## School Board Okays Budget

School board members approved the 1971-72 school year budget at the regular board meeting Monday evening. The budget calls for expenditures of \$638,628.

A low bid of 21.05 cents for gasoline by Hart Oil Company was accepted. A bid by Cox Shamrock Service of \$8.25 per case was also accepted.

Approval was given to employing a migrant first grade teacher and Mrs. H. H. Sullivan was employed as school bus driver.

Four contracting company representatives met with the board and submitted bids for a band building. A decision will be made at a later date.

Superintendent Ted Averitt reported a total enrollment of 739 students as of Sept. 13, a gain of 16 over the past week.

GOVERNOR SIGNS proclamation declaring Texas Young Farmer Week, predicting that the organization will play an increasingly important role in the life of rural America.

## Lazbuddie Horns Take Win, But Longhorns Scare 'Em

The Hart Longhorns beat Lazbuddie in every way except the scoreboard last Friday night, but the score is what counts and there were 6 shiny points up there for Lazbuddie and none for the Hart Horns. Hart had 210 total yards to only 95 for Lazbuddie and the Horns out-distanced Lazbuddie 12-5 in first downs.

The game began with Jimmy Brown receiving the ball for Hart and returning it 30 yards. But hard luck soon hit the Horns as Lazbuddie recovered a Hart miscue on the Hart 35 yard line. From there Lazbuddie used short gains to punch their way to the Hart 3 yard line.

It was there that Arthur Graves of Lazbuddie blasted through to score. The kick for the extra point was wide to the left, leaving the score at 6-0. The rest of the first quarter was pure defense with neither team moving the ball very well.

In the second quarter, Hart began looking good. The Horns moved the ball well and then Erasmo Castillo took in a long pass in a herd of Lazbuddie Longhorns. The Horns then seemed to be able to move the ball in to score but an untimely penalty made Hart unable to get a first down and the Lazbuddie Horns were able to hold them the rest of the quarter.

Lazbuddie came out strong right after the half as they made a decisive first down on the first play from scrimmage. But the Hart defense rose to the task and stopped Lazbuddie.

After Hart and Lazbuddie both had to punt, the Hart Horns started to march again. This time the Horns used two long runs by Stanley Dyer to put the Horns on Lazbuddie's 13 yard line. But much to the chagrin of the Hart fans there was a

fumble a few plays later and Lazbuddie recovered.

However, this did not seem to daunt the Hart Horns as they came right back moments after the fourth quarter began and moved the ball to the Lazbuddie three yard line where they were faced with a fourth down and one situation.

A costly penalty on the play set the Horns back five yards, but the Horns were nearly able to pull it out. A pass fell through the arms of a Hart Longhorn and it seemed as though the game was ended. But the Horns had that never-say-die attitude

and kept fighting for the ball, and with 58 seconds remaining in the game, their efforts were rewarded as they recovered a Lazbuddie fumble.

The Horns were able to run only four plays before the game ended, but that last play, a pass, with only 6 seconds left to play nearly pulled the fat out of the fire, before it fell incomplete. The game ended with Lazbuddie still hanging onto their six points for a 6-0 win.

This week is Homecoming at Hart High School and Friday night after a 7:30 coronation of Homecoming Queen the Horns will take on the Turkey Turks.

## Mail Service Program Offers Overnight Delivery

Postmaster Jewel Brooks, amplifying on a new mail service program recently announced by Washington headquarters, today identified local areas which are to receive overnight delivery of First-Class mail originating within the Amarillo area.

Postmaster Brooks said eight areas contiguous to Amarillo will benefit from the next-day deliveries under a new mail service goal announced by Postmaster General Winton M. Blount.

These areas include the following sectional centers: Amarillo; Childress; Clovis, N. M.; Liberal, Kan.; Lubbock; Roswell, N. M.; Tucumcari, N. M.; and Wichita Falls.

Postmaster General Blount on Aug. 26 unveiled the Postal Service's new goal of overnight delivery of local area first-class mailed deposited by 4:30 p. m.

"The Postmaster General has pointed out that this pro-

gram will affect more than half of all first-class letter mail sent in the United States", Postmaster Brooks said. "So customers of every post office in the country will be benefitting from the new service goal".

Substantially more than half of the 52 billion pieces of first-class mail handled annually are for delivery in the city where deposited or in nearby communities.

The areas outlined today by Postmaster Brooks are those within which next-day delivery will be provided for ZIP CODED first-class mail deposited by 4:30 p. m. on weekdays.

The Postal Service set Oct. 31 as the deadline for achieving the 95 per cent goal.

The areas which next-day delivery can be provided include a total of 308 post offices, the most distant of which are more than 200 miles from the Amarillo Sectional Center Facility.

## FANTASTIC SALARY

Bedford, Ind. Times-Mail-- "Perhaps we are wandering outside our field a bit, but the irrationality of the fantastic sums being paid to star players for signing up with professional basketball teams distrubs us. When a college sophomore is signed to a pro basketball contract for more than \$2 million, something is wrong with our national sense of values. . . There's much more to these highly publicized million-dollar contracts than meets the eye, tricky qualifying clauses and other limitations. Nonetheless, the effect is unwholesome. An absurd premium is put on the physical skills of young men, for the profit of the promoters. These excesses in professional sports are a symptom of a perversion of values in our country. Widespread acceptance of the anything-for-a-buck attitude is a distressing trend, carrying seeds of danger."

## GOVERNMENTAL POLICIES

Port Gibson, Miss., Reveille: "It is high time that our governmental policies -- foreign and domestic -- be made by careful consideration without regard to demonstrations by various groups, some of which are actually mobs seeking the overthrow of our government. We believe that the vast majority of our people are tired of various extremist groups demonstrating on the streets to the extent that actual government functions are being disrupted. Citizens have the right to demonstrate peacefully, of course, but they lose such rights when they openly advocate the disruption of government functions, and should be punished when they try to do so."

### FOOD DOLLARS

Food dollars are precious and sometimes scarce. Three basic rules of sound food shopping are: 1. Plan to serve foods that are in season and plentiful, they frequently cost less. 2. Shop from a list which you prepared at home and avoid 'impulse buying.' 3. Spend money in stores stocking a wide variety of foods; they generally have the best prices.

### LOW MAIL CHARGE

Everett, Wash., Herald: "The U. S. Postal Rate Commission is being asked to establish a special low mailing charge for political publications, ostensibly to provide a greater equity in the elective process. At best, this is a backdoor approach to the U. S. Treasury, an effort to circumvent direct subsidies. At the least, it is asking the victim of unwanted political mail to subsidize his own unwanted political mail."

## Moments OF Meditation

By Thomas H. Taylor

With her parents, six-year-old Jean Ann had seen that wonderful sight, the Statue of Liberty, had looked long and earnestly at the lady with the lamp, had been told what it all meant.

That night after the child was in bed, her father and mother heard the little girl crying. Quickly the father tiptoed into the small bedroom, reached out, touched her.

"What is it, dear?" he asked her softly, "What's wrong?"

"Oh, Daddy," she sobbed, "I keep thinking of the lady with the lamp. She's all alone. Why doesn't somebody help

her hold it up high?"

Putting his arms around his small daughter, the father explained that everyone who loves freedom, works for it, prays for our country, shows attitudes and ideals of freedom day by day, helps the lady with the lamp. Soon the child went quietly to sleep.

When you think of missionaries in far outposts of the world giving all they have to bring the message of salvation to those who never heard it, do you feel as the little girl did about the lady with the lamp? Do you wish you could help?

What a glory that everyone who prays, gives, tells others, who lives a dedicated life in Christ, does help "hold the lamp high!"

"You are like light for the whole world. A city built on a hill cannot be hid. Nobody lights a lamp to put it under a bowl; instead he puts it on the lampstand, where it gives light for everyone in the house. In the same way your light must shine before people, so that they will see the good things you do and give praise to your Father in Heaven." (Matt. 5:14-16 NEB)

### LIVESTOCK RECEIPTS

Cash receipts from livestock marketings in the U. S. for 1971 should top last year's \$29.6 billion, says Dr. Ed Uvacek, Extension livestock marketing specialist. Producer prices for livestock next year will probably average well above those in the first half of 1971. This suggests that cash receipts from livestock marketings could run nearly \$1 billion higher in 1972.

#### MORE WILDLIFE

Ecologist Dr. Donald A. Spencer noted that pesticide-treated agricultural lands now are producing more wildlife than ever, on a national basis. He said, "Pesticides are but one of the tools by which we manipulate our environment. Open fields in timbered areas create an optimum wildlife habitat pattern. The building of farm ponds, some 50,000 a year, provides an improved distribution of water sources for many wild species. The planting and maintenance of windbreaks and shelterbelts to protect soils and crops from wind erosion have provided both nesting sites and winter cover for wildlife."

#### POLICEMAN

Lennox, S. D., Independent: "Feel for the policeman! If he over-reacts he is hated, and if he doesn't react enough he is despised. He is supposed to be a mind reader, a fortune teller, a fix-it man and the lord protector of all. . . but he isn't supposed to deny anyone his 'rights' nor be concerned about his own safety or welfare. Strange how so much is expected from an individual who is considered an oppressor by so many who consider themselves to be the intellectuals of our age."

## Financial Facts

By Willis A. Hawkins, Jr.

Nothing works all of the time and in all kinds of markets. This is what is wrong with systems and the books that tell you that you can make a million dollars.

What is important to realize is that the Game is seductive. If playing has been fun, it may be difficult to stop playing, even when that button of yours is burning your finger. Repeated shocks will give you anxiety, and the anxiety is the enemy of identity, and without identity there is no serenity.

If you really love playing the Game, any action is better than inaction. And sometimes you will find inaction is the proper course, if it has been taken after

measuring all the measurable options.

# NEXT TO GODLINESS

Soap became a part of his daily life long before he understood its use. He's still more concerned with its bubbles than its cleansing properties — but he knows soap is mighty important.

And no one ever thought of postponing his bath until he was old enough to make decisions for himself!

Wise parents never postpone a child's religious training. Long before he is able to reason, he needs the character-building and guidance of the Church. Christianity should become important to him in his daily experience before its truths can be fully grasped by his mind.

Our churches are equipped to instill a vital Christian faith in the youngest child. Fortunate is the boy or girl whose parents begin his religious training early.
