

Legion Issues Call For Junior Legion Baseball Material

Wellington's American Legion-sponsored junior baseball team will get into action with two practice games next week, prior to the choice of the 15 boys that will make up the regular team.

These Legion-sponsored teams are now in the process of organization throughout the nation, and competition will begin on a district basis and go up through state and regional play into the final competition.

Approximately 20 Wellington boys will enter the try-out, but the Legion is especially anxious that boys from Dodson, Samnorwood and Quail as well take part. There is only one requirement. A boy must not have passed his 17th birthday before January 1, 1947.

Coaching the boys will be three members of the Wellington High School coaching staff, Al Duncan, Bob Percival and John Lee; and Austin O'Neil, manager of the Wellington baseball team.

The roster will be picked before June 10 and the names sent in to the national headquarters.

Practicing this week will be done at the high school each afternoon. On Tuesday and Thursday, June 3 and 5, the teams will play at the Ball Park, beginning at 5:00 p. m. Their opponents have been tentatively announced as Hedley and Childress.

Uniforms have been bought by the business men of the town and will arrive next week. They are grey with red trim, and lettered across the front is "Legion Post 249" and across the back "Wellington".

"Just because a boy can't play baseball shouldn't keep him from coming out. We want to teach him to play," Coach Duncan declared.

A number of the famous baseball players have come up through the American Legion teams. There's Cat Brecheen, who won the final game for the St. Louis Cardinals last year. And there's Bobby Feller, and any number of others.

Teams will be sponsored in this area by Legion posts at Childress, Hedley, Pampa, Borger, Amarillo and possibly other towns.

Any boy wanting to get in touch with one of the coaches may phone them at the following numbers. Duncan No. 243; Lee, No. 180; O'Neil, No. 364M and Percival, No. 318R.

Court of Honor for Scouts of Troop 32 Is Set for June 3

A Court of Honor for Boy Scouts of Troop 32 will be held Tuesday evening, June 3, at the community building, Sandy Parsons, scoutmaster, has announced.

As a highlight of the entertainment program, a group of youthful Indian dancers from Lubbock will be here in full costume for a group dance. They are directed by Frank A. Runkles of that city, who grew up among the Sioux Indians, was adopted by the tribe and given the name, Chief Bear Claw. This is due to be one of the most colorful affairs of its type given here this season.

Awarding of scout advancements will take place during the business session, and several other special events are planned.

Interest in Scouting, both on the part of boys of the town and their parents, is increasing rapidly, and at present approximately 60 boys are enrolled in Troop 32.

This troop is sponsored by the Wellington Rotary Club with Mr. Parsons as Scoutmaster. Assistants are Sam Gholson, Leon Coleman, and Dwaine Reeves.

Attendance at this Court of Honor by the general public, both those who have boys of Scouting age and those who do not, is urged by Mr. Parsons.

"We believe that you will be pleased at the work that is being done by Troop 32, and we know that your presence will be encouraging to these young boys," the scoutmaster said.

Funds derived from recent money-raising activities will go toward completing the Boy Scout house in Ellison Park, which is now almost finished.

The Rev. J. F. Mathews, pastor of the First Christian Church since October 1943, and Wellington's senior pastor, has resigned his pastorate and he and Mrs. Mathews will leave Monday, June 2, to make their home in Lubbock. He will be with the state board in supply work.

This closes Rev. Mathews' second pastorate here, and distinguishes him as one of the few men in the history of the town to return to the church he previously served. His first time to serve the city church was in 1923 and 1924.

Rev. Mathews is a veteran of 48 years in the ministry of the First Christian Church, having been ordained into the ministry at Content in Runkles County in 1899. While most of his ministry has been in Texas, he served five years as pastor of the Bainbridge, Ga., church. We Are Sorry

Due to our newsprint supply, The Leader is unable to run more than sixteen pages a week. As a result we were forced to leave out quite a number of interesting stories in order to make room for the pictures of the graduates. These stories will be in the paper next week, and if you are one of those who furnished the information, we tender both our thanks and our apologies.

Ernestene has been a life long student of Quail school, attending here for ten years.

Her hobbies are collecting records, sewing, and reading. With all this she likes french fried potatoes, and pineapple malts. Her favorite subjects are English and math.

Ernestene has been very busy during her ten years at Quail. She was reporter for one year, and typist for one year for the school paper. She was a member of F. H. A. for three years, Glee Club for one year, and president of Speech Club, and librarian for four years.

She is undecided in what she will do in the future, but she will probably be a housewife. We wish you much happiness.

James David Shanks

On March 19, 1928, at Wellington, Texas, a son, J. D., was born to Mr. and Mrs. H. H. Shanks.

He has attended many schools as he went to Fresno for 2 years, Loco 1 year, Cottonwood, 3 years, Houselog 1 year, Wellington 3 years, and Quail 2 years.

She has attended school at Reed, Ozark, White Flat, and Quail. While attending high school she has held several class offices.

She has served as vice-president, Freshman year, secretary, Sophomore year, secretary, Junior year and reporter, Senior year and editor for the school paper for the first half.

She is remembered as "Mrs. Cook" in the Senior play. She is Mrs. Leathers in real life.

Good luck, Jean, in the future.

Hoyt plans to take up farming as his career after graduation. Good luck, Hoyt, we will always remember you.

Billy Fred and Bobby Ted Thomas

Sometimes when visitors come to our school, they declare they're seeing double, and so you have to tell them that it's really true. You have to tell them they are seeing the twin sons of Mr. and Mrs. George Thomas.

On September 25, 1929, Ted and Fred were born at Mansfield, Texas. They have spent the greatest part of their lives telling people which one is Ted and which one is Fred.

Ted and Fred are popular around school. Billy Fred is known as the boy who popularized the lemon malt. His favorite foods are steak, gravy, and iced tea.

Bobby Ted's favorites are turkey and dressing with plenty of cranberries.

The boys have the same likes in the way of sports. They really go for basketball, tennis, swimming, hunting and fishing. Both seem to enjoy driving busses, too.

The twins are undecided as to what they will do when they finish school, but we believe they will succeed in whatever they choose. Their cheerfulness has certainly had its way in all of our hearts.

Arlice Wayne Tow

On a beautiful spring day, Mar. 23, 1930, a stork circled the house of Mr. and Mrs. W. T. Tow. Arlice must have enjoyed that ride for she plans to attend Park's Air College and major in civil aeronautics and aircraft designing.

Arlice has a long list of favorite foods, but the most important ones are southern fried chicken, hot biscuits, and lemonade.

Arlice seems to like to draw, for when a student needs some art work done, you'll hear them saying, "I'll get Arlice to do it for me."

Best of luck to you, Arlice. Quail will really miss you next year.

Sam Adams

Mr. and Mrs. J. H. Adams are the lucky parents of Samuel Lawrence, born on July 14, 1926. Sam has been a leader with his group ever since.

Whatever the future might be we know that he will make a success in any profession he chooses, which we think will be farming.

Plains, Shamrock and Burkburnett.

He has been a leader in work of the Masonic Lodge for many years, and one of his last appearances is the county will be a lecture at Dodson on the Origin of Masonry.

"I don't believe I have ever been associated with a lodge which I enjoyed more than I have here," Rev. Mathews said.

During the time he has been here, Rev. Mathews has led the church in paying out the church loan, adding a parsonage, which is located just north of the church, and in paying all debts contracted by the church.

Rev. and Mrs. Mathews plan a month's vacation before taking up their work at Lubbock. This will be spent with their daughter, Mrs. H. E. Sindorf, in Raymondville. Much of this time will be spent fishing, he declares.

Want to Run a "Collective" Farm?

Was reading the other day about the "collective" farms they have in certain countries. It seems the folks who run them have plenty of help ... good hours ... and the best equipment.

Sounds pretty nice—till you learn that the "farmer" doesn't own his land, or even farm it, in our sense. He takes orders from the state; produces whatever they want him to produce, at prices they set. Even his off-hours are spent according to state regulations.

No, that would never go here.

We're willing to work hard, but we like to farm the land our own way, put our own value on the crops, and relax as we like—if only with a temperate, companionable glass of beer.

From where I sit, collective farming may produce results. But the American way—freedom to work and relax as we see fit—is what makes this country a great place to live. So let's not change it!

The Amarillo trade trippers were well pleased with the reception they received in Wellington. Rex Baxter of the Chamber of Commerce, T. E. Johnson of The Amarillo Times and Mason King of The Amarillo Globe-News each told me that it was the largest and most cordial reception they encountered up to that time and this in spite of the fact that it was at an early morning hour. This sort of thing does not hurt our town at all, at all. Credit for the success of this reception goes to Eli Wolfe and the members of the Junior Chamber of Commerce. Of course many older business men joined in; but they are the boys who were on their toes and who are doing things for our town and trade area. Hearty congratulations to every one of them.

The excellent band of West Texas State wears exactly the same kind of band uniforms that the Skyrockets will wear next fall when they dress out in their new uniforms. If they need money for these, we ought to raise it for them. Incidentally, the colors of the Buffaloes are nearly the same as those of our more famous Skyrockets. If you don't think our Skyrockets are known far and wide, you ought to travel around a bit during the fall months.

UNITY

Paul wrote a platform of unity for all religionists of these last days.

"There is ONE body, and ONE Spirit, even as you are called in ONE hope of your calling; ONE Lord, ONE faith, ONE baptism, ONE God and Father of all, who is above all, and through all, and in you all." (Eph. 4:4-6)

As surely as there is but one Lord, there is but one body. Paul said this, not I. "He (Christ) is the head of the body of the church." (Col. 1:18) That one body is the one church, and when all mankind accept this fact it will eliminate divisions in the sense of different churches.

Among the "ones" mentioned, there is one faith. Therefore, all faiths but one are wrong. That faith is "the faith which was once delivered unto the saints." (Jn. 3) When all men accept the one faith as being sufficient, another step toward unity will have been reached.

There is one Lord. Then there is but one authority in religion, for that is the meaning of the word "lord". When man rejects all other "heads", all other creeds, and stands by the commands of the one Lord who is the "head of all things to the church," another mile of progress toward unity will have been reached.

knew was Miss Katherine Boverie. She came by The Leader office; but I was out at the time. When I learned of her visit I rounded up Clark Anderson and Luther Gribble and we hurried over to Miss Boverie's office; but Jan had already departed. There was another who missed her. John Forbis hunted up Rolly Fisher and said: "One of your old sweethearts is in town." Rolly said, simply: "Who, Jan?" That is what I call both memory and fidelity.

This week The Leader pre-

sents its annual graduation edition, which we like to get out in tribute to the work of the students, the teachers and the parents. Did you know that The Leader was the first weekly in Texas that started this sort of an edition? Budge Harle, now of The El Reno American thought up the idea of the senior series and I adopted the idea of pictures to go along with it. The next year we had a full dress graduation edition, and we have had one of some size or other ever since. Because of newspaper,

this is one of the smallest.

As a result of John T. Jones' kindness in sending it to us last week, The Leader beat both the dailies and the radio on certain important aspects of the slash in the farm program appropriation.

The Republicans may be digging their own political grave as far as 1948 is concerned in the farm program slash. I am for a continuation of soil conservation; but how much of this the farmers should do for themselves and how much the government should do is beginning to be a debatable matter. On the other hand the potato business is opening the eyes of a lot of people to what tremendous sums could be involved if too great surpluses of other crops develop. The government spent a 100 million dollars on the potato crop last year. Out of this money they managed to salvage 20 million dollars worth—a net loss to the tax-payers of 80 million dollars. The Republicans have a point on items like this.

Potatoes can not be exported feasibly; but most of the other food the farmer produces does lend itself to export. They should know that there will be a tremendous

demand for such food for months and months to come. The world's supply of food is the lowest it has been in decades and perhaps centuries. The amount of food that is leaving the United States to help feed starving Europeans has never been equalled in all history. The observers think that the prices for the majority of farm products will continue to stay up for some time.

Our banks will take on another bulge in deposits if the prospective wheat and alfalfa crops are salvaged. Before he died, Os McDowell said that it was surprising how many farmers had as much as \$10,000 cash in the bank. They are spending some on improving their houses and barns, buying new and needed equipment, practicing more soil conservation etc.; but it is a very healthy sign that they remember the land inflation following the last war and that they are saving their money.

Letters from the readers. Dear Deck: I think you should retire permanently and forever as a weather prophet in and for Collingsworth County. Last year you urged the stockmen to get their cattle out of the bottom lands on Salt Fork and Buck Creek and we

had the driest year in a decade. Last week you said that it would not rain anymore and look what happened.

A disgusted wheat raising reader

Dear wheat raiser: For goodness sake have a heart and let up on my sore back. I have been getting enough of this sort of criticism on the street. After all I was just like Al Smith on the prohibition issue that Roosevelt capitalized on so successful-

ly. I knew it was coming; but I was just a year ahead on the floods on Buck Creek. In the same way I was just a week ahead on the coming of dry weather. It would be more kind if you would say that I am a man who is ahead of the times and the weather too. But I still say it ain't gonna rain no more. Farmers can start planting now. By the time you read this you will be hollering about the wind and the dry weather.

How women and girls may get wanted relief from functional periodic pain

Cardui, many women say, has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come. Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes. Try it!

It's a BIG LOAD to carry

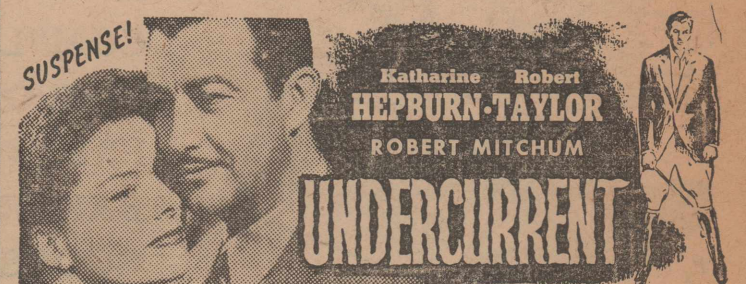

The record demands of America's telephone companies have given equipment manufacturers their greatest production problem in history. Continued shortages of raw materials, work stoppages, and other delays have slowed delivery. In spite of these obstacles, our manufacturers have made great progress and are still doing their best to meet these tremendous demands.

Our share of equipment is gradually being received. As more is delivered, we can work toward our goal of telephone service for all who are waiting.

Editorial

The most important crop this community produces will make an important advancement this week. Soil conservation is important. So are diversified farming, better livestock, better home-making and many other things that go to making life prosperous and pleasant in an agricultural community. But all these require intelligent people. That is the reason we refer to our most important crop. We refer to the coming graduation exercises of the four high schools of this area.

Our boys and girls are the hopes not only of this community but of this nation. Their graduation represents an important milestone to them. Parents and friends can play an important role in their future careers; for they are eager and ambitious and somewhat bewildered. It is a time when the right type of guidance and advice can mean much to a future citizen. It should not be pontifical nor bossy; but it should be gentle, generous and just.

A little time spent today may make you a lasting friend for life out of some young person; but how much more important it is to know that you helped make a good and useful citizen.

Hungary's hangmen went on strike because the government banned public executions. They'll be hanged if they work without an audience!

Research among people in Miami County, Ohio, discloses that country folks are crazier than city folks. Maybe so, but their names don't appear in police records as often.

Other Editors Say

• Out of State Combines

Three owners of combines from out-of-state told of the treatment they received at the hands of various Texas patrolmen after they had entered the state with their trucks heavily laden with combines and equipment.

The first patrolman to stop ascertained where they were going to stop. He cautioned them about their loads when they reached their destination.

When they neared Quanah a second patrolman stopped them. They were hauled into court and fined. The officer told them not to be irked for many others were going to be fined as they entered the state. The officer was not even going to permit the owners to haul their equipment out of the state. The combine men planned to unload their self-propelled equipment and drive it over the state line into Oklahoma and then reload it.

Wheat men in the county heard of the treatment of the foreign combines upon which they rely to harvest the grain crop and delegations waited on local officers and the newspaper. Telephone calls to Austin corrected the situation—J. A. Koch in Quanah Tribune-Chief.

• In Wake of Axis Barbarism

Of the gastly aftermaths of World War II, none is more pitiful than the plight of those survivors of Nazi concentration camps who are known today as the displaced persons of Europe.

There are around 800,000 of these victims of Hitler's cruelty, more than half of them women and children, whose only homes today are the UNRRA displaced persons camps in Germany, Austria and Italy. They have no country to return to, because their countries, as they knew them, no longer exist.

Their only hope of haven, therefore, lies, in the United States and the other nations where freedom still exists.

It is with this fact in mind that the Citizens Committee on Displaced Persons has been set up to bring some 400,000 of these people into the United States during the next three years.

This state has taken the lead in this effort in that the Texas committee of the national organization was one of the first to be organized and started functioning.

Anything that this group, or any other, can do to aid these victims of Nazi and Fascist terror, should be done—The Dallas Times Herald.

A slap on the back for people who raise seeing-eye dogs. Every litter bit helps!

Gene had two years of high school in Redondo and two years in Wellington. While attending Redondo High School, he was president of his Freshman Class in 1944, made the track team for one year, and played basketball one year. In Wellington, he has played one year of football, one year of basketball, and made the boxing team two years. Gene is the boy that was born with a great ability to box. He has become one of the most popular boys in Wellington in the short time he has been here.

Gene likes to swim, hunt, and fish. He is another one of the best sports in the 1947 graduating class. Gene's favorite subject is Biology.

After graduating, "Poncho," as he is called by his classmates plans on attending Compton Junior College, in Los Angeles, California. He plans on taking a business course and deciding later upon a professional career.

Because of his ability to get along with people and his friendliness, Gene can be expected to be a great leader and success in the field he chooses to endeavor.

Fane Eugene Derryberry

Fane is one of the war veterans of the Senior Class. He was born on October 29, 1926, in Whitesboro, Texas. His parents are Mr. and Mrs. Alvis Derryberry. Louie Gene Beam

Louie has had all of his schooling here except one year. He attended the first grade in Matador, Texas, where he lived before coming here. During his four years in High School, he has been an active member of the band, playing also, with the Brass Sextet for two years. He has participated in both the Junior Play of 1946 and the Senior Play of 1947. Confidently he stole the show in both of them. He has filled the position of Business Manager of the Annual Staff for the last two years. He has served as a very outstanding member of the Spanish Club for two years. You can plainly see that Louie has a great ability to get along with everyone.

As a hobby, Louie likes to sit at the piano and make some of the most wonderful music come from it, ever heard. He collects stamps and likes to jitterbug, too.

Upon graduating, Louie plans on attending Hardin-Simmons University at Abilene, Texas, where he is going to major in chemical engineering. His favorite subjects in High School were Algebra II, Trigonometry, and chemistry.

Here is wishing Louie the best of luck in the future, however, a person with such ability and intelligence does not need much luck, just an opportunity.

Clifton Elmer Hartman

Clifton in his solemn way has filled his place in the Senior Class very well. He was born September 20, 1929, to Mr. and Mrs. E. H. Hartman of Route 3, Wellington. Before he started to school here, he attended the Buck Creek School for four years and the Wilnolcer School one year. During Clifton's seven years here, he has been very active in the F. F. A. which he has served as secretary of that organization. His hobby is swimming, hunting, and horseback riding.

Clifton has chosen farming as his profession, and therefore does not intend to attend college.

John Edward Cooper

Johnny Cooper, the boy in the graduating class of 1947 that likes to ride horses, was born in Wild Horse, Texas, on June 22, 1930, to Mr. and Mrs. A. B. Cooper. If you have seen Johnny lately you will notice that he is carrying his right arm around in a cast. He received this injury while showing one of his classmates his ability and speed to get off of a horse. No doubt, Cooper is one of the best sports in the class.

Johnny has spent all of his school career in Wellington. In the four years in High School, he has played in the band four years, all of which he was very outstanding. He was president of the Spanish Club one year, vice-president of the band two years, and last year was Junior Class favorite.

He has also taken part in both the Junior play last year and the Senior play this year. Outside of all of this, he was president of the Freshman class in 1944. Johnny is about the most popular boy in the graduating class you can see.

Beside riding horses, Johnny likes to hunt and swim. His favorite subject is commercial law.

Upon graduating, Johnny plans to go to Southwestern Tech. He intends to major in Pharmacy and is going to build this course into a professional career.

Bobby Jerrell Jones

"Speedster", as Jerrell is known to his classmates, likes to see just how fast these new 1946 Fords will run. He seems to enjoy it too. Jerrell was born on May 18, 1930, to Mr. and Mrs. J. J. Jones of Wellington, Texas. Jerrell was born just across the Oklahoma border in Hollis.

Jerrell has gone to school here for the last nine years, all of

which he says he has enjoyed in "some ways". In High School, Jerrell has played two years of football. He has helped with the stage decoration and sound effects for both the Junior and Senior plays. Jerrell has decided to stay back another year and play football like some of the other boys. Jerrell has not decided just where he will attend college. If he decides to go to college, he plans on majoring in some form of mathematics.

Jerrell is a likeable sort of a fellow and believes in having a good time; of course, he works now and then. Here is wishing "Speedster" the best of everything in the future.

Marion Pink Mounts

In Clinton, Oklahoma, on October 21, 1929, Marion Mounts, better known as the "Wolf" of the graduating class, was born to Mr. and Mrs. W. O. Mounts.

Marion moved here from Clinton where he went to High School for two and a half years. At that time he was a very active athlete. He played one year of football, made the track and wrestling team for two years, and played one year of tennis.

At Clinton, he was a member of the Boys Glee Club and also the Mixed Glee Club for two years. He also was a member of the Trade and Industrial Club of Oklahoma.

During his year and a half at Wellington he has been very popular. He was assistant Pep Squad Leader for one year, and had a leading role in the Junior and Senior plays.

If Marion can manage to get along with people out in everyday life, that he is going to have to face, as he has in the last year and a half in High School, he has nothing to worry about.

Teddy Joe James

On June 20, 1929, to the parents, Mr. and Mrs. W. J. James of Wellington, Texas, was born the most musical minded boy in Wellington. Teddy Joe had just about as soon play his French Horn as to eat. (Don't kid yourself—he likes to eat too.)

All of Teddy's school career has been taken in the Wellington school system. While in High School, he has participated in two Junior plays and one Senior Play. He has taken a leading part in the band for four years. Played with the brass sextet for three years and with the High School Orchestra for one year. Naturally, Teddy's favorite subject is Band.

After graduating, Teddy Joe plans to attend McMurry College at Abilene. He intends to major in music. He has chosen to be a band director as a professional career.

Because of Teddy's ability and aggressiveness, one can be sure that he will be a great band director and a huge success.

'Margie' Opens at Ritz on Sunday

Everyone's home town is the setting for "Margie", the refreshingly different Technicolor comedy-drama concerning flaming youth in America's hey-heh days during the fabulous twenties, which opens Sunday at the Ritz Theatre.

Because it is always fun to conjure up adolescent recollections, Twentieth Century-Fox filmed the story of life in an average high school in an average Midwestern town. But that's all that's average. The studio put into the film glorious songs, happy youth, love and infatuation, laughter, warmth and the enchanting wonders which were prominent eighteen and twenty years ago. The lilting melodies, from "Margie" to "Ain't She Sweet" and such smash hit numbers as "I'll See You in My Dreams," "Three O'Clock in the Morning," "April Showers" and "Avalon" were added, too. And as a matter of fact, although the picture isn't considered a musical, its background of thrilling songs, according to advance reports from the movie capital, gives it the flavoring of one.

The nostalgic story stars lovely Jeanne Crain, who in a dual role enacts the part of a 34-year-old mother of a teen-age girl, and as a 16-year-old high school student, herself. But what a student! Despite her neatly braided hair, thick-ribbed stockings and a sacklike overcoat, Jeanne is adorable, even inspirational!

Glenn Langan, one of Hollywood's more recent romantic leading men, who was signed two years ago by Twentieth Century Fox, plays the part of the handsome, dashing new high school French teacher with whom Jeanne falls desperately in love. Before arriving in Hollywood, he enjoyed eight highly successful years on the Broadway stage. Also featured in the heart-warming, yet rollicking story are Lynn Bari, who portrays the high school's attractive librarian, and the top radio and stage comedian, Alan Young. In his screen debut, the 24-year-old sensational comic is Jeanne's faithful but dull beau.

SENATE JOINT RESOLUTION NO. 4

proposing an amendment to Article VII of the Constitution of the State of Texas by the addition of two new sections to be known as Sections 17 and 18 providing a special fund for the payment of Confederate pensions and providing a method of payment for the construction and equipment of buildings and other permanent improvements at state institutions of higher learning; providing for a five-cent reduction in the maximum allowable state tax on property; providing for an election and the insurance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article 7 of the Constitution of the State of Texas be amended by adding thereto Sections 17 and 18 which shall read as follows:

"Section 17. In lieu of the state ad valorem tax on property of Seven (7c) Cents on the One Hundred (\$100.00) Dollars valuation heretofore permitted to be levied by Section 51 of Article 3, as amended, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Two (2c) Cents on the One Hundred (\$100.00) Dollars valuation for the purpose of creating a special fund for the payment of pensions for services in the Confederate Army and navy, frontier organizations, and the militia of the State of Texas, and for the widows of such soldiers serving in said armies, navies, organizations or militia; provided that the Legislature may reduce the tax rate hereinabove levied.

"Also, there is hereby levied, in addition to all other taxes permitted by the constitution of Texas, a state ad valorem tax on property of Five (5c) Cents on the One Hundred (\$100.00) Dollars valuation for the purpose of creating a special fund for the purpose of acquiring, constructing and initially equipping buildings, or other permanent improvements at the designated institutions of higher learning; and the governing board of each of such institutions of higher learning is fully authorized to pledge all or any part of said funds allotted to such institution as hereinafter provided, to secure bonds or notes issued for the purpose of acquiring, constructing and initially equipping such buildings or other permanent improvements at said respective institutions. Such bonds or notes shall be issued in such amounts as may be determined by the governing boards of said respective institutions, shall bear interest not to exceed three (3%) per cent per annum and shall mature serially or otherwise not to exceed ten (10) years from the first (1st) day of January of each year in which such funds are allocated or re-allocated to said respective institutions; provided, the power to issue bonds or notes hereunder is expressly limited to a period of thirty (30) years from the date of the adoption of this amendment; and provided further, that the Five (5c) Cent tax hereby levied shall expire finally upon

payment of all bonds hereby authorized; provided further, that the state tax on property as heretofore permitted to be levied by Section 9 of Article VIII, as amended, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools, shall never exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation. All bonds shall be examined and approved by the Attorney General of the State of Texas, and when so approved shall be incontestable; and all approved bonds shall be registered in the office of the Comptroller of Public Accounts of the State of Texas. Said bonds shall be sold only through competitive bids and shall never be sold for less than their par value and accrued interest.

"Funds raised from said Five (5c) Cents tax levy for the ten (10) year period beginning January 1, 1948, are hereby allocated to the following institutions of higher learning, and in the following proportions, to wit:

"Not later than June 1st of the beginning year of each succeeding ten (10) year period, the Comptroller of Public Accounts of the State of Texas, based on the average long session full-time student enrollment for the preceding five (5) year period of time, shall re-allocate, to the above designated institutions of higher learning then in existence, all funds to be derived from said Five (5c) Cent ad valorem tax for said ten (10) year period; and all such designated institutions of higher learning which participate in the allocation or re-allocation of such funds shall not thereafter receive any other state funds for the acquiring or constructing of buildings or other permanent improvements for which said Five (5c) Cents ad valorem tax is herein provided, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the loss so incurred may be made by the Legislature out of other state funds. "Section 18. For the purpose of constructing, equipping or acquiring buildings or other permanent improvements, the Board of Directors of the Agricultural and Mechanical College of Texas is hereby authorized to issue negotiable bonds or notes not to exceed a total amount of Five Million (\$5,000,000.00) Dollars, and the Board of Regents of The University of Texas is hereby authorized to issue negotiable bonds or notes not to exceed a total amount of Ten Million (\$10,000,000.00) Dollars. Any bonds or notes issued hereunder shall be payable solely out of the income from the Permanent University Fund. Bonds or notes so issued shall mature serially or otherwise not more than twenty (20) years from their respective dates, and in no event later than twenty-five (25) years after the date of the adoption of this amendment. This amendment shall be self-enacting.

"Said boards are severally authorized to pledge the whole or any part of the respective interests of the Agricultural and Mechanical College of Texas and of The University of Texas in the income from the Permanent University Fund, as such interests are now apportioned by Chapter 42 of the Acts of the Regular Session of the 42nd Legislature of the State of Texas, for the purpose of securing the payment of the principal and interest of such bonds or notes. The Permanent University Fund may be invested in such bonds or notes.

"All bonds or notes issued pursuant hereto shall be approved by the Attorney General of Texas and when so approved shall be incontestable."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at a special election to be held throughout the state on the fourth Saturday in August, A. D. 1947, at which election all ballots shall have printed thereon:

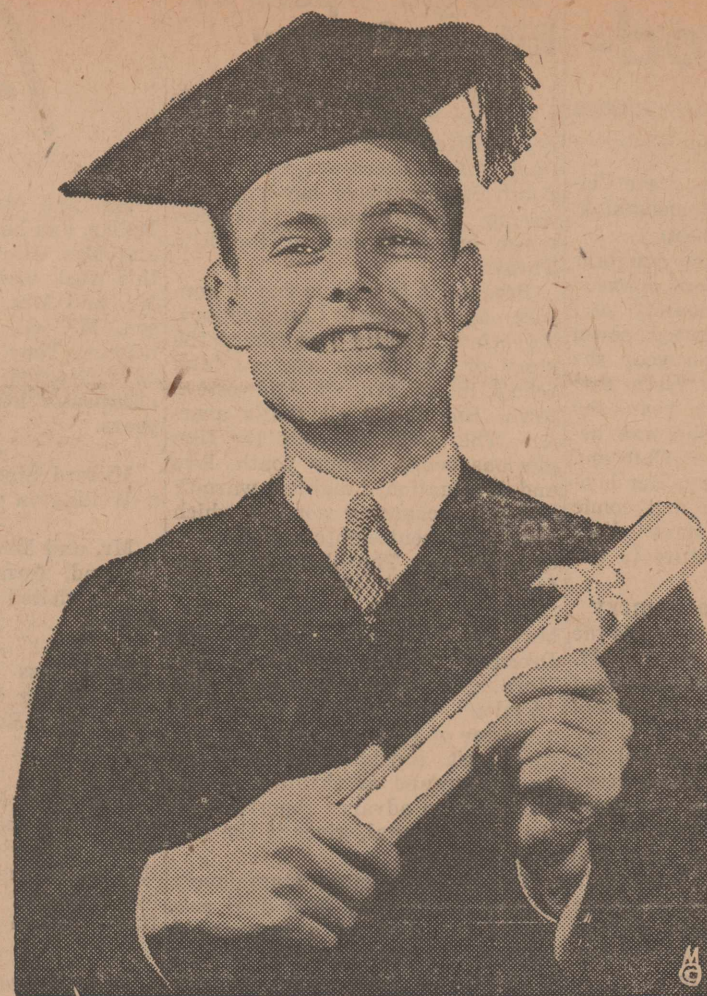

"For the amendment to Article VII of the Constitution of the State of Texas, adding Sections 17 and 18 providing for the levying of a state ad valorem tax on property in lieu of the present state ad valorem tax of Seven (7c) Cents for Confederate pensions in order to create special funds necessary for the payment of Confederate pensions and for the financing of the construction and equipment of buildings and other permanent improvements at state institutions of higher learning, in the amounts of Two (2c) Cents and Five (5c) Cents respectively; providing for a Five Cent reduction of the maximum allowable state tax on property, making such tax not to exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation; providing a method of payment for the construction and equipment of improvements and buildings at the Agricultural and

Mechanical College of Texas and The University of Texas."

"Against the amendment to Article VII of the Constitution of the State of Texas, adding Sections 17 and 18 providing for the levying of a state ad valorem tax on property in lieu of the present state ad valorem tax of Seven (7c) Cents for Confederate pensions in order to create special funds necessary for the payment of Confederate pensions and for the financing of the construction and equipment of buildings and other permanent improvements at state institutions of higher learning in the amounts of Two (2c) Cents and Five (5c) Cents respectively; providing for a Five (5c) Cent reduction of the maximum allowable state tax on property, making such tax not to exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation; providing a method of payment for the construction and equipment of improvements and buildings at the Agricultural and Mechanical College of Texas and The University of Texas."

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the constitution and laws of this state.

Sec. 4. The sum of Ten Thousand (\$10,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the treasury of the state, not otherwise appropriated, to pay the expenses of such publication and election. 46-4c

With
 Heartfelt
 Thanks

His Master's Return! Most of us know the joy in this pup's heart. Month's have passed since war's end, and with our boys and girls back home, life has taken on a new meaning.

It doesn't take a war to make us appreciate our loved ones. But today, more than ever, we yearn to express our thankfulness.

For the return of those who are unscathed, we shall be eternally grateful. For the wounded, the handicapped, we are preparing a place in industry and society worthy of their sacrifice. And for those who did not return, our hearts will always treasure the sacred memory of the young lives and noble hopes they laid upon the altar of Freedom.

There is a way each of us can show his appreciation most effectively. Our churches are the world's hope for peace! In worship we can express our heartfelt thanks to God; by living the truths our churches teach, we can build the spiritual foundation for lasting peace.
