Mussolini And Hitler Complete And Seal Friendship Alliance "For All Time"

Prosperity For Two Countries Said Assured

Mutual Aid In The Remaking Of Europe Expected; Climax Of Week's Visit Is Reached

(By The Associated Press)

ROME, May 7—Benito Mussolini and Adolf Hitler "completed and sealed" their alliance tonight in an exchange of fidelity toasts at a formal state dinner in Piazzo Venezia.

The Fuehrer guaranteed "for all time" the Alpine border between Germany and Italy.

Frontiers To Remain

"It is my unshakeable will and also my political testament to the German people," he declared, "to consider inviolable for all time the frontiers of the Alps erected between us by nature.

"I am certain that for Rome as well as Germany there will result a future that will be glorious as well as prosperous."

(Germany extended her territory to Italy's northern border March 13 when Hitler annexed Austria.)

Visit Reaches Climax

The dinner brought to a climax a week's visit filled with military demonstrations, pageantry, and political discussions whose import the world probably will not know until time discloses them.

The short speeches of the two dictators lacked concrete details of what they intend to do about Czechoslovakia, where a nazi German minority is clamoring for autonomy, and other problems said to have been discussed.

But their blanket reaffirmations of the solidity of the Berlin-Rome working agreement was interpreted as an indication they had struck a bargain with respect to each other's interests and would give each other mutual aid in the remaking of Europe.

Understanding Sealed

Equally straight - forward fascism's Duce told naziism's Fuehrer:

"Your visit to Rome completes and seals the understanding between our two countries."

He pledged fidelity to the Rome-Berlin friendship, saying fascist Italy "knows but one ethical law" of friendship, which was to march with a friend to the finish.

"Duce," Hitler declared to Mussolini, "just as you and your people have remained true to your friendship for Germany in the decisive days, so I, too, and my people are ready to manifest the same friendship to Italy."

Throngs Are Saluted

Following the banquet, crowds in the Piazzo Venezia called for the two dictators to appear on Mussolini's famous balcony.

Der Fuehrer and Il Duce stepped out several times to salute the throngs below.

Hitler appeared in his customary brown uniform, decorated with an iron cross. Mussolini wore the garb of a commander of fascist

Lions Expect Record Attendance For Convention

Lions Officials

JOE POND
District Governor, Big Spring

WALTER DEXTER
1st Vice President,
Lions International

Big Program Is Being Arranged For 500 Guests

Registration To Open Today And Convention Will Close Tuesday; Interest Shown

ALL Texas records for Lions club conventions are expected to be smashed when district 2-T registers beginning at 2:30 o'clock this afternoon in Lubbock and Hilton hotels for a three-day session.

Approximately 500 delegates are expected, said W. H. Evans, president of the Lubbock club.

Program Is Arranged

An elaborate program of entertainment and business has been arranged.

"From the district bordered by El Paso on the southwest, Dalhart on the north, Paduach and Anson on the east and to the western boundary of Texas, we expect the greatest crowd ever to attend a Texas Lions club convention," said Evans.

"Interest in selection of a host city for next year and of a district governor is expected to match the size of the crowd. We have learned El Paso, joined by Juarez, has decided to ask for the next convention, and rumors have it a club on the North Plains will put in a strong bid. That city will be either Pampa or Amarillo, it is believed.

Anson Man In Race

"For district governor, it confidently has been said Omar Burleson of Anson will run, and Matador has launched rumors a candidate will toss in a hat from that club."

Chairman Robert H. Bean of the Lubbock general arrangements committee has arranged a program that will "keep visitors on their toes every minute."

Lubbock was host six years ago to the first 2-T convention. Since Texas has become so populous it has been deemed of value to eliminate the state convention and since that state has been divided into five districts, Lubbock Lions say they believe all marks for attendance will be broken and that no Texas Lions convention this year will match it for number of representatives.

"Another thing," said Evans, "we have had the greatest pre-convention acceptance of invitation ever

He Just Wanted To Get The Job Done Up Right

(By The Associated Press)

PONTIAC, Mich., May 7. — "How much does it cost to beat a man up?" an irate resident asked Assistant Prosecutor Samuel Patterson.

Patterson said there was no prescribed fine.

Later the man, wrapped in bandages, returned to announce he had taken care of the beating.

Patterson explained there would be no charges unless the victim filed complaint.

"I'll make the complaint for him," replied the fighter. "He ain't able to."

El Paso Takes Top Honors In One-Act Play

(By The Associated Press)

AUSTIN, May 7. — El Paso high school won the Texas Interscholastic league one-act play contest today with Breckenridge second and Lamar of Houston receiving honorable mention.

Future Farmers Hold Contests Here Saturday

Winners In Various Divisions Announced; State Meeting To Be Staged At Huntsville

APPROXIMATELY 300 boys and their sponsors from the nine districts of area 1, Future Farmers of America, met in convention and for contests Saturday at an annual contest to determine winners to be sent to a state contest.

Chapters select winners, send them to district competition, thence to the area meeting. The state meeting will be at Huntsville in June.

Seventy Represented

Approximately 70 delegates from 69 chapters of the area were represented in the six leadership contests.

Winners of the chapter conducting contest were, in order, Frenship, Sudan, Clarendon, Lorenzo, Perryton, Claude, Anton, Plainview and Bovina. Slaton won the junior chapter conducting contest.

The winning Sudan club was announced as: Frank Revier, jr., president; Warren Liner, vice president; Allen Birchfield, secretary; Jr H. McWhorter, treasurer; Rex Lee, reporter; Melvin Simmons, Watchdog; Harold Robertson, first conductor; Rufus Moore, historian; Bill Casey, parliamentarian; Kenneth Berry and J. L. Gamble, greenhands, and L. M. Hargrave advisor.

Farwell Is Victor

Winner of the one-act play contest was Farwell, with Plainview and Floydada following in order named.

Lorenzo won over Quail in finals of the debate, after Quail had beat Lubbock and Lorenzo had won over Post in semi-finals; in the first round, Dimmitt last to Lubbock, Crowell to Quail, Olton to Lorenzo, and Miami to Post.

In public speaking, first place went to Meadow, with other clubs in order being Friona, Ralls and Dimmitt (tie) and Lubbock and Chillicothe (tie), Quail and Littlefield.

In extemporaneous, Reid McLaughlin of McAdoo was first, Keith Kivlenhen of Miami second, Ar-

All-Time High Expected For Coming Year

Harry L. Hopkins Pleads For Passage Of Roosevelt Plan To Spend Billions For Aid

(By The Associated Press)

WASHINGTON, May 7. — WPA rolls may reach an all-time high next winter and the government's public works and relief programs cost $2,000,000,000 more than the budget bureau estimated last January, Harry L. Hopkins predicted in testimony made public today.

The Works Progress administration painted this picture before a house appropriations subcommittee during hearings on President Roosevelt's big lending-spending program. House debate on the heart of that program is scheduled to begin Tuesday.

Funds Are Asked

Hopkins proposed that funds be provided for WPA employment of as many as 3,100,000 persons next winter. That would be more than WPA had on its rolls at its previous peak —3,035,852 on February 29, 1936—and would compare with a low mark of 1,400,000 persons last October 2.

Even if business comes out of its present slump shortly, the WPA administrator said, families thrown out of work before the upturn would reach the end of their own resources and increase the relief load.

Billions Are Asked

In contrast to the budget bureau's original estimate of $1,000,000,000 for relief in the fiscal year starting July 1, the president has asked appropriations totalling $2,062,000,000 for relief and public works. Of this WPA would get only $1,250,000,00, however — enough to finance it until February 1, 1939.

Hopkins told the subcommittee an additional $1,000,000,000 would be required to carry WPA through the remaining five months of the next fiscal year if the load were projected on the same basis as for the first seven months.

From Daniel W. Bell, acting budget director, the subcommittee learned that the additional appropriations might cause a federal deficit of $3,722,000,000 for the fiscal year starting July 1. In other words, they might make federal outlays for the year exceed federal income by that amount.

Although Bell said it might be

Two Are Killed In Plane Crash

(By The Associated Press)

SEATTLE, May 7.—Two women were killed late today when a seaplane piloted by Bradford Washburn, jr., Harvard geographer and explorer, fell into Lake Union. Washburn escaped.

The victims were Mrs. Ome Daiber and Miss Dorothy Mathews of Seattle. James Borrows, also a passenger, was reported to have escaped. The plane was attempting to alight on Lake Union, which is within the city.

On Way To Alaska

Washburn was visiting here enroute to Valdez, Alaska, where he planned an attempt to climb 13,250-foot Mount St. Agnes. Last summer he and Robert Bates, Philadelphia, were the first persons to scale 17,150-foot Mount Luciania.

Washburn's Alaska trip was sponsored by the National Geographic society.

The coast guard dragged for the plane, which sank on nosing over and the women's bodies were recovered from the submerged cabin when the patrol boat raised the plane an hour after the accident.

Old Trail Days Being Recalled

(By The Associated Press)

The height of the Texas cattle shipping season has been reached with estimates of 650,000 head moving to midwest fattening lands—not over the romantic cattle trails of old, but in fast freights which even sidetrack passenger expresses.

This season's movement has been slightly heavier than the 10-year 1925-1934 average of 645,000. Last year some 932,000 head of Texas cattle were shipped to pasture.

Change From Old Days

From the range around the Caesar shipping pens, near Kingsville, in South Texas, to the northern grasslands is 1,000 miles. Fifty years ago the cattle drives took up to six months. Today bellowing herds in cattle cars go from range to fattening farms in 36 hours.

In the old days cattle from the King ranch area, as well as from other large ranches of the brush country, trekked across the San Antonio river, to Austin, west of Fort Worth and across the Red river northward to Abilene and Dodge, Kan. The Chisholm trail was the principal route.

Trail driving was an aftermath of the Civil war when cattlemen were seeking a market for thousands of longhorns. In the middle

Heavy Damage Reported As Rain And Hail Hit State

(By The Associated Press)

HOUSTON, May 7.—Wind, rain and hail battered sections of Texas today as squalls swept the eastern portion of the coastal plain.

Heavy damage to crops in the southeastern section was feared after torrential rains had flooded lowlands and farming sections, and tributaries of the major streams rose.

Heavy Rain At Houston

Low hanging clouds dumped more rain on the coastal section at nightfall. Houston recorded 6.46 inches of rain in a 24 hour period and other sections of Southeast Texas reported subsequent hard rains.

Five men, feared lost in rough seas and high winds that buffeted the coastline last night, were found safe today after battling the winds, rain and seas in a 38-foot boat. The men were reported en route to Sabine by Bryan Spencer, officer in charge of the coast guard station at Galveston.

Unreported For Hours

The men had set out in the bay from McFadden's Beach in Jefferson county for Galveston. They had been unreported for hours and coast guard cutters and airplanes had been unable to contact them.

Solons Fail To Keep Promise

(By The Associated Press)

JERSEY CITY, N. J., May 7. — Vito Marcantonio, president of the International Labor Defense, announced Representatives Jerry J. O'Connell (D-Mont.) and John T. Bernard (FL-Minn.) would not come to Journal Square tonight where massed thousands gathered to witness their threat to defy a city ordinance prohibiting public speechmaking without a permit.

Marcantonio, after conferring with the representatives in New York for several hours, said they insisted on speaking. But, as president of the ILD, he said, "I cannot permit innocent people to face certain bloodshed, violence and perhaps death at the hands of a mob incited to do violence by Mayor (Frank) Hague through his various henchmen."

Urged Not To Attend

"I have now advised and urged them not to attend that meeting, and I take full responsibility for so doing," said Marcantonio, who explained O'Connell and Bernard were "guests" of the ILD to speak at the anti-Hague rally.

Col. Hugh Kelly, secretary to Governor A. Harry Moore and president of the Staff League of War Veterans, which held a rally Thursday to protest tonight's schedule meeting, said:

"We have proven conclusively that the efforts of the veterans and labor organizations that men of the type of Jerry O'Connell, be he con-

Slight Hope Is Held For Baby

(By The Associated Press)

CHICAGO, May 7.—X-rays offered a hope today for Baby Helaine Colan whose death some physicians said was inevitable unless she underwent an operation for the removal of her eyes.

Dr. Herbert E. Schmitz, head of the Mercy hospital institute for radiation therapy, said x-ray treatments would be started Monday in the hope of saving the life and the sight of the five weeks old infant who is suffering from glioma, a cancerous growth which spreads along the optic nerves to the brain, resulting in death.

Similar Cases Treated

Dr. Schmitz said two similar cases —both men—had been treated at the hospital within 18 months, but the success of the method could not be determined for five years.

Dr. Cassius C. Rogers, brain specialist at the Garfield park community hospital where Helaine is a patient, favored the x-ray treatment.

"As far as this case is concerned, I do not think there is any possibility of cure by surgery," Dr. Rogers said, "but there might be with the x-ray.

"It is still a chance even though

Bootleggers In Texas Active

(By The Associated Press)

AUSTIN, May 7 — Anyone who doubts existence of moonshiners and bootleggers in Texas might glance at these figures.

Despite the fact prohibition came to an end in this state more than three years ago, liquor inspectors, in the past 15 months, have captured and destroyed:

Stills Are Destroyed

Nearly 1,000 illegal stills, more than 6,000 gallons of contraband whiskey, and over 235,000 gallons of mash.

The liquor and mash represented a potential tax evason of more than $3,500,00.

Thousands of gallons of home-brewed beer, on which no accurate record is kept, also have been found and destroyed.

Are Kept On Run

The Texas liquor control board has two still squads which, with federal alcohol tax unit men and local officers, are kept on the run raiding moonshiners' lairs which are found in about equal numbers in dry and wet territories.

With legally manufactured liquor and beer available over a large

German-American Bund Leader And Companion Are Beaten

TROY, N. Y., May 7. (AP)—G. Wilhelm Kunze, national director of public relations for the German-American bund, and an unidentified companion, were mauled tonight by a group of men after police blocked attempts of the bund to hold a meeting here.

Both were rescued by police and escorted safely from Troy. The beating, in which neither was injured, occurred a block from Germania hall where the bund meeting was scheduled to take place.

Dallas School Official Dies After Shooting Self In Head

DALLAS, May 7. (AP) — E. B. Cauthorn, 63-year-old assistant superintendent of Dallas public schools for 14 years, died at a hospital today shortly after shooting himself in the head with an automatic pistol as he drove his automobile down a thoroughfare.

Justice of the Peace W. J. Stovall returned a verdict of suicide.

Cauthron, a bachelor, was born at Columbia, Mo., Oct. 21, 1874, and attended public schools and the state university.

Texan Tells Abduction Story; Forced To Drive To Florida

DAYTONA BEACH, Fla., May 7. (AP) — Assistant Police Chief Tom Johnson said today police were investigating a report by J. B. Steger of Overton, Texas, that he was abducted at gunpoint by two hitchhikers near Overton Wednesday and brought to Florida in his own automobile.

Clyde Dixon, a truck driver, picked up Stegern ear Ormond early today and brought him to the police station here.

Johnson said an automobile containing title papers bearing Steger's name later was found abandoned on a side street here and was identified by Steger as his machine.

Two Girls Are Being Treated After Auto Is Overturned

FORT STOCKTON, May 7. (AP)—Miss Sue Haynes of Big Spring and Miss Lorene Nagle of Fort Stockton were brought to a hospital here on the Alpine road.

Blinded by dust on a curve, Miss Nagle was reported to have lost control of her car and it overturned several times after striking a culvert.

They were en route to Marfa to visit Miss Nagle's mother.

Direction Of Flow Of The Rio Grande Has Two Men Puzzled

EL PASO, May 7. (AP)—Direction of flow of the Rio Grande has at least one San Francisco man puzzled.

El Paso Chamber of Commerce officials Saturday received a letter from the San Franciscan saying he and another west coast resident had a bet on the subject. He wanted to know if the river flows from El Paso to Brownsville or in the opposite direction.

His geographical question will be correctly answered, officials said.

Cruiser Carrying President Becomes A Ship Of Mercy

CHARLESTON, S. C., May 7. (AP)—The cruiser Philadelphia bearing President Roosevelt back here from a vacation turned "mercy ship" in the South Atlantic tonight, sending a surgeon over the side to attend an injured sailor aboard the Norwegian steamer Marathon.

A radio received at the navy yard from the Philadelphia said the Marathon, Montreal to New Orleans, sent out for help, the message being intercepted by the escort destroyer Fanning at 6:20 p. m. (C.S.T.)

Definite Legislative Program For Remaining Days Looms

WASHINGTON, May 7. (AP) — A definite administration legislative program for the remainder of this session, to be pressed aggressively on congress in the light of the Florida primary results and the recent wage-hour victory in the house, may flow out of White House conference with party leaders next week.

President Roosevelt is headed back from his Caribbean fishing cruise, and meeting with congressional leaders are first on the White House schedule after his return. Due to recent happenings bearing on the degree to which Mr. Roosevelt may believe he has regained party control in congress, there is unusual interest in what comes of next week's talks.

Four Of Five Fugitives From Angelina Jail Are Captured

LUFKIN, May 7. (AP)—Four of five prisoners who escaped the Angelina county jail yesterday had been recaptured tonight. Three were found today in a culvert 10 miles east of here where they sought shelter from a rainstorm. The fourth was arrested last night at Kountze driving a stolen car.

"I'll See You In Hell, Dad!" Are Girl's Last Words In Rendezvous With Death

(By The Associated Press)

NEW YORK, May 7. — Police today sought identity of a pretty young brunette who swallowed fatal poison in a midtown bus terminal last night after penning a suicide note signed "the little girl in grey."

The message, addressed "to whom this may concern," told of running away from home with a boy at the age of 14 and her subsequent downfall.

"Please, when I die, print this in hopes it may help some other poor girl," it said, in part.

"If it helps a girl who has had even the first thought of leaving home, then I have not done this in vain . . .

"There is hardly a state in the east I have not been in, and I am known and recognized as a woman with a bad reputation, who would take your money and cut your throat without a moment's hesitation.

"I am broke, hungry (I haven't had a meal in three days), no place to sleep; so I took my last money to buy this paper and poison.

"I am leaving no name or address. Just when I am buried (I don't really care whether I am or not) I want people not to pity nor to scorn, just say:

"'She was at least intelligent enough to know that when she reached the bottom she had sense enough to know she really couldn't get up.'"

"So I say not goodbye, but aloha, and I have no one but myself and father to blame it on. As for you, dad, I'll see you in hell. The little girl in grey."

The dead girl was about 25, brown-eyed, 5 feet 5 inches tall, and wore a two-piece tailored grey suit and grey suede shoes. There was nothing in her white purse. Her small overnight bag was empty.

Chinese Guerilla Armies Strike In Unison To Break The Hold Of Japanese

Savage Battles Being Staged

SHANGHAI, May 8. (Sunday) (AP)—Chinese guerrilla armies struck today in apparent coordination to break Japan's hold in North China.

Chinese sources asserted fully 10,000 irregulars were concentrated at Peiping, Japanese-held North China city, and had the moral support of the population.

Savage Fighting Continues

Savage fighting continued at Nantungchow, on the north shore of the Yangtse river 60 miles north of Shanghai, an important supply base for a Japanese army of 10,000 striking north through Kiangsu province toward the Lunghai railroad.

A Japanese garrison of 300 there was said to face annihilation by 3,000 Chinese guerrilla troops which caught the Japanese unaware.

Chinese said units of their 68th army had penetrated into southeastern Hopeh province after smashing Japanese lines north of Tsinan, the Japanese-held Shantung province capital.

Japanese war planes operated over a wide area in attempts to break openings for their forces to take the offensive from the Chinese.

Trains Are Bombed

Several Chinese troop trains were bombed in southern Shantung province, Japanese said, and Chinese heavy artillery emplacements were damaged south of Tahcheng on the deadlocked central front.

Drenching weather is strengthening the ponderous obstacles Chinese forces have raised against Japan's conquest of China.

Heavy rains on the main front in southern Shantung province and in other sectors have softened roads and flooded trenches, crippling the mechanized forces on which Japan's army relies.

The real rainy season has not yet started and foreign military observers foresee increasing difficulty for the Japanese if roads become impassable.

Building Totals For Week Exceed $30,000

To $31,541 climbed the building permit total for the week and month with issuing of five building permits Saturday by Jim Reid, city building inspector.

The permits, representing proposed expenditures estimated to cost $8,340, sent the total for the year to $182,796.72.

Among the larger permits were: D. L. Stafford, owner, and Claude Martin, contractor, to construct a one-story frame and siding residence and garage at 2503 Twenty-fourth street, $3,640; and M. H. Kinmon, owner, and R. W. Walker, contractor, to construct a one-story frame and siding residence and garage at 2314 Twenty-sixth street, $2,900.

Johnson Funeral Rites Are To Be Read Sunday Afternoon

Funeral services will be read at 3 o'clock this afternoon in Tabernacle Baptist church for Rev. Lester L. Johnson, late pastor of Fundamentalist Baptist churches at Crane and at Floydada.

The minister died Friday night at the 2004 Avenue L residence of a relative after an illness of almost three months, a spinal ailment.

Rev. Horace C. Goodman of Big Spring and Rev. J. T. Clinton and Rev. Ben D. Johnson, both of Lubbock, will officiate in rites. Mr. Johnson is an uncle of the late minister.

Lester L. Johnson was graduated from Wayland college at Plainview. He is survived by his widow, the former Miss Jewish Martin; his father and mother, Mr. and Mrs. G. C. Johnson of Kress, and two brothers, G. C. Johnson, jr., of Kress and J. J. Johnson of Melrose, N. M.

The Perseid meteors have been visible annually since 830 A. D.

Laboratory Tests In Crime Are Planned

SEATTLE, May 7. (AP)—The law turned to the laboratory today in an effort to bolster its case against Decasto Earl Mayer, life term convict whose mother accused him of the hammer slaying of James Eugene Bassett here 10 years ago.

Test tube evidence was sought after an unsuccessful attempt to find where Mrs. Mary Eleanor Smith said she and her son hid Bassett's dismembered body along winding, wooded roadsides north of Seattle.

Landmarks Are Lost

The ten year growth of trees and bushes had obliterated all landmarks and the 72-year-old mother's uncertain memory all but convinced officers it would be futile to dig at random for the scattered bones of the wartime army flier.

Prosecutor B. Gray Warner said he would seek permission from the owner of the ill-starred "little brown house"—now painted white—where Bassett was reportedly killed to tear up the floorboards.

Criminologist Luke S. May told Warner any blood would have left an indelible, microscopic stain in the cracks of the wood.

Wild Flowers Are Displayed

To impress upon the public the beauty of the natural flowers that grow in West Texas, the third annual native wild flower show was held from 1 to 5 o'clock Friday, and will be held from 1 to 7 o'clock today at the West Texas museum, sponsored by citizens' organization for highway beautification in cooperation with state highway department, division No. 5.

"The highway department encourages growth of the wild flowers by gathering seed, sowing it along the highways, country roads, and pastures, and mowing flowers after seed is matured so they will spread," said Wilson B. Hoiden jr., planting foreman with highway department, who has charge of the show.

Criminal Cases Are Scheduled

The 99th district court of Judge E. L. Pitts this week will hear criminal cases, according to court authorities Saturday.

Three criminal cases are subject to call and a jury will report to Judge Pitts at 9 o'clock Wednesday morning.

Burton S. Burks, district attorney, and Victor H. Lindsey, assistant district attorney, will represent the state.

Civil Cases In 72nd

Non-jury civil matters will be the program for 72nd district court of Judge Daniel A. Blair. That court is in session at Crosbyton.

Judge Dillard has scheduled for hearing this week several criminal cases. A jury will report for the first trial at 9 o'clock Tuesday morning.

No cases will be heard by that court Monday. Judge Dillard that day will preside at the regular semi-monthly meeting of the county commissioners court.

Those Songs You Have Been Thinking Were Spirituals, It Seems, Were Imitations

By JOHN SELBY
Associated Press Arts Editor

WASHINGTON, May 7.—Those songs you've been thinking were spirituals, it seems, are just imitations.

Two enormous audiences at the national folk festival programs heard yesterday some spirituals in their native state, before directors got hold of them.

And they like them so much they cheered.

There were tunes like "When God's Roll is Called on High"; "Lord, Let the Train Ride Away," and "See the Sign of the Judgment." They were sung right out of the hearts of 20 negroes from Upper Hill, Md.

No Pause Between Songs

And all accompaniment there was came from 20 pairs of clapping hands. There was no pause between songs either. Singers (or shouters) emerged momentarily from the group, did their bit, and stepped back again. When the rhythm changed there was a moment of confusion, and another song was born on the spot.

There product was an example of what the festival association is trying to discover and preserve.

There also were things like the cowboy's Christmas ball, danced with flourishes by a group from Anson and Stamford, Tex.

Lubbock Physicians To Attend State Meet At Galveston

Several Lubbock physicians have gone to and others will leave today and Monday for state medical association meeting at Galveston.

Dr. J. T. Krueger left Saturday to remain until May 21 and will present a paper when there.

Dr. J. P. Lattimore will leave today for Galveston. From there he will go to Hot Springs, Ark., to study three weeks, then to St. Louis, Mo., where he will study skin and venereal diseases.

Dr. E. L. Hunt, Dr. W. L. Baugh and Dr. Allen T. Stewart left Saturday and will remain there about a week, it was reported. Dr. Sam G. Dunn was expected to leave Monday.

At one time, Mexico had more territory than the United States.

To Announce Judging Winners Wednesday

Results of the judging contests held by three groups of Texas Technological collegt students Saturday will be announced at a banquet for the Dairy club Wednesday in the dining hall of the Women's dormitory.

Boys who have been selected for judging teams were in one group of judges, those who have had a course in dairy manufactures judging were in another group, and freshmen and sophomores were in the third group. Milk, cheese, and buttter were products judged.

K. M. Renner, head professor of dairy manufacturing, L. G. Harmon, instructor, and Mart G. Pederson, assistant professor of dairy manufacturing, were contest judges.

Herbie Kay To Play In City

Herbie Kay and his orchestra will play for a dance in the Auditorium here on the night of May 24, according to announcement Saturday.

Herbie Kay

Kay and his orchestra are on "another of his record breaking tours in answer to demands for personal appearances in this area." His program of varieties, novelties and features will include "The Three Kays, "Fuzzy" Combs, and the Kay Kwire."

Versatility in all lines of entertainment endeavors marks the keynote of Kay's abilities. The genial and elongated maestro does not confine his activities to the dispensing of distinctive dance rhythms entirely.

Has Made His Mark

The conductor has made his mark in the professional dance music world, but it is in the affiliated field of the stage, radio and screen that he is becoming best known.

Among the "firsts" of which the orchestra leader and his band boast are:

First orchestra leader to be honored with five record engagements at the Edgewater Beach hotel in Chicago.

First nationally known name orchestra to play four consecutive seasons at the Meadowbrook Country club in St. Louis.

First prize winner in attendance records in orchestra-leader popularity at the Texas Centennial exposition.

Discovered Two Stars

First leader to recognize the "talent" of Dorothy Lamour and Shirley Lloyd, and both have become stellar attractions in the amusement world.

Kay, whose first professional band was made up of college classmates, has furnished his soothing, albeit dynamic, rhythm for critical collegiate dancers at Notre Dame, Indiana, Nebraska, Washington, Illinois, and countless other universities.

From schoolboy musicians, Kay and his band have grown into an organization whose music is heard from coast to coast over both the Columbia Broadcasting system and the National Broadcasting company's network.

The engagement of the orchestra here is through arrangements with the Music Corporation of America.

Missionary To India Astounded At Progress In United States As She Pays First Visit Since 1910; Relatives In Lubbock

BY DAN TARPLEY
Avalanche-Journal Staff Writer

Long a missionary for village and fisher folk along the banks of the Ganges river in India, Miss Cora E. Fry is visiting friends in Lubbock. It is her first visit to the United States since 1910 and the second in her life.

She was astonished with the standard of living in the United States, astounded at the progress the "states" have made in the last three decades, and reconciled to the sand storm which struck here Friday night.

Have Them In India

She told her relatives here, Rev. and Mrs. J. Hodge Alves, that "they have them in India, too." Mr. Alves is rector of the St. Paul's Episcopal church here. Mrs. Alves is a niece of Miss Fry. Mrs. Alves' father and Miss Fry's brother, is a resident of New Orleans and since arriving in America Miss Fry has visited him. She is native English.

"In the area where I am a missionary only two women in every one hundred can read," Miss Fry said. "The average for men is 14 in every 100. That does not sound like progress to Americans, but it is a great step forward."

Letter From Gandhi

Among numerous pictures and other treasures she has accumulated in her 14 years of service in India was a letter written to her by Mahatma Gandhi, former religious ruler and now a well-educated lawyer.

The letter was written May 10, 1932, soon after Gandhi was fasting and being held in prison. The letter:

"Dear Sister:

"I thank you for your kind letter. My fast now is a thing of the past. I think it has justified itself. For myself, I felt God's presence during all those days of soul's agony.

"Of course I shall be delighted to see you if you get the permission."

The letter, written in English, bore the signature, M. K. Gandhi.

Miss Fry saw him, but only after many efforts to obtain official permission.

He Is Great Man

"He is a great man," she said. "But he still is a Hindu. He has removed many of the disabilities which formerly bound the lower Indian classes and his ultimate goal is equality. He himself is of the second caste, but he has brought about equalities allowing poorer classes to worship in the public buildings."

Miss Fry's first visit to America to visit her brother was in 1910. She also was on an educational mission.

"Since that visit the United States has gone ahead." She pointed out. "I was overwhelmed with the labor saving devices and the large scale on which everything is done. It nears perfection.

"In India we are so primitive and backward and that adds to the contrast of the two countries.

"America is the 'Land of Wonder.' "

"I admire the wide streets."

Everything So Clean

Without even a question, Miss Fry voluntarily made a timely statement which probably will be welcomed by officials and promoters of the annual cleanup-paintup campaign in progress here.

"Everything here is so clean!" she remarked. That was her general impression of Lubbock.

In 1914 Miss Fry was sent to India as a missionary from the Church Missionary Society of London. Since, she has become an independent worker. On arriving there, she worked in Southern India, then was sent to Bombay province. After nine years at Bombay she was sent to the Ganges area where she has remained. Much of her work is with the Young Women's Christian association.

"India has seen tremendous changes. It has developed wonderfully and is crying for educational and religious progress. Of the 320,000,000 inhabintants, approximately 6,000,000 are Christians.

"They are so absorbed with their own troubles, problems, and government, that they are not troubled with communism, fascism, or European dictators."

When here Miss Fry has met with several groups in the Episcopal church and will meet with others. She arrived Thursday and will leave Tuesday,she said. She plans to return to India in August, having left in November.

Royal Furgeson Makes Formal Statement On His Candidacy For District Clerk

Formal statement in connection with his candidacy for the democratic nomination for district clerk here was issued Saturday by Royal Furgeson, who formally announced his entry in the race several days ago.

His statement follows:

"I was born and grew up in Lubbock county, and am a product of this county's environment and educational institutions. I am 29 years of age, my high school work having been done at Bledsoe school, Becton, and Lubbock High school. I hold a B. A. degree from Texas Technological college. I taught school in the county five years, was employed in a clerical capacity with the Santa Fe railroad nine months and worked in a gin office three years.

"I know that the work in the office of district clerk is such that it follows a definite pattern and form. The duties consist of keeping the records and carrying on the clerical work for the 99th and 72nd district courts in their operations in this county. Therefore I know that I have the qualifications necessary, the educational and practical background, and the capacity for a lot of good, hard, honest work.

"I shall welcome investigations by citizens as to my character and reputation. I come before them as a new man and as a younger man, and in so doing, hope to give a broader choice in their selection of the man to fill this office. I'll be seeing you."

Hazing was abolished at West Point in 1901.

HOWELL IS ELECTED

WACO, May 7. (AP)—Maj. E. J. Howell, infantry reserve, College Station, was elected president of the Reserve Officers association of Texas here today. Dallas was awarded the next convention.

BODY IS RECOVERED

BROWNWOOD, May 7. (AP)—The body of George Walshe, 58, saddle shop owner, was recovered today from Lake Brownwood. He had been missing since Monday.

SERVICES SET TODAY

TEMPLE, May 7. (AP)—Funeral services for Dr. Alex Dienst, 80-year-old Texas historian who died here last night, will be held at the First Methodist church here Sunday.

Rev. C. O. Shugart will officiate. The body will lie in state from 2 until 4 p. m. when services begin.

CONSIDER Prices
CHECK Equipment
COUNT Cylinders!

IF YOU make these three simple tests when you shop for a car, you'll get more for your money:

1. CONSIDER PRICES. You'll find all Ford prices low—and Ford "60" prices especially low. Price isn't everything, of course, but it comes out of your pocket.
2. CHECK EQUIPMENT. Price means little, if you pay extra for equipment you've got to have. Ford prices include equipment.
3. COUNT CYLINDERS. More cylinders mean more and smoother power impulses. America's most expensive cars have engines with 8 or more cylinders. Only Ford has been able to offer the basic advantages of 8 cylinders at a low price—with low operating costs. ("Thrifty 60" owners report averages of 22 to 27 miles on a gallon of gas.)

These are only three of the reasons for visiting a Ford dealer before you buy. You'll recognize the rest when you get out on the road in a Ford V-8.

You'll realize that it's 8-cylinder quality all the way through!

Health Officials To Speak In Three-Day Milk Sanitation Course At Tech

Sessions Are To Open Monday

State and national health officials will be among speakers on a program of a three-day milk sanitation short course that will open Monday morning at Texas Technological college.

The course is one of two in the state, one recently having been conducted at Texas A. & M. college, at which certification of milk inspectors is being inaugurated.

Four Groups Sponsoring

Tech, A. & M., the committee on milk of the Texas Public Health association and the state department of health will sponsor the course.

Monday's program:

9:30 a. m., registration for which there will be no charge.

9, "Present Knowledge of Mastitis and Bang's Disease in Dairy Herds," Dr. P. G. Harbaugh, associate professor of animal husbandry at Tech.

10, "Quality and Sanitary Manufacturing of Frozen Desserts," M. O. Pederson, assistant professor of dairy manufacturing at Tech.

11, "Milk—Food Value, Nutrition, Vitamins, etc.," K. M. Renner, head professor of dairy manufacturing at Tech.

Dairy Inspection Scheduled

1:30 p. m., inspection of the college dairy.

2:30, "Dairy Bacteriology and Plant Operation," L. G. Harmon, instructor in dairy manufacturing and superintendent of the college creamery.

3:30, "Chemistry of Milk," Jack Wyatt.

Laboratory facilities and competent instruction will be provided each afternoon for those wishing demonstration and practice on methylene blue, plate county, resazurin and phosphatase tests, in the college creamery.

Others On Program

On the program of the second day will be J. W. Parkhill; F. A. Clark, associate milk specialist of the U. S. Public Health service; a round table discussion; F. A. Clark, associate milk specialist of the U. S. Public Health service, and W. E. Roberts; the third day, F. D. Brock, Renner, Dr. H. H. Puckett, and W. L. Stangel, head professor of animal husbandry at Tech.

Voluntary examination for registered milk sanitarians will be allowed at 1:30 o'clock Wednesday afternoon.

Chequers, official county residence of the British prime minister, was presented to the nation in 1917 by Sir Arthur Lee.

To Compete In VFW Amateur Night In City

Among competitors in an "Amateur Stars On Parade" contest sponsored by Veterans of Foreign Wars May 17 will be Jimmy and Eddy Farren, 17-year-old twin boys from Brownwood, pictured above.

These boys, who do imitations of radio string bands, will be in one of 25 acts on the program. Acts are being chosen by civic clubs of Lubbock and surrounding area to complete a two-hour program, said VFW Commander Terrell St. Clair.

Prizes, which will be given to the four winners chosen by audience applause, will be first, $35; second, $20; third, $19, and fourth $5.

Amateurs who wish to place application for a place on the program may write Mrs. J. D. Nichols of 1913 Avenue M or telephone 2152.

AUDIENCE SUPPLIES MUSIC

LONDON (AP)—Yehudi Menuhin, youthful violinist, kept an audience waiting at Albert Hall recently while Scotland Yard men led a fruitless hunt for his accompanist's music—which the accompanist had absent-mindedly left on a bus.

Finally the audience was asked if it could supply any of the missing scores. It managed to dig up four pieces and Menuhin played substitutes for the remaining six numbers on his program.

Importation of the Indian mongoose is prohibited by the U. S. because of its destructiveness of game and poultry.

Recognition Service Planned May 17

Invitations have been mailed to 132 women students who will be honored in the seventh annual women's recognition service May 17 at Texas Technological college and 416 invitations to attend were sent to parents of co-eds to be recognized, members of the board of directors, faculty members, recognized clubs and other campus organizations, and ministers of churches.

Each young woman to be recognized is to select a page from among freshmen girls who made a scholastic average of "C" or higher last semester and who are not on social probation.

Three points were added last week to basis for recognition. One woman doing outstanding work in the Women's Self Governing association of the dormitory, two doing outstanding work in intercollegiate debating, and the 1937 winner of the Gargoyle club prize will be recognized, in addition to those formerly announced.

All participating in the service will be dressed in white.

Men are invited to the service as well as women.

Papers Presented As Science Meet Ends

Presentation of 55 papers in five section meetings Saturday morning concluded a two-day regional meeting of the Texas Academy of Science at which the Central West Texas branch of the academy was formed. Texas Technological college was host to the meeting and Dr. E. P. George was chairman.

Approximately 375 persons attended, said Dr. R. A. Studhalter, chairman of the arrangements committee for this year and president of the newly-organized branch.

Robert Loofbourrow of Abilene was named winner in a Junior Academy of Science contest conducted Saturday afternoon, after conclusion of the branch meeting. The youth, a student of Tom Barnes in Abilene High school, presented a demonstration on Brain Waves. Oran Hardin, also of Abilene High school, presented a paper on Phase Rule Study With Special Reference to Iodoform, Benzene, and Diethyl Ether at Twenty-five Degrees, which won second place. Only the two competed.

Loofbourrow is eligible to compete in the state contest at Waco next fall. Various prizes will be given.

RING SPARKLES UNNOTICED

COLORADO SPRINGS, Colo. (AP)—For 26 hours an $1800 diamond ring, lost by a Denver woman, sparkled on the sidewalk of a downtown street before anyone noticed it. Finally Mrs. L. H. Ryter, drug store employe, picked it up, took it to police headquarters. Mrs. Ryter said she was "handsomely rewarded."

Quinine is powerless against certain types of tropical malaria.

Members of the judging committee were Dr. R. S. Underwood, W. M. Slagle, J. H. Cross, all of the science faculty.

Largest Appropriation For Agriculture Work In History Is Being Studied

Farm Payments Are Provided

WASHINGTON, May 7. (AP)— The senate appropriations committee considered today appropriation of $1,080,000,000 for agricultural purposes in the next fiscal year— the largest amount in the 75 years since the agriculture department was established.

A subcommittee approved the appropriation yesterday. Its draft of the bill provides $30,000,000 more than the house approved and calls for $500,000,000 for benefit payments to farmers who comply with the administration's crop control act.

Other Items In Bill

Other items include $25,000,000 for loans to tenant farmers to buy land, $6,000,000 to administer a crop insurance program, $6,550,000 to operate the Farm Credit administration, and $201,000,000 for federal aid highways.

Meanwhile, Secretary Wallace announced the Agricultural Adjustment administration had decided to lighten penalties on farmers who overplant soil-depleting crops other than cotton, corn, rice and tobacco.

Deductions Planned

For each acre of wheat overplanted, benefit deductions will be made at the rate of 60 cents a bushel on the normal production of the excess acreage, instead of 96 cents.

In surplus feed and grain production areas, deductions for excess acreage for small grains, soy beans, etc., will be $6 an acre instead of $10. In deficit feed-producing areas, deductions will be $4 an acre instead of $6.

Wallace said the changes were decided upon because many farmers had planted their crops before individual acreage allotments could be made.

Rainfall Record Is On Exhibit

Upon a small piece of polished wood on exhibit in the museum on the campus of Texas Technological college one may see a record of rainfall in Lubbock from 1909 through 1936 and the effect of rain upon tree growth.

A cross section cut from one of the first trees planted in this area has been polished, marked with rain records, and donated to the museum by R. E. Karper, vice director of experiment farms at College Station and former superintendent of the Lubbock experiment station.

Seedling Of 1909

The section was cut from a robinia pseudoacacha, better known as black locust, which was planted on the Lubbock experiment station farm in 1912. Transplanted from a nearby farm, it was a 1909 seedling. It was cut when dying in March of 1937.

Widths of the tree rings are proportionate with amount of rainfall in the various years, for the most part. In some years, however, the precipitation was not received during the growing season. Also in the latter years of its life after the tree had grown comparatively large, width of rings diminished.

Tree Rings Small

In 1909 there was only 7.87 precipitation and in 1910 only 9.74, and the tree rings were correspondingly small. Precipitation of 21 inches in 1911 brought growth equalling that of the two combined. Although only 14.60 inches fell in 1912, it came during the growing season and was utilized to great advantage by the tree. The 19.47 of 1913 came at the wrong time. The ring for 1914 was large, 31.43 inches having fallen. The same was true in 1915, when 31.88 inches rain fell. In 1916, the rainfall, totaling 15.03 inches, again fell during the growing season.

Other rain records indicated are: 1917, 8.73; 1918, 12.15; 1919, 31.61; 1920, 18.16; 1921, 16.72; 1922, 14.59; 1923, 26.17; 1924, 9.45; 1925, 22.75; 1926, 29.06; 1927, 9.59; 1928, 19.74; 1929, 18.63; 1930, 13.40; 1931; 19.36; 1932, 24.16; 1933, 10.31; 1934, 19.72; 1935, 17.26; 1936, 27.03.

A remarkable growth was indicated in 1926. During the last four years of life, the rings of the tree became so small that the figures indicating precipitation could not be printed in the rings as in former years.

Karper hopes that sections from other trees anti-dating and post-dating his specimen may be obtained so that an interlocking series of tree rings may be established for the South Plains, said Dr. W. C. Holden, curator of the museum.

Talks Wednesday

A. W. HOGUE

Insurance Men To Hear Hogue

A. W. Hogue of Dallas, former vice president of the Texas association of Life Underwriters, will be principal speaker at a special luncheon of South Plains chapter at Hilton hotel Wednesday noon, according to announcement Saturday by Chas. A. Whitacre, chapter president.

The address, Whitacre said, will feature the last of a series of special monthly programs arranged by O. D. Douglas of San Antonio, state president. Annual convention of the state association will be in Galveston June 2, 3 and 4 and new officers are to be elected at that time.

To Install New Officers

New officers of South Plains chapter will be installed at the first meeting in July when Gradie W. Bownds will succeed Whitacre as president.

Hogue, an insurance man since 1916, is state manager for the Business Men's Assurance association. Since coming to Texas in 1931 he is credited with having developed one of the largest agencies in the state, with more than $9,000,000 in life insurance in force producing a premium income exceeding $463,000 in 1937. Health and accident policies were credited with having produced more than $200,000 additional in premiums.

He is a past president of the Dallas chapter of the state association and of the Life Managers club of that city.

Subject of his address here will be "Sales Methods to Meet Present Day Conditions."

TRACTOR IN A JUG

PEORIA, Ill. (AP) — Mendious P. Smith has constructed a wooden model tractor inside a gallon glass jug.

It took three weeks to manipulate the parts through the one and one-eighth inch neck and glue them into place with two pieces of wire.

Local Students Win At Rally

Several honors were won by delegates from the Lubbock Senior High school to the Future Homemakers of Texas rally at San Antonio Thursday, Friday, and Saturday, according to information received by Miss Gertrude Watson, head of the home economics department at the school here.

The group, as a whole, won second in the state. Lubbock winners in individual contests were: Miss Laverne Barton, second in second year foods contest; Joyce Wheelock, second in third year food contest; Miss Wheelock, third in home furnishings contests; and Miss Barton, fourth in street costume contests.

Other than Misses Barton and Wheelock, Miss Betty Jo Rice and Miss Wilma Rogers, attended as delegates. Miss Rogers was one of the speakers at the state meeting.

They were accompanied by Miss Alma Miller, a home economics instructor here and area chairman of Future homemakers club in this district; Miss Pauline Hooser, district chairman for this section of the Future Homemakers of Texas; and Miss Ilse Wolf, who assisted in publicity for the rally.

The group was expected to return late Saturday night.

Former Hollywood Film Studio Manager Charged In Seduction

LOS ANGELES, Calif., May 7. (AP) —William Koenig, former Hollywood film studio manager, was charged with seduction on a palatial yacht on the Pacific ocean, in a $200,000 superior court suit filed today by Gaye Melton, a show girl.

Miss Melton asks $100,000 on the seduction charge and $100,000 for breach of promise.

The first minimum-wage law was the New Zealand Industrial Conciliation and Arbitration act of 1894.

Building Plans Being Outlined

Tentative approval of a long range program for the development of Panhandle-South Plains fairgrounds was announced by officials of the fair association here Saturday.

The action, the announcement said further, clears the way to proceed with construction of a new and larger Merchants building authorized several months ago. The building, to be of fire-proof and dust-proof construction, will set the architectural style for other structures to be built as rapidly as finances will permit. Start of work has been delayed to await decision as to where it is to be located.

Change In Methods

The long range plan, officials said, will involve a change in methods of handling admissions. During the last several years, those entering the grounds have been admitted upon depositing a coin in a slot at turnstiles at the gate. In future, tickets will be sold by venders who will meet motorists as they enter the driveway from East Broadway. Parking spaces will be within the grounds, and will be almost doubled in size by the use of the portion of the west side of the area where the circus showed last year.

Exhibit buildings will be placed on the rim of a half-circle facing the entrance and occupying approximately the same space as a present. Behind the exhibit buildings along the eastern edge of the grounds two large sheds will be placed as housing for farm machinery exhibits. The sheds will extend to within a few yards of the entrance to livestock barns. The space between the half circle of exhibit buildings and the race track grandstand will be left clear for midway or other entertainment features.

To Cost About $15,000

Uncertainty was expressed as to just how much of the plan can be put into operation before next fall's fair. However, the immediate plans call for the erection of the Merchant's building and a care-takers cottage at a total cost of approximately $15,000. The amount, it was explained, does not take into account the considerable quantity of material to be salvaged from the old Merchant's building.

Other exhibit structures, all of which will be replaced eventually, will be moved to a place along the fringe of the circle. Space within the circle and in front of the buildings will be landscaped with trees, shrubs and grass.

TAKEN BY DEATH

COLLEGE STATION, May 7. (AP) —Mrs. Eva Thompson Williamson, 69, mother of Director H. H. Williamson of the A. & M. college extension service, died today at the family home in Bedias, where funeral services will be held tomorrow. Survivors included the widower; a daughter, Mrs. H. P. Cox of Pampa; and three sons, W. W. jr., Ross, and H. H.

France And Britain Ask Germany To Use Peaceful Means In Czechoslovakia

Concessions By Czechs Sought

(By The Associated Press)

LONDON, May 7. (AP)—Britain and France edged into Adolf Hitler's "family affair" with Czechoslovakia today in the shadow of the feast of the bargaining dictators in Rome.

Diplomats of the two nations urged peaceful means on Germany and concessions up to the limit of Czechoslovakia to solve the latter republic's minority problem.

Foreign Minister Informed

In Praha, the British and French ministers informed Dr. Kamil Krofta, Czechoslovak foreign minister, of the points of view of their respective governments.

In Berlin, British Ambassador Sir Neville Henderson called on Dr. Ernst Woermann, undersecretary of state, to inform him of the action the diplomats took in Praha.

But Britain and France were not in a warning mood today.

They were not surprised at reports from Rome that Premier Benito Mussolini of Italy had promised the German Fuehrer a free hand in the campaign for the 3,500,000 Germans in Czechoslovakia.

Urged To Be Reasonable

Mussolini was portrayed in Rome dispatches as pledging at the same time to bring diplomatic pressure to bear upon the Czechoslovak government to be reasonable in meeting German demands.

But Britain and France felt that just now Il Duce may help to keep peaceful the attempts to settle Czechoslovak-German differences and they did not want to arouse the Fuehrer to an angry decision to strike with force.

Sir Samuel Hoare, home recretary, summed up Britain's official idea when he told a Rotarian conference at Blackpool that democracies, by facing facts, could live and flourish by the side of "juggernauts."

By facing facts, the British government means the realization that Germany must be satisfied in central Europe by every possible, just and peaceful means.

Set Geneva Stage

The festive climax to Hitler's visit in Rome—tonight's state dinner—found Britain and France skillfully setting the Geneva stage for means to seal friendships with Italy.

The league of Nations council will open its 101st meeting Monday with one of the prime issues the Angle-French plan to have the council give members of the league freedom to reorganize the Italian conquest of Ethiopia.

Other problems to come up before the statesmen will be China's appeal against Japan's undeclared war, foreign intervention in the Spanish civil war, Switzerland's demand for freedom from imposing leageu financial and economic penalties against an aggressor, and the position of refugees from Austrian Germany.

Members Of Parole Boards To Hold Session In Huntsville

AUSTIN, May 7. (AP)—Scores of citizens comprising voluntary parole boards who aid in rehabilitating criminals will gather in Hunstville June 17 and 18 for their second annual conference.

Governor James V. Allred who originated the system, now operating in 234 counties, said he regretted the end of his administration this year would terminate his official connection with the movement.

More than 1,110 citizens are serving voluntarily in the plan. Criminals granted clemency by the chief executive are instructed to report to the parole groups whose members aid them in obtaining employment and otherwise regaining their place in society.

Texas law makes no provision for paid parole supervisors.

Governor Allred said it had been found that the percentage of delinquencies under the system now in use compares favorably with delinquencies under systems employing full time workers.

DIRECTORS CHOSEN

CHICAGO, May 7. (AP)—American Airlines, Inc., said today seven new members were elected to its board of directors at its meeting in Wilmington, Del., this week. They included Amon G. Carter, Fort Worth, Tex., and Silliman Evans, Nashville, Tenn.

T. C. U.'s Senior Favorites

The student body at Texas Christian University has voted these four girls as campus favorites among the senior class. They will receive special honor in the 1938 "Horned Frog," student yearbook. They are: Virginia Ede, San Angelo; Mary Frances Hutton, Fort Worth; Mary Cogswell, Nocona; and Florence Parks, San Angelo.

Plans For Biology Field Trip This Summer Made At College

Plans for a biology field trip to Gallinas canyon in Santa Fe National park near Las Vegas, N. M., have been announced by Dr. R. A. Studhalter, head professor of biology, botany and zoology at Texas Technological college.

Students are to register with Dr. Studhalter not later than Tuesday, filing a $12.50 deposit, which will include transportation, lodging and meals.

To be eligible for the trip students must be registered for some course in the biology department and must be making sufficiently high grades so that there will be no objection to their excuse from classes.

Favorable Advertising Thought To Have Been Given Meters

City officials wondered Saturday whether recent parking meter controversies and attendant publicity do not fall under the head of desirable advertising.

Meter receipts in April, officials reported, averaged $81.50 daily. In May, when county court trial of a parking meter case led to a ruling by Judge J. J. Dillard that the contraptions are unconstitutional, the daily "take" has been $84.12.

Both figures are somewhat below the average of approximately $87 per day they have produced since they were installed last fall. However, a decline was expected with approach of summer.

Fainting Of School Students Blamed On Wave Of Hysteria

WILMINGTON, N. C., May 7. (AP)—Health authorities attributed today the fainting of more than 100 high school students following an R.O.T.C. dress parade to "a wave of hysteria."

Mrs. Zilphia Daniels, public health nurse, said 100 girls and 5 boys were treated, and 65 were ill enough to be dismissed for the day.

The swoonings probably due to heat and exhaustion began after the cadet battalion returned to the school from parade grounds. Shortly afterward a girl student was hit by a car and slightly injured. These incidents, the nurse said, brought on hysteria among the girls.

New Fraternity Being Formed

Alpha Epsilon Delta, honorary premed fraternity, was organized at Texas Technological college Saturday.

There are only 27 chapters in the United States, representing colleges from Nevada to Pennsylvania and as far south as the Gulf of Mexico. There are only two others in Texas, at Texas and Baylor universities.

Petition Is Accepted

Application for affiliation with the national Alpha Epsilon Delta was made through the Pre-Med club here about March 1, and the petition was unanimously accepted by all 27 chapters.

Purpose of the fraternity is to promote better grades in pre-med work, and the organization is limited to students of that department of sophomore rank or above with a grade average of B- or above in all subjects.

17 Charter Members

There will be 17 charter members, and four honorary members: Dr. R. A. Studhalter, head professor of biology, botany, and zoology; Dr. R. C. Goodwin, head professor of chemistry and chemical engineering; Dr. J. M. Gordon, dean of arts and sciences; and Dr. D. W. Douglass, biology instructor.

Officers elected Saturday were: A. N. Taylor of Lubbock, president; Joe Donaldson of Lubbock, vice-president; Ernestine Quarels of Amarillo, secretary; Charles Browne of Lubbock, treasurer; and Ruth Richeson of Lubbock, historian.

Pre-Med Club Officers

Officers of Texas Tech Pre-Med club are Taylor, president; Juanita Thacker of Roaring Springs, vice-president; and Browne, secretary-treasurer.

Formal initiation and installation of chapter members will be Saturday. Dr. H. R. Henze, department of chemistry of Texas university, will be in charge. Dr. Henze is western counselor of Alpha Epsilon Delta.

The fraternity will not take the place of the Pre-Med club, but will be a nucleus of future pre-med clubs, influencing their activities.

Medical schools to which pre-med students have gone from here are University of Texas, Chicago, and Colorado and Baylor, Johns-Hopkins, Emory, and Tulane universities.

Lubbock Rotarians To Leave For Breckenridge Meeting

Lubbock Rotarians plan to leave today for Breckenridge to attend the annual 127th district Rotary conference there tonight, Monday and Tuesday, according to J. I. Kilpatrick, president of the Lubbock club.

Rotarians of Lubbock who plan to attend are Sam T. Davis, secretary; Warren P. Clement, incoming president; Dean James M. Gordon, James Williams, Ray Farmer, James Quicksall, and Kilpatrick.

J. Edd McLaughlin, Ralls, as district governor will preside over the congregation of 48 clubs of 2,104 members. Senor Ernesto J. Aguilar, Mexico City, D. F., will be official representative of Rotary International on the program.

Misses Treadwell, Jones Are High In WAA Playday

Alma Jones of Lubbock and Linda Treadwell of Menard tied for first honors when more than 200 girls participated in the annual playday held at Texas Technological college Saturday. The event is sponsored each year by the Women's Athletic association and the department of physical education for women.

Events and winners were:

Tennis singles, Dorothy Day; tennis doubles, Pearl Scarborough and Ozora Young; bowling, Mary Moore; deck tennis, Bunnye Dow and Joni Lu Jones; jacks, Edith Meek; basketball, Jean Willman, Lucille Cox, Jerriene Wharton, Almarine Nunnally, Thelma Carter and Thelma Parker.

Ping pong doubles, Vernene Franks and C. Lunceford; ping pong singles, Bunnye Dow; golf, Mary Jarrott; archery, Klipstein Fry; soccer, Romayne Dodson, Grace Brooks, Dona Huff, Geraldine Sides, Edna Springer, Alma Jones, Fay Hodge, Sibil Blare, Lois Marie Killian, Dora Kelly, Gertrude Ford, Ozora Young, and Anita Clark.

Japanese To Face Many Sacrifices

TOKYO, May 7. (AP)—Foreign Minister Koki Hirota called on the Japanese people today to prepare for "possible extreme personal financial sacrifices" to achieve victory in the Chinese war.

He added that "no optimistic view of the future is warranted."

The foreign minister's comments, hinting at delays retarding the Japanese offensive, were made in a lengthy review of Japan's foreign relations. He spoke at the closing session of the conference of provincial governors.

Hirota paid tribute to the consistently neutral attitude of the United States.

"It is a matter for congratulation that friendly relations have been maintained despite the deplorable Panay tragedy," Hirota said.

Twenty Passengers Are Hurt When Large Bus Overturns

HUNTSVILLE, May 7. (AP)—Twenty passengers were injured slightly today when a large Bowen bus overturned seven miles south of Huntsville after a heavy rainstorm.

The accident, which passengers said was unavoidable, occurred when the driver attempted to pass a stalled truck and was forced off the highway in order to avoid collision with an automobile.

Man Is Killed When His Car Is In Collision With Truck

CROWLEY, La., May 7. (AP)—Jules Myers, 64, of Estherwood, was killed today three miles west of here.

C. H. Treadway of Houston, driver of the truck, was uninjured. Officers said the accident occurred at a bridge.

Campaign Against Unsightliness And Filth On In Full Force During Week

Inspections Are Set For Monday

(See Chart on Page 6, Section 2)

Success or failure of Lubbock's ninth annual cleanup-paintup campaign will be at stake Monday when the two week's drive reaches its early climax.

It will be the occasion for the first and most important of two "inspection days" and will see five battalions of campaign forces waging war against unsightliness and filth on five separate fronts, according to the plans announced Saturday by W. B. Irvin, general chairman.

CANS ARE COLLECTED

Tin cans were 15,000 fewer on the streets and alleys of Lubbock today as result of the "tin can matinee" at Cactus theater Saturday in cooperation with the clean-up drive.

Joe Bryant, theater manager, said two performances were necessary to accommodate the 1,004 boys and girls who appeared, each with 15 tin cans strung on a string. Only one performance had been planned.

Almost every conceivable type of tin can was represented but, said Bryant, a considerable portion once had contained beer.

To Give Recommendations

Object of the inspection, he explained, will be to ascertain just what might be done to improve the appearance of the city, to reduce hazards of various kinds and to improve health and sanitation conditions. Recommendations resulting from the inspection will be transmitted directly to those responsible for the upkeep of the individual pieces of property. A week later, the second inspection will be made to determine whether the recommendations have been followed, Irvin said.

He outlined Monday's activities as including:

Inspections of front yards and streets in white residential sections by a committee of women representing 12 study clubs in the city, with Mrs. Clark M. Mullican as chairman and Mrs. Frank L. Winn the vice chairman.

Scouts To Make Inspection

Inspections of back yards and alleys by Boy Scouts, with Joe S. McIlhaney the chairman.

Inspections downtown by a committee representing Allen Bros. American Legion post, headed by Chester A. Hubbard.

Inspections in Mexican section under direction of Mrs. George Duval, principal of Guadalupe school.

Inspections in negro section with E. C. Struggs, principal of the negro school, the general chairman.

To Meet Monday

Members of the women's committee are to meet at the chamber of commerce, where a group picture will be made at 9:30 a. m. Inspections will begin immediately afterward. A specified section of the city has been assigned to each of the 12 sub-committees, each committee representing one of the participating clubs.

Scouts are to meet on Junior High school grounds east of the building at 3:15 p. m. Each troop has been assigned a particular section. Cash prizes applicable on summer camping expenses have been offered to individuals and troops making best records.

Also on the week's schedule will be the return of pledge leaflets pupils took into their homes last week. Each parent has been urged to designate on the leaflet the types of improvement work he pledges will be done at his home during the campaign.

Yarborough Says Experienced Man Is Needed In Office

SWEETWATER, May 7. (AP)—Dist. Judge Ralph Yarborough of Austin said here this afternoon the people should elect an experienced man for attorney general, as he spoke in behalf of his candidacy for that office.

He reviewed his record as a former assistant attorney general and said "vested interests" would be pleased if an attorney general unable to "cope with shrewd lawyers representing special privilege" were elected.

BRUSH UP ON ETIQUETTE

TUSCALOOSA, Ala. (AP)—University of Alabama library officials report that 90 per cent of students reading books on etiquette are men.

Rift Rumored

Rumors of a new marital rift between Muriel Sisman Dodge, top, and Horace E. Dodge, below, Detroit, son of the late automobile manufacturer, have been heard in social circles recently. There were reports in Detroit that a divorce suit had been filed, but the only record of a divorce suit was a petition filed by Dodge Aug. 11, 1933, and which was dismissed Oct. 1, 1936. Dodge and his wife were married in England in 1928.

Schools Improve Over Territory

Improvements both in efficiency of work done and in physical facilities in schools in the 16 counties of this district have been noted by G. D. Holbrook, deputy state superintendent, who this week will complete inspection of schools for accrediting.

Four modern school plants are being constructed in the district, ranging in cost from $40,000 to $85,000. They will house Union Rural High school in Dawson county; Loop Rural High school in Gaines county; Cooper Rural High school in Lubbock county; and Klondike High school in Dawson county. Numerous additions also are being made to original plants, said Holbrook.

Checking of the schools for accrediting was begun January 15, Holbrook has certified Loop as a four-year high school with 17 credits, and has certified several for original classification and accrediting, increasing the total of accredited two-year and four-year high schools in the district to 61.

He will announce a more detailed report before leaving for Austin the latter part of this month or early in June. Holbrook's headquarters are in Lubbock and he will return after making his report in Austin.

New Project Of NYA Announced

A new project for National Youth administration enrollee is scheduled to begin operation Monday morning, according to A. V. Bullock, district supervisor.

The project is being sponsored by the Lubbock public schools, according to A. C. Jackson, business manager for the Lubbock Independent school district.

To Make Repairs

Sixteen youths will be assigned to the project and will work part-time. Four boys will work each week and will assist employes of the school in construction and repair of school furniture and equipment, it was explained. The project is outlined to continue until the end of June.

Specifically, objects of the project are to: repair and refinish 400 desks and opera chairs; refinish 10 rooms; refinish and repair other furniture; refinish floors of gymnasium, stage and music rooms; repair locks, lockers, and clocks; and construct cabinets and change partitions.

Value Of Project Cited

Supervisors of the project will be furnished by the school district.

Both Jackson and Bullock pointed to the value of the project to both the school district and to the youths.

"It will give the youths actual training and experience in construction and mechanics," Bullock said.

Nearly two-thirds of the fatal motor car accidents occur between 6 p. m. and 6 a. m. Yet traffic for that 12-hour period is only one-third of the 24-hour total.

Scout Activities Will Be Varied

Organization of a new Boy Scout troop at Shallowater, a camp leaders training course, an outdoor rally at Floydada and initial preparations for a trip to Yellowstone National park in the summer will be included among activities in South Plains council this week, according to announcement at headquarters here Saturday.

The Shallowater meeting will be held in the Community clubhouse at 7:30 p. m. Monday with Rev. J. R. Wood presiding. The troop will be the 71st to be organized in the council in addition to 14 cub packs and two Sea Scout "ships."

Be At Camp Post

The camp leaders training course will be at Camp Post Friday and Saturday. K. N. Clapp will lead the instructions assisted by G. B. Wadzeck of Spur, Dr. R. B. Parish of Brownfield, Joe Spikes of Lamesa, Earl M. McClure, council executive, and Lyndon T. Grant, assistant executive.

The Floydada rally is scheduled at 8 p. m. Thursday in the high school stadium. Troops from Floydada, Matador, Silverton and Lockney will participate. Members of the arrangements committee are J. C. Wester, Paul Conner, Martin Brown, Marvin English and Clint Wakefield.

Already Registered

Six scouts and one leader who already have registered for the Yellowstone park trip June 25-July 16 are Allen Barnard of Lamesa, Ray Taylor of Spur, and Earl Pollard, Billy McGehee, Russell Winn and Walter Clark of Lubbock, scouts, and Kit Medlin of Abernathy, leader.

A trailer kitchen to be used in the preparation of meals on the Yellowstone trip probably will be started this week, McClure said. He predicted that 60 to 70 scouts and leaders will register.

Grant announced Saturday that a court of honor scheduled at Levelland Tuesday night has been postponed until probably the last week in May. Lewis Owens is court of honor chairman there.

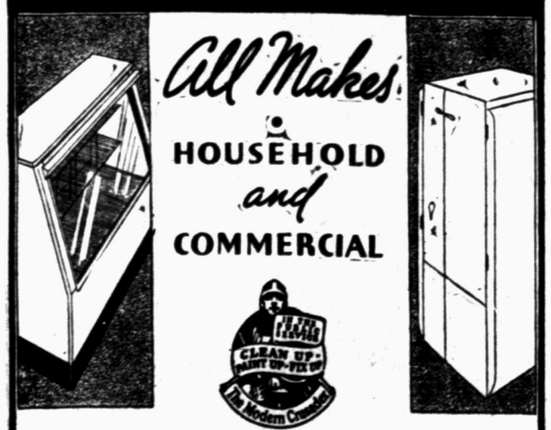

Lubbock Man, Representative Of Desk Company, Displays Wares

Henry Perry, 1513 Avenue K, West Texas representative of the American Desk Manufacturing company of Temple, believes in displaying the actual product when he goes to make a sale.

Perry has a regular trailer attached to his automobile which he takes with him on his rounds of visits with school superintendents and officials over the territory. A complete set of school desks, furniture and equipment is carried in the trailer so that school men may see what they are buying instead of having to look through illustrations in a catalog folder.

Remember Mother On Her Day . . . In The Way She Would Like Best!

MY MOTHER

Come to Church Today!

Attend the Church of Your Choice!

Of all the sentimental volumes that have been written about Mother and Mother love, the famous quotation from Jane Taylor's lovely verse, tells the story as sweetly and acceptably as any since the dawn of time. No other words so aptly sum up Mother's hopes and memories, her kindnesses and affection. On this Mother's Day, while we remember her love with retribution of gifts--let us also join in observing this, Her Day, in reverent memory and esteem by going to church.

LUBBOCK DIVISION

United States of America, Petitioner
Vs. No. 496 at Law
1440.3 acres of land, in the County of Bailey and State of Texas I. C. Enochs, et al., Defendants.

PETITION FOR CONDEMNATION

TO THE HONORABLE, THE JUDGE OF THE UNITED STATES DISTRICT COURT FOR THE NORTHERN DISTRICT OF TEXAS:

The petition of the United States of America, a sovereign, brought by Clyde O. Eastus, United States Attorney for the Northern District of Texas, acting under the instructions of the Attorney General and at the request of the Secretary of Agriculture, respectfully shows as follows:

1. That pursuant to the provisions of Title II of an act of Congress approved June 16, 1933 (48 Stat. 200) an act of Congress approved April 8, 1938 (49 Stat. 115), Executive Order No. 6182 dated August 19, 1933, Executive Order No. 6903 dated March 6, 1935, Executive Order No. 7027 dated April 30, 1935, Executive Order No. 7028 dated April 30, 1935, Executive Order No. 7064 dated June 7, 1935, Executive Order No. 7510 dated December 31, 1936, Executive Order No. 7557 dated February 19, 1937, and the provisions of Public Resolution No. 47 - 75th Congress (Chapter 401 - first session) approved June 29, 1937, the Federal Emergency Administrator of Public Works, acting under the direction of the President, prepared a comprehensive program of public works with the concurrence of the Special Board of Public Works, which program included the acquisition of the land hereinafter described, among other lands, in Bailey County, State of Texas, for the establishment of and for use in connection with the Muleshoe Migratory Waterfowl Refuge Project of the Bureau of Biological Survey, Department of Agriculture, designated the Secretary of Agriculture as the acquiring authority, and money appropriated for the purposes and under the terms of the foregoing Acts of Congress has been duly allocated to the Secretary of Agriculture for the acquisition of said land and the establishment of said project.

2. That pursuant to and by virtue of said authority, the Secretary of Agriculture has duly selected for acquisition by the United States the lands hereinafter described, for use in connection with said project, in furtherance of the objects aforesaid, and that the said lands are necessary in his opinion to provide for the prevention and control of soil erosion; conservation and development of water recourses; and sanctuary and refuge for the nesting, resting, and feeding of migratory waterfowl, in effectuation of such treaty between the United States and Great Britain, August 16, 1916 (39 Stat. 1702).

3. That pursuant to the provisions of the foregoing acts of Congress and Executive Orders and pursant to the provisions of an act of Congress approved August 1, 1888 (25 Stat. 357), the Secretary of Agriculture has determined and is of the opinion that it is useful, proper, necessary, advantageous and in the interest of the United States to acquire title to the land hereinafter described by condemnation, under judicial process, and has made application to the Attorney General of the United States to cause such proceedings to be commenced in pursuance of which application the Attorney General has instructed and directed the United States Attorney for the Northern District of Texas to institute these proceedings.

4. That the lands sought to be acquired in this proceedings are described as follows:

All of those certain tracts or parcels of land situate, lying and being in the County of Bailey and State of Texas, and containing in the aggregate, 1440.30 acres of land, more or less, being better known and described as all of the tracts or labors numbered 6, 7, 7, 13, 14, 15, 26, 27, and 28, in League No. 183, Ellerd's Subdivision of Floyd County School lands in said Bailey county.

The said above described premises constitute the Tract No. 6 in the Muleshoe Migratory Waterfowl Refuge Project, and are more particularly shown and delineated upon a survey plat thereof, dated April 10, 1936, drawn by James F. Kerr, Engineer, and by him duly certified to on April 16, 1936, a photostatic copy of which plat is hereto attached and marked "Exhibit A" and to which plat reference is hereby made for a more particular description of the above described premises.

5. That the estate taken for said public uses is the full fee simple title thereto, subject to and excepting all existing public roads, public utility easements and right of way, and now located on or across parts of said lands.

6. That the apparent and presumptive owners of the above described lands executed and delivered an option to your petitioner to convey said lands to the United States at the price stated therein, $5 per acre, which said option was duly exercised and accepted by the United States.

7. That the public records of Bailey county, State of Texas, and other information acquired by your petitioner indicate that the following named persons, firms and corporations may have, or claim to have some right, title or interest in and to the above described lands, to-wit:

THE FOLLOWING PERSONS WHO ARE RESIDENTS OF THE STATE OF TEXAS:

County Treasurer or Tax Collector of Bailey county, Texas; R. J. Browning, Trustee for S. J. Newton, W. B. Ogden, W. J. Piveeler, William Self and J. H. Glasgow, now or late of Baylor, in the county of Texas, and his successor in said trust;

THE FOLLOWING PERSONS WHO ARE NON-RESIDENTS OF THE STATE OF TEXAS:

I. C. Enochs, sometimes called Isaac C. Enochs, sometimes called Isaac Columbus Enochs, sometimes called I. C. Enochs, Jr., now or late of Jackson in the State of Mississippi;

THE FOLLOWING CORPORATIONS WHICH ARE RESIDENTS OF THE STATE OF TEXAS:

County of Bailey, a Municipal Corporation, of Bailey county, Texas;

County of Floyd, a Municipal Corporation, of Floyd county, Texas;

THE FOLLOWING PERSONS, IF LIVING, OR IF DECEASED, THEIR UNKNOWN SPOUSES, HEIRS, DEVISEES AND ASSIGNS, AND THE FOLLOWING PERSONS, FIRMS AND CORPORATIONS IF IN EXISTENCE, OTHERWISE THEIR SUCCESSORS, WHOSE NAMES AND ADDRESSES ARE UNKNOWN:

S. J. Newton, address unknown; W. B Ogden, address unknown; W. J. Piveler, address unknown; William Self, address unknown; J. H. Glasgow, address unknown; T. P. Boyd, address unknown; W. B. Lewis, now or late of Hale county, Texas; J. S. Wilson, address unknown;

THE SPOUSES, IF LIVING, OF THE FOLLOWING PERSONS WHOSE NAMES, AGES, AND ADDRESSES ARE UNKNOWN:

I. C. Enochs.

The said defendants generally and all and singular the heirs, husbands, wives, devisees, executors, administrators, representatives, alienees, successors, assigns of each and every of the above named persons, firms and corporations; and all unknown owners, lienors, and claimants having or claiming any right, title, estate, equity, interest or lien; and all occupants, lessees, licensees and users and holders and owners of and claimants to easements in, on, over, across or through said lands; and all persons, companies, and corporations claiming any title or interest to or in any of said tracts of land; are made parties defendant to the end that they may come into Court and by proper pleading make claim to said lands, or to the proceeds arising therefrom.

Wherefore, your petitioner prays: That this Honorable Court will take jurisdiction of this cause, and will make and have entered all such orders, judgments and decrees as may be necessary to bring all of the known owners of said land before this Court, and to make all unknown parties, firms and corporations having any interest therein parties defendant hereto, and will appoint commissioners or otherwise appraise and fix the value of said land and the amount of compensation which the owners thereof are entitled to for such appropriation, and make and have entered all such further orders, judgments and decrees as may be necessary to vest the entire and unencumbered fee thereof in the United States of America, except as hereinbefore specified, upon payment into the registry of the Court of a just compensation therefor, and to make just distribution of the final award among those entitled thereto as expeditiously as possible.

UNITED STATES OF AMERICA.
By FRANK B. POTTER,
Assistant United States Attorney.

Herein fail not, and due return of this writ make, on or before the 16th day of May, A. D., 1938, showing how you have executed the same.

Witness, the Honorable T. Whitfield Davidson, Judge of the District Court of the United States for the Northern District of Texas, and the seal of said District Court, at Lubbock, Texas, this 15th day of April, A. D., 1938, and of American Independence the 162nd year.

(Seal) GEORGE W. PARKER, Clerk.
United States District Court for the Northern District of Texas.
By OLIVE FLUKE, Deputy.

A true copy of the Original Writ issued in said cause, I hereby certify this April 15, 1938.

(Seal) GEO. W. PARKER, Clerk.
By OLIVE FLUKE, Deputy.

RENEWED STRENGTH

NEW YORK, May 7. (AP)—Aircrafts and specialties developed renewed strength in today's stock market while the fast sprinting utilities of the preceding session took a rest.

Although there were few severely depressed issues in evidence, many were unable to get out in front and the close was moderately irregular.

The day's news was without particularly stimulating qualities.

The Associated Press average of 60 issues was unchanged at 40.8, out on the week was up 2.6 points, the best 6-day advance in about a month. Transfers totalled 556,240 shares, the largest Saturday volume in three weeks.

Prominent share gainers in the 2-hour stretch included Douglas Aircraft at 47⅜, Boeing 27⅜, Curtiss-Wright "A" 20¼, United Aircraft 27⅜, American Can 88, Allied Chemical 148, Woolworth 43, Goodyear 19¾ and Loew's 42¼.

On the downside were Consolidated Edison at 25⅛, North American 20, Electric Power and Light 10¼, Pacific Gas 27⅜, Chrysler 44⅜, General Motors 32, U. S. Steel 44⅛ and International Harvester 89.

The Associated Press commodity index, after eight consecutive declines, tilted forward.

While general business conditions were hardly inspiring, market sentiment registered more improvement during the week than for some time.

NEW ORLEANS REPORT

NEW ORLEANS, May 7. (AP)—Mixed influences held cotton prices steady today and the market closed 2 to 4 points net lower.

Gains of a few points were registered near the end of the short session but they were erased by a mild flurry of selling at the close.

The May option ended at 8.71-bid to 8.74-asked, July at 8.79, Oct. at 8.83, Dec. at 8.86, Jan. at 8.83 and March at 8.92. Spots closed quiet, with middling 4 points lower at 8.82 cents a pound on sales of 1,194 bales.

Liverpool and other foreign markets failed to respond to the American gains of yesterday, apparently afraid they were temporary.

NEW YORK REPORT

NEW YORK, May 7. (AP)—Cotton eased moderately today under light foreign selling when markets abroad failed to respond to the sharp recovery here on Friday. July sold off from 8.70@8.83 and closed at 8.67, with final prices 3 to 4 points net lower.

The market opened 1 to 2 points lower. Trade price fixing and commission house buying at limits absorbed the offerings, but other demand was restricted. Prices eased to net losses of 7 to 9 points later in the session under Brazilian hedge selling, but rallied partially at the close on week-end covering.

AVERAGE PRICE

NEW ORLEANS, May 7. (AP)—The average price of middling cotton today at ten southern spot markets was 8.68 cents a pound; average for the past thirty market days 8.75 cents a pound.

Grains . .

CHICAGO REPORT

CHICAGO, May 7. (AP)—The price of wheat, registering almost immediately forecasts of frost or freezing in some districts of the winter wheat belt, shot up almost two cents a bushel today, then settled back to lose almost half of this gain.

There were other factors stimulating buying, such as higher than expected prices at Liverpool and some strength in securities, but wheat pit discussion centered on weather developments in the southwest where the crop approached harvest. The market's action, however, caused little short covering and prices reacted from highs reached the first hour.

Wheat closed ¾ to 1¼ cents higher compared with yesterday's finish. May 81⅛@81¼, July 79⅝@79½, September 80⅛@80¼; corn ¼ to ½ up, May 59⅛, July 59¼, September 60⅛@60⅛; oats ⅜ to ⅝ higher, May 28⅛@28⅜; rye ⅜ to ⅞ up, May 59¾; provisions unchanged to 8 higher.

FORT WORTH, May 7. (AP)—Demand for grain was of only moderate proportions here Saturday.

Aged Mother Happy To Greet Her Visitor Again On Eve Of Another Mother's Day

BY R. C. HANKINS
Avalanche-Journal Staff Writer

It's been a year since Mrs. Matilda Popejoy of 2313 Ninth street said she was 91 years old and that, to a reporter, "You may come to see me next year but I don't know whether it will be to ask about me on Mothers day."

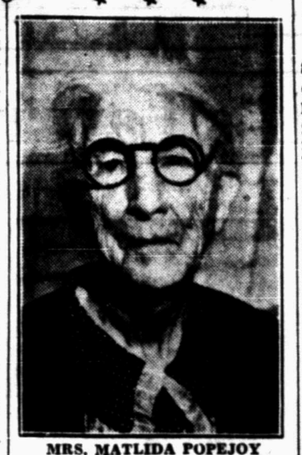

She, bent and frail and suffering from impaired vision, thus conveyed some doubt whether she would be able to greet anyone a year from then.

Carries Congratulations

The reporter returned Saturday to congratulate Mrs. Popejoy on her continued daily routine.

"I'm not quite so well as when you first saw me and my sight is not so good," she said, meeting the reporter at the door and recognizing him despite his not having arranged an interview.

"I am thankful, though, that I have had little sickness and that I may be able to go to church Sunday. I also am thankful I can remember the nice things they did for me last Mothers day."

MRS. MATLIDA POPEJOY

Courtesies Were Shown

On last Mothers' day, Mrs. Popejoy was given candy, flowers and other courtesies as well as being alloted a new automobile for her pleasure that day.

In an interview last Mothers day she said she attributed her longevity to "never quarreling with my late husband, reading my Bible, having my children and being concerned with rearing them."

She advocated that girls marry when young and have babies; that the babies be spanked if they need it; that women take more exercise, and that they take pride in their housework.

Mrs. Popejoy is spry. She has lived simply and adequately. She loves others. Her existence is wrapped in her Bible and those she knows as relatives and friends. She is frank to say so.

"Good bye, just like I said last year. I may not be here when you come a year from now, but I'll be glad for you to come. I appreciate all courtesies—and will remember them and the rest—as long as I live."

Van Zandt Group To Meet May 22

The fifth annual reunion on the South Plains for former residents of Van Zandt county will be held here at Mackenzie State park May 22, according to T. J. Wages of northwest of Lubbock, president. The reunions always are held the fourth Sunday of May. Last year's reunion was at Post.

Site for the picnic will be immediately east of the swimming pool in the park.

Wages, who is in charge of the arrangements, Saturday said plans were "progressing rapidly" and were nearing completion.

The program will be opened at 10:30 o'clock that morning and a preaching service will be conducted at 11 o'clock with Rev. W. B. Wages, Baptist minister of Morton, delivering the sermon.

Principal speaker of the afternoon will be John W. Stamford of Lubbock, ex-resident of Van Zandt county and state representative from there two terms.

Persons attending the celebration were asked to bring basket lunches and participate in the day's program. Wages and Miss Lillie V. Selke, of Lubbock, secretary-treasurer, said they invited program suggestions.

"The program is for all Van Zandters and for those who married Van Zandters," Wages said.

Jack Little Band To Play Here Tuesday

Little Jack Little and his 14-piece orchestra will present a program at 8 o'clock Tuesday night in Senior High school auditorium under auspices of the Texas Technological college artist course.

The orchestra leader will play the multiple role of master-of-ceremonies, pianist, singer and conductor. His baritone voice often has been heard over national networks and in personal appearance engagements.

A program of current hits and past favorites will be presented. The orchestra, organized in 1933, in addition to other engagements has played for several moton picture shorts.

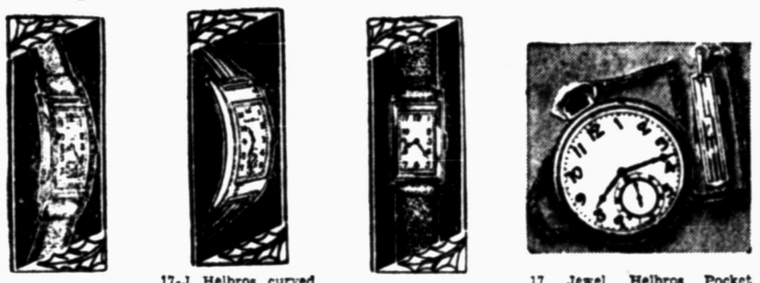

Tickets will go on sale Monday at Bowen's Drug store, 1021 Broadway. General admittance will be $1, and reserved seats, $1.25.

Herbert M. Woolf's Lawrin Upsets Favorites To Capture Kentucky Derby

Dauber Comes In Second; Can't Wait Is Third

By ALAN GOULD
Associated Press Sports Editor

CHURCHILL DOWNS, Louisville, Ky., May 7.—Lawrin, biggest horse in the smallest Kentucky Derby field since 1922, came from behind with a spectacular stretch rush today to win the 64th running of the $50,000 thoroughbred battle of the bluegrass and top off one of the most smashing form reversals in the colorful history of the race.

Carrying the colors of Herbert M. Woolfe, Kansas City, (Mo.) merchant, to their first triumph in the derby, Lawrin stood off a great challenge by William du Pont, jr.'s stout hearted Dauber to win by a length.

The Fox Far Behind

Myron Selznick's Can't Wait finished third, five lengths further back, nosing out Hal Price Headley's Menow and Maxwell Howard's The Chief, which ran fourth and fifth.

Fighting Fox, the 6-5 favorite and full brother of the renowned Gallant Fox, derby winner in 1930, struggled home a badly whipped sixth while the second choice, Warren Wright's Bull Lea, likewise disappointed his many backers and wound up eighth in a field of ten starters.

A crowd of 65,000 spectators packing the stands to capacity was stunned by one of the biggest upset finishes ever to climax the historic event.

Upsets Calculations

It was a field day for the long shot players as well as a remarkable triumph for winter horses, which ran 1-2-3 and knocked most of the pre-race calculations into a cocked hat. Lawrin became the first star of the winter tracks to win the derby since Black Gold was victorious in 1924.

Lawrin, in addition to collecting $47,050, the winner's net share of the total purse of $57,575, paid off at $19.20 to win $8.80 to place and $4.80 to show, for each $2 ticket in the mutuel machines.

Jockey Rides Well

Dauber, which campaigned on the west coast while Lawrin starred during the Florida season, paid $12 to place and $6 to show. The show price on Can't Wait was $8.20.

Ridden beautifully by Eddie Arcaro, 23-year-old jockey from Newport, Ky., Lawrin made the most of his finishing powers to win a race that was as truly run as it was shocking to the form players.

The big brown son of Insco, out of Margaret Lawrence, was rated off the fast early pace set by Menow, saved ground in the long run down the back stretch and came through on the inside to take command at the head of the stretch.

Wares Down Menow

Lawrin easily wore down Menow, the 1937 juvenile champion and came on under heavy pressure to keep his commanding margin as Dauber was put to a drive in the last sixteenth of a mile. Dauber came from last on the getaway to run a smashing race.

Fighting Fox, hope and pride of the east, had no excuses. William Woodward's colt, established a strong favorite after the withdrawal of Stagehand, the winter sensation, was off to an unexpectedly brisk start. The Fox battled Menow for the lead in the first quarter mile run past the stands but yielded the pace on the first turn and thereafter never threatened.

Pace Too Fast

As Bull Lea found the pace too swift and faded badly in the last half mile, the long-shots put on the show for the benefit of one of the biggest crowds in derby history. Can't Wait, rated well from the start, looked to be out of the money entering the stretch but then came on gamely to snatch third place in a blanket finish with Menow and The Chief. They were only a few feet apart at the wire.

Fighting Fox, Co-Sport, Bull Lea, Elooto and Mountain Ridge brought up the second division, in that order.

Lawrin's time, 2:04 4-5 for the mile and a quarter, did not menace the derby record of 2:01 4-5, set in 1931 by Twenty Grand. A brisk southeasterly wind, blowing up the stretch, killed off any chance of faster time.

Dates Are Set For Tourney At Beaumont Country Club

BEAUMONT, May. 7. (AP)—June 2, 3, 4, and 5 were announced today as dates for the first annual Beaumont Country Club invitation golf tournament for which a record field of shotmakers was expected.

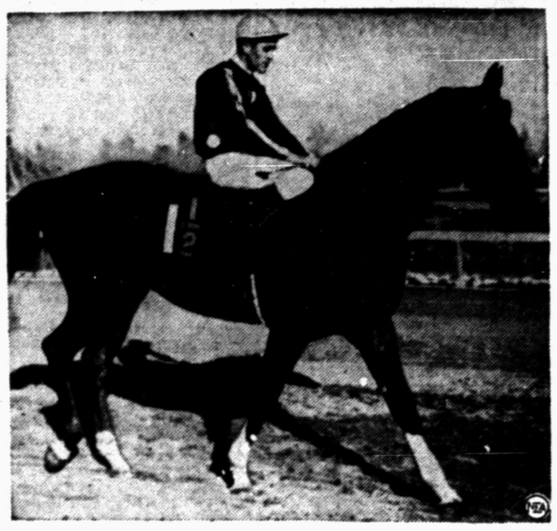

Among those expected to join local stars were Walter Emery, Houston invitation winner; Don Schumacher of Dallas, 1937 state amateur champion; and Glen Chrisman of Houston.

TROSKY LEADS HITTERS

NEW YORK, May 7. (AP) — Hal Trosky, Cleveland's clouting first-sacker, survived the early season shakeup in the batting standings on both sides of the big league front this week and remained the No. 1 hitter in the big-time with a batting average of .434.

While Chuck Klein was taking over the National league lead from the Cardinal's Mickey Owen with a .365 mark, Trosky came through handily.

Bobby Riegel Is Victor Over Martin In Texas Golf Association Tourney

By FELIX McKNIGHT
Associated Press Sports Writer

FORT WORTH, May 7.—Frail Bobby Riegel, master of iron play, took the Texas Amateur golf title away from Iverson Martin, Fort Worth's "Cinderella Kid," in a match that seeped drama through its birdie finish on the thirty-fifth green today.

Riegel, a transplanted Texan from Virginia, had one more great iron shot stored away for the finish, and he planted it squarely through two huge trees twenty feet from the pin. Nonchalantly he stroked in his fifth birdie over the rain-sodden greens for a 3 and 1 triumph.

Misses 12-Foot Putt

Only 12 feet from the hole, awaiting another chance to keep alive a match he had pulled from the fire repeatedly, stood 19-year-old Martin, son of a truck driver whose friends raised the $5 entry fee to put him into a tournament that rocketed him into the heights of Texas amateur golfdom.

True fairway shots, from his distance irons through his pitching clubs, brought Riegel, 22-year-old Beaumont insurance man and former Southern amateur champion, a crown ripped from Reynolds Smith's head in a quarter-final match by young Martin.

Riegel Tucks Match Away

On the twenty-fourth hole, with the chill north wind blowing into his face, Riegel quietly tucked the match away with the finest shot of the day. He had bent his tee shot perfectly around the dog-leg bend in the hole and had a full mashie shot left to the green. He swept through the mud and watched his ball settle two feet from the hole for a birdie.

It gave him a three-hole lead and visibly took some starch out of Martin, who, on the hole before, had started chopping down Riegel's led with a scorching putter.

Overnight rains, followed by a cold wind and overcast skies, made Colonial Golf club's par 35-35-70 layout an entirely different course than the one the boys had played in shirt sleeves for three days.

Riegel Leads In Morning

Both youngsters had 73's on the morning round, which finished with Riegel holding a one-hole lead as a result of a blazing birdie finish he staged after being two down through the fourteenth hole.

But Riegel's killing round came on the first nine of the final eighteen. He tied fairway shots on the pins nearly every hole disregarding the wind, and finished with a par 35. Martin's 39 cost him three holes out of that nine.

Martin, who became the gallery darling after taking the hard way to the finals—beating Morris Norton, West Texas champion; Derald Lehman, near a course record in his first round match; Reynolds Smith and Walter Emery, former National amateur finalist—made it a match again at the twenty-eighth when

Lubbock, Wink To Scrap For Lead

Double Bill To Start Today At 2 O'Clock

On top of the world in runs and hits, but challenged for the team competitive leadership, the Lubbock Hubbers come home today to open a nine-game stand—and it starts with a bang between the leaders.

The 12-inning, 14 to 12 victory over Big Spring's Barons yesterday shot the Hubbers into first place, where the Wink Spudders were waiting for them, having just won a 10 to 3 victory over the Clovis Pioneers.

So here they go, the Hubbers and Spudders, at 2 o'clock this afternoon, in the first game of a double header to decide the undisputed league leader.

Wink Enters Race

Contrary to early season indications, the Spudders, after dropping a flock of exhibition games and the first two league contests, came up with a rush and tied Lubbock for second place. Big Spring was ahead of Lubbock and Wink by a half a game until yesterday's contests. Now the latter leads Big Spring by half a game.

The Hubbers come home from a six-day trip with four victories and one defeat. They took the opening out of town series at Midland, 2 to 0, a middle game being postponed on account of a sandstorm. They took the series at Big Spring, 2 to 1, losing the opener but taking the last two in extra inning contests.

Lefty May Be Ready

Jerry Blanchard, who pitched three-hit ball against Big Spring Thursday, only to lose, 9 to 6, may be ready to start against Wink today.

Rest of the Hubber lineup, with possible exception of Bob Mosel, first baseman who's long homer broke up an extra-inning duel with Clovis last Sunday, giving Lubbock a 23-22 victory in a vicious sandstorm. Mosel received injuries at Midland which put him out of the game for a spell. Al Carr may be on first, with Hillin or Wilson in left field.

Lubbock leads the league in everything but total wins, having a batting average by far higher than any other club, with more extra base hits and more hits per game and per person.

Wink, led by Jodie Tate, former Texas League infielding star who piloted Wink to the West Texas-New Mexico league championship last year, is outfitted with a bunch of hearty sluggers, too, as well as some effective pitching. The club is sure to be a stout test for the Hubbers.

Lubbock plays Wink today and tomorrow; Midland moves in on Tuesday for three games, and Hobbs comes here for three games beginning Friday and continuing through Sunday.

Bob Cummings Faces Andy Tremaine In Weekly Main Go

Bob Cummings, fresh from a victory last week, again gets the top spot in the weekly wrestling schedule Wednesday night when he faces Andy Tremaine.

Bob showed plenty of improvement last week by slamming George Hartay into submission. Wrestler that Hartay is, the going may not be so easy for the Vancouver, Wash., tin ear this time. Tremaine learned a lot about the game himself in his Tucson haunts.

The Arizonan won his last match here, also, defeating Dick Sampson when the latter turned villain.

Second slot on the card is filled by Dilly Davis of Houston and a newcomer, Ace Abbott. If the Ace lives up to expectations it should be a corker.

A couple of fellows who made their debut last week meet in the opening bout. They are Buzz Reynolds and Carl von Bromberg.

Clark Griffith Isn't 'Old Fox' Because Of His Hair

(By The Associated Press)

WASHINGTON, May 7.—Baseball men don't call Clark Griffith the Old Fox just because his hair is white—the president of the Senators is one of the game's great judges of diamond talent.

Right now the fans are eyeing Griff's aged pitching staff—most of which was picked up at bargain prices—and are wondering if the Fox has outsmarted somebody again.

Emil (Dutch) Leonard, is 29, and was bought for $7,500.

Pete Appleton is 33, and was bought for $7,500.

Elon Hogsett is 32, and Griffith got him from the Browns for the in-and-outer Ed Linke.

Harry Kelley is 32 and he too cost but $7,500—the waiver price.

What have they done?

Leonard has hurled two shutouts this year, one against the Athletics and the other a 13-inning masterpiece against the Cleveland Indians.

Appleton has won two games and lost none, and on Thursday whiffed Cleveland's Ken Keltner with the tying runs on base to lick the Indians. Yesterday he held the White Sox scoreless in two innings of relief pitching and got credit for the Nats' 4-3, 13-inning win.

Hogsett has won two games and lost one. One of his victories was a 3 to 2 decision over the Yankees.

Kelley—just purchased from the Athletics—has yet to make a start, but appeared in a relief role yesterday, pitching two scoreless innings. He was lifted for a pinch hitter.

Hubbers Salvage Final Game On Big Spring Lot

(Special To The Avalanche-Journal)

BIG SPRING, May 7.—Lubbock rode the crest into a first-place tie with Wink here today by taking the rubber game in 12 innings from Big Spring, 14 to 12.

Ramming out five home runs the Hubbers first overtook Big Spring then saw Hank Henderson meet one of Charley Bryan's pitches squarely in the ninth for a homer with the hassocks crammed. The Barons took a 6-1 lead in the second inning off the offering of Vernon Wilson. Bryan relieved Wilson with none out and pitched one-hit ball to the ninth.

Stevens Homers Twice

Malcolm Stevens, Lubbock second sacker, hit his third and fourth home runs in two days. Al Carr Johnny Taylor and Pope Mize for Lubbock and Harry Siegbert of Big Spring each collected one. In addition to his powerful stickwork, Stevens handled fourteen chances afield without a bobble.

The Hubbers got the better of the hitting, 14 to 13. Frank Stasey and Frank Jacot passed eight batsmen between them. Stasey lasted until one was out in the tenth, then gave way to Jacot who was charged with the loss.

Wilson Is Bombarded

The Barons jumped on Wilson for five runs on as many hits, a pair of walks and a wild pitch before Bryan could come to his rescue with none away in the second stanza. The stocky righthander allowed one run before he could retire the side.

Siegbert hit his first roundtripper in the first inning.

Stevens hit his first homer in the second with the bags empty and Taylor did likewise in the fourth. Miller was on the paths when Stevens connected again in that inning.

Carr Cracks Home Run

After two were down in the fifth, Bob Hillin singled and Carr walked. Taylor was walked and Mize sent Hillin and Carr over the plate with a single. Miller ended the inning by sending a short fly to deep shortstop.

In the sixth Stevens was passed. Watkins singled, then Joe Gedzius scored them both after Hillin had sacrificed and Bryan had whiffed Carr emptied the paths with a homer.

Mize led off the seventh with a circuit clout, then Bryan singled in the eighth and scored on Gedzius' fielder's choice.

Score 2 In Twelfth

The Hubbers threatened little from there until the eleventh as Stasey settled down. Miller singled in the eleventh and after Stevens had forced him, Stasey was relieved by Jacot.

The winning tally came in the twelfth which Hillin led off with a strike out. Bryan walked and Gedzius flied to short left. Carr singled and Taylor was intentionally passed. Mize sent a lazy roller to Dick Hobson at shortstop. The ball took a crazy hop, evaded the fielder and Bryan and Carr scored.

Wink Pounds Out Victory Over Pioneers, 10 To 3

CLOVIS, May 7. (Special))—Behind the steady nine-hit pitching of Christie, Wink gained a tie for first place with Lubbock in the West Texas-New Mexico league today, winning over Clovis, 10 to 3.

Off to a two-run lead in the second frame, the Spudders were never overtaken. They added runs in the fourth, fifth, sixth and seventh innings. One run was all the Pioneers could garner off Christie in one inning.

Wink treks into Lubbock for three games in two days in a series that will likely leave one of the teams entrenched in the league lead.

Ninth-Inning Uprising Is Enough For Hobbs To Win

HOBBS, May 7. (Special)—Rallying in the last of the ninth inning Hobbs came from behind to nose out Midland, 5 to 4, today to take the series, two games to one.

Cecil Smyly's fly to left field scored Hargrove with the winning run after Gordon Donaldson's single had counted Gordon Loken with the tying run.

Lefty Parks held Hobbs scoreless until the sixth inning when the Boosters put across a run on a walk, a fielder's choice and two singles.

Marshall Scott limited the visitors to seven hits and struck out eight.

MEET SITE CHANGED

DENTON, May 7. (AP) —The Lone Star conference track and field meet will be held at Denton Teachers college next Thursday and Friday, member schools have decided. The site was changed because the track at Huntsville, where the meet was first scheduled, could not be put into good condition in time.

Milby Of Houston Is High In State Meet; Muleshoe Boy Third In Half-Mile

By RAY NEUMANN
Associated Press Sports Writer

AUSTIN, May 7. (AP)—Lanky Harold Hall today won the Interscholastic track and field meet for Milby High school of Houston with a victory and third place in the century and 200-yard dashes, respectively.

The blonde, senior student broke the tape in 10.5 seconds for the hundred yards, 9-10 second off the meet record, and led the field three-fourths of the way in the longer distance which was won by Charles Roberts of Kenedy with Frank Crain of Victoria second.

Another elongated Milby lad, Floyd Robertson, added three points to Hall's seven with his second place in the quarter mile to give the Bayou city school the 1938 championship.

Steady Drizzle Falls

Drenching rain which went into a steady drizzle, coupled with lightning, thunder and a biting wind, was blamed for lack of a single record smashing performance.

Roy Bucek grabbed individual high scoring honors and gave Schulenberg High school a tie with Brackenridge of San Antonio and John Reagan of Houston or second place.

Bucek won the 120-yard high hurdles in 15.8 seconds and was barely nosed out in the 220-yard lows where he inished second to total eight points.

Brackenridge, whose failure to place in the mile relay lost the team a possible meet title, squeezed into its tie spot on the work of Julius Kinzel, whose 50-feet, 11 1-2 inches, won the shot put, and Billy Milner, who took second honors in the half mile.

John Reagan gained its second place tie through Paul Coons, who was second in the pole vault with 11 feet, 10 inches; Homer Smith, whose discus hurl measured 125 feet, 6 inches, and placed him second, and Wendell Wallis, who tied third in the broad jump.

C. R. Johnson helped North Dallas into a many-wayed tie for third place in the school standings with a fourth place in the 220-yard dash and his amazing anchor of the mile relay team to victory. The wiry blonde passed four in his lap.

Kenedy High school's potent Charley Roberts also annexed six points in taking a fourth in the century besides winning the 220-yard dash.

Big James Vanderveer of May High school provided a thriller with his terrific finish in the mile run. He "kicked" hard to fight his way out of a group which came out of the turn abreast and crossed the finish stripe breezing.

Wilson Terry of Lockhart spurted in the first turn and was never headed to take the half mile in 2:01.6 while Arnold Johnson of Stephenville won the low hurdles in the slow time of 25.3 seconds. Woodrow Lambert of Muleshoe was third in the half mile.

Quarter mile honors went to Douglas Calley of Brady, clocked in 50 seconds flat, and Bobby Lay of Yoakum fulfilled promises in winning the pole vault with 12 feet even.

Oliver Johnson of Denison won the broad jump, A. D. Henson of Rob the high jump, Jack Rutherford of Wink the discus throw, and Alber Mikeska of Seymour, titlist last year, repeated in the javelin throw.

The rural pentathlon, set for a around athletes, was won by Edga Schrank of Aleman, Hamilton count with 19 points.

Oleta Franklin and Jamie Rut Dechard of Meadow became the girl doubles champions by defeatin Paulette Bratcher and Jean Steph ens of Paint Rock, 6-3, 6-4.

Hubbers Home For 8 Days

By Collier Parris

LOOKS LIKE THE HUBBERS are tampering with another scorpion today as the Winks come to town.

The Spudders from the oil city won the West Texas-New Mexico league championship in something like a walk last season, Jodie Tate skippering them through the dew with fury and finesse. Jodie is still skippering them, although the lineup has changed considerably. Four or five of the 1937 Winks were sold up the river, and the club has been rebuilt.

• • •

During the exhibition season, the Winks didn't look so hot. They were kicked around by Hobbs, Midland and Big Spring, and maybe a semi-pro club or two, and they started the new campaign by losing the first two games.

Then they got hot, and they haven't cooled off much.

It promises to be a lively series, today and tomorrow, between the Winks and the Lubbocks. The winner probably will go to the head of the class.

Two of the games are booked for today, the double header starting at 2 o'clock, and the third one tomorrow afternoon starting at 3:30.

If You Want Night Baseball, Vote Today

Three parks in the WT-NM league are equipped with mazdas for after dark baseball, and two others will have them in before the June moon gets full.

Officers of the Lubbock club, meaning Harry Faulkner and Bob Tarleton, have not made definite arrangements for lights, but from the outset they have said, "if it becomes necessary to install lights, if the fans want lights, and if they would make known their wants, WE'LL HAVE LIGHTS."

THE White Sox agents already have socked a nice wad of spinach into local baseball, and will sock a lot more before the season is over. But, being human, they are not crazy about spending any more shekels than necessary, and you can not blame them for going a bit easy, especially since they moved in here of their own free will, without asking anything of Lubbock except a place to play and the gate patronage of fans.

Practically every other town in the league called upon its citizens to dig up and fork over in order to establish a ball club fund at the start. That is the case in other leagues, too.

The Hubber management did not ask financial assistance of the citizens, but it does want the fans to know they have a part—that they have a ball club. And it wants your suggestions and criticisms.

So if you'd like to see lights installed at the park, or if you prefer daytime baseball, clip out the following coupon, check your sentiments and answers, and hand it to the ticket taker with your ticket today, or any day this week.

YES, I would like night baseball here.....

NO, let's be exclusive.....

I would attend ..... games per week if at night.

LETTER from Bryan Schley, secretary of the Texas High School Football Coaches Association, suggests we start "whooping it up" a little for the association's coaching school and the all-star football game here in early August . . . So here's a whoop! . . . At a most reasonable rate, coaches may receive instruction from three qualified mentors—Harry Stuhldreher, Lynn Waldorf and John DaGrosa . . . Dates are August 1-7, with the football game booked for Saturday night, August 7 . . . .

A football release from Tucson has the new Wildcat coach, Orian Landreth, pronouncing his prospects "fair" for the fall session . . . Of 24 eligible lettermen at U. of A., only 13 were in spring training, just closed . . . but the others are expected in the early autumn . . . Several have asked: Where is Oscar Eckhardt playing baseball? . . . The Ox is with Toledo, the American Association club skippered by Fred Firpo Marberry, and, as usual, he's clouting the heck out of the horsehide . . . and probably stepping on his own toes trying to shag fly balls in the outfield . . . Others may be interested to know that the Texas League, playing with Tulsa . . . So Judge (DeWitt) Landis says it's in the bag for Tulsa, on acc't. of Ernie never plays with less than a pennant winner . . .

NEWS of Sammy Baugh, the Cardinal farmhand with Columbus of the A. A., trickles in via the Sporting News: Baugh won a football-tossing duel from Ray "Buzz" Buivid, a feature which preceded the opening game at Milwaukee . . . Which ain't, we might add, the first football-cidence . . . the 1937 Cotton Bowl game . . .

The parting word—we're leaving you in peace for a week—is let the Hubbers know they're welcome around here this week . . . and bring your sporting troubles to Thomas Miller, who'll ride herd on this department for the next several innings.

YANK GUNS OPEN FIRE

NEW YORK, May 7. (AP) — The Yankees fired 17 hits for 22 bases today and trampled the Detroit Tigers 12 to 8 in the season's first meeting of the two clubs before a crowd of 41,070 at Yankee stadium. It was the Yanks' fifth straight win.

Joe DiMaggio and Lou Gehrig collected three hits apiece; Myril Hoag drove in four runs with a double and single, and Bill Dickey sent two more across. In fact, the only sour note from a Yankee viewpoint was that Lefty Gomez, after a fine pitching effort for six frames, was belted out under a five-run assault in the seventh.

He took credit for the victory, however, after relief work by Bump Hadley and the old reliable "Grandma" Johnny Murphy.

Cowboy Tennists Are Winners Over Tech

By virtue of winning the No. 1 doubles match, Hardin-Simmons university netters claimed a 4 to 3 victory over Texas Tech here yesterday, giving the Cowboys a 3 to 1 advantage for the season in the contests between the teams.

Actually, the teams split even in today's matches, each winning two singles and one doubles contests. In the singles, Boyd of H-SU defeated Chapman of Tech, 6-3, 3-6, 7-5; King of HSU won from Moore of Tech, 6-3, 6-4; Jordan of Tech won from McCollum of Hardin-Simmons, 6-1, 6-2, and McCarty of Tech defeated McKinney, 7-5, 6-3.

In doubles, Boyd and King defeated Moore and Jordan, 6-4, 6-4, and Chapman and McCarty shut out McKinney and McCollum, 6-, 6-0.

Pastor Makes Things Easy For Golfers

LOS ANGELES, May 7. (AP)—Religious worship will be made easier here for those who choose the Sabbath morning for athletic activities.

Dr. J. W. Fifield, jr., pastor of the First Congregational church, said that beginning tomorrow he will hold services at eight a. m. for golfers and horseback riders.

"I invite them to attend in knickers, slacks or jodhpurs," he said. "I won't keep them longer than a half hour and they can be at the first tee or bridle trail by 9 o'clock."

Prizes Offered Nimrods In Skeet Shooting Today

Lubbock nimrods will shoot for prizes today at the regular meeting of the Lubbock Skeet and Gun club.

J. E. Mann, secretary of the club, has announced posting of a prize amounting to $3 to the first shooter breaking 25 straight targets at skeet, and a similar prize to the first breaking 25 straight at straightaway trapshooting.

The banging begins at 2:30 o'clock this afternoon at the club traps north of town. Out of town visitors are cordially invited.

Hal Schumacher Felled By Line Drive In 6th

PITTSBURGH, May 7. (AP) — The New York Giants made it two straight over their favorite cousins, the Pirates, today with a 6 to 5 victory, but the win cost them the services of their top righthander, Prince Hal Schumacher.

A line smash off Gus Suhr's bat in the sixth inning struck Hal on the chest. Dr. J. Huber Wagner examined him and sent him to the hospital after diagnosing the injury as severe chest contusions and possible broken ribs.

Hubbers Lead Batting Through May 1

The first five days of the West Texas-New Mexico League this year were characterized by the terrific slugging of the Lubbock Hubbers. The Hubbers have rung up a .415 average for the first five games and lead the league in runs, hits, two baggers, triples, home runs, total bases and runs batted in. Thomas became the leader in individual hitting by getting four safe hits in six times up.

In the pitching department, Marvin Gramly of Lubbock is the leader with two victories rung up in five days.

Following is a list of all batters who have appeared at the plate five times or more and all pitchers who have either won or lost a game.

Batting averages of .300 or better hitters and complete pitching averages through games of May 1.

Temporary Order Restraining City Of Electra From Gas Reduction Is Given

Ordinance Said To Be Illegal

DALLAS, May 7. (AP)—A temporary order restraining the city of Electra, Wichita county, from enforcing a recently enacted ordinance directing a reduction of more than 20 per cent in natural gas rates was issued by Federal District Judge W. H. Atwell here today.

An indication that he considered the ordinance, as enacted, entirely illegal was given in a remark to C. P. Engelking, attorney for the city.

No Use Wasting Money

"You better go back and put that ordinance through in a legal way", he said, adding that there was no use in wasting money.

Testimony indicated that enforcement of the ordinance, as enacted, would amount to confiscation of property, he said, adding, "and I know the people of Electra don't want to do that."

He required a bond of $10,000 of the Community Natural Gas company, plaintiffs in the suit, and holder of the natural gas franchise there.

Representatives of the gas company contended they had not been given proper notification and proper opportunity to be heard before the ordinance was passed.

Electra officials contended the company was properly notified and that it had been heard and that the company's representations were unsatisfactory.

Witnesses For City

City Commissioner Leo Moore and City Secretary E. W. Presson were witnesses for the city. Chester L. May, executive-vice president, was among witnesses for the utility company.

The ordinance was first passed Feb. 28, of this year, it was brought out, and was rescinded on Mar. 14 when May and other gas company representatives attended a commission meeting and protested against the action. The ordinance then was passed again on March 28.

As passed the ordinance directed a reduction in the domestic gas rate from 75 cents per 1,000 cubic feet to 50 cents a thousand.

Two Youngsters Are Behind Bars Again

Behind bars again Saturday night for the second time this year were two miniature confessed law violators, aged 6 and 9, on charges of theft.

In January when tried on shoplifting charges they had 'beat the rap" with suspended sentences in the state reform school for boys. Officers had little doubt this time but that they were on their way to Gatesville.

The youngsters crawled into one bunk, and still had room to spare, at the county jail after Aubrie Cummings of the police department had arrested them.

Bill Mabray, police identifications officer, when questioning them in January had described as being "tough as boots and not much higher."

They probably will go on trial before a juvenile judge Monday.

Damages Of $18,000 For The Plaintiffs Awarded Here

A jury in the 99th district court of Judge E. L. Pitts Saturday answered 114 special issues in the case of Mrs. Ollie Hair and others against Cecil White, operator of Cecil White Truck lines and found damages of $18,000 for plaintiffs, according to attorneys.

The case grew out of a traffic accident Oct. 16, last year, at the junction of the Levelland-Brownfield highway, after which Joe Hair died.

Mrs. Hair, her son, Ray, and daughters, Melba Jo and Nelda, were plaintiffs and had asked damages of approximately $35,000.

The trial was begun Tuesday morning and went to the jury at 11:30 o'clock Friday morning. They had not completed deliberations until 10:30 o'clock the next morning.

William H. Evans was attorney for Mrs. Hair and her children, residents of western Lubbock county, and E. L. Klett represented defendants.

Finding A Place To Play Rudy York Is Causing Black Mike Plenty Of Worry

NEW YORK, May 7. (AP)—Where to play Rudolph Preston York is one of the biggest problems confronting the Detroit Tigers' energetic pilot, Mickey Cochrane.

Black Mike, until last year's injury himself one of baseball's greatest catchers, must decide whether his successor will be the powerful, slugging Cherokee or the weaker hitting George (Birdie) Tebbetts.

Find Him Everywhere

Sources close to Cochrane, who has experimented for two seasons on York, say he has all but given up on the lumbering big fellow as an outfielder—Rudy's latest assignment—and that only the catching position remains a possibility.

Some place has to be found for York. He's too much dynamite with a bat to go to waste. But he has his troubles defensively. Thus his story — tried at first base, third base, catching, outfield, and catching again.

York, pulled in after two games in the outfield, was booked to catch against the New York Yankees today, but mainly because the red-headed Tebbetts was in baseball's jail house.

Freckle-faced Birdie, a dynamo behind the plate and for that reason appealing to Cochrane, is working out a three-day suspension for swinging fists with Ben Chapman in Boston Thursday.

To that incident, however, the Tigers now point as evidence that they're on the way back after a slow start.

"We were made," explained Cletus Elwood (Boots) Poffenberger, the pitcher. "We went out to get 'em," implying that the mood of the Tigers in rallying to beat the Red Sox would be permanent.

Southland, Cooper Advance To Finals

Cold and windy weather Saturday afternoon caused postponement of finals in the district 5 high school baseball tournament on the Cooper High school diamond.

By virtue of wins Saturday Cooper and Southland entered the final round which will be played at 2:30 o'clock Monday afternoon. Cooper beat Whitharral, 11 to 10, Saturday morning and Southland ousted Roosevelt, 19 to 9.

Red Huckabee went the route for Cooper, giving up 11 hits and six bases on balls while whiffing an even dozen. Waters was the starting Whitharral hurler, but he gave way to Lefty Alverson in the sixth. Alverson allowed Cooper to fill the bases and Glen Gray, Whitharral catcher, relieved him.

Cooper sacrificed the winning run across.

Macsie Donahoo, Southland ace twirler, left the contest in the fifth inning after his mates had piled up a 19-to-2 lead. Glenn Shelton coasted from there, although giving up seven runs. Dickie Martin was the Southland catcher.

Lefty Vardman and Searsy pitched for Roosevelt and Weaver caught.

Riegel Wins

(Continued From Page 10)

he picked up a hole with a par.

His fine birdie three at the thirtieth after Riegel had recovered from the rough, cut the lead to two holes, but he stifled his own comeback on the thirty-first hole by approaching boldly and missing his putt.

Not a hole was halved out of the last six played as both youngsters bobbed up with shot after shot under pressure. Dormie three as they went into the thirty-fourth, Riegel missed a great chance to close out the match when he three-putted from fifty feet, missing his three foot second putt.

Other Results Given

But he had saved another birdie for the climax and released it on the thirty fifth green.

Results in other flights included:

First flight:

Dick Turner, McAllen, defeated Louis Nowlin, Dallas one up.

Second flight:

Reuben Albaugh, Dallas, defeated Alex Hickey, Corsicana 3 and 2.

Championship consolation:

H. S. Forgeron, Midland, defeated Buck Luce, Austin by default.

Mrs. Dean To Represent Local Golf In Southwestern Tilt

Mrs. C. L. Dean, Lubbock's feminine golf champion, plans departure today for Albuquerque, N. M., to compete in the eleventh annual Women's Southwestern Golf association championship tournament.

Tournament dates are May 11-15. The event is to be conducted at Albuquerque Country club. Mrs. Dean hopes to get in practice rounds Monday and Tuesday before qualifying starts Wednesday.

Meadowbrook Play Starts Today; Finals Are Carded May 22

First tournament play of the season gets under way today when golfers of the city and the neighboring courses start firing qualifying shots for the opening Meadowbrook club tournament.

Medal scores may be turned in until May 15 and will be over the 18-hole route. All players of the section are invited to post qualifying scores this week.

Edgar (Red) Doherty, elongated Meadowbrook and former Texas Tech ace of long-driving ability, will be on hand to defend his title.

Semi-finals will be played May 21 and finals the following day.

BRITISH CUPPERS NAMED

ST. ANDREWS, Scotland, May 7. (AP)—Four veterans, including former British Amateur champion, Hector Thomson, and four newcomers, including 17-year-old Jim Bruen, today were named to the British Walker Cup team that meets the United States golfers here June 3-4.

Manuscripts In Contest At Tech To Be Taken Monday

Although Saturday was ostensibly the dealine for submission of manuscripts to the literary essay and poetry contest at Texas Technological college, they will be accepted Monday, according to Drs. C. B. Qualia, and A. L. Carter, contest judges.

Fourteen poems and three short stories were submitted Saturday. The contest, sponsored by the student literary society in an effort to encourage creative writing among the students, offers cash prizes of $5 for the winning short story and $2 for the winning poem.

Winning manuscripts will be published in June issue of the Tech magazine, and those showing promise will be submitted to publishers.

Local Semi-Pro Nine Is Ready

Enough baseball to keep everybody interested is planned for Lubbock and vicinity this summer.

Not to be forgotten in this "professional" age and season are the Lubbock semi-pro ball players, formerly known as the Hubbers, and now clamoring for recognition.

It seems an old Lubbock custom that the ball club officially representing Lubbock in a baseball campaign be called the Hubbers. With the advent of professional ball, the name was popularly attached to the local club in the West Texas-New Mexico league.

Boys Play For Fun

But the boys who play ball for the fun of it are going to play some more.

Hollis Payne and Jack Thompson, former semi-pro Hubbers who helped produce some sensational and otherwise games are Lubbock fans, have gathered up quite a familiar lineup of players who, some think, can spot the pros a few runs and such and beat 'em out.

The semi-pro club probably won't be making a local debut until June, since the Sundays are taken up by the Hubbers this month. But they plan to go on the road, starting today with a practice game at Ropesville, and "get in shape" to give local fans some colorful baseball later.

Club Needs Opposition

The semi-pros wish very much to line up a game for next Sunday, and for Sunday, May 28, away from home. Club managers willing to play are asked to communicate with Hollis Payne, who'll be business manager of the club, at 2408 Main street, in Lubbock.

Familiar names on the Hubber roster are Lefty Bettes, first baseman; Bill Holloway, outfield; Jack Thompson, third base or outfield; Harold Crites, outfield; Charley Presley, outfield; Winfield Breedlove, second baseman, and Lingle and Payne, catchers. Newcomers who are looking good in workouts are Bobby Holmes and Eddie Wapp of Texas Tech's athletic department.

Tech Injuns Look Good

Molmes, football sensation and track star, is a shortstop of no mean ability. In fact, he is quite good. Wapp is a pitcher who can "go to town," with a fast ball and a curve.

The semi-pros hope to play at the local park, possibly against the Amherst Reds, about June 5, although there may be some week day games between now and then, when the professional club is out of town.

The term "Uncle Sam" came into use around 1813.

Fireside Forum To Be Held At Tech Sunday

A Fireside Forum has been scheduled for 2 o'clock next Sunday afternoon in the women's dormitory at Texas Technological college and Eron Gafford, president-elect, and Marjorie Elder, retiring president, of the Association of Women Students will report on the recent district convention of the Intercollegiate Association of Women Students.

Misses Gafford and Elder have returned from the convention, which was conducted in East Lansing, Mich.

Miss Gafford is a member of an investigation committee which will report at the national convention in Lawrence, Kas., in 1939. Miss Gafford served as chairman of a group discussion at the convention.

Miss Elder was on a constitution revision committee and presented the only revision accepted. A radio talk was presented by Miss Elder, who was introduced as "one of the Texas girls with the southern drawl."

Tech missed being chosen 1940 host college by only two votes.

Younger Man In Office Needed

NACOGDOCHES, May 7. (AP)—Highway Commissioner John Woo[illegible] of Timpson began his campaign for election as railroad commissioner with a speech here today claiming the people should have the benefit of a "younger and more vigorous man" on the rail commission.

He said he had no personal criticism of C. V. Terrell, chairman of the commission seeking re-election but claimed Terrell had held public office for more than half a century.

Entitled To A Break

"The urgent need of efficiency in the public service ought to compel him to step aside," Wood asserted. "The people of Texas are entitled to a break."

Wood, a member of the highway body since 1933, said the essential qualifications of a railroad commissioner were those of a highway commissioner.

Pointing to his record, the East Texan said he had helped administer expenditure of huge funds and his service on the railroad commission would eliminate waste without impairing departmental efficiency.

Break Political Machine

"You know and I know that my election means the breaking down of a powerful political machine that is amply financed, oiled and greased, and ready to go," he said.

He said he had worked in harmony with other members of the road commission and would do the same if elected to the railroad commission "in which bickerings have occurred in recent years."

Here's One Day's Export Of American Beauty To Europe

The trans-Atlantic season certainly got off to a FAIR (get it?) start when these sweet sixteen all sailed the same day for Europe. The railbirds at the top are the dancing Georgia Hale Girls, as is Marie Kelly, at right, just below them. They're off to prance in London. Haloed by her hat at top left, is honeymooning socialite Mrs. Ernst E. Lehman. In striped jacket is comely Lorna Harmsworth, homeward bound with her father, noted British publisher. Directly in front of her is another honeymooner, Mrs. Ogden Goelet, formerly Maria Virginia Zimbalist, daughter of the famed violinist and prima donna Alma Gluck. At extreme right (gosh, another trans-Atlantic honeymooner!) is blonde ex-Hazel Forbes, now Mrs. Harry Richman. The two smiling faces at lower left look like sisters, and they are—Rosemary, above, and Eunice Kennedy, off to join the clan Kennedy at the U. S. Embassy in London. And that little "poker face" in the foreground at bottom? Who could it be but Helen Wills Moody, off to court another tennis championship!

Bootleggers

(Continued From Page One)

...area in the state, many persist in ...drinking the rank bootleg variety ...which often is produced in an unbelievably filthy manner.

But, liquor board authorities point out, many "with a thirst" cannot afford even the cheapest of legal brands. And there are the profits of the illicit industry which still lure those hoping for quick riches despite the risk of imprisonment.

Equipment Is Portable

Officials report liquor-making equipment is practically all portable and so built that it can be assembled and dismantled quickly. Often, they say, a ring of operators move a still from batch to batch of mash fermented at various locations.

To obtain clues, still squad men occasionally don ragged clothes and frequent likely districts in search of a pint of "Hootch." Prices are said to range from 15 cents up.

Uncanny Sense Of Smell

Some have developed an almost uncanny sense of smell and detect odors of fermentation on country roads from where they trace them to the spot.

Others follow creeks to find telltale marks of dumped mash near the banks or even a still submerged in a deep hole until "next time."

Comparatively little "corn likker" is made illicitly, officials say, because rye and fruits ferment more rapidly, sometimes taking less than five days.

Solons Fail

(Continued From Page One)

...gressman or not, are not wanted in ...Jersey City.

Deep Interest Shown

"The citizens by their response to ... invitation to assemble in Journal square, have shown their deep ...terest in the fight being waged ... Mayor Hague to keep law and ...der the watchword not only in Jersey City but in the entire country."

Col. Kelly made the statement while resting after marching for two hours with the placard parades in the square, which is located in the heart of this Hudson river waterfront city's business section.

While bands of veterans organizations played and a parade snaked through the press of people carrying bobbing placards denouncing communism, and praising Mayor Frank Hague, spectators stood by mutely awaiting the congressmen's arrival but they made no demonstration.

Cops In Abundance

There were police in abundance, with night sticks swinging idly or held under their arms.

Director of Public Safety Daniel ... Casey, who denied a permit for ... meeting, said "there will be no speech-making here," as he directed 300 policemen on duty in the square. Chief Harry Walsh estimated the crowd at "more than 50,000."

Old Trail Days

(Continued From Page One)

west the packeries and in the west the mining centers beckoned as outlets for Texas cattle. Indian reservations and army posts needed provisions.

But between the cattlemen and the consumer stood the transportation problem. Sustained and fattened on grama, buffalo and mesquite grass, the herds snaked northward where trail met rail and between range and rail head were such hazards as occasional outbreaks of cholera, stampedes, hostile Indians, cattle rustlers, swollen streams and shotgun-armed farmers.

Celebrated At End

How the trail driver, with six-shooter and mustang pony, battled these factors and how he celebrated in the hell-roaring trail-end towns, is part of the song and saga of the southwest.

Dodge held sway for 10 years, from about 1875 to 1885, as the point where cattle changed from trail to rail movement, where the cowboy could play against the hazards of derringers, card tricks and painted women in place of shotguns, quicksands and cholera. As rail lines were extended southward, Dodge surrendered in favor of other rail heads, Ellsworth, Denver, Cheyenne, Baxter Springs, Kit Carson, Julesburg and Ogallala all had their hey days.

The Chisholm trail came to be the route to Colorado, with herds deflected westward by quarantine regulations and barbed wire in the middle west. The Bozeman trail touched remote points in the Rocky mountains. The Goodnight trail was used extensively from the Panhandle to Colorado.

By the early 1870's the Texas cattle movement up the trail exceeded a half million head a year. Cattlemen improved their herds. Eventually rail gaps were filled. Now crack passenger trains sometimes take to a siding to expedite a cattle train. The ranch roundup, from range to the nearest shipping pens, remains as a remainder of traildriving days.

and the rain. Huntsville reported high winds and Hempstead, Baytown, Navasota and Bryan were drenched.

Hail and rain fell in sections of Dallas county and some portions of nothereastern Texas. Damage to crops in that area had not been determined.

Strong Winds Reported

Coastal Texas from Sabine Pass on the east as far west as Matagorda bay reported strong winds, heavy seas and some rain and hail.

Fairbanks, where a miniature cyclone was reported yesterday, recorded an inch and a half of rain in 45 minutes during the afternoon.

Wichita Falls Singer Going To Frisco For Engagement

WICHITA FALLS, May 7. (AP) — Si Lita Haley, Wichita Falls home town soprano, was preparing today to go to San Francisco for further voice study after an enthusiastic welcome here last night in her first concert after five months of intensive work in New York.

Her pianist was Frederick Vajda, assistant conductor of the Metropolitan Opera company, who believes she has great possibilities as an opera singer. She will continue her studies in New York in the fall. She is the wife of W. R. Haley of Wichita Falls.

Clarendon Youth Wins

In News writing, Homer Charles Speed of Clarendon was first, Harvey Lee Bass of Meadow second, Sam Russell of Crowell third, Thilman Johnson of Crosbyton fourth and J. O. Ayres of Dimmitt fifth.

Another contest, that of Lone Star chapters, conducted according to the same procedure, was won by the Floydada chapter for the one or more years old class, to Archer City for the first-year chapter.

Awards were given by the chamber of commerce, which announced that Lubbock business men had bought them. Don L. Jones, superintendent of the experiment substation near Lubbock, made presentations.

Assist In Contests

Assisting in conducting the convention and contests were T. L. Leach, itinerant teacher-trainer of Texas Technological college; Ray Chappelle, head professor of agricultural education at Tech; O. T. Ryan, supervisor for area 1 of the FFA, and several vocational agricultural teachers, after their teams had been displaced in competition or in case such teams had not entered given contests.

Dean A. H. Leidigh of the agricultural division and professor of agronomy at Tech welcomed the group, which came from most of the 53 counties of the district extending east to Wichita and Archer counties, the south line of Gaines on the south and to the state lines north and west.

Relief Problem Said Desperate

CLEVELAND, May 7. (AP)—Indigent Clevelanders, facing prospects of a weekend with gaping larders, besieged relief offices today as officials considered emergency action in an unprecedented local welfare crisis.

"While there are no funds available, no one will starve,' said Mayor Harold H. Burton, who summoned his cabinet into conference.

Funds Exhausted

Relief executives said a $50,000 stop-gap appropriation by the city council would be exhausted Monday. This sum was earmarked for only the aged and families with infants or beset by illness.

"We want food!" demanded men and women, some with children in arms, at two relief stations where sit-down protests have been maintained day and night since Thursday. A similar demonstration has been staged intermittently at a third station.

A brass band composed of demonstrators provided impromptu entertainment at one station.

Mrs. Dela Milder, welfare office supervisor, said of her around-the-clock "guest:"

Sort Of Desperate

"They are sort of desperate now. They have been very tense."

Municipal Relief Commissioner Frank E. Bubna said more than 300,000 out of 1,200,000 residents of Cleveland and its suburbs receive some form of public aid. Bubna said about 87,000 were on direct relief while the others were dependent upon WPA jobs or other sources.

A special relief session of the state legislature has been called for May 16.

the results are problematical."

Most of the other physicians who diagnosed the case expressed belief that death probably would follow within two months if the eye removal operation were not performed. The parents, Dr. Herman Colan, 30, a dentist, and his wife, Estelle, 23, have been in a quandry for several days.

Several doctors suggested there was only a slight chance the child would survive, even if the operation were performed.

A ping-pong tournament for women students of Texas Technological college will open this week, said Miss Zella Riegel, assistant professor of physical education for women. The drawing is scheduled for 5 o'clock Monday afternoon at the gymnasium. Marie Shook, student, is chairman of the tournament, which will continue until "dead week," the last week of this month.

A Lubbock man, about 26, today or Monday will be charged by complaint with passage of a $30 forged check bearing the forged signature of J. P. Lewis, according to Grady Harris, deputy sheriff. The complaint Saturday night had been prepared and awaited signing by the district attorney. The man was arrested Saturday afternoon by Jim Robinson, deputy sheriff.

Dr. and Mrs. Allen T. Stewart, 2223 Sixteenth street, left Saturday morning for Galveston where he will represent the Lubbock-Crosby County Medical society at a sectional scientific meeting. He will present a paper on "Induction of Labor." En route Dr. and Mrs. Stewart will visit his mother, Mrs. J. W. Stewart, in Austin.

City Attorney Durwood H. Bradley left hurriedly Saturday morning for Banks, Ark., following a telegram that his mother, Mrs. Dona Bradley was sinking rapidly and not expected to recover. Mrs. Bradley has been in failing health several months but she did not become ill until Friday. Her 87th birthday anniversary occurs next October. She has been a visitor in Lubbock on a number of occasions.

Rotarians are planning a ladies night program for the Hilton hotel on Thursday, May 19. The program opens at 7:30 o'clock. Committee in charge includes: Earl B. Collins, Ray Farmer, James Quicksall and C. I. Wall. A change in location of the program was made to avoid a conflict with another meeting at the regular meeting place, the Lubbock hotel.

Mr. and Mrs. Rob O'Hair of Coleman are the parents of a four and one-half pound son born in that city Thursday, relatives here have been advised. The baby has been named Rob O'Hair, jr.

Dr. Harry Jacobson, assistant district surgeon for the CCC with headquarters in Lubbock, left Saturday for Dallas to attend the convention of the state medical association. He plans to return about May 16.

Mr. and Mrs. J. E. Gammill of Jal, N. M., and Mr. and Mrs. C. C. Gammill of Dawn, Texas, are in Lubbock to spend the week-end with their mother, Mrs. Gussie Gammill, 2305 Eighth street. J. E. Gammill is principal of schools at Jal.

A man who Saturday night had not been reported arrested was charged in the justice court of Walter Davies with passing as true a forged $10 check. According to the complaint, sworn to by C. D. Doggett after preparation by Burton S. Burks, district attorney, the creek bore the signature of R. W. Fowler.

Competitive merit system examinations for the position of junior interviewer in the Texas service were announced by Emmette S. Redford of the United States Employment service. Complete information and application forms may be obtained by writing him at the old library building at the University of Texas, Austin. Examinations will be June 24 and 25 at Lubbock and 15 other Texas cities. Application forms must be postmarked and returned to Redford before midnight, May 31.

I. W. Jones, barber at Graham Barber shop, suffered a laceration of the right eye and several bruises when struck by an automobile at Avenue Q and Broadway about 8 o'clock Saturday night. He was given emergency treatment at West Texas hospital. He was struck when crossing the street, it was reported. Name of driver of the automobile was not obtainable immediately.

Condition of Mrs. Cecil Matthews, wife of Rev. Cecil R. Matthews, minister of education at the First Methodist church, Saturday night was described by authorities at Lubbock sanitarium as satisfactory. Mrs. Matthews of 2405 Thirteenth street is a medical patient in the sanitarium.

A celestial phenomenon was witnessed by hundreds of Lubbock citizens Saturday night when Venus passed two minutes to the north of Mars at 6 p. m. C.S.T. Astronomers paid little attention to the event but noted that it was a beautiful sight.

Condition of Calton F. Moore, manager of J. C. Penney store at Hereford, was reported a little better early Sunday morning by Lubbock sanitarium.

Condition of Mrs. A. Judd of Lubbock Saturday night remained critical, according to reports of relatives. At her bedside is her mother, Mrs. Ed Ward of Brownfield.

Mrs. D. A. Atkins of north of Lubbock is at the bedside of her mother, Mrs. R. D. Looney of Bovina, who was taken suddenly ill when visiting a daughter, Mrs. J. P. Macon, Texica, N. M. Her condition was considered serious. Mrs. Looney is 83 years old and lived in Lubbock from 1908 until 1916.

Four attendants have been chosen by Betty Jean Jones, junior class queen, for the annual class coronation ceremony which will be held Tuesday afternoon at Buffalo Springs park. They are: Jane Ann Floyd, Willouise Humphries, Mary June Walter, and Jacqueline Davis. Each girl will chose her own escort. Pete Cawthon, president of the junior class, will be the king for the ceremony.

Normal recovery was evidenced Saturday in Plains hospital for Carl Warner, 50, of Fort Worth, who was injured Friday when working on the library building of Texas Technological college. Warner, employed by J. R. Condron company of Fort Worth, slipped on sand when stooping over to inspect a concrete mixer, said reports, suffering a compound fracture of a finger of the left hand and cuts.

Mr. and Mrs. Alfred J. Van Dyke of Fort Worth will return to their residence today after visiting his mother Mrs. F. M. Van Dyke of 2628 Twenty-third street. The elder Mrs. Van Dyke recently suffered an eye ailment that required removal of the member, said a hospital in Lubbock. She has returned to her residence.

Auction Sale
TUESDAY AND FRIDAY
BUYERS made no effort to conceal their intentions of establishing 25 to 50c lower prices, but there were few cattle sold at our sales that figured more than 25c off, although all other markets are at least 50c lower. We have lined up many packers and buyers for packers who are making our Tuesday and Friday sales regularly, so we need more good, choice grade killing cattle to supply the market that we have built up We are going to depend on you to bring us in the cattle to supply this market. Both the Tuesday and Friday sales begins promptly at 10:00 a. m., so get your stock in as early as you can so you will have a good place in the auction.

Letters Sent To Legionnaires

Personal letters of invitation were prepared Saturday for mailing to every member of the American Legion and auxiliary in the 19th congressional district to attend the district convention here May 21 and 22, according to Chas. A. Whitacre, chairman of the publicity committee.

The letters will be additional to notices to be sent to various posts and to invitations which will be mailed from the chamber of commerce.

Program Shaping Up

Meanwhile, members of the program committee are rapidly completing the program for the occasion, Chairman Harley D. Woods reported.

High point of the convention will be an address by Daniel J. Doherty of Massachusetts at the Legion hall the night of May 21, but other events will include a dance and floor show, a golf tournament, a chow line and a business session.

Serving with Woods on the program committee are Paul Hardwick, H. L. Allen, Glen Hess and A. C. Jackson, post commander.

Others On Committees

Serving on the reception committee will be two representatives from every post in the district.

The following program was outlined for the convention:

May 21 at 8 p. m.—Call to order of public meeting.

8:30, national commander to speak; to be broadcast over KFYO.

9:30 p. m.—Dance at Hilton hotel, including floor show.

May 22 at 9:30 a. m.—Participation in Downtown Bible class service at Palace theater.

Noon—Chow call at Legion hall, prepared under supervision of Alex McDonald.

2 p. m.—General business session with Jim Willson of Floydada, district commander, presiding.

Further plans for the convention, Jackson announced, will be discussed at the semi-monthly meeting of Allen Bros. post at the hall at 8 p. m. Monday. Entertainment numbers will be arranged by Fred Wendt.

Safety matches were first used in 1855.

Fish Day Likely To Be Held At College

Freshmen of Texas Technological college will enjoy "Fish day" after all, if they meet a specification set down by the administrative council.

Tickets will go on sale Monday and 500 must be sold by Thursday midnight, the council ruled in granting a petition from the class Friday afternoon.

Petitions had been circulated among freshman students after the council had refused permission for observation of the day at a recreational spot near Lubbock. Lack of orderliness in past celebrations was one of the reasons the council offered for its refusal. The class in its petition asked that it be allowed to observe the day on the campus.

So, if the 500 tickets are sold in the required time, freshmen will celebrate the day on the campus May 14. Sports, barbecue and a dance are being considered for the program.

Louis XIV was secretly married to the Marquise de Maintenon, a governess in the royal household.

Famous Keys Quads To Be Here This Week

The famous Keys quadruplets of Hollis, Okla., will appear in person in a stage show at the Palace theater Wednesday and Thursday, Manager Arlie Crites announced Saturday. The talented sisters, graduates of Baylor university at Waco, have definitely launched upon their professional careers as entertainers. The much lauded girls are the only quadruplets to reach maturity and to have graduated from college. Each one is a distinct personality. Mona and Roberta are the identical twins and Mary and Leota the fraternal twins of the four. A varied singing and instrumental act will be given in their appearance, Crites said.

West Texas Farmer Is Going Modern; Radios To Beach Umbrellas Found In His Equipment

By TOM B. COKER

The West Texas farmer is going modern, and how!

Everything from a radio to a beach umbrella can be found in use by the progressive farmer of today. The only thing he lacks is a way to stop the dust and sand storms.

A beach umbrella's utility is more for the farmer than the tractor. Many are in use. Many also use awnings with the same effectiveness.

Tractors Have Radios

Music is appreciated by the farmer as well as any one else and, as a result, many tractors now have radios as effective as those on cars. A muffler, to be sure, has to be put on a majority of tractors so radios can be heard—but that is no obstacle.

It is not new to hear a jazz band "swinging" and seeing the farmer riding in the shade when tilling the land. A few years back he would have been found walking behind a Georgia stock in the sun and cussin' the Missouri mule and plow every time the point hit a stump or a rock outcropping.

Little walking is done by the farmer now from the time he breaks land in the spring until he "lays his crop by." The West Texas farmer particularly is lucky since he can use so much machinery. Much of the farm land of the Old South is hilly and the fields are so full of stumps that the one-horse Georgia stock still is in use. This has lessened work to such a degree that farming, in main, is almost play. Work is also accomplished quicker with the machinery at his command.

In a few places the mechanical cotton picker has been introduced with favorable results. If this machine comes into active use in West Texas many farm boys will utter a sigh of relief because again the machine will take the place of man. Mechanical cotton choppers are being used and this factor has reduced labor the small-family farmer has had to employ.

It looks as if the farmer is giving the city slicker a run for his money when it comes to being modern.

Queen Cotton Will Be Named At Tech

Queen Cotton will be selected from five candidates in balloting by students at Texas Technological college Monday.

Candidates are: Frances Tarlton, Lubbock, D. F. D. club nominee; Elray Lewis, Brownfield, Ko Shari; Kay McCoy, Baird, Las Vivarachas; Mary Florence Van Horne, Westbrook, Las Chaparritas; and Dorothy Ann York, Lubbock, Sans Souci.

Queen Cotton will reign with King Cotton at the annual cotton carnival to be conducted March 20 in Senior High school auditorium under auspices of the Tech chapter of Phi Psi, national textile fraternity. Harold Cocanougher, president of the chapter, will be King Cotton.

Vickers Gives His Platform

A 10-point platform stressi greater economy in government a reduced taxation was announc Saturday by John Vickers of Lu bock, candidate for the democra nomination for the legislature fr the 119th district.

Counties in the district are Lu bock, Crosby, Hockley, Cochr Lynn, Terry, Yoakum, Dawson a Gaines.

Statement Is Given

He accompanied his platform w the statement: "I have lived in Lu bock county all my life and ha made a special study of governme agriculture and law. I am a gradua of Lubbock High school and ho degrees from Texas Tech and t University of Texas law school. feel I am familiar with some of t problems that confront us. This the first time I ever have soug public office. I promise honest se vice and unstinted attention to t duties of the office if elected repr sentative."

His platform follows:

"(1) A constitutional limitati on the amount of appropriations. this is not done there will be a co tinued increase in state taxes.

"(2) Reduce state expenditure abolish needless bureaus; create budgeting and accounting depar ment with supervision over sta finances.

"(3) Redistrict the state so as give West Texas its fair share representation. The average distr has 40,000 population; whereas t 119th has in excess of 100,000.

"(4) Prompt payment of old a assistance benefits to the needy.

"(5) Liberal support of our ed cational institutions.

"(6) The state should provide f the payment of its share of t Teacher Retirement Fund.

"(7) A strict curb upon the pr fessional lobbyist.

"(8) Real estate is bearing t heavy a share of our tax burde and must have relief. Taxes must reduced.

"(9) All state institutions higher learning should share in th income from the university lands.

"(10) I am against new taxes more taxes; the return of legalize gambling; the sale of liquor b drink; or any increase in the ex penditures of the government."

High Lights Of Society In City Center On Mothers Day Courtesies

The Woman's Angle

by Margaret Turner

"Mother is the name for God in the lips and hearts of little children."
—William M. Thackery.

• • •

THE TRUEST TRIBUTE

MANY persons will wear carnations and roses today and send flowers to Mother—a beautiful custom. Others perhaps sent candy, greeting cards, telegrams, hose or other gifts expressing in material ways their regard for the dearest woman that ever lived—their mother. Many can no longer reach Mother with floral tributes or telegrams of greeting; she has been called to higher realms of Love and Service.

Mothers Day is a beautiful thought but haven't we overlooked its possibilities of showing the love we have for her or for her memory? How better can we honor Mother on her day than by doing in her name for other mothers and dependent children, the aged and infirm, who are destitute, hungry, sick—some of them dying—what she would do so graciously, aboundingly and lovingly.

• • •

Why could we not determine that the number of mothers who die needlessly each year in childbirth will be cut down? Public ignorance and indifference in this matter could be wiped out by parents and teachers. It was not intended that women should die in the process of motherhood.

These things take time and money you say and perhaps sacrifice. Let's be willing to make a sacrifice, knowing that without it there can be no sort of salvation. That is the lesson of motherhood; that is the lesson of life.

LUCKY MISS ELLISON

RUBY Ellison, daughter of Mr. and Mrs. J. J. Ellison, 3509 Twenty-first street, and senior student in the Tech division of arts and sciences, received a check for a substantial sum from The Forum last week as payment for an article, "Fair Weather Friends." Publications will be within two or three months she was advised. The content deals with a collegiate viewpoint of the subject. Miss Ellison said. She is timid when questioned about the honor but hopes to continue her hobby in which she has been encouraged by the Forum staff. She is majoring in anthropology and history.

• • •

NEW METHODIST BISHOP

DR. Ivan Lee Holt, elected bishop by the Methodist general conference in Birmingham, Ala., last week and assigned to the Northwest conference, is known in Lubbock. He addressed Tech's graduating class June 7, 1931, in the campus gymnasium, disgussing personal freedom, faith, morals, natural resources and neutrality of nations in a brilliant discourse. The files disclose his text that bright June day was from Deuteronomy 1:7, "Turn ye, take your journey and go." That was during the depression and it wasn't the easiest thing in the world to inspire a group of fresh-faced, cap and gown frocked youths with courage and zest for adventure. He preached a remarkable sermon we remember. As pastor of St. John's church in St. Louis, Mo., Bishop Holt held the longest pastorate of any other Methodist.

• • •

SCATTERINGS

WONDER why incessant smokers always seem to be without matches. . . . Although we've watched him hundreds of times, we've never tired of seeing the Avalanche night editor light a cigarette and discard the burnt match. It's a trick he has down to perfection. . . . Why can't we tie bows on ourselves as well as the other fellow can. . . . And bows reminds us men's ties have never been more brilliant than this summer. . . . We like to see a pretty girl like Jane Ann Floyd or Helen Jarrott wear those Mexican peon costumes. One dress pictured recently was of sky blue linen with brightly smocked girdle while the white handkerchief linen blouse had drawstring at waist and throat and was embroidered in the same colors as appeared on the skirt. . . . If you go in for gardening, now is the time to think about gardening togs—perhaps as enveloping apron with deep pockets, a wide-brimmed crownless hat, gardening gloves and a soft pad to kneel on—all made of sturdy, gay, awning-striped material.

• • •

THEY'RE SECRETARIES NOW

WITH thousands of girls learning shorthand every year, there are no longer any stenographers. If that sounds odd, take the word of John Robert Gregg who, fifty years ago, invented a simple method of shorthand, named it after himself, sold it to the world and turned shorthand into a million dollar business.

An as to that crack about the disappearance of stenographers—well, they have turned into secretaries. It sounds more important for a girl to say she is a secretary. She wants it that way and so does her employer.

Gregg thinks that young men are making a mistake in letting the girls have the secretarial jobs. He considers working as a secretary the surest way for a young man to impress an executive with his ability. He's right under the boss' nose and has a wonderful chance from that vantage point to learn the business.

High School Set Gives Luncheon Here Saturday

NAMING their mothers, sponsors and patronesses as honor guests, members of Las Cresas club of high school girls were hostesses with a one o'clock luncheon Saturday in the Hilton hotel ballroom.

Guests were seated at foursome tables which were centered with vases of yellow roses. These flowers also were placed about the room. The club colors of gold and white were featured in decorations.

Corsages of multi-colored sweetpeas were favors.

List Of Hostesses

The young hostesses presented a program. They were Ophelia May Beall, Amo Lee Burkeholder, Betty Burke, Jean Clapp, Jacqueline Davis, Sara Daviss, Jane Ann Floyd, LaNelle Hurlbut, Marjorie Hills, Joyce Halsey, Helen Jarrott, Betty Jean Jones, Madge Johnston, Mary Jo Jackson, Eunice Klett, Bernice Keeton, Sarabeth Kimmel, Mary Alice Maedgen, Ruth Overton, Shirley Parsons, Jane Prickett, Lorena Rawlings, Mary Jo Ryan, Marian Hope Read.

Proper Grooming Is Studied In April

By EVELYN BOYD

A girl will feel well dressed in the simplest clothing if she will:

Shampoo her hair every week or ten days and brush it every night; properly brush her teeth at least twice a day; take a bath every day; file and brush her fingernails often; wear fresh, neat clothing from the skin out, and keep her shoes polished.

Those are some of the points of an April demonstration Miss Elizabeth Brooks, assistant Lubbock county home demonstration agent, has given to 208 4-H club girls.

Recreation periods at April meetings were spent in taking exercises for correct standing, walking and sitting. Each girl in the Lubbock county clubs was presented with a score sheet and asked to record her own improvement in appearance every two weeks during the next two months.

Demonstrators Visited

Also during April, Miss Brooks and Mrs. Vaughan E. Wilson, who will judge work of club clothing demonstrators' work at a clothing achievement meeting in June, visited each demonstrator.

They reported that Betty Ray Ferguson, Becton club demonstrator, has improved her clothes storage closet by papering it and adding three large shelves and a shoe rack.

While ceiling paper was used on the walls, on the theory that the lighter the closet is the less likely it will have moths, and the light will facilitate finding things.

Since Frances Marks, Idalou club demonstrator, has become "clothes storage minded," has learned that she can add as many shelves as she needs to her closet, although it is made of sheet rock. She is making a frame of 2 by 4 lumber inside the closet and nailing the shelves to the frame, Miss Brooks explained.

Closet Re-Arranged

Mildred Belew, Cooper club demonstrator, has found that her closet, built under a stairway, can be made more useful. A thin canvas ceiling was removed from the closet and replaced with a sealed, corrugated pasteboard ceiling which was papered with light paper. Articles seldom used were packed in a trunk and stored far back in the closet where the ceiling was low. A long shelf was built across the top of the closet for hat stands, and three small shelves for molded articles were built on one side of the closet; then a rod for hanging clothes was put on the opposite side. A shoe rack was added to complete the project.

At a demonstration on storage of winter clothing given by Miss Brooks recently at a monthly meeting of 4-H club sponsors, the women were informed that clothing should be thoroughly cleaned either by washing, dry cleaning or by brushing and sunning before being packed for storage to prevent moth holes. After the cleaning, the clothes should be packed immediately in paper bags or gum-sealed cardboard boxes. Moth-killing chemicals check moths only when the fumes are strong enough to kill the moth, the agent quoted from a Consumers Guide. She also quoted some recommended moth-killing chemicals on the market.

Entertainment Planned

The sponsors voted to honor the club that first completes 100 per cent the cooperators goals for 1938. Nature of the entertainment will be announced soon. A fashion show and tea for the girls was planned for June.

One May 21 all 4-H club girls of the county and their parents will bring lunches to Mackenzie State park for an all-day rally. The morning will be spent in singing pep songs and playing recreational games. During the afternoon, the girls will visit the Lubbock Poultry and Egg plant and Swift's hatchery.

On April 11, home demonstration agents of District 3 met in Lubbock with George P. McCarthy,

Tech Forum Elects Officers And New Members On Friday

The Forum, an honorary society of several women students at Texas Technological college, elected officers at a luncheon meeting at Cocanougher's cafeteria Friday at noon.

Officers are: President, Eron Gafford of Panhandle; vice-president, Mary Beth Whiteman of Brady; secretary, Dorothy Mann of Vernon.

Twleve members, elected for next year, will be announced at an annual Women's Recognition Day service May 17.

The membership is limited to fifteen.

"Mother Jones" Says American Home Isn't What It Used To Be And Adds---So What?

EDITOR'S NOTE: When a New York woman's club sponsored an essay contest on "What American Woman Has Made the Greatest Contribution to the United States," first prize went to an article about "Mrs. Jones"—really Mrs. Thomas E. Lyon of San Antonio, Texas. Here Mrs. Lyon, "typical American mother," tells what she thinks of modern mothers and their duties.

• • •

By MRS. THOMAS E. LYON
Written for Associated Press

For the first time since October, 1905, my husband and I are alone in our home. Seven children have come into our home, and now all have gone out into the world.

MRS. THOMAS E. LYONS
"Typical American Mother"

There isn't any formula for raising a family. At least I have never found one. With a family as large as mine, and a budget never too large, it has been for me a matter of doing every day the things necessary to keep one's brood clean, healthy and happy.

And don't let the mother of any large family try to occupy all the spotlight. A father, all stories to the contrary, is a highly necessary item in the proper raising of a family.

Problems Don't Change

Modern mothers, I mean mothers such as my own daughter Lela Jane, the youngest, who now is the mother of two fine boys, are facing the same problems I have faced for the past 33 years. And she is going to work out her problems as I worked them out, by trying every minute to do the best she can for her own.

I know there are parents who wrap themselves too closely about the lives of their young. But that is a natural error to make. Maybe if families were larger there would be fewer spoiled and neurotic youngsters. You can't be partial to one when there are seven to raise.

The radio, the newspapers and the magazines are deploring the fact that home life is not what it used to be. Perhaps we can be thankful for that.

I am glad that I have lived in the era of the machine. I am glad that I was given, through the modern appliances of housekeeping, a chance to get to know my kids and not be just a slave to a scrubbing brush and a wash tub—but don't think I haven't spent many hours with each.

There will always be a home life. It may not be a home life within narrowly proscribed limits. That is better too. It will be a home life of diverse interests, each child with his or her own individuality, a width of vision not possible to the children of a few generations ago.

The world is going through a "gadabout" phase, and homes as well as lives are suffering, but it is the form of home that is suffering, not the real home itself, for that home is deep in the hearts of the parents and the children, not a matter of bricks and lumber. That's where our standards are changing. There is no reason why an apartment in a crowded city cannot be just as much of a home as a spacious country estate.

Politics have had but little time in my life, the largest portion of which has been devoted to things purely domestic. But, I do think that the young mother today should study political trends and thoughts as they affect her family.

There is one final thing I want to say to young mothers:

Find yourself a hobby, aside from your duties. Get an outlet for your desire to play. All my life I have kept up, after a fashion, with my music. Now, when the house is quiet and the children scattered from coast to coast, I am not lost, my hands need not lie in unaccustomed idleness. I am finding time to do many things that I never had the chance to try before. While my life will never be as full as it was before, it will never be an empty yearning for expression.

Mr. and Mrs. J. T. Gee of Friono are the guests of Mrs. Gee's parents, Mr. and Mrs. T. F. Rodgers, 2108 Ninth street, this week-end.

Refinishing Home Is Topic Discussed By County Club

Members of the East Side Home Demonstration club heard a discussion on refinishing the home when they met at the home of Mrs. N. H. Wright, 710 Avenue R, Friday afternoon.

Among the points heard in the discussion were that in refinishing furniture it is better to use three thin coats of varnish than two thick coats. In refinishing floors, sand them down to the grain and fill with floor filler. Let them dry and apply one coat of schallac and two of floor varnish—either clear or orange.

The club voted to pay the prize money in the Ball Jar contest to the winner.

Strawberry shortcake and punch were served to Mesdames C. D. Connand, John King, John Hort, Luther Green, E. F. Lovel, C. A. Putman, J. J. South, A. H. Gearhart and A. J. Huckabee.

DEMONSTRATION GIVEN

Miss Nancy Ann Sides demonstrated refinishing of furniture at a Canyon Community Home Demonstration club meeting Thursday in the home of Mrs. Bay Simmons.

Miss Gladys Simmons directed playing of games and Mrs. W. C. Pierson conducted the business session in which she reported a recent council meeting. It wa sreported that the club made $2.87 in an auction sale. The hostess served elmonade and cookies.

Mrs. J. B. Sides was a guest. Members attending were Mesdames C. H. Beck, O. P. Thompson, Bay Simmons, H. V. Simmons, J. A. Koger, R. R. Sides, H. H. Sides, Pierson and Misses Simmons and Sides.

The club will meet May 19 with Mrs. Koger.

Federated Missionary Group Formed By Lamesa Women

LAMESA, May 7. (Special)—Church women of Lamesa have formed a federated missionary society and will hold regular meetings the fifth Monday. The meeting was held at the home of Mrs. D. J. Murray, wife of the pastor of the Presbyterian church, who was temporary chairman.

Churches represented included: Baptist, Methodist, Nazarene and Presbyterian. Each church will be host in rotation, the first being May 30 at the Baptist church, when permanent officers will be elected.

Anton Girl Is Designated As Gold Star 4-H Club Girl

ANTON, May 7. (Special)—Margie Rae, 15-year old daughter of Mr. and Mrs. Boyd Rae has been designated as a 4-H gold star club girl of Texas. She is one of 100 girls in the state selected for their work during 1937.

Miss Rae was poultry demonstrator of her club and won first in the canning and scoring of chickens, in the county meat; second in the district meet at Canyon, composed of districts 1 and 2. She also won first place last year in the cooperative dress contest and received a pin for completing her goals last year.

Only two girls in the district were accorded a gold pin this year.

Botany Bay, where Captain Cook landed in 1770, may be used as the New Zealand terminus of the British Empire flying boat service to England.

Traffic policemen of Blackburn, England, will be served cups of coffee every morning.

Dear Louella...

DEAR Louella: Do you remember Miss Mary Alice Walden who taught expression here a number of years ago? She and G. L. Knight of Clovis, N. M. (uncle of Grady Knight) are announcing their marriage but are not telling how long the knot has been tied. Mrs. Knight has been living at Derby.

Mrs. J. S. Weiss of Nocona is visiting in the homes of her sons, H. S. and J. R. Weiss. She came here from San Angelo where she visited a daughter.

Do you know Bernice Dean, a Lubbock girl and sister of Mrs. A. B. Davis, jr., who has been teaching in Post the past several years? Well, on June 5 she will be married in Post to L. H. McElroy, teacher of vocational agriculture in that city and a mighty fine fellow. All post is buzzing with parties for her and for Lyall Pickett who, as you know, will be wed the same day to Bob Davis of Austin.

I went to a ranch party for Lyall Saturday afternoon at the lovely home of Mr. and Mrs. Walter (Cap) Roy, near Justiceburg. Mrs. Roy and Mrs. O. L. Weakley and Mrs. C. D. Morrel of Post were hostesses. Next Saturday afternoon Mrs. J. B. Slaughter will honor Lyall with a tea at her new U-Lazy-S ranch home.

MRS. Mary Power, one of the most loved teahers in the Lubbock school system, is recuperating from major surgery. She is getting along fine.

Mary Louise Breedlove is going next year to a boarding school in Nashville, Tenn., where her grandmother is dean of girls. She is leaving within several weeks and will spend the summer in Nashville. Her mother and Mary Helen Pirtle will accompany her there for a brief visit.

Here are some look-alikes: Dub Benson and Dr. R. P. Reeds; Dub Benson and Bruce Craig; Mrs. J. M. Harris of Woodrow community and Miss Eufala Wise, and Jim Milam and P. T. Glazner.

Anonymous Friend Gets A Name

Anonymous Friend wrote such a nice letter, I've decided to give her a name: Lucy. She says:

"Can't you really guess who I am? I know you real well.

"I'm all at sea as to who the attractive brunette is that is being escorted by Linrow Keaton of Keaton Packing company. Do you know? (No, but, you see, I don't know Linrow).

"I'm sure that you know of the approaching marriage of Crystelle Scudder and A. C. Sanders, jr. The date is June 10.

"Wonder why Bedford Cunningham of Avenue V spends so much time away from Lubbock? And who the co-ed was that was making such a scene over a soda in a drug store the other night? (I don't know Bedford, but I'd like to know, too. As to the co-ed: Any soda-jerker will tell you that similar scenes aren't unusual among young, old or middle-aged womankind.)

"Local gossips tell me that the girl from Slaton—that Dr. George Roberts of New York found so attractive—is named Parshon."

"Hot Tips" Coming

Lucy also said she had some "hot tips" about which she would write real soon. I can't imagine who she is.

Lulu, all excited because her boy friend is home this week-end, didn't have much to write. She wanted to know, however, if I had observed that Mrs. Lula M. Simmons (whom I haven't met) is appearing younger with the years.

I must run along now, as today is to be spent with my mother.

Yours, Lou.

V. L. Doughtie, 2619 Twenty-second street.

Why fear Childbirth

...when you can turn the months of waiting into ease and comfort. Avoid unnecessary pain and after regrets by preparing your body now for that dear baby's coming. A massage medium and skin lubricant, called Mother's Friend, helps to relieve and prevent skin tightness...abdominal tissue breaks ...dry skin...caked breasts...after delivery wrinkles. Mother's Friend refreshes and tones the skin, tissues and muscles. It makes them supple, pliant and elastic. It is scientific in composition—composed of especial oils and highly beneficial ingredients—externally applied—pure and safe. Quickly absorbed. Delightful to use. Highly praised by users, many doctors and nurses. Time-tested for over 60 years. Millions of bottles sold. Try it tonight. Just ask any druggist for Mother's Friend.

Cement School On This Week

Program for a school of instruction in use of concrete at Texas Technological college Tuesday and Wednesday nights was announced Saturday as having been completed. Portland Cement association and West Texas-New Mexico association of Architects will be joint sponsors of the event.

Sessions will be held in room 208 of the engineering building at 7:30 each night.

Austin Man To Conduct

C. F. Boulden, of the association's Austin headquarters, will conduct the sessions. Speakers will include Chas. A. Clark, district engineer of the association, and A. G. Roythor, formerly a construction superintendent in California.

The course, according to Clark, will cover the proper selection of aggregates, design and control of concrete mixtures, form construction with emphasis on ornamental molds, architectural treatment and all phases of architectural concrete in building construction.

He added that similar courses have been or will be given throughout the south with the thought that information relative to new uses of concrete will be of value to architects, contractors, engineers and others.

Miss Jonnie McCrery will be guest speaker with a travelogue. She will show motion pictures of her European trips.

Upswept Coiffures Are Youthful

Lovely with new little summer hats that perch precariously on the crown of one's head, this "Plateau Profile" coiffure is suitable for evening, too. One of the official hairdresses of the New York State Hairdressers' late spring showing, it is flat on top, has a back-sweeping curl at the front while soft curls at the back are lifted high.

* * *

BY ALICIA HART
NEA Service Staff Writer

"I want to change my hair-dress, but I'm afraid that an upswept coiffure will make me look years older," writes a young matron. "I'm tired of a long bob, but it IS youthful. Shall I keep it or shall I change? And if so, how?"

Well, by this time all and sundry seem to agree that upswept coiffures simply do not make one look older. In fact, many a woman has discovered that brushing her hair upward and wearing a cluster of little ringlets right on top gives her a younger, more piquant look than she ever achieved with a long bob.

However, if your neck is terribly thin or your face is very long, ears too large or nose too prominent, forget extreme versions of the pompadour. Not because you are afraid an extreme version will make you look much older, but simply because upswept coiffures make every feature stand out in bold relief.

The variations of brushed upward hair-do's become lovelier every day. And one of the nicest designed by an important Fifth Avenue hairdresser, will be featured at the official show of the New York State Hairdressers, soon to take place in New York. Known as the "Plateau Profile," this is as attractive for daytime as for evening. The hair is brushed up at the sides and a cluster of curls at the back is lifted above the neckline but not placed on the crown of the head. The sleek, severe lines of the front are softened by a thick curl just above the forehead.

Another hairdresser brushes soft blond locks severely upward and fashions ringlets on top of the head. The effect is one of youthfulness, sweetness. For evening, this lends itself admirably to flowers, jewelry, other coiffure adornment.

Even the fact that you expect to spend your summer holiday far from easy reach of a beauty shop needn't keep you from trying a brushed-upward coiffure. It is true that many of the new hair styles which feature upward movements are not as easy to manage as a long bob, but some of them are quite simple to care for.

First of all, the hair has to be especially cut for an up-swept coiffure. You cannot just brush your long hair upward, curl the ends at the top and expect them to stay on top of your head. Get the best haircut you can afford, watch the operator carefully as he fashions curls and perhaps a wave or two. Then, equipped with some of the easy-to-use curlers on the market right now, you really ought to be able to brush your hair up, curl the ends and learn to keep them curled and keep them up.

BRIDE IS HONORED

Mrs. A. W. McEachern entertained Thursday afternoon in her Arnett-Benson addition home with a shower honoring her daughter, Mrs. T. Caviness, who was Miss Zelma McEachern before her marriage in Clovis, N. M., April 30. The hostess was assisted by Miss Laurene Bussey.

The gifts were presented at the close of a program and a series of games.

Attending were Mesdames Ida Banks, F. E. Naler, E. E. Lokey, L. Vannoy, H. D. Keith, R. M. Hocker, Roy Naler, Sadie Norton, C. E. Moore, T. L. Johnson, Leroy Lemon, Marjorie Gussendorf, E. C. Haley, Raymond Rodgers, Luther Weed, C. A. Rodgers, jr., and Miss Ruth Hocker.

Mrs. L. S. Mast and Mrs. Hattie O'Hair have returned from a visit to Garden City, Kas. Mrs. O'Hair left Saturday for Coleman where she is establishing a temporary residence.

Young Pupils To Give Recitals

poultry specialist of the extension service. Mr. McCarthy discussed common diseases and insects of poultry, their symptoms, causes and ways of prevention.

Plants Are Visited

He also told how interest in poultry could be stimulated among 4-H club girls by showing them how to make egg candlers, catching hooks and wire baskets for gathering eggs. That afternoon the group visited Lubbock poultry and Egg plants and observed demonstrations in killing and dressing chickens, egg breaking and candling of eggs.

Catherine Potts, poultry demonstrator for the Cooper club has built an arbor to provide cool shade for her chickens. "We had some scrap lumber and 8-foot posts that were not in use. The posts were spaced to make the shade cover an 8 by 12 ft. spot. They were set 2 1-2 feet in the ground, then the scrap lumber was arranged across the top.

"Buckets were hung by wires under the arbor to provide plenty of fresh drinking water for the flock," Catherine explained.

Because filthy ground is the chief breeding pace of poultry diseases, Betty B. Burnett of the Becton club has moved her poultry house to new ground, plowing up the old ground. Before moving the house, she sprayed it inside with limewash.

Les Amies Club Meets With Mrs. Cecil R. Matthews

Mrs. Cecil R. Matthews, 2305 Thirteenth street, was hostess for a meeting of Les Amies club Friday afternoon. She served an attractive refreshment plate at the close of an hour of needle work.

Mrs. R. B. McAlister was a guest. Members attending were Mesdames J. T. Fountain, Rudolph Peel, Ralph Robinson, Clay Lowery, T. S. Cranford and W J. Whittaker.

Lubbock Dancing Club Elects Officers; Dance Scheduled

Awards Offered At High School

Six free scholarships will be awarded this year to outstanding seniors of Lubbock Senior High school who have achieved high recognition for some phase of work during their three years of high school work.

A $120 scholarship will be awarded one student, either a boy or girl, by the International Correspondence schools of Scranton, Pennsylvania, H. L. Livingston, vocational adviser from the school, informed Principal R. W. Matthews. Eligible students for the fully paid correspondence course, which is being presented through the local Kiwanis club as a part of their vocational council work, are those who find it impossible to go to college otherwise, but who have a sincere desire to equip themselves for some vocational opportunity. Girls are to report to Mrs. Ethel Terrell, dean of girls, and boys to Dan W. Powers, dean of boys, not later than next Thursday. Either three or four of these names will be recommended by the faculty to the Kiwanis club who will make the final decision after interviewing those recommended. The award will be made at a regular luncheon meeting of the club, probably May 26.

Girl Offered Scholarship

Another Scholarship is to be presented by the Business and Professional Women's club to a senior girl who is not going to college but who is capable of taking a commercial course and has the character and ambition for a business career. This is a $125 scholarship to Draughon's Business college. Mrs. Terrell has recommended one girl to the college and the college will vote on the acceptance.

The highest ranking student, either boy or girl, usually known as the valedictorian of the class, will be awarded a scholarship to any college that is a member of the Southern association. If a boy has the highest average, the highest ranking girl will be given another scholarship to a limited number of girls' schools. Vice-versa, if a girl has the highest average, the highest ranking boy will be given a scholarship to a limited number of boys' schools. These two scholarships have been an annual award for the past several years.

Instead of giving one scholarship as in previous years, the Mothers' club of Senior High school is giving two $50 scholarships to the Best Boy and Best Girl citizen of Senior High school. These students have been nominated by members of the senior class, and the faculty have already made their final choice. The boy and girl chosen will not be known until the award is made on the annual Recognition day, Monday, May 16.

Mr. and Mrs. L. P. Henslee and daughter, Mary ZoAnn of Anson are visiting Mr. and Mrs. Tom H. Carter of 2009 17th street. Mrs. Henslee is a sister of Mr. Carter.

Makes Good Record

Rev. R. C. Tennison, above, who has led his church, the Idalou Baptist, out of debt in the past year, received 122 additions, 39 of them for baptism, and added to the church building, will be honored today in services at the church on the anniversary of his accepting the charge. An effort will be made to set a new attendance record of more than 300 in Sunday school, 301 being the hold mark. A Mother's day program will be held Sunday night.

Westerner For '38 To Be Distributed

The 1938 Westerner, yearbook of Senior High school, will be delivered to students Wednesday afternoon after a brief dedication service at the regular school assembly program.

As is the custom, the book has been dedicated to a teacher in Senior High school, but the identity of that person will not be made known until Wednesday.

Watson Carlock is editor-in-chief, and W. C. Estes was the business manager. Both boys will play an active part in the service when the staff will be introduced to the student body. Neill Armstrong and a band composed of six boys will play.

Five hundred forty-eight individual pictures of students and teachers are in the school section. There are views of Senior High school. Snapshots, pictures of All Westerners and favorites, and photos of 18 students in the We Honor section are included. Other sections are athletics, organizations, and the sandpile.

The staff has not disclosed the theme of the book, the colors to be used or special sections added.

Lectures On Music Study Of Clothing

DR. JOHN THOMPSON

Dr. John Thompson, above, active director of the Conservatory of Music in Kansas City, Mo., will be presented by the South Plains Music company in two free lectures for teachers of music from 9:30 a. m. until 12 o'clock noon Friday and Saturday and a free matinee program for pupils at 3 p. m. Saturday. All the lectures will be given at Hotel Lubbock.

All music teachers of the South Plains area are invited to attend the morning lectures and the general public is invited to the afternoon program, the company has announced.

Doctor Thompson is said to be the only pedagogue of concert artist's calibre touring the country to hold normal classes for teachers. As a lecturer he is in demand by the National Association of Music Teachers and other educational groups.

While he uses many of his own compositions in demonstrating teaching points of his free lectures, Doctor Thompson also plays extensively from the masters during the lectures.

The lecturer's theories relative to laying proper foundation in the early grades of music study are said to be a result of his discovery years ago that students coming to his studio were lacking in fundamentals and could not proceed with repertoire until technical difficulties were overcome. His first material for teachers was written with the idea of having pupils play like little artists in the early grades.

South Plains Camera Club Meets Monday

A roundtable discussion of problems of their hobby will be held by members of the South Plains Camera club Monday night at 8 o'clock, Ray Reed, secretary, announced Saturday. The meeting will be at Reeves studio, 1709 Broadway.

Approximately 40 members have attended two previous meetings of the club which sponsors and promotes amateur photography in this section. Camera fans are invited to attend the sessions.

Slaton High School Boasts Snappy Band

SLATON, May 7 (Special)—Slaton High school band soloists and ensembles, winners in the state band and orchestra contest in San Angelo last week, will leave Slaton Wednesday, May 18, to compete in the Regional National contest of the National High school band and orchestra association, at Abilene May 19, 20, 21. Other band members will follow Friday.

Slaton High school band won first honors in class B band division in the state contest for the second time last week, and placed more solos and ensembles in the first division than any other school entered. The band also won high rating in the class B band at the National contest last year in Oklahoma City. The brass sextet placed first in national last year. Slaton is the only class B band to place in solos and ensembles.

Same Personnel As Last Year

With the same personnel as last year's, the brass sextet to compete in the national contest are Lannes Hope, Ernest Ward, Joe Walker, Harold Tucker, Willis Petty and Weldon Jones. Other soloists and ensembles recognized in state, to compete in the national contest are Tucker, baritone solo; Hope, cornet solo; Kenneth Tanner, cornet solo; Kirby Scudder, baritone solo; Truman Shelton, student conductor; Ray Debusk, drum major twirling; Marie Sanders, drum major twirling; Odis Sims, Truman Shelton, clarinet duet; Truman Shelton, Odis Sims, Dick Ragsdale and David Todd, clarinet quartet; and Curtis Brown, Hope Hennington, Odis Sims, Lannas Hope, William Grabber, and Brian Sartain, violin ensemble.

Clyde Rowe, band director, and many parents of band members will accompany the contestants. Rowe has been band director at Slaton High school for the past four years. When organized in 1934, the band had 22 members. It now has 72 members in the senior band and 65 in the junior band. Both bands are maintained by the city, chamber of commerce and the school.

Bands from high schools in Oklahoma, New Mexico, and Texas compete in the regional national contest.

Fifty-One Rotary Meetings In District Have Good Records

(Special To The Avalanche-Journal)

RALLS, May 7 — Fifty-one Rotary club meetings in the 127th district during March, were 100 per cent in attendance, said District Governor J. Edd McLaughlin in announcing attendance percentages for the 48 clubs of the district.

The ten high clubs in attendance included three with 100 per cent attendance at every meeting. Burkburnett, Weatherford and Borger. The ten clubs ranged in percentage from 97.21 to 100. Towns were: Post, Ralls, Panhandle, Graham, Tahoka, Slaton and Childress in addition to the three first named.

Average attendance was 93.56. There were 2,104 members in all the clubs.

Lubbock's percentage of attendance in March was 95.68 for the 97 members. It is the fourth largest club in the district, being exceeded only by Fort Worth, 265; Amarillo, 128 and Wichita Falls, 106. Lubbock has been in the high ten group twice this year.

HERE, sir, is the bright particular star of the automotive year: a car to make you proud and happy—you can prove that anywhere on the highway these bright May days.

In it, you can know *luxury* in your travels and still not over-strain your budget!

Fact is, you feel like a million just *sitting* in this Buick!

And you know you're commanding the "tops" in power the first time you give its eager DYNAFLASH engine the gun!

At the wheel you feel the buoyant steadiness that is TORQUE-FREE SPRINGING'S special gift to motoring—the firm, fleet roadability of a car that's beautifully poised in all its going.

There's no "hop" on this fast one. It doesn't "gallop" or bounce or pitch.

Its soft stout *coiled* steel springs let the wheels follow the road—rise to the swells, dip to the hollows—yet pass none of that lively up-and-down on to the body.

You travel level as a straightedge, thrill to turbine-smooth power that's quick as lightning—know a kind of travel-comfort that neither road nor weather mars. Yet what are the facts on costs?

This great straight-eight actually costs *less* than some sixes! Price almost any other car, and by the time you've added in the extra values included in Buick's figures, you've paid for the matchless performance only Buick can give you!

So don't sit idly wishing for a star! Reach up—get this one! We're ready to show you any day it costs less than you think.

"Better buy Buick!"

Crop Insurance Rates For Wheat In Panhandle Counties Announced Saturday

Range Is From .7 To 2.6 Bushels

(By The Associated Press)

COLLEGE STATION, May 7—Crop insurance which will guarantee insured wheat growers three-fourths of an average crop in 1939 will vary in costs from an average of .7 bushels an acre for some counties to 2.6 bushels per acre in others, Geo. Slaughter, chairman of the Texas Agricultural conservation committee, announces. The body meets at Texas A. & M. college.

For insurance that guarantees one-half of an average crop the rate will vary from county averages of .1 bushel an acre to 1.6 bushels.

Reflects Average Loss

The county rates reflect the average an acre loss during the 10 years, 1926-36. The premium an individual wheat grower will have to pay for insurance will depend half on the county rate and half upon the crop losses on his own farm. The rates for each farm will be computed in the branch office of the federal crop insurance corporation.

The cost of insurance is not based upon the average amount of yield, but on the year-to-year variations in yield.

"Two farmers with the same average yield for the 10-year period would not necessarily pay the same premium for the same percentage coverage," Slaughter said. "The farmer who suffered but little crop loss would pay less than the farmer who suffered frequent and heavy losses, even though their average yields were the same."

Rates Available To Agents

The rates for individual farms that took part in the wheat adjustment programs will be available in the offices of the county agricultural agents and the county AAA committees, about which the county crop insurance program will center. The county committee will arrange for an appraisal of farms for which figures are not available.

The premium a farmer pays covers only the actual cost of the insurance. Administration costs and costs for storage of insurance reserves will be paid by the corporation. Premiums may be paid either in wheat or its cash equivalent.

Costs Are Given

The average costs in bushels an acre for the 75 and 50 per cent, respectively, coverage, expressed in terms of average county rates, are here given for the wheat producing counties of Texas:

Jefferson Stockman Reports Profits From Silo Feeding

BEAUMONT, May 7 (AP)—W. P. H. McFaddin, Jefferson county stockman, banked $1,325 profit on 106 yearlings finished on a 120-day trench silo feeder program to determine its value over grass feeding. The animals brought two cents a pound more than grass fatted stock.

McFaddin fed the yearlings on silease., supplemented by cotton-seed meal, blackstrap molasses and home grown corn. They showed an average gain of 150 pounds and sold at seven to seven and one-half cents a pound.

County Agent Combs estimates the cost of producing and saving the forage is $3 a ton.

Marking a memorable victory in her long fight for health, Sylva Davis of Kansas City, Mo., is pictured above as her respirator was pulled apart and she breathed without aid for nine minutes. The 20-year-old girl, who gained fame by her cheerful battle against paralysis which afflicted her from birth, flashes a happy smile as physicians predict that soon she can live outside the iron lung for 17 minutes of every hour. A delicate spine operation, performed by a surgeon who insisted on anonymity, started Sylva toward recovery.

Junior Class To Stage "Huckleberry Finn" At Senior High Auditorium Friday Night

"Huckleberry Finn," a play in three acts adapted from the novel by Mark Twain, is to be presented in the Senior High school auditorium at 8:15 o'clock Friday night by the junior class.

Miss Alice M. Beckett, public speaking and dramatics teacher of Senior High is director.

Ben Alexander, son of Mr. and Mrs. Q. V. Alexander of 2426 Twenty-first street, plays the title role.

Other Characters Listed

Other characters are: Mary Webber as Aunt Polly, Huckleberry Finn's guardian; Jacqueline Davis, Ruth Watson, the niece of Aunt Polly and who is in love with Fred Raymond; Zoe White, Mary Jane, the girl who likes Huckleberry Finn; Sarah Starnes, Clara Woppinger, a neighbor; Joe McCraw, Fred Raymond, a boy who is in love with Ruth Watson; Roberta Ellison, Melba White, the negro house maid; Helen Jarrott, Amy Woppinger, a sister to Clara Woppinger; Jack McIlroy, John Finn, the father of Huckleberry Finn; and Emory Payne, Tom Sawyer, Huckleberry Finn's best friend.

Students working on the business and technical staff are: prompters, Ida Love Ercanbrack and Lanell Hurlburt; stage managers, Tom Jackson and Paul Sherrod; personal property, Jeanette Bynum and Lorena Alexander; make-up, Eloise Bonds and Ruth Overton.

The entire play takes place in the living room of a modern family at the present time.

The best all-round actor, two best actresses, and two best actors will be chosen the night of the performance by three competent judges. The names of these students will not be announced until Recognition day, May 17, when awards will be given to students. They are to be udged on their interpretation of character, ability to keep in character, diction, and cooperation with other members of the cast.

Tickets for 50 cents went on sale Thursday.

Silt Problem In Reservoirs

AMARILLO, May 7 (AP)—Water reservoirs filling with soil-eroded silt are a problem in the wind erosion area of the southern great plains and the country over, soil conservation service engineers report. More than 1,500 reservoirs representing a total investment of at least $1,500,000,000 conceivable could be rendered useless by soil erosion, says H. H. Bennett, chief of the soil conservation service at Washington. Many of these reservoirs are filling rapidly, reports indicate.

The soil conservation service has completed detailed studies of erosional deposits in 55 representative reservoirs in 19 states. Widely separated reservoirs, now filling with silt at especially rapid rates, show results of these studies:

A municipal reservoir built near Waco, Texas, costing $2,000,000 was 20 per cent filled with silt less than six years after the date of construction. Elephant Butte reservoir near Hot Springs, N. M., costing 5,000,000, has lost 14 per cent of its capacity with 20 years, and Gibraltar reservoir at Santa Barbara, Calif., costing $800,000, was 30 per cent silt-filled after 16 years.

Farm and crop practices that accelerate erosion usually are found on the watersheds from which reservoirs fill, say the soil conservation engineers. Any practice that slows down the cutting effect of rushing water, they point out, means that much more soil on the watershed and that much less in the reservoir.

In the wind erosion area of the Panhandle of Texas and Oklahoma, the soil conservation service is seeking to check such destructive erosion by holding water where it falls on cultivated land by terraces and contour tillage and on range land by contour furrows, by water spreading systems and various types of check dams in gullies, and by locating dams in areas where they will not be easily subjected to silting.

The Department of Agriculture of Brazil has announced plans for the diversification of agriculture.

Southeast Cochran Wildcat Showing Highlights Week

BY JOHN B. BREWER
Special Oil Writer

PROMISE of small oil production by The Texas Co. No. 1 Mallett Land & Cattle Co., a wildcat in extreme southeastern Cochran county, and development of an oil spray with an estimated 10 million cubic feet of gas daily by Helmerich & Payne No. 1 Ohio-O'Dowd, 2 1-2 miles southwest of the nearest completed oil producer in the Denver field in southwestern Yoakum county, were highlights of West Texas developments this week.

H. C. Wheeler No. 1 F. E. Gardner, 2 1-2 miles west of the Means field in north central Andrews county, swabbed 10 barrels of oil hourly after treatment with 1,000 gallons of acid at a plugged back depth of 4,632 feet, but the percentage of new oil was undetermined, and the test was retreated with 4,000 gallons of acid. It is in the southwest corner of section 15-A35-psl.

Locations Hit New Low

Oil locations dropped to another low for the year, 23 field tests and two wildcats in 10 counties compared to locations for 26 field tests and four wildcats during the preceding week. In a dozen counties 38 producers were completed and six tests were abandoned dry compared to 50 and four, respectively, the week before.

The Texas Co. No. 1 Mallett in Cochran county struck oil from 5,039-52 feet and encountered a small amount of salt water in the next eight feet of drilling. At 5,073 feet in sand it swabbed 21 barrels of oil and six barrels of salt water in 11 hours and drilled ahead at 5,077 feet, unchanged. Location is in the northwest corner of section 7-G-psl, five miles southeast of the Duggan pool in Cochran county and six miles west of the Slaughter field in southwestern Hockley county.

Flows 800 Barrels

Honolulu No. 2-77 Slaughter, seventh producer in the Slaughter field, flowed 800.2 barrels of oil on a 24-hour potential test at 5,015 feet, having been treated with 9,000 gallons of acid in three stages. It is in labor 77, league 37, Zavala county school land, an east offset to Stanolind No. 1 Slaughter, a producer.

After E. T. Marion and Penn Royalties had spudded northeast outposts to the Slaughter pool on small tracts and only 330 feet apart, the Railroad Commission fashioned a temporary well-spacing pattern for the pool providing that no tests can be drilled nearer than 400 feet to any lease or legal subdivision line or nearer than 1,240 feet to any drilling or completed well on the same lease or legal subdivision. The order pends a hearing at Austin May 16 on permanent regulations. Marion and Penn Royalties spudded on the Lawless land, both near the southwest corner of labor 58, league 39, Maverick county school land.

Obtains Gas Increases

Helmerich & Payne No. 1 Ohio-O'Dowd, southwest outpost to the Denver field in Yoakum county, was shut in at 4,051 feet for storage. It obtained gas increases at intervals between 4,865 and 4,935 feet to an estimated 10 million cubic feet daily, topped the oil zone at 4,045 and began spraying oil at 4,947. Location is in the northeast corner of section 986-D-John H. Gibson.

Shell No. 1 Hensley, extending the Denver pool three-quarters of a mile northwest from the most northeasterly producer, headed 80 barrels of oil, with one per cent basic sediment and water, in 24 hours for completion at 5,125 feet after acidizing. It is in the northeast quarter of section 767, Magnolia No. 1 Webb, farther north and two miles southwest of Plains, cored saturated, porous lime at intervals between 5,323 and 5,415 feet and encountered sulphur water in a core from 5,626-39 feet. It is in the northeast quarter of section 477.

Test Is Abandoned

Gulf No. 1 Dixon, wildcat in section 609, about midway between Bond & Bohago No. 1 M. M. West, a small producer eight miles north of the Denver discovery, and the Bennett pool eight miles to the southeast, was abandoned at 5,491 feet after pumping 16 barrels of water and three-quarters of a barrell of oil in eight hours.

Finley & Cherry No. 1 Dalmont, in the northwest quarter of section 6-A21-psl, six miles northwest of Landreth No. 1 Kirk, first oil producer in Gaines county, was cleaning out after a 280-quart shot, bottomed at 4,783 feet. R. R. Rhodes, J. D. Tompkins and others staked a location for a southern Andrews county wildcat, No. 1 Emma Cowden, 330 from the north, 2,310 feet from the west line of section 1-44-2n-A&P, one mile northeast of the Emma Cowden pool. Frank S. Perkins and others' No. 1 E. W. Cowden, southwestern Andrews wildcat in section 14-A55-psl, had drilled to 7,431 feet in lime and a trace of shale.

The Texas Co. No. 1 Wilkinson, southwestern Howard county wildcat, in the northwest quarter of section 32-34-1n-T&P, struck sulphur water between 3,469 and 3,506x feet and plugged back to shoot zones showing oil at 3,214 and 3,225 feet.

Ray Albaugh and others' No. 1 Dewey Hogg, southeastern Dawson county wildcat in the southeast quarter of section 14-34-4n-T&P, which recently began deepening at 3,965 feet after being shutdown several months, had reached 3,953 feet in lime.

A London policeman employed a new variation of the old "straight line" gag recently to see if a suspect was intoxicated when he ordered the man to "follow the tram line"—and arrested him when he couldn't.

Texas extends nearly 800 miles east and west, and nearly 750 miles north and south.

May 15 Is Deadline Set For Accepting Farm Work Sheets

COLLEGE STATION, May 7 (AP) May 15 has been set as the final date for accepting farm work sheets and application for range inspection under the 1938 federal Agricultural Adjustment administration program, Chairman George Slaughter, of the Texas Agricultural Conservation committee, announces.

Work sheets and range inspection applications are the first step in participation in the agricultural conservation program. Farms and ranches will not be eligible to participate unless these forms are executed by that date, Slaughter said. May 15 was selected by the state committee and approved by I. W. Duggan, director of the southern region of the AAA.

SLAUGHTER LAND SALE

LEHMAN — Another Slaughter ranch near here is being opened to colonization, with 23,000 acres of the estate being placed on the market. A highway is being surveyed to the place.

ALLOTMENT INCREASED

LAMESA—Dawson county's cotton acreage allocation has been increased 13,899 acres to 128,074, County Agent Joe Williams announced. The increase came as a result of the drive of the Lamesa Business Men's luncheon club.

SHEEP SHIPPED

ABERNATHY—A thousand sheep, owned by G. G. Gilliland, J. J. Barton, Roland Bryant and J. A. Lutrick were shipped from here to Kansas city and were sold on the market Monday.

Shirley Temple's Back Again In 'Rebecca Of Sunnybrook Farm'

Hollywood On The Loose..

Horses, Potaters And Piano On Today's Fare; Crosby's Nags Are Winning Races

BY PAUL HARRISON
NEA Staff Correspondent

HOLLYWOOD, May 7.—All over the lot: Bing Crosby's horses are winning every race these days, and taking second and third places too. Mr Crosby gets a big thrill from such consistent victories, even if they don't pay any prize money. A dozen of his nags are the only ones running at the Pomona track, where "Sing You Sinners" is being filmed.

Seven hundred extras are jammed into one section of the grandstand, and you'd be surprised how much difficulty Director Wesley Ruggles has in persuading a crowd of people watching a horse race to look like a crowd of people watching a horse race. Some are not excited enough, and others attract too much attention by waving their programs.

The handicap under which these people are working is that they must register excitement without making a sound, and appear to be cheering without uttering a syllable. Fred MacMurray and Crosby are holding a conversation down on the rail, and the background noises will be dubbed in later.

Scramble

AT Walter Wanger's studio where they're filming "Algiers," conventional "typing" is being confusingly scrambled. Charles Boyer, usually an upstanding hero, is portraying Pepe Le Moko, a French crook. Sigrid Gurie, the Norwegian Flower of Flatbush, plays his native sweetheart. Austrian Hedy Lamarr is a high-society Frenchy. Joseph Calleia, usually a ratty villain, now is a detective. Johnny Downs turns out to be a gangster instead of a romantic juvenile. And fatherly Gene Lockhart becomes a stool pigeon.

Sigrid Gurie

• • •

School

A SCHOOLROOM scene is being shot on a set for "Lord Jeff." The teacher rises and says, "Gentlemen, class is dismissed," and Freddie Bartholomew leads a cheering group of boys from the room.

Out of the camera range, though, the cheers subside and the boys march right on into another classroom—a real one this time—to pursue their studies until the cameras and lights are arranged for the next scene.

Gift

LEO Robin and Ralph Rainger, Paramount's prolific team of hit-tune writers, have been given a new and very expensive piano in appreciation of their success.

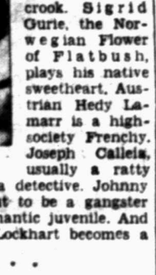

When the piano came, Rainger sat down reverently and for a couple of hours entertained himself and Robin by playing Chopin, Beethoven and other classics. Pretty soon they popped into the office of Fred Hollender, music director.

"Freddie," they said, "we gotta go to work. Can we borrow your old piano?"

Mystery

DICK Powell took a country cousin to the Trocadero for dinner. The cousin, a young lady from Arkansas, studied the huge menu card attentively. She went from the potages through the entrees to the entremets. She scanned the wines and their vintages and hesitated long over the hors d'oeuvres.

Dick Powell

Finally Mr. Powell said, "Well, Susie, do you see anything you'd like?"

She pushed the card away and in a voice that carried to many another table said, "No, I don't. I think I'll just have some meat and potaters."

Several Stars At Broadway

THAT lil' Temple gal is back in town again and in another picture which critics say will launch her on a flying start to maintain for another year her position as No. 1 celluloid revenue producer.

This time her picture was suggested by the Kate Douglas Wiggins story, with little remaining of that widely read children's yarn except the title, since its calico aura has given way to a modern, streamlined background of radio broadcasting.

She's The Same Shirley

Regardless, in "Rebecca Of Sunnybrook Farm," which opens at the Palace today, Shirley sings, dances, smiles and emotes in the best Temple manner. The supporting cast is generally good with Helen Westley and Randolph Scott predominating. Others include, Jack Haley and Gloria Stuart.

Today's offering at the Broadway brings film and radio stars together in a picture with a background of the stage. In "You Can't Have Everything," Alice Faye, Don Ameche, Charles Winninger, Louise Hovick and the Ritz Brothers run the scale from tender romance to outlandish comedy.

Ameche Has Troubles

The plot has Ameche cast as a young producer. He's having plenty of trouble putting on his play and besides that his girl, Alice, also is acting up. Louise Hovick, the other woman in the case, frames him into a marriage but his three goofy pals make themselves useful for once and turn up with proof that the marriage license was forged and happy days come back again.

The guy who made crooning the great American pastime, and the gal who is the laugh-line of the British Empire, Bing Crosby and Beatrice Lillie, are the stars of the current Lindsey program in "Doctor Rhythm."

It is a light-hearted O'Henry story of a New York physician who dons a policeman's uniform for a day only to fall in love with the beautiful young lady he is assigned to guard. Mary Carlisle is Bing's heart interest in her role of the spoiled girl who wants to run away with a gangster and is prevented from doing so by her crooning police guard.

Gangsters In Spotlight

Gangsters take the spotlight at the Lyric today as Edward G. Robinson is cast in one of the roles which made him famous. Appearing with him in "The Last Gangster," are Rose Stradner, James Stewart and Lionel Strander.

Eddie is seen as one of the last underworld characters of the prohibition era who is sent to prison. There he is framed by another inmate. His pretty young wife divorces him and when he is released he swears vengeance. She marries again and when the first husband meets their young son and is attracted by him, he forgets his vows and sacrifices his life that the name of the boy shall not be tainted.

Three Fine Stars

Three fine stars, with a list of good supporting players, are on at the Tech for the next two days in "Stage Door."

Katharine Hepburn, Ginger Rogers and Adolphe Menjou divide honors in the picture which deals with the lives of stage-struck young girls when they arrive in the city. Ginger, as a sarcasm-handing trouper, and Katie, a society girl who attempts to crash the theater incognito, are enemies from the start but when tragedy strikes in their little circle they become fast friends.

Young Singer At Cactus

Another singing star, Bobby Breen, the boy soprano, is the top attraction at the Cactus. He is to be seen in "Rainbow On The River," with May Robson and Charles Butterworth.

The youngster leaves his native southland for the north to live with a grouchy old grandmother. But through his kindness to her he wins his way into her heart and together they travel back to his home in Dixie.

"Man-Proof," which opens at the Texan, has a long list of top-ranking stars. They include Myrna Loy, Franchot Tone, Rosalind Russell and Walter Pidgeon.

The plot is of a woman who refuses to concede that the man she loves is lost to her because he has married another. Myrna Loy, as the determined young lady, meets her match before the calm, rational summation delivered by Rosalind Russell of her husband, Walter Pidgeon. Recognizing the truth of his wife's remarks, he bows out of the picture as far as Miss Loy is concerned. Disillusioned and bewildered, she turns to Franchot Tone, and discovers that their friendship is based on love.

"Rebecca Of Sunnybrook Farm" goes streamlined with Shirley Temple and Randolph Scott. It opens today at the Palace.

Mary Carlisle is the love interest for Bing Crosby in "Doctor Rhythm," current attraction at the Lindsey.

And here's a tall vamp who gives Don Ameche plenty of trouble in "You Can't Have Everything," now showing at the Broadway. She is Louise Hovick.

Rose Stradner finds happiness with James Stewart in "The Last Gangster," opening today at the Lyric.

When Lafayette visited Louisiana in 1825, his visit so impressed the people of the state the legislature appropriated $15,000 for his entertainment.

Every Day Should Be Mother's Day; Progressives Split Over Third Party Move

One Day A Year Is Not Enough

Too Much Tribute Cannot Be Paid Mothers

THERE is a universality of appeal in the observance of Mother's Day which no other time of remembrance possesses. An ancient proverb has it that "God could not be everywhere and therefore He made mothers." Certain it is that the mothers of the race, more clearly than any other earthly agency, reveal the infinity of love and tenderness which, in some mystic fashion, encompasses mankind.

It is little enough tribute that this one day of all the year is set aside to honor mothers. All the love and devotion that can be shown to mothers today is infinitesimal compared with the affective, the loyalty, the sacrifice and the suffering that have gone to make up their lives. Even so, it remains for children to make this a day of days. For those fortunate ones whose mothers are living it shoud be a joyous time of gifts, of flowers and of feasting, of loving tributes and of good cheer. For those whose mothers, wearied with the burden of the years, have gone out into the encompassing infinity, there is memory, and the quiet solace of prayer.

But this one day of loving kindness for the living is not enough. Mothers merit not merely one day of demonstrated devotion in a year: every day should be Mother's Day, replete with hugs and kisses, little tendernesses, thoughtful deeds and cheerful words. No child in a lifetime of loving attention can repay a millionth part of the eternal debt owed to the mother who gave him to the world.

Deep in the heart of every man there is enshrined one perfection, one ideal creation: Mother. Giver of life, comforter in time of trouble, preserver of the home and of the family, Mother is the personification of unselfish love, now and forever. Today is her day. And every day throughout the years also should be hers.

Germany---And Our Helium

MOST citizens of the nation will stand squarely in line with the government's refusal to sell helium to Germany until given adequate assurance that the gas will not be used for military purposes. For the United States to do otherwise would establish an extremely dangerous precedent.

Germany has been attempting to buy the non-inflammable gas almost from the moment of the Hindenburg disaster a year ago. At one time, it seemed that the deal was closed and that the sale would be made. Then the United States discovered that the nazi government would give no assurance that the gas would be used solely in the dirigible now nearing completion and intended for trans-Atlantic service. Germany took somewhat the position that if she bought the gas she would do what she darn pleased with it. Then, somewhat to her surprise, the deal was off.

• • •

THE United States holds the whip-hand in the matter. Ours is the only nation which has an abundant suppy of the gas. We can produce it for less than $2 a cubic foot. Most of them, including Germany, can't produce it at all.

Our refusal to sell the gas to Germany except under very rigid conditions is not a refusal of safety to those who would travel aboard the airship. When we have assurance that it will be used solely for that purpose, Germany may buy it.

But suppose that we should sell it without guarantees. Germany, by using the gas in war dirigibles, immediately would be given an immense advantage over every possible enemy except the United States. It would mean, in time of war, that the dirigible could be used for bombing cities of other nations almost without danger. It would mean that every potential enemy of Germany would be justified in insisting that they also be supplied with helium, something we could not do without endangering our own supply. We, by all means, should remain firm in the policy of, "no guarantees; no gas."

California Social Worker Looks About Her, Considers Her Findings And Remarks:

"Too Many Mothers Are On Relief"

By SAM JACKSON
Associated Press Staff Writer

SACRAMENTO, Cal., May 7. — Mother's day of 1938 finds too many mothers dependent on the government, too many prosperous sons and daughters shirking their duty.

Such is the observation of Miss Mary Judge, who administers relief in the capital of the state where old age pension agitation started. She cites some examples:

Three city employes, brothers earning $700 a month in all, let their mother apply for old age assistance from the county.

A divorced wholesale grocer making $450 a month allotted his mother $15 a month and expected her to support herself and his child.

Insult To Injury

The manager of a chain of theaters not only let his mother apply for help but refused to answer correspondence that would help her get it.

The wife of a rich optometrist refused to help her mother though the latter was destitute.

"Talk of old age pensions has something to do with it," said Miss Judge. "The old folks and children as well have got the idea they have something coming and they might as well get it.

"Actually, there's no such thing as old age pensions yet—at least not in this state. We have a federal-state-county arrangement we call old age assistance, but it's only for people really in need.

"When children are able to support the old folks, the law says plainly that we're to turn the case over to the district attorney."

• • •

Just A Misunderstanding

TO Miss Margaret Hughes, a fast-thinking young lady with steady eyes, falls the task of shaming Sacramento's selfish young folks into helping their neglected parents.

"We can pay up to $35 a month but the children must pay as much of that as they can," she explained. "Sometimes I talk an hour to get a promise of $2.50 a month.

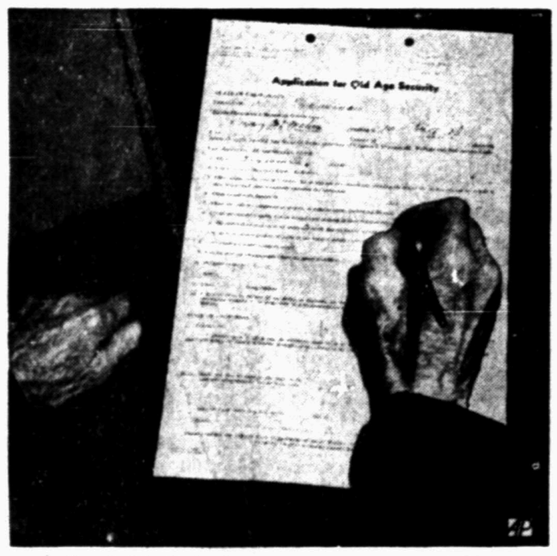

"I will say that much of the trouble is due to misunderstanding. Once the children understand the law and their own responsibilities, there aren't more than 10 per cent of them that still act ornery.

"In fact, sometimes the shoe is on the other foot. The children is willing to help but the parent will come to the county rather than impose on him. The old folks take the attitude that the job of the parents is to give rather than receive."

Significant Concessions

California's welfare act does not provide "pensions" of either the Townsend type or the bought-and-paid-for type initiated under the federal social security. But it was high and it makes significant concessions to the state's big population of oldsters.

Benefits start at 65 and it is provided the recipient "shall not be deemed a pauper." He may own real estate up to $3,000 and personal property of $500 and may earn as much as $15 a month—all without affecting his old age assistance.

The News Behind The News

WASHINGTON
By Ray Tucker

AMERICAN Progressives are split down the middle of the fairway on the third party question of forming a new "third party", and "Phil" LaFollette's few practice shots from the Wisconsin tee haven't altered their political game. He seems to be playing a "onesome", though "Young Bob" may make it a "twosome" for the looks of things.

The two liberals with much greater national appeal and prestige than the Wisconsin governor—Senator George Norris and Mayor Fiorello LaGuardia—are dead set against the idea. Assistant State Secretary A. A. Berle, jr., a Roosevelt-LaGuardia man, delivered their anti-third party message to "Phil" at the recent get-together in Madison. The three musketeers of the political millennium—Messrs. Roosevelt, Norris, LaGuardia—are scheming for a smashup of existing lines so that the present free-for-all will become a two-party showdown between conservatives and liberals.

"Young Bob" LaFollette doesn't want to split openly with his brother on the question of who will insurge when and against what, but he is inclined to favor the proposed realignment within the two-party framework. He had a better closeup of his father's 1924 difficulties in organizing a new, independent organization than the younger and more ebullient "Phil" did. The only thing certain is that the Roosevelt liberals want some sort of a "split" act, in 1944 if not in 1940.

CURIOSITY: Washington hears vague hints that the famous contract between "Big Steel" and John L. Lewis isn't all that it was advertised to be, and for this reason the detailed arrangements have been kept a dark secret. Neither contracting party seems willing to 'fess up on the arbitration provisions except for a brief published paragraphs at the time it was signed.

Other steel magnates sore at Myron C. Taylor for having run out on them, as they put it, now demand a peak at the document. The legal reason for their curiosity lies in the N.L.R.B. demand that they sign up on the terms set forth in the Taylor-Lewis contract. But when Bethlehem Steel lawyers demanded a look-see at a recent N.L.R.B. trial hearing, Examiner Frank Bloom hushed them up. Mr. Bloom also ruled out Bethlehem's request that the S.W.O.C. secretary-treasurer—David J. McDonald—be summoned to decorate the record with the document.

The Taylor-Lewis-N.L.R.B solicitude over keeping the contract a New Deal family affair has roweled some labor leaders as well as U. S. Steel's rivals. They're beginning to wonder who put something over on whom. They suspect that Signatories Taylor and Lewis found it mutually profitable to look wise and say nothing about a contract that may—or may not—mean nothing.

RESERVED: The British aviation commission here to discuss possible purchase of American planes may run into a cool reception from both the government and the industry. There have been signs that London's eagerness to spend millions in this country is not entirely on the up-and-up.

The industry can't believe that the canny Britishers would spend a vast sum here when there is so much unemployment at home. So they suspect that the foreign experts want a private look at some of our newest models in the testing or production stage. Certain suspicious officials who can't afond to say so think it dangerous to reveal our aviation secrets to a country which has just concluded a treaty with Italy, whose other pals in pacts are Germany and Japan Nations are worse than some women—and some men—at keeping confidence.

Washington can hardly turn the Britishers down flatly. There will be the usual hand-across-the-seas exchanges and suggestions that the "democratic" countries must hang—and fly—together. But Chamberlain's right-about-face on the democratic-dictatorial front didn't enthuse the White House, despite F.D.R.'s deliberately left-handed praise of the Anglo-Italian pact.

• • •

OMNIBUS: In behind-the-doors preparation of the new "recovery" bill — P.W.A.-W.P.A. spending — the White House has revealed its distrust—and fear—of an overwhelmingly Democratic Congress. It highlights the bitterness of the feud between the executive and legislative branches.

The New Deal recovery rooters, especially the Berle-LaGuardia faction, have privately urged establishment of a National Public Works authority for pouring P.W.A.'s $1,500,000,000 into the ground—and people's pockets. Under this setup the semi-official corporation could turn over cash to local communities without delay, and federal red tape could be eliminated or reduced to a minimum. It would also have the advantage of piling no increase on the public debt.

The President leaped at this idea. But it would have necessitated new legislation, which would have provoked interminable bickering in House and Senate—furnished a broad target for intra-party opposition-ists. So it was reluctantly abandoned for what will eventually be an omnibus appropriation measure having less parliamentary visibility for hostile gunners. It will be greased with plenty of fresh pork but no new principles.

• • •

PROPRIETIES: Members of the Supreme court, with possibly two exceptions, thoroughly agree with Justice Black's decision to take part in cases involving questions he has previously passed on as a Senator.

Mr. Black will not sit in any litigation touching matters on which he feels that, as a Senator, he prejudged the facts erroneously. To do so would raise the suspicion, rightly or wrongly, that his mind was closed to argument before the court. But he sees no objection to sitting in and voting in cases raising a question on which he has expressed his general philosophy as a legislator. He points out that, presumably, he was appointed because of his generally known attitude, and it was held as no bar sinister against his confirmation.

The second newest jurist has good precedent. Justice Butler, for instance, once handed down a decision affecting a railroad for which he had acted as counsel. Chief Justice Hughes has passed on matters concerning which he had expressed his views as a private advocate. Nobody accused them of having an interest which should have led them to withdraw. The two liberals—Messrs. Brandeis and Stone—have stricter ideas, however, about when they should and should not listen in. So has Justice Reed. But they appear to be outvoted 6-to-3 on the judicial proprieties.

NEW YORK
By James McMullin

DAVID DUBINSKY of the International Ladies Garment Workers union holds the key to a new phase of organized labor's fraternal strife.

The garment workers are still affiliated with the C.I.O., but Dubinsky has intimated that they may pull out if John Lewis goes through with his plan to set up the C.I.O as a permanent rival organization to the A.F. of L. this fall. He has also publicly blamed the failure of overtures towards reconciliation on Lewis' intransigeance. Just this week he refused Lewis' invitation to become chairman of the C.I.O. housing committee. And yet he is careful not to sever his union's ties with the C.I.O.

The object of these maneuvers is to lower the esteem in which Lewis is held by the C.I.O. rank and file, preparatory to a dramatic move for peace. This is rated necessary, but it is also important not to rouse too much resentment among Lewis' admirers. Dubinsky is playing his cards astutely. He has stronger sub rosa administration support than the world suspects, and is due to emerge as an outstanding leader—possibly even as number one man—in a reunited labor movement.

Jesse Stuart Scores Again With New Book

"Beyond Dark Hills" Is Story Of Writer's Life To Date

"BEYOND DARK HILLS," by Jesse Stuart; (E. P. Dutton Co.).

JESSE Stuart's third book deserves the attention his first two have had.

You perhaps remember the first, the gargantuan book of 700-odd sonnets written directly out of the Kentucky hill soil. It was not an even performance; even Shakespeare could not write sonnets in quantity and keep the quality up. But certain of Stuart's sonnets are as clear in this reader's mind now as ever, and he has not seen "Man With a Bull-Tongue Plow" since 1934.

STUART

The same power and sensitivity were in "Head O' W-Hollow." This was a book of short pieces, some of which were pure beauty.

And now the young Mr. Stuart has written his life story to date. He is too young to have a career to talk about, which is a blessing. Instead he talks about his real self, his ancestors, his parents, his homes. And the Kentucky hills. The book is a symphony, albeit one in which the usual sequences of tempi are out of order.

In Kentucky Hills

The beginning is in the Kentucky hills, with a boy hoeing tobacco, planting corn, hunting with Black Boy the dog, lying on his stomach at night with a lantern tied to a tree doing plane geometry. There are few reticences in the book, and these are never affected. The reader comes to feel with the Stuarts, so that when at last they have the money to buy 50 acres and build a house, he comes to the house with the same joy its new owners have. So with school, and the rest of Kentucky life.

The middle movement of Stuart's symphony is an ironic scherzo, full of the clangor of the steel mills—and their tragedy, too. Then back again to the hills.

The book is strong and simple. It is also careless in spots—for example. Stuart writes on one page that he was paid 25 cents a day, and on Saturday noon collected $3.15 for his week's work. His editor might have saved him that. But these are small, unimportant, matters. The bock is too sound to be injured by them.

Wallace Changes 'Soil Conservation' Phase Of New Farm Act; Penalties Cut

eductions Are o Be Smaller

(By The Associated Press)
ASHINGTON, May 7—Secre- Wallace has changed the $500,- 000 "soil conservation" phase of farm program to decrease penal- on farmers who overplant "soil- leting" crops other than cotton, n, rice and tobacco.

he changes were made, the sec- ry explained, because many mers had planted wheat and er small grain; hay, soy beans and er crops before AAA officials e able to determine acreage al- nents for individual farms.

Reductions To Be Smaller

o avoid penalizing such farmers o heavily," Wallace said, the re- tions in their cash benefit pay- nts will be smaller than previously ounced.

n the case of wheat, growers will paid at the rate of 12 cents a hel on the normal production of ir acreage allotments. For each e overplanted, deductions will made at the rate of 60 cents a hel on the normal production of excess acreage, instead of 96 ts.

n the case of farms in the sur- s feed and grain producing areas he Middle West, Arkansas, Mon- a, Colorado, New Mexico and lifornia—the payment rate on eage allotments for small grains, beans and other soil-depleting ps, except corn and wheat, will rage $1.25 an acre. Deductions excess acreages of these crops l be at the rate of $6 an acre tead of $10, as previously estab- ed.

Million-Dollar Drive On To Halt Spread Of Grasshoppers Again; Poison Is Used

* * *

By Associated Press Feature Service

Uncle Sam will spend a million dollars—and spend it fast—to fight grasshoppers in the nation's mid-western grain belt.

An army of federal workers, with thousands of farmers in the rear guard, is in the field. Poison bait and oil traps are its weapons.

Every warm day thousands of hoppers are hatched. One or two days' hatch may repopulate a vast area. As long as there is a stalk of green vegetation in sight, the hopper stands his ground. When that goes he makes a bee-line for planted crops.

Year after year hoppers ruined millions of dollars worth of grain crops. Now the enemy is being attacked in northern Wyoming, southeastern Colorado, central Illinois, Montana, western North Dakota, Nebraska, western and southern Iowa, northern Missouri, and northern Michigan.

IN THE ENEMY'S COUNTRY, a federal agent studies the extent of infestation.

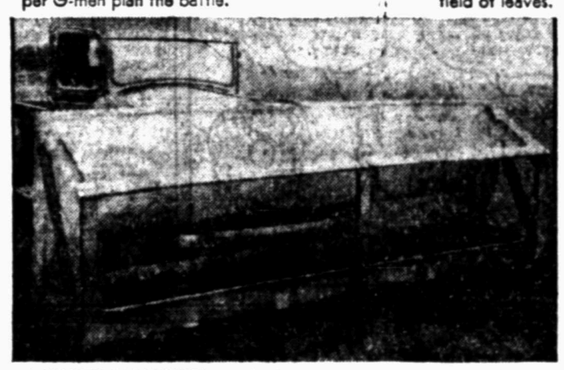

THE ENEMY, head on, jaws ready, eyes peeled for green crops to devour. Multiply this grasshopper's head by millions and you have the grain belt's Public Enemy No. 1.

COUNCIL OF WAR—With the areas of infestation marked on the map after a survey, grasshopper G-men plan the battle.

HOPPERS' WORK—It takes a horde no time at all to ruin a corn stalk like this, or to strip a whole field of leaves.

A DEATH MACHINE, attached to an auto, contains a pan of water covered with a film of oil. This method of combat is used on fields two or three weeks after a crop has been cut.

DEATH FEAST—These farmers are mixing sodium arsenite, bran and sawdust to poison hoppers.

Grasshopper Eggs Hatching Out Now And Quick Action Needed

SPUR, May 7.—Grasshopper eggs are hatching out and the hoppers should be killed as rapidly as possible, M. B. Dickson, state entomologist, said while here on a tour of this section studying the situation. Many hoppers are hatching out, but not more than half have hatched, he said.

Dickson recommended waiting until about May 20, when all the eggs should have hatched, before poisoning. If poison is used before all the eggs are hatched, many will be missed and the work will have to be done over again.

County Agent Grady Lane said there was plenty of poison available here. County Judge Marshall C. Formby, M. B. Gage, W. F. Foreman and Lane comprise the committee.

Winds Are Doing Wheat Damage

Spring winds have done considerable damage to wheat on the South Plains, in spite of scattered moisture during the last week or 10 days in April. Condition of the crop, as a whole, is more serious than immediately after the April 6-8 freeze.

Much of the crop is apparently dormant as far as growth is concerned. With the top soil extremely dry, there has been but little growth.

Yield To Be Reduced

General consensus is that the yield this year will not be much better than half of that last year. Unless general moisture comes, it is probable the yield will be reduced below that.

Irrigated wheat is coming out of the kinks in good shape. Where there has been moisture available, the stalks have greened up and look much better.

Bug Damage Reported

Heavy green bug damage in an area from Hale Center and Plainview to Tulia and from Plainview east to Lockney and Floydada and west of Plainview almost to Olton, is reported. Bugs have left some of the fields, as they were dried up and gone into other sections where wheat was green.

Floyd county reports irrigated wheat acreage is about 10 or 12 per cent of the county's total. There is some irrigated wheat in Swisher, Castro, Bailey, Lamb and Crosby counties. Yields, on the basis of today's condition will range from 15 to 30 bushels, or perhaps more.

Late April Rains Aid

Late April rains ranged from a quarter inch to three quarters or more, all helping stimulate some growth. Rains were scattered.

Abernathy farmers estimate damage at from 40 to 75 per cent.

Recent rains helped the wheat at Happy, the young wheat is especially good looking. There is considerable of last year's crop yet to move.

Some wheat land around Idalou has been plowed under. Most of it needs a good rain.

Kress reports rain is needed in the area north of town. A half crop is now the production.

Barbers practised surgery in Europe until the early 18th century.

Spring Roundups Are Now In Full Swing Over Territory

BY J. SAM LEWIS
Avalanche-Journal Staff Writer

Spring roundups over the South Plains are now in full swing as ranchers are checking up on their fall calf crop and branding the animals that were dropped after last fall's work.

Along with the roundups, ranchers report about a normal calf crop this year, 70 to 80 per cent in most sections, with some below 70 per cent, due to the early April blizzard. Particularly was this calf loss found in the more sandy counties, where 15 to 20 per cent or more losses were reported.

Losses Are Reported

Heaviest losses of calves are reported from Gaines and Yoakum counties, with some in other sandy sections, such as Cochran, Terry, western Hockley, Bailey, etc.

Gaines ranchers have reported more trouble with loco weed this year than for some time." Heaviest losses from loco weeds since 1932, the ranchers tell me," said F. L. Brittain, with the state sanitary livestock commission. "I think most of the trouble is about over with. Cochran county ranchers say they have had more trouble with shinnery, the cattle eating the leaves that came out after the freeze. Losses, they say, are heavy."

Territory Has Many Cows

Lubbock's trade territory is estimated to have about 125,000 mother cows on the ranches. Some ranchmen place the estimate as high as 150,000. There is, of course, no way of checking up on the total, as neither federal nor state census figures can be relied on to give a true picture.

Calf crop is generally estimated at about 100,000 head a year, ranging upward or downward as the perecentage changes. A crop of over 75 per cent would give nearly 120,000 calves.

General Rain Needed

Pastures are fair, but a general rain is needed to bring out the grass. There has been some moisture in recent weeks in widely scattered spots, but the range in general is much in need of an inch or two inches of moisture at this time.

Below the Caprock, particularly in Garza county, ranges conditions are better than on top of the Caprock. In the counties that co-operated with the range program last year, grass is better and there is four or five times as much grass this spring as last.

Branding Usually In May

Most ranchers do not hold their spring branding until after the first of May, although some, for one reason or another, begin before that date. They hold off, they explain, as long as they can, so as to get as many calves and still get the work done before flies begin to bother the branded animals.

Ranchers have fewer old animals on the range this year than for some time. Nearly all the older cows and steers have been sold off.

Calf prices have been good this spring. Numerous 4-H club boys and vocational agriculture boys are in the market for calves and ranchers are encouraging these boys in their work.

Shipment Gathers Momentum

Shipment of cattle to the Flint hills of Kansas and to the Osage hills of northern Oklahoma is just now gathering speed. The movement hardly had started until the last week in April, according to railroad men.

The movement into Kansas is not as large as it was a decade ago, H. M. Bainer, general agricultural agent of the Santa Fe explained. This is due to the fact that the Kansas pasture owners have cut down on the number of cattle they will place on the range. As a result of thus changed practice the cattle on the whole do better and the grass is not too closely grazed.

Bainer said he did not believe the movement this season would be as large as last year, as indications were the Texas range is better.

TAHOKA—Tahoka now has a Retail Merchants association with a score of members. M. W. Donahoo is manager. He came here from Lamesa.

Good Movement Of Sudan Grass Seed Is Reported In Section

Good movement of sudan seed, in car load lots, to northern and eastern states for planting is reported by local seed men. Many car loads have moved out of this territory so far and there will be a continuation, probably until early June, grain men report.

Sudan is being increasingly used by dairymen of the north and east for pasture. Their planting season is later than in this part of Texas. Kansas, Nebraska and other mid-western states are using more sudan.

There will be a carryover of seed from the 1937 crop, but it will not be as large as was at first thought. There is some carryover from the 1936 crop.

Price to the farmers has held up well, grain men state. A normal acreage is expected to be planted in this section for seed, in addition to probably a larger increase for pastures.

Is German Star

Though the pretty young woman at right is "Kitty Jantzen" to European and American movie fans who have seen her in German-made pictures, and is the wife of Richard Eichberg, of Berlin, a film director, she is a daughter of the U. S. A. Born in America, she met and married her husband while she was on a visit to her mother in Hamburg. Since then she has appeared in many German pictures. Here on a three month's visit to her native land, the actress and her husband arrived in New York in time to see an American presentation of her latest film.

TARZAN UNDER FIRE No. 1 By Edgar Rice Burroughs

Dick and Doc, the Tarzan Twins, awoke simultaneously, and looked at each other with happy grins. In their minds was the same thrilling thought. At last, after an adventurous journey from England, they were actually in the African home of Tarzan, Dick's distant cousin.

No wonder they were aglow with excitement. What boy would not rejoice to spend a season with Tarzan of the Apes, mighty hero of the jungle? "Let's look around before breakfast," Dick suggested, picking up a bow and some arrows Tarzan had made for each of them.

"What's that for?" Doc chided; "Tarzan's compound is as safe as Hyde Park." But Dick clung cautiously to his weapons as, clad in Tarzanesque loincloths, they ventured into the open. "Looks interesting over there, behind that clump of bushes," Doc suggested.

"Might meet a lion," Dick objected. "Aw who's afraid of the big bad lion?" boasted Doc, convinced that no beast was near. But while the boys advanced, the peace of the morning was suddenly shattered by a frightful roar—indeed the full-throated roar of a lion!

Turkey Hatching To Be Pushed

(By Staff Correspondent)

PLAINVIEW, May 7. — More than 30,000 turkey poults will be hatched in the incubators of the Plains Cooperative, Inc., plant here before the season closes, according to Paul Y. Cunyus, who has charge of the turkey association.

"We have five or six times as many orders as we can fill," said Cunyus. "We are taking off a batch of poults every five and a half days.

Demand Is Increasing

"There is a shortage of poults and eggs all over the country. Demand for the baby beef type is increasing all the time.

"Markets for turkeys is now an all-year-around market; we can and do sell all sizes and weights of birds throughout the year, although at the holidays there seems to be a demand more for the smaller type."

Hotels and restaurants are now serving turkeys throughout the year, instead of at Thanksgiving, Christmas and for a few days after each holiday. Larger birds are preferred for the general season, because there is less waste of bones, etc. Four birds that total 100 pounds would have fewer bones than ten birds of 10 pounds each.

The incubator has a capacity of 15,000 eggs. It takes about four weeks for an egg to hatch. It is believed that the incubator will be operated until in July.

Club Boys To Have Gilts Bred To Registered Poland China

Members of the county 4-H pig club with gilts will have them bred to a registered black Poland China boar during May or June, according to Homer Thompson, assistant county agent.

Most of the gilts have been vaccinated against hog cholera and the others will be before breeding. Dr. A. J. Lewis, a state veterinarian, is doing the work. The gilts are now seven or eight months old and all are said to be growing nicely.

REJOINS NEWSPAPER

FLOYDADA—Herwin Strickland, a former newspaperman here, has joined again the staff of the Floydada Plainsman as advertising solicitor and reporter. After working his way through school on the paper he spent four years with it, before joining his father G. R. Strickland and his brother Gale in a service station.

SNYDER—Dr. Thomas Slayden of Sweetwater, has come here to join the Snyder General hospital. He is a specialist in the eye, ear, nose and throat field.

PLAINVIEW PERMITS

PLAINVIEW—April building permits amounted to $5,900 said Mack Gregg, fire marshal. Last year permits were $5,014. Largest here was a $3,900 permit for remodeling of a filling station.

SOD F. O. LAWN

LAMESA—The postoffice lawn here has been sodded by G. C. Futrell. Bids were opened for the work and Futrell was the lowest one.

NEW IRRIGATION WELL

LORENZO — N. L. Green, well known farmer near here, has just completed an irrigation well on his farm. It has a flow of 800 gallons per minute.

TO ADDRESS CLASS

DICKENS — O. L. Kelley, principal of the Spur High school, will address the seventh grade graduates here. The exercises will be held Thursday night.

Spears of the villagers proving ineffective, expert hunters were called to villages in the Garhwal Valley of India to fight leopards and bears that had been driven down from the Himalayas by snow and heavy rain.

Isn't So Crazy

Jimmy Ritz, one-third of the movie comedy team, the Ritz Brothers, was "that crazy man" to Ruth Hilliard when they met five years ago on a Philadelphia stage. The former Vanities beauty has since changed her mind—and Ritz persuaded her to wed him. They're shown above.

GIVE BEET ACREAGE

LOCKNEY — Beet acreage for planting seed here, is estimated now at 166 acres. A large number had planned to plant more, but it was decided to wait and see what this year's test of beets would indicate.

Continued sniping at police by Arabs caused the issuance of a curfew order in the northern part of Palestine.
