## LUBBOCK ORGANIZES TO WELCOME TEXAS SECRETARIES

### TO SPUD IN YELLOWHOUSE TEST WELL TODAY

#### MARRS AND OTHERS TO START DRILLING NEAR LITTLEFIELD

WILL GO 3500 FEET IN SEARCH FOR OIL OR GAS

#### OTHER CONTRACTS

ELLWOOD-MYRICK AND LEHMAN WELLS ARE SIGNED UP

Actual drilling operations on the South Plains will begin today when E. C. Marrs and associates spud in their Yellowhouse No. 1 test ten miles southwest of Littlefield. A combination standard-rotary rig will be used and, according to information reaching The Avalanche office, there is no better drilling equipment to be found in the state. The well is one mile north of the old Yellowhouse ranch headquarters.

**24,000 Acres Leased**  
The operators have 24,000 acres of land leased and a thorough test will be made. Unless oil or gas is found at a lesser depth the well will be drilled 3,500 feet, and if formations seem to justify it, will be drilled deeper.

At least three major companies, the Gulf, Humble and Pure Oil companies are interested in the well and no expense will be spared to give the section a thorough test. A number of Lubbock citizens have valuable holdings near the well.

**Lease Field**  
Lee O. Allen, district representative for the Yellowhouse people, in company with four of the largest stockholders, M. H. and D. C. Reed, D. E. Woodward and W. H. Davis, of Austin, went over the field Monday, and Mr. Allen says everything is now ready for the actual drilling. No acreage or stock will be offered for sale.

While there has been no drilling in this section, it is a well known fact that many of the major companies are heavily interested here. In fact, leases aggregating 200,000 acres have been purchased during the past six months. These leases are checkered and run from 1 mile south of Lubbock to Mileshee in Bailey county.

**Two Other Contracts**  
Drilling contract was also signed yesterday by Hicker and Dodson of the El Capitan Oil company to sink the Ellwood-Myrick well in Hookley county. This location is four miles south of Roundup. Oil scouts who have visited the section say indications for oil are exceptionally bright.

A location has also been made near the town of Lehman, and drilling will begin as soon as machinery and other equipment can be moved to the field. Leases are in demand and prices are gradually soaring. At this time it appears that almost every county on the South Plains will be given a test for oil before the close of the present year.

WEST TEXAS—Probably fair.

## MAY CLOSE NATIONAL FORESTS TO PUBLIC, SAY OFFICERS; FIRE SWEEPS THREE HUNDRED THOUSAND ACRES

**SAN FRANCISCO, Calif., July 20**—Three thousand weary men still are on the fire lines of Northern California but forestry officials here tonight declared that the situation gradually was being brought in control.

Nearly 300,000 acres of timber, brush and grain lands have been burned over by fires which, aided by dry, hot weather, have spread destruction through eleven counties.

"If the men can hold the flames tonight we believe the fires will all be under control tomorrow," was the announcement from forest service officers.

The weather forecast for Wednesday stressed the continued fire hazards which accompanies holidays and

#### COME TO AVALANCHE ELECTION PARTY

The Avalanche hereby invites everybody in hearing or reading distance to its election party Saturday night, bigger and better than ever. Full Texas election bureau reports, over leased wire, will be posted at the corner of Thirtieth street and Avenue I prior to publication in the Sunday issue of the Avalanche. In addition, results will be telephoned into the Avalanche direct from the various boxes of this community.

#### RELIEF IN SIGHT AS COLD WAVE COMES DOWN FROM CANADA

**CHICAGO, July 20**—A cool wave which is traveling down from the Canadian Northwest on the heels of chandlers holds a measure of relief from the equator-like temperatures which have enveloped the Middle West for the last two days causing a death toll which has mounted past forty.

#### Coleman, Wilson, Howard to Speak

The three candidates for county attorney, Vaughn Wilson, L. A. Howard, and Max Coleman, will speak tonight at 8:30 at the corner of 13th and Ave. I, near the office of the Avalanche.

#### Another Thousand On July Building

With the issuance yesterday of permit for \$1000 worth of repairs on the home of Dr. C. M. Ballinger, by J. L. Ballinger, contractor, Lubbock's building permits for July rose to \$129,650.

#### Jim Reed Hops on Prohibition Again

**KANSAS CITY, Mo., July 20**—For almost two weeks Senator James A. Reed had been resting quietly at his home without saying anything about the Anti-Saloon league. Tuesday however, he broke out again.

He warned the league to be prepared to make a complete statement of financial expenditures in the present political campaign.

RESERVATIONS COMPLETE FOR COMMERCIAL EXECUTIVES

Committees have been hard at work for the past several days getting things in shape for the T. C. E. A. convention, Thursday, Friday and Saturday, and everything is looking good for a successful convention, according to Jed A. Rix, general chairman.

The transportation committee, the registration committee and the barbecue committee met at the chamber of commerce yesterday morning working out details of the convention.

The Lubbock chamber of commerce in the city hall has been designated as convention headquarters and 20 by 3 foot signs will be hung early this morning at the city hall showing where headquarters may be found.

**Welcome Signs**  
A number of window cards are being printed stating "THIS STORE WELCOMES T. C. E. A. VISITORS," according to Rix, and they will be ready for distribution at the chamber of commerce this afternoon. Every business house in Lubbock should have one of these cards in their window, Rix said. A program of local events will also be printed and may be had at the chamber of commerce together with the window cards. This program will advise local people of the place and time, that the various features of the convention will be staged in order that the business men and other clerks and employees may know of the various events and may direct any visitor who might inquire for information.

"In other words," Rix said, "if one of the secretaries drives in to some garage or filling station and asks where the secretaries' convention is or where headquarters may be found, the program of local events will inform the employee so that he may tell the visitor instead of putting on a blank expression and asking 'What secretaries' convention?'"

**Send Somebody**  
Every store is urged to send somebody to the chamber of commerce to secure these programs and placards, according to Rix. Each employee in the store should be given a program and instructed to be able to answer questions of the visitors as far as possible. Every store should have the window card up early Thursday morning stating "This store welcomes T. C. E. A. visitors."

The reservations committee which met yesterday morning has secured the use of the Cheri Casa dormitory, the College Inn dormitory, the Easter dormitory, and the Talley dormitory, in addition to a promise from local hotels that they will care for every one of the visitors possible. With these buildings, the committee expects to house the secretaries, according to H. D. Woods, chairman. Other members of the committee are F. A. Norman and H. L. Allen.

**Cars Still Needed**  
W. W. Royalty, chairman of the transportation committee, called his committee together yesterday morning when a report was made to the general committee that a large number of additional cars are needed. Quite a good number have called and volunteered their cars, but not nearly enough have been pledged up to this time, according to Royalty. Every one who can offer a car is urged to call Royalty, phone 444, or the chamber of commerce, phone 469, today and list the car. Stickers are to be issued at the chamber of commerce reading, "Visitors Hop In." Other members of the transportation committee are Neil H. Wright, Paul Sherrod, J. G. Anderson, and George

#### ILLINOIS PASTOR SCORES DR. NORRIS

SAYS MINISTER OF GOSPEL NOT JUSTIFIED BY SELF DEFENSE

**DES PLAINES, Ill., July 20**—Reverend Morgan Williamson, of Evanston, in his sermon at the big Methodist camp meeting of the Chicago area here today severely criticized the Reverend J. Frank Norris of Fort Worth, Tex., for killing D. E. Chipps.

Rev. Mr. Williamson, who served as a soldier in the World war, said, "If the minister had been called on to defend his wife he might have been justified in shooting, but not in self defense. Jesus was a man of peace and cried out when on the cross, 'Father, forgive them, they know not what they do.' He gave His life for others. It's the minister's business to give his life, and not to take the life of another."

#### ROBBERS WILL NEED GAS MASKS IF COLONEL'S ADVICE TO POLICE CHIEFS IN CHICAGO CONVENTION IS TAKEN

**By EARL J. JOHNSON**  
(United News Staff Correspondent)  
**CHICAGO, July 20**—The day is not far distant when the American war on crime will be almost exclusively a gas attack.

Chiefs of police from all parts of the United States and Canada are here learning the advantages of gas over gunpowder, and scores of them are determined to put the more modern method in operation when they return to their home cities.

Colonel B. C. Goss, former chief of the chemical service of the Second division of the United States army, declared in an address before the police convention that gas is the only weapon that can be used effectively against robbers who work in packs.

After the colonel's address delegates inspected his exhibit of unique gas hurling devices.

#### Tong War Rages In West Coast Cities

**SAN FRANCISCO, July 20**—In cluttered China towns of a dozen Pacific coast cities deadly warfare has flared out between the Hop Sing and Bing Kong tong. Already six men have been killed and settlement of the feud is not yet in sight.

The latest victim of the disorders which have raged for Seattle to Southern California, was Leong Sook of the Hop Sings, shot down today by rival tong men in the Los Angeles.

#### FIFTY BEEVES WILL BE BARBECUED

**LEVELLAND, Laying Final Plans For Huge Celebration**

**LEVELLAND, July 20**—Final plans are now being made for the monster annual jubilee which will be held here August 5, 6, and 7. More people are expected to the celebration this year than last, and at that time nine thousand people were fed at the big barbecue. Fifty beeves will be barbecued this year.

Dances on each of the three nights have definitely been decided upon. Speakers from Lubbock and other South Plains cities will be obtained.

#### M'PHERSON PROBE ENDED; NO BILLS

GRAND JURY FAILS TO INDICT ANYBODY FOR KIDNAPING WOMAN PASTOR

**LOS ANGELES, July 20**—Because of "insufficient evidence," the county grand jury investigating the Aimee Semple McPherson case today failed to return any indictment.

The probe now is closed so far as the jury is concerned, unless further evidence is forthcoming which warrants the case being re-opened. Bitter discussion among the jurors early this morning gave indication they would remain deadlocked. Given blanket indictments against "Steve Doe," "Rose Doe," and "John Doe" as the alleged abductors of Mrs. McPherson at eleven o'clock the jury adjourned for lunch without having voted on them.

SLAYER OF CHIPPS SAYS HE FIRED TO SAVE HIS FAMILY

**By United News**

**FORT WORTH, July 20**—Declaring that he has heard rumors that the Tarrant county jury now probing the slaying of D. E. Chipps, lumberman, would not bill him at the conclusion of their investigation, Dr. J. Frank Norris tonight strenuously protested against any such action and demanded that he be indicted.

"I and my congregation, who have stood by me so loyally, demand an indictment that I may be given a fair and unbiased acquittal of the charge of murder which was filed against me following the slaying," said Norris, as he sat in his study within a few feet of the spot where Chipps fell after receiving three bullets in his body from a gun in the hands of the pastor.

Interviewed in his office, Dr. Norris deplored the necessity to which he was driven, but stood firm that he was right and could have taken no other action.

"As he (Chipps) advanced on me a vision rose before my eyes of my family and my duty to them. I had no other choice."

At this point in the conversation tears came into the pastor's eyes and he had to apologize for being unable to talk for a few minutes.

He told how he returned home after the tragedy, wondering what attitude his family would take on the tragedy. He had phoned them of the events immediately.

"My daughter," said Norris, "met me on the stairs, and threw her arms around my neck. 'I am sorry you had to do it, but I knew you would act as my daddy should,' were her words to me." Norris said.

Miss Jane Hartwell, secretary to Dr. Norris, and who was in an adjoining room at the time of the shooting, has not yet appeared before the grand jury, though she spent Tuesday in the waiting room ready for a call.

#### Telephone Girl Probe Witness

**FORT WORTH, July 20**—Seven witnesses appeared before the body today to tell what they could of the events leading up to the killing last Saturday of C. D. Chipps, wealthy business man, by Dr. J. Frank Norris, in his study in the Baptist church.

For more than three hours they were closeted with the grand jury which then recessed until Wednesday. Twelve witnesses have been summoned thus far, including the "mystery man" whom the district attorney, R. K. Hanger, says he is now trying to locate.

Probably the most important witness today was the telephone girl of the Westbrook hotel, who is said to have overheard the conversation between Chipps and "Pastor Norris," before Chipps came to the Baptist church on his death.

**Nutt Tells Story**  
Another witness today was L. H. Nutt, deacon of the church. Deacon Nutt was in the pastor's study when Chipps came rushing in to load the pastor with recriminations for a sermon he had preached in which Chipps and some of his friends were mentioned. Deacon Nutt, it is presumed, gave over again an "eye witness" account of the shooting.

The other five witnesses today were other employees of the Westbrook hotel.

**Retains Attorneys**  
While the grand jury was investigating the latest twist in the mysterious career of the "Texas Torpedo," the wife of "Pastor Norris" victim announced she had engaged the law firm of McLean, Scott and Super of Fort Worth to aid in the prosecution of the crusading pastor.

## Mrs. Granbery Urges Voters to Go To Precinct Conventions Saturday And Take Part In County Affairs

Mrs. J. C. Granbery, editor of the Texas Voters' News and first vice president of the Texas League of Women Voters, has made many interesting talks to the women of Lubbock on the subject of citizenship, and has made several valuable contributions to the women's page of the Avalanche concerning civic duties in the coming elections. In the article today, Mrs. Granbery is speaking of the importance of the voters attending the precinct conventions which will be held Saturday, July 21, when delegates to the county convention will be elected. There are four precincts in Lubbock with twenty-six in Lubbock county. Mr. H. D. Woods is chairman of precinct No. 1; John Dillard of precinct No. 2; J. A. Wilson of precinct No. 3; and Bob Penney of precinct No. 4. The places and time of meeting of the precinct conventions had not been named late Tuesday, but this information will be published as soon as it is available. The county convention will be held Saturday morning, July 21, at 10 o'clock in the county court room, Judge W. W. Campbell, county chairman, stated Saturday. At this convention delegates to the state convention will be elected, and the returns of the elections held July 24 will be certified.

## SOUTH SIDE BAPTIST AUXILIARY MEETS MONDAY

The ladies' auxiliary of the South Side Baptist church met at the church shortly after 12 o'clock Monday afternoon and quitted a quilt. The ladies are quilting each Monday afternoon. Besides the work the ladies report an enjoyable time and refreshments are served at each meeting. Mrs. L. D. Moss, chairman, and her committee, Mrs. A. S. Eads and Mrs. Edgar Blake, extend an invitation to come and help in the work.

## Mrs. Duggan Hostess To The Tuesday Bridge Club

Mrs. T. B. Duggan charmingly entertained the Tuesday afternoon bridge club at her home, 1912 Broadway, only two tables of club members were present. After several delightful games the hostess served an ice course to Misses A. E. Conley, M. L. Price, W. H. Meador, J. S. Johnson, W. S. Posey, F. R. Friend, and A. V. Weaver.

## REMEMBER PRECINCT CONVENTIONS JULY 24th

A great deal of attention is given to the importance of voting, but there is another responsibility of the citizen that is even more commonly overlooked. It is true that too small a per cent. of the qualified voters actually exercise the privilege, yet a very much larger proportion so than those who attend the precinct conventions.

## THE GUIDING SPIRIT OF WISDOM POINTS TO THE CAPITAL DOME AT WASHINGTON, D. C.

This "Vote" poster is one of the many devices used by the National League of Women Voters to further its campaign for a bigger and hoped-for majority vote in all the primary and general elections this year. Hundreds of local Leagues throughout the country are flooding their communities with the gaily-colored posters.

The Texas League of Women Voters has used the poster freely during the past two weeks. Hundreds of them are up in cities and towns over the state. By means of this striking poster, the significance of the ballot-box is emphasized.

## Attention to Diet Spells Health For School Children

Reduction of undernourishment among school children in the United States depends upon wider cooperation between parents and educators according to health authorities. In an effort to obtain support, officials have inaugurated a country-wide educational campaign in nutrition.

"Conserve the health of the child by greater attention to his diet," is the slogan of workers. Every child they say, should have at least a quart of milk a day, the year around either as a drink or in his food. He should drink plenty of water between meals and be given an abundance of bread and cereals. The school child should have an abundance of vegetables each day, and, if possible, a daily serving of fresh fruit. Fish may be substituted for meat, while eggs should have a place on his menu four or five times a week.

Mothers, it is suggested, should avoid highly seasoned foods, although children usually prefer them, and serve simple, nutritious dishes such as are indicated in the appended recipes, which are especially appropriate for warm weather.

**Coconut Custard**  
Five eggs, 1-2 cup sugar, 1-2 tsp salt, 1-2 cup shredded coconut, 2 cups evaporated milk diluted with 2 cups water.

Beat eggs slightly; add sugar, salt and the diluted milk which has been scalded. Pour into buttered custard cups and put 1 tablespoon coconut on top of each custard. Set in a pan containing sufficient hot water to come almost to the top of the cups. Bake in a 325 F. oven until a knife inserted in the center comes out clean. This custard requires about forty minutes for baking. Serves 8.

**Prune Whip**  
One cup chopped seeded cooked prunes, 1 tsp. lemon juice, sugar to suit taste, 3-8 cup evaporated milk combined with 1-2 cup 40 percent whipped cream, few grains salt.

Add lemon juice, sugar, and salt to prunes. Chill and whip evaporated milk and cream until stiff, then fold in chopped prunes. Keep chilled until ready to serve. Peaches, raspberries, strawberries, etc., may be used instead of prunes. Serves 8.

**Cream of Carrot Soup**  
One medium onion, 2 cups strained cooked carrots, 2 tsp. butter, 1-2 cup fine bread-crumbs, 1 quart chicken or meat stock, dash white pepper, 1 tsp. salt, 1 tsp. sugar, 1 cup evaporated milk diluted with 1 cup of water.

## HEDDA HOYT TALKS ABOUT THE THINGS THAT INTEREST THE BUSY WOMAN OF 1926.

### Fashion Notes

(Written for the United Press)  
NEW YORK, July 20.—Sunburned complexions which were popular a year or so ago are becoming a bit passe. Where certain types of brunettes found the dark amber-toned coloring becoming, blonds, tans and dark-haired persons found that sunburn produced the effect of yellow jaundice.

There is no doubt but that an overdose of sunbath acts disastrously upon the complexion for it is often years before the real whiteness of the skin return. Thus, whether the sunburned complexion is becoming or not, we advise strongly against the sun's rays. There are many dark powders made purposely to give the tan effect to the skin and most of them prove more flattering than a real sun-baked complexion. Even these powders, we suggest only for certain types of skin—those whose features suggest the Oriental. Others will find that dark powders give the skin a muggy, unhealthy appearance. The orange lip rouge which is worn with dark powder only accentuate sallowness.

Those suffering from a brunette complexion, however, must realize that when wearing powders one must consult the color chart for shades which will blend with dark skins. A creamy white is most becoming. Jade green, bright red and black and white combinations look well. Rose, pastel blues and pinks, yellows that verge on citron shades are colors to beware of. Pastel shades are only suitable for clear pink and white complexions since one must blend into the natural frock rather than contrast with it.

## LAWN LUNCHEONS OFFER HELP TO HOUSEWIVES IN BREAKING MONOTONY OF DAILY MEALS

An occasional lawn party during the torrid summer months is a particularly interesting way of breaking the monotony of hot weather meals. A gay supper on the lawn is an especial boon to the hardworked housewife. It offers her the opportunity of a romp with the children, the benefit of the out-of-doors, and a respite from the kitchen.

Food for the lawn luncheon may be prepared hours before the meal, leaving the afternoon free for other necessary work or a few hours of leisure. Salads and sandwiches are of course, always acceptable for the lawn luncheon, but it is essential to vary the menu with a new culinary wrinkle now and then. In this connection, the following dishes may prove interesting:

**Parkhouse Roll**  
2-3 cup evaporated milk diluted with 1-3 cups hot water, 2 1-2 tsp butter, 2 tsp. sugar, 2 tsp. salt, 1 yeast cake (1 oz.) dissolved in 1-4 cup lukewarm water, 7 1-2 cups bread flour, Add butter, sugar, and salt to diluted milk, then add dissolved yeast and half the flour. Beat thoroughly. Cover, and let rise in a warm place (about 85 degrees F.) free from drafts of air. When double in bulk cut down and add enough flour to knead. Let rise again, knead, and roll out to one-half inch in thickness. Cut with biscuit cutter. Crease each piece through middle, brush half of top with melted butter, fold, and press edges together. Place in an oiled pan, let raise, and bake in a 425 degree F. oven. This will require about fifteen minutes.

**Bean Salad**  
One pt. string beans, fresh or canned (whole string beans preferred) 2-3 cup cooked carrots that have been cut in long thin strips, 1 pimiento, cut in narrow strips, 2 hard cooked eggs, cut in thin lengthwise slices, crisp lettuce leaves, French dressing made quite red with paprika. Place beans, carrots and pimiento in alternate layers in a salad bowl. Pour over it the French dressing and toss together lightly. Arrange on nests of lettuce leaves and garnish with strips of hard cooked egg.

**Angel Food**  
eight egg whites, 3-4 tsp. cream of tartar, 1-8 tsp. salt, 1 cup sugar, 3-4 cup flour, 1-2 tsp. almond. Add salt to egg whites and beat until just frothy, then add cream of tartar. Continue beating until whites are dry and stiff. Fold the sugar in gradually by cutting down and then up through the whites, then fold egg whip. Add flavoring, then fold the sifted flour in carefully, yet thoroughly, using the same method of molding in. Care must be taken to not beat out any of the air that has been incorporated yet the ingredients must be well blended. Pour into an ungreased Turk's head pan (pan with tube in center), and bake in a 320 degree F. oven.

**Maple Parfait**  
One cup hot maple syrup, 6 egg yolks, beaten, 1 cup evaporated milk, 1 cup cream, 1 tsp. vanilla, almond, or orange. Pour maple syrup gradually over the well beaten egg yolks, stirring constantly to prevent lumping. Combine evaporated milk, soft cream and chill and whip. Fold into the maple syrup mixture. Bury in equal parts of salt and ice and let stand for four hours.

PUBLIC INSTRUCTION  
It might be of concern to the public to know, for indeed they should know, the religious convictions of any man seeking a high office. If religious convictions have a place, and I hold positively that it should, in any office—then special emphasis should be placed on the State Superintendent whose influence should count for as much in moral and religious precepts as that of educational tutelage. Designationally, I am a Methodist of the fundamental type. I have no patience with the teachings of those who feel and find comfort in the tracing of their origin from the Duke Orange and the Princess Monkey. I have no kinship with nor sympathy for any school of teaching that will cause any man to forget his origin or disapprove in any way the discipline of the District. In my school for the past five years I have taught the Bible and expect to continue the program but I refuse at all times to give any denominational interpretation to fit any creed or cult of any organization. # Witcher Answers!

## His Friends Knew He Would!

EVIDENCE REFUTING JOHNSTON'S "LAST MINUTE" EFFORT TO REFAME HIS REPUTATION IS PRESENTED HEREIN—ALL OF WHICH HAS THE NAMES AND ADDRESSES SIGNED THERETO!

Bud Johnston's ridiculous accusations published in the Journal are branded as false by leading jurists, lawyers, statesmen, and Democratic leaders in Oklahoma who have personal knowledge of patriotic services W. C. Witcher rendered that state when Redism and Bolshevism threatened the Commonwealth of that State. That a determined effort has been made to injure, slander and defame me has been known by my friends, but little did we imagine that such an article could emanate from a man whom I have never injured, and against whom I have never said one word attacking his character, but Bud Johnston knowingly permitted conditions to exist in regard to the brutal treatment of prisoners which I am proud to have had the courage and the honor to expose, and which when brought to light has staggered the conscience of every patriotic citizen in the 72nd judicial district. Has Johnston denied what I have published? No, Has he met the issues in a manly way? No. Has he undertaken to defend his record? No. Have I lied on him? He has not charged it. But he now seeks in the last throes of his deep embarrassment and humiliation over having the people with whom he has lived, and who has honored him with office twice, know of the things he has tolerated which shocks the conscience of an inhabitant of the jungles. Had I not performed my duty in bringing these things to light, I would have been a traitor to every citizen in the district.

There are courts in this country, and one of the purposes of courts is to protect good men from daggers hurled by the hands of character assassins and in one of these courts Bud Johnston shall have an opportunity of producing proof of these accusations.

### I HAD TWENTY FIVE DEBATES WITH STANLEY CLARK

Mr. Johnston, you did not know that the Socialist party of Oklahoma selected Stanley Clark, to lead their fight while the Democrats selected me to lead theirs, and that under the auspices of the Democratic party of Oklahoma, I met Clark in over twenty debates? You surely could not over look this, but you did. Were you insane? I am sorry for you, and I regret exceedingly that you have thus involved yourself in criminal libel. Strange things men do when driven to the last corner under the lash of truth, but my dear unfortunate Johnston, I am not mad, I am still smiling, and you are the subject of my smiles, and then again I pity you. I pity your advisers But the truth you must face, however severe it may be.

### Bud Johnston:

It probably had not occurred to you that I met Stanley J Clark, the leader of Socialism and agnosticism in joint debate right close to home here. This debate took place within a few miles of Lubbock back in seventeen, and some responsible men who heard it will be present next Thursday night. You ought to have started your investigation closer to home. Your statement that Clark wrote my book is false.

When did I ever say a harmful word about you? Do you think that you have convinced a single man or woman in Lubbock that I am afraid of you? No wonder you cannot solicit the support of the voters. No wonder you do not attend candidates meetings! No wonder you bear the imprint of shame on your face when you reflect on your puny efforts to belittle me and on the embarrassment you now suffer.

### THEY HAVE SAID WITCHER HAS NOT PAID HIS POLL TAX! READ THIS:

"This certifies that W. C. Witcher has paid his and wife's (Mrs. Carrie Witcher) State and County poll taxes. Paid January 20th, 1926 by receipt nos. 4459 and 4460.

I. F. HOLLAND,  
Tax Collector, Lubbock County  
This 20th day of July, 1926.

### BUD JOHNSTON'S CHARGE I SPOKE TO RED MEETING JUST AS FALSE AS OTHER CHARGES

Any man who charges I assisted Reds is unwarranted in doing so, as is shown by foregoing telegrams, and statements by invitations, I have spoken to labor organizations, just as I have lectured to student bodies and faculties of such institutions as John Tarleton College of Texas, and the Southwestern State Normal of Oklahoma. Why publish unsigned letter Johnston? But you can explain that to the court.

### LAWYERS VOLUNTEER SERVICES

A number of the leading lawyers of the local bar, and elsewhere in the district have gladly volunteered their service to bring to justice these character assassins, and just as soon as proper petitions can be filed, proceedings will be instituted, and will be pushed to the fullest extent of the law.

### BUD JOHNSTON SAYS:

"Witcher associated with Bolshevism and Communism"  
"Walter Witcher leader, Chief and King of Hobos Anarchist and Bolshevists"  
"Witcher associated with Stanley Clark in Red Movement"  
"Thieves, Jail Birds, Hi-Jackers and Bootleggers Witchers Associates"  
"Witcher Speaks to Red Meeting"  
"All These Things Happened in Oklahoma."

### Let Oklahoma Jurists, Lawyers, Democratic Leaders and Statesmen Tell Lubbock County People the Truth

Remember that I had the honor and distinction to have been selected by the State Democratic Executive Committee of Oklahoma to lead the fight against Socialism from 1914 to 1920. I am proud to say to the voters that when the Socialist party was bombarding Oklahoma and the Democratic party joined by many good Republicans were looking for some man with sufficient ability to lead the fight, and save the State, that I was the man selected to perform this patriotic work.

### Hear W. C. Witcher Tonight

8 P. M. in the Court House

Mr. Witcher has the endorsement of the Democracy of Kiowa County and the State, and will answer.

Both Debs and the Socialist National Committee refused to divide time in Hobart with Mr. Witcher, altho challenged in due time by Alger Melton, Chairman of the Democratic State Committee.

Witcher's lecture will be absolutely free, and he is the one man who can intelligently answer every argument put forth by the Socialists.

EUGENE V. DEBS

### Hear Him Tonight

### State Chairman Who Challenged Debs Wires Witcher

Read these telegrams, and then see if you can imagine how any man can become so blind and rabid and mad as to do what Johnston did. Johnston in the name of common decency, what is wrong with you? Have you let fools dictate what you shall say, as an officer and a man who is accustomed to making investigations, why did not you investigate thru some reliable source before absolutely committing political suicide.

### THESE TELEGRAMS SPEAK FOR THEMSELVES

Chickasha, Okla., July 20th, 1926.

W. C. Witcher,  
District Attorney,  
Lubbock, Texas.

"In Nineteen Fourteen and Nineteen Sixteen your fight against Socialism in Oklahoma under the Democratic State Committee, was a valuable service to the Democracy of this State. The Socialist Leader Debs was challenged to meet you at Hobart, but declined. Your effective work did much to destroy Socialism in this State.

ALGER MELTON,  
Chairman Democratic State Committee 1914-1918.

### JOHNSTON WHAT DO YOU THINK OF THAT?

CHIEF JUSTICE SUPREME COURT WIRES.  
Former Chief Justice Oklahoma Supreme Court Brands Johnston's charges false. READ THIS TELEGRAM.

Tulsa, Okla., July 20th, 1926.

Hon. W. C. Witcher,  
District Attorney,  
Lubbock, Texas.

During years nineteen sixteen, seventeen and eighteen, W. C. Witcher on and off the platform throughout Oklahoma fought Socialism and redism earnestly and effectually and later in twenty three and four he fought klanism with much zeal and energy.

F. E. RIDDLE,  
Former Chief Justice Supreme Court.

Bud Johnston, How's That?

### STATEMENT OF CHIEF CLERK SUPREME COURT

Oklahoma City, Okla., July 20th, 1926.

W. C. Witcher,  
District Attorney,  
Lubbock, Texas.

I can certify that you were fighting socialism in Oklahoma in nineteen sixteen and seventeen. I have never heard of you defending Socialism.

Wm. M. FRANKLIN,  
Chief Clerk, Supreme Court.

Try that Johnston.

He who slanders and libels me, slanders and libels my good wife and babies. My good wife has borne patiently with Christian fortitude these insults, as she knows that my friends throughout the broad domains of Texas and Oklahoma will not suffer my good name to be slandered and besmirched by political enemies. She knows that these enemies shall be made to suffer for their misgivings.

Had Bud Johnston designedly, and deliberately sought to do something that would bring him into disrepute with all reasonable minded people, he could not have planned a more perfect scheme to bring about his own political destruction, than the method he pursued in publishing the ridiculous article appearing in the "Journal"

"Whom the gods would destroy, they first made mad" I made Johnston mad by telling facts which he does not deny: Facts which McWhorter cannot deny: Facts which no man can deny, and for having told the truth; for having protected mothers sons from the brutal lash, I am slandered and libeled. Bud Johnston, time after time I have warned you "That truth crushed will rise again" and that "Whatsoever a man soweth that shall he also reap". Now in order that you may fully and thoroughly exposed in your efforts to deceive honest he also reap." Now in order that you may be fully and newspaper comments concerning my war on Reds in Oklahoma and Texas from 1914 to 1923-4.

### Remember! Witcher Speaks Thursday Night

W. C. Witcher will disrobe, unbreach, and unfrock this conspiracy which has been formed against him at the corner of Ave I and 13th, Thursday evening beginning promptly at 8:45.

An Oklahoma man will probably be on the platform who knows something that may be embarrassing for somebody.

A telegram will be read from the Sheriff of Grady County which will expose Johnston's story of Inman and it will be just too bad.

The Ku Klux grandjurors who don't like Witcher will be treated to something that will amuse the public, and,—well I don't know what they'll do about it.

Some whiskey will probably be exhibited.

Come hear a gentleman speak who is not afraid. Hear a man who cannot be intimidated. Hear a man speak who is the friend to both rich and poor; a man who was reared on the farm,—born of poor parents, who had instilled into him the virtues of courage, and the principles of Christianity from childhood.

### WHAT DOES KATE RICHARD O'HARA NATIONAL AND INTERNATIONAL LEADER SOCIALIST MOVEMENT THINK OF WITCHER

The democrats of Arkansas called Witcher to meet the celebrated leader of Socialism in that state in August, 1916, and here is what she said in the National Ripaw:

"Witcher is without doubt the most able of these hired defenders of the capitalist system. He is well educated. Has a good command of language, and is the shrewdest debater extant. He can punish the truth (meaning socialism) harder and quicker in a given length of time than any other man in Dixie."

DAILY DEMOCRAT CHIEF HOBART, OKLAHOMA

"SOCIALISM UNDER FIRE"

MANY RENOUNCE PHILEOSOPHY AFTER HEARING W. C. WITCHER

Editor of Gnostic of Texas storming strongholds of Red Carders in tour of county. Debating with Geo. C. Hamilton.

"The debates now in session in this county between W. C. Witcher and Geo. G. Hamilton are creating unusual sensation, and attracting the largest and most enthusiastic audiences of any political meetings that has ever been held in this county. W. C. Witcher affirms that Socialism is fundamentally wrong, and is therefore a peril to both church and state. Mr. Witcher has in his possession the strongest and most authoritative documents that can be had on the subject—Democrat Chief. (This is a long article, but I simply give the heading and first paragraph to show what democrats thought of my work. What do you think of that Bud Johnston? You cracked your whip too quick. You have libeled me, and the public know it, and WHAT ARE YOU GOING TO DO ABOUT IT?"

All these original papers and many more are in my possession and will be exhibited at meeting Thursday night, for inspection of any one who desires to see them, or may be seen in my office at any time.

### FROM DISTRICT JUDGE DURANT OKLAHOMA

Durant, Okla., July 20th, 1926.

Hon. W. C. Witcher,  
Lubbock, Texas.

Any one who makes the statement charging that you made Socialist speeches in Oklahoma has no respect for the truth. I heard you make many speeches in Oklahoma during the years fourteen, sixteen and seventeen against Socialism as well as several debates with socialist agitators and surely no democrat would be so malicious as to make or circulate such a charge. You are authorized to use this any way you desire.

PORTER NEWMAN, District Judge.

## THE RADIO DILEMA

Perhaps no more unfortunate thing could  
have happened in the realm of radio broadcasting  
than to have the present unsettled state of affairs  
obtain. The failure of Congress to pass the Dill  
bill or some other measure to properly  
regulate the radio situation is a crying shame and  
one which reflects no credit on that august body  
original broadcasters.

And now, with Secretary of Commerce Hoover  
shorn of his power to regulate the air in the  
interest of broadcasters and listeners alike, chaos in-  
deed potentially reigns in the air. Actually how-  
ever, it does not—yet. But consider that not more  
than 530 commercial radio stations were operating  
under licenses granted by Secretary Hoover while  
600 applications for permission to operate are on  
file in his department.

Supposing that even half of these 600 decide  
to proceed with the operation of a station, which  
they are free to do now, and to use any wave  
length and time that they please. Isn't it easy to  
imagine the Babel that would fill the air? The  
successful operation of millions of dollars worth of  
radio receivers would be impossible and the en-  
tertainment of millions of persons spoiled.

This condition is only indicative, however, of  
the short-sightedness of Congress throughout  
several years now. Men interested in the expansion  
of radio along sane lines have been advocating that  
some real legislation be passed that would better  
regulate the radio situation. These men outlined  
the expansion possible in radio broadcasting, but  
Congress, if it heard, above the clacking of its own  
tongues, at least gave no heed and we are today  
in a situation which may lead to such conditions  
as to entirely spoil broadcasting.

These 600 people who have applied for sta-  
tions are on their honor now. If they have the in-  
terests of the public at heart they will not go on  
the air and complicate affairs until some order is  
brought out of the present imbroglio.

## THE TACNA-ARICA SQUABBLE

It is unreasonable to suppose any South Amer-  
ican problem can become of as intense current  
interest in the United States as in the continent ly-  
ing below the Panama Canal, but since General  
Pershing's unsuccessful attempt at peace-making  
and the breaking down of arrangements for a pleb-  
iscite, readers of newspapers in the United States  
are becoming more and more familiar with the  
names Tacna and Arica.

This boundary dispute, a source of disquiet  
in Latin America since the war which left Chile  
victorious over Peru and Bolivia, seems as far as  
ever from settlement. The Plebiscite Commission  
set up by the President of the United States as ar-  
bitrator, with first General Pershing and then Gen-  
eral Lassiter at its head, has ruled it is impossible  
under present conditions to hold a fair election.  
President Coolidge, it is stated, may entertain an  
appeal "on his own motion," but it is not certain  
he will take this step.

Failure of this neighborly attempt on the  
part of the United States Government was not en-  
tirely unexpected to those most familiar with the  
difficult situation. Friends of General Pershing  
forewarned the probable outcome, and advised him  
not to undertake the task. Mr. Hughes, as Secre-  
tary of State, knew its delicate potentialities, and  
he would have been only human if he had heaved  
a sigh of relief on discerning that the main work  
of handling the plebiscite would fall upon his  
successor, Mr. Kellogg.

Nevertheless, it is hardly fair to accuse the  
United States government of officious meddling in  
the case, for it was obvious some authority had  
to take the lead, and if the American government  
had failed to do so, the matter might have been  
left to the League of Nations, a resource scarcely  
compatible with either the Doctrine of Monroe, or  
that of the G. O. P.

Ethically, the Peruvians undoubtedly have  
the better of the argument, but practically Chile  
holds the upper hand. Not for nothing have the  
Chileans been called the Prussians of South Amer-  
ica, or the relations of Peru and Chile compared  
to those of China and Japan. Some military  
and naval experts have gone so far as to say Chile  
alone could defeat the combined armies and navies  
of the rest of South America, and certainly  
Chilean statesmen have shown little disposition to  
give up anything they have acquired, regardless  
of the method of acquisition. Peruvian leaders,  
however, cannot forget the not generally known  
fact that the United States Government some  
years ago warned Chile, at a time when her rela-

tions, with Peru were acute, that a breach of the  
peace would be frowned upon by Washington,  
and they are looking to Uncle Sam to prevent  
the present controversy from reaching the stage  
of actual warfare.

Meantime, the prestige of the United States  
has not been greatly enhanced by events in Tacna-  
Arica, and there is no doubt that commercial riv-  
als will make the most of any opportunity de-  
velopments there may have afforded. However, it  
may be doubted whether any great amount of real  
damage has been done. The Latin Americans are  
a super-sensitive people, it is true, and they in-  
stinctively fear the influence of their more power-  
ful northern neighbor. But the problem of trade in  
the last analysis resolves itself into the question of  
who can provide the best commodities at the low-  
est cost, and even a sensitive man usually will buy  
in the cheap market.

## FARM ENGINEERING

"Modern farming is 85 per cent engineer-  
ing," says Thomas D. Campbell, a big Montana  
wheat grower. He thinks the farmer of the future  
will necessarily be a skilled engineer, and the farm  
hand will be a skilled mechanic. Farm work tends  
more and more to be done by machinery. There  
is amazingly effective machinery available now for  
nearly all important farm operations, and the me-  
chanism and method are continually improving,  
thanks to American inventiveness. America is  
teaching the world how to farm. Farming is liter-  
ally the greatest of our industries. Mr. Campbell  
reminds those who belittle it. During the height of  
the season it requires more horsepower than any  
other industry.

As machines are substituted for men, giving  
more horsepower and less manpower, the men  
employed must necessarily change in type, and  
their fortunes must change with them. "Farming  
employees will ultimately be paid wages as attrac-  
tive as those offered to the skilled laborers in the  
cities. This will be done through the use of power  
machinery, the employment of skilled artisans and  
the consequent increased output per man power,  
which will result in reducing the labor cost per  
acre. We have worked out a method of power  
farming in connection with farm management  
which takes a great portion of the weather hazard  
out of farming in the great wheat growing states,  
especially in those where the rainfall averages  
some 14 to 15 inches a year. We feel that we can  
eliminate low grade transient labor which for years  
has come to the harvest fields. By substituting  
skilled mechanics we have greatly decreased the  
production per acre." This kind of progress, ap-  
plied to agriculture in general, will unquestionably  
make farming far more congenial in the future  
than it is today, and far more profitable for those  
engaged in it. This is a natural and inevitable de-  
velopment which is overlooked by most of those  
who say there is "no future in farming."

## FRENCH DEBT TERMS

Caillaux, French finance minister, has suc-  
ceeded in arranging a debt settlement with Great  
Britain more favorable than the one that Beranger  
arranged with the United States. There seems to  
be a prospect of ratification by the French Parlia-  
ment. There is little prospect of ratification of the  
American agreement, already approved by our  
House of Representatives. French sentiment is  
strongly against it, ignoring what seems to Amer-  
icans its liberality, and insisting that if France is  
to pay at all, she must have still more favorable  
terms. Caillaux's ministry, and even the present  
French government as a whole, may stand or  
fall accordingly as it succeeds in winning further  
concessions from America. The British precedent  
will be a powerful argument for more concessions.  
A member of the American debt funding com-  
mission is quoted as saying that the commission  
is through with the matter, and any further action  
is up to Congress. There is seldom any absolute  
finality, however, in either finance or politics. It  
is not inconceivable that France will be granted  
somewhat easier terms before the negotiations un-  
dertaken by Caillaux are concluded. If so, it will  
not be because American financiers and statesmen  
want to take less, but because they are convinced  
that less is better than nothing at all.

## STORE FIXTURES FOR ADS

A retail manager in an American city has  
taken to putting new fixtures into his store every  
year, not because the old ones wear out and need  
replacement, but because the new ones attract  
customers who come to view and stay to buy. Last  
year he used \$40,000 in this way. The bill for the  
present year is to be about \$25,000, which is the  
sum he plans to spend every year. It will be  
charged to business expense instead of to capital  
account. This is turning to business profits the  
popular fancy for change. The goods in such a  
store may not be any better one year than the  
preceding, or any cheaper. As long as patrons  
may be attracted not by quality or price of mer-  
chandise but by store fixtures, this is as good a  
form of advertising as any. If the public wants to  
pay for such things, the merchant who gives them  
the chance is wise.

## A STRENUOUS JAUNT

Wells and Evans started their famous trip  
around the world as leisurely gentlemen, in an  
evening dress. That was a pose, but none the less sig-  
nificant. The air of dignified leisure was soon lost  
in the strain of making connections, enduring the  
hardships of four rushing weeks and steady, unre-  
mitting concentration on the problem of what to  
do next. They ended the trip in an automobile,  
"sagging wearily back against the supporting  
hands of their friends at every movement of the  
auto." Both men were attired in flying suits, which  
they had not had time to discard, and their faces  
and clothing were covered with oil and dust.  
Strenuous work that was, in spite of the luxurious  
means employed for it. Any travel is strenuous  
that aims at speed, rather than the relaxation of  
moderate motion and slowly changing scenes.  
Which is a truth that many travelers never seem  
to discover.

## All Het Up

## So Think We

We think that the universal  
delusion of men is that they will  
some day be entirely out of debt.

We think there is one thing  
that people can't do, and that  
is to talk about a mule behind  
his back.

We think there is one thing  
that lawyers usually look for  
and that is loop holes.

We think the reason so many  
poets are poor is because there  
are so many poor poets.

We think that photographers  
must naturally be merciful hu-  
mans, as hardly any of them  
will take a natural picture of us.

We think that a lot of folks  
who are shouting reform really  
should be chloroformed.

We think women must be hap-  
pier than men or at least they  
get a lot of home happiness out  
of their misery.

We think that that London  
woman who kept her marriage a  
secret for twenty years, must  
have been thoroughly ashamed  
of him.

We think for the fact that  
man is mentioned in the Bible  
4332 times and woman only  
536 times need be no sign that  
they are not of as much impor-  
tance as the man.

We think the fellow that said  
Europe lost her "cud" was  
probably wrong, but there is one  
thing pretty certain, she bit off  
more than she could shew.

We think the Chicago dairy  
that published an ad in which  
they said they had just added  
a new well and was ready to  
take on many more customers  
might have easily been misun-  
derstood.

We think there are lot of  
folks in Lubbock who think  
the weed cutting ordinance is  
merely a bluff. The city officials  
say they mean every word of it,  
and weed cutting will be the  
order of the day with a lot of  
folks who have not been in the  
habit of cutting them, very soon.

We think people should have  
the scraps from the kitchen  
hauled away regularly or buried  
It is not neighborly to dump the  
scraps in the back alley. It creates  
an unhealthy condition.

We think that Frenchman who  
invented a bicycle that would  
fly should have concentrated his  
thought on how to keep a French  
Franc from skidding.

We think there is one conso-  
lation about the scant dresses  
of the American women, they  
do not worry over a garment  
maker's strike like they used to,  
when their skirts would drag  
their tracks out.

We think it does not take  
much to rile the fellows up these  
days. One fellow recently sued  
a street car company for \$5,000  
because he was bitten by a spider

while riding in one of the trolley  
cars.

We think that this is a great  
life. A man will work for eighty  
years to accumulate a lot of  
wealth, and then worry himself  
to death to know how to spend  
it.

We think there is little differ-  
ence in a poor man and a rich  
man after all. They are born  
equal, and a dead poor man  
is just as well off as a dead  
rich one, and the middle ground  
scrap is about all the difference  
after all.

## It Is Reported

That some of the farmers are  
using Sulphur to kill the cotton  
flea. We would suggest that they  
mix a little molasses with it  
and if that does not turn the  
trick, we will be surprised.

That some of the Lubbock  
men are so homeless these days  
that they do not have anywhere  
to go after they have become  
tired of everywhere else.

That the number of wife-  
less husbands in this city is in-  
creasing daily.

That one fellow has written  
into the question and answer  
department of a big magazine  
to find out if the world court  
is a divorce court. It may soon  
develop into such.

That some of the folks are  
wanting it to rain. Of course the  
moon and the wind are both  
wrong, but there is one thing  
that hardly ever fails to produce  
rain and that is to attend a picnic  
in a seersucker suit. It nearly  
always brings on a pretty good  
shower.

That the President's wife is  
not much different from ours or  
anyone else. She refused to be-  
lieve that Cal caught a three  
pound fish last week till she saw  
it weighed.

That there are not many one-  
horse towns any more, but there  
are a lot of second-hand flivver  
towns.

That some of the former wet  
candidates of the state have  
openly denounced the wet lead-  
ers. Don't tell us the state is not  
getting dry.

That there is a lot of guar-  
anteed talk going on in Texas just  
now. It's taken back if it does  
not suit.

That Texas wants a man for  
Governor next year.

That the Lubbock County  
Republicans are going to have  
a primary this year, all to them-  
selves.

By the Circulation Department  
of this paper that more than a  
thousand extra copies of the  
Sunday Morning Avalanche have  
been ordered for other towns.

## That Child of Yours

By Ruth Matthews

Women have a sad habit of be-  
coming set in their convictions at  
the age of twenty-five or thirty and  
refusing to change thereafter, re-  
gardless of a changing world.  
These women become mothers, and  
the new generation springs up. The  
struggle begins between fickle youth  
with its constant varying of ideas  
and ideals, and set age, downright  
and obstinate against any difference  
of opinion.  
Probably the most harmful and  
yet the most usual troubles between  
mothers and daughters have this  
source. The field is too great to  
cover with a few words—but take  
an example. Smoking—for girls.

## Should Appeal to Good Taste

She will persuade this girl to wait  
until a later age, out of mere good  
taste, if nothing else. A girl in her  
teen smoking is not quite refined.  
The daughter may wait until she is  
old enough to definitely reform her  
ideas, and decide for herself.  
The matter of good taste is an ad-  
mirable basis for argument with a  
growing girl. Where she will seldom  
listen, if you mention the physical  
harm early smoking will do her she  
will hearken with all her attention  
if you touch the good breeding angle  
of the matter.

## WET AND DRY

Mr. T. L. Lewis, Chief Probation  
Officer of the Cleveland Juvenile  
Court, is quoted as saying that "in  
the year 1915 there were 2,196 chil-  
dren brought into court." In the  
twelve years since that time the  
population of Cleveland has probably  
increased by 300,000, but in 1923  
there were only 2,519 children  
brought into court, although the  
colored population has increased 50-  
000 and it supplies two and a half  
times the number of child delin-  
quents as the whole population.

The first eleven amendments to  
the Constitution were ratified by the  
bare required majority. Four states  
refused to ratify the Twelfth Amend-  
ment; five would not ratify the  
Thirteenth; four would not approve  
the Fourteenth and six refused ap-  
proval to the Fifteenth. The sixteenth  
was rejected by six States and  
twelve would not ratify the Seven-  
teenth. The Nineteenth failed to se-  
cure the approval of the States, but  
forty-six of the forty-eight States  
ratified the Eighteenth Amendment.

A special cable to the New York  
Times asserts that nearly 6,000 cases  
are waiting trial before German  
courts for the illegal removal of de-  
natured alcohol from government  
warehouses. It is said that of 16 mil-  
lion gallons thus withdrawn during

the past year, the greater part was  
obtained on fraudulent certificates.  
Note that all of this occurred in Ger-  
many, where they have plenty of  
beer.

## JUST FOLKS

By EDGAR A. GUEST

## THE PERFECT GOLFER

He was indeed a sportsman true,  
His face a smile of friendship wore  
His ball was on the green in two  
And down in four.  
He took no practice swings while I  
Was set to drive upon the tee,  
The short hole found his shot pin  
high  
And down in three.  
He drove and never cursed his luck,  
The ball was straight and true and  
far,  
Later that musical ker-chuck  
Gave him a par.

Calm, courteous, thoughtful on he  
played  
A high example for us all,  
Never a downright dub he made  
Or topped his ball,  
He never sobbed in deep remorse  
Or tried to win by wily tricks,  
He smiled his way around the course  
In seventy-six.  
I think my smile would be a beau-  
ty  
My conduct not a fault would mar  
If ever I could learn to shoot  
A course in par.

# CAPROCKERS TAKE SECOND OF SERIES HERE TUESDAY 3 TO 2

## CAPROCKERS AND HUBBERS WILL BATTLE TWO MORE GAMES AT CROSBYTON PARK TODAY AND THURSDAY. CROWD EXPECTED

After taking an easy game from the Caprockers of Crosbyton in the game day before with an overwhelming victory, the Hubbers took an idea of a loaf and got to the visitors in yesterday's game with the Caprockers by a score of 3 to 2.

The Hubbers, after accumulating a two run lead on the Caprockers, let down in the eighth and with Sheppard's error in fielding Reed's grounded ball seemed to have touched the visitors off for a victory as they came up one after the other, singling off Hale and scoring men one after one until they had tied the score and had one in the lead.

Hale, the local moundman, allowed six hits during the affair; but three of them were bunched in the eighth.

"Turk" Morgan pitched a well battle game and let the Hubbers down with eight throws. The hits gotten by the Hubbers were scattered, however and did very little to off set "Turk."

Both clubs will meet again today at the Crosbyton park. Returns games will be given Crosbyton there for the games played here yesterday and the day before.

**First Inning**  
CROSBYTON: E. Mueller grounded out, Hale to Quatt; Scalling grounded out, Sheppard to Quatt; H. Mueller flied out to Sloan. No runs, no hits, no errors.

LUBBOCK: Jackson flied out to

## Dealers Give Up Account With Bankers 6 to 2

Again the Bankers foreclosed on the Auto Dealers in a neat tilt yesterday afternoon at the Tech park and took over the game in the Major League by a score of 6 to 2. It was the consistent hitting of the money changers that brought the fore-closure about.

Boles the Autoist moundman sweep six of the Bankers from the accounts yesterday and at times hurt tilt.

The Bankers steady gain on the Po-Tailors in nearing the same percentage.

## Icemen Chill Undertakers From Winning

Cooling off the Undertakers and shattering their perfect percentage for games won this season in the Twilight league of the City league, the lights, power, and ice representatives of the Texas Utilities defeated the Rix-Baker crew yesterday with a score of 1 to 0. It was one of the best of the season games played in the Twilight league.

Stevenson, moundman of the burial men, let the Icemen down for a lone bingle. He walked a lightman in the last session who stole second base and passed ball advanced him to third base it was then Xker's blunder at short on a grounded ball that caused the winning run.

Rix-Baker nine got four bingles from Karr, ice tober, but only one

for an inning was allowed.

### FERGUSON WHIPPED MOODY DECLARES

ATTORNEY GENERAL AT BONHAM SAID HE HASN'T GOT A LOOK IN

BONHAM, July 20.—Attorney General Moody, candidate for governor, declared in an address here this afternoon that he has not made a single promise with respect to the appointment of any individual to office, in the event of his election, and that all statements to the contrary are "pure fabrication."

"If I am elected governor, as I expect to be," he said, "I will take up the duties of that office without a single promise of any kind to carry out, except the promises I have made publicly to the people. Charges to the contrary are illustrations of the extent in misrepresentation to which some people are willing to go in an effort to catch votes, and are merely attempts to divert the people's attention from the main issue of the campaign."

Moody declared that the result of the election next Saturday is absolutely certain and that the only question to be decided is whether it will take one or two primaries to get rid of the present regime.

"The people are fully aroused," he said, "and they are going to reclaim their government from the control of irresponsible power. Every effort to divert their attention from the undemocratic and unconstitutional situation in the governor's office has failed. Jim Ferguson's plea of a second term for his wife has fallen flat, for the people realize that to continue the present situation would be to imperil the very foundations of our government. And the specious pleas of others have failed also. The people are going to vote directly on the main question and their decision is going to be overwhelming."

Moody reiterated his statement that there will be a new governor in Texas within two weeks, declaring that Governor Ferguson will be called upon to resign after the returns of next Saturday's election have been recorded.

"That's one bluff of Jim Ferguson's that is going to rise up to 'scrape' him next week," said Moody. "He didn't expect me to call his bluff but he is going to find out that it will not be so easy to escape

### Drilling On Test At Bledsoe Will Begin Next Week

The rig for the Whicker No. 1 test in Cochran county is nearing completion and drilling will begin within the next ten days, it is thought. This test is located three miles from the town of Bledsoe and oil men are watching the field with much interest.

This is to be Cochran county's first test, though it has been known for some time geological formations are good. There are a number of producing wells west of Bledsoe in New Mexico.

### C-C SECRETARIES

(Continued from Page 1)

E. Benson, B. Sherrod, chairman of the barbecue committee, called his committee together yesterday morning and started them out to get everything ready for the barbecue specialists from Littlefield, composed of Gus Shaw, chief, Tom Arnet, Phelps Walker and P. C. Wright, assistants, when they arrive here Thursday to prepare the chicken barbecue which will be given the secretaries at the County park Thursday afternoon. Sherrod's committee is composed of Garland Woodward, H. B. Hawkins, G. E. McCelvey, and M. T. Warwick.

Wires and letters asking for reservations continue to come in and every one seems to say the same: "Everything points to the biggest convention in the history of the T. C. E. A."

### HAGEN WINS EASTER PRO GOLF CHAMPIONSHIP

DELAWARE WATER GAP, Pa., July 20.—Walter Hagen easily won the Eastern open golf championship over the Wolf Hollow course Tuesday but failed by one stroke to equal the world's record for 72 holes of medal competition.

keeping his word as he thought." Moody went from here to Denison for a night meeting, Wednesday afternoon he speaks in Eastland and Wednesday night at Fort Worth.

### ELECTION RETURNS WILL BE FURNISHED

The circulation department is glad to announce that our hundreds of readers at Brownfield will be furnished the same election returns that the people of Lubbock will get. The Palace Drug Co. of that city will erect a large balckboard in front of their place of business and as soon as Lubbock gets a report it will be relayed to the Palace Drug Co. at Brownfield. A special operator will be put on to furnish this service.

Idalou, Lorenzo, Rallis, Crosbyton, Slaton, Lamesa, Tahoka, O'Donnell and Ropesville will also be taken care of. The Avalanche has a full leased wire, and its Sunday morning paper will give to the people of the South Plains and New Mexico a full report of the state primary from eight to twenty-four hours earlier than any other daily paper in Texas.

Yours to serve,  
G. R. SCOTT,  
Circulation manager.

### O'Donnell C. of C. Holds Important Session

O'DONNELL, July 20.—Other things of importance discussed was a county agent for Lynn county. A committee was appointed composed of C. E. Kelley, Major Rodgers and E. S. Scrimshire to circulate a petition which will be presented to the commissioners court asking them to hire a county agent and appropriate \$1,000 per year to pay said agent.

Attention was also called to the unsanitary condition of our town and the need of a city health officer. Dr. Tate was instructed to appear before the city council and ask for the appointment of a city health officer. The Civic Beauty and Improvement Committee were instructed to work in conjunction with the health officer in looking after the sanitary condition of the town.

W. H. Crunk, J. G. McCarroll and Rev. J. Wood Parker were appointed as a committee to draft by-laws and constitution governing the chamber of commerce, to report at its next regular meeting.

Another committee was appointed composed of C. H. Mansell, A. D. Brown, Mr. Williams, Fred Henderson, Guy Bradley and Mr. Pemberton to confer with the county commissioners of Lynn, Terry, Garza, Dawson and Gaines counties with reference to roads leading into O'Donnell.

### NOTICE TO THE PUBLIC

The local J. B. I. of U. A. No. 781, composed of the union barber shops of Lubbock, Slaton, Tahoka, Lamesa, Brownfield, Littlefield, Crosbyton, Sudan, Levelland, Amherst, wish to publicly correct certain misleading and erroneous statements and reflections cast upon the barbers' union above referred to, and which statements have been formerly published in Lubbock papers under the guise of "Labor Committee" and in connection with certain political propaganda.

In self defense, we the undersigned, wish to make the following statement: That we are not in politics but that every member of our union will go to the polls and cast his ballot for the man whom he believes to be best qualified for the place he seeks. We are not endorsing any candidate for public office, we will not endorse any candidate for public office and we resent the attempt on the part of any candidate to align himself with us by using our union in connection with his political propaganda under the guise of "Labor Committee" or otherwise.

# Dear Voters

I am a WORKING girl  
Am a candidate for DISTRICT CLERK.  
My opponent is asking for his 4TH TERM.  
He has a GIRL deputy to do the work.  
I know I can do the work, TOO.  
Have had several years' EXPERIENCE in law offices.  
I ask you to give me a CHANCE.

Sincerely,

Miss Flora Green  
CANDIDATE FOR  
DISTRICT CLERK  
OF LUBBOCK COUNTY

# OWEN W. McWhorter Candidate for District Attorney

I respectfully request your support and vote on my personal and public record. My campaign has been placed upon a solid foundation, constant in its appeal to "cool, reflected and determined common sense."

I have certain definite views into which I desire you have an insight.

1. I believe in the STRICT AND IMPARTIAL ENFORCEMENT of all of our laws of the State and Nation.
2. I do not believe in compromising with the Criminal Element of our country.
3. I do not believe that a Candidate for Public office should place his campaign upon a plain that reflects disgrace upon the office to which he aspires.
4. I do not believe that under the present conditions in this District, State and Nation, that your District Attorney could well be TOO FIRM in the prosecution of CONFIRMED CRIMINALS
5. I believe that the voters should know something DEFINITE about the man for whom they cast their vote and then should be a person who has ESTABLISHED himself as a permanent resident of the District. Remembering that it does not require a "very smart person" to recommend himself and "pop-off" at some one else.
6. I do not believe that a public official should cater to the whims of secret societies or political organizations for support.

I have lived among you all of my life and understand you and understand me. I have served you four years as your County Attorney and have not gone off on side issues and become RADICAL in my duties but have been CONSTANT in my efforts to uphold and enforce the laws of my State.

Next Saturday you must decide whether or no I am entitled to advance in your employ.

Owen W. McWhorter  
The Home Candidate for District Attorney.

### FIVE MORE SUBSCRIPTIONS OF HUNDRED DOLLARS EACH REWARD BOY SCOUT CAMP FUND SOLICITORS

Five subscriptions of \$100 each rewarded boy scout fund solicitors yesterday, in addition to numerous smaller subscriptions and a satisfactory amount of cash contributions for immediate expenses, L. S. Harkey declared last night.

W. W. Royalty, M. C. Overton, Lubbock National Bank, Citizens National Bank and First National Bank all signed up for \$100 each.

The Sewell Paint Company of Dallas, through District Agent Truett and Davis-Mason, dealers at Post, agreed to give the paint for painting the buildings on the Post Memorial camp site both inside and out. Scouts under the direction of Mr. Truett will apply the paint. This gift is equivalent to about \$500, Mr. Harkey says.

Dr. Overton, in addition to giving \$100, donated a mounted golden eagle for the scout museum. This museum will be in the old bunk house, and articles already obtained for it include buffalo bones, Indian relics, various sorts of cartridges, and a branding iron of the old Currycomb ranch, on the site of which the camp is built. The iron was found by scouts at the park.

### NO CHANCE FOR JIM, SAYS LYNCH

DAVIDSON ON HOME STRETCH SPEAKS TO CROWD IN DALLAS

DALLAS, Texas, July 20.—Special interurban trains and motor caravans from all over North Texas arrived in Dallas this afternoon for the Lynch Davidson rally which was held at Fair Park tonight. Davidson's supporters were jubilant over the outlook and predicted the Houston candidate would be high man in the first primary with strong probability that he would receive the majority vote.

Mr. Davidson declared he would receive at least 80,000 votes more than Dan Moody, whom he gave second place, and said that the Ferguson's are entering out of the running. He said the "flood of statements issued from Dan Moody's headquarters within the last few days attacking my candidacy is the best evidence that Moody supporters know their youthful candidate's weakness and are making a last desperate effort to stem the tide of defeat."

"The voices that have been shouting 'down with Fergusonism' for the last few months are now wailing 'look out for Lynch, he's coming down the home stretch,'" Davidson declared. "Everyone knows Fergusonism is a dead issue. The Moody bubble has burst."

Preceding the rally the out-of-town delegates, joined by thousands of Dallas county voters, paraded through the business district of Dallas. Three special interurban cars brought the delegations from Corsicana and Ennis; four cars came from Fort Worth and two from Sherman and Denison. Motor cavalcades arrived from Waco, Hillsboro, Waxahatchie and as far east as Tyler and Texarkana. Delegations were also present from Kaufman, Rockwell, Carrollton, Denton, Mansfield and Arlington.

Davidson's speech was broadcast by means of a leased wire to radio station KFQB at Fort Worth. A band concert preceded the speaking. Davidson was introduced by Joseph B. Frank of Dallas, who paid a tribute to the business ability, honesty and integrity of the candidate and declared he was the only man in the race qualified to give Texas a real business administration.

Davidson launched directly into a summary of the political situation and reviewed what he termed the "political and official misdeeds of his opponents." He declared it is high time to let the rest of the world know that good business and good government are going hand in hand in Texas and that the damaged credit of the state will be promptly restored. "With the last of today's gang of oil millionaires and pretty politicians

ians running Dan Moody and his campaign have concentrated their fire on me and every one of them has given out some sort of a statement to the press attacking my candidacy," Davidson said. "This course is sure proof that the Moody crowd is worried and realize that Lynch Davidson is the real contender in the governor's race. Moody supporters admit within their own conceptions that Ferguson is no longer a factor in the race, but they don't dare to do so openly because if they did the young Attorney General would be left high and dry with nothing to talk about on the eve of the primary."

"I don't want to burden you with a lot of political history, but many of you can recall reading the puny thunderbolts hurled at me recently by Oscar Budweiser Colquitt, W. F. Farrish of Standard Oil fame; the Hogg Brothers; J. B. Cranfill, North Texas dry; John Boyle, South Texas wet; Senator Charles Murphy, who introduced senate bill No. 180; Bob Underwood; Benton McMillan, and others. Most of these champions of the young attorney general believe the Standard Oil company should have a free hand in Texas or are casting longing eyes on the political pie counter. For instance, Cranfill assures North Texas that Moody is bone dry and Boyle tells South Texas Moody is all wet.

Conditions are so bad in Latvia that not only merchants but farmers are facing failure.

### LOOK FOR FIVE THOUSAND VOTES IN LUBBOCK COUNTY; ALL CITY BOXES WILL VOTE IN COURT HOUSE

Never in the history of Lubbock county has there been a time when political questions were more hotly contested than just at this time. Every office from governor down has one or more candidates and without exception they are fighting to the last ditch.

Of course state contests as a rule attract more attention than the minor ones, but this year county politics seem to be as important as any. There is scarcely a day when one or more candidates do not speak in this city and these addresses will continue to the day of election.

A heavy vote is expected this year, and conservative men say more than 5,000 votes will be cast in this county. Approximately 200 people have taken advantage of the absentee voting ballot.

There are four voting boxes in Lubbock though all of them are located in the court house. If you live west of Avenue H and south of the court house you will vote at box No. 1 in the office of Justice W. E. Johnson; if south of the court house and east of Avenue H vote at box No. 2 in the tax collector's office; if north of the court house and east of Avenue H, vote at box No. 3 in the county agent's office and if west of Avenue H and north of the court house, vote at box No. 4 in the sheriff's office.

### EXCHANGE CLUB OPENS TECH DRIVE

The Exchange club at its noon meeting yesterday fired the opening gun of a campaign to secure positions for Tech students who are working their way through school, and also to establish closer co-operation between the students and the business and professional men of the city.

They authorized President Vaughn Wilson to extend to some selected Tech student an honorary membership in the club, and also asked all club members who would employ Tech students to file their names as soon as possible with Secretary Nolan Whitlow. Three offered at once.

This action follows a meeting Monday afternoon of the heads of various civi organizations with Tech officials at which the city people pledged themselves to carry out the plan outlined above.

### DEVASTATED REGIONS PRACTICALLY RESTORED

WASHINGTON, July 20.—France has nearly completed the restoration of the vast area which was devastated by the great war, according to a report to the Department of Commerce from Trade Commissioner D. S. Green, stationed at Paris.

The total of French Government funds actually disposed of covering property losses or damages under the plan of reconstruction and restoration is in excess of 79,000,000,000 francs, Green reported.

### WHITEFACE TO HAVE TWO NEW BUSINESS HOUSES VERY SOON

WHITEFACE, (Cochran County) July 20.—Whiteface, located between Lehman and Levelland on the Doud extension out of Lubbock, is to have two new business houses and a new school building construction, work on which will begin in the next few days. The Langford Lumber Company will put in a complete stock of lumber here, and Mr. Hockaday from Hillsboro, will put in a gin. The contract has been let and work is to start on the new school building right away. Wells will be started on the gin and school grounds Monday.

### Hereford Hatchery Doubles Capacity

HEREFORD, Tex., July 20.—The Golden Rule Hatchery will be able to turn out just twice as many baby chicks during the coming season as were hatched last year, according to H. H. Hawkins, owner. Another 12,000 egg capacity machine will be installed in August. This will double the capacity of the hatchery. The local hatchery started operations last February and was not able to fill more than half of the orders received. The two machines will probably take care of the fall and winter trade, but Mr. Hawkins predicts that he will have to install the third machine by next spring. The poultry business in Deaf Smith county is growing by leaps and bounds. It has doubled during the past two years, and the industry is still on the upward trend.

### Candidates Busy In Deaf Smith Co.

HEREFORD, July 20.—Candidates seeking county offices in Deaf Smith county are working early and late, and competition seems to be keener than it has been for years. Every candidate seeking a county office here has one or more opponents. The Republicans are holding a primary here for the first time in history of this county, and this will add to the political interest.

SYLVESTER TO IRRIGATE SYLVESTER, July 20.—Three permits for irrigation from the Clear Fork near Sylvester were recently issued by C. C. Cooper, surveyor of Nolan county. Irrigation here has proved very successful, according to information received by the Irrigation Bureau of the West Texas chamber of commerce.

NEW COTTON COMPRESS FOR CARLSBAD, N. M. CARLSBAD, N. M., July 20.—Carlsbad is to have a new cotton compress, to be financed by the Far- due & Guitier and Morrison interests. This new project will do away with shipping the baled product to other points for treatment.

### Rotary to Discuss Jobs For Students

When the Rotary Club meets today noon in the basement of the Leader building for their regular weekly luncheon, it is expected that they will take up the matter of closer co-operation between the club and Tech students, and the securing of positions in the city for students who are working their way through school. This will be in line with the plan mapped out at a meeting of civic bodies and Tech officials Monday.

### WELLINGTON WANTS C-C MEET IN 1927

WELLINGTON, Texas, July 20.—That Wellington will make a strong bid for the 1927 district convention of the northern Panhandle district of the West Texas Chamber of Commerce was decided at a meeting of business men, farmers and chamber of commerce members last night. The convention this year will be held in Clarendon on Monday August 30th. C. C. Small, mayor of Wellington, will issue a proclamation declaring that day a holiday in Wellington. All business houses in Wellington will close and a delegation of more than five hundred men farmers and their wives will journey to Clarendon in an effort to have Wellington named as the 1927 meeting place of the convention. The Wellington Band and more than a hundred people have already signed up to make the trip.

### CHILDRESS ALREADY LAYS W. T. C. C. PLANS

CHILDRESS, July 20.—Childress is already making plans to attend the West Texas chamber of commerce convention at Wichita Falls next year a thousand strong, according to Secretary J. W. Debenport. A request for space in the Westmoreland Park company's office has been made for the Childress delegation.

### HEREFORD PLANS HIGHWAY AD

MAY PUT UP SIGNS ON ALL ROADS OF PANHANDLE LEADING THERE HEREFORD, Tex., July 20.—Road signs to direct tourists through Hereford, should be placed on all the principal highways in this section of the country, according to G. W. Brumley, local hog buyer and oil man. Mr. Brumley made this suggestion to the local business men

at the last Chamber of Commerce luncheon. A committee will be appointed immediately to work out plans for the project.

Seth B. Holman, editor of the Hereford Brand and director of the West Texas Chamber of Commerce, reported on the directors meeting which was held in Abilene last week. President E. B. Black told of his trip to Yellow Stone National Park; R. O. Dunkle announced the Farmers Encampment which will be held on the Tierra Blanca the last week in August; and T. D. Moss announced that Hereford was now receiving

LAS CRUCES, July 20.—Officials of the New Mexico College of plenty of wheat cars and that the shortage seemed to be over, since the Santa Fe had rushed cars to this section to help take care of the huge wheat crop.

Agricultural and Mechanical Arts have discovered the "chamiza" a native shrub, is one of the most successfully grown drought resisting plants, which may be used for stock feed. The cost of getting a good stand of the shrub is comparatively low, and the plant requires less than five inches of rainfall yearly. This plant is receiving the attention of the Agricultural Bureau of the West Texas chamber of commerce.

Valencia and Madrid are to be connected by a cement highway 225 miles long.
