Forecasters at Washington reported at 9 a.m. EST, that Esther was centered about 140 miles northeast of Cape Hatteras and was expected to continue in a northerly direction about 15 m.p.h. during the next 12 to 18 hours.

Light Rains Extend Here

Cool air seeped into West Texas late Tuesday, bringing light thundershowers which extended into the Snyder area.

\$38,000 UF Budget Set

A 1962 budget of \$38,000 was approved Tuesday afternoon by directors of the Scurry County United Fund.

Bids Sought On Repairs To School

Bids will be opened Oct. 17 on proposals for repairing fire damage at the Stanfield Elementary school.

JFK Cancels News Parley

WASHINGTON (AP)—President Kennedy today canceled the news conference he had scheduled for Wednesday morning.

WEATHER

SNYDER TEMPERATURES: High Tuesday, 83 degrees; low, 62 degrees. Reading at 7 a. m. today, 67 degrees.

Members of the Snyder Fire Dept. are shown as they battle a blaze this morning. The residence, located at 2707 Twenty-fifth Street, was occupied by Pauline Burgary and owned by Mrs. J. D. Cain.

No Date On New Session

AUSTIN (AP) — Gov. Price Daniel told a press conference Tuesday that he could not yet name a date for the next special legislative session, but added it would not be before Oct. 15.

"Chances are the session will be the latter part of the year or the second of January, unless something comes up," he said.

Daniel did promise to ask the legislature — when he calls it back — to increase state preparation for disasters such as Hurricane Carla. This added at least a sixth topic to be considered by a special session.

"I can see now that we need to provide more money for the National Guard," Daniel said in discussing the effect of Hurricane Carla on the special session. "We need to provide more highway paymen, too. I'm sure I'll add those to the call of a special session."

SPAGHETTI SUPPER SET AT STANFIELD

The Stanfield Elementary School P.T.A. will sponsor a chicken spaghetti supper Friday evening in the Stanfield cafeteria.

The event will precede the Snyder — Big Spring football game.

Serving at the cafeteria will begin at 5:30 p.m. Tickets sell for 36 cents, plus tax; for adults, and 49 cents plus tax, for children under 12.

JOINS NAVY—Steve Barrett, 17, son of Mr. and Mrs. Carl Barrett, 607 Thirty-fifth Street, enlisted in the Navy on Sept. 15. He is a 1961 graduate of Snyder High School.

Brooks Renamed To LCC Advisory Board

C. Dale Brooks, formerly of Snyder, has been renamed to the advisory and development board of Lubbock Christian College.

Brooks, who is now minister of the Pioneer Park Church of Christ in Lubbock, was minister of Thirty-seventh Street Church of Christ in Snyder for several years.

Dr. F. W. Mattox, LCC president, said the selection of advisory board members is based on the candidate's active interest in Lubbock Christian College, participation in volunteer campaigns for the college and leadership in the local community.

Guardsmen Lose Jobs

HOUSTON (AP) — An officer of a National Guard unit is trying to get back the jobs and pay some of his men lost while on Hurricane Carla disaster duty.

Eight of the men lost their jobs and about 35 or 40 others lost a week's pay, Col. Richard Burrage said.

He is executive officer of the first battle group of the 143rd Infantry.

Five of the eight had their jobs back last night, he said.

"Most of those who lost pay, ironically, are either federal employees or men who work for people making their livings from defense contracts," Burrage said.

He said most of the top bosses didn't know the guardsmen's supervisors fired them for not showing up to work.

Each man left word he was being called to duty, Burrage said. "The guard pay is \$3 a day," he said. "This means in one week the men got \$21. Most of these men are married and some have large families."

San Francisco's Golden Gate Bridge is the world's longest single-span bridge

Why "Good-Time" Charlie Suffers Uneasy Bladder

Unwise eating or drinking may be a source of mild, but annoying bladder irritations — making you feel restless, tense, and uncomfortable. And if restless nights, with nagging backache, headache or muscular aches and pains due to over-exertion, strain or emotional upset, are adding to your misery — don't wait — try Doan's Pills. Doan's Pills act 3 ways for speedy relief: 1 — They have a soothing effect on bladder irritation. 2 — A fast pain-relieving action on nagging backache, headaches, muscular aches and pains. 3 — A wonderfully mild diuretic action thru the kidneys, tending to increase the output of the 15 miles of kidney tubes. So, get the same happy relief millions have enjoyed for over 60 years. Large, economy size saves money. Get Doan's Pills today!

PONTIAC FOR 1962—Gene Stewart and Lorene Kohutek look over a new Pontiac Bonneville which is among the 1962 models which will be shown tomorrow at Pat Buick-Pontiac Co., on the East Highway.

New Pontiacs On Display Tomorrow

New Pontiac automobiles for 1962 will go on display in Snyder tomorrow at Pat Buick-Pontiac Co., located on the East Highway. Pontiac intends to continue its leadership of the medium price class in 1962 with an imposing line-up of new cars which are unparalleled in beauty, performance, handling, reliability and riding comfort," said E. E. Knudsen, General Motors vice president and Pontiac Motor Division general manager, as he introduced the new regular size Pontiac line.

Four luxurious Bonneville models, two distinctive Star Chief and seven cars in the lower priced Catalina series comprise the new line, he announced.

In detailing the car's new features Knudsen pointed to all new styling, improved V-8 engines, extended lubrication limits up to 35,000 miles, a Ciel-Aire heater standard for all series, more rugged suspension and smoother operating Hydra-Matic transmissions.

Exclusive new styling both inside and out conveys a dramatic prestige look throughout all thirteen new wide track models. Knudsen declared "A spectacular V-shaped front end, sweeping side sculpturing, an expansive rear design and new custom roof styling — resembling convertible top design on sports coupe models — are major contributions to the car's exciting new exterior appearance," he revealed.

Further highlights are new Pontiac Magic Mirror finishes of durable, high gloss acrylic lacquer — available in fifteen eye appealing solid colors and a wide assembly of two-tone combinations. Completely new Pontiac interiors, according to Knudsen, are designed for the ultimate in operator and passenger comfort, safety and convenience. Richly appointed instrument panels feature cushion pads and distinctive ornamentation for each series. Attractive new all-coverage Jewel-tone Morrokide or pattern cloths and genuine leather are color keyed to harmonize with exterior finishes. All models include deep loop pile door-to-door carpeting.

Power Top new line is supplied by Pontiac's new 425 cubic inch V-8 as offered in a broad selection of model variations with horsepower ranging from 215 to 348. Standard with synchromesh transmission in Catalina and Star Chief models is an 8.6:1 compression ratio engine equipped with two-barrel carburetor. An 8.6:1 engine with four-barrel carburetor is standard with synchromesh in Bonneville. Both standard engines as well as the 425E economy V-8, a no-extra-cost option with Pontiac's new Hydra-Matic transmissions, can operate on regular fuel.

Additional engine options offer compression ratios up to 10.75:1 and a choice of two, four or triple two-barrel carburetors. The longer new Pontiacs, with the exception of the three Safari station wagons, measure 211.8 inches in the Catalina Chief and 218.4 inches in the Star Chief and Bonneville series. The Safaris have an overall length of 212.3 inches. Heights range from a low of 54.5 inches, with sports coupe models to 56.9 inches for the Safari. All new Pontiacs measure 78.6 inches in width.

In the Catalina, sedan, hardtop and convertible models the wheelbase has been extended to 120 inches. Star Chief and all Bonneville, except the Safari, are built on a 123 inch wheelbase. All Safari wheelbases measure 119 inches.

Lutherans To Gather Items For Relief

Grace Lutheran Congregation as well as the 10,000 Lutheran congregations of the National Lutheran Council, comprising seven million members, has received an appeal through Lutheran World Relief via telegram that clothing, shoes and bedding are needed for victims of Hurricane Carla. The Rev. Walter L. Lentz, pastor of the local Grace Lutheran Church, stated that the local congregation will have an ingathering of clothing this Saturday and Sunday. Since 1939 Lutheran Churches have sent relief supplies to disaster areas throughout the world to people irrespective of race, creed or color.

Lutherans, Rev. Lentz said, contribute to a great many of the interdenominational projects in addition to maintaining individual programs.

In many areas, he said, Lutheran World Relief, which ships clothing, food and medicines valued at over \$120,000,000 annually, including U. S. government surplus food and Church World Service of the National Council of Churches have for several years cooperated in material aid programs.

Of the current \$4,175,000 LWA goal, it was reported, approximately two-thirds is pledged to projects of the Lutheran World Federation. These include widespread mission programs, including a new Africa radio station, aid to refugee groups and minority churches from Western Europe to Latin America, support of self-help and vocational training institutions, maintenance of a theological program and support of the Lutheran Immigration Service.

The Lutheran fund appeal also supports a special ministry to men and women in the armed forces of the United States, providing service centers, publications and program of pastoral care at military bases in this country and overseas. A total of \$360,000 is budgeted for this work.

In supporting direct material aid overseas, LWA has budgeted \$360,000 for Lutheran World Relief and \$240,000 for the Share Our Surplus food program through LWR. Considerable sums also are earmarked for cooperative programs with other agencies, the Ministry in temporary communities, National Lutheran Council services and World Refugee Year projects.

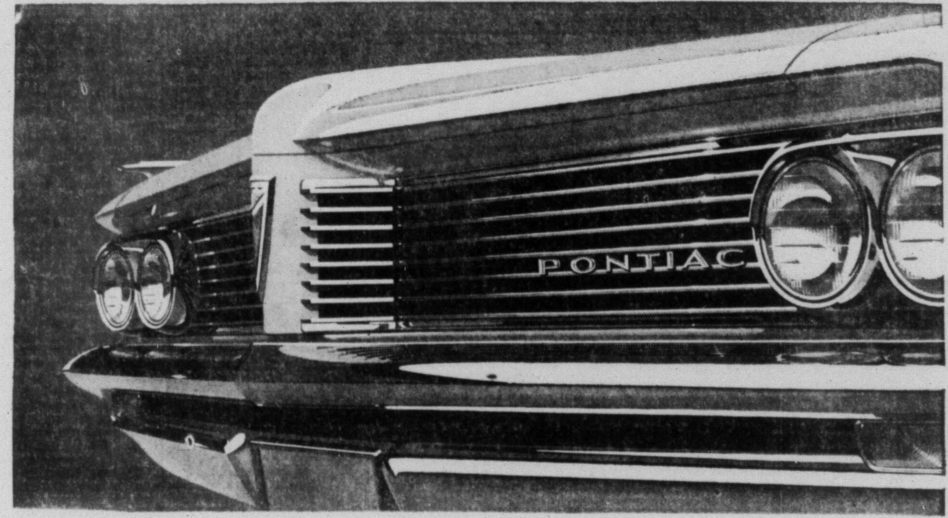

BIRTHS

When a car is this beautiful, you know Pontiac built it!
Who else but the builder of those front-running Wide-Track Pontiacs could bring out a car so freshly and finely styled! It's longer, with a crisp, low silhouette. It's distinctly Pontiac, with a new twin-scoop grille you can recognize a block away. Powered by the potent Trophy V-8, with 215 to 348 h.p. Beautifully poised on Pontiac's famous Wide-Track stance. We've even cut the turning radius as much as 3 1/2 feet to make handling easier. The result is a pride-pleasing new version of America's Number One Road Car. Come on in — and let a Pontiac show you its stuff while it's showing you off!

The '62 Wide-Tracks are here!

MARTHA ANN COGDELL

MR. AND MRS. D. M. COGDELL, SR.

WOMEN

The Snyder (Texas) Daily News, Wed., Sept. 20, 1961 3

Founders And Life Members To Be Honored Saturday

It was back in Sept. 1952 when Mrs. D. M. Cogdell, Sr., held an institute one Saturday morning with a group of some 75 club ladies of Snyder, representing seven federated clubs and clubs in the process of organization.

She explained that she and her husband would donate land and money toward a project of building a Woman's Club in Snyder. It was decided at that time that representatives from each club would work as a committee on the project, which was being sponsored by the Altrurian Club.

Although this was the birth of the idea, it took several years for the club women of Snyder to realize its wonderful completion.

On Sept. 30, 1956 dedication ceremonies were held for the new Martha Ann Woman's Club building. Given the name of the Cogdell's daughter, Martha Ann, who died at the age of 13 years in 1939 the quarter-million dollar club is a living tribute to the birth girl. The Martha Ann Club building is one of several benevolent gestures made in memory of Martha Ann Cogdell by her parents and trustees of the Martha Ann Trust Foundation.

The building is one of the most modern and complete women's club buildings in Texas — and people from such towns as Fort Worth, Dallas, Midland, etc., are very surprised to see such elegance in a town the size of Snyder. Nothing has been spared either in construction of the building or in furnishing it.

Although the building actually cost only about \$150,000 to construct because it was done under the direct supervision of Cogdell, it would have cost at least \$250,000 if contracted and retail prices had been paid for all materials and a contractor's profit were included. Most of the materials were purchased locally at near wholesale prices.

The ultra modern furnishing in concept would alone cost approximately \$40,000, and were paid for by club women of Snyder and Scurry County. The building itself was constructed and paid for by the Martha Ann Trust Foundation.

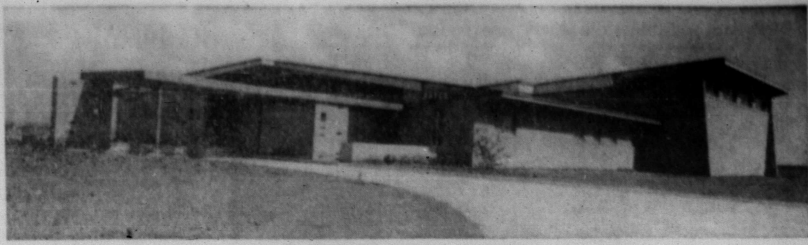

Many persons at the beginning believed that providing furnishings for the building, by the club women, was an almost impossible undertaking, but they made the hard job look easy by working together as a team.

Concept of the idea for such a building was not made overnight by the Cogdells, or any single person. Actually the Altrurian Club, of which Mrs. Cogdell is a member of long standing, could probably be given credit for first pointing up the need for such a building here, but other women of clubs also saw the need for a joint clubhouse.

The first consideration given to such a project by the Cogdell family was a tentative offer to donate \$10,000 toward construction of a club building, but as the idea grew and importance of having such a building became more clear to the Cogdells they decided to pay for the building if club women would furnish it.

Actual work toward furnishings for the building was started in 1953 by the Cosmorama Club, and a Radio Queen's fund raising need held that year to kickoff the furnishings fund with \$7,000 raised in the queen contest.

The second year other clubs joined

MARTHA ANN WOMAN'S CLUB

HONOREES—This is a few of the women to be honored at the Martha Ann Woman's Club "Founders and Life Membership Tea" to be held Saturday. From left seated are: Mrs. J. A. Eubank, Mrs. H. G. Towle, Mrs. D. M. Cogdell, Jr., Mrs. C. V. Thompson, Sr., Mrs. J. C. Dorward, standing, Mrs. Wade Winston and Mrs. R. H. Odom.

Columnist Learns More From Mail

By HAL BOYLE
NEW YORK (AP)—Things a columnist might never know if he didn't open his mail or two of them.

No one has counted the number of left-handed people in the world, but they may number 200 million. The chances against having a southpaw child in the United States are estimated at about 24 to 1.

Ever worry about being struck by a falling meteorite? You are more likely to be hit by a falling airplane. Scientists estimate at least 75 million meteoric particles enter the earth's atmosphere every day, all but one or two of which are burned up before reaching the ground.

We take handkerchiefs for granted now, but once they were an ornament worn only by the wealthy. The penalty for stealing a handkerchief in Elizabethan England was nothing to be sneezed at—it was death.

The first "air mail" was carried by homing pigeons. Egyptians and Persians used racing pigeons to deliver messages more than 3,000 years ago.

The nation's motor vehicle owners now pay gasoline taxes at the rate of \$182 a second.

If your pet peech is missing at mealtime in San Francisco, you can dial L-O-S-T-D-O-G on your telephone and listen to recorded descriptions of missing dogs brought to the ASPCA.

Can you name a U.S. president who was taught to write by his wife? He was Andrew Johnson, who never went to school. Eliza McCord, whom he later married, taught him when he was about 17.

You and your wife probably have 32 teeth each—or did! But it's different in the horse family. The horse has 40 teeth, the mare usually has 40 teeth.

The last words of Henri Toulouse-Lautrec, were "The old fool!" They were addressed to his father. As the famous painter lay dying, his eccentric, heedless parent was busying himself shooting owls from a tower.

In the century before the World War I erupted, between 30 and 40 million people from Europe left what they had behind to come here to find something else. What are those of us here now looking for?

The White donkey in Saudi Arabia, known for its sturdiness, can tote for long distances loads equal to its own weight. Many an American father, worrying about how to finance two kids through four years of college, would regard the animal as an amateur.

It was Mark Twain who observed: "The only way to keep your health is to eat what you don't want, drink what you don't like, and do what you'd rather not."

Airline To Halt Overseas Flights

MEXICO CITY (AP)—Claiming losses of \$1.6 million in three years, the Mexican airline Gesteo Aerovias asked the government today for permission to stop all international flights at once.

The airline has two international routes. One is to Lisbon, Madrid and Paris by way of Miami, Bermuda and the Azores. The other is to Caracas, Venezuela.

Trinidad was discovered by Columbus in 1498 and had ties with the Spanish, Dutch, French and finally the British.

Regime Failed To Present Attractive Education Bill

BY INEZ ROER

President Kennedy and his Administration really have no one but themselves to blame for the failure of Congress to pass the prime Federal aid-to-education measure designed to bolster the New Frontier.

The more I ponder the original bill, the more I realize that the Kennedy Administration tackled the problem wrong-end-first. The original bill would have appropriated a hefty sum—\$1.1 billion—to help communities with the actual construction of new and improved schools and to raise teachers' salaries.

Congressmen, like the public, showed a bored apathy toward those two goals. In my experience, everyone wants better schools and teachers paid at least as much as truck drivers. But at that point the situation takes on the complexion of Mark Twain's experience with the weather: lots of talk and no action. It would surely be nice to have better schools and more pay for teachers, if only George would do it.

Congress caught its boredom and apathy from the public and—in the absence of a George to do it—about to go home and start mending fences.

What was wrong with the Administration bill was its lack of oomph and grass-roots appeal. The President, coming out of Harvard, where football is strictly for amateurs, didn't have the cunning to frame an aid-to-education bill that would have charmed the public and legislators too.

For a sure-fire aid-to-education bill, the President need only have proposed a multibillion-dollar measure for the construction of much bigger and better all-weather stadiums and gymnasiums, coupled with a proviso to increase

the purchase price and monthly pay of gifted muscle men or athletes, as well as funds to provide ever-scantier costumes for drum majorettes.

Such a bill would doubtless have passed by acclamation in both House and Senate. It is in these three areas that aid to public education is best understood and the need appreciated.

Every citizen can appreciate the fact that it is undemocratic to expect rich alumni to continue to fork out the cash for football and basketball players to keep up the respective squads of a variety of dear old alma maters.

We all ought to be willing to assume some of this burden. What is more equitable than equal taxation to buy a good backfield for old Swash, or provide it with a 100,000-seat stadium?

All of this loose talk about the need of scientists in the future and the necessity of modern laboratories is corny if not downright subversive when it is a well-known fact that what schools on

all levels need are better athletic fields, more expensive athletes to stock them, and a babble of drum majorettes in bikinis to raise school spirit.

A realistic Federal aid-to-education bill on the above basis would have generated mass support in and out of Congress. We Americans understand only too well the tragedy of the underpaid basketball player who doesn't know where his next convertible is coming from until the day when the syndicates because of the shabby scale of pay now in force at too many schools.

Here is the modern "An American Tragedy." Too many fine, upstanding young basketball players are being forced to deal with the syndicates because of the shabby scale of pay now in force at too many schools.

We now know that football players have been approached by gamblers too. Continued underpayment of these talented boys can only lead to the same blight that dogs basketball. Too few schools have the right idea and pay their director of athletics more than the principal or the school president.

After all teachers are used to being underpaid. They can always go into some other kind of work, can't they? And who needs better laboratories if the stadium is full on Saturday afternoon? The Administration simply misjudged where the actual need for Federal subsidy to education lies. Let it ask for money for more and better quarterbacks and it shall be given.

Siamese Twins Can't Be Parted

READING, Pa. (AP)—Siamese twin daughters born Monday to Mr. and Mrs. Franklin Schappell of nearby Hamburg cannot be separated by surgery, doctors report.

X-rays disclosed the babies have "only one skull and brain," physicians said. The twins are joined almost at right angles with the forehead of one resting near the back of the other.

Reading hospital reported the twins are in fair condition and are taking food. They have been in incubators since birth.

"It just not do a very good party, Harry is bored stiff."

Reds Moving Cautiously

By WILLIAM L. RYAN
Associated Press News Analyst
UNITED NATIONS, N.Y. (AP)—The Soviet Union has thrown down what appeared to be a quick challenge to the United Nations to change its basic structure. But on close inspection, the Kremlin's move seems a cautious one.

That is the watchword at the United Nations as its assembly opens its 16th regular session in a strange brooding atmosphere produced by the death of Secretary-General Dag Hammarskjöld.

The delegations seem carefully measuring one another, almost like gamblers trying to gauge the odds on success or disaster.

Soviet Foreign Minister Andrei Gromyko announced the Kremlin's sin in a secretariat to succeed Hammarskjöld. With a built-in veto, that would mean paralysis for the United Nations ability to put out dangerous fires.

But Gromyko added that it was not possible to change the charter to set up such a structure until Red China was admitted to membership. That seems unlikely in this session, at any rate. And it gives the Soviet Union an additional reason to feel it needs one. If pressing its demand should become too dangerous, politically or otherwise, the Kremlin has a ready-made avenue of retreat.

Gromyko's statement, however, did little to relieve the tension in U.N. halls. It can burst suddenly into ominous crisis.

The U.S. delegation gives the impression its cue for the time

being is watchful waiting and listening. There is no inclination to telegraph any punch the United States may be intending to throw in the great diplomatic struggle now shaping up.

There is lively speculation about what the United States might do in the light of the Kremlin's demand for a three-headed secretariat made up of a Communist, a Westerner and a neutral.

Widely discussed is the possibility that the United States intends a counter-offensive involving a demand that the nations of the world stand up and be counted for or against an effective peace organization.

A firm United States stand behind the United Nations, as the last hope of peace, as the situation goes, could generate pressure from weaker countries on the Kremlin. Implicit in the approach would be a U.S. threat to pull out of the United Nations if the Kremlin should succeed in extracting the secretariat's teeth.

Representatives of the so-called neutral nations here complain, however, that it was the United States and its policies in the past which placed them in their present position in many instances. They complain about a lack of a straight-line American policy which states clearly where the United States stands and avoids deviating from that line.

The uncommitted nations, and many others among the 99 represented here, now seem to be waiting for a firm expression of U.S. policy.

OLD ROCKIN' CHAIR'S GOT US—Ethel Moe Sturdivant and Billy Greenfield, two enrollees taking advantage of the adult night classes being offered in the Snyder High School shop, contemplate a re-finish job on an antique chair. The classes, which will last for 16 weeks, are held on Mondays and Thursdays from 7-9:30 p. m., and are still open to anyone interested in taking advantage of the complete facilities as made available, notes instructor W. A. Mayfield. Price of the course is \$16. (Photo by Jackson)

49th Will Report For Duty Oct. 15

DALLAS (AP)—The 49th armored Division of Texas, ordered Tuesday to active duty by the Defense Department, will report to Ft. Polk, La., beginning Oct. 15.

Gov. Price Daniel said these other military units also were placed on active duty.

The 122nd Transportation Company (medium helicopter), Houston; 277th Engineer Company and the 349th Military Intelligence Company, both of Dallas; the 49th Civil Affairs Detachment of Abilene; and 347th Military Intelligence Platoon, Fort Worth; the 980th Engineer Battalion, Wichita Falls; and the 974th Quartermaster Company of Galveston.

The 49th Division was alerted Sept. 5 and told that it had a high priority for a call to active duty. Maj. Gen. Harley B. West of Dallas, division commander, said the division largely will be boosted to combat strength of 14,000 men, and officers by a callup of ready reserve men.

On length of time the division will remain on active duty, General West said, "Anything about that is speculation."

Gen. West said he did not know whether the wives and families of soldiers would be allowed to go to Ft. Polk.

"Certainly there is no housing for them," he said. The general said it would not take long for the 49th to be combat ready.

"I am pleased to say that the morale and the status of training of the 49th Armored Division is at a razor-sharp peak," he said. Also called to active duty was the 32nd Infantry Division of Wis-

consin and 249 Army Reserve and National Guard supporting units.

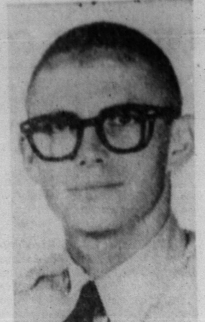

The 49th has units in 74 Texas cities and towns.

The division was organized officially July 2, 1946, and made up mostly of men and officers who had served in World War II.

Division units are at Arlington, Atlanta, Austin, Belton, Big Spring, Boonham, Bowie, Breckenridge, Brenham, Brownsville, Bryan, Cameron, Carthage, Cisco, Clarksville, Cleburne, Colorado, Decatur, Denison, Denton, Donna, Edinburg, Electric, Fort Worth, Gainesville, Gatesville, Grand Prairie, Greenville, Harlingen, Henderson, Honey Grove, Houston, Huntsville, Irving, Jacks-

boro, Jacksonville, Kaufman, Kilgore, Laredo, Longview, Lufkin, Marshall, McAllen, Mercedes, Mineral Wells, Mission, Mount Pleasant, Nacogdoches, New Boston, Olney, Palestine, Paris, Pasadena, Pharr, Ranger, Raymondville, Rusk, San Angelo, Sherman, Sulphur Springs, Taylor, Tyler, Temple, Terrell, Texarkana, Vernon, Victoria, Waxahatchie, Weatherford, Wichita Falls and Willsboro.

The United States harvests about 700,000 tons of peanuts each year, a crop worth about \$200 million.

ASSIGNED—Pvt. James D. Baze, son of Mr. and Mrs. Victor Baze, 3705 Avenue S., has been assigned to Company D, 6th Battalion, 2nd Training Regiment at Fort Jackson, S. C. for eight weeks of basic combat training. This is his first phase of six months active duty training with the U. S. Army and a part of the obligation he incurred upon enlisting in the Army National Guard. His National Guard unit is the 142nd Infantry in Snyder.

The United States harvests about 700,000 tons of peanuts each year, a crop worth about \$200 million.

Community Loses Its Only Doctor

HENSDALE, Mass. (AP)—This western Massachusetts community of 1,451 will lose its only doctor when the 66th Medical Detachment of the Massachusetts National Guard reports for active duty Oct. 15.

The town's only doctor is Maj. Robert V. Locke, 37, who commands the detachment.

Oceans Unable To Hold All Trash

BY THE ASSOCIATED PRESS
Just how much radioactive waste can you dump in the ocean? Is the great antarctic ice cap a barometer of weather? Who are the Hottentots? These are questions for science at work.

How Deep the Ocean
There are some 1 1/2 billion billion, 14 and 17 acres' tons of water in the world's oceans. But even this vast water world can't take all the trash man would dump into it.

Thousands of tons of slot machines, guns, tin cans — everything man wants to get rid of — are dumped into the ocean. And now, radioactive wastes are dumped there, too.

For most of the next decade or so, it appears that the ocean can accept in its deep waters radioactive wastes without danger, suggests oceanographer John Isaacs of The Cripps Institution. But later on there may have to be limits on the waste material to be dumped. And even now, locally, drums of radioactive wastes, attracting fish as any debris attracts fish, may pose problems. Certainly, it poses severe restrictions on the dumping of such wastes in the area where human blood fish live, Isaacs writes in the magazine, International Science and Technology.

World on the Rocks
If you melted the ice of the antarctic, the world's seas would swell some 300 feet higher and drown some of man's biggest cities.

But now some scientists are measuring the antarctic ice cap, not for fear of this, but as a possible barometer of world climate. If the antarctic ice is growing, this may signal a warming trend on the earth.

If this is so, then the earth faces the possibility that within years from now the arctic ice pack will melt, and huge snow falls will deluge parts of North America, Asia and Europe, says University of Michigan geologists.

Liberalism Is Rapped

CORPUS CHRISTI (AP)—A one-time candidate for governor who recently switched to the Republican Party, Jack Cox, said Tuesday night, "liberalism is a medicine show tonic."

"We have fallen for the pitch," the Breckenridge, Tex., man told the Sales Executive Club of Corpus Christi.

Cox said in his address: "Sales executives are deeply concerned with mass communications, the selling of ideas. When it comes to selling soap or tooth paste, we Americans are the best salesmen in the world."

"The hard sell, the soft sell and every other kind of sell have been used to convince the American people that the answer to all its ills and ails lies in Washington. This is pure bunk and you know it."

Liberalism today is a medicine show tonic, filled with secret ingredients and advertised as a cure-all. We have fallen for the pitch.

Road Repair Plans Set

AUSTIN (AP)—The Texas Highway Commission announced a \$3 million emergency program Tuesday to repair the state's highway system damaged by Hurricane Carla.

The commission said the Highway Department has surveys of damage to the system underway and these surveys may reveal the need for further expenditures.

Included in the current emergency program are these major projects: Jackson County — Construction of a new causeway on Texas 35 at Caranchaba Bay, 1.2 miles in length, at an estimated cost of \$707,000 including approaches. The old causeway was destroyed by Carla.

Calhoun County — Repairs to the new Lavaca Bay Causeway on Texas 35 at Port Lavaca, at an estimated cost of \$117,000.

Jefferson and Chambers Counties — Repairs on Texas 87 between Sabine Pass and the Galveston County line, 32 miles, at an estimated cost of \$400,000.

Nueces County — Repairs to Texas 361 between Aransas Pass and Port Aransas, six miles, at an estimated cost of \$400,000.

Concurrently with the authorization of the hurricane-repair emergency program, the commission put approximately \$1.2 million into the state maintenance contingent fund, depleted by the need for immediate funds to fight Carla.

Prosecutor Is Reported Missing

MANILA (AP)—A special prosecutor of the department of justice, reported carrying papers involving a big government swindle, has been missing nine days, the government said today.

The prosecutor, Isidro Velasco, was last reported seen on his way home from his office here Sept. 11.

Algeria became a French colony in 1830 when an expedition splashed ashore to subdue the Barbary pirates.

Junior Editors Quiz on BIRDS

QUESTION: How far can birds fly without resting?

ANSWER: Different varieties of birds fly different distances without resting. Many songbirds, in their migrations between breeding grounds in the north and their winter homes, will travel 25 to 30 miles a day nonstop. Others, such as the Gray-checked Thrush, have been known to fly as far as 130 miles a day. The Blackpoll Warbler averages 200 miles a day as it migrates through Canada. Homing pigeons have been known to make direct flights without resting up to 800 miles. The Golden Plover (see picture) flies directly from Labrador to South America, a distance of 2400 miles. Some shore birds fly non-stop between Hawaii and Alaska, a distance of 3,000 miles, perhaps the longest direct flight. Certain birds, however, spend most of their time—with the exception of the nesting period—in the air. Wilson's Petrel spends most of their life flying, patting over the water far for years. Many hawks and eagles soar in the air for long periods of time. The actual number of miles covered by such birds without resting would be difficult to estimate.

FOR YOU TO DO: Examine the structure of a bird in a museum or from a picture and check the lightness of its bones and the enormous size of the breast muscles which move the wings. This will give you the secret of the remarkable travel records above.

(Richard Snyder of West Richfield, Ohio, wins \$10 for this question. Mail yours on a postcard to the Junior Editors in care of this newspaper.)

Soviets Battle Guerrilla Style

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (AP)—Guerrilla wars used to be fought by toughs in jungles while diplomats seek the province of well-dressed and solemn gentlemen who discoursed on a high level and issued opaque communiqués.

Then the Russians, as usual, had to come along and spoil things. Now Premier Khrushchev is using guerrilla tactics for diplomacy and diplomacy for guerrilla tactics.

It's simple, too. Guerrillas hit and run, do some damage, be wiser the opposition which does not know what to expect next, disappear for a while, and strike again somewhere else.

At times this seemed too simple for Western statesmen, who for years have acted like villagers huddled in a rain forest, wondering what next but too used to their old ways to try new ways of their own to strike back.

Khrushchev would belt them with an unadorned blackjack and then, just to confuse them, belt them with a blackjack dressed in Christmas wrappings. One minute he'd be the bad guy talking war, the next the good boy yearning for peace.

Stalin used guerrilla tactics, too. Khrushchev has gone beyond him and added a public relations touch that makes Madison Avenue look as old-fashioned as a pith helmet.

For instance, in the midst of all his rumpus about Berlin—perhaps because of it—in the past few months he has given three distinguished and widely read American newspapermen lengthy, separate interviews.

They reported what he said in great detail and much length. So he reached millions of Americans repeatedly with his views on a host of issues.

It seems the almost daily—this is an exaggeration, but not much—has something to say on war, peace, disarmament, or nuclear testing.

Look Mom, No Walls

NEW YORK (AP)—The first building under construction for the 1964-65 World's Fair will have no walls.

The building's translucent roof will be supported by stilts. Instead of walls, there will be air curtains consisting of jets of air blown from openings in the roof to registers in the floor.

HERE ARE THE RULES OF THE CONTEST
 In each advertisement on this page you will find the contestants in a prominent football game being played in the country this week-end. Get an entry blank from one of the merchants who are helping sponsor this contest and whose message is on this page. Fill in your selection of the WINNING TEAM only... opposite the name of the firm on the entry blank. Then send your complete blank to FOOTBALL CONTEST EDITOR, THE SNYDER DAILY NEWS. Entries must be in the hands of the editor by 12 o'clock noon, Friday. Games ending in a tie score must be specified as a tie or else it will be considered a miss.
 If there is a tie for first place the winners will divide the cash money of \$12.50 and no second prize will be given. If there is a first place winner and a tie for second place, the second prize winners will divide the money for the place. If more than two persons tie for second place, no second prize money will be awarded and the cash will be added to next week's prize. Tie for perfect score will split \$25.00. There will be fun for the entire family. Only one entry blank will be permitted from any one person. More than one will disqualify all of the person's entries. Scores listed on the entry blank will have no bearing on the choice of the winner. Sign your entry blank and list your address and phone number — and watch for the story on next Wednesday's front page for the winners. Hurry now, and get your entry blank from one of the merchants on this page. The contest blank must be in your own handwriting. Employees of The Snyder Daily News and their families not eligible to enter.

STRIKE FLAREUP—A striker at right grabs Jacqueline Goor from behind as Mrs. Goor attempts to enter the Magnavox Company plant at Fort Wayne, Indiana. Mrs. Goor finally made it inside the plant behind a flying wedge formed by 10 deputy sheriffs. Striking members of Local 254, Allied Industrial Workers, turned down a company proposal and Magnavox began hiring new workers to replace 850 who have gone on strike since the first of September. (AP Wirephoto)

GM, UAW Agree On Three-Year Contract

DETROIT (AP) — General Motors and the United Auto Workers union reached agreement today on a three-year contract covering GM's \$30,000 hourly rated employees. The contract was to be submitted to the union's national general assembly for approval later today. Settlement came after a 27-hour marathon bargaining session on local plant issues. Negotiators had worked over details of the agreement for 64 days.

The giant automotive concern has been idled by local strikes since Sept. 11. However, partial production began Monday following settlements at some individual locations. Full production of GM's 129 plants is expected by early next week.

At-the-plant working agreements, which supplement the national contract, had stymied national level bargaining since Sept. 11, when the UAW authorized local unions to work out in support of their local-level demands. Four local settlements, partial production began Monday following settlements at some individual locations. Full production of GM's 129 plants is expected by early next week.

Also still to be settled were non-economic national-level issues. Bargainers began at 9:30 a.m. Tuesday their last-lap negotiations aimed at settlement of outstanding local and national issues. They reached agreement on an economic package of wage and

FOUR SHARE HONORS IN FIRST GRID CONTEST

No clear-cut champion came to the front following tabulation of the first of the season's Snyder News Grid Contest results, as four contestants tied for the top spot.

Due to the deadlock, the first and second place prize money totalling \$12.50 will be split equally four ways, the winning "shareholders" being R. B. von Roeder of Route 2, Box 122, Mrs. R. B. von Roeder of the same address, John Loyola of 2407 Avenue H, and Leo Ann Allen of 2106 Fortieth Street.

Although Mr. and Mrs. von Roeder each missed a like number, their ballots were not identical. The only game in which all four winners missed the boat was the Snyder "B" vs. Big Spring "B" clash of Saturday. Big Spring held out long enough to preserve an 8-7 victory in that one.

A healthy total of 10 contest aspirants were only one shot away from the winning quartet. Those missing out were T. V. Early, Gilbert Higdon, Clifford Minor, Keith Kopp, Alma Mae Krop, Joe Overton, H. K. Lofton, Larry Lofton, Mrs. Bobby H. Burney, and Mrs. Jack Longbottom.

A brand new contest may be found in the pages of today's edition of the Daily News.

Tshombe Demands U.N. Withdrawal

By COLIN FROST
NDOLA, Northern Rhodesia (AP) — Katanga President Moise Tshombe today demanded the immediate withdrawal of U.N. troops from his secessionist province. This snagged talks for the United Nations had previously rejected such an idea. Tshombe said he would leave this Northern Rhodesian conference center tonight to return to Elisabethville, his capital. The Katanga leader, battling U.N. efforts to force his mineral-rich land under the rule of the Congo's central government, laid a wreath of white lilies before the coffin of U.N. Secretary-General Dag Hammarskjold as it lay in state. He went to the church directly from a morning session with the U.N. delegation trying to arrange a Katanga cease-fire. "We have made counter-propositions which the U.N. side has transmitted to 'New York,'" Tshombe said. "Now we await their reply."

There was a second round today of the talks, to which Hammarskjold was heading when he and 14 of his 15 companions were killed in a plane crash. Belated advice from the U.N. office in Leopoldville disclosed Tshombe did not want to meet with Khari. "I am quite willing to meet with other personalities but not Khari, who is one of the people principally responsible for the painful events in Katanga," Tshombe said in a message received in Leopoldville after Khari left for Ndola. Conor Cruise O'Brien is the Irish chief of U.N. operations in Katanga. Tshombe has accused him of trickery and refused to deal with him at all. But U.N. authorities said Tshombe definitely met with Khari. The scene of the talks was the closely guarded Ndola airport building. The two arrived and left separately with police escorts. Following Hammarskjold's tradition of quiet diplomacy, the talks were held in strictest secrecy. An investigation into the plane crash that killed Hammarskjold and 14 others Monday so far has turned up no evidence of sabotage or attack. Veteran pilots who viewed the crash site north of this city said the pattern was typical of power failure or bad instruments. Col. Bjorn Egge, U.N. intelligence chief, said an expert in legal medicine will be flown in to determine whether the 15 victims died in the air or on the ground. The lone survivor, a U.N. guard, has been questioned as saying he heard a series of explosions before the crash. Egge said Hammarskjold's body was the only one not burned and a broken left leg was his only external injury.

Mental Patient Opens Fire On Officers

KOUNTZE, Tex. (AP)—A mental patient, scheduled to be sent to an institution, suddenly opened fire on four officers today, killing one and wounding two others. Killed was Bobby Parks, a Silsbee policeman who was trying to protect Highway Patrolman Leo Hickman, who was critically wounded trying to help Hickman was Deputy Sheriff Ira Moore. The gunfire erupted at a house about 4 1/2 miles north of Silsbee. The four officers, only one of whom was armed, went to the house to serve commitment papers and take E. J. Dickins to the Rusk State Hospital for mental patients. Deputy Sheriff E. W. Coleman, one of the four officers, told this story: "We had a commitment for Dickins to pick him up and carry him to Rusk under a court order. The order was issued at Beaumont. "We drove up and all got out of the car. I went to the door and knocked. I got no response. Then he hollered, 'Just a minute.' "I told him I wanted to talk to him for a few minutes. He said to go away, that he'd talked all he wanted to. He started locking the door. "Then he came up with a pistol and hollered to the others. Hickman was at the corner of the house and shot a couple of times in the air. Then we all got out of the way. "Hickman went toward the back of the house and about that time I heard someone holler that 'Hickman's been shot.'"

Tunisian Elected President Of U. N.

UNITED NATIONS, N.Y. (AP)—The U.N. General Assembly quickly elected Tunisian delegate, Mongi Slim as its president today, but no agreement was in sight on the critical problem of choosing a successor to Secretary-General Dag Hammarskjold. The moderate north African received all 96 votes cast after Indonesian Ambassador Ali Sastroamidjopo had withdrawn from the race. He took over the chair from the outgoing president, Frederick H. Boland of Ireland. Slim referred immediately to the death of Hammarskjold, which has overshadowed the normally routine organizational procedure at the opening meetings. "The shining example that Mr. Hammarskjold has given us should be an inspiration to all of us in this assembly," Slim said. Slim is expected to play a major role in the efforts now going on to work out a temporary arrangement to keep the office of secretary-general operating. Western diplomats have been pushing a move to have him chosen as interim secretary-general, but he is reported cool to the idea. Boland also has been urged to take over the post, but he also is said to be reluctant. Whatever temporary arrangement is made, diplomats believe, probably will have to be done without Soviet support. Soviet Foreign Minister Andrei Gromyko indicated Moscow will settle for nothing less than a three-man secretariat to control the world organization. Under the stop-gap plan, the U.N. General Assembly would name an interim secretary-general to fill the position left vacant by Hammarskjold's death. The West and many neutrals rallied to the support of the proposal. Soviet opposition heightened

fears that the entire question of selecting a new secretary-general would wind up in an East-West deadlock, leaving the U.N. administration without a leader. This latest crisis was added to the agenda of talks between Secretary of State Dean Rusk and Gromyko, who agreed to meet on conferences Thursday. They originally had planned to discuss the Berlin crisis. News of the Soviet stand plunged delegates into gloom as the 96-nation assembly got down to business Tuesday. The assembly met for only four minutes in tribute to Hammarskjold. The battle lines were drawn Tuesday night when Gromyko told newsmen his government would not agree to any one man serving as secretary-general even in an interim capacity. "Any one person would not be

good. We must have three secretaries-general," Gromyko said, harking back to the plan proposed by Premier Khrushchev at last year's General Assembly. Asked about a move to name Slim as interim secretary-general in addition to the post of assembly president, he stood firm. "We hold to the principal position on this matter—that any one person would not be good," Gromyko said.

Gromyko's remarks brought quick comment from U.S. Ambassador Adlai E. Stevenson, who said the United Nations must act at once to choose an interim secretary-general. He accused the Soviets of using blocking tactics. The United States and other Western powers had hoped Slim would get the post, but the Tunisian delegate reportedly bowed out when he heard of the Soviet opposition. The Western powers, determined that U.N. authority remain centered in one man, are reported sounding out Ireland's Frederick H. Boland, president of the last assembly, to see if he will accept the temporary post. The West is firmly opposed to the Soviet plan for a triumvirate with built-in veto power made up of a Communist, a Western and a neutral representative.

\$38,000 UF Budget Set

A 1962 budget of \$38,000 was approved Tuesday afternoon by directors of the Scurry County United Fund.

The 1962 budget of the organization represents a decrease of approximately \$3,000 from the 1961 figure. The budget, which includes operating funds for eight participating agencies and funds for administration and campaign expense, also represents the total goal for the United Fund campaign this year. The campaign here will be conducted in November. Only one change has been made in the agency line-up. The heart fund has withdrawn from the campaign, while the Texas United Fund has been added, with a stipulation that all Scurry County contributions to the TUF be designated for the United Service Organization (USO). The total amount allocated to the USO here is \$1,000. Some other changes have been made in agency figures. The American Red Cross was budgeted for \$4,500 last year, but its budget here has been reduced to \$2,500. Scurry County Boys Club was in the last budget for \$12,500, and the 1962 figure is \$11,000. Other comparisons of 1961 and 1962 figures include the following: Boy Scouts, \$8,000 and \$8,500; Girl Scouts, \$4,000 and \$4,300; Medical Research Foundation of Texas, \$250 and \$250; Salvation Army, \$4,000 and \$4,500; Gonzales Warm Springs, \$1,000 and \$1,000. The budget for administration and campaign expense was reduced from \$5,000 to \$4,950. The budget was recommended by the United Fund budget and admissions committee, headed by H. W. Cargile. Other members of the committee were J. C. Woodridge, Max West, Mrs. J. E. Sorrells, C. H. Stahl, Mrs. Nolan von Roeder, Mack McLaughlin, Harry Reed, Harold Bennett, L. M. Dawson, Wayland Holt and Herman Doak.

Bids Sought On Repairs To School

Bids will be opened Oct. 17 on proposals for repairing fire damage at the Stanfield Elementary School.

The school board last night discussed the project at a special meeting and set the date for opening the bids. The board was advised by Fred Buford, architect, that specifications for the repairs would be completed today and that notices would go out to prospective bidders through the usual sources. The board will meet again at 7:30 p.m. Oct. 17 to consider the bids.

The Stanfield School sustained heavy damage to the south wing in an early morning fire last Aug. 18. Fifth and sixth grades from the Stanfield School were shifted temporarily to classrooms at West Elementary School, while other grades at Stanfield are using the north wing at their own school, which had only smoke damage from the fire.

The Stanfield School sustained heavy damage to the south wing in an early morning fire last Aug. 18. Fifth and sixth grades from the Stanfield School were shifted temporarily to classrooms at West Elementary School, while other grades at Stanfield are using the north wing at their own school, which had only smoke damage from the fire.

JFK Cancels News Parley

WASHINGTON (AP)—President Kennedy today canceled the news conference he had scheduled for Wednesday morning.

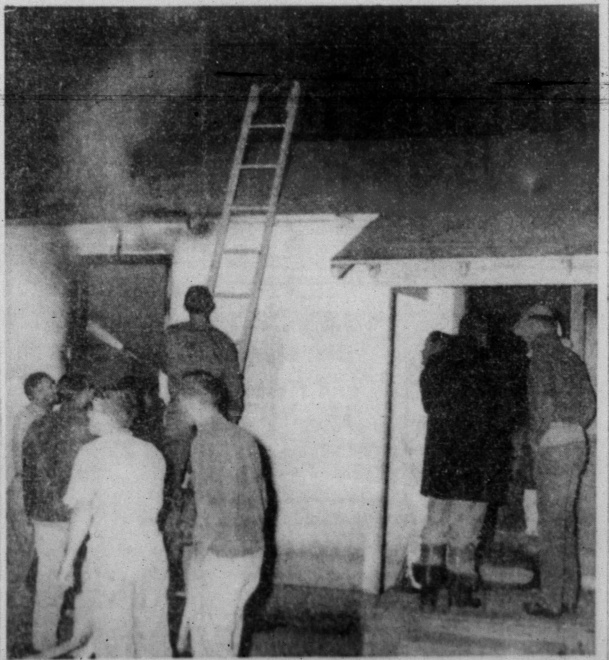

White House Press Secretary Pierre Salinger said the main reason is the uncertainty about when Kennedy will appear before the United Nations General Assembly to make a major address. He said there still is an outside possibility the chief executive may speak to the United Nations Thursday but that Friday, Monday or Tuesday is more likely. In any event, Kennedy has shifted some of his personal plans and now will spend the weekend at his summer home in Hyannis Port, Mass., on Cape Cod. Originally he had expected to go to Newport, R.I., for an extended weekend at the home of Mr. and Mrs. Hugh Auchmuty, a neighbor and member of Mrs. Kennedy's family.

Light Rains Extend Here

Cool air seeped into West Texas late Tuesday, bringing light thundershowers which extended into the Snyder area. Brief showers beginning at about 4 p.m. brought 11 of an inch of moisture here, according to the official measurement. The showers were heavier to the east of town. Forecasters said Texas' pattern of pleasant weather seemed likely to continue today. Skies were cloudy from Austin and San Antonio northward into the Fort Worth-Dallas area and around Wichita Falls. It was partly cloudy along the coast but clear in Northeast Texas and the Panhandle area. The only two cities reporting measurable rain early Wednesday were Austin with 71 of an inch and Wichita Falls with 45. Only three Texas towns reported precipitation Tuesday but lightning crackled in a brief and noisy thundershower causing power failures for parts of Pampa in the Panhandle. One death was attributed to the weather as Mrs. Chester Nicholson, 48, of Pampa died when her car skidded on slippery pavement and plowed into an embankment near Skellytown.

WEATHER

SNYDER TEMPERATURES: High Tuesday, 83 degrees; low, 62 degrees; feeling 77. A. M. today, 67 degrees. North-Central Texas: Considerable cloudiness, with showers and thundershowers after noon and tonight. Thursday partly cloudy. Low tonight 63. Northeast Texas: Partly cloudy and mild through Thursday, scattered thundershowers. Low tonight 64. Northwest Texas: Clear to partly cloudy through Thursday, scattered thundershowers southeast the afternoon and tonight. Low tonight 80 northeast to 62 southeast. South-Central Texas: Partly cloudy and mild through Thursday, scattered showers near the coast. Low tonight 64. Southeast Texas: Partly cloudy and mild through Thursday, scattered showers near the coast. Low tonight 64. South Texas: Partly cloudy and mild through Thursday, scattered showers near the coast. Low tonight 64. Southwest Texas: Partly cloudy and mild through Thursday, scattered showers near the coast. Low tonight 64.

BATTLE BLAZE—Members of the Snyder Fire Dept. are examining battle damage to a residence, located at 2767 Twenty-fifth Street, which was occupied by Pauline Burgary and owned by Mrs. J. D. Cam.

Threat To Virginia Eases As Esther Changes Course

NORFOLK, Va. (AP)—Hurricane Esther took a poke at North Carolina's lonely outer banks today, then shifted her course to the north, easing an earlier threat to the Virginia coast. At 9 a.m. EST, the U.S. Weather Bureau at Norfolk said, "the threat of hurricane winds to Virginia is very slight." But the popular northeastern seaboard, still faced a major threat from Esther's raging winds and water. The weather advisory said it was likely that hurricane warnings from Hatteras, N.C., to the Virginia capes would be replaced shortly by gale warnings.

The storm center, still packing 130 m.p.h. winds, was expected to pass more than 100 miles to the east of the Virginia capes in mid-afternoon, the bureau reported. This would throw gale force winds at the Virginia coast and cause tides to run about two feet above normal, the bureau said.

Forecasters at Washington reported at 9 a.m. EST, that Esther was centered about 140 miles northeast of Cape Hatteras and was expected to continue in a northerly direction about 15 m.p.h. during the next 12 to 18 hours. The storm's size and intensity were expected to remain about the same. Meteorologist Glenn Sachs said Esther's 10 a.m. course was due north. All interests along the Atlantic

Seaboard from Virginia northward were urged to keep posted on latest advisories and bulletins. Gale warnings and a hurricane watch remained in effect north of the Virginia capes to the Massachusetts coast, including Long Island. Residents in the hurricane watch area should be ready for quick action in case it is necessary to issue hurricane warnings later today. The Washington Weather Bureau warned, "Danger of major destruction in North Carolina appeared past. Tides were four to six feet above normal along the North Carolina coast and the weather bureau said tides along the coast north of Hatteras would continue to rise as the hurricane approached. The sheriff's office said roads on North Carolina's Outer Banks suffered the major damage from the remnants of various 11 strong communities since the night in the Bastin School at the Outer Banks.

Outlook Dark For Maris

Time's running out for Roger Maris as he dreads a blank in the home run department during yesterday's twelfth inning of the Yankees and the Baltimore Orioles. In order to break Babe Ruth's record within the record 154-game haul he will have to blast three in tonight's game. Maris is tonight against Baltimore, as his team currently stands at 58.

MARTHA ANN COGDELL

MR. AND MRS. D. M. COGDELL, SR.

WOMEN

The Snyder (Texas) Daily News, Wed., Sept. 20, 1961 3

Founders And Life Members To Be Honored Saturday

It was back in Sept. 1952 when Mrs. D. M. Cogdell, Sr., held an institute one Saturday morning with a group of some 75 club ladies of Snyder, representing seven federated clubs and clubs in the process of organization.

She explained that she and her husband would donate land and money toward a project of building a Woman's Club in Snyder. It was decided at that time that representatives from each club would work as a committee on the project, which was being sponsored by the Altrurian Club.

Although this was the birth of the idea, it took several years for the club women of Snyder to realize its wonderful completion.

On Sept. 30, 1956 dedication ceremonies were held for the new Martha Ann Woman's Club building. Given the name of the Cogdell's daughter, Martha Ann, who died at the age of 13 years in 1939 the quarter-million dollar club is a living tribute to the little girl.

The Martha Ann Club building is one of several benevolent gestures made in memory of Martha Ann Cogdell by her parents and trustees of the Martha Ann Trust Foundation.

The building is one of the most modern and complete women's club buildings in Texas — and people from such towns as Fort Worth, Dallas, Midland, etc., are very surprised to see such elegance in a town the size of Snyder. Nothing has been spared either in construction of the building or in furnishing it.

Although the building actually cost only about \$150,000 to construct because it was done under the direct supervision of Cogdell, it would have cost at least \$250,000 if contracted and retail prices had been paid for all materials and a contractor's profit were included. Most of the materials were purchased locally at near wholesale prices.

The ultra modern furnishing in concept would alone cost approximately \$40,000, and were paid for by club women of Snyder and Scurry County. The building itself was constructed and paid for by the Martha Ann Trust Foundation.

Many persons at the beginning believed that providing furnishings for the building, by the club women, was an almost impossible undertaking, but they made the hard job look easy by working together as a team.

Concept of the idea for such a building was not made overnight by the Cogdells, or any single person. Actually the Altrurian Club, of which Mrs. Cogdell is a member of long standing, could probably be given credit for first pointing up the need for such a building here, but other women of clubs also saw the need for a joint clubhouse.

The first consideration given to such a project by the Cogdell family was a tentative offer to donate \$10,000 toward construction of a club building, but as the idea grew and importance of having such a building became more clear to the Cogdells they decided to pay for the building if club women would furnish it.

Actual work toward furnishings for the building was started in 1953 by the Cosmorama Club, and a Rodeo Queen's fund raising race held that year to kick off the furnishings fund with \$7,000 raised in the same contest.

The second year other clubs joined

MARTHA ANN WOMAN'S CLUB

HONOREES—This is a few of the women to be honored at the Martha Ann Woman's Club "Founders and Life Membership Tea" to be held Saturday. From left seated are: Mrs. J. A. Eubank, Mrs. H. G. Towle, Mrs. D. M. Cogdell, Jr., Mrs. C. V. Thompson, Sr., Mrs. J. C. Dordaw; standing, Mrs. Wade Winston and Mrs. R. H. Odom.

ed in the queen contest and into the club building furnishing activities. That year \$17,000 was profited from the contest. In 1956 the queen contest netted about \$3,000.

Sale of membership user privileges in the club, a joint activity of all women's clubs, netted the remainder of what the club women raised to furnish the building. At the time of the dedication only \$4,750 was needed for full payment and the club women worked very hard to take care of this amount.

Now, in celebration of their fifth year of activity at the club, a "Founders and Life Membership Tea" will be held Saturday, Sept. 23 at 10 a.m. This will be the first such event, but, will be an annual affair hereafter.

Founder members are: Mrs. D. M. Cogdell, Sr., Mrs. H. H. Eiland, Mrs. G. M. Heintzelmann, Mrs. Edith McKanna, Mrs. C. T. McLaughlin, Mrs. C. V. Thompson, Sr., Mrs. H. G. Towle, Mrs. F. G. Sears, and Mrs. John Keller.

Life members include Mrs. Hicks Allen, Mrs. Frank Arnett, Mrs. Gene Best, Mrs. Hugh Birdwell, Mrs. Ophelia Blackard, Mrs. Hugh Boren, Mrs. Hugh Boren, Jr., Mrs. Wayne Boren, Mrs. Jack Bowden, Mrs. Henry J. Brice, Mrs. Richard L. Brice, Mrs. Willy T. Brice, Mrs. Harold P. Brown, Mrs. A. B. Castlevent, Mrs. Nancy Caton, Mrs. Bertha Clark;

Mrs. G. B. Clark, Jr., Mrs. D. M. Cogdell, Mr. Mrs. Charles Cooper, Mrs. J. Scott Casey, Mrs. P. W. Cloud, Mrs. Paul Collins, Mrs. H. C. Denson, Mrs. The Dole, Mrs. J. C. Dordaw, Mrs. Gene Dulaney, Mrs. A. D. Dodson, Mrs. Carl A. Dillah, Mrs. J. A. Eubank;

Mrs. Bill Eiland, Mrs. Charlotte Etgen, Mrs. June Farrier, Mrs. Dan Gibson, Mrs. Carol Herold, Mrs. Leland Harrod, Mrs. Clyde Hall, Miss Faye Harrell, Mrs. W. E. Holcomb, Mrs. Garrett Harrell, Mrs. Weldon Johnson, Mrs. Sidney Wallace Johnson, Mrs. Sam Joyce;

Mrs. Amos Joyce, Mrs. George Kuback, Mrs. Alvin Kousmanian, Mrs. Hilton Lambert, Mrs. W. B. Lee, Jr., Mrs. Carrie Line, Mrs. T. L. Lollar, Mrs. Holman Odom, Mrs. R. H. Odom, Mrs. Edward H. Owens, Mrs. G. B. Ridley, Mrs. Novis Rodgers, Mrs. Josephine Randall, Mrs. John E. Sattell, Mrs. E. E. Spears, Mrs. LeRoy Spires, Mrs. Lee Smyth, Mrs. Richard L. Stoker, Mrs. F. F. A. K. Strom, Miss Vera Periman, Mrs. G. R. Taylor, Mrs. C. V. Thompson, Jr., Mrs. Charles Wolfe, Mrs. Frank Wilson, Mrs. Nathan Wade, Mrs. Jay Huckabee, Mrs. Charles Musselwhite and Mrs. Ken Davis.

Hosting the affair will be the board of directors, the activity and service committees headed by Mrs. B. L. McKinley and Mrs. Thomas Hartley, respectively.

Mr. and Mrs. N. F. Hall and Donna, and Mr. and Mrs. R. L. Hall and Wetonia were Sunday dinner guests of Mr. and Mrs. Jim Barkley, Bobby and Gary of Colorado City.

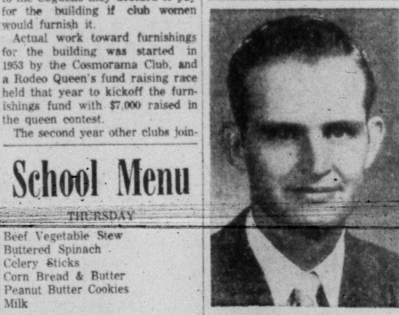

Chicken Salad Supper Franques

1 prepared chicken
1 cup mayo
1 cup celery
1 cup onion
1 cup green pepper
1 cup hard-cooked eggs (sliced)
1 cup green pepper (cut in thin rings)
Mix together chicken, celery, pickles, mayonnaise, sour cream, wine vinegar and salt and pepper to taste. Arrange on salad greens. Garnish with eggs and green pepper. Makes 4 large servings.
To prepare chicken: Wash cavity of broiler - fryer (about 2 1/2 pounds ready - to - cook weight); drain; sprinkle cavity with garlic salt. Simmer until tender - about 1 hour - in 1 quart boiling water with 2 small carrots (pared), 1 small peeled onion, 1 rib celery with leaves and 1/2 teaspoon salt. Drain chicken and cool; remove skin and bones; dice meat in bite-size pieces. Use broth another time. Cook heart and gizzard with chicken, but not liver.

Regime Failed To Present Attractive Education Bill

BY INEZ ROBB

President Kennedy and his Administration really have no one but themselves to blame for the failure of Congress to pass the prime Federal aid-to-education measure designed to bolster the New Frontier.

The more I ponder the original bill, the more I realize that the Kennedy Administration tackled the problem wrong-end-to. The original bill would have appropriated a hefty sum (1) to help communities with the actual construction of new and improved schools and (2) raise teachers' salaries.

Congressmen, like the public, showed a bored apathy toward those two goals. In my experience, everyone wants better schools and teachers paid at least as much as truck drivers. But at that point the situation takes on the complexion of Mark Twain's experience with the weather: lots of talk and no action. It would surely be nice to have better schools and more pay for teachers, if only George would do it.

Congress caught its boredom and apathy from the public, and—in the absence of a George to do it—is about to go home and start mending fences.

What was wrong with the Administration bill was its lack of omph and grass-roots appeal. The President, coming out of Harvard, where football is strictly for amateurs, didn't have the cunning to frame an aid-to-education bill that would have charmed the public and legislators, too.

For a sure-fire aid-to-education bill, the President need only have proposed a multibillion-dollar measure for the construction of much bigger and better all-weather stadiums and gymnasiums, all equipped with a provision to increase

the purchase price and monthly pay of gifted muscular men or athletes, as well as funds to provide ever-scantier costumes for drum majorettes.

Such a bill would doubtless have passed by acclamation in both House and Senate. It is in these three areas that aid to public education is best understood and the need appreciated. Every citizen can appreciate the fact that it is undemocratic to expect rich alumni to continue to fork out the cash for football and basketball players to keep up the respective squads of a variety of dear old alma maters. We all ought to be willing to assume some of this burden.

What is more equitable than equal taxation to buy a good backfield for old Swash or to equip it with a 100,000-seat stadium?

All of this loose talk about the need of scientists in the future and the necessity of modern laboratories is carry if not downright subversive when it is a well-known fact that what schools on

all levels need are better athletic fields, more expensive athletes to stock them, and a babble of drum majorettes in bikinis to raise school spirit.

A realistic Federal aid-to-education bill on the above basis would have generated mass support in and out of Congress. We Americans understand only too well the tragedy of the underpaid basketball player who doesn't know where his next convertible is coming from until the is accosted by the business representative of a big gambling syndicate.

Here is the modern "An American Tragedy." Too many fine, upstanding young basketball players are being forced to deal with the syndicates because of the shabby scale of pay now in force at too many schools.

We now know that football players have been approached by gamblers, too. Continued underpayment of these talented boys can only lead to the same blight that dogs basketball. Too few schools have better quarters and pay their director of athletics more than the principal or the school president.

After all, teachers are used to being underpaid. They can always go into some other kind of work can't they? Any who needs better laboratories if the stadium is full on Saturday afternoon? The Administration simply misjudged where the actual need for Federal subsidy to education lies. Let it ask for money for more and better quarters and it shall be given.

(Copyright, 1961 by United Feature Syndicate, Inc.)

Columnist Learns More From Mail

By HAL BOYLE
NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

No one has counted the number of left-handed people in the world, but they may number 200 million. The chances against having a southpaw child in the United States are estimated at about 24 to 1.

Ever worry about being struck by a falling meteorite? You are more likely to be hit by a falling airplane. Scientists estimate that 75 million meteoric particles enter the earth's atmosphere every day, all but one or two of which are burned up before reaching the ground.

We take handkerchiefs for granted now, but once they were ornamental racing pigeons in Persians used racing pigeons to deliver messages more than 3,000 years ago.

The nation's motor vehicle owners now pay gasoline taxes at the rate of \$182 a second.

If your pet pooch is missing at mealtime in San Francisco, you can dial L-O-S-T, D-O-G. An your telephone and listen to recorded descriptions of missing dogs brought to the ASPCA.

Can you name a U.S. president who was taught to write by his wife? He was Andrew Johnson, who never went to school. Eliza McCord, whom he later married, taught him when he was about 17.

You and your wife probably have 32 teeth each—or did! But it's different in the horse family. The horse has 40 teeth, the mare usually has one or two more.

The last words of Henri Tou louze-Lautrec, were "The old fool!" They were addressed to his father. As the famous painter lay dying, his eccentric, headless parent was buying himself shooting owls from a tower.

In the century before the World War I erupted, between 30 and 40 million people from Europe left what they had behind to come here to find something else. What are those of us here now looking for?

The White donkey in Saudi Arabia, known for its sturdiness, can tote for long distances loads equal to its own weight. Many an American father, worrying about how to finance two kids through four years of college, would regard the animal as an amateur.

It was Mark Twain who observed, "The only way to keep your health is to eat what you don't want, drink what you don't like, and do what you'd rather not."

Airline To Halt Overseas Flights
MEXICO CITY (AP)—Claiming losses of \$7.6 million in three years, the Mexican airline Guest Aerovias asked the government today for permission to stop all international flights at once.

The airline has two international routes. One is to Lisbon, Madrid and Paris by way of Miami, Bermuda and the Azores. The other is to Caracas, Venezuela.

Trinidad was discovered by Columbus in 1498 and has had ties with the Spanish, Dutch, French and finally the British.

Siamese Twins Can't Be Parted

READING, Pa. (AP)—Siamese twin daughters born Monday to Mr. and Mrs. Franklin Schappell of nearby Hamburg cannot be separated by surgery, doctors report.

X-rays disclosed the babies have "only one skull and brain," physicians said. The twins are joined almost at right angles at the forehead of one resting near the back of the other.

Reading hospital reported the twins are in fair condition and are taking food. They have been in incubators since birth.

For a sure-fire aid-to-education bill, the President need only have proposed a multibillion-dollar measure for the construction of much bigger and better all-weather stadiums and gymnasiums, all equipped with a provision to increase

the purchase price and monthly pay of gifted muscular men or athletes, as well as funds to provide ever-scantier costumes for drum majorettes.

Such a bill would doubtless have passed by acclamation in both House and Senate. It is in these three areas that aid to public education is best understood and the need appreciated.

Every citizen can appreciate the fact that it is undemocratic to expect rich alumni to continue to fork out the cash for football and basketball players to keep up the respective squads of a variety of dear old alma maters.

We all ought to be willing to assume some of this burden.

What is more equitable than equal taxation to buy a good backfield for old Swash or to equip it with a 100,000-seat stadium?

All of this loose talk about the need of scientists in the future and the necessity of modern laboratories is carry if not downright subversive when it is a well-known fact that what schools on

all levels need are better athletic fields, more expensive athletes to stock them, and a babble of drum majorettes in bikinis to raise school spirit.

A realistic Federal aid-to-education bill on the above basis would have generated mass support in and out of Congress.

We Americans understand only too well the tragedy of the underpaid basketball player who doesn't know where his next convertible is coming from until the is accosted by the business representative of a big gambling syndicate.

Here is the modern "An American Tragedy." Too many fine, upstanding young basketball players are being forced to deal with the syndicates because of the shabby scale of pay now in force at too many schools.

We now know that football players have been approached by gamblers, too. Continued underpayment of these talented boys can only lead to the same blight that dogs basketball.

Too few schools have better quarters and pay their director of athletics more than the principal or the school president.

After all, teachers are used to being underpaid. They can always go into some other kind of work can't they? Any who needs better laboratories if the stadium is full on Saturday afternoon? The Administration simply misjudged where the actual need for Federal subsidy to education lies.

Let it ask for money for more and better quarters and it shall be given.

(Copyright, 1961 by United Feature Syndicate, Inc.)

Trinidad was discovered by Columbus in 1498 and has had ties with the Spanish, Dutch, French and finally the British.

It was Mark Twain who observed, "The only way to keep your health is to eat what you don't want, drink what you don't like, and do what you'd rather not."

In the century before the World War I erupted, between 30 and 40 million people from Europe left what they had behind to come here to find something else.

What are those of us here now looking for?

The White donkey in Saudi Arabia, known for its sturdiness, can tote for long distances loads equal to its own weight.

Many an American father, worrying about how to finance two kids through four years of college, would regard the animal as an amateur.

It was Mark Twain who observed, "The only way to keep your health is to eat what you don't want, drink what you don't like, and do what you'd rather not."

For a sure-fire aid-to-education bill, the President need only have proposed a multibillion-dollar measure for the construction of much bigger and better all-weather stadiums and gymnasiums, all equipped with a provision to increase

the purchase price and monthly pay of gifted muscular men or athletes, as well as funds to provide ever-scantier costumes for drum majorettes.

Reds Moving Cautiously

By WILLIAM L. RYAN
Associated Press News Analyst

UNITED NATIONS, N.Y. (AP)—The Soviet Union has thrown down what appeared to be a quick challenge to the United Nations to change its basic structure. But on close inspection, the Kremlin's move seems a cautious one.

That is the watchword at the United Nations as its assembly opens its 16th regular session in a strange breeding atmosphere produced by the death of Secretary-General Dag Hammarskjöld.

The delegations seem carefully measuring one another, almost like gamblers trying to gauge the odds on success or disaster.

Soviet Foreign Minister Andrei Gromyko announced the Kremlin's new line in a speech before a three-man secretariat to succeed Hammarskjöld. With a built-in veto, that would mean paralysis for the United Nations' ability to put out dangerous fires.

But Gromyko added that it was not possible to change the charter to set up such a structure until Red China was admitted to membership. That seems unlikely in this session, at any rate. And it gives the Soviet Union an out—should it feel it needs one. If pressing its demand should become too dangerous, politically or otherwise, the Kremlin has a backdoor avenue of retreat.

Gromyko's statement, however, did little to relieve the tension in U.N. halls. It can burst suddenly into ominous crisis.

The U.S. delegation gives the impression its cue for the time

OLD ROCKIN' CHAIR'S GOT US—Ethel Mae Sturdivant and Billy Greenfield, two enrollees taking advantage of the adult night classes being offered in the Snyder High School shop, contemplate a re-finish job on an antique chair. The classes, which will last for 16 weeks, are held on Mondays and Thursdays from 7-9:30 p. m. and are still open to anyone interested in taking advantage of the complete facilities as made available, notes instructor W. A. Mayfield. Price of the course is \$16. (Photo by Jackson)

Oceans Unable To Hold All Trash

BY THE ASSOCIATED PRESS

Just how much radioactive waste can you dump in the ocean? Is the great antarctic ice cap a barometer of weather? Who are the Hottentots? These are questions for science at work.

How Deep the Ocean

There are some 1 1/2 billion billion (1.4 and 17 zeroes) tons of water in the world's oceans. But even this vast water world can't take all the trash man would dump into it.

Thousands of tons of silt machines, guns, tin cans — everything man wants to get rid of — are dumped into the ocean. And now radioactive wastes are dumped there too.

For most of the next decade or so, it appears that the ocean can accept in its deep waters radioactive wastes without danger, suggests oceanographer John Isaacs of The Cripps Institution. But later on there may have to be limits on the waste material to be dumped. And even now, locally, drums of radioactive wastes, attracting fish as any debris attracts, may pose problems.

Certainly, it poses severe restrictions on the dumping of such wastes in the area where human food fish live. Isaacs writes in the magazine, International Science and Technology.

World on the Rocks

If you melted the ice of the antarctic, the world's seas would swell some 300 feet higher and drown some of man's biggest cities.

But now some scientists are measuring the antarctic ice cap, not for fear of this, but as a possible barometer of world climate. If the antarctic ice is growing, this may signal a warming trend on the earth.

If this is so, then the earth's "ice positions" that many years from now the arctic ice pack will melt, and huge snow falls will deluge parts of North America, Asia and Europe, says University of Michigan geologists

Liberalism Is Rapped

CORPUS CHRISTI (AP)—A one-time candidate for governor who recently switched to the Republican Party, Jack Cox, said Tuesday night "liberalism is a medicine show tonic."

"We have fallen for the pitch," the Breckenridge, Tex., man told the Sales Executive Club of Corpus Christi.

Cox said in his address: "Sales executives are deeply concerned with mass communications. The selling of ideas. When it comes to selling soap or toothpaste, we Americans are the best salesmen in the world."

"The hard sell, the soft sell and every other kind of sell have been used to convince the American people that the answer to all his ills and ills lies in Washington. This is pure bunk and you know it."

Liberalism today is a medicine show tonic, filled with secret ingredients and advertised as a cure-all. We have fallen for the pitch.

Road Repair Plans Set

AUSTIN (AP)—The Texas Highway Commission announced a \$3 million emergency program Tuesday to repair the state's highway system damaged by Hurricane Carla.

The commission said the Highway Department has surveys of damage to the system underway and these surveys may reveal the need for further expenditures.

Included in the current emergency program are these major projects:

Jackson County — Construction of a new causeway on Texas 35 at Carancahua Bay, 12 miles in length, at an estimated cost of \$70,000 including approaches. The old causeway was destroyed by Carla.

Calhoun County — Repairs to the new Lavaca Bay Causeway on Texas 35 at Port Lavaca, at an estimated cost of \$117,000.

Jefferson and Chambers Counties — Repairs on Texas 87 between Sabine Pass and the Galveston County line, 32 miles, at an estimated cost of \$400,000.

Nueces County — Repairs to Texas 361 between Aransas Pass and Port Aransas, six miles, at an estimated cost of \$400,000.

Concurrently with the authorization of the hurricane-repair emergency program, the commission put approximately \$12 million into the state maintenance contingent fund, depleted by the need for immediate funds to fight Carla.

Prosecutor Is Reported Missing

MANILA (AP)—A special prosecutor of the department of justice, reported carrying papers involving a big government swindle, has been missing nine days, the government said today.

The prosecutor, Isidro Vejingco, was last reported seen on his way home from his office here Sept. 11.

Algeria became a French colony in 1830 when an expedition splashed ashore to subdue the Barbary pirates.

49th Will Report For Duty Oct. 15

DALLAS (AP)—The 49th armored Division of Texas, ordered Tuesday to active duty by the Defense Department, will report to Ft. Polk, La., beginning Oct. 15.

Gov. Price Daniel said these other military units also were placed on active duty:

The 122nd Transportation Company (medium helicopter), Houston; 277th Engineer Company and the 349th Military Intelligence Company, both of Dallas; the 490th Civil Affairs Detachment of Abilene; and 347th Military Intelligence Platoon, Fort Worth; the 980th Engineer Battalion, Wichita Falls; and the 974th Quartermaster Company of Galveston.

The 49th Division was alerted Sept. 5 and told that it had a high priority for a call to active duty.

Maj. Gen. Harley B. West of Dallas, division commander, said the division largely will be boosted to combat strength of 14,000 men and officers by a callup of ready reserve men.

On length of time the division will remain on active duty, General West said, "Anything about that is speculation."

Gen. West said he did not know whether the wives and families of soldiers would be allowed to go to Ft. Polk.

"Certainly there is no housing for them," he said.

The general said it would not take long for the 49th to be combat ready.

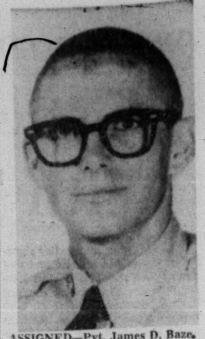

"I am pleased to say that the morale and the status of training of the 49th Armored Division is at a razor-sharp peak," he said.

Also called to active duty was the 32nd Infantry Division of Wisconsin and 249 Army Reserve and National Guard supporting units.

The 49th has units in 74 Texas cities and towns.

The division was organized officially July 2, 1946, and made up mostly of men and officers who had served in World War II.

Division units are at Arlington, Atlanta, Austin, Belton, Big Spring, Bonham, Bowie, Breckenridge, Brenham, Brownsville, Bryan, Cameron, Carthage, Cisco, Clarksville, Cleburne, Colorado Decatur, Denison, Denton, Donna, Edinburg, Electra, Fort Worth, Gamesville, Gatesville, Grand Prairie, Greenville, Harlingen, Henderson, Honey Grove, Houston, Huntsville, Irving, Jacksboro, Jacksonville, Kaufman, Kilgore, Laredo, Longview, Lufkin, Marshall, McAllen, Mercedes, Mineral Wells, Mission, Mount Pleasant, Nacogdoches, New Boston, Olney, Palestine, Paris, Pasadena, Pharr, Ranger, Raymondville, Rusk, San Angelo, Sherman, Sulphur Springs, Taylor, Tyler, Temple, Terrell, Texarkana, Vernon, Victoria, Waxahachie, Weatherford, Wichita Falls and Winnsboro.

ASSIGNED—Pvt. James D. Baze, son of Mr. and Mrs. Victor Baze, 2705 Avenue S, has been assigned to Company D, 6th Battalion, 2nd Training Regiment at Fort Jackson, S. C. for eight weeks of basic combat training. This is his first phase of six months active duty training with the U. S. Army and a part of the obligation he incurred upon enlisting in the Army National Guard. His National Guard unit is the 142nd Infantry in Snyder.

The United States harvests about 700,000 tons of peanuts each year a crop worth about \$200 million.

Junior Editors Quiz on BIRDS

QUESTION: How far can birds fly without resting?

ANSWER: Different varieties of birds fly different distances without resting. Many songbirds, in their migrations between breeding grounds in the north and their winter homes, will travel 25 to 30 miles a day...

FOR YOU TO DO: Examine the structure of a bird in a museum or from a picture and check the lightness of the bones and the enormous size of the breast muscles which move the wings.

(Richard Snyder of West Richfield, Ohio, wins \$10 for this question. Mail yours on a postcard to Junior Editors in care of this newspaper.)

Soviets Battle Guerrilla Style

By JAMES MARLOW Associated Press News Analyst WASHINGTON (AP)—Guerrilla wars used to be fought by toughs in jungles while diplomacy was the province of well-dressed and serene gentlemen who discussed on a high level and issued opaque communications.

Then the Russians, as usual, had to come along and spoil things. Now Premier Khrushchev is using guerrilla tactics for diplomacy and diplomacy for guerrilla tactics.

It's simple. To Guerrillas hit and run, do some damage, bewilder the opposition which does not know what to expect next, disappear for a while, and strike again somewhere else.

At times this seemed too simple for Western statesmen, who for years have, acted like villagers huddled in a rain forest, wondering what next but too used to their old ways to try new ways of their own to strike back.

Khrushchev would belt them with an unadorned blackjack and then, just to confuse them, belt them with a blackjack dressed in Christmas wrappings. One minute he'd be the bad guy talking war, the next the good guy yearning for peace.

Stalin used guerrilla tactics, too. Khrushchev has gone beyond him and added a public relations touch that makes Madison Avenue look as old-fashioned as a pitchman at a circus.

For instance, in the middle of all his pompous about Berlin, Berlin, he had a "peace" line for a few months. He has given three distinguished and widely read American newspapermen lengthy, separate interviews.

They reported what he said in great detail, and much length. So he reached millions of Americans repeatedly with his views on a host of issues.

It seems that almost daily this is an exaggeration, but not much—he has something to say on war, peace, disarmament, or nuclear testing.

Test Your Skill.. Win CASH PRIZES

HERE ARE THE RULES OF THE CONTEST

In each advertisement on this page you will find the contestants in a prominent football game being played in the country this week-end. Get an entry blank from one of the merchants who are helping sponsor this contest and whose message is on this page. Fill in your selection of the WINNING TEAM only . . . opposite the name of the firm on the entry blank. Then send your complete blank to FOOTBALL CONTEST EDITOR, THE SNYDER DAILY NEWS. Entries must be in the hands of the editor by 12 o'clock noon, Friday. Games ending in a tie score must be specified as a tie or else it will be considered a miss.

If there is a tie for first place the winners will divide the cash money of \$12.50 and no second prize will be given. If there is a first place winner and a tie for second place, the second prize winners will divide the money for the place. If more than two persons tie for second place, no second prize money will be awarded and the cash will be added to next week's prize. Tie for perfect score will split \$25.00. There will be fun for the entire family. Only one entry blank will be permitted from any one person. More than one will disqualify all of the person's entries. Scores listed on the entry blank will have no bearing on the choice of the winner. Sign your entry blank and list your address and phone number — and watch for the story on next Wednesday's front page for the winners. Hurry now, and get your entry blank from one of the merchants on this page. The contest blank must be in your own handwriting. Employees of The Snyder Daily News and their families not eligible to enter.
