YOUNG PEOPLE TO INSTITUTE

METHODIST CHURCH YOUNG PEOPLE OF DISTRICT CAMP AT N. T. N. PARK

On Monday afternoon, sixty members and their sponsors of the Young Peoples division of the Methodist churches of Gruver, Spearman, and Perryton met for a three day Christian culture institute at Near To Nature Park, south of Gruver. About thirty members from Perryton were among the group.

Rev. J. W. Watson, Lubbock, Rev. Ward Redus, Spearman, and Rev. J. W. Hendrix were the instructors, issuing sixty units of credit to the young people. Rev. Alfred Freeman, Gruver, was in charge of the recreation which included competitive games, swimming, horseback riding, playground ball, hiking and the like.

Three courses were given during the institute. Rev. Watkins conducted a course on the organization of young people. Worship was the subject of the course given by Rev. Redus while Rev. Hendrix's subject was missions and world friendship. Addison Cutter was dean of the institute.

This is the first time that an institute of this kind has been held in the Perryton district and much was accomplished toward the building of a better program for the young people of the church, between the ages of sixteen and twenty-four. A very remarkable record was made in that every young person enrolling within the age limit attended classes regularly, taking notes from the text and passing all requirements necessary to receive one unit of credit on a Christian Culture diploma.

Everyone attending the encampment reported an enjoyable time and voted unanimously to make this an annual affair.

CITY MARSHAL WARNS AGAINST STREET PLAY

Parents are requested to restrain their children from playing in the streets and alleys. Too many of them with their wagons, scooters, roller skates, and tricycles are making a playground of the city streets. This is very dangerous and during the past few weeks a number of serious accidents have been narrowly averted. Who knows but that the next one might claim the life of some innocent playing little child. It might be yours. Will you, as a parent, cooperate with us in this regulation for the safety of your own child. Please keep them off the streets and alleys.

L. H. ROBERTSON, City Marshal.

LEGION-AUXILIARY TO AWARD

WILL GIVE CERTIFICATES AND CUPS THRU SCHOOLS IN CITIZENSHIP AND AMERICANISM

At the last meeting of the Pierce Johnson Post of the American Legion and the Auxiliary Unit, the two organizations decided to cooperate in any way possible with the school authorities of this county in the carrying out of the schools Better Citizenship and Americanism program.

On Monday evening a meeting was held at the schoolhouse with Superintendent W. B. Irvin at which representatives of the Legion and Auxiliary were present. The Auxiliary was represented by Mrs. A. R. Highland, chairman of the Auxiliary Americanism committee, and Mrs. Van W. Stewart. The Legion Americanism committee consisting of H. I. Hudson, chairman; W. M. Boston, J. R. Hewitt, G. Ward Moody and W. B. Irvin, was present.

At this meeting tentative plans were discussed for the years program. The two patriotic organizations will provide certificates to the boy and girl in each school room in the county who ranks highest in this work. Cups or medals will also be provided by the Legion and Auxiliary to be awarded to the highest ranking boy or girl in both the Junior and Senior high school.

Mr. and Mrs. Charley King and his mother, Mrs. Stella Hammer-smith, came in Saturday from San Jose, Calif., and are visiting with relatives here this week.

CITIZENSHIP TO BE STRESSED IN SCHOOL

Citizenship and its attributes will be the theme and objective of all teaching in the schools of the Perryton Independent School District during the coming school session.

Citizenship and Americanism will be inter-related to and with every subject where it is possible. We cannot define Citizenship fully but it can be recognized in an individual very easily. One is either a good citizen or he is not—and everybody knows it. It is the duty of the home to start this work but the schools are to try very hard to impress the qualities of citizenship upon the minds of the pupils in such a way as to make better and more worthwhile citizens.

The Lions Club and the American Legion and Auxiliary have good programs along this line. They are to work with the schools during the year and it is to be hoped that parents will enter into this matter seriously. If we all work toward this goal, we can easily make our town better. Citizens make our town. Let us make good citizens.

ROGERS THANKS VOTERS

I want to extend through these columns, my sincere thanks and keen appreciation of the wonderful vote and support given me in the recent primary. I earnestly hope none may ever have reason to regret it. I will make mistakes, of course, but with such a wonderful endorsement by one's home folks, it seems to me a man would be a pretty low sort of creature, if the remembrance of the faith and confidence of his friends and neighbors did not give him strength and courage on all occasions, and in times of temptation be a strong incentive to justify the trust thus evidenced.

With thanks again, I am
Very truly,
B. L. Rogers.

MRS. P. C. EMBERSON

Mrs. P. C. Emberson, for many years a resident of the Huntoon country, passed away Friday, August 26, 1932, in Ocean Side, Calif., after an illness of only a few days. Frances Elizabeth Morgan was born December 15, 1862, at Bloomfield, Iowa. In 1873, she accompanied her parents to McPherson county, Kans. She was married in 1881 to P. C. Emberson, five children being born to this union. The husband and three of the children have preceded the kind and loving wife and mother in death.

Surviving relatives are Alvin Emberson and Mrs. Estella Lawson, son and daughter, both of whom reside at Huntoon. One sister, Mrs. Ida Maddox; and a brother, H. R. Morgan; with twelve grandchildren and three great grandchildren are among the close relatives who are left behind to mourn her departure.

The Embersons came to this county from Alva, Okla., and settled at Huntoon. They have been among our most respected and worthwhile families. Mrs. Emberson joined the Baptist Church at the age of sixteen and through the remainder of her life was an active worker in the church, leading a fine Christian life.

ED LITTLETON THANKS VOTERS FOR SUPPORT

I am taking this method of expressing my public appreciation through the columns of the Ochiltree County Herald for the support which was given me in my race for sheriff and tax collector. To those who voted for me, to those who worked for my candidacy and to those who put in a good word now and then, I am extremely grateful and words cannot express the thanks for the wonderful pledge of confidence which you accorded me when you went to the polls last Saturday and cast 695 votes for me.

To those who voted and worked against me, I have not a single feeling of malice. To vote or not vote for any man or woman is the voters privilege and whether you were for or against me, I assure you that my friendship and personal feeling will be just the same as before this campaign and primary. Again thanking all for their support and consideration, I am

Talley Thanks Voters

Present Sheriff Expresses Appreciation For Support In Second Primary

I thank you for your loyal support in the race for Sheriff and Tax Collector. I just let you do the work and am grateful for the way you did it. I went up against a hard race of organized house to house canvassing, who told any kind of lies to get votes. I sure think that no greater insult could be offered to the voters than to come to their homes and try to tell them they are not smart enough to know how to vote. I don't know that Mr. Littleton did any of this nor whether he had it done and that a lot of those fighting me will have a chance to come to the grand jury on the 5th and if you are as full of information as you tried to tell the voters you were, you can get the things done that you think I should do. You are the ones to blame and you will do just like you have always done, set back and cuss me. I know that a lot of you, both men and women, that were running around fighting me, have been to me for favors and have gotten them and this is the way you pay. Makes a lot of difference who wants the favors. And again, I want to thank my friends. To the rest, I don't owe you anything. I will do my duty and treat you fair.

New Opportunities To Be Provided Texas Children Under Child Welfare Law

With the appointment of Mrs. Nettie S. Myers of Henrietta, Texas, as an Assistant in the State Division of Child Welfare, the personnel of the Division is complete, and a program of organization and education is well under way. This department was created by the Legislature of 1931, to enforce all laws of Texas for the protection of defective, illegitimate, dependent, and neglected children of this State. Its function is to work closely with the County Child Welfare Boards which, under the provision of the law, are organized by the Commissioners' Courts and which consist of seven members from various sections of the county. This department also cooperates with Juvenile Courts in planning for children coming to the attention of the court, and with Child Placement Agencies.

Preliminary work of the Child Welfare Division has already been accomplished. There are four qualified women in charge of this work. Three months ago, Mrs. Violet S. Greenhill was appointed Chief of the Division, and she now has two assistants as provided for in the law creating the department, Miss Helen Hardy of Carrizo Springs, Texas, and Mrs. Nettie S. Myers of Henrietta, Texas. Miss Hardy has had excellent training and experience in child welfare work, both in Texas and in Chicago, in addition to which she was associated during the past two years with the Alabama State Child Welfare Department. Mrs. Myers has done child welfare work in the Northwest section of the State of Texas. Mrs. Louise W. Warnken, formerly with the State Department of Health, is now with the Child Welfare Division, and will continue the supervision of licensed homes for children in Texas.

The problem before the department is one of enormous proportions due to the size of the State, and the lack of information on the part of citizens and organizations as to the function of the department. The Child Welfare Division is not intended to replace any chartered organization, or to duplicate the effort of any agency already at work, but is to work with all available sources at hand where there is need, and opportunity for service to neglected and dependent children. The problem of caring for children rests with the various counties of the State, and with families. The object in view is to keep children in their own homes, whenever possible, and to improve these homes, to supervise the distribution of Mother's Aid Pensions, to plan medical and educational care for handicapped children, to investigate cases for adoption and to help the child to get the right kind of start in life.

"As the twig is bent, so is the tree inclined" is applicable here. A child is entitled to a fair chance to equip himself for good citizenship. Compulsory education is a very fine and essential thing, but it does not go far enough. The child must be fed, clothed and given good environment, if we are to expect anything of the adult. For years we have studied the problems of the farms and appropriated money for preserving and bettering our products. For years we have looked after the health of our cattle and protected them against disease and ticks. Texas can do no finer piece of work now than to keep a watchful eye over her children—future citizens of this State—seeing to it that equal chances prevail for good health, education

and home environment for every child that is mentally and physically fit, and for those unfortunate who are not, homes are provided by the State for their care and comfort.

Every citizen should be cognizant of the work which the Child Welfare Department is doing and by active cooperation with county child welfare boards, see that there are fewer neglected and dependent children, fewer delinquencies, better opportunities for the future citizens of Texas.

LEGION AUXILIARY AIDS CHILDREN OF VETERANS

A total of 137,994 children of dead and disabled World War veterans have been aided by the American Legion Auxiliary this year, according to Mrs. J. R. Thomas, Child Welfare Chairman of the Pierce Johnson Unit of the Auxiliary. Expenditures made by the organization in behalf of the children amounted to \$632,398.

The largest number of children aided were in the central states, where help was extended to 37,359 at a cost of \$182,524. In the southern states 34,919 were given help, with expenditures totalling \$103,038.

The Auxiliary women in the eastern states cared for 28,356 children, expending \$184,234; in the New England states, 10,695 children were aided at a cost of \$40,000, and in the western states 25,665 children at a cost of \$122,602.

Tri-State Fair

Big Amarillo Exposition Dates Set For September 19-24; Lampe Is President

Catalogues of the Tri-State Fair, to be held in Amarillo, September 19-24, inclusive, now are being received.

Every department of this annual attraction, which has defied the depression, is being maintained.

W. F. "Bill" Lampe, President of the Tri-State Fair Association, says the dairy cattle, swine, poultry, agriculture, horticulture and pet stock exhibits will be up standard.

"Farmers and livestock men from all over the Tri-State Fair territory expect to exhibit," he said. "Demand for exhibitors' space is good. Not only the fair officials but the railroads anticipate record crowds."

Railroads will offer the lowest fares to Amarillo in the history of the Panhandle. Round-trip tickets during the first two days will be sold for 60 per cent of the one-way fare. Excursion rates will be in effect during the remaining four days.

Among this year's Tri-State Fair attractions will be a world championship rodeo with \$3,300 in prizes, night auto races, the Black Mash Players presenting nightly the best of their repertoire, the Wortham Shows with 250 people and a football game, Texas Tech vs. Texas A. & M. on the last day.

Freeport Strives to Rebuild; Bars Visitors

"Raise Less Cotton; More Hell" Is Purported Advice of David Crockett to Alleged Interviewer

Art Names, traveling trouper whose company was in Dumas, recently has a yen for interviews. In a recent letter published in the Fort Worth Star-Telegram, Mr. Names reports an alleged interview with Davy Crockett. The full text of Mr. Names' letter follows:

Editor Star-Telegram: I see by your issue of June 27 that Preston Davie of New York wants to know if Congressman Patman represents Texas. Mr. Davie calls on the shades of Crockett and Houston to verify his stand against Patman. I immediately got in touch with the shades of Davy Crockett and secured the following exclusive interview for your publication:

Q—Is this Davy Crockett of Texas?

A—Yes. Q—Mr. Preston Davie of New York claims to have some recent dope on your political and economic views. Is that correct?

A—It is. I have been keeping in rather close touch with Mr. Davie during the present emergency.

Q—I see that he quotes you in the Fort Worth Star-Telegram of June 27 as being opposed to the Soldiers' Bonus. Are you?

A—I am. I wish to refer you to my famous remark during the siege of the Alamo, "Millions for the railroads, but not one cent for the soldiers."

Q—I see that he quotes you as saying that instead of giving \$200 each to the soldiers it would be better to give everyone in the United States \$20 each.

A—That is an error. Why give anything to the soldiers? The bonus, if any, should go to the folks who stayed at home.

Q—But Mr. Crockett, that doesn't seem fair to me. When I enlisted in the Army, I had a thriving little business; when I returned, the business was flat and I had a lot of old bills to pay. And yet, while I was away more millionaires were created from war profits than during any other time in the world's history. Don't you think this condition should be equalized?

A—No. If the soldiers didn't have sense enough to fix it before they went away to war so that no one

could make a profit on their fighting, they wouldn't have sense enough to look after the \$200 if the Government gave it to them.

Q—But Mr. Crockett, things are in a terrible shape here on earth. We have everything needed for prosperity but money and the banks won't loan us money and the Government won't loan us money and they won't pay us a bonus so what are we going to use for money?

A—Join the Army again. Remember the slogan that whipped the Kaiser, "A million days, a million dollars!"

Q—I see Mr. Crockett that you are quoted by the man from New York as believing that Mr. Patman's bonus bill has already damaged the country to exceed two billions of dollars by causing a shrinkage in values.

A—That is an error. It was Mr. Hoover's anti-boarding campaign which did that.

Q—I see that you are also quoted as saying that the other bonus payment didn't help any.

A—That is correct. It was detrimental.

Q—But, Mr. Crockett, when the other bonus money was paid I was in a terrible shape. I was flat on my back, financially. That bonus money put me on my feet and I am still going. Don't you think that was a help?

A—No. Without your bonus money you would have gone broke and had it over with. Now you still have to go broke.

Q—Don't you think that Congressman Patman represents the sentiment of the people of Texas?

A—While I am mortified to admit it, I am afraid that he does. But, I am unable to understand why the people of Texas should be misled by his false doctrines. Me and Sam Houston and the rest of the boys from Texas who ranked heaven are standing squarely behind Andy Melon on his bonus policy, but the rumor is gaining ground here that the boys who are still on earth and the ones who could not quite make the grade to Heaven are rapidly getting behind Patman.

Q—Mr. Crockett the people of Texas would like to hear from you

in regard to prosperity. A few years ago we were told to raise more cotton, more wheat and that would bring greater prosperity. We did that and then we were told that raising less would bring prosperity. When will prosperity arrive?

A—Prosperity will come to the people of Texas when they raise less cotton and more hell!

Q—Have you any other words for the people of Texas and the United States?

A—Not at present. The boys from Texas who died in Flanders Fields are just now holding the antibus pep meeting and I am down for a speech—subject:

"You'll never get rich. You son-of-a-gun. You're in the Army now."

CHURCHES

CHRISTIAN SCIENCE

"Christ Jesus" was the subject of the lesson-sermon in all Churches of Christ, Scientist, Sunday, August 28.

The Golden Text was from Hebrews 13:8, "Jesus Christ the same yesterday, today, and for ever".

METHODIST CHURCH

You were not out to worship Sabbath! Well, just a lot of neighbors were. We are sure you lived close to you. They were representative of the town and country. You ought to have been there. It certainly would have been refreshing; it would have furnished you another side to life, and have given you something to think about. How would you have something new, a sort of change? It is most difficult to understand just how people get who never seem to think anything other world than our present. Isn't it enough to think such as it is right now, for six weeks of the week?

"School Education, The Birthplace of Childhood"

Everyone is well acquainted with the famous expression of the great Southerner, Robert E. Lee. The lessons learned by this noble American impressed upon him the fact that education is indeed the birthright of childhood, a "Debt owed by present to future generations". That great student of human relations, H. A. Fisher, Minister of Education in England during the darkest period of the World War, voiced this universal verdict when he said that "education is the debt eternal of maturity to childhood and youth".

Because the child passes this way but once, no moratorium can be declared upon this debt without fatal consequences to the nation. School education is the rightful heritage to childhood which can be assimilated at but one time in the life of an individual. Dr. John Finley, editor of the New York Times, recognized the binding nature of this obligation when he said, "In times like these when sacrifices must be made and economies must be practiced, nothing should be allowed to interfere with the payment of the state's full debt to the children and youth of the land".

Over one thousand social, educational and economic leaders of the country assembled at President Hoover's White House Conference on Child Welfare, after careful study and scientific investigation, worked out the nineteen provisions of the Children's Charter, which at once is an emancipation proclamation of childhood and a declaration of rights for American youth.

In years past, most educational measures have been prompted by parental ambitions. Every worthy parent has been willing to sacrifice that his own child might become well versed in the lore of the race and be given a position of advantage in the struggle for a living. The state recognizes that all children, under whatever conditions of life they may have been brought into the world, should share equally in the rich inheritance of their fathers.

The Conference on Child Welfare decided "The state must guarantee for every child: First, a school safe from hazards, sanitary, properly equipped, lighted, and ventilated, and for younger children nursery schools and kindergartens to supplement home care. Second, an education which, through the discovery and development of his individual abilities, prepares him for a living which will give him the maximum of satisfaction. Third, such training and teaching as will prepare him for successful parenthood, home-making, and the rights of citizenship. The nation owes every child these rights regardless of race or color or situation, wherever he might live under the protection of the American flag."

Since the dawn of civilization, man has come to realize that when children are brought into the world they inherit the riches, the privileges, and the experiences of the race, the administration of which is entrusted to both the parent and the state. Since the dark ages of the past when chivalry bloomed into the flower of knighthood, the cause of the weak and helpless has been championed by the best and the highest passion of man. From the daring exploits of the English knights to the sinking of the Titanic the cry, "women and children first", has rung out in every great calamity. Men have been willing to risk their lives and sacrifice their fortunes on the altar of the defenseless. Certain rights of childhood have been fearlessly and chivalrously defended by all noble men.

The Pilgrims left the fertile fields of Holland for the bleak coast of New England that they might preserve for their children the heritage of Anglo-Saxon ideals.

Washington, Jefferson, and Adams realized the rights of childhood when they wrote into the Preamble of our Constitution the immortal words, "To secure the blessings of liberty to ourselves and our posterity do ordain and establish this Constitution for the United States of America".

One of the prime motives which led the intrepid pioneers of Texas to rebel against Mexico was the lack of public school education for their children. When at last victory smiled on our arms at San Jacinto, and the fathers of the state met to consider a constitution for the independent state of Texas, provisions for a free school education for the children of the commonwealth were written into our first code of law.

Our forefathers did not conquer the wilderness for their own selfish pleasure, but ever carried before them the banner of childhood. In the name of their children they fought for freedom and bequeathed to posterity the priceless inheritance of liberty and justice.

Children must be first, because in the words of Mr. J. E. Moore, editor of the National Education Association journal, "They are the torch-bearers of civilization. We can put children first and keep them first, knowing that it is they who must carry the torch tomorrow, if civilization is to march forward."

The honest spirit of America is that of honesty and willingness to fulfill every trust given into the care of man. America must recognize the right of the child, pay the interest on her baby bonds owned by childhood, and keep the schools at their best. Because children are our greatest national treasure we must keep them first.

Tarzan is one of the most capable equestrian performers on the screen and each picture shows evidence of the patient training this animal has received. He already has a repertoire of tricks that are amazing and a source of delight to the spectator.

In "Texas Gun Fighter" Tarzan comes to the rescue of his master by guiding help to him when he is hiding from a band of men who are trying to kill him. The horse literally fights his way through the besieging ranks, scattering them before him.

"I Like The Depression"

By The Late
Henry Ansley
"Jackass Of The Plains"

Mr. Ansley recalls that before PROSPERITY he was just one of the home-town boys who knew everybody and whom everybody knew. Even when he got drunk at the sheriff's convention and lost his job folks were mighty nice to him. PROSPERITY went to his head. Over night he became a Business Man, a Big Shot. He couldn't be bothered with the old folks, the boyhood pals, the friends of the family. They were old fogies. He and the upstarts knew all there was to know.

Then came the DEPRESSION, a pall over the land. Gloom clutched us. But Mr. Ansley says he likes the DEPRESSION.

It has brought real friends back to him and long forgotten neighborliness. It has taught him what a dollar is worth and that hard work, horse-sense and the Golden Rule are more valuable than a snowball in Hades. It has taught him how to use time comfortably. It has taught him a most amusing and delightful lot of things about Wives and other Women, about Farming, Clubs, Conventions, Politics, Dogs, Bosses, Parties and Entertainment, Clothes, Furniture, Home, Food, Health and Doctors, Families and Church.

Making Syrup in West Texas

Equipped with an up-to-date syrup mill, J. F. Lollar, farmer living near Anson is making sorghum syrup on the shares for his Jones county neighbors. He is shown by his vat where 150 gallons of syrup was made from a fraction over two acres of Japanese Honey Drip cane. Making sorghum syrup is new to most West Texas farms but it's becoming a more common practice this year because of the activities of county agents. L. C. Johnson, county agent in Jones county, says 20 farmers are making syrup this year by demonstration methods.

While dinosaurs lived and died in OKLAHOMA

Mellowed 80 million years! Such is the history of the Cambro-Ordovician crude oil of Oklahoma which Sinclair refines and blends into Sinclair Opaline Motor Oil—a crude which was already ages old when dinosaurs fought above its hidden reservoirs. Opaline's superior lubricating quality owes much to Nature's age-long treatment, for Nature has filtered it free of impurities, reduced its carbon-forming content, and enhanced its lubricating quality. In process of refining Sinclair adds the crowning touch by de-waxing Opaline and freeing it from non-lubricating petroleum jelly at as low as 60° F. below zero. Try a crankcaseful of Sinclair Opaline—observe how little you have to add on long trips—note how it stands up in hard driving!
