OCHILTREE COUNTY HERALD

Official Paper Of City Of Perryton, Texas

Official County Paper Of Ochiltree County

VOLUME X.

PERRYTON, OCHILTREE COUNTY, TEXAS, THURSDAY, FEBRUARY 24, 1927

NUMBER 4

\$75,000 Hi School Bond Issue Carries

PERRYTON ROLLS UP BIG VOTE FOR BONDS—OVERWHELMS OPPOSITION

TOTAL OF 516 VOTES CAST—312 ARE FOR AND 204 AGAINST. MAJORITY OF 108—WILL START CONSTRUCTION IN ABOUT SIX WEEKS

Another step forward for the Perryton Independent School District was made possible when the voters of the district put their official stamp of approval on the \$75,000 bond issue which the directors were asking for the building of a new high school building here in Perryton. The total vote was 516, 312 being for and 204 being against the issuance of the bonds, the same carrying by a majority of 108 votes.

OPERATE PLANT IN TWO WEEKS

COCA-COLA FACTORY TO BE IN OPERATION SOON AFTER MARCH 10 SAYS LUSHER

Announcements are being made in this week's issue of the Herald to the effect that the Perryton Coca-Cola Bottling company expects to be in operation and bottling soda water sometime between March 10 and 15. According to Jack Lusher, manager of the company, a formal opening will be held in the near future at which time all Perryton and surrounding territory will be invited to attend. Mr. Lusher is buying large quantities of various novelties to be given away at the formal opening, and many varieties of candy bars will also be given away. Free drinks will be distributed and various kinds of entertainment offered. Preparations are being made to entertain 4,000 guests on the day of the formal opening, which will probably be some time in April.

INCOME TAX MAN COMING

DEPUTY COLLECTOR OF INTERNAL REVENUE WILL BE SEVENTH HERE ON MARCH

For the convenience of those who are required by law to file Federal Income Tax Returns, a Deputy Collector of Internal Revenue will be at the First National Bank in this city on Monday, March 7th to assist taxpayers in preparing their returns. No charge will be made for this service. The matter of filing your Income Tax Return should be given immediate attention, in order to avoid penalty and interest. Form 1040A should be used if the income is derived chiefly from salaries and wages and does not exceed \$5000. Form 1040 should be used if the income is more than \$5000, or is derived from a trade or business, including farming. Your return for the calendar year 1926 shall be filed not later than March 15, 1927, with the Collector of Internal Revenue for this district. A penalty of not more than \$10,000 or imprisonment for not more than one year, or both, and in addition, 25 per cent of the amount of the tax, is imposed by the statute for willful failure to make return on time. It is to the interest of every citizen to see that all children between the ages of 7 and 18 on September 1, 1927 are enumerated. Please cooperate with the schools and the census trustees when they call on you for this enumeration. The following Perryton boys and girls who are attending college at Canyon visited home folks last weekend: Roy Beever, Chester Carter, Graceva Myers and Gladys, Myrtice and Horace Glasgow.

TO START SCHOLASTIC CENSUS OF PERRYTON INDEPENDENT SCHOOL DISTRICT ON MARCH 1ST

TO ATTEND NATIONAL EDUCATION ASSOCIATION

W. B. Irving, Superintendent of the Perryton Independent School District, will attend the Department of Superintendence of the National Education Association to be held in Dallas, February 27 to March 3rd. This is the first time that Texas has had the honor of playing host to this very important meeting.

BLANKET BILL PASSES

Both Houses Pass Judicial Bill Now Before Governor Moody for Signature

According to press dispatches, both the Senate and House voted to amend Representative Satterwhie's bill providing for a new judicial district, the 84th, in the Panhandle, the amendment to "blanket" the present 31st district instead of forming a new district.

According to Attorney Jack Allen, the "blanketing" of the 31st district will mean the forming of another district court, giving each of the counties four terms of court instead of only two a year.

The bill has been passed by both legislative bodies and has been signed Governor Moody.

G. I. Horne returned Wednesday of last week from a business trip to Blackwell, Oklahoma.

DR. MAY ERECTS OFFICE BUILDING

WILL BE ONE OF BEST EQUIPPED CLINICS IN NORTH TEXAS WHEN COMPLETED

Dr. J. C. May has just recently moved his offices into the new building which he has erected on South Main street. This handsome new brick, fire-proof modern building is one that the citizens of Perryton can justly point to with pride.

The structure is of brick and tile construction. The exterior of the building is of a rich brown matted brick with white stone trimmings. The floors are covered with battleship linoleum. There is a basement with ample room for the heating plant and fuel supply. The building is equipped with an automatic ventilating system which makes an entire change of air once every thirty minutes.

On the inside will be found a large reception room. On the north side of the building is Dr. May's private office, a well equipped operating room, a large laboratory and a dark room. On the south side are three large rooms which will be used for electrical equipment such as X-Ray, Alpine lamps, Diathermy, Mercury Quartz, Kromagen Lights, etc. While Dr. May is now using the building for his office, all of the equipment is not there. When it is complete, it will be one of the best equipped medical offices in this part of the southwest. We understand that Dr. May will have associated physicians and trained nurses in attendance at all times.

HIGGINS BONDS FAIL

School Election for Bond Issue at Higgins Last Saturday Fails

An election for the purpose of voting of \$15,000 worth of bonds in the Higgins school district, for the remodeling and enlarging of the Higgins school, failed last Saturday by a vote of 60 against and 55 for the issue.

A letter from Mrs. Grant Sooter who is in Enid with her husband who has been ill for some time, bears the information that Mr. Sooter is improving slowly. He left the hospital at Enid this week but is still confined to his bed most of the time. Mrs. Sooter states that they will be back in Perryton soon.

M. E. Manwarren returned on Wednesday of last week from a week's visit with his family at Wichita, Kansas.

The infant child of Mr. and Mrs. Hugh White was buried Tuesday in the cemetery at Ochiltree.

THUGS HOLD UP PERRYTON FOLKS

DARING ROBBERY NEAR BORG-ER SUNDAY NIGHT—DIS-ABLE VICTIMS AUTO-MOBILE

Darting out from behind a hill, four bandits in a high powered car forced the Chrysler roadster driven by Jay Thomas and containing Carl Yoskley and Moerbe Chadick into a ditch, Sunday night about a mile and a half from Berger on the Pan-tex road, relieving the Perryton folks of about \$60 and their watches and other valuables.

One of the bandits shot through the running board while shooting at the rear tire, but no other shots were exchanged. After robbing the boys, they disabled the car and departed in their own car.

Staying on the road all night, they found aid in the morning and were hauled back to Berger where their car was repaired and they returned to Perryton.

Hutchinson county officials were notified of the holdup as soon as a telephone could be reached but little hope is offered for the capture of the men.

DOUGLAS HOLDS DEMONSTRATION

ONE WAY DISC PLOW AND OTHERS WILL BE SEEN IN ACTION FEBRUARY 25 AND 26

The W. H. Douglas Grain company, which recently announced their dealership in the Emerson-Branting-ham farm machinery, will conduct a demonstration of the Great Plains plow, a new one way disc, next Friday and Saturday, February 25 and 26, on the B. L. Holland farm, north of Perryton.

The Emerson tractor will be used foot swath. The six-disc plow will be used to pull the plow, which cuts a ten-foot furrow, as well as other types of machinery.

Mr. and Mrs. R. C. Johnson drove to Clarendon, Sunday, where Mrs. Johnson took the train to Alvarado where she will visit her parents, Mr. and Mrs. O. W. Dean. Mr. Johnson returned to Perryton Monday.

MAKING SURVEY FOR SEWERAGE

ENGINEERING FIRM HAS MEN AT WORK HERE GATHERING DATA FOR ESTIMATE SURVEY

Surveyors have been at work in Perryton for the past week, gathering data to be used in the estimate of costs and plans and specifications of the proposed sewerage system for the city of Perryton.

The contract for the survey was awarded the Devlin Engineering company recently, at a meeting of the city council. The Devlin company is an Amarillo firm.

It is estimated that it will take two more weeks of work before the engineering company will be prepared to offer the final estimates to the city council. Plans will be drawn up and a disposal plant designed to take care of the sewerage problem for a city from four to five thousand and of such a type that it can be enlarged, should the necessity compel, with a minimum of cost. No action will be taken by the city council on the sewerage problem until the survey is complete. It is thought that there are sufficient funds in the city treasury to put in the system.

ORGANIZE GUN CLUB

Seventeen Members Buy Trap and Build House for Spring Shooting Contests

A gun club has been organized in Perryton, with seventeen members and the first practice shoot was held Sunday afternoon, with most of the members present.

A trap has been purchased and a supply of blue rocks and a trap house has been built in the Lilly park just north of the ball park. Some good scores were made in the practice shoot Sunday by some of the members.

A meeting of members has been called for Thursday evening at which time officers will be elected for the club.

The club is planning a series of competitive shoots with Spearman, Booker, and other nearby towns, and is also considering entering in the state shoot.

STUMP TO START BUILDING SOON

ANOTHER FIREPROOF STRUCTURE PLANNED FOR BUSINESS DISTRICT BY STUMP

Work on another brick and tile building for the business district was started this week, the location to be just west of the building now occupied by the city clerk, and facing the north.

The new structure will be either thirty-six or forty feet by sixty feet and will be of brick and tile construction.

Jno. N. Stump, who is putting up the new building, only recently completed a fine store building just beside the postoffice, now occupied by the McLarty Mercantile company.

Mr. Stump is wrecking the old frame warehouse east of the ice plant and will use some of the lumber for forms in pouring the concrete for the foundation.

MAY BROADCAST PROGRAM SOON

MUNICIPAL ORCHESTRA AND C. OF C. ARRANGING PROGRAM TO GO ON AIR

Arrangements are being made by Geo. L. Hyde, director of the Perryton Municipal orchestra and the Chamber of Commerce to broadcast a program in the near future from the station at Bristow, Okla., or at Oklahoma City.

Public rehearsal of the orchestra will be held Sunday afternoon at 2:30 o'clock at the Christian church at which time the public will be invited to hear the program which is to be given over the radio. Many extra rehearsals of the orchestra have been called during the week in order to prepare them for the radio concert.

Definite announcements as to the date and time of the radio program will be made Sunday. The Chamber of Commerce is arranging speakers to tell the world about the opportunities in the Panhandle country and of the wonderful advantages of Perryton and Ochiltree county.

ASSESSOR J. W. WRIGHT STARTS 1927 ASSESSMENT

Assessor J. W. Wright started last week on his duties of assessing the property, both real and personal in Ochiltree county for the purpose of arriving at the 1927 state and county taxes.

"Bill" is a veteran at the game and there is never any complaint on his work for he treats all alike, giving their property fair and just valuation.

PERRYTON WINS '27 CAGE CHAMPS

VICTORY OVER HIGGINS, SPEARMAN, SPLIT WITH BOOKER AND FORFEIT IN DISTRICT

The Ranger basketball team emerged victorious in the north Panhandle district, winning the second district championship during the 1926-27 school year.

Winning over all teams from Hansford, Lipscomb, and Ochiltree counties, the Rangers were entitled to make the trip to Canyon last Friday and Saturday representing this district in the interscholastic meet, but due to the large expense necessitated by the trip they decided not to enter the meet, but instead will enter the Liberal tournament on March 3, 4, and 5.

Although the Perryton team started the season with a rather weak record and are ending the season in championship form, winning eight games, losing four and tying one.

Of the league games played, the first was with Higgins on February 11, played on the local court, the score being 23 to 16 in Perryton's favor. Spearman played here on February 8, Perryton again winning by 16 to 15 score. A return game with Spearman on February 11 resulted in a loss by an 8 to 13 score and a third game, also played at Spearman decided the tie by a 7 to 7 win for the Rangers.

The first game played with Booker was on Monday of last week, the score being 13 to 14, in Booker's favor, on the Booker court. The return game here the following evening resulted in a win for the Rangers by 25 to 16 score, which gave Booker and Perryton both one game.

It was decided between Booker and Perryton to play off the tie on Wednesday on a neutral court, but after several attempts to schedule games Booker finally conceded victory to the Ranger team and gave permission to attend the district meet as champions of this section.

According to Coach Holderman, the following players will be taken to the tournament at Liberal: Leon Shrader, Captain; Glen Shrader, Henry Richardson, Lynn Black, Lawrence Smith, Walter Morris, Jack Todd, Irvin Hergert and possibly others.

Both the Perryton boys' and girls' teams have also been entered in the liberal tournament which is to be held March 3, 4 and 5. Approximately forty schools are expected to take part in this tournament.

MARSHAL NASH FOR RE-ELECTION

NOW SERVING FIRST TERM IN OFFICE OF CITY MARSHAL AND STREET COMMISSIONER

We are this week authorized to announce J. B. Nash as a candidate for re-election to the office of Marshal of Perryton. Mr. Nash is now serving his first term in this very important post and there is no question but what that he has made Perryton a very efficient peace officer and a capable street commissioner.

Mr. Nash has been faithful in performing the duties of the office. He has kept the streets in as good a condition as possible for dirt streets subject to the heavy traffic that we have here in Perryton. He has paved many blocks of new streets. The city election will be held on Monday, April 5th, and we feel no hesitancy in saying that Mr. Nash is worthy of the support and vote of the citizens of Perryton.

F. C. DEW, CANADIAN, WAS IN PERRYTON Wednesday, on business.

NEW HOPE WINS RURAL CAGE MEET

DEFEAT LONE TREE IN FINAL GAME OF COUNTY TOURNEY HERE LAST SATURDAY

The fast playing goal shooting team from the New Hope school annexed the championship of the rural schools of Ochiltree county in the county wide meet held in the Perryton high school gymnasium last Saturday. The final game of the tournament was a hard fought battle from start to finish and the boys from the northwest part of the county had to play some real basket ball to win from their very worthy opponents, the Lone Tree team.

In the Senior boy's division there were four teams entered: Lone Tree, Huntoon, New Hope and Farnsworth. New Hope won from Huntoon and Lone Tree eliminated Farnsworth, leaving New Hope and Lone Tree to play the final.

There were only two teams entered in the Senior girl's events, Ochiltree and Huntoon, the girls from Ochiltree winning.

The fast girls team from Union, which will enter the state wide tournament in Oklahoma was present. They played a game with the Ochiltree girls, winning easily. The Union boys won from a combination team made up of New Hope and Lone Tree players.

R. L. TEURMAN DIES AT DECATUR, TEXAS

R. L. Teurman, a former resident of Ochiltree county, died February 2nd at his home, Decatur, Texas, after an illness of ten or twelve weeks duration. On November 30th he was kicked by a horse, receiving internal injuries for which it was necessary to operate at a Fort Worth hospital. After the operation, pneumonia set in from which Mr. Teurman seemed to recover so he was taken to his home. Shortly after reaching Decatur, he suffered a relapse which soon resulted in his death.

The deceased was about 45 years of age at the time of his death. He came to this country in 1901 and filed on land in Beaver county. On April 12, 1908, he was united in marriage to Miss Bertha M. Raymond. A few years after this union, they moved to this county and located in what is now the Twichell neighborhood where they lived until about four years ago when they

Strong Wind Tuesday

Blows Out Big Plate Glass Window in Johnson Motor Company Building

Strong wind Tuesday morning blew out one of the large plate glass windows in the Johnson Motor company display room.

Two large radio sets were beneath the window but miraculously escaped without a scratch as the window crashed about them. The plate glass windows were covered by insurance.

Saturday, February 18th, will be Hat, Coat, Dress and Suit Day at Mrs. Rifenberg's Style Shop. 3-1t-c

HANDY GARDEN SHAPE

The best shape for a garden plot to be cultivated with a horse is one twice as long as wide, says the United States Department of Agriculture. If the garden contains about one-half acre the length will be approximately 210 or 220 feet and the width 100 feet. A turning row must be left at each end or the fence across the end of the garden can be made in panels which may be removed to allow room for turning in cultivation.

AUTO OIL FOR HOGS

Oil drained from the crank case of an automobile effectively destroys lice on hogs, says the United States Department of Agriculture. It may be poured into the hog wallow when the weather is mild. During cold weather, however, it is best to sprinkle the oil on the hogs with a

sprinkling can, making a number of light applications at intervals of about ten days. Don't cover the hogs thoroughly with oil at one time. Apply some of the oil to their ears with a swab, as the lice may lay eggs inside the ears.

Mr. and Mrs. R. H. Gamel took their little son, R. H. Jr., to Shattuck last Sunday for medical attention. R. H. Jr., has been seriously ill with pneumonia for the past three weeks and it is thought that an operation will be necessary.

Your Hat, Coat, Dress and Suit is now ready for you. All specially priced at Mrs. Rifenberg's Style Shop. 3-1t-c

Five Years — Going Strong

Facts About McNary-Haugen Farm Relief

(Special to the Herald)

By Robert Fuller

Washington, Feb. 23.—“McNary and Haugen” to city folks might sound like the name of a vaudeville team but to the farmers of these United States it means pay day.

Again, “McNary and Haugen,” the names that are on everyone's lips. Who are they—what are they—where from—what for—and how come?

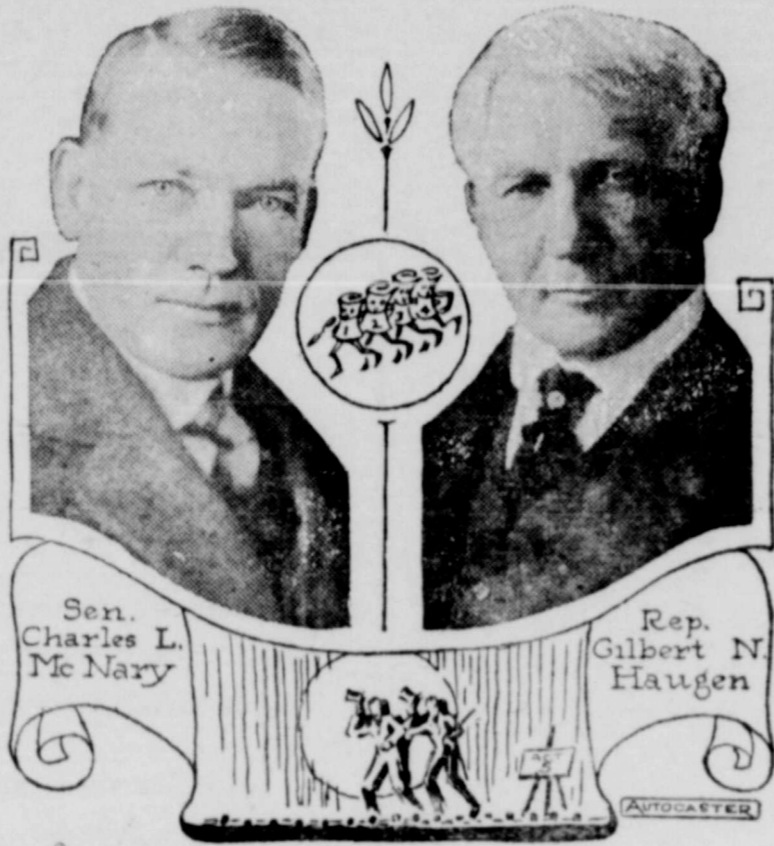

Washington knows. Washington has come to respect the names—and the men. For five years, ever since the post-war deflation period, they have ruled the legislative boards: refused to give up the limelight; in all authors of four bills; differing somewhat in details, but looking to the same end, relief for the farmer.

One year ago McNary and Haugen took a good healthy bust in the beseecher and went down to defeat—but here they are again with virtually the same bill—virtually accepted by both House and Senate—and up to the President—for his veto, which is being freely predicted in all quarters. Nevertheless, who knows? Maybe the lineup in both House and Senate has been so arranged by fate, or circumstances, that McNary and Haugen will carry their bill over the Coolidge veto if such it receives.

The reader no doubt is acquainted with the present bill, which, if it becomes a law, will create a Federal Farm Board with a revolving fund of \$250,000,000 from the U. S. Treasury to control and stabilize agricultural prices, even to the extent of buying up surplus crops and marketing them in foreign markets at the best selling price.

So much for the bill. Charles L. McNary is Republican senator from Oregon, 53 years old, and serving his second term. Representative Gilbert N. Haugen, Republican, is from Northwood, Worth county, Iowa, is 68 years old and is finishing his fourteenth term in the

Oregon McNARY - HAUGEN Iowa Famous Farm Relief Pair in National Spotlight

Sen. Chas. L. McNary, Oregon and Rep. Gilbert N. Haugen, Iowa, have been joint authors of four different bills since post-war deflation, all of which have aimed at relief of agriculture. Their present bill is the most important legislation of this session, having been jockeyed from defeat last year to passage by House and Senate—and now up to the President. McNary and Haugen have been stars on the legislative stage for five years and still going strong, Washington admits.

House. They are chairmen respectively of the Senate Committee on Agriculture and Forestry, and the House Committee on Agriculture.

Both are progressives—but neither McNary or Haugen have leaned so far, even on Farm Relief, that they can be placed in the radical group. Mr. McNary has an ability that seems to make it possible for

him to have more influence among the conservatives than Borah, Norris or Brookhart of the left wing—or Capper, Hiram Johnson and Gooding of the right wing.

Observed on the floor of the Senate and in action, Senator McNary belies his 53 years. He looks at least ten years younger; blond, slender and dapper; an effective speaker, but not the least bit oratorical. He can hold his own without fights or personal exchanges that usually leave scars.

Haugen in the House is the rugged old warrior type. His shaggy silver locks and rough hewn countenance attract the visitor's eye. A massive head tops broad, though stooped shoulders. Except in matters concerning farm relief, he has become more and more conservative in his political theories through his twenty-eight years in Congress. Last year he supported the late Albert B. Cummings against Brookhart, and as a result, came near losing his own seat.

Senator McNary right now is having his name sounded in high places. This legislation is stirring things up—and one does not have to be around

very long to hear gossip which links the Coolidge and McNary names as a possible 1928 G. O. P. ticket. It might come to pass, if the McNary-Haugen bill is vetoed—and fails for a two-third vote to put it over that veto.

Right now the McNary-Haugen team rules supreme in the farm bloc circles. At this writing it must be admitted they are away out in front of the Curtis-Atwell combination for popular favor with the farmers of the land.

NAMES IS NAMES IN OCHILTREE COUNTY

Ochiltree county and Perryton boasts quite a variety of names among its citizens. So far the following have been found: Sharps but no Flats; lots of Blacks but they're all whites; no Akes but several Paynes; a number of Cooks but not a single baker; a Taylor who is a painter and a Thompson who is a tailor; some Kings but no Princes; a Dores but no Windows; also Whites and Browns; Brooks and Waters but no Rivers; Coffee and we used to have Teas; no Bread but we do have a Crum; lots of Flowers and Lillys but no weeds; a Barbour who is a barber and a merchant and farmer who are Barbers; and last but not least we have Blanks and Shanks.

Jack Lusher of the Perryton Coca-Cola Bottling Co., returned the latter part of last week from a business trip to Fort Worth.

F. M. McGee is here from Webb City, Oklahoma, looking after business interests.

H. Lee Worthington left Tuesday for Okmulgee, Oklahoma where he will visit with his sister.

Order your rubber stamps at the Herald Office.

W. M. U.

The W. M. U. will hold a meeting Thursday, February 24, at which time the following program will be given, under the topic, “Intercession for Revival.”

Hymn—“Break thou the Bread of Life.”

Prayer

The New Year—Mrs. C. E. McLarty
The Ministry of Prayer and Prayer Suggestions—Mrs. Lance.

Open Toward Jerusalem and Pray for One Another—Mrs. Tucker.

There Cometh Showers and Hindrances—Mrs. Holt.

Rise and Pray—Mrs. Hungate

Closing Prayer

The program will be given at the home of Mrs. C. E. McLarty, Mrs.

H. T. Cropper and Mrs. C. E. Mc-

Larty, hostesses.

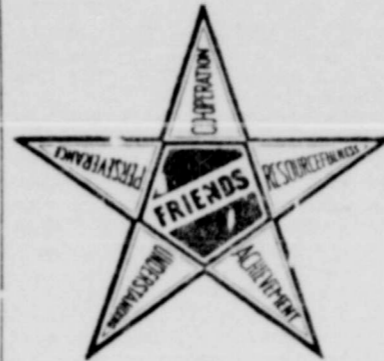

Thursday will be capsule day. Tell who your capsules are and get a new one.

Mr. and Mrs. H. T. Cutter recently returned from a visit with relatives and friends in East Texas.

J. P. Rhodes, representing the Hernberger Beackmann & Co., of San Antonio, Texas was here the fore part of the week looking over the fire insurance situation. Mr. Rhodes makes his headquarters at Abilene.

F. C. Spencer returned home Sunday from a visit with his mother and other relatives in Indiana.

Your next washing — Let the MAYTAG do it FREE

THERE is no expense—no obligation—when you phone the Maytag dealer and say—“I want to try the Maytag.” Maytag dealers, everywhere, welcome the opportunity to put a Maytag in the home to do a week's washing FREE. That is the way the Maytag proves its greater washability—its speedier—easier—cleaner washing. So don't hesitate. Phone the dealer NOW.

In your own home you will see the Maytag wash big tubfuls of clothes in 3 to 7 minutes. Wash everything without hand-rubbing. Finish a week's washing in an HOUR. Try it—if it doesn't sell itself, don't keep it.

Small Hat Skill Rules for Spring

The small close fitting hat will be a Spring favorite in Fashion Centers. It is especially chic and flattering when a combination of satin and straw is used, with gay novelty trimming, ingenious cut-out trimming, or straw lace.

IN MEMORIAM

A cloud of gloom was thrown over our little city early last Friday, (February 4th) morning at the news of the sudden and unexpected death of Mrs. Zack Westbrook.

It seemed unbelievable that one so young and vigorous should have gone—that the tender, generous heart was forever stilled.

Anna Vivian Grant was born in Corsicana. She grew to womanhood and received her education at Denton and the old college at Blooming Grove where she met Mr. Westbrook who wooed and won her for his bride.

Two sons were born to this union, Grant and little Zack Jr., the latter who died at the age of four.

She gave her heart to God in childhood and united with the Methodist church of which she was ever a loyal and faithful member.

Mr. and Mrs. Westbrook have made their home near Perryton, in Ochiltree county for a number of years. They returned to Kerens last year where they have since lived, and while renewing old friendships formed many new ones.

Truly beautiful in person, cultivated and noble in character, charming in manner, Mrs. Westbrook won the highest admiration and esteem of all who were privileged to know her.

It was in her home however, that her worth was most truly felt.

Devoted in an unusual degree to her husband and son, she lavished on them a wealth of unselfish love and service. She was never so happy as when ministering to their comfort and happiness.

She was always tirelessly planning for their welfare and the future of her son Grant.

In addition, she found great pleasure in helping all who needed any kindness or aid of any kind.

The world is infinitely richer because of her unselfish life.

Besides her heartbroken husband and son, her mother, Mrs. J. M. Grant, Blooming Grove; a brother, S. W. Grant, Grand Prairie; two sis-

ters, Mrs. E. H. Whorton, Hillsboro, Mrs. T. M. George, Jr., Blooming Grove and numerous other relatives and friends are left to sorrow at her passing.

After the service conducted by her pastor, Rev. J. W. Sharbutt, assisted by Revs. Everheart and Hall, her body was tenderly laid to rest in the family lot at the old Prairie Point cemetery Friday afternoon in the presence of a multitude of sorrowing loved ones and friends.

As God's sunlight gently fell upon the flower-heaped mound which marked the last resting place of our dear one and her little son, with aching hearts and tear-filled eyes we turned away, trusting that in His own time somehow, some way, some time, we will understand.—Kerens (Texas) Tribune.

The Ford of Radio

Powell Crosley, Jr., 40, of Cincinnati, has made and sold more than a million and a half radio sets in the last 5 years, and now, with his other properties, he has taken over the pioneer DeForest company and has made the Ford of Radio. He will give the Ford of Radio to the public at a special price of \$100 for radio apparatus during 1929.

UNION SCHOOL NEWS

(Too late for last week)

Friday, February 11th, the Bethany and Union high school girls and boys played at Union. The grade teams played at Fairview at the same time. The Union teams were victorious.

Monday morning the following basketball girls went to Alva to enter the tournament: Ethel Collins, Jennetta Brown, Bertha and Elsie Garner, Nelle and Nora Eads, Ethel Pittman and Merle Stewart. The following boys went: Gaylord Stewart, Paul Brickley and Crawford Sims.

While Mr. Crawford is at Alva with the basket ball players, Miss McDowell is teaching his room.

Dr. Davis is sick with tonsillitis to day (Monday). Zora Gray is teaching her room.

Mrs. Mendenhall's and Mr. Crawford's rooms each had Valentine boxes. Mrs. Davis's room also observed Valentine Day. The high school teachers also received some pretty Valentines which were very much appreciated.

Glady's Phelps is still out of school on account of sickness.

TRANSFERRED TO SPEARMAN

According to the Miami Chief, Dwight Holland, who has been manager of the Panhandle Lumber Co., at Miami for a number of years, has been transferred to the Spearman yard where he becomes assistant manager. This is a promotion for Dwight as the Spearman yard does a much larger business than Miami. Dwight had his first lumber yard experience in Perryton, starting with the Panhandle people here several years ago. He is a son of Mr. and Mrs. B. L. Holland of north of town.

MIAMI SCHOOL BOND ELECTION CARRIES 3 TO 1

The election held in the Miami Independent School district for the issuance of bonds to the amount of \$65,000 for the building of a new high school building carried by a vote of about three to one. Miami citizens are not "tight" when it comes to providing educational facilities for their children.

No other low-priced six will ever give you this

It is not beyond the realms of possibility that some day there will be offered a newly created six, closely approximating in basic design and price the Pontiac Six as introduced a year ago.

But even if that car does make its appearance, it will lack one powerful inducement to ownership that is of paramount importance in contemplating the Pontiac Six:

Its design and construction will not have been proved by millions

of miles of actual service in the hands of thousands of owners. And that is essential, even in a car which was tested and developed as the Pontiac Six was for over three years prior to its announcement!

Design and construction so convincingly demonstrated means more than the elimination of fundamental weaknesses. It means peace of mind from one year's end to the other—and that is what buyers have a right to get, no matter how much or how little they pay!

Pontiac Six, \$825 to \$975. Oakland Six, comparable to Pontiac Six, \$1025 to \$1295. All prices at factory. Dealer by Fisher. Easy to pay on the liberal General Motors Time Payment Plan.

Her Home Now Temporary White House

Mrs. Elmer Schlesinger, nee Patterson, of Chicago, offered her palatial home in Washington to President and Mrs. Coolidge—while extensive repairs are being made on the White House. Though ten blocks from his office, the President and Mrs. Coolidge made this selection from a score of offers.

After Fake Peddlers

Must Obtain Consent of Chamber of Commerce Before Selling in Canyon

Canyon, Tex.—The Canyon Chamber of Commerce is making it difficult for people who offer for sale stocks or merchandise of doubtful value, to sell their wares in Canyon. All business men send solicitors to Clyde Warwick, secretary of the Chamber of Commerce; if upon investigation, their credentials are satisfactory they may hope to sell goods in Canyon, if not, the business people of the town give them a wide berth. J. D. Gamble, president of the chamber of commerce says the plan saves the town hundreds of dollars each year.

PONTIAC MAKES MOUNTAIN RUN IN HIGH GEAR

Sealed in high gear, with the motor running continuously, a stock Pontiac Six two door sedan recently completed a continuous 120 hour economy and endurance mountain run in the northwest Pacific coast section.

The car was sent out by the R. Knox Roberts Motors, Portland, with Salt Lake City, Utah, as its objective, the round trip distance being 1,948 miles. Of the 120 hours non-stop trip, 34 hours and 20 minutes were occupied by the car standing with motor idling, while the actual driving time was 85 hours and 40 minutes. Of the 91 gallons of fuel used on the run, 17 were required during the time the motor was idling and 74 were used in propelling the car. Accurate measurements were taken before and after, as well as during the trip, so that the actual average of 26.2 miles to the gallon was gauged most accurately.

Approximately 900 miles of the trip was made over ice-covered roads, while rough roads of sticky mud prevented anything but slow progress in Idaho and Utah. In the Blue Mountains of Oregon, the Pontiac reached an elevation of 4,330 feet and in the Utah range, 5,700 feet.

Mr. and Mrs. Bolts, Shattuck, spent the week end in the home of Mr. and Mrs. Lem Cooley. Mr. Bolts returned home Monday, while Mrs. Bolts will remain through the week.

Mr. and Mrs. Davy Wright visited in the home of Grandma Jackson last Thursday evening.

Velma, Franklin, and Mildred Jackson are back in school after a week's absence.

Mrs. Chas. Denney visited the school Friday afternoon.

Several farmers in the community have already sowed oats and are preparing to sow barley.

J. H. Calhoun went to Ose Glasgow's Monday for a load of barley which he took to his west place to sow there.

Mr. and Mrs. Guy Widmer and little daughter visited the family of William Roe in the Gilaloo neighborhood, Sunday.

Mr. and Mrs. George Jackson and children and Albert Brock visited in the home of Lem Cooley Sunday afternoon.

Mr. and Mrs. R. H. Moore and R. H. Jr., left in their cars Tuesday afternoon for Drummond, Okla. Mr. Moore and son will return in a few days and Mrs. Moore will go on to Mena, Ark., to visit her mother.

EASE AND COMFORT DODGE BROTHERS SEDAN

The general body design of Dodge Brothers sedan with its low swung appearance embodies the characteristics of the better known European custom built bodies.

The roof of this sedan body is

Gosh, I'm Happy

Tris Speaker, great American League outfielder, will romp in center for Bucky Harris's Washington Senators this summer. Cleared with Ty Cobb, he accepted the capital city bid as best.

S. S. STRONG General Contractor BEAVER, OKLA.

Bonding Ability \$50,000.00

Reference—any bank or business in Beaver or National Surety Co.

about eye high to the average man and yet body development is such that there is all the head room that could be desired.

The design and arrangements of the seats conform to the general contour of the body, the seat cushions being low in the body and tilted upward to give comfort of a lounging chair to the occupants.

The seats are also equipped with back supports of the lazy cushion type so that the body is supported well up to the shoulders.

This is of marked importance at the present time when the rush toward lower prices of motor cars has

caused a general adoption of designs which naturally entail the use of straight backs and narrow seat cushions.

Seats are so placed in relation to the windows that the vision of the passengers and driver is never obstructed.

The steering column is also tilted at a comfortable angle so that the driver rests as easily in the car as any of the passengers. Roominess of the front seat allows also, a change in driving posture, which is so necessary to the comfort of the long mileage driver.

WHAT HAS GONE BEFORE:

It is 1868 and the Pacific Railroad has reached its newest "farthest west"—Benton, Wyoming, a town described as "roaring," as each new terminus, temporarily, was.

Frank Beeson, a young man from Albany, New York, comes here because he is in search of health and Benton is considered "high and dry."

Edna Montoya, a fellow passenger on the train from Omaha, impresses Beeson with the beauty of her blue eyes and the style of her apparel. Equally she astonished him by taking a "smile" of brandy before breakfast. A brakeman tells Beeson she has "followed her man" to Benton.

Jim, a typical western ruffian whom she knows apparently well insults her and is floored by Frank whose prowess impresses the passengers.

Col. Lunderson and "Bill" Brady volunteer to entertain young Beeson.

Robbed

A crowd had gathered before a youth in gaiters, soiled shirt and belled pantaloons, who standing upon a box, was exhorting at the top of his lungs.

"Who-o-o-o! This way, this way! Ronda coolo-oh! Here's your easy money! Down with your soap! Let her roll! Ronda coolo-oh!"

"It's a great game, suh" the Colonel said.

We pushed forward, to the front. The center for the crowd was a table across one end of which there were several holes. Into these balls, ten or a dozen, resembling miniature billiard balls, might roll.

The balls had been banked at the opposite end; and just as we arrived they were propelled all forward, by a short cue rapidly swept across their base.

"Ronda coolo, suh," the Colonel explained, "as you see, is an improvement on the old rondo, foh red-blooded people. Shall we take a turn, foh luck?"

The crowd was eyeing the gyrating balls expectantly. A part of the balls entered the pockets; the remainder came to rest.

"Rondo," announced the with the short cue and deftly distributed checks and coins.

"She rolls again. Make your bets, ladies and gents," and he reassembled the balls.

"I prefer not to play, sir," I responded to the Colonel. "I am new here and I cannot afford to lose until I am better established."

"Never yet seen a man who couldn't afford to win, though," he growled. "But come on, then."

So we left the crowd—containing indeed women as well as men—to their insensate fervor over a childish game under the stimulation of the raucous, sweating barker.

Of gambling devices, in the open of the street, there was no end. My conductors finally stopped at the simplest apparatus of all.

"The spiel game for me, gentlemen," said the Colonel. "Here it is. Yes, suh, there's nothing like monte, where any man is privileged to match his eyes against fingers. Nobody but a blind man can lose at monte, by George!"

"Anj this spieles' on the level," Bill pronounced, sotto voice. "I vote we hook him for a gudgion, and get the price of a meal. Our friend will join us in the turn. He can see for himself that he can't lose. He's got sharp eyes."

The by-standers here were stationed before a man sitting at a low

tripod table; and all that he had was the small table—a plain cheap table with folding legs—and three playing cards. Business was a trifle slack.

"Two jacks, and the ace, gentlemen. There they are. I have faced them up. Now I gather them slowly—you can't miss them. Observe closely. The jack on top, between thumb and forefinger. The ace next—ace in the middle. The other jack bottom-most."

He turned his hand, with the three cards in a tier, so that all might see. "The ace is the winning card. You are to locate the ace. Observe closely again. It's my hand against your eyes. I am going to throw. Who will spot the ace? Watch, everybody. Ready! Go!"

The backs of the cards were up. With a swift movement he released the three, spreading them in a neat row, face down, upon the table.

"Twenty dollars against your twenty that you can't pick out the ace, first try! I'll let the cards lie. If you've watched the ace fall, you win!"

"Just do that trick again, will you, for the ben-fit of my friend here?" bade the Colonel.

The "spieles"—a thin-lipped, cadaverous individual—smiled. "Hello, sir, I'm agreeable. Yes, sir. But as they lie, will you make a guess? No? Or you, sir?" and he addressed Bill. "No? Then you sir?" He appealed to me. "No? But I'm a mind reader. I can tell by your eyes. They're upon the right end card. Aha! Correct! He had turned up the card and shown the ace. "You should have bet. You would have beaten me, sir. Watch the ace! I pick up the cards. Ace first—blessed ace; and the jacks. Watch close. There you are." He briefly exposed the faces of the cards. Keep your eyes upon the ace. Ready—go!"

He spread the cards. As he had released he had tilted the slightly, and I clearly saw the ace land. The cards fell in the same order as arranged. To that I would have sworn.

"Five dollars now that any one card is not the ace," he challenged. "I shall not touch them."

"I'll go halvers with you, Colonel," Bill proposed.

"I'm on," agreed the Colonel. "There's the soap. Anj foh the honor of the grand old Empire State we will let our friend pick the ace foh us."

I turned up the right-end card. "By the Eternal, he's done it! He has an eye like an eagle's," praised the dealer with evident chagrin. "I lose. Once again now. Everybody in this line." He gathered the cards.

"I'll play against you all, this gentleman included. I'm afraid he's smarter than me, but I'm game."

He was too insistent. Somehow I did not like him, anyway, and I was beginning to be suspicious of my company.

"You'll have to excuse me, gentlemen," I pleaded. "Another time, but not now. I wish to eat and to bathe and I have an engagement following."

"We can't talk this over while we're dry," the Colonel objected, as we moved off. "Let us libate, suhs."

We were verging upon argument much to my distaste, when of a sudden who should come tripping along by My Lady of the Blue Eyes—yes, the very flesh and action of her, her face shielded from the dust by a little sunshade.

She recognized me in startled fashion, and with a swift glance at my

two companions bowed and was gone. "Gad, suh! You know the lady?" the Colonel ejaculated.

"A casual acquaintance," I answered. "We were merely travelers by the same route at the same time. And now if you will recommend a good eating place, and be my guests at supper, after that, as I have said, I must be excused. By the way, while I think of it," I carelessly added. "Can you direct me to the Big Tent?"

The Colonel swelled; his fishy eyes hardened upon me as with righteous indignation.

"Suh, you are too innocent! I believe, by gad, suh, that you are a capper foh some infernal skinning game, or that you are a professional Suh, I call your hand!"

I was about to retort hotly, when Mr. Brady, who likewise had been glaring at me, growled morosely. "She's waitin' for you. You can square with us later."

The black-clad figure had lingered beyond, ostensibly gazing into a window. Without saying another word to my ruffled body-guards, I approached her.

"Madam," I uttered foolishly, "good evening."

"You have left your friends?" "Very willingly."

"And I have rescued you?" She smiled again. "Believe me, sir, you would be better off alone. I know the gentlemen. The Colonel is a notorious capper and steerer, and Brady is no better."

"Strange to say, they have just

accused me of being a capper." I answered.

Her face brightened. "They were disappointed in finding you no gudgion to be hooked by such raw methods. Promise me that you will take up with no more strangers! Meanwhile, let me advise you. 'Outfit' while you wait, and become of the country! You look too much the pilgrim—there is eastern dust showing through our Benton dust, and that spells of other 'dust' in your pockets. Get another hat, a flannel shirt, some courser trousers, a pair of boots, don a gun and swagger, say little, make few impromptu friends, win and lose without a smile or frown, if you play (but upon playing I will advise you later). I shall hope to see you tonight, so all—sir, and remember."

With no mention of the Big Tent she flashed a smile at me and mingled with the other pedestrians crossing the street on diagonal course.

When I turned for a final word with my two guides, they had vanished.

The counsel to don a garb smacking less of the recent East struck me as sound and at "Levi's Mammoth Emporium; Liquors, Groceries and General Merchandise" I procured a hat, a flannel shirt, a serviceable ready-made suit, boots, and a revolver.

With my bulky parcel I sought a cafe, ate supper and hastened to the hotel for bath and change of costume.

I had yet time to array myself, as an experiment and a lark; and that I did, hurriedly treading my old garments upon bed and floor, in order to invest with the new.

The third bed was occupied by a plump, round-faced, dust-scalded man, with piggy features accentuated by his small bloodshot eyes; dressed in Eastern mode.

"Hell of a country, ain't it!" he observed. "You a stranger, too? What's your line?"

"Well, you don't have to tell 'em," he granted. "Thought you was a salesman. I'm from Saint Louie, myself. Sell groceries, and pasteboards on the side. Cards are the stuff. I got the best line of sure thing stock—strippers, humps, rounds, squares, briefs and marked backs."

He did not finish. An uproar

sounded above the other street clamor; a pistol shot, and another—a chorus of hoarse shouts and shrill, frightened cries, the scurrying rush of feet, all in the street; and in the hall of the hotel, and the lobby below, the rush of still more feet, booted, and the din of excited voices.

"A fight, a fight! Shootin' scrape!" In a flash my companion was pelting down the hall.

Overcome by the zest of the moment I pelted after, and with several others plunged as madly upon the porch.

A baying mob tramped through the street, with jangle "Hang him! Hang him! String him up!"

I saw first a figure bloody chested and inert flat in the dust, with stooping figures trying to raise him; then, beyond, a man white as death, hustled to and fro from clutching hands and suddenly forced in firm grips up the street, while the mob trailed after, whooping, cursing shrieking, flourishing guns and knives and ropes. There were women as well as men in it!

All this turned me sick. From the outskirts of the throng I tramped back to my room and the bath. The

hotel was quiet as if emptied; room was vacant—and more vacant, for of my clothing not a tinge remained! My bag alone gone.

Worse yet, prompted by an voice that staped me like an I was awakened to the knowledge that every cent I had possessed in those garments.

The Pilgrim gets some action week—Don't miss it. Copyright by Edwin L. Sabin

Stop·Look·Listen!

American railroads are the safest in the world to ride on. They are safer than any other kind of transportation. But you can make them even safer by being more careful. The welfare of yourself and family may be involved.

- The railroads are making a vigorous effort to **reduce accidents.**
- Won't you help?**
- You can help in many ways and especially by observing these ten don'ts.
- ~ ~ ~ ~ ~
- DON'T** cross railroad tracks, either walking or driving, until you stop and look in both directions, whether view is obstructed or not.
- Stop—look—listen!
- DON'T** try to cross tracks in front of an approaching train. It pays to wait.
- DON'T** cross a track after a train has passed, until you have made sure no train is coming from the opposite direction.
- DON'T** walk or stand on railroad tracks. If compelled to walk in railroad yards, avoid walking between the rails of any one track. There is usually room between the tracks.
- DON'T** let your children play around rail-
- road tracks or trains. Teach them to play elsewhere.
- DON'T** get on or off a non-passenger freight train, or crawl under it.
- DON'T** attempt to get on or off a moving passenger train. Wait until it stops.
- DON'T** be careless when stepping on or off a standing passenger train. Watch your step.
- DON'T** stand on platforms of passenger cars. It is safer inside.
- DON'T** place hand or arm in an open window. The window may close unexpectedly.
- Two-thirds of all railroad accidents** are incurred by persons going on railroad tracks without stopping, looking and listening.
- You share in the **responsibility** for these accidents.
- Your co-operation means **greater safety.**

Hold Perryton Style Review Friday Evening

ALL HOME TALENT MODELS EXHIBIT

MANY SPECIAL SETTINGS ARE BEING PREPARED FOR BIG STYLE REVIEW FRIDAY

A formal presentation of the new spring styles for men and women in addition to many other novel entertainment features will be held Friday evening, February 25, by the Home Economics department of the Perryton High school, under the supervision of the home economics instructor, Miss Ruby Jane Simmons.

Ready-to-wear for men and women will be displayed during the evening in the fashion show, models as being furnished by Perryton mercantile.

Dresses, suits, coats and shoes from Edwards' Toggery, the Perryton Mercantile company, and the Hurn Dry Goods company will be shown by the home talent models who will pass before the crowd, displaying the latest in spring wear.

Many novel features of entertainment have been arranged for the show, one of them being an old time fiddlers contest which is creating a small amount of excitement. A number of fiddlers have already signified their intention of playing in the contest which will be judged by an audience vote. Many other fiddlers are expected from quite a distance to participate in the contest.

Another feature of the evening will be a Scotch quartet, appearing in correct highland dress, singing a number of old familiar native songs.

The Virginia Reel will be presented by twenty-four of the little folks and one of the cleverest numbers on the program. The little folks carry out the old fashioned dance in a lively manner that is very amusing.

Many special settings have been prepared for the style show and special scenes, a specially hand painted scene, a street scene, with display windows containing live models also been prepared.

The style show is a combination of the unique and the new. Not only will new styles be shown, but they will be displayed in such a manner as to attract more than the usual attention.

HURN'S SHOW MODELS

Twelve Beautiful Models Will Style the Clothes Shown Friday Evening

The Hurn Dry Goods company will exhibit twelve beautiful girls, modeling new spring sport coats, dress suits, charmeen coats, sport dresses, evening dresses, and coats and dresses for street wear, as well as shoes

The Magic Styles of Spring!

Displayed on Live Models at the Style Show, Friday evening, February 25.

EDWARDS' TOGGERY

STYLE SHOW

Presented by

Home Economics Department
Under the Direction of
Miss Ruby Jane Simmons

at the High School Auditorium
Friday, February 25, 7:45 p. m.

PROGRAM

1. School Scene by Home Economics Girls
2. Fiddlers Contest
3. Street Scene of Style Show
4. Virginia Reel by 24 Little Folks
5. Sport Scene—Beach Scene
6. Scotch Premier Quartet
7. Garden Party of Style Review

and hats for all occasions.

In addition Hurn's will also show a number of men's models, wearing the latest in spring suits, hats, and shoes.

According to R. P. Hurn, manager of the store, the new spring styles are especially attractive and are introducing a number of models not here-to-fore shown.

SHOW LADIES' SUITS

Edwards' Toggery Introduces New Fad in Ladies' wear From East

Ladies' suits, the newest of fashion's edicts, will be displayed in the Style Show, Friday evening, by the Edwards' Toggery.

Coming back, after several years absence from milady's wardrobe, the suit strikes a distinctive note in the new styles of the year, and are attracting much attention in the east.

Mrs. Edwards, who has only recently returned from the eastern markets, has purchased a number of these suits, which will be displayed in the show. In addition, Mrs. Edwards is presenting a number of evening gowns, as well as sport coats, dress clothes, and new spring millinery.

PAINT SPECIAL SCENE

Art Class Does Hand Work on Preparing of Curtains for Scenes in Show

The art class conducted by Mrs. Frankie Maxwell has finished the work of painting several of the large sets which will be used in the Style Show, Friday evening, at the high school auditorium.

One of the sets painted by the class is a beach scene, showing the broad expanse of water, with the sand beach, bathing figures and all. The work was done by members of the class under the direction of Mrs. Maxwell.

Those composing the class are Miss Mildred Jacobson, Miss Delores Balzer, Miss Laura Pursell, Miss Bonnie Apple, and Miss Ruby Jane Simmons. The setting was designed and the work supervised by Mrs. Maxwell.

Buy White Deer Paper

Then Nunn-Warren Publishing company, publishers of the Berger Daily Herald, Hutchinson County Herald, Stinnett; Panhandle Herald and Pampa News, added another newspaper to their growing list last week when they purchased the White Deer Review.

According to these successful publishers, they make it an iron clad rule to never start a newspaper or buy a newspaper in a town that has two papers.

"So limited," states the firm in an editorial in the Panhandle Herald, "are the opportunities for two papers to succeed in a city that the firm does not even consider going to a city already served with publications, but prefers to buy established institutions or to start papers in communities not already served."

Office Supplies at Herald Office

Exhibit Men's Models

Perryton Mercantile Will Show Both Men's and Ladies' Spring Clothes

Men's spring clothes will be displayed by the Perryton Mercantile company, as well as new spring wear for ladies, introducing a new feature in the fashion show, Friday evening.

Attractive spring suits, hats and shoes from the men's ready-to-wear department will be exhibited in the fashion parade, displayed on living models.

The women's ready-to-wear department will also be presented with a number of the latest styles, featuring the new three piece costume. Delightful new designs and colors are the keynotes of the new spring wear.

WHO IS THE RICHEST?
"TWIN" AUTOMOBILES.
WHEN GABRIEL BLOWS—
A FLYING OFFICE.

Who is richest among the men that have piled up millions in this country? Is it Rockefeller, with billions of barrels of oil underground—he has no idea how many—and the world's most wonderful business organization above ground?

Is it Ford, with his hundred millions a year profit, gigantic plants and a brain full of industrial ideas, or is it some little man, of whom nobody has heard, hatching a thought destined to be worth more than all the automobiles and all the oil?

The latest idea in buying cars is the "twin car" plan. "One car to a family" is old-fashioned. You might as well say, "One pair of wings to a nest full of birds." What would

the other birds do while one was flying?

Unlike horses, automobiles do not stop when not working. The "twin car" idea will spread, especially in suburbs and country where the garage problem is simple. One car for the young people, another for older people. The crop of young people, produced by a population of 118,000,000 will keep calling for new cars as it reaches the license age, and will get them.

Mr. Sinclair Lewis, author of several books, once from a Western pulp magazine challenged God to strike him dead with lightning. Divine Providence, perhaps, having more important things to attend to, ignored the challenge.

Now Mr. Lewis, writing a novel to "expose" and attack clergymen, reminds you of the little boy who, "didn't say my prayers last night, ain't going to say them tonight, and then, if nothing happens, I'll never say them."

Mr. Lewis' novel about the Rev. Dr. Gantry begins "Elmer Gantry was drunk." If Mr. Lewis isn't struck by lightning this time, he may conclude that Providence is afraid

of him. Then, what a surprise when Gabriel's horn blows and "Everybody get up!" rings over the earth.

Professor Sauerbrucht tells German doctors that forty per cent of consumptives are cured entirely and another forty per cent returned to useful work by surgical operations on the lungs, cutting out lung patches infected by tuberculosis. The idea is not new. Several years ago this writer saw such an operation performed by Dr. Carrel, the great French surgeon, at the Rockefeller Institute, in the presence of John D. Rockefeller, Jr. The operation was performed on a dog.

Air under high pressure was pumped into the lungs of the dog to prevent collapse of the lung cells, which naturally would be caused by atmospheric pressure on opening the lung cavity. The operation was perfectly successful, the dog never knew what happened, felt no pain. Dr. Carrel, so far as known, has not yet decided to perform the operation on human beings. It appeared to be simple, took only two or three minutes and less than an ounce of blood was lost.

Boston young women taking a course in secretarial duties write the Ten Commandments in the order of their importance as they saw it. Two put last "Thou shalt not kill." The majority vote put "Honor thy father and thy mother" first, an excellent selection, and, last of all, "Remember the Sabbath Day to keep it holy," which is in keeping with the times.

Standard Oil has bought a new all metal monoplane, with three engines doing 100 miles an hour, carrying twelve passengers. The Standard Oil airship will be a flying Standard Oil office, with typewriting machines, table and cots to be used by executives and their secretaries.

That brings real American flying nearer.

Dr. Frank Crane Says

FOURTEEN ERRORS OF LIFE

A London judge has listed what he considers the Fourteen Great Mis-

takes of Life, as follows:

1. It's a mistake to attempt to set your own standards of right and wrong and expect everybody to conform to them.
 2. It's a mistake to try to measure the enjoyment of others by your own.
 3. It's a mistake to expect uniformity of opinion in this world.
 4. It's a mistake to look for judgment and experience in youth.
 5. It's a mistake to endeavor to mould all dispositions alike.
 6. It's a mistake not to yield to unimportant trifles.
 7. It's a mistake to look for perfection in our own actions.
 8. It's a mistake to worry ourselves and others about what can not be remedied.
 9. It's a mistake not to alleviate, if we can, all that needs alleviation.
 10. It's a mistake not to make allowances for the weaknesses of others.
 11. It's a mistake to consider anything impossible which we ourselves cannot perform.
 12. It's a mistake to believe only what the finite mind can grasp.
 13. It's a mistake to live as if the moment, the time, the day were so important that it would live forever.
 14. It's a mistake to estimate people by some outside quality, for it is that within which makes the man.
- Lists have been made by all sorts of eminent men, including Washington and Franklin, for the conduct of life, and they are all more or less useful for the ordinary man.
- The art of life is steering the middle way, avoiding errors on both sides, and it is interesting to have these reefs pointed out upon which many a human bark has been shipwrecked.
- It may pay us all to examine this list of the London judge and see wherein we have been mistaken in the past and to avoid mistakes in the future.
- There is nothing positive about the list. They are all things not to do, and not things to do. But the avoidance of these mistakes may save us much embarrassment.
- Life is a perilous path at best and to make the journey safely from the cradle to the grave involves much circumspection, and perhaps this list may be of help.

E. A. HILDERBRAND, Secretary

INCUBATION OF HEN'S EGGS
By R. J. Cook

There are many factors to be noted in the incubation of baby chicks. If hatching either by natural or artificial means the first thing to do is to select the eggs to be hatched. Fertile eggs from vigorous breeding stock are necessary in order to obtain good hatches. If possible the breeders should be allowed free range for they are more apt to get the foods required for the structure of good hatching eggs.

Small eggs are never desirable for hatching purposes, nor should eggs be used which have either a thin shell or a porous shell. Eggs should never be set if they are over two weeks old, but should be set while fresh.

A uniform flock may be obtained by selecting uniformly good sized eggs of the same color.

In freezing weather eggs to be used for hatching should be gathered two or three times a day so as to prevent their being chilled.

Then properly constructed nest should be provided. A nest should measure fifteen inches every way, so as to give the hen plenty of room. A board six inches high in front of the nest prevents the nesting material from falling out.

Before the nesting material is placed in the nest, it is better to put from three to four inches of damp earth or a piece of grass sod in the bottom of the nest to prevent moisture. The hay, chaff, straw, or whatever material is available should then be arranged in the nest and packed down well and should be lower at the center than at the edges.

Before the hen is given the nest, she should be thoroughly dusted with insect powder. She should again be dusted after sitting about eighteen days, so as to prevent any insects being present when the chicks are hatched.

Although it is a little more troublesome, the hen should be shut in the nest with a wire covering and

put in a quiet place where she is not to be disturbed.

Once each day, food and water should be placed near the nest, the covering removed. The best feed for sitting hens is whole corn or wheat.

After setting, the eggs should be tested on the seventh day and again on the fourteenth day. One should never place the eggs in water to test them by the movement of eggs in water, for the water removes the covering of mucus from the shell and thereby permits the eggs to spoil much more readily.

The proper way is to test in a dark room with a metal chimney tester, any other good available tester. To test, the egg should be held with the larger end up so as to bring the air cell within the shell. If the eggs are infertile it will appear perfectly clear, while if it is fertile from Edward has started germinating it will show a dark spot, known as the embryo. If a mass of blood veins run from the top in every direction. Some partially germinated eggs which have been infertile will show a ring of blood veins and some merely a faint line. They vary in this respect.

Everyone should take great care in the incubation of young chicks for the poultry and their progeny to make up a large percentage of the foods used in the world, when we think of that good old chicken, we should even take a greater interest.

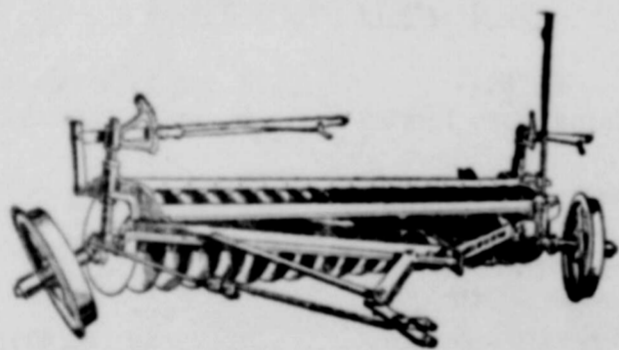

Mr. and Mrs. C. B. Rogers are proud parents of a boy born Sunday.

Building operations in the United States during 1923 were the largest in history, totaling approximately \$6,850,000,000, according to published statistics.

More people are killed in buildings than with gunpowder, and carelessness with powder and dynamite is a serious menace.

International Sunday School Lesson

by KEITH L. BROOKS

(Managing Editor: "The King's Business," Secretary Correspondence Courses of the Bible Institute of Los Angeles.)

For February 27, 1927

Heart of the Lesson MAKING THE COMMUNITY CHRISTIAN

Gal. 5:13-25

These are the days when many people clamor for freedom—personal liberty. They mean by this—license to do that which is contrary to the laws laid down for the good of humanity.

The believer has been "called into liberty" (v. 13). Christian liberty, however, is not the liberty of the flesh but the Holy Spirit. Love will therefore be the master principle that governs the exercise of our liberty.

There is a great difference between freedom to do what the flesh wants to do and freedom to do what we ought to do. "Use not your liberty for an occasion to the flesh, but by love serve one another." Paul defines the high level Christian life in 1 Cor. 8:13: "Wherefore if eating meat make my brother to offend, I will eat no flesh while the world standeth." It is not always a question of what we would feel free to do on our own account, but what the Spirit make us free to do in relation to others who are weaker than we are.

We must always be actuated by the law of love (v.14). Though Christ has freed us from the curse of the law, He has not freed us from the obligation of it. The Gospel is a "doctrine according to righteousness" (1 Tim. 6:3). The Spirit enables us to fulfill the moral demands of the law for He "sheds abroad in our hearts the love of God" (Rom. 5:5).

It is the lack of this love that causes Christians to "bite and devour one another" (v. 15). What a different world it would be if, instead of snapping at one another on account of difference of opinion as to what is consistent, all should set themselves against sin in themselves.

How shall these questions be solved? "Walk in the Spirit" (v. 16). He who yields his life wholly to the Spirit has brought in the Holy Spirit as his resource, and the score must be in God's favor. There can never be an increase of Christ in me until there has been a decrease of self-will.

"This soul of mine must rule this body of mine or quit," said John Foster. The life of a Christian is in an even higher sphere than this—for he realizes that his spirit shall be ruled by the Holy Spirit. This is the "victorious life" in a nutshell.

Prohibitions are negative. You can't kill an appetite by starvation, but you may disarm the flesh by living in a higher sphere.

"The flesh lusteth against the Spirit" (v. 17). Naturally, the devil stirs up the carnal inclinations to oppose the will of the Spirit. Thus it comes to pass that unyielded Christians "cannot do the things that they would."

Let no one cherish the notion that to become a Christian is to be rid altogether of the oppositions of the flesh. In the renewed man there is a struggle unknown to the unregenerate. War is declared between the Spirit, then new tenant, and the old nature, which persists in occupying as much of the house as its proprietor will permit.

The half-way Christian life is the hardest life, because a person is trying to do what he cannot do. The full-surrendered Spirit-filled life is easiest, because the Spirit of God takes us the battle and ejects the sinful intruders for us.

The conquest over the sensual is not gained by self-repression but by a new affection—the love of Christ. The way to make a sour beverage sweet is not to try to eradicate the sourness, but to put in sugar.

We have just read the "lusts of the flesh" (v. 16). Now we have the catalogue of the "works of the flesh"

(vs. 19-21). One describes the inner motion; the other is the display of effects. What a person does testifies to what he is.

"Every man blameth the devil for his sins," says an old writer, "but the great house-devil of every man, that eateth and liveth in every man's bosom, is that idol—himself."

Seventeen sins are listed. It will be well to look into the meaning of each word carefully. He who has light views of sin can never have great thoughts of God and Christ. Sin is a brat that no one cares to have left at his door. "Let him that is without sin cast the first stone." The first essential in victory is to call sin S-I-N.

Those whose practice is the things of this category of vs. 19-21 give evidence that they are in the bondage of sin, and have never been born into God's kingdom (v. 21). These sins are the pioneers of hell.

What is the evidence that one has received and has resigned his life to the Holy Spirit? It is FRUIT! The word is singular (compare "works"). Carnality tends to numerous distractions, but the Spirit's inworking is one harmonious whole. "Works" suggests personal activities. "Fruit" suggests a power that works within and expresses itself outwardly.

Note three threes. We have a threefold relation to the universe—to God, to the world, to self. Instruction in righteousness falls into three categories (Tit. 2:12) "soberly (as to self), righteously (as to fellowmen) Godly" (as to God).

The first three products of this list (vs. 22,23) are Godward; the next three manward; the last three, internal graces of the Spirit.

1. Love, foremost of Christian graces, derives its power from being first poured out upon Christ. Joy, the product of love, gives new glow to the life. Peace, the holy calm breathed into the soul through acceptance of God's Love-Gift, is the foretaste of the eternal Sabbath of God.

2. Long-suffering, the broad shoulders on which we "bear all things." Gentleness, the thoughtful insight learned in the school of Christ, which leads one to lovingly minister to others. Goodness, the honest, generous face, the hand of charity.

3. Faith, the wonderful quality that unites man to God, and in turn to his fellows. Meekness, the quiet mind, the willing self-effacement, which is a mark of real Christian manliness and strength. Temperance, self-control, the guarded step that keeps the way of life.

Against living this kind of a life, "there is no law" (v. 23). This is the fulfillment of the requirements of

God. The man who bears the golden fruit proves that he has reckoned with "the old man" in the position of the One Crucified.

We can keep the old self life in the place where Jesus put it—the place of death—by walking in the spirit (v. 25).

Pith and Point

The liberty we enjoy as Christians is not licentious liberty. If we do not have the power of the Spirit, it is because we are unwilling to pay the price of the Spirit. The flesh is the angle-worm on the devil's hook. You can't help the devil's coming down your street, but you can keep him from stopping at your house, if you'll make the Holy Spirit your door-man.

Some sell themselves outright to the flesh; others rent themselves out by the hour.

If you do not want the fruits of sin, stay out of the orchard.

We take sides with God against sin just in so far as we love Christ. The devil's chloroform is these days is the denial of the reality of sin.

Suggestive Questions
What is the badge of a true believer? (Jn. 13:5).
When is the Holy Spirit received? (Jn. 7:39; Eph. 1:13,14).

Is there any one specific sin by which believers may know that they have the Spirit? (1 Cor. 12:4-11).

What are the personal conditions of the Spirit-filled life? (Rom. 6:16, 12, 13; 12:1).

Is crucifixion of the flesh a self-work? (v. 24; cf. Rom. 1:1). Did Christ crucify Himself? (Heb. 9:14).

Did Paul reckon crucifixion of the self life a past or a present work? (Gal. 2:20; 6:14).

Golden Text Illustration
"Have no fellowship with the unfruitful works of darkness, but rather reprove them." (Eph. 5:11).

A ship was once wrecked on the Irish coast and no one could understand how the careful Captain could have gone so far off his course. A diver was sent down to investigate. He found inside the compass box the

small point of a steel pocket knife used in cleaning the compass the day before the wreck. It made a false guide and plunged the ship into ruin. How often has the world been startled by the sudden downfall of some supposedly good man! There are underground tunnels leading to such wrecks. Sin bites a man's judgment. By trying to have fellowship with one little sin, he is gradually steered away from the path of God, and before he knows it, he has plunged over a precipice. The trouble with a little sin is, like the tiny bit of knife blade, it turns the life into a channel that leads to more sin and finally to wreckage.

About Your Health

Things You Should Know

by John Joseph Gaines, M.D.

DANGER SIGNALS

Since my last letter to this paper, I have seen the announcements of at least five deaths—the victims ranging in age from 51 to 66 years, all of them business men. The cause of death in each report was given as "heart disease." What has brought about this state of affairs? What may take place in the next decade, among our business men if this goes on? The question is deserving of our most profound study.

AMETHYST GIFT DAYS

February is the month when each gift of jewelry should bear some imprint of the Amethyst, since this is the birthstone of the month.

W. H. DUNLAVY, JEWELER

From an experience of almost thirty-five years, I am led to believe that the heart is one of the most durable, lasting organs of the human body; it is capable of enduring more punishment—and, undoubtedly gets it. Where? Not from intense physical effort; hearts fail in the swivel-chair, —at the steering-wheel of the car. Pugilists never drop dead from heart disease—at least I never heard of one doing so; heart disease is rare among the laboring class.

The greatest enemy of the heart is, the overloaded stomach—the stagnant blood-stream—the rotten artery. Keep away from these and you will have escaped nine-tenths of the terrors of death from "heart disease." It can only be done by moderate indulgence in food of the plainest variety—and, drinking plenty of pure water; commercialized drinks, let them be water or what-not, should be thoroughly investigated as to their fitness for human consumption. "The

old oaken bucket that hangs in the well" supplies about the safest beverage known.

Tobacco is a genuine poison,—but don't be horrified, when I say Frankfurters and kraut may kill a man quicker if over-indulged. I am loath to call the faithful Irish potato a silent assassin, but I am tempted to do so sometimes.

For latest styles and patterns in men's and boy's spring and summer dress caps go, to Rifenberg's Store. 3-21-c

RHEUMATISM

While in France with the American Army I obtained a noted French prescription for the treatment of Rheumatism and Neuritis. I have given this to thousands with wonderful results. The prescription cost me nothing. I ask nothing for it. I will mail it if you will send me your address. A postal will bring it. Write today. PAUL CASE, Dept. 9-547, Brockton, Massachusetts.

GROCERIES

Talking Shelves

Housewives worried to distraction over "what to have next?" find our shelves of staple and fancy groceries and pure foods suggest many new dishes—and well worth a visit here. Our consistently low prices always are the most agreeable surprise of all.

Makes January Record

Chevrolet Shatters Former January Record by Increase of 30,000 Units

Responding to a winter demand for cars unprecedented in the history of the company, the Chevrolet Motor Company in January again shattered all production records for that month by building 73,676 units, almost 30,000 cars more than were made in January of 1926.

The January, 1925 production in its turn almost tripled the production of January, 1925.

Under the tentative production schedule for February the company will be prepared to make a total of 84,000 units, which would establish a new monthly production record in the history of the company, exceeding even the record monthly output in September, 1925, of 81,153 cars.

The heavy winter production is the result of demand for "the most beautiful car in Chevrolet history" which Chevrolet buyers have made upon the company's dealers since the announcement of lower prices and numerous refinements in the entire

In 1926 the Chevrolet Motor Company led all manufacturers of gear shift cars by building 732,145 cars, an increase of more than 40 per cent over the previous record year. Under a \$10,000,000 expansion program initiated in 1926 the Chevrolet Motor Company is equipped for even greater production during 1927.

The new machinery making this enlarged production possible is completely installed in the various plants of the company throughout the country and all necessary changes of dies and tools have been made to insure uninterrupted manufacturing schedules during this year.

SWAT THE GRASSHOPPERS

I am not highly versed in entomology, but one thing in particular which I have learned since my residence in this county is this, the man who raises the largest crop of hoppers is the one to suffer most from its ravages.

This destruction, however, does not cease on his own premises but by permitting them to propagate along ravines, weed patches, fence rows, and margins of lakes, he furnishes the vehicle for the destruction of his neighbor's crops.

Only recently, the 5th day of February, on a warm afternoon, I had the occasion to cross a line fence on my place. My attention was attracted to some dark little objects bouncing along in the edge of the grass. Upon examination and to my utter surprise, I found that they were nothing more or less than grasshoppers.

They were healthy, plump specimens, though small; a half inch long or better; clumsy and their bodies all out of proportion to their legs. Just an ideal time to fire the grass, for their locomotion was not swift enough to escape the flames.

HAVE YOU SEEN HIM? Helpless Old Dad Asks Aid

A. O. Mixon, of Wilmington, N.C., at home in 1916. A year after the war an old friend said he had seen him in France—on the way to the trenches, he thought, in the Rainbow division. The father, W. J. Mixon, Route 4, Lumberton, N. C., writes this newspaper: "I am old and almost helpless and I want my son. Any information will bring comfort to a lonely man."

This has been an ideal winter for the hibernation of all manner of insect life. The ground has never been frozen under the weeds piled up in many of the fence rows. I know of fence rows in this vicinity that are two and three feet deep in Russian chistles that have rotted down there for years. Visit these the first warm, still day and observe the myriads of hoppers and other insect life.

What this county needs is a vigorous clean-up campaign among farmers. Push it, talk it and apply the torch to every fence row on your own farm. My advice is to do this the first warm days that come along, from about 10:00 a. m. to 3:00 p. m. About these hours, the insects that have lain dormant beneath the rubbish and the surface of the earth, begin to emerge and absorb the penetrating rays of the warm sunshine which will soon invigorate their benumbed bodies and then they will take to wings and it is too late to destroy them with fire. It is by doing so you will destroy their hibernating quarters and expose them to the elements and birds. By all means, let's wage a "CLEAN-UP" campaign on the farm.—W. M. S.

LIVESTOCK SHOW

Panhandle Livestock Association At Amarillo March 1, 2 and 3

The eleventh annual convention of the Panhandle Livestock association will be held in Amarillo, March 1, 2 and 3. President Pat Landergin says that present indications are that this will be by far the largest and best convention ever held.

Reservations have already been received from cattle men in all parts of the nation. The Panhandle Herders association will hold its annual show and sale in connection with the convention. The sale will be on Wednesday, March 2.

Leading cattle men, bankers and livestock experts of the nation will appear on the programs of the banquet and the business sessions of the convention.

The headquarters of the convention will be at the Herring hotel, Amarillo's new million dollar hotel, and the formal opening of the eleven story addition to the Amarillo hotel has been set for Monday, February 28, in order that it may be occupied entirely by the visiting gentlemen.

Free dances will be given to the cattlemen at the Herring and Amarillo hotels on Tuesday and Wednesday nights. Mary McCormick will sing at the auditorium, Tuesday night and the Amarillo Automotive association will stage a big automobile show at the fair grounds during the convention.

The Panhandle Livestock association is recognized as the second largest organization of its kind in the world, and thousands of cattle men, bankers and commission men attend the annual meetings.

MUST PRUNE GRAPE VINES BY MIDDLE OF FEBRUARY

Canyon, Texas—Grape vines must be pruned before the middle of February for best results, according to those in charge of the agricultural department at the West Texas State Teachers college. Grapes bear only on present season's growth, therefore, the more of the vine which is removed in the winter, the greater will be the yield of grapes. In most vineyards only two long limbs, five to ten feet in length are permitted to grow. These are trained to cling to three wires, the middle wire a few inches lower than the two outside

Daugherty Again!!

Former Atty.-Gen. Harry Daugherty, as he approached the New York Federal Court building to face retrial for alleged fraud against the government—and which forced his resignation.

wires, and the vines are run in opposite directions.

If grapes are not pruned, most of the food materials will go to make vines. If they are pruned late in the spring much of this food material is lost by "bleeding." While it is advisable to prune trees in the fall or dead of winter, most fruit trees can be pruned up to the time they begin to put out spring buds. West Texas offers many advantages to people who wish to grow grapes, the greatest of which is the number of days of sunshine. Grapes are not harmed by fungus diseases to any great extent in sections with semi-arid climates. This is one reason why grapes are persistent yielders

Lumber-Timber-ingles

AMARILLO AUTO SHOW

One Hundred Automobiles Will Be On Display at Auto Building March 1, 2, 3.

The Amarillo Automotive association will stage a three day automobile show here on March 1, 2 and 3 during the convention of the Panhandle Livestock association.

The auto show will be held in the automobile building at the Tri-State fair grounds, and more than 100 of America's finest automobiles will be on display, including a number of new models that have never before

been exhibited in the southwest. The association has arranged an extensive and interesting entertainment program including class vaudeville to entertain crowds that are expected to fill the building during the three and nights.

Automobile dealers of the Panhandle have been invited to work with the local association in making the show a big success.

Beautiful console cabinets given free on February 26 at wards' Toggery. A ticket gives every \$1.00 purchase.

YOUR MONEY GOES FARTHER THIS WAY

People maintain checking accounts in this bank because they want to get the greatest value for their money.

Their money goes farther that way. They get more benefit from it when they maintain a reasonably large average balance. Such a balance provides them with sufficient funds for emergencies, entitles them to greater service from this bank and builds up credit so that, if necessary, they can secure loans in proportion to their needs.

Maintain a checking account here with a reasonably large balance. It will help you get the most from your money. And you'll be entitled to the maximum of mighty valuable service from this bank.

PERRYTON, TEXAS

SERVICE SAFETY

A Finer DODGE BROTHERS MOTOR CAR

New in Beauty, Comfort and Performance — Still more Dependable

Now ready for your inspection and personal test—a finer Dodge Brothers Motor Car than ever before, due to many new and vitally important improvements. So important, in fact, that only a personal inspection will give you an adequate idea of what further engineering advances and greater production have accomplished in extra values. Read this partial list of the latest improvements and then investigate:

- A New Clutch—Simple, Prompt, Sure and Silent.
- Softer Pedal Action
- Easier Gear Shifting
- New Body Lines—as smart and graceful as any on the boulevards
- New Color Combinations of Striking Beauty
- Still Sturdier Bodies
- Seats Re-designed for greater comfort
- New Silent-Type Muffler
- Improved Universal Joint, Propeller Shaft, Differential and Axle Shaft—creating greater sturdiness and resistance to wear
- And Many Other Smart New Refinements of Detail.

Remember, too, that all these are in addition to many important improvements recently announced, including the five-bearing crank shaft and the two-unit starting, lighting and ignition system that inspired owners to new expressions of enthusiasm and satisfaction.

Look at these big roomy cars and you will realize that it is not possible to invest more wisely in dependable transportation.

ON COUNTRY SCHOOLS TO THE HONORABLE SCHOOL BOARD AND VOTERS OF THE PERRYTON INDEPENDENT SCHOOL DISTRICT—

It is needless for me to say that the country people of this district believe they are not getting their proportionate part of the money voted for the erection and upkeep of the schools which their boys and girls attend. The prominent citizens of Perryton admit this in their public articles and the results of the recent election clearly demonstrate this fact.

Let us notice the following figures: the vote for and against the bonds at the recent election: Ochiltree none for and 13 against; New Hope, 3 for and 23 against; Lone Tree, 3 for and 15 against; Farnsworth, 5 for and 22 against; Wawaka, none for and 42 against; making a total of 11 for 115 against. These figures prove the fact, beyond a doubt, that this district is divided. The line of demarcation is sharp and has been so since the forming of this district against the will of the country people. The people of the rural communities from the time of the organization of this district have been dissatisfied.

I have taught in the rural schools from almost the time of the organization of this district to the present time and am in a position to understand the attitude of the people among whom I work. Surely we all realize that as long as the present conditions exist, we will not be able to accomplish as much as we should toward the goal toward which we are all striving, A Better School System.

In the last five years, I have been instrumental in raising, by means of box suppers and programs, \$616.00 for school supplies, playground equipment, basketball goals, etc., for the schools which I have taught. The teachers of the other rural schools have resorted to the same plan. There are 5 two and 3 three teacher schools in this district. At this rate they have raised \$3,080.00, not including the amount raised by the several one-teacher schools. This money has come largely from the country people, who furnish at least 70 per cent of the taxes. We have voted a quarter of a million dollars for building purposes

and the four new buildings placed in rural communities cost not more than \$20,000.00. When we look at the situation from the farmers' viewpoint, we can easily see why there was but 11 votes for the bonds in the recent election.

It is not my purpose to knock the town school. We need good schools in Perryton and it is a fact that we do have a good school in Perryton.

But to have a good school in town it is necessary to have good schools in the country. My plea is not against a good school in town but it is for good schools in the country. If the country schools could be fenced, wells dug and trees planted, the country people would be better satisfied. Certainly no better place could be found for vocational agriculture than at the two and three teacher schools. The country school house is a place around which strong community centers should be developed. If these places could be developed and these improvements placed on the grounds, there would be a better spirit throughout the district. In other words, it would lessen the breach between the town and the country people. Do not the country people deserve this much?

We think, if this could be done, an atmosphere of co-operation would be established between the town and country that would reflect in the lives of our children.

Yours for better rural schools,
SPENCER P. WHIPPO

LONE TREE BREEZES

Mrs. T. S. Pletcher is able to be out again after an illness of six weeks duration.

F. J. Koch and daughter, Anna, attended the all day service at the Full Gospel Tabernacle at Booker last Sunday.

Bessie Gossett of Shamrock is visiting in this community.

"JAZZ" AGE STUDENTS ARE BETTER AT U. OF T.

Austin, Texas, Feb. 22.—After watching the progress of the University of Texas for almost forty years, Harry B. Beck, campus foreman, is convinced that students of this, the "jazz" age, as some are wont to call it, are better than those of the '80's. "The good old days" did not necessarily produce good students, Beck said. In the early days of the institution, it was not infrequently unusual to call in the aid of the Austin police force in quelling the youthful exuberance of students, Beck said. This has not been necessary for many years. Students today on the whole are unassuming and they tend strictly to their own affairs, Beck observed. He has been connected with the University since 1880 when he entered the institution as a student. He was made steward of Brackenridge Hall, the boys dormitory, when it was opened in 1890.

ANSWER TO HERALD'S "WHAT IS IT" QUESTION

A card was received this week by the Herald under a Chicago, Ill., post mark, dated February 18, signed G. L. F., in reference to an article published two weeks ago regarding the use of "is" or "are" in a sentence. The question arose when the Burlington railroad stated in an advertisement that along its right-of-way "is" or "are" produced two thirds

Slated High

Despite evasive denials, report is current that Judge E. H. Gary, head of U. S. Steel, plans to retire in April and that former governor Nathan Miller of New York (above) is to take his place at \$200,000 a year.

of the oats, more than half the corn, etc., in the United States. A number of authorities consulted disagreed on the subject.

G. L. F. diagrammed the sentence in full inserting "are" as the proper verb, and added the line, "This is the way I learned to diagram sentences in Grinnell, Iowa."

Donley Attends Meeting

Spends Week at Chevrolet Convention at Dallas—Thousand Dealers Present

The Chevrolet Motor Company, world's largest producer of gear shift cars, is preparing for the greatest year in its history, according to J. L. Donley of the Perryton Chevrolet company, who has returned from Dallas where he attended convention of more than 1,000 Chevrolet dealers. The meeting was the eighth of a series of twenty-one meetings that are to be held this winter from coast to coast.

Enthusiasm over the Chevrolet outlook for the year and the widespread popularity of cars was evident everywhere. Dealers from all quarters joined in the opinion that the current year will surpass 1926 when Chevrolet established a record in this territory.

R. H. Grant, vice pres. and general sales manager of the Chevrolet Motor company, presided at the business session in the Pantages theater in the afternoon and served as toastmaster at the banquet in the Adolphus hotel in the evening of February 14.

Under Mr. Grant's direction, Chevrolet's tremendous sales plans for 1927 were outlined to the dealers and illustrated in the form of playlets. Assisting Mr. Grant in the conduct of the meeting were: H. J. Klingler, assistant general sales manager; D. E. Ralston, regional sales manager; Felix Doran, Jr., Dallas zone sales manager; C. E. O'Meara, Houston zone sales manager; and W. F. Doyle, Oklahoma City zone sales manager and the following officials from the main office in Detroit: R. K. White, D. G. Frazier, Sidney Crobett, W. G. Lewellen, C. R. Sudmann, Wm. A. Brees, D. A. Nimmicht, and Wm. Holter.

Mr. Donley declared that the Chevrolet Motor company is providing its dealer organization with the highest type of merchandising aid and cooperation. Following the meeting the dealers were guests of the company at a banquet in the Adolphus hotel.

MANY GIRLS ENTER MEAT STORY CONTEST

More than 10,000 high school girls of the United States are entered thus far in competition for university scholarships which are offered as prizes in an essay contest being conducted as an aid to the study of meat in home economics classes. Schools in twenty Texas cities are represented, according to information made public by the National Live Stock and Meat Board. These are Wolfe City, Bowie, Corsicana, Conroe, El Paso, Victoria, Ballinger, Ft. Worth, Tyler, Brownwood, Teague, Belton, Hallettsville, Memphis, Marshall, Greenville, Hempstead, Dallas, Denison, and San Antonio.

The event is known as the National Meat Story Contest and is held annually under the auspices of the National Live Stock and Meat Board with the co-operation of educational institutions of the country. The present contest is the fourth.

Stories or essays prepared by contestants will be judged by a committee composed of prominent home economics authorities. Dr. Louise Stanley, chief of the bureau of home economics, U. S. Department of Agriculture, has headed this committee in the three previous contests and may serve again in this capacity it is said. March 15 is the closing date.

A number of cash prizes are to be awarded in addition to the scholarships. Awards have been arranged so that girls in every state will be among the winners.

High schools are being added to the entry list daily, said the Board's announcement. It is predicted that the final enrollment will far exceed that of the previous years. The number was given as about 10,000 for last year.

College a-la-Spud

Miss Garnet Holman of Mt. Airy, Ia., has worked her way through Simpson (Ia.) college by peeling potatoes in a dormitory. "2,000 bushels of them in 4 years," she says. When she leaves in June a gold potato is to be awarded her by the school.

S. C. Brillhart of southeast of town was trading here on Tuesday of this week.

Get THE HABIT. Use a Stylo Pencil Pen. Just like writing with a pencil. You can get them at the Stewart Printing Co.

DID YOU EVER STOP TO THINK?

By Edson R. Waite, Shawnee, Okla. THAT now is the time to advertise not once in a while but all the while. Newspaper advertising is the one sure way of catching the eyes of the public.

THAT the latest for everyday use, merchandise of known dependability, merchandise that does its duty well, can always be found advertised.

THAT in the advertising columns of the newspapers you will find offered a careful selection of merchandise scattered thoughtfully through their pages, making it easy for you to select without time or worry at money saving prices those articles of merchandise that you may need.

THAT when you are in a buying mood, no use to tramp miles to find what you want; just read the ads in your local papers and buy where the best buys are.

THAT the business concerns who advertise invite your business and can take care of your every need. No use of tramping around visiting stores who do not think enough to invite your business.

WHENEVER ANYTHING SPECIAL AT VERY SPECIAL PRICES IS OFFERED, YOU WILL FIND IT ADVERTISED IN THE NEWSPAPERS.

MERCHANDISE WORTH HAVING IS ADVERTISED. THE KIND

THAT IS SUPPOSED TO BE "AS GOOD" IS NOT ADVERTISED. KEEP AWAY FROM THE "AS GOOD" STUFF. IT SELLS IS "JUST AS GOOD!"

Mrs. Allen M. Wilbanks, Jr., children, Jack and Miss Trixie, came up from Amarillo Sunday a few days visit with relatives and friends.

Mr. and Mrs. L. S. Hobbs and Lyndon, were here last Saturday in the home of Mrs. H. T. parents, Mr. and Mrs. W. H. T.

Mr. and Mrs. J. N. Conley, have been visiting relatives among Blairsville and other places in Georgia, returned home last Thursday.

C. T. Jackson was in town today from his ranch located west of Ochiltree.

"One of the very uncommon things is common sense."

You are Assured of Plenty of Water all the Year if You Put up a Fairbanks-Morse STEEL ECLIPSE

There is a lot of satisfaction in seeing your tanks brim full of clean, fresh water, especially in the summer time, when Live Stock requires so much water.

With a Fairbanks-Morse Steel Eclipse windmill you will never have to worry. This Mill is thoroughly lubricated by a self-oiling system and is also equipped with Roller Bearings.

There are many points of merit of the Steel Eclipse that we would like to tell you.

The Most Beautiful Chevrolet in Chevrolet History!

-a host of improvements | **amazingly reduced prices!**

Not only does this most beautiful of all low-priced cars offer new paneled and beaded Fisher bodies but also many new fine car features and mechanical refinements such as:

- Full-Crown Fenders**
New full crown one-piece fenders add a note of smartness to the new and beautiful bodies.
- Bullet-type Lamps**
Modish new bullet-type head and cow lamps add a pleasing touch of beauty and style.
- AC Oil Filter**
A new AC oil filter removes all dirt from the oil supply—assuring greater oil mileage and a minimum of motor wear.
- AC Air Cleaner**
A new AC air cleaner safeguards motor parts from excessive wear by removing all dust and grit from air passing through the carburetor.
- New Tire Carrier**
A new tire carrier of improved design is mounted on frame—entirely free from body.
- New Door Handles**
New remote control door handles—located in center of door—provide a beauty and convenience feature—true to the low-price field.
