ANXIOUS QUEST FOR FLIERS CONTINUES

THREE PERSONS KILLED IN AIRPLANE CRASHES SATURDAY

All Possible Means Are Used In Search For All Three Of Lost Airplanes

(By The Associated Press)
HONOLULU Aug. 20.—With three airplanes and their occupants lost somewhere between California mainland and the Hawaiian Islands, vagrant and unconfirmable radio messages reporting the missing planes as having been picked up or seen, electrified searcher and aroused hope. But each message, investigated by naval vessel or aircraft proved false, and the hopes that six courageous men and one brave girl were about to be rescued were cruelly dashed.

Radio experts were loath to believe that these radio messages sent by individuals who could not be identified or located had been sent as a hoax. They thought, instead, that they might have been fragments of conversation concerning the planes, picked up by amateurs who excitedly mistook them for the news of the planes for which the whole world has been waiting—the actual sighting of the wave tossed machines. No military or commercial radio stations have intercepted such messages.

After an all night vigil, following reports that Pilot William P. Erwin and Navigator A. H. Eichwald might have plunged into the ocean in their plane, Dallas Spirit, 600 miles off the California coast last night the Pearl Harbor naval station was snatched into sudden activity at dawn. An amateur radio operator at Luke field reported having intercepted a part of a message from an unlocated ship stating that the Dole flight plane Golden Eagle had been picked up. A few minutes later, a second message was intercepted saying that the Golden Eagle was being picked up.

Efforts to confirm or trace the messages were futile. The Luke field radio set is not an official army station. It is an amateur station built and operated by men stationed there.

The fourteenth naval district extended the search today for the missing Dole planes, sending aircraft and submarines to comb the huge triangular area north of the island of Hawaii which previously had been less searched than other regions. Two patrols of two planes each left the Pearl Harbor air station before 7:30 a. m., fueled for flights of approximately 400 miles each.

Channels Searched
One patrol went to Molokai island, around which they planned to swing through palloa channel. The second patrol started for Hana, at the southwestern tip of Maui island, from which they were to return to Lahaina, via Alenuihaha channel, joining the first patrol. The planes in each patrol were ordered to fly about ten miles apart, and to send radio reports of their positions every 15 minutes.

The submarine tender Holland and eight submarines left Pearl Harbor at 8 a. m. yesterday to form a line running southwest from Kaena point northwest of Oahu island, at which they were due at 4 o'clock this morning. The remaining submarines available for formation were returning to Pearl Harbor today from the southernmost part of Hawaii.

Search Through
Two submarines which were detached from formation yesterday to search channels about Maui island were to rejoin the formation north of Kaena point, 56 miles north of Kaena point, heading northwest toward the windward side of Kauai island.

As a result of radio reports last night that Erwin's plane, the Dallas Spirit, had gone into a tail spin, recovered and tail spun again, apprehension concerning the fate of the plane was expressed at Pearl Harbor. It was pointed out that a plane going down in a tail spin, particularly when heavily loaded, crashes badly.

SAN FRANCISCO, Aug. 20 (AP)—The U. S. S. Hazelwood radioed tonight that it had made a thorough search of the area where the airplane Dallas Spirit is supposed to have fallen and failed to find a trace.

The area searched was around 32.27 degrees north latitude and 132.30 west longitude.

The Hazelwood said it was proceeding to San Francisco for refueling.

Struck Water Going 200 Miles An Hour
SAN FRANCISCO, Aug. 20 (AP)—Deductions reached by studying the increased and decreased pitch of radio waves sent out last night by the now missing Dallas Spirit, in-

General Pershing Writes Guidebook

GENERAL PERSHING

WASHINGTON, Aug. 20 (AP)—More than a year ago General Pershing changed to be standing in the American cemetery at Belleau Wood in France when a bus load of American tourists from St. Louis drove up, shepherded by a French guide to the battle field.

The guide recited a story of the battle which General Pershing overheard. That story was so utterly wrong in its report of what happened that General Pershing immediately determined upon the preparation of an American guide book to the American battle fields in France and today he made public a volume of 300 pages, replete with maps and illustrations, which he and a group of American officers have labored for a year.

The book covers accurately every field on which American troops took part in action during the world war.

WASHINGTON, Aug. 20 (AP)—Four of the five jurors who requested Governor Dan Moody to commute the death sentence they helped assess Ed Joslin, Victoria county negro youth convicted of criminal assault on a seven-year-old white girl, today by wire withdrew their request.

Joslin is scheduled to go to the chair Monday and all indications tonight were that the governor will not grant Joslin's attorney's plea for commutation of the sentence to life imprisonment.

The jurors' sudden withdrawal of their names from the petition was not explained.

FIRST BALE GINNED

W. M. Peterson of Near Ackerly Is First Farmer to Have Open Cotton This Year

LAMESA, Aug. 20.—To W. M. Peterson of near Ackerly goes the honor of raising the first bale of cotton ginned on the South Plains this year. The bale was ginned and sold here late yesterday, bringing 21.25 and weighing 506 pounds.

Mr. Peterson states that he has fifteen more bales open. The Dykes gin company ginned the product about ten miles south of Ackerly. A premium was presented to Peterson by G. E. Goodloe, chairman of the agricultural committee.

MAKES COAST SURVEY

Marine Aviator Maps Line Of Ocean From Florida To Texas And Part Of Cuban Island

WASHINGTON, Aug. 20.—A six months' aerial survey along the Atlantic seaboard from Philadelphia to Keywest, the northern and southern coasts of Cuba, the Isle of Pines, the west coast of Florida and the Gulf as far as Brownsville, Texas, during which he flew 22,000 miles and photographed 3,000 square miles of coast line was ended today with the return to Quantico, Va., of Lieutenant C. Frank Schill, marine corps aviator.

Schill spent 319 hours in the air, took five thousand pictures from a constant altitude of 10,000 feet.

In mapping the coast lines of Cuba for the hydrographic office of the navy and also photographed 146 seaplane bases and lighthouses, which will be used by the navy in preparing maps for seaplane airways.

HILL WILL TAKE SACCO DEFENSE TO HIGH COURT

PLEA TO JUSTICE OF SUPREME COURT IS TO BE MADE

TALKS TO SISTER

LAST OPPORTUNITY OF RADICALS TO DODGE DEATH FADING

(By The Associated Press)
BOSTON, Aug. 20.—Arthur D. Hill, chief defense counsel for Nicola Sacco and Bartolomeo Vanzetti tonight turned toward Justice Louis D. Brandeis of the United States supreme court at the associate justice's summer home at Chatham, Mass., in another last minute desperate move to save his clients from execution on expiration of their latest respite, at midnight on Monday.

Denied a writ of habeas corpus or stay of execution by Judge James M. Morton, Jr. of the United States district court early today and denied a stay by Justice Oliver Wendell Holmes of the United States supreme court early in the afternoon Attorney Hill announced he would take advantage of Justice Holmes' action in leaving the way open for a similar application to another justice of the highest court of the land and go to Justice Brandeis with his petition.

Enroute to Justice

He announced from his office here tonight that he would leave for Chatham "just as soon as I can get home and pack a bag." His plea for a stay of execution to Justice Brandeis will be on the same grounds as that made to Justice Holmes—namely that petitions to bring the case before the full bench of the United States supreme court on a writ of certiorari are to be filed in Washington as soon as the full records of the case can be forwarded to the capital.

Attorney Hill said that he would not make any attempt to see Justice Brandeis tonight, but that he wished to see SACCO-VANZETTI Page 6

TRUSTEES PLAN BETTER SCHOOLS

HIGH SCHOOLS FOR RURAL DISTRICTS MAY BE PUT INTO OPERATION

That the county school trustees will actively press through the most feasible program of education that can be devised and will possibly institute a system of high schools in the rural districts was decided at the regular session held yesterday.

Resolutions thanking the chamber of commerce and all persons who assisted in the county meeting of trustees Thursday were passed.

The following resolutions were duly passed by the board in full attendance: Bro Crump, chairman, and W. O. Sheeley, Douglas Pounds, W. A. Fincher, and J. L. Benton, members, being the personnel.

"That we offer our thanks to the chamber of commerce for the splendid dinner served, and to the Tech faculty, the superintendents of Amarillo, Lubbock, El Paso, to Dean E. D. Jennings of Dallas, Dr. Clarke, to H. M. Pevehouse, principal of the high school of Slaton who helped with the musical entertainment, and all others, who in any way contributed to the success of the meeting. And we also desire to express our thanks to the county superintendent for his untiring efforts, and the local teachers and trustees for their attendance.

Approve Progress Plans
"That we go on record as approving the proposed plan for further educational advantages for rural schools in any way possible, even to the extent of establishing a system of rural high schools over the county to supplement the present system.

"That we hereby approve and make the allowance for the amount of \$200 to be allowed the county superintendent annually for traveling expense on his car in visiting the schools.

New School District
"That we hereby create a new

NO MERCY FOR NEGRO

Jurors Who Asked That He Be Given Commuted Sentence Withdraw Requests

AUSTIN, Aug. 20 (AP)—Four of the five jurors who requested Governor Dan Moody to commute the death sentence they helped assess Ed Joslin, Victoria county negro youth convicted of criminal assault on a seven-year-old white girl, today by wire withdrew their request.

Joslin is scheduled to go to the chair Monday and all indications tonight were that the governor will not grant Joslin's attorney's plea for commutation of the sentence to life imprisonment.

The jurors' sudden withdrawal of their names from the petition was not explained.

SLAYS FAMILY AND SELF

OAKLAND, Calif., Aug. 20 (AP)—Clyde Wilcox, 49, a man of means in this city, tonight shot and killed his daughters, Patricia, aged 3, and Cleo, aged 18, shot his wife, who probably will die, and then killed himself. The shooting occurred in the family home.

Says She Is Slayer But Is Released

NOITON, Va., Aug. 20 (AP)—Although police said she had confessed she killed Bertie Lindsey in Knoxville, Tenn., about five years ago, for which crime a negro was executed, Mrs. Sadie Mendil, aged 28, was released from jail here today.

Chief of Police Warren said he had been advised by telephone by the office of the Knoxville chief of police that Maurice Mays had paid the death penalty for the crime, and that records there showed no charge against the woman.

Mrs. Mendil and her husband, a palmist, arrived here Wednesday. She went immediately to the chief of police office and volunteered a confession, explaining that her conscience had been troubling her.

At the time of the crime, police said Mrs. Mendil told them, her name was Mrs. John Roddy and she lived at Devonia, Tenn. Dressed in men's clothes and with her face blacked, according to her story, she slipped into the Lindsey woman's home and killed her in bed. She did so, she said because a few night previous she had trailed her husband, a traveling man to the Lindsey home, and had seen her husband and the Lindsey woman together on the street.

LEVELLAND HAS JUBILEE FOR NEW COURT BUILDING

MODERN STRUCTURE IS OFFICIALLY BEGUN YESTERDAY

PROGRESS RAPID

COUNTY ADVANCES AT AMAZING RATE IN POPULATION

Another milestone of progress and achievement was marked in Levelland and Hockley county yesterday, amid celebration on the part of its citizens, in the breaking ground for the new courthouse.

Miss Hockley county in the person of Miss Lolan Hoover, standing out the first dirt for the cornerstone of a new \$120,000 structure, while hundreds of people of Levelland and Hockley county looked on with satisfaction.

The very spot where the dirt was moved was surrounded by open acres of pasture land six years ago with only 127 people in the county.

Today the spot is surrounded by a progressive and modern city of 1,100 people, 27 brick buildings, two of which are modern school structures, a hotel, four gas, five churches, an adequate electric power plant and system and a county that produced 29,000 bales of cotton last year on 750 farms with room yet for over 4,000 farmers.

Lubbock Men Talk
Judge Homer L. Ebbert, Dean A. H. Ebbert and District Attorney Thurmond H. Bradley, made talks at the meeting and other Lubbock residents attended.

Judge D. E. McGee, Levelland, was chairman of the meeting and made a short address at the beginning welcoming the citizens of Lubbock who were present and paying a tribute to the assistance Lubbock and Lubbock people have rendered in the development of Levelland and Hockley county.

Music was furnished by the Levelland concert band.

Advantages Are Recounted
Durwood Bradley told of the advantages of Hockley county and urged the people to take advantage of the richness of the soil which is 50 per cent tillable. He urged the

Guns Give Quick end to Jail Break

A carefully planned jail break was frustrated yesterday afternoon shortly after 1 o'clock when Sheriff H. L. (Bud) Johnson and Deputy Vernice Ford cornered in prisoner back to their cells after they had attacked Deputy Terrill Williamson as he started to give them their evening meal. Suspecting the attack, the officers prepared for it and soon had the men back behind bars after only a slight scuffle.

As Deputy Williamson opened the cell door, E. G. McDaniels and Prewe Copeland were the first to attack him and as the third prisoner jumped on him, Sheriff Johnson and Deputy Ford "levelled down" the little affair with rifles. The men made for their cells in a very hurried manner, the officers said.

Officers state the following men had part in the attempted break: Paul Seef, escaped convict from Denver, held for car theft; Perseus Campbell, violation of the pro law; Clinton Odom, escaped convict charged with theft; J. C. Melkoe, violation of the pro law; Gus Stevens, whiskey charge; Frank Novak of Berlin, Germany, fugitive; J. T. Norman, hijacker; A. Nelson May Jr., car thief; E. G. M. Daniels, embolism; and Robert High, assault to murder.

LETTLE HOPE IS FELT FOR WORTH FLYER

WAITING SHIP HITS WAGPOLE AND THE TRAGEDY OCCURS

SEND TO LINDY

DOMINANT KENTUCKY MEN ARE FATALLY SHOT IN FALL

(By Associated Press)
LOUIS, Aug. 20.—Physicians expressed little hope for recovery of Lieutenant C. C. Hatch, who was injured this morning in an airplane accident near which resulted in the death of Lieutenant George J. Stumpf, friend and adviser of Col. Charles A. Lindbergh in his Atlantic flight preparations.

Lieutenant Hatchinson was in a plane suffering serious contusion about the head and face.

Ware is 350.

Officers were connected with 5th Division air corps, now in at Lambert-St. Louis flying near here. They had started aerial visit to friends of Lieutenant Stumpf at Lake Hill park, about 20 miles south of here, while stunting low over the park the wings of the plane hit a flag pole, throwing the plane into a spin. It followed a sharp curve over a railroad right-of-way and crashed in a field.

Lieutenant Hatchinson was taken clear of the plane, but Lieutenant Stumpf was buried in wreckage. A wife on the plane apparently died from strangulation.

Was Doing Stunts
Hatchinson said the plane, on one engine over the field, flew slowly low and several speeds over the roof of a building were duck when it barely cleared their heads. The instructor brought a chuckle from the passenger, who looked and waved at the frightened crowd.

Lieutenant Stumpf was 32 years and unmarried.

OFFICIAL PLACING PICKING MACHINES

COTTON GATHERED IN MORE CLEAN WAY THAN BY HAND CLAIMED

Searching for 2,000 or more acres in tracts of at least 100 acre fields, L. G. Rich, agricultural agent of the Cotton Harvester company, of Chicago, is in Lubbock for several days to select the cotton field in which the 25 Herring Automatic cotton pickers will be placed for use this fall in testing the advantages gained through their use during a full cotton season. Mr. Rich will visit the various sections of the county to determine just what territory will have the earliest cotton and will afford the best advantages for using the machines.

He said last night after returning from a short trip into the Station and Idalou cotton fields. He will make other trips with County Agent D. F. Eaton this week.

It is the plan of the company, Mr. Rich said, to keep the 25 machines working at any given time within a five-mile radius. When this land is cleared of the cotton, other fields will be moved into, and the machines doing the work of 20 men and picking over 5 acres of cotton in a day's time, a large part of the cotton producing area is expected to be covered before the close of the season.

Mr. Rich has just returned from Chicago where he has seen the machines. They will be shipped to Texas soon and will be here about September 15. They will be ready to gather the cotton here which is not expected to begin to open much before the first of October.

Lubbock first heard of the company's plan July 21, when Edward G. Trimble, Kansas City contractor, explained it to a chamber of Commerce officials and agricultural experts here. Mr. Trimble selected the Lubbock territory for testing the machines because he believed that it would eventually be the center of the state's cotton producing area. He with Chief Engineer Russell George R. Meyercord, Chicago capitalist and manufacturer, and other officials of the company are to be here when the machines are tested.

SERIOUS QUAKE OCCURS

Eureka Rocked - Tremor Lasting Fifteen Seconds

EUREKA, Calif., Aug. 20 (AP)—Eureka and other towns in Humboldt county were rocked shortly after noon today by the most severe earthquake felt here since 1906. The tremor lasting 15 seconds, impaired the fire alarm system.

C. C. Flake, linotype operator for the Humboldt Standard, was slightly injured when his machine overturned forward. Several women fainted on downtown streets while buildings swayed and the noise of rattling chimneys and breaking dishes could be heard. Plaster was knocked from many rooms.

Reports from Scotia, Fortuna, Arcata and Ferndale, nearby towns, stated merchandise had been shaken from shelves; glasses, dishes and chimneys broken and some plaster knocked down.

Think racks of the Shell Oil company in Arcata, holding large drums of oil, sunk six inches into the ground. In Eureka plaster was knocked from several rooms in the courthouse and from the ceiling of the city hall.

HURLWOOD TO SHOW AT FALL FAIR HERE

Hurlwood, youngest city of Lubbock county has joined the list of community fair exhibitors.

Claude Hurlbut, of Lubbock, principal figure in the development of the young city announced that the people of Hurlwood are busy getting an exhibit in shape and that crews in that vicinity are on a par with those in other sections of the county.

NEW AGENT IS HERE

Miss Louise Baird Of Vernon Now Assuming Duties Of Home Demonstration Agent

Miss Louise Baird, of Vernon, recently appointed home demonstration agent of Lubbock county, arrived in Lubbock and assumed her new duties Saturday morning.

Miss Baird is a graduate of Maryville College, Maryville, Tenn., where she had special instruction in home demonstration work. For the last few years she has been teaching school in Wilbarger county, with her training in college and her practical work with rural folk as a teacher. Miss Baird is well qualified for the position she now holds. In the belief of Miss Myrtle Murray, district agent.

The itinerary of Miss Baird is now being worked out and home demonstration clubs will resume their regular schedule of work.

ENFORCEMENT FUND FOR STATE OFFICERS IS LOW

AUSTIN, Aug. 20 (AP)—Governor Moody's law enforcement fund is so low that expenses incurred by at least one sheriff is due in returning a prisoner to Texas under extradition will have to be paid by the sheriff, who will be reimbursed later by the legislature, it was learned today.

Depletion of the fund has been rather common for years.

Torture Of Fire Latest Weapon Used By Bootleg Fuedists Of Baltimore

(By Associated Press)
BALTIMORE, Aug. 20.—Tortures similar to that committed by the savage Indian, today was employed in a supposedly bootleg feud.

Knocked unconscious and dragged to a deserted country cottage where their clothing was saturated with kerosene and the house set afire, two pitilessly beaten men squirmed their scorched bodies to the outside.

Though not burned to death in the trap their assailants planned, they died from their burns and wounds a few hours later at a hospital. Death came before they could give a coherent story of their attack.

John C. Harraly, 35 and Chester Pugh, 33, each the father of several children are the victims of

Wife is Confident He Will Return
WEST COLLINSWOOD N. J., Aug. 20 (AP)—"I am confident in the ability of my missing husband," marks the attitude of Mrs. Constance Ohi Erwin, 29 year old wife of Captain William P. Erwin, who is believed to have fallen into the Pacific ocean off the California coast while searching for airplanes for the missing planes of the recent Hawaii flight.

"Bill is too good a pilot and his plane, the Dallas Spirit, is too staunch for him to be lost," she said. "I don't believe he would go into a tail spin as reports suggest something went wrong with the ship. And I don't believe anything would go wrong with it. Even if it would float for a good many hours, especially if the gas tanks were empty. Somebody will find him, and he will turn up all right, but of course it is an anxious time while we await word."

BEARS BUNCH HITS TO DEFEAT DALLAS AS WALKUP SOUTHPAWS CATS TO WIN OVER EXPORTERS

PHELAN'S ROOKIES FAIL AND BUFFALOES ARE VICTORIOUS; MEDIOCRE BASEBALL FEATURE OF PLAY THROUGHOUT WHOLE LEAGUE

(By Associated Press)
WICHITA FALLS, Aug. 20.—The Waco Cubs defeated the league leading Spudders here this afternoon 4 to 2. The great relief work of Jake Frazier and the hitting of Max West featured the game. West hit three singles and a home run in five times up.

Dallas Outfits San Antonio, But Defeat Fall To Tally
DALLAS, Aug. 20.—Although outbit the San Antonio Bears punched their hits in the sixth and eighth innings to defeat the Dallas Steers here today 5 to 1.

Fort Worth Makes It Two In A Row Over Beaumont
FORT WORTH, Aug. 20.—Jimmy Walkup pitched the Cats to a 2-7 decision over Beaumont here Saturday to make it two in a row for Fort Worth over the Exporters.

Joe Brown Pitches Well In Spite Of Slippy Support
SHREVEPORT, Aug. 20.—Art Phelan returned from a scouting trip today and brought back a handful of rookies whom he tried out against the Houston Burfs but they failed to prove a winning combination and were beat, 5 to 2. Joe Brown did good work on the mound despite some poor support at times.

City League Has Successful Year; Winners Praised

By defeating the Bankers two in a row and the Dix Embalmers in one contest the Wholesalers, managed by "Terrible" Terry, blimped into the lead of the last half and finished at the top of the City League loop. The highly-headed Wholesalers also won the initial half of the schedule and with their victory in the last half they were unquestionably the champions of the Lubbock City League for the season of 1927.

The 1927 City League was the most successful in the history of the organization. Throughout the season the six clubs battled for the pennant, some of them working under handicaps and trying to overcome a big lead. For the 1927 season the loop had better baseball due to the fact that it was placed on plan of organized ball. Rules and regulations were enforced to the letter and the best players in the season and baseball was increased with the league for the past season.

Winners Are Deserving
The winners of the 1927 flag are deserving champions. They played the game clean and everyone a sportsman. In the last two games with the Bankers "Preacher" Taylor, undoubtedly the best pitcher in the loop and the most valuable player of the Wholesaler roster, let the Wholesalers down with three hits in the ten innings he worked. The Wholesalers have a club that could hold a high position in semi-pro baseball and each position is filled with a player that carried on the loop like a veteran. From the inside to the outfield the Terry organization was strong. It is true that other clubs of the loop had some men that were better for individual positions—but not for men all the way through the Wholesalers were stronger and were able to withstand the close plays and crucial moments that arose in most every contest.

Arrangements are being made by the officials of the local loop and the Lubbock City League for a "Little World Series" between the Lubbock and Slaton champions. The Slaton loop schedule has been completed until September 3 and immediately after that date the series will be arranged for.

Dark Horse Runs Away With Derby

CHICAGO, Aug. 20.—Platinum, a colt of \$8,854 for \$2, won the \$10,000 Hawthorne handicap featuring the Hawthorne meeting today by a head from Chicago, Miss. — daughter of the mighty Man o' War, one of three entries from the Three D's stable, was third.

East Is Winner Of Tennis Play

FOREST HILLS, N. Y., Aug. 20.—The east clinched the annual inter-sectional series with the west today when Francis T. Hunter, member of the Davis cup team, took the measure of George Lott, 20 year old Chicagoan, in the feature singles match, 7-5, 6-6, 6-6.

This made the score 5 to 3 in the east's favor for the two days play. In the final match of the series, John Vanry and Frank Shields, national junior champion, added to the eastern triumph by defeating Lionel Ogden and Cranston Holman, California pair, 6-4, 2-6, 4-6. This made the final score 6 to 3 in the east's favor.

BABE TIES GERRIG

NEW YORK, Aug. 20.—Babe Ruth swung back into a tie with Lou Gehrig for leading home run honors in the majors by whacking out number 39 off Picher Miller at Cleveland today. That gave Ruth three home runs for the week. He is now nine homers behind his record 1921 mark.

THE BIG 10 OF AMATEUR GOLF

Amherst Will Be Hubbers' Guests At Merrill Park

This afternoon the Hubbers will clash with the Amherst aggregation at Merrill Park in the first of a two game series with the Lamb county entry. The Hubbers were challenged by Manager Bill Herman skipper of the Amherst crew, for the baseball supremacy of the South Plains. In the two games played with the Hermann team this season the locals have won and lost one. Recently during the Amherst anniversary the Hubbers were defeated by a score of 5 to 2.

For the entire season the Amherst crew has lost only three games. They dropped one each to the Fort Worth, New Mexico, Hale County all-stars, and the Hubbers. Each of the three losses the Amherst nine has sustained has been by a very narrow margin.

In this afternoon's bill Manager Herman will select "Lefty" Hollingsworth, husky pitcher, who let the homelings down with six scattered bingles in the game. He won on the Amherst lot. Hollingsworth was given a trial with pennant leaders of the Texas League in early season and won several exhibition games for the Spudders; but the company was too fast for the husky left-hander and he was released. But in semi-pro baseball he is able to buckle against the best. Aside from the services of Hollingsworth, Herman will have behind the plate Dick Ratliff, one of the best catchers on the South Plains. At the initial bag "Chief" Hanks, old-timer of baseball circles, will be found.

Manager Sylvan Sanders will possibly start Terry, rangy right-hander of the Hubber staff, against the visiting crew. Terry should be in the best of condition as it has been some few weeks since he has worked a full season for the Hubbers. Since J. B. "Red" Hamilton is absent from the Hubber line-up "Tuba" Nieklaus will probably receive the game for the homelings. Today's contest will begin promptly at four o'clock with Earl Jones, veteran South Plains umpire, as arbiter for the day.

Golf Title Goes To Mrs. Pressler In Easy Playoff

LAKE GENEVA, Wis., Aug. 20.—A far driving woman has played a tournament golf for only three years came out of the far west and won the women's western golf championship today from a field that included six former title holders, by defeating in the finals a girl, who never before had reached the semi-final.

The new champion, Mrs. Harry Pressler of Los Angeles, played par golf nearly all week and was not far above par today in defeating Bernice Wall of Oshkosh, Wis., 5 and 4 in the 36 hole match.

Miss Wall had little chance to win as she could not play her short approach and putts with the precision she did in going through to the ultimate round.

Dempsey, At Peace With World As Wife's Health Improves, Calmly Starts Training Grind For Fight

(By The Associated Press)
CHICAGO, Aug. 20.—Peaceful in mind and in no hurry whatever to settle down to the task of training, Jack Dempsey today however, attentively at the side of his ailing wife, Estelle Taylor. He announced, however, he would go to Lincoln field Monday not only to look over his camp, but to start active work.

The first week, according to present plans, is to be little more than a limbering up routine, interrupted by visits to Chicago, particularly to Mrs. Dempsey's sick room in her north 32nd street apartment. After the first week, the former title-holder will see little or nothing of Chicago, until his little September 22 with Gene Tunney.

Dempsey laughed off reports that his wife had taken a sudden turn for the worse and that he had engaged three Chicago specialists to care for her.

Dempsey tore himself away from his wife this afternoon long enough to join Tex Rickard and Leo Flynn his manager for a match on the golf links. It was the first time that Jack had a chance to play since arriving from the coast.

The public sale of tickets scheduled to open Monday was deferred 24 hours because of the tremendous task of counting them.

S. M. U. Gridster Abroad This Year

DALLAS, Aug. 20.—A summer spent in Europe isn't going to interfere a bit with W. S. (Bill) Campbell, sometimes called the Bill of the Southwest, who will report at S. M. U. training camp, Sept. 10. Somewhat handicapped in 1926 by an injured shoulder, Campbell is expected to be in great shape this season, and to develop into a dependable back-field man for the Mustangs.

BASEBALL LOST POTENTIAL STAR WHEN DR. WILL HOGG ENTERED MINISTRY

NOTED EVANGELIST A COLLEGE ATHLETE AS WELL AS FAST SEMI-PROFESSIONAL INFIELD ACE

"All work and no play makes Jack a dull boy"—and any other lad as far as that is concerned, Rev. Will Hogg, evangelist of the South Plains co-operative campaign, who has been here for the past three weeks conducting the largest revival ever held on the South Plains, was at one time a great athlete and is yet vitally interested in athletics of all sorts.

"My favorite sport is baseball and for a great number of seasons I played baseball throughout Mississippi with what we termed in those days as 'traveling clubs' barnstorming the state—playing teams here and there," Doctor Hogg stated. For nine years shortly after he attended Tulane university, of New Orleans, he played the key-stone position on different clubs throughout Mississippi and several seasons was captain of the club he worked with. The small town teams with whom this evangelist played with years back are now organized and are making up the Cotton State League.

Sam Langford Is Still At Top Of Western Circuit

The baseball world's only 499 average is in danger of disappearing. Pete Casey, the Tulsa slugger of the Western League, the holder of the mark is back in the game again after a long layoff from a "bean ball." But in two games he combined out a mere single, which brought his percentage down to 495.

Langford of Des Moines, the league leader among the regulars, was within five points of the famous figure a week ago, but slid back a bit this week and has 392 in average computed today, including Wednesday's games.

With the mighty Casey's home-run club idle, Munson of the Oilers has taken up the four base knocking higher and in his two games for this week, he now has 29, a margin of 19 over his team mate on first base. Sturdy, and twelve better than Casey had achieved when he went out of the game weeks ago.

Joe Rabbit of Omaha, the greatest base stealer in the game today, added another to reach 33, but his speedy home run effort fell short by one base, and he still has but 16.

George Blachford, the outstanding pitching star of the Western League, got bumped in his two starts, and one of them was charged against him as a defeat. His score now is 22 wins and 5 losses. Black, the Oiler flinger leading the circuit on a percentage basis, broke even in his two starts, and sustained the first setback of the season. He has 16 victories.

Leading hitters of the Western League are: Langford, Des Moines, .392; Conners, Denver, .391; Munson, Tulsa, .388; Bennett, Tulsa, .379; Sturdy, Tulsa, .372; Cunningham, Des Moines, .358; Wingfield, Amarillo, .354; Reagan, Denver, .352; Tashit, Omaha, .349.

That gentlemen's agreement between Missouri and S. M. U., it is expected, will result in a football game at Fort Park stadium here, October 22, during the 1927 State Fair of Texas, that will be replete in spectacular open play.

Each outfit has agreed that it will receive no information on the other, and that likewise there shall be no "springing out" in the effort to get onto the other fellow's current, style, new plays, original formations or anything of the kind. The only "dope" either will have will be newspaper reports on the games in which both may have figured prior to October 22.

Both Missouri and S. M. U. were placed in national ranking last year as a result of their respective showings, and it will be remembered that the scored result at Columbia was a 7-7 tie, in the contest in which Chris Cortegonli so distinguished himself in defensive play.

While in Germany I was in charge of the athletic program of the track squad and entered in the running broad jump. I was able to leap through the air in the running broad jump for a distance of from 22 to 23 feet; and in the standing jump could reach out as far as 19 feet and more," he said.

Cached Army Teams
During the great World War the boys of the Third and Eighty-seventh Divisions were told that he was at one time a good athlete and they immediately secured his services as coach of the baseball and track clubs of the two divisions.

Tigers And S. M. U. Are Not To Scout

DALLAS, Aug. 20.—"No scouting," that gentlemen's agreement between Missouri and S. M. U., it is expected, will result in a football game at Fort Park stadium here, October 22, during the 1927 State Fair of Texas, that will be replete in spectacular open play.

Each outfit has agreed that it will receive no information on the other, and that likewise there shall be no "springing out" in the effort to get onto the other fellow's current, style, new plays, original formations or anything of the kind. GIANTS DEFEAT REDS AS ALEX HURLS CARDINALS TO VICTORY OVER PHILS IN SLUGGING

CUBS FIGHT MAGNIFICENTLY BUT BEANED SNATCH DOUBLE BILL TO REDUCE CHICAGO LEAD TO THREE AND ONE HALF GAMES

(By Associated Press)
BOSTON, Aug. 20.—The Boston Braves today upset the league leading Chicago Cubs and took both games of a double header by scores of 6 to 5 and 2 to 1.

A four rally in the last of the ninth inning featured by singles by Wertz, High and Fournier with Hogan hit by a pitched ball, gave Boston the opener. The second game was an old time pitchers duel between McQuillan and Bush.

ROBINS MAKE PITTSBURGH HIT HARD TO TAKE MELEE
BROOKLYN, Aug. 20.—Pittsburgh slashed the Cubs lead to three and one half games today by whipping the Robins by 19 to 7 while Chicago went down for the count twice before the Braves.

The Pirates started off with a seven run lead in the first four innings but a five run rally by the Robins in the seventh tilted the score. Herman in the role of a pinch hitter drove in three runners with a double during the Brooklyn spurge.

George Grantham was banished from the game in the first inning after an argument with Umpire Moran. Judge Landis was a spectator.

CLEVELAND COMES OUT OF
 HARGY, BEATS NEW YORK
 CLEVELAND, Aug. 20. (AP)—
 Cleveland came out of its hitting
 slump today and romped away
 with the opener of a series with
 the Yankees by 4 to 3, the In-
 dians assembling 19 hits off four
 New York pitchers. Babe Ruth's
 home run which came in the
 eighth inning with one man on base
 placed him in a tie with Lou
 Gehrig for swatting honors. George
 Suggs led the attack of the tribe
 with four hits in as many times at
 bat.

GOLF IN THE SKIES
 On the roof of a New York build-
 ing will be built a 36 hole golf
 course soon, the first of its kind in
 America.

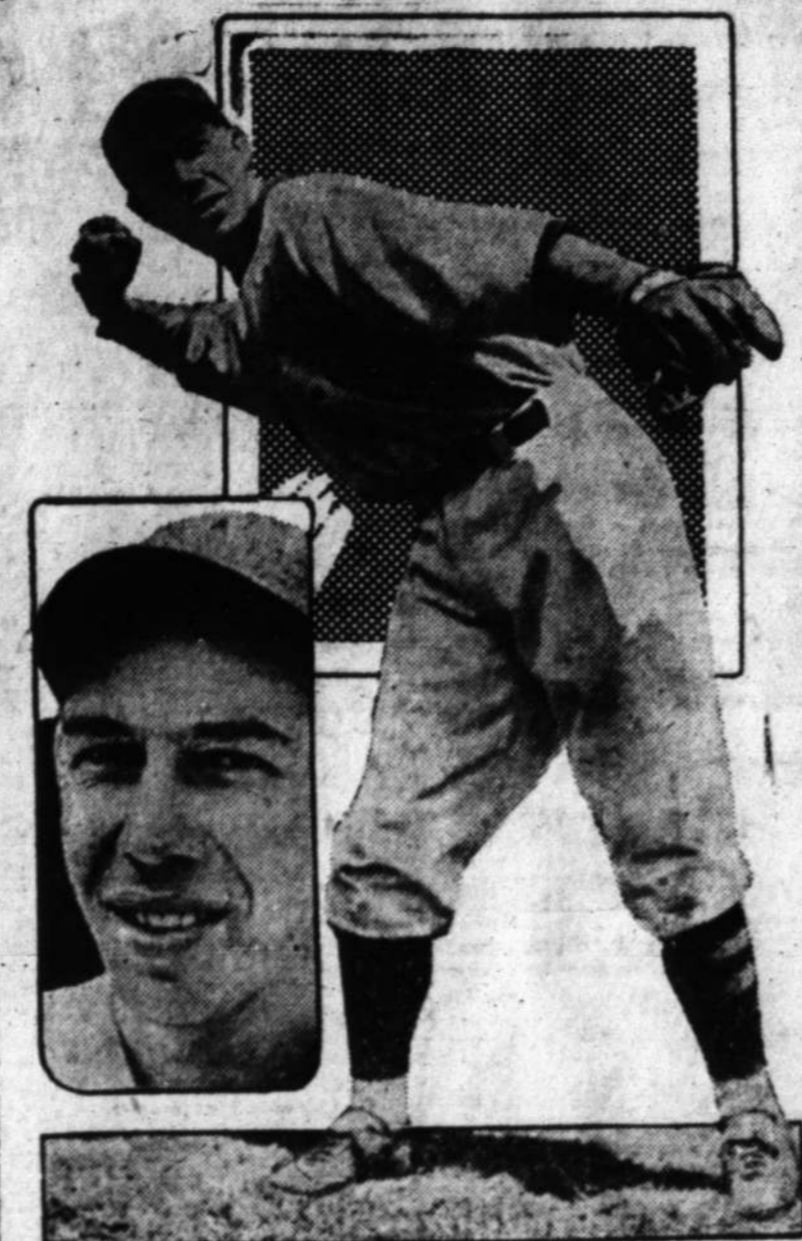

Russell Leading A. A. Swatsmiths

(By Associated Press)
 In the scuffling which rechar-
 acterized the ten leading batters of the
 American association, Red Russell
 bobbed up on top today for the
 second time this season.
 Osaie Orwell working hard to
 beat the Hens in a critical situa-
 tion, did his best work in the ninth
 and slumped just enough with the
 battery to drop to second place,
 and none too far ahead of Grimes
 of Toledo at that.

Earl Smith's bid for a place
 among the leaders fell short, and
 the Minneapolis fly-chaser dropped
 back from 13th to 15th, in aver-
 age compiled today including Wed-
 nesday's games. He got but six
 hits in seven games, and the first
 ten remained undisturbed though
 there was considerable changing of
 chairs among them.
 Palmer's Loss One
 Palmer, the association's lead-
 ing twirler, dropped his game this
 week, but his score of 10 wins and
 two defeats was enough to keep
 him in first place, with Orwell
 next. Osaie won his turn on the
 hill. He did Sheenan of Kansas
 City, who tops the association in
 victories with 19.

Frank Emmer, the Millers heavy
 flouting short fielder, failed to hit
 any out of the park, Hauser of
 Kansas City doing the major share
 of the home run hitting this week
 with three. These put him into a
 tie with Earl Smith at 17, runners
 up to Emmer's 20.
 Dewitt Lebourveau picked off one
 misdeed base to make his total 20,
 but remained in 19th place among
 the hitters with only a one point
 game in percentage. McMillan of
 the Saints with 27 as far in the lead
 in the circuit in base stealing.
 Leading batters in the American
 association are: Russell, Indian-
 apolis, .351; Orwell, Milwaukee,
 .347; Grimes, Toledo, .335; Kirkham,
 Columbus, .371; Veach, Toledo,
 .369; Hauser, Kansas City, .356;
 Lebourveau, Milwaukee, .350; Duncan,
 Minneapolis, .358; J. Kelly, Toledo,
 .358; Lebourveau, Toledo, .354.

Lynford Lary, Star Shortstop, May Be Sold But Other Clubs Still Bid

LYNFORD LARY
 Has Lynford Lary, sensational
 Oakland, Calif., shortstop, been
 sold to the Chicago White Sox?
 That's the question being asked as
 a rumor spreads that he has been
 sold. Other major league clubs,
 however, continue to bid for his
 services. At any rate, whether he
 is sold already or not, the Oakland
 owners are sure to profit to the
 extent of five or six figures for this
 young man who is said to be cer-
 tain to make history in the major
 leagues when he gets there.

There is a rumor abroad that
 Carl Kaufmann, 1927 public links
 champion, may turn pro soon.
 We know what happens to kids
 who believe in Santa Claus. They
 all grow up and bet on prize fights.

Baseball Results

SOUTHERN ASSOCIATION
 Mobile 1; New Orleans 2.
 Memphis 6; Atlanta 2.
 Little Rock 4-3; Birmingham 2-5
 (2nd game 7 innings).

DR. WILL HOGG
 (Continued from Page 2)
 the Army of Occupation", he stated.
 While he was pastor of the
 Trinity Methodist church, of El
 Paso, some five years ago, he was
 the official umpire of the El Paso
 City League games. "I make it a
 point, during my revival campaigns,
 to call a game. I like to don the
 breast protector and mask and
 stand behind the plate in a hotly
 contested affair," he added.
 In School With Freeland
 During Dr. Hogg's study for the
 ministry in Vanderbilt university he
 was a staunch admirer of Coach
 Ewing Y. Freeland, now coach of
 the Texas Tech Matadors. "Freeland
 was a member of the famous
 Vanderbilt machine of 1910 and
 1911 that held the Yale university
 gridiron machine to a scoreless tie
 at New Haven," he stated. "I well
 remember the Yale-Vanderbilt
 game as there is one incident that
 keeps coming back to my mind. A
 country preacher was never able to
 be dressed well and just prior to
 the crucial contest a friend had
 given me a new hat. The reports of
 the game were being given out at
 a bulletin board and while there I
 became very excited over a play
 that came up that I wore the band
 of the new hat completely off," he
 related.
 When Rev. Hogg was questioned
 on his opinion of the modern col-
 lege athlete he stated, "I am of the
 opinion that the modern college
 athlete is 'lopsided'; that is, he
 over-emphasizes the game or sport
 he is in at the expense of the soul
 and mind." The noted evangelist
 also stated that he thought that
 college athletics of today were too
 commercialized.

The NUT CRACKER by Joe Williams

Remembering our disappointment
 on meeting a movie star in real
 life after admiring her synthetic
 pan on the screen we are not sur-
 prised the fight films failed to show
 anything.

Red, yellow and blue clubs made
 their appearance at the British
 open... probably another item in
 the sports harmony scheme to
 match the player's language.

Mr. Rickard in dealing with that
 Chicago promoter is going to find
 out that them as has Getz.

Mr. O'Goody's daughter has been
 crying around the house that she
 wants to go over and swim the
 English channel, but he is afraid
 to trust her with so many strangers.

LLOYD WANER WALLOPS WAY TO SELECT CLASS BUT FRISCH IS THREATENING CLYDE BARNHART

PAUL WANER HOLDS TOP RUNG IN CONTEST OF SWATSMITHS; ROOT, HAINES AND GROVES ALEXANDER SHOWING HURLERS WAY

(By Associated Press)
 CHICAGO, Aug. 20.—The perfect
 ball player, in the opinion of Man-
 ager Donie Bush of the Pittsburgh
 Pirates is Paul Waner and brother,
 Lloyd, emulating brother Paul,
 climbed today into the list of lead-
 ing hitters of the National league.
 Lloyd's entrance gave the Pirates
 half of the first ten hitters in the
 circuit, with the "three musketeers"
 of the Pirates set perched secure-
 ly on top. Lloyd was the first Na-

tional league to reach the century
 mark in runs reaching 100 on Wed-
 nesday.
 Frankie Frisch is making another
 threat at third place, being only
 two points behind Clyde Barnhart,
 the lowest of the Pittsburgh trio.
 Alexander Going Strong
 The hero of last fall's world se-
 ries, Grover Cleveland Alexander,
 who was sold down the river by

Have You 1195 Glasses For 1927 Eyes

Few Things in Nature Are Static

The eyes, for instance, are constantly changing under the varying conditions to which they are subjected. Improper working conditions, failure to use proper precaution while reading—all, in time, may have a detrimental effect on the eyes.

Perhaps the glasses you bought in 1915 are no longer adapted to the changing condition of your eyes. With middle age comes the need for more frequent examination.

COURTHOUSE MEET

(Continued from Page 4)

program of diversification and... Lubbock which shows the future for the dairy industry on the South Plains.

Dean A. H. Leidigh told of advantages of advertising the wealth of the soil by having exhibits at district fairs and suggested that Hockley county have an agricultural exhibit at the Panhandle-South Plains Fair, September 27, 28, 29, and October 1, and at the State Fair at Dallas.

is Constructive Step Judge Homer L. Pharr pointed to the building of the court house as a constructive step for the future in the form of insurance against crime and misadventure.

The building of the court house is only one of a number of development programs that are under way at Levelland. A water system is being installed and pipes are being laid at this time to take and distribute water from a 75,000 gallon storage reservoir just completed.

Arthur Weddle, Lubbock, employee of the Hawley and Roberts engineering firm, who has been supervising the laying of the water mains of 8, 6, and 2 inch pipe announced Saturday that the work is progressing rapidly. A sewerage system is also being installed. A high line is under construction from Littlefield. Plans are now under way for the building of a golf course of nine holes. A \$7,500 fire truck was purchased last month and a modern building has been erected to house it.

Postal Receipts Grow The postoffice was established in 1922 and each year since the receipts have increased from two hundred to the hundred per cent over the preceding year. The first six months of 1927 shows an increase of 215 per cent over the first half year of 1926. J. Thomman, postmaster stated yesterday.

Levelland got on the map in the early spring of 1925 when work started on the branch line west from Lubbock. In August 1925 the city with about 250 inhabitants staged a gigantic celebration, with the cattle being out even with the city limits, which brought in over

Plats are now available and may be obtained from E. W. Province, secretary Texas Technological college, Lubbock, Texas, or from Wyatt C. Hedrick, Inc., Architects, of Fort Worth, Texas, for a Practice House to cost \$25,000.00, a Temporary Agricultural Building to cost \$10,000.00, a Green House to cost \$7,500.00, an Engineering Building to cost \$240,000.00. Bids for same to be received at and upon the agreed date between the Board of Regents, information as to the exact date to be furnished at the time plans are delivered to applicant through the Secretary of the college, E. W. Province, or the Architects, Wyatt C. Hedrick, Inc. A deposit of \$50 will be required for the safe return of plans.

A certified check of 5 per cent of bid will be required on the general work and 5 per cent on the mechanical work will be required with each bid.

(Signed) WYATT C. HEDRICK, INC. ARCHITECTS Fort Worth, Texas. By Order of Board of Regents, E. W. Province, secretary.

CITATION BY PUBLICATION THE STATE OF TEXAS, To the Sheriff or any Constable of Lubbock County, Greeting:

You are hereby commanded to summon E. S. Williams by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the 99th District Court of Lubbock County, to be held at the court house thereof, in Lubbock, Texas, on the 1st Monday in September, A. D. 1927, the same being the 5th day of September, A. D. 1927, then and there to answer a petition filed in said court on the 2nd day of September, A. D. 1927, then and there to answer a petition filed in said court on the 2nd day of March, A. D. 1927, in a suit, numbered on the docket of said court as No. 2847, wherein C. E. Singer, is plaintiff, and J. O. Smith, George C. Wolffarth, C. A. Pierce, Elvis Jones and E. S. Williams, are defendants, and said petition alleging:

This being said four promissory notes for the sum of \$287.64 each, dated March 24, 1925, secured by all that certain tract or parcel of land lying and being situated in Cochran county, Texas, being tract No. 26 of C. A. Pierce's subdivision No. 2, of Dick Slaughter's land containing 14.29 acres, said premises was later conveyed to the following parties, to-wit: April 22, 1925, J. O. Smith conveyed said land to Elvis Jones, September 10, 1925, Elvis Jones conveyed said land to E. S. Williams, that George C. Wolffarth transferred said notes and lien to C. A. Pierce and George C. Wolffarth and C. A. Pierce engaged said notes with recourse, whom are liable unto plaintiff for the payment of the same, and that the four notes held by plaintiff are inferior and subject to a note for the sum of \$1906.67, executed by C. A. Pierce, payable to E. Dick Slaughter, dated January 4, 1924. That said notes are due and unpaid.

Wherefore plaintiff prays for judgment for his debt, damages interest, attorneys fees, and for foreclosure of his lien on the above described land.

Merita fall not, and have you before said court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Lubbock, Texas, this 20th day of April, A. D. 1927.

Flora Green, Clerk. District Court, Lubbock County, by Olive Fluke, Deputy.

5,000 people. Later in December 1925 the first train service was operated and regular daily service has been maintained since. During the summer of 1926 a second celebration was held and 10,000 people passed through a counting gate to obtain a part of the barbecue offered the visitors.

Growth is Rapid The growth of the city and the increase number of farms in the surrounding territory is shown by a short of the population compiled by Judge Frank B. Potter, secretary of the Levelland Chamber of Commerce. The figures follow:

Table with 2 columns: Year, Population of county, Population of city. Rows for 1921, 1922, 1923, 1924, 1925, 1926, 1927.

More Farming Land In 1926 the county had 18 farms with 2,235 acres in cultivation. In 1925 they had 279 farms with 32,852 acres in cultivation. Today they have about 750 farms with over

120,000 acres in cultivation and still have over 435,000 - acres awaiting the plow.

The soil of Hockley county is of the richest type to be found on the Plains. Last year they produced 32,900 bales of cotton as compared with none in 1923 and with 2,123 bales in 1924. They now have 11 gins in the county, four being in Levelland.

Corn, grain sorghums, vegetables, melons, and other crops grow well there and the dairy and swine industries are getting off to a good start.

SACCO VANZETTI

ed to get to Chatham as soon as possible in order to present his case the first thing in the morning. He will be accompanied on the 90 mile automobile ride down the cape tonight by three other members of the defense staff, John Schuman, Richard C. Everts and Arthur Barnhart.

TRUSTEE MEETING

(Continued from Page One) district to be known as Hurlwood Common District No. 18 at the town of Hurlwood, west of Lubbock. Notes and bonds specified. The following trustees were ap-

respite which ten days ago saved them from the electric chair, with no apparent modification of their extreme views toward life, death and religion.

For nearly an hour today Vanzetti sat on a bench outside the steel barred door of his cell and talked with his sister whom he had not seen for 19 years. The sister, Miss Lucia Vanzetti, arrived in America yesterday with the announced hope of trying to induce her brother, a professed atheist, to return to the childhood faith to which she had adhered. They conversed in their native tongue, Italian, but beyond the normal exchange of news of themselves and their relatives and friends little of what was discussed was disclosed.

NOTED PIANIST DEAD

CHICAGO, Aug. 20 (AP)—Fannie Bloomfield Ziesler, noted pianist, died here tonight after an illness of ten months from heart disease.

pointed for Hurlwood: H. Stiles, A. F. Ham, and G. K. Horton.

"That we hereby order that the county superintendent hold a five-day institute at the college, and that pay shall be allowed each contractual teacher as per his contract for the number of days his certificate of attendance card shows."

From the office of County Superintendent W. M. Pevhouse.

FOUR PERFECT BRIDGE SUITS DEALT AT LLANO

AUSTIN, Aug. 20 (AP)—Four perfect suits were dealt in a bridge game of the Llano Bridge club, a special dispatch to the Austin American-Statesman said today. The probability of four perfect hands at one deal is one in 14,478, 014,067,800, according to Frank D. Crosey, mathematics professor of the college of Marshall. It is estimated in playing 100 rounds a day, the deal would be repeated in a little over 326,000,000 years.

LAST HOURS PASSING

CHARLESTOWN STATE PRISON, BOSTON, Aug. 20 (AP)—Nicola Sacco and Bartolomeo Vanzetti, from their cells in the prison here, tonight faced the last forty-eight hours of life before the end of the

LUBBOCK, TEXAS, SUNDAY, AUGUST 21, 1927

MEANS "BY ASSOCIATED PRESS"

OFFICIALS SHOW WHY 1927 FAIR WILL BE BEST

DEPARTMENT SUPERINTENDENTS ARE BUSY WITH ARRANGEMENTS TO ASSURE GREAT EXPOSITION

MERCHANTS HAVE TAKEN BOOTHS IN BUILDING TO DISPLAY INDUSTRIAL ADVANCEMENT AND WILL START THEIR WORK VERY SOON

For this year the best livestock cultural, poultry, home and manufactured products of the West adjoining sections have been selected, all of which will offer national opportunities of exhibition to those who would abreast with this progressive "show window of the Plains" a recent announcement of the fair directors has been made and at the same time announced the best have been secured for the fourteenth annual Plains-South Plains Fair, Saturday and Sunday, August 25, 26, and 27, at the fair grounds near the intersection of the fair the title of "show window of the Plains" the thousands of visitors who pass through gates September 25, 26, and 27, will be a visual picture of the conditions and the products of the West.

In the industrial building which has been allotted and Lubbock merchants and business firms will be in the near future to getting their booths in shape to display in a most interesting manner the particular products they sell. The machinery shops and implements exhibited will be an amplement dealers Lubbock.

D. F. Eaton is busy in line comes the Agricultural department and D. F. Eaton, superintendent, stated Saturday prospects point to the best show that has ever been assembled in West Texas. Crops on the Plains which got a late start in late planting have grown up and are in the best of conditions. The crop in the history of this section and communities have shown the agricultural building majority of these exhibits already been assured and come from the remainder of the county are expected to be in the next week. Substantial prizes are offered to the exhibitors. Two hundred dollars will be awarded to the winning county exhibit and other prizes will be awarded to the exhibitors. The winning exhibit and ten dollars will be awarded to the exhibitors. The winning exhibit and ten dollars will be awarded to the exhibitors.

Thousands of sheep have been shipped in here during the past few years and this section is becoming a good place for big sheep raisers to sell their herds. Many local people have realized a profit from shipping in sheep and feeding them out on the rich feeds raised so cheaply in this section.

The county agents and home demonstration agents over the section will have numbers of their boys and girls clubs here with exhibits of their work. D. F. Eaton, Lubbock county agent, is superintendent of the department and is expecting more entries this year than ever.

Ashley is optimistic. Aubrey Ashley, superintendent of the poultry show is optimistic over the prospects of the department. Mr. Ashley lives at Lorenzo and is also secretary of the Crosby county poultry show. Birds from all over the Plains will be brought here. Ashley states and a number of exhibitors over the Southwest will likewise be here to compete, and to show their birds to prospective buyers.

The superintendents of the women's department have been busy for several weeks getting plans worked out for this year's fair. Mrs. Roger Q. Pierce will be the general director again with Mrs. Jas. H. Goodman and Mrs. Hub Jones as assistant directors. Mrs. Woffarth is superintendent of the Textiles department again and will have all kinds of embroidery, knitting, crocheting, quilts, plain sewing, fancy sewing, old ladies work, lace work, etc. in her show cases. Mrs. J. S. Johnson, superintendent of the ordinary department, will have a number of exhibits in the show cases including bread, cakes, canned fruits and vegetables, preserves, jellies, pickles, candies, etc. The girl clubs and women's clubs of the Plains section will have their usual attractive exhibit in the building. Plants and cut flowers will give the building a fragrant and artistic effect and Mrs. W. O. Stevens is expecting her department to be filled to capacity. Mrs. Walter A. Myrick, Jr., will be superintendent of the art department. Painting of china, oil paintings, tapestry, water color painting, drawing, crafts, etc., will be entered and prizes offered for the best. Mrs. W. F. Schenck will again be superintendent of the relic, antique and curios department and expects many articles of interest.

Attractions and amusements will also be up to par including the Sunshine Shows, five football games, free acts, fireworks, and other features.

Good Show is Coming. The Sunshine Shows, one of the leading carnivals of the Southwest, will set up on mid-way with a complete circle of shows, rides, etc. Eight of the fast high school football teams will be seen in action in addition to the Tech vs. St. Edwards University game. The Blawieck Kidnies, Joe Hodgini family, and Mlle. Florence, each a separate act, will be witnessed by the crowds in the stands at the football park. Each night the Thearle Duffield Fireworks Division of the World Amusement Service association will furnish a spectacular display of high top caliber.

Prizes for everyone who attends the fair include thousands of dollars in premium money to exhibitors, a windmill offered by Axtell company for the best ten heads of milo maize; five automobiles, to visitors to the fair, and many smaller prizes that will be offered by Lubbock merchants having guessing contests, and other such drawings at their booths in the industrial building.

Attendance figure will run above the 100,000 mark, officials estimate. Dr. I. E. Barr, president, and other officers and directors of the fair are busy looking after every detail of the 1927 "Show Window of the Plains."

Biting Stuff. "American bottles," boasts a manufacturer, "are very strong." They have to be. Think of what they're putting in them.—Des Moines Register.

After all, is it any sillier for the Hawaiians to worship a volcano than it is for Americans to worship a dollar?—Detroit Free Press.

ALTO NHUTSON IS LEAVING tomorrow for Austin where he will remain for the coming school year of the University of Texas.

G. O. REEVES AND DEAN A. H. Leligh, of the Tech, were among the Lubbock visitors to attend the Levelland celebration yesterday.

Former Spy Held

Carl Elice, held under the name of Dr. Ernest Fleming for practicing medicine without a license in Detroit, says he performed more than 20 successful major operations during the last seven months. He says he served as a French spy in Germany during the war.

LUBBOCK GUARD AND BAND WILL BE HOME TODAY

TECH MUSICIANS BEST AT CAMP, GENERAL HINDS DECIDES

(Special To The Avalanche-Journal.) CAMP PALACIOS, Aug. 20.—Battery C, 151st Field Artillery, Texas National Guard, commanded by Capt. Harold H. Griffith, broke camp here yesterday, and after two weeks intensive drill, will arrive in Lubbock Sunday morning. On the same train will be the regimental band, composed of members of the Texas Tech concert band, which under the direction of Prof. Harry LeMair, has literally "covered itself with glory" during the encampment, being adjudged the best of five bands at the camp.

According to a statement made by General Ernest Hinds, Eighth Corps area commander, the camp just closing has been the most successful in the area's history. More than 6,500 guardsmen attended.

The band from Lubbock was adjudged the best at the camp by General Hinds and other high officers. It has taken part in all division reviews and has played both for General Hinds and Governor Dan Moody, commander-in-chief of the Texas National Guard.

John D. and Chamberlin

John D. Fockler and Clarence D. Chamberlin, New York-to-Germany flier, meeting for the first time at the 19th charter anniversary celebration at Owego, N. Y., Rockefeller's birthplace.

IRRIGATION OF SMALL TRACTS GIVES NEW AGRICULTURAL SUCCESS TO MEN IN FLOYD COUNTY; LOCKNEY PLEAS

LOCKNEY, Aug. 20.—Judging from reports of success along poultry raising, dairying, hog raising, and other similar achievements, Floyd county will soon be the mecca of farmers from all parts of the United States. However, there is still another industry that is not so much advertised, but shows even a greater profit than those above mentioned.

That industry is best illustrated on the farm of L. P. Cox, 9 miles west of Lockney, in the shallow water belt. Mr. Cox has a three-fourth acre of land upon which he has a vineyard that averages netting him \$400 per year. This vineyard is watered by two small wells pumped by use of a walking beam operated by a 3 horse power gasoline motor. Cox states that there is very little expense attached to this pumping plant and that the land upon which his vineyard is located is the best paying portion of his farm, taking into consideration the small amount of money he has invested.

Garden irrigated by Windmill. There is also a ten acre garden located 1 mile south of Lockney that is irrigated from one large windmill. Upon this plot the owner, M. S. Lusby, plants practically everything that is usually termed as garden truck. His strawberry patch is the retreat for all of the hungry people of Lockney and his garden is famous for the quality of vegetables grown there. His "ranch," as he calls it, is an illustration of the wonderful productivity of which this section is capable.

These two instances are the most starting points of a great vegetable and canning industry according to the most progressive people of the country. There is now an urgent need for a canning plant at Lockney.

Many people are of the opinion that as soon as the farmer further diversifies his crops, just that soon will a greater change take place than the one that has already placed the farmers of the Lockney section on a sound financial basis.

ELLWOOD AND ARNETT BUY HEREFORD HERD

BIG SPRING, Aug. 20.—Shortage of grass and failure of rains to appear caused W. B. Currie to sell his herd of Hereford cattle, one of the finest herds in West Texas.

Mr. Currie sold to Ellwood and Arnett, receiving \$35 for cows, \$20 for dry cattle and \$100 around for six years registered Hereford bulls. The cattle were taken to the Ellwood and Arnett ranch near Lubbock.

FACULTY IS SELECTED FOR BIG SPRING SCHOOL

BIG SPRING, Aug. 20.—According to P. B. Riddle, superintendent of the Big Spring schools, the faculty has been selected, having elected 23 teachers for the 1927-1928 session.

The term will open September 12 unless there is an unexpected delay on the finishing of the school building that is being remodelled. Recently a \$25,000 bond issue was voted for library, prints, and equipment on this building.

OKLAHOMA IS TESTED

OAKLAND, Aug. 20 (P)—Tests were conducted today at the Oakland airport to determine the trouble which forced the "Oklahoma" to return after its start in the Doherty race from Oakland to Honolulu Tuesday. The engine in the Oklahoma was vastly overheated and a piston was "seized" when it returned after its short dash over the ocean Tuesday.

FRUIT GROWERS BORROW BEES

DETROIT.—Bee borrowing is quite the thing in the Michigan fruit belt. Orchardists get the bees from beekeepers to help in pollinating fruit.

COW IS RECORD MOTHER

CRITTENDEN, Ky.—W. D. Deaman is the owner of a cow which holds the record of being the mother of three pairs of twin calves, all born within 25 months.

Livestock to Be Better

The livestock show will be a big event over any previous one and will rival the best in the country. Ray C. Mowery, superintendent, says the Plains people are beginning to take more interest in the kinds of livestock and big animals and livestock raisers over the Southwest are looking to the "show window of the Plains" as an advertising medium to effect in this section.

L. Stangl, superintendent of the beef cattle division, has a number of herds already signed up to exhibit. Among these is the Gist herd of Merkel, the Gist herd of Owsens and others. Lubbock county club boys will come with around 30 head of baby calves that they have been feeding during the past several months.

Medlock is Working. The dairy industry is on the increase as is evidenced by the establishment in the past few weeks of two new creameries here. J. A. Medlock is superintendent of this section and is expecting a number of big class dairy stock. Among the big breeders that will have herds in the Taft Ranch herd. This herd has recently sold over a carload of Jersey stock in Lubbock county and these cattle will be shipped here together with a herd of show purposes.

Dr. Y. J. Aiken, superintendent of the horses and mules division expects a number of good specimens in his department. His class stock is being used by many owners over the section and a number of these teams and individuals will be entered for the show. A number of local swine will also enter their

Pastors And Workers In Churches Are Making Annual Welcome Plans For Tech College Men And Women

Although definite plans are being shaped until after the close of the annual revival services in the city, church folk are preparing to welcome Technological college students and to look after their spiritual welfare during the year.

Student workers are employed in several churches, committees of men and women plan entertainments throughout the year and encourage church attendance. These committees work in co-operation with the Y. W. C. A., Y. M. C. A. and college authorities.

On Friday evening, September 23, most of the churches in the city will welcome students with a city-wide "open house," this event being a part of the official calendar of the college and the churches and being an annual event here.

The Christian Endeavor society and Tech students' class of the First Presbyterian church have particular custody of students of their faith and a committee from the church headed by the pastor, Rev. Jack M. Lewis, has general supervision of all activities.

Miss Virginia McLean, of Fort Worth, is to be the first of September as a special student worker and she probably will be able to know the Presbyterian students personally and assist them in becoming interested in church affairs here.

H. D. Woods is teacher of the Tech E. S. class and the pastor has assisted in the following committees in general supervisory work: Fr. Woods, Miss Jonnie McCrory, Jean J. M. Gordon, J. H. Murchison and Mrs. R. F. Cook.

Mrs. Richardson Worker, Mr. and Mrs. H. W. Richardson, who were formerly with the First Methodist church here, are to return to Lubbock by the middle of September to have charge of young people's and other activities in this church. Mrs. Richardson is to be the special student worker, taking the place of Miss Dorothy Cooper, who resigned to attend S. M. T. this year.

Marshall Rhew is president of the Methodist Student Federation, which is made up of Methodist students at the college. Mrs. W. H. Royalty is chairman of a committee in the church which supervises all work. She is assisted by Rev. W. J. Miller, Mrs. E. W. Lamb, Mrs. J. C. Granberry, and Mrs. W. G. Stevens.

Members of the Cumberland Presbyterian church are waiting until the arrival of their new pastor in September 4 before they announce any definite plans. However, President W. Groce said yesterday that it is probable that members of all Cumberland Presbyterian churches and those preferring that church will be secured from the school registration files and personal calls will be made upon all this group.

Entertainments are given at regular intervals and members of the Christian Endeavor work with other church authorities in promoting the interest of college students.

Rev. Walter P. Jennings, pastor of the First Christian church, is planning to co-operate with the Y. W. C. A. and Y. M. C. A. at the college and to secure the names of students affiliated with his church organization. The Christian Endeavor and Bible school make particular efforts to enlist the college students and it is probable that more detailed work will be done.

Semi-monthly socials in the Church of Christ, the extending of personal invitations to college students to attend church and Sunday school, the organization of a young people's class and other activities are carried on to interest college students, H. Sherrod, who has charge of this work said yesterday.

The First Baptist Student Union, headed by Lloyd Russell, and J. W. Mason, student workers, have in charge of college activities in that church. In addition to the regular open-house, a church-wide picnic is being planned for some time soon after the college opens and it is expected that probably 1,000 students and church members will attend.

Following a plan inaugurated last year, church "Dads" and "Mothers" are found for Baptist students. That is, each student is given a "home." He considers a man and woman in the church as his parents for the year and he has the privilege to go there at any time and receive a welcome as though it were his own home.

Velvet For Evening, Cute Clothes For Sport, Is Edict Of Dictators

Tortoise shell effect is achieved by yellow stitching on brown velvet.

Also I felt the need of another chapeau, after I saw a velvet model in one of the shops here. It is of perfect. And how would you enjoy it? There are more attractive men than I have seen gathered in one spot. Being so close to Spain, we have many number of romantic looking, graceful Spaniards—and how they can dance!

I have lost my heart a dozen times, until I no longer attempt to keep any track of it or take any steps toward recovering it. Possibly before I go home I will find I have been somewhere, casually waiting to go back home with me—or I may have to go back without it.

It is well that I stocked up with dancing frocks before I left, for I am wearing them to shreds. I have had to replenish a bit here. My first purchase was a cunning hat and black tulle in a very delicious shade of yellow. The coat is bound with white flannel and has silly little self-appealing on the pockets.

On the front of my hat is a golfer just about to start a tepee. While this would be too absurd in Paris, it is quite conservative here. I wear it with a white tulle top to which she and the senator are constantly hidden.

Decorating is a hobby of Mrs. Borah's too. Her apartment is furnished in Chinese style and is gay with singing birds, which fly uncaged about the rooms.

The Longworths would be the only chief executive family to bring a small child to the White House. Baby Paulina will be four at the time of the 1929 inauguration.

The Davos have two adopted children, David, 15 and Virginia, 13. The Lovden children are young men and women of 20, 29, 26 and 23. The Hoover boys are married; the Bombs have no children, and the two Johnson boys are grown and away from home.

These six possible first ladies might be classified thus—Alice Roosevelt Longworth, the youngest, the neatest, the most politically minded.

Mrs. Lowden the most cosmopolitan. Mrs. Johnson the most modest and retiring. Mrs. Hoover the sweetest. Mrs. Hoover the most intelligent, the leader type.

Mrs. Borah the best company, the wittiest and the best friend of the newspaper girls.

With thinner materials, such as chiffon and georgette, brilliants rather than silver are used. Taffeta and net are also a smart combination, usually with the net forming a wide hem on the gown, and an intricate yoke effect on the blouse.

White sleeves are undoubtedly the general wear, but the close, voluminous ones on gowns as well as coats. Before I left Paris I saw chic wool coats with marvelous fur sleeves. Sleeves of heavily embroidered or beaded chiffon are also in evidence.

While I think nothing is smarter for general wear than the close, long perfectly fitting plain sleeve for afternoon, I do like the picturesque flowing sleeve. Certainly this is the ideal model for the larger size which is so emphasized in a tight sleeve. Smart sport coats have sleeves entirely formed of cross tucking, while the rest of the coat is plain.

Lovely Sheer Velvets Of course I can't say enough in praise of the new sheer velvets that are bound to be the rage this winter. In pastel colors, for evening they take the most lovely frocks imaginable, and have that subtle high light that no other fabric ever achieves.

I saw a Spanish woman with the typical flashing eyes and deep olive skin, in a simple draped model of American beauty red velvet that made every other woman in the room look drab and washed out—and you could just feel every one making a mental note to have a brilliant red frock if she had to go without a fur coat to get it.

More anon, my dear, and all my love. GERMAINE

Queen Marie wants to attend an American political convention. If the Republicans can't decide between Hoover and Dawes and Lowden, they might draft Marie as a dark horse.

At the smart affairs here one sees much black and silver, which leads me to suspect one should start the winter season with a black taffeta evening gown, garnished with much silver. Lanvin had lovely picture frocks this season in that combination.

Black and Silver At the smart affairs here one sees much black and silver, which leads me to suspect one should start the winter season with a black taffeta evening gown, garnished with much silver. Lanvin had lovely picture frocks this season in that combination.

Reverence Of Lubbock Women Shown In Group Prayer Meetings Being Held In All Parts Of This City Now

Believing that Bible passage to the effect that the gathering together of two or three in God's name will not go unheeded, women of Lubbock are quietly meeting for half-hour prayer sessions twice each week in every portion of Lubbock during the Hoeg union revival in the city.

Throughout the year, Monday is church day and at churches and in home there are prayer and study meetings where women go to learn more of the church work and to pray for the furtherance of Christianity.

These meetings are continuing and now, while the county-wide revival is in progress, additional efforts are being made. Forgetful of church affiliations and differences of doctrines, the women come to pray and sing praises together in the common cause of Christianity. Each Tuesday and Friday afternoons from 4:30 until 5 o'clock is the time set for meetings and

150- to 175 women have been gathering in sixteen groups each time. Young Women Pray In addition to these, there is a young women's prayer circle composed of girls of high school and college age who gather in a prayer and singing circle.

Mrs. J. F. Hankins, 2507 Broadway, is general chairman of the prayer meetings with a chairman in each of four districts. Mrs. J. S. Johnson, 2002 Broadway, is chairman of the northeast district of town; Mrs. M. Green, 1115 17th street, is chairman of the southeast; Mrs. Harry Hall, 2118 15th street, is chairman of the southwest section, Broadway and Avenue Q divide the districts and four prayer meetings are held in each district each time.

A committee, composed of one woman from each church participating in the revival was appointed. Mrs. Hankins was named chairman, the section leaders were chosen and the committee was dismissed.

Plan for Coming Meet A place of meeting and leader is chosen each time the prayer circles meet and these are announced before the time for the next gathering.

The results of these prayer meetings may not be always visible but they undoubtedly do good. Mrs. Hankins and other women in the city believe, and without ostentation about their gatherings, the women meet for ardent prayer and whole-souled singing of gospel hymns for 30 minutes at a time.

As a result of the congressional quiz, the wets still want a drink and the dries won't let them have it. This is the way these queries usually result.—Los Angeles Times.

Perhaps, as Briand says, Mussolini is not a peace disturber. He may be just a peace-maker.—Indianapolis News.

WE INVITE YOU to come in and see our new Fall line of Women's and Children's Felts and combinations in all the fashionable shades. This is the time to buy school felts for the little folks. VOGUE EMPORIUM 3rd Floor Barrier Bros.

Beauty of Design Such richness and artistry is rarely portrayed as in these exquisitely wrought Genuine Traub Orange Blossom Rings. They embody distinctness, grace and a wealth of delightful sentiment. In value, they are unequalled, incomparable in workmanship, quality and style—the proper rings for the occasion. Let us help you in your selection. Anderson Bros. JEWELERS Traub Orange Blossom THE BIGGEST THE BEST IN THE WEST

LAUNDRY "And to Think I Used to Do My Own Washing" ONE of our customers said that after the second time we returned her clothes to her just as clean as she could launder them herself. "I used to dread washday, I worked hard on washday, and I was worn out after washday. Three unpleasant days, I can't understand why I didn't call you sooner." You'll eventually realize the economy of calling us in. So why be burdened with future washdays? Just call 305—NOW!

More Scientifically Constructed Humphrey Radiantfire Gas Heaters We feel highly pleased over the fact that we are in a position to serve Lubbock homes with HUMPHREY RADIANTFIRE GAS HEATERS, for in construction, finish and operation they are nationally recognized as the best. Humphrey Radiantfire burners use ALL of the fuel, none of it escaping to cause obnoxious fumes and waste. It is positively odorless, economical and simple to operate. It is the best we could buy and no other can surpass it in any manner. MYRICK HARDWARE COMPANY 1212 Texas Ave Phone 127

STREET BAPTIST CHURCH
 Rev. W. A. Todd, Pastor
 The inside finish of our church is well on its way and we had a fine congregation last Sunday and was happy to have an addition to our church. The Bible class was the largest ever had. It would not be much effort to make it the Bible class in Lubbock. This and the T. E. L. class will meet at 9:45 in the building to the left of the church.
 Sunday school at 9:45. Teaching by the pastor at 11:00 and 2:00 p. m.
 P. U. at 7:00 p. m.
 We are several who have need to unite with this church. We desire that they make a full effort to be present Sunday.

FIRST CHRISTIAN CHURCH
 16th Street and Ave J
 City is now experiencing one of its greatest spiritual and religious revivals. Dr. Will and his evangelistic team are preachers in their respective lines. Brother Hogg is a man of and a great preacher. Now we want to go to the church of choice this morning to worship and if you are not a church member then you should make the confession and line up with the church and if you are a member but have not as yet placed your membership then why not do so today.

Bible School begins at 9:45 with Harold H. Grier as instructor. The pastor will have for his sermon Theme at 11: "Hear Ye Him."
 Intermediate Endeavor will meet at 6 p. m. The Endeavors at 6:45 p. m. At 7:00 we will attend the services at the tabernacle. At that hour Brother Grier will have for his sermon "The Crucifixion—you will want to hear him. We extend a cordial and cordial invitation to services. We were glad when they said unto

this church Sunday morning and direct the music and sing one of his very impressive solos.
 Sunday school meets at 9:30 with departments and classes for every one. A most hearty welcome awaits you in the class of your choice. All B. Y. P. U.'s meet at seven p. m. Interesting program will be rendered in each service. There is a B. Y. P. U. for each age group, and you are welcome.

EPISCOPAL CHURCH SERVICES
 St. Paul's on the Plains—Ave O and 15th Street. Rev. Luther G. H. Williams, Rector. Rectory, 1502 Ave O. Phone 1488-J.
 Holy Communion—8 a. m. Sunday School—9:45
 Morning service and sermon—11 a. m. Woman's Auxiliary—Mondays 2:30 p. m.
 Organ music—Short sermon. A cordial welcome.

THE ROADRUNNER BOOKSHOP
 1109 College Avenue and THE GREEN LANTERN SHOP
 Hotel Lubbock have BOOKS FOR SALE AND RENT

FIRST PRESBYTERIAN CHURCH
 Corner Fourteenth and N
 Rev. J. M. Lewis, Pastor
 We urge your attendance at the church of your choice today. Every church should be filled.
 Sunday school begins promptly at 9:30. Dean Gordon of the college is superintendent.
 Morning worship at 11:00. The pastor will bring a message appropriate to the occasion and Mrs. Preston Childers of Temple will sing a special solo number. This should be a fine service. Those desiring to unite with the church should be present for this service. Do not put this matter off.

This congregation will join in the tabernacle services for the remainder of the day.
FIRST BAPTIST CHURCH
 Main and Ave N
 The pastor, Rev. W. A. Bowen, will have as his subject for the morning service, "The 'Thankless Nine'." This promises to be a most interesting sermon, and you will do well to hear it. Brother Goodpasture, the music director for the tabernacle meeting will worship in

COTTON GOODS ACTIVE
 NEW YORK, Aug. 29 (AP)—The gray goods market was exceptionally active for Saturday. Large sales were made. Various lower prices were withdrawn and advances were paid on a few contracts. The buying market was fairly active, sales of spots and floats going through at advances. Calcutta cables reported the bazaar unchanged to slightly firmer. The Yokohama raw silk market was quiet after the remarkable 50 per cent advance of the previous day. A 10 per cent recession failed to affect prices here.

The old-fashioned Tom-boy who used to do everything the boys did is now replaced by the flapper

The Length of a Merchant's Career

is measured by the satisfaction he renders

More often than not, the underlying cause for business failures can be traced to the lack of the merchant seeing that every transaction not ends merely with getting the customer's money. To be successful a merchant MUST render service sufficient to cause each customer to feel that for every dollar he has spent, he has been given value received.

It is a cardinal principle upon which every business must be based, or the life of that business will be short. It is a principle that enters into every transaction in which this organization figures.

Twenty-two years ago the first Rix store was opened and in that length of time, two more have been established. Each member of every organization in each unit has this principle of service so indelibly impressed upon his mind, that Rix stores have prospered in the communities in which they are located, more than three times as long as statistics estimate that a merchant's career endures.

And in every purchase no matter how small it may be, the element of serving you satisfactorily enters into it far more than the mere factor of securing the dollars involved in the transaction.

Recent July Market Purchases Are on the Way

Purchases made at the recent July Market are on the way, and in just a few days those who are contemplating Fall Furniture purchases may select from an assortment that for quality beauty, value and completeness cannot be excelled on the South Plains. Every piece of this furniture comes direct from the manufacturers, which means that price concessions are greater than if the purchases were made through a jobber, and these savings are passed on to our patrons.

Being Major Of Literature Is Hard Major Hoople Defends Monkey Stand

BY MAJOR HOOPLE MCORKLE
Avalanche-Journal Philosopher

We have been told that being president of the United States is a full time man's job—that a good president is under a mental strain from the time he takes the oath of office until he walks out a free man. Yet almost any of us would be willing to bear the strain, even if it cost us our life, if we could only be elected. And—

Being a major is no joke. We know for we have tried it. Of course we are not one of these war-time majors with shoulder straps, for if we were we wouldn't shoot our way out. We are just a kind of literary major, and so far as we are personally concerned a literary major is about the lowest type of the species. All we command is a typewriter, and there are times when we feel that it almost commands us. If we write a lot of sob stuff people will cry and cuss, and if we write facts they will howl their heads off and scream "Har! Har!"

Evolution Started It
We have written a little about most everything and everybody from country costables to poultry pickers, and as a rule we get by with it. However, last Sunday when we made an effort to explode the evolution bubble we brewed up more trouble than three majors and a colonel could handle. Some people have phoned us—others have given us common, ordinary, "street cussings," while a few have used Uncle Sam's mail.

It sounds serious, though we doubt if it is. However, there have been times during the past week when we have felt more or less like a monkey. We are not willing to admit any blood lines, though, and still insist that the book of Genesis is just as authentic as Luke or John, science notwithstanding. We are one of the rank and file fundamentalists, and are as solid in our belief as the Rock of Gibraltar.

One John D. whose surname is Richards, insists that he is not surprised at our belief after looking at our "mug" one time. He thinks we are capable of believing almost anything. He also asks for a later photo and later he may see it. He will probably be surprised again. His letter has a few kind words and we are thankful for them.

Turn to Simple Things
But as a matter of safety we are going to pass up religious controversies for a while and study some of the more simple things of life. Right at this time people on the South Plains are wondering how much cotton we will gather this year. They have been worrying for some weeks, but it was unnecessary for if they had merely called upon us we could have told them.

Crops this season are not so good as they were last year, but better than most people think. There is plenty cotton that will make a bale to the acre, and very little that will not make a quarter. Of course a well timed and properly displayed early freeze could work havoc, but we hope such a thing will not be realized.

The trouble with most South Plains people is they trust too much in luck and not enough in themselves. God says "He helps those that help themselves," so South Plains farmers who leave their feed in the field 11 months after it is cut, need not expect much help in keeping it light and clean for them. He gives them health and he gives them strength to cut and store it, but if the farmer doesn't think enough of the crop to do his part, he need not think God will through and sell it for him. No, sir, mister, you are expecting too much.

Plenty of Feed Raised
There was enough feed raised on the Plains last year to have lasted two years at least, yet a lot of people are buying feed this year. Of course maize heads make good fertilizer, but it is rather expensive soil a ton of maize and you can buy fertilizer and then have money to buy gasoline for the family jitney.

Speaking of cars, we wish every man in the county owned one. They are a real pleasure only when you have a puncture. Farmers in Lubbock county can work their crops and still have time to ride, and we are glad of it. Just because a fellow doesn't run a bank and live on the pavement is no good reason why he should drive an ox-cart. We think that above all other people in the world, the farmer's wife should have the means of an automobile affair. They work hard and get less for it than any other class of people under the canopy of heaven.

Of course we are not adverse to bridge club beauties driving cars. They really need them even if they don't drive but a block or two at one time, for most of them have a No. 8 foot in a No. 3 shoe and walking certainly does pain. Our feet have never bothered us much. We wear a No. 8 shoe, but a No. 9 feels so good we generally buy a No. 10. People who have corns will take notice.

planning to let his cows graze in the field.
No doubt, he is getting scared too quickly, for most farmers do. If he thinks he had a bale-to-the-acre crop in July, and a nothing-to-the-acre crop now, the chances are he will gather about a quarter of a bale to the acre. A South Plains farmer told us last year that he knew his cotton crop would fall—that it would not be worth picking. He got scared and went to East Texas and allowed his landlord to gather his crop. The landlord released him, marked all his bills paid and waited until fall when he gathered 84 bales of cotton off of 100 acres. Said renter is now "flunking" around the Electra oil field. Had he stayed on the job last fall he would have made enough to have made a good payment on the farm he was working.

However, we do not wish to bore you so we will quit until next Sunday, if, by that time, the lost flyers have not been found we will see what we can do about it.

P. S. We are still against evolution.

**HOGG PLANNING
LEGION LECTURE**
DATE AND PLACE WILL BE
DECIDED AT MEETING
OF POST MONDAY

At the request of Dr. Will Hogg, evangelist in-charge of the union revival campaign now being carried on here, it was announced that the humorous lecture promised by Dr. Hogg on behalf of the local post of the American Legion, will now be held until some time toward the middle of September, although no definite action had been taken on the matter Saturday.

Dr. Hogg, in his remarks regarding the lecture, said Friday night that he preferred to give it following the close of a meeting which is to be conducted at Vernon beginning one week after close of the campaign here, in order that he might have a few days with his family between the two campaigns, but said further that if Legion members here insist, he will remain here after the close of the meeting for the lecture.

Legion Meets Monday
The Legion post is to meet in regular session here Monday evening, and the matter will be discussed. Post officials said Saturday, but the meeting is to begin at 7 o'clock, shortly before the services at the tabernacle. It is urged that everyone be on time at 7 o'clock promptly.

An effort will be made to have Dr. Hogg at the Legion session for a few minutes but due to the strain of the campaign, it was not definitely known whether or not he will attend. Having been severely wounded overseas during the war, and having suffered two strokes of paralysis in the interim, his physical strength is limited.

Lecture is Humorous
The lecture will be of a humorous nature, spelling experiences of American soldiers in France, and according to those who have heard Reverend Hogg in a humorous vein will be well worth while. The program is being sponsored by the Legion here, and funds derived will be devoted to construction of a permanent Legion home in the city. Reverend Hogg is donating his services for the cause, he told Friday night audience.

FEATURING BLACK

—IN—
FALL FROCKS

A Size For Every One—A Price To Suit
Mrs. Grollman has been in New York several weeks personally selecting our Fall and Winter dress stock. Familiarity with the New York market and a knowledge of styles makes her trip there of unusual interest to every woman on the South Plains.

There Is Very Little Value When Style Is Sacrificed!

The first consideration given to the purchase of Dresses is STYLE—the second, QUALITY—the third—and a most important one—is PRICE! Heavy purchasing, a knowledge of practices and markets—makes possible the securing of best styles combining highest quality with modest cost.

Such results now in the new showing of Fall frocks—in which the BLACKS stand out as the most popular of the new season. Never was Black so popular—never so beautiful.

LUBBOCK, TEXAS, SUNDAY, AUGUST 21, 1927

MEANS "BY ASSOCIATED PRESS"

OUTH PLAINS PROGRESSING IN EYES OF NATION

RICULTURE ADVANCES WHILE MORE STRESS IS BEING LAID ON CHANCES FOR MODERN INDUSTRIAL EXPANSION

South Plains of Texas, possibly, if not in fact already, one of the nation's leading units from an agricultural and manufacturing standpoint, holds this title to a large degree held in its own right in the nation's financial structure.

Agriculturally, this part of the state already is recognized as one of the leaders, despite its meagreness in this line of endeavor. It is of but very recent years that the plow and the cow have been program have displaced in places where once the bull-finance cow held sway. This state is gradually being intensified, and farmers are fast coming to realize that in this way can obtain independence from the same hobby.

Cotton Not Only Cries

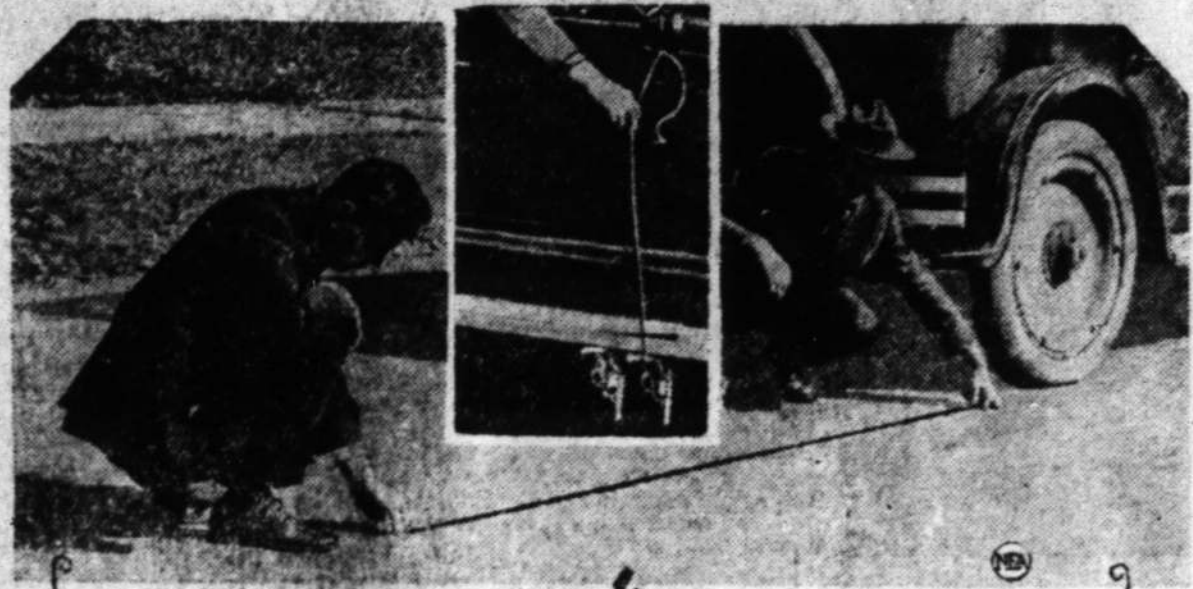

Attention, practically everywhere on the Plains 12 years ago, now is on the principal crops, but through insistence of agricultural leaders and bankers, together with the realization of the dilemma now facing other purely cotton producing sections of the country, a program of diversification has been instituted eventually after the year 1910 is reached, will bring independence to every section on the Plains.

It is a well known and an established fact that the soil on the Plains is of such nature that all the known products will be abundantly, and at a much cost than a majority of sections in agricultural sections.

Factory Field Is Opened

The main reason for concentration of industries, the Plains offers a field of opportunity unrivaled.

How Fast Do Your Wits Work When You Drive The Car? You're A Good Driver If You React In Half Of A Second

The distance between the two spots as measured by the scientists here is the time it takes a driver to apply his brakes after he hears the warning shot. Inset shows how the two pistons are attached, one worked by the passenger scientist, the other, from the brake pedal.

By NEA Service

WASHINGTON, Aug. 20.—What is your reaction time?

In other words, how long does it take you to think about stopping before you begin to apply the brakes of your car? Science is trying to find out.

Your reaction time and that of the other driver may mean the difference between saying it with flowers and continuing the trip between life and death.

Recently Uncle Sam's Bureau of Standards, where scientists make it their business to get the answers to questions about important questions, equipped a car with two revolvers attached to the running board. The firing of the guns told just how long it takes most people to begin to think about stopping.

Measure Between Marks

By a unique method one revolver is discharged to signal the driver that he must stop the car as soon as possible. This shot leaves a mark on the highway as the car speeds along. The second revolver is connected with the brakes. As soon as the driver applies the brakes, it too, leaves a red mark on the pavement.

Next the scientists measure the distance between these two marks.

Olds Motors Are Undergoing Huge Expansion Drive

Three millions of dollars will be spent in an expansion program of the Olds Motor Works at the company's plant in Lansing, Michigan. Ernest Conley, manager of the Lubbock Oldsmobile company, has been advised.

The Olds plant at Lansing, a part of General Motors corporation, will be doubled in the expansion program and an increase in the production of Oldsmobiles will result, Mr. Conley has learned.

LUBBOCK COUNTY SCHOOLS, ALREADY ABOVE STATE AVERAGE, ARE TO HAVE HIGH STANDING SOON, IS INDICATED

With Lubbock county's staff of teachers employed, the present rating of schools here averages approximately 25 per cent higher than the state figure as a whole, and with a highly competent staff contracted for this percentage may be still further increased during the coming year, according to W. M. Paynehouse, county superintendent of public instruction.

There are 23 rural and 13 independent schools in the county because of the better class of buildings of which Lubbock county's are modern brick structures, better equipped and better qualified teachers, schools of this county are recognized over a wide area for their superiority. These improvements have been made possible through citizens here accepting the highest possible school tax rate.

Work Is Authorized

City schools of the county accept work done in the county schools up through the tenth grade, and authorize credits on the first three years' work if the student makes an average of above eighty in his last year's work.

Ninety per cent of the teachers in the county schools have had college work and a third of them have taken college work during the past year, mostly at Tech college.

More and more a tendency on the part of school trustees to require musical and voice training and other features which will enable the teachers to take a leading part in social leadership of the community where they teach is being observed in employing staffs for the different schools, it was stated.

List Is Announced

The following list of teachers have been announced:

Slide, J. C. Turney and Mrs. Pauline Smith.

Center, J. W. Kolb and wife, and Miss Deas Houston.

Union, B. A. Myers, Miss Willie Tedford and Miss Gladys Bryant.

Grovesville, O. C. Horne, Misses Dovie Brown and Louise Younger.

Bledsoe, R. F. Lewis, Otis Ellis and wife, Mrs. Gilmore and Miss Buena White.

Caldwell, C. B. Bentley, Misses Lou and Nannie Crouch.

Barton, Miss Katherine Alexander and Miss Ruby Wilkerson.

Lindsey, Miss Gladys Porter.

Liberty, J. B. Leverett and wife and Miss Carolla Hettler.

Monroe, Floyd Blankenship and wife, Miss Cleo Cowan, Miss Leta Mae Blankenship and Miss Evelyn Sowell.

Canyon, A. M. Ammons and Glenn Burgess.

Wolfarth, Mr. and Mrs. Stevens, Miss Covington and Mrs. Otto Shinn.

McClung, J. W. Turner and wife.

Announcing the Illustrious NEW CHRYSLER 72

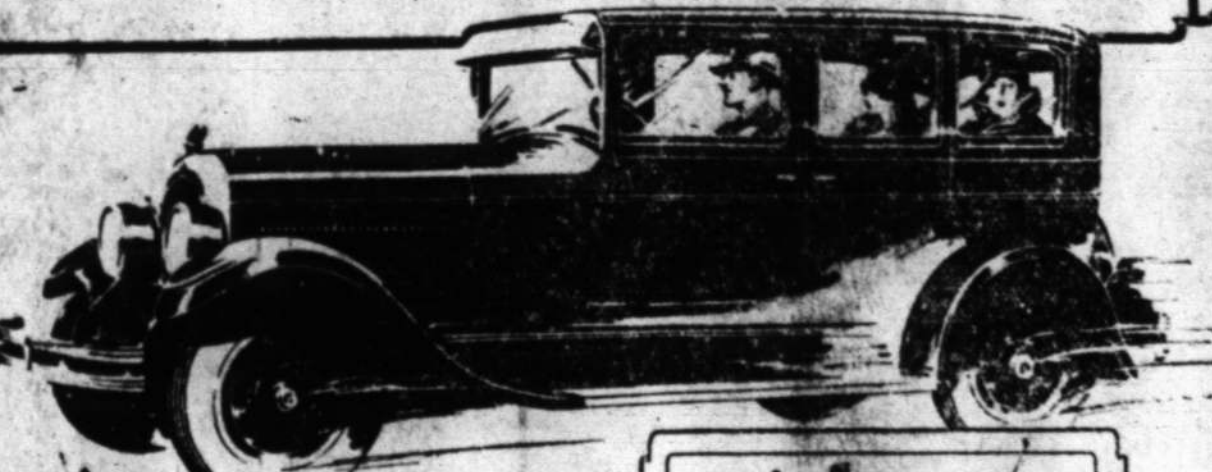

A Statement from Walter P. Chrysler:

In announcing the Illustrious New Chrysler "72" we are confident that our latest product is as great an advance over today's fine cars as was the famous "70" over the best of four years ago.

The New "72" is ultra modern — again setting new standards, establishing new results for the industry to follow. The New Chrysler "72" with the Great, New "62", the New "52" and the magnificent Imperial "80" — are Chrysler's covenant of faith with the public which has so generously demonstrated its faith in us.

W.P. Chrysler

1495
\$1745, f. o. b. Detroit

Longer, Roomier, Faster, Handsomer

The Illustrious New Chrysler "72" — longer, roomier, faster and handsomer — but that tells only a touch of the "72" story.

For the first time, in a car costing less than \$2000, the New "72" gives an engine of 75 horsepower, with counterweighted 7-bearing crankshaft and rubber engine mountings to wipe out every last vestige of vibration.

It gives you speed of 72 and more miles an hour, pick-up of 5 to 25 miles in 7 seconds, hill-climbing ability that sweeps you up even mountain grades at constant acceleration.

It gives you rubber shock insulators, pioneered with such great success in the Chrysler Imperial

"Red-Head" Sets Chrysler Performance Farther Ahead

For those who seek more performance — speed, pick-up, hill-climbing ability, going beyond even the qualities of its standard class — Chrysler furnishes its new "Red-Head" high compression engine. The New Chrysler "Red-Head" will be regular equipment on the Illustrious New Chrysler "72" Roadster, giving even greater speed and acceleration than the standard engine. It is also available for all other "72" body models.

Illustrious New Chrysler "72" prices — Eight body styles, \$1495 and upwards, f. o. b. Detroit. Chrysler dealers are in position to extend the convenience of time payments. Ask about Chrysler's attractive plan.

for Economical Transportation

CHEVROLET

World's Lowest Ton-Mile Cost

Tens of thousands of users have learned by actual comparison that Chevrolet provides the lowest ton-mile cost* in the history of the commercial car industry!

This matchless economy is due to advanced modern design . . . extremely low operation and maintenance costs . . . exceptionally slow depreciation . . . and the most amazing price ever placed on a modern, gear-shift truck—a combination of economy features found in no other commercial car in the world.

Whether you operate one or many trucks, *Ton-mile cost is the cost of transporting a ton of material one mile—or its equivalent.

come to our salesroom and learn for yourself how Chevrolet is designed and built to save you money. Go over the chassis, unit by unit. Note the advanced, modern engineering—typified by a powerful valve-in-head motor, with three-speed transmission and sturdy single-plate disc-clutch. Mark the rugged, quality construction throughout; heavy channel steel frame—massive banjo-type rear axle—long, extra-leaved, heavy steel springs, set parallel to the frame.

Then, go for a trial load demonstration—and see how perfectly Chevrolet meets your own haulage requirements!

The WORLD'S LARGEST BUILDER OF GEAR-SHIFT TRUCKS

ENORMOUS AMOUNT OF MONEY PUT IN CIRCULATION BY MOTORIST COMPELS TREASURY TO REINFORCE CURRENCY

Modern motoring has not succeeded in increasing the purchasing power of our paper currency but it has been responsible largely for the reinforcement of our greenbacks and yellowbacks so that they will last longer and will withstand the stress and strain of severe service.

No other agency in the history of this country has tested the durability of our dollar bills and bank notes so thoroughly as has our gigantic motoring business. The 24,000,000 owners of passenger cars and commercial vehicles, the 10,000,000 service stations, garages, garages and other distributors exposed our paper money to such rough treatment that your Uncle Samuel has had to substitute new and stronger series of paper currency for the old.

This paper will be fortified in every way known to science against deterioration from handling by greasy, oil-smearing hands. Our paper money of the future will be designed and made to satisfy the requirements of the automotive industry.

These vital reforms in paper currency production have come about principally because American money now goes motoring daily in vast volume. Gentlemen dressed in motor overalls and greenbacks are not able to resist the effects of contact with the road for at least nine months. Just to illustrate how the average citizen carries much more cash than he did during "grandfather's time," pray scan what follows. Treasury reports show that our use of paper currency is three times greater than in 1913 and six times more than 23 years ago. Motor tourists who travel the leading state and national thoroughfares "pay as they go" and carry paper money as "ready cash." "Stay-at-home" drivers carry comfortable reserves of paper money for there are always gas oil and accessories to buy, essential repairs to pay for, and possible traffic fines to settle in emergencies.

When gasoline power conversions began to speak our highways from ocean to ocean, the wearing qualities of our paper currency went into a serious decline. The stage was finally reached where the most popular denominations of paper money were reduced to rag and rags after six to seven months service. The Treasury Department and the Bureau of Engraving and Printing were taxed to capacity in replacing some 1,200 tons of paper currency equivalent to approximately \$4,000,000,000 annually.

Urges Simple Car For Wary Buyers

LONDON, Aug. 20.—To the average automobile owner driving a car is simple. But to the poor fellow who sits on his front porch all day Sunday while the average motorist is out enjoying the country air, the mere thought of driving a car is a fearful torture.

This fear is caused by mechanical inability, nervousness or timidity, according to C. B. Waterlow, writing in the Autocar, our latest publication of England.

An automobile of less intricate construction, one embodying a change of gearshift would remedy all this according to Waterlow, and thus cause an increase in demand for cars.

Women and men who have reached and passed the age of 50 or 60 are subject to this fear of automobiles. But with a simplified gear shift, one which would eliminate the clutch-release, the speed shifts and the numerous other things that occupy one's mind while driving at our driving would become a pleasure to this class of people, says Waterlow.

Our "rubber" Uncle Sam tossed aside his six-quart beaver and scratched his head in perplexity. The ever-growing demand for more paper currency indicated that our national money factory would have to double equipment, employ and output to keep pace with the future requirements of the multi-billionaire automobile business.

Eventually, the U. S. Treasury asked the Bureau of Standards for scientific assistance in solving the paper money riddles. Government specialists tested and experimented with the paper money. They devised laboratory methods of testing paper money under simulated wear and tear while the microscopes of science were focused on the activities.

Paper technicians in the course of time produced "heavy duty" paper adapted to withstand unusually severe usage. Like the double-kneed and two-sealed knickerbockers of a growing boy, this reinforced paper was made to withstand extra hard knocks. The amount of "beating" which the paper fibers underwent in manufacture was curtailed as this was found to be one weak spot in the Government specifications of paper currency.

The original currency paper broke through the creases when it was exposed to 2,000 successive foldings in an automatic appliance rigged up for that purpose. The new "armored" paper resisted 6,000 such foldings before it failed. So the experimenters until it found satisfactory measures and methods of coating the greenbacks and yellowbacks with certain chemicals to protect them against injury from grease and oil. Spraying the currency paper with formaldehyde directly after it was removed from the glue bath during its manufacture produced a dirt-resistant glaze. This treated paper resisted artificial "wearing tests" three times longer than untreated paper.

Beginning about July 1, 1932, the Treasury Department will circulate paper money which will be one-third smaller than the bills and bank notes now in use. These smaller greenbacks will be easier to handle and will last much longer because they can be carried in the average wallet or pocketbook without folding or creasing. They will be made of the strongest currency paper which can be manufactured.

It's Easy To Climb To Pikes Peak! Famous Mount 2,028 Miles From Sea

The view to Pikes Peak is as wonderful as from it. The great mountain overlooks the country shown in the map.

NEA Service
 COLORADO SPRINGS, Colo., Aug. 20.—It's 2,028 miles from sea level, where the Pikes Peak Ocean-to-Ocean highway starts at New York, to the summit of Pikes Peak, 14,393 feet above sea level at Colorado Springs. It is the highest elevation reached by the transcontinental motor highway as it crosses the United States.

That's a climb of only about seven feet to the mile when measured on the map and one that motorists would feel was fairly negligible in a hour of that length. Yet the grade in the summit of Pikes Peak, perhaps, is hardly more than the average for the entire trip from the coast.

A wide, modern motor highway leads direct from Colorado Springs, the hub of the Pikes Peak region, to the summit of this famous mountain. Thousands of motorists drive their cars up, the highway each year, and find little difficulty in making the climb which measures 18 miles each way.

For those who prefer other means of locomotion in mountain climbing there is a cog road whose trains make regular trips to the summit. Others make the trip by burro back or afoot, although now-

adays the gasoline route is most popular.

Overlooks the Rockies
 From the summit the motorist gets a view of the surrounding country which includes hundreds of square miles of Rocky mountain peaks and other hundreds of miles of the great plains which sweep eastward toward Kansas.

The view invites the motorist into making other trips in the Pikes Peak region. The region abounds with paved and gravelled motor highways which extend to the highest peaks in the Rockies.

Practically all the drives originate at Colorado Springs. One of the newest is the recently completed Broadmoor-Cheyenne mountain highway which in 20 minutes affords a view from an elevation of 10,000 feet above sea level to the summit of this famous mountain. Unparalleled elsewhere in the west, Colorado Springs and Broadmoor lie directly beneath Cheyenne mountain.

Too Great for Words
 The Corley Mountain highway, which extends from Colorado Springs to Cripple Creek, famous gold camp, is 45 miles long and is built over the abandoned road bed of the old Short line railroad. It was this scenery that brought the

How She Hints? Hints on Car Care

BY ISRAEL KLEIN
 Science Editor, NEA Service

The car stops suddenly, and starts for no good reason. No end of cranking can start it. The ignition system is looked over from distributor to spark plugs. Everything is checked thoroughly and found in good order. And yet no action.

Then, just as spontaneously, the car goes on, as though nothing had happened.

After the driver has almost forgotten his troubles, the car stops again. Again the starting, the checking and the perplexity. And again, after a little wait, the engine starts up as mysteriously as ever.

What's the reason? Many a garage man has gone out to such emergency cases and has had trouble finding the answer. But the solution is simple. The trouble is in the fuel feeding system.

man after another, while each found something to fix that proved later to be the wrong solution.

Finally he struck a mechanic with a little ingenuity—or was it luck? The mechanic discovered that the top of the gas tank had no air vent in it. He drilled a small hole in the tank and the motorist went on his way never again to be disturbed by an occurrence like this.

What happened was that while the gas was being sucked out of the tank, there was no air to take its place inside, while the unvented cap kept the tank sealed.

Lack of air in the tank caused lack of the requisite air pressure to exert its force of pushing the gasoline through the fuel line in the vacuum tank. With vacuum in the gas tank and vacuum in the vacuum tank, the gas remained idle in the tank.

A little rest, however, afforded the opportunity for air to seep into the tank and so cause enough inequality of pressure to start the car to Bony again.

Draining of the vent in the tank cap exposed the tank to the constant inflow of air to replace the used up gas which is necessary for proper suction.

In another case, a harassed driver appealed to a mechanic after stopping and starting several times, and found that the gas line was clogged with all sorts of junk that had accumulated over a period of four years.

There was lint and sediment, even a matchstick that had mysteriously got into the gasoline tank and large chunks of rubber that had come out of many a service pump hose. The tank had never been drained of sediment and rust, and so this was sucked in through the gas line until it clogged the system.

A wait usually permitted enough gasoline to seep through to permit the car to start again. But not for long. And so the starting and stop-

ping until the cause was discovered. The moral of this is to drain the gas tank occasionally and have the fuel line cleaned out at least once a year.

LEARNS TO DRIVE AT 87
 BELFAST, Me.—Isabel W. Cross of this city, at the age of 87, has learned to operate an automobile. After a few trips about the state, she made, without mishap or inconvenience, a run of 250 miles to Provincetown, Mass., and returned just to see what changes in Nature have made since he was there a year ago.

BIG WESTERN FARM SHOW CITY, Iowa. Kindred is the largest fair in South Dakota—in nature, 200 feet 2 inches tall and weighs 1,000 lbs. It is 28 years old. He has turned down many show offers.

Studebaker Dealers Are Prosperous

An opportunity is now offered locally to obtain this valuable franchise

All indications point to the second half of 1937 being the most prosperous season West Texas has enjoyed in many years. Auto prospects are good. Prices will be good. Texas automobile registrations prove that this is a big automobile buying year.

Studebaker dealers are especially favored by having a line of cars that has received heartiest endorsement the country over. The Studebaker line includes the Executive Six at \$395 to \$505; The Duetair at \$1165 to \$1395; The Commander, \$1495 to \$1625; and the President, \$1755 to \$2250. This complete assortment of cars enables the Studebaker dealer to compete in four highly important price fields.

Studebaker builds a complete line of commercial cars which add materially to a dealer's profits.

With the Studebaker franchise, a permanently successful business can be built up in this community. Successful experience is not necessary. We are primarily interested in obtaining a man of good local standing, financially responsible and with sound business judgment.

To find a man, we have an attractive proposition to offer. Mr. Tom Walling, special representative of The Studebaker Corporation of America, South Bend, Ind., will be at 1007 Ave. N., Phone 1287-R, Sunday, Monday and Tuesday, and will be able to meet interested parties.

De Laval Cream Separators

The LEADER for 49 YEARS

MORE THAN 4 MILLION SALES

1 Substantial, durable and unbreakable supply can. Made in one piece—seamless, sanitary and easy to clean. Anti-splash. Self-draining. Thoroughly and evenly tinned.

2 Covers and spouts are substantial and will permanently hold their shape. Fit perfectly. Smooth and easy to clean. Well tinned. Discharge cream and skim-milk in smooth, solid streams.

3 The wonderful "Floating Bowl"—the greatest cream separator improvement in twenty-five years. Runs smoothly, without vibration. Cleanest skimming bowl made. Produces richer and smoother cream of high quality.

4 Automatic splash oil system. Bearings run on a film of oil, making separator run easier and last longer.

5 Simple lower bearing and hardened steel points submerged in oil for easy running. Quickly adjusted or replaced.

6 Open, sanitary base. Frames are finished with a durable, highly polished, black japan. Will not chip. Smooth and easy to keep clean.

7 THE WONDERFUL FLOATING BOWL. THE GREATEST CREAM SEPARATOR IMPROVEMENT IN 25 YEARS.

8 THE EASIEST RUNNING SEPARATOR WITH MILK GOING THROUGH THE BOWL.

9 HAND, BELT AND ELECTRIC DRIVEN.

10 7 SIZES 200 to 1350 LBS OF MILK PER HOUR.

Guaranteed. "De Laval Cream Separators are guaranteed to be as represented and to fulfill all the claims made for them, being sold subject to the guarantee of their unequalled superiority in every material feature of separator practicability, inclusive of the production of a greater value of cream and of a greater quantity of butter of better quality than is possible through the use of any other separator or creaming system."

Skim the Skim-Milk. Ask us to bring out a De Laval and run your skim-milk through it. The new De Laval skims so clean that it certainly will recover any butter-fat you have been losing. Then you can tell exactly whether you have been losing or making money from your separator.

The News Of The Day Through The Camera's Eye

The President "Chooses" to Gallop in the Hills

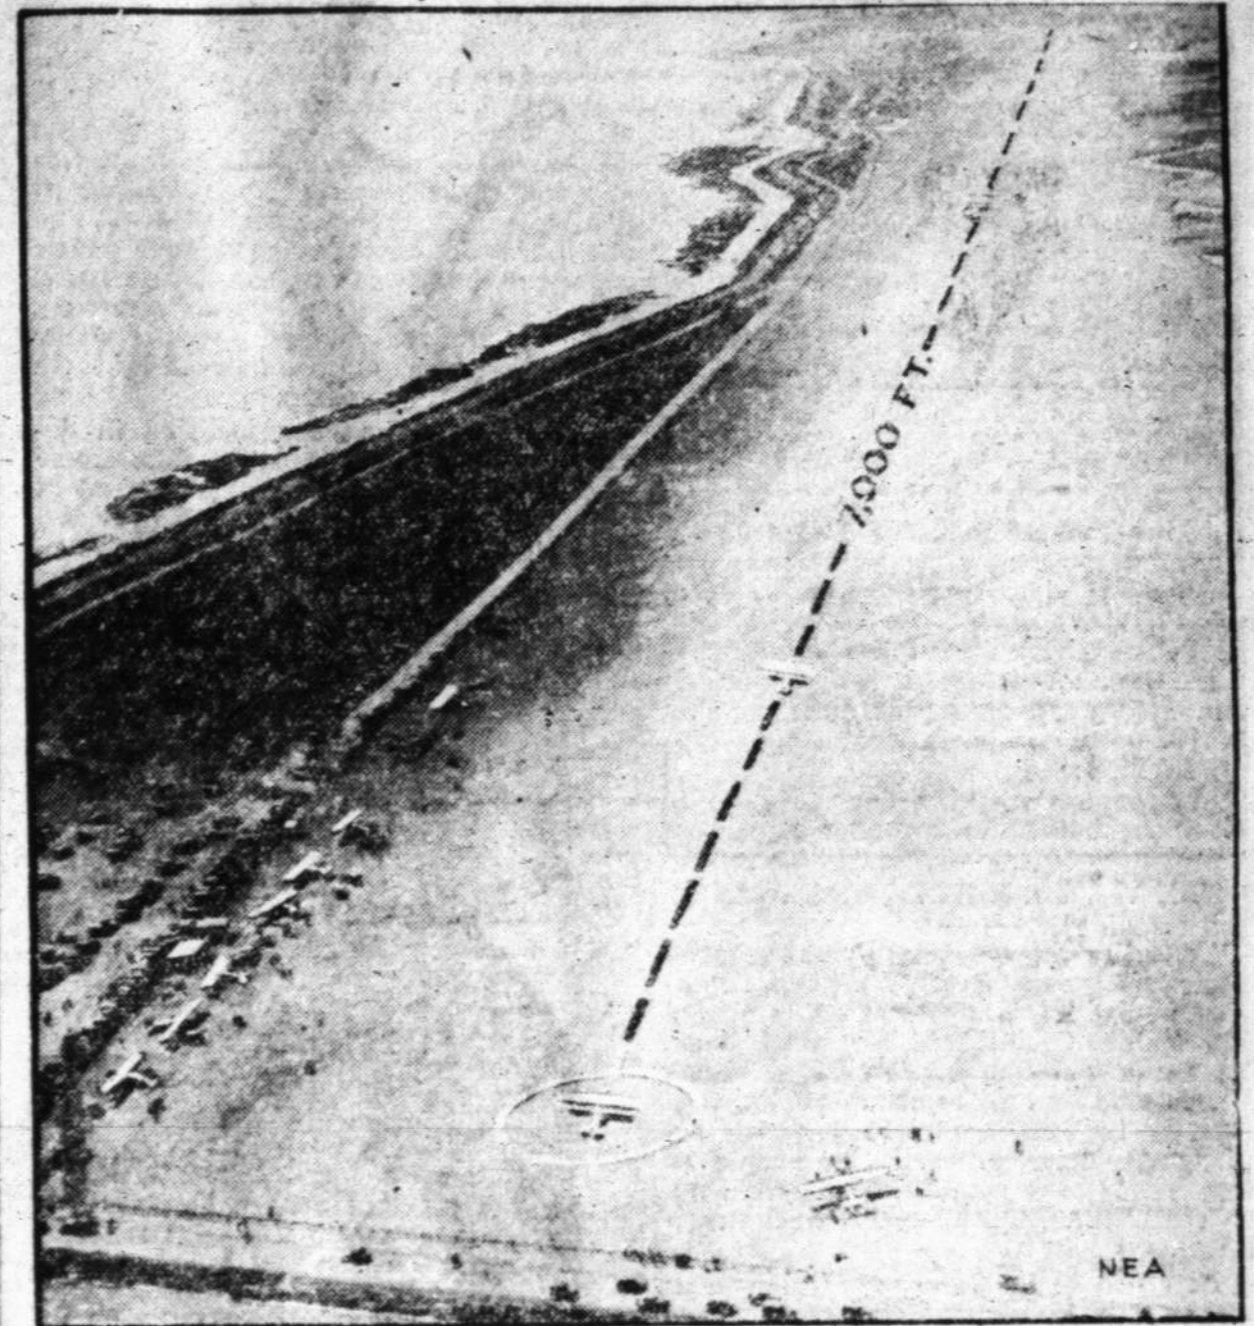

President Wilson, with his ten-gallon hat and buckskin breeches, is shown here on his favorite mount, just before starting on a gallop over the Blue Hills of South Dakota. The presidential ride to Mt. Rushmore is the other day for the ceremony marking the beginning of work on the Jefferson-Lincoln-Roosevelt dam, which is to be completed out of native rock by August 1930. This excellent NEA photo is one of the best ever taken of President Wilson on horseback.

Brazil His Air Goal

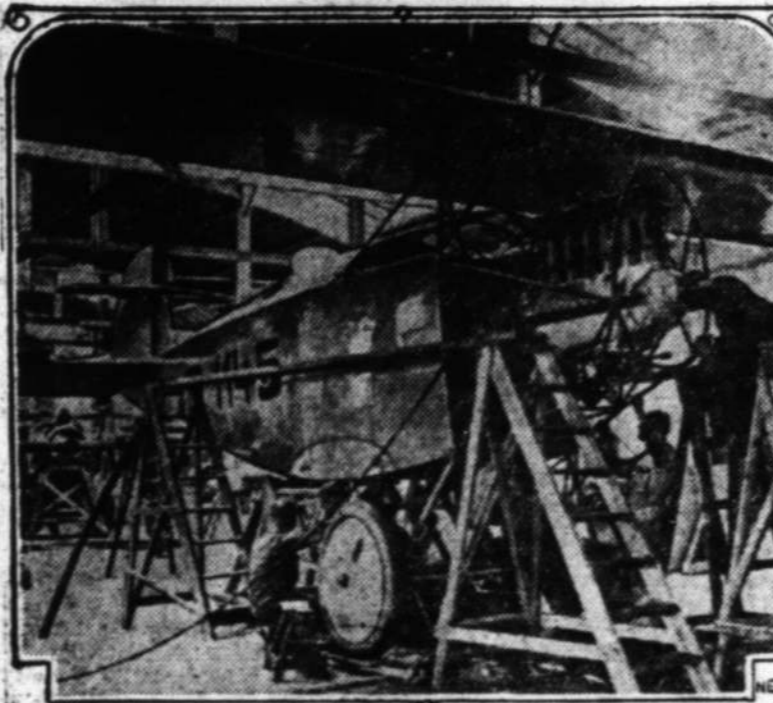

This is the single-engine monoplane in which Paul Reiter, of Brunswick, Ga., (inset) hopes to hop from his home town to Rio de Janeiro, Brazil.

The Start Of The Big Race

This aerial photo shows the starting point of the Frisco-Honolulu race. The circle was the spot from which the planes took off; the dot-dash line indicates the runway along which they sped on their way to the air. Pilots waiting their turn at the starting circle can be seen along the side of the field.

From Berlin to New York

Otto Koehncke, prominent German aviator, is ready to take off on a projected non-stop flight from Berlin to New York. The upper view shows workmen rushing his plane to completion; below Koehncke (at the left) confers with his aids on plans for the undertaking.

Last "Martyr" Appeals In New York and Boston

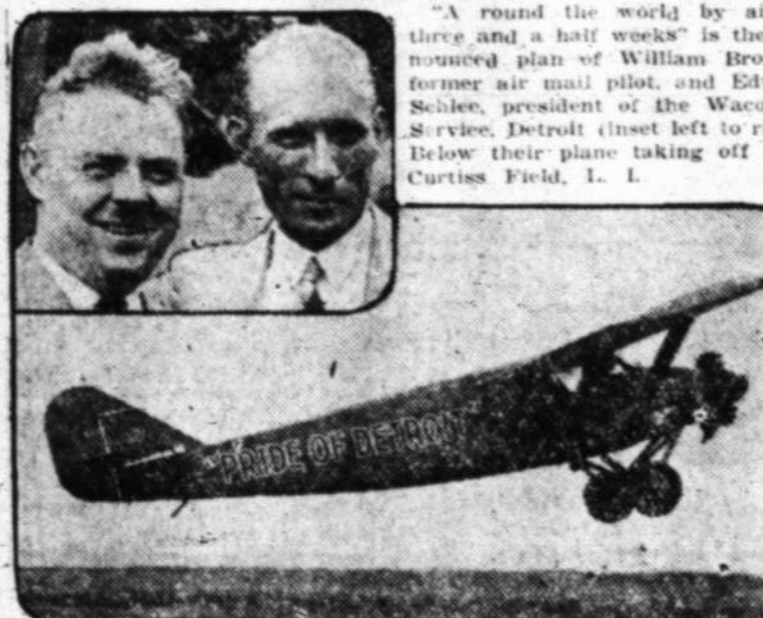

BY SHALL NOT PANADE—In Boston the police tolerated no Sacco-Vanzetti demonstrators as an approach of the execution hour found sympathizers everywhere. Among more than forty persons who gathered in front of the state house were Harry Cantor, of New York, and Alfred Lewis, of Boston, here shown on their way to the station house.

Tourist Finds Missing Banker

Jack M. Patterson, once cashier of a bank at Union, Neb., and village treasurer, sought for years on charges of embezzlement, was found by a tourist who stopped at a Cleveland, O., gasoline station. Patterson was one of the salesmen at the station and his old neighbor recognized him.

Seek Globe-Girdling Record

"A round the world by air in three and a half weeks" is the announced plan of William Brockner, former air mail pilot, and Edward Schiele, president of the Waco Air Service, Detroit (inset left to right). Below their plane taking off from Curtiss Field, I. I.

Still Studyin'

Although J. Milton Jones is 71 and is one of North Carolina's oldest educators, he thinks himself still young enough to learn. So he's attending summer school at the University of North Carolina at Chapel Hill where this photo was taken.

Great Guns!

A rare shot this! Signor Ugo Zaccolini, Italian inventor, taking the end of his life by having himself shot from a cannon at Turin. He landed unharmed in a net a good distance from the muzzle.

Form—And How!

A remarkable action shot of C. M. McLoughlin, of London, displaying extraordinary form at the British national diving meet.

SHALL NOT DIE—Ten thousand upraised hands protest the Vanzetti death decision as an orator fires fellow sympathizers in Union Square, New York. When those at the meeting attempted to parade, they were dispersed by the police.

Erin's Chief?

It has been predicted that if a new government moves into office in Ireland, its president will be Thomas Johnson (above). But with general uncertainty surrounding Erin's future he may hold office for only a few months—and again he may not—since a general election may be called at any time.

Houghton Honeymooners

Returning to New York from Europe, Mrs. Chandler-P. Anderson, Jr., the former Mathilde Houghton, daughter of America's ambassador to the court of St. James, was photographed with her husband aboard the S. S. Carmania.

To Man'la, Maybe

Carmi Thompson, who went to the Philippines to make a survey for President Coolidge last year, may succeed to the governor-generalship of the islands left vacant by the death of Leonard Wood. This is his latest photo.

WORK AND GLORY: Let Thy work, Lord, appear unto Thy servants, and Thy glory unto their children.

PRAYER: Oh Splendor of God's glory bright, From light Eternal bringing light.

THE WATER RIGHTS OF TEXAS

Texas has become aroused over many things in the past. For many years it was "wet or dry" in Texas, and many heated arguments were put over for and against.

Few people in Texas, even the members of the legislature and few of the lawyers of the state, and scarcely any of the laymen of Texas knew that there was a law on the statute books allowing big cooperations to come into the state and commercialize all of the water that falls on the ground on the river sheds of the several streams that traverse the state.

As a result the West Texas Chamber of Commerce sees the acute condition, and the President of that organization that stands ready to look after the interests of West Texas called a meeting at Abilene for last Thursday, at which time the matter was given a thorough diagnosis.

As we see it, Texas people have been asleep. They went to sleep away back yonder at the polls. They elected Tom Dick and Harry to the legislature without thought of qualification—just any old stick would do to make laws in the legislature, and a bill was slipped through authorizing the State to grant such water rights, and by way of parenthesis we will state that Texas people have still not gotten their eyes open to the fact that the strongest, most competent, brainiest men in the state should be elected to the legislature instead of voting for just who ever will take the office.

We presume that the reason people call dresses "creations" is because they are made of nothing.

ter how badly you might want to dam up a stream in your pasture on your own land if these power companies should fail to get the total amount of water each year they could force you to cut your dam and turn the water loose to their own use.

The people then are justified in demanding the legislature to take some mighty quick action in the matter and at once put a stop to such an outrage.

This should be a lesson to the people of Texas. This should open their eyes, to the fact that there should be great care exercised in the passage of laws.

City Judge, Inmon has had the grounds north of the city hall planted in turnips, and they are looking fine. You can beautify your vacant lots with useful plants that will mean something just as well as paying for the weeds to be cut two or three times each year.

The announcement that futile attempt to change the constitution cost the state one hundred thousand dollars, suggests to us that some of these days when we are holding a regular state election, we ought to slip in an amendment to the effect that such propositions be submitted only at general elections.

Speaking of women, attractive simpletons are more popular with men than intellectual bores, and when it comes to marrying, sometimes a man wants to be sure that he is smarter than his wife.

We presume that the reason people call dresses "creations" is because they are made of nothing.

Many a man or a woman have been lead to a mirror, but the trouble is they do not see themselves as they really are.

SO THINK WE

We think that Lubbock should certainly see that some overseas veteran be permitted to take the American Legion tour to Paris this fall.

We think that the man who lives by his wits is not always a high liver.

We think that even the hot-headed men occasionally get cold feet.

We think that Captain Will Erwin has certainly had a flax on his flights. In his third attempt to span the Pacific has plane went into a tail spin.

We think that some people waste much energy climbing mountains before they are even in sight.

We think that it is hardly possible to convince a self-made man that he gave himself the worst of it.

We think that airplanes are much faster and convenient means of traveling but still it is very sad to see that you hear of any one being killed in a test flight in an old flier.

We think that the Mississippi Valley is not the only flooded district. Dispatches indicate that a recent flood in Russia caused more than 40,000 to be homeless.

We think that when it comes to publicity neither Sacco nor Vanzetti can compete with the trans-oceanic flyers.

We think that the Lubbock county crops are looking like a million dollars.

We think that a woman many believe only half of what she hears but she hears twice as much as a man.

We think that it is easier to make a new quarrel than to patch up an old one.

We think that the Lubbock pessimist that says this is going to be a hard winter should go over the county and take a look at the beautiful crops.

We think that there are a few Lubbock men who will admit being wrong as long as there is a chance to make others believe they are right.

We think that running water and modern lighting are investments that are worth while on any farm.

We think that a man's reputation for truthfulness goes lame when he begins to say things about himself.

We think that it is getting nearer and nearer to fair time and the local merchants and citizens should cooperate with the officials of the fair in putting over the biggest and best exposition in West Texas.

We think that it takes ten years to make one realize what living at home and boarding at the same place means.

We think that the local high school system is one of the best in West Texas. More than 120 teachers have been employed to carry out the work of the school this coming school year.

We think that it will be only a short time until is cotton picking on the South Plains. Great will be the front page story on "Lubbock's First Pick."

We think that it is better to boast than to tear down.

We think that it is rather surprising how many things that girls can learn during her stay in a boarding school that will never be of any use to her.

We think that building permit figures of Lubbock are looked down on by the local pessimists.

He's Had His Two Weeks

IT IS REPORTED

It is reported that the financial and agricultural heads of the state have been asked to join and protect the interests of the producer by making a strong market for the 1937 cotton crop.

It is reported that recently fifteen carloads of eggs were shipped from Tulsa in two days. More than \$100,000 profit for S.W. county ranchers.

It is reported that the judges of Scotland gave no death sentences to convicted criminals last year. This is carrying leniency to extremes.

A SHORT SERMON

Satan's Capital in the Soul Entire Sanctification is an instantaneous salvation. It is an act of the Holy Ghost, according to our faith, by which sin is entirely expelled from the soul, when the blood of Jesus Christ cleanseth from all sin.

PEACE

The gesture of amity made when Vice-President Dawes and the Prince of Wales shook hands across the Niagara River Peace Bridge which they dedicated on Sunday last, had really nothing to do with the United States have, as the Prince said, "sought peace and insured it."

Looking Up

Is man to be a brute or an angel? If it is desired he should be a brute, then by all means let us bring to bear upon him, from his youth up, all the influences we can that will brutalize him.

The Savior Himself laid down a rule of universal application for the judging of all things when He said, "By their fruits ye shall know them."

The first commandment is "Thou shalt have no other gods before Me." A false god is not necessarily an image; it is anything which is exalted to a place in mind, heart or life that is in thought, desire or action which is above that of God Himself.

Human thou art, yet still divine: As human thou canst still feel our suffering; Our suffering hearts cause thee to bleed; While thou dost lift our lives to shine.

THE GREAT IDEAL

O Christ, be thou our heart's ideal; Turn thou our eyes to look on thee; From sin and evil set us free; To live the truth thou dost reveal.

LAUGHS

Well, He Asked For It "Darling, you would be a fine dancer but for two things: 'What are they, sweetheart?' 'Your feet.'"

Information Bureau Inquiring: Lady Van a visit to bathhouse? And did they put those rocks at the bottom of the ocean to build that breakwater?

Wife Rides This Kid

Jack the flier with one intent to catch a train—"Can't you get a little faster, huh?" "Mother—'No, that won't work' frightened him with that 'faster'."

Green Is Right

He—"How are you going to get my dear?" She—"In my green velvet walk ink suit with a hat to match."

Star Far—Star Far

Prof. giving a lecture: "I don't mind if a student looks at me watch once in a while, but when gets me in to see someone take on his watch, shake it a few times and then put it up to his ear."

Not That Much Different

Judge: "Well, John, I can give you three dollars, but it will cost you three dollars." John: "Three dollars, how?" Judge: "Yes, that's the fee."

Showed Him

"How did Jones get his black eye?" "He referred to his wife as a member of the weaker sex."—Dosta Transcript.

Today's Poems

Human thou art, yet still divine: As human thou canst still feel our suffering; Our suffering hearts cause thee to bleed; While thou dost lift our lives to shine.

PENNY PRINCESS

Copyright © 1927 by M.E.A. Service. Anne Austin

well-bred gentleman enjoying dinner and conversation with a lady whom he admired and to whom he deferred graciously. A casual observer would have said that Vee-Vee was a beauty long accustomed to homage, and not more than superficially interested in her dinner companion.

But the man was saying, behind the mask of a pleasant smile: "This is hell, Vee-Vee. We've got to dodge this mob of self-appointed chaperones somehow. Where can we meet—alone?"

"I know me as much as you can after dinner and in the bathroom," she said in a low voice, her smile arch as if she were purring a compliment. "I shall slip away from the dance as near eleven o'clock as possible, and go to the far pier. If we find someone else already there we can take a walk about the lake shore."

"All right," he agreed, smiling broadly for the benefit of those who watched. After dinner, Vee-Vee was immediately challenged for bridge. It made her blood boil to see Schuyler ignored, but she accepted abjectly. Flora Cartwright a belle-de-jour, had bullied Vee-Vee into leaving the game, but she had never enjoyed it tremendously. This evening she played so badly that when the game broke up at midnight she was glad to see her opponent more than a few minutes.

"You do love me!" he triumphed, in a voice oddly husky. "Say it, say, Schuyler, I love you!" Oh he loved! Unattainable star that had fallen into my arms!

"I want to be happy," the boy in the capoe sang lustily. "Well, you ought to be," Vee-Vee smiled to herself. "You're young and out on the lake with your girl, and you haven't a sickening, shameful confession to make—or I hope you haven't!"

"I'll always want you," Schuyler said huskily. "But I can't believe I'm lucky enough for you to want me. Let me talk first, Vivian, excuse, if I can my presumption in daring to hope that you—you—a princess and a Crandall, will stoop to me."

Vee-Vee stepped back, her clasped hands against her heart. "You talk then," she whispered weakly. After all, her own dreadful ordeal would merely be delayed—a blessed respite, during which she could hear the sound of his voice, feel perhaps the clasp of his warm fingers over hers. Then, if the gods were kind, Schuyler would hear her compassionately, understandingly, would rejoice that she was a nobody, like himself, not a princess who had been sold into slavery for a title.

"(To Be Continued) Schuyler tells the story of his life, admitting he is merely a rich man's secretary, and Vee-Vee, about to make her own confession, is interrupted. COLLEGE FOR CULTURE MADISON, Wis.—University of Wisconsin officials say cultural courses in college are more popular. They report that enrollment in the special courses of commerce, engineering and agriculture has been decreasing.

middle of the month factory production will have exceeded the output of 1926. Placed Where Wanted Our policy is to place our zone offices wherever the growth in automobile production is most rapid. We are planning to turn out nearly one million cars this year. The new office at Portland gives us a network of wholesale points in every section of the country, extending from Portland, Me., to Jacksonville, Fla., and from Seattle, Wash., to Los Angeles, Cal., with many intermediate points such as Fargo, N. D., El Paso, Texas, and Columbia, S. C. The last two additions to the list were at the Northern extremes—Portland and Seattle.

Noisy as New York Traffic Do fish make noise? The delicate audiometer, devised to measure noise says so. Combined with the noise of the Atlantic breakers, the noise of the fish flapping about in their net is found to equal that at Fifth avenue and 42d street, New York, in the height of traffic. Engineers are shown measuring the noise of captive fish on the Atlantic City pier.

CHEVROLET HAS NEW ZONE OFFICE

PORTLAND SELECTED NINTH SINCE FIRST OF YEAR: 43 IN U. S.

Creation of a new Chevrolet zone sales office, the 26th to be opened since 1922 and the 43rd now established in the United States, more than half of which have parts distribution depots providing the public with quicker and more efficient service, was announced today by H. J. Klingler, general sales manager of the Chevrolet Motor company.

The new zone, located at Portland, Me., is the ninth to be established since the first of the year according to Mr. Klingler, others having been opened at Columbia, S. C.; Salt Lake City, Utah; Richmond, Va.; Butte, Mont.; El Paso, Texas; Charleston, W. Va.; Wichita Kan.; and Seattle, Wash. Business is Good The Epitaph with which officials have opened this year denotes a generally healthful condition of business throughout the country.

Commenting on the July sales of cars, Alfred P. Sloan, Jr., President of General Motors, said: "The retail sales by our dealers to consumers in July were 134,747 cars, an increase of \$3,174 cars or 2.3 per cent, as compared with July 1926, at which time such sales were 131,573. This also compares with 67,572 cars in July 1925. In July the sales by our divisions to their dealers totaled 125,993 cars compared with 87,643 in July 1926, an increase of 42,350 cars or 48 per cent. This compares further with 57,255 cars in July 1925.

Electricity -- the Fuel of Dependability

THE Housewife who must have meals prepared on a definite schedule, must have fuel upon which she can depend under any circumstances. The success of the different dishes requiring heat for their preparation, depends upon an even supply of the fuel she is using.

Electricity is such a fuel. It can be depended on at any and all times, for we who supply it realize that if this fuel is to retain its popularity with the housewife, it must be supplied to her in the quantity she desires, when she desires it.

The Texas Utilities Company, ever mindful of the needs of those whom it serves, expends every effort and maintains a huge investment, in order that the housewife be not disappointed. It is constantly on the watch for ways in which to improve its scope of service and how well it has succeeded is attested to by the fact that the majority of Lubbock meals are prepared by electricity.

Truly it is the dependable fuel, the handy servant that stands ready to serve you at any and all times with the fuel you require, in the amount in which you require it.

HEADLIGHT EVIL CAN BE MET ONLY BY CO-OPERATION OF CAR OWNERS IN REGULAR INSPECTION, A. A. SAYS

WASHINGTON, D. C., Aug. 20.—Members about pay the same attention to the condition of their car's headlights that is given to the gasoline tank and the oil in the crankcase. If the electric headlight will not add considerably to the list of highway casualties during the busy driving season, it is their responsibility to have them checked up.

This is the message issued today by National Automobile Association, which points out that the fall operation of every motor car seems to be imperiled by neglected headlights.

Agency Aiding
Agencies of all kinds, particularly motor clubs, are giving their utmost attention to the solution of the headlight problem, says the statement. In a final analysis, the issue is up to the 22,000,000 car owners of the Nation.

"Headlight equipment can be improved, motor clubs may apply for headlight clinics and develop standards, cities and towns may provide official stations where headlights can be adjusted without cost to the car owner, laws may be adopted requiring headlights to meet certain non-glare specifications, police departments may make intensive campaigns against careless motorists, but all of these steps will fall short of the desired end unless the individual is made conscious of his tremendous responsibility," says Thomas F. Henry, president of the National motoring organization.

Attitude Is Strange
It is difficult to understand the attitude of thousands of motorists on this question, says Henry. They stare at the streets and highways of the country in amazement at the evil that may be done for years by the carelessness of their own dangerous conduct. The individual objectifies the condition. He despises the other man's lights and does not see the menace of his own.

Every car owner should have a regular time for inspecting the lighting equipment, the A. A. points out. This period will vary of course, with the kind, condition and quality of the lighting device on the car. Even the best of equipment will get out of adjustment if the car is driven at high speeds over rough roads for weeks. This being true, it follows that regular headlight clinics, conducted on a need of attention, the frequent check-ups.

Keep Careful Watch
The careful motorist will let his headlights be checked up by a mechanic. He will have the headlights checked up by a mechanic. He will have the headlights checked up by a mechanic. He will have the headlights checked up by a mechanic.

problem. Headlight adjustment must be made a weekly, monthly or semi-monthly habit depending upon the car and the service it is called upon to render.

Care Inexpensive
Even where the municipality or the motor club has not provided a station where headlights are tested and adjusted free, the car owner will find this item of proper car care relatively inexpensive, the statement declares. If the motorist amenable to do the work himself, he will find full directions for its accomplishment in the instruction book that accompanied the car. It is pointed out, commenting on this, Mr. Henry says: "Almost every car manufacturer in the country, recognizing the importance of correct headlight adjustment, has developed a special section of his operator's manual on this subject. The instructions there given are clear, concise and effective. If they were followed out in the case of each car sold, the headlight problem would disappear almost overnight."

"Headlight glare is a universal problem but its solution is definitely up to the individual car owner," the statement concludes.

OAKLAND SHOWS GREAT SUCCESS

NEW ALL-AMERICAN SIX WINS PLAUDITS OF DEALERS AND PUBLIC

PONTIAC, Mich., Aug. 20.—The new Oakland All-American Six is enjoying the phenomenal success which the Pontiac Six achieved upon its introduction in January 1926.

This is the essence of hundreds of telegrams received by the Oakland Motor Car company from its dealers throughout the country. "Delighting every other premier showing ever held," "Meeting instant approval," "Need all we can get," and "Swamped with orders," are typical messages. The word that he sold six of the new Oakland on examination only, with out even starting the engine.

Showrooms from Maine to California were crowded up the announcement day, by visitors whom the new car attracted. The beautiful new Duo colors, the new and new body lines, and the enlarged engine with its many engineering advances, shared the spotlight and evoked enthusiastic admiration.

"The Oakland Motor Company is gratified but not surprised at the reception of the All-American Six," W. R. Tracy, vice president in charge of sales stated.

"We have devoted many months to the building of a six-cylinder motor car which would fully meet every one of the most exacting demands of the American people," said Mr. Tracy. "No factor contributing to appearance or performance was slight-

In the Old "Gas Buggy" Days

Doesn't this take you back to the days when you had to get out and hold your horse to let the motorist pass? Photo is of "Old Number One," the first Chevrolet ever built. It ran under its own power in a recent "dress" parade in Detroit.

in the interests of any other car, it has undergone hundreds of thousands of miles of tests at the General Motors Proving Ground.

DODGE BROTHERS BOOSTING OUTPUT

PRODUCTION OF FOURS IS STEPPED UP 25 PER CENT LOCAL DEALER SAYS

Production of Dodge Brothers new four cylinder line has been increased 25 per cent, according to information received from the factory by W. W. Royalty, local Dodge Brothers dealer. Shipments of these cars, which have been widely advertised as "The Fastest Four in America," have been running behind retail sales ever since July 17 when the new line was formally

announced, it is stated, and dealers have been delivering cars as fast as received.

The present jump in production in the third which Dodge Brothers have made within three weeks. Under the new schedule approximately 1,600 fours are coming off the line each day compared with about 800 previously. "The substantial increase," Mr. Royalty states, "indicates clearly the approval with which the new and finer Dodge Brothers four is being received everywhere. It is particularly significant that such sales volume has been reached so soon after the introduction of the new line, as to date only the sedan has been displayed. A new coupe and a new Chevrolet roadster were put in production a few days ago and with these body types also on the market a still further increase in production in the near future is indicated."

tests more severe than the public ever can give it. We know that no motor car in the world offers the same quality of material, the same precision of workmanship, or the same through-going value, at or near the Oakland Six price.

Hupp Wins Contest For Reliability

Against a field including both American and European cars of various price ranges, a Huppmobile Six won a recent 500 kilometer reliability contest over an extremely hilly and mountainous course near Bilbao, Spain.

Control stations were placed as close as only 200 meters apart, in the severe tests imposed with contestants compelled to run at a uniform speed of 45 kilometers an hour. Grades up to 13 per cent were encountered.

The Huppmobile, despite the rigorous nature of the test, received only two penalty points against it. Both a cup and a medal were bestowed on the winning car.

CHURCH HAS INVISIBLE CLOCK
TALLAHASSEE, Fla.—Tallahassee has a clock which is heard but not seen. Years ago the clock was placed in the tower of the Presbyterian church, built in territorial days. For some of the hands were never seen. Finally the whole mechanism was enclosed. As long as the hands can be seen, however, the clock has struck the hour.

A HOME BY ANY OTHER NAME

DULUTH, Minn.—Houses named as well as numbers, Park Point, Duluth, residence tract. One can walk up and number plates such names as the streets and real estate number plates such names as Hank's Haven, Sweet As Step In, Pirate's Rest, and a names of the owner's originality.

MOUSE IN CARBURATOR
PHILLIPSBURG, Kas.—J. Van Wyck of Phillipsburg, Kas., here intends to carry a mouse in his gasoline tank hereafter. Wyck's car stalled, recently, was unable to locate the trouble and sent for a mechanic. Investigation disclosed a mouse in carburetor.

Extra! good news

FOR THE THRIFTY READ!

New merchandise for Fall and Winter is arriving on every train, and as each shipment is received and we see the quality of the merchandise and then look at the invoice to see what it will be sold for, it makes us realize more and more just what a money-saving institution this is. It is a pleasure to us to know that our service is so far-reaching in the savings it effects, and keeps us striving to better the values, although we wonder sometimes how that could be done when upon comparison we find that our prices are so much lower than those quoted elsewhere.

Saving These Amounts Bring Added Purchasing Power To Your Dollars

BEACON BLANKET ROBES
