HORSE THIEF CAUGHT NEAR ROOSEVELT

First Horse Theft Case in Years Attracts Much Attention This Week. Man Arrested and Placed in Kimble Co. Jail.

Early day events were called to mind here Tuesday when the rumor became ciculated that a "horse thief" had been caught.

Monday night Gully Cowsert who ranches on North Llano, some 15 miles out of town, telephoned to the sheriff that a suspicious character on horseback, was at his ranch. Mr. Cowsert questioned the man, and feeling sure that something was wrong, kept the man at the ranch during the night. Early the next morning F. H. Dunk, who until recently lived near the Cowsert ranch, but now living some 18 miles out on the Kerrville road, came to town and reported to the sheriff that a horse and saddle had been stolen from his place. The Sheriff, accompanied by Mr. Dunk, left for the Cowsert ranch and found the man and horse. The horse and saddle were identified by Mr. Dunk, and the man was brought back by the Sheriff and placed in jail.

The horse was stolen sometime Monday from a lot near the Dunk ranch house.

The man, giving his name as Roy Casey, from Michigan, states that he has been in San Antonio for a year or more.

He was doubtless making his way north and saw this opportunity to increase the pleasure of his trip by appropriating a good horse and saddle to his own use. He is apparently about twenty-five years of age, but states that he is only twenty-one

More News of the Sutton County Fire of Last Week.

About one o'clock Wednesday while Otto Thiers, who ranches on the Llano, was coming to town, he stopped at the Allison (Ford) ranch to get water, he noticed a car going at a rapid gait in the direction of the river but did not pay much attention to it; in the car were four men. After leaving the Allison well, he drove a few miles and noticed the grass on both sides of the road burning,and got out of his car and began putting it out, but on looking up the road he saw several other fires. He went back to the ranch and phoned to town for help, and on looking down the road, saw several other fires.

In the meantime Mrs. S. E. McKnight phoned to Fred Simmons of the Sonora Motor Co., that there was a big fire on the McKnight and Allison range and for him to get all the help he could and come out as soon as possible. Fred lost no time in getting help out there and they had a hot time for several hours. There were men from El Dorado, Mayer and adjoining ranches.

The fires were started about 8 miles east of Sonora and extended to about half way between the 18 and 19 mile rock. Some say there were about fifty places on fire.

McKnight lost about 8 sections, Allison & Hutcherson about five sections (up the Holland pasture) Geo. S. Allison about four section.

Word was sent to Sheriff Will Taylor of Junction, giving the description of the party and they were arrested about six miles this side of Junction. Deputy Sheriff Merck and Constable Cook went to Junction and returned with the prisoners late Wednesday night.

The young men who were arrested gave their names as E. V. Hutchins, Albert Grouch, Herbert Lacy and Thurman Phillips, all of Austin.

At the preliminary trial Friday afternoon before Justice of the Peace D. H. Mitchell, the prisoners were put under bond for $2,000 each for setting the garss on fire, and $500 each for stealng cup grease and gasoline from Steve Shroyer, who ranches near the head of the Llano, to await the action of the Grand Jury.—Devil's River News.

How Big is a Big Tree?

Naturalist, Ansel F. Hall, of Yosemite National Park, has prepared this section of a giant Sequoia, which was felled by a storm in 1919, to show visitors how old trees are. This tree, which is fourteen feet in diameter at the base, is 996 years old, a youngster, as compared to 4,000 years, the estimated age of the Grizzly Giant, the largest tree in Yosemite. The space between the Naturalist's forefinger and thumb measures the span of a human life to compare with the span of the tree's life.

WE ARE PERFECTLY SAFE.

How thankless the lot of the statesman!
How little the populace cares
If he burns mid-night oil in hard painstaking toil
On soul-racking public affairs.
Small honor accompanies office;
The salary almost is nil.
Won't they soon quit the race for such profitless place?
Well no! it's not likely they will

Give a thought to our members of Congress!
At the imminent risk of their health,
They gladly forsake golden chances to make
Uncounted and limitless wealth.
Can such be expected forever
To labor like Trojans to plan—
Always misunderstood—their constituents' good?
They can, gentle reader, they can!

Republics are always ungrateful?
They groan and complain and protest,
And armed with their votes often leap at the throats
Of the men who are serving them best.
Sometime will there be a rebellion
Of those who are sick of their lot?
Will they quit in disgust every office of trust?
Well no—very probably not!

How dreadful the fate of the country
If statesmen could never be found
To pilot the ship on her perilous trip
When civilians might run her aground!
How awful an absolute shortage
Of our high-minded governing class!
But it doesn't appear that the era is near
When this horror is coming to pass!

STATE VETERINARIAN INVESTIGATES ANTHRAX

Reports of Loss From Anthrax Brings Man From Live Stock Sanitary Commission To Stop Spread of the Disease.

W. M. Smotherman, assistant State Veterinarian, under the supervision of the Live Stock Sanitary Commision, with headquarters at Fort Worth, arrived from Edwards County Saturday where he had been investigating some reported cases of anthrax among cattle in that county. A number of cattle have died there recently from some disease, but no one had previously looked into the matter to determine if these losses were due to this disease.

Sunday, Mr. Smotherman, Inspector Willis Mason and H. G. Perry visited a number of the ranches on Johnson Fork. Mr. Smotherman was not able to find any animals effected by the disease on this trip, but from talking with three people who had recently lost cattle, he got information that leads him to believe that the losses were due to anthrax.

Monday morning he went to the Braley ranch on South Llano where some losses had been reported and made an investigation, and assisted in vaccinating the Bartley cattle against the disease.

Mr. Smotherman states that the vaccine properly administered is a safeguard in most cases and that a serum is being used that is also effective, after the animals are effected, but the expense of the serum prevents its use on any except very valuable stock. The cost of vaccinating is approximately fifty cents a head.

The disease has been studied and experimented with and veterinarians are able to control the disease to a remarkable degree, but the peculiar ability of the sphores causing the disease to live almost indefinitely has made the control of the disease difficult.

The sphores have been kept in a laboratory in a dormant condition for a period of eighteen years, then injected into animals, and the disease developed and it is thought that sphores coming from animals, dying with anthrax, will be dormant in pastures and cause the death of animals as many as twenty years later.

This disease not only effects cattle, but most other livestock; thus it is seen that proper precautions are very necessary to prevent the spread of the disease. It is rarely contageous, but very highly infectious. All animals suspected of duing from the disease should be immediately burned.

To the Voters of the Thirty-Third Judicial District.

I take this means of thanking the voters of this Judicial District for the consideration shown me in the recent primary election. I am deeply grateful to you for your kindness in upholding me in my endeavor, as an official, to uphold and vindicate the law.

I believe in strict law enforcement, and I have little patience with the official who so far forgets his duty under his oath as to "wink" at law violations. All of our laws should be enforced as long as they remain on the statute books, or else the law will become a farce. Give me your co-operation, as citizens, and I will put forth every effort to bring about the conditions of law and order that should prevail. You elected me for that purpose, and I'll keep faith with you to the very best of my ability.

Again assuring you that I am deeply appreciative of the honor I have received at your hands, I am,

Yours truly,
George Christian.

Bids For Furnishing State Supplies Opened.

Bids for the purchasing of supplies for the various state eleemosynary institutions for the fiscal year beginning September 1, 1922, have been opened by the State Board of Control. There were 110 bidders from various portions of Texas and a number from out of the State.

The board is now tabulating the bids and it will be several days before contracts are awarded. While it is expected to award contracts in the majority of instances for the entire year, in certain cases the contracts will be for a shorter period because of fluxuations in the markets. Several million dollars of merchandise is purchased annually by the board.

Labor Commissioner Reconsiders; Recalls Resignation

Joseph S.Myers,who wired his resignation as labor commissioner from Denison, where he had gone to look into the strike situation, has reconsidered his action, Governor Neff announced late Saturday. Commissioner Myers wired the governor as follows:

"After further consideration, if agreeable, I withdraw my resignation."

Governor Neff said it was agreeable to him and he complimented Myers as a man of the highest type, saying that he is an "able, efficient and impartial official."

"It was perfectly agreeable to me for Mr. Myers to withdraw his resignation," added the governor.

Varsity Regents Ask For Larger Appropriations.

Tabulation of the budgets of several of the leading educational institutions of the State for the next biennium has been completed by the State Board of Control, showing that material increases in appropriations will be urged for these institutions, including provisions for comprehensive building programs. The Board will shortly prepare its recommendations to the Thirty-eighth Legislature, and it is anticipated that there will be some cuts from the amounts requested.

In the budget for the University of Texas a total of $1,845,002 is requested by the University for salaries and maintenance during each of the two years beginning September 1, 1923. This amount includes salaries, schools and laboratories, current expenses, bureau of economic geology, bureau of extension and summer schools. The amount indicated is approximately $300,000 more each year than the current two years' appropriations. This increase represents a restoration to the salary basis of 1920-21, which was reduced by the Legislature, after an historic fight. It also covers the increases due to promotions during the past two years, the new positions anticipated by increased attendance and extension activities, a 30 per cent increase in the summer session, and the rehabilitation of the bureau of economic geology and technology.

The College of Industrial Arts at Denton is asking for $874,551 for the first and $746,107 for the second year, representing salary increases and adjustments. Of that amount $501,631 the first year is for permanent improvements and $376,750 for the second year. The latter includes for the first year $132,350 to enlarge and make adequate the heating plant; $150,000 for a dormitory; $160,000 for a library, and $15,000 for the purchase of a pipe organ. In the second year, $150,000 for a dormitory, $23,400 for a store building and $175,000 for a vocational building.

In the budget of the Agricultural and Mechanical College proper $1,744,043 is requested for the first and $1,720,179 for the second year, which is an increase in both instances to restore the former salary basis and to take care of new places caused by the increased enrollment.

Supplementary to the budget for A. & M. College are the requested appropriations for the experiment stations and kindred schools. For the main and sub-experiment stations, $510,565 is requested for the first and $489,380 for the second year. For extension service $251,356 and $251,356, respectively. For the Grubbs Vocational School, $395,099 for the first and $340,704 for the second year of which $201,306 and $152,256, respectively, is for permanent improvements. For John Tarlton College at Stephenville, $603,893 for the first and $546,699 for the second year, is asked; also $314,013 and $260,109 for permanent improvements. The amount asked for Prairie View Normal College for negroes is $475,046 and $374,246 for the two years, which includes $208,500 and $102,500, respectively, for permanent improvements. The A. & M. College budget also includes a request for $53,280 each year for the bureau of forestry.

Budgets for the State Normals have not as yet been tabulated.

The Ku Klux Klan Has Not Carried Texas.

Concedeing that the "klan" ticket swept Harris, Dallas, Jefferson and some other large counties, it did not carry the State.

In the senatorial race, for instance, anti-klan candidates polled a much larger total than klan candidates.

In no state race, with the exception of that for governor, where issues were so clouded as to make a definite lineup impossible, has a klan-endorsed candidate come out with a majority of the votes cast.

In the two races where there was a clean-cut contest between a klan and an anti-klan candidate, the latter showed a substantial majority.

Smith has beaten Woodall by many thousands of votes.

Morrow has beaten Harper.

Culberson, Ousley, Ferguson and Thomas were anti-klan candidates in the senatorial race have polled a total of more than 135,000 in excess of the total polled by Mayfield and Henry.

In the Lientenant Governor's race the klan candidate has failed to show anything like a majority.

The reason that the klan made such a tremendous showing in the various state contests is largely due to the fact that it concentrated, while the opposition was split.

The klan can claim pluralities in most races where there were more than two candidates, but it can not show a majority in any race.

The anti-klan candidates can show a majority in every race where it is possible to calculate the vote on the klan issue.

These are facts, not guesses.

Out of nearly 500,000 votes thus far reported, the klan lacks a majority in every instance of from 50,000 to 138,000.

This does not prove that the klan can not muster a majority in the various run-offs because it is thoroughly organized and aroused, while the opposition is split and chaotic.

But if the opposition can unite and work as systematically as as will the klan, there is no reason why it should not win.—Houston Chronicle.

SOUR STOMACH INDIGESTION

Thedford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.

East Nashville, Tenn.— The efficiency of Thedford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver.

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Thedford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Thedford's. E 61

A SHREWD TIRE BUYER

One of the shrewdest tire buyers in the country—purchasing agent for a fleet of nearly 100 cars and trucks—made this statement:

"You can't tell what any tire costs till it's worn out."

"On a basis of mileage delivered, I find Gates Super-Tread Tires the cheapest we have ever bought—and I'm convinced it's their wider and thicker tread that gives the extra mileage."

3rd. Plaintiffs allege that they and those whose estate they have, claiming to have good and perfect title and right to the land herein claimed, have have had and held peaceably said land and the adverse possession of the same, cultivating, using and enjoying the same for a period of more than ten years before the commencement of this suit and this they are ready to verify:

Wherefore, premises considered, Plaintiffs pray this Court that the defendants herein, and each of them, be cited to appear and answer this petition, and that on hearing hereof the plaintiffs have judgment for the title to said land, divesting out of the defendants, any title thereto, or claim thereto, and vesting the same in plaintiffs, and removing all clouds from plaintiffs' title to said land, for the costs of suit, and for such other and further relief, both legal and equitable, as plaintiffs may show themselves entitled to.

State Tax Rate Raised to 35 Cents; Highest Permitted.

The State ad valorem tax rate was increased from 22 to the constitutional limit of 35 cents on the $100 property valuation for 1922 by the State Automatic Tax Board at a meeting held late Saturday. This increases the entire tax rate from 62 to 75 cents, of which 35 cents is school, 35 cents ad valorem and 5 cent Confederate pension. The constitutional limit had already been reached on the school and Confederate pension taxes.

This increased tax rate for 1922 was based on an estimated total property valuation of $3,350,000,000, while the actual valuation for 1921 was $3,455,560,089. In justification of its action in increasing the rate the Board made this statement:

"The Automatic Tax Board, in fixing the ad valorem tax rate for the year 1922, was brought face to face with the necessity of either placing the rate at the constitutional limit in order that proper provisions be made for the public schools, or the adoption of a lower rate, which would have imperiled the efficiency of our school system.

"The necessity for an increase in the tax rate was, and is, due to the following conditions affecting the public revenues:

"First—Decreased in assessed valuation of all taxable property as reported by the several county tax assessors, which for the year 1922 shows a decrease under that of 1921, amounting to $105,000,000.

"Second—Decrease in revenues under the gross receipts tax law, due principally to decreased production and price of oil, amounting to $1,500,000.

"Third—Increase of delinquent and unpaid taxes for the last fiscal year. This, as shown by the records, is approximately double that of preceding years

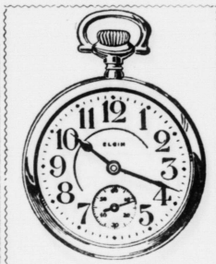

"After careful consideration of the above conditions the Board was forced to the conclusion that less than a rate of 35 cents would have been inadequate to meet the needs of the public service."

Wanted—40 Cords of Wood. School Janitor.

Bids for forty cords of two-foot seasoned wood will be opened by the School Board Saturday, August 5th. Payment for this wood cannot be made before February 1st, or until taxes are collected. Wood must be corded up at the school building where it will be measured and re-ceived, and it must be seasoned. File your sealed bids with Fred E. Knetsch, Secretary of the Board.

Bids will also be received for the position of Janitor for the school for the coming year. State salary expected with your application. The Board reserves the right to reject any and all bids.

Schleicher County Lets Road Building Contract.

Bids for the asphalting of Schleicher County highways and for the building of more highways were opened yesterday, with five different bidders, according to Gibb Gilchrist, county engineer of Tom Green county and consulting engineer of Schleicher county, who assisted in the work.

A. E. Morgan of Dallas landed the asphalt work, with a bid of 24 1-2c per gallon. It will take 87,000 gallons. The asphalt will be hauled from San Angelo.

Schleicher county bid in the crushing work for 11 1-2 miles but sub-let the work to Metcalfe and Thompson, road contractors of San Angelo. The work will be done between now and December 1. The surface in this work will amount to about 4,000 yards.

J. L. Neill is county engineer of Schleicher County.—San Angelo Standard.

Retailers' Convention.

Plans and preparations have been made to make the Retail Merchants' Convention, Sunday, August 6, a success.

Merchants from Gillespie Co., and all the adjoining counties are invited to attend this convention and no doubt a great number will be present. Several State Officers and members of the Credit Men's Association of San Antonio will be present and deliver interesting speeches. The meeting will begin in the afternoon at 2 P. M., and will last till 4 P. M., when the visitors will be entertained with a ball game. A banquet will be given at 8 P. M. All merchants offer their hearty support to this convention and should not fail to be present.—Fredericksburg Standard.

The West Texas News takes a shot, good and strong and accurate, at Congressman Wurzbach, of San Antonio, for his nigger-loving propensities and utterances. If it is any comfort (or annoyance) to you Democrats, you may take it from me, that the Republicans have no higher opinion or regard for Werzbach than they have—and make that as low as you want to. When a Southern congressman appears before a crowd of blacks, addresses them as "Ladies and Gentlemen," and goes to slobbering about what he intends doing for them, he is a disgrace to his race, let his politics be what they may.—Kurth Pitt, in Ozona Stockman.

Sheep Deals Which Were Consummated Last Week.

J. D. Ramsey & Son sold about 1,800 head of sheep the past week, and a three years lease on the Honig ranch to G. C. Magruder, the ewes bringing $8.00, lambs $5.00 and 300 cull ewes at $6.50, 17 bucks at $25.

Sam Oglesby reported the following sheep sales; he sold 900 head of mixed lambs to Max Marshall of San Angelo, at $5.50. S. M. Oglesby Sr., sold 1,700 lambs to Max Marshall at $5.50. Mr. Oglesby and his father sold about 3,100 yearlings and twos to Mr. Marshall at $5.00; these sheep have already bee delivered.—El Dorado Success.

Many Predatory Animals Were Caught This Year.

The taking of 1,322 coyotes, 245 bob cats, 240 red wolves, 10 stock-killing dogs, 7 mountain lions, 5 ringtail cats and one linx, comprised the catch of 1,830 true predatory animals during the fiscal year ending June 30, according to the annual bulletin published by C. R. Landon, predatory animal inspector, who has offices in the Federal building in San Angelo. Fur bearing animals, which were caught by the trappers on both bureau and co-operative funds, amounted to 497, including 278 skunks, 84 head of fox, 55 raccoons, 50 opossums, 8 civet cats and one house cat. The cost of killing these 2,327 head of true predatory and fur bearing animals was $29,806.99, cost an average of almost $13 to rid the country of each animal. Some of the animals killed had slaughtered as many as 600 sheep and goats.

Poisons were used by the [illegible] killing a large number of animals, hundreds of coyotes dying on the range during the year. Two hundred were killed as a result of eight days' work, one hundred and fifty were found dead in another section of the as the result of only one day's work.

Most of the trappers were paid on co-operative funds, Mr. Landon points out in his statement, the money coming from individual ranchmen, wolf clubs and county governments. Efforts are being made to have money appropriated by the state during the ensuing year, and during the recent Sheep and Goat Raisers' Association in San Angelo the organization pledged their assistance in calling upon the state for financial aid to carry this work on.

July, 1921, lead the year in the number of catches of bob cats and coyotes, 17 bob cats and 189 coyotes being taken in that month. May, 1922, with 13 credits, led the other months of the year in the taking of red wolves. One wild dog was caught in July, 1921, and another in April, 1922. Two ringtails were caught in May and June, 1922.

August, 1921, led the list of coyotes with 73 killed, in the list caught on co-operative funds given by ranchmen, wolf clubs and county governments. November, 1921, and February, 1922, each had 20 bob cats caught during the month, while 32 red wolves were caught in September, 1921, the largest number caught in any other month. Three mountain lions werecaptured in March 1921, as a result of the ranchmen giving aid. Eight wild dogs were taken in April, 1921; four ringtails were added to this list, being caught in May, 1922.

Individuals in Tom Green, Concho, Pecos, Sterling, Val Verde, Crockett, Upton, Irion, Burnett and McCullough Counties were the ones included in the list who supported the work. Clubs were formed in Tom Green, Concho, Sterling, Val Verde, Kendall, McCullough, Schleicher, Upton, and Blanco Counties. County Commissioners of Concho, Irion, Pecos, Upton and Val Verde Counties assisted in getting the animals out of the country.

Men employed on these funds worked a total of 6,544 days, making an average catch per man per year of 130 animals. A large amount of territory was covered by these workers.—San Angelo Standard.

How The Master Driver Became Master Tire Builder

IN 1903, driving the "999" racing car, Barney Oldfield started his career of victories that later earned him the title of "Master Driver of The World." To overcome the tire weaknesses that made racing difficult and dangerous, he studied tires—specified materials—supervised construction.

Today, Barney Oldfield is known as the "Master Tire Builder." Starting with the crude tires which carried the "999" one mile in sixty seconds, Oldfield gradually developed his famous Cords—a set of which covered 600 miles at eighty-eight miles an hour without a change.

In three years Oldfield tires have won every important race on American speedways. They are the only American tires that have ever taken first place in the French Grand Prix. They have won for three consecutive years in the 500-mile Indianapolis Sweepstakes, and for 1922, Oldfields have lowered four World's Records and seven track records.

The Wichita Test Run gave evidence of Oldfield superiority in touring—when a set of four Cords covered 34,328 miles over rutted, frozen, winter roads—a performance attested by the Mayor of Wichita.

See your dealer and get a set of these rugged tires that Barney Oldfield has developed and perfected through a lifetime of practical tire experience. Their performance will convince you that they are "The Most Trustworthy Tires Built."

Mrs. Weaver H. Baker Surprises Merry Wives.

Mrs. Weaver H. Baker surprised the Merry Wives Club and additional friends with a jolly seven o'clock swimming party on the regular meeting day last Thursday.

Although it was called a swimming party, the water proved too cold for some of the delicate bathers and only four took part, Mrs. Joseph, Mrs. C. T. Holekamp, Mrs. Coke R. Stevenson and Miss Skinner of Gonzales. While they were enjoying a plunge, the others made ready a delicious breakfast of chilled canteloupe, crisp bacon, egg omelette, sliced iced tomatoes, bread, jelly and coffee The pretty white table that was spread on the ground, was decorated with a large bowl of scarlet zenias for the center, afterwards serving as favors as the crowd parted.

Miss Patricia Patterson, the youngest guest at the party carried home a handsome silver spoon, presented to her by the Merry Wives Club.

Those present were: Mesdames A. L. Mudge, H. O. Denman, L. L. Skaggs, J. C. Beddingfield, Olney Patterson, Conrad T. Holekamp, Douglas Motley, Nannie Summers, Phillip Joseph, Coke R. Stevenson; Misses Josie Mae Patton, Billie Wright, Dorothy Mudge, Maud Skinner of Gonzales, and the hostess.

That every year a great amount of good feedstuff is allowed to waste because people fail to consider the value of certain by-products of crops. One of these is corn tops. Corn tops, cut at the proper time makes an excellent roughness for winter feeding.

The time to save your corn tops is now. Many Kimble County farmers are already doing this, and all should do it. Don't think you will have too much feed because we have a good crop year. Corn tops can be used for other feeds that you can sell.
