## Easter Seal Appeal Letters Mailed To Castro Residents

Easter Seal Appeal letters are to be delivered this week in Castro County according to Mrs. Walter Maynard, the Easter Seal Representative of the Easter Seal Society for Crippled Children and Adults of Texas. As representative, she serves as contact representative for disabled persons needing Easter Seal rehabilitation services and also serves as Treasurer of the Easter Seal Appeal in Castro County.

The first sheet of 1972 Easter Seals has been presented to Governor Preston Smith by Donald "Donnie" Scowden of Odessa, 1972 Texas Easter Seal Child, in behalf of the Easter Seal Society for Crippled Children and Adults of Texas.

The Easter Seal Society offers physical and occupational therapy, speech and hearing programs, and special equipment loans to enable disabled persons to make the best use of their abilities to overcome handicaps. These services are financed by the annual Easter Seal Appeal.

The Society also provides for research into the causes and cures of crippling conditions, finances public education programs, and provides scholarships for training of professional personnel to staff rehabilitation centers.

Mrs. Maynard pointed out that all these programs are important if Texas is going to continue to provide the best in rehabilitation services for its own disabled citizens.

During 1971, the Texas Easter Seal Society provided treatment and services for over 22,000 children and adults who were in need of rehabilitation. These services are available to any disabled person who can benefit from help provided by the Easter Seal Society, she added.

# Longhorn Trails

By Kathy Cheves & Leesa Lowrey

Looks like the Hart faculty played a good game at Kress. Believe it or not they beat the Kress coaches, 40-42. And special congratulations to Mr. Ross for winning an award for being the most uncoordinated player of the game.

From some of the talk going around it sounds like FTA and FHA members had a real weekend. You can see the evidence too!! Cuts and Bruises!! But, we're glad to have everyone back in pretty good shape.

The Stock Shows aren't over yet. Some of the FFA'ers went to Houston for the Fat Stock Show there. So, good luck boys and bring home a bunch of trophies and ribbons.

It just might be another wild weekend. This Saturday is the Junior-Senior Banquet. And here's a plea from the people who serve: "Leave your water guns at home!!" Also, guys be a sport and ask the girls to the banquet.

The Hart High Band goes to Hale Center this week for a competition with other towns. It will be a real challenge for Hart for several reasons. (1) It's their first contest. (2) They are only a 2nd year band. (3) They will be with better experienced bands.

All bands will play the music they have been practicing on and some which they have not ever seen. There are five ratings which the bands will receive. One, means surperior, two means very good, three means average, four means need more improvement, and five means poor. Everyone hope for a good rating. Good Luck Horns! (musical horns)

Landscaping is a long term investment, points out Everett Janne, Extension landscape horticulturist. Trees and shrubs properly placed can increase the value five to six times in the first 10 years and will continue to increase infollowing years. The key to proper tree placement is a landscape plan. A minimum of 10 percent of the cost of the home should be allocated for a landscape budget. Trees and shrubs must have room to develop to their fullest potential. Simplicity should keynote the design.

REMOVING THATCH

Late winter or early spring after danger of a freeze is past is the best time to remove thatch from your lawn, advises Al Novosad, Extension agronomist. Thatch is a tightly intermingled layer of living and dead stems, leaves and roots of grasses which develops between the layer of green vegetation and the soil surface. A powered machine (rake, vertical mower) designed to remove thatch is the best way to alleviate the problem. A rotary mower set as low as possible can also be used to scalp the lawn. Be sure the soil is moist when removing thatch so as to prevent mechanical injury to grass.

## Moments of Meditation

Thomas H. Taylor

The world says: "Seeing is believing" but this is a most dangerous statement, for things are not what they seem and our eyes often deceive us. Even with normal vision of 20-20 we cannot believe our eyes, because optical illusions and the pranks of refraction play tricks on us.

Looking down a railroad track the rails seem to come together in the distance--but they don't. Place a straight stick into the water, and it often seems to bend at an angle, but it actually doesn't. You can't believe your eyes--you need to understand what you see.

Travelers in the desert soon learn that they cannot always believe what they see, for often a "mirage" appears. In addition to good eyes, one also needs the ability to descern between the true and the false. Failure to do this has led men to their destruction.

In the spiritual it is even more dangerous to rest on a false assumption, for eternity is at stake. Man may be human wisdom and so-called "scientific deduction" come to certain conclusions but here, too, things are not always what they seem. It is not what men think or teach, it is not what seems logical and reasonable, but rather what does God say is true!

Do you believe that you are a Christian? Then show me Christ. We read in the book of Acts where great multitudes were saved, "And the multitude of them that believed were of one heart and of one soul;" (Acts 4:31). This was brought about by seeing in the lives of others something that led them to accept their way of life. Let us show the world Christ in a manner that would lead people to Him.

# Commemorative Apollo 16 Cachets Are Available

The U. S. Navy's Manned Spacecraft Recovery forces in the Atlantic and Pacific will cachet and cancel philatelic mail for the April 16, 1972 launch of Apollo 16.

The special Apollo 16 covers will be processed through designated coordinators at Norfolk, Va. and Honolulu, Hawaii. From the Hawaii site, First Day covers will be forwarded to the recovery ship.

Atlantic covers sent to Norfolk will be processed through the local Post Office, which will use the standard "U. S. Postal Service" cancellation device.

This cancellation will not contain the name of an Atlantic recovery ship, since the Atlantic Recovery Force composition will not include a ship with postal facilities.

To ensure adequate time for handling covers, collectors throughout the world should send PRE-STAMPED, SELF-ADDRESSED envelopes to the appropriate coordinator before March 25, 1972.

Current U. S. Post Office regulations require that only United States postage may be used on covers. CASH, MONEY ORDERS OR CHECKS IN LIEU OF POSTAGE CANNOT BE ACCEPTED.

Collectors are requested to furnish standard-sized covers, 3 5/8 inches by 6 1/2 inches to simplify handling. A three-inch square should be allowed on the left-hand side of envelopes so the cachet may be applied. If adequate space is not left, the cachet cannot be applied to the front of the envelope without covering the cancellation or return address.

Each recovery force coordinator will ACCEPT ONLY TWO (2) COVERS PER COLLECTOR. When more than two are received, the extras will be returned unprocessed. Covers received too late for processing will also be returned.

Addresses for the Atlantic and Pacific area coordinators are: ATLANTIC: Apollo 16 Covers, Task Force 140, Naval Air Station, Norfolk, Va. 23511; and for the PACIFIC: Chief-in-Charge (Apollo 16) Task Force 130, Navy Terminal Post Office, Fleet Post Office, San Francisco, 96610.

VOLUNTARY CONTRIBUTION

For it's financial support, the Red Cross relies upon the voluntary contributions of the American people. Annually each chapter participates in a campaign for funds. These efforts make possible the National Red Cross services and the community programs of local chapters.

# Duroc Breeders Are Exhibitors

Lanny Tucker and Everette Heller were exhibitors in the National and Southwestern Duroc Winter Type Congress last week in Arkansas City, Kans.

Tucker showed the sixth place gilt in the superior group and a gilt and boar in the third group placings. Heller exhibited a boar and gilt in the fifth group placings.

The champion boar was exhibited by Claude Messner of Canly, Kans, and sold for $10,000. Bilt-Rite Farms of Happy showed the champion gilt which sold to $1,500.

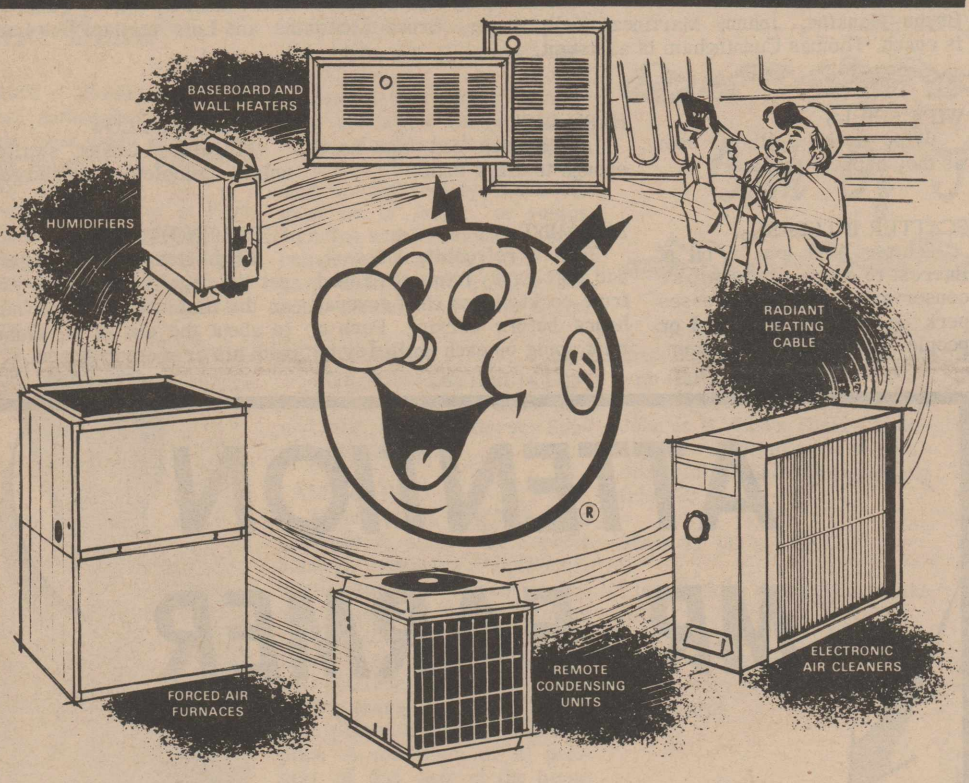

Bob Hines of Kansas State University in Manhattan, Kans. judged the show.

HOT DOG BREAKFAST

If cereal or eggs are not "making it," surprise breakfast - skippers with a hot dog on a bun or hot soup (such as vegetable) with sliced frankfurters for that vital morning meal. They're sure to take time to eat.

ATE HOT DOGS

The late playwright, George Bernard Shaw, a noted teetotalling vegetarian, horrified vegetarians everywhere when he gaily munched away on a hot dog during one of his visits to the United States.

# Connie, The Conformist

The last thing Connie intended to be was a conformist. So one day Connie resolved in dead earnest to be a nonconformist. She joined the group. She learned their views, their values, their life-style. Soon the cycle was complete — Connie had embraced the way of the nonconformist . . . had **conformed** to it.

The adventure of Connie is a reminder that conformity is part of human nature. We all conform to something. And the seemingly sharp differences apparent between certain life-styles merely reflect the contrasts and contradictions between the things to which men conform.

The role of the Church in our society is to provide spiritual and moral values that enrich life. In a world in which all men conform to something, the Church's aim with youth and adults is to give them SOMETHING WORTH CONFORMING TO.
