AUSTRIA-HUNGARY SEEKS PEACE

(By Associated Press)

AMSTERDAM, Sept. 14.—The Austro-Hungarian government today invited all belligerent governments to enter into non-binding discussion at some neutral meeting place with a view to bringing about peace. The holy see and all neutral nations also will be notified. An official statement from Vienna making the above announcement has been received here.

German Intrigue in Russia Is Exposed

LEVINE AND TROTSKY AND ASSOCIATES ARE AGENTS OF KAISER

(By Associated Press.)

WASHINGTON, Sept. 14.—Proofs removing any doubt that Lenin and Trotsky, the Bolshevik leaders, are paid German agents—if indeed any doubts remain—are laid before the world today by the United States government in the first installment of an amazing series of official documents disclosed through the committee on public information.

Secured in Russia by American agents these documents not only show how the German government through its imperial bank paid its gold to Trotsky, Lenin and their immediate associates to betray Russia into deserting her allies, but give added proof, if any were necessary, that Germany had perfected her plans for a war of world conquest long before the assassinations at Sarajevo which as the world is now convinced conveniently furnished her pretext.

Germany Plans Early

These documents further show that before the world war was four months old and more than two years before the United States was drawn into the war Germany already was setting afoot her plans to "mobilize destructive agents and observers" to cause explosions, strikes and outbreaks in this country and planned the employment of "anarchists and escaped criminals" for the purpose.

Almost ranking in their sensational nature with the notorious Zimmerman note proposing war by Mexico and Japan upon the United States which was first given to the world through the Associated Press these documents lay bare a new view of the workings of Kultur to disrupt the allies standing between and the world and Kaiserdom. They disclosed a new story of human treachery for gold which might almost well be described without sacrifice as playing its perpetrators on a pedestal with Judas and his thirty pieces of silver.

Planned by German Staff

The intrigue appears to have been carried down to the last detail of arrangement with typical German system. It will be revealed completely in a series of seven articles furnished by the committee on public information for publication each morning, beginning today until the series is complete. Not only do the disclosures prove that Lenin, Trotsky and their band are paid German agents, they show that the Bolshevik revolution which threw Russia into such orgy of murder and excesses such as the world seldom has seen actually was arranged by the German staff officers.

They show how the paid agents of Germany betrayed Russia at the Brest-Litovsk "peace" conference; how German staff officers secretly have been receiving the Bolsheviks as military advisers; how they have acted as spies upon the embassies of the nations with which Russia was allied or peace; how they have directed the Bolshevik foundation, domestic and economic policy wholly in the interest of Germany and the shame and degradation of Russia.

Beyond Realm of Imagination. They show how a picked German commander was detailed to "defend" Petrograd against the German army and the extent of the German intrigue and domination almost beyond the realm of imagination. Originals of documents, photographs or originals and typewritten circulars, some of them marked "very secret" or "private" and many of them bearing the annotations of the Bolshevik leaders themselves; some of them containing reference to "Comrade Trotsky" or "Comrade Lenin" comprise the damning record.

Some of the originals, it is shown, although deposited in the secret archives of the Bolsheviks, were returned later to representatives of the German general staff in Petrograd that they might be destroyed. But the evidence of them remained in the fabric of rogues and into the vacancies they fit perfectly. The Bolshevik leaders, themselves informed their "comrades" that the German government had required the return of the order of the German imperial bank depositing 50,000,000 gold roubles in a Stockholm bank for Lenin and Trotsky, and that at the same time the accounts of the bank were "audited" to conceal the payments.

Official Statement

Washington, D. C., Sept. 14.—The Committee on Public Information releases the following information in a series of communications between the German Imperial Government and the Russian Bolshevik government and between the German Imperial Government and the Russian Bolshevik government made to George Creel by Rear Admiral Sisson, the committee's special representative in Russia during the winter of 1917 and 1918.

BANDITS ACTIVE IN COLORADO; TWO OFFICERS KILLED

COLORADO SPRINGS AND DENVER ARE TERRORIZED BY ARMED PARTY.

SEVERAL ARRESTS MADE

Two Men and Two Women Commandeer Auto and Flee to the Country

DENVER, Colo., Sept. 14.—While the Denver police prepared tonight to cope with another possible outbreak of terrorism by the automobile bandits who engaged the police of Colorado Springs and Denver in five gun fights yesterday afternoon and last night, killing two officers and wounding four, Superintendent Frank Williams of the state constabulary arranged a dragnet to cover the eastern half of the state and prevent the escape of the bandits who are thought guilty of the robbery on July 19 of a Missouri, Kansas and Texas train at Koch, Kansas. In Denver a guard of detectives was maintained about the house on Capitol Hill believed to be the rendezvous of the bandits while special details were scattered throughout the city. At police headquarters four automobile loads of policemen armed with rifles were held in readiness for emergency.

Four of the alleged bandits still are believed to be at liberty in the vicinity of Denver. Seven persons, four men and three women, are in custody as a result of last night's clashes with the police. Patrolman is Killed.

The killing of Patrolman Luther McHahill here early today brought the casualties inflicted by the automobile bandits who began terrorizing Colorado Springs and Denver to two police officers killed, one probably fatally wounded and another slightly wounded. Detective was killed by them in Colorado Springs yesterday.

Early this morning the automobile containing the party with which the Denver police exchanged shots last night returned to a house on Capitol Hill and in a hand-to-hand fight followed. Policeman Carl Wilson was shot in the hand and Policeman J. Ryan was disarmed. The men then re-entered their automobile and escaped. Shortly after the shooting W. D. Otter of Chicago, reported to be a police officer, was shot in an automobile early last night with Miss Gates, whose home is in Texas, his car was stopped by the bandits, two men and two women, commandeered and driven twenty miles into the country, where he and Miss Gates were robbed and set down on the prairie.

Transfer Guns to Auto. Mr. Otter said that after transferring several shotguns to his automobile the two men and their woman companions entered it, compelled him and Miss Gates to crouch on the floor and drove twenty miles into the country, threatening to kill them if they made any outcry.

Two arrests were made early this morning in the bandit hunt. Frank Lewis was taken into custody at Palmer Lake, 25 miles north of here, as he was coming in a taxicab from the north. The officers did not know he was the man wanted until he was lodged in a police station when he was identified by his photograph and marks on his arm. He said to the officers: "I am the man you want." A woman was arrested at Palmer Lake who was said to be the one who was with the party here yesterday when the shooting occurred.

Two Held in Custody. Of seven men sought in connection with the robbery of a Missouri, Kansas and Texas train at Koch, Kansas, July 19, Roy Sherrill and Frank Lewis are in custody. Sherrill is in a hospital here, seriously wounded. He was shot when he and Miss Eva De Morris, sister of Lewis, were captured at Palmer Lake, early today. Their automobile was the stolen here last night from O. D. Otter, of Chicago, and Miss W. M. Gates of Texas, who were driven twenty miles into the country and set down on the prairie.

Miss De Morris denies any knowledge of the robbery and says she took no part in the shooting. Lewis, captured at Palmer Lake, was taken to Pueblo for safety. John Habb, stepfather of Lewis, Mrs. Habb and Mrs. Lewis, is held here pending investigation. The police still are (Continued on Page 4)

ARE TO PROTEST FIXING OF PRICE FOR RAW COTTON

MEMBERS OF CONGRESS FROM SOUTHERN STATES APPOINT COMMITTEE.

CONFERENCE ON MONDAY

Senators Contend There is No Authority For The President To Fix Prices.

WASHINGTON, Sept. 14.—Senators and representatives from the southern cotton growing states at conference today named a joint committee to protest to President Wilson against the fixing of prices for raw cotton. An effort will be made to arrange for a conference at the White House Monday.

The meetings of the members of congress resulted from the formal announcement yesterday by the President that basic prices for the various grades of cotton would be fixed if this should be found necessary after the committee to be named by the war industries board has completed its investigation into the general cotton situation.

Cotton broke sharply on the exchanges today as a result of the President's announcement but later there was considerable recovery. On the New York market the price fell about \$1.50 a bale, or about \$150 more than the advance early this month after the department of agriculture's forecast had shown a decrease of about 4,000,000 bales less than last year.

Senators participating in the conference today and there is no authority for the President or any government agency to fix prices and that congress should act only through its legislative power. The Senate committee is composed of Senators of South Carolina, chairman, Smith of Georgia, Chandler of Mississippi, Bell of Georgia and McClittie of Oklahoma.

TWO ENEMY SUBS HAVE BEEN SUNK BY AMERICAN SHIP

BY ASSOCIATED PRESS. HAVANA, Sept. 14.—The enemy submarines were sunk by an American bark when she encountered them 200 miles out from her port of departure, according to a story published in the newspaper El Mundo today. No details of the encounter are given.

The bark with 123 passengers on board bound for an Atlantic port of the United States from Central America took refuge in a Cuban port this week from a storm that was sweeping across her path. The captain according to El Mundo, made a report in writing of the encounter with the submarines which was signed by the passengers.

BRITISH MAKE PROGRESS IN HAVINCOURT AREA

BY ASSOCIATED PRESS. LONDON, Sept. 14.—Further progress has been made by the British in the Havincourt battle area and new posts have been established east and north of the village, Field Marshal Haig reports tonight.

ARMENIANS AND TURKS IN RIOTS NEAR PITTSBURG

BY ASSOCIATED PRESS. PITTSBURGH, Pa., Sept. 14.—One man was killed, eleven wounded and thirty six arrested in a race riot between Turks and Armenians tonight in the industrial section of Bradock, near here. A war argument was blamed for the trouble in which a score of shots were fired between the rioters and police.

GENERAL MARCH REVIEWS DRIVE OF GEN. PERSHING

ELIEVE SERIES OF BLOWS WILL KEEP GERMAN IN STATE OF UNREST.

TO CONTINUE OFFENSIVE

Elimination of Salient Furnishes Better Base For Future Operations.

WASHINGTON, Sept. 14.—Behind the latest official announcement that the French today had attacked south of the Aisne and the Oise-Alsace sector, military observers here believe there is a definite hint as to the basic strategy governing the Allied operations. The purpose of General Pershing is now thought to be the strokes at various points of the long western front in such rapid succession that the German general staff will not find an opportunity to withdraw any battered units for rest and recuperation.

Many officers believe this purpose will be shown more clearly as the drive sets in. Continued pressure against the German line all along the front, to keep the enemy from stabilizing his position and to keep his men in that state of rest and restoration by morale in that way. There is no question in the minds of these officers that the supreme commander is acting in the most brilliant manner as much as he is at advancement of his own battle front. Destruction of the enemy army, after all, they say, is only certain way to military victory.

Hint at Continued Offensive. General March, chief of staff, hinted at a general offensive by the General Pershing on the St. Mihiel front. At his weekly conference with senior staff officers he said the elimination of the salient furnished a better base for future offensive operations.

The official reports had come, however, to show the course General Pershing is following since the two wings of his attack formed a junction which the front line of the St. Mihiel trap on the enemy.

Berlin reported officially that Pershing's men were feeling their way toward the salient east of Comblanchette and northwest of Verdun. Just what time this referred to was not clear. It appeared probable tonight, however, that the line of defense upon which the Germans have fixed will be found well to the north and east of the positions held by Pershing's outposts at last authentic reports. It is not believed, however, that the enemy will yield control of the Briey iron fields without a stubborn fight and Pershing is advancing directly toward that important region.

Discussing the American operations of the last two days, General March said: "First Established: Last To Go." The old St. Mihiel salient was the first one that was established along the western front in September 1914, and it was the last one to be fixed there. It was the most and most of all salients, projecting twelve miles into the French line and having important military bearing because it is across the railway of the Meuse valley, cutting off Verdun from Commercy and Toul and leaving only one supply line, the one that goes out to the west toward Rheims. This salient was cut off by the American army in less than two days Thursday and Friday by quick sharp blows on both flanks.

On the south flank our troops advanced along a ten mile front between Xivray and Fey Ed Haye, up through the undulating plain of the Meuse. On the north flank our troops in eight mile front they advanced across the heights of the Meuse, a ridge which is six miles wide, and broken by deep ravines. The salient was cut by the evening of the first day the south flank had been driven in five miles and the north flank three miles. By evening of the second day (Friday) the salient had been wiped out.

The removal of the salient shortened the line 22 miles, reduced rail communication between Verdun and St. Mihiel and Toul and gives very much better base for future offensive operations than existed before this drive began. "It is to be noted that the German communication says that they withdrew quietly from this sector in accordance with a carefully arranged plan, but this does not cover the 13,000 left behind. They constituted (Continued on page 3.)

PERSHING'S TROOPS HAVE TAKEN OVER 20,000 PRISONERS

(By Associated Press.)

PARIS, Sept. 14.—"Between the Oise and the Aisne we have captured the village of Allemant and the Moulin Laffaux. We made 2,500 prisoners." This announcement was made in the official communication from the war office tonight.

(By Associated Press.)

The scope of the victory won by the American army in Lorraine in its initial offensive effort continues to grow. The number of prisoners taken is now said to number 20,000, which is virtually the equivalent of two enemy divisions.

General Pershing's forces in two days drove in to a maximum depth of thirteen miles, which is approximately the distance from the tip of the salient below St. Mihiel to Hattenville, a mile and a half they are not being allowed to do this in peace by the American last reported as running.

The Germans are reported readjusting their lines on the edges of the former salient, the probabilities being, however that they are not being allowed to do this in peace by the American forces or the French on the flanks.

Further development of the offensive may have its uncertain at present the official communications and even the news dispatches today throw little light on the prospects. Whatever the immediate future may hold, however, the ultimate effect of the drive, which completely wiped out the St. Mihiel salient with a rapidity almost unprecedented for such a large operation, is bound to be important. In the offensive were undertaken for the purpose of opening up the way for a subsequent drive against Metz and possibly the important Briey iron fields now in German hands, that has already achieved a large purpose.

The American attack eliminating the St. Mihiel salient are continuing their advance. From Pagny across the Moselle River from German territory the new front extends in almost a straight line to the vicinity of Hattenville where it advances slightly toward the northwest to Plesnoy. This reduction of the front line from some forty to twenty miles places at the disposal of the Allied commanders an enormous force of men for future operations in this sector or on other fronts.

Metz in Range of Guns. Having accomplished the task of wiping out the salient the offensive movement continued to push forward and the further straightening of the line is probable. The Americans at this stage of the drive command a situation favorable for direct invasion of German territory. If such a course should be decided upon, although the important fortress of Metz is in no immediate danger its outlying fortifications are within range of American heavy guns at Pagny. Metz itself furnishes an excellent target for Allied airmen, who already have taken advantage of the opportunity and dropped many bombs on railway stations and military stores in the city.

On the west, the French and American troops are in a strong position of protection of fortifications. A frontal attack on Metz could hardly be expected but an outflanking movement from the west, or by the French and American troops from the south would force the Germans to evacuate both the fortress and the territory surrounding it. In their haste to get out of the salient, with a little loss of men and military supplies as possible the Germans left the railroad from Verdun to Commercy, Toul and Nancy virtually intact. The capture of this line of railway adds greatly to the line of front movements toward Verdun, which has been a great handicap to the Allies in the past. In the first few hours of their operation as a distinct unit the American troops have driven the enemy out of some thirty villages many strongly fortified positions prepared during the four years of their occupation of the salient.

PERSHING DRIVE NETS 225 SQUARE MILES

BY ASSOCIATED PRESS. WITH THE AMERICAN FORCES IN Lorraine, Friday, Sept. 13.—Thirty-six hours of fighting netted General Pershing's forces approximately 225 square miles of territory in the St. Mihiel salient which had been in German hands since the autumn of 1914.

Following the American troops through the captured villages, the independent found on every hand evidences of long control by the Germans. Bills for electric lighting and supplies had been paid with curious urgency on which the Germans had printed French monetary terms. The inhabitants of the salient were absolutely ignorant of the events of history in the last four years, knowing only what their captors had told them. Here the sad stories heard in the wake of the reclaimed districts of France were recited by the long years of a German control which had isolated the people from news of relatives and of world happenings.

Every American entering the villages experienced the same reactions that given to Secretary of War Baker and General Pershing and their party. Aged men and women seized and kissed the cheeks of the soldiers and correspondents, crying and laughing, the curiously aged children imitating their elders unknowingly. For their own compatriots, however, the greeting was deeper and the French patrols and troops following were even more affected than those who had been delivered.

Later in the evening General Pershing and Secretary Baker resumed their journey in other sections of the regained region.

BATTALIONS REDUCED TO BARELY A HUNDRED

BY ASSOCIATED PRESS. BRITISH ARMY HEADQUARTERS, Sept. 13.—The Germans are being steadily driven from all ground where they have made any progress since the old defensive works. The first guards reserve division, much depleted, has been identified in the Meuse sector and Austrian artillery has been in action astride the Havincourt-Blescourt road.

Three battalions of one regiment of the 27th division were contacted by the enemy with an average of barely a hundred men. Prisoners admit dissatisfaction and lack of discipline are growing at an alarming rate in the German army and desertion are on the increase. A battalion of the 4th infantry regiment which has gained the name of "Lions of Cambrai" broke during an advance recently across Santerre, and fled to Nois, where they included in looting after which the remnants straggled away.

DEBS CONVICTED ON THREE COUNTS TEN YEARS EACH

MOTION FOR NEW TRIAL IS OVERRULED BY JUDGE WEST-ERNHAVER.

IS ADMITTED TO BAIL

Can Leave Northern District of Ohio Only to Go to and Remain at Home.

By Associated Press. CLEVELAND, O., Sept. 14.—Judge D. C. Westernhaver today sentenced Eugene J. Debs, charged with violation of the espionage act, to ten years in the Federal penitentiary at Leavenworth, Mo., on each of three counts of the indictment by Federal Judge D. C. Westernhaver here today. The sentences will run consecutively. Motion for a new trial was overruled and an exception on behalf of the defendant was allowed. A motion for reversal of the sentence was also overruled.

A writ of error was granted to the United States court. The court admitted Debs to \$10,000 bail with permission to leave the northern federal district of Ohio only to go to and remain at his home.

Debs, four times Socialist candidate for president of the United States, was indicted for violation of the espionage act as an outgrowth of remarks he is alleged to have made in an address on June 16 before the state convention of the Ohio Socialist party at Canton, Ohio.

The indictment, containing ten counts, was returned by the federal grand jury of the Northern Ohio district on June 29 and Debs was taken into custody the next day. Then followed a legal battle in which counsel for the defense sought to quash the indictment on the ground that the free speech section of espionage law as passed and amended by Congress is unconstitutional. Federal Judge D. C. Westernhaver, who presided at the trial, overruled this motion.

Judge Westernhaver in so ruling also disregarded four of the ten counts in view of the government's announced intention of entering a nolle in each of them. The court gave its decision on three of the remaining six counts, and let the following counts stand:

Attempting to cause insubordination, disloyalty, mutiny or refusal of duty in the military or naval forces. Attempting to obstruct the recruiting or enlistment service of the United States.

Opposing the cause of the United States by words. Concerning reservation of decision on the three counts Judge Westernhaver said: "Each of the three remaining counts, except perhaps one, is sufficient in

form and substance and is unobjectionable on the ground of duplicity. "Any contention that the espionage law is unconstitutional is, in my opinion, frivolous and entirely devoid of merit. In the Canton speech Debs was alleged to have declared that the purpose of the Allies in the war is the same as that of the central powers, and to have urged his hearers to realize that they were "in for something better than cannon fodder." It was charged he declared himself equally as truly as Mrs. Rosa Pastor Stokes, recently convicted of violating the espionage law, the Bolsheviks and the I. W. W. and counselled his audience not to worry over the charge of "treason to the masters." Conviction on the counts charged carries a penalty of twenty years imprisonment and a \$10,000 fine on each count. United States District Attorney Edwin E. Wertz is in charge of the government's case, assisted by Joseph C. Breitenstein and Frank B. Katzenbach. Seymour Steadman of Chicago, who defended Rosa Pastor Stokes, Joseph W. Sharts of Dayton, Ohio, and Morris Wolf of Cleveland are attorneys for Debs.

Cotton Consumption Month of August Was 534,914 Bales

By Associated Press. WASHINGTON, Sept. 14.—Cotton consumed during the month of August amounted to 534,914 running bales and 100,473 bales of lint. For the year ending August 31 consumption was 6,581,356 running bales and 116,385 bales of lint.

GEN. PERSHING HAS ORGANIZED STAFF AMERICAN ARMY

By Associated Press.
WASHINGTON, Sept. 14.—General Pershing has organized a staff for the first American army aside from his personal staff which remains at general headquarters of the American expeditionary force, General March, chief of staff, announced today.

Lieutenant Colonel Hugh A. Drum, the chief of staff of the new army, and his assistant chiefs of staff are: Colonel Robert McLeave and Lieutenant Colonel Jens Bugge, Major Howell, John L. DeWitt and Lewis H. Watkins.

Major General Edward F. McLaughlin is chief of artillery and the heads of the administration and technical services are: Adjutant General, Colonel Joseph P. Barnes, Inspector General, Colonel Jacob C. Johnson, Judge Advocate, Lieutenant Colonel Blanton Winship, Chief Quartermaster, Major George L. Harbo, Chief Surgeon, Colonel Alexander N. Stark, Chief engineer Brigadier J. J. Crow, Chief Signal Officer, Lieutenant Colonel Parker, Chief Ordnance Officer, Colonel Edward P. O'Hern, Chief of Motor Transport Cars, Colonel William H. Winters, Chief of Air Service, Colonel William Mitchell.

It was this staff which handled the movement at St. Mihiel under General Pershing, General March said. He added that the chief of the chemical warfare service and additional administrative and technical services, had not been designated at the time. General Pershing reported the other members of the new staff.

Athletic Sport To Be Encouraged In Training Schools

By Associated Press.
WASHINGTON, Sept. 14.—Athletic sports as formerly pursued, involving extended trips and specialized training will not be permitted at colleges and other institutions which have army students training corps, Colonel R. GERMANS FEAR A LONG RANGE GUN

EVIDENCE OF EXCITEMENT EVERYWHERE ACROSS THE GERMAN BORDER.

By Associated Press.
WASHINGTON, Sept. 14.—The American offensive of their very doors and stories of a long range gun about to be turned loose on their towns is giving the war a new aspect to the Germans. An official dispatch from France today says there are evidences of excitement everywhere across the German border and quotes the following from the Mulchausen Tageblatt:

"The American offensive in upper Alsace and the long range gun supposed to be intended to reduce to ash the towns of this country is made by alarming the inhabitants. Even people of a high rank tremble at the news like little children listening to ghost stories. Of course the evacuation of Mulhausen and the whole of Alsace again is in question and it is expected that measures for the actual evacuation of the grand duchy from Baden, to Friburg have already been taken.

The German papers remind the people who spread such rumors of the punishment they may incur and say there is not the slightest reason for anxiety, but at the same time continue to publish the reports.

SUCCESS OF AMERICANS CAUSES GREAT REJOICING

By Associated Press.
PARIS, Sept. 14.—The rapidity of the American blow at the St. Mihiel salient representing the prompt execution of a well conceived plan, has caused great rejoicing in Paris.

"They are wonderful soldiers, was the unanimous verdict of the Paris population regarding the Americans as the people journeyed to the newspaper booths this morning and saw the big type headlines in the French newspapers announcing the thoroughness of the American victory. As usual the official non-communicate from the French war office was very modest. People shook their heads wisely at this, however, saying:

"Tonight's communique will tell a different story."

TULANE UNIVERSITY TO CARRY OUT SCHEDULE

By Associated Press.
NEW ORLEANS, LA., Sept. 14.—The Tulane University athletic council which had under consideration the cancellation of Tulane's football schedule this season announced today that the schedule will be carried out. This decision was reached on receipt of advices from Washington that the war department had not officially banned the sport. It was stated, however, the game would be dropped immediately if the war department suggested it.

EXPLANATION OF ACTS OF RUSSIA TOWARD ALLIES

By Associated Press.
STOCKHOLM, Sept. 13.—Events in Russia which immediately preceded the surrender of Entente Allied interests in soviet Russia to the ministers of neutral countries were presented to the outside world chiefly through bolshevik and German mediums. The Entente consults were without communication with their government and consequently their side of the case was not fully stated during the crucial days of early August when conditions became so unsettled that they decided it was necessary to place the lives and property of their nationals under the protection of neutrals.

The real break began January 29 when Premier Lenin declared in a Moscow speech:

"We are at war with the Anglo-French imperialists."

Posters reiterating similar statements were displayed over all Moscow and great uneasiness was felt by all the Entente citizens because of the threats made in the bolshevik press against them.

The Entente consults asked Foreign Minister Tchitcherine if the soviet regarded itself at war with the Entente Allies and told him that Premier Lenin's statement must necessarily be regarded as a declaration of war unless it was officially denied. After considerable delay Tchitcherine replied:

"The soviet government is not making war on the peoples of the Allied countries and does not recognize international law."

CONCLUDE DEBATE ON REVENUE BILL

By Associated Press.
WASHINGTON, Sept. 14.—General debate in the House on the war revenue bill ended today and the way was cleared for taking the measure up Wednesday section by section for debate on amendments under the five minute rule. Passage of the bill by Friday was predicted by Democratic Leader Kitchin.

Hearings by the Senate finance committee will continue next week, but they are expected to be brought to a close as soon as the bill is disposed of by the House.

In the discussion in the House today representatives passed the bill as a whole although some sections were criticized. At times partisan politics was injected but the discussion was not as spirited as on Tuesday when the subject first was introduced.

the combatant strength of an entire German division.

Lacking official news of further advances by General Pershing's troops within the salient, the opinion that this movement has already reached the immediate limits it was planned to attain, gained strength among military officers.

With the French now taking up the fight in the center of the great arc which comprises the western front from Arras to Verdun, it is considered entirely probable that the next move of the American army is dependent upon the results of this offensive. An advance of any importance by the French will threaten the stability of the famous Chemin des Dames ridge, and to a less extent, probably will affect the St. Gobain massif, upon which the new defenses of the Germans seem to be based.

BRITISH MARINES LANDED AT AMOY TO ALLAY PANIC

By Associated Press.
PEKING, Monday, Sept. 9.—A Japanese destroyer and British marines have been landed at Amoy to allay panic in these cities due to the approach of the southern rebel forces.

A Peking dispatch of August 27 said that rebel forces had gained success against government troops near Amoy in the province of Kwantung, and that consequently the government troops in the province were in a dangerous position.

Fu Chow, one of the treaty ports, is the capital of the province of Fukien on the Min river, 35 miles from its mouth. It has a population of more than 700,000. Amoy, 150 miles south of Fu Chow, has more than 400,000 inhabitants.

Hudson Enlists With Uncle Sam

No Sacrifice Is Too Great To Help Win the War

Wednesday, August 28th, 1918, the Board of Directors of the Hudson Motor Car Company adopted the following resolution:

"Be it resolved that it is our plan to produce only those automobiles during the period of the war as are necessary to clear out the stock on hand and contracted for, which we estimate will be accomplished not later than January 1, 1919, and that thereafter our plant resources and our entire manufacturing energy are to be devoted to war work.

Hudson had hoped that such a radical step would not be necessary.

We had thought that by turning over part of our plant to war work—the percentage of which has been gradually increasing for a year past—we could meet the government's needs and still partially supply the demand for Super-Sixes.

However, in view of the increasing war needs, we feel it our patriotic duty to apply our plant resources, and our entire manufacturing energy to war work.

We especially regret the sacrifices necessary on the part of our loyal Hudson dealers who have invested heavily in Sales and Service Plants.

After all, however, your sacrifice as a buyer, or yours as a dealer, or ours as the manufacturer is trifling compared with the sacrifice that millions of magnificent young Americans are making for us.

They are pouring out joyously the last full measure of devotion for Liberty—for Humanity—for us.

No price, therefore, can be too great for us to pay for freedom, honor, and the defense of our country.

It is our privilege to answer willingly—gladly, every demand the nation makes of us.

In this spirit Hudson enlists for the war.

Not later than and probably long before January 1st, 1919, the last Super-Six made during the war will be out of our dealers' hands.

There are several Hudson advertisements prepared and placed in the magazines prior to this decision.

Their message still holds good so far as it relates to the few Super-Sixes still to be made. Otherwise it is subject to the resolution quoted above.

And now, in conclusion, just a word of appreciation and congratulation to you who are fortunate enough to possess Super-Sixes.

We appreciate the loyal support Hudson owners have given every effort we have made to produce cars of quality.

We congratulate you who own Hudsons on having a car that will see you through the uncertain days ahead.

Its service we know will be such as to keep the Hudson name shining brightly in your mind reminding you that the Hudson has not departed forever, but is simply in the service of the country.

The Hudson factory and Hudson dealers now have on hand a sufficient supply of replacement parts to meet all needs over a prolonged period of time.

And when the happier days of peace come—after the war is won—you may look forward to more Super-Sixes just as worthy of your confidence as they have been up to the present.

PEACE TALK.

A week or so back Lord Lansdowne the British pacifist by his talk bowed himself out of any influence when the time DOES come to make peace. The Austral Premier has to say a word about peace terms, and he too was Lansdowned into foolish silence. Now cometh His Excellency Frederick Von Payer, the German Imperial Vice-Chancellor, talking peace in grandiose terms. What "lordly" long distance pow-pow these three aristocrats of aristocrats did have? When this Payer person orates in these words, "We prefer our calm reflection, and even with our favorable military situation to abandon the idea of indemnification." This sentence he supported by saying in reiteration "that Germany is the innocent and attacked party of this awful war." In the following words one can readily see the subtle and astute diplomat playing to save his hand. "Our state debts are everywhere reaching fantastic heights and everywhere we struggle against encroachments on our personal liberty. All of the belligerents of Europe must admit, if they are not blind, that the longer the European people lacerate each other the more certainly will the historical and paramount position of weakened and impoverished Europe be lost in favor of cleverer and more calculating peoples." Pray who we would like to ask Europe fear because of these conditions named? Certainly not the United States. "When we recall such statements we sit amazed at the numbing blindness or the wilful, wicked deceit of the leaders of the German people. Mark it and mark it well: there CAN be no peace until Germany repents and in that repentance confesses to the robberies on land and the piratical deeds on the seven seas. No finer comment can be made on this last delusive and elusive speech of this vice-chancellor than submitting for the thoughtful reading of our readers the speech of the new Republican floor manager Senator Henry Cabot Lodge. In the U. S. Senate Mr. Lodge gave in precise terms the minimum demands of the Allies. The indications are that Mr. Lodge spoke with the President's authority back of him. The following excerpts from his masterly message contain hope for the rights of all peoples and contain no ground for any fears save to evildoers. "The Russian provinces taken from Russia by the villainous peace of Brest-Litovsk must be restored to Russia." "Constantinople must be finally taken away from Turkey and placed in the hands of the Allied nations as a free port, so as to bar Germany's way to the East and hold the Dardanelles open for the benefit of mankind." "Let Turkey and Bulgaria share the fate of their master and be so treated that they will be unable again to trouble the world." "Palestine must never again be under Turkish rule, and the persecuted Christians of Asia Minor—the Syrians and Armenians—must be safe." The speech was closed with those simple, weighty words, "No peace that satisfies Germany in any degree can ever satisfy us. It cannot be a negotiated peace; it must be a dictated peace, and we and our Allies must dictate it. The victory bringing such a peace must be won INSIDE, not outside, the German frontier. It must be won finally and thoroughly in German territory and can be so won nowhere else." May these words LODGE in the minds of us all and may PAYER of Germany be the PAYER in deed as well as in name! So mote it be!!!

"Bringin' It Along."

An American lying wounded in a wheat field was somewhat taken aback by the spectacle in slow and steady approach of a German officer. He was magnificent with medals and he wore a monocle.

Every once in a while his impressiveness was spoiled by a nervous turn of the head and the suspicion of a squirm—just as if someone were tickling his tail with a bayonet.

Someone was, for looking beyond, the wounded American saw a 47-inch, husky American negro prancing along, showing every tooth in his head.

"Hi-yi, boss," he called out jubilantly. "Ah, don't know what Ah's got, but Ah's bringin' it along!" Stars and Stripes.

She had done little manual work in her life, but accepted the job without protest and went down on her knees with a pail of hot water, a cloth and a cake of soap. Soon the water in the pail was black. A man in uniform passed. The woman looked up and asked if he would mind emptying the pail and refilling it with clean water.

yellow. Economic ills, and social injustice have been revealed through the service and suffering of the war. England's Labor Party, largely under the sober leadership of Mr. Arthur Henderson, has created a program that must compel both admiration and study. Read it carefully:

1. The universal enforcement of the national minimum, that is, the enforcement of at least the prescribed minimum of leisure, health, education, and subsistence for everyone.

2. The democratic control of industry, viz. the nationalization of railroads, mines and electrical power. Steps to be taken to prevent profiteering in all essential commodities.

3. A revolution in national finance, viz. the reform of present systems of taxation so as to make the real sacrifice of all taxpayers as nearly as possible equal. The reduction of the national debt to be accomplished by direct taxation of private fortunes.

4. The surplus for the common good, that is, extra profits on all industry to go to the common good, rather than the enlargement of any individual fortune.

The English Labor Party has taken advanced ground, to use a military term, on the obligation of the government to find for every willing worker productive work at standard rates; absolutely equal voting rights for both sexes, and the repudiation of the protective tariff, and all "economic war!" The position of this Labor Political Party is invulnerable on the demobilization of all armies, and the employment of all armies, and the employment of all workers in such way as to prohibit all unemployment. In leadership and wide vision the English Labor Party surpasses organized labor in the United States. But cooperation and sympathetic understanding is at work in our country among all men. So we hope on.

OUR TABLOID SERMON

REV. P. G. CROSS

"THE BIBLE AND THE KAISER."

In the midst of the many questions of the war one question is being asked and thought over as much as any other. It is, "What will happen to the Kaiser?" Editorials and essays, sermons and speeches have been as varied as they have been various on this burning personal question. The Kaiser professes to believe in the Bible. Let the Bible tell the Kaiser and us the answer of this question.

"And in the latter time of their kingdom, when transgressors are come to the full, a king fierce of countenance, and understanding dark sentences shall stand up. And his power shall be mighty, but not by his own power; and he shall destroy wonderfully, and shall prosper and practice, and shall destroy the mighty ones and the holy people. And through his policy he shall cause craft to prosper in his hand; and he shall magnify himself in his heart, and by peace shall he destroy many; he shall also stand up against the prince of princes; but he shall be broken without hand." Dan. 8:23-25.

The sinister ground-work of this word painting was laid in the Pax Romana, and the "beneficent" Kaiser would give to the world a Pax Germanica as the fulfillment of this prophetic picture.

Common sense and a knowledge of facts are essential for the putting together of a puzzle picture. No strong handed methods to make it fit are needed. Watch the parts fall into their places.

1. In the latter time of their kingdom. The rise of Democracy had all earthly thrones tottering when a king or two started something that they cannot finish for it will be their finish.

2. A king of fierce face shall stand up. The moustached countenance of the Kaiser obtrudes itself here in no uncertain manner. Watch the Kaiser's scowl and the Hohenzollern chin thrust!

3. He shall understand dark sayings. Dark diplomacy and the Kaiser are twins. You think of one and you think of the other.

4. Shall stand up! Of all crowned heads this hundred years can produce no such upstanding ruler as the Kaiser. In standing up for Wilhelm the Kaiser is second to none.

5. His power shall be mighty. The Kaiser's boast is, "I am the sword of God!" The Kaiser has out-Fredericked Frederick the Great in mighty power.

6. But not by his own power. What a startling fact this is! But a sub-

tle, scheming shrewdness the Kaiser has gone Blamark one better in "working" kings and peoples, plans and priests for his own end. The puppets of Austria and Hungary, Bulgaria and Turkey as well as the blue-jeans of Bavaria and Saxony dance to the Kaiser's playing.

7. "He shall destroy wonderfully." The awful panorama of Belgium, Russia, Serbia and Armenia rises before the mind's eye for the destruction is so awful as to be wonderful.

8. "He shall prosper and do his pleasure." For forty years or more the Kaiser has prospered in his plans more than any character of modern history. Up to this spring the Kaiser was a prime winner in the war, and for the Allies to have made peace with Germany then would have left the Kaiser the mightiest victor of all time.

9. He shall destroy the mighty ones and the holy people." If the mighty ones are kings then this is fulfilled for the Czar is no more, and the Emperor Charles is but a figure as are the titular rulers of Bulgaria and Turkey. Not to say a word about the blasted hopes of the Kings of Greece, Serbia, Belgium, Roumania and Montenegro. Also the Kaiser has brought about the massacre of uncounted thousands of Armenian Christians, Gyps and Jews, all peoples of a de-cout nature.

10. "Through his policy he shall cause craft to prosper." The world admits that Germany was the one scientific nation when the war began. Her trade schools and laboratories, mechanics and scientists were second to none. In the glare of the war one gasps for breath when he sees how very near the Kaiser came to world trade dominion.

11. "He shall magnify himself in his heart." Me und Gott, affirms the Kaiser.

12. "By peace shall he destroy many." Russia lies broken. Roumania is tied hand and foot by economic and political peace pacts Kaiser made and Kaiser enforced. The peace of Poland and the peace of Finland are nightmares of destruction.

13. "He shall also stand up against the prince of princes." If Jesus Christ the Prince of Peace is this prince then the Kaiser is the opponent here.

14. "He shall be broken without hand." This is the one piece in the prophetic puzzle yet to be placed. Signs are not wanting that the Kaiser is on the wheel of destiny and the breaking down turn is at hand.

15. "He shall be broken without hand." This is the one piece in the prophetic puzzle yet to be placed. Signs are not wanting that the Kaiser is on the wheel of destiny and the breaking down turn is at hand.

MAN AND WOMAN ARRESTED NEAR DENVER

By Associated Press. COLORADO SPRINGS, Sept. 14.—Roy Sherell, alleged to be one of the Kansas train robbers, and a woman have just been captured at Sedalia, 20 miles south of Denver, by members of the reserve watch from this city. When the automobile was held up, containing four people, a running fight ensued and two men escaped. Sherell was wounded in the fighting. The posse took the machine and a suitcase full of ammunition and two guns. The prisoners were taken to Denver for safe keeping.

FORGET SUFFERING IN JOY OVER VICTORY

By Associated Press. PARIS, Sept. 13.—The first groups

of wounded who arrived at an evacuation hospital behind the battle front today from the St. Mihiel sector forgot their sufferings in their joy over the hearing the Germans had been given, says the correspondent of the attack was launched the German line behind the fighting lines. A captured German officer when interrogated declared the Americans were "terrible adversaries," the correspondent said. "The American troops" adds the correspondent, "showed magnificent bravery and disregard of danger."

GERMANS MAKE POOR SHOWING AGAINST THE AMERICAN DRIVE

By Associated Press.
AMERICAN ARMY HEADQUARTERS, Friday, Sept. 14.—Nothing could better illustrate the increasing weakness of the German arms than the case with which the Franco-American force entrusted the task advanced in the St. Mihiel salient. It is true the operation was admirably planned and carried out, but one rarely has witnessed anything like the ease of that first day's fighting. There was of course a barrage but not a very terrific affair as barrages go. After the barrage there was nothing very startling in the way of gunfire and the machine gun rattle produced quite an effect by only coming now and then.

All the while the Americans were going forward with the steadiness of a flood, striking into woods on one side and passing out of them to the other, spreading about a village and overwhelming it and breaking against a hill or a mountain and gradually working over the top. They moved like something worked by a clock, but always well ahead of schedule. Rain soaked and slipping about in the mud, they still went forward white back along the flood, some long lines and grey blue creatures who had been swamped in its course.

Whatever way one looked there were sure to be Germans—men as fine as you could wish for, or creatures so poor that their presence in the line afforded the most damning proof

of German insufficiency in man power.
 The mud had proved too much for many of the tanks and the rain storms had swept the airplanes out of the sky but still the Americans went on with just the booming of a few guns behind them and a melting away of the enemy in front. There was, however, plenty of fierce fighting. The Boss—name of wood de-lated—was not cleared without a struggle which for a time held back that part of the line. There had been a throwing out of mustard and some sharp machine gun firing before some of the surrounded villages could be left behind and the attack resumed. But even these things did not check the steady movement of the whole army, notwithstanding the furious storm the guns got along with-out a mishap.

There is no disputing that the boche made a poor showing but he was for the first time up against an American army, fighting divisions beside it we did not know. We are mighty in thinking and precision in working. That the boche was meeting better men we know; that the new machine was doing better than we did not know. We are mighty in thinking and precision in working.

CAPTURE OF ST. MIHIEL MOST STRIKING INCIDENT OF WAR

By Associated Press.
AMERICAN ARMY HEADQUARTERS, Sept. 14.—General Pershing, General Petain and Secretary of War Baker made their entry into St. Mihiel yesterday afternoon over a war wrecked bridge, only a few rickety planks of which were left. They came over virtually the only means of entry left, for it was impossible as a rule to enter the town from the west except on floats for not only had the stone bridges over the Meuse been blown up years ago but the three makeshift bridges there had been smashed by shell fire.

The capture of St. Mihiel after its four years of martyrdom is regarded as one of the most striking incidents of its kind in the record of war. The Germans left the town at 8 p. m. on Thursday. They had made life a nightmare for the inhabitants who had been unable to escape when the enemy occupied the city. All the boys from 10 to 16 years old had been deported and the old people forced to work for the conquerors.

A French military band had come in over the first bridge to honor the distinguished visitors and was playing in the square, about which all the remaining inhabitants had assembled. Their eyes were radiant and their bearing that of prisoners set free.

The town was only partly ruined. The part adjoining the river was almost entirely gone but there were scores of houses elsewhere that had been scarcely damaged. The attack was such a surprise that the enemy

was unable to undertake his usual work of wreckage. He laid hands, however, on everything he could carry off. Sheets and blankets were torn from the beds and loaded into wagons but it is possible that those wagons are by this time in Allied hands, since the enemy had only twelve hours to escape from one of the claws closing across the sector.

The enemy did set fire to a few houses but the flames extinguished the flames. The Germans hooted the banks during their occupancy. The inhabitants had depended largely for sustenance on the food furnished by the American relief committee.

FRENCH REGARD DRIVE AS A MASTER STROKE
 By Associated Press.
PARIS, Sept. 14.—The American army's maiden effort as an independent force in the world war is regarded by the French press and public as nothing less than a master stroke. The further details that have come through showing the extent of the ground gained and the great number of prisoners taken in two days on a relatively small front, have more than borne out the early expectations.

The American army has gained a genuine victory at high speed, says Colonel De Thomasson, the artillery critic.

The American soldiers now in Paris are being honored by the people of the city who stop the men on the streets and grip their hands in congratulations over the victor.

CONGRATULATIONS TO GEN. PERSHING FROM PRESIDENT

By Associated Press.
WASHINGTON, Sept. 14.—President Wilson today sent a cablegram of congratulations to General Pershing on the achievement of the American troops in wiping out the St. Mihiel salient. The President asked that his "grateful and affectionate thanks be conveyed to all concerned in the victory."

The President's message said: "Please accept my earnest congratulations on the achievements of the army under your command. The boys have done what we expected of them and done it in the way we most admire. We are deeply proud of them and of their chief. Please convey to all concerned my grateful and affectionate thanks."

PREMIER LLOYD GEORGE CONGRATULATES PERSHING

By Associated Press.
LONDON, Sept. 14.—Premier Lloyd George has sent the following message from Manchester to General Pershing at the American front: "I desire to offer to you and your brave armies heartiest congratulations on your great victory. The enemy has made many mistakes in this war, but none greater than when he underestimated the valor, determination and intrepid spirit of the brave soldiers from the great democracy of the United States. Now that he has tested the mettle of the American armies, the enemy knows what is in store for him. The news came to me on my sick bed, it was better and infinitely more palatable than any physic."

KING GEORGE SENDS MESSAGE TO PRESIDENT

By Associated Press.
LONDON, Sept. 14. King George has sent a message of congratulations to President Wilson on the victory won by General Pershing in the St. Mihiel salient. The king's message read: "On behalf of the British empire, I heartily congratulate you on the brilliant achievement of the American and Allied troops under the leadership of General Pershing in the St. Mihiel salient. The far reaching results secured by these successful operations, which have marked the active intervention of the American army on a great scale under its own administration, are the happiest augury for the complete, and I hope not far distant triumph of the Allied cause."

Complete Figures On Registration Not Yet Available

By Associated Press.
WASHINGTON, Sept. 14. Provost Marshal General Crowder tonight had not received complete figures from a single state on the registration of Thursday of men between the ages of 18 and 45 but partial returns were received during the day from draft officials compiling the district reports. The count was complete in the District of Columbia, but the total was not announced.

Reports coming to the provost marshal general today from the more populous centers of the country led members of his staff here to revise downward their estimate yesterday that the total number of men registered might reach 14,000,000.

The final results, officials announced, concluded might show a registration not far above or below the first estimate of 13,000,000. The calculations were watched closely by General Crowder's staff, since the total registration available is one of the factors influencing sharply their work of mobilizing the army's new accretions.

General Crowder announced to-night that complete figures for some states could be expected Monday.

NEED 25,000 NURSES BY END OF THE YEAR

By Associated Press.
WASHINGTON, Sept. 14. Demand of recently published reports that the nursing needs of the army had been met was made today by Brigadier General Charles Richard, acting surgeon general who stated 25,000 nurses must be obtained before the end of the year.

AVERT LABOR TROUBLE AT BETHLEHEM WORKS
 By Associated Press.
WASHINGTON, Sept. 14. Threatened labor difficulties at the Bethlehem, Pa., steel works have been averted by a promise from the company to obey an order from the war labor board to put into effect immediately the board's award in the wage controversy.

\$25,000 Set Aside for Drilling

This property is surrounded on all sides by producing wells, with five proven sands. The company is organized by local men who have put their own money into it, and offer a limited number of shares. The rig is already in process of construction and the contract is made for drilling. We propose to drill 2000 feet unless paying sand is found at a lesser depth. The land is what is known as Sunshine slope, northeast of Sunshine hill, and has never been drilled for either the shallow or deep sands. It is the same formation as the land on the west slope of the hill, which is proving so productive. The best geologists claim that has every indication of being rich oil land, and the tracts immediately joining on the northeast and southwest have already proven this.

CONVICTED FOR DISLOYALTY IN GRAHAM COURT

District Attorney S. S. Jones has returned from Graham where the criminal docket in the young county district court was completed last week. Four defendants were tried and found guilty.

J. D. Ralls was convicted on an indictment charging disloyal conduct. He was alleged to have said that the United States butted into this war; that he hoped the United States would get whipped and that he would rather live under German rule.

Testimony was introduced to show that Ralls was a native of Alabama and that he was 61 years old. He was given a term of two years in the penitentiary.

Howard Willis was convicted of cow theft and given two years and six months.

Two juveniles were convicted on charges of burglary and given suspended sentences.

PERSONALS

Lieutenant D. L. Churchill left Saturday night for Mason, Ga., on a ten day leave, for a visit with his parents at that place.

Mr. and Mrs. A. C. Parks of Henrietta were Wichita Falls visitors Saturday.

Ed Wright leaves today for Chicago markets on his fall buying tour.

Judge J. A. P. Dickson and son, Donnell, of Seymour, were visitors here yesterday.

Mr. and Mrs. W. E. Franklin and son, Herbert, of Bellvue, and Mr. and Mrs. Miller of Henrietta, stopped here yesterday on their way to Colorado. They are traveling by auto.

FUNERAL OF W. P. KELLY AT 4 O'CLOCK TODAY

Funeral services for W. P. Kelly, who died early Friday morning from burns sustained in a fire at the Kap well in Burk Burnett Thursday night, will be held from the First Baptist church at four o'clock this afternoon. Rev. Crutchfield of Electra, and Rev. McKenzie of Burk Burnett, officiating.

The arrangements for the funeral of John Wilson, burned in the same fire and who died Friday, have not been completed.

C. T. BACON CELEBRATES SIXTIETH BIRTHDAY

C. T. Bacon celebrated his sixtieth birthday on Friday, September 13, the first time in several years that his birthday anniversary has come on the double holiday day. Master Ben Langford, who was nine years old on the same date, Lieutenant Whittinghill and Messrs. Willis and Asmus from Call Field were guests at Mr. Bacon's birthday dinner. Mr. Bacon thinks that General Pershing showed good taste in his choice of a birthday.

SCHOOL WORK IS WELL UNDER WAY

ENROLLMENT IS ESTIMATED AT 1500 WITH UNUSUAL DEGREE OF INTEREST.

After the formal opening of the fall session on Monday of last week and the resumption of recitation work on Tuesday, about fifteen hundred school students will settle down to regular school routine tomorrow, in the opening day of the second week of the term.

Practically all classes took up recitation work for four days of last week's session, and the term work was given a most encouraging and enthusiastic send out in the efficient handling of the usual difficulties of classification accompanying the opening of the school session after the summer vacation, in spite of somewhat crowded conditions, especially in some of the ward schools, and a slight shortage in the teaching force.

At the high school, with an enrollment of 462 students, an increase of about fifty over last year's opening enrollment, classes were organized and the regular activities of student life resumed in two enthusiastic meetings for consideration of this year's work in football, early last week.

Sam Losh, director of the "sing song" held here on Thursday evening, opened this term's program of "attractions" at the chapel exercise Thursday morning, and was enthusiastically received by the student body, the former method of providing interesting and helpful features for the chapel exercises throughout the school year will be carried out this season, according to the principal's announcement.

The boys at the school are reported eager for military training, and Superintendent Clark is hoping to be able to meet the demand in the near future. His duties with the Y. M. C. A. will call him to San Antonio for a few days the first of this week and while there he hopes to get information as to steps high schools all over the State are taking in regard to the training. In the meanwhile, the regular course of instruction, including music, art and gymnasium work is being resumed with enthusiasm, as yet no provision for a manual training teacher in the high school has been made, but the vacancy is expected to be filled in the near future.

JUDGE MONTGOMERY TO LEAVE FOR AUSTIN

J. T. Montgomery will leave this week for Austin in connection with the organization of the supreme court commission of which he is a member. The Montgomery family will probably leave the latter part of the week. Mrs. M. B. Barnard will also leave the latter part of the week for a visit with her son, Ralph Darnell, and family at Tulsa.

Arrest On Charge Of Espousing the Cause of Germany

Lewis Petri, a resident of Wichita county, was arrested by United States Deputy Marshal Goodfellow Saturday on a complaint charging him with "espousing the cause of Germany and attempting to embarrass the cause of the United States." Petri is held in the county jail pending a hearing.

ATTORNEYS REQUESTED TO MEET ON MONDAY

All members of the Wichita county bar are requested to meet in the district court room in the court house at nine o'clock Monday morning to make arrangements for taking care of the questionnaires of men called under the last draft act.

It will also be decided at this meeting whether or not the docket of the Seventy-Eighth court will be taken up as anticipated.

A full attendance of the attorneys of the city is desired.

FORMER CITIZEN GRADUATE OF CAMP ZACHERY TAYLOR

James Bruce Thompson, who formerly resided in this city and is well known to many of its citizens, graduated August 31 from the field artillery central officers' training camp at Camp Zachery Taylor, Kentucky, and has been recommended for appointment as second lieutenant.

It will be remembered that Mr. Thompson was for a time connected with the newspaper business in Wichita Falls in the capacity of bookkeeper for the Tribune company under a former management, and his many friends will be glad to know of the progress he has made since enlisting for service in the army.

SEVERAL FORMATIONS IN WEEKLY FLIGHTS

Several large formations have flown over Wichita Falls during the last week. Besides the twelve ship formation which flew over the Kemp home at the engagement luncheon of Miss Bertha Mae Kemp and Lt. Alfred Booth, three other V-shaped formations were over the city on Thursday and Friday, one of fifteen ships. The formations are flown by lieutenants of the field under Lt. Booth.

Mr. Bob Hardy, better known as Uncle Bob Hardy, who has been with 40 customers, Cash Grocery, for past three years, has severed his connection with them and accepted a position with Newton Cash Grocery, between Indian and Ohio on 9th, where he will be pleased to meet his old customers as well as new ones. He takes this means of thanking his friends, both in the city and out, for past patronage. He will appreciate any future trade and will give them the advantage of his knowledge of prices and Hooverizing. 107-11c

COTTON DECLINES \$11.50 PER BALE AT NEW ORLEANS

NEW ORLEANS, Sept. 14.—An announcement by President Wilson that it found necessary a basic price will be fixed for cotton caused a wild opening on the New Orleans cotton exchange today and in the first few minutes of trading prices dropped an average of \$11.50 per bale. As compared with closing prices, quotations ranged from 227 to 235 points lower on the active months. It was the wildest drop ever recorded here in a similar period of trading.

Before the opening the exchange was filled with an excited crowd of brokers discussing President Wilson's statement. Local selling and wire orders were heavy as soon as trading began with the result that the ring was swamped with offerings which found no buyers.

After the initial break the feeling became firmer and prices steadied up rapidly and at the end of the first half hour the market stood only 42 to 57 points under yesterday's close.

Want to Educate Mexican Laborers Needed in Fields

AUSTIN, TEX., Sept. 14.—An appeal was made today by Adjutant General Harley to the State council of defense "to enter into a campaign for the enlightenment of the Mexican laboring classes" in Texas to check the exodus of Mexican laborers who are sadly needed in the Texas cotton fields.

General Harley suggests to O. E. Dunlap, chairman of the council, to instruct the different county councils in western and southwestern Texas to wage the campaign. "Speakers should go among these people and acquaint them with rights they have as citizens of a foreign country and of the good faith of the American government in dealing with aliens," says General Harley.

ACTIVITIES IN THE OIL FIELDS

A review of the drilling operations and completions in the north Texas field for the past week shows activity about normal, with however only a few completions. Among the most interesting events of the week was the shooting of the old well of the Gulf Production Co. on Grant farm, near Iowa Park, which has been previously reported. This well is now making around 100 barrels an hour, though it was only a small producer before the shot was administered.

On the Culbertson lease, Burnett ranch, the Four Six Oil Company has a good well in its No. 4, which Saturday was reported swabbing 300 barrels.

The completions in the new Burk Burnett pool, in and around the town site have already been published as they occurred. A review of the completions in the other pools follows:

At Electra there were three new wells reported: the Magnolia Petroleum Company's Francis Sumner No. 23, 50 barrels at 1954 to 1960 feet; the Texas Company's Buckley No. 52, 35 barrels at 1697 feet; and Forbes Nelson and Patterson's well on the Burnett section 2, 25 barrels at 801 feet.

The Texas Company's Wagoner 130, 131 and 14, and the same company's Skinner No. 18 are to be abandoned, it is reported. The Kemp Ferris M. A. Eads No. 2, and the H. Ballard Steiman No. 2 are to be abandoned because of a jammed hole.

In the Electra district six new locations were reported, all by the Texas Company on their Skinner, Wagoner and Honaker leases. Twenty-four new rigs are up, ready to commence drilling.

In the old Burk Burnett field there were several completions. W. W. Silk's Birk No. 7 is reported swabbing 50 barrels, the Ruyie Farm Oil Company Ruyie No. 18, on the sand at 1630, is reported flowing 800 barrels. The Panhandle Refining Company's Heiserman No. 10 is reported swabbing 30 barrels at 1665 feet. In the shallow field, the Quannah Oil Company's Roller No. 17 and 18 are reported good for 8 barrels each and the Texoma Oil Company's Evans No. 4, is pumping 2 barrels. The Magnolia Petroleum Company's Serrien No. 2 is reported making 45 barrels at 1710 feet. Another completion, this time in the shallow field, is the Whole Oil Company's Daniels 15, 8 barrels at 453 feet.

There were no completions reported in Holliday. Kozard et al's Ferguson No. 1 is now 630 feet down. A good showing of oil was found at 540-543 it is reported. There are six wells in process of drilling in this field.

At Petrolia the Prime Oil and Gas Company's Johnson No. 1 has been brought in, and is pumping 20 barrels. The Henrietta Oil and Gas

The Vindicator Oil Co. on one of the outer lots in Burk Burnett is setting the casing in cement on top of the stand preparatory to drilling in.

Couch and Winfrey have set the casing in their well in Burk Burnett and will drill in a day or two.

The L. P. Hammond No. 1 is reported flowing 300 barrels daily. The Mer 514 and Willis well is swabbing 65 barrels an hour.

The Willis well well is reported flowing 1800 barrels daily.

Staley, Langford and Chenault have put a star rig over their No. 1 and are drilling deeper.

Powder No. 1 is reported to be making 1200 barrels daily.

Staley, Langford and Chenault are drilling at 1125 feet in the north half of Block 21.

Some of the companies are complying with this provision. As a further protection, arrangements are being made for the purchase of additional fire fighting apparatus, and it is proposed to at once organize an adequate fire department.

J. W. Donohoo has been employed as special fire marshal and sanitary officer to devote his entire time to the work in this connection. It is announced that he is to be notified of the proposed completion of a well and is expected to be present to see that all fires in the immediate vicinity have been extinguished, including the closing down of all drilling activity during such time.

A telegram has been sent to the State Fire Marshall requesting that he come to Burk Burnett and oversee the situation with a view to making suggestions that will be of value in carrying out the program outlined by the city authorities. It is expected that the recommendations he shall make will be of material benefit in minimizing the fire danger incident to the further development of the field.

Public citizenship is earnestly cooperating with the city council in these matters and splendid results are expected both in the matter of protecting the city against fire and in improving the sanitary conditions here.

A number of the insurance companies have ordered their Burk Burnett policies cancelled and premiums refunded, and payment of refunds was in progress Saturday.

TWO DEEP TESTS TO BE MADE IN ARCHER COUNTY

Two more deep tests are to be made in Archer county. The Humble Oil Company is drilling on the Will Taylor tract west of Holliday and is prepared to make a thorough test of that section. W. W. Silk, Orville Bullington, J. Fred Smith and W. S. Langford have a standard rig starting on the Scott land in Archer county near the point where the county lines of Clay, Archer and Jack counties meet. Geologists say that the Pennsylvanian and Permian formations meet in that vicinity and the territory has had favorable reports by several geologists.

The Wichita company is making progress on its test southeast of Archer City.

COMPLAINT MADE REGARDING SALE OF FRESH MEATS

COMES IN FORM OF AN ANONYMOUS COMMUNICATION FROM BURKBURNETT.

SELL FROM OPEN CAR

Such Practice Is in Violation of the State Law, Mrs. Smock Explains to Public.

For the second time within a week the Wichita Falls Department of Food and Dairy Inspection has had an anonymous communication regarding conditions alleged to be existing in violation of the pure food ordinance. This time the letter to Mrs. T. B. Smock, the inspector, comes from Burk Burnett and is signed "A Citizen." It makes a complaint concerning alleged practices of peddling meat in an open car at Burk Burnett.

Mrs. Smock has asked that her statement that communications must be signed, if an investigation is to be made and any good is to come of the complaint be repeated with emphasis. No anonymous charges should be considered, and complaints made or charges preferred in this manner do not give the department any means of ascertaining the truth of charges. The letter follows:

Burkburnett, Texas. Mrs. Smock, Wichita Falls. I thought that I would write to you for information in regards to the handling of fresh meats. There is a party here having meat shipped from Wichita Falls and peddling it over town in an open car, exposed to the dust, flies and heat, which in my estimation, is strictly against the pure food and sanitary rules of the state. As this is in your district please investigate. A CITIZEN.

Plans to Conserve Supply of Gasoline By Closing Early

In view of a possible gasoline "famine," a movement has been inaugurated here to conserve the supply and an effort will be made to secure the cooperation of all the dealers in the plan, which provides for the closing of all stations during the entire day Sunday and on week days after 7 o'clock p. m.

Discussing the matter Saturday, L. L. Boardman, manager for the Magnolia company, stated that he favored such a plan and hoped that other dealers would voluntarily agree to aid in the conservation movement, as had been requested by the fuel administration. Mr. Boardman favors opening the stations at 6 in the morning and closing at 7 p. m. on week days and to remain closed from Saturday night at 10 o'clock until Monday morning at six. In this way, he explained, gasoline would not only be conserved but that the men would have more rest, fewer men would be required to carry on the business with a consequent saving in man power.

Mr. Boardman added that the indicated early consumption of the available supply of gasoline would render it necessary for the government to soon limit the supply to a customer, and suggested that it would show a spirit of patriotism and cooperation to contemplate such a possibility and meet the situation in advance of further government regulation. It is expected that some action will be taken by the dealers during this week looking to an arrangement of hours for the retail sale to consumers.

Announcement. I wish to announce to the public that I have severed my connections with the law firm of Carrigan, Montgomery & Britton of this city with whom I have been associated for the past four years and have opened my law office at Room No. 318, Keen & Kell building and will be glad to have my friends call on me. Respectfully Fletcher B. Jones, District Attorney for the 30th Judicial District of Texas. 107-11c

CONSTRUCTION OF NEW BUILDINGS IS NOT ALLOWED

UNNECESSARY REPAIRS ALSO PROHIBITED BY RULING OF COUNCIL OF DEFENSE.

No new buildings may be erected in Wichita Falls and no unnecessary repairs will be permitted nor new work allowed to start, according to information received by T. R. T. Orth, chairman of the Wichita County Council of Defense. Work already under way will be allowed to proceed to completion.

The purpose of the new order is to conserve materials and release labor for essential industries. The policy of restricting building operations was adopted by the War Industries Board several weeks ago and the administration of the order has been turned over to the State Council of Defense. The enforcement of the order here is in the hands of the county council of defense. Mr. Orth, chairman of the local council, telegraphed to the State Council Saturday morning for definite information and Saturday afternoon received the following telegram:

"San Antonio, Tex., Sept. 14, 1918. Wichita Falls Council of Defense. Have been advised that all work already under way will be allowed to proceed to completion. Repairs that are necessary will be allowed. No unnecessary repairs or work not started will be allowed. This is the only information at this time. J. F. CARL, Secretary, State Council of Defense."

A petition has been formulated asking that the restrictions be relaxed in the case of Wichita Falls. The great need of more dwellings here is pointed out. The fact that there is a surplus of labor on account of the drought stricken conditions in this section is also set forth with the fact that building operations would be a boon to those who are flocking here for relief. Whether this petition would be circulated or not could not be stated last night.

AGREE TO MAKE NEW SURVEY OF WICHITA RIVER

A new survey of the Big Wichita river has been practically decided upon by the committee appointed at the mass meeting last week on the Big Wichita irrigation project, and the preliminary details will have been worked out by the time the government authorities have acted on the approval of the project.

"We are going to be prepared to go ahead with the project without delay when the government gives its approval," said J. A. Kemp yesterday. Mr. Kemp has been named president of the preliminary organization for the project.

The committee appointed at the mass meeting to secure subscriptions to the fund to make the surveys and to carry the project to Washington reported favorable progress Saturday. There are a number of persons, however, whom the committee has not yet seen, and it expects to complete its work this week.

GERMAN INTRIGUE IN RUSSIA EXPOSED

(Continued from page 1, first section.)

spies upon the embassies of Russia's allies, as officers in the Russian army and as directors of the Bolshevik military foreign and domestic policy.

They show in short that the present Bolshevik government is not a Russian government at all, but a German government, acting solely in the interests of Germany and betraying the Russian people, as it betrays Russia's natural allies for the benefit of the German imperial government alone.

And they show also that the Bolshevik leaders, for the same German imperial ends, have equally betrayed the working classes of Russia, whom they pretend to represent.

The documents are seventy in number. Many of originals, annotated by Bolshevik officials. The balance of the others are photographs of originals showing annotations, and corroborate a third set of typewritten circulars (see appendix later) of which only two originals are possessed, but all of which fit perfectly into the whole pattern of German intrigue and German guilt.

The first document is a photograph of a report made to the Bolshevik leaders by two of their assistants informing them that, in accordance with their instructions, there had been removed from archives of the Russian ministry of justice the order of the German imperial bank "allowing money to Comrades Lenin, Trotsky and others" for the propaganda for peace in Russia; and that at the same time "all the books" of a bank to Lenin, had been "audited" to conceal the payment of money to Lenin, Trotsky and their associates by order of the German imperial bank.

Endorsed by Lenin. This report is endorsed by Lenin with his initials for deposit in "the secret department" of the Bolshevik files. And the authenticity of the report is supported by document No. 2, which is the original of a report sent by a German general staff representative to the Bolshevik leaders warning them that he has just arrested an agent who had in his possession the original order of the German imperial bank referred to in Document No. 1, and pointing out that evidently "at the proper time steps were not taken to destroy the above-mentioned document."

Document No. 3 is the protocol signed by several Bolshevik leaders and dated Nov. 2, 1917, showing that "on instructions of the representatives of the German general staff in Petrograd" and "with the consent of the people's commissars" of which Trotsky and Lenin were the heads, two incriminating German circulars had also been taken from the department of secret service of the Petrograd district and given to the secret service department of the German general staff in Petrograd. On the bottom of the protocol the German adjutant acknowledges receipt of the two incriminating circulars with his own signature. And to complete the evidence the circulars are themselves penciled with the cipher signature of the head of the German secret service bureau.

Circulars Are Destroyed. These two circulars apparently had been obtained by some Russian agent in Germany and transmitted to Russia. The German general staff evidently wished to get them back in order to destroy them. By the order of the German general staff and with the consent of Lenin and Trotsky they are turned over to the Germans to be destroyed. Why? Because they are conclusive proof that on June 9, 1914 the German government was preparing for war several weeks before the assassination of the Austrian archduke, which was made the pretext for war.

One circular is an order from the German general staff, dated June 9, 1914, informing "all industrial concerns" in Germany to open the sealed envelopes containing their industrial mobilization plans and registration forms so that they might be prepared for the war for which the excuse had not been found.

The second circular is an order from the German general staff of the high sea fleet, dated Nov. 28, 1914, calling for the mobilization of all destructive agents and observers in the United States and Canada for the purpose of preventing the sailing of ships from American ports to Russia, France and England. The order calls for explosions, strikes, delays, embroilments and difficulties, and it recommends the employment of anarchists and escaped criminals for the purpose.

Proofs of German Conspiracy. It is these damning proofs of a German conspiracy against the nations of Europe in June, 1914, and against the United States in November, 1914—it is shown that Lenin and Trotsky surrendered to the German secret service in Petrograd on order of the representatives of the German general staff in Petrograd. And they surrendered them in conformity with a working agreement with the Bolshevik leaders and the German general staff, of which agreement a photograph is included in the series as document No. 5.

It is dated October 1917. It is from a division of the German general staff. It is addressed to the Council of the People's Commissars, of which Lenin and Trotsky were the heads.

In accordance with the agreement which took place in Kronstadt in July of the present year, between officials of our general staff and leaders of the Russian revolutionary army and

democracy. Messrs. Lenin and Trotsky, Krasinsky and Bybenko, the Russian division of our general staff, operating in Finland, is ordering Petrograd officers for the disposal of the information department of the staff.

Among the officers named are Major Laberts, whose cipher signature is given as it appears on the mentioned above, (Document No. 3) and Lieut. Hartwig, whose cipher signature is given as it appears on the cipher for the two circulars. And an endorsement on this letter from the German general staff records that the German officers assigned to Petrograd had appeared before the military revolutionary committee and had agreed on conditions with regard to their mutual activities.

What the mutual activities were to be is sufficiently indicated by Document No. 7 which is a photograph of a letter signed in cipher by the Major Laberts and his adjutant, Lieut. Hartwig. They notify the Bolshevik leaders on Jan. 12, 1918, that by order of the German general staff the German intelligence section has informed us of the names and characteristics of the main candidates for election to the Russian Bolshevik central executive committee. It is to be noted that the German general staff orders us to insist on the election of the following people: They add a list of Russian leaders satisfactory to the German general staff. The list is headed by Trotsky and Lenin. They were also the rest of the present Bolshevik executive were chosen from the same German list.

Document No. 28 gives evidence of the quid pro quo. It is a photograph of a letter from the president of the German Imperial Bank to the Bolshevik commissar of foreign affairs. It is marked "very secret" and dated Jan. 6, 1918. It says:

"Information has today been received by me from Stockholm that fifty million rubles of gold has been transferred to be put at the disposal of the People's Commissars, which is the title of the Bolshevik leaders. This credit," the letter continues, "has been supplied to the Russian government in order to cover the cost of the keep of the Red Guards (the Bolshevik revolutionary troops) and agitators in the country. The Imperial Government considers it appropriate to remind the Soviet of People's Commissars of the necessity of increasing propaganda in the country as the antagonistic attitude of the South of Russia and Siberia to the existing (Russian) government is troubling the German government."

More Money Furnished.

Four days later the same president of the German Imperial Bank sent another letter to the Bolshevik commissar to provide for the sending of a Russian revolutionary leader to Valdivostok to get possession of the Japanese and American mail "material" at that port and if necessary to destroy them. A photograph of this letter is given as document No. 9.

There were earlier payments, but probably none later than these. None was necessary. By this time the loot of an empire lay open to the Bolshevik and the German government.

Most significant of all are two photographs of further communications from the German Imperial Bank given as documents Nos. 10 and 11. One is a letter addressed to the chairman of the Council of People's Commissars, and the other is the resolution of conference of representatives of the German commercial banks received by the chairman of the Bolshevik central executive committee and endorsed by his secretary. Together they give a complete synopsis of the terms on which Germany intends to have control of all Russian industries.

For five years from the signing of peace, English, French and American capital in Russia is to be banished and not be allowed in the following industries: Coal, metal, machine building, oil, chemical and pharmaceutical. These industries are to be developed under the control of a supreme advisory organ consisting of ten Russian industrial organizations and the German specialists, ten from German industrial organizations and the German and Austrian banks. Germany and Austria are to enjoy the unlimited privilege of sending mechanics and qualified workmen into Russia. All other foreign mechanics and workmen are not to be allowed to enter at all for five years after the conclusion of peace between Russia and Germany.

Private banks in Russia arise only with the consent of the union of German and Austrian banks. And so forth.

Conspiracy Indorsed.

And this conspiracy between German imperial capitalism and the pretended Russian Reds is indorsed by a Bolshevik leader, with the recommendation that it should be taken under advisement and "the ground prepared in the Soviet of the Workers and Soldiers' Deputies in case the Council of People's Commissars will not accede to these requests."

Various details of the conspiracy between the Bolshevik leaders and the German general staff are exposed in document 16 and document 29. These are photographs of letters which passed between the Bolshevik leaders and the German general staff or the German officers in Russia. Document 21 shows that on Nov. 3, 1917, when Russia was still regarded as an ally of Great Britain, France and America, the German general staff was having the honor to request the Bolshevik leaders to inform it at the earliest possible moment concerning the quantity and storage place of the supplies that have been received from America, England and

France, and with the units which are keeping guard over the stores."

Document 19 shows the German general staff requiring the Bolshevik leaders to send agitators to the camps of the Russian prisoners of war in Germany, in groups that they might procure spies to work among the English and French troops and to further "poison propaganda." And this is proposed by the German general staff as being "according to the negotiations between the Russian and German legations at Great-Litovsk."

To Secret Agents.

In document 22 the Bolshevik leaders and the German general staff send agents, agitators and agent structures out of Valdivostok to ports of the United States, Japan and British colonies and Eastern Asia.

In document 16 Trotsky is providing fraudulent passports for German officers who are going to England, France and to America as spies and money agents. And document 17 shows Trotsky, urging a similar proposal to be granted by the German general staff.

Three German submarines are to be sent to the Pacific on the Trans-Siberian railway by orders of the German general staff. Document No. 23. Lists of German and Russian spies watching the British, French and American embassies in Petrograd are given in Document No. 25. Finally in document No. 15 the Bolshevik are warned that information concerning "connection of German government with the Bolshevik work" has been leaked out and that Russian troops are hearing of it.

Let us be given to show how the Bolshevik leaders and the German officers arranged for the assassination of Russian nationalist leaders (Documents 35, 39 and 52); for the destruction of the Polish legionaries in the Russian army (Document 42); for the disorganization of the Rumanian army and the deposing of the Rumanian king (Document No. 37); for the substitution of officers satisfied by Germany in command of Russian troops instead of patriotic Russian generals (Documents 31 and 32); for the suppression of patriotic agitation among the Russian soldiers (Documents 12 and 14); for an attack upon the Italian ambassador in Petrograd and the theft of his papers (Documents 26 and 27); and for the employment of German soldiers in Russian uniforms against the Russian national armies in south (Document 30).

Obey German Orders.

Several of the letters are indorsed by Trotsky. Even standing alone they are complete proof that the Bolshevik were ruling as German agents in Russia and obeying German orders to act against all Germany's enemies, and even against Russia itself.

Moreover, Laese Bolshevik leaders acted as German agents by supplying their own Socialist revolution in the Russian provinces where their doctrines interfered with the German plans of annexation. Document 46 is the original letter from the Petrograd department of the German general staff addressed to the Bolshevik commissar of foreign affairs. It reads:

According to instructions of the representative of our general staff, I have the honor once more to insist that you reveal from Latvia and Courland all agitators of the central executive committee of the Soviet of Workers and Soldiers' Deputies. And in document 47, the general staff orders the Bolshevik to cease the agitation in Estonia which had finally led to the German landlords being declared outlawed and to take immediate steps for the restoring of the rights of the above mentioned German landlords.

Another group of letters (Nos. 32 and 33) shows how the Germans cheated the Bolshevik leaders in their dealings with the Ukraine and made a separate German peace with the anti-Bolshevik leaders in that Russian province. And another group shows the Germans assisting both sides of the civil war in Finland (documents 28, 43 and 53).

The documents as they follow are given in the report form in which they were transmitted by Mr. Sisson to Mr. Cressel, chairman of the committee with some later data added and carefully indicated.

For instance Mr. Sisson did not learn until several weeks after he had left Russia that the German order (which he possessed) naming the Russian who was to "defend" Petrograd had been obeyed.

Report by Edgar Sisson.

(Installation, One)

Introduction and Documents One to Seven:

Three groups of documents are subjected to internal analysis in the material that follows. One group consists of originals, one group consists of photographs of documents believed still to be in the file rooms of the Russian Bolshevik; and the third (the appendix) to the first installment, of typewritten circulars that have not been traced to their originals except in the case of two of the number. The chief importance of the third group is that its appearance inspired the efforts that led to the uncovering of the other groups. And they fit into the fabric of the whole. The first set of these appendix circulars came into my hands February 2 in Petrograd. An additional set appeared the following day at an office where I frequently called. A third appeared in another quarter a day afterward. One set was in Russian and two in English. On February 5, I held all three sets. A possible explanation for their appearance at this time and their intent is given in the appendix.

By themselves they were plausible but not substantiated. Having first performed the obvious duty of analyzing

them for surface values and transmitting them and the analysis to Washington, I turned therefore, to the task of further investigation.

It is not yet possible to name those who helped, but in two weeks' time the judgment of facts became apparent.

The material is presented in its report form, with the addition of some later data. For instance, I was not able to learn until several weeks after I left Russia that the German order (which I possessed) naming the Russian who was to "defend" Petrograd had been obeyed.

The text of the documents disclosed both the methods and the effects of the German conspiracy, not alone against Russia but the world. With each document is the indication of whether it is an original or photograph. With each document is an interpretative note.

Document No. 1.

(Very Secret)

People's Commissary for Foreign Affairs, Petrograd, Nov. 6, 1917.

To the Chairman of the Council of People's Commissars:

In accordance with the resolution passed by the conference of People's Commissars, Comrade Lenin, Trotsky, Podvolsky, Dybenko and Vostokov the followings have been executed by us:

1. In the archives of the ministry of justice from the dossier re "treason" of Comrades Lenin, Zinoviev, Vostokov, Kollontai and others, has been removed the order of the German Imperial Bank No. 433 of the second of March, 1917 for allowing money to Comrades Lenin, Zinoviev, Kamenef, Trotsky, Sumenson, Voslovsky, and others for the propaganda of peace in Russia.

2. There have been audited all the banks of the Nya Bank at Stockholm containing the accounts of Comrades Lenin, Trotsky, Zinoviev and others, which were opened by the order of the German Imperial Bank No. 274. These books have been delivered to Comrade Muller, who was sent from Berlin.

Authorized by the Commissioner for Foreign Affairs,

F. ZATKIN E. POLOVINOFF

Note—The Russian Council of People's Commissars was dominated by the president, Vladimir Ullanov (Lening); the then foreign minister; Leon Trotsky now war minister; and the ambassador to Germany, A. Joffe. The marginal indorsement in writing is "To the secret department B. U." This is the fashion in which Lenin is accustomed to initial himself. The English equivalent would be "V. N." for Vladimir Ullanov. So even if there existed no further record of German Imperial Bank order No. 7133 here would be the proof of its contents, and here is the link connecting Lenin directly with his action and his guilt. The content matter of the circular exists, however and herewith follows:

Order of the second of March, 1917 of the Imperial Bank for the representatives of all German banks in Sweden.

Notice is hereby given that requisition for money for the purpose of peace propaganda in Russia will be received through Finland. These requisitions will emanate from the following: Lenin, Zinoviev, Kamenef, Trotsky, Sumenson, Kozlovsky, Kollontai, Civers and Merkalin, accounts for whom have been opened in accordance with our order No. 274 of the agencies of private German businesses in Sweden, Norway and in

Switzerland. All these requests should bear one of the following signatures: Dshau or Milkenberg. With either of these signatures the requests of the above mentioned persons should be complied with without delay. 7433 Imperial Bank.

I have no copy of this circular nor photograph of it, but Document No. 2, next in order, proves its authenticity at once curiously and absolutely. Particular interest attaches to this circular because of Bolshevik public denial of its existence. It was one of several German circulars published in Paris in the Petite Parisienne last winter. The Petrograd Bolshevik papers proclaimed it a falsehood. Zalkind, whose signature appears not only here, but on the protocol, was an assistant foreign minister. He was sent in February on a mission outside of Russia. He was in Christiania in April when I was there. Have photograph of the letter.

No. 6451 Secret.

February 12.

The secret service department has the honor to inform you that there were found on the arrested Captain Koshin two German documents with notations and stamps of the Petersburg secret police which show themselves to be the original orders of the Imperial Bank No. 7433, March 2, 1917 concerning the opening of accounts for Messrs. Lenin, Sumenson, Trotsky and others active in working on the peace propaganda, by order No. 274 of the Imperial Bank.

These discoveries show that at the proper time steps were not taken to destroy the above mentioned documents.

For the head of the department, R. Bauer, adjutant, Bukholm.

Note—Observe thoughtfulness with

which Bauer, a careful man set down exactly what was in the documents, thereby causing contents to rise again from the ashes to which perhaps he committed the damaging paper. He admits the documents found were truthful originals. The world will thank him and Germany will not.

I have the original letter. It bears marginal indorsements "Referred to the Commission for Fighting Counter Revolution, Demanded documents M Skirink and an illegible communit by N. Gorbunov, Lenin's other government secretary. The letter is direct-

ed to Lenine. Did Skirpnik get the documents? I do not know.

The letter is remarkable otherwise, for the arrested Captain Konehin mentioned is German officer, Lieutenant Otto who appears elsewhere as an agent in the German double-crossing intrigue in the Ukraine. What was behind the mystery of his arrest? What was his fate?

PROTOCOL

This protocol, written by us on the 2nd of November, 1917, in duplicate with the consent of the Council of Peoples' Commissars, is taken from the department of secret service of the Petrograd district and the former department of police (Okrana) on instructions of the representatives of the German general staff in Petrograd.

1—Circular of the German general staff No. 421, dated June 9, 1914, concerning the immediate mobilization of all industrial enterprises in Germany and.

2—Circular No. 93, dated November 28, 1914, of the general staff of the high sea fleet concerning the sending into enemy countries of special agents for the destruction of war supplies and materials.

The above noted circulars were given over under signed receipt into the secret service department of the German staff in Petersburg.

Authorized by the Council of Peoples' Commissars.

F. Zalkind, E. Polivanoff (illegible, but may be Mekhanoshin), A. Joffe.

The circulars Nos. 421 and 93 mentioned in this protocol, and also one copy of this protocol were received on the 3rd of November, 1917, by the secret service department of the German general staff in Petrograd.

For the head of the department: M. Wael.

Note: The world penalty, therefore, was applied to some Germans. Of the personalities named in the letter, Scheidemann, the leader of the German government supporting wing of the Socialist party, is most notable. Since before he has been named in relation of the "business relations" of the Russian Bolsheviks with the imperial government, writing a letter from Berlin August 25, 1917, to a "Mr. Oldberg," in which he stated that 150,000 kroners had been placed at Oldberg's disposal at Fuerstenberg's office through the Nix bank (Document No. 18). Now Fuerstenberg by this time, January, in Petrograd at Cmolny is trying to help Scheidemann in covering up old trails. Padek is a clever Polish Austrian Jew, who came from Switzerland with Lenine. He and Trotsky between them staged the public play acting at Brest-Litovsk. Von Scheidemann was the accredited German representative to the Bolshevik foreign office. He is named later in Document No. 5. Parvus is a handler of German propaganda money with headquarters at Copenhagen and is credited with being the directing force behind Joffe. Secret Department No. 31

To the Council of Peoples' Commissars: In accordance with the agreement which took place in Kronstadt in July of present year between officials of our general staff and leaders of the Russian revolutionary army and democracy, Messrs. Lenine, Trotsky, Raskolnikov and Dybenko, the Russian division of our general staff operating in Finland is ordering to

designated purpose will be placed at your disposal at your request. Nachrichten bureau of the General Staff of the High Sea Fleet, Boening.

Note: Both the circulars bear the pencilled notation that the German secret bureau at Petrograd has received them. (Signed) Agaster was the cipher signature of Major Luterer, head of the bureau, as will be shown in Document No. 5. The German interest here was to remove from the records of the old Russian government the evidence, first, that Germany was beginning in June, 1914, its active preparations for the war that surprised the world in August, 1914, and second, to remove the evidence of its responsibility for incendiarism and explosions in the United States, a country with whom Germany was at peace. The result was to give new evidence of the truth of the charges.

Have original of protocol and have the printed circulars.

Document No. 4.
(G. G. S. Nachrichten-Bureau, Section R, No. 35, Petrograd, January 17, 1918.)

To the Commissar of Foreign Affairs: The section has received exact information that the leaders of the Socialist party now ruling in Russia, through Messrs. Fuerstenberg and Padek, are in correspondence with Messrs. Scheidemann and Parvus regarding the destruction of the places of the business relations of the party with the imperial government. We also know that this demand was authorized by the demand of the leading groups of German Socialists who saw in the said communications a danger to the cause of world Socialism. By order of the staff, I have the honor to request the submitting of this question to special discussion in the presence of the representative of our staff and Mr. Von Schoenemann.

For the head of the department: M. Wael.

Note: The world penalty, therefore, was applied to some Germans. Of the personalities named in the letter, Scheidemann, the leader of the German government supporting wing of the Socialist party, is most notable. Secret Department No. 31

To the Council of Peoples' Commissars: In accordance with the agreement which took place in Kronstadt in July of present year between officials of our general staff and leaders of the Russian revolutionary army and democracy, Messrs. Lenine, Trotsky, Raskolnikov and Dybenko, the Russian division of our general staff operating in Finland is ordering to

Petrograd officers for the disposal of the information department of the staff. At the head of the Petrograd division will be the following officers, who use the Russian language perfectly and who are acquainted with Russian conditions:

Major Luberts, cipher signature AGASPER.

Major Von Boelke, cipher signature SCOTT.

Major Bayermeister, cipher signature HENRICH.

Lieutenant Hartwig, cipher signature HENRICH.

The espionage department in accordance with the agreement with Messrs. Lenine, Trotsky and Zeno (left), will have the surveillance of the foreign embassies and the military missions and on the counter revolutionary movement and also will perform the espionage and counter-espionage work on the internal fronts, for which purpose agents will be assigned to the espionage cities. Confidentially it is announced that the disposal of the government of Peoples' Commissars are assigned consultants to the ministry of foreign affairs, Mr. Von Schoenemann, and to the ministry of finance, Mr. Von Toll, chief of the Russian division, German general staff, O. Ratsch, adjutant, U. Wolff, (Below on the same letter).

To the commissariat on foreign affairs: The officers indicated in this paper have been before the military

revolutionary committee, and have agreed on conditions with Muravoff, Solo and Danishevski with regard to their mutual activities. They have all come under the direction of the committee. The consultants will appear as called for. Chairman revolutionary committee, Council of Workers and Soldiers' Deputies, A. Joffe, secretary, P. Krushavitch.

Note: Here is the working compact if Rauch was in Berlin he presumably came immediately afterward to Petrograd. It is more probable that the letter was written in Finland than Berlin on some other letter head on which Berlin is printed the word is run through with a pen. Stationary was hard to get in Petrograd. Major Luberts became the head of the information or intelligence bureau, (Nachrichten Bureau). Kronstadt was the midsummer headquarters of Lenine. Raskolnikov has been referred to in connection with the project to sell the Russian fleet to Germany. Dybenko was the commissar of the fleet, the highest minister, a driving man and keen-witted. Kinovitch is the president of the Petrograd soviet, during the winter the most powerful of the local bodies of the Russian soviet, he is Jewish and well educated, Joffe, in the letter of Bolshevik acceptance of the German compact again stands forth for whom he is, the spokesman, after Lenine, in all matters of supreme im-

Wichita Falls Will Double in Population After the Big Irrigation Dam is Built

I want to sell off my residence property on Lamas St. between 11th and 12th streets upon which property I built the houses described below. All of my houses, including my old home at number 1105 Lamar, are built out of first class material, and are large and roomy. Considering the cost of building and possibilities of close-in property in Wichita Falls, the prices are low and terms reasonable. I own the entire half block between 11th and 12th and would prefer to sell to one party as an investment, in which case I will make a more attractive price if sold all together.

PROPERTY NO. 1.—1101 Lamar. Corner lot 70x150 feet, has two houses, one facing 11th street. House on front of lot is new modern five room house and bath, large rooms, in first class condition; house on same lot facing 11th street has five rooms modern in first class condition. Market Report

Cotton Market

NEW YORK, Sept. 14.—There was excited general selling and very decided buying at the opening of the cotton market this morning. President Wilson's statement regarding the intentions of the proposed war industry board's investigation of cotton conditions evidently had a very unsettling effect on sentiment, and the violent fluctuations were regarded as reflecting a rush to even up commitments. The opening was a decline of 100 to 125 points with October selling at 32.05 and January at 32.05 and January 32.15 on the call and about 1/4 cent a pound below the price of the lowest priced cotton. The market was active and general but there was heavy covering at the decline which was followed by rallies of 50 to 75 points shortly after the call. Owing to the excitement over the price fixing proposition, the trade paid very little attention to the report of the census bureau showing domestic mill consumption of 435,491 bales for the month of August.

The market showed continued activity and excitement late in the morning but the lowest prices of the day were made on the break and later fluctuations were irregular. After selling at 32.05, October rallied to 32.75 and closed at 32.50 and January recovered from 32.15 to 32.90 and closed at 32.50. The general list closed barely steady at a net decline of 85 to 133 points.

Cotton closed barely steady.

New Orleans Cotton.
NEW ORLEANS, Sept. 14.—A wild and excited opening in the cotton market resulted today from the announcement by President Wilson that if found necessary the price of cotton would be fixed. On the first call eight minutes later the trading months broke 227 to 235 points. The rig was swamped with offerings which found no buyers and the widest drop on record resulted.

After the initial break a calmer feeling prevailed and prices steadied up rapidly, covering at the end of the first half hour of trading 132 to 193 points from the lowest. At this level the market stood only 42 to 77 points under yesterday's close.

The tone turned soft again and the market fell off but in a rather leisurely way. Toward the end of the session prices were 104 to 111 points under the close of yesterday.

Cotton closed steady at a decline of 110 to 112 points.

New York Stocks

NEW YORK, Sept. 14.—Substantial advances in both standard and speculative issues in today's stock market reflected realization of forecasts that a better monetary situation would terminate the speculative selling which has featured the week's trading. The ready response to moderate buying indicated that many of the popular shares has been heavily overbid during the recent break in prices. Investment buying was a factor in stimulating a varied demand for both accounts.

Seasoned dividend paying stocks of investment grade scored average advances of a point, while the more speculative issues jumped 2 to 4 points. Extensive buying of Liberty bonds at marked improvement contributed to the more confident feeling expressed. The closing was strong. Sales approximated 200,000 shares.

A firmer tendency in the stock market at the opening today apparently confirmed opinion expressed in many quarters that the recent liquidation by the holders of speculative stocks had about run its course. Standard issues, including U. S. Steel, Canadian Pacific, Southern Pacific and Reading were higher by substantial

SERIAL NUMBERS 124 REGISTRANTS GIVEN BY BOARD

WORK OF ASSIGNING NUMBERS IS BEGUN BY LOCAL EXEMPTION BOARD.

MUCH WORK NOW AHEAD

is But the Beginning of Duties Involved in Classifying New Registrants.

Work of assigning serial numbers to the new registrants has begun by the Wichita County Draft Board. This is just the beginning of the board's work toward classifying the men and preparing to call them. The dividing into different classes as regards age and the classifying, when the questionnaires are sent out are other steps which must come, before the new draft is made available for call.

TEACHING CHILDREN

The work of teaching little children is generally considered an elementary matter, and it is too often committed to teachers of limited experience; but nowhere is greater teaching power required, and above all, a delicate appreciation of the child's nature. The child is so plastic that any blundering done now will be more disastrous than it would be at any later time. Select the best teacher to be had for your child just beginning. Its future musicianship is either made or marred in the first lessons.

NEW BOOKS FOR PUBLIC LIBRARY

LITERATURE TO INTEREST OLD AND YOUNG ADDED DURING THE PAST WEEK.

Literary criticisms, studies of natural history, special books for boys and stories for old and young are included in the list of new books received at the Kemp public library the past week. Studies of American literature and its makers, as well as discussions of general literature are to be found along with a number of works on practical life. Nature world is opened to the childish mind in a number of splendid works, while stories of old myths and legends, as well as tales of the exploits of Daniel Boone, "Yankee Ships and Yankee Sailors," and the adventures of modern youth make the list more complete. The new books are:

Stedman, "Nature of Poetry."
Spencer, "Poetical Works."
Bynburne, "Poetical Works."
Brownell, "American Prose Masters."
Stedman, "Poets of America."
Eskine, "Leading American Novelists."
Richardson, "American Literature."
Winter, "Shakespeare's England."

"SPECK" RICHARDS BOUND OVER TO GRAND JURY

"Speck" Richards, arrested at Decatur for alleged conspiracy to transport liquor from Louisiana into Oklahoma, was bound over to the federal grand jury after a hearing before U. S. Commissioner Lantz Friday afternoon. His bond was placed at \$1500. Richards is said to have been a confederate of John Hart's in an alleged whiskey running attempt.

SPLENDID WORK OF THE Y. W. C. A.

Editor of Times:

Daily we are reading and hearing of the frightful physical and mental strains which our men of the allied armies have to endure in this fight for world liberty. To counteract this wear on these men the "Y" has done and is doing much, in providing hostess houses, recreational centers and religious service. These things we know about.

Our Red Cross nurses, together with thousands of French women and girls, who for the first time have been compelled to enter the industrial world are enduring the most grinding hardships. Not only do they have the physical strain, but the heart breaking knowledge of loved ones lost and of country made desolate. Especially do these girls from 18 to 25 who are working within the closed walls of munition factories feel this awful strain. These girls are no longer young. They are old women at twenty-five! What they need is relaxation and recreation. Working ten hours a day under artificial light with out fresh air, constantly expecting an air raid, with no recreation, is it any wonder they come to the breaking point!

The Allied governments are beginning to realize the need of the conservation of their "woman power." To this end the Y. W. C. A. is working. The woman's "Y" in conjunction with the ever faithful and efficient Red Cross is doing for the women over there the same sort of service which has been rendered the men at home. Not only over there, but over here the call is becoming more urgent as our girls and women take the places made vacant in the business and industrial world by our fighting men. Imagine an army of women workers numbering forty or fifty thousand entering one of our important cities. No special preparation having been made, where and how would they be housed? Just such problems are being faced in this country now. The Y. W. C. A. is solving them. A wonderful work is being quietly and unostentatiously accomplished by this organization. Cheerful letters constantly reach workers over here from Y. W. C. A. secretaries over there. Some of these are enclosed, including a copy of one from Monsieur Clemenceau to Mrs. Cushman, president of War Council.

MRS. W. W. SILK, Wichita County Chairman of Y. W. C. A. War Work.

Brassards Suggested As A Substitute For The Usual Mourning

Brassards, made and distributed by the American Red Cross, have been suggested as a substitute for mourning to be worn by members of families bereaved through the war, and the suggestion, coming through the Woman's Committee of the Council of National Defense, has been heartily approved by President Wilson. The following

article on the subject appeared in a recent issue of the "Red Cross Bulletin."

The American Red Cross will provide the mourning brassards to be worn by relatives of men who have given their lives to their country, according to an announcement made by the War Council. These brassards, which are to be used in lieu of general mourning, were suggested and designed by the Woman's Committee of the Council of National Defense, the idea being heartily endorsed by President Wilson in a letter he sent to the Woman's Committee. They will be furnished free to parents or widows of men who have died in the service and at cost to other members of the family.

of the Council of National Defense. An initial supply of the materials for the manufacture of mourning emblems has been purchased by the Red Cross and will be forwarded to the fourteen divisions of the organization for distribution through their chapters. It is expected that the first of the brassards will be ready for distribution about the middle of September. A brief statement accompanying the announcement says:

"In adopting this insignia the woman's committee desired that it should never be commercialized, but that it should always be possible for the members-of the families of those who

have made this supreme sacrifice to prepare for themselves this badge of honor."

Only slight damages resulted from a fire in the six-room bungalow at 1605 Eleventh street about nine o'clock last night, and another at Lee and Fourth streets, in the house belonging to A. J. Chambers about two this afternoon.

Brassards Suggested As A Substitute For The Usual Mourning

The brassard, which is to be worn on the left sleeve, midway between elbow and shoulder, is a band of black broadcloth or other material three inches wide on the surface of which the regulation military star is embroidered in gold thread. The number of stars on the brassard will denote the extent of the sacrifice made by each family.

The brassards will be made and distributed by the chapters of the Red Cross working in conjunction with the local units of the Woman's committee

THE AMERICAN WOMAN HAS NEW IDEALS OF FASHION

Smart Lines

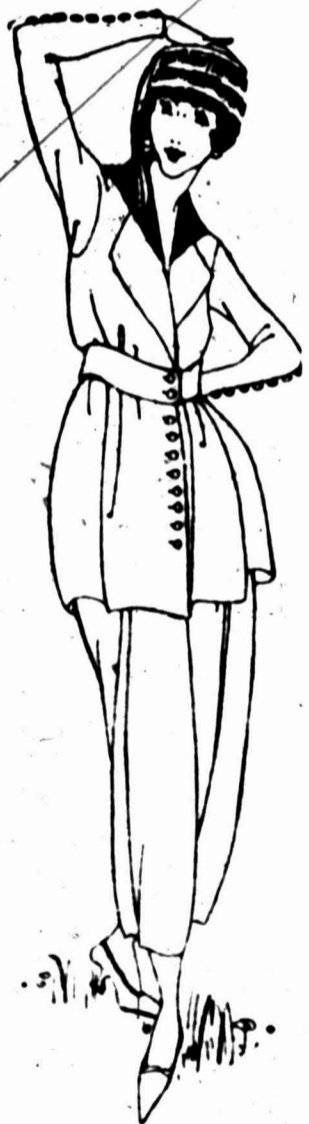

The bright, easily distinguished marks of smart style. Exemplified in these new dresses, now on display in our dress section. Present an appeal to women of irresistible charm. Come in and see them.

Warm Knit Underwear for the Cool Days That Will Soon Be Here.

The way Munsingwear Union Suits fit and cover the form—without gaping at the seat—the manner in which they give and take with every twist of the body and every contraction of the muscles—without binding at the crotch—has been a surprise and delight to millions. No matter what your build, or how hard you are to fit, there's a correct Munsingwear garment for you in any desired style, fabric or weight. For men, women and children.

The busy, "every-minute-taken" life of today has taught the American woman that Fashion can serve. Temporary whims and fancies, make-shift tailoring and materials have no place in the simple and beautiful costume. The coat and suit that the well-dressed woman demands today is a garment of assured style, that is in keeping with whatever the occasion may be. You will find just such garments in our

A Complete Showing of Fall Styles

We have made a special effort this week to have complete selections of new Fall garments, and never before was our showing more interesting.

New Fall Colors

of twilight, maduro, bison, rose taupe, chinchilla, hay, prunella and many others are the smart tones for this season, and each color has been matched in many garments with a harmonizing shade of full silk lining.

Beautiful Women Are Irresistible

Women are admired who are attractive mentally as well as physically. Sweetness and amiability are attractions. Add beauty to these and a woman is irresistible. A correctly designed corset is a healthful corset and MODART Front Laced Corsets enhance a woman's beauty by promoting her general good health, because they are poise designed. Correct poise is conducive to proper breathing, good muscular development and active circulation. These in turn bring good color, clear skin, bright eyes, and the curves that are the charm of a woman's figure. Poise-designing with front lacing make the MODART a corset of health. A trial by our expert corsetiere may be had without obligation and will help you to understand the value of the MODART Corset to your health.

AT THE THEATERS

At the Majestic. Monday—Viola Dana in "Flowers of Dusk." Tuesday—Mae Marsh in "A Glorious Adventure." Wednesday—Marion Davies in "Cellar of the Pink Roses." Thursday—Norma Talmadge in "The Safety Curtain." Friday—Edith Bennett in "The Marriage Ring." Saturday—Mary Miles Minter in "The Ghost of Rose Taylor."

At the Empress. Monday and Tuesday—Stewart Blackton's "Missing." Wednesday—Virginia Pearson in "The Firebrand of France." Thursday and Friday—Annette Kellermann in "A Daughter of the Gods." Saturday—Alice Joyce in "The Highest Bidder."

STUART BLACKTON STARS IN "MISSING" THIS WEEK. J. Stuart Blackton, known as the "Master of Screencraft," producer for Paramount of "Missing," his latest translation to the screen of a popular novel by Mrs. Humphrey Ward, will be displayed at the Empress theater next Monday and Tuesday, declaring that this is probably the most important production of his career. "War means sacrifice," said Commodore Blackton recently, "but it is not always a sacrifice that ends in despair, for, on the contrary, out of the great misfortune of war is often bred the greatest moment in a man or a woman's life. And also, from the ranks of the 'missing' frequently return to their loved ones many who have been mourned as lost. This is the burden of the picture 'Missing,' and, instead of instilling the elements of despair or misery, it portrays the happiness that can come out of sorrow."

RICHARDS IS TO OPEN THE WICHITA THEATER. Richards, hailed as the legitimate successor to the great Lafayette, touring the United States with one of the most elaborate and amazing of modern magical equipments, will open the season at the Wichita theater with a week's engagement, beginning Monday, September 23. With a number of clever assistants and a carload of the most spectacular scenic effects, and with a number of the world's most amazing and spectacular magical achievements at his command, Richards is offering a remarkable program, full of clean comedy, new music and novelty. One of the most striking examples of Richards' power is the astonishing appearance and disappearance of the

It can get so do not disappoint it by staying away and leaving the work to others. You are wanted! Your country is fighting on! Come!—C. M. HEYER, pastor. Lutheran Trinity Church. Sunday, Sept. 15. Regular Sunday school at 10 a. m. Morning service at 11 a. m. Subject of sermon, "Another Jacob's Ladder." The choir will practice after service.—W. UTESCH, pastor. First Methodist Episcopal Church. Corner Seventh and Damar. 9:45. Sunday school with interesting classes for all. 11 a. m. morning worship with sermon. Mr. H. E. Hunter and Mrs. Adah Tietzert will sing a sacred duet. In the series of sermons, "War Time Efficiency," the morning subject is "The Soldier's Consolation." At 2 p. m. the pastor will conduct the catechism class. 7:30 p. m. the Epworth League department service led by the president, Mrs. E. L. Harrison. Special music and lively discussion of the subject

"mystery girl," Miss Crystal Williams, whom he causes to be shot from a huge cannon, to suddenly reappear in the most unusual manner. This, with numerous equally surprising features, go for making Richards' stay at the theater one of the most popular numbers on the theatrical program for the season.

MUSICAL COMEDY AT PLAZA-NEXT WEEK. Monday the Hy Berling's Varsity Maids will open a week's engagement at the Plaza Airround. The company has a "sightly" chorus, Jessie Bunnell, leading, a 110 pound burnt cork artist, and a 220 pound comedian, and Billy Pulling, a wooden shot dance artist. The program will be changed nightly and a picture bill will complement this musical comedy offering.

MISS RUTH ROLAND AT THE GEM MONDAY. "Hands Up," starring Miss Ruth Roland, offered at the Gem Monday, is a western serial and in it Miss Roland has been given a role which suits her personality like a glove. Its plot is novel, dealing as it does with a strange tribe of Southwestern Indians—descendants of the ancient Incas—and a beautiful girl who identifies herself as a princess of their tribe. Miss Roland plays the part of the princess and their efforts to capture her and make her a living sacrifice, and the gallant aid furnished her by a handsome cow-puncher and his friends, form the theme of the story. Nor should the Phantom Rider be forgotten. He is a unique and knightly figure. Time and again he interposes in behalf of the heroine but his identity remains a mystery. American official war pictures will be offered at the Gem Tuesday.

MYRTLE REED'S NOVEL IN PICTURE AT MAJESTIC. "Flowers of Dusk," the charming romantic play, adapted from the novel of the noted authoress, Myrtle Reed, will be the feature Monday at the Majestic theater with the charming little star, Viola Dana, as the heroine. The story shows the beautiful love a young girl has for her blind father, whose "flower of the dusk" she is. To keep him in ignorance of his poverty she does fine needlework and so supplies him with the many little luxuries to which he has always been accustomed. To what lengths the devotion of this little lame girl goes in her love and sacrifice for her beloved father, and of his lasting love for his dead wife, the charming play shows with powerful intensity.

"Christian Stewardship," 8:30 p. m., a patriotic sing-song. Special music. Subject of sermon, "If You Were God, What Changes Would You Make?" Bring your friends to services and a welcome you can't afford to miss. HARRY F. DEKAER, Pastor. First Presbyterian Church. Miss Vreac will sing a solo at the 11 o'clock hour, entitled, "There Is A Hill." The subject of the sermon is "You Never Can Tell," and the title of the song is, "Raise Me, Jesus." Subject of the sermon, "A Rich Display of Jewelry." The hour for evening worship is 8 o'clock. On Monday night at 8:00 o'clock there will be a joint meeting of Session and Trustees. Every Elder and Trustee is expected to be present.—N. F. GRAPTON, pastor. Floral Heights Presbyterian. Sunday school at the usual hour. The pastor will preach both morning and night. The organizations of the church will meet as heretofore announced. B. F. JUDD, Pastor.

VARIED PROGRAM IS ANNOUNCED BY WICHITA THEATRE

With Richards, "the wizard," here for a week's engagement beginning Monday, September 23, as the opening feature, the manager of the Wichita Theater has announced a most varied and attractive dramatic program for the 1918-19 season. "Hearts of the World," Griffith's new war master piece which has played to hundreds of thousands of Americans during the few months since its release, is included in a program of attractions which offers musical comedies, straight farce comedy, minstrels and numerous novelty features. The Griffith picture will be shown here for three days, Oct. 31, and Nov. 1 and 2.

Manager Markelowitz is unable as yet to announce the exact dates for the presentation of the productions, but has named the following as included in the season's program: "Richards, the Wizard," "Hearts of the World," "Flowers of Dusk," a musical revue, "Out There," with an all star cast, "The Brat," Oliver Morosco, "Miss Springtime," musical comedy, "So Long Lolly," Oliver Morosco, "The 13th Chair," Wm.
