Goldwater Wins Illinois Primary By 65 Per Cent

Alabama Governor Wallace Beats Rockefeller in Write-in Count

CHICAGO (UPI)—Sen. Barry Goldwater had his first presidential primary victory today because a white-haired lady from Maine captured nearly 25 per cent of the vote he may have to wait to see how his Illinois win pays off in the White House sweepstakes.

Goldwater took Illinois' GOP primary by nearly 65 per cent Tuesday over Maine's Sen. Margaret Chase Smith in an election where all-out Goldwater hater William J. Scott was drubbed by Chicago industrialist Charles H. Percy in a bitter battle for the gubernatorial nomination.

Goldwater, jolted by a write-in upset last month in New Hampshire at the hands of Henry Cabot Lodge, hailed his Illinois victory and his campaign field directors called it a "great triumph."

Surprise Political Observers
But the results were a surprise to some Illinois political observers who expected Goldwater to pull down at least 80 per cent of the vote in this corn belt "Goldwater country." It was apparent today that more than 150,000 Republicans went to the polls to vote for governor but did not mark their ballots for any presidential candidate.

There were other surprises from Illinois and they came by the write-in route.
Alabama Gov. George C. Wallace, the Democratic segregationist with no organization behind him here, rolled up more than twice as many write-ins as New York Gov. Nelson A. Rockefeller. Wallace garnered write-ins on both Republican and Democratic ballots, but even his Republican total alone was enough to edge the New York governor.

Lodge Attracts Many
Henry Cabot Lodge led the flurry of write-in votes to take 6 per cent of the Republican vote.

Illinois Gov. Otto Kerner, running with no opposition, counted nearly as many votes as his Republican rivals did combined.

Rachel Carson Dies of Cancer

SILVER SPRING, Md. (UPI)—Author-scientist Rachel Carson, a gentle, shy woman who stirred a mighty storm with her pen, died Tuesday of cancer at the age of 56.

Miss Carson's controversial 1962 best-seller, "Silent Spring," spurred the federal government to action with a warning that man was poisoning his world with pesticides.

She touched off a Senate investigation and a government crackdown on pesticide use. The Springdale, Pa., native said that wholesale use of chemical pesticides already had caused "severe, and in some cases catastrophic" losses of wildlife, and asserted that human lives were threatened, too.

WEATHER

PAMPA AND VICINITY — Fair and warm this afternoon, to light and Thursday. Southwesterly winds 25-40 m.p.h., with blowing dust this afternoon. Highs today and Thursday, low to mid 80s. Lows for tonight upper 40s.

Midnight Tonight Is Witching Hour For Tax Payments

WASHINGTON (UPI)—Midnight tonight is the witching hour for an estimated 9 million Americans filing last-minute 1963 federal income tax returns.

The Internal Revenue Service (IRS) was braced for a flood of late returns today. It was estimated that nearly one-seventh of all the returns the IRS is expecting would pour into tax offices before the midnight deadline.

Returns must be postmarked by midnight tonight if the taxpayer is to avoid interest and penalty charges. Those prevented from filing on time for some reason may get an extension from their local tax office.

Hemphill Jury Hits County Government

CANADIAN — Two days of intense hearings into alleged improper action regarding Civil Defense equipment brought a blast at Hemphill County government as a whole by the grand jury, but no indictments were returned.

Claude W. Barker, jury foreman, presented a letter to District Judge Lewis M. Goodrich about 10 a.m. Tuesday in which he listed the feeling of jurors regarding the operation of the county's government.

The letter charged that "desirable accounting practices" had not been observed by the county "as regards civil defense property" but reported that there was insufficient evidence for criminal prosecution.

The grand jury told the judge that it did wish to make certain recommendations to the court and the civil defense director concerning future handling of such matters.

The letter to Judge Goodrich pointed out that literature is available on proper procedures and suggested that officials obtain copies of that material and maintain strict compliance in any further dealings.

Heart Disease Victim Dies In Galveston

GALVESTON (SpI) — A former Pampa man, who was a patient at John Sealey Hospital here awaiting open heart surgery, died at 9:30 a.m. today.

Leon Furgason, who had lived in Wellington for a number of years and worked as a television repairman in that city after moving to Wellington from Pampa, died before doctors could perform the surgery needed to save him.

An appeal for some 20 pints of blood to replace what was planned to be used in the heart surgery effort was made in Pampa and Amarillo by relatives of Furgason last week.

Furgason was a rheumatic fever victim and had contracted pneumonia earlier this year. Mr. Furgason is survived by his wife, Marlene and three children, Doyle, Terry and Sandra Gayle, all of Wellington; his parents, Mr. and Mrs. H. G. Furgason and a sister, Mrs. Buddy Epperson, all of Pampa; two brothers, Dwayne and J. L. Furgason, both of Amarillo.

Funeral services will be at 2 p.m. Thursday at the First Baptist Church in Wellington with burial in Wellington Cemetery.

witnesses in its two days of hearings which began at 10 a.m. Monday.

Goodrich accepted the letter and heard remarks from Barker, then dismissed the jury until later in the new term of court.

District Attorney Bill Waters said no other business was taken up during the grand jury session.

UN Troops Shoot Back at Cypriots

NICOSIA, Cyprus (UPI)—United Nations peace troops shot back at Cypriot forces today when general firing swept across Nicosia and its northern suburbs for the second successive day.

British troops using an armored vehicle rescued Miss Irene Checkley, permanent British Red Cross representative on Cyprus, when she was fired on and took shelter in a movie theater. It was not known who did the shooting.

Canadian troops prevented what they called a "half-hearted attack" this morning by an estimated 50 Greek Cypriots aimed at cutting the Nicosia-Kyrenia road at a point in the northern suburbs outside the walled city. The Greek Cypriots retreated when the Canadians threatened to shoot.

There were no immediate reports of casualties.

U.N. officials feared the fighting between Greek and Turkish Cypriots in Nicosia and the Kyrenia Mountains would spread to other points on the island.

The United Nations said British U.N. troops fired back this morning when shots were directed deliberately at their positions in the tense northern Nicosia suburbs. Greek Cypriots were said to have fired on them.

Canadian troops opened fire for the first time since they joined the U.N. force two weeks ago.

Industrial 'Dream' Becomes Real Thing

By GLENN McCASLAND

Pampa's Industrial Foundation became fact instead of a dream Tuesday night when its goal of \$200,000 skyrocketed past the mark and reached into the quarter-million dollar bracket.

A jam-packed Starlight Room of the Coronado Inn stood and cheered when Fred Neslage, general chairman, announced the campaign for investments to be used in the foundation had attracted \$250,120.

Some 350 persons listened intently as team captains from both the advance and general investment campaigns of the drive rose to make their reports to the auditor, William J. Chambliss, CPA.

George Newberry, acting for team captain Floyd Imel, was the fellow who stopped the show when he announced that his team had a report of \$10,400 to bring the drive total to \$187,086.

Neslage about jumped over the head table with the announcement. He turned to the crowd and asked, "Where's Gene Green?"

Green, general manager for the Southwest Division of the Cabot Corporation, had made a pledge that Cabot would invest \$20,000 in the foundation if Pampans raised \$180,000 first. Green was ready to make good his promise.

"I know now when you toss out a challenge to the people of Pampa, you had better be ready to back it up. I think this is a wonderful showing of faith in our community," Green declared.

Green turned a check for \$20,000 over to Neslage and told the

cheering crowd, "I know that Pampa means business. Let's keep up the good work."

The check sent the drive past the \$200,000 mark by \$7,066, according to running totals being made as the reports were conducted.

Neslage hadn't had time to recover from this report when Mrs. Clotilde Thompson, who has been working as secretary for the foundation campaign since it began, came to the speaker's platform.

"I have a little report to make," she said. Neslage replied, "You're not a team captain, but have at it."

Her report brought more cheers as Mrs. Thompson calmly announced that "a young man, who wanted to make sure you reached that \$180,000 and the Cabot \$20,000 pledge, sent this investment over by mail."

"M. K. Brown has mailed to our office his check for \$15,000 to help things along," she declared.

The figure stood at \$222,066 and it was all over but the shouting.

Reports from advance drive captains Gordon Lyons, Dr. Joe Donaldson and Paul Crossman pushed the amount still further until it reached \$249,441.

Neslage announced further investments of \$675, bringing the total within \$4 of having \$120 over the quarter-million mark.

Dr. Donaldson rose and said he had "four dollars of my wife's grocery money to round that off to even figures."

Neslage sent E. O. (Red) Wedgeworth, Chamber of Commerce (See DRIVE, Page 3)

Pampa Moves Ahead

(An Editorial)

Pampa, always a progressive city, moved into a jet-propelled era of community spirit last night when it was announced that the Industrial Foundation investment campaign ended with a quarter-million dollars in the kitty — more than \$50,000 in excess of its original investment goal.

This was a 30-day accomplishment that came about only through united effort on the part of hundreds of team workers and local investors who have faith in the city's future.

The Victory Dinner in Coronado Inn probably was the greatest thing that has happened to Pampa's civic pride in the last quarter of a century.

There was a rebirth of an unbounded urge to move ahead, to rekindle economic fires and spur citizens on to the kind of growth that has doubled the city's population in a period of a little over 15 years.

You could feel it in the air last night and this morning when the topic of conversation everywhere was the Industrial Foundation drive and its tremendous success.

You can tell that Pampa means business. The Industrial Foundation has been set up to bring new industries to Pampa. It is a revolving and perpetual fund that will help new businesses get started here.

The Chamber of Commerce Industrial Committee has its work laid out for it. The cooperation of every Pampa citizen now is called upon.

The Industrial Foundation drive leaders and the team workers have completed the job of establishing the fund. Now, these workers will throw an active, new effort into the task for which the fund was created.

With the spirit and the energy of the financial campaign kept alive, there is no question about what will come from Pampa's industrial attractiveness.

There is evidence on every side that Pampa is drawing statewide and nationwide attention because of its renewed determination to make the city one of the most outstanding spots in the Southwest.

Community pride is bursting at the seams today. This is the way it should be.

The Foundation's campaign slogan, coined by General Drive Chairman Fred Neslage, was "Think Big." It's a great slogan and should be retained. The ball is in motion. Let's all help carry it.

IT WILL BE DONE... PORT PAMPA'S INDUSTRIAL DEVELOPMENT FUND!

—Daily News Staff Photo

HAPPY VICTORS — These Pampans examine the evidence of victory in the drive to raise \$200,000 to be used in attracting new industries to the area after the Victory Dinner for the Pampa Industrial Foundation Tuesday. They are, from left, Mayor H. R. Thompson, Fred Neslage, Mrs. Clotilde Thompson, Gene Green, Calvin Fraser and Aubrey Steele. Mrs. Thompson is showing Neslage a check for \$15,000 from M. K. Brown while Green awaits his turn to hand over \$20,000 from the Cabot Corporation.

PAMPA MEANS IT MUST IT CAN IT WILL

—Daily News Staff Photo

OVER THE TOP — Fred Neslage waves checks totaling \$35,000 that put the Pampa Industrial Foundation over the top Tuesday night in its effort to raise \$200,000 in investments to attract industries into the Top O' Texas area. The checks were from M. K. Brown, Pampa leader, and the Cabot Corporation. Neslage was so excited he forgot to eat his dinner at the victory celebration held at Coronado Inn.

MacArthur's Plan On Peace Revealed

WASHINGTON (UPI) — A South Carolina congressman has revealed details of the late Gen. Douglas MacArthur's plan for world peace, said to have been unveiled at a meeting with President-elect Dwight D. Eisenhower Dec. 17, 1952.

The plan was referred to in a 10-year-old interview Hearst Headline Service columnist Bob Considine held with MacArthur in 1954. The interview was published only last week after the general's death.

Rep. William Jennings Bryan Dorn, D-S.C., told the House Tuesday that MacArthur's plan was for Eisenhower to promise that the United States would guarantee "the continued disarmament and neutrality" of

Germany and Japan. Eisenhower would make this guarantee at a meeting with Soviet dictator Josef Stalin.

Dorn said the 1952 meeting took place in New York City between MacArthur, Eisenhower, and John Foster Dulles. Eisenhower assumed the presidency the following month and Dulles became secretary of state.

Dorn said MacArthur disclosed details of the meeting two years later in a conversation with the late Rep. Lawrence Smith, R-Wis., and former Rep. Wint Smith, R-Kan.

The South Carolina congressman did not say how Dulles reacted to MacArthur's proposal. But Considine reported that MacArthur once told him that Dulles had talked Eisenhower out of pursuing the idea.

According to Dorn, MacArthur urged Eisenhower to meet Stalin soon after assuming the presidency, warning that "to delay this meeting with Stalin or to hesitate for a moment would be disastrous."

Deadline Here For Stickers

Deadline for obtaining 1964 safety inspection stickers for automobiles and trucks loomed today as the clock ticked away toward the hour of midnight.

Long lines of motorists at the official check stations were noted throughout the city today.

Officers reminded motorists that after midnight anyone without the sticker would be subject to citation by police and urged those who do not make the trip to the inspection centers do so at once Thursday.

There is no period of grace involved in the inspection stickers, the Motor Vehicle Inspection division of the Department of Public Safety reminds.

Former Governor Indicted

CHICAGO (UPI)—William G. Stratton, once the youngest member of Congress and the youngest governor of Illinois in more than a century, has been indicted by a federal grand jury for income tax evasion, it was announced today.

Stratton was charged with evading nearly \$47,000 in income taxes from 1957 through 1960, during his second term as governor.

The government charged in the indictment that Stratton had \$82,542 in unreported income during the period.

The announcement of Stratton's indictment was made by U.S. Dist. Atty. William Hanrahan. Hanrahan said he delayed announcement because he did not want to "disturb an orderly election."

Tuesday was Illinois' primary election day. Stratton, on the sidelines since his defeat for reelection in 1960, had been living in virtual retirement but was reported working quietly behind the scenes for Charles H. Percy, who won the GOP gubernatorial election.

The indictment returned by the August grand jury was returned following receipt of information supplied to the jurors by special assistant U.S. Atty. Vincent P. Russo, who was sent here for the purpose.

Stratton's name had been linked with a possible income tax prosecution last October, when his name was read into a federal court record at a hearing before U.S. District Judge William P. Campbell. However, at that time assistant U.S. Atty. Vincent Russo declined to reveal the object of the investigation.

Hanrahan said Stratton's bond would be set at \$5,000. Hanrahan said he was not certain that Stratton had been served with the indictment.

Charges of GI Denied By McNamara

WASHINGTON (UPI) — Defense Secretary Robert S. McNamara today denied charges by a returning serviceman that the actual American casualty figures in Viet Nam had been "covered up."

McNamara also said the morale of U. S. military advisers in Viet Nam was "remarkably high," considering the situation in the war-torn nation. He said the Americans were "confident of ultimate success."

The cabinet member made the comments in a letter to Rep. William S. Broomfield, R-Mich., who had questioned him about charges made by former Air Force Sgt. Alvin Morrison of Ferndale, Mich. Morrison recently returned from Viet Nam to be honorably discharged.

"There has never been any attempt to 'cover up' American casualty figures," McNamara said. "Casualty statistics, updated and published weekly, have always been available both in Saigon and Washington for examination."

A military spokesman reported in Saigon Tuesday that the U. S. casualty rate in South Viet Nam was increasing rapidly.

Teen Arrest Clarified By Official

MANGUM, Okla. — Sheriff H. D. Houck today clarified certain aspects of an incident which occurred Sunday night at the Quartz Mountain State Park in which a number of Pampa teen-agers were arrested for disturbing the peace.

Houck told newsmen that the dozen or so girls who were questioned by officers during their investigation of the incident were "not arrested nor charged."

Houck said these girls were accompanied by adults and were talked to by officers but were not involved in the incident at all.

He also said a group of boys, who also had adult supervision, were not involved in the case.

Seven boys from Pampa and one White Deer youth were fined \$10 and instructed to pay \$11 court costs.

Damages to a cabin at the state park, totaling only \$30, were also paid, Houck said, by one of the youths to whom the cabin had been rented. Two doors had been damaged along with other minor damages, Houck reported.

Houck said the investigation into the case revealed "a boy's beer party and that's all."

He said there was no other improper conduct on the part of any of the girls or boys present.

Radio Reported Stolen From Car

A transistor radio valued at \$139.95 was reported stolen some time Monday or early Tuesday from an automobile parked in the 300 block of W. Browning St.

Carl Thomas of 1136 Seneca St. told police the radio was taken while his car was parked along Browning Monday night. He made his report Tuesday. The auto was unlocked.

TICKETS OFFERED — "Are you a member of the Community Concert Association?" The first person to answer his phone with that question will receive complimentary memberships in the Pampa Community Concert Association for his entire family for the 1964-65 season. Mrs. John Horn (above), Headquarters Chairman, will begin calling numbers, drawn at random from the Pampa telephone directory, next Tuesday, the opening day of the membership drive. The drive will continue through April 24.

GRANT FOR ALLEN 1000 for an Allen, Tex., sewage treatment plant costing \$370,000.

WASHINGTON (UPI) — Rep. Ray Roberts, D-Tex., said today the Department of Health, Education and Welfare has approved a federal grant of \$105,

Drive

(Continued From Page 1) merce manager, to collect.

Then Mayor H. R. Thompson stepped to the battery of microphones and told the throng:

"This is a red letter day for Pampa. I'm sure you are as thrilled as I am at the fine job that has been done in this drive. I had no fear that you would not succeed and the progress that lies ahead is in your hands."

"This campaign and show of unity in the city has done more for Pampa than anything in a long time. Even though you have been successful, do not rest on victory, but continue to work to promote and improve Pampa and the Top O' Texas area."

Chamber of Commerce President Aubrey Steele followed Thompson to the speaker's platform and in a choked voice remarked:

"We've got the finest drive manager in Texas right here in Pampa — Fred Neslage. Without him, we would have floundered around, and with him we have succeeded just 60 days from the time the Form-O-Uth Corporation announced plans to bring their plant into Pampa."

"Everyone has done a tremendous job and can be proud of it. To the workers, I must say congratulations. Your effort has demonstrated to the people of Texas, and to the industrial world, that Pampa is united."

"Let's keep Pampa on the move. Let us continue to show Texas and the Southwest that Pampa means business."

Closing remarks to the big night came from Calvin Fraser, president of the Form-O-Uth company which is opening the garment plant in Pampa.

"I want to tell this fine group of people that I have nothing but the highest regard for the men who convinced me that Pampa was the place to expand my operation. And tonight I have nothing but the highest regard for the people of Pampa for the finest job of work I've seen in a long time."

"I admire the people because they have worked hard, long hours on completing a task they felt was good for the community and have done so in record time."

"I hope you will find my company a credit to your community and you will be happy with us. I know we will be happy with you."

Obituaries

Shirley Marlene Ford Funeral services for Shirley Marlene Ford, 6 year old daughter of Mr. and Mrs. Elvin R. Ford, 341 Jean, will be conducted at 10 a.m. Friday in the Duenkel - Carmichael Funeral Chapel. Rev. Jack Riley, pastor of St. Paul Methodist Church, will officiate. Burial will be in Fairview Cemetery.

The child died at 12:40 p.m. yesterday in a local hospital following an eight-week illness.

She was born Oct. 17, 1957 in Tulsa and had lived in Pampa for six years.

Survivors include the parents; a twin sister, Sherry; two brothers, Rodney and Roger; the grandparents, Mr. and Mrs. Roy Ford, Broadview, N.M., and Mr. and Mrs. Omer Warden, Inola, Okla.

The casket will not be opened at the service.

Special music for the program was presented by Maxine Milliron, organist, and Fred Stockdale, drums, while Allan Greer, former Panamanian who now resides in Berger, sang three baritone solos, "That Lucky Old Sun," "Old Man River" and "On the Street Where You Live."

Arthur Teed gave the invocation and Neslage was master of ceremonies for the entire program.

Vegetables Are Top Buy of Week

WASHINGTON (UPI) — The shopping outlook this week points to lots of fresh vegetables, supported by good buys of beef and eggs.

Meat shoppers will find a wide variety of the popular cuts at local markets. There'll be a good selection of poultry, veal, pork loins, beef, and lamb.

Best vegetable buys include artichokes, asparagus, beans, beets, broccoli, broccoli rabe, celery cucumbers, endive-escarole, green onions, iceberg and Romaine lettuce, mushrooms, parsley, radishes, tomatoes, onions, potatoes, turnips, and parsnips.

Top fruit values are avocados, honeydews, and Florida watermelons.

Eggs and dairy products, now seasonally plentiful, continue as good buys.

Clams, fillets, smelts, oysters, scallops, and swordfish are in good supply in the fish markets.

Cosmetics Please 'Other Women'

DALLAS (UPI) — A skin specialist told several thousand physicians recently that women use cosmetics mainly because they want to look good in the eyes of other women, not men.

Dr. John R. Haserick, of Cleveland, Ohio, also said that women who use face cosmetics on their faces are inviting acne.

Treating guests to amateur night calls for retaliation.

Dear Abby...

Tell Them You Are the Party and It's One Party

By ABIGAIL VAN BUREN

DEAR ABBY: We have a telephone and our next-door neighbors have none. When they first moved in, they asked if they could use our phone. Thinking it would be only a short while before they had theirs connected, I said certainly. It has been a year and they are still using ours. There are five of them who use it, including a teen-ager who makes one call after another, some of them lasting 30 or 40 minutes. These people can afford their own phone, Abby, as three in the family work. I've thought of taking the receiver off the hook and saying it is out of order, but I hate to lie. Can you suggest something?

B. S. M.: Some people have so much gall they should be divided into three parts. Tell these clods that you have a ONE-PARTY line — and you are the party!

DEAR ABBY: What does it mean when your steady boy friend tells you that he thinks it would be best if you dated other boys, and he thinks he should date other girls? We didn't have a fight or anything like that, and I thought we were perfect for each other. We have gone steady for five months, one week and four days. Should I break up with him for good? He is 17 and so am I.

CRYING MY EYES OUT

DEAR CRYING: Dry your tears and date others, honey. I think he has already "broken up" with you.

DEAR ABBY: Regrettably, the public doesn't know the difference between wild pigeons which fly around uncontrolled, making a mess, and the domesticated variety, which is kept under sanitary conditions and is not a nuisance to neighbors. Domestic pigeons do not carry diseases! During World War One and Two, carrier (or racing) pigeons saved thousands of lives, as they have in other disasters. Abby, if there is reincarnations, I am returning as a pigeon, and all those uniformed pigeon haters who condemn all pigeons had better watch out. You may print this, together with my signature.

BILL (WILD) FRAME,
MARION, INDIANA

DEAR ABBY: You would be doing a tremendous service if you would print in your column the answer to a question that has been the source of many harsh words in this household: What does "PERSONAL" mean on the envelope of a letter?

"D" IN TOPEKA
DEAR "D": It is a reminder that the letter is just that — "personal" — and not a community property, as mail is regarded in some households.

Get it off your chest. For a personal, unpublished reply, write to ABBY, Box 3365, Beverly Hills, Calif. Enclose a stamped, self-addressed envelope.

Gray County 4-H Bake Show Set

The Gray County 4-H Better Bake show will be held Saturday in the Court House Annex.

The baked products for this year's contest are the quick loaf bread and bar cookies. Contestants will be required to enter both products and their 4-H records to be eligible for the Better Baking Queen. However, if a contestant isn't interested in qualifying for the queen they may enter either product or both.

The judging will be done by Mrs. Dyora Jones, home demonstration agent from Moore County, and Mrs. Geraldine Mayes, home demonstration agent from Hutchinson county. Saturday morning. The entries must be in by 9:30 a.m., Saturday.

At 2 p.m. the 4-H club members will be given the opportunity to judge the products to see how well they compare to the official judges. Immediately following the 4-H judging, ribbons will be awarded. The public is invited to attend in the afternoon.

A special feature of the afternoon for those who would like to stay for it — will be the food nutrition demonstration and the share-the-fun demonstration that will be given at 4-H district elimination in Canyon on April 25.

GOAT SACRIFICE

KAMPALA, Uganda (UPI)—A group of Kampala taxi drivers sacrificed a goat in the city's central park and were heard to over a roaring bonfire when a police officer came and asked the reason for the ceremony.

"We are celebrating the death of a traffic officer who was arrested for offenses," they told the policeman, who promptly arrested them on a charge of "slaughtering an animal within the municipal boundary."

Root rot can be controlled by soil treatment to save expensive plants.

Scranton Denies Seeking Office

WASHINGTON (UPI)—Pennsylvania Gov. William Scranton off-mentioned as a possible Republican presidential nominee, said today he doesn't want to be elected President this year or any other year.

The Republican governor, a former congressman, said "There is...no compelling reason why I have to run for the presidency."

He was interviewed on a network television program (Today-NBC).

Asked if he would run for the presidency this year or in any future presidential year, Scranton said, "Don't want to do (it) period."

Scranton reiterated his previous statements that if there was a genuine movement to draft him, he might accept it. He said he has ordered his staff in Harrisburg to stop any activities which might push his candidacy at this summer's Republican convention.

USED THE ROD

ST. HELIER, Jersey Isle (UPI)—Two youths, Kevin Burke, 17, and Leslie Surbey, 18, were each given eight strokes with a birch rod Monday after pleading guilty to stealing a radio, an electric razor and \$36 from a fellow lodger in a rooming house.

Indian Tribe Plans Annual Spring Dance

SANTA FE, N.M. (UPI)—New Mexico's Pueblo Indians will begin their annual Spring dances May 1 with the San Felipe Pueblo Feast Day and corn dances.

The dances, some of which date back centuries before the Spanish conquest of the state, will continue through May at most of the state's 18 Indian pueblos.

The Taos Pueblo May 3 will hold its ceremonial races while Cochiti Pueblo near Santa Fe will hold its annual Spring corn dance in reverence to the rising waters of the Rio Grande.

Later in the month, at Tesuque Pueblo, a few miles north of Santa Fe, the Pueblo Indians will hold a week-long spring dance, from May 19 to June 4. The Santa Clara Pueblo, meanwhile, will celebrate with its annual Buffalo Dance June 8.

Beginning June 13, the Indians will shift into their summer dance schedules, geared to the annual tourist traffic in the state. The Sandia Pueblo's Feast Day corn dance near Albuquerque and the observance of San Antonio's day dances at Taos Pueblo will highlight the beginning of the summer dances.

Other dances will take place at the San Juan Pueblo, Santa Clara, San Ildefonso, Cochiti and

Paguete pueblos. San Juan's day will be celebrated June 24 at the Taos Pueblo, San Juan, Isleta, Cochiti, Santa Ana, Laguna and Acoma. At the Jemez reservation, the Indians will hold their annual

rooster pull. San Pedro's day will be June 29, and Laguna, Acoma, Santa Ana, San Felipe, Santo Domingo, Cochiti and Isleta pueblos will hold celebrations and dances.

Most of the spring dances will be closely bound to crops and religious ceremonies. They mark the ceremonial end of winter and the bi-annual changes of spiritual leadership in the pueblos.

Although mostly converted to Christianity, the pueblos have retained most of their ancient religion feast days and will combine them with Christian holidays in the spring and early summer.

The Spring dances will vary from pueblo to pueblo, but tourists are welcomed to most of the dances. The councils of most

villages, however, have placed a tabu on cameras.

The pueblos are clustered along the Rio Grande north of Albuquerque and may be reached by driving north on U.S. 85, or they are west of Albuquerque and may be reached off U.S. 66.

FAMILY RAID

BALDWIN, Miss. (UPI)—Constable Hoyle Patton had the backing of his family during a weekend raid on an establishment making illegal liquor sales. Participating in the raid as special deputies were Patton's wife, two sons, a daughter, and a son-in-law.

JETS COLLIDE

ROME (UPI)—Two Italian air force jet fighter planes collided in the air and crashed Monday during a training flight between Rome and Naples. Police said three persons were killed—the two pilots and another Italian air force officer aboard one of the aircraft.

Budget Released To British Public

LONDON (UPI)—The British people were presented today with a 1964-65 budget that drastically increased levies on tobacco and whiskey, wine and beer 10 per cent but left basic taxes untouched.

Chancellor of the Exchequer Reginald Maudling told the House of Commons his budget proposals were designed to maintain expansion without inflation.

The smoking and tobacco taxes were considered a bold government move in an election year.

Maudling outlined his proposals to a packed and expectant House of Commons in a one hour and 26 minute speech.

His tax on drink and cigarettes will hit hardest on the working man, a move that could backfire when the country votes in the general election in the autumn.

Sandies Outlast Harvesters, 8-6

By JEFF COHANE
Pampa News Sports Editor
A tired Stan Dodge finally squelched a seventh-inning rally and the battered and outthit Amarillo Sandies staggered to an 8-6 victory over the Pampa Harvesters at Optimist Park yesterday.
The Sandies grabbed a four-run lead in a nightmare first inning and never lost the edge, despite Pampa slammung out 12 hits, including a triple and four doubles.
Dodge, who has pitched 15 of

Sandy Stops Cards Cold

By United Press International
Somebody ought to tell Sandy Koufax the World Series is over, or maybe he's just tuning up for the next one.
The way he was sweating, concentrating and pitching Tuesday night, he looked as if he was still in the last one.
Koufax polished off the St. Louis Cardinals, 4-0, before a crowd of 50,451 and had the added distinction of being the first Dodger pitcher to hurl a shutout in a season opener since 1940.
Sandy, who concedes there's a possibility he can better his spectacular 25-5 record of last year when he also fashioned 11 shutouts, dazzled the Cardinals more with his control and curve last night than with his speed.
He struck out only five but did not walk a batter while giving up six singles.
Broglie Is Loser
For five innings, loser Ernie Broglie was as good as Koufax, but the Dodgers broke his service in the sixth and scored the only run they really needed when Willie Davis singled, advanced to third on a stolen base and an infield out and then came home on Ron Fairly's single through the box.
Maury Wills, who had three of the Dodgers' 10 hits, helped them score another run in the seventh and big Frank Howard clipped reliever Ron Taylor for a two-run homer in the eighth.
Apart from Koufax, only one other major league pitcher managed to go nine innings Tuesday. He was Juan Marichal, who hurled San Francisco to an 8-4 victory over Milwaukee.

Tiger Trade Wins Payoff

By United Press International
Charlie Dressen, a grand litte guy even if he does have the subtlety of a sledge hammer, wants to know whether the Kansas City A's wish to make any more trades.
Charlie isn't agitating, he's simply asking because he sure likes the last one they made with his Detroit Tigers.
Dressen put his personal stamp of approval on the deal even though it meant sending slugger Rocky Colavito to Kansas City last November.
The part that pleased Charlie was that second baseman Jerry Lumpe and pitchers Dave Wickersham and Ed Rakow came to Detroit in return.
Sitting there in the dugout, Dressen was tickled about the deal all over again Tuesday when Lumpe cracked out a triple, double and a single and Wickersham came out of the bullpen to nail down a 7-3 victory for the Tigers in their home opener with the Athletics.
Regan Tires Slightly
Even though Detroit collected 12 hits, including homers by Norm Cash and Bill Bruton, winning pitcher Phil Regan showed signs of tiring when he was nicked for a home run by Jim Gentile in the seventh and another by pinch hitter Manny Jimenez in the ninth.
Wickersham was summoned with two on and two out in the ninth to face Colavito, hitless all day. Rocky was safe on an error, one run scoring, and after a walk to Doc Edwards filled the bases, Wickersham got ex-teammate Gino Cimoli on a grounder to end the game.
Orlando Pena was the loser.
The Baltimore Orioles used a barrage of homers to hand the Chicago White Sox their first opening game loss since 1958, 5-3, and the Minnesota Twins edged the Cleveland Indians, 7-6 in other American League action. Rain washed out the opener between the Boston Red Sox and New York Yankees while the Los Angeles Angels and Washington Senators were idle.

Russians Nip Queens, 50-49

PLAINVIEW, Tex. (UPI) — The Soviet Union women's basketball team ended its five-game United States tour Tuesday night with a breathtaking 50-49 shading of Wayland College's Flying Queens.
Russian player Alisa Antipina swished a 31-second-to-go free throw after being fouled. She was awarded two free throws but missed the first one.
After that, Wayland kept the ball but could not score because of a Russian press. It was the closest game of the Russians' American tour.
The Soviet team is favored to win the women's world basketball tournament in Lima, Peru, starting Thursday. They are defending champions.
Both the Russians and the Wayland team leave today for the Lima tourney.
Four players shared scoring honors in Tuesday night's game. Skaidrita Smildzina and Riviya Salimova of the Soviet team and Betty Ransom and Rita Horky of Wayland each had 16 points.

Pampa Host To District Golf Finals

The district 3-AAAA golf champion will be decided at the Pampa Country Club Saturday, with Monterey an odds-on favorite, defending champion Tascosa given an outside chance and the Pampa Harvesters stubbornly hoping for third place.
Smiling Eural Ramsey, the Pampa links coach, admits that Monterey with a 14-stroke lead, should be conceded the crown, but points out that a blazing round by Tascosa, such as the 297 posted by Amarillo last weekend at Borger, could upset the applecart. True, Monterey shot a steady 206 the same day and would have to literally fall apart regardless of anyone else's hot score, but Ramsey maintains that on their own course, the Harvesters could have that hot round and could very well pull up all the way from sixth place to third.
Monterey is 1214 for the season going into this fifth and final round. Tascosa had 1228, Amarillo 1243, Borger 1255, Tascosa 'B' 1265, Pampa 1269. Trailing the top six are Monterey 'B' 1280, Palo Duro 1295, Lubbock 1298, Borger 'B' 1301, Plainview 1321, Caprock 1365, Amarillo 'B' 1371, Pampa 'B' 1381, Palo Duro 'B' 1389, Lubbock 'B' 1400 and Caprock 'B' 1625.
Amarillo's 297, the lowest team total of the season, topping Monterey's 298 at Plainview, shot them from fifth place to third. Ramsey pointed out that the Harvesters will pull up strongly on their home course, and, figuring that Amarillo will not explode twice in a row, Borger was not outstanding on their own course last week and Tascosa B will find it rough on a strange course, Pampa could move up to their best finish in several years.
Last week Skip Warren led the Big Green linksters with 76. Richard Ellis had an 80, George Snell 82, Grover Heiskell 83 and Chuck "Mr. Hollywood" Worley 87.
The team trophy and individual medalist honors will be presented at the end of the day's play. James Herring of Tascosa and Jay Brown of Amarillo are tied at 296 for medalist honors, trailed by James Conline of Monterey with 302.

Guidry Guides PHS Netters Over Bulldogs

JOHN GUIDRY

Sophomore John Guidry won the deciding match yesterday at Harvester courts to give the Pampa tennis team a 3-2 victory over Borger, closing out their season with an 8-1 match play record. Pampa and Borger both go to the district 3-AAAA playoffs in Lubbock Friday and Saturday.
The young lefthander dropped the first B singles set to Dale Williamson, 3-6, but then came back as the Bulldog was unable to figure out his southpaw service, and took 6-1, 6-4 victories for the deciding margin.
Vic Keyes added to the win column in A singles on sheer endurance, as he outlasted Bob Maxie in a marathon 6-4, 7-9, 6-4 set. Roy Milliron and Rick Maxie took the third win for coach "Switch" Kieval's netters, winning B doubles over Mark Payton and Bruce Lilly, 6-1, 8-6.
A doubles man Timmy Adsit was sick, and Gene Eads and Tim Eller took over, but dropped a 4-6, 1-6 match to Borger's veteran pair of Bob Abel and Ronnie Whittington. Evelyn Rogers lost A girls singles to Sharon Howell, 3-6, 3-6.

Guidry Guides PHS Netters Over Bulldogs

Amarillo got rolling with one out in the bottom of the fifth as Mickey Vaclav walked, Jim Ragland singled and Larry Jasper hit a line drive to right field. Jerry Garrison tried and failed for a shoestring catch and the ball rolled to the wall for a triple, scoring both baserunners.
Garrison promptly made up for it as he lashed a triple to left field, scoring on Rick Stewart's sacrifice fly to right. Moberg hit a two-out double down the right field line, but centerfielder Sammy Gast hauled in Shotgun Gregory's long fly ball.
Gast beat out his second bunt single with two out in the sixth and Don Howell walked. In a bit of sleight of hand which confused everybody, especially rival coach Gus Hrncir, Ray Howard had brought Garrison from the outfield to the sidelines to warm up, and sent the little lefthander in at that point.
Pampa's fielding, which, headed by Stewart and Moberg, had been outstanding, suddenly vanished completely as The Chink was the victim of three straight errors, one of his own making, to score both runners.
The Harvesters threatened in their half of the frame as Madrid doubled and Goodwin singled, but Dodge got the next two hitters on strikes, K-ing seven and walking only one during the game.
Down 8-3, the Harvesters battled back in their last at-bat. Hebert slashed a single over shortstop, and with two out, Dodge was greeted by a barrage of base blows. Gregory singled to right, Arthur doubled to left, Madrid doubled up the middle and the Big Green was only two behind. Dodge summoned the last of his strength and got Goodwin on a dribbler in front of the plate for the final out.
The Harvesters host Palo Duro Friday, PD having beaten Plainview, 4-3, in nine innings yesterday.

Glover Hurls Two-Hit Win

ROSWELL, N. Mex. (SpI) — Jerry Glover won his third game against one defeat yesterday as he hurled Amarillo College to a 12-5 victory in the opening game of a Western Junior College Conference twin bill against New Mexico Military Institute. The Badgers kept their hitting shoes on for the second game and took an 8-2 win for their third win in four loop games, making them 6-2 on the season.
Glover hurled a two-hitter and had a 6-0 lead in the third inning when the hosts came to life for four tallies behind Jim Berryman's home run. Amarillo wrapped it up with three more runs in the fourth, featured by Glover's triple, and the Pampa ace allowed only one run the rest of the way.
The Badgers host South Plains of Levelland for two games Saturday.

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself, no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Dim Future for Grownup World

Even the skeptics have to admit that the human species is a rising success in one way — biological sense.

Human reproduction in the last few decades has been so phenomenal that the population of the world today constitutes about 4 per cent of all the human beings who ever lived.

According to the estimate of Annabelle Dismond of the Population Reference Bureau, 77 million babies have been born since the advent of Homo sapiens about 600,000 years ago. If, as some scientists now believe, man emerged a million years before that the number of babies would be 96 billion.

Such numbers are too big to comprehend. Even dire predictions of billions more babies crowding into the world within the next century seem academic in Western countries, where living standards continue to rise.

Americans tend to feel themselves exempt from the population explosion, forgetting that his country has the highest birth rate of any industrialized nation. Although the rate has dropped in recent years, the absolute numbers go on soaring.

If current trends continue — a 50 per cent increase, every generation — there will be one billion Americans 100 years from now.

America, fortunately, still has many open spaces and wilderness areas where we can

Farmers' Little Helpers

In the great wheat referendum, farmers made it plain that they wanted no part of a system which would give the Government rigid control over their business in return for somewhat higher prices. The Kennedy Administration then declared that there would be no wheat bill at all.

Some, in Congress and out of it, thought this was too rough. After all, the Government had destroyed the free market over the years, and the farmers should be given some assistance until they could establish a new one. So ran the reasoning.

The farmers, who hadn't been conceded the intelligence to run their own business, had it. Wheat plantings, which were supposed to increase vastly without Government prohibitions, increased hardly at all. The farmers might have taken some lumps, but the situation wasn't as dire as Agriculture Secretary Freeman had predicted during the referendum campaign.

But things were not let alone. Congress is now considering a "voluntary" program, which is

Texas Senatorial Opposites

Texas is a land of extremes, of course. You can freeze to death and suffer heat prostration all in the space of an hour. The extremes are represented in Congress, too.

Sen. Ralph Yarborough, has scored a smashing 100 per cent in voting for measures which would increase the size and scope of the federal government.

The appraisal is not ours but that of Congressional Quarterly which is purely statistical and analytical. It has no political persuasion.

Congressional Quarterly selected roll call votes on such measures as mass transportation, youth employment, National Service Corps, manpower training and vocational training, college aid, library aid, water pollution control, medical school aid and help for the mentally retarded.

In each case the question was whether the federal government was to take a greater role than ever before in that field.

Yarborough voted 100 per cent for the increased federal programs and Sen. John Tower of Texas voted against every one.

It is interesting to ponder how democracy works. Supposedly each of these two senators represents the thinking of a ma-

WASHINGTON:

U.S. Favored The Ouster Of Goulart

By RAY CROMLEY
WASHINGTON (NEA)—Some months ago, some U.S. officials unofficially and quietly let it be known in key circles in Brazil that we would not stand in the way if President Joao Goulart were overthrown by non-Communist forces.

They strongly hinted that the United States would recognize the new government, provided it adhered to constitutional practices. They said the United States would consider sympathetically requests for financial aid from a new regime.

These American officials made it clear that a military revolt would be no barrier to recognition. But they also made it clear that the United States would take no part in a revolt or in engineering a revolt.

Overthrow of the Goulart government, they emphasized, would have to come from Brazilian inspiration and be managed by Brazilians without outside aid.

Then the United States gradually held back on aid to Goulart's government. In one way or another, Washington publicly made clear its mistrust.

The principal U.S. quarrel with Goulart: His erratic ways were driving Brazil to the rocks economically and opening the doors for a Red take-over. Brazil's officialdom was gradually becoming infiltrated by card-carrying Communists.

Goulart posed other problems: Some U.S. officials have long believed Brazil to be the key to success or failure of the Alliance for Progress. They held that no area-wide program could succeed without Brazil's active co-operation.

One Alliance official puts it: "Brazil is just too big. Its influence spreads too far. So we can't ignore it." Yet the Goulart government, in significant measure, was sabotaging the Alliance inside and outside of Brazil. Goulart's attitude toward Cuba's Castro made a strong Latin-U.S. course with Cuba impossible.

The result: America's entire Latin-American policy was in jeopardy.

The men who will now run Brazil are strong nationalists. Officials here expect no easy time in working with them. U.S. diplomats predict U.S. firms wanting to invest in Brazil will continue to have a rough time. They certainly expect no invitation to American investment in petroleum, mining and other resources.

U.S. State Department men predict Brazil's policies a word ours will often diverge. They see in Brazil a possible rival for dominance in Latin America. As one man puts it: "We may have another France on our hands."

Officials here aren't even certain that the post-revolt Brazil will take determined action to stop Brazil's runaway inflation. But they do believe that Brazil will now be a little sounder in its economic policies, that it will be anti-Castro and rougher on Communists, that it will do a little more in the way of co-operation with the United States.

"And that will be a whale of a lot of progress," says one Latin specialist.

The construction contract for CVA-67, which has not yet been let by the Navy, is scheduled to be awarded around April 28 unless the legislators can force a delay.

THE APPROACHING SHOWDOWN — Members of the Joint Atomic Committee, which issued a stinging blast at McNamara's failure to make CVA-67 nuclear-powered, are privately urging President Johnson to intervene and delay the construction contract pending further action in Congress.

Representative Mendel Rivers, D-S.C., slated to become chairman of the Armed Services Committee when Representative Carl Vinson, D-Ga., retires at the end of this session, is throwing his full weight behind the Navy's proposal.

He has notified the White House and members of the Appropriations Committee that upon assuming chairmanship of the Armed Services Committee he will go all-out in supporting the change to nuclear power.

Rivers is now trying to convince Representative Vinson to "cap" his long and distinguished congressional career by "authorizing" the use of nuclear power in CVA-67.

The Navy should never be made to sail second class," Rivers told the aging Vinson. "And, Admiral (Vinson's nickname), you are the one who should make sure that this nev-

The Last Full Measure of Devotion

Allen-Scott Report

Backstage Drive In Powerful Congressional Committee Seeks to Make Next Aircraft Carrier Nuclear-Powered

ROBERT ALLEN

PAUL SCOTT

WASHINGTON — New life is being pumped into the Navy's dormant proposal to make the next aircraft carrier a nuclear-powered ship.

Two powerful congressional committees and the chairman-to-be of a third are joining forces in a backstage drive in Congress and the administration to overturn Defense Secretary McNamara's decision to equip the next carrier with conventional power rather than atomic engines.

The legislators' first dramatic effort, designed to set off a chain reaction of support in Congress, will be a strong recommendation in the House Appropriations Committee's report on the \$0 billion Defense Department budget that the next carrier be nuclear powered.

Prepared by Representative Daniel Flood, D-Pa., ranking members, this recommendation will call on the House Armed Services Committee to "authorize" construction of the nuclear carrier so the Appropriations Committee can legally vote the extra \$126 million needed to begin the ship this year. Until this is done, the latter committee cannot appropriate the funds.

To bolster the recommendation, the Joint Atomic Committee will issue a study by the Atomic Energy Commission showing that CVA-67, a conventionally powered carrier already authorized by Congress, can still be converted to nuclear power if Congress acts this year.

The construction contract for CVA-67, which has not yet been let by the Navy, is scheduled to be awarded around April 28 unless the legislators can force a delay.

Members of the Joint Atomic Committee, which issued a stinging blast at McNamara's failure to make CVA-67 nuclear-powered, are privately urging President Johnson to intervene and delay the construction contract pending further action in Congress.

Representative Mendel Rivers, D-S.C., slated to become chairman of the Armed Services Committee when Representative Carl Vinson, D-Ga., retires at the end of this session, is throwing his full weight behind the Navy's proposal.

American Way

THE DAILY NIGHTMARE

By Harry Browne

Editor, Freedom Magazine

Would you like to contemplate a nightmare?

Imagine that the law appointed a group of childish, selfish, irresponsible men to make all of your economic decisions for you.

Not a very pleasant dream, is it?

And yet — this very day 535 such men are debating how \$2,000 or so of your family's income is to be spent.

These men bear the title "Congressmen" but they are mere mortal men — just like you and me.

They write and vote upon anti-trust laws that command large companies to quit serving their customers after they reach a certain size. They create minimum wage laws, tax rules, and pass judgment on over 10,000 economic decisions yearly.

What kind of supermen are these — who have been empowered to make such momentous decisions for the entire nation?

Childishly Angry

An Associated Press dispatch of March 14, 1964, provides the answer. It reports that congressmen from large cities were so bitter over the defeat of the bill to raise their own salaries that they vowed to kill the farm bills in retaliation.

Think about that.

The farm subsidy bills involve over \$6 billion of our money — something like \$150 per American family. The decision as to how this money of ours is to be spent will be made in a fit of anger!

Does it make you feel more secure to know that these are the men who are tinkering with our national economy — the men who can throw a million souls out of work at anytime, just by raising the minimum wage — the men who can drive 10,000 businessmen into the streets by a simple change in a tax law?

Can you imagine how many congressional investigations of industry are sparked because someone had the nerve to turn down a campaign contribution?

It's pointless to argue that these men are no more human than the rest of us. The fact that they are mere mortal men should be proof enough that they do not possess the wisdom to run the lives of 180 million people.

Yet they do run our lives.

Prover To Decide

The economic decisions of these men have brought our economy to a standstill. They have stifled incentive and created a new class of welfare artists. They have made it virtually impossible to go into business without breaking laws.

They have reconfirmed the principle that every civilization in history has proven — that no economy can be successfully controlled by any ruler or rulers. Only free men, running their own lives, can make an economy work.

We must take this awesome power out of the hands of government and return it to the people where it belongs. When a free man makes an economic mistake, only he suffers. When Congress makes a mistake, an entire nation can fall.

Unless we quickly rediscover the benefits and inherent wisdom of the private enterprise system, the childish, tempestuous acts of mortal men will ruin us all.

FASHION TRENDS

American Women Say 'No' To Style Regimentation

By GEORGE BOARDMAN

A couple of months ago I wrote a column about fashion trends for ladies and several of the more gentle readers who keep a straight book on such things discovered my predictions were quite accurate and bothered to write to ask what kind of pipelines existed between the ghost town of Chloride and the fashion centers of the world.

While it would be nice to pretend to have more sources of information than the singularly uninformed sob sisters of the press, I find it less tiring to be honest about the whole thing. I talked the situation over with the Cerbat Mountain and we arrived at certain conclusions and only our timing was a little bit off.

We're moving out of an era more rapidly than I expected and believe me, that's good. The era out of which we are now moving has been marked by pigs in the parlor, Ev and Charlie, and Adlai and Hubert doing a shuffle off to Buffalo on the steps of the White House in black face.

If a single word can be used to describe an era, the word in this case would be gauche.

The fashion designers I have known have been people of real talent. Basically, they would prefer to do the very best possible job for clients. Faced with the problem of trying to do business with noted women of poor taste, they permit themselves to be backed into a corner where they create designs in caricature, each designer trying to outdo the other with tongue in cheek.

Psychologically, they are engaged in striking back, hoping to create a violent reaction through a form of cynical ridicule. You've seen it all, ridiculously messy hair styles. You've seen the too tight, the shapeless, too short and too clumsy. You've seen feet cramped until they stick together and feet made to appear flat footed and completely clumsy.

You've seen basically well put together females following their knees around. Hundreds of thousands of women of instinctive good taste refused to buy. They stood pat, ignoring the cheap and shoddy. Doldrums and frumpiness did not touch them and this gladdened the hearts of the most talented designers who are primarily individualists.

Only recently one of the most famous of the designers in Europe unveiled his newest contributions to femininity and a dowdy reporter stated the gowns were slashed so daringly in the front as to make even the models embarrassed, a completely unrealistic bit of reportage.

A few years ago this particular designer discussed decollete from an informed point of view and said, in effect, that nothing improved the posture and dignity of a woman so quickly as extreme décolletage. As a practicing professional photographer for a couple of decades, I can attest to the accuracy of that statement.

As we move out of the pigs in the parlor era of incredible gaucherie, hopefully, take heed to this warning about a word which is being used more and more frequently — natural. Designers and manufacturers of things cosmetic can wander completely out of the world of nature until they wind up with what might be called synthetic

naturalness. True, the trend will be towards naturalness but note that both natural ugliness and natural loveliness may be emphasized. A violet tinged pink lip coloring is not natural unless the wearer is sick-sick-sick. I've never known a girl with naturally pale orange lips, for example.

So far, every attempt to regiment American females has failed. Adherents of certain religious faiths have been more inclined towards regimentation than others, but for the most part American women have been amazingly resistant towards collectivist uniformity, whereas too many males have succumbed without much of a struggle.

The latest effort is obviously doomed to failure and while this may not discourage the manipulators of the socialist conglomerate, it has certainly slowed them down to a stumbling and fumbling halt. It will take a long time before individualistic females in this country quit doing the best they can with what they have to do with and that, in my opinion, is a pleasant and scenic and always interesting plenty.

Good luck and good health to you in Freedom.

Office Cat

Salesman — Madam, are you shopping here?

The lady looked surprised, but not by any means annoyed. "Lady — Certainly! What else should I be doing?"

For a moment the salesman hesitated, then he blurted out. "Salesman — Well, madam, I thought perhaps you were taking an inventory!"

A young man who had received his diploma from a leading university had been looking around successfully for a position, for employment, and for a job. Entering an office, he asked to see the manager, and while waiting he said to the office boy:

Young Man — Do you suppose there is any opening here for a college graduate?

Office Boy — Well, dere will be, if de boss don't raise me salary to free dollars a week by termorrer night.

To be able to fool people shows a middling sort of capability.

The cony or coney is a name originally applied to the rabbit, and still sometimes used for it, notably in the fur trade. The cony of the Bible is a different animal altogether, a hoofed mammal better named the hyrax.

By LYLE C. WILSON
United Press International
Three weeks away in Indiana comes the next state-wide showdown on civil rights. Alabama's Gov. George C. Wallace is entered in Indiana's May 5 presidential primary. Wallace also will contest in Maryland's primary May 19.

The Indiana and Maryland returns will put in better perspective the results of last week's Wisconsin primary in which Wallace got about 250,000 votes, approximately one fourth of all the ballots cast. The range of the interpretation of the Wisconsin returns is both astonishing and confusing, for example: National Chairman John P. Roche of Americans For Democratic Action: "Absurdly overplayed. This time the yahoos, the old McCarthyites, worked hard and turned out all of the nuts. Many moderate sensible people just don't come out to vote in primaries."

La Crosse (Wis.) Tribune: "We believe it (the vote) showed deep and widespread concern over the sweeping powers contained in the House (Civil rights) bill. This is a matter distinct from giving Negroes equal rights."

Wisconsin State Journal: "It is incorrect to interpret the

Wallace vote solely as a protest against civil rights—oversimplification... One big factor was the displeasure of voters with Wisconsin's governor, John B. Reynolds. Some Democrats (independents and cross-over Republicans) had reasons for voting against the governor and they did."

The Madison (Wis.) Capital Times: "The result was a four to one repudiation of Wallace's position and a four to one endorsement of the civil rights bill by Wisconsin voters."

The Sheboygan (Wis.) Press: "Two questions intrigue us. First, what happened to over half of the eligible citizens who didn't bother to vote? Second, why was Wisconsin chosen for a Wallace foray? Where did we get the reputation of a gullible state, of a state that would buy a mountebank, a blatant deceiver, a salesman of hate and spleen. How did people a thousand miles away know about the naive souls among us that would try to put their anti-Reynolds thumb in the dike of an LBJ stream?"

The Milwaukee Journal: "Gov. John B. Reynolds won the presidential primary. He picked up every Democratic delegate. The people of Wisconsin gave him and Rep. Byrnes, the Republican favorite son, a three to one margin over Gov. Wallace. If this was a test of civil rights, Wisconsin is strongly on record."

The Milwaukee Sentinel: "No-body won. Where Wallace's Wisconsin vote is likely to have an impact is in the Indiana presidential primary May 5. He can go into that race armed with evidence that a significant number of northerners will vote for a Southern segregationist. Wallace will go into the Maryland primary May 19 with an opportunity to score a really impressive victory. At that point, he could begin to exert some real influence on the civil rights debate, which undoubtedly will be dragging along."

No one has suggested seriously that Wallace or anyone is likely to prevent enactment of a civil rights bill at this session of Congress. Up for grabs and guesses, however, is what kind of bill will be enacted? What amendments will be imposed on the pending legislation, and in general how will northern civil rights senators react to white opposition back home. It appears that the question now is how much rather than whether the bill will be amended.

U.S. Embassy Opens in Mexico

MEXICO CITY (UPI)—The United States embassy opened the doors of its new, \$4,500,000 marble-faced, building here today. The structure, designed by Southwestern Architects Inc. of Austin is located on Mexico's famous, tree-lined, Paseo de la Reforma, only a few minutes drive from downtown. It has nine levels, two below ground and seven above. Built with more than 50 per cent Mexican materials, the new embassy covers one half block and features arches and an interior fountain to give it the feeling of airiness traditional in Mexican buildings. Although the embassy's 526 employees have all moved in and are now serving the public from the new building, it will not be formally inaugurated until May 30, when a congressional delegation will come from Washington for ceremonies.

The Madison (Wis.) Capital Times: "The result was a four to one repudiation of Wallace's position and a four to one endorsement of the civil rights bill by Wisconsin voters."

Backache relief pills bring mild diuretic action through the kidneys

Ureter eating or drinking may be a source of mild but annoying bladder irritations—making you feel restless, tense, and uncomfortable. And if restless nights, with nagging backache, headache, or muscular aches and pains due to over-exertion, strain or emotional upset, are adding to your misery—don't wait—try Doan's Pills. Doan's Pills act 3 ways for speedy relief: 1—A wonderfully mild diuretic action through the kidneys, tending to increase the output of the 15 pairs of kidney tubes. 2—They have a soothing effect on bladder irritations. 3—A fast pain-relieving action on nagging backache, headache, muscular aches and pains. So get the same happy relief millions have enjoyed for over 60 years. For convenience, get the large size Doan's Pills today!
