Official Paper Of City Of Perryton, Texas

Official County Paper Of Ochiltree County

PERRYTON, OCHILTREE COUNTY, TEXAS, THURSDAY, JUNE 13, 1929

NUMBER 20

## EAT PLAINS HIGHWAY MEET

ATTENDANCE AT FOURTH ANNUAL MEETING HELD AT NORTH PLATTE LAST WEEK

Perryton delegation composed of M. Perry, W. B. LaMaster, Shindler, C. E. Woods, Jim Van W. Stewart, returned Friday from North Platte, Nebraska, where they attended the annual convention of the Plains Highway Association.

Report that it was the best and most successful meeting held. The next annual convention will be held at Liberal, Kansas.

One hundred delegates were present from the following states: Oklahoma, Kansas, Nebraska, South Dakota, North Dakota, and Texas. The principal matters considered at the meeting were the route from Canada to Texas and the Federal designation of the highway when the Federal Highway Commission meets at San Antonio this fall.

Provision was made for the financing of the work of the organization by an assessment against all roads on a basis of two cent per mile according to the latest census with a minimum assessment of \$100.00. It is expected that not less than \$3000.00 can be raised by this method.

Y. Romigh, North Platte, was elected as president, R. T. Shindler as the next vice-president, and W. B. LaMaster was elected as one of the three men from Texas who are on the executive committee. Reports from the different delegates brought out the following concerning the highway: That only portion on the entire system from Canada to Mexico that is not a state highway is that part from Beaver county, Oklahoma between Perryton and Liberal; that large part of the highway is already a part of that Federal system; that much of the route is already either graded or paved and that the entire route across the plains will be hard surfaced.

Public Farm Sales

Three Billed For This Vicinity On Monday, Tuesday and Wednesday Coming

A good indication of the prosperity of a country is the price for live stock, farm implements, household goods, feed and "other" articles too numerous to mention. At public farm auction sales, a number of such sales have been held in the Perryton trade territory this spring and each and every one has been exceptionally gratifying and pleasing to the owners, auctioneers and others concerned.

In this issue of the Herald will be found three different sales which are billed for next week. On Monday, June 17, W. H. Padgett will hold a sale at his place located in the south part of Perryton. Mr. Padgett has sold his home and is offering at public auction: cows, chickens, farm machinery and household goods. R. H. Holland will clerk this sale.

On Tuesday, June 18, K. K. Thomas will have a big sale at his place located four miles north of Perryton on the state highway. This offering consists of horses, milk cows, hogs, farm machinery and household goods. Mr. Thomas recently disposed of this place and has purchased a fine home in Perryton. Ray Thomas will serve as clerk for this sale.

The next sale on the list will be held on Wednesday, June 19 by J. M. Johnson at the old A. C. Wirt place located 3 miles west of Perryton. Mr. Johnson will sell over 80 head of cattle, most of them being extra good milk stock. In addition to the cattle, some hogs and a big assortment of farm machinery will go on the block. F. P. Rogers of the First National Bank will clerk this sale. Littleton & Steffen are the auctioneers for all three of these sales. Anyone wishing to make sale dates with the above firm of auctioneers can do so at the Herald office.

Paul Fletcher returned home last Wednesday from the Shattuck hospital where he has been for several weeks. It will be remembered, Mr. Fletcher was in a cyclone and suffered several injuries. He is getting along nicely and it is thought will have the full use of his limbs after using crutches a few months.

## USE SODIUM CHLORATE FOR KILLING BINDWEED

County Agent Guy R. Sheets has just received a shipment of three thousand pounds of sodium chlorate which will be sold to the farmers of this community at actual cost for use in eradication of field bindweed, often called wild morning glory. Instructions for killing of this very destructive weed by the use of chemicals will be furnished to all interested parties by Mr. Sheets.

Bindweed is unusually resistant to ordinary methods of eradication. The plant stubbornly maintains its hold by means of deep, penetrating, vertical roots; and it spreads steadily through the aid of creeping, horizontal roots which send up new tops at intervals. New plants also grow from seeds and pieces of roots. The tops of bindweeds are killed by frost but the roots live through the winter.

## AMERICAN LEGION PLAY SOON

WILL PRESENT THREE ACT FARCE COMEDY, "THE TOP SERGEANT" ON JUNE 24-25

Pierce Johnson Post of the American Legion has made arrangements with Fred Twyman, manager and director of the Hazel B. Hurd Players to direct the presentation of a three act farce comedy, "The Top Sergeant", for the American Legion, in this city at the American Theatre on Monday and Tuesday, June 24-25. Mr. Twyman, who is an American Legion man himself, needs no introduction to the people of Perryton. His organization has just completed a two months engagement on a circuit in this section. They played Perryton every Tuesday night and it was necessary to run two bills to take care of the many that wanted to see the show. "The Top Sergeant" is an out and out army play with all scenes laid overseas during the time of the World War. There is plenty of good clean comedy with a plot that holds your interest from the first to the final curtain. The cast of characters follows:

Sergeant Micky O'Day, a hard-boiled American "top-kicker", Chas. W. Claybaugh  
Patricia Gray, an American spy.  
Mrs. H. I. Hudson  
Mademoiselle Marie, a patriotic Frenchwoman.  
Miss Mary Small, an American Red Cross nurse.  
Mrs. Paul Ballew  
Francis Petrain, a German spy.  
Roy B. Orrill  
Private Toby Smith, an American doughboy.  
J. C. Reagan  
Lieutenant Harry Blitz, an American officer but in reality a German spy.  
Allen King.  
Captain Jack Small, an American officer.  
Van W. Stewart.

Miss Ruby Neufeld and Miss Margaret Smotherman left Sunday for Abilene to attend the Epworth League convention, which meets there this week.

John Ford and Elmer Cagle, Range, Okla. were dinner guests Monday in the home of Mr. Cagle's sister, Mrs. C. E. McLarty.

Daisy Dooley, Beaver, Okla. is visiting this week with Martha Gidley.

Mrs. E. R. Jarvis and Miss Mae Kuhn, R. O. left Saturday evening for Wichita, Kansas, where Mrs. Jarvis will receive medical treatment. Dr. E. R. Jarvis accompanied them to Canadian and they took the train there.

Beal Puckett, Enid, Okla. spent the week-end visiting in the L. D. Tucker home.

## COUNCIL CUTS CITY TAX LEVY

TAX RATE IS REDUCED FROM \$1.50 TO \$1.40 ON THE ONE HUNDRED DOLLAR VALUATION

The city council, at their regular meeting on Tuesday evening voted to cut the city tax rate from \$1.50 on the \$100.00 valuation to \$1.40. This was done after a thorough investigation had been made and it was decided that the \$1.00 levy would provide sufficient funds to meet all expenses of operating the city government and pay interest and sinking fund on the light, water, street improvement and sewer bonds.

The valuation of real estate and personal property within the corporate limits of Perryton is carried at over two million dollars on the tax rolls. We understand that in arriving at this valuation the members of the Board of Equalization tried to list all property at approximately eighty per cent of its real value. The city council and city officials are to be commended for their good business judgment which has enabled them to reduce the tax levy in face of the fact that many city improvements such as paving etc. are now being made.

Taxes can be cut at least a third so we have been informed by a member of the city council, by the sale of the municipal water plant to the Texas-Louisiana Power Co. who have made an offer to buy the property. The city water plant has a fair revenue, but when all items of expense, necessary salaries, depreciation, interest on water bonds and money from sale of light plant, the greater part of which went into additions and improvements to the water system, etc. are added up, it will be found that the water plant is a big money loser as a municipal proposition.

## District Lions Meeting

Borger, Dalhart, White Deer, Forgan, Wheeler, and Follett Represented Here

Visiting Lions from Borger, Dalhart, Forgan, Wheeler and White Deer met with the Perryton Lions Club at a luncheon on last Monday at the Methodist church. It was a district meeting and a majority of the clubs in this zone were represented.

Reports of activities of the different clubs were made and much progress was noted among the clubs through the Panhandles of Oklahoma and Texas. President Dave Shanks, under whose regime the Perryton club has made a wonderful growth, presided at the meeting. District Governor McBride of Borger was present. Zone meetings are held quarterly.

Roy French, Enid, Okla. was in Perryton Monday and his sister-in-law Miss Ruth Pope, who has been visiting in the home of her uncle, J. H. Shearer, returned home with him.

Mrs. Arrah Bailey and daughter, Oweida, spent the night Sunday in the home of their cousin, T. A. Roper, and family. They were on their way to Dallas for an extended visit with relatives.

Mr. and Mrs. Lewis Rogers and children were dinner guests Sunday in the home of Mrs. Rogers' brother, Geo. Fletcher and family.

Mr. and Mrs. John Corbin, who have been spending the winter in Arizona and California, returned Monday to care for their wheat crop.

Jas. F. Bray drove to Liberal, Kansas Saturday to take Mrs. J. L. Riley, who returned to her home at Minneapolis, Kansas after a visit with her daughter, Mrs. Jas. F. Bray and family.

Glen C. Ault, Tulsa, Okla. visited Saturday with his mother, Mrs. Nancy C. Ault, and his sister, Mrs. Ed Morgan. On his return they accompanied him as far as Shattuck, Okla. and visited in the home of Mr. and Mrs. H. B. Bradbury. Mr. Morgan and Mr. Dunn went for them Sunday evening.

Miss Leah Nell Holland was a dinner guest of Miss Fern Leatherman Sunday.

Rev. and Mrs. O. W. Dean, who have been visiting the past three weeks in the home of their daughter, Mrs. R. C. Johnson, left Saturday for their home at Morgan, Texas.

## Borger Boosters Coming

Eighty-five Business Firms Already Signed Up to Make Trip To North Plains

J. Ham Lewis, editor of the Borger News, wired the Herald Wednesday that O. G. Granville, secretary of the Borger Chamber of Commerce, accompanied by representatives of the Borger papers, would make a swing around the towns, on Thursday and Friday of this week, and that the Borger Boosters will visit on Friday and Saturday, June 21-22, on their first annual good will trip.

The exact time of their Perryton visit has not been set. Towns where stops will be made include Thomas, Dalhart, Stratford, Guymon, Spearman, Perryton, Gravel and Sinnott. Eighty-five business men have already been signed up to make the trip. An entertainment program is being arranged for each town.

## BOY SCOUTS TO FOUR DAY CAMP

PERRYTON, SPEARMAN, HIGGINS AND HUNTON COME TOGETHER IN CAMP ON WOLF CREEK

A four day camp of the Boy Scouts of Perryton, Spearman, Higgins and Hunton will be held near Horse Bend on Wolf Creek on Friday, Saturday, Sunday and Monday, June 14-15-16-17. This camp will be under the direct supervision of R. L. Caskey, Scout Executive for the Tex-Okla. area. He will be assisted by Leroy Hartman, Perryton, deputy scout commissioner; Dewey Allen, Vance Apple and Addison Cutler, Perryton Scoutmasters; and Herbert Campbell and R. B. Tyson, Scoutmasters of Spearman and Higgins.

## ATTICUS WEBB TO SPEAK HERE

HEAD OF TEXAS ANTI-SALOON LEAGUE SPEAKS AT BAPTIST CHURCH FRIDAY JUNE FOURTEENTH

Dr. Atticus Webb, superintendent of the Texas Anti-Saloon League, will speak at the First Baptist church in this city tomorrow evening, Friday, June 14, at eight o'clock. Dr. Webb is making a ten day tour of the Panhandle country. In addition to supervising the activities of the Anti-Saloon League, Dr. Webb serves as editor of "Home and State".

Dr. Webb will show a series of pictures in which the work of his organization will be stressed, also the bad and evil effects of the "Demon Rum". No admission will be charged. All are invited and welcome, whether you be friend or foe of Prohibition.

C. P. Parks and family of Woodward, Oklahoma have moved to Farnsworth for the summer to look after the wheat crop on their farm near that place. Mrs. Parks is a sister of Mrs. L. R. Conner and Ray Chase of Farnsworth.

Hugh Lackey and mother, Mrs. W. T. Lackey, left Wednesday for their home at Amarillo after a few days visit here. The Lackeys are making arrangements to move back to Perryton the latter part of this week. Mr. Lackey has been here for some time working at construction work. Valda and Hugh will operate a new confectionery and drug store in the new Ellis Theatre building.

## WARM WEATHER IS SPEEDING UP WHEAT HARVEST

The warm weather of the past few days is just what most of our farmers have been wanting, and if it continues it will mean that within the next two or three weeks, the big wheat harvest will be under way. Prospects for a bumper yield are still good and the majority of the fields will make an excellent crop without any more rain.

According to reports a strip of country in the south part of the county is due for one of the largest crops in history. Very little hope is held out for a good price at the start of the harvest although we are still hoping that the unexpected will happen and that wheat will bring at least a dollar.

## WOOL HARVEST AT FARNSWORTH

BIG ELECTRIC SHEEP SHEARING OUTFIT SHEARS TWO THOUSAND DAILY; HAS SIXTEEN DROPS

Juan V. Santos, Uvalde, Texas, is now operating in the Farnsworth country with his large electrically operated sheep shearing machine. This unique machine has sixteen drops or individual shears and over two thousand sheep can be sheared with ease in a single day.

E. W. Rogers, Farnsworth, who is probably the biggest sheep operator in this part of the country, says that the work of Mr. Santos and his men is of the very best and that he is well satisfied. Farnsworth is the center of the sheep business for this section. There are a number of big operators in that vicinity and practically all of the wool produced in this county is shipped from that point.

Large shearing outfits such as the one owned by Mr. Santos do not ordinarily find it profitable to come into the Panhandle but the sheep business in this immediate vicinity has grown to such stupendous proportions that there is now plenty of shearing for a large machine such as owned by Mr. Santos. Arrangements were made several months ago by Mr. Rogers to get this outfit into the country.

## Baptist Meeting Closes

Forty-Eight Additions to Church During Two Weeks Revival Will Baptize Sunday

The revival meeting at the First Baptist church in this city closed last Sunday with a record of forty-eight additions to the church in the two weeks series of services. The baptizing service will be held Sunday immediately following the morning services.

Rev. W. H. McKenzie, Waxahatchie, Texas, evangelist in charge; and Rev. Douglas Carver and Mrs. Carver of White Deer, Texas, who were in charge of the music and young people work, made many friends in Perryton during their short stay. They are trained, efficient, sincere and capable gospel workers and the benefits that will be derived from their work in Perryton are many.

The final services were held last Sunday. Rev. McKenzie preaching in the morning, Rev. C. Lex Sheld, by occupied his own pulpit at the evening service.

## NOTIA 4H CLUB PICNIC AT GEO. JACKSON RANCH

The Notia 4H Club members, friends and families had a big time at their picnic held last Saturday and Sunday at the George Jackson ranch located over in Lipscomb County. Fishing, swimming, playing games and lots of eating was the program for the two day affair. Over twenty-five were in the party, so County Agent Guy R. Sheets reports.

Mrs. Ray Christopher, who has been ill since Sunday, is staying with her parents, Mr. and Mrs. John Elmore.

Mr. and Mrs. Ray Van Buskirk, Enid, Okla., visited in the homes of Herman Hargrove and J. F. Smith last week end.

Mr. and Mrs. Aldon Bell came in Friday to spend the summer in Perryton. Mr. Bell received his B. A. degree from the Oklahoma University on June 4 with 840 other students. Mr. and Mrs. Bell are now visiting in the home of his parents, Mr. and Mrs. P. L. Bell.

Mr. and Mrs. E. A. Records and family returned Sunday evening from a week-end visit with relatives at Lyan, Colorado. J. P. Day, who accompanied them to Lyan, will spend the summer there with his son.

S. R. George and grand-children, Margaret, Wilma and Styril George, returned Tuesday from a few days visit at the ranch of L. Hieronymus, north of Buffalo, Oklahoma. Mr. Hieronymus is an old friend of Mr. George's. They report some mighty fine fishing over in the Buffalo country.

Mr. and Mrs. F. M. McGee came in Tuesday from St. Louis, Okla. for a few days visit in the home of Mrs. Dodson's parents, Mr. and Mrs. F. Dodson, and other relatives and friends.

## ALMOST READY TO LAY BRICK ON ELEVATOR ROW

It won't be long now until a part of the business district of Perryton will be paved with brick. Brilliant Street, better known as Elevator Row, is just about ready for the laying of the brick. The caliche base has been put down and the big steam roller is now packing it into place.

The Lacey Paving Co. has a big force of men busy. Some are grading, others running the concrete curbs and gutters, while still others are busy hauling caliche, sand and other materials. There is much talk of paving on some of the residence streets and there is no question but what a majority of the property owners on many of the residence streets would like to see their streets paved at once. It appears to us that a straight caliche street, treated with oil would make an ideal roadway in the residence section. With the installation of curbs and gutters, home owners will be able to sod the parking on the sides of the streets and keep them up in shape.

## CONFECTIONERY AND PHARMACY

WILL OPEN ON JUNE TWENTY SEVENTH IN NEW ELLIS THEATRE BUILDING; NEW FIXTURES

A new drug and confectionery will be opened for business when the new Ellis Theatre opens on June twenty-seventh. The new drug store will be owned by R. T. Shindler of the Shindler Drug Co. and Hugh and Valda Lackey of Amarillo. The Lackey brothers will operate the business, which will be located in the room north of the lobby and main entrance.

A specialty will be made of the fountain department featuring a complete curb service. Light lunches and sandwiches will be served. A small but complete line of drugs and sundries will be carried. The new operators need no introduction to Perryton people for, with the exception of the past few years, they have made their home in this county for many years.

Valda Lackey has been with the Pool Drug Co. in Amarillo for a number of years. Hugh Lackey, who was here the fore part of this week, states that the fixtures have been ordered and that they are being constructed. The fixtures will be of dark golden oak with English type wall cases. No expense will be spared to make it one of the most attractive stores in Perryton.

## Tent Show Coming

Monroe Hopkins Players Here All Week Under Auspices of the American Legion Post

The Monroe Hopkins players, under the direction of Mr. and Mrs. Monroe Hopkins, will fill a weeks engagement in Perryton commencing on next Monday, June 17th. The show is one of the largest tented stock companies that plays the Southwest. They carry twenty-eight players and present a series of high class, clean comedies and dramas.

The big tent will be located one block South of the new Masonic Hall. Ladies will be admitted free on opening night, when accompanied by one paid adult ticket. This show is playing under the auspices of the Perryton American Legion post.

Mr. and Mrs. Robert Thurman announce the arrival of a son, born Tuesday, June 11. The little fellow weighed ten pounds.

Mrs. Jimmie Mitchell has been quite ill for several days.

Mr. and Mrs. Kramer Keth are spending their vacation visiting with Mr. Keith's aunt, Mrs. H. C. Eubanks, Canjilon, New Mexico.

C. E. McLarty, of the Perryton Land Co. left Wednesday to spend several weeks at Mineral Wells.

Dr. H. C. Caylor and Miss Charlotte Levan came in last week from Denver, Colo. where Dr. Caylor has been in the hospital for several weeks. Dr. Caylor will resume his practices with Dr. Brewer at the Roger-Stump building.

Carter Pens at the Herald Office.

## PERRYTON WINS FROM CANADIAN

PERRYTON AND CANADIAN IN TIE FOR FIRST PLACE IN TEXAS-OKLAHOMA BASEBALL LEAGUE

The many fans who journeyed to Canadian last Sunday to see the ball game between Perryton and Canadian saw one of the best games of the season. It was a pitchers battle between Shupe of Perryton and Westbrook of Canadian; at the end of the eighth inning, neither side had scored. Shupe had yielded but three hits and Westbrook four. The pace was fierce and something had to break; it was Westbrook. The Perryton team got five hits for four runs in the ninth inning. That settled it, Canadian being unable to score in their half of the ninth. Perryton winning four to nothing. The Sunday game put Perryton into a tie with Canadian for first place in the league. Two more games remain on the schedule for the first half of the season. Score as follows:

| Perryton       | AB | R | H  | PO | A  | E |
|----------------|----|---|----|----|----|---|
| Young, H.      | 4  | 0 | 1  | 0  | 0  | 0 |
| Young, C.      | 0  | 0 | 0  | 7  | 2  | 0 |
| Caylor, H.     | 3  | 1 | 1  | 13 | 0  | 0 |
| Irvin, B.      | 3  | 0 | 0  | 0  | 3  | 3 |
| Chase, S.      | 4  | 1 | 2  | 1  | 2  | 0 |
| Shupe, P.      | 4  | 1 | 2  | 0  | 5  | 0 |
| McLellan, C.   | 4  | 1 | 1  | 2  | 0  | 0 |
| Reagan, C.     | 1  | 0 | 1  | 4  | 0  | 0 |
| Smith, H.      | 3  | 0 | 1  | 0  | 0  | 0 |
| Richardson, R. | 4  | 0 | 1  | 1  | 0  | 0 |
| Hunter, B.     | 4  | 0 | 0  | 0  | 3  | 1 |
|                | 34 | 4 | 10 | 27 | 17 | 4 |

| Canadian      | AB | R | H | PO | A  | E |
|---------------|----|---|---|----|----|---|
| Kirk, C.      | 4  | 0 | 0 | 1  | 0  | 0 |
| Walker, B.    | 3  | 0 | 0 | 2  | 0  | 1 |
| Allen, S.     | 4  | 0 | 0 | 2  | 2  | 2 |
| Fort, B.      | 4  | 0 | 1 | 15 | 1  | 0 |
| Hoy, B.       | 4  | 0 | 0 | 0  | 2  | 0 |
| Martinez, B.  | 4  | 0 | 0 | 0  | 0  | 0 |
| Spiller, C.   | 4  | 0 | 1 | 2  | 0  | 0 |
| Westbrook, P. | 3  | 0 | 1 | 2  | 6  | 0 |
| Fry, R.       | 4  | 0 | 0 | 0  | 0  | 0 |
|               | 34 | 0 | 3 | 27 | 12 | 3 |

Two base hits, Young and McLellan. Sacrifice hits, Caylor and Allen. Hits off Westbrook, 7 in 8 1-3 innings; off Johnson, 1 in 2-3 inning; off Shupe, 3 in 9 inning. Struck out, by Shupe, 10; by Westbrook, 2. Double plays, Allen to Fort. Time of game, 1:45. Umpires, Burnett and Young. Reagan, Perryton catcher, was injured in the 3rd inning and was replaced by Young. Smith taking Young's place in left field. Westbrook was replaced by Johnson in the ninth inning after one was out.

Perryton plays Follett at Follett next Sunday.

## Negro Baseball Team

"Black Aces" Will Play Jines Springs Club at Springs Sunday, June 23rd

Arrangements have been made by Sibley Jines, manager of the Jines Springs Park and the Jines Springs ball club for a game between his team and the "Black Aces", a team composed of a number of the "Sons of Ham" who are employed on the construction gang which is building the new Rock Island railroad from Amarillo to Spearman.

The boys of African descent have a fast team. They have played closely contested games with some of the best teams in this part of the country. Don't forget the date, at Jines Springs Park on Sunday June 23rd.

Mr. and Mrs. G. W. Lott, Sun City, Kansas, came in Wednesday to look after their wheat harvest and visit in the home of their son, Mr. and Mrs. T. C. Lott.

Mr. and Mrs. M. R. Coffee and daughter, Mary Margaret, left Saturday for Rochester, Minn., where Mary Margaret will be examined at the famous Mayo Bros. Clinic.

Mr. and Mrs. Leroy Blasingame and son of Woodward, Okla. visited from Friday until Sunday with his parents, Mr. and Mrs. J. M. Blasingame, and with his sister, Mrs. Horace Lackey and Mr. Lackey.

Mr. and Mrs. O. H. Black and daughters and Mrs. Black's mother, Mrs. M. Smith left last week for a two weeks visit at San Antonio and other southern points.

R. L. Thom, assistant-cashier at the Perryton National Bank, left Sunday for a two weeks vacation trip. He will spend some time visiting with his parents at Medicine Lodge, Kansas.

## GUIDEPOSTS TO Health and Happiness

By Bernarr Macfadden

### Rest and Relaxation

A man boasted to me not long ago that he never took more than four hours' sleep out of twenty-four. "Why should I give up a third of my life to unconsciousness?" he asked. "Like's too short. Think of all the fun you miss while you're asleep!"

That man hadn't the slightest conception of the meaning and purpose of sleep. To him, it was as a "dumb" way of putting in one's time. But he is not alone. There is an appalling number of people who feel the same way about it.

Science has not yet solved the mystery of sleep. Experiments are still being made. But this much we have found out: Sleep eliminates the poisons which are generated in the body during the day. It gives rid of the ashes from the combustion of brain and nerve and muscle. It revitalizes and refreshes and rejuvenates the billions of cells that go to make up the marvelous structure of our bodies. A kind of glorious anaesthetic that has no unpleasant after-effects!

And in the morning we have the feeling that we have been born again. The discouragements and weariness of the night before have been replaced by new hopes, new plans, new ambitions, new strength.

Considering the marvelous sleep accomplishments—why is it that so many people begrudge the time given over to it? Every hour they cheat sleep they feel is that much gained, but I never knew anyone to consistently steal time from sleep and not lose out in the end. If one is young he can get away with it for a time, but sooner or later the time comes when the eyes grow dull, the face has a haggard look. There is no spontaneous reaction. The mind is stupified. Sometimes loss of sleep leads to serious brain disorders and nervous troubles, often ending in insanity or suicide.

But all sleep is not of the right sort. A man may go to bed at eight o'clock in the evening and not get up until eight the next morning, but unless his sleep has been normal it does him little good. The sleep of exhausted nerves and troubled dreams is of little value. American sleep is inclined to be such a sleep, and for that reason we must train ourselves to sleep rightly. The average American business man lives and works under a terrific mental strain, so that when he retires there is too much anxiety in his brain to permit it to rest. His sleep is fitful, he wakes often, he tosses in his bed, he dreams continually—or so it seems to him.

For this kind of troubled sleep there is only one cure. Leave your business worries behind when you leave your office. Lock the office door on them. Of course it's not easy, especially if for years you have been in the habit of taking them along home with you and letting them share your bed. You must train yourself to do this.

It's simply a matter of habit. Change your thoughts just as you do your environment and your clothes and your associates. A hobby is a splendid thing to turn to in the evening. A good brisk walk after dinner will help. So will an interesting book.

Be the master of your mind. Get the most out of Nature's greatest gift to humanity. Learn how to sleep!

### MARION TALLEY BUY BIG FARM IN KANSAS

Kansas City.—Marion Talley, former Metropolitan Opera House singer who recently resigned from that company to live on a farm, has found her rural home. The farm 640 acres, is twelve miles north of Colby, Kan., 240 miles from Denver, Col., and 400 miles from Kansas City.

Miss Talley says she will continue to study, but not for a comeback. She will keep Holstein cows, and is going to go in intensively for horseback riding. Construction of a house on the farm will begin during the summer.

### TRIES TO KILL HERSELF

New York.—Rose Missiano longed to have her tresses shorn in the most modern manner, but her father objected to this 15-year old girl getting a bob. So she had her hair bobbed anyway, but then realizing what a scolding she was in for, swallowed poison. Antidotes saved her and all is forgiven.

### FIRE ALARM CALLS MEETING

Ware, Mass.—Recently an insufficient number of voters responded to a call for a town meeting. And so the chemical fire truck, with siren shrieking, was sent speeding down Main St. When the truck reached the town hall, followed by a crowd, the meeting was held.

## Hints for Motorists

Heat causes air to expand. That's why the pressure in your tires increase as you drive along. If the pressure is a little low when you take the car out of the garage in the morning, it may come up to normal by the time you have gone a few miles. This is more to be depended upon in summer than in winter, and more usual in Florida than Canada. It's best to test the tire pressure once a week and be sure that it's up to the specified figure. Five pounds under-inflation in a balloon tire, by test, has been proved to decrease the life of the casing from 25 to 30 per cent.

It is sitting in the same position mile after mile that wears a driver. If your car is one of the new ones with an adjustable front seat, changing the adjustment from time to time will leave you less tired after a long day's run.

Don't let the hogs make their own wallow by rooting a mud hole in the lot or pasture. Such a place is a nuisance and is unsanitary. Provide a wallow made of concrete, and located in a convenient, shady place in the lot. Clean it and refill with fresh water frequently. Crude oil, enough to form a thin layer on the water, if poured into the wallow about every 10 days will help to control lice.

## Pedrick's Answer To The Problem Of Piston Ring Equipment

The Pedrick compression ring is plain in design but, due to the Heat-Shaping Process, it is round and flat and retains its shape and tension indefinitely under heat and wearing conditions.

The Pedrick oil-control ring is slotted and beveled. It also is Heat-Treated, thus possessing the same characteristics of accuracy and long life as the compression ring. answer to the problem of piston ring equipment.

This Pedrick combination is the complete answer to the problem of piston ring equipment. The cost of both types is the same and is no greater than for ordinary snap rings—25c each, and up, in the combination package.

## HI-TEST SERVICE STATION

M. E. MANWARREN, Prop.

## Hints for the Home

by Nancy Hall

Someone has said of pictures—My house has magic windows in its walls.

Windows that open on a land of dreams, A land of quiet meadows and cool streams, Or forest paths and radiant waterfalls.

Here are forgotten cities, and old halls With high-arched ceilings built of blackened beams, Where Rembrandt's mystic inner sunlight gleams On armored men, and women in quaint shawls. And here are quays where boats with colored sails Discharge exotic cargoes from far shores:

Ivory and gems, baskets of precious ores, Old wines in earthen jars, and silken bales, Through time and space, in fancy, he may roam Who has these magic windows in his home.

**Vegetable Fritters**  
To use left-over vegetables such as carrots, peas, cauliflower, beans, or any several vegetables that blend well, put them through a sieve, adding 1 beaten egg and 1 tablespoon flour to each cup of seasoned pulp. Drop by spoonfuls into hot fat. A nice substitute for meat.

**A Very Nice Supper Dish**  
Flake meat from a can of salmon and put layer of fish in buttered baking dish; add pepper, salt and dots of butter, then a layer of chopped hard-boiled egg, another of fish, and pour cream sauce over all. Cover with crumbs and grated cheese and bake until light brown.

**Flavorous French Dressing**  
Plain French dressing seasoned with anchovy paste is very appetizing served with leaf shredded lettuce and eggs stuffed with anchovies. Use 1 tablespoon of paste for each 1-2 cup dressing.

**Bread Pudding Plus**  
Use your usual recipe for plain

bread pudding, but add to the scalded milk 3 squares of melted bitter chocolate and to the bread mixture 1-2 cup chopped pecans. Serve with whipped cream.

**Refurbishing Shabby Woods**  
Scratches can be removed from furniture by mixing equal parts of olive oil and vinegar and applying with a soft rag. Shake mixture well before using and rub briskly.

A little hunger is much better than indigestion for hogs on their journey to market. They should not be fed heavily before being shipped.

Bull calves in the dairy herd can be fed and handled much the same as the heifers, except that it is better to delay weaning until 8 or 10 months of age. If raised on skim-milk, bull calves over 3 months old

should have a little more grain than heifers. Good-sized bulls are preferred, and this method of feeding lets them get their best size and development.

Young pullets are very sensitive to strange conditions and objects, and should not be disturbed or moved around from place to place. Pullets intended for laying should be kept by themselves and so handled that they will grow well and be in good-laying condition by the middle of the fall. Free range on clean soil and plenty of green feed and shade are essential to good growth.

Few dairymen with medium or small sized herds can afford to own a first-class purebred bull; but every dairymen can afford to own a share in one. A cooperative dairy-bull association is the best and cheapest way for the small dairymen to

obtain the use of a purebred bull to improve his herd. Farmers' Bulletin 1532-F obtainable from the U. S. Department of Agriculture gives information on dairy-herd improvement through cooperative bull associations.

Oats should rolled or ground before feeding them to very young horses.

Carter Pens at The Herald Office

Do not allow grown-up rabbits eat too much—unless they are tended to grace the family table. Overfat rabbits often will not eat and may die from excessive fat. Young growing rabbits, however, may be fed all they will eat in 30 minutes for two meals a day.

Plenty of money to loan on real estate. McLain & Thomas.

Carter Pens at The Herald Office

## New Homes out of Old Homes

THROUGHOUT America there are countless substantial frame houses built years ago whose value has shrunk chiefly because they lack modern arrangements and do not conform to present-day architectural beauty.

What shall be done with these sturdy old dwellings—junk them? Sell them for "a song"? Abandon the value of fine old trees? Sacrifice all sentimental attachments?

Certainly not! If the old house is built of wood, easily and economically you can remodel it and make it again valuable, beautiful and livable.

Furthermore, remodeling can be done to fit the purse or income—the first year perhaps a new porch and new dormers to relieve a plain roof; later new floors, enlarged rooms, an added wing. These and other changes can be made easily and at reasonable cost.

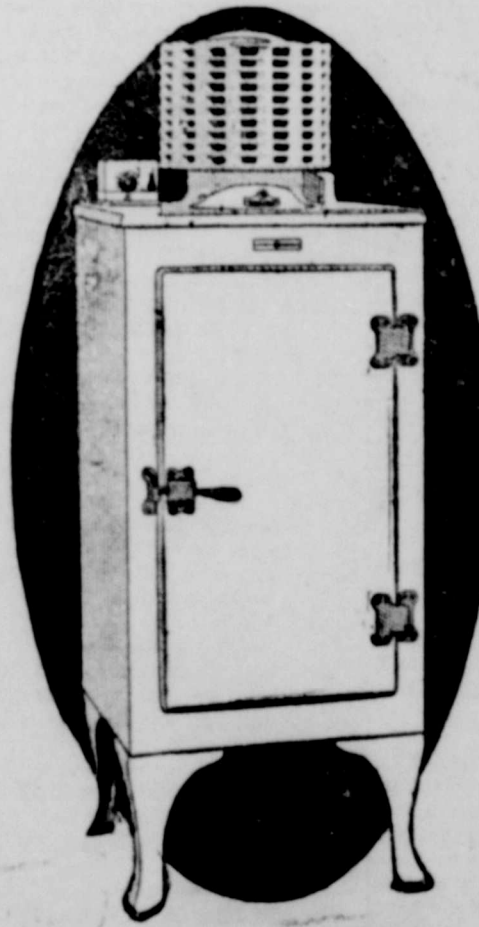

We are prepared to supply you with good lumber for this work: Long-Bell trade-marked Douglas Fir—dry lumber—to mix with the time seasoned wood of the old house; oak flooring—a special kind made for living over your old floors; doors and windows of easily workable California White Pine.

These well-known products assure maximum building value.

We will be glad to submit estimates without obligation

Panhandle Lumber Company

## IT CANNOT WARP ..because it is ALL-STEEL

Mechanism on top...hermetically sealed...never needs oiling...quiet, all-steel, cannot warp...electrically operated. \$215 at the factory.

THE General Electric Refrigerator requires no soldering or plumbing because it has no drain-pipe. It is merely put into place and plugged into any electric outlet. It uses a minimum of current because the all-steel cabinet cannot warp and therefore never allows heat to creep in or cold to seep out.

No longer does "any refrigerator" satisfy the discriminating apartment-hunter. It must be a General Electric...because this remarkable all-steel refrigerator has many unique features which make it ideal for apartment use.

It is individually controlled—its operation does not depend at all on the janitor or on any installation in the building. It is exceptionally and remarkably quiet. It freezes ice faster (one tray in two hours, two trays in four).

Another vital factor which causes so many progressive builders to choose this refrigerator is the prestige of the General Electric name. It instantly identifies the apartment with all that is dependable and desirable.

Listen in on the General Electric Hour, broadcast every Saturday evening, 9 to 10 Eastern Standard Time, over the N. B. C. network of forty-two stations.

## Are Southern States The "Shame Of The Nation"?

In a scathing reply to the editorial of a Chicago newspaper, quoted as pointing the finger of shame at the South, Holland's, The Magazine of the South, in the current issue says: "Utter and amazing ignorance, not only of the South but of our country as a whole, is revealed in a recent editorial in the Chicago Daily Tribune entitled 'Public Life in the South,' which takes note of Louisiana and her political problems, Oklahoma's impeachment trials, of the 'Ma' Ferguson episode in Texas, and of Bilbo of Mississippi—but which does not mention, oddly enough, Al Capone or Len Small of Illinois—and goes on to say that the Southern States are remote from the centers of commercial activity, culture, and learning, and are the 'shame of the Nation'."

"After the first wave of surprise at a so crass display of sheer ignorance, we are amused at being termed the 'shame' of anything by a newspaper in such an abhorrent to Chicago, with its putrid politics, its guarded elections, its gangster-ruled streets, its St. Valentine's Day slaughters, its beer 'barons,' and its neighboring Herrins and Ciceros. Political disputes in the Southern States at least are settled in courts of law, and not with machine guns. The Southern States have no unseated United States senators, nor does any of their senators send a floral offering and his personal card to a gangster's funeral."

"The South, in six years, increased its manufactured-products values \$567,000,000. In those same six years, manufacturing values in the rest of the country decreased \$279,509,000. Southern ports handle 42 per cent of the country's water-borne tonnage. Over 61 per cent of all active cotton spindles in the Nation are in the South. Such facts as these are endless. If this be remoteness from commercial activity, make the most of it."

"The South was steeped in culture and learning, and its cities were the sites of recognized colleges and universities, more than three-quarters of a century before Chicago came into existence. Its first college was founded over 140 years before Chicago. In fact, when Chicago was founded, there already were 40 universities and colleges in the South—as against only 20 in the Middle West and 36 in the remaining states. Two of these Southern colleges were in Louisiana and Mississippi."

"The second college founded on American soil was in a Southern state—the College of William and Mary, at Williamsburg, Virginia, in 1693. Only one other university was founded in America during that century—Harvard, in 1636, located in Massachusetts, which is not a Middle West state."

"In the eighteenth century, beginning with the founding of Washington and Lee University at Lexington, Virginia, in 1749, the South saw 13 colleges and universities founded within its borders, and 14 founded in the rest of the country. No college or university was founded in the Middle West during that century."

"The first American college established in the nineteenth century was the University of South Carolina, at Columbia, in 1801—the fifteenth Southern university to be founded prior to the establishment of any such institution in the Middle West. Before the founding of Chicago's first university, the South had 34 colleges and universities. Of these, three were in Texas, two in Louisiana, and one in Mississippi—states, according to the learned Tribune, remote from culture and learning."

"Of the two score Southern universities founded while Chicago was still but an idea in a trader's mind, one was Wesleyan, in Macon, Georgia, the oldest woman's college in the world, and the first to award a degree to a woman. Subsequent Southern colleges, preceding Chicago's first, included the famous Baylor in Texas in 1845—Baylor College for women and Baylor University."

**Anderson's**  
Shoe Shop

"Today, there are in the Southern States 189 recognized colleges and universities. The Middle West has only 116. The remainder of the country has 275."

"In justice to the Middle West, the North, and the East, it should be understood and stated that this ridiculous editorial in the Tribune does not reflect the attitude and opinion of the public in those sections toward and regarding the Southern States, but is actuated probably by jealousy and is indicative of a narrow policy that has characterized the Tribune's attitude toward the South for many years. Business men in Chicago and the Middle West know its utter falseness, and it is to the interest of those same business men—many of whom seek Southern patronage—to see that such misstatements are not circulated in the future."

"If the editorial writers for the Tribune are weary of recording murders, gang fights, and bootlegging in Chicago—as they have reason to be—and are merely seeking a new subject, we suggest that they choose one on which they have more information. A little knowledge is a dangerous thing, but none at all is gross ignorance."

### HELP FOR THE "COMBINE"

Although the harvester-thresher, or "combine," has not changed much since it was developed, new attachments for it have been invented, two of the most recent being the windrow harvester and the pick-up. With these grain may be cut and piled in windrows, picked up when dry and threshed with the combine. This harvesting method has been used where conditions are not suitable for cutting and threshing standing grain at one operation. Grain fields badly infested with weeds and crops which do not ripen uniformly have been harvested successfully. Under ordinary conditions the weeds and green grain dry out in four to eight days when windrowed, enabling the combine to do a better job of harvesting and threshing and cleaning, and harvesting may be started several days earlier than is usual with the combine alone. The windrow method has the disadvantage, however, of increasing the number of operations as well as the cost of harvesting machinery.

### CARD OF THANKS

We take this means of expressing our heartfelt appreciation to the many friends for their kind aid and help during the sickness and last hours of our dear lost one. Also accept our thanks for the beautiful floral offerings.

### NOTICE TO CONTRACTORS

Notice is hereby given that sealed bids will be received by The Commissioners Court of the County of Ochiltree and the State of Texas, at the office of the County Judge in the County Court House at Perryton, Texas, on the 22 day of June 1929, at the hour of 2 o'clock P. M. for the purpose of furnishing all materials, labor and equipment necessary for the construction of pavement abutting the County Court House Block on Main Street in Perryton, Texas, involving the following approximate quantities:

1412 sq. yds. 2 1/2 inch V. F. Brick Pavt. on 7 inch Compacted Caliche Base, 300 lin. ft. Curb and Gutter, 29 lin. ft. Header.

473 cu. yds. Common Excavation.

Plans and specifications for the above work may be seen at the office of the County Judge of Ochiltree County, Texas.

All bids must be accompanied by a certified check in the sum of \$225.00, payable without recourse to the County Judge of Ochiltree County, Texas, to be forfeited to said County provided the bidders shall fail to enter into contract according to the terms of the contract and specifications.

The Commissioners Court of said County reserve the right to reject any or all bids.

Done by order of the Commissioners Court of Ochiltree County, Texas, this 12 day of May 1929.

J. M. Grigsby, County Judge of Ochiltree County, Texas 17-41-c

### ALFALFA NEWS

There was quite a crowd at the ball game Sunday afternoon.

Dutcher Bros. place is quite a busy one at present. They have a fine crop of cherries and are having no trouble in disposing of them.

Mr. and Mrs. Tom Ellzey and family have returned home for the summer. We are glad to have these people back as they are quite a help to the community. They are living on the Rogers' place as their own house is leased.

Lawrence Ellzey is home from Missouri University where he has been a student for the past year. Clark who was a student at the same school is attending a meeting of the Y. M. C. A. and will come home later.

Mr. and Mrs. Lem Cooley have

moved to the Herndon place.

Lyman McLanahan got a finger hurt at the ball game Sunday afternoon.

Fish have been biting well since the rise in Wolf creek.

A larger number of people from this community attended the farewell show of the Hazel Hurd Co. at Perryton Tuesday night.

Val McLanahan branded his calves last Thursday.

Mr. Bryant branded his calves on the Moore place Friday and moved his cattle Saturday to the Jines place for the summer.

The weekly singing at the school house Sunday night was well attended. The singers are glad to have their leader, Mrs. Ellzey, with them again.

H. B. and Carl Freeman Jr. and R. H. Moore Jr. brought a bunch of cattle from the Hance ranch for

C. C. Freeman last week.

Mrs. Mattie Branham was a Saturday night guest in the Moore home. Mrs. Branham is putting up the cherries in her home orchard.

Jack Slavin was here two days last week helping Gilbert Bryant work his cattle.

Outsiders seem to pay little attention to the posted signs along the creek. It would be wise to observe the signs and avoid trouble.

Miss Nell Stimmel and Chas. Garrett visited Sunday in the home of her parents, Mr. and Mrs. F. M. Stimmel, Woodward, Okla.

J. B. Cartwright Jr. was here several days last week at Shattuck.

## Saves Your Damp Grain

### "Saved His Crop"

"We had a bin of rye 500 bu. which had been heated and moulded until we could not stand getting into the bin to scoop but by taking it out with the Blower and ReCleaner, it was cleaned, aired and cooled so the grain buyer took it without dockage, otherwise it would have been a total loss."—Grueter, Mo.

### Liberty Grain Blower

You stop heating and drying of damp grain, increase its value by elevating, aerating and cleaning it with the Liberty Grain Blower. No matter how damp grain, the Liberty blower blows it through a fine screen, thoroughly air and cool it, simple, inexpensive, efficient. This efficient blower also removes dirt, weed seeds, and other dockage losses. Use increased the value of grain as much as 75%. One man handles 300 bushels of grain a day with the Liberty. Does away with all inside scooping.

## SOCIETY

### Serious Club

Mrs. J. M. Bull and Mrs. Louie Tucker very graciously entertained the Fine Arts department of the Serious club on last Wednesday afternoon at the home of Mrs. Bull.

This was the concluding program for the year and finished a very interesting study course on "Travel." The subject for the afternoon lesson was "China." During the year sixteen different countries have been studied.

Roll call was answered by naming famous people of China. "Chinese Cities" by Mrs. C. B. Rogers, "Housekeeping in Peking" by Mrs. M. E. Coffee and "Chinese Temples and Religions" by Mrs. Thos. Thompson were ably and interestingly discussed.

During the social hour which followed the program, a contest was enjoyed in which Mrs. C. B. Rogers proved the lucky one and Mrs. H. I. Hudson second. Each were presented with beautiful pillows.

A delicious plate lunch was served by the hostesses to the members and several guests.

### Mrs. Kuhn Entertains

The Woman's Council of the Christian church met on last Thursday afternoon with Mrs. Wm. Kuhn. The president, Mrs. C. E. Woods, presided and the following program was enjoyed: Song, "Doxology"; Devotional, Mrs. W. B. LaMaster; prayer, Mrs. Hannah Duncomb; "One Increasing Purpose," Mrs. C. E. Woods; "Looking Ahead," Mrs. R. C. Pugh; "A New Acquaintance," Mrs. M. M. Collier; Solo, "This is My Task," Miss Dorsey Woods; Benediction.

During the business hour the following officers were installed: Mrs. C. E. Woods, president; Mrs. C. W. Callaway, vice-president; Mrs. R. C. Pugh, secretary and Mrs. Wm. Kuhn, treasurer.

Following the program refreshments were served by the hostess.

### Sunrise Breakfast

"Who isn't ready to go?" was the cry about five o'clock Saturday morning when a group of forty young people gathered at the Baptist church, loaded their bacon and eggs and started for the Junes Spring for their early breakfast, which was delicious over the camp fire. Afterwards Rev. Douglas Carver, pastor of the First Baptist church, Whitedeer, and Rev. C. Lex Shelby gave interesting talks and all returned to town, with the exception of Mr. and Mrs. Carver who returned to their home at Whitedeer.

Mrs. Linus Traylor of the McMullen community was taken to the Shattuck hospital Monday. She is in a serious condition.

### T. E. L. Social

The members of the T. E. L. Sunday school class held their regular monthly social Tuesday afternoon at the home of Mrs. J. O. Wooten. A number of business matters were disposed of and an interesting social hour enjoyed, during which a contest was held and Mrs. Ike Sharpe and Mrs. C. Lex Shelby were victorious ones.

Refreshments of ice cream and cake were served to the following: Mesdames J. A. Jones, R. L. Keith, Ike Sharpe, J. M. Short, J. P. Klapp, G. D. Holt, M. O'Brien, C. Lex Shelby, R. C. Johnson, G. I. Horne, L. L. Lance, J. W. Bennett, Clyde Cofer, C. C. Carter, R. L. Kutch, Ruth Gray, J. L. Wagoner, C. S. Boston, W. J. Mitchell and H. T. Cropper.

### Entertain for Guests

To help compliment her guests, Mr. and Mrs. Claud Abercrombie and daughters, Misses Nell, Dot and Francis, of Douglasville, Ga., Mrs. C. E. McLarty had several guests Friday afternoon. Interesting conversation and accounts of travel made the hour pass pleasantly.

Ice cream and cake was served on the lawn to Rev. W. H. McKinney, Rev. and Mrs. Douglas Carver, Rev. and Mrs. C. Lex Shelby and children, Rev. and Mrs. E. C. Roney and daughter, Ethel Claire, Mr. and Mrs. I. R. Buchanan and daughter, Mr. and Mrs. John Lovett and children, Orburn Moore, the honor guests and the McLarty family.

### Jewel-Johnson

Miss Myra Jewel, daughter of Mr. and Mrs. Richard A. Jewel, Clinton, Kentucky, became the bride of Leo M. Johnson of this city, at a beautiful wedding which took place at the Methodist parsonage, Clinton, June 2. Mr. and Mrs. Frank Horne, cousins of the bride, were present for the ceremony.

The bride wore a navy georgette ensemble with accessories in appropriate blue.

Immediately after the ceremony, they left for a short honeymoon trip through Tennessee and Arkansas, arriving in Perryton, where they will make their future home, on last Saturday.

The groom is the son of Mr. and Mrs. C. J. Johnson, Elton, La., where he made his home until about a year ago when he came to Perryton to live with his sister, Mrs. J. R. Thomas. He is one of the trusted employees at the Johnson Motor Co.

Friends and relatives gathered Tuesday evening and greeted Mr. and Mrs. Johnson with a old time charivari. A parade was formed and the bridal couple allowed to take the lead in a donkey cart, after which they were asked to treat the crowd.

We extend to Mrs. Johnson a hearty welcome to Perryton and wish the young couple years of happiness and success.

### Entertain With Dinner

Mrs. J. R. McMullen had as her guests for dinner Sunday her daughter, Mrs. Joe Williams and daughter, Modell, of Mobeetie, Mr. and Mrs. Ed McMullen and daughter, Luella, Mr. and Mrs. C. B. Rogers and son, Gale, and daughter, Jane Louise, Mr. and Mrs. Jas. E. Barbour and daughter, Miss Lola Bell, and son, James Edwards, and Mrs. Ruth Thomson and daughter, Marie.

### Informal Dance

Misses Elizabeth and Marie Hurter, entertained about fifty of their friends and neighbors with a card party and informal dance at the home of their parents, Mr. and Mrs. J. L. Hurter, Huntoon, last Saturday night. After a very delightful evening, refreshments were served.

### Shower For Mrs. Apple

On last Friday evening a miscellaneous shower was given for Mrs. Vance Apple at the home of Mrs. Cecil Dodd with Miss Mary Garrett assisting as hostess. A pink and white color scheme was very artistically carried out in the decorations and the refreshments of cake and punch. Large baskets of roses were placed about the room. The table was adorned with a miniature bride and groom holding a small pink umbrella. Mrs. W. B. LaMaster presided over the punch bowl.

Advice was given to the bride and other entertainment in keeping with the occasion were carried out. Many useful and beautiful gifts were received.

Mrs. Apple, the honoree, was formerly Miss Marie Kent, a daughter of Mr. and Mrs. B. D. Kent of this city. She has just recently returned to Perryton from Lindsborg, Kansas, where she has been attending school.

Forty guests helped make the occasion a delightful affair for Mrs. Apple.

### Slumber Party

The T. H. T. B. H. C. section of the Home Ec club enjoyed a slumber party at the country home of Misses Mildred and Lafem Wooten on last Saturday night. Ten new members were initiated into this secret organization. Miss Ruby Jane Simmons, El Paso, former sponsor of the Home Ec club, was present and her many suggestions helped to make the initiation one long to be remembered by the candidates. The mosquitoes gave a helping hand.

At midnight, lunch was served and several found resting places for the night but not to sleep, a few night owls saw to that. Next morning, all shoes were found in the yard and several injuries resulted in the scramble to find a pair to fit. After a hearty breakfast, everyone returned to town in time for Sunday school.

Those attending were: Juanita Bales, Mildred Stansberry, Elizabeth Richardson, Lola Bell Barbour, Al-

ma Barlow, Jammie Hammond, Lura Mae Sharpe, Dorothy Freeman, Francis Ragan, Ione Packard, Mable Smotherman, Edith Newman, Viola Smith, Idene Winfrey, Lucy Nelson, Ruby Jane Simmons, Gertrude Witt, Mildred Todd, Pauline Spencer, Beatie Littleton and the hostesses Mildred and Lafem Wooten.

### Mr. and Mrs. Paul Ballew Entertain With Bridge

On last Thursday evening, Mr. and Mrs. Paul Ballew very graciously entertained several of their friends with bridge. After several interesting games, Mrs. Horace Lackey and Jas. E. Barbour were awarded high score prize. Second high was given to Mrs. J. Malvin Jackson and Cleo Ferguson.

Dainty refreshments were served to the following guests: Mr. and Mrs. Liel Lewellen, Mr. and Mrs. Jas. E. Barbour, Mr. and Mrs. Jack Allen, Mr. and Mrs. C. B. Rogers, Mr. and Mrs. Horace Lackey, Mr. and Mrs. Cleo Ferguson, Mr. and Mrs. J. Malvin Jackson, Mr. and Mrs. T. A. Roper, Mr. and Mrs. Don M. Duncan, Mr. and Mrs. Roger Hays, Mr. and Mrs. Roy Orrill, Mr. and Mrs. H. I. Hudson, Mrs. O. E. Blank, Mrs. Van W. Stewart and Mrs. E. L. Lawson.

### Enjoy Outing

The Boosters, an organization of the junior boys and girls during the recent Baptist revival, spent last Friday afternoon on the Wolf creek. Many delightful games were enjoyed. After which, a delightful picnic lunch soon disappeared and all returned to town a tired and happy group.

### Nelson-Eush

Announcements have been received of the marriage of Miss Virgie Nelson and Mr. Oliver A. Bush, which took place at Abilene on June 2nd. Mr. Bush taught science in the Perryton school the past year and while here made a number of

### Friday Night and Saturday Matinee

Official German war pictures bare secrets! Actually photographed on the battlefield of the Great War!

### "Behind the German Lines"

These picture glimpses of the World War from the German point of view are absolutely authentic; they compare most favorably with the official pictures taken by the U. S. Signal Corps for our own records. Over 100 cameramen followed the German army on all fronts and the historic value of this film cannot be discounted.

MATINEE SATURDAY  
3:00 P. M.  
Admission 15c and 25c

### Saturday Night

Dorothy MacKall and Jack Mulhall in Cronell Wellrich's \$10,000 College Humor prize story—

### "Children of the Ritz"

Rich, reckless, irrepressible, she had done everything you have heard and read about. Born in luxury, could she live in poverty with a love she wouldn't sell for a million? Youth's own revelation of the daring doings of the younger generation!

### Monday—Tuesday

Corinne Griffith, Edmund Lowe and Louise Fazenda in—

### "OUTCAST"

Beautiful Corinne Griffith, the orchid of the screen, giving two unforgettable characterizations! Little outcast of Prisco, poor and penniless whose beauty won the love of the wealthiest bachelor in town! Popular lady of society who was afraid to marry the only man she ever loved, because of her shadowed past!

### Wednesday—Thursday

Ether Ralston and James Hall in—

### "The Cast of Lena Smith"

What chance has a woman, when the man she loves exposes her to the cruelty of a biased law? Fate pounds at Lena Smith! Power and wealth conspire against her! She give all for love and love betrays her! What happens? Ether Ralston's great character role. Law versus love!

### Saturday Night

Milton Sills and Theima Todd in—

### "The Crash"

Crash of steel against steel as two trains meet in a head-on collision. The crash of emotions as a burly leader of men marries a beautiful burlesque queen. And the biggest crash of all that awakened a great love in the heart of a doubting husband. Wrecked trains—wrecked hearts—and a man whose courage and daring saved both.

friends who will welcome Mr. and Mrs. Bush back in the fall. They are now at home at 1450 Orange St. Abilene, Texas.

Mr. and Mrs. Claud Abercrombie and daughters, Francis, Dorothy and Nell, left Sunday for their home at Douglasville, Ga. after spending a few days visiting in the homes of Mrs. Abercrombie's aunt, Mrs. W. E. Freeman, and her cousins, Mr. and Mrs. W. W. McLarty, Mr. and Mrs. C. E. McLarty and Mr. and Mrs. Jno. Lovett. They were on their way home from Phoenix, Ariz., where Miss Francis has been engaged in the millinery business.

Miss Juanita Morgan and Miss Revah McLain spent the week-end visiting with Miss Leona McLanahan.

Mr. and Mrs. John Funk and family returned to their home at Lodi, Calif. Monday after visiting over the week-end in the home of his brother, Mr. and Mrs. Ferd Funk.

Mr. and Mrs. Archie Sword and her mother, Mrs. Waggoner, and Mr. and Mrs. A. A. Dowers were dinner guests Sunday in the home of Mr. and Mrs. Ike Sharpe.

Mr. and Mrs. Robert Snodgrass and daughter returned to their home at Trent, Texas after a ten days visit with Mrs. Snodgrass' parents, Mr. and Mrs. J. M. Wells.

Mr. and Mrs. J. W. Childers, Seminole, Texas, spent the week-end visiting in the home of her sister, Mrs. Ike Sharpe. Mrs. M. B. Wilkerson, who has been spending the winter with her daughter, Mrs. Sharpe, returned with them for a visit.

Miss Eula Smith and Mrs. E. R. Kutch and little Jo Ann were Liberal visitors, Saturday.

Mr. and Mrs. S. N. Weaver, children, Booker, were Perrytoners Wednesday.

FREE LUNCH AT NOON—BRING CUP AND SPOON

With Many Combinations of Headers, Separators, and Windrow Pick-ups, to suit all farm conditions of Soil, Crop and Power

Here is a complete line of Combines—combined harvester-threshers—that gives the grain farmer in this community a range of sizes never offered before.

It provides a line from which you can select the combination of header and threshing size that is suited to your farm whether it is large or small, rolling or prairie land, sandy or heavy soil; suited to your crop, whether it is light or heavy straw, tangled or straight standing, weedy or clean; suited to your power, whether it is small or large.

More than all that, we will assist you in working out the combination that is best suited to your conditions.

In keeping with the policy of the Nichols & Shepard Company, "More than 4 score years of 4 square dealing"—we want to furnish you the machine that will give you the best service for your crop.

It will be found in the Nichols & Shepard Line of Combines—the combines that are light of draft, ample in power, sure in threshing, reliable; that enable you to harvest your crop easily and fast, and deliver it clean, bright and merchantable. See us for full information.

- Model A 10'—12' Windrowers and Windrow Pick-Ups for all sizes
- Model B 10'—12'—14'
- Model C 15' [Also Threshers 4 Sues]
- Model D 16 1/2'—20' Tractors 4 Sues
- Model E 20' Corn Picker-Huskers

line

**Mrs. J. E. Simmons and daughter,** Isabel, Sulphur, Okla. are visiting in the home of Mr. and Mrs. A. E. Devers and other friends. Miss Jewel Littleton, also of Sulphur, accompanied them and is visiting with her cousins, Misses Beale and Clara Littleton.

**Mr. and Mrs. Raymond Clark and sons and Mr. and Mrs. Gene Replogle** were dinner guests Sunday in the home of Mr. and Mrs. A. P. Sparks.

**Miss Thelma England** will return to her home at Dallas the latter part of the week. She has been visiting in the home of her aunt, Mrs. W. B. Lilly, who will accompany her to Dallas for a month's visit.

**Mr. and Mrs. A. L. Dowers** are driving a new Chrysler coupe.

**Albert Hudson and son, Junior,** and nephew, Jewel Ward, all of Spearman, visited Sunday in the home of Mr. and Mrs. H. J. Hudson.

**Miss Elizabeth Smith, Liberal,** Kansas, visited last week with her aunt, Mrs. C. E. Woods.

**Mr. and Mrs. C. J. Hutchins** and son, Arless, returned Monday from a month's trip, visiting with relatives in Alexandria, and making a tour of southern Texas.

**Mrs. Lucy Nelson and daughter,** Virginia Ray and Mrs. P. H. Sebastian and Mrs. W. J. Brewer motored to Higgins Sunday to take Miss Ruby Jane Simmons, who caught the bus there for Fairview, Okla. Miss Simmons is enroute from El Paso to Chicago, where she and Miss Bonnie Apple, who is visiting at Fairview, will attend the Chicago University this summer.

**Tom McLarty and Brewer Guthrie** spent the week-end visiting with friends at Abilene.

#### METHODIST CHURCH

Our Sunday School at ten, preaching at eleven, "The Reason Preachers Don't Preach".

Juniors meet at two and the III's and Seniors meet at seven. The delegates will be here from the meeting at Abilene and there will be many interesting features to hear from them.

The preaching services will begin at 8:15 in the evening. It is the desire of the pastor that we have more and better singing at the evening services. We need to learn some of the new songs in our book.

The usual weekly meetings will meet next week. The harvest season is coming and we shall need to watch our efforts or we shall not have the energy to be at the mid-week meetings due to over work.

The Juniors of the church will have a meeting on Friday of this week at the church. All the children of the church between the ages of six and thirteen are invited to be here at three o'clock. Refreshments will be served.

When we speak of the church we mean all that the word includes. The word church to-day covers the work of the leagues, Sunday school

and all the auxiliaries connected with the church.

The church is the great trunk line of the righteous forces of the community, and one great hindrance to the progress of the church is too many people never care anything about riding on the main line of the roads of righteousness, but they are satisfied to take a branch line and ride on that. The branch lines would not exist long were it not for the main line that carries them along and helps them to care for their interests. Were it not for the church there would not be much Sunday school, league, lay work, missionary society, etc. One may work in the side lines of a business but the greatest business and profits come to those who sell the leading lines. One may help with the side lines of the church and do good and get many benefits but those who take active part in all the church life are those who are the greatest recipients of the good derived of the church.

The Methodist people of the North West Texas conference has a college at Abilene, Texas. This is one of the best class "A" schools in our church. The church seeks to endow that school to make it

able to meet the demands of our West and its people. The college feeds the people and the people must feed the college. It can do no more than the people will allow it to do with the people and means with which it works. This college is worthy of the attention of any person and deserves the support of every individual interested in the future of the West and of the youth who shall be the citizens of that fu.

The people of the church have many calls to meet but how many other calls do we have to meet along the way; and are there any calls more worthy than the calls of the church? I have never seen a person yet who would dispense with the church and its work.

If you have anything to buy, sell or trade, use a Herald classified.

#### Come in and see the NEW REMINGTON PORTABLE!

THE lightest, smallest, strongest portable typewriter in the world—with 8 new features added for 1929—the result of 8 years' work by Remington engineers! See the new streamline body—type bars in place without raising. Try the marvelous Paragraph Key that indents paragraphs correctly in an instant. Discover the added speed given by the new carriage-return lever, the new paper release, the new margin release on the keyboard. Perfect visibility at all times. New color combinations to tie up with any decorative scheme.

No increase in price. Convenient terms for time-payments.

Stewart Printing Co.

**Mr. and Mrs. Earl Davis** left Saturday night for a few days visit with his sister and mother atampa, Texas.

**Mrs. Frank Cheatham, Higgins,** visited Friday and Saturday with relatives in Perryton.

**Howard Brillhart,** who has been attending New Mexico Military Institute, came in last Saturday to spend the summer with his parents, Mr. and Mrs. G. C. Brillhart.

**Mr. and Mrs. W. C. Replogle and Mrs. R. N. Enfield and daughters** attended services at Waka Sunday afternoon.

**Mrs. E. M. Allen** went to Shattuck, Okla. Saturday to have her tonsils removed. She will visit there with friends a few days.

**Miss Evelyn Schneider,** proprietor of Milady's Beauty Shop, had for her guests Sunday her parents, Mr. and Mrs. Schneider, and her sister, Miss Paye, Fargo, Okla. Miss Paye remained to visit this week.

**Miss Winnie Locke,** who is visiting in the home of her uncle, M. R. Coffee spent Sunday night with relatives at Miami.

Tally cards and bridge sets at the Stewart Printing Company.

**EDGWOOD SHINGLE**  
Roofs and Sidewalls

**APPEARANCE**—rhythmic, gracious lines created by the overlapping butts and pleasing irregularity of Edgwood shingled roof and sidewalls. Beautiful, harmonious color effects to be obtained.

**DURABILITY**—age-old British Columbia Red Cedars, permeated with time-resisting preservative oils, assure Edgwood Shingles (when laid with zinc-coated nails), a life of 40 years or more!

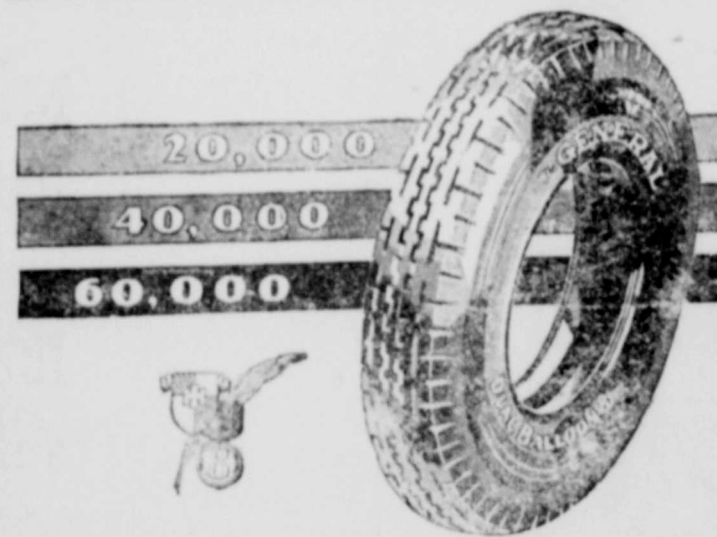

**SAFETY**—edge-grain sawn, they cannot warp, cup or curl—thereby minimizing your fire hazard.

**INSULATION**—tests prove Edgwood homes appreciably warmer in winter (cutting your fuel bills), and cooler in summer, than any other building material.

**ECONOMY**—in addition to their longer life, Edgwood shingles cost 14 to 135% less on roofs, and 9 to 32% less on sidewalls, than any other standard materials.

**BURROW LUMBER COMPANY**

PERRYTON, TEXAS

**TO THOSE** who have known the disappointment of mileage guarantees that mean running on smooth rubber a great part of the way, the Dual-Balloon brings an entirely new experience—season-after-season of non-skid security—the greatest ever known.

With rubber prices rising and tires still priced on the old cost basis, why take chances of running on "bald-headed" tires.

Better check up on your heavy duty truck tires and put on a new set of Kelly Springfield.

## How Times Do Change!

Today might properly be known as a business era.

Away back during the days of Hoop Skirts, Wire Bustles, and Chain Harness—business was generally transacted on the policy of stand and deliver, "let the customer beware" your eyes to be your judge, until modern merchants adopted the policy that "The customer is always right".

We have held that policy all through our usiness career and have adopted the slogan, "No sale is considered fully closed until the customer is satisfied."

An Ideal Food Company Store is where a child can buy as cheap as a man can buy, one price to all, good fresh merchandise, low prices, full weight and honest measures.

Come in and let us figure your harvest bill, you will like our plan.

We brag about our service.

## About Your Health

Things You Should Know

by John Joseph O'Leary, M. D.

### WOMAN'S COMMON SENSE MELLON QUOTES FRANKLIN BELLS TO PROTECT BIRDS THE KENTUCKY DERBY

Naming a Commission to study law enforcement, President Hoover wisely includes one woman, Dr. Ada L. Comstock.

Her experience as an educator will enable her to tell other members that the turn toward crime is taken in childhood.

Furthermore, women's common-sense often enables them to find short cuts that men would not find.

Secretary Mellon will not resign. He himself is authority for that statement.

That is good news for the whole country, particularly good news for President Hoover, who understands business and knows what it means to have in the treasury the ablest business man in America.

Mr. Mellon says, quoting Benjamin Franklin, "I am deficient, I am afraid, in the Christian virtue of resignation."

Virginia Hogan, twelve-year-old Irish-American girl from Omaha, wins the national Spelling Bee. And this will surprise you. Teru Hayashi, a Japanese boy, was number four in the competition. "Panacea" eliminated him.

President Hoover's Commission on Prosperity, outlining our gigantic resources, added that Americans barely scratched the surface of national wealth.

As an efficiency engineer, President Hoover may suggest a way of cutting down waste.

We make a great fuss, as we should do, about ten billions lent to Europe, and we waste that amount every year.

At Elmhurst, a suburb of Chicago citizens like cats and birds that do not like each other.

A local ordinance now compels owners to put bells around their cats' necks to warn and protect birds.

Cats without bells will be executed.

Those that like birds and cannot do without cats will adopt the idea elsewhere.

If acquired characteristics can be inherited, as undoubtedly they can, after some generations cats will steal up on the birds without ringing the bell until the final spring.

The Kentucky Derby was won by a small racehorse named "Clyde Van Dusen" weight only 835 pounds, called by reporters "an equine mouse."

The equine mouse, had "Man-O-War" for a father, and from that father it got energy enabling it to kick mud into the faces of other horses, for a mile and a quarter.

Some rich men leave sons that

### JUDAH TAKEN CAPTIVE

for June 16  
II Kings 25: 1-13  
Everything that is repeated may not be so, but it is wise to give heed to the second call, especially if it is the policeman's whistle. A person can make irrevocable mistakes by going headlong heedless. For years the prophets had sought to hold Jewry back from their sins against Jehovah. There had been Hosea, Amos, Joel, Jonah, Obadiah, Micah, Nahum, Isaiah, Jeremiah, Habakkuk and Zephaniah. We must name those who pleaded with Israel as well as those who sought to help Judah. Then there was the great object of the Captivity of Israel, the ten northern tribes, in 722 B. C., when so many were taken to the region of Nineveh.

Read not only all of II Kings 25 but the related passages in Ezekiel and II Chronicles. Jerusalem was besieged for eighteen months. Even the day is indicated when that final prolonged attack began and also when it ended. During the seventy years in Captivity in Babylon the Jews observed both of these memorial days. The siege is still observed in the Fast of Tebet, a day of remembering by the Jews. The next observance will be January 19, 1930. Portions of Lamentations are read aloud at the time, for Jeremiah therein makes very graphic the awful miseries that prevailed within the Holy City. Both bread and water finally failed. Meanwhile counter walls were built by Nebuchadnezzar's men, that missiles might be the better hurled into the besieged city. Battering rams broke through the massive walls.

Zedekiah was the king. He had been placed in that position by Nebuchadnezzar, following a previous attack, with the understanding that he would be loyal to the Chaldeans. Instead Zedekiah sought help from Egypt. In spite of Jeremiah's pleading to the contrary. As the enemy came in, the king instead of staying to help his people sought safety with some of his strong men in flight by a southern gate. They were captured in the Jordan valley and taken before Nebuchadnezzar at Riblah, where he was directing the attack against another nation.

Observe carefully how prophecies, apparently contradictory, were fulfilled. Compare Jeremiah 32: 4-5 and Ezekiel 12: 13. How could he be taken to Babylon and not see the city or the king there? Zedekiah was forced to witness the slaughter of his sons at Riblah, and then was blinded at the king's order. He was then taken as a captive to Babylon, but beheld neither king nor city.

Jeremiah was evidently in favor with Nebuchadnezzar, who gave him his choice of going to Babylon or staying in Jerusalem with "the poor of the land," who were left there to produce a revenue. This continuing patrol elected to remain where

### The Chevrolet Red "O.K. That Counts" Tag Protects Your Used Car Purchase.

Every reconditioned car we offer for sale is identified by means of the Chevrolet red "O.K. that Counts" tag. This tag is the purchaser's assurance that the car to which it is attached has been gone over carefully by expert mechanics—that it has been thoroughly reconditioned—and that the price is based on the car's actual ability to render service.

Due to the overwhelming popularity of the new Chevrolet Six, we have on hand at this time an unusually large group of these "O.K.'d" cars. Come in! You are certain to find the car you want—at a price that will save you money. Make a small down payment and drive your car away!

# Highway Commission Makes Statement Concerning Finances and Workings of the Texas State Highway Department

When the present Highway Commission took over the Department, February 1, 1927, the balance on deposit to the credit of the Department in the State Treasury was approximately \$669,000.00, whereas the outstanding liabilities of the Department were then approximately \$6,500,000.00. At that time Federal Aid had been withdrawn from Texas as upon the grounds that Federal-aided highways were not being properly maintained and that contractors on Federal-aided jobs were not being paid. This situation, together with other needs of the Department, was brought to the attention of the Fortieth Legislature then in regular session, and that body, in March 1927, increased the gasoline tax to 3c per gallon; but, unfortunately for the Department, by the terms of the act the gasoline tax was automatically reduced to 2c per gallon beginning Sept. 1, 1928; since which last date the gasoline tax has been 2c per gallon.

Due to the fact that, by the terms of legislation, the income from the gasoline tax is measured by the fiscal year while the income from license is measured by the calendar year, there has been no period of twelve months, under the present administration, throughout which both the gasoline tax and registration fees have been uniform. But the receipts of the Department for the fiscal year from August 31, 1927 to Sept. 1, 1928 will answer all practical purposes. During that period the income of the Department was as follows:

(a) a tax on gasoline and (b) fees from the registration of motor vehicles.

Estimated receipts from May 27, 1929 to the end of the present fiscal year, Sept. 1, 1929, are as follows:

|                             |                |
|-----------------------------|----------------|
| License fees.....           | \$467,811.54   |
| Gasoline tax.....           | \$3,404,397.99 |
| Depository Interest.....    | \$7,162.27     |
| Miscellaneous Receipts..... | \$7,996.79     |
| A total of.....             | \$3,917,368.59 |

Making a total income for the present fiscal year 1928-1929, in round numbers, of \$22,500,000, produced from a 2c gasoline tax and present rate of license fees.

If there had been no decrease in the gasoline tax from 3c to 2c as occurred on Sept. 1, 1928 the income of the Department for the present fiscal year ending Sept. 1, 1929 would have been approximately the sum of \$27,975,000.00, derived as follows:

|                                                              |                 |
|--------------------------------------------------------------|-----------------|
| From 3c gasoline tax.....                                    | \$16,500,000.00 |
| From license fees.....                                       | \$11,475,000.00 |
| Making a total for the present fiscal year 1928-1929 of..... | \$27,975,000.00 |

No one familiar with the necessities of the Highway Department can say that its income from State sources ought to be less than \$28,000,000; and if the program of highway development is to be speeded up to meet the general demand of the great body of people of Texas, the annual income of the Highway Department from the State sources ought, under no circumstances, to be less than \$30,000,000.

At the regular session of the Forty-First Legislature of 1929 House Bill 495 passed the House of Representatives but failed to become a law. That bill proposed to reduce license fees approximately 50 percent; the entire loss of revenue from such reduction falling upon the Highway Department. Under that proposed act the annual income of the Highway Department from registration fees, including trucks, buses, motorcycles, tractors, transfers, dealers' licenses, etc.) would have been approximately \$2,369,000; a net loss in the income of the Department of approximately \$9,000,000 per annum. With the enactment of House Bill 495, without an increase in the gasoline tax, the income of the Department for the fiscal year 1929-1930 would not have exceeded \$14,136,000.

However, the proponents of the fifty per cent reduction in registration fees announced their purpose

received.

Estimated receipts from May 27, 1929 to the end of the present fiscal year, Sept. 1, 1929, are as follows:

|                             |                |
|-----------------------------|----------------|
| License fees.....           | \$467,811.54   |
| Gasoline tax.....           | \$3,404,397.99 |
| Depository Interest.....    | \$7,162.27     |

the gasoline tax should be fixed at the annual initial income from property that source would be approximately \$7,990,000; and the sum to be raised by the license fees approximately \$11,990,000.

One of the 4c gasoline tax should be levied the income from that source will be approximately \$23,000,000 as we have already seen, requiring \$5,000,000 from license fees to bring the income of the Department up to \$28,000,000, or \$7,000,000 from license fees if the income of the Department, from both sources, should be fixed at \$30,000,000.

One of the present Commissioners during their term of office have visited every section and nearly every county in this state; they have conferred with a large percentage of the citizenship of the State, and they have not found any substantial sentiment in favor of a reduction in registration fees, if such reduction is to be at the expense of without crippling or hampering the work of the Highway Department. The people of Texas are deeply interested in the prosecution of a reasonable program of highway construction and improvement; they demand that existing highways be adequately maintained, and they look to the Legislature to make adequate provision for such a program. The man who pays the registration fee for the operation of his motor vehicle also pays a gasoline tax; and while some adjustment of these taxes, involving a substantial increase in the gasoline tax and a possible reduction in registration fees may be necessary or advisable, still if such adjustment should involve a reduction in the annual income of the Department below that which is necessary to carry on a real, and not a haphazard, program of highway construction, improvement and maintenance, the great body of the people of Texas will be disappointed.

Balance to the credit of the State Highway Fund May 27, 1929 \$13,812,044.78.

Estimated receipts from May 27, 1929 to Sept. 1, 1929 of License Fees \$467,811.54

## MOTOR PERFORMANCE THE MAKER INTENDED

Easy starting; quick get-away on a light throttle; flexibility at all engine speeds; smoothness of operation; power, mileage! This is the motor performance the maker intended you should have in your car. Phillips '66' makes it possible.

Easy starting and quick acceleration is obtained through a scientific Control of Volatility. The well balanced heavier parts insure extra power and extra mileage. The result!—a motor fuel that goes far beyond the needs presented by today's fast and merciless driving of high compression motors—a vigorous, able-bodied gasoline—a Phillips achievement. Worth a premium yet sold at regular prices.

## STATE HIGHWAY COMMISSION

(Continued from preceding page)  
Purchase of Equipment \$333,520.24  
Maintenance of Highways \$4,780,142.00  
Miscellaneous Expenditures \$33,116.63  
Total \$7,404,631.86.

(NOTE: The listing of these estimated expenses does not mean that all of these payments will be made prior to Sept. 1, 1929. The amounts shown are those which have been authorized for this fiscal year but due to weather conditions and for other reasons, many of the authorized maintenance projects will overlap into the new fiscal year and the funds reappropriated. Also due to present unprecedented rains it is estimated at this time that from \$500,000 to \$1,000,000 may be needed to replace roads and bridges washed out and otherwise damaged by floods.)

On construction contracts under way, and contracts which have been let, including those awarded at the meeting of the Commission May 24-25, 1929, \$7,586,779.97, Total of \$14,990,302.83.

Leaving an estimated balance to the credit of the State Highway Fund on Sept. 1, 1929, \$2,749,119.34.

**CORRECTION:** A distinguished gentleman, legislative representative of the Magnolia Petroleum Co., in published attack upon the Highway Commission, lays great stress on an apparent discrepancy between the balance of Highway Funds with the State Treasurer as shown by the books of the Highway Department and as shown by the books of the State Treasurer. A little thought or familiarity with the method of keeping the simplest accounts might have suggested to him, if he had not been bent on injustice to the Highway Department, that the balance of highway funds on hand at any given date, as shown by the books of the Highway Department would necessarily include all outstanding warrants, even though they had not been presented to and paid by the State Treasurer, while the balance to the credit of the Highway Fund, as shown by the Treasurer's books, would not take into account warrants drawn upon the fund but which had not been presented and paid and charged to the fund.

The sum to the credit of the Department on September 1, 1929 will be just about sufficient to constitute a necessary working cash balance. Work of construction is necessarily overlapping—that is to say, construction authorized and begun in any year may, of necessity, extend into the succeeding year and the balance of funds on hand at the end of any year may, necessarily in part, be used to cover the cost of such overlapping construction. Furthermore, the law governing the Highway Department specifically provides that no contract shall be entered into by the Department in the name of the State unless there be funds available therefor. That, of course, does not mean that funds for all contracts made at the time be in the treasury, but funds therefor must be available in that under existing law the known income of the Department will be sufficient to meet such contracts. Besides it is necessary that the Highway Department keep on hand at all times an adequate working balance to finance Federal and County aid since the Department must advance both Federal and County aid as the work proceeds, later on being reimbursed by the Federal Bureau and counties contributing aid.

Texas now has a yearly apportionment of Federal Aid for highways of approximately \$4,500,000. With the letting of contracts at this May meeting of the State Highway Commission this apportionment has been entirely placed under contract and no more Federal Aid is available until the 1930 apportionment becomes available on December 1, 1929.

The State Highway Department awarded contracts during 1928 of approximately \$27,000,000. To date, in 1929, contracts have been awarded in the approximate amount of \$17,000,000 and more satisfactory prices have been obtained by reason of volume. If funds are made available at an early date the construction program for 1929 can easily exceed that of 1928 as there are uncompleted road programs in many counties and on many important highways.

For the general maintenance of the State Highway system an annual expenditure of \$10,000,000 is needed with \$2,000,000 additional for betterment work, making a total of \$12,000,000 for maintaining and preserving the highways. Taking for 1930 the Federal aid apportionment of \$4,500,000 and assuming County aid at the same figure which will be approximately correct, we would have with the present income from license fees and a two cent gasoline tax, a construction program for 1930 of approximately \$20,000,000.

With a three cent gasoline tax and license fees cut fifty per cent the construction fund would be approximately \$16,000,000.

With a four cent gasoline tax and license fees cut fifty per cent the construction program would be about \$22,000,000.

All of these estimates for con-

## Market Conditions

## As We See Them

By E. N. Puckett, General Manager of the Union Equity Exchange

Wheat is cheap, extremely cheap, compared with other commodities, and might possibly work ten cents lower. But we all know the price cannot always remain under the cost of production.

The future price of wheat mainly depends on four things:

1 The outcome of the present world crop.  
2 The farmers' attitude toward selling his wheat regardless of the price obtained.  
3 The farmers' attitude toward reducing wheat acreage another year.  
4 The Farmers' attitude toward storing wheat on the farm.

**FIRST**—The present crop conditions are good the world over with a surplus of approximately 350 million bushels to carry over into another year. Should some heavy wheat producing country have serious damage to their crop, that will give some relief.

**SECOND**—No doubt the farmers will be governed by financial conditions as to selling their wheat, but we do believe that all who are able should sell just as little as they can in order to meet their present obligations; this will not only help them, but will help the fellow who is forced to sell his wheat to meet his obligations.

**THIRD**—Reducing acreage. Congress is trying to raise the tariff to give us a better domestic market, but we must keep our production in line with consumption in order to reap any benefit. We should reduce our acreage at least 25 per cent another year and if we can not do it in any other way we should let our land rest. By letting a certain amount of the land rest each year the farmer is improving the productive value of his land. Show your intention to cut acreage in an honest vow that you will carry out and it will strengthen the market. Permit us to appeal to 1929 also to business people as well to traders.

Construction fall below the demand and the amount of annual expenditures on which the Department can efficiently operate.

Texas Highway Commission  
R. S. Sterling, Chairman  
Cope Johnson  
W. R. Ely, Commissioners  
Gibb Gilchrist, State Highway Engineer

cooperate in bringing about this reduction in acreage.

**FOURTH**—May we suggest to all of you who are able, to build well ventilated granaries and store your wheat on the farm. If you can not store on the farm, then your next best thing to do is to store in the terminal elevator.

Now, regarding the farmer selling his cash wheat and buying options, may we suggest that you not do give this, as cash wheat will advance if enough more than the options in six months to more than pay you for your storage bins.

Another bearish factor that brought entirely in the hands of the farmer is the condition of his wheat when harvested. Should he insist on harvesting his wheat too wet and have it, vesting his wheat too wet and have it, a large percentage of low grade wheat it will add another serious burden on the market. Any sp-pught precious amount of wet, low grade wheat placed on the market in the early part of the harvest will not only have a tendency to lower the wheat market but will more than likely cause an embargo at Gulf ports and should this happen we would see hundreds of cars of wet wheat on the trucks at the Gulf ports not even worth the freight paid on them. In May we appeal to the farmer over also the country to see that his wheat is harvested in good condition.

We hope to hear also of a concerted action on the part of all the farmers over the country to not only cut their acreage but to store at least half of their crop on the farm, and thus by their own efforts bring about effective relief from their own troubles.

The Holy City. Both bread and water finally failed. Meanwhile counter walls were built by Nebuchadnezzar's men, that missiles might be the better hurled into the besieged city. Battering rams broke through the massive walls.

Zedekiah was the king. He had been placed in that position by Nebuchadnezzar, following a previous attack, with the understanding that he would be loyal to the Chaldeans. Instead Zedekiah sought help from Egypt, in spite of Jeremiah's pleading to the contrary. As the enemy came in, king instead of staying to help people sought safety with some strong men in flight by a secret gate. They were captured the Jordan valley and taken to

## Today's Lesson

Observe carefully how prophetic apparently contradictory, were how buys it in rolls. They are clear filled. Compare Jeremiah 32: transparent and in red, gold, green and Ezekiel 12: 13. How could and violet. Among the uses to be taken to Babylon and not which the material is being put in the city or the king there? Ze wrapping for sandwiches, children's kiah was forced to witness lunches, left-over foods to be placed slaughter of his sons at Riblah, ed in the refrigerator, for cover then was blinded at the king's ing certain boiled foods while cooking. He was then taken as a gling to prevent odors from permeating to Babylon, but beheld nothing through the house; for wrapping nor city. ing silverware to prevent tarnishing for wrapping foods placed in Jeremiah was evidently in fang; the refrigerator; to prevent excessive with Nebuchadnezzar, who gave the refrigerator; to prevent excessive his choice of going to Babylon moisture on coils due to escaping the staying in Jerusalem with "the the protection of furs, gowns, lingerie of the land," who were left the pictures, etc. The colored cellophane is suitable for wrapping gift packages, making flowers and for various decorative purposes.

Decayed cavities in fruit trees, besides weakening the trees, furnish a harbor for ants, wood-boring larvae, and other pests, and may be filled with cement. All of the decayed wood should be removed first with a very sharp tool, and the edge of the bark and cambium immediately covered with a coat of cement. Then paint the exposed wood in the cavity with a mixture of about one-third creosote and two-thirds coal tar. Use a good grade of cement in proportion of 1 part to

## CLEANLINESS DONS NEW WRAPS

The Good Book tell us that cleanliness is no part of religion, and this seems to confirm the additional observation that cleanliness is next to godliness. Manufacturers of package goods have merely sought to carry this ancient doctrine into effect. There is a popular demand for cellophane for various uses in the home, and this transparent wrapping material has now graduated from its former use by manufacturers exclusively to the

2 or 3 parts of sand. The materials should be mixed with water to a thick, plastic consistency and should be well tamped into the cavity. A few nails driven in the cavity and a slight undercut should be made around the edges so that hardened cement will be keyed in.

One way to keep cool in the summer is to do as much of the necessary cooking as possible very early in the day. Have many cold dishes—salad, cold meats and jellied dishes, cooling such as fruit drinks and iced tea, and when you can, eat on a porch or in the garden.

Fresh tomatoes can be prepared almost any left-over meal. A filling made of chopped tomatoes, as chicken, veal or tongue, and salad dressing, is very tender the tomatoes have been soaked inside with salt, lay side down to drain, and place the icebox until time to serve them.

Mr. and Mrs. S. D. Johnson sons are here from Mexico spend the summer looking their wheat crop.

**Heart to heart talk guide line**  
Life A Mystery

Take the delightful uncertainty, the guess-work, the "gamble" if you'd call it that—take these elements out of life, and life loses interest.

The mystery of tomorrow—who would have it otherwise? The uncertainty of what may happen—how seductive! I would not know the future if I could; the hope that it is bright arouses all the faith of which I am capable; and life without faith is but dull, drab, mean existence.

Why, the few things we are reasonably sure of in the future are the very things that bring dread. We don't like to think about death, sorrowing mourners, and the like—as we turn hurriedly to dreams—

to hopes of eternal life, and right there, the mystery holds a world of comforting reassurances.

I certainly don't want to know exactly what will happen tomorrow, next week, next year; I might not sleep well tonight, or for nights to come. I prefer the amorous dream of golden possibility, that tempts me to combat possible disaster, like the loss of a small bet in life's game of chance.

Good men and women have committed suicide to escape calamities which they felt sure would come. Ah, they were not sure. Nobody can be absolutely sure of the future, or what it may bring—and that's a mighty comforting fact, is it not to me, to tuck away in one's bosom especially if he has tendencies to see only the dark side of things.

I have no use for the "fortune-teller," or for any one who claims ability to peer into hidden realms and make forecasts for me. To accept life with its entrancing uncertainties, its inspiring gambles, its happy conflicts—to win some of its ten thousand victories—to overcome evil with good—what better doctrine than that?

**CITATION BY PUBLICATION**

THE STATE OF TEXAS,  
TO THE SHERIFF OR ANY CONSTABLE OF OCHILTREE COUNTY—GREETING:

You are hereby commanded to summon Chas. Denny, Jr. and J. W. Denny by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 84th Judicial District, but if there be no newspaper published in said Judicial District then in a newspaper published in the nearest District to said 84th Judicial District to appear at the next regular term of the District Court of Ochiltree County, to be held at the Court House there-of in Perryton, on the First Monday in September, A. D. 1929, the same being the 2 day of September, A. D. 1929, then and there to answer a petition filed in said Court on the 26th day of September, the docket of said Court No. 6, wherein White House Lumber Company, The Gibson Supply Company and H. E. Hoover are plaintiffs and Chas. Denny, Jr. and J. W. Denny are defendants, and said petition alleging that on or about September 6, 1927, they owned and

**Loss of Power**

and vital fellow loss of flesh, or emaciation. Dr. Pierce's Golden Medical Discovery is a herbal tonic which enriches the blood, stops the waste of strength and time, and helps build up healthy flesh.

Thin, pale, puny, simply children a made plump, rosy and robust by "Discovery." All druggists.

In recovering from "Grippe," or in convalescence from pneumonia, fever or other war diseases, it is especially and surely invigorating and builds up the whole system. Read this: "Ochiltree County, Okla.—I have taken Dr. Pierce's Golden Medical Discovery and cannot say enough good words for the help they have given me. When I was a girl I became all run-down, thin, got an awful tired and debilitated. I was a doctor to myself and those around me. I took Dr. Pierce's Golden Medical Discovery and it restored me to good health."—Mrs. O. Jackson, 101 W. 2nd St.

possessed the following personal property then located on Section Number 471, Block 43, H. & T. C. Ry. Co. Original Grantee, in Ochiltree County, Texas, known as the Moore section, to-wit:

- One standard drilling rig complete, worth \$3000.00
- 250 feet of 15 1/2 in. casing, worth 1000.00
- 640 feet of 12 1/2 in. casing, worth 1500.00
- 3 joints of 12 1/2 in. casing, worth 250.00
- 4 joints of 80 ft-10 in casing worth 250.00
- One 250 bbl. steel tank, worth 500.00
- One 250 bbl. wood tank, worth 250.00
- 2060 feet 10 in. casing, worth 3000.00
- One 6 horse power Novo pump and engine, worth 750.00
- 2500 feet two inch pipe, worth 1000.00
- 600 feet of 1 inch pipe, worth 250.00
- Galvanized boiler housing, worth 100.00

All being of a total value of \$11850.00

That on or about said day and year defendants wrongfully and without the consent of plaintiffs, or either of them, took possession of all of said personal property, and have converted the same to their own use and have removed a great portion of same from its rightful location; that same is now to found on the Jackson farm in said county.

That although often requested, defendants, and each of them, have refused and still refuse to deliver said personal property to the plaintiffs and still unlawfully retain the same, to plaintiffs' damage in the sum of \$11850.00.

Plaintiffs further allege that they bear that defendants, or the person or persons in possession of said property, will injure or remove the same out of the county during the pendency of this suit, and ask for a writ of sequestration.

Plaintiffs ask for citation, and on final hearing, that they have judgment for the title and possession of said personal property, or for its value in case said property or any part of the same can not be found, and for their damages and costs of suit.

Herein fail not, but have before said court, at its aforesaid next regular term, this writ with your return, thereon, showing how you have executed the same.

Given under my hand and seal of said court, at office in Perryton this 21st day of May, A. D. 1929.

Plenty of money to loan on land.

McLain & Thomas. 34-1f-c

**Three-Fuel Power For Long Life**

Hart-Parr builds surplus power over the rating into every three-fuel tractor for just one reason. The tremendous surge of power that makes it possible for a Hart-Parr to pull seven 14-inch plows 6 inches deep in a special test, as has been done repeatedly, also enables a Hart-Parr to do the everyday work of the farm without straining or laboring. Surplus power means wearless parts and long life and explains why many Hart-Parrs are still operating after more than 20 years of farm work. Hart-Parrs are made in their sizes for small, medium and large farms, and have three forward speeds, from 2 1/4 to 4 1/4 miles an hour. Ask for a demonstration.

Motorists who can afford to pay almost any price for an automobile are buying more than twice as many Buicks as any other car priced above \$1200.

Men who can afford to pay almost any price they desire for a motor car are testing Buick and discovering an order of performance never before known... with the result that they are buying more than twice as many Buicks as any other car priced above \$1200!

With Buick superiority so obvious and outstanding as to result in two-to-one countrywide preference, you, too, should investigate thoroughly

before you buy any car. You, too, should seek the guarantee of lasting satisfaction which searching test on the road alone can provide!

Come to our showroom! Arrange to drive a Buick! Prove its absolute mastery over street, highway and hill. Compare every element of performance with other automobiles. Then you'll know that you, too, should have a BUICK!

## NOTICE OF DISSOLUTION OF INTERESTS

J. R. Wozencraft and I have dissolved all partnership interests in farm machinery and farm operations. S. J. Powell 20-31t-c

## HUNTOON NOTES

Mr. and Mrs. Lee Neat of Eureka, Kansas arrived Thursday to spend a few days with Mrs. Neat's parents, Mr. and Mrs. J. P. Bollinger, and other relatives and friends.

Miss Helen Tipton returned home Wednesday after spending a few days with her sister, Miss Dilla Tipton, Canadian.

We have received the news of the marriage of Mr. Roby Bollinger to Miss Velma Christopher, on June 1. They spent their honeymoon visiting near Gruver. This community joins in wishing them a long and happy married life.

Mrs. O. B. Hummer and family and Mrs. Walter Stollings and family took Sunday dinner with Mr. and Mrs. C. S. Hummer.

Mr. and Mrs. A. R. Cade and family visited Sunday with Mr. and

Mrs. Rob Cade and family.

Mr. and Mrs. Charley Nowlin and family spent Sunday with Mrs. Nowlin's sister, Mr. and Mrs. Dave Wilson and family.

Miss Jessie Paine spent the week-end visiting with Mr. and Mrs. Oiton Paine.

Mr. and Mrs. A. C. Emberson and children were Sunday dinner guests of Mr. and Mrs. Harold Marriott and daughter. In the afternoon they motored to Farnsworth. Wayne Emberson is sporting around in a new Ford Sedan.

Mr. and Mrs. Homer Girdle drove a new Ford car home with them from Beaver, Sunday.

Misses Elizabeth and Marie Hunter came home Monday from Guthrie, Okla., where they have been attending school.

Rual D. Ford arrived in Huntoon yesterday. He has accepted the position as bookkeeper at the Equity elevator. We are all very glad to have him back in our community.

## SCRUB BULL TO BE BARBECUED

Before a large gathering interested stock owners "Destructo," a scrub dairy bull, was "tied" and sentenced to death recently at Weimar, Tex.

The convicted animal is to be fed 30 days and then used as barbecue meat for a local chamber of commerce luncheon. The testimony at the scrub-bull trial developed strong sentiment in favor of improved livestock and particularly ridding the locality of scrub bulls.

In reporting the event to the United States Department of Agriculture, County Agent D. D. Clinton stated that the next bull to be tried will be of the beef type and that a purebred-sire campaign for Colorado County, Tex., is in prospect, with the entire elimination of scrub bulls as the goal. The county already has over 250 registered bulls of one beef breed.

## A \$50,000,000 PEST

It cost in the neighborhood of \$50,000,000 a year for cattle owners, dairymen, feeders, butchers, and tanners to support the cattle grub, yet this pest can be destroyed. Either the old method of hand extraction maybe used, or the newer methods developed by the United States Department of Agriculture. The department advises the application of Derris as a wash, ointment, or powder.

## For SUMMER!

A succession of warm days that coax you to unusual outdoor activities. At the same time protect your skin from wind and sun with these pleasant inexpensive aids at enticing prices.

# Hail Insurance

For the past seventeen years we have represented the Home, Springfield and Saint Paul hail insurance companies and they have always paid all losses in full. Nor have these companies asked you to take only a part of the loss during bad years.

The 1928 season was no exception. In every loss a fair settlement was made and the full loss paid.

This year in addition to representing these three companies we have added the Providence Washington Insurance Company to our list, represented in Texas by L. G. Spillman.

**COME IN AND SEE US TODAY ABOUT HAIL INSURANCE!**

Phone 26 Perryton, Texas

der, pyrethrum ointment, fine tobacco powder or nicotine dust, or the injection of benzol or carbon tetrachloride. A concentrated drive on the cattle grub is necessary to eradicate it from a locality. The pest is becoming more serious, says the department, owing to the spread of a second species of grub, known as the northern, or European, grub.

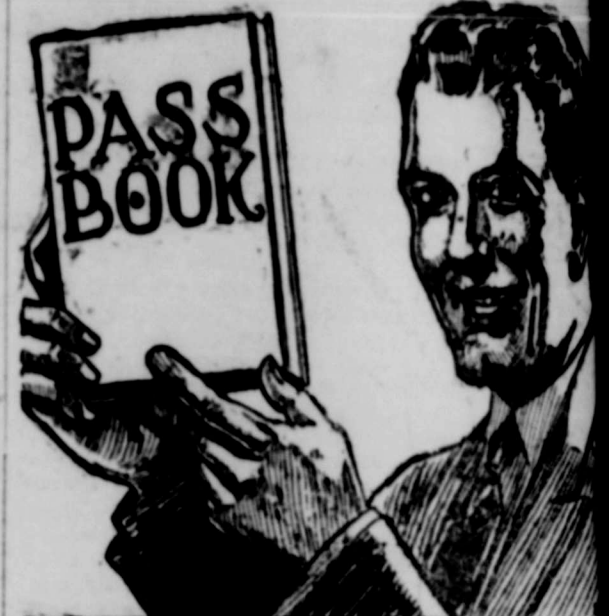

**WANT ADS**—Use this want ad column. The cost is only 10c per line for first insertion and 5c per line for each issue afterwards. Every home has something to sell. It may be furniture, it may be some farm implement or poultry or cattle. Convert it into cash by the Herald.
