction of Mr. Weaver Patterson, superintendent of construction. Work was begun on the grading and drainage of the road bed and as soon as this is finished a caliche base will be placed on the roadway. It is expected to have the road completed within sixty days or very soon thereafter.

Five miles of road is included in the project which will cost in the neighborhood of \$23,000. This is part of the government's program in which they are building farm-to-market roads all over the nation.

This road, which connects with Highway Nine seven miles south of Lamesa, will be a very valuable asset to the town as it gives a road to one of the richest sections of the trade territory.

New Ford Dealers Remodeling And Adding Equipment

The Lamesa Auto Company, which recently purchased the local Ford agency from W. P. Avriett, have a crew of workmen busy going over the entire building and remodeling and redecorating it. When it is finished it will be one of the nicest Ford agency homes in West Texas.

The show room has been remodeled, the offices of the company moved forward near the parts department and being connected with work shop by large windows, making it much more convenient. The parts department has been rearranged for better service to patrons. The walls of the show room are being refinished, new lighting fixtures installed and the appearance of the room made entirely new and different.

The work shop has not been overlooked in the work either, having been rearranged for better service to Ford owners. The floors are to be painted as well as the walls and overhead beams.

A complete paint shop is being installed with the latest sanding machine for removing the old paint and preparing the body surface for new paint. This enables the painter to give a regular factory job appearance on cars.

Work will be completed within a few days and the company is planning a formal opening when everyone will be invited to inspect their new home.

LAMESA CAMP PRAISES BY FEDERAL INSPECTOR

After making his second semi-annual inspection of the local camp of the Civilian Conservation Corps, Inspector J. S. Billups, who visited here Friday, May 22, stated that remarkable improvement had been made in all activities and facilities of the camp since his first visit here soon after the camp was established last fall.

Mr. Billups is an assistant to Robert E. Fechner, federal director of Emergency Conservation Work, at Washington, and has camps in sixteen states in his district. He stated that the improvements in recreational and educational facilities, decoration of the building interiors, and improvements of the camp in general were especially commendable. Planting of flowers around the barracks, leveling of the parade ground, and construction of tennis courts and baseball grounds which have greatly improved the exterior appearance of the camp, were especially noted by the inspector.

HIGGINBOTHAM-BARTLETT MAKE IMPROVEMENTS IN FURNITURE DEPARTMENT

Work will soon be completed on the new addition to the display rooms of the Higginbotham-Bartlett Co., which will give them a total depth of nearly 300 feet in the second floor of their building on South Austin, according to Geo. Norman local manager.

The increasing business in the furniture department made it necessary for them to provide more display room so they extended the second floor of building back to the east over the lumber sheds, running the room almost through the block to the Main street entrance of the lumber yard.

When these improvements are completed the Higginbotham-Bartlett furniture department will have one of the best display rooms on the South Plains and will be able to carry a complete stock on their floor at all times.

One important point stressed by Dr. Frazier was the trend toward socialized medicine in the United States. This, he said, if allowed to go to the extreme, would place the medical profession under the control of politics and would destroy individual initiative in the science of medicine.

Sam Richardson and Louis Reed gave a very vivid description of the State Democratic Convention, which was held in San Antonio last week. They were enthusiastic over the harmony which prevailed throughout the convention and the hearty endorsement of the present national administration.

A. G. Bearden was elected official cheer leader for the club.

KLONDIKE WARD BASEBALL TEAM PLAYS CANDIDATES

The Klondike Ward baseball girls team played the candidates baseball team last Friday morning at the barbecue at Klondike. We are very sorry to say that Gus White and P. W. Du Bose were the only ones to make home runs in the game. The candidates were defeated by the score of 2 and 8.

KLONDIKE GRAMMAR SCHOOL EXERCISES WELL ATTENDED

A large number of people attended the Klondike graduation exercises last Thursday night May 21. Following is a list of graduates: Miss La Vida

Cook, president; Miss LaVerne Smith, Secretary; Miss Lois Meyers, valedictorian; Stanley Applegate, salutatorian; Elbert Richards, G. W. Slatton, Bonnie Lee Pitman, Hazel Matthews, Ella Vogler, Elwanda Scitern, Stella Ruth Bearden, Sammie Ansley and James Lee Clements.

We are thankful to those who have shown faith in us and we hope you continue to do so.

The house was called to order by the president LaVida Cook, and Rev. Whatley gave the invocation. The secretary, LaVerne Smith called the roll and each member answered with an occupation and spoke for it. The president gave her address and the salutatorian gave a word of greeting. The final minutes of the Seventh Grade class during the year 1935-36 was read by the Secretary.

Miss Bulsterbaum made an interesting talk on education after which the Bulsterbaum sisters sang two very beautiful songs. Our valedictorian gave an interesting talk and Misses LaVon and LaVerne Baker of Abilene, who have been the guests of their sister, Mrs. W. C. McKenzie for the past several days, sang several songs.

Miss Rudeen Dosey was presented a medal for being the only high school pupil with a straight A report card, and Miss Ruth Bulsterbaum was presented a certificate for not being tardy during the school term. Twenty reading certificates were given and nine of them were to seventh grade students. Those receiving the certificates were: LaVida Cook, Bonnie Lee Pitman, LaVerne Smith, Hazel Matthews, Elwanda Scitern, Stella Ruth Bearden, Stanley Applegate, G. W. Slatton and Elbert Richards. Then Miss LaVerne Smith received a dollar for winning first place for the Texas scrapbooks, and last came our diplomas. In addition to the usual reading, they had the words "This Centennial Year," which the Seniors are very proud of.

The Seventh Grade girls sang "Neopolitan Night," accompanied at the piano by Mrs. W. W. Beeman, who also played the marches for the program.

We are thanking everyone who helped us. Especially Mrs. Beeman, Mr. McKenzie, Miss Bulsterbaum, Mrs. McKenzie, Rev. Whatley, LaVon and LaVerne Baker and the Bulsterbaum quartet for their assistance.

H. D. CLUB REPORTERS MEET

The Dawson County Home Demonstration Reporters met May 9 at 2:30 o'clock in their first monthly meeting at the County Home Demonstration Agent's office.

Nine reporters were present. Our program provided the three essential

elements of successful meeting. They are: 1. Participation of each member of the group. 2. Recreation, and 3. Professional guidance.

Each member gave a short talk on one step toward being a good reporter. (Watch your club news and see if your reporter has improved). We learned a good ship game to be played with pencil and paper. Several reports were criticised to see if they came up to the standard set by Miss Minnie Fisher Cunningham, Extension editor. The main question answered in a report being: "Does this story carry a piece of information given at the meeting which will be useful to some one who was not there?"

Miss Phenix pointed out in several reports, places where we failed to come up to this standard. Rural organizations of many kinds engage in useful activities of many kinds. The work of

these organizations create news which the press and public welcome when ever it is reported. The purpose of our reporters monthly meeting is to make your reporter a better reporter. All reporters are invited and urged to attend the Reporter's meeting June 13 at 2:30 o'clock at the City park.

KLONDIKE H. D. CLUB

"Clean, cultural methods and rotation of crop is the best way to keep down insects," said Miss Mattie Phenix, Dawson County H. D. agent, to the Klondike club in the meeting May 26 in the L. A. Duff home.

We should burn all vines and stalks just as soon as they quit fruiting. In this way all eggs are destroyed. A good dust for sucking insects is a mixture of 1 pound lime and 2 tablespoonfuls Black-leaf forty.

Authority was given the secretary to pay several debts. Seven members and two visitors were present at the meeting.

Our next meeting will be held June 9 with Mrs. G. W. Thorp. The subject for discussion at this meeting will be "Training for Short Course."

BARTLETT H. D. CLUB

The Bartlett H. D. Club met in regular session, May 27, with Mrs. A. J. Howard. Thirteen members and our demonstrator were present. The demonstration was on the Control of Garden Insects and Diseases, which was of much benefit and very interesting. Our Council reporter had some very interesting facts with which she awarded us.

The next meeting of the club will be with Mrs. Avant, June 10th. Don't

forget the date. All visitors are welcome and each club members is urged to attend. Mrs. R. A. Avant, reporter.

GUM-DIPPED TIRES

WIN INDIANAPOLIS 500 MILE RACE

Louis Meyer won the Indianapolis 500-mile race, at an average speed of 106.069 miles an hour, breaking all track records, without tire trouble of any kind.

No tires except Firestone Gum-Dipped Tires could have resisted the terrific heat generated at such high sustained speeds on the hot brick track, lap after lap, hour after hour. You can have no greater proof of blowout protection.

Not one of the thirty-three drivers would risk his life on any other tire, for each driver knows that heat is the chief cause of tire failure and blowouts. Firestone cords are soaked in liquid rubber, which saturates and coats every cotton fiber, preventing friction and heat and adding great strength. This is the Firestone patented process of Gum-Dipping, that gives you greatest blowout protection and safety.

Profit by the experience of race drivers. Equip your car today with Firestone Gum-Dipped Tires — it costs so little to protect lives worth so much.

FARMERS SIGNING WORK SHEETS ON FARM PROGRAM

Over eighteen hundred out of the nineteen hundred farmers have filled out work sheets to date in Dawson county. There are still some in the county who have not signed the work sheets to date. After June 10th there will be no more work sheets accepted in the office. The good feature about the signing is that there is no obligation on the part of the producer who signs. In case he decides that he does not want to comply with the program he does not make application for a grant. He will be paid only for the actual acreage and the practice that he follows on the lease land. In case he signed up to lease 35 per cent and the committee finds that he has only thirty per cent, of course, if he ful-

filled the agreement, as to the acreage planted he would be paid for the acreage that is found to be in line with the requirements.

Parties who have not filled out the work sheets should do so even if they do not intend to cooperate with the program on account that a base for that particular farm is established and some thing could come about that such farm operator would want to qualify for the following crop year.

The community committees will have the work sheets in the communities by the time this article reaches the readers. Each producer who signed a work sheet will receive a card telling when to appear before the local community committee for the purpose of making such adjustments. The producer who fails to appear before the committee will be given the same base and acreage as appeared on the contract in 1935 or adjusted or raised according to the thing that the committee deems best for the farm and the community.

It is hoped that the committees can make all the adjustments on one set date and get the papers back to the agent's office. In order that we may work out the adjustments that are made by the committees and take the completed work to the State Board. There will be a chance for any producer who is not satisfied with the adjustment, to appear before the county committee, who will designate a certain date for hearing such appeals. Then the producer may appeal to the State Board in case he is not satisfied with the County Committee's decision.

EDITORS HOPE TO HEAR PRESIDENT AT STATE MEET

Tyler, Texas—Ten dozen Texas Centennial Roses left by air express via Delta Air Lines Saturday to President Roosevelt extending to him an invitation to make the opening message to the Texas Press Association convention to be held here June 11 and 12.

R/surine wires are being received by the local arrangements committee from officials in Washington to the effect that the President is giving serious consideration to a slight change in schedule necessary to allow his appearance here. The President leaves Little Rock late the night of June 10 and comes into the state at Texarkana, where he will be met by Governor James V. Allred and his official party. According to information furnished the White House representatives by the local committee, the presidential party may come via Tyler, make a short opening talk and then arrive at his next schedule stop in Houston ahead of his original hour of arrival.

Sam Harben, secretary of the Texas Press Association, and many newspapermen throughout the state have been active in efforts to get the chief executive to open the convention.

More than six hundred editors and other newspaper officials are expected at the Tyler meeting with a possible greatly increased attendance if information is received that President Roosevelt will be present. The local committee is making every effort to accommodate the large crowds expected.

EXTRA "LIFT"
IN H-C means
1 to 3 more miles
per gallon... say
Sinclair Dealers

1 GALLON COULD
LIFT A TEN-TON
STEGOSAURUS
1 MILE

WHAT you want in a gasoline is power. And extra power gives you extra speed—quicker pick-ups and more miles per gallon.

The engineer's measurement of power is in terms of lifting. In engineering terms, a single gallon of H-C has the potential energy to lift 99 million pounds one foot. In this picture of power you can see at a glance what "99 million foot-

pounds per gallon" could do. What does this mean for your car? In automobile road tests Sinclair H-C gave 15% to 20% more smooth power and from 1 to 3 more miles per gallon.

Just ask your nearby Sinclair dealer. He'll tell of the extra "lift"—extra mileage that's yours with Sinclair H-C Gasoline.

FEDERAL EXPENDITURES THROUGH WPA FUNDS IN TEXAS OVER \$3,000,000.00

Sponsors and the federal government expended \$3,404,635 on 766 projects first reported completed from the 20 Works Progress Administration districts. State Administrator H. P. Drought has just announced from his office in San Antonio. At the same time he estimated that more than 1,500 projects have been finished and said he expected to receive completion reports on the remainder shortly. Federal expenditures of \$2,253,396 on

these completed projects were closely followed by contributions by sponsors of \$1,151,239. "Counties, cities, independent school districts and state departments, actively sponsoring these projects, have displayed an eagerness to assist in our work," said Drought. "Their large financial participation indicates a gratifying faith in the integrity of this program." The state administrator said, more than 3,000 projects have been operated throughout Texas in providing employment for 120,000 persons, former occupants of the state's relief rolls which now are largely dissipated.

Twenty-two educational conferences will be held during the four-day meet. Numerous banquets and luncheons will be given.

Jacquelin Sampson and her brother, T. L. Jr., of Lubbock are visiting in the home of their grandfather E. R. Tinsley.

I am glad to recommend to any farmer, a SUPERFEX REFRIGERATOR. I bought mine this year. We light it in the afternoon, it burns two hours and is out. We can go away, spend the day or night without any danger. We had never had one and I wanted the best I could buy. After trying other kinds I found that for the farmer a SUPERFEX was the best I could buy. I would not take for my SUPERFEX, for it will do what you need to have done. I would advise any farmer to invest in a SUPERFEX. It's the best investment you can make.

There is no daily attention required by our ELECTROLUX, the refrigeration is positive and constant at all times, regardless of weather. I can not recommend ELECTROLUX too highly for it really does the job claimed for it, in the most pleasant and efficient manner. If I could not get another, no amount of money would buy my ELECTROLUX, for it is truly the greatest convenience a rural home can have."

THE LAMESA CIRCUIT LAYMAN-COUNTRY LIFE RALLY GREAT SUCCESS

The Lamesa Circuit rally which was announced in the paper last week to be held at Ballard, was a success from every point of view. The Sunday school was conducted by Supt. Aubrey White with good attendance and excellent interest. Following the Sunday school a worship service was directed by the pastor, Rev. J. A. Wheeler, after which Hon. R. C. Dial delivered a soul searching layman sermon on what it means to be a good consecrated layman. The meeting adjourned for "dinner on the ground" which was a sumptuous feast of well prepared good eats of every kind, supplied by the good people of the Ballard community, regardless of denominational affiliation or belief.

The afternoon program began with a "sing song" and a devotional service conducted by the charge lay leader, Joe M. Peterson, after which the following named subjects were discussed by Miss Phenix, county home demonstration agent; Miss Bulsterbaum, county superintendent of schools; Rev. M. M. Beavers, and R. C. Dial, respectively: The Rural Home, The Rural School, The Rural Church and the Great Common Enemy — The Liquor Traffic. These speakers convinced all present that they knew their respective subjects both in theory and practice to the extent that they could speak with authority to the edification of all. They all pointed to the fact as goes the Rural life of America, so goes the nation.

These addresses were interspersed by a piano solo by Miss Lucille Wheeler, a reading by Mrs. J. A. Wheeler and songs by the congregation. We all came away feeling that it was good to be there and that more such meeting ought to be held. So mote it be. The pastor is grateful to all who contributed to the success of this rally. J. A. Wheeler, pastor.

HANCOCK H. D. CLUB OBSERVE MOTHERS DAY

Mrs. G. F. Ward brought an inspiring Mother's Day talk to the Hancock H. D. club in its regular meeting of which Mrs. J. C. Nelson had charge. Mrs. O. F. McLendon told the origin of Mother's Day. Mrs. W. J. Beckham told a Mother's Day story and Mrs. Harrell Duncan sang "Mother, Queen of My Heart." A delicious refreshment plate was served to nineteen members.

During the business session it was voted to meet the following Wednesday for an all day picnic to study wild flowers in our community. The picnic was held as scheduled and although it was muddy and rainy, nineteen varieties of wild flowers were collected, pressed and mounted on notebook pages. The nineteen varieties were then sketched in pencil, and as soon as the names and classifications can be learned accurately, the written work will be added to the notebook.

Mr. and Mrs. R. W. Wheeler and daughter of Rankin are spending the week visiting Mr. Wheeler's father and mother, Rev. and Mrs. J. A. Wheeler. Mr. Wheeler is band director in the Rankin High school.
