DR. SCHENCK advises Consumptives to go to Florida in Winter.

Having for the last thirty-five years devoted my whole time and attention to the study of lung diseases and consumption, I feel that I understand fully the course that ought to be pursued to restore a tolerably bad case of diseased lungs to healthy soundness. The first and most important step is for the patient to avoid taking cold and the best of all places in this continent for this purpose is winter in Florida, well down in the State, where the temperature is regular, and not subjected to such variations as in more Northern latitudes. Florida is a point where the temperature is regular, and not subjected to such variations as in more Northern latitudes. Florida is a point where the temperature is regular, and not subjected to such variations as in more Northern latitudes.

One hundred miles further down the river is a point which I would prefer to Florida, the temperature is more even and the air dry and bracing. Merionville and Enterprise are located there. I should give a decided preference to Merionville. It is two miles from river, or lake, and it seems almost impossible to take cold there. The tables in Florida might be better, and patients complain at times but that is a good sign, as it indicates a return of appetite, and when this is the case they generally increase in flesh, and then the lungs must heal.

For fifteen years, from 1865 to 1880, I was professionally in New York, Boston, Buffalo and Philadelphia, and was successful in curing and expelling an enormous number of patients a week. A practice as extensive, embracing every possible phase of lung disease, has enabled me to understand the disease fully, and hence, my caution in regard to taking cold. A person may take vast quantities of "Schlenck's Pulmonic Syrup, Seaweed Tonic and Mandrake Pills," and yet die if he does not avoid taking cold.

In Florida, nearly all are using Schenck's Medicine, especially Schenck's Mandrake Pills, for the climate is more likely to produce bilious habits than more northern latitudes. It is a well established fact that natives of Florida rarely die of consumption especially of the southern part. On the other hand, in New England, one third, at least, of the population die of this terrible disease. In the Middle States it does not prevail so largely, still there are many thousands of cases there. What a vast percentage of life would be saved if consumptives were as early warned in regard to taking fresh cold as they are about scarlet fever, small pox, &c. but they are not. They take what they term a little cold, which they are or dulous enough to believe will wear off in a few days. They pay no attention to it, and hence it lays the foundation for another and another still, until the lungs are diseased beyond all hope for cure.

My advice to persons whose lungs are affected even slightly is, to lay in a stock of Schenck's Pulmonic Syrup, Schenck's Seaweed Tonic, and Schenck's Mandrake Pills, and go to Florida. I recommend these particular medicines because I am thoroughly acquainted with their action. I know that when they are used in strict accordance with my directions, they will do the work that is required. This accomplished, nature will do the rest. The physician who prescribes for cold, cough or night sweats, and then advises the patient to walk or ride out every day, will be sure to have a corpse on his hands before long.

My plan is to give my three medicines, in accordance with the printed directions, except in some cases where a fever the Mandrake Pills necessary. My object is to give tone to the stomach - to get up a good appetite. It is always a good sign when a patient begins to grow hungry. I have hopes of such. With a relish for food and the gratification of that - rest, come good blood, and with it more flesh, which is closely followed by a healing of the lungs. Then the cough lessens and abates, the creeping chills and clammy night sweats no longer prostrate and annoy, and the patient gets well, provided he avoids taking cold.

Now, there are many consumptives who have not the means to go to Florida. The question may be asked, is there a hope for such? Certainly there is. My advice to such is, and ever has been, to stay in a warm room during the winter, with a temperature of about seventy degrees, which should be kept regular at that point by means of a thermometer. Let such a patient take his exercise within the limits of the room by walking up and down as much as his strength will permit, in order to keep up a healthy circulation of the blood. I have cured thousands by this system, and can do so again. Consumption is as easily cured as any other disease if it is taken in time, and the proper kind of treatment is pursued. The fact stands undisputed on record that Schenck's Pulmonic Syrup, Mandrake Pills and Seaweed Tonic have cured very many of what seemed to be hopeless cases of consumption. Do where you will, you will be sooner cured by their use than any consumptive who has been treated from the very jaws of death by their use.

So far as the Mandrake Pills are concerned, everybody should keep a supply of them on hand. They act on the liver better than calomel, and leave none of its harmful effects behind. In fact, they are a substitute in all cases where purgative medicine is required. If you have a constipation, fresh of fruit and diarrhoea, a dose of the Mandrake Pills will cure you. If you are subject to sick headache, take a dose of Mandrake Pills and they will relieve you in two hours. If you would obviate the effect of a change of water, or the too free indulgence in fruit, take one of the Mandrake Pills every night or every other night, and you may then drink water and eat watermelons, pears, apples, plums, peaches or corn, without the risk of being made sick by them. They will protect those who live in damp situations against chills and fevers. Try them, they are perfectly harmless. They can do you good only.

medicines depends entirely upon their being taken strictly according to directions.

In conclusion, I will say that when persons take my medicines and their systems are brought into a healthy condition thereby, they are not to fish for a cold, yet no one, with decreased lungs, can bear a sudden change of atmosphere without the liability of a greater or less amount of the cold child to be taken.

Full directions in all languages, sent by my medicine, so explicit and clear that any one can use them without consulting me, and can be bought from any druggist. J. H. SCHENCK, M. D., No. 15 N. SIXTH Street, Philadelphia, Pa. 1-11-70dly.

WONDERFUL RAPIDITY. Perfectly Regular and Even Distribution of the Seed. Cahoon's Broadcast Seeder. For sowing all kinds of Grain and Grass Seed.

The unprecedented success of this Seeder the past season is without a parallel in the history of Agricultural Implements. The farmers of the Country have no longer got to wait in the busy of Sowing time for the imperfect process of Hand Sowing, nor for the "Slow Coaches," called "Combined Seeders."

A Hand Cahoon's Seeder will sow as fast as five, and a Power Cahoon's Seeder as fast as twelve of them, and the work will be done better than it can be done by any means whatever.

Farmers save your money and your time. Look to your own interests and not to the pockets of interested dealers and manufacturers.
