Surge Of Volunteers Endures Two Weeks After JFK Speech

By ELTON C. FAY
WASHINGTON (AP) — A sustained surge of volunteers has followed President Kennedy's call for a buildup of U.S. armed forces and the announcement of higher draft calls.

Defense Department sources said today a sampling of enlistment trends in widely scattered areas showed there has been no letup in the increased rate that followed the President's speech two weeks ago.

Major emphasis is on the Army which is authorized to add about 133,000 men to build up to over 1 million men.

One of the first efforts will be to train manpower to fill out

ABA Studies Ways To Speed Justice

By RAYMOND J. CROWLEY
ST. LOUIS, Mo. (AP) — The American Bar Association, a bill delayed in its work by lawyers like jailing, today faced the question: How to speed up justice and get a decision before litigants pass on to their next rewards?

The ABA, in the second day of its 44th annual convention, had before it:

1. A revolutionary suggestion by magazine editor Henry R. Luce that judges get up early and open shop at 9 a.m. instead of the immemorial 10.
2. This idea produced only a polite, non-committal chuckle from the lawyers at a banquet Monday night.
3. A dark hint from James M. Landis, White House advisor, that "vested interests" were hamstringing President Kennedy's plan to speed up the slow-motion

Rites Today For Infant

Graveside rites were to be at the Snyder Cemetery at 2 p.m. today for the infant son of Mr. and Mrs. James Edward Simmons of 1509 Avenue R. Rev. Jack Dean, pastor of the Northside Baptist Church, was to officiate.

Burial was to be in the Snyder Cemetery under the direction of Bell Funeral Home.

The child was born at 6:30 p.m. Monday in Coggell Hospital.

He is survived by his parents, his paternal grandparents, Mr. and Mrs. W. A. Simmons, and his maternal grandparents, Mr. and Mrs. Jack Crowley, all of Snyder.

Hijackers Reported Cooperative

EL PASO, Tex. (AP) — Two Arizona hijackers today were described as quiet, cooperative prisoners with healthy appetites although they face possible life imprisonment after a thwarted attempt to deliver a Continental Airlines jet to Cuba.

Leon Bearden, 38, and his son, Cody, 16, kept in separate cells in the county jail here, showed little emotion as they received copies of the indictment handed down Monday by a federal grand jury.

The indictment charged the Beardens, of Coolidge, Ariz., with kidnaping members of the plane's crew and transporting the aircraft, crew and hostages across state lines. They will be arraigned in U.S. District Court at 9:30 a.m. Thursday.

The prisoners were not allowed to talk with newsmen but jailers said they had no trouble with the Beardens. They said neither the father nor son had any conversation except with investigating officers.

Held on \$100,000 bond each, they probably will be brought to trial soon after Labor Day.

A fine grade of canned green peas is worth using when the vegetable is to be drained and added to a salad.

Coast Gets More Rains

BY THE ASSOCIATED PRESS
Thunderstorms continue to concentrate on the Texas coastal country.

Early Tuesday a line of showers dampened the Victoria area. During Monday showers fell at Beaumont and Corpus Christi. College Station had the heaviest fall, 1.24 inches. A trace of rain also fell at San Angelo.

Elsewhere over the state early Tuesday skies were clear to partly cloudy. Temperatures at dawn ranged from a cool 64 at Dalhart

How To Hold False Teeth More Firmly In Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little **FASTTEETH** on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No sticky, gummy paste taste or feeling. Does not sour. Checks plaque odor (denture breath). Use **FASTTEETH** today at drug counters everywhere.

Optimists In Session Here

The Snyder Optimist Club met Monday night in its regular session at Sallie's Restaurant, with club president Bill Teaff presiding.

Discussions centered around the inter-club visit to San Angelo of the past Friday, which was attended by members Teaff, Shelby Coker, and Bill Woods.

Tommy Ivson was appointed general project chairman in charge of overseeing and planning the club - sponsored trip of approximately 100 local grade school age boys to Dallas on September 18 when the Dallas Texans open their American Football League campaign in the Cotton Bowl against the Los Angeles Chargers.

Moore Rites Thursday

Time for funeral services for Mrs. Daisy Ella Moore, 71, has been changed to 10 a.m. Thursday.

Rites will be conducted at the Northside Baptist Church with Rev. Jack Dean officiating. Burial will be in the Snyder Cemetery, under direction of Bolger Funeral Home.

Mrs. Moore, of 2006 Avenue N, died at 6:05 p.m. Sunday in Coggell Hospital.

Survivors include two daughters, Mrs. Louise Hoyle of Snyder and Mrs. Theima Tallis of Oakley, Calif.; two sons, Raymond A. Moore of Abilene, Ark., and George B. Moore of Harvard, Ill.; one sister, Mrs. Annie Johns of Van Nuys, Calif.; 11 grandchildren and seven great-grandchildren.

One Vacancy At Hermleigh

HERMLEIGH — Hermleigh Schools have one vacancy on the faculty, Sept. Curtis Wise reported.

Wise said a teacher of commercial subjects is needed for the Hermleigh High School, and that he hopes to fill the vacancy before the beginning of the new school term on Aug. 29.

Applications for the post may be forwarded to Wise at the school.

Miss Carpenter To Speak At Green Hill

Karen Carpenter, daughter of the Rev. and Mrs. O. D. Carpenter, will speak at the 7:45 p.m. service Wednesday at Green Hill Baptist Church.

Miss Carpenter, whose father is pastor of Avenue D Baptist Church, returned recently from a tour of the Orient with the Texas Baptist Student Union Choir. She will present a report on the trip at the Green Hill church tomorrow night.

No Such Place?

WASHINGTON (AP) — From the weekly news letter of Sen. Karl Mundt, R-S.C.:

The Post Office Department has a little stamp which is used in returning undeliverable mail to a sender.

"One such letter I sent a constituent in Westinghouse Springs, S.D. This past week was returned from the regional office with a checkmark behind the No such post office in state designation.

"I can think of some 1,500 individuals who will take immediate issue with that designation. They receive their mail at the Westinghouse Springs post office."

BIRTHS

Mr. and Mrs. Wayland Cody, Post Road, are parents of a 7 lb. 5 oz. son born at 10:18 a.m. Monday at Coggell Memorial Hospital.

Blueberry Cupcakes Upside-down

By CECILY BROWNSTONE
Associated Press Food Editor

Have you ever made a blueberry upside-down cake?

Once we tried this way of using the fresh cultivated berries, and found that the fruit with its cake topping turned out of the pan as well as the usual canned fruit used for this dessert, it became one of our annual summertime specialties.

This year, instead of making one big blueberry upside-down cake, we prepared the dessert in cupcake form. These individual cakes are convenient because some of them may be eaten right away, others may be refrigerated and served a few days later. When we are able to save some of these cupcakes — not always possible — we always reheat them before serving.

When it comes to putting the fresh berries on family menus, we probably don't need to remind you that they are delicious on ready-to-eat crisp cereal. This way, our family likes to add brown instead of white sugar to the cereal and berries.

We also like to use the large cultivated berries in fruit cups and salads because in addition to adding their good flavor, they contribute a particularly handsome appearance. Sometimes we mix the berries with canned pineapple chunks and their syrup. So sometimes we use fresh pineapple rings (or the drained canned ones) and arrange them on salad greens with the blueberries; homemade mayonnaise or a sour cream dressing (real orersatz) are detectable with this combination.

If your family dotes on pancakes, don't let the summer pass without adding some of the fresh blueberries to a batter. Serve these with crisp bacon or fried ham some Sunday morning when you have time to lol over brunch.

BLUEBOTTOM CUPCAKES

- 1/2 cups blueberries
 - 8 tablespoons sugar
 - 1 cup sifted flour
 - 1/2 teaspoon baking powder
 - 1/2 teaspoon salt
 - 1/4 cup shortening
 - 1/2 cup sugar
 - 1 teaspoon vanilla
 - 1 egg
 - 1/4 cup milk
- Wash and drain blueberries; mix with 8 tablespoons sugar; divide equally into 8 buttered 6-ounce custard cups. Sift flour, baking powder and salt together. Cream shortening, 1/2 cup sugar and vanilla; beat in egg thoroughly. Stir in sifted dry ingredients alternately with milk; mix only until smooth. Spread batter over sugared blueberries. Bake in hot (400 degrees) oven about 20 minutes or until cake tester inserted into center of cake topping comes out clean. Allow to stand on wire rack in cups until warm; turn out. If any of the blueberries remain in bottom of cups, remove with spatula and spread over berries. Serve at once. Delicious served with vanilla ice cream or whipped cream. Makes 8 servings.

A Fable: The Owl Always Hoots Twice

THE OWL HOOTS TWICE AT GATFISH-BEND, By Ben Lucian Berman.

This is the third in the Catfish Bend series, an animal fable told by the mayor of the community, a raccoon.

Being a fable, it naturally develops on the two levels of animal adventure and human connotations.

It is the story of a renegade gray fox who ingratiated himself with the animals of the Bend and then brought in gangster rats to help him take over the place.

There is a pompous eagle who turns out to be an appeaser when the fox and the rats break the truce between the animals and the birds. There is a black snake who is a cliché — quoting hero, but he manages to stick with the mayor right down to the almost fatal end. And there is a little bat who is terribly upset because he isn't sure whether he is a bird or an animal, and doesn't know which side to help.

Finally at the moment when the animals led by the wrong leaders are about to overcome the birds, a pack of tomcats summoned from the outside by the raccoon makes quick work of the bad leaders. The Bend's animals come apologetically back to the raccoon and want him to lead them again. So the animals and birds make peace once more.

You can figure out the allusions. Miles A. Smith

W. R. Burns' Return Home From Vacation

Mr. and Mrs. W. R. Burns of Route 3, have returned from attending the wedding of their granddaughter, Glenda Clyatt at Phoenix, Ariz.

Accompanying the couple were their son, Mr. and Mrs. Alton Burns and daughter of Odessa. Following the wedding the two couples went on a sight-seeing tour, visiting such places as Sunset Crater Museum, Hoover Dam, Lake Mead, Las Vegas, Nevada Grand Canyon and Ruidosa, N.M.

Everyone's hair is constantly facing a double assault from dirt. While your scalp is secreting oil and perspiration from underneath, dust and soil from the air are also setting on your hair from above. This double threat is a double reason why you should carefully shampoo at least once a week — with plenty of sudsy lather, followed by thorough rinsing.

An all-washable room of his own gives a child rightful freedom. Gay washable paints, fabrics, and plastics are practical even in light colors.

Hinshaw's HOUSE OF FLOWERS

HI 3-9700

Credible New Version Of A Tough Old Theme

A TRIP INTO TOWN, By Michael Rubin.

The novelist who writes about the younger generation and its perennial search for "freedom" has a delicate task, for at the slightest sign his rapport is slipping, he is betrayed.

Perhaps because his age was only 26, Rubin maintained his rapport very well in this story of three college students who have come into Manhattan from Westchester and Long Island, feeling uncomfortable about their bourgeois, well-to-do families back home. All three happen to be Jewish, a fact which increases their sensitivity to the slings and arrows of university life.

The story is told by Steven, but the key character in this book is Suki, a girl with a compulsion to rush into silly, dramatic and exuberant situations in the belief that this is "Life."

Even as a freshman, Suki is the type who shows up in a purple leopard, or disappears for lost weekends with strange people or gets a summer job on an excursion steamer. She is forever chasing the rainbows of exotic experiences or pseudo-sophisticated an-

tics. And, of course, always needing someone to comfort her when these bizarre experiences blow up in her pretty face.

At first her fallback and foil is Esther, whom Steven has known back in Westchester County, the conforming type that Steven is anxious to avoid. And then Steven himself becomes Suki's rescuer and comforter, all the while resisting the inevitable lure, until he finally realizes he is in love with her.

Suki's pursuit of the exhilarating hazards of life goes too far, inevitably, when she becomes entangled with a faculty member who has just written a best seller. But that doesn't mean she ever is going to settle down. And Steven mercifully is spared the fate of marrying a femme fatale, modern style.

For a first novel, this is better reading than you usually find. It has a few rough spots, but the characters are true enough to be credible. For tackling a theme that has defeated more experienced writers, Rubin gets a gold star.

WOMEN

The Snyder (Texas) Daily News, Tues., Aug. 8, 1961 3

Don't Wait Till Labor Day To Pack Your Picnic Basket

When the big Labor Day weekend arrives September 2, how many of us will do our packing at the last moment, and in the process forget some item vital to the success of the picnic or cook-out?

With some families, it will be the can opener that is unaccountable left behind. Others will open their picnic baskets and find no salt or mustard. There will be no charcoal to cook the hamburgers with, or if the charcoal was remembered the starter fluid or paper and kindling was not. The forgotten items, vary, but the reason for leaving them behind is always the same: failure to plan or, just as bad, failure to anticipate.

A simple way to avoid much of the last-minute confusion is to pack a permanent picnic basket that will stay in the car and will contain all the basic equipment for any outing, besides serving as a snack kit. Ideal candidates for the snack section of the basket are some snack food (crackers, chips, cookies), a jar of instant tea and a bottle of lemon juice.

If you carry a large thermos jug (and you should) and keep it filled with fresh, cool water, you'll have instant tea in a jiffy. Just mix instant tea with water, lemon and sugar to taste.

For a roadside break there is nothing better than iced tea. It leaves you with a clean, fresh feeling instead of the sugary aftertaste of some beverages which make you wish you hadn't stopped. And as a picnic accompaniment, there are few drinks that go so well with so many different kinds of food — or suit so many different tastes. Weak for the children or strong for your thirsty male — it's easy with convenient instant.

What else should go into the basic picnic basket? Generally, the items can be divided into utensils and seasonings, as follows:

- Utensils — knives, forks and spoons banded snugly together with an elastic band; plastic-coated paper plates and cups; a sharp

utility knife, one or two sauce pans, can opener. If you want hot water, include in the basket a cup heater of the type that plugs into the dash of your car or boat.

Cleaning problems? Solve them with less soap pads and a roll of paper towels.

Seasonings — sugar in a tightly closed jar; salt and pepper mixed in a single shaker container and sealed by foil or waxed paper under the shaker top; small jar of mustard.

With this basic picnic basket stored permanently in the car and available on any car trip, the homemaker has to concern herself only with the other foods planned for the particular weekend-end picnic or cook-out. For the most part, these go directly into the refrigerated cooler or bag — Sandwiches, or meats if this is to be a cook-out, salad greens, salad dressing and other condiments, fruit or other dessert.

Often, much of the space in the refrigerated container is taken up by bottled beverages, but this needn't be the case when handy instant tea is on hand.

The last step in packing a refrigerated container, incidentally, should be adding the ice cubes. They are more effective at the top of the container than at the bottom (since cold works downward not upward), and therefore should be packed in a large plastic bag, which is tied securely and laid on the top of the food. Not only will the food be kept cooler this way but the ice cubes will be more easily accessible for your iced tea.

WOMEN'S CALENDAR

TUESDAY

Jayceeettes will meet at 7:30 p.m. at Martha Ann Woman's Club. Pat Edwards and Earlene Gray, hostesses.

Flagstone — that popular material for outdoor terraces and walks — also makes an attractive and practical flooring for entrance halls and other indoor areas. The only upkeep flagstone requires is scrubbing with hot soap or detergent suds and rinses. A stiff-bristled brush is best for cleaning the grooves — those dirty collecting cracks and crevices between the stones.

Peach Pie Has Lattice Top Crust

By Cecily Brownstone

Associated Press Food Editor

IF IT'S your ambition to turn out one of summer's best delights — a fresh peach pie with a lattice-top crust — here are some suggestions to guide you.

Use freestone peaches: they're easiest to slice. Have the fruit just ripe — not too hard, not too soft.

Dip the peaches into boiling water for a moment or so, then slip off the skins by giving them a tug with the edge of a knife and your thumb.

Use the flavoring that suits your family. We suggest cinnamon in the following recipe, but nutmeg or mace may be substituted.

And so to the pastry. A lattice-top crust needs careful measuring and cutting to look its best and bake its best.

Pastry cloths on which to roll out pie dough and covers for rolling pins make pie-making so much easier than it used to be. The markings on the cloths make measuring a cinch.

Some of these pastry cloths come with wooden rods and metal strips that keep the cloth firm on your work space. And we mean work space! Until recently we had used one of these pastry cloth arrangements on a regular kitchen counter top. In our new test kitchen we have a huge round marble-topped pastry center, and we find the metal strips hold it firm on the rounded surface as they do on a straight one.

If you make pies often, and even if you don't, keep your pastry-making equipment together — beside the pastry cloth and rolling pin — and its cover should go a pastry blender and a pastry wheel.

PEACH LATTICE PIE

- Pastry for 2-crust pie
 - 1 cup sugar
 - 3 tablespoons flour
 - 1/4 teaspoon cinnamon
 - 2 tablespoons lemon juice
 - 5 cups sliced peeled peaches
 - 2 tablespoons butter or margarine
- Prepare pastry and divide almost in half. Using the larger half, roll out on prepared pastry cloth to 9-inch size as marked on cloth or to about 1 inch larger around than a 9-inch pie pan held upside down over the pastry. Lift pastry and fit into 9-inch pie pan. Trim edge if necessary, leaving a 1/2-inch overhang. Roll out second half of pastry. Cut into 1/4- to 3/4-inch strips using a pastry wheel. Stir together well the sugar, flour and cinnamon. Measure lemon juice into a bowl and as you slice a 1/2 measure the peaches, add them to the lemon juice, tossing to coat the peaches with the juice and

keep them from turning dark. Drain off lemon juice (unless you want a tart pie) and mix peaches with the sugar mixture; turn into prepared pastry-lined pie pan. Dot with butter. Place half the pastry strips over the pie. Starting at center, fold back every other strip and weave additional strips diagonally across pie, under and over strips until top is covered. Press ends of strips to rim. Fold the overhanging crust up and over and flute the edge. Bake in a hot 400 degrees oven 45 to 50 minutes or until pastry is golden brown.

Bruce Biggs Visits In Shreveport, La.

Bruce Biggs, son of Mr. and Mrs. E. P. Biggs, 301 Thirty-sixth Street returned recently from visiting in the home of Mr. and Mrs. Charles Skinner and Larry in Shreveport, La.

He is presently visiting in Blackwell, Okla., with his father, who was called there due to the serious illness of his step-father, Mr. T. B. Anderson, Sr.

One of a homemaker's major responsibilities is to set the standards for her whole family. If she maintains and insists upon neatness and cleanliness — both personally and in her home — these traits will become family characteristics.

Harlin, '66' Advance In Softball Playoff

The Harlin Oilers and Phillips '66' each advanced into tonight's final championship round in the City Softball League playoff, as they both registered narrow one-run victories in play of Monday.

Harlin upended league champion Denson Gulf by 2-1, with a late run in the sixth on a two-run single by Kenneth Baker spelling the difference.

The Oilers had been held in check by Lonnie Crosby until inning, although they had managed to load the bases in the third to no avail. Max Luing led off the sixth by singling, then with two out Tim Marcus walked. Baker's one-base blow brought them both home to give Harlin its margin of victory.

Previously, the Gulfmen had scored their only run in the second when Jerry Franks singled and romped home on another game by Crosby.

Harlin connected for four hits off the Crosby offerings. Baker leading the way with two singles in three trips. Jim Wesson doubled for Harlin's only extra-base.

Denson snipped away at winner Guy Sullivan for six hits, no two of which were hit by any one player. In addition to the singles as hit by Franks and Crosby, Les

Warlick doubled, and Ronnie Winkles, Ken Holt, and Dwayne Prince each chipped in with a single apiece.

Crosby whiffed 12 and Sullivan four over the span of the contest. The Sixty-Sixers sacked R. E. Smith in the other fray of the night, 4-3, with Mickey Nunley chunking the four-hit victory. Those four base knocks—all singles—were divided equally between Mutt Thompson and losing hurler Leroy Leard, each of whom went 2-for-3.

Leard also relinquished only four one-base blows, with Bill Boyd pacing the attack with his 2-for-3, and Lacy Boles and Green rounding out the onslaught with one hit each.

Nunley walked two and Leard one, as both went the route for their respective teams. Fielding miscues hurt the Smith cause, as they committed eight bobbles as a team to three for Sixty-Six.

Tonight's wrap-up contests will see Smith and Denson tangling at 7 o'clock in a consolation fray and Harlin meeting Phillips in the 9 p.m. championship game. Both will be played on the Winston Park diamond located on Thirty-seventh Street.

Reunion Time In Raiderland

Texas Tech footballers who will play teams now coached by their former high school mentors: Halfback Dick Polson, who played for Joe Kerbel when the West Texas State head man was Amarillo High coach, center Tommy Turner, coached by Bill Ellington when the University of Texas aide was Garland High mentor.

On the other hand, tackle Larry Mullins and quarterback Dick Hayes played their Snyder high school ball for John Conley, now one of J. T. King's assistants at Raiderland.

Incidentally, Texas Tech's longest run from scrimmage last year, for 39 yards, was accomplished by Polson against Kerbel's Buffaloes.

Catcher Don Leppert of the Pittsburgh Pirates was a discuss and javelin thrower at Wabash College in Crawfordsville, Ind.

Where Would Chuck Be Without Jim?

By GORDON BEARD
BALTIMORE (AP)—Don't be surprised if pitcher Chuck Estrada of the Baltimore Orioles organizes his own fan club for teammate Jim Gentile.

An 18-game winner in his 1960 rookie season, Estrada was won only 9 this year. The 23-year-old right-hander would be in far worse shape without Gentile's batting support.

The slugging first baseman has walked 11 of his 31 homers this season while Estrada has won the batting title, including all four of his grand-slam homers.

The two teamed up again Monday night, Gentile hitting a solo homer, his first time at bat, and Estrada gaining credit for a 5-4 victory over the Kansas City Athletics. Estrada left the game in the seventh with a 3-0 lead, and eventually, was charged with one run.

—Estrada—should be on his knees after every game, polishing Gentile's shoes. Oriole pitching coach Harry Brecheen said after the game.

"You ought to make him buy you something," catcher Gus Triandos urged Gentile. "How about a new suit?"

Gentile didn't take the suggestion, but he thought it would be a good idea if Estrada pitched more often.

"If he pitched every day, I'd

Berra, Musial Have A 'Day In The Sun'

By ED WILKS
 Associated Press Sports Writer
 Mickey Mantle and Roger Maris? Forget the kids. The home run sluggers of the moment are Stan Musial and Yogi Berra, a couple of old guys who may be on the way out, but who refuse to go quietly.

It was Berra, now 35 and put out to pasture, you might say, in left field, who broke up a tie with a home run as the New York Yankees beat the Los Angeles Angels 4-1 Monday night. That gave the Yanks a five-game streak and a three-game lead, their biggest bulge yet, over idle Detroit in the American League race.

And it was Musial, still The Man at 40, who socked a three-run homer that boosted St. Louis to a 5-1 victory over Cincinnati and dropped the second-place Reds 906 percentage points behind the idle Los Angeles Dodgers in the National League scrap.

Berra's shot was his 14th of the season. Musial's was No. 11. Between them they have little more than half the total of either Mantle (43) or Maris (41) as the two Yankee outfielders shoot for Babe Ruth's long elusive record of 60.

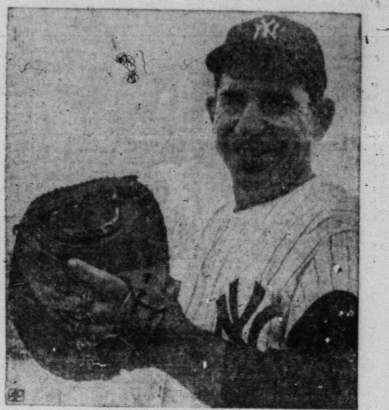

Musial's, however, was the 440th of his 20-year career—a total topped only by Ruth, Jimmy Fox, Ted Williams, Mel Ott and Lou Gehrig, and second to Ott's 511 in National League history.

Bud Daley (9-15) became the first southpaw to go the distance against the Angels since May 21 and broke a personal losing skid of five games by holding Los Angeles to six hits, all singles.

Musial's sixth-inning shot, followed a hit batter and a sacrifice bunt by Bill White that went for a hit when the Reds failed to cover first base, giving the Cards a 4-1 bulge. They breezed all the way, starting with a second-inning homer by Carl Sawatski off Ken Johnson (2-1) while right-hander Larry Jackson (8-8) won his fifth in a row. The Reds had seven hits, but were shut out until they got an unearned run in the eighth.

Right-hander Bob Friend (11-13) making his first start since suffering an ankle injury last Wednesday, beat Philadelphia with a four-hitter. It was the 10th straight loss and 15th defeat in 16 games for the Phils, who scored in the sixth on Ruben Amaro's triple and a sacrifice fly by Johnny Callison. Singles by Bill Mazeroski and Bill Virdon scored the Buc's clincher in the second off John Buzhardt (3-12).

Jackie Brandt drove in Baltimore's last three runs, putting it

Season Tabs Now On Sale

School Administration Office officials announce that grid tickets for last season's tickets holders are now available, and will remain on sale to that specified group through Wednesday, August 23.

The season tickets will run nine dollars (\$1.50 per game). On August 30 they will be made available to the general public.

The 1961 Tigers will play at home on six occasions and participate in only four road games. One of those home games will be against a new foe, Kermit on September 29, that team having taken the place of Oressa Permalis in the scheduling.

Those remaining Tiger home games include those of Andrews (September 15), Big Spring (September 22), Levelland (October 13), Sweetwater (October 27), and Lamesa (November 10). Road foes include Claude, Breckenridge, Lake View and Colorado City.

Duo All Tied For Medalist Honors

KERRVILLE (AP)—Mach played evenly in the 17th annual Heart of the Hills tournament with the medalist still undecided.

George McCall, veteran Austin golfer, and 60-year-old Mel Arnett of San Antonio tied for medal honors Monday with 3-under-par 69s. They were to decide the issue in match play today.

This year's tournament drew a record field of 144 linksmen.

BACKFIELD DEPTH CITED

SWC's Overall Strength Given Boost By Broyles

SAN ANTONIO, Tex. (AP)—Frank Broyles, fast building Arkansas to dominance in Southwest Conference football, thinks the conference will have more strong teams this fall than in some time—at least for the period he has been in the league.

He bases his forecast on the abundance of top quarterbacks and halfbacks.

"Each of the four teams everybody is picking for the championship race—Texas, Rice, Arkansas and Baylor—has two veteran quarterbacks and that is the first big indication of strength," he declared in an interview at the Texas coaching school where he is lecturing on football.

Broyles also said there was the best group of outstanding halfbacks of the past few years—three and four to the team and at least four All-America possibilities among them. These he listed as Ronnie Bull and Ronnie Goodwin of Baylor, Lance Alworth of Arkansas and James Saxton of Texas.

The Arkansas coach, whose Razorbacks tied for the conference championship in 1959 and won it outright last year, said his 1961 team would be stronger offensively but certainly would not be up to standard on defense.

"We should be strong at all positions except linebacker," he declared. "Replacing Wayne Harris, our great defensive player who now is in Canadian pro football, is a terrific assignment."

He indicated he would pass more this fall than ever before. "John Bridgers at Baylor has convinced me that you can throw the ball and not get beat. I used to think you couldn't win with the forward pass but Bridgers showed me that if the passer is properly developed, throwing is a good part of your offense."

He said Arkansas planned to be more wide open this season. He has the most effective passer in

Formation Of New Loop In Talking Stages

SAN ANTONIO (AP)—A new conference including Abilene Christian, Arlington State, Trinity and four members of the Border Conference is being talked. Claude Gilstrap, coach of Arlington State, said today.

Actual discussion of such a league has been carried on by Arlington State and Abilene Christian but reports are that Trinity and Texas Western, Hardin-Simmons, West Texas State and New Mexico State of the Border Conference are interested, Gilstrap said.

Arizona quit the Border Conference this year and Arizona State will depart next year, leaving only four members.

Gilstrap, lecturing here at the Texas Coaching School, said Arlington State, which now has grown to more than 7,000 students, was interested in entering a conference. It has had two years of independent football as a senior college.

Last season Gilstrap had a 9-2 record and he said he expected to have another good team this season.

Bradley Picks 'Big 3'; Hits Cage Trend

SAN ANTONIO (AP)—Texas Tech, Texas A&M and Texas Christian were rated top teams of the 1961-62 Southwest Conference basketball race today by Coach Harold Bradley of Texas.

Bradley, here lecturing at the Texas Coaching School, said his own team would be young and "lack height although it would have more movement than last season."

He declared Texas Tech, the defending champion, would be very strong despite the loss of Tom Patty, whom Bradley did not consider a keyman.

The conference does not get as many good high school players as other sections because of inadequate coaching at the junior high school level, Bradley observed, in explaining why the Southwest Conference didn't do so well in inter-sectional basketball.

He said there were not enough specialized coaches in the junior high schools where the coaches were more often hired for football and given basketball as a sideline.

THE MONKEY ON HIS BACK

It Will All Be Free - - If You'll Keep Waiting

BY INEZ ROBB
There was a certain point in the new program of the Communist party of the Soviet Union, as I read, pounced doggedly through its interminable verbiage, when — faint and far off — began to hear the sirens ring.

The music had a Pied Piper charm when I reached those sections that promised the Soviet citizen in the sweet by-and-by, a fabulous day when rent, medical services, public utilities and transportation anywhere (maybe even to the moon) would be free for the asking.

It was a dreamy moment, all right, and one to bring the self-appointed vigilantes of the far right pouncing. But as I read on, pounced doggedly through its interminable verbiage, when — faint and far off — began to hear the sirens ring.

The paragraphs in the manifesto that shattered the dream and kept me squarely in the democratic column promise eventually to abolish forever homecooking and replace it with a public catering system.

both of which I am mad, in a communal feeding trough. Ever since I can remember, that pause in the day's occupation — between the dark and the daylight when the night is beginning to lower — known as the dinner hour has been, for me, the most treasured and joyous part of the day.

In that amber hour, when the family is gathered around the mahogany hall — intoxicated by the wonderful smells from the kitchen, all the merl and terl of the day is washed away in the give-and-take of family conversation, the revelation of each day's small adventures, be they treasuries or dross.

Study Made Of Gas

WASHINGTON (AP)—Two new members of the Federal Power Commission, Joseph Swidler and Howard Morgan, are making a first-hand study of natural gas facilities in Louisiana, Texas and New Mexico areas this week.

Swidler has been designated to become chairman of the commission Sept. 1.

Both men told senators when their nominations were under consideration that they would try to learn more about the natural gas industry at the first opportunity. The industry is under regulation of the commission and the background of Swidler and Morgan has included a closer relationship with the electric field than with natural gas.

The commissioners left Sunday by commercial plane for New Orleans where they inspected new construction by Transcontinental Gas Pipe Line Corp. north of the city.

Today they are to visit various offshore production and construction operations out of New Orleans.

They are to fly tonight to Dallas and then on to El Paso. They will stay at the Desert Hills Motor Hotel while in El Paso.

Wednesday the commissioners will be at various locations in the Permian Basin area and in New Mexico inspecting facilities of several companies. These facilities will include a carbon dioxide removal plant and a new fully-automated pipeline system of Transwestern Pipeline Co. The men will spend Wednesday night in Roswell, N.M.

On Thursday they will be at the commission's Fort Worth offices. They will leave Dallas Friday morning to return to Washington.

Gatesville Attendants Ask Guards

By HARVEY LITTLE
AUSTIN (AP)—A group of 11 attendants from the Gatesville State School for Boys were told Monday night that their request for armed protection will be studied.

Dr. James Turman, executive director of the Texas Youth Council, told the delegation, "I will ask the governor and Col. (Homer) Garrison (director of the Department of Public Safety) if in their judgment, a unit of state police should be assigned to Gatesville for this reason."

The director added, however, "I am unequivocally opposed to arming any of our people."

The group was disturbed about recent disturbances at the school, climaxing by the fatal beating of an attendant.

After first talking to Gov. Price Daniel, they were invited to Turman's office. Besides Turman, Louis Henna of Round Rock and Robert Knoebone of Houston were on hand to greet them. Both are members of the three-man council.

The attendants said they were afraid of losing their jobs because of the trip to Austin.

"We were afraid to talk," one said.

No attendant is allowed to "discipline" an inmate.

James Kelly, who has worked for the school for 14 months, said that he had sometimes told a boy to clean up after a fight.

"Sometimes they do it all right," he said. "But at other times, they refuse, and if you try to force them, they say they will report you and you'll lose your job."

Turman said he felt "discipline" in this sense should be taken to mean corporal punishment of a boy.

Kelly said he dreaded returning to the school at night.

"You don't know if you're going to see your wife again or not," he said.

Weeds Are Weeds, But Who Owns 'Em?

SPRINGFIELD, Ohio (AP)—A Springfield woman called police Monday asking that the owner of a lot in her neighborhood be forced to cut the weeds. She gave police the name of an attorney she said was responsible for the property's management.

Police told the attorney the weeds must be cut. The attorney said he no longer was responsible for the property because the lot had been sold.

Police found the new owner was the woman complaining about the weeds. She told police she had been dickered for the lot but was not aware the deal had gone through.

She was given five days to have the weeds cut.

Junior Editors Quiz on SCIENCE

QUESTION: Is earth the only planet with gravity? ANSWER: Science tells us that all things—sun, earth, planets—are made up of tiny particles...

FOR YOU TO DO: Look up articles on our solar system and find out this story in detail. You will be getting very useful knowledge and you'll have a good time doing it.

Berlin Music Is Slow Waltz

By JAMES MARLOW Associated Press News Analyst WASHINGTON (AP)—At this point the average citizen in America and the Soviet Union may be wondering why the United States and Russia don't start talking about Berlin instead of talking about talking...

Since Khrushchev started the rumpus last June 3 at the Vienna meeting with Kennedy...

He complimented Kennedy for showing common sense in wishing to avoid war but at the same time said the United States and its allies "are pushing the world to a dangerous brink."

This speech was in reply to one Kennedy gave July 25 on Berlin. The President's tough talk of that date reportedly angered Khrushchev...

Nevertheless, this situation is beginning to look like one in which one word could lead to another until both sides get in deeper than they wanted or expected.

Ten days passed in which the West did no mobilizing. Then suddenly on July 8 Khrushchev said Russia had suspended troop...

Denver Mishap Kills 5

DENVER (AP) — A 58-ton steel and concrete duct atop a Titan missile launching silo, slammed shut with an earth-shaking crash, killing five workmen and injuring eight others Monday.

Three bodies were recovered. Two others were pinned between the door and the edge of the huge silo. A spokesman at Buckley Field, scene of the tragedy 15 miles east of Denver, said "it may be as long as 72 hours before the door can be raised."

"It presents considerable of an engineering problem," said a spokesman for one of the civilian contractors on the \$160-million construction job.

Buckley Field identified two of the dead as Jerry E. Brancio of Denver and George Graham of nearby Aurora.

Only two of the injured men were hospitalized. Charles W. Postle, 42, of nearby Aurora and Howard Hoffman, 36, of Littleton, Colo. The others were treated and released. Postle suffered a broken back.

Witnesses said some of those who were injured leaped into safety nets placed at intervals in the 165-foot silo.

The massive door was one of a pair which are raised hydraulically as a missile rides to the surface.

A spokesman at the missile complex said either a hydraulic failure or failure of a retaining cable caused the door to crash. It cracked and split with a tremendous roar.

The tragedy scene was the first of a Titan three-site complex to be turned over to military control. Each site on the Colorado plains will have a capacity of six missiles.

The prime contractor, Morrison-Knudson & Associates of Boise, Idaho, formally turned the missile complex over to military control last week.

Most heavy construction has been completed, but the Air Force still has its instrument system to install before the Martin Co. installs its Titan I missile.

HERE'S WHY MY FAMILY

Mr. & Mrs. Phil Crumpler, like many modern families, do their shopping at Piggly Wiggly — and here are the reasons they give:

1. Our family saves at Piggly Wiggly because we like quality foods, with the nutritional values that growing children must have. We can depend on Piggly Wiggly for the finest in every department, and we can depend on them for the fairest prices, too.
2. We like that unbeatable selection of National Brands featured at Piggly Wiggly's everyday low prices.
3. We like the Piggly Wiggly pricing program, which means that we always check out with savings. Lower shelf prices, plus everyday special buys enables us to plan wonderful, varied meals on a budget.
4. We like the Piggly Wiggly "extra" of S&H green stamps. Our home is filled with famous name merchandise that we received as gifts by saving S&H green stamps on all our grocery purchases.
5. Last, but not least, we like the time and money saving drug and household departments at Piggly Wiggly. This one-stop shopping advantage is a boon to busy homemakers, and adds to our S&H Green Stamp collection, too.

Light Agenda For Session

County commissioners had a light agenda at their meeting Monday.

No action was taken on a request by the Lions Club to set up a carnival on the courthouse square to operate from Sept. 25 to Sept. 30.

Frank Stephenson offered to purchase a desk from the county, but the court decided not sell the desk.

Members of the court, the tax collector and county auditor forwarded condolences to the family of Thomas Y. Pickett, for many years the county's valuation engineer for oil properties. Mr. Pickett died Sunday.

University Receives \$1,110,000 Loan

WASHINGTON (AP) — Hardin-Simmons University in Abilene, Tex., has been granted a housing loan of \$1,110,000 by the Community Facilities Administration.

The school will use the loan with \$250,000 of its own to build housing for 120 men and a college union with dining facilities.

Moonglow, Venusglow, Marsglow

BLACKSBURG, Va. (AP) — Scientists have gone the earthly songwriter of "moonglow" one better, possibly two, with the discovery that there may be a Venusglow and a Marsglow as well.

Romantic aspects aside, space researchers think they have found a way to determine the composition of the atmosphere—whether earth's or another planet's—by examining the spectral or color lines of carbon dioxide gas as its constituent atoms break down and recombine with others in the upper atmosphere.

Dr. Charles A. Barth of the Jet Propulsion Laboratory, Pasadena, Calif., described the "night airglow" effects Monday at a national conference of 100 space scientists here at Virginia Polytechnic Institute.

The meeting is sponsored by the National Aeronautics and Space Administration, the National Science Foundation, and the college.

When atoms and ions of the upper atmosphere of earth combine, they emit a characteristic type of light radiation which can be identified through spectrographic interpretation, Dr. Barth said.

An ion is an electrically charged atom, or an atom which has lost an electron from its atomic structure.

This "airglow" shouldn't be confused with the aurora borealis (northern lights), Dr. Barth said, because the airglow is spread uniformly over the earth's surface at a height of about 60 miles.

The night airglow is not visible to the eye, but lies just below the limit of human sensitivity. If it could be seen, it would appear to be greenish-white, Dr. Barth said.

However, he added, the night airglow on Mars, at a level of 120

miles from the surface, might be visible to human observers. In this case, the first space visitor to Mars will see a faint lavender color—near the night sky, Dr. Barth said.

By determining the atmospheric composition at the airglow level, scientists are able—through mathematical correlation with other known facts—to build up an "atmosphere model" showing what the atmosphere is like at any altitude.

The Venus atmosphere remains a mystery, though, because no instruments have been able to probe through the thick cloud cover over the surface of the planet.

Observations show that earth has an atmosphere ratio of 79 per cent nitrogen to 20 per cent oxygen, Dr. Barth said for Mars, 99 per cent of the atmosphere is found to be nitrogen. A small amount of oxygen is present, as is a trace amount of ozone.

Better observations of the airglow and similar effects on other planets can be obtained outside the earth's atmosphere.

The United States plans to launch a space probe at Venus late in 1962, when the planet will be in a favorable position for the shot. The probe, known as "Mariner A," has been designed to fly by Venus at a distance of 16,000 miles.

Observations on the planet's radiation to determine its temperature, of the possible existence of a magnetic field, and an ultraviolet determination of its atmospheric composition will be made.

The information will be transmitted back to earth before the space craft goes into an orbit around the sun.

SPACEMAN AND WIFE—This photo of Russian spaceman Gherman Titov and his wife, Tamara Vasilyevna, was released in Moscow following the government's announcement of Titov's successful completion of orbital flight around the earth. No indication was given when the picture was made. (AP Wirephoto via radio from Moscow)

Elephant 'Talk' To Be Stopped

COLOMBO, Ceylon (AP) — A retired surgeon is trying to save the remnants of a rampaging herd of wild elephants before

they are exterminated. Dr. Spittel's committee has conceived an elaborate plan to drive the elephants to Wilpattu National Park 17 miles from their jungle retreat by the Deduru River, 50 miles north of Colombo.

Spittel hopes to launch the drive in a few days so he can get the herd to Wilpattu in a few days before the monsoon season sets in. But he estimates the project will cost more than \$4,000 and so far the committee has only raised about \$500.

Hundreds of volunteers and Red Cross workers equipped with firecrackers and walkie-talkie radios will take part in the roundup. They must flush the elephants from the dense jungle and drive them through wooded strips run-

ning between plantations and rice paddies.

Ceylon's elephant population has dropped from countless thousands to only about one thousand, said Spittel. The survivors must be kept in their natural habitat or the breed will become extinct since elephants refuse to breed in captivity, he said.

Railroad Lines May Be Discontinued

WASHINGTON (AP) — Three railroad branch lines in South Texas will be discontinued if the Interstate Commerce Commission grants a request made by the Texas & New Orleans Railroad.

One runs 10.22 miles in Lavaca County from Shiner to Youakum. Another runs 16.61 miles in De Witt County from Youakum to Cuero. Another runs 37.09 miles in DeWitt and Karnes counties from River Junction to a point near Kenedy.

Solons Lining Up Junkets

By JACK BELL
WASHINGTON (AP)—Senators by the dozens are busily lining up expense-paid junkets to far places after Congress quits, probably in September.

Thirty-eight of the 100 senators don't have to worry. They already have it made by appointments to attend conferences where their presence at working sessions will be at their own discretion.

These conferences are being held in convenient cities, too—London, Brussels and Paris. No trumping about in tropical jungles, no worries about the after-effects of native food.

Moreover, it's expected to bring the little woman along. She can have a free round trip by government plane, so there would remain only the cost of food, lodging—and shopping.

Congress will pick up a \$60,000 expense tab for the three conferences. They include the Inter-parliamentary Union meeting in Brussels, Sept. 14-22, the Commonwealth Parliamentary Association in London, Sept. 24-Oct. 1 and the NATO Parliamentary Conference in Paris, Nov. 13-18.

The bill may be \$15,000 higher if House members decide to attend the London meeting as well as the other two.

An even dozen Democratic senators drew a NATO assignment when Vice President Lyndon B. Johnson handed out the plums Monday. Republicans will send only four, since they didn't go into the business of selecting alternate delegates as their Democratic colleagues did.

Another dozen Democrats and four Republicans will go to the Brussels meeting. The London conference will draw four Democrats and two Republicans.

These assignments about use up the conference possibilities but those of the remaining 62 senators who have the urge to travel know from past experience there is rich ore to be mined in Senate committees.

The Appropriations, Foreign Relations and Armed Services committees are always sending off delegations to investigate con-

ditions in distant parts. Strangely enough, the Interior Committee can provide some interesting spots to visit, because it is concerned with insular possessions, some of which are distant from the interior.

Senators don't like to have any of these journeys alluded to as junkets. They say, sometimes with a far-away look, that they are strictly business.

Daily Crude Flow Rises

TULSA (AP) — Daily average domestic oil production increased 75,180 to 7,039,310 barrels during the week ended Aug. 5, the Oil and Gas Journal said today.

Texas was up 34,650 barrels to 2,481,950. New Mexico was up 11,825 to 313,925; Louisiana, 7,825 to 1,133,275; and Oklahoma, 6,250 to 515,250.

The Journal estimated 1961 production at 1,582,099,200 barrels compared to 1,534,014,300 a year ago.

An increase was reported also for Arkansas, up 50 barrels to 78,150.

Bolivia Is Style For Millionaires

LA PAZ, Bolivia (AP) — How would you like to be a Bolivian millionaire?

All it takes is 100 U.S. dollars. Bolivia's monetary unit is the boliviano. Only a few years ago the par value of the boliviano was 190 to one U.S. dollar. But inflation—one of the worst cases in the world—set in, for reasons best explained by economists, and today it takes 12,000 bolivianos to buy \$1.

So for \$100 you can buy 1,200,000 bolivianos. Presto, you're a millionaire—Bolivian style. You can go around here with your pockets bulging with money—and not have enough to take your girl to dinner. If you paid cash for an automobile, it would take a truck to carry it. And to count it, it would take lots of time.

Met Closes Shop, Cancels Out Tour

NEW YORK (AP) — Music lovers reacted in somber tones to the announced closing of the Metropolitan Opera for the 1961-62 season and the cancellation of the Met's annual spring tour.

Words like "disgrace" and "irreparable blow" came from some of the world's greatest opera singers. One appealed directly to President Kennedy to help settle the labor dispute which the Met blamed for the closing.

More optimistic patrons of the arts recalled, however, that two other announced cancellations in recent years never went into effect. Labor troubles, blamed then too, were subsequently ironed out.

In making the announcement Monday, Met General Manager Rudolph Bing said "I see no hope" of saving the 1961-62 season. He was gloomy about prospects for the 1962-63 season.

The crux of the situation is that since July 30 the top stars and

even the lesser ones have been free to make other commitments.

"We cannot have a season without these singers," Bing said, adding that as many as two dozen of the more than 100 artists on the roster "already have been lost."

Soprano Anna Moffo is known to have made other arrangements for the season, but such operatic lights as Leontyne Price had been holding off in hopes of a settlement.

In all, nearly 700 employees—including singers, musicians, the chorus, the ballet, the administrative and technical staffs and backstage workers—are affected.

Bing, calling the cancellation a "catastrophe," blamed Local 802 of the American Federation of Musicians, saying it had demanded a weekly salary for musicians of \$348 for six performances plus other benefits, as against last season's rate of \$170.13 for seven performances.

An official statement from the Met said the demands would have added \$750,000 to the Met's prospective deficit, which last season hit \$640,000 before contributions.

The Met has reached agreement with 14 other unions. A spokesman for the Musicians' Union said, "The Met has presented its side. We want to study its statement very carefully. We will then present to the public our side of the story. We ask everyone to suspend judgment until then."

Mezzo-soprano Rise Stevens sent a telegram to President Kennedy, saying, "This is an irreparable blow to the cultural prestige of our country."

Miss Stevens expressed a belief both the Met and the union would welcome the interest of the White House.

They Cleaned Up The Wrong Thing

ROCKINGHAM, N.C. (AP) — Police Chief Louis Allen said a couple hired to clean windows in the Episcopal Church of the Messiah here during the weekend cleaned up the stock of Communion wine instead.

Edgar and Elizabeth Morgan, natives of Wabasha, S.C., were arrested on charges of drunkenness and larceny. He said they had six full bottles of wine in their car and told officers they had downed four already.

Mrs. Morgan reported she had a "smashing headache" the next day. Morgan said he had asked "the Lord to forgive me and I hope He will."

He Wanted Customers; The Manager, That Is

MIAMI, Fla. (AP)—Customers unwittingly caused two truces in a Mialeah loan office holdup.

Office manager Gene Waterson said a gunman told him, "Give me all your money." He said he was about to comply Monday when a customer walked in. The bandit pocketed his pistol and Waterson attended to business.

Waterson said the bandit pulled the gun again after the caller left, but another came in and the robber once more hid his weapon.

When they were alone again, Waterson said, the gun reappeared, the persistent bandit collected the cash and departed. Police said the loot was under \$200.

BUILDING OR REMODELING?

INSURE CAREFREE WINTER COMFORT

WITH FLAMELESS ELECTRIC HEAT!

You'll enjoy new comfort, convenience and cleanliness when you heat your home the modern way—with flameless electric heat. Electric home heating is clean—as clean as electric light—which means less housecleaning and redecorating. Electric heat is thermostatically controlled, automatic and accurate. It provides gentle even warmth. Temperatures in each room can be controlled separately for economy and convenience. And you'll enjoy complete freedom of furniture arrangement because electric heating equipment takes up little or no living space.

Electric baseboard heaters are one of several popular types of electric heating equipment. Installed in place of normal baseboards under windows on outside walls, they direct warm air upward to block cold drafts. For information about this and other methods of electric home heating, telephone us or visit our office.
