

School Aid Study Sanctioned

JFK Wants
Action First

By MARVIN L. ARROWSMITH
WASHINGTON (AP) — President Kennedy said today his administration would be glad to cooperate with Congress in a study of whether federal loans to private secondary schools can be made under the Constitution.

But Kennedy told a news conference he hopes Congress will act first and separately on a pending measure for federal aid to public secondary schools.

Kennedy promised also that the administration will cooperate with Congress, after action on this bill, in studying whether tax exemptions could be granted to parents of children in private schools—in lieu of direct federal aid.

At the same time, Kennedy expressed the hope that controversy over the aid-to-education bill and the related religious issue would not weaken the country in any way.

A reporter told Kennedy his election had been regarded in some quarters as a victory over religious prejudice. The newsman asked whether the President feels the current controversy over the education bill is provoking religious prejudice.

Kennedy replied he is hopeful that it will not do so. The reporter had spoken of what he called the inflexible stand of some Roman Catholic Church officials in seeking federal aid for parochial schools.

Kennedy said both Catholics and Protestants are entitled to their view and have a right to express their views.

The President said it is quite appropriate that these groups should "not change their views because of the religion of the occupant of the White House."

At the news conference, attended by 227 reporters, Kennedy also dealt with these other matters: LAOS—The United States is determined, Kennedy said, "to support the government and the people of Laos" in resisting what he called rebel attacks there "backed by personnel and supplies from outside."

This was an allusion to aid to the Communist rebels are getting from a Soviet ally.

Kennedy said the administration has been watching Laos with closest attention and hopes there will be a genuinely independent and neutral Laos — a country "in which the people are free."

DISARMAMENT—Kennedy said the United States now has suggested to the Russians that disarmament talks be resumed in August. He said this country's first belief that a government-sponsored labor-management conference scheduled for March 21 will lead to some success.

One problem that must be solved, he said, is that of American commodities being competitive abroad.

"I would think that both manufacturers and labor unions, and certainly the public, would want to see American industry remain competitive," Kennedy said.

"If we are not able to be competitive with a very strong and thriving industrial economy in Western Europe, we are going to find ourselves in serious trouble."

shorter week as a general policy for American workers.

Told that some labor unions have advocated shortening the work week because of automation and unemployment, Kennedy commented:

"I am hopeful that we can have employment high (sic) five days a week, and 40 hours, which is traditional in this country, and which is necessary if we are going to continue economic growth and maintain our commitments at home and abroad."

SMALL BUSINESS — Kennedy announced that the Army, Navy and Air Force have been instructed to allocate more defense contracts to small business firms.

He said their contracts with smaller firms amounted to \$3,440,000,000, or 16 per cent of their total contracts, in the fiscal year which ended last June 30.

"We are going to try to increase this by at least 10 per cent," Kennedy said.

MEDICAL CONFERENCE — A President's conference on heart disease and cancer will be held at the White House starting April 23. Announcing this, Kennedy said distinguished medical leaders from all sections of the country will participate.

HIGHWAYS — As for a request by New York Gov. Nelson A. Rockefeller that the federal government advance money to the states for highway construction, Kennedy said that will depend on what action Congress takes on the administration's request for additional funds to keep the interstate construction program on schedule.

ADMINISTRATION PROGRAM — Kennedy said he recognizes "that there are important and powerful and well-organized interest groups in this country" which are opposed to such administration programs as school aid, a higher minimum wage, medical care for the aged, and "more adequate return for the farmer."

Such groups, Kennedy went on, "have been successful in developing mail campaigns of one kind or another which tend to give an impression that there is widespread opposition to increasing, for example, the minimum wage."

But he added that the Gallup Poll recently showed that over 75 per cent of the people are in favor of increasing the minimum wage.

So, said the President, "we are going to continue to work for these programs, and I am very hopeful that before the year is out they will have passed."

LABOR — MANAGEMENT — Kennedy said he is convinced that there is sufficient urgency to warrant belief that a government-sponsored labor-management conference scheduled for March 21 will lead to some success.

One problem that must be solved, he said, is that of American commodities being competitive abroad.

"I would think that both manufacturers and labor unions, and certainly the public, would want to see American industry remain competitive," Kennedy said.

"If we are not able to be competitive with a very strong and thriving industrial economy in Western Europe, we are going to find ourselves in serious trouble."

JFK Opposed
To Shorter
Work Week

WASHINGTON (AP) — President Kennedy said today he is opposed to a shorter work week. Kennedy told his news conference he is unhappy because the declining economy has reduced the work week for many below 40 hours.

The President was asked if he agreed with some labor union proposals that shorter hours might be one of the solutions to the present level of unemployment.

Kennedy replied that he hopes the 5-day, 40-hour week can be continued. He said it is necessary if the United States is going to continue economic growth.

"I would be opposed to any arbitrary reduction of the work week," Kennedy said, "and I am unhappy when I see the work week reduced artificially, in the sense that the pressures of a declining economy reduce it so that we get averages of 38.5 hours a week instead of the 40 hours a week."

Kennedy drew a laugh from reporters when he said that personally he would prefer a shorter work week, but he was opposed to curtailing work time in industry.

He said he hopes that the number of jobless, which now ranges around 6 per cent of the work force, can be reduced to 4 per cent or less. But he noted that even in peak economic periods in 1957 and 1959 there were still many unemployed in some areas of the country.

Fog Hampers
Coast Travel

BY THE ASSOCIATED PRESS
Heavy fog that hampered air, sea and highway traffic struck the Gulf Coast section of central and eastern Texas Tuesday.

Summerlike temperatures also returned after the state had the hottest temperatures in the nation for three straight days. Forecasts called for maximums near 90 degrees in extreme southwest Texas and in the middle 80s for the rest of the state.

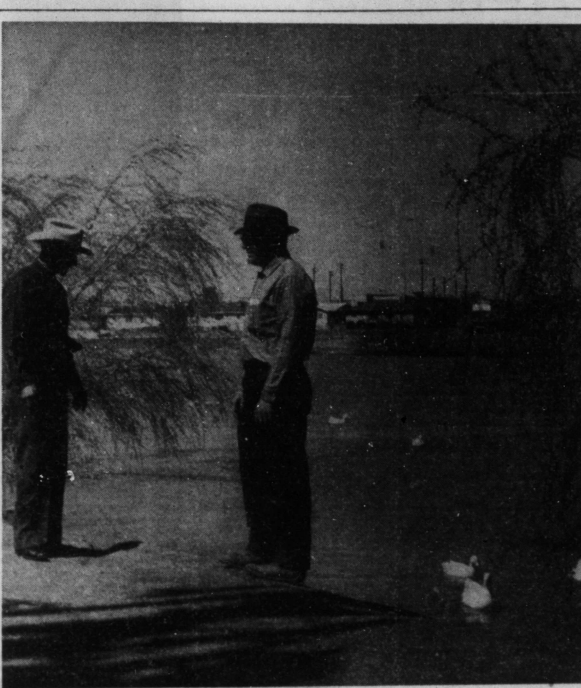

The morning fog shrouded Houston, Beaumont and Galveston areas and posed a danger for a traffic jam of all kinds. A light drizzle fell out of cloudy skies at Austin, although no precipitation was in late forecasts.

Cloudiness prevailed over South Central Texas and the Gulf coastal areas, but the state was clear elsewhere.

The U.S. Weather Bureau said that a weak front that had edged into the northern part of the Panhandle is expected to back out of the state during the day.

Early morning minimum temperatures ranged from 34 degrees at Dalhart to 69 at Corpus Christi. Presidio was the hottest spot in the country Tuesday with a maximum of 92 degrees. Most points reported readings in the 80s, and Corpus Christi was the coolest point with a 75-degree maximum.

Brisk winds, expected to return Wednesday, were clocked at up to 35 miles an hour in gusts at Lubbock.

NEW FISH FOR TOWLE PARK LAKE—Roy Linn, representative of the Texas Fish and Game Commission, stopped in Snyder Tuesday afternoon to look over the lake in Towle Memorial Park with an eye to restocking it with adult fish. Linn, on left, told park superintendent Russell Jones Jr. that although most lakes are restocked with baby fish there is a possibility of acquiring enough adult fish for the Snyder lake.

9-Day Pattern Set
For April Oil Flow

By ED OVERHOLSER

AUSTIN (AP)—The Texas Railroad Commission today cut the statewide oil allowable for April by 128,000 barrels a day, fixing the statewide allowable at 2,882,021 barrels daily.

Texas wells will be allowed to produce only nine days next month as compared with ten days during March.

Major oil companies and the independent oil producers' association were split in their recommendations to the oil regulatory agency between eight and nine days production patterns.

Seven of the 12 companies making nominations to the commission recommended an eight-day pattern, which would have slashed the oil allowable by more than 312,000 barrels a day.

Presidents and top executives of the nation's 29 largest oil companies reported data on stock inventories and desired levels of crude and four other principal products.

The totals of all companies reporting showed crude oil stocks to be 8,469,800 barrels below the desired level; gasoline 4,777,500 above the desired level; kerosene 1,479,800 barrels above the desired level; distillates 6,453,300 barrels above and residuals 1,230,200 barrels below the desired level.

This reflected an over-all surplus of 2,930,000 barrels more than the companies considered desirable.

The board discussed informally the policy of prohibiting high school pupils from bringing automobiles to school. Some board members said they believed there were some instances where the spirit of the rule had been violated, although cooperation of parents generally had been good. They told administrators to continue enforcing the regulation.

Ray Hout, local insurance agent, inquired about the possibility of revising the school's hospitalization insurance coverage this year.

Supervisor T. E. McCollum and Doug Flynn, school business manager, were instructed to bring detailed information on such insurance to the next regular meeting and a decision on future plans will be made at that time.

Mitchell Jackson, another insurance agent, submitted a proposal to make available to school personnel a retirement annuity program with board approval. He presented each board member with detailed information on the proposal, and the board indicated that action would be taken at a future meeting.

Frank Stephenson discussed with the board some problems in parking facilities at the high school football stadium. Stephenson, appearing in behalf of veterans organizations who handle the parking detail for football games,

made some suggestions for improvements of facilities. The board indicated that these would get prompt consideration.

Edgar Taylor, who serves as special collector of delinquent taxes for the school system, discussed his work briefly, and was granted a contract for another year.

Supr. McCollum was instructed to bring recommendations to the board on replacing some school motor vehicles, including driver education cars.

McCollum reported that J. B. Thomas, president and general manager of Texas Electric Service Co., would be guest speaker at the high school commencement exercises this year.

The board scheduled a special session for 7:30 p.m. April 4 to canvass votes in the April 1 school election.

WEATHER

SNYDER TEMPERATURES: High Tuesday, 80 degrees; low, 42 degrees; reading 41° at 10 a.m. 10:30 a.m. 80 degrees. North Central and Northeast Texas: Generally fair and windy Wednesday afternoon. Partly cloudy Wednesday night and Thursday. Few thunder showers south portion Thursday afternoon. Low Wednesday night 56 to 64. High Thursday 78 to 86. Northwest Texas: Clear to partly cloudy and windy Wednesday and Thursday. Few thunderstorms Thursday and south plains late Wednesday. Little cooler as we move north Wednesday afternoon. Little warmer next Wednesday night. Under southeast Thursday. Low Wednesday night 42 to 50. High Thursday 78 to 86. Southwest Texas: High Wednesday 78 to 86. Low Thursday 42 to 50. High Thursday 78 to 86. Low Thursday 42 to 50. High Thursday 78 to 86.

GET FARM LEGISLATION FORECAST—House Speaker Sam Rayburn (D-Tex.) tells newsmen at the White House after a conference of administration congressional leaders with President Kennedy that the president will submit his farm legislation program very soon. Rayburn is flanked by Sen. George Smathers of Florida and Vice President Lyndon Johnson. (AP Wirephoto)

Kennedy Set
To Present
Farm Plan

WASHINGTON (AP) — President Kennedy is expected to ask Congress Thursday to approve a farm setup under which growers would write their own crop programs, subject to legislative veto.

This would be radically different from existing farm programs, although the idea is not new. Legislation along those lines was defeated last year after being introduced by a group headed by Rep. W. R. Poage, D-Tex. Similar proposals also have been made in the Senate.

Congressional sources said the President will seek a broad delegation of powers to him and to Secretary of Agriculture Orville L. Freeman to deal directly with farmers in forming programs embracing kindred and competing commodities.

The farmers themselves would be asked to agree on the type of federal controls, price supports and other government programs they believe workable for the particular group of growers involved.

As an example, growers of wheat, corn, oats, grain sorghum and kindred crops would be asked to form their own program. Another group might include producers of cotton seed, soybeans and peanut oil.

The hoped-for result would be to take out of the hands of Congress the job of having to draft intricate and controversial legislation covering the diversified field of agriculture.

This would apply to the farm problem the same principle involved in congressional grants to the President to reorganize government departments and agencies.

Sales Tax Supporters Due
To Appear At Hearing Today

AUSTIN (AP)—Sales tax supporters get their say today. Two proposed general sales tax measures boosted as possible cures for the state's 1962-1963 financial ills have a 2:30 p.m. date with the House Revenue and Taxation Committee.

However, before getting into exclusive sales tax arguments legislators approached two other important issues.

The Senate had ready for debate a House-approved measure (HJR46) proposing that the state be allowed to purchase space in federal and local reservoirs as a guarantee of the state's future water needs.

At the top of the House calendar was a Senate-approved bill (SB39) making it a felony offense to falsify or forge a state excise tax return.

This afternoon will be the first time for sales tax proposals to move directly into the legislative limelight. Gov. Price Daniel and other enthusiasts of selective sales taxes frequently have accused the

backers of a general sales tax with obstructing passage of Daniel's deficit financing measures. Three deficit-solvers have been defeated in floor action and at least one more is stalled in committee.

The House tax group is scheduled to hear proposals for similar 2 per cent general tax measures originally introduced by Reps. John Allen, Longview, and Charles Wilson, Trinity. However, Wilson's bill may be the only one formally considered. Allen said Tuesday night that he had asked for a hearing of the week of March 20 and would not be ready to present witnesses before then.

The legislature spent much of Tuesday locked in debate over a milk imports bill.

The bill (SB17) setting up the same health standards for milk brought into Texas as those required of domestic milk production breeched through the Senate 29-2. However, it hit a snag in the House.

Rep. Jack Woods, Waco, who

Senate Campaign Is Gaining Steam

By CLAYTON HICKERSON, Associated Press Staff Writer

The massive U.S. Senate race in Texas took on sudden heat Wednesday and other interest quickened in the campaigns of at least some of the 70 candidates for Vice President Lyndon B. Johnson's old job.

Attorney General Will Wilson and former state Rep. Maury Maverick Jr. both struck back strongly at John Tower, the Republican who calls himself "the only real conservative in the race."

Indirectly at least, Rep. Jim Wright, the Fort Worth congressman joined in the "get Tower" move with endorsement of the Kennedy administration's Peace Corps.

Tower said Monday the Peace Corps amounted to "sending a bunch of starry-eyed radicals abroad who will do nothing more than apologize for the American system. He also had asked Wilson's resignation from the state vote canvassing board, inferring that Wilson was sure to lead in the vote count if he stayed on the board.

Maverick answered quickly on the Peace Corps. "I suggest that

Mr. Tower wait and see," he said, "wait and see whether the young Americans in the program are really good people or fine young men and women."

Maverick said Tower has held himself true to Republican Party traditions. "Confronted with any great new idea...he replies 'no, no, no,'" Maverick added.

Wilson told Tower in a telegram, "You apparently have sensed your impending defeat. I deeply resent your unwarranted assumption...that the hundreds of good people who serve as election officials...will not honestly perform their duties."

Wilson wound up a two-day tour of the Dallas area with a speech at the huge Chance Vought plant, a hand-shaking tour of Garland, Richardson and Dallas shopping centers. He held a televised news conference in Dallas Tuesday night.

Wright, appearing at Southern Methodist University in Dallas, expressed approval of the Peace Corps, opposed recognition of Red China and told the student gathering that communism will gain supporters until Latin America is offered an opportunity of self-help.

Tower, stepping up his campaign in the last two weeks, was to have Senator Barry Goldwater, Arizona Republican, as a traveling companion.

Goldwater, the outstanding spokesman for the GOP's extreme right wing, will begin his talks for Tower and conservatism in Austin Friday with a 10-plate breakfast. They'll visit San Antonio later in the day and end up that night at a Dallas rally.

Another of the so-called "lesser candidates" made himself heard in San Antonio.

Dr. G. H. Allen urged voters to drop such candidates as Bill Blakley, Wilson, Wright and Tower and wound up his talk with the Biblical quotation, "And ye shall know the Truth, and the Truth shall make you free."

Allen, a retired veterinarian, said he was a conservative and would "stand by the Constitution and the rights of the states as set out therein."

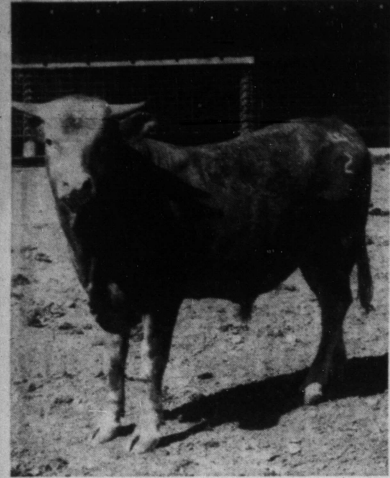

Observers believed much of the new vigor in the race was brought on by Wednesday's start of absentee balloting. Some believe that the unprecedented number of candidates in the campaign, if it accomplishes nothing else, will bring out a big absentee vote.

Blakley's headquarters reported he would start the "intensive phase" of his campaign Thursday with appearances in Shamrock and Childress.

State Senator Henry Gonzalez planned a half-hour television appearance in San Antonio Wednesday night.

Wilson planned to be in Abilene and Big Spring Wednesday, Houston and Galveston on Thursday and Friday, and in El Paso Saturday.

Tower was in Orange and Beaumont Wednesday.

PRIME STEAK ON THE HOOF—Don Gibson of Cloiremont Road recently donated the above Beefmaster calf to the Scurry County Boys' Club, and the 900-pound beast will be disposed of soon in helping to lower the Club's indebtedness. The 8-month-old calf, which will be on display this afternoon in the Highland Shopping Center, will dress out at approximately 65 per cent. (Photo by Jackson)

Soviets Push For Debate On Congo

UNITED NATIONS, N.Y. (AP)—The Soviet Union pushed today for immediate General Assembly debate on the Congo to gain a wider hearing for the Soviet blasts against the new confederation form of government developing in the chaotic African territory.

After a week of marking time since it resumed its session, the assembly showed signs of getting down to work. U. S.-Soviet negotiations to trip the agenda collapsed Tuesday, with the Soviets adamant in their rejection of an American proposal to postpone most items on the agenda—and chiefly disarmament—until the fall. The United States in turn, rejected a Soviet proposal to drop the Soviet complaint against U. S. reconnaissance flights if the charges of Communist suppression in Hungary and Tibet were dropped.

Soviet delegates roamed the U. N. corridors seeking to line up Asian-African support for an immediate Congo debate. The Soviets charged that the agreement between the Congolese political leaders meeting at Tananarive, Malagasy, last week to replace the federal form of government in the Congo by a confederation of semi-independent states was a Belgian trick to break up the new African nation and keep a foothold in rich Katanga Province.

The Soviet charge was echoed by the government-controlled Congo press, which said the United Arab Republic would request an urgent session of the Security Council to "discuss the conspiracy to dismember the Congo."

The United States and its major allies consider that the confederation plan is a more realistic arrangement for the Congo than the unworkable system of central control left by the Belgians, which collapsed in a welter of tribal and sectional rivalries soon after independence was won last summer.

The Soviets, the U. A. R. and certain other African backers of the late Patrice Lumumba want a strong central government headed by Antoine Gizenga, the pro-Communist leader of the regime in the eastern Congo, who boycotted the Tananarive conference.

DIPLOMAT TURNED BUS BOY—Rodrigo Parojon, former Cuban consul in San Francisco, handles a tray of dishes in his new job as bus boy at Harrah's Club in Stateline, Nevada. The 44-year-old Cuban attorney quit his diplomatic job in protest to what he calls communist influence in the Castro regime and after weeks of looking for work settled for this job. (AP Wirephoto)

Resuscitator Display Set

THE LOOF Lodge No. 194 will hold open house Thursday night at their hall located at Twenty-seventh Street and Avenue Z for the purpose of demonstrating the new resuscitator of the fire department.

The doors will open to the public at 7:30 p. m. with demonstrations of the resuscitator by Snyder firemen to go on all evening as long as anyone is interested in the life-saving mechanism.

One of the new models which will aid three persons at one time, the resuscitator is adjustable to help as help is most needed in cases of heart attack, drownings, traffic and sport mishaps—just anywhere a person is having difficulty with his breathing.

One of the main features is the complete takeover of breathing in the few seconds after a person has stopped breathing in which an otherwise hopeless case can be revived. It can force particles out of the breathing track, while on the other hand it can gently aid a tiny baby in respiratory difficulties.

Refreshments will be served at the open house.

The United States contributes nearly one-third of the UN budget.

McFarland Rites Today

Funeral services for Armer Ray McFarland were to be held at 2 p. m. today in the First Methodist Church with Rev. David Hamblin, pastor of the Trinity Methodist Church officiating, assisted by Rev. R. Charles Spivey, pastor of the First Presbyterian Church.

Burial was to be in the Snyder Cemetery under the direction of Bolger Funeral Home.

Born Feb. 25, 1883, in Fannin County, Mr. McFarland had resided in Scurry County for 65 years before moving to Olden four years ago. He died Tuesday in an Eastland hospital.

He is survived by his wife; one daughter, Eda McFarland of Houston; one son, Armer McFarland of Snyder; one brother, Roy McFarland of Snyder; three sisters, Mrs. H. P. Winter, Miss Dessie McFarland, and Miss Claire McFarland, all of Snyder; three stepdaughters; one stepson; and three grandchildren.

Funeralbearers were to be Paul Keaton, Jervis Bullard, Dewey Denson, T. A. Echols, James Rosser, Giles Bowers, Lewis Blackard, and Bruce Murphy.

Texas Rangers Are Assigned To Beaumont

AUSTIN (AP)—Texas Rangers have been assigned to Beaumont and Jefferson County to follow up their previous raids and investigations, Gov. Price Daniel said today.

In a joint announcement with Department of Public Safety Director Col. Homer Garrison Jr., Daniel said the Rangers also will assist in other law enforcement matters.

"The unusual situation in Jefferson County calls for continued assistance and protection of those who are working for enforcement of the laws," Daniel said.

Atty. Gen. Will Wilson recently asked for the ouster of Beaumont District Attorney Ramie Griffin. The Texas Supreme Court Tuesday upheld Wilson's contention that either Beaumont's 136th District Judge Harold Clayton or the Criminal District Court there has authority to remove Griffin.

The House General Investigating Committee conducted widely publicized hearings in Beaumont and Port Arthur late last year into allegations of widespread vice and alleged breakdown of law enforcement there.

"The Department of Public Safety assisted both the House Investigating Committee and the Criminal District Court in their investigations, and the Rangers will be available for any further help that may be needed," Daniel said.

Five men were indicted Tuesday in Beaumont on bribery charges. The grand jury accused Sheriff C. H. Meyer and three other peace officers of taking bribes. It charged C. H. Helms, Beaumont juke box distributor, with paying them for letting him operate pinball machines as gambling devices. Others billed by the grand jury are former Port Arthur Police Chief G. B. Douglas and Constables O'Neil Provost of Port Arthur and G. B. Graham of Grove.

Garrison was asked to expand on the reference to "protection of those working" on law enforcement. He replied that he would prefer not to comment or enlarge on the statement "at this time."

Air Routes Are Granted

WASHINGTON (AP)—The Civil Aeronautics Board Tuesday awarded air routes to Delta and National Airlines in the celebrated Southern transcontinental case.

Continental, Eastern and American airlines were granted additional routes.

Braniff failed to obtain a route from Texas to Miami, Fla., as originally recommended by a CAB examiner.

National was extended beyond Houston to Los Angeles and Long Beach, Calif., via San Diego, and beyond Houston on a more northerly route by way of Las Vegas, Nev., to San Francisco and Oakland, Calif.

Delta's route was extended from Fort Worth to Los Angeles and Long Beach by way of San Diego, and to San Francisco and Oakland by way of Las Vegas.

NEW OFFICERS—At a meeting Monday afternoon of the Central Elementary Parent-Teachers Association the above group were elected to office. They are standing, Mrs. Faye Deffebach, treasurer, and Mrs. Bill Watson, secretary. Seated, Mrs. June Bellamy, first vice president, and Mr. Michie Brous, president.

Family Needs Discussed At P-TA

The Central Elementary Parent-Teachers Association met Monday afternoon in the school auditorium for election of officers and a special program. Mrs. Bill Butler, outgoing president presided.

The meeting was opened with a devotional by Rev. Jimmy Nelson of the Colonial Hill Baptist Church. Theme of the program was "Basic Needs of the Family." A panel discussion was held and the theme was broken down into three parts with Mr. M. E. Stanfield speaking on education, Mrs. Paula Williams on health, and Mr. Richard Williams of the Eastside Church of Christ speaking on religion.

The children and parents of Central are observing this week as "Teachers Appreciation Week" bringing tokens of appreciation to their teachers and keeping cookies and cake in the lounge during the day for teachers enjoyment.

Balance Is Not Only For Seals

If you are one of 30 million underweight Americans, look carefully to the seal, a champion at balancing. His talent is your cue: Achieve ideal weight, then balance the amount of food you eat with the amount of energy you should eat. Underweights do not eat enough to achieve this ideal.

The solution seems simple: Eat more food. But often those who want to gain have small appetites and a limited capacity for food. Nutritionists offer these helps:

Relax at mealtime. Some people find mellow music helps. Enjoy your meals. Don't think about the amount you should eat. Have set times for meals and eat regularly.

Keep servings small at first, if your appetite is small. Don't put too much food on your plate. Gradually increase the amount you eat.

Limit the size of snacks, and time them so that they will not spoil your appetite for regular meals. Spurge only after the evening meal.

Get plenty of rest to make the food you eat go further. Exercise to relieve tension, to sharpen your appreciation for food.

Indulge, as often as you like, in an extra pat of butter, cheese with your crackers, an extra tablespoon of salad oil, ice cream on your pie. Cook your morning cereal in milk.

Be a real champion in balance. Don't stop with balancing the amount of food you eat with the amount of energy you spend. Be sure to single out liberal amounts of nutrient-rich foods: Enriched or whole grain bread or cereal, milk or cheese, meat or an alternate, fruits and vegetables.

FHA Girls To Attend Area Meet

Nine Future Homemakers of America of the Snyder chapter will attend an area FHA meeting in Odessa March 17-18.

Those who will attend are: Teri Gebhart, president; Elizabeth Williams, vice president; Dianna Hill, secretary; Sandra Stevens, treasurer; Kathy Howard, social chairman; Georgia Spence, pianist; Kay Smith, parliamentarian; The da DeShan, song leader; and Diana Westfall, reporter.

Miss Vera Periman and Mrs. Dan Martin will accompany the group.

STAFFORDSHIRE TRINKET BOXES: These popular collectors' items are decorated with children.

Antiques Can Be Inexpensive Hobby

By VIVIAN BROWN
AP Newsfeatures Writer
YOU CAN COLLECT antiques on a small budget.

Young people who yearn to own something old can satisfy the whim by starting a collection of little or less expensive objects such as boxes.

Boxes can serve as handsome home accessories, too. Use them for letters, stamps, cigarettes, powder, hair ornaments, pins, buttons, plants, flowers, pencils or spices.

Many old boxes are available in the less expensive category, as one might observe by browsing through the antiques fair at New York's Coliseum to note the sizeable collection of boxes corralled by antique dealers.

There are bride's boxes, gifts from grooms to their brides for fiery, colorful boxes of thin wood imported from Switzerland and Bavaria by the Pennsylvania Dutch. There are bonnet boxes, sometimes called Hannah Davis boxes, named for the woman who sold them in New Hampshire. Band boxes made of cardboard or thin soft wood with bottom and cover of pine have been kept in meticulous shape through the years.

It's a caddies, boxes made of wood, pewter, silver, tortoise, lacquer, mother-of-pearl, enamel and tin were styled according to the furniture of the period with two compartments for tea or plants.

Patch boxes of metal, Battersea enamel or fine Staffordshire china dating back to the early 1700's are fun to collect, decorative in the home and useful for small objects, such as pins. Ditto snuff boxes made of more common materials such as tin, pewter, horn, brass or papier mache, and often bearing prints of historical subjects. Kitchen boxes are the most popular of all. Candle boxes with sliding lids, dough boxes, knife boxes and spice boxes are still useful in the kitchen and other areas of the home. Oblong dough boxes with legs are now used as low end tables. Knife boxes with handles are useful for that purpose once again, but can be used as nut boxes, sewing boxes or catch-all boxes. Salt boxes and dredgers, boxes with perforated lids to sift flour on meat, made of wood or earthenware combined with wood are still useful on the wall of the modern kitchen. Spice boxes with special compartments for spices are still useful for that purpose or for crochet materials. Ingenious uses can find many old uses for kitchen boxes.

Jewel boxes and chests usually

are elaborate. French boxes include those of bronze dore with Sevres plaques, floral enamels. There are also lacquered leather Chinese boxes, and boxes of which Pandora never dreamed—they are that mysterious in appearance, and don't offer a clue as to their original use.

Important Mr. Lipchitz

JACQUES LIPCHITZ: HIS SCULPTURE. By A. M. Hammer. Lipchitz' long career has brought him to a kind of manipulative expression in which the movements of his own hands are the real subject of his work. But because he also has been associated with cubism, abstraction, the employment of voids, surrealism and free association, he has to be counted as doubly important in this century.

Hammer is director of Holland's Rijksmuseum Kroller-Muller. He has done a thorough job, and his scholarly approach does not hamper the general reader. He includes source material, comments from critics and quotations from the sculptor. There also is an introduction by Lipchitz.

The illustrations are plentiful, 159 plates, well done.

Miles A. Smith

Mrs. Patterson Takes High At Bridge Club

The El Gato Bridge Club of Pluvanna met Tuesday in the home of Mrs. Joe Landrum with four tables in play.

Mrs. Patsy Aaron, Mrs. Nelda Jones, Mrs. Linda Beavers and Mrs. Jacqueline Wills were visitors. High score went to Mrs. J. D. Patterson with a close second by Mrs. Don Jones.

Refreshments of punch and a salad plate carried out the St. Patrick's theme.

Openings between rooms that are too wide for standard size doors can be closed off with sliding panel doors or folding doors.

NRLCA Banquet Held At Hermleigh

The Rural Letters Carriers of the Southwest Texas local and the Ladies Auxiliary held their annual meeting and banquet Saturday evening at 7 o'clock in the Hermleigh High School cafeteria.

The ladies of the Cafeteria prepared and served the meal.

John S. Stewart of Sweetwater gave the invocation. Guest speaker for the evening was Mr. Cecil Sharbutt of Levelland, a member of the State Board of the Texas NRLCA. He was introduced to the group by Surry Gillum, vice president of the local organization.

Mr. Sharbutt spoke on a number of important benefits for the carriers. Bob Emerson of Rocco, president of the local organization, spoke to the group and made a special welcome to Mrs. Roscoe Smith of Roby, a member of the state board, and also to the retired and sub carriers. Mr. Emerson then dismissed the group to their business meeting.

Those attending were: Mr. Cecil Sharbutt and son, David of Levelland; Mr. and Mrs. John S. Stewart, Mr. and Mrs. L. Z. Harvey, all of Sweetwater; Mr. and Mrs. Roscoe Smith, Roby; Mr. and Mrs. S. P. Smith, Blackwell; Mr. and Mrs. Charles Williams, Colorado City; Mr. and Mrs. E. E. Smith, Mr. John Williams, Mr. Eddie Mooser, all of Colorado City; Mr. Bob Emerson, Roscoe; Mr. and Mrs. Willie Kimsey, Mr. and Mrs. M. U. Vernon, Mr. and Mrs. Glenn Tate, Mr. and Mrs. Marvin Hanson, Mr. and Mrs. Surry Gillum and sons, Surry, Ross and Randy, all of Hermleigh.

WOMEN'S CALENDAR

THURSDAY

Pyron Home Demonstration Club meets at 2 p. m.

Hospital Auxiliary will meet at the Martha Ann Woman's Club at 9 a. m. for an executive meeting, followed by annual general meeting at 10 a. m.

FRAGILE: HANDLE WITH CARE

Civil Defense Stands In Need Of Energetic Selling Drive

BY INEZ ROSS

One way or another it is always difficult to sell people on salvation. But if civil defense is to be anything but a continuing fiasco, then salvation in case of nuclear war is going to have to be sold to the American people. Furthermore, it'll require a hard sell. That, in one woman's opinion, is the major problem of Frank B. Ellis, director of the Office of Civil and Defense Mobilization who is preparing a new program of civil defense for presentation to the President.

Surely, few persons will want to argue with Ellis's estimate of the present civil defense program as "completely inadequate." Worse, the program has been completely unrealistic from the beginning. More than 10 years ago I was horrified at New York City's first civil defense exercise. As one who had had some small experience with non-nuclear bombing in England and Africa in World War II, I was appalled that officials could pretend to themselves or the public that persons were safe as long as traffic was stopped and everyone was off the streets and sidewalks.

The fact that hundreds of thousands of persons were herded off sidewalks and crowded behind plate-glass windows on the city's major avenues was—and is—a wanton mockery. Even a small World War II bomb would turn that glass into lethal shards that would cut hapless persons to ribbons. That has set the pattern for every civil defense exercise since, an exercise in futility that is dangerous, useless and deceitful. How many persons have been cheated into a false sense of security by such tactics?

Earnest and honest persons have worked at the civil defense pro-

gram, but the program itself has never faced up to the task of nuclear defense for the civilian population nor has the populace been educated either to want or demand adequate protection.

Part of the Congressional and civilian indifference to national salvation in case of nuclear attack is probably traceable to the fact that all of us, confronted with the terrible statistics of nuclear destruction, stick our respective heads in the sand. It is almost impossible for us to grasp the fact that a minimum of 200,000 to 400,000 of us could die in the first attack and that as

Priest Transferred After Demonstration

OKLAHOMA CITY (AP)—The Rev. Robert McDole, a Roman Catholic priest who has twice been arrested for participation in racial demonstrations at an Oklahoma City cafeteria, said Tuesday night he is being transferred Saturday to another state church.

Father McDole, assistant pastor of the Corpus Christi Church here, will fill a similar position at St. Mary's Church in Ponca City. The priest was arrested last January on a disorderly conduct complaint but it was dismissed in municipal court. He was among 13 persons arrested Saturday on a similar charge and the cases were set for hearing March 27. Father McDole said he could not comment whether his transfer was a result of his participation in the demonstrations.

Henry Walls, of the famed Wells Fargo Express Co. also founded Wells College for Women in Aurora, N. Y.

Teeth You Save May Be Your Own

By HAL BOYLE

NEW YORK (AP)—How sure are you of your own teeth? Nearly 22 million Americans don't have teeth, about 13 per cent of us all. The tooth you may save by brushing could be your own.

Here's an old reminder of a present truth: One marriage in four ends in divorce.

I am informed that if you melted the Statue of Liberty down, you could make 30 million pennies from the copper of it. But since the old girl has given 10 times that many golden dreams, it is likely we can overlook it to afford to keep her on her same old stand-better investment.

Can you name four animals whose names end in "x"? Don't overlook ibex, lynx, fox and ox.

Five years after cancer is recognized in women, 37 per cent of them are alive; of men, 35 per cent endure.

Someone has figured out that 61 per cent of new car buyers live in the suburbs.

Nature note: The snail, often rebuked for its slowness, has a top speed of three inches a minute, yet retains an overlooked virtue—it is strong. It can pull up to 200 times its own weight.

Bad insects make us neighbors. Japan is troubled with an insect pest there called the Colorado beetle. Here it is called the Japanese beetle.

It was just 60 years ago that—in Wichita, Kan.—Carry Nation made her first hatchet raid against a saloon. You just never see girls like any longer, although here and there you do encounter one who attacks a deaf bar with a broken martini glass while crying for more.

A nice hope: The average baby born in the United States today can expect to live half again as long as one born in 1900. The next problem is to explain to it why it is all worthwhile.

Here's a funny discovery: Psychologists have found that students who have the highest I.Q. and make the best grades also generally have the widest and readiest sense of humor. Moral: If you want better grades, laugh harder—particularly when the professor tells a joke.

How much do you dream? Science has found, about 20 per cent of the time, asleep. Awake, on the job? Well, what does your boss think of you?

The average American housewife carries out about 1,000 pounds of garbage yearly.

It was Joseph Hergesheimer who observed, "So long as you are learning, you are not growing old. It's when a man stops learning that he begins to grow old."

San Antonio Man Fined On Tax Count

WACO (AP)—Gilbert E. Kinder of San Antonio was fined \$7,500 and sentenced to three years in prison Tuesday for filing false income tax reports.

U.S. Dist. Judge Ben H. Rice Jr. told Kinder that if he would pay the fine within 60 days that the prison sentence would be suspended and he would be under probation three years. Kinder, partner in a San Antonio construction firm, pleaded guilty March 1.

Thoth, the ancient Egyptian god of letters, was known as the clerk of the underworld. He was represented as carrying a tablet, pen and palm-branch.

THE END—This overhead view of the sixth round of the heavyweight title bout at Miami Beach, Fla., between champion Floyd Patterson and Ingemar Johansson shows the challenger heading for the canvas for the last time in the match. (AP Wirephoto)

Tax Problems Rise Up To Plague Ingo

By MURRAY ROSE
Associated Press Sports Writer
MIAMI BEACH, Fla. (AP) — Ingemar Johansson, the Swedish boxer, is being belted by a \$1-million tax claim, which is scheduled to battle another round with the U.S. government today while Floyd Patterson headed home to figure out whom he is going to slug next.

The heavyweights champion, a knockout conqueror of the big Swede in the sixth round Monday night, probably will face England's Henry Cooper in New York next June or September.

Sonny Liston of Philadelphia, Eddie Machen of Portland, Ore., and other contenders have been mentioned as possibilities. But Cooper, unbeaten in his last seven fights, is understood to have the inside track if he gets by Welshman Joe Erskine in London next Tuesday night.

Johansson had hardly recovered from his kayo defeat when Uncle Sam tossed another financial haymaker at him. This time the man with the beard demanded another \$411,620 for 1961 to go with a back tax claim of \$588,181 for 1959 and 1960.

In addition, the U.S. Immigration Service handed Ingo an order temporarily banning his departure from this country. He probably will lounge around in the sun at Palm Beach for a week or so.

The 28-year-old businessman-fighter was subpoenaed for a U.S. courthouse appearance at Miami today. The government says he

aimed at tying up any funds Ingo may have received in advance as well as money promised him by Feature Sports Inc. and Tele-Promote. TPT handled the television, movies and radio rights on the Patterson-Johansson fight.

Johansson already has received \$550,000, including \$300,000 for 1959-60 and \$250,000 for the third fight. This has been transferred to a Swiss bank. Johansson claims Swiss residence and says he is an employee of Scanart, a Swiss corporation.

Johansson's lawyer, Matthew Manners of New York, contends

Ingo does not have to pay U.S. taxes because he pays Swiss taxes—a light title of about 10 percent compared to the 37 percent bracket he falls into here.

Manners claims that under a treaty with Switzerland, the United States is not entitled to taxes on money earned by the Swiss Corporation.

Johansson earned about \$715,000 Monday while Patterson grossed close to \$1 million.

Patterson said he wanted to fight more often "despite the government." He was referring to the imposing tax he will have to pay.

Westerners Edge Tigers, 3-2

The Lubbock Westerners, spurred on by a five-hit pitching effort by righthander Dave Whiteside, edged past Snyder's Tigers here yesterday, 3-2. The visitors' triumph upped their season mark to 3-4 and tended to drop the Tigers to an identical figure.

Failure to capitalize on scoring opportunities plagued the Snyder team through much of the game, as the locals left nine baserunners stranded over the course of the evening to only five for Lubbock. Once, due to an odd quirk of fate in the sixth inning, the first two Snyder hitters up in the frame landed base hits, after which batsman number three strode up with a bases empty situation staring him in the face.

Weldon Ware started things off in the inning by pushing a line double to left, then took third when an attempted pickoff play at second backfired. Bennie Greenfield next lofted a short pop-up between pitcher and second, which Westerner second baseman Buzzy Henderson tried unsuccessfully to shoestring, the ball dropping just in front of him for a single. At that point Ware broke for the plate in an attempt to score, only to be cut down. On the throw home Greenfield hustled to second where a fate the same as Ware's awaited him as the Lubbock backstop rifled to second to nail him.

Bubba Fleming followed up by driving a single to dead center but advanced no further when Roger McMennamy whiffed to end the inning.

Lubbock boiled into the scoring column initially in the third frame. Whiteside laced a double to deep left and scored the first run of the contest when Tiger catcher Ronnie Wylie threw wild to first after a third strike pitch to Gary Knowles had gotten away from him, with Knowles wheeling all the way to third on the miscue. Knowles later scored when Wylie fired away to third trying to pick him off.

Snyder came alive in the fifth to tally a run of its own. Wylie began the inning by working White-

side for a free pass, after which he pilfered second and advanced to third on a scratch single off the bat of Mike Moffett. With two away Spencer Dyer sent a hopper to Westerner shortstop Phil Johnson which he failed to field, with Wylie scoring easily on the bobble. Lubbock added what proved to

OUT AT HOME—Snyder Tiger Weldon Ware executes a slide into home territory here yesterday, only to find the platter well-guarded by catcher Jerry Don Balch of the Lubbock Westerners, whose team eventually emerged victorious by 3-2 in a non-district encounter. The play transpired in the sixth inning, with Ware being called out by umpire M. L. Galloway, left. (Photo by J. C. Burton)

be the winning run in the sixth. Gary Dement singled to right, but was out at second as Henderson grounded into a fielder's choice. Henderson took second on a base-line single past third by Danny Davis, then walked in on another one-baser between third and short by Mike Webb.

After miffing the golden scoring opportunity in the home half of the same frame, the Tigers came back to throw a genuine scare into the visitors in the last-chance seventh. Wylie led off by sending a looping single into left center, then moved on to second when pinch hitter Charlie Gladson was clipped by a pitched ball. Moffett next grounded to short, with Gladson being forced out at second on the play and Wylie gaining third in the process. Steve Free walked to cram the sacks with only one down.

Spencer Dyer followed up by hitting a double play grounder to second sacker Henderson, who dropped the ball while tagging Free, who was homing in from first on the force. Wylie tallying on the play. That was the sum and substance of the Tiger fireworks in the inning, however, as Ware popped out to third and Greenfield lined out to short to end the game with the bases loaded.

Both Greenfield and Whiteside

toiled the entire game for their respective teams. Greenfield displayed remarkable control over the route, as he walked not a man throughout. The loss gave him a 0-1 record, while Whiteside boosted himself to 2-0.

The Snyder men next see action this Friday, when they trek to San Angelo for a joust with the Bobcats of that city. They are to

return home the day following for a twin bill against Big Spring.

LINDA WILLIAMS
Power Of Positive Serving

Denver City Edged, 24-22, By Tigerettes

It was a terrific tussle all the way, but one with a happy ending, as Snyder's Tigerettes won another one here last night, their eighth in nine starts—over Denver City, 24-22.

It was the final non-district test of the season for the local six, which travels to Sweetwater Friday for a resumption of 3-3A competition. That game had previously been slated to be played in Snyder, but a schedule switch yesterday altered the picture.

The Tigerettes, who held a shaky 18-15 halftime lead in last night's battle, led by only a single point with 32 seconds left in the game and the Denver City girls on the offense. The ball reverted to Snyder at that point, however, and Linda Williams served the point which put the game on ice.

Miss Williams was leading server for the locals, while Mary Ann Savage was the top spiker.

In a preliminary joust, the Tigerette "B" copied its fourth decision in five starts by rolling to a 27-20 win over their Denver City counterparts.

Serve Jan Fisher and spikers Jackie McNabb and Linda Cartwright paced the winning onslaught.

14-Year-Old Shares Lead

HARLINGEN (AP) — Defending champion Jeannie Butler and Wanda Sowell, the 1960 Texas Public Links champion, lead the way into today's second round of the 24th annual Rio Grande Valley Women's Golf Tournament.

Miss Butler, 14, of Harlingen, defeated Mrs. Gene Nations of Harlingen 7 and 5 in Tuesday's first round. Miss Sowell, Tyler, shot even par to defeat Mrs. Lynn Jones of Mission 7 and 6.

In the second round, Miss Sowell met Mrs. Ed Nordheim of Brownsville, first round victor over Mrs. J. L. Head of Harlingen, 1-up in 19 holes.

RED HOT TRIO—Nabbing the top individual laurels in the recent Men's City Association Bowling Tournament here were, from left, Floyd Allmand, Jeston Corbell and O. R. "Buster" Brown. Corbell copped the all-events trophy with a 1926 total, while Brown was the singles kingpin with 667. Brown teamed with Allmand to post a 1361 winning doubles total, also, in the annual handicap tourney. (Photo by Jackson)

Cure May Be Found For Mongolism

BY THE ASSOCIATED PRESS

Mongolism and a cause for hope, dogs and heart attacks, common colds, and sharp razors are subjects with a focus on health.

RAZOR'S EDGE

Razor blades take off four to 15 times as much skin as electric razors, say Boston researchers.

Seven times as many complaints of after-shave burn come from razor users as from electric shaver users in tests on 349 men and 120 women, indicates a report in *GP*, journal of the American Academy of General Practice.

HOPE FOR MONGOLISM

A young French scientist who has found a strange error in the body chemistry of mongoloid children now says: "There is no reason to say that mongolism is definitely incurable."

Tests on mongoloid children indicate the error may affect pro-

duction of a key brain chemical, serotonin. The discovery comes from Dr. Jerome Lejeune of the University of Paris who also found the children possessed an abnormal number of chromosomes—those delicate strands of genes that determine what will be. Dr. Lejeune recalled an experiment 23 years ago in which fruit flies with abnormal chromosomes suffered from small, slitted eyes. When fed corrective material, the fruit flies became normal again. So far Dr. Lejeune has been successful in finding an answer to human mongolism, reports *Medical World News*. In fact, Dr. Lejeune says the error may not be the only or the responsible one in mongolism, but it is a lead.

DOG WITH A HEART

Dogs often fall victim to one of man's big enemies, heart disease, a new report shows.

A study of 3,000 dogs by Univer-

sity of Pennsylvania veterinarians found 260 with reliable signs of heart disease and 322 others with suspected disease.

THE COMMON COLD

There may be no practical vaccine against the common cold. The reason: There are just too many kinds of common colds.

Researchers report several, perhaps many, viruses cause colds. And the prevalent viruses in your neighborhood are always changing. Chances are if you do pick up a particular cold, you won't catch the same one again that season, since the body builds up defenses against that virus.

I'M ONLY 39, REALLY

Men between the ages of 30 and 50 are the most frequent liars about their ages, a study shows. But women, although they lie less frequently, tell the bigger lies.

Wind Erosion Least Since Dust Bowl

TEMPLE, Tex. (AP)—Damage from wind erosion in Texas this year is the smallest since the pre-Dust Bowl days, the Soil Conservation Service says.

H. N. Smith, state conservationist of the service said Tuesday that only 24,370 acres were damaged in February and 93,148 acres have been damaged to date in 1961.

In the first two months of 1960, 358,119 acres were damaged and in February, 1960 the damage was 327,719 acres.

However, of 41,842,200 acres, 2,160,379 are still in a condition susceptible to wind erosion.

The sharp drop so far this year, Smith said, is the result of better moisture conditions, fewer days of high velocity winds, better crop cover and better soil conservation practices.

During February, the Pampa, Amarillo, Abilene and San Angelo districts report no wind erosion damage. The Big Spring District reported 22,900 acres damaged, the Lubbock District 2,000 and the Vernon District 270.

So far this year, there has been no soil damage in the San Angelo District. The Pampa District reported 35,800 acres damaged, the Amarillo District 255, the Vernon District 12,203, the Lubbock District 8,000, the Abilene District 360, and the Big Spring District 37,000.

Councilmen Plan To Serve Without Pay

MARIETTA, Pa. (AP)—For two years the eight members of this tiny hamlet's council each had been receiving \$5 a month for attending one meeting a month.

Burgess Robert Vandercle drew a salary of \$300 a year. Each councilman was getting \$500 a year.

Tuesday night council and Vandercle announced they were going to serve without pay for the rest of the year instead of raising taxes in order to help pay off \$3,500 the borough borrowed for operations. This means a maximum saving of \$600.

"Officials did not say how they planned to pay off the rest of the debt."

Dean Is Experienced Hand In Dealing With Commies

By BARRY SCHWEID

WASHINGTON (AP)—Arthur H. Dean, who will head the U.S. negotiating team in Geneva next week, is an old hand at bargaining with Communists.

He has haggled with them in a seemingly endless struggle to find a middle ground. He has stalked off when he thought the talks were getting nowhere and the Communists were getting insulting.

Dean, 61, a lawyer, did both in late 1953 in Panmunjom, Korea. He served seven weeks there as U.S. ambassador to planning discussions on a Korean peace conference.

He came away with this impression of the Communist North Korean and Chinese negotiators: "The Communists have been using the negotiations as a forum for their propaganda. It's all part of their psychological war. They insult you all day long."

When the long drawn out talks on a nuclear test ban resume Tuesday, Dean will be dealing with time with Soviet Communists. He has been instructed to keep talking as long as the negotiations show the progress needed to reach an agreement.

"We are going to use all of our powers of ingenuity and persuasion."

Dean has dealt not only with Communists in negotiating on behalf of the United States. He is not new to Geneva.

In 1958, and again last year, this specialist in international and corporate law headed U. S. delegations to Geneva conferences on the law of the sea. Each conference was attended by 80-odd nations.

Associates found Dean a forceful speaker whose statements were cast in popular phrases rather than in legalistic terminology.

A man who was to travel far afield in his later years, Dean went to school and worked at his first jobs in his hometown, Ithaca, N.Y., where he was born Oct. 16,

1898. He studied at the Ithaca High School and then at Cornell University, in Ithaca, helping to meet college expenses by working as a night clerk at a hotel and as a bookkeeper in a bank.

He interrupted his studies with Navy service in World War I, returning to the university after the armistice for his bachelor's and law degree.

Admitted to the New York bar in 1923, he joined Sullivan & Cromwell, a New York City firm of which the late Secretary of State John Foster Dulles was a partner. When Dulles became a U. S. senator in 1949, Dean succeeded him as the senior partner.

Dean was married to the former Mary Talbot Clark Marden on June 25, 1932. They have two children, Nicholas B. Dean and Patricia Campbell.

An associate of Dean has said: "His only hobby so far as I know is the law." He showed his dedication to it at Geneva, putting in long hours seven days a week and evidently enjoying it. He also spent quite a bit of his own money to entertain delegates in a manner he thought befitting the United States.

Shortly after his return from Korea, Dean defended himself against a charge by the late Sen. Herman Welker, R-Iowa, that he favored a policy of "appeasement" toward Red China.

"I am 100 per cent against appeasement or knuckling under."

to the best of my knowledge and belief I have fought the Communists at every turn." Dean said, "Communism is repugnant to every idea for which I stand."

He also said he never had favored admitting Communist China into the United Nations or into the family of nations.

Later, in April 1955, Dean suggested in a magazine article that the United States would improve its international position by recognizing Red China in return for "balancing concessions." He did not say exactly what these concessions should be.

The first case presented to the UN Security Council was a demand by Iran for the removal of Soviet troops from her northern provinces. The demand was brought before the council Jan. 19, 1946.

The Soviet troops withdrew the following May.

More Suits Seen In Price-Fixing Deals

PHILADELPHIA (AP)—The

Justice Department, which Tuesday joined the Tennessee Valley Authority in suing five electrical equipment firms for nearly \$12 million for alleged overcharges, says other damage suits are contemplated.

But in making the statement, neither Atty. Gen. Robert Kennedy nor William Maher, chief of the antitrust division here, elaborated. Maher earlier this year headed the successful prosecution of 29 big electrical firms and 44 of their executives on charges of bid rigging and price fixing which led to Tuesday's action here.

The suit was the first such filed by the federal government. States, cities and private utilities also are planning multimillion-dollar actions against the firms.

The General Electric Co. and Westinghouse Electric Corp., America's two biggest manufacturers who were among the five named in the suit Tuesday, said they would vigorously defend themselves against the latest action.

The two other firms named in the suit, both of which pleaded guilty or no defense along with 27 other companies in the huge antitrust case which Maher prosecuted, said their customers were neither cheated nor victimized.

Echoing their sentiments was the Allis-Chalmers Manufacturing Co. of West Allis, Wis., which also was named in the civil action and earlier had pleaded guilty or no defense on the antitrust charges.

The civil action charged that collusive rigging of bids and illegal fixing of prices in the sale of oil circuit breakers since 1951 resulted in prices about 40 per cent higher than what should have been charged.

It alleged that TVA and the federal agencies bought more than \$25 million worth of circuit breakers at prices roughly 40 per cent too high in the last nine years.

The Justice Department sued on behalf of the Atomic Energy Commission, the Army Engineers, the Bureau of Reclamation, the Southwestern Power Administration and the Bonneville Power Administration. It seeks double damages of \$4,421,372.

TVA contended that it can sue for itself as an independent, self-sufficient corporation and not as a government agency.

If the court upholds this theory, TVA can collect triple damages if it can prove it sustained a money loss. TVA, however, specifically asks for a treble amount of \$7,478,691. But if the agency can collect only double damages, under the federal False Claims Act, it would be entitled to recover a maximum of \$4,965,794.

In the antitrust action earlier this year, U.S. Dist. Judge J. Cullen Gandy levied fines totalling

\$1,924,500 on the 29 companies and 44 of their executives. Seven executives were sent to jail, including two from Westinghouse and three from General Electric. All were freed last week after serving 25 to 36 days.

GE, Westinghouse and Allis-Chalmers pleaded guilty in the criminal action and were fined \$40,000, \$30,000 and \$20,000 respectively. Federal Pacific was fined \$15,000 and I-T-E \$10,000. Four executives were fined a total of \$8,500 and three received 30-day suspended prison sentences. Still to be sentenced is a GE official who is ill.

Echoing their sentiments was the J. Arthur Rank film organization had asked the "Cleopatra" company to vacate Rank's Pinewood studios. Rank officials said their company needed the space for its own productions.

Miss Taylor continued to improve at the London Clinic. Work on *Cleopatra* began in England last autumn and ran into one snag after another.

Miss Taylor, who is being paid a million dollars to play the lead role, was to have gone before the cameras Oct. 14 but rain, fog and cold prevented filming.

Cablegrams Figure In Divorce Action

MEMPHIS, Tenn. (AP)—A 29-year-old mother was granted a divorce from her contractor-builder husband after she testified he spent \$900 on cablegrams to Nikita Khrushchev and Fidel Castro.

Mrs. William Henry Riley also testified that her husband would allow only candles and a kerosene lamp and heater to heat and light their home, and he insisted their three young children observe Jewish fast days although the family is Protestant.

Riley, denying most of the charges, acknowledged sending the cablegrams to Castro, but said the telegram company would not accept the Khrushchev message.

Actress Declines Role With Elvis

HOLLYWOOD (AP)—Actress Juliet Prowse is under suspension at 20th Century-Fox for insubordination while on loanout to Hal Wallis Productions.

The home studio announced Miss Prowse's suspension Tuesday, noting that she refused to play the lead role opposite Elvis Presley in Wallis' "Blue Hawaii."

The actress notified Wallis last week she would play the role only under certain conditions. Those included a change in billing, payment of her passage to the Hawaiian location and obtaining the services of her makeup man, Roy Stork, from Fox.

Grandmother, 69, Gets Life Sentence

HOUSTON, Tex. (AP)—Myrtle Veronica Barber, a 69-year-old grandmother, was sentenced a life term in prison Tuesday as a habitual criminal.

She was found guilty of forging a \$38 check and had two previous convictions on similar offenses. Three convictions made her eligible for the life sentence.

Two Pleas Heard

Two pleas of guilty were heard in county court Tuesday, both on DWI charges.

Patricia R. Martinez and W. W. Harris each were fined \$100 plus court costs and given a 3-day jail sentence.

Gas Hearing Set By FPC

WASHINGTON (AP)—The Federal Power Commission will hold a hearing May 15 on applications for the proposed sale of natural gas which is to eventually go to Transcontinental Gas Pipe Line Corp. of Houston.

On the agenda are a rehearing of an order Nov. 22 authorizing South Texas Natural Gas Gathering Co., Corpus Christi, to sell up to 70 million cubic feet of gas a day to Transcon and also authorizing 1 independent producers and one pipe line company to sell gas to South Texas for resale.

The hearing also will consider an amendment, filed by South Texas proposing to double its deliveries to Transcon, and other applications by producers who want to sell gas to South Texas.

The New York Public Service Commission, which asked the rehearing, wants the FPC to order a lower initial price than the average of about 15 cents a thousand cubic feet which is approved.

Janitor's Wish Is Fulfilled At Death

LEXINGTON, Ky. (AP)—In death, John Alcorn, a 77-year-old Negro janitor at the University of Kentucky, will have his wish fulfilled.

His funeral will be held Friday at State Memorial Hall, where he was caretaker for 15 years.

Alcorn died Monday. The request was contained in his will. "He was more than just the caretaker," one of Alcorn's sons said. "He loved the building."

Safety Program Scheduled Here

The award-winning Champion Highway Safety Program, which has been seen by more than two million high school students will be presented during assembly at Snyder High School on Friday.

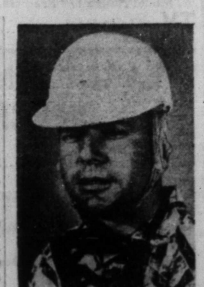

Bill Cheesbourg, one of the seven nationally-known racing stars now touring the country with the program, will appear here under sponsorship of Wilson Motor Co., local Ford agency.

Cheesbourg also will present the program at the regular meeting of Snyder Jaycees.

The program, now going into its sixth year, has been praised by educators, civic leaders and law enforcement officials for its unique approach to the serious problem of highway safety.

It features leading race drivers who are trained and qualified speakers, delivering lectures on what is required of the individual in becoming a safe driver. Having lived in the world of speed they know its perils and the foolishness of treating driving responsibility lightly.

The Champion Spark Plug Co. developed the program as a non-commercial public service and for it received the Public Interest Award of the National Safety Council.

BILL CHEESBOURG

In addition to this award, he has received the acclaim of more than 50 newspapers and The Saturday Evening Post.

Cheesbourg, who will present the program here, has competed in the Indianapolis "500" races. An outstanding stock car driver, Cheesbourg recently won the Detroit "250" late-model stock event. His greatest string of victories included five consecutive Arizona State roadster championships.

Child Is Burned To Death In Dallas

DALLAS (AP)—One, youngster died when fire swept a four-room house in southeast Dallas Tuesday, in which more than a dozen small Negroes were under the car of an 11-year-old girl.

The dead child was identified as John Edward Jones, six months old.

The girl, Shirley Jean Wilson, said she was caring for the children of three families when the fire started in a back room.

Cogdell Hospital Now Accredited

Cogdell Memorial Hospital here has been accredited by the Joint Commission on Accreditation of Hospitals.

Dr. Kenneth B. Babcock, Commission Director, said that some 4,300 of 8,000 eligible hospitals applied for accreditation, and of that number 75 per cent are accredited.

Only other hospitals in this immediate area which are accredited include two at Lubbock, two at Abilene and one at Big Spring.

The Joint Commission on Accreditation of Hospitals is an agency established by four organizations—the American College of Physicians, American College of Surgeons, American Hospital Association and the American Medical Association—to conduct the hospital survey and inspection program initiated by the American College of Surgeons in 1919. The commission began operations on Jan. 1, 1953.

Accreditation of a hospital has

been likened by ACCOG to "sterling on silver." It is a mark of distinction and earned by high standards of care.

"Accreditation of a hospital means," said Dr. Babcock, "that it has voluntarily submitted to a survey of its facilities and its patient care. It is a badge of recognition which the hospital can display to its community to prove that it conforms to high standards of patient care."

The surveyors, all physicians, rate hospitals on certain basic requirements, such as: A safe physical plant free from fire hazards; careful supervision and review by the medical staff of the patient care rendered in the hospital; special study by the medical staff of all unusual or complicated cases; adequate medical records; ethical practices; investigation of all tissue removed at operation; proper nursing care, and proper administrative and medical staff organization.

'Oscar' Portrayal Mere Bric-A-Brac

By WILLIAM GLOVER

Associated Press Drama Critic
NEW YORK (AP)—The gay right and somber dark of Oscar Wilde's world shall strangely through Michael Mac Liammóir's new one-man Broadway entertainment.

"The Importance of Being Oscar," which opened Tuesday night for limited engagement at the Lyceum, is a program of solid appeal for fans of the exotic Victorian and for enthusiasts of stage readings. Others are apt to be less ecstatic.

The bright side gleams in the first half as Mac Liammóir culls from the dandy's early lily-waving days with excerpts from "The Picture of Dorian Gray," "Salome" and "The Importance of Being Earnest."

The mood abruptly reverses after the intermission, to follow the doomed poet through the distressing years following conviction on charges of immorality. The much-worked-over trial episode itself is mercifully "supposed to take place," the program notes, during the intermission.

Mac Liammóir being solidly pro-Wilde, the entertainment at this point dilutes its dramatic effectiveness with an apologetic defensiveness.

The Irish star, who has previously exhibited "The Importance of Being Oscar" at various overseas stops, moves through his paces with some florid overtones, but brings to each segment interpretively inventive understanding.

Some of the spots seem extended beyond proper measure. The performance is enacted against blacked-out stage background with a sofa, table, arm chair and a pedestal of flowers as the only props—the effective

**Newlyweds
Part Early**

DENVER (AP)—Although he has been married little more than a week, George Raape sees nothing unusual in the fact he's here and his bride's in New York.

Raape, owner of a parking lot chain, is a bridge fanatic, competing in the American Contract Bridge League's spring championships. His bride, Jo Ellen, does not play bridge.

"There's nothing more boring for a non-bridge player or a new bride than to attend a tournament like this," Raape said. "Even for a bridge player, there isn't much fun at one of these tournaments. It's a lot of hard work."

"I'd rather have Jo Ellen see me in better light than this during our first week of marriage. All I think about is bridge during a tournament."

**Pinball Machines
Are Going To School**

SAN ANTONIO, Tex. (AP)—Assistant district attorney Mayo Galindo hopes to get some pinball machines for students at Jefferson High School here.

But, he hastened to add, the machine tables—seized by the sheriff's department last September—would not be used for play.

Galindo asked permission of a district court Tuesday to destroy the gambling devices and turn over electrical equipment in them to Jefferson's science department.

The UN lost a member in 1958, but only numerically. That came about when Egypt and Syria merged as the United Arab Republic.

purpose being to suggest "an empty, elegant space, instead of a room."

Hilton Edwards, Mac Liammóir's 30-year associate, is credited with the staging of the production, which is the elaborate collaboration of S. Hurok and Roger L. Stevens in association with Sir Michael Redgrave and Fred Sadoff.

A critical judgment, Wilde once remarked that what the observer dislikes is "unwholesome," what he does like is "curiously exotic." This program more precisely is quaint bric-a-brac.

Crusade In 24th Year

FLORENCE, S.C. (AP)—James Jones, a stocky, friendly redcap, today will complete the 24th year of a dedicated crusade against children's diseases.

The crusade began in 1937 when his childhood sweetheart died of polio.

Since then, Jones, a Negro, has raised \$148,659.71 for fund drives dedicated to fighting children's diseases, principally the March of Dimes.

Every year in late February and early March, Jones rides his bike from the railroad station a mile to the downtown area during off hours, lunch periods, and in between trains.

He has given up many vacations, off-duty days, holidays and Saturday nights. Rain or cold has made little difference.

He takes his post near a bank, a strategic street corner, or wherever people gather. He holds out a large glass jar inscribed with the name of the particular drive for which he is working.

He has a cheery greeting, a big smile. Residents of this city of 24,000 have come to know him. He doesn't have to ask for contributions.

His collections for the March of Dimes during his current four-week campaign stood at \$7,669.86 Tuesday night.

County's Safety Record Is Broken

MUNFORDVILLE, Ky. (AP)—One man was killed and five injured when an automobile plowed into a state highway garage where they were eating lunch Tuesday.

The crash also knocked down a sign on the wall of the garage which read:

"This county has operated 33 days without a lost-time accident. Previous record 253 days. Be safe today."

Killed was Hardy Atwell, a 56-year-old laborer. The driver of the car was only slightly injured. He told police he blacked out.

School Aid Study Sanctioned

JFK Wants Action First

By MARVIN L. ARROWSMITH

WASHINGTON (AP) — President Kennedy said today his administration would be glad to cooperate with Congress in a study of whether federal loans to private secondary schools can be made under the Constitution.

But Kennedy told a news conference he hopes Congress will act first and separately on a pending measure for federal aid to public secondary schools.

Kennedy promised also that the administration will cooperate with Congress, after action on this bill, in studying whether tax exemptions could be granted to parents of children in private schools—in lieu of direct federal aid.

At the same time, Kennedy expressed the hope that controversy over the aid-to-education bill and the related religious issue would not weaken the country in any way.

A reporter told Kennedy his election had been regarded in some quarters as a victory over religious prejudice. The newsmen asked whether the President feels the current controversy over the education bill is provoking religious prejudice.

Kennedy replied he is hopeful that it will not do so. The reporter had asked of what he called the inflexible stand of some Roman Catholic Church officials in seeking federal aid for parochial schools.

Kennedy said both Catholics and Protestants are entitled to their view and have a right to express them.

The President said it is quite appropriate that these groups should "not change their views because of the religion of the occupant of the White House."

At the news conference, attended by 227 reporters, Kennedy also dealt with these other matters:

LAOS—The United States is determined, Kennedy said, "to support the government and the people of Laos" in resisting what he called rebel attacks there "backed by personnel and supplies from outside."

This was an allusion to aid to the Communist rebels are getting from a Soviet airlift.

Kennedy said the administration has been watching Laos with closest attention and hopes there will be a genuinely independent and neutral Laos — a country "master of its own fate."

DISARMAMENT—Kennedy said the United States now has suggested to the Russians that disarmament talks be resumed in August. He said this country's first suggestion had been for a resumption in September.

Kennedy added that John J. McCloy, the administration's disarmament chief, "is working full time on developing an American position on disarmament" but the study will not be completed before the year is out.

LABOR — MANAGEMENT — Kennedy said he is convinced that there is sufficient urgency to warrant belief that a government-sponsored labor-management conference scheduled for March 21 will lead to some success.

One problem that must be faced, he said, is that of American commodities being competitive with a very strong and thriving industrial economy in Western Europe, we are going to find ourselves in serious trouble.

shorter week as a general policy for American workers.

Told that some labor unions have advocated shortening the work week because of automation and unemployment, Kennedy commented:

"I am hopeful that we can have employment high (sic) five days a week, and 40 hours, which is traditional in this country, and which is necessary if we are going to continue economic growth and maintain our commitments at home and abroad."

SMALL BUSINESS — Kennedy announced that the Army, Navy and Air Force have been instructed to allocate more defense contracts to small business firms.

He said their contracts with smaller firms amounted to \$3,446,000,000, or 16 per cent of their total contracts, in the fiscal year which ended last June 30.

"We are going to try to increase this by at least 10 per cent," Kennedy said.

MEDICAL CONFERENCE — A President's conference on heart disease and cancer will be held at the White House starting April 22. Announcing this, Kennedy said distinguished medical leaders from all sections of the country will participate.

HIGHWAYS — As for a request by New York Gov. Nelson A. Rockefeller that the federal government advance money to the states for highway construction, Kennedy said that will depend on what action Congress takes on the administration's request for additional funds to keep the interstate construction program on schedule.

ADMINISTRATION PROGRAM — Kennedy said he recognizes "that there are important and powerful and well-organized interest groups in this country" which are opposed to such administration programs as school aid, a higher minimum wage, medical care for the aged, and "more adequate return for the farmer."

Such groups, Kennedy went on, "have been successful in developing mail campaigns of one kind or another which give us a false impression that there is widespread opposition to increasing, for example, the minimum wage."

But he added that the Gallup Poll recently showed that over 75 per cent of the people are in favor of increasing the minimum wage.

So, said the President, "we are going to continue to work for these programs, and I am very hopeful that before the year is out they will have passed."

LABOR — MANAGEMENT — Kennedy said he is convinced that there is sufficient urgency to warrant belief that a government-sponsored labor-management conference scheduled for March 21 will lead to some success.

One problem that must be faced, he said, is that of American commodities being competitive with a very strong and thriving industrial economy in Western Europe, we are going to find ourselves in serious trouble.

"I would think that both manufacturers and labor unions, and certainly the public, would want to see American industry remain competitive," Kennedy said.

"If we are not able to be competitive with a very strong and thriving industrial economy in Western Europe, we are going to find ourselves in serious trouble."

JFK Opposed To Shorter Work Week

WASHINGTON (AP) — President Kennedy said today he is opposed to a shorter work week.

Kennedy told his news conference he is unhappy because the declining economy has reduced the work week for many below 40 hours.

The President was asked if he agreed with some labor union proposals that shorter hours might be one of the solutions to the present level of unemployment.

Kennedy replied that he hopes the 5-day, 40-hour week can be continued. He said it is necessary if the United States is going to continue economic growth.

"I would be opposed to any arbitrary reduction of the work week," Kennedy said, "and I am unhappy when I see the work week reduced artificially, in the sense that the pressures of a declining economy reduce it so that we get averages of 38.5 hours a week instead of the 40 hours a week."

Kennedy drew a laugh from reporters when he said that personally he would prefer a shorter work week, but he was opposed to curtailing work time in industry.

He said he hopes that the number of jobs, which now ranges around 6 per cent of the work force, can be reduced to 4 per cent or less. But he noted that in peak economic periods in 1957 and 1959 there were still many unemployed in some areas of the country.

Fog Hampers Coast Travel

Heavy fog that hampered air, sea and highway traffic struck the Gulf Coast section of central and eastern areas of Texas Wednesday.

Summerlike temperatures also returned after the state had the coldest temperatures in the nation for three straight days. Forecasts called for maximums near 90 degrees in extreme southwest Texas and in the middle 80s for the rest of the state.

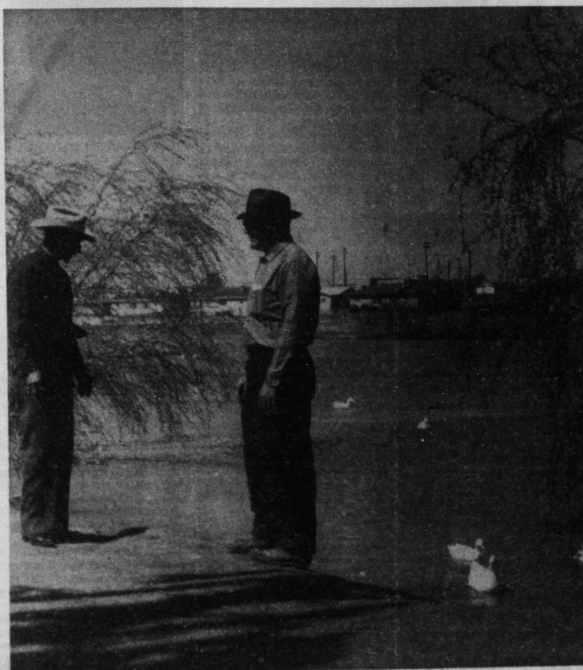

The morning fog shrouded Houston, Beaumont and Galveston areas and posed a danger for a traffic of all kinds. A light drizzle fell out of cloudy skies at Austin, although "no precipitation was in late forecasts."

Cloudiness prevailed over South Central Texas and the Gulf coastal areas, but the state was clear elsewhere.

The U.S. Weather Bureau said that a weak front that had edged into the northern part of the Panhandle is expected to back out of the state during the day.

Early morning minimum temperatures ranged from 34 degrees at Dalhart to 69 at Corpus Christi. Presidio was the hottest spot in the country Tuesday with a maximum of 92 degrees. Most points reported readings in the 80s, and Corpus Christi was the coolest point with a 75-degree maximum.

Brisk winds, expected to return Wednesday, were clocked at up to 35 miles an hour in gusts at Lubbock.

NEW FISH FOR TOWLE PARK LAKE—Roy Linn, representative of the Texas Fish and Game Commission, stopped in Snyder Tuesday afternoon to look over the lake in Towle Memorial Park with an eye to restocking it with adult fish. Linn, on left, told park superintendent Russell Jones Jr. that although most lakes are restocked with baby fish there is a possibility of acquiring enough adult fish for the Snyder lake.

9-Day Pattern Set For April Oil Flow

By ED OVERHOLSER

AUSTIN (AP)—The Texas Railroad Commission today cut the statewide oil allowable for April by 126,000 barrels a day, fixing the statewide allowable at 2,882,021 barrels daily.

Texas wells will be allowed to produce only nine days next

month as compared with ten days during March.

Major oil companies and the independent oil producers' associations were split in their recommendations to the oil regulatory agency between eight and nine days production patterns.

Seven of the 12 companies making nominations to the commission recommended an eight-day pattern, which would have slashed the oil allowable by more than 312,000 barrels a day.

Presidents and top executives of the nation's 29 largest oil com-

panies reported data on stock inventories and desired levels of crude and four other principal products.

The totals of all companies reporting showed crude oil stocks to be 8,469,000 barrels below the desired level; gasoline, 4,777,500 above the desired level; kerosene, 1,479,800 barrels above the desired level; distillates, 6,453,300 barrels above and residuals 1,320,200 barrels below the desired level.

This reflected an over-all surplus of 2,920,600 barrels more than the companies considered desirable.

Water Bill Gets Okay

AUSTIN (AP)—One of the major water measures in Gov. Price Daniel's conservation program won easy Senate approval today.

With virtually no debate, it was amended and approved 27-1.

The water proposal must return to the House for final action because the Senate amended the original House version.

It was the House-approved measure (HJR46), proposing that the state be allowed to buy space in federal and local reservoirs as a guarantee of future water supplies.

Senate discussion of the water measure stalled as sales tax supporters rallied to urge their answer to the state's fiscal needs at an afternoon House committee session.

The House postponed action on a Senate-approved bill making it a perjury offense to falsify or forge a state excise tax return (SB39).

Measure To Restore Ike's Rank Passed

WASHINGTON (AP)—President Kennedy's signature is all that is needed to restore to former President Dwight D. Eisenhower his five-star general's rank.

A congressional resolution restoring Eisenhower's rank reached the White House Tuesday after the House approved it. The Senate already had acted favorably.

Eisenhower resigned his commission before accepting the Republican presidential nomination in 1952.

GET FARM LEGISLATION FORECAST—House Speaker Sam Rayburn (D-Tex.) tells newsmen at the White House after a conference of administration congressional leaders with President Kennedy that the president will submit his farm legislation program very soon. Rayburn is flanked by Sen. George Smathers of Florida and Vice President Lyndon Johnson. (AP Wirephoto)

Kennedy Set To Present Farm Plan

WASHINGTON (AP) — President Kennedy is expected to ask Congress Thursday to approve a farm setup under which growers would write their own crop programs, subject to legislative veto.

This would be radically different from existing farm programs, although the idea is not new. Legislation along those lines was defeated last year after being introduced by a group headed by Rep. W. R. Poage, D-Tex. Similar proposals also have been made in the Senate.

Congressional sources said the President will seek a broad delegation of powers to him and to Secretary of Agriculture Orville L. Freeman to deal directly with farmers in forming programs embracing kindred and competing commodities.

The farmers themselves would be asked to agree on the type of federal controls, price supports and other government props they believe workable for the particular group of growers involved.

As an example, growers of wheat, corn, oats, grain sorghum and kindred crops would be asked to form their own program. Another group might include producers of cotton seed, soybeans and peanut oil.

The hoped-for result would be to take out of the hands of Congress the job of having to draft intricate and controversial legislation covering the diversified field of agriculture.

This would apply to the farm problem the same principle involved in congressional grants to the President to reorganize government departments and agencies.

As in legislation of this latter type, Congress would retain a veto over the decisions of the individual farm groups. These groups could put their programs into effect by a two-thirds vote of the growers involved.

But if Congress decided within a specified time limit—probably 60 days—that the particular program failed to fit the over-all agricultural pattern or involved too large expenditures, it could kill the program by a majority vote.

Kennedy, who has made it clear in the past that he does not regard himself as a farm expert, was said to have approved the principle of the new program after some rather despairing efforts had been made to draft an overall legislative program.

Under the new plan, Congress would be asked to vote authority to the President—which he in turn would delegate to the secretary of agriculture—to use all of the agricultural props now available.

These would include compensatory payments to growers, direct payments, crop loans, purchases and others.

In essence, the new program represents a refinement of proposals offered in previous congresses by Sen. Hubert H. Humphrey, D-Minn. It is known to have had a hand in drafting the new program.

It has been Humphrey's viewpoint that if the administration did not attack the farm problem in some new way it would find itself dogged down—as the preceding Republican administration did—in congressional controversy over piecemeal legislation such as that dealing with feed grains.

Sales Tax Supporters Due To Appear At Hearing Today

AUSTIN (AP)—Sales tax supporters get their say today.

Two proposed general sales tax measures boosted as possible cures for the state's 1962-1963 financial ills have a 2:30 p.m. date with the House Revenue and Taxation Committee.

However, before getting into explosive sales tax arguments legislators approached two other important issues.

The Senate had ready for debate a House-approved measure (HJR46) proposing that the state be allowed to purchase space in federal and local reservoirs as a guarantee of the state's future water needs.

At the top of the House calendar was a Senate-approved bill (SB39) making it a perjury offense to falsify or forge a state excise tax return.

This afternoon will be the first time for sales tax proposals to move directly into the legislative limelight. Gov. Price Daniel and other enthusiasts of selective sales taxes frequently have acted the

backers of a general sales tax with obstructing passage of Daniel's deficit financing measures. Three deficit-solvers have been introduced by Reps. John Allen, Longview, and Charles Wilson, Trinity. However, Wilson's bill may be the only one formally considered. Allen said Tuesday night that he had asked for a hearing the week of March 20 and would not be ready to present witnesses before then.

The legislature spent much of Tuesday looking in debate over a milk imports bill.

The bill (SB217) setting up the same health standards for milk brought into Texas as those required of domestic milk production breeched through the Senate 29-2. However, it hit a snag in the House.

Rep. Jack Woods, Waco, who

tried unsuccessfully to amend the measure, was besieged by sunburned dairymen in the Capitol corridors. Later, Wood arose in the House and said that dairymen threatened to "go door to door and tell every housewife in Waco I was trying to break down health standards." Woods challenged the dairymen to go ahead.

Rep. Steve Burgess, Nacogdoches, House sponsor of the measure, denied that Woods was threatened.

The milk bill was debated only briefly and then postponed, at the sponsor's request until next Thursday.

The House passed and sent to the governor bills that would let Galveston County Road District No. 1 get a water appropriation permit (SB144), validating county park bond elections (SB171), and fixing salaries for district judges in Bexar County (SB90).

Eighteen other local and uncontested bills, mostly local government regulations, were sent to the Senate for action.

WEATHER

SNYDER TEMPERATURES: High Tuesday: 80 degrees; low: 42 degrees; reading at 7 a.m. today: 49 degrees. North Central and Northeast Texas: Generally fair and windy Wednesday afternoon. Little rain possible. Thunderstorms possible Thursday afternoon. Little rain possible. South Central and Southeast Texas: Generally fair and windy Wednesday afternoon. Little rain possible. Thunderstorms possible Thursday afternoon. Little rain possible. West Texas: Clear to partly cloudy and windy Wednesday and Thursday. Few thunderstorms Thursday and Friday. Little rain possible. Far West: Generally fair and windy Wednesday afternoon. Little rain possible. Thunderstorms possible Thursday afternoon. Little rain possible. Far North: Generally fair and windy Wednesday afternoon. Little rain possible. Thunderstorms possible Thursday afternoon. Little rain possible.

Textbook Panel's Report Is Approved By School Board

The Snyder School Board last night approved recommendations of the textbook committee and dispensed with several other items of routine business last night.

Few textbooks were up for consideration this year, including English grammar texts for some elementary and junior high grades and Texas History.

The board discussed informally the policy of prohibiting junior high pupils from bringing automobiles to school. Some board members said they believed there were some instances where the spirit of the rule had been violated, although cooperation of parents generally had been good. They told administrators to continue enforcing the regulation.

Ray Houpt, local insurance agent, inquired about the possibility of reviewing the school's hospitalization insurance coverage this year.

Supt. T. E. McCollum and Doug Flynn, school business manager, were instructed to bring detailed information on such insurance to the next regular meeting and a decision on future plans will be made at that time.

Mitchell Jackson, another insurance agent, submitted a proposal to make available to school personnel a retirement annuity program with board approval. He presented each board member with detailed information on the proposal, and the board indicated that action would be taken at a future meeting.

Frank Stephenson discussed with the board some problems in parking facilities at the high school football stadium. Stephenson, appearing in behalf of veterans organizations who handle the parking detail for football games,

made some suggestions for improvements of facilities. The board indicated that these would get prompt consideration.

Edgar Taylor, who serves as special collector of delinquent taxes for the school system, discussed his work briefly, and was granted a contract for another year.

Supt. McCollum was instructed to bring recommendations to the board on replacing some school motor vehicles, including driver education cars.

McCollum reported that J. B. Thomas, president and general manager of Texas Electric Service Co., would be guest speaker at the high school commencement exercises this year.

The board scheduled a special session for 7:30 p.m. April 4 to convene votes in the April 4 school election.

Senate Campaign Is Gaining Steam

By CLAYTON HICKERSON
Associated Press Staff Writer

The massive U.S. Senate race in Texas took on sudden heat Wednesday and voter interest quickened in the campaigns of at least some of the 70 candidates for Vice President Lyndon B. Johnson's old job.

Attorney General Will Wilson and former state Rep. Maury Maverick Jr. both struck back strongly at John Tower, the Republican who calls himself "the only real conservative in the race."

Indirectly at least, Rep. Jim Wright, the Fort Worth congressman joined in the "get Tower" move with endorsement of the Kennedy administration's Peace Corps.

Tower said Monday the Peace Corps amounted to "sending a bunch of starry-eyed radicals abroad who will do nothing more than apologize for the American system. He also had asked Wilson's resignation from the state vote canvassing board, inferring that Wilson was sure to lead in the vote count if he stayed on the board.

Maverick answered quickly on the Peace Corps. "I suggest that

Mr. Tower wait and see," he said. "Wait and see whether the young Americans in the program are starry-eyed radicals or fine young men and women."

Maverick said Tower has held himself true to Republican Party traditions. "Confronted with any great new idea, he replies 'no, no, no,'" Maverick added.

Wilson told Tower in a telegram, "You apparently have sensed your impending defeat. I deeply resent your unwarranted assumption... that the hundreds of good people who serve as election officials... will not honestly perform their duties."

Wilson wound up a two-day tour of the Dallas area with a speech at the huge Chance Vought plant, a hand-shaking tour of Garland, Richardson and Dallas shopping centers. He held a televised news conference in Dallas Tuesday night.

Wright, appearing at Southern Methodist University in Dallas, expressed approval of the Peace Corps, opposed recognition of Red China and told the student gathering that communism will gain supporters until Latin America is offered an opportunity of self-help.

Tower, stepping up his campaign in the last two weeks, was to have Senator Barry Goldwater, Arizona Republican, as a traveling companion.

Goldwater, the outstanding spokesman for the GOP's extreme right wing, will begin his talks for Tower and conservatism in Austin Friday with a \$10-a-plate breakfast. They'll visit San Antonio later in the day and end up that night at a Dallas rally.

Another of the so-called "lesser candidates" made himself heard in San Antonio.

Dr. G. H. Allen urged voters to drop such candidates as Bill Blakely, Wilson, Wright and Tower and wound up his talk with the Biblical quotation, "And ye shall know the Truth, and the Truth shall make you free."

Allen, a retired veterinarian, said he was a conservative and would "stand by the Constitution and the rights of the states as set out therein."

Observers believed much of the new vigor in the race was brought on by Wednesday's start of absentee balloting. Some believe that the unprecedented number of candidates in the campaign, if it accomplishes nothing else, will bring out a big absentee vote.

Blakely's headquarters reported he would start the "intensive phase" of his campaign Thursday with appearances in Shamrock and Childress.

State Senator Henry Gonzalez appeared in a half-hour television appearance in San Antonio Wednesday night.

Wilson planned to be in Abilene and Big Spring Wednesday, Houston and Galveston on Thursday and Friday, and in El Paso Saturday.

Tower was in Orange and Beaumont Wednesday.

PRIME STEAK ON THE HOOF—Dan Gibson of Clairemont Road recently donated the above Beefmaster calf to the Scurry County Boys' Club, and the 900-pound beast will be disposed of soon in helping to lower the Club's indebtedness. The 8-month-old calf, which will be on display this afternoon in the Highland Shopping Center, will dress out at approximately 65 per cent. (Photo by Jackson)

Soviets Push For Debate On Congo

UNITED NATIONS, N.Y. (AP)—

The Soviet Union pushed today for immediate General Assembly debate on the Congo to gain a wider hearing for the Soviet blasts against the new confederation form of government developing in the chaotic African territory.

After a week of marking time since it resumed its session, the assembly showed signs of getting down to work. U. S.-Soviet negotiations to trim the agenda, closed Tuesday, with the Soviets adamant in their rejection of an American proposal to postpone most items on the agenda—and chiefly disarmament—until the fall. The United States, in turn, rejected a Soviet proposal to drop the Soviet complaint against U.S. reconnaissance flights if the charges of Communist suppression in Hungary and Tibet were dropped.

Soviet delegates roamed the U. N. corridors seeking to line up Asian-African support for an immediate Congo debate. The Soviets charged that the agreement by anti-Communist Congolese political leaders meeting at Tananarive, Madagascar, last week to replace the federal form of government in the Congo by a confederation of semi-independent states was a Belgian trick to break up the new African nation and keep a foothold in rich Katanga Province.

The Soviet charge was echoed by the government-controlled Cairo press, which said the United Arab Republic would request an urgent session of the Security Council to "discuss the conspiracy to dismember the Congo."

The United States and its major allies consider that the confederation plan is a more realistic arrangement for the Congo than the unworkable system of central control left by the Belgians, which collapsed in a welter of tribal and sectional rivalries soon after independence was won last summer.

The Soviets, the U. A. R. and certain other African backers of the late Patrice Lumumba want a strong central government headed by Antoine Gizenga, the pro-Communist leader of the regime in the eastern Congo, who boycotted the Tananarive conference.

Resuscitator Display Set

The 100F Lodge No. 194 will hold open house Thursday night at their hall located at Twenty-seventh Street and Avenue Z for the purpose of demonstrating the new resuscitator of the fire department.

The doors will open to the public at 7:30 p. m. with demonstrations of the resuscitator by Snyder firemen to go on all evening as long as anyone is interested in the life-saving mechanism.

One of the new models which will aid three persons at one time, the resuscitator is adjustable to help as help is most needed in cases of heart attack, drownings, traffic and sport mishaps just anywhere a person is having difficulty with his breathing.

One of the main features is the complete takeover of breathing in the few seconds after a person has stopped breathing in which an otherwise hopeless case can be revived. It can force particles out the breathing track, while on the other hand it can gently aid a tiny baby in respiratory difficulties.

Refreshments will be served at the open house.

The United States contributes nearly one-third of the UN budget.

McFarland Rites Today

Funeral services for Arthur Ray McFarland were to be held at 2 p. m. today in the First Methodist Church with Rev. David Hamblin, pastor of the Trinity Methodist Church officiating, assisted by Rev. R. Charles Spivey, pastor of the First Presbyterian Church.

Burial was to be in the Snyder Cemetery under the direction of Bolger Funeral Home.

Born Feb. 25, 1883, in Fannin County, Mr. McFarland had resided in Scurry County for 65 years before moving to Olden four years ago. He died Tuesday in an Eastland hospital.

He is survived by his wife, one daughter, Edna McFarland of Houston; one son, Arthur McFarland of Snyder; one brother, Roy McFarland of Snyder; three sisters, Mrs. H. P. Winter, Miss Dessie McFarland, and Miss Claire McFarland, all of Snyder; three stepdaughters; one stepson; and three grandchildren.

Pallbearers were to be Paul Keaton, Jervis Bullard, Dewey Denson, T. A. Echols, James Rosser, Giles Rowers, Lewis Blackard, and Bruce Murphy.

The United States contributes nearly one-third of the UN budget.

Texas Rangers Are Assigned To Beaumont

AUSTIN (AP)—Texas Rangers have been assigned to Beaumont and Jefferson County to follow up their previous raids and investigations, Gov. Price-Daniel said today.

In a joint announcement with Department of Public Safety Director Col. Homer Garrison Jr., Daniel said the Rangers also will assist in other law enforcement matters.

"The unusual situation in Jefferson County calls for continued assistance and protection of those who are working for enforcement of the laws," Daniel said.

Atty. Gen. Will Wilson recently asked for the ouster of Beaumont District Attorney Ramie Griffin. The Texas Supreme Court Tuesday upheld Wilson's contention that either Beaumont's 13th District Judge Harold Clayton or the Criminal District Court there has authority to remove Griffin.

The House General Investigating Committee conducted widely publicized hearings in Beaumont and Port Arthur late last year into allegations of widespread vice and alleged breakdown of law enforcement there.

"The Department of Public Safety assisted both the House Investigating Committee and the grand jury in their investigations, and the Rangers will be available for any further help that may be needed," Daniel said.

Five men were indicted Tuesday in Beaumont on bribery charges. The grand jury accused Sheriff C. H. Meyer and three other peace officers of taking bribes. It charged C. H. Helms, Beaumont juke box distributor with paying them for letting him operate pinball machines as gambling devices. Others billed by the grand jury are former Port Arthur Police Chief G. B. Douglas and Constables O'Neil Provost of Port Arthur and G. B. Graham of Groves.

Garrison was asked to expand on the reference to "protection of those working" on law enforcement. He replied that he would prefer not to comment or enlarge on the statement "at this time."

NEW OFFICERS—At a meeting Monday afternoon of the Central Elementary Parent-Teachers Association the above group were elected to office. They are standing, Mrs. Faye Deffebach, treasurer, and Mrs. Bill Watson, secretary. Seated, Mrs. June Bellamy, first vice president, and Mr. Michie Brous, president.

Family Needs Discussed At P-TA

The Central Elementary Parent-Teachers Association met Monday afternoon in the school auditorium for election of officers and a special program. Mrs. Bill Butler, outgoing president presided.

The meeting was opened with a devotional by Rev. Jimmy Nelson of the Colonial Hill Baptist Church. Theme of the program was "Basic Needs of the Family." A panel discussion was held and the theme was broken down into three parts with Mr. M. E. Stanfield speaking on education, Mrs. Edna Williams on health, and Mr. Richard Williams of the Eastside Church of Christ speaking on religion.

The children and parents of Central are observing this week as Teachers Appreciation Week, bringing tokens of appreciation to their teachers and keeping cookies and cake in the lounge during the day for teachers enjoyment.

Antiques Can Be Inexpensive Hobby

By VIVIAN BROWN
AP Newsfeatures Writer
YOU CAN COLLECT antiques on a small budget.

Young people who yearn to own something old can satisfy the whim by starting a collection of little or less expensive objects such as boxes.

Boxes can serve as handsome home accessories, too. Use them for letters, stamps, cigarettes, powder, hair ornaments, pins, buttons, plants, flowers, pencils or spices.

Many old boxes are available in the less expensive category, as one might observe by browsing through the antiques fair at New York's Coliseum to note the sizeable collection of boxes corralled by antiques dealers.

There are bride's boxes, gifts from groom to their brides for finery; colorful boxes of this wood imported from Switzerland and Bavaria by the Pennsylvania Dutch. There are bonnet boxes, sometimes called Hannah Davis boxes, named for the woman who sold them in New Hampshire. Regular boxes made of cardboard or thin soft wood with bottom and cover of pine have been kept in meticulous shape through the years.

T-e-a caddies, boxes made of wood, pewter, silver, tortoise, lacquer, mother-of-pearl, enamel, and tin were styled according to the furniture of the period with two compartments for tea. These are useful today for tea or plants.

Pat boxes of metal, Battersen enamel or fine Staffordshire china dating back to the early 1700's are fun to collect, decorative in the home and useful for small objects, such as pins. Ditty snuff boxes made of more common materials such as tin, pewter, horn, brass or papier mache, and often bearing prints of historical subjects.

Kitchen boxes are the most popular of all. Candle boxes with sliding lids, dough boxes, knife boxes and spice boxes are still useful in the kitchen and other areas of the home. Oblong dough boxes with legs are now used as low end tables. Knife boxes with handles are useful for that purpose once again, but can be used as nut boxes, sewing boxes or catch-all boxes. Salt boxes and dredgers, boxes with perforated lids to sift flour or meat, made of wood or earthenware combined with wood are still useful on the wall of the modern kitchen. Spice boxes with special compartments for spices are still useful for that purpose or for crocheted materials. Ingenious yes can find many odd uses for kitchen boxes.

Jewel boxes and chests usually

are elaborate. French boxes include those of bronze dore with Sevres plaques, floral enamels. There are also lacquered leather Chinese boxes, and boxes of which Pandora never dreamed—they are that mysterious in appearance, and don't offer a clue as to their original use.

Boxes can serve as handsome home accessories, too. Use them for letters, stamps, cigarettes, powder, hair ornaments, pins, buttons, plants, flowers, pencils or spices.

NRLCA Banquet Held At Hermleigh

The Rural Letters Carriers of the Southwest Texas local and the Ladies Auxiliary held their annual meeting and banquet Saturday evening at 7 o'clock in the Hermleigh High School cafeteria.

The ladies of the Cafeteria prepared and served the meal. John S. Stewart of Sweetwater gave the invocation. Guest speaker for the evening was Mr. Cecil Sharbutt of Levelland, a member of the State Board of the Texas NRLCA. He was introduced to the group by Surry Gillum, vice president of the local organization.

Mr. Sharbutt spoke on a number of important benefits for the carriers. Bob Emerson of Rocco, president of the local organization, spoke to the group and made a special welcome to Mrs. Roscoe Smith of Roby, a member of the state board, and also to the retired and sub carriers. Mr. Emerson then dismissed the group to their business meeting.

Those attending were: Mr. Cecil Sharbutt and son, David of Levelland; Mr. and Mrs. John S. Stewart, Mr. and Mrs. L. Z. Harvey, all of Sweetwater; Mr. and Mrs. Roscoe Smith, Roby; Mr. and Mrs. S. P. Smith, Blackwell; Mr. and Mrs. Charles Williams, Colorado City.

Mr. and Mrs. E. E. Smith, Mr. John Williams, Mr. Eddie Moser, all of Colorado City; Mr. Bob Emerson, Rocco; Mr. and Mrs. Willie Kinney, Mr. and Mrs. U. Vernon, Mr. and Mrs. Glenn Tate, Mr. and Mrs. Marvin Hanson, Mr. and Mrs. Surry Gillum and sons, Surry, Ross and Randy, all of Hermleigh.

WOMEN'S CALENDAR

THURSDAY
Pyron Home Demonstration Club meets at 2 p. m.

Hospital Auxiliary will meet at the Martha Ann Woman's Club at 9 a. m. for an executive meeting, followed by annual general meeting at 10 a. m.

FHA Girls To Attend Area Meet

Nine Future Homemakers of America of the Snyder chapter will attend an area FHA meeting in Odessa March 17-18.

Those who will attend are: Teri Gebhart, president; Elizabeth Williams, vice president; Diana Hill, secretary; Sandra Stevens, treasurer; Kathy Howard, social chairman; Georgia Spence, pianist; Kay Smith, parliamentarian; The da DeShan, song leader; and Diane Westfall, reporter.

Miss Vera Periman and Mrs. Dan Martin will accompany this group.

BY INEZ ORSB

One way or another it has always been difficult to sell people on salvation. But if civil defense is to be anything but a continuing fiasco, then salvation in case of nuclear war is going to have to be sold in a more practical way. Furthermore, it'll require a hard sell.

That, in one woman's opinion, is the major problem of Frank B. Ellis, director of the Office of Civil and Defense Mobilization who is preparing a new program of civil defense for presentation to the President.

Surely, few persons will want to argue with Ellis's estimate of the

ram, but the program itself has never faced up to the task of nuclear defense for the civilian populace nor has the populace been educated either to want or demand adequate protection.

Part of the Congressional and public reaction to the national salience in case of nuclear attack is probably traceable to the fact that all of us, confronted with the terrible statistics of nuclear destruction, stick our respective heads in the sand.

It is almost impossible for us to grasp the fact that a minimum of 20,000,000 to 40,000,000 of us could die in the first attack and that as

The fact that hundreds of thousands of persons were herded off sidewalks and crowded behind plate-glass windows on the city's major avenues was — and is — a major mockery. Give us a small World War II bomb would turn that glass into lethal shards that would cut hapless persons to ribbons.

That has set the pattern for every civil defense exercise since, an exercise in futility that is dangerous, useless and deceitful. How many persons have been lulled into a false sense of security by such tactics?

Earnest and honest persons have worked at the civil defense pro-

Mary's Church in Ponca City.

The priest was arrested last January on a disorderly conduct complaint but it was dismissed in municipal court.

He was among 13 persons arrested Saturday on a similar charge and the cases were set for hearing March 27. Father McDoyle said he could not comment whether his transfer was a result of his participation in the demonstrations.

Henry Wells, of the famed Wells Fargo Express Co., also founded Wells College for Women in Aurora, N. Y.

Nature note: The snail, often rebuked for its slowness, has a top speed of three inches a minute, yet retains an overlooked virtue. It can, in fact, pull up to 200 times its own weight.

Bad insects make us neighbors. Japan is troubled with an insect pest there called the Colorado beetle. Here it is called the Japanese beetle.

It was 60 years ago that— in Wichita, Kan.— Carry Nation made her first hatchet raid against a saloon. You just never see girls like that any longer, although here and there a few do—bouncer the other way, in a death-battle with broken martini glasses while crying for mercy.

A nice hope: The average baby born in the United States today can expect to live half again as long as the average baby of 1900. The real problem is to explain to him why it is all worthwhile.

How much do you dream? Science has found, about 20 per cent of the time, asleep. Awake, or on the job? Well, what does your boss think of you?

The average American housewife carries out about 1,000 pounds of garbage yearly.

It was Joseph Hergeshiesheimer who observed, "So long as you are learning, you are not growing old. It's when a man stops learning that he begins to grow old."

WACO (AP)—Gilbert E. Kinder of San Antonio was fined \$7,500 and sentenced to three years in prison Tuesday for filing false income tax reports.

U.S. Dist. Judge Ben H. Rice Jr. told Kinder that if he would pay the fine within 60 days that the prison sentence would be suspended and he would be under probation three years.

Kinder, partner in a San Antonio construction firm, pleaded guilty March 1.

Thoth, the ancient Eypgtian god of letters, was known as the clerk of the underworld. He was represented as carrying a tablet, pen and palm-branch.

THE END—This overhead view of the sixth round of the heavyweight title bout at Miami Beach, Fla., between champion Floyd Patterson and Ingemar Johansson shows the challenger heading for the canvas for the last time in the match. (AP Wirephoto)

Tax Problems Rise Up To Plague Ingo

By MURRAY ROSE
Associated Press Sports Writer
MIAMI BEACH, Fla. (AP) — Sweden's Ingemar Johansson, belted by a \$1-million tax claim, was scheduled to battle another round with the U. S. government today while Floyd Patterson headed home to figure out whom he is going to slug next.

The heavyweight champion, a knockout conqueror of the big Swede in the sixth round Monday night, probably will face England's Henry Cooper in New York next June or September.

Sonny Liston of Philadelphia, Eddie Machen of Portland, Ore., and other contenders have been mentioned as possibilities. But Cooper, unbeaten in his last seven fights, is understood to have the inside track if he gets by Welshman Joe Erskine in London next Tuesday night.

Johansson had hardly recovered from his kayo defeat when Uncle Sam tossed another financial haymaker at him. This time the man with the beard demanded another \$411,620 for 1961 to go with a back tax claim of \$508,181 for 1959 and 1960.

In addition, the U. S. Immigration Service handed Ingo an order temporarily banning his departure from this country. He probably will lounge around in the sun at Palm Beach for a week or so. The 28-year-old businessman-fighter was subpoenaed for a U.S. courthouse appearance at Miami today. The government action was

aimed at tying up any funds Ingo may have received in advance as well as money promised him by Feature Sports Inc. and Tele-Promoter. TPT handled the television, movies and radio rights on the Patterson-Johansson fight.

Johansson already has received \$550,000, including \$300,000 for 1959-60 and \$250,000 for the third fight. This has been transferred to a Swiss bank. Johansson claims Swiss residence and says he is an employee of Scanart, a Swiss corporation.

Johansson's lawyer, Matthew Manners of New York, contends

RED HOT TRIO—Nobbing the top individual laurels in the recent Men's City Association Bowling Tournament here were, from left, Floyd Allmand, Jeston Corbell and O. R. "Buster" Brown. Corbell copped the all-events trophy with a 1926 total, while Brown was the singles kingpin with 667. Brown teamed with Allmand to post a 1361 winning doubles total, also, in the annual handicap tourney. (Photo by Jackson)

Westerners Edge Tigers, 3-2

The Lubbock Westerners, spurred on by a five-hit pitching effort by righthander Dave Whiteside, eased past Snyder's Tigers here yesterday, 3-2. The visitors' triumph upped their season mark to 3-4 and tended to drop the Tigers to an identical figure.

Feature to capitalize on scoring opportunities plagued the Snyder cause through much of the game, as the locals left nine baserunners stranded over the course of the evening to only five for Lubbock. Once, due to an odd quirk of fate in the sixth inning, the first two Snyder hitters up in the frame landed base hits, after which batsman number three strode up with a bases empty situation staring him in the face.

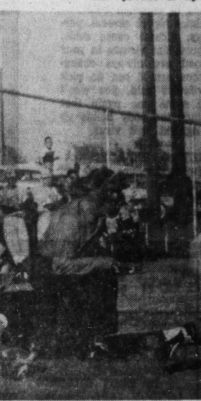

Weldon Ware started things off in the inning by pushing a line double to left, then took third when an attempted pickoff play at second backfired. Bennie Greenfield next lofted a short pop-up between pitcher and second, while Westerner second baseman Buzzy Henderson tried unsuccessfully to shoestring the ball dropping just in front of him for a single. At that point Ware broke for the plate in an attempt to score, only to be cut down. On the throw home Greenfield hustled to second where a late same as Ware's awaited him as the Lubbock backstop rifled to second to nail him.

Bubba Fleming followed up by driving a single to dead center but advanced no further when Roger McMenamy whiffed to end the inning.

Lubbock bolted into the scoring column initially in the third frame. Whiteside laced a double to deep left and scored the first run in the contest when Tiger catcher Ronnie Wylie threw wild to first after a third strike pitch to Gary Knowles had gotten away from him, with Knowles wheeling all the way to third on the miscue. Knowles later scored when Wylie fired away to third trying to pick him off.

Snyder came alive in the fifth to tally a run of its own. Wylie began the inning by working White-

side for a free pass, after which Gary Dement singled to right, but was out at second as Henderson grounded into a fielder's choice. Henderson took second on a base-line single past third by Danny Davis, then waltzed in on another one-baser between third and short by Mike Webb.

OUT AT HOME—Snyder Tiger Weldon Ware executes a slide into home territory here yesterday, only to find the platter well-guarded by catcher Jerry Don Balch of the Lubbock Westerners, whose team eventually emerged victorious by 3-2 in a non-district encounter. The play transpired in the sixth inning, with Ware being coiled out by umpire M. L. Galloway, left. (Photo by J. C. Burton)

After miffing the golden scoring opportunity in the home half of the same frame, the Tigers came back to throw a genuine scare into the visitors in the last-chance seventh. Wylie led off by sending a looping single into left center, then moved on to second when pinch hitter Charlie Gladson was clipped by a pitched ball. Moffett next grounded to short, with Gladson being forced out at second on the play and Wylie gaining third in the process. Steve Free walked to cram the sacks with only one down.

Spencer Dyer followed up by hitting a double play grounder to second sacker Henderson, who dropped the ball while tagging Free, who was homing in from first on the force. Wylie tallying on the play. That was the sum and substance of the Tiger fireworks in the inning, however, as Ware popped out to third and Greenfield lined out to short to end the game with the bases loaded.

Both Greenfield and Whiteside toiled the entire game for their respective teams. Greenfield displayed remarkable control over the route, as he walked not a man throughout. The loss gave him a 6-1 record, while Whiteside boosted himself to 2-0.

The Snyder nine next sees action this Friday, when they trek to San Angelo for a joust with the Bobcats of that city. They are to

return home the day following for a twin bill against Big Spring, Lubbock

Power Of Positive Serving

14-Year-Old Shares Lead

HARLINGEN (AP) — Defending champion Jeannie Butler and Wanda Sowell, the 1960 Texas Public Links champion, lead the way into today's second round of the 24th annual Rio Grande Valley Women's Golf Tournament.

Miss Butler, 14, of Harlingen, defeated Mrs. Gene Nations of Harlingen 7 and 5 in Tuesday's first round. Miss Sowell, Tyler, shot even par to defeat Mrs. Lynn Jones of Mission 7 and 6.

In the second round, Miss Sowell met Mrs. Ed. Nordheim of Brownsville, first round victor over Mrs. J. L. Head of Harlingen, 1-up in 19 holes.

Denver City Edged, 24-22, By Tigerettes

It was a terrific tussle all the way, but one with a happy ending, as Snyder's Tigerettes won another one here last night — their eighth in nine starts — over Denver City, 24-22.

It was the final non-district test of the season for the local six, which travels to Sweetwater Friday for a resumption of 3-3A competition. That game had previously been slated to be played in Snyder, but a schedule switch yesterday altered the picture.

The Tigerettes, who held a shaky 16-15 halftime lead in last night's battle, led by only a single point with 32 seconds left in the game and the Denver City girls on the offense. The ball reverted to Snyder at that point, however, and Linda Williams served the point which put the game on ice.

Miss Williams was leading server for the locals, while Mary Ann Savage was the top spiker.

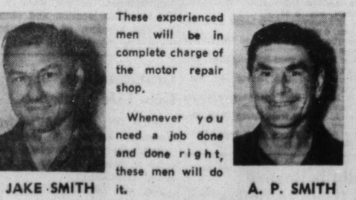

In a preliminary joust, the Tigerette "B" copped its fourth decision in five starts by rolling to a 27-20 win over their Denver City counterparts.

Server Jenn Fisher and spikers Jackie McNabb and Linda Cartwright paced the winning onslaught.

Cure May Be Found For Mongolism

BY THE ASSOCIATED PRESS

Mongolism and a cause for hope, dogs and heart attacks, common colds, and sharp razors are subjects with a focus on health.

HAZARD'S EDGE

Razor blades take out four to 15 times as much skin as electric razors, say Boston researchers. Seven times as many complaints of after-shave burn come from razor users as from electric shaver users in tests on 249 men and 120 women, indicates a report in GP, journal of the American Academy of General Practice.

HOPE FOR MONGOLISM

A young French scientist who has found a strange error in the body chemistry of mongoloid children now says: "There is no reason to say that mongolism is definitely incurable." Tests on mongoloid children indicate the error may affect pro-

duction of a key brain chemical, serotonin. The discovery comes from Dr. Jerome Lejeune of the University of Paris who also found the children possessed an abnormal number of chromosomes—those delicate strands of genes that determine what we will be. Dr. Lejeune recalled an experiment 23 years ago in which fruit flies with abnormal chromosomes suffered from small, tilted eyes. When fed corrective material, the fruit flies became normal again. So far Dr. Lejeune has been unsuccessful in finding an answer to human mongolism, reports Medical World News. In fact, Dr. Lejeune says the error may not be the only or the responsible one in mongolism, but it is a lead.

DOG WITH A HEART

Dogs often fall victim to one of man's big enemies, heart disease, a new report shows. A study of 3,000 dogs by Univer-

sity of Pennsylvania veterinarians found 200 with reliable signs of heart disease and 322 others with suspected disease.

THE COMMON COLD

There may be no practical vaccine against the common cold. The reason: There are just too many kinds of common colds.

Researchers report several, perhaps many, viruses cause colds. And the prevalent viruses in your neighborhood are always changing. Chances are if you do pick up a particular cold, you won't catch the same one again that season, since the body builds up defenses against that virus.

I'M ONLY 39, REALLY

Men between the ages of 30 and 50 are the most frequent liars about their ages, a study shows. But women, although they lie less frequently, tell the bigger lies.

More Suits Seen In Price-Fixing Deals

PHILADELPHIA (AP)—The Justice Department, which Tuesday joined the Tennessee Valley Authority in suing five electrical equipment firms for nearly \$12 million for alleged overcharges, says other damage suits are contemplated.

But in making the statement, neither Atty. Gen. Robert Kennedy nor William Maher, chief of the antitrust division here, elaborated. Maher earlier this year headed the successful prosecution of 29 big electrical firms and 44 of their executives on charges of bid rigging and price fixing which led to Tuesday's action here.

The suit was the first such filed by the federal government. States, cities and private utilities also are planning multimillion-dollar actions against the firms. The General Electric Co. and Westinghouse Electric Corp., America's two biggest manufacturers who were among the five named in the suit Tuesday, said they would vigorously defend themselves against the latest action.

The two firms, both of which pleaded guilty or no defense along with 27 other companies in the huge antitrust case which Maher prosecuted, said their customers were neither cheated nor victimized.

Echoing their sentiments was the Allis-Chalmers Manufacturing Co. of West Allis, Wis., which also was named in the civil action and earlier had pleaded guilty or no defense on the antitrust charges. The two other firms named in the joint civil action filed in U.S. District Court here were the Federal Electric Co. of Newark, N.J., and I.T.E. Circuit Breaker Co. of Philadelphia. They, too, had pleaded guilty or no defense on the antitrust charges.

The civil action charged that collusive rigging of bids and the illegal fixing of prices in the sale of oil circuit breakers since 1931 resulted in prices about 40 percent higher than what should have been charged.

It alleged that TVA and the federal agencies bought more than \$25 million worth of circuit breakers at prices roughly 40 percent too high in the last nine years.

The Justice Department sued on behalf of the Atomic Energy Commission, the Army Engineers, the Bureau of Reclamation, the Southwestern Power Administration and the Bonneville Power Administration. It seeks double damages of \$4,421,372.

TVA contended that it can sue for itself as an independent, self-sufficient corporation and not as a government agency.

If the court upholds this theory, TVA can collect triple damages if it can prove it sustained a money loss. TVA, however, specifically asks for the treble amount of \$7,478,691. But if the agency can collect only double damages, under the federal False Claims Act, it would be entitled to recover a maximum of \$4,465,794.

In the antitrust action earlier this year, U.S. Dist. Judge J. Cullen Gandy levied fines totaling

\$1,924,500 on the 29 companies and 14 of their executives. Seven executives were sent to jail, including two from Westinghouse and three from General Electric. All were freed last week after serving 25 to 26 days.

GE, Westinghouse and Allis-Chalmers pleaded guilty in the criminal action and were fined \$40,000, \$30,000 and \$20,000 respectively. Federal Practice was fined \$15,000 and I.T.E. \$10,000. Four executives were fined a total of \$8,500 and three received 30-day suspended prison sentences. Still to be sentenced is a GE official who is ill.

Storm Now In Atlantic

BY THE ASSOCIATED PRESS

The remnants of a storm that dropped between 3 to 6 inches of snow on New England Tuesday continued to lay a white blanket over parts of Maine today as it blew out into the Atlantic Ocean.

In the storm's wake, snows turned to flurries and rains moisture to drizzle from New England through the Great Lakes. Much of the white cover melted under a combination of warming temperatures and rain.

Hains also peppered the West Coast with the heaviest falls along the central California coast and lesser amounts northward. San Francisco reported 1.21 inches of rain in six hours.

Elsewhere generally fair weather prevailed. Early morning temperatures generally were in the moderate 30s in northern border areas, and the 40s and 50s in inland areas and in the 60s and 70s in southern coastal states and the Southwest.

TVA contended that it can sue for itself as an independent, self-sufficient corporation and not as a government agency.

If the court upholds this theory, TVA can collect triple damages if it can prove it sustained a money loss. TVA, however, specifically asks for the treble amount of \$7,478,691. But if the agency can collect only double damages, under the federal False Claims Act, it would be entitled to recover a maximum of \$4,465,794.

In the antitrust action earlier this year, U.S. Dist. Judge J. Cullen Gandy levied fines totaling

New Site Is Expected For Jinxed Film

By EDDY GILMORE

LONDON (AP)—Elizabeth Taylor's studio today abandoned plans to film the jinxed multimillion-dollar epic "Cleopatra" in Britain.

But Joseph Mankiewicz, who replaced Rouben Mamoulian as director of the film, and Sid Rogell, chief of European productions for 20th Century-Fox, emphatically denied that the ill-fated picture is being abandoned.

"We shall definitely make it," Mankiewicz said. "Probably in Egypt, Italy or California." He indicated Miss Taylor would still be the star, although her personal physician has said it may take as much as a year for her to recuperate from the double pneumonia that last week brought her near death.

"Even if we wanted to make the film here, we couldn't," the director told newsmen before he and Rogell took as plane to New York to confer with Spyros Skouras, head of 20th Century-Fox. Mankiewicz explained that the J. Arthur Rank film organization had asked the "Cleopatra" company to vacate Rank's Pinewood Studios. Rank officials said their company needed the space for its own productions.

Miss Taylor continued to improve at the London Clinic. Work on "Cleopatra" began in England last autumn and ran into one snag after another. Miss Taylor, who is being paid a million dollars to play the lead role, was to have gone before the cameras Oct. 14 but rain, fog and cold prevented filming.

Cablegrams Figure In Divorce Action

MEMPHIS, Tenn. (AP)—A 29-year-old mother was granted a divorce from her contractor-builder husband after she testified he spent \$900 on cablegrams to Nikita Khrushchev and Fidel Castro.

Mrs. William Henry Riley also testified that her husband would allow only candles and a kerosene lamp and heater to heat and light their home, and he insisted their three young children observe Jewish fast days although the family is Protestant.

Riley, denying most of the charges, acknowledged sending the cablegrams to Castro, but said the telegram company would not accept the Khrushchev message.

Actress Declines Role With Elvis

HOLLYWOOD (AP)—Actress Juliet Prowse is under suspension at 20th Century-Fox for insubordination while on loanout to Hal Wallis Productions.

The home studio announced Miss Prowse's suspension Tuesday, noting that she refused to play the lead role opposite Elvis Presley in Wallis' "Blue Hawaii."

The actress testified Wallis last week she would play the role only under certain conditions. These included a change in billing, payment of her passage to the Hawaiian location and obtaining the services of her makeup man, Roy Stork, from Fox.

Grandmother, 69, Gets Life Sentence

HOUSTON, Tex. (AP)—Myrtle Veronica Barber, a 69-year-old grandmother, was assessed a life term in prison Tuesday as a habitual criminal.

She was found guilty of forging a \$20 check and had two previous convictions on similar offenses. Three convictions made her eligible for the life sentence.

Two Pleas Heard

Two pleas of guilty were heard in county court Tuesday, both on DWI charges.

Patricia R. Martinez and W. W. Harris each was fined \$100 plus court costs and given a 3-day jail sentence.

Wind Erosion Least Since Dust Bowl

TEMPLE, Tex. (AP)—Damage from wind erosion in Texas this year is the smallest since the pre-Dust Bowl days, the Soil Conservation Service says.

H. N. Smith, state conservationist of the service said Tuesday that only 24,370 acres were damaged in February and 93,148 acres have been damaged to date in 1951.

In the first two months of 1950, 538,119 acres were damaged and in February, 1960 the damage was 527,719 acres.

However, of 41,842,200 acres, 2,160,379 are still in a condition susceptible to wind erosion. The sharp drop so far this year, Smith said, is the result of better moisture conditions, fewer days of high velocity winds, better crop cover and better soil conservation practices.

During February, the Pampa, Amarillo, Abilene and San Angelo districts report no wind erosion damage. The Big Spring District reported 22,000 acres damaged, the Lubbock District 2,000 and the Vernon District 270.

So far this year, there has been no soil damage in the San Angelo District. The Pampa District reported 35,000 acres damaged, the Amarillo District 265, the Vernon District 12,203, the Lubbock District 8,000, the Abilene District 600, and the Big Spring District 37,000.

Councilmen Plan To Serve Without Pay

MARIETTA, Pa. (AP)—For two years the eight members of this tiny hamlet's council each had been receiving \$3 a month for attending one meeting a month. Burgess Robert Vandercreek drew a salary of \$200 a year.

Tuesday night council and Vandercreek announced they were going to serve without pay for the rest of the year instead of raising taxes in order to help pay off \$3,500 the borough borrowed for operations. This means a maximum saving of \$600.

Officials did not say how they planned to pay off the rest of the debt.

Dean Is Experienced Hand In Dealing With Commies

By HARRY SCHWEID

WASHINGTON (AP)—Arthur Hobson Dean, who will head the U. S. negotiating team in Geneva next week, is an old hand at bargaining with Communists.

He has haggled with them in a seemingly endless struggle to find a middle ground. He has stalked off when he thought the talks were getting nowhere and the Communists were getting insulting.

Dean, 61, a lawyer, did both in late 1953 in Pannunjom, Korea. He served seven weeks there as U. S. ambassador to planning discussions on a Korean peace conference.

He came away with this impression of the Communist North Korean and Chinese negotiators: "The Communists have been using the negotiations as a forum for their propaganda. It's all part of their psychological war. They insult you all day long."

When the long drawn out talks on a nuclear test ban resume Tuesday, Dean will be dealing this time with Soviet Communists. He has been instructed to keep talking as long as the negotiations show the progress needed to reach an agreement.

To arrive at one, Dean said, "We are going to use all of our powers of ingenuity and persuasion."

Dean has dealt not only with Communists in negotiating on behalf of the United States. He is not new to Geneva.

In 1958, and again last year, this specialist in international and corporate law headed U. S. delegations to Geneva conferences on the law of the sea. Each conference was attended by 80-odd nations.

Associates found Dean a forceful speaker whose statements were cast in popular phrases rather than in legalistic terminology. A man who was to travel far afield in his later years, Dean went to school and worked at his first jobs in his hometown, Ithaca, N.Y., where he was born Oct. 16,

1896. He studied at the Ithaca High School and then at Cornell University, in Ithaca, helping to meet college expenses by working as a night clerk at a hotel and as a bookkeeper in a bank.

He interrupted his studies with Navy service in World War I, returning to the university after the armistice for his bachelor's and law degree.

Admitted to the New York bar in 1923, he joined Sullivan & Cromwell, a New York City firm of which the late Secretary of State John Foster Dulles was a partner. When Dulles became U. S. senator in 1949, Dean succeeded him as the senior partner.

Dean was married to the former Mary Talbot Clark Marden on June 25, 1932. They have two children, Nicholas B. Dean and Patricia Campbell.

An associate of Dean has said, "His only hobby so far as I know is the law." He showed his dedication to it at Geneva, putting in long hours seven days a week and evidently enjoying it. He also spent quite a bit of his own money to entertain delegates in a manner he thought befitting the United States.

Shortly after his return from Korea, Dean defended himself against a charge by the late Sen. Hiram Walker, R-Iowa, that he favored a policy of "appeasement" toward Red China.

"I am 100 per cent against appeasement or knuckling under," Dean said.

and to the best of my knowledge and belief I have fought the Communists at every turn." Dean said, "Communism is repugnant to every idea for which I stand."

He also said he never had favored admitting Communist China into the United Nations or into the family of nations.

Later, in April 1955, Dean suggested in a magazine article that the United States would improve its international position by recognizing Red China in return for "balancing concessions." He did not say exactly what these concessions should be.

The first case presented to the UN Security Council was a demand by Iran for the removal of Soviet troops from her northern provinces. The demand was brought before the council Jan. 19, 1946. The Soviet troops withdrew the following May.

Gas Hearing Set By FPC

WASHINGTON (AP)—The Federal Power Commission will hold a hearing here May 15 on applications for the proposed sale of natural gas which is to eventually go to Transcontinental Gas Pipe Line Corp. of Houston.

On the agenda are a rehearing on an order Nov. 22, authorizing South Texas Natural Gas Gathering Co., Corpus Christi, to sell up to 70 million cubic feet of gas a day to Transco and also authorizing 1 independent producers and one pipe line company to sell gas to South Texas for resale.

The hearing also will consider an amendment, filed by South Texas proposing to double its deliveries to Transco, and other applications by producers who want to sell gas to South Texas.

The New York Public Service Commission, which asked the rehearing, wants the FPC to order a lower initial price than the average of about 15 cents a thousand cubic feet which is approved.

Janitor's Wish Is Fulfilled At Death

LEXINGTON, Ky. (AP)—In death, John Alcorn, a 77-year-old Negro janitor at the University of Kentucky, will have his wish fulfilled.

His funeral will be held Friday at Stately Memorial Hall, where he was caretaker for 15 years.

Alcorn died Monday. The request was contained in his will.

"He was more than just the caretaker," one of Alcorn's sons said. "He loved the building."

Safety Program Scheduled Here

The award-winning Champion Highway Safety Program, which has been seen by more than two million high school students will be presented during assembly at Snyder High School on Friday.

Bill Chesbourg, one of the seven nationally-known racing stars now touring the country with the program, will appear here under sponsorship of Wilson Motor Co., local Ford agency.

Chesbourg also will present the program at the regular meeting of Snyder Jaycees.

The program, now going into its sixth year, has been praised by educators, civic leaders and law enforcement officials for its unique approach to the serious problem of highway safety.

It features leading race drivers who are trained and qualified speakers, delivering lectures on what is required of the individual in becoming a safe driver. Having lived in the world of speed they know its perils and the foolishness of treating driving responsibilities lightly.

The Champion Spark Plug Co. developed the program as a non-commercial public service and for it, received the Public Interest Award of the National Safety Council.

BILL CHESBOURG

In addition to this award, it has received the acclaim of more than 50 newspapers and The Saturday Evening Post.

Chesbourg, who will present the program here, has competed in three Indianapolis "500" races. An outstanding stock car driver, Chesbourg recently won the Detroit "250" late-model stock event.

His greatest string of victories included five consecutive Arizona State roadster championships.

Cogdell Hospital Now Accredited

Cogdell Memorial Hospital here has been accredited by the Joint Commission on Accreditation of Hospitals.

Dr. Kenneth B. Babcock, Commission Director, said that some 4,500 of 6,000 eligible hospitals applied for accreditation, and of that number 75 per cent are accredited.

Only other hospitals in this immediate area which are accredited include two at Lubbock, two at Abilene and one at Big Spring.

The Joint Commission on Accreditation of Hospitals is an agency established by four organizations—the American College of Physicians, American College of Surgeons, American Hospital Association and the American Medical Association—to conduct the hospital survey and inspection program initiated by the American College of Surgeons in 1919. The commission began operations on Jan. 1, 1953.

Accreditation of a hospital has

been likened by many to "sterling on silver." It is a mark of distinction and earned by high standards of care.

"Accreditation of a hospital means," said Dr. Babcock, "that it has voluntarily submitted to a survey of its facilities and its patient care. It is a badge of recognition which the hospital can display to its community to prove that it conforms to high standards of patient care."

The surveyors, all physicians, rate hospitals on certain basic requirements, such as: A safe physical plant free from fire hazards; adequate medical records; ethical practices; investigation of all tissue removed at operation; proper nursing care, and proper administrative and medical staff organization.

'Oscar' Portrayal Mere Bric-A-Brac

By WILLIAM GLOVER
Associated Press Drama Critic
NEW YORK (AP)—The gay light and somber dark of Oscar Wilde's world, shaft strangely through Michael Mac Liammoir's new one-man Broadway entertainment.

"The Importance of Being Oscar," which opened Tuesday night for limited engagement at the Loew's, is a program of solid appeal for fans of the exotic Victorian and for enthusiasts of stage readings. Others are apt to be less ecstatic.

The bright side gleams in the first half as Mac Liammoir culls from the dandy's early lily-waning days with excerpts from "The Picture of Dorian Gray," "Salome" and "The Importance of Being Earnest."

The mood abruptly reverses after the intermission, to follow the doomed poet through the distressing years following conviction on charges of immorality. The much-worked-over trial episode itself is mercifully "supposed to take place," the program notes, during the interlude.

Mac Liammoir being solidly pro-Wilde, the entertainment at this point dilutes its dramatic effectiveness with an apologetic defensiveness.

The Irish star, who has previously exhibited "The Importance of Being Oscar" at various overseas stops, moves through his pieces with some florid overtones, but brings to each segment interpretively inventive understanding. Some of the spots seem extended beyond proper measure.

The performance is enacted against blacked-out stage background with a sofa, table, arm chair and a pedestal of flowers as the only props—the effective

Newlyweds Part Early

DENVER (AP)—Although he has been married little more than a week, George Rapee sees nothing unusual in the fact he's here and his bride's in New York.

Rapee, owner of a parking lot chain, is a bridge fanatic, competing in the American Contract Bridge League's spring championships. His bride, Jo Ellen, does not play bridge.

"There's nothing more boring for a non-bridge player or a new bride than to attend a tournament like this," Rapee said. "Even for a bridge player, there isn't much fun at one of these tournaments. It's a lot of hard work."

"I'd rather have Jo Ellen see me in better light than this during our first week of marriage. All I think about is bridge during a tournament."

Pinball Machines Are Going To School

SAN ANTONIO, Tex. (AP)—Assistant district attorney Mayo Galindo hopes to get some pinball machines for students at Jefferson High School here.

He hastened to add, the marble tables—seized by the sheriff's department last September—would not be used for play. Galindo asked permission of a district court Tuesday to destroy the gambling devices and turn over electrical equipment in them to Jefferson's science department.

The UN lost a member in 1958, but only numerically. That came about when Egypt and Syria merged as the United Arab Republic.
