NEW EVIDENCE IN BEATTIE'S TRIAL

MYSTERIOUS MAN WAS ON TURN-
PIKE IN CAR WITH
WOMAN.

STOPPED TO GET WATER

Testified That Woman Stood on Run-
ning Board of Machine at
the Time.

By Associated Press.
Chesterfield, W. Va., Sept. 2.—Charles Kestleberg, of Richmond, the mysterious witness who was discovered yesterday in the Beattie trial, came forward today with the declaration that it was he who was motoring on the Midlothian turnpike the night of the murder and stopped his machine to get some water while a woman with him stood on the running board.

This testimony, if accepted as a fact, nullifies the evidence of the prosecution in many important respects because the commonwealth has held that it was the defendant who crouched in front of the machine while his wife stood on the running board and was shot, her fall causing a pool of blood in the road. A crowd of boy witnesses had testified that they saw a woman on the running board and a man in front.

Kestleberg told of seeing the boys pass and of their offering to help. He said he had not come forward as a witness, because he did not know the identity of the woman with him, that he gave her a ride on meeting her on the road and that he is a married man. He said, however, that he had told his wife about the incident.

WINDOW GLASS CO.
READY TO CLOSE
Secretary Day of the Chamber of Commerce received a telephone message last night from Frank Bostick, secretary and manager of the Chanute Window Glass Company, in which Mr. Bostick stated his company was now ready to close up the pending negotiations for the removal of their plant to this city and that he would be in Wichita Falls Monday for that purpose.

From the conversation it is inferred that the stockholders of the company have finally endorsed the plan for removal, as a result of the recent meeting, and that the detail matter with reference to the loan, on account of which there was some delay in arriving at a conclusion, has been agreed upon to the satisfaction of all parties concerned.

It is now up to Wichita Falls to raise the remainder of the required \$10,000 bonus, which done there will be no further question with reference to securing this important institution, something like \$2,500 of the amount remains to be subscribed and the committee will endeavor to raise this amount by the time Mr. Bostick reaches the city in order that there may be no further delay in completing the negotiations.

**THINK IS ARRESTED
ON MURDER CHARGE**
Associated Press.
New York, Sept. 2.—Gee Gow, a Chinaman, was arrested last night, it is said in connection with the murder of years ago of Elsie Segel, whose body was found in a trunk in Chinatown.

The case of Adams vs. Vancleave trial in the county court yesterday concluded this morning, when the returned a verdict in favor of the defendant.

TWO AVIATORS KILLED

By Associated Press.
Paris, France, Sept. 2.—Two French aviators met shocking deaths today. Louis D. Grailley, of the eighth Cuirassier, suffered an explosion of an oil tank while flying, the machine burning and falling to the ground. Grailley was probably burned to death in mid air. Captain DeCamille fell with his monoplane and was instantly killed.

\$1,500,000 CATTLE DEAL AT EL PASO

46,000 Head from Chihuahua Ranches
Bought and Will Be Imported.

El Paso, Texas, Sept. 2.—Charles F. Hunt of this city has contracted for 46,000 head of cattle from the Terrazas ranches in the State of Chihuahua, Mexico, at a figure which exceeds \$1,500,000. Shipments of these cattle will begin within a few days, and the ranges in that section have been in excellent condition since the bountiful rains came, and the importation will all be made through the port at El Paso.

Fifteen thousand head of these cattle will go on the Kansas City, St. Louis and St. Joe markets; 10,000 will go to California, 8,000 into Texas and about 15,000 into the Dakotas and Montana. The first shipments are expected to arrive here about Sept. 15. This makes a total of 66,000 head of cattle that have been contracted off of the Terrazas ranches by Texas cattlemen within the past week, and more than 15,000 of them are big steers said to be in prime condition for the market.

EXAMINATION OF TEACHERS IS HELD

An examination of applicants for teachers' certificates has been in progress at the court house since Thursday and will be concluded this afternoon. There are sixteen applicants of which one is for a permanent state certificate, 5 for first grade state certificate, 7 for second grade state and 3 for second grade county certificates. The examination includes twenty-six subjects and has been necessarily slow.

Prof. Fairchild announced today that the work would be concluded this afternoon.

The Russell-Davis Company will conclude their engagement at the Colonial Theatre tonight. This company has been playing to large crowds during their stay in the city as a result of the splendid program provided and they will likely be greeted by a packed house when the curtain goes up on the final performance tonight.

TO START FOUNDATION FOR FEDERAL BUILDING

Superintendent Wheat who is in charge of the construction work on the new federal building is in receipt of a telegram authorizing him to begin at once the work of putting down the concrete foundation and in compliance therewith active operations along that line will begin on Tuesday, Monday being Labor Day and to be observed generally as a holiday.

It is expected that material will be on the ground and that the work of constructing the building proper will be inaugurated just as soon as the foundation shall have been completed.

In honor of Miss Virginia Chastain of Alvarado, who has been the guest of Mrs. T. R. Boone, a swimming and luncheon party was given at Lake Wichita last night. Those composing the party were Mr. and Mrs. Foster, Mr. and Mrs. T. R. Boone, Mrs. Gaffney, Mr. O. B. Kiel, Miss Chastain and Mr. G. D. Anderson. They were joined at the lake by Dr. and Mrs. Mark Moore, Mr. and Mrs. H. A. Orlopp, and Mr. and Mrs. M. Moore, Jr. A most delightful evening was enjoyed.

ROGER Q. MILLS DIES AT OLD HOME

NOTED STATESMAN SUCCEUMS
AT CORSICANA HOME AFTER
LONG ILLNESS.

FORMER U. S. SENATOR

Served in Congress for Many Years,
and Made a Distinguished
Record.

By Associated Press.
Corsicana, Texas, Sept. 2.—Former United States Senator Roger Q. Mills died here today, aged 79 years. Senator Mills has been in poor health for some time and while his death was not unexpected, the news thereof was quite a shock to his many friends throughout the country. Funeral arrangements have not been announced, but the remains will be interred at this place, which has been his home for many years.

Roger Quarles Mills, soldier, statesman and one of the most noted free-trade advocates of his time, was born in Toot county, Kentucky, March 20, 1832, the son of Charles Henley and Tabitha (Daniel) Mills. He received a good education and, at the age of seventeen, removed with his parents to Palestine, Texas. There he became clerk in the post office and, at the same time, studied law in the office of his brother-in-law, Hon. Reuben A. Reeves. Later he was appointed clerk to the legislature and was admitted to the bar at the age of twenty; the legislature passing a special act removing the disability of his minority.

He began to practice and met with immediate success. He was a Democrat of great sincerity and loyalty to the time-honored doctrines of his party and identified himself with the supporters of states' rights and free trade. He moved to Corsicana, Texas, in 1852 and soon held a prominent position at the bar and in political circles. On January 7, 1855, he married Miss Caroline R., daughter of Col. Henry Jones, a well-known planter and Indian fighter, who later became one of the largest ranch owners in Texas. She bore him three daughters and one son.

In the matter of secession Mr. Mills, after mature deliberation, fearlessly stood forth as the champion of the liberties of the South. His speeches aroused the deepest feelings of his listeners and stirred them up to take arms in defense of what they considered their inalienable rights. Mr. Mills, who had been elected to the Texas House of Representatives in 1859, abandoned his political prospects and his prosperous law practice at the beginning of the Civil War, and joined Greer's cavalry, with which he took part in the battle of Wilson's Creek (Oak Hill), August 10, 1861. Later he was appointed Lieutenant Colonel and then Colonel of the 10th Texas Infantry, Confederate States of America. He was in command of the regiment when it defended Arkansas Post January 11, 1862, but was overcome by superior numbers. Col. Mills was made prisoner, but was afterward exchanged.

After his exchange he was given command of a regiment, with which he fought bravely at Chickamauga, September 19-20, 1863. When Gen. James Deshler fell, Col. Mills took command of the brigade. He was in command of a regiment at the battle of Missionary Ridge, Nov. 24-25, 1863 and was seriously wounded. He also fought in the battles of New Hope Church, May 27, 1864 and Atlanta, July 22, 1864, where he was again wounded.

At the conclusion of the war he returned to his home in Corsicana, Tex., where he resumed his practice and devoted his political efforts to the advancement of Texas. He strongly favored a general revision of the tariff in favor of home-producers and consumers and favored American shipping. He developed great activity in the interest of the freetrade policy and delivered many strong speeches on the subject. He was elected to Congress upon a strong freetrade platform in 1872 and became a member of the House of Representatives in 1873.

Mr. Mills' career in the House of Representatives was extremely brilliant. He took a leading part in the tariff agitation and was the author of the famous "Mills bill," which kept Congress and the whole country in a state of agitation for a long time and later caused a serious reaction, which culminated in the election of the "Apostle of Protection," Wm. McKinley, to the presidency. While a member of the lower house, Mr. Mills was

NEW YORK SUICIDE.

By Associated Press.
New York, Sept. 2.—While awaiting the arrival of his fiancée from Europe, Daniel E. Garrison, Jr., aged 42, a member of a wealthy and prominent St. Louis family, suicided by shooting himself at the Waldorf-Astoria today because he believed he was too ill with kidney trouble, hay fever and asthma to marry. His fiancée's name was not made public.

the leader of the Democratic party in the house and was one of the strongest opponents of the electoral commission, which declared Rutherford B. Hayes elected president in 1876. He served in the House until 1892, when he was made United States Senator to fill the unexpired term of the late Senator John H. Reagan, of Palestine, Texas. At the expiration of the term he was re-elected for a full term and served in the United States Senate until 1899, when he retired from political life and devoted himself once more to his law practice. Political conditions in Texas had undergone a great change and feeling, that his State was no longer in sympathy with his ideas and that he would meet with defeat should he run again for political office, he retired to private life and devoted the rest of his days to his professional and financial interests and to the enjoyment of a happy family life.

DALLAS EXCURSION AROUSING INTEREST

Information from Dallas is to the effect that eighty-four have filed their names for the Dallas excursion to this city on next Tuesday, and several more are expected to be added to the list today.

In this connection Secretary Day has asked The Times to again remind those of our local people who expect to attend the banquet Tuesday night, to file their names, including the \$2 fee for plate, in order that he may know just how many provisions will have to be made for. The fee of \$2 is charged local people as a means of helping defray the expense incident to the free service to the visitors.

FOOD RIOTS FIERCE FRENCH MOBS RAVE

Paris, Sept. 2.—Premier Caillaux today discussed with members of the cabinet a measure designed to lower the prices of food.

Processions, town meetings, the sacking of shops and detached incidents of violence in numerous places in the northern departments continue. At Saint Quentin rioting which broke out yesterday over the high price of food, lasted all night. A regiment of infantry and a squadron of cavalry called out to quell the disturbance were unable to cope with the mob, which plundered shops in widely separated streets at the same time. The cavalry frequently charged into the crowds and several of the cavalrymen were pulled from their horses and beaten. Twenty of the rioters were taken to the hospital severely injured.

At Lens trade is completely at a standstill owing to the fear of expected food riots. The shutters have been put up on all the shop windows.

KILLED IN RUNAWAY.

Farmer Near Temple Meets Sudden Death, Skull Being Fractured
Temple, Texas, Sept. 2.—John A. Pechal, a Bohemian farmer living near Cyclone, seventeen miles east of this city, met his death today in a peculiar manner by falling from his wagon when the mules he was driving started to run away. Pechal fell athwart the double-tree and trace chains, becoming entangled in same, while the frightened mules in kicking and plunging fractured his skull while his wife was bending every effort to conquer the animals and rescue her husband. She was severely injured.

DESPERADOES ROB OREGON EXPRESS

FAST TRAIN ON SOUTHERN PACIFIC IS HELD UP BY BOLD
BANDITS.

TWO SAFES "CRACKED"

Negro Takes Principal Part in Robbery—Posses Are Now in Pursuit of Fleeing Highwaymen.

Redding, Cal., Sept. 2.—Three robbers, one a negro, held up the south-bound Oregon Express on the Southern Pacific a mile and a half north of Lamone, forty miles north of Redding at 9 o'clock last night. They blew both safes in the express car, rifled them and escaped.

In their escape the three men were accompanied by two other robbers who had been riding on the roof of the car. No one was hurt. The value of the booty has not been learned.

The robbery was reported at Delta, Cal., by Conductor Dickey within fifteen minutes after it occurred. A special train immediately was prepared at Dunsmuir, Cal., and left with a posse aboard. Sheriff Montgomery of Tehama county also was informed and another posse was picked up by a special at Red Bluff. A third posse was organized at Redding and joined the Red Bluff men. A battle with the bandits, who fled to the forests to the west, is expected.

The robbers boarded the train as it stood on a siding at Gibson, near Lamone. When the train got under way three of them worked their way into the express car, holding the messengers at bay with revolvers. Only one of the bandits, the negro, was masked. They blew the safes and at the sound of the explosion the train slowed down. The robbers grasped what they could lay hands on and jumped into the darkness where their two companions joined them.

A brakeman on the train says the men leaped into an automobile which headed for Dunsmuir, a densely wooded district.

Cotton Crop 12,074,938 Bales.
New York, Sept. 2.—The figures of the New York Cotton Exchange make the commercial cotton crop of the season 1910-1911 12,074,938 bales.

MYSTERIOUS AFFRAY WHITE MAN STABBED

Dallas, Texas, Sept. 2.—As a result of a rather mysterious stabbing affray, Charles Lowe is lying at St. Paul's sanitarium in a critical condition and with little chance for his life, according to the physicians, while the entire police and detective department is making an effort to locate two negroes who are supposed to have inflicted the injuries. The knife blade entered between the ribs, just above the heart, penetrated one lung and it is believed several blood vessels as the man bled profusely.

Lowe, with two companions were together, it is said when they were attacked by the negroes, supposedly for the purpose of robbery. They resisted and the stabbing followed.

According to statements given out, Lowe, in company with Charles Yager, and R. C. Culpepper, were on their way home at 1:30 o'clock this morning and when near their home, 1731 North Harwood, they were attacked.

After the stabbing the negroes fled and an ambulance was summoned and Lowe removed to the sanitarium. He was so low that when detectives called at the sanitarium today to get a statement, they were not permitted to see the injured man.

Negro Killed at Comfort

Comfort, Texas, Sept. 2.—Charles Bennett, a negro, was late yesterday shot and killed by Alex Coleman, also a negro, using a rifle and firing two shots at close range. Bennett died instantly. Coleman gave himself up to Deputy Sheriff Otto Krause, who took him to jail at Borene.

Harry D. Sneyd, recently Commercial Agent of the Wichita Falls Route to succeed Geo. L. Moore, made his initial trip today in connection with his new duties, going up the North-western into Oklahoma.

NO NOMINATION MADE

By Associated Press.
Mexico City, Sept. 2.—With but 15 votes separating Suarez and Gomez today, these men renewed their contest for the progressive nomination for the Vice Presidency. A nomination is hardly possible before tonight or tomorrow and it may require even longer time to settle the contest, which is one of the most stubborn political battles in the history of Mexico.

WILLIAM E. MASON TO OPPOSE LORIMER

Friends of Former Illinois Senator Say
He Will Run Again.

Chicago, Ill., Sept. 2.—William E. Mason is a candidate for the United States Senate. It was generally supposed he would be, but he would not admit it when the question was put to him; but one of his friends made the authoritative statement today that the former United States Senator from Illinois is in the race.

It had been understood that Mr. Mason would not contest the right of Uncle Shelby Cullom to succeed himself, but even that is not so certain now, owing to disconcerting reports which have come out of Springfield during the last few days. He had a sentimental wish to take Senator Lorimer's place, as that is the one he formerly held, but it is said he has scratched the word sentiment out of his political lexicon.

PARTY OF OIL MEN VISIT FORT WORTH

A party composed of about forty oil men left at 12:30 today for a trip to Fort Worth, the occasion being in the nature of an excursion, the oil men to be guests of Judge Gage at Fort Worth. S. E. Bell was looking after the arrangements for the trip and it will no-doubt be a successful one from every standpoint.

Secretary Day of the Chamber of Commerce supplied the party with badges consisting of a booster button, a tin pennant representing an oil can and a white ribbon containing the words "We're Oil Right."

CONDITION OF THE COTTON CROP 73.2

MONTH'S FIGURES FALL 15.9 PER
CENT BELOW JULY 25.
REPORT.

TOTAL YIELD ESTIMATED

Texas and Oklahoma, 68 and 62, Respectively, Are Lowest Figures of Fourteen States.

Washington, D. C., Sept. 2.—The condition of the growing crop on Aug. 25 was 73.2 per cent of a normal crop as compared with 89.1 per cent of July 25, 1911; 72.1 per cent on Aug. 25, 1910; 63.7 per cent on Aug. 5, 1909, and 73.5 per cent, the average of the past ten years on Aug. 25, according to the crop reporting board of the Bureau of Statistics of the United States Department of Agriculture, estimated from the reports of the correspondents and agents of the bureau.

Comparisons of conditions by States follow:

State	1911	1911	1910	Av.
Virginia	96	102	82	80
N. Carolina	76	87	76	78
S. Carolina	74	86	73	77
N. Carolina	76	87	76	78
Georgia	81	95	71	77
Florida	85	95	74	78

Tennessee	88	92	78	82
Missouri	88	96	78	82
Oklahoma	64	88	85	76
California	100	99	95	76

Total Yield Estimate

A total production of 12,915,209 bales of cotton as the final yield this year is indicated by the Department of Agriculture official report of conditions of the growing crop on Aug. 25.

This estimate, based in ratio of the average yield for the last ten years to the average condition of the crop on Aug. 25 for the past ten years, would mean a final yield of 151.65 pounds an acre on the planted area of approximately 34,000,000 acres, allowing for an abandoned acreage of 1,000,000, and providing the crop does not decline or improve from the date the condition was estimated to time of picking.

AEROPLANE HATS AVIATION BOWS

CHICAGO MILLINERY DISPLAY FORECASTS HEADGEAR FOR THE COMING SEASON.

HUGE MUFFS THE VOGUE

These Must Have Hats to Match and the Prices Will Give Father Heart Failure.

New York, Sept. 2.—The newest wonders in the window of the Fifth avenue milliners are the so called metal hats which will be worn this fall by modish young women. Some are flat and broad, suggesting the helmet and all are different from the styles of other years, and they are expensive. Flowers, feathers, lace, fur, gold, silver and metal fringes, silver flowers, bronzed flowers, gold and silver flowers make up the trimmings.

Chicago, Ill., Sept. 2.—Aeroplane hats with aviation bows will be the extremely proper thing in millinery this season. Also the girl with the muffs is coming back. This time the muffs are as large as a suit case and are suspended from the shoulders by cords or straps. Inside the muffs there will be mirrors, pomades, powder

uffs, handkerchiefs, in fact a well equipped beauty parlor. Incidentally there will be room for the girl's hands. Carrying out the aviation idea in woman's dress and hats it may be said right now that prices will make some new altitude records and mere man will have to do some lively vaulting stunts to meet the bills.

Very broad hints of all these matters came out last night at the opening sessions of the National Milliners' convention, at which there was a superb display of the newest creations in headgear.

The winter's outfit for the properly dressed woman will be startling. In addition to the immense muffs, there must be a bonnet of fur to match this to the uninitiated, strongly resembles a dunce cap, with donkey ears attached, but the creators say it is the Mercury helmet with monoplane rimming.

The cafe hat will be of unusual large acreage this season. This creation, it is admitted, will be built chiefly for the diversion and stir of other women diners. This life will be so large that it will crowd the ordinary aisles and hallways and will have everything on it, including the mortgage on the old home, unless the wearers have a cellar full of money.

Automobile bonnets are positively the last word. They are made in all shades of velvet and are exact duplicates of the old-fashioned sunbonnet in everything but material and price.

The muffs-and-hat-to-match proposition, however, is what will put this and of the brave and the home of the free on the brink of financial collapse. It is decreed that no matter how many hats milady may elect to own, she must have a muffs to match each one. Gloves, shoes, jewelry and all that must be also of the same shade. It is easy to see where the breadwinner gets off.

As a result of the ruling by the United States Senate that no cigarettes shall be used, heron's plumes are substituted where a jaunty effect is desired. The cafe hat fairly wallows in heron plumes and a spate of "Oriental" such as Japanese turbans and coronas are decidedly proper.

The "diety" hat is strictly Oriental in effect and derives its name from its appearance. Made with seal brown underbrim, with a top of golden brown, of fur or velvet, with an immense Egyptian buckle much in evidence, it is predicted this hat will find much favor.

It was announced that the new dresses would flare from the knees and that all but stout ladies would be denied corsets, so that women will be able to walk with some degree of comfort and grace. High-heeled shoes are also tabooed. In the swell sets, perfumery and sachet powders will be more in vogue than formerly, but the perfumery will be lavished upon the gigantic muffs so that milady will create a fascinating atmosphere as she swishes through the streets.

This Bank and Your Business

There are many banks in the country larger than The Wichita State Bank. They may have more capital and perhaps do a greater volume of business. But for the smaller business man, farmer or manufacturer, had it occurred to you that the small bank is the best place for the business to go?

The big bank is often cold-blooded and independent. Your business in the big bank is but an incidental detail, and your interests are scarcely noticed.

The small bank, however, can give your business more time and attention; for it is interested in your success.

This bank while small in comparison to some of the large banks, has ample means and facilities to properly care for your business. Its officers have time to consider your interest and welfare. Your business will be welcome and will receive their best attention.

SPUR FARM LANDS

A wonderful new farming country of rich valleys and uplands is being opened to actual home-seekers in the upper Brazos country; at prices from \$12 to \$15 per acre, one-sixth down, balance distributed over six years, payable on or before maturity. These lands produce as heavily and as reliably as high priced lands of Central and East Texas. No boll weevil, no hog cholera. Great cotton and feed crops are maturing this year—a bale to the acre will be unusual. Several last year's purchasers will pay out their lands in full from this year's cotton crop. This is YOUR chance for a home in a reliable, productive country. Buy direct from us as owners. Considering price and production in a wide range of farm crops, there is no equal chance in agricultural Texas. Railroads through lands, thriving towns, fine healthful climate, altitude 2300 feet, good schools, good churches, good neighbors. We earnestly invite inspection of the wonderful yield while crops are yet in the field. A large percentage of those who investigate are buying. Secure your home before prices advance. Wichita Falls May File Claims Against Texas League Teams

(Star-Telegram)
The Wichita Falls management may file claims against some of the Texas League clubs for appropriating players.

For instance it is claimed by Secretary Morse of the Texas-Oklahoma League that Fort Worth has never paid anything for Pitcher Hetty Green nor made any other arrangement for his services except the tender of the Pitchers' Deardorff and McKay. But the latter were refused because of the salaries they demanded.

Center Fielder Brown of Wichita Falls left last night for San Antonio. The Bronchos, state Morse, have not paid any draft money for Brown neither did the Panthers offer anything for Pitcher Mulden who has just been signed. It is possible, too, that Clark will be signed by Morris.

In other words, the Irish Lads claim

that they have been raided and their players taken by the managers of the Texas League.

Money has been received for only one man—A. Naylor, who has been bought by Los Angeles in the Pacific Coast League.

The Texas League owners answer Wichita Falls with the statement that the players can't be held for draft when the league fails to finish its season. While admitting that the league disbanded sooner than was expected, Wichita Falls claims to have paid its players salaries until Sept. 4 in order to hold them for this draft.

Most of the Irish Lads returned home last night. The management states that they abandoned the post-season series because Cleburne would not pay its guarantee after Wednesday's game. Cleburne insisted that the guarantee wasn't due until the close of the series.

Chicago, Ill., Sept. 2.—In the American League baseball park Monday afternoon Frank Gotch, the world's champion wrestler, will defend his title against George Hackenschmidt, the "Russian Lion," from whom the Iowa grappler wrested the championship in a contest in this city on April 3, 1908. The bout has attracted attention on both sides of the Atlantic and should prove the choicest tid-bit that has been offered followers of the game in a long while. The men will wrestle to a finish, the winner gaining two falls out of three and carrying off the lion's share of the gate receipts besides a large side bet and the championship title.

Both wrestlers are reported today to be in the finest fettle for the match, and all indications point to a desperate struggle for supremacy. In a broad sense the contest will be one of cleverness against strength and endurance. Gotch is acknowledged to be the cleverest wrestler who ever stepped on the mat. Hackenschmidt employs no little science in his moves, but his main reliance always has been his wonderful power of strength and endurance.

Gotch Has Defeated Them All.

Nearly all critics are agreed that Frank Gotch is the greatest wrestling champion since the days of Jack Carkeek, when the latter was at his best. Not so many years ago Gotch was working on a farm in Iowa. "Farmer" Burns, the old time wrestler, owned the farm, and it was as a sort of trainer to Burns that Gotch started in the game. That was in the year 1899. Since that time the Iowa has engaged in 331 matches, not counting many minor affairs and of this number he lost only seven, five of them being handicap matches, in which he failed to throw his man as many times as agreed. Gotch practically became champion in 1906 when he defeated Tony Jenkins at Kansas City. Jenkins was then considered the best in the country. Among other

well known wrestlers whom Gotch has mastered may be mentioned Duncan McMillan, Carl Pons, "Farmer" Burns, Jim Parr, Ed Atherton, and Hjalmar. His greatest match was with George Hackenschmidt, when he won the championship three years ago. Gotch won without a fall, as Hackenschmidt gave up after 2 hours and 8 minutes of work on the mat without any sign of a fall.

Hack an All-Around Athlete.

There is probably no athlete in the world with a greater reputation than George Hackenschmidt. Previous to taking up wrestling he was considered the strongest man in Europe, and he was also one of the greatest athletes in all around work. His first notable match contest was with Paul Pons, at that time the Græco-Roman champion of the world. Hackenschmidt won the match in 46 minutes. His success determined him to become a professional wrestler. In the succeeding years he defeated all the best men of Europe, without any apparent trouble. One of the most exciting matches he ever had was when he met Madral, the "Terrible Turk," with an unbeaten record. The match was for the world's championship. Notwithstanding the great strength and weight of the Turk Hackenschmidt defeated him in just 44 seconds. Not until he met Frank Gotch did the big Russian know the sting of defeat. Hackenschmidt acknowledges that Gotch is the cleverest man in the game, but he declares that in the coming match he will be able to undermine the strength of the champion with his far greater strength and in the end will be returned the winner.

CARRIED FIVE DOLLAR BILL TWENTY YEARS

San Antonio, Texas, Sept. 1.—Carrying a five dollar bill for thirty years without spending it is a feat that few men can perform, yet M. P. Halliwell, of Menden, Kansas, who has large interests in this city and vicinity, turned the trick. Thirty years ago, an aunt of Mr. Halliwell's bequeathed him five dollars in a will. The bequest in form of a five dollar bill was paid to him in 1881. This bill was folded away and kept until today when it was invested in silver mining stock of the Silver Hall mine in Mexico. The bill had been so carefully kept that it was but little soiled, having been almost new when it came into the possession of Halliwell.

BASEBALL NOTES.

McKechule has been playing fine ball at first base for the Pittsburgh Pirates.

The Cubs found the Giants a tough proposition when the two teams clashed in New York recently. Jimmy Esmond continues to put up a brilliant game of ball at third base for the Cincinnati Reds.

The New Orleans Club has sold Pitcher Hess to the Boston Nationals. Hess was with Cleveland three years ago.

Catcher Tex Erwin of the Brooklyn team is one of the classic catchers in the National league.

With Young, Tenney, Kling, Steinfield and Donlin the Boston Rustlers surely have a big bunch of veterans. It is said that manager Clark Griffith of the Cincinnati team is slated to manage the St. Louis Browns next season.

Lajoie at first, Ball second, Olsen playing short and Turner on the far turn, make up a corking infield for the Cleveland boys.

The two new recruits from the New England league, Patsy Bauman, with Detroit, and Henriksen, with the Boston Red Sox, are both making good.

Grover Cleveland Alexander, the sensational young twirler of the Phillies, has signed a three-year contract with President Horace Fogel.

A novelty at the Polo grounds in New York will be marble boxes. The innovation is the idea of Jim Foster, the widely known architect of baseball arenas.

Pitcher Walter Johnson, the Washington star, is certainly earning his big salary at the present time. Walter has the best of the American league record.

Dode Bringer, the fast Vancouver outfielder, will quit the game this fall and become an attorney at law. He expects to hang out his shingle at Seattle, Washington.

The New York Highlanders have repurchased Pitcher Ables, the big southpaw of the Oakland club. He has been one of the wonders of the Pacific Coast league this season.

WITH THE BOXERS.

Jack Dillon is willing to meet any middle-weight with the exception of Bill Papke and Frank Claus.

Johnny Conlon will not be seen in the ring until next winter on account of the recent death of his father.

Jimmy Carroll, the California feather-weight, is in New York looking for bouts with some of the Gotham featherweights.

Without a dissenting vote, Francisco I. Madero has been nominated for the presidency of Mexico by the progressives, a party composed largely of the best citizenship of the republic, and his nomination is almost equal to election. He will be opposed by General Reyes, who has a large military following, but there is hardly any chance of his election. General Madero has accepted the nomination, promising to faithfully carry out so far as possible every plank of the platform should he be elected.

Now that the congressional redistricting bill failed to pass, Texas will elect two congressmen at large in addition to the number she already has. Several have already been mentioned as probable candidates for these two positions; and among the number the names of Ben F. Looney of Greenville and Clarence Gilmore of Willis Point. Looney is a Bailey man and a prohibitionist, while Gilmore is anti-Bailey and is also for prohibition. Both are clean, able men, and would do credit to Texas.

If the recommendation of the Texas legislature is heeded the Democratic State Executive Committee will order a primary election to determine the choice of Texas Democrats for a presidential candidate, and if this is done there can be no mistake as to the verdict. There are both Wilson and Har-

mon-organizations throughout the State. The former endorse the primary system, which is evidence that they have no fears of the verdict as expressed in a primary election, when every Democrat will be given the same equal opportunity of voting for his choice.

Hon. W. J. Bullock of this city, in an article in today's Dallas News, suggests the following as the next Democratic State Ticket: For Governor, Morris Sheppard; Lieut. Governor, B. F. Looney; Attorney General, Jewell P. Lightfoot; Congressmen at Large, Cone Johnson and William Poindexter. The writer is of the opinion that this is the strongest ticket that could be named from every point of view and would sweep the State and give us clean and able men for public office.

Over twenty of the biggest saw mills of East Texas and Louisiana are shut down and 3,000 men are out of work. The shut down is said to be due to the agitation of a labor organization, known as the Timber Workers' Brotherhood. It seems that the men worked for an increase in wages. Very likely they are entitled to all they ask. Laboring men are usually consistent in their demands. It is stated the mills are all in a trust, and that they have closed down for the purpose of curtailing the output. A little investigation by the attorney general's department would develop whether there is a lumber trust in Texas, and if so, to what extent it is carried on. Everything else is being investigated, why not the lumber trust?—Tyler Courier-Times.

Handicapped as it has been by the governor, the attorney general's department cannot be expected to do much along the line of prosecuting the lumber or any trust or combination of capital. Lightfoot was elected without opposition to the attorney generalship. This was because of the splendid record he had made as assistant attorney general, during which time those who had been violating the Texas anti-trust laws were forced to have a wholesale respect for it. The legislature placed at his disposal an appropriation sufficient to pay all necessary expenses incident to enforcing the laws of the State, and Gov. Colquitt used his veto power to cut the appropriation in the middle.

The death of Aviator Frisbie at Norton, Kansas, was caused, it seems, by attempting to make a flight when neither the atmospheric conditions were suitable for the occasion or his machine in proper repair. This Frisbie knew better than anyone, but the crowd jeered and called him "fakir," and he then determined to take the chances and fell to his death. That crowd thought more of the admission fee they had paid than they did of human life. This should remind all of us that when a man is about to perform an act that, to most of us at least, seems like tempting Providence, we should be content for him to be the judge of conditions, for it is his life that is at stake, not ours. Frisbie was not a fakir. He had often made successful flights in the presence of thousands and there was slight provocation to jeer when he announced his machine would not stand the strain of another flight on that day.

FIGHTING A BATTLE WITHOUT AMMUNITION.

President Taft has sent to wage war on the Democrats and insurgent Republicans for their efforts at tariff revision during the extra session. He characterizes these attempts as dealing with the public interests "in light-hearted way and with absolute ignorance of the effect of the legislation and with a willingness to sacrifice business interests to political exigencies."

But it is like fighting a battle without ammunition. President Taft's criticism may create sound, but it will have no killing effect. The cold, penetrating logic of the situation is with the Democrats and Insurgents.

The president says the tariff must be lowered. So say his opponents, the Democrats and Insurgents. On that both sides are agreed. But when provision is put to the test of deed, how does it work out for each? The allies pass revision laws and Taft vetoes them, his excuse being that the hard conditions should continue until such time as his tariff board shall deem it proper to make a report of their findings. He thinks that all tariff wisdom will die with this board, while the allies are confident that the people will die with tariff oppression before the board will ever uncork its wisdom.

Tariffs were made and unmade before the idea of this board was ever conceived, and the country, notwithstanding, increased both in wealth and population. A chance for immediate relief from schedules admitted by every one to be too high was seen by the Democrats and Insurgents, and they took advantage of it.

Their action was disapproved by the president, but it is unquestionably approved by the nation.—The Atlanta Georgian.

County court adjourned this morning for the week and everything has been very quiet around the court house this afternoon.

The Opportunity is Offered;
Will Wichita Falls Respond?

Editor Wichita Daily Times,

Dear Sir:

The problem that presents itself to the citizenship of "The Busiest and Best Built City in Texas" at this time is an industrial one and looking toward the solution of the same effort has been put forth to secure an industrial installation of a manufactory with an accompanying tin bucket brigade which means an increased circulation of the coin of the realm through every channel of business.

A tentative proposition was presented to the Chante Window Glass Company after a careful investigation by representative men of this city and the same has been accepted by that company looking to the immediate location of their plant in Wichita Falls.

Heretofore the citizenship of this city have readily responded to the call for support of the action of the Chamber of Commerce. In this case there has been a seeming indifference and a "cold feet attitude" assumed by those approached by the soliciting committee seeking to raise the ten thousand dollars necessary to be raised to make sure this industry as a certain part of Wichita Falls business life.

Two thousand seven hundred dollars remains to be raised and if this is not immediately forthcoming this city stands to lose an opportunity to incorporate in its industrial life, and if not the best manufacturing institutions yet secured.

Advice received over the long distance telephone by the writer Friday evening in conversation with the secretary of the Window Glass Co., records the fact that the representatives of said company will be in this city Monday or Tuesday to close up the deal pending.

Immediate steps should be taken by every citizen to assume their individual responsibility in this matter and subscribe something to the balance needed to complete the fund assured by the representative of this city, every dollar of which to be used in meeting the actual expenses associated

with moving the glass plant to Wichita Falls, a thorough and legitimate business proposition.

Let every citizen whether great or small, contribute his share at once and thus at least keep up the reputation of this city to make good, then if the other side should fall down no reflection can be cast upon this city. Not one dollar of the fund will be called for unless every detail is carried out in accordance with the original proposition. There is absolutely nothing to lose but everything to be gained by the citizenship of this city making certain by Monday night the completion of the fund absolutely necessary to locate this forerunner of numerous other industrial plants certain to be incorporated in the life of "The Busiest and Best Built City in Texas."

Wichita Falls' future advance is certain and with the extensive development taking place immediately contiguous the spirit of optimism should permeate the life of every true citizen. Dispel every doubt and let's get-together in an intelligent and united effort to straighten out the crumpled tapestry existing that the rightful heritage of this city may be possessed and enjoyed to the fullest.

Look up the soliciting committee of the Chamber of Commerce, Messrs. O'Reilly, Huey and Perkins the first thing Monday morning and pledge your financial support to the securing of the industry now inviting our attention. If you cannot find the committee men then call at the office of the Chamber of Commerce where a list is on file with the names of men who have faith in the future of this city as best evidenced by action. Some men act so loud you cannot hear what they say. Make your action denote, your willingness to cooperate in building up the industrial side of this city. Not what has been, but what is to be, that is the question now awaiting your action, Mr. Citizen. Maintain your past reputation for progressiveness and let us wind up

F. HAPPY DAY.

A marriage license was issued today
to B. A. Luternow of Oklahoma City
and Miss Bertha Mabel Weath of
Iowa Park.

The Gem Theatre had an especially
attractive program yesterday show-
ing three pictures that were above
the average. Another good program
is being given today, including
reproduction and two new reels.

Probably a Lot of Your Troubles Wouldn't Trouble a Want Advertiser at All!

Want advertisers and answers of want advertisements ACCOMPLISH THINGS that other people simply "worry about," and hope that they "will work out somehow, sometime."

With want advertising, the property owner finds either buyers or tenants, while the non-advertiser **WAITS** for someone to "come along" and search for him and for his property.

With want advertising, the worker finds work—the employers finds workers—and the machinery of daily life does not slip a cog.

With want advertising, the used articles are sold to advantage—the business plan finds a "backer"—the buyer and seller discovers each other without any "blind searches," and people come to manage their affairs with the smallest possible amount of vexation, worry or delays.

There's not much nourishment for the "trouble-germ" in any of your affairs if you utilize want advertising to the fullest possible extent.

THE STATE OF TEXAS.

To the Sheriff or any Constable of Wichita County, Greeting:

You are hereby commanded to summon A. C. McClure by making publication of this citation, once in each week, for four consecutive weeks previous to the return hereof in some newspaper published in Wichita County, Texas, to appear at the next regular term of the Justice Court of Precinct No. 1 in Wichita County, Texas, to be held at the court house thereof in Wichita Falls, Texas, on the last Monday in Aug. 1911, the same being the 28th day of Aug. 1911, then and there to answer a suit filed in said court on the 15th day of Aug. A. D. 1911 in a suit numbered on the docket of said court No. 4123, wherein G. C. Patterson is plaintiff, and A. C. McClure is defendant, said petition alleges, that on or about Jan. 16th, 1911, A. C. McClure, defendant herein executed, and delivered to G. C. Patterson, plaintiff herein, a certain promissory note in the sum of \$160, due on or before Aug. 1st, 1911, with interest from date at the rate of 10% per annum, and providing for 10% additional on the amount of principal and interest then due as attorney's fees if default was made in the payment thereof, that in securing the payment of said note, defendant A. C. McClure executed and delivered to plaintiff G. C. Patterson a chattel mortgage lien on personal property as follows: One blue horse about 8 years old, about 15½ hands high; one black mare mule about 8 years old, about 15½ hands high; one blue mare mule about 8 years old, about 15½ hands high.

The said note is now long since past due, and although demand have often been made of defendant for its payment, defendant has failed and refused to pay same, or any part thereof, to plaintiff's damage in the sum of \$160.00.

Plaintiff sues for his debt, interest, attorney's fees, cost of suit, foreclosure of his chattel mortgage on the above described property, etc.

Herein fail not, but have before the said court on the said first day of the next term thereof this writ, with your return thereon, showing how you have executed the same.

Witness my hand officially on this the 10th day of Aug. A. D. 1911, at Wichita Falls, Texas.

News From the Oil Fields

The Northwestern Oil & Gas Co. (E. R. Kemp) is drilling an offset to the Owens and Connelly well southwest of Caney. The Kemp well is located on the Carrie Duncan Sec. 35-29-12. Later reports indicate that the Owens and Connelly well is good for 100 barrels and not for 160 as the earliest reports indicated. They have three wells completed; Nos. 1 and 2 on the Jennie Feather allotment in 27-29-12, and No. 1 on the Buffington in Sec. 26-29-12. Even at 100 barrels it indicates a nice pool as the depth of 700 feet is easy drilling. Tulsa Democrat.

J. M. Osenbaugh has drilled to a depth of 973 feet with nothing showing on the Lela Eaton allotment in Sec. 30-22-16, northwest of Claremore. Tulsa Democrat.

Southwest of Okmulgee the Prairie Oil & Gas Co. have started spudding on their No. 5, Fred Tobler allotment; it is located in the southeast corner of the southwest of the northwest of Sec. 25-13-11, offsetting the Eastern Oil Co.'s No. 1 well on the Berry farm the well which came in doing 40 barrels an hour. Tulsa Democrat.

Oil Fever at Grandfield.

(Grandfield Enterprise)

There were five oil men in Grandfield Wednesday which has been about the usual average for several weeks.

These men are making an effort to secure oil leases but none of them so far have proven to the general satisfaction of the farmers that they intend to sink a well immediately and test the field. Because of this hundreds of farmers have refused to lease and the Enterprise applauds the position they have taken, for to have land leased to a speculator with actual drilling somewhere in the dim and hazy future does not spell anything, neither will it buy goods at the grocery nor pass current at the bank. It is development p. d. q. that counts. For what profiteth a man though he have millions of acres under lease if they fail to declare a dividend until after he is dead. What the farmer's want and what Grandfield wants is to learn for a certainty right now whether we are really located in the oil belt, or else have the cold facts and get the agony over.

In order to test the field at once and definitely settle the question Geo. M. Schell and a few other live citizens of Grandfield have been making a faithful effort to secure enough leases in a body to justify a bona fide oil development company in taking hold of the proposition. They have no other interest in the matter than to develop the country and build a town here but thus far they have found it difficult to secure leases because they could not at that time show proof of immediate development not having secured actual pledge of a drilling company to take over their holdings and begin work on a definite date. They have such a company now and are feeling more hopeful.

Ingersoll Bros., of Pittsburg, Pa., oil drilling contractors of reputation, have, in a letter of August 20th, made the following proposition:

"We will furnish everything and drill a well to the required depth necessary to reach the sands from which the Electra wells get their oil or gas. We to make location upon such portion or grant of leases as we shall think best. In return for us risking so much money in a test well, your people are to furnish us not less than 3,000 acres of leases, all in general locality of the well to be drilled."

The company will put drill machinery on the ground at once and push the well to early completion.

This seems to be a very fair proposition, in view of the fact that it will cost not less than \$10,000 to get the outfit here and sink a rotary well, the kind that would be required in this formation where quicksand is encountered.

Grandfield is 23 miles from a proven field, which after all may turn out to be only a pool. There is a large margin of chance which no company can be expected to take without having something offered in return for a heavy risk.

Ingersoll Bros. say that if the Electra oil field extended this far without a break it will be contrary to all history of oil fields. If Grandfield has oil it is likely to be separate pool, and is just as likely to be located in one section of the Big Pasture as another.

However, these people are willing to take a long chance on a well if the farmers are willing to make the leases on a royalty basis. It would seem to this writer that the proposition should be put promptly, for no company could do better considering the risk they take in getting a "duster" and losing their money.

We all believe of course, that we have oil here, but that does not make it true by a jugful.

The 99 Company is reported to be down 100 feet in Morgan Jones No. 1 at Petrolia. It is the intention to sink this well below the gas if a good paying oil flow is not struck before reaching that depth. Work is temporary suspended on the Edmund Oil Company's well awaiting the arrival of a shipment of casing. This well will also be a deep well. Much interest is centered in these wells because they will be the first sunk in the Petrolia field below the gas.

Of course, if a gas flow as strong as in some of the wells there is struck where the production is estimated at 30,000,000 feet daily, deeper drilling will be abandoned.

Tickets For Y. M. C. A. Program

For the benefit of the Y. M. C. A. the Lamar Airmen people will give a special program Tuesday night, Sept. 5th, fifty per cent of the proceeds to be given to the Y. M. C. A.

Tickets are the usual price, 10 cents, and are on sale at Martin's book store, Smith & Stonelpher and O. F. Marchman. There will also be several out with tickets.

Now is the time for every good citizen to help and boost this great and worthy organization. It is in need of help at present, and this little aid so heartily offered by these show people will help very much and if the people will only help we will soon be running smoothly.

It is the earnest request of the Y. M. C. A. that you buy tickets whether you attend the show or not. It will not be much and every little will help in the end.

Buy tickets whether you come to the show or not and see the Y. M. C. A. progress.

News Forecast for the Coming Week

Washington, D. C., Sept. 2.—President Taft, in the interval between his games of golf and other outdoor amusements at Beverly, is expected to put in more or less time blocking out his speeches on the tariff, currency reforms, reciprocity and other subjects on which he will speak on his coming western trip.

The political campaign in Canada will be carried on vigorously during the coming week. Sir Wilfrid Laurier will continue his speechmaking tour in support of reciprocity in Ontario, with meetings in Windsor, Stratford, Sudbury and other places. Mr. Borden, the opposition leader, will carry his campaign into the Maritime provinces.

The week will see the formal opening of the big Government day in the Ohio river at Fernbank, near Cincinnati, the largest movable wicket dam in the world and the only one made entirely of concrete and steel. The completion of the dam marks one of the most important steps in the plan to make the Ohio river navigable the year round.

The cities and towns of Ohio will hold their first primary elections next Tuesday under the new Kimball corrupt practices act. The new law provides for the widest publicity in the

matter of campaign expenses. The penalty for the violation of any of its provisions is forfeiture of office, in addition to fine or imprisonment.

The Southern State commissioner of agriculture and representatives of the farmers' unions and the various commercial organizations have been called to meet Tuesday in Montgomery to consider the gradual marketing of the 1911 crop of cotton and to correct an alleged erroneous impression as to the volume of the crop.

The New York legislature will reconvene Wednesday to take up the matter of the proposed new charter for the city of New York.

Thursday is the day set for the primaries in Virginia, the result of which is expected to determine the two United States senatorships. Senators Martin and Swanson are candidates for re-election and are opposed by Representatives Glass and Jones.

Governor Harmon is to be the speaker at a democratic barbecue to be held in Boston Saturday. The event will be of interest in political circles as the speech will be the first that the Ohio governor has delivered in the east since his name has become prominently mentioned in connection with the presidential nomination.

ELECTRA IMPROVEMENTS NOW UNDER WAY

Mr. D. T. Cross stated to a News

reporter this week that the plans for the New Denver Hotel were about complete and that work would begin next week.

The building will be a two-story structure, 60x150 feet and will contain about fifty rooms. On the first floor there will be two 30x80 foot store rooms facing Cleveland avenue and the hotel office and cafe facing on Front street. On the second floor there will be four large office rooms and the balance will be cut up into bed rooms. Running across the center of the building on the lower floor will be an arched passway, forming a 10 foot alley. Mr. Cross stated that work would be pushed to completion as fast as possible.

Mr. Cross also stated that work would soon begin on an addition to the Powell & Cross building. That they would soon build 25x70 extending said building to Front street.

to Scott Bros. of Vernon. Construction will begin within the next week or ten days and the building must be completed within sixty days after it is begun.

A company of local citizens have purchased a tract of land adjoining selling oil lots, 50x140 at \$50 per lot. This location is one mile north of the Showers well, three and one-half miles northwest of the Bywaters well, about three miles west of the Tate well and five miles west of the big gusher territory.

This bids fair to rival the famous Woodruff Heights Addition to Electra, where lots were sold for \$25 each and are now bidding \$250 each and few on the market.—Electra News.

TESTED AND PROVEN.

There is a Heap of Solids in Being Able to Depend Upon a Well-Earned Reputation.

For months Wichita Falls readers have seen for constant expression of praise for Doan's Kidney Pills, and read other good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

P. W. Nolen, 806 Eighth street, Wichita Falls, Texas, says: "Doan's Kidney Pills certainly live up to the claims made for them and I think they are the best kidney medicine in existence. I had heard several people speak highly of this remedy and when I saw it advertised, I got a supply from the Wichita Drug House. My kidneys were weak and I was obliged to get up often at night to pass the kidney secretions. In the morning I felt stiff and lame across my back and was hardly able to straighten. Whenever I stooped, a sharp twinge darted through me. I used in all three boxes of Doan's Kidney Pills and they entirely cured me." (Statement given June 18, 1908).

A Second Endorsement

Mr. Nolen was interviewed on December 8, 1910, and he added to the above: "I willingly re-endorse Doan's Kidney Pills and confirm every word of the statement I gave in their favor two and a half years ago. I have recommended this remedy to many people and have always taken pleasure in doing so."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

NOTICE!
