Letter From Uncle Ike.

GALVESTON, February 14, 1881.—Dear Children: This morning, as Uncle Ike was going to his office, he saw a man...

much, I have got to the fifteenth chapter of Proverbs, reading the Bible; now I will ask you a question: please answer...

In a pleasant suburb on the sunny side of London there lived a married couple, whose early life had been passed in a very busy district of the borough of Southwark.

There were other things, my dear young friends, which, like the railroad, will not wait for a man or woman, boy or girl, to be kind to.

children, a father 82 years and a mother 73. God grant to them grace in the hour of trial and bring them into the haven of rest.—JAS. L. BUCKMAN.

ADAMS.—Miss Sarah Louisa Adams, daughter of Dr. J. L. and E. C. Adams, was born in Dover, Pope county, Arkansas, January 13, 1858; professed religion and joined the M. E. Church...

TURNER.—Mrs. M. E. Turner, wife of G. B. Turner, was born in Jasper county, Georgia, July 13, 1837; professed religion and joined the church about 1849, and died at her home in Texarkana, Texas, November 27, 1880.

giving liberally to the support of moral and religious institutions, and always showing a willingness to feed the hungry, relieve the distressed and administer to the wants of the poor and afflicted. He was an affectionate husband, a kind father, a good neighbor and an excellent citizen.

By faith I see him over there. With his dear child who went before. He'll meet them on that shining strand. To hasten to that beautiful shore.

H. DUDLEY COLEMAN & CO. MILLSTONES, SAW MILLS, COTTON PRESSES, ENGINES & MACHINERY.

JOHN W. WICKS, IMPROVED PLANTATION MACHINERY. Price of Gullet's improved Gin... \$1 75 per Saw...

TELEGRAPHIC SUMMARY.

The Spanish Cortes was dissolved by royal decree the 9th. The town of Monroeville, Ohio, was burned on the 17th. Loss \$100,000. The House bill making Indianapolis a part of the city passed. The New York Express denies the report that Jay Gould has bought that paper. The snow storm at St. Joseph, Mo., the 11th, has obstructed all the railroads. The house of a farmer named Wagner, near McHenry, Ill., was burned the 10th with two of his grand children. About 400 feet of the old part of the depot at Buffalo, N. Y., caved in on the 8th. Two persons were killed. The Land-leaguers of Iowa will convene at Des Moines on St. Patrick's day and consider the situation. Three spans of the long bridge across the Potomac, at Washington, were carried away by the ice on the 12th. James river at Richmond, on the 12th, was fifteen feet above high water mark, and rising. Zamacoia, the Mexican minister, and suite passed through Morgan City, the 13th, en route to Washington. Gen. Colley has called for reinforcements. This South African fight of the Boers for independence is becoming serious. All the streams near Cincinnati are overflowed, bridges are washed away and a vast amount of property endangered. The feeling among the Boers is growing stronger, and a large increase of British forces will be needed to quell their independent spirit. A Me'arger, the active Indian agent of White River, expresses serious fears of an outbreak of the Utes in the early spring. It is said that Bismarck will treat with no favor the proposal of France for an international conference on the silver question. Among the real estate transactions in New York, last week, was the sale of the late residence of William M. Tweed, on the corner of Fifth avenue and Forty-third street, for \$185,000. A collision between a passenger and construction train on the Ohio and Mississippi railroad, ten miles from Pana, Illinois, killed three men and wounded ten. The Western Electric Manufacturing company's building in New York was burned the 9th. Loss \$200,000. About two hundred men and women were thrown out of work, and the winter is terribly cold. A break in the ice above St. Louis is expected. It is delayed and the gorge of ice come down there are fifty vessels in St. Louis in danger of destruction. The French Senate adopted the bill passed by the Chamber of Deputies restricting the rights of public meetings. The coercion bill for the protection of life and property, now being processed in the House by a vote of 329 to 26. On the 8th the 20th ballot in the Pennsylvania legislature for Senator Wallace 20, Oliver 27, Gray 52, with some scattering. The Republican candidate formally withdrew. The House committee on appropriations will report favorably the bill making an appropriation for the search of the Arctic steamer Jeannette. The Senate committee on territories has decided to report favorably the bill creating the territory of Pennsylvania out of the northern half of Dakota. The La Salle Journal says that on the night of the 14th that part of the Rock Island bridge was swept away by ice and high water. The floods in Southern Ohio and Indiana have carried away bridges and houses, causing immense damage to property. The propeller City of Livingston, after drifting about in Lake Michigan three weeks, has come within two miles of Chicago and the passengers landed in the ice. An explosion on the 10th in F. C. Meaders & Co.'s coal mine at the end of the New Lincoln railroad, Ohio, resulted in appalling loss of life. Particulars not yet given. The Supreme Court of Appeals has reversed the judgment of the court which sentenced to death James Dejanette for killing his sister, Mattie Dejanette, in January, 1880. The case was remanded for a new trial. The bridge of the Macon and Augusta railroad over the Ocmulgee at Macon was washed away on the 11th. This is the second time in thirty days. A passenger and freight train of the North Pennsylvania railroad collided at Rockhill station, killing two men and fatally wounding four others. The Catholic Albanian mountaineers seized a large convoy on its way to Yozna and made the escort prisoners. This may be the match which strikes out the blaze of war. Nearly all the mills at Maryknoll, on the Schuylkill, were carried away by the floods on the 11th. Damage estimated at \$100,000. A convention of California farmers resolved to form a wheat-growers' association, for protection against middlemen, and establish an agency at Liverpool. It is asserted at Berlin that Bismarck has consented to take a leading part in the negotiations with Turkey relative to the Greek frontier. Advice from Panama under date of the 3th announce the arrival of French engineers to begin work on the Panama canal. Surveying parties are ready for the ladies. A Ladies Land League meeting was held the 13th in Claremont, Miss. Parnell proposed the establishment of a ladies land league in every parish as a protest against Davitt's arrest. The steamers which sailed from New York for Europe, February 12th, carried full cargoes of cereals, live cattle, merchandise, and \$150,000 of American and Mexican silver. The police of New York city and excise commissioners have been in conference for the suppression of low drinking saloons, and dealers whose places are under the tongue of ill-repute will have their licenses withheld. The Baroness Burditt Courts and Ashmead Bartlett were married at Piccadilly the 12th. As the Baroness survives several millions of dollars by this marriage, it is presumed that it is a genuine love affair. This possibly is the reason why it causes such consternation in English high life.

The Greek minister of war on the 8th informed the Chamber of Deputies that the army numbers 54,000, and that the reserves shortly to be called out will swell the number to 100,000. Postmaster James, of New York, it is said, has the refusal of the Postoffice Department under Garfield, but he has not yet signified whether he will accept or not. A terrific southwest storm struck Pass Maniche the morning of the 9th, sweeping away every building including depot and telegraph offices. No lives lost, but the people have lost household effects and provisions. On the 9th the water was still rising at New Orleans. Skills and sail boats were in place of the ice over the flooded districts. A relief committee has been organized to supply food to the people in the overflowed districts. The overflow at New Orleans had not abated the 12th. At least 10,000 persons have been supplied with food by the relief committee. The Jackson and New Orleans railroads have been badly damaged. On the 12th Warren, Ohio, was inundated and boats were moving the people from danger. The Tuscarora valley is under water; a large portion of Toledo is accessible only by boats. A part of the iron railroad bridge is carried away. Great damage has already been done shipping. The railroads approaching Toledo are suffering great damage. On the 12th Mr. O'Donnell a home ruler moved to omit treason from the list of crimes, for which suspected persons could be arrested under the coercion bill as there was no evidence of treason in Ireland. Mr. Law the Attorney General replied that documents had been found indicating a treasonable conspiracy, and Mr. Foster confirmed the statement. O'Donnell's amendment was rejected. The news of the capture of Lima by the Chileans is at last confirmed. The flag began to fly on the 13th. The Lima troops made a brave fight but were surprised by an attack made under the cover of a dense fog, and never recovered. The city was in the hands of the Chileans the 15th. It is understood that the Pope purposes addressing another letter to the Irish Bishops shortly enjoining them not to oppose the execution of the measures taken for the government of Ireland. The national press of Ireland denounces the arrest of Mr. Davitt, but their tone is evidently more subdued than heretofore. Still they advise the land-leaguers to stand firm as to their fight would be more acceptable to the government than their arrest. Two regiments of infantry, two of cavalry and a battery of horse artillery have been offered Gen. Colley, with which to conquer the Boers. He accedes to the request of infantry and artillery and the battery. A large anti-coercion meeting was held the 12th in Hyde park, London. Speakers said radical workmen had raised Gladstone to power and he would be deposed by them. The meeting was orderly but determined. In the Senate, on the 11th, a bill was introduced, authorizing the President, whenever he shall deem preparation for the international exhibition of 1881 have been made, to invite participation of foreign nations; to provide there be no objection to the result. Mr. Hoar offered a resolution instructing the judiciary committee to consider and report whether the sending of large bodies of organized and armed troops, and under the command of the officers of the United States or any national authority, be likely to prove in future a dangerous precedent; and whether any legislation be desirable. It was laid over under the rule. On the 9th the vice-president and speaker of the House appeared in the House of Representatives and the electoral vote for president and vice-president was counted. A large audience filled the galleries and seats on the floor of the House. The vice-president called the roll of the names and announced the purpose of the assembly. Senators Thurman and Hamlin were appointed tellers for the Senate and Mission House and Crowley for the House. After the count was completed Mr. Thurman announced the result. The number of electors, 368, of which a majority is 185, were the vote of Georgia east on the second Wednesday of December, 1880, being the eighth day of said month, counted the result would be for Jas. A. Garfield for president, 214 votes; for Winfield S. Hancock 155. If not counted the result would be for Garfield 214 and Hancock 144. In either count Jas. A. Garfield has the whole number of electors. Mr. Hamlin then made a similar statement of the vote for Vice-President. The Vice-President then declared Jas. A. Garfield elected President and Chester A. Arthur Vice-President of the United States. On the 6th, the speaker of the House of Commons presented the rules to govern common urgent business. They provide that when, in the opinion of the Speaker, it is the general sense of the House, that any debate should close, he is empowered to inform the House of his opinion; whether the question be now put, such motion shall be immediately put, and if carried by a vote of 2 to 1, their decision on the main question shall be immediately taken. All other rules shall be in effect that speaks on a motion for adjournment of debate shall be strictly confined to the subject of adjournment; that the speaker may decline to put motions for adjournment if he considers that they do not disorder the business of the House; that no member can move or support a motion for adjournment in more than one debate; that the speaker may direct a member to discontinue his speech if he is not satisfied with his remarks; that no member shall be taken on motions, that the speaker do leave the chair; that the House do now proceed to consider the bill, and that the speaker may order a division by rising and sitting, so as to avoid the delay of the present existing rule; that the rules will be applicable when the House is in committee, with the exception of that one providing for closing the debate. In answer to inquiry, Mr. Foster said the Irish protection bill would apply to foreigners. A cough, cold or sore throat should be stopped. Neglect frequently results in an incurable lung disease or consumption. Brown's Bronchial Troches do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, giving relief to asthma, bronchitis, coughs, catarrhs and the throat troubles which singers and public speakers are subject to. Sold at 25 cents a box every where.

RELIGIOUS SUMMARY. A revival is reported in Leadville, in the Methodist church. One-fourth of the population of Wisconsin are said to be Catholics. Six Presbyterian churches in Chicago are vacant and another is likely to become so. A strong effort is being made to effect a new compact prohibition organization in the State of New Jersey. The Evening and Chronicle is quoted as saying that outside of Baltimore there is not one self-sustaining Baptist church in Maryland. During 1880 the Presbyterian hospital at Philadelphia treated 536 patients. Its receipts were \$44,080 and its expenses \$44,275. The Bible has been taken out of the public schools at New Rochelle, New York, in obedience to the demands of the Catholics. The whole number of bishops in the American Episcopal since its establishment has been one hundred and twenty-seven, of whom sixty-seven are living. The American Bible Society in its statement of receipts last year acknowledges among its legacies the bequest of \$90,472 from the estate of W. L. Devoto, late of New York. An effort is being made by the Evangelical Alliance at St. Louis to secure a better observance of the Sunday law of that city. As in others regions the liquor dealers are the chief offenders against the law. The Appeal, one of the organs of the Reformed Episcopal Church, says the statistics for 1880 show a greater increase of members in that denomination than any preceding year. The North India annual conference held at Bangalore, on January 5, in Bangalore. The work has not marked success during the past year, in that field. In England and Wales the Christian communicants estimated at 3,000,000, and the average Sunday attendance at places of worship at 10,000,000. The Baptist have at Telegraph Hill, California, a university in which last year forty Cherokee and Choctaw Indians were educated. The Southern Baptist Mission Society has contracted for the erection of nine spacious buildings at a point within the Choctaw lines, sixty miles southwest of Mississippi. We see it stated that one of the Presbyterian churches in Memphis, which before the yellow fever plague had a membership of 1,200, now has only five. They died with the fever or died, not to return. The next general conference of the United Brethren will be held in May, 1881. This is the highest judicial legislative body in that denomination. The Tabernacle Congregational church, of New York City, has a membership of 1,027. Its income from pew rents last year was \$36,187 50. Its contributions for various purposes were \$12,293. Rev. Dr. F. J. Johnson, a leading Wesleyan minister who has labored in the country in 1856 as co-delegate with Rev. Dr. Hanna to the Northern Methodist Conference died early in January. Thirty thousand out of forty thousand townships in France are said to be open to Evangelical preaching. Bibles and Evangelical tracts are found everywhere. A Chinaman was admitted into the Methodist church in Virginia city. He is much interested in behalf of his countrymen. A class of between fifteen and twenty Chinese in this town are earnestly studying the religion of Christ. Rev. Joseph Cook is soon to visit India and open his batteries on the philosophical infidelity in which the learned classes of that region are entrenched. There are at present 250 Christian churches in Burma, and nineteen-tenths of the work of evangelization is in the hands of native teachers. In Shan \$25,000,000 is spent annually to support the Buddhist priesthood, being four times as much as is given to christianize the heathen world. Seventeen Mormon elders left Utah recently on an missionary tour to Georgia, Tennessee, Alabama and other States. Every fully will find a following. The Baptist year-book now passing through the press claims for that denomination a membership in America of 2,296,233, and the increase during the year was 163,293. Ten years is the average of the period missionaries are able to labor in foreign fields. Many die early, yielding to the effect of change of climate. A few only have spent fifty years in active service abroad. The "sacred tooth" of Buddha, which was his body was burned, is now in Kandly, Ceylon. When exhibited an immense throng gathered round a row of kneeling devotees. There are seventeen protestant churches organized in Japan, the oldest of which numbers only eight years, and most of them are only four years old. These facts mark the rapid advance of christianity among that wonderful people. Rev. John Ross, of the Scottish United Presbyterian Church, has translated the New Testament into the Korean language. Already four Koreans of the territory class have been baptized. The total contributions of the South Chicago Southern Methodist Conference amounted to \$132,453, or four dollars and ten and one half cents per member. Mr. Roney, of Illinois, an anti-temperance and anti-temperance orator, in his eighty-third year, has been converted and is now a Methodist preacher. There is a chance for Ingels per. Father Curci, a leading Italian ecclesiastic, who it is said stands high in the confidence of the Pope, recently said: "At the present time all the church has to do is to preach Jesus Christ and the religion he founded; to let the world be converted to his will, and let the world be a wise man is Father Curci." The number of religious denominations in England and Wales, including the established church, are 170, with 45,000 houses of worship, and between 14,000,000 and 15,000,000 sittings. The clergy number about 26,000, of whom 13,000 are non-conformists. Rev. N. M. Woods of Norfolk, Va., has received a call from the First Presbyterian Church at Galveston. We understand he has been accepted. He visited the city and both church and minister are well pleased with each other.

It is estimated that six hundred thousand people die every year under the curse of alcohol. This is more terrible than the most destructive of modern wars. These men have a money value. Political economists estimate the productive value of an able bodied man at six hundred dollars. Thus liquor destroys in these 600,000 men a productive value equal to \$36,000,000. The Chicago saloons are three thousand in number, and pay a license of \$50 each, which aggregates \$150,000 per annum. The police force of Chicago which finds its chief employment in watching the saloons and arresting drunken disturbers of the peace costs Chicago \$600,000. How much does Chicago make out of its saloons? The Chicago saloons in Bangor, Maine, adapted resolutions calling on the officers to execute the liquor law. Bangor is the only place where the Maine law is not enforced in that State, and the evils which follow the liquor business are so apparent that the officials meet the strong disapproval of law abiding men. A building specially devoted to Sunday school work is being erected at a cost of \$5,500 by the Baptist church in Dunedin, New Zealand. The geographical position of New Zealand in the heart of heathenism. It is now becoming one of the centres of the Eastern Oceanic christianity and civilization. Three years ago there was only one church of the Presbyterian name with nine members in all situated in Dakota. Now, one county, Moody, reports fourteen churches, ten ordained ministers and four church buildings in process of erection. This indicates the rapid growth of that State, and also that christianity keeps up with the increasing population. Rev. Samuel N. Irving went out as a missionary among the Iowa and Sac Indians beyond the Missouri river. He returned a few years ago to rest, and has now returned with his burden of seventy-three years upon him to spend the remainder of his life among the same tribes in their new reservation. The Methodists of India have introduced the camp-meeting into that region. Most of the preachers and teachers, with many of the older boys and girls of the schools, were present, besides many other classes, making an audience during the meeting of from 500 to 700. There were present three hundred women and girls, who were educated and intelligent, and this in India where it is not thought worth while among the natives to teach a woman to read. The Creek Town congregation, South Africa, under the charge of the Mission of the Scottish United Presbyterian Church, recently sent to market palm oil valued at \$1,800, to pay for their new church building. In all they have paid \$4,475. King Ergo has ordered that the children shall go to school. Christianity and education go hand in hand. In the last forty years one hundred and twenty missionaries have fallen victims to the climate of Africa, but converts in that darkened land number thirty thousand. In the Gold Coast district the converts number six thousand. And yet more missionaries volunteer for the work than the church can send. In the revised New Testament shortly to appear the Lord's Prayer in Matthew is made to read thus: "Our Father which art in heaven, hallowed be Thy name. Thy kingdom come. Thy will be done, as in heaven, so on earth. Give us this day our daily bread, but forgive us our debts, as we also have forgiven our debtors. And lead us not into temptation, but deliver us from the evil one." The doxology is omitted. The Catholic Review recently printed an address of the Pope to the cardinals in which he complained that the Holy See is despoiled by the usurpations of its civil power. One particularly of the publication was the fact that the pronouncements referring to the Pope were in capitals. This honor, which hitherto only had been conferred on pronouncements referring to the Almighty. Rev. W. A. Hallack, D. D. who died recently in New York at the age of eighty-seven years, has been called the father of the American Tract Society. He was one of the original movers in the enterprise in 1826, and lived the remainder of his long life to its interests. Shiell's Catarrh Remedy. A marvelous cure for catarrh, diphtheria, cancer mouth, and headache. With each bottle there is an ingenious nasal injector for the most successful treatment of these complaints without extra charge. Sold by C. W. Preston & Co., druggists, 180 Market Street, Galveston, Texas. Answer This Question. Why do so many people seem to grow around us seem to prefer to suffer and be made miserable by indigestion, constipation, dizziness, loss of appetite, coming up of the food, yellow skin, when for 75 cents we will send them Shiell's Vegetable, guaranteed to cure them. Sold by C. W. Preston & Co., druggists, 180 Market Street, Galveston, Texas. Shiell's Consumption Cure. This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while it's wonderful success in the cure of Consumption is unparalleled in the history of medicine. Since its first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a cough we earnestly ask you to try it. Price 10 cts, 50 cts, and \$1.00. If your Lungs are sore, Chest or Back lame, use Shiell's Plaster. Price 25 cts. Sold by C. W. Preston & Co., druggists, 180 Market Street Galveston, Texas. DR. J. A. SHERMAN AND THE ONLY DR. SHERMAN, known to the public for the past 35 years or more for his successful method of treating Rupture without the knife, and which may be considered the most perfect and safe method known, will attend the 20th of December, after that at his New York office. Office address is in the St. Louis city newspapers. Mr. J. A. Sherman, at Law, Kent Union Co., Iowa, treated by Dr. Sherman at the St. Louis office, writes: "Having used your Rupture treatment, and having been permanently cured, I have spoken highly of its merits and recommended it to my friends." Dr. Sherman is the discoverer. If the only known cure for Rupture by local external treatment. No man is safe who has Rupture, no matter how insignificant it may consider it, for every man who has Rupture has in his body a hidden danger, and it is a matter of time before it will become a serious and life threatening ailment. It is steadily progressive, even to death, and he is who takes the necessary steps to be effectively relieved of it before the day of suffering and gloom comes upon him. Patients from abroad can receive treatment and leave for home same day. During treatment any kind of active exercise or labor can be performed without interfering with the treatment and with safety from the dangers of strangulated Rupture. HIS BOOK ON RUPTURE gives the most reliable proofs from distinguished professional gentlemen, clergymen and merchants of his successful practice and popularity throughout this country and the West Indies. The illustrated work is a most interesting and profitable treatise. It is illustrated with photographic likenesses of extremely bad cases before and after cure, and mailed to those who send in 25 cents. DR. J. A. SHERMAN Broadway, corner Murray Street, New York, and 43 Milk Street, Boston Beware of confidence men and impostors who represent themselves as Dr. Sherman.

JACOBS OIL THE GREAT GERMAN REMEDY. The Man who lost \$3000! The Man who lost \$3000! The Man who lost \$3000! CHICAGO TRIBUNE. Everybody living on the south side knows J. D. L. Harvey, Esq., who has been a resident of Chicago for over 20 years. The Police Market, No. 104, 105 and 106 Twenty-second street, is probably the finest of its kind in the city. It is a great success in business. It is a success to the aristocratic families of that section of Chicago. Mr. Harvey expressed himself on the oil subject as follows: "I have spent over \$200 to cure my wife of rheumatism. Two bottles of Jacobs Oil cured her. It is a success to the human race, and I am very glad to have this opportunity of testifying to the fact. I can not speak too highly of it, and would be glad to see it in the hands of every afflicted man and woman in this city."
