VICTIM CALLED TO STAND IN ANDERSON FLOG CASE

DEFENDANT IS IDENTIFIED AS ONE ATTACKER

EVENTS GRAPHICALLY DESCRIBED TODAY

TYLER, Texas, Sept. 2.—R. Richardson, 50 year old tenant farmer, took the stand at the trial of Cain Anderson here today and told the jury of alleged incidents leading up to the flogging of himself his wife and their daughter-in-law, Mrs. W. A. Straps, last week.

Wearing a blue denim shirt and dark trousers, Richardson said Anderson was on trial for alleged participation in the flogging, employment and his family last December to pick cotton. In March W. Straps and his wife and baby were after this, witness said Anderson refused to pay grocery bills to Richardson, ordering groceries out of the country. Straps was on the move Richardson had and moved into the house owned by the latter, according to witness Richardson said he had seen across the road and began firing for sometime thereafter.

Witnesses testified on the night of Sept. 1, Richardson said: My wife was sick in bed, my children were asleep, and I was in the hall of the house, when four men wearing masks and carrying revolvers suddenly entered the house. They ordered me to get up my gun and my wife to get out of the house. My wife and I were marched from the house to a nearby field. I was caught by my hand and jerked to the ground on my hands and whipped with a rope. "Do with Osborne (under indictment) with Anderson but not on my side," Richardson said. "I finally took the rope and led to break every bone in my body. They then jerked my wife down and whipped her." Claim Won't Work Richardson said his wife asked "what was that for," and she of the witness replied, "because you won't work."

Witnesses testified the party returned to the Richardson house here in the night to leave the country by Sunday. By their exposed features and clothing Richardson said he recognized two of the masked men as Turner to Page 2, Column 4, Please.

Plainview Man Is Victim Of Own Gun

PLAINVIEW, Sept. 2.—J. W. Boyle, 56, for the past eight years resident of Plainview, shot and killed himself Thursday morning at 10:30 in his home at Plainview. Boyle had been in bad health for the past several months, and lately became paralyzed in both legs and unable to walk. He had just returned from Glen Rose where he had been in a sanitarium. He shot himself in the forehead with a small caliber automatic pistol. Boyle was associated with his son, Willie, in the music store which bore his name at Plainview, and prior to moving to Plainview, he had lived in Knox City where he was in the music business for many years. Besides his son, he is survived by a widow.

PIRATES' CHINA LAIR STORMED BY BRITISHERS

VENGEANCE IN WRECK OF SHIPPING SOUGHT IN THE ACT

HONG KONG, Sept. 2.—Fire and dynamite laid waste many homes of Chinese pirates in their bias bay last night when a British expedition struck back yesterday in reprisal for attacks on British shipping. Last month another expedition visited havoc on the pirate stronghold, airplanes dropping bombs. Hope was expressed at that time that the band had dispersed but renewed activity led to yesterday's action. Two Villages Stormed The British craft anchored at Bias bay with their objectives, two pirate villages, Cheungai and Fankong. Bent on destruction of individual houses in which pirates were known to make their residence, the British landed 120 men. They were met at Fankong by a village elder who volunteered to conduct them to Cheungai and point out houses of pirates. Forty houses on the outskirts of the village were destroyed when villagers refused to give information and later five pirate houses were destroyed by dynamite. Five Others Wrecked The punitive expedition proceeded to Fankong where five other houses were destroyed. Residents of the village offered no opposition when they learned that houses of pirates were the only objectives of the attacking forces. Ten junks in Fokolung inlet were destroyed.

Another Ship Is Raided Thursday

HONG KONG, China, Sept. 2.—Pirates seized the Chinese steamer Koochow, flying the British flag last night at Langyang Gorge, on the West river. Twelve pirates boarded the vessel, shot the captain while he was at dinner, and then shot the chief engineer, throwing the body overboard. The Koochow was taken to Taipinbu, where more pirates helped to loot the ship. The captors and their staff with 100 Chinese passengers were carried off as prisoners.

Fliers Released By Mexico Start Home

SAN ANTONIO, Sept. 2.—(AP)—Captain C. H. Reynolds and Staff Sergeant Gus Newland, second division fliers whose plane has been held by Mexican authorities since last Saturday, were winging their way to San Antonio from Camp Marfa Friday, according to a message received at Fort Sam Houston. Reynolds and Newland landed in Mexico by mistake Saturday after losing their bearings and the plane has been held by technicians since that time. They were returning from an unsuccessful search for Albert J. Mearns, war veteran lost in the Arizona desert. Captain Reynolds flew to Marfa Thursday afternoon and took off at 10:15 o'clock Friday morning for Fort Sam Houston. They expected to arrive about 1:45 p. m.

500 LEAVE PORT AFTER BEING RECEIVED BY CITY'S LEADERS

(By Associated Press) GALVESTON, Tex., Sept. 2.—With more than 500 delegates to the American Legion convention in Paris on board, the French liner Chicago was scheduled to sail from Galveston at three o'clock this afternoon. The Chicago arrived here early this morning with 200 delegates from New Orleans. Legionnaires from all parts of the northwest have been pouring into Galveston since yesterday morning. Arriving here they found a reception committee of Legionnaires headed by Frank M. Douglas, state officer; E. W. Palanders, commander of Argentine post number 29; Mrs. J. R. Nicoll, head of the women's auxiliary, and a group of ladies from the auxiliary calling to meet them at the depot. Each Legionnaire came into the city he registered on a card and was given a badge which entitled the visitor to free admission to any of the Galveston theaters, to the bathing resorts and to the greyhound races. City Gaily Attired The city was in gala attire for the occasion, and Galvestonians were preparing to give the Legionnaires a rousing sendoff when their ship slips out to sea this afternoon. This morning the Legionnaires were taken on automobile rides along the beach and about the city as the guests of the Rotary, Kiwanis and Lions clubs. At noon they will be the guests of the Galveston chamber of commerce at a seafood dinner. Allen C. Ayer of Dallas, chairman of the Paris convention committee of the southwest, who was one of the early arrivals Thursday, has been busy supervising preparations for the departure. The Galveston chapter, American Red Cross, has established a first aid station at pier 29, from where the Chicago is to leave. Partial List Final list from Galveston, together with names of those who have sailed or will sail on other vessels from New York include: Ahlens: Dr. Jack M. and Mrs. Ethel Eestes; Mrs. Gladys King; Miss Leola J. HOPE WANES AS NO REPORT ON ARMEN HEARD

(By Associated Press) ST. RAPHAEL AND PAUL REDFERN BELIEVED LOST TO WORLD LONDON, Sept. 2.—Anxiety deepened today for the safety of the trans-Atlantic plane St. Raphael, two aviators, Captain Hamilton and Colonel Minchin and their principal passenger. If the plane alighted at sea, whatever hope exists here is based on the rubber boat which the St. Raphael carried, for it was taken for granted the plane would sink quickly. It was realized, however, that this boat could not be expected to float long if the sea was rough.

Search Goes On For St. Raphael

(By Associated Press) OTTAWA, Ont., Sept. 2.—Anxious eyes today gazed toward the Atlantic and the Newfoundland wilderness to learn the fate of England's flying princess and her two daring escorts of the air. Long overdue for its safe arrival flight from Upavon, England, to Ottawa, the monoplane St. Raphael, carrying Princess Lowenstein-Wertheim, Captain Hamilton and Colonel Frederick F. Minchin, has not been heard of since it was reported to have been shot down in the Atlantic. The attention of two continents was a warning light for its safe arrival gave way to preparations for a hunt overland and sea.

Efforts To Find Redfern Continue

GEORGETOWN, British Guiana, Sept. 2.—Efforts to locate the missing American aviator, Paul Redfern, are continuing. Aviators in a seaplane from Georgetown reported today that they had made diligent search as far as Mabarumbi near the Brazilian frontier, but without success. They are proceeding in the Courantyne river on the eastern boundary of British Guiana to resume the search.

Runners Still Hoping For Flier

BRUNSWICK, Ga., Sept. 2.—(AP)—Reported disappointments in the wake of groundless rumors concerning the fate of Paul Redfern, missing Georgia aviator, have failed to dim the hope of the populace here that the flier will be found alive within the next few days. Despite the fact the whereabouts of Redfern was unknown after more than a week of silence since he hopped from this city last Thursday noon bound for Rio de Janeiro, the belief prevailed here that reports of an unidentified plane sighted in Venezuela indicated strongly that the aviator reached the southern continent.

STATE'S COUNSEL, ELECTED ON DRY TICKET, FUGITIVE NOW ON PRO LAW COUNT

(By Associated Press) CHICAGO, Sept. 2.—Alfred H. Pouse, who was elected state's attorney of McHenry county three years ago on an "ultra dry" ticket was a fugitive today from a warrant charging liquor law violation. Leaping from their automobile, the robbers, masked and armed, accosted Driggs at the entrance to the company offices. After snatching a bag containing the money, the men fled in the car. Five others have been arrested and are under bond including former Sheriff Lester Edginger, of McHenry county, and Postmaster N. F. Stellen, of Woodstock. The others, said to be resort keepers, are Jacob Bickler, Stephen Holmer and Fred Justen. Two other warrants, besides that naming Pouse, also have been issued. Disappeared Sunday Pouse, who disappeared Sunday after cashing an \$800 salary voucher left letters saying that he would never be back and blaming politics for implicating him in a country-wide booze running racket. According to the government agents, the liquor ring controlled protection on booze running in the county and they charged the missing state's attorney was head of the conspiracy. Postmaster Stellen and the former sheriff were accused of having been the collectors for the ring.

TWO OTHERS MISSING WHILE FOUR ARE HELD TO GROUND BY UNFAVORABLE WEATHER

HOPE WANES AS NO REPORT ON ARMEN HEARD

(By The Associated Press) Two planes missing, four held to the ground by unfavorable weather, and two planes in the air, was the status of long distance flights today. The St. Raphael, long overdue due at Ottawa from Upavon, England, was still lost and continual appeals for information from Canadian wireless stations brought only negative reports. The opinion prevailed among flying officials at Ottawa that the plane bearing Princess Lowenstein-Wertheim and piloted by Colonel Minchin and Captain Hamilton had not disaster in the Atlantic. Since the glimmer of hope that came yesterday with reports that Paul Redfern, flying from Georgetown to Brazil had fallen near Bama on his way to vanish when the reports were officially pronounced unfounded, the fate of the young flier has remained a mystery. Captain Courtney took off with his seaplane Whale from Southampton to Plymouth, England, in the first jump on his proposed trans-Atlantic flight, and Schies and Brock's Pride of Detroit left Constantinople for Aleppo and Bagdad the next lap of its world flight. The St. John Carling, flying from London, Ont., to London, England, and the Royal Windsor, flying from Windsor, Ont., to Windsor, England, were held by unfavorable weather at Caribou, Maine, and St. Johns, Que. respectively, while the Hearst plane, Old Glory, rested at Roswell field, awaiting the right wind to make a take off for Rome, Leon Givou, and Pierre Corbu, driven back to Le Bourget, France, by heavy fogs after a start for New York with their bi-plane Blue Bird, were impatiently waiting for better flying conditions. After the divorce Mrs. Dodge lived in Los Angeles until about two months ago, when she made a hurried trip to Honolulu after the death of Lieutenant C. I. Williams, army aviator who perished when his plane dived into the sea during a fare well demonstration for Lieutenant Lester Maitland and Albert Hegenberger first aviators to fly from the mainland. The marriage was described as a surprise.

Honeymooning Divorced Wife Of Army Lieutenant

(By Associated Press) HONOLULU, Sept. 2.—Hawaii today furnished the setting for the honeymoon of Mrs. Lois Knowlton Dodge, divorced wife of Horace E. Dodge, son of the wealthy Detroit automobile family, and Lieutenant Benjamin Franklin Manning of the army. They were married here yesterday under the ritual of the Methodist Episcopal church at the home of Kenneth Harlan, motion picture actor. Manning is attached to the coast artillery at Fort Ruger, near Honolulu. His first wife was killed in an automobile accident. Mrs. Dodge obtained her final decree of divorce from the wealthy Detroit man last May after he had made a spectacular race from Paris to Honolulu by airplane, steamer and automobile in an attempt to effect a reconciliation beneath a Hawaiian moon. After the divorce Mrs. Dodge lived in Los Angeles until about two months ago, when she made a hurried trip to Honolulu after the death of Lieutenant C. I. Williams, army aviator who perished when his plane dived into the sea during a fare well demonstration for Lieutenant Lester Maitland and Albert Hegenberger first aviators to fly from the mainland. The marriage was described as a surprise.

LOCAL FIRM IS NAMED IN SUIT

Seeking damages of \$50,000, alleged to be due him for non-payment of a chattel mortgage, John F. McNamara of Dallas entered suit today in the 95th district court against M. A. Marcus of Dallas, and the Plains Coca Cola Bottling and Ice company, which has a plant in Lubbock. Mr. McNamara claims that he conveyed the lot on which stands the building of the Plains Coca Cola Bottling and Ice company in Lubbock to M. A. Marcus and Abe Marcus in 1925, wherein he, the plaintiff, reserved vendor's lien against said property to secure payment of vendor's lien notes, aggregating a total of \$40,000. The notes were to be payable in installments 1, 2, 3, 4, 5 and 6 years thereafter. The plaintiff charges that the defendants executed as security to plaintiff a chattel mortgage upon all equipment of the business being conducted on the property, in addition to the Coca Cola franchise in Lubbock, Crosby and Lamb counties. He further claims that the Marcus brothers conveyed the property under-judgment to the Plains Coca Cola Bottling and Ice company, with the consideration that the bottling company assumed foregoing vendor's lien notes as part of purchase price. Charging default in payment the plaintiff seeks foreclosure on all notes.

Levine Will Judge Flight By Weather

LONDON, Sept. 2.—(AP)—Whether Charles A. Levine takes off on an attempted return flight to America tomorrow depends very largely on the weather reports and on news regarding the British monoplane St. Raphael, he said today. He and his pilot, Captain Walter Hinchcliffe, are proceeding to Cranwell this afternoon to superintend the installation of radio equipment in their plane, the Columbia.

Eleven Known Dead In Fireworks Blast

BUENOS AIRES, Sept. 2.—(AP)—Eleven persons are known to have been killed in an explosion at a fireworks establishment in the suburb of San Martin this morning. The building was wrecked and burned by fire following the explosion. As firemen fought to extinguish the blaze it was feared that bodies of additional victims would be found in the wreckage.

Two Negroes Die In Arkansas Slaying

Do You Want A Flying License

What do you know about aviation and the art of flying? In this modern day, with its Lindberghs, Byrds, Chamberlains and other world famous fliers, public interest now is centering on commercial aviation. Probably many of us interested in this subject would like to know the details of flying, with the expectation, or hope, of some day being able to take to the air themselves. In today's Journal is an article by Rodney Dutcher, NEA's Washington correspondent, telling of the method of filing application for license, and other information in this connection. CALLES SHOWS HOPE FOR LAW

(By Associated Press) MEXICO CITY, Sept. 2.—President Calles hopes that an amicable settlement will be reached as to differences that exist between Mexico and the United States over Mexico's land and petroleum legislation. Expressing the hope in his annual message at the opening session of congress last night, he said Mexico was willing to consider, in a spirit of justice and equity any concrete cases of aggression that might be presented. Up to the present time, however, he added, there had not been called to the government's attention "concrete actions that evidently constitute aggressions or rejections to foreign capital invested in the oil industry," while on the other hand, foreign capital had shown "activities, the contumacious and disrespectful of which no independent country can admit." On the religious question he said: "It can be said the religious conflict caused by the rebellious clergy now has practically concluded, for the laws have been complied with despite the futile resistance of the clergy." Mexico had faithfully met its foreign debt obligations, the president asserted, in spite of bad business conditions and decreased revenues. He added that it was the intention of the government to continue to meet these obligations to the full extent of the economic capacity of the country.

Suit Seeks Title To Levelland Lots

Seeking title and possession of land from which they allege to have been unlawfully ejected, Mr. and Mrs. Lawrence J. Montgomery of Calhoun county, Mich., and Mr. and Mrs. Ed F. Hutton of New York city, brought suit today in 95th district court, against L. F. Dickson, Ira Mayo and J. R. McCasland, residence unknown, with five lots in Levelland involved in the petition. The plaintiffs claim that the defendants, who gave notes for possession of the lots, have defaulted payment of same. Charging damages of \$1,500 the plaintiffs also charging legal rights to possess title to lots under consideration in the suit.

He stoutly resisted defense efforts to get him to admit he told other persons he recognized the voice of Osborne but no other member of the flogging party. The prosecution took the witness again and he was still on the stand when court recessed for lunch.

## Refuses To Plead

Counsel for Anderson, sprung a surprise today by announcing that the defendant would not enter a plea. The announcement, by Nat Gentry, sr., chief defense counsel, followed reading of the indictment, and was based on the fact that Anderson yesterday unsuccessfully challenged jurisdiction over this court. Judge J. R. Warren immediately entered a plea of "not guilty" for Anderson and instructed that taking of testimony begin. Anderson is specifically charged with being a member of a party of four masked men which on last June 8 (flogged J. R. Richardson and his wife and their daughter-in-law, tenants of the defendant Harrison county farm. Trial brought here on a charge of rape.

## Nine Farmers On Jury

The jury, completed late yesterday, consists of nine farmers, all land owners and some with tenants on their property, two merchants and an electrician. The first witness was Henry Richardson, six year old son of J. R. Richardson, questioned by Gallo way Calhoun, assistant attorney general of Texas, the boy said "Anderson run our family out" of a house on the Anderson farm in which the Richardson family lived.

## Film Actresses Take Turn About In Leading Role

(By the Associated Press)

HOLLYWOOD, Calif., Sept. 2.—Six months of competition between Sallye Eilers and Sue Carroll doesn't seem to have hurt either of them. They were chums on the Fox lot half a year ago—both of them extra girls hoping for the "big break" that would bring them screen recognition. It seemed hardly possible that both could have their desire. For when a part came along that either girl might have won, both of them obviously couldn't have it. Sallye lost out. The part went to Sue, and although it was a small thing, she did so well in it that Douglas MacLean picked her for his leading woman. But when Sue, with the MacLean picture finished, tried for the lead in Mack Bennett's forthcoming feature romanticizing the rise of a bathing-beauty to film fame, who should be her chief rival for the part but a little extra girl named Sallye Eilers? And this time Sallye walked away with the contract. Sue is the daughter of a wealthy Chicagoan. Her real name is Evelyn Keeter. Sallye is another one of those Hollywood high school girls who seem to take naturally to celluloid.

## Cosmopolitan Club Is Entertained By Mrs. Giles

Meeting with Mrs. J. F. Giles, 1916 Dixie Drive, members of the Cosmopolitan club played bridge yesterday afternoon. Mrs. Harry Futtile had high score among the club members and Mrs. Tom Carter made the visitors' high count. Mrs. Louise Hawkins made low score. The hostess served delicious refreshments to Mesdames Tom Carter, Glenn Brashear, Cliff Dean, Larverne Kersinet, Homer Pharr, Vernon Brown, Ed Groth, Earl Moore, K. L. Rieck, Harry Paulillo, Howard Logan, J. R. Allen, M. C. Butler, Joe Logan, Charlie Ward, Louise Hawkins, A. T. Stewart and W. A. Cook.

Mrs. Clyde Hood, 1920 16th Street, is gaining strength even though she is yet very ill.

**\$7.95 TO \$19.75**

Judging from the growth of this department the masses of the people are learning that it pays to buy from a store that specializes rather than one that tries to cover the whole field. You don't go to a general practitioner when you have a special disease, so why go to the store where one person buys everything from soup to nuts? Dresses and Hats is our business and you can expect something out of the ordinary and not be disappointed.

Priced as low as \$9.95  
Nothing higher than \$39.75

**MAGNOLIA MAN LEAVES**  
E. B. Hudgocote, traveling auditor for the Magnolia Petroleum company, after spending several weeks in Lubbock is leaving today for Amarillo. From Amarillo he expects to go to Pampa and work on part of the state.

**KINGSLAND CLEANING OUT FOR PROBE OF SAND**  
According to Dr. Gresham, Geologist and Superintendent for the W. Kingsland et al, who are drilling the No. 1-Brownfield well in the southwest corner of section 7, block A-1, E. L. R. R. survey, southeast Terry county, they expect to start cleaning out today, preparatory to making a test of the formation they think has just been touched. Since this test picked up a slight show of gas at 2230 feet while drilling with rotary, it has been drawing its share of interest while the change to cable tools is being made.

**CRUDE RUNS REDUCED**  
Crude runs were reduced 12,300 barrels daily average last week by the 124 Midcontinent refineries reporting weekly operations to the National Petroleum News. Gasoline shipments increased 1,000,000 gallons, which due to the reduction in production caused a cut of 900,000 gallons in stocks on hand at the close of the week. Cuts in gas stocks were made in all states except Oklahoma.

**MIMMS IS HERE**  
A. R. Mimms, of Fort Worth, who is drilling the Mimms No. 1 Richer, in the southwest quarter of section 17, Block X, John Glynn survey, Hale county, is in Lubbock now personally overseeing the operations. This test is drilling below 310 feet.

**WELL ABANDONED**  
Sup Oil company is abandoning dry its No. 1 Tom Burnett, in the corner of the northwest quarter of the southeast quarter of section 6, Block L, S. P. R. R. survey, county, at a total depth of 297 feet corrected measurement.

**"JOY RIDES" RAPPED**  
The United States Government is endeavoring to stop unauthorized "joy rides" on government gasoline in the Panama Canal zone, by adding a new dye to the stocks of gasoline. A heavy charge of green dye shows the gasoline to be readily identified, and if the theory proves out, less government gasoline will be used there.

**PLANES SPRAY WHEAT**  
The department of commerce in Halifax, Canada, has decided on the use of the Royal Canadian

Air force to spray chemicals on the wheat fields to combat rust. Each plane is expected to treat 6,000 acres a day.

**Frenchmen Turn Back In Big Fog**

**LE BOURGET, Sept. 2 (AP)—**Fog, hanging heavy over the French countryside, balked the bi-plane Blue Bird's attempt to fly to New York today. The giant plane, manned by Leon Givon and Pierre Corbu, after a beautiful take off at 6:31 a. m., was back over Le Bourget in less than two hours. Then for almost another full hour Givon circled the field hoping the haze would lighten, but when it remained still thick at 9 o'clock, he began emptying his gasoline tanks.

**Ship Lands Gracefully**  
By ten, the load had been reduced from 8,400 litres (about 2,500 gallons) to 4,000 litres (1,060 gallons), and the lightened ship was landed gracefully, her pilot and navigator bitterly disappointed over their failure.

The Blue Bird had proceeded about ninety miles when she turned back. Undeterred Givon, told the Associated Press that he would hop off tomorrow if conditions were similar to or better than those of today.

**Damage To Tail Skid Holds One**

**ST. JOHNS, Que., Sept. 2 (AP)—**The monoplane Royal Windsor will not be able to hop off before five o'clock this afternoon owing to new damage to the tail skid, the pilots announced at 11 o'clock.

**Sir John Carling Marooned In Maine**

**CARIBOU, Maine, Sept. 2 (AP)—**The plane Sir John Carling, which landed in a field in the town of Washburn six miles from here, last night, probably will remain until tomorrow before attempting to resume the flight from London, Ont., to Harbor Grace, N. F., and thence to London, England.

**White Light Seen By Ocean Steamer**

**HALIFAX, N. S., Sept. 2 (AP)—**The wireless station at Cape Race, N. F., advised the dock yard here this afternoon of a message received from the steamer Blijdendijl stating that six a. m. G. M. T. yesterday the vessel sighted a white light, probably belonging to an aeroplane in latitude 39.28 north, longitude 64.43 west. The light was proceeding in an easterly direction.

**Old Glory May Hop Off Today**

**ROOSEVELT FIELD, N. Y., Sept. 2 (AP)—**A contrary wind which refused to blow from the west so long as the monoplane Old Glory's crew sought to leave for Rome, suddenly swung to that direction today shortly after the airmen had temporarily abandoned the trans-Atlantic flight. As a result, decision reached early this morning to turn the expedition into a search for the missing Princess Lowenstein-Wertheim was partially withdrawn and it was conceded that the Rome flight plans might be resumed at five p. m., today.

**Schlee And Mate Are Over Syria On Globe Circle**

(By The Associated Press)  
**BAGDAD, Sept. 2 (AP)—**The Pride of Detroit, round the world plane, arrived at Bagdad at 9:30 p. m.

**ALEPPO, Syria, Sept. 2—**The American round the world plane, Pride of Detroit, is reported by the Havas agency to have flown over Molemiyeh, a few miles north of Aleppo, at 2:15 o'clock this afternoon, headed southeast.

**Hop Off Made At 5:20 This Morning**

**CONSTANTINOPLE, Tur., Sept. 2 (AP)—**The American round the world plane, Pride of Detroit, hopped off here at 5:20 o'clock this morning for Aleppo and Bagdad. The airmen, William S. Brock and Edward F. Schlee, hoped to reach Bagdad, about 1,075 miles from Constantinople, by 4:30 in the afternoon.

Brock and Schlee reached Constantinople from Belgrade, Yugoslavia, shortly before noon Wednesday and immediately became involved in Turkish red tape, which would not permit them to take off on the next lap of their flight until authorization was given by the Turkish military authorities at Angora.

As patiently as they could they waited all Wednesday afternoon and throughout Thursday for the permit to fly over Anatolia, but it did not reach them until late last night.

A woman placed a number of bills in a tin can, hid the can in a stove, then forgot all about it and built a fire. Treasury experts identified most of the ashes that remained and refunded her \$1200.

NEW ORLEANS TRADING
NEW ORLEANS, Sept. 2 (AP)—Long liquidation in advance of the government's crop estimate due next week and a bearish private estimate had a depressing influence on the cotton market today and the price trend was mainly downward. At the latest October traded at 22.44 and December 22.76, 40 to 41 points below the previous close. In the early afternoon the market rallied about 20 points on a report by a local authority that the crop had deteriorated at least 1,000,000 bales in the live month. Reports for the day totaled 34,565 bales and for the week 154,523 bales.

Stocks And Money

WALL STREET TRADING
NEW YORK, Sept. 2 (AP)—Bullish price tendencies again predominated at the opening of today's stock market. Buying orders were distributed over a fairly broad list but high grade industrials retained the leadership of the advance. General Electric opened two points higher at 144 3/8 and was followed into new high ground by Nash Motors and Postum Cereal. One block of 10,000 shares of American Can changed hands at 48 1/2 up 1/2. The increase of slightly more than \$15,000,000 in brokers' loans was less than generally expected, and failed to have any influence on the price movement. Higher crop prices, implying increased purchasing power of the agricultural community, were regarded as a bullish influence. Early buying centered largely in the motor, railroad equipments and southwestern rails, with pools again active in a wide assortment of specialties. Quick gains of a point or more were recorded by more than a score issues including General Motors, Sears Roebuck, DeSoto and Allied Chemical. American Machine and Foundry jumped five points. Pathe A was one of the few weak spots, dropping more than 3 points to a

new low record. British operations were again resumed in the Western Starboard, August, and a good demand developed for St. Louis Southwestern and Texas and Pacific. Foreign exchanges opened steady with demand sterling around \$4.85 1/2 and French francs around 2.91 1/2 cents.

Grain Market

CHICAGO TRADING

CHICAGO, Sept. 2 (AP)—Reports of frost in Canada rallied wheat prices sharply today after downward turns at the start. Initial declines were brought about by an unexpected setback in quotations at Liverpool ascribed to rains in Argentina and Australia. Opening at 2-8 to 2-4 off, wheat later rose to above yesterday's finish. Corn and oats were easy, corn starting unchanged to 1 1/4 cents lower, but subsequently recovering somewhat. Provisions showed strength.

Produce Prices

WOOL TRADING

BOSTON, Sept. 2 (AP)—The Commercial Bulletin tomorrow will say: A fair volume of business has been done in the wool market here this week. Prices are strong and inclined against the buyer, especially in view of the firm opening of

the Australian season at Sydney and the production of a five percent advance at London. Continental Europe and Japan have been the chief buyers in Australia this week. Bradford and Boston refraining from buying. There was, in fact, little suitable for this country.

The manufacturing situation has not altered materially during the week, although spinners and combiners report some improvement in inquiry and say they have considerable business at old prices. Mohair is in moderate request at 45-50 cents for original hair of the better descriptions. Kids are well sold up at around 70 cents in the original sacks. The Commercial Bulletin will publish the following wool quotations tomorrow: Scoured basis: Texas: Fine 12 months (selected) 1.97 @ 1.10; fine 8 months 90 @ 82. Mohair: Good original bag fall Texas 58 @ 60; Texas kid 48 @ 50.

WOMAN SHOPPER

Woman Shopper Buys In Bulk For Prison "Family" (By Associated Press) ROCHESTER, N. Y., Sept. 2.—When Mrs. Lillian E. Jones goes shopping she buys meat by the ton, material by bolts, and tooth paste by the carton. She is the housewife extraordinary of Monroe county, N. Y., purchasing for a "family" that ranges from 1,500 to 2,400 persons. Her duties as a purchasing agent include buying for the county hospital, the penitentiary, the almshouse, the jail, the county home for children, the county laboratory and a sanitarium. "We buy everything from kitchen pans to threshing machines," Mrs. Jones explained. This includes uniforms for the prisoners, materials for children's clothing, drugs and medicines for the hospital and sanitarium. The biggest part of the job is shopping around, keeping in touch with market quotations, knowing values, and keeping a sharp eye on the merchants to make sure that they are dealing squarely with us. We buy no second rate goods, a fact which certain wholesalers learn with great difficulty."

# PIRATES TAKE HARD BATTLE FROM CUBS TO WREST TOP PLACE

## RELATED RALLY Y CUBS FALLS FORT ONE RUN

### ARRIS' HOME RUN AND DUBBLE ARE FEATURES OF HARD FIGHT

(By Associated Press)

The Pirates wrested first place from the Brains after a stubborn battle in Pittsburgh yesterday, Chicago going down by 4 to 3 as the pirates assumed the supremacy on a slash margin of a single percentage point.

**Meadows Is Victor**  
Lee Meadows put the axids under the Cubs by keeping nine hits well distributed and had 25,000 excited on edge in the ninth by retiring his opponent after a run was two on the bases and one out.

Carlson, one of the leading members of the Chicago pitching staff, was the loser.

The Harris was the big noise of the Pirates' attack with a home run and a double. His sacrifice fly Grantham swung with the deciding run in the eighth.

Several days ago Wrigley's henchmen were coasting along in front of a five and one half game lead.

**Cubs On Toboggan**  
Not that the Cubs are through any means but the dopsters taking favorites point out that Chicago is on the toboggan as it is evidenced in the waning away of one time big advantage. On another hand, Chicago is considering having a shade by finishing on the home diamond but Cardinals benefitted as well.

The open date kept the Cards and Cubs from the heart breaking struggle yesterday while rain washed Brooklyn's traces at Washington. The Phils and Reds were without schedule.

**Giants Two Games Off**  
The Giants are but two games behind the crest and have back at them in winning streak of seven straight accumulated off western opposition. While sectional strife is center for the next few days, the Yorkers are in hopes of continuing their triumphant march on western front as the western comers feed off one another.

Here is how the scramble stands:

The Tigers shook off the jinx through straight games and subdued Browns, 8 to 4 by staging a run rally in the tenth. Rice, Adams and McManus hit home runs.

Cleveland topped the White Sox, 5 to 3, collecting 14 safeties off the combined efforts of Thomas and Secor. Summa banged a home run off one on base for the Indians.

Rain caused postponement of American league games.

## TEXAS LEAGUE BOASTS DANDY ROOKIE CLASS

**FIFTEEN STARS TO BE  
ADVANCED IF LOOKS  
ARE BELIEVED**

(By NEA Service)

**HOUSTON, Sept. 2.**—Fifteen young players, approximately, are making bids for major league berths under the baking suns of Texas this season.

It is doubtful whether any of the youngsters are going to create as much of a noise in the majors next season as Willis Hodlin, of Cleveland, did this year, but they're deserving of attention.

Houston, owned by the St. Louis Cardinals, had Eddie Hoek, who was turned down by Pittsburgh once, ready to step into the major.

Frank Frankhouse, a pitcher who has won around 20 games this season, and Wally Hoettger and Ernie Orsatti, outfielders, are also likely to make the grade next spring.

Waco has Randy Moore, who was with the White Sox at the opening of the season, and Max West, an outfielder tried out by the Yankees, on the market.

Johnny Mann, Wichita Falls shortstop, seems the best bet in the circuit to advance. He has been the sensation of the league this year.

There are others worth looking over, all of whom should be ripe in another season for the majors. This list includes Richardson, Fort Worth infielder; Taylor, Shreveport outfielder; Wopser and Moore, with Dallas.

**Good Football Player**  
Joe Guyon, Louisville outfielder, was a great back for Georgia Tech several years ago.

**Hails From Tulane**  
Eddie Morgan, recently purchased by Cleveland, is an alumnus of Tulane university.

## San Antonio Man Is Charity Card Winner

**HOUSTON, Sept. 2.**—Three knockout in the three bouts of the B. P. O. E. charity fight card at the City Auditorium Thursday night gave Carlos Garcia, San Antonio featherweight, a victory over

Battling Numa of Pay Town in 8 rounds; Jimmy Wayne, Houston, a nip over Billy Bruce of McKeenport, 19, in two rounds and Charley Cobb of Houston a rousing victory over Kid Gilbert, who claims the lightweight championship of Mexico.

The Garcia-Numa bout was the best of the card.

## Much Expected Of Hooks With Mustang

**DALLAS, Sept. 2.**—Alex Hooks, S. M. U.'s four-letter man in athletics during 1924, is expected to make some more Mustang history in 1927. Hooks, who hails from Edgewood, Texas, is the first man to letter in four sports since John Lee Brooks attended that campus in 1928. He was a star in 1924, but played a star on the championship Mustang football eleven. He was a leader with the conference winning basketball team and won his letters also, on the track and at baseball.

## BEN CANTWELL LOOKS LIKE A BUDDING STAR

**GIANT STAR MIGHT BE  
ANOTHER MOORE IS  
EVANS' BELIEF**

**BY BILLY EVANS**

The New York Giants recently purchased pitcher Ben Cantwell of the Jacksonville, Fla. club of the Southern League. It is rumored that the Giants passed over 25,000 simoleons for his services.

Thereby hangs an interesting tale that involves Pitcher Wiley Moore of the New York Yankees.

In many respects, Moore has been the darling sensation of the American League. Last season he won 24 games, while being only four in the South Atlantic League, yet not one major league scout who looked the big fellow over recommended his purchase.

No doubt the fact that Moore was 30 years old and had been in the minors for a number of years caused the scouts to fight shy of him. Business Manager Ed Barrows of the Yankees bought Moore, simply because he believed any pitcher able to win 30 ball games in any old league must have a pretty good assortment of stuff.

It was a fortunate purchase for the Yankees. The big rookie has been the balance wheel of the Yankee pitching staff. His remarkable ability as a relief pitcher has enabled Manager Huggins to rotate his regulars in turn and keep them on edge.

This year, as the wires carried many stories relative to the plying of Ben Cantwell, I made it a point to inquire of a number of scouts as to their opinion of the big right-hander. Not one of them liked his chances to make the grade in the minors.

Just a good enough stuff to deliver in the big show," was the consensus of perhaps a dozen famous scouts with whom I talked.

Recalling the career of Wiley Moore, I began to look up the dope on Cantwell. I found that he had been the leading pitcher of the Florida State League in 1926, winning 24 games while losing only five. His pitching enabled Sanford to win the pennant in both halves of the season.

It surprised me that such a performance didn't cause some big league club to look him over at least, and it not ready to send him out on option.

Yet the only progress that Cantwell made as the result of those 24 victories was from Sanford in the Florida State League to Jacksonville in the Southeastern.

John Jackson, Jacksonville, Cantwell continued where he had left off, as a member of the Canard club. Starting the campaign with 11 straight wins, his record when the New York Giants decided to gamble on him, was 22 wins in 26 starts.

I am told that the report of the scouts on Cantwell was much the same as that of Moore.

"He's no youngster and has just ordinary stuff," they said.

Cantwell, by the way, is 25 years or nearly five years younger than Wiley Moore. He is a right-hander, a trifle over six feet tall and weighing about 170 pounds.

He is a popular world's heavyweight champion got a rousing denial here today when like a conquering hero he swept into one of Chicago's greatest demonstrations.

Thousands of cheering men, women and children crowded the road station and the streets for blocks about it when Tunney came in on the Twentieth Century limited from his training camp at Speculator, N. Y., to complete his conditioning for a return match with Jack Dempsey here September 22.

**CHICAGO, Sept. 2.**—The mayor, the city council, the American Legion and civic leaders were banded together today into an official welcoming committee for Gene Tunney, the world's heavyweight champion.

There was on the program a parade from railroad station to the city hall, to give Chicagoans a chance to glimpse the man who is to defend his title against Jack Dempsey at soldier field September 22. Some fifty-to-the-city ceremonies at the city hall were arranged to take only a short time. They Tunney was to look over the city and go to his training quarters at Cedar Crest country club. He has been training at Speculator, N. Y.

Dempsey yesterday boxed three rounds with a trio of partners. He devoted his time to perfecting a defense against left hand leaders and jets, but he placed the crowd of fans on hand when he occasionally let go with some of the punches to land on Tunney.

**Backfield Material**  
Backfield—Joe Avinger, 145, Sulphur Springs; W. A. Biggs, 145, Dallas; John Bishop, 155, Kaufman; Jim Collins, 165, Dallas; Earl Carter, 165, Muskogee; Matty Cross, 170, Greenville; Tom Cummings, 156, Cooper; James Day, 160, Madisonville; Barney Fisher, 170, Dallas.

**Failed In Contract**  
The petition alleges that Dempsey failed to carry out a contract dated September 29, 1925, to fight Harry Wills.

The Coliseum club, of which J. E. Clements is president, contends there was a contract between Dempsey, Wills and Fitzsimmons entered into at Niles, Mich., and that this contract was transferred to the Coliseum club on March 6, 1924.

It is further alleged that up to July 15, 1926, Dempsey reported that he would fulfill the Coliseum contract, but on that date he repudiated it and since has refused to comply with its terms.

## Pipgras Is Slow In Cinching His Post With Yanks

**NEW YORK, Sept. 2.**—After five years as a "farm hand" George Pipgras has landed a regular job with the New York Yankees.

His work this season, although he has not pitched as often as might expect, leads to the belief that he will be one of the best hurlers on the Yankee roster next year. Perhaps in the league.

Pipgras came to the Yankees five years ago and has been whittled away to the minors each season until this one. His ability to control his fast ball and "sawler" was the main reason Pipgras was shooed away, but that's all in his past now as he continues to turn in victories for the Yankees.

## WICHITA FALLS PLANS PLAY IN DIXIE CLASSIC

**WINNER OF LONE STAR  
PENNANT READY FOR  
SOUTHERN CHAMP**

(By Associated Press)

**WICHITA FALLS, Sept. 2.**—Wichita Falls' eighth year in the Texas League has brought its first championship and today plans for the Dixie series will be rushed along. Despite a defeat at Waco yesterday, the pennant was clinched beyond the mathematical possibility of any club slipping up from the blind-side and stealing the plum when Houston's game with Dallas at Houston was rained out.

**Conference Today**  
J. Alvin Gardner, president of the new champions and league President at Dock Roberts were in conference at San Antonio today and planned to meet with Southern league officials at New Orleans or Memphis early next week.

The permanent construction of an addition to the grand stand at Athletic park to carry over three thousand additional fans has been under way for ten days and will be completed long before time for the Dixie series to start. According to present plans, temporary seats will be constructed on the right side of the park and also official's stands for at least 12,000, with standing room for several thousand more.

**Two Sets of Plans**  
Since the Southern association is not expected to be decided until the last few days of its season, it is expected that two sets of Dixie series arrangements will soon be drawn up—one in case Birmingham wins and the other to be in effect if New Orleans wins out.

The week's intervening time between the close of the Texas league and Southern association seasons will be spent in a hard-fighting tour of West Texas towns.

## MANY FISH TO SEEK BERTH ON MUSTANG CREW

**ASPIRANTS IN DALLAS  
AND OTHER TOWNS  
EQUALLY DIVIDED**

(Special To The Journal)

**DALLAS, Sept. 2.**—An analysis of the list of S. M. U. freshmen aspirants for football honors as regulars on the 1926 Mustang football eleven reveals that there is an even division among the candidates as between those hailing from the home town of Southern Methodist University, and those who come from distances.

**Dallas Offers 25**  
Not accounting for possible additions which may be made after training camp opens September 16 there is a round fifty of them—25 for Dallas; 23 giving their home addresses as other Texas cities, and two from outside the state of Texas.

A. W. Lindley of Sulphur Springs and Angelo Pirana, Dallas, top the weights at 226 pounds each, but will probably train lighter. Choc Sanders, the Garland "Indian," will probably go through the season with his 202 pounds of solid home-grown muscle. Dan Hancock of Dallas, trying for a place in the line, is the lightest man in the list, with his 120 pounds.

**Personnel of Tryouts**  
With the positions to which they aspire, their names, weight and where they hail from, the early list follows:

Line—Lee Ashcraft, 164, Waco; J. R. Brothers, 185, Wills Point; Bill Holz, 163, Dallas; Walter Cousins, 174, Dallas; Earl Davis, 174, Waco; Clifton Hill, 170, Garland; Wm. Jackson, 168, Dallas; A. W. Lindley, 229, Sulphur Springs; Lowell Pearson, 135, Colorado; Angelo Pirana, 226, Dallas; Frank Reele, 176, Dallas; Victor Sautley, 175, Dallas; (center); Choc Sanders, 202, Garland; J. C. Sewell, 156, Brownsville; Elmer Smith, 157, Dallas; Wm. Taylor, 155, Dallas; Chas. Shiley, Dallas; Dan Hancock, 126, Dallas; Guy Norwood.

## Massingill Is GOLF TOURNEY VICTOR TODAY

**FOIT WORTH, Sept. 2.**—Shooting remarkable golf through rain and mud, M. L. "Happy" Massingill of Fort Worth defeated Al Gardner of San Angelo, six and five in the quarter finals of the southwest tournament here at River Crest Country club Friday.

The sturdy little veteran overcame heavy weather handicaps and won his way into the semi-finals by shooting three under par for the 13 holes played. He took 33 on the out-going nine, 2 under par, then clipped off three pars and a birdie on four holes.

Bobby Van Zant, of River Crest, was the second party to go into the semi-finals. The young Ft. Worth star continued his steady shooting of Thursday to defeat the veteran H. E. Alexander of Munday, 4 and 3.

**Two Meet Today**  
Massingill and Van Zant will meet this afternoon.

Although their quarter final matches were not complete it seemed certain that two other favorites of the tournament would certainly go into the next to last round this afternoon, Ed Stewart of Glen Garden club, 19-year old Ft. Worth champion, was 3 up on 15 year old Hugh Carpenter, of Dallas through the thirteenth holes. Clarence Hubby, of Waco, veteran star who was runner up in the recent state amateur meet, was 2 up on Lavette Franks of Dallas through the eleventh hole.

## Tunney Welcomed By Chicago And Legion Officials

**CHICAGO, Sept. 2.**—The report given precedence in some quarters that Gene Tunney is not a popular world's heavyweight champion got a rousing denial here today when like a conquering hero he swept into one of Chicago's greatest demonstrations.

STEEL BRIDGE IS DEDICATED AT PALESTINE

FERRY CROSSINGS ARE DISPLACED ON LINK OF STATE ROAD

(By Associated Press) PALESTINE, Tex., Sept. 2 (AP)—Old ferry crossings over Trinity river, 12 miles west of Palestine were displaced today by a modern steel and concrete bridge which connects the east and west stretches of state highway number 42. Thousands of persons assembled to witness dedication of the structure, which was to be opened by Governor Dan Moody. The governor, Senator Earle B. Mayfield, Congressman Luther Johnson and others were on the speakers program. After the barrier cord was cut hundreds of automobiles were to parade across the bridge to the picnic grounds, where the throng participated in a barbecue for which 4,000 pounds of meat had been prepared. Women of Anderson county supplied about 5,000 pies for the feast. The bridge is said to be the only one of permanent construction on the Trinity between Dallas and the gulf. It is part of a great highway that will offer shorter distance between eastern states and the Pacific coast. Actual construction work started September 1, 1925, having been financed by Anderson and Freestone counties and by the state and federal governments. The expenditure is estimated in excess of \$250,000.

Many Relatives At Johnston Funeral

Lubbock relatives of H. A. Johnston, who died Monday in Slaton, attended funeral services there yesterday afternoon. Among those from this city were Mr. and Mrs. T. B. Williamson, Mr. and Mrs. L. D. Other out-of-town relatives and friends who were in attendance at the funeral and burial services were Mr. and Mrs. Ed Johnston, Breckenridge, Joe Johnston, Lockney, W. R. Tomlinson and family, Cisco, S. G. Tomlinson and family, Cisco, Mrs. W. A. Shahan, Abilene, and Clifford McReynolds, of Sweetwater. Mr. Johnston was a pioneer of Slaton.

testants and placed numbers in a hat from which each contestant drew for a number. The songs were numbered according to the number of the composer and called for in numerical order. Names of the composers were not revealed to the judges until after selection of the number which was first placed. Of the remaining six songs left over from the song contest of the Thirty-Eighth Legislature, the winner will win a prize of \$1,000 all rights to the songs after selection and adoption being reserved by the state.

Adding in the selection here yesterday, were a quartet, two soloists, a pianist, and a chorus. The quartet was composed of C. A. White, Austin Gunn, Dr. V. V. Clark and L. M. Brooks. Miss Frances Stahl and Mrs. W. P. Clements rendered solos, accompanied by Mrs. R. A. Trussel. The chorus included a splendid choral club of Rotan and the male quartet of Lubbock. Concluding the afternoon, Miss Frances Stahl was selected by Mrs. McKnight to sing "Texas" in solo. Following are the words of "Texas"—A Toast.

The Word I sing you a song of the State I Love. Of great rolling prairie, where cattle roam, Of wondrous hills and rivers wide, And great Gulf Coast, lapped by restless tide, And I sing you a song of a race of men, Whose blood courses red through the veins of them, As they live the life of the free and strong in the state, where God and true men belong, So I sing you Texas, the Lone Star State.

I sing you the song of our heroes bold, Whose names shall endure till all hearts are cold, Who planned and strove with righteous zeal, And gave their blood for the common weal, And I sing you the song of the the Alamo, The song of that hand-ful who faced the foe, Who fought for peace from a hated thrall And died—yet live in the hearts of all, So I sing you Texas, the Lone Star State.

I sing you a song of the Flag that's mine, Born out of the crimson of battle line, A field of blue with silvery star, Supported by white, and a red broad star, And that STAR points the way as we onward roll, Along planes of AZURE toward our goal, The we struggle through BLOOD, yet the shining light Of our purpose pure is proclaimed in WHITE, So I sing you Texas, the Lone Star State. Snakes have killed more than a million human beings in the last 50 years. An average of 20,000 are killed each year in India alone, and three to five thousand in the American tropics.

# General Motors Is Infant Prodigy Of Great American Business Field

EDITOR'S NOTE: This is the third of four articles discussing the reported combine of U. S. Steel, General Motors and the du Pont interests into a \$1,000,000,000 corporation.

By JOHN W. HILL

General Editor, Iron Trade Review  
General Motors corporation, the infant prodigy of the industrial world. Its growth has been both remarkable and unequalled by any other enterprise in existence. Latest development affecting its destiny is the decision of the board of directors for another stock dividend declaration of 100 per cent. Nine recapitalizations of General Motors common stock have been accomplished in the last ten years. These have been spanned by a tremendous increase in value.

**How Profits Grew**  
Analysts estimate that a holding of 100 shares of General Motors in 1917, keeping all his stock and taking advantage of the 100 per cent stock dividend, would now have 750 shares. This would make a growth from \$10,000 to around \$80,000 on investment. Meanwhile, cash dividends received would have been more than sufficient to cover the cost of the original 100 shares. The most startling is the rise of stock since the company's inception in 1908. A man who bought shares then for \$10,000, keeping stock dividends and taking advantage of the right to subscribe additional stock, would now have 750 shares, worth \$1,675,250, and have received cash dividends totaling \$350,000. Profits of the General Motors corporation during the first half of 1927 were just under \$120,000,000. This is a far more profitable enterprise than the United States corporation is indicated by the fact that the latter earned approximately \$91,000,000 in the first six months of 1927.

During 1926 General Motors corporation reported a net earning of 10 per cent upon its capitalization. Compared with less than 7 per cent earned by the steel corporation, its capitalization. With the utilization of only one-third of the steel corporation, General Motors has shown an ability to earn profits greater by 40 per cent than its great steel corporation.

**A Billion a Year**  
According to the recent announcement of a new stock dividend, the shares of General Motors are selling at around \$225 a share. Total of \$1,550,000,000. During the twelve months the corporation marketed 1,500,000 automobiles. Its business is running at a rate of well over \$1,000,000,000.

General Motors' assets total \$1,000,000,000 and it has a working capital of \$192,000,000. Its last balance sheet showed cash and market securities valued at \$125,000,000.

Approximately 120,000 workers employed by the General Motors corporation. Its annual payroll amounts to more than \$720,000,000. Wall Street reckoned the value of the year's cash and stock dividends at \$500,000,000. A large share of this flowed into the well lined pockets of the du Pont family. However, many other citizens shared the corporation's prosperity, as are 50,000 stockholders on record as of the last accounting. General Motors loomed up as a

challenging factor in the automobile field in 1927. From that period it made swift progress. The corporation and its great rival Henry Ford and his famous model T in open trade combat.

For some years Henry Ford continued to dominate the field unquestionably, making more than half of all the automobiles produced and sold in this country. At last, late in 1925, sales of General Motors cars were seen to be gaining upon Ford and finally they went ahead.

With sales of Ford cars slipping and those of General Motors and other leading makes gaining, it became clear that Ford must introduce a new model. Interruption of Ford production early this year for the purpose of developing a new type car has meant even greater sales for General Motors and it helped augment earnings of that great corporation.

General Motors is engaged primarily in the motor industry, as its name implies, and manufactures seven different cars. But the other lines of industry in which it is engaged are numerous.

It manufactures bodies, roller bearings, horns, radiators, starting systems, rims, spark plugs, speedometers, air cleaners, oil filters, mufflers, differential gears, steering gears and steering wheels.

**A New Line**  
The corporation also manufactures lighting units for farms and is a leading factor in an industry which is practically new that of electric refrigeration. This last line it is predicted, will soon be one of the world's great industries.

Much of General Motors' large earning power can be attributed to these lines outside of automobile manufacturing. Growth along such lines as electric refrigeration insures the corporation of liberal earnings even though it might experience a bad year in its principal product.

Tomorrow: The du Ponts and General Motors.

Panel 2: "Great goah!" gulped Wattle, looking back, white-faced. "You hit him! You knocked him into the ditch!" "It served him right, the old fool!" said Buks hoarsely.

Panel 3: The unfortunate man sat up in the ditch, groaning and brushing the dust from his bleary eyes. "Devils on wheels!" he cried weakly. "They tried to kill me!"

Panel 4: When he attempted to rise to his feet, he found himself so weak and shaken up that he fell back, with another groan. "The jig's up!" he told himself dolefully. "I'm done for! I'm a ruined lion tamer! I couldn't go into the cage if I got to Claremont in time for the first performance." The sound of a motorcycle brought him to his knees as the machine appeared. THE PLAINSMAN

Says:
Scientists estimate that there are 2,800 different kinds of snakes in the world but that figure doesn't include the human kind.

If the aid traffic gets much heavier over the Atlantic some means must be hit upon to install a stop and go system.

During the war, if you remember, War Savings banks were erected on the lawns surrounding public buildings in practically every city of any size in the United States.

The money collected through these banks went to back the boys who were overseas doing the actual fighting or to help train them in the camps preceding their departure to the expeditionary forces as soon as possible.

As the Plainsman sees it the practice of lending public land for public service was not a bad precedent and might well be carried further.

Why shouldn't every American city set aside a plot of its own ground for the erection of a permanent home for its Legion post? Safeguard the plan by permitting the legion to build only the type structure which will conform, architecturally, with other buildings surrounding it and stipulating that it must be such a building as will add to, and not detract from, the beauty of the municipality.

If such a plan was placed into effect the result would likely be that many legion posts would take advantage of the free land grant to erect their permanent homes, thus increasing the beauty of their communities and at the same time benefit their own organization.

If we could permit the use of the ground to raise money for war supplies why can't we permit it for the benefit of the boys who turned that money into victory?

The Allen Brothers stop here for instance, is beginning a campaign to raise funds for the erection of a permanent home. Why not turn over a site in one of the city parks or adjacent to the City hall to the boys for their building?

Certainly much good and no harm could result from it if properly handled. It is at least one way in which we, as private citizens and a municipality, can express our appreciation for what they did for us at the time we most needed them.

An intoxicated violinist in an Argentine lumber camp is credited with the idea of extracting music from an ordinary steel saw which probably also explains the origin of a number of our modern day musical instruments.

What happened to the boob who predicted there would be no summer in 1937?

Wonders never cease. The Plainsman has advanced an idea which he brought to him many recommendations and thus far not a single adverse criticism. Of course he'd better knock on wood for the statement that you can't please all of the people any of the time.

It is good to have in public favor even if only for a few minutes. The idea which pleases so many and evidently displeases so few is the one appearing in this column yesterday, advocating the use of public property for the permanent homes of legion posts.

I do not know whether the idea is original or not. Furthermore I do not know whether the plan has ever been tried or not, if it has original. Yet regardless I do not know of a place where I'd rather see it put into effect than RIGHT HERE in Lubbock.

Everything is in its compartments. That Man on Avenue Q says he doesn't mind hitting himself on the head with a hammer because it feels so good when he stops.

It won't be long now until paring machines are installed at the airports and whenever a crowd of cloud dodgers takes off for Spitzbergen or Samoa, the merry throng will be busy about the getting boots. Just buy your ticket and go home and wait for the morning paper.

Lives getting so complicated that it's really simple after all.

A Bad Idea
The scene was a little Pennsylvania town where several men were working on a construction job. It was nearly noon and the men were getting hungry. They awaited this whistle and eyed their dinner pails hungrily.

There was a war in the crowd. There was in the ring one of those fellows they call "the life of the party," who turns the laugh to everyone's expense save his own. It would be fun to attach a live wire to one of the dinner pails and see the man jump when he touched it.

It was fun. The boy whose dinner pail was wired a youth of 15 reached for his bucket and that was his last touch. The strong current killed him. Another practical joker roped the fruits of his ignorant designs. Practical jokes are nice people to have around.

One swallow does not make a party.

One swallow does not make a party.

One swallow does not make a party.

One swallow does not make a party.

One swallow does not make a party.

Commercial Pilot Must Pass Three Tests In Order To Get His License, Rodney Dutcher Writes From Capital

IN NEW YORK
SEE-SAWING and down BROADWAY

NEW YORK, Sept. 2.—Happily, it would seem, we begin to take on a few more of the customs of the Parisians.

In the Quarter Latin in Paris the waiter is presumed to know a great deal concerning the arts and the visitors sit over their wine cups chatting with the "garcons" about the latest futuristic movements.

Bob Coleman, columnist of a morning paper, reports that he went to a certain popular cafe where a group of young writers, dramatists, critics and such were gathered over their coffee. They began debating the subjects of drama, the movies, books and what-not when suddenly he noticed that "Henry" the "hack" check artist had wandered over and was intently listening.

Suddenly he attracted attention by thrusting himself into the conversation.

"While you're discussing these modern youngsters, don't forget Louis Brandeis," she hurred at them while all the debaters on either sides all but fell from their chairs.

About a year ago I had been launching in the Algonquin with Count Ilya Tolstoy, son of the great Count Ilya had come to America to superintend the making of certain pictures based on his father's works.

As we left the dining room I noticed him step to talk for several minutes with the hat check girl. He came away smiling.

"That girl knows more about my father's works than half you writing folk," he told me. "When I first came she began to talk with me about 'The Resurrection.' She fairly swamped me with intelligent questions."

"A few hours later I met a group of New York movie critics. Half of them knew little or nothing of that novel or any other of my father's novels. And the young man who checks hats with her, so I found out, is just about as well informed."

Thus do the customs change. The hat check girl becomes tutor to her clients. Whereas to date the most unattended discussions between customer and servant I had heard were those that went on in a certain Henry's house lunch room, when I reported railroad news in San Bernardino, Calif. These concerned the perennially popular subject of forthcoming dates between the pretty waitresses and the lucky young men from the round house.

Once more Greenwich Village can point with pride to its "poetic" in spite of rising skyscrapers and uptown invaders, the old tradition of the "village poets" is revived from time to time by groups of youngsters.

Just now they hold forth in the "century-old house" in Bedford street. The meetings are held by candle light and, while the candles gutter in their sticks, they rise to read their latest contribution to the muse.

Recently someone decided that since artists have exhibitions, there seemed no good reason why poets couldn't do the same. Wherewith for the price of one dime, a poet

was allowed to hang his verses upon the "old house" wall. Within a week the walls were almost covered for the first verse exhibit on record.

WHOLLY BE NEXT.

A letter to the advertising department of the Times inquires of the advertising rate. The letter states that a matrimonial agency will be established soon and the prospect is that some advertising will be done in Cleburne.

That inquirer evidently didn't know of just whom they were dealing. They perhaps didn't know that such agencies don't have much to do in Cleburne.

When the sponsor gets ready to desert the ranks of singlehood, why he just pops the question, that's all, and if the dame is of the same notion then the rest is a matter of arrangement. The whole thing is settled.

Another evidence that an agency is not needed and would waste its money in advertising in Cleburne is the fact that out of the employees of the Times three have joined the ranks of the Benedict this summer.

Anyway if the agency is established the Times will take the advertising and hope that it gets the very best results.—Cleburne Times.

This thing of matrimony is getting to be too much of a joke anyway. We heard a fellow say a few days ago that at least one third of the cases on the docket in Lubbock county are divorce suits. That is the result of too little thought before marriage. It is the result of hasty marriages, and lack of love, the interference of "friends" and relatives, uncongeniality, mis-matches, are tragic, yet some old nosy women are busy trying to make them all the time.

Trying to live beyond the income is one of the principal reasons in this day and time, and the young people of this country need much education along this line.

We have known a few people who have married as a result of acquaintance through matrimonial bureaus, but it is an exception rather than the rule.

Well, it's about time to be up and pursuing one's studies again—and the co-eds.

The only thing we want to know about the new Ford is how much noise it is capable of in a narrow alley between 5 and 6 on a Sunday morning.

A prisoner in a California jail announced he would cry himself to death. Even the convicts are catching this non-stop habit.

Maybe after Coolidge is through being president he will settle down.

A ranger in Africa reports he killed three elephants with one bullet. We live in a machine age, it's true, but the spirit of Aesop has not passed from the earth.

Chicago police are going to carry nightsticks again, says a dispatch. The obsolete will return if you just give it plenty of time.

When Clarence Chamberlin returned to his home town an aerial stunt show was given for his entertainment. That's like giving a taxicab chauffeur an exhibition of plain and fancy darning.

A total of \$25,000,000 was earned last year by students in 493 colleges and universities in the United States. Thirty-nine per cent of the total enrollment of these institutions were wholly or partially self-supporting.

The lifetime of a good watch, experts say, is 50 years. The balance and hair-spring vibrate 157,000,000 times a year, while an equal number of ticks come from the escapement.

How well do you remember the old songs? Five of the questions in today's quiz are about the melodies of a generation ago. Answers are printed on classified page.

1—From what song is the line: "And I'll never see my darling any more?"

2—In the early days of the world war, to where was the seat of French government moved?

3—Who was England's "virgin queen?"

4—Identify the song from which is taken the line: "Soft o'er the fountain, lingers falls the southern moon."

5—When was the last panic in Wall street?

6—From what song is: "We'll take a cup o' kindness yet?"

7—What United States presidents have been assassinated?

8—Give the song from which is taken: "Though the heart be weary, and the day and long."

9—For what unusual quality was Proteus famed?

10—What song contains: "Gone are the friends from the cotton fields away?"

40 And 8 Is Big Boost To Legion

Savage Asserts
(PBy Associated Press)
PARIS, Sept. 2.—The Forty and Eight honor society and "playground" of the American Legion, has given vital and unstinted aid to "every major endeavor of the Legion," Howard P. Savage, national Legion commander, says in a report made public today, prepared for submission to the annual convention of the former service men's organization in Paris September 19 to 24.

The Forty and Eight has cooperated and furnished leadership," he said, "to the extent that there has been a noticeable trend toward making the big serious problems of the Legion the first concern, and relegating the fun-making to second consideration."

"The main program to the national child welfare committee of the Legion would have fallen completely except for the financial help accorded in the 12,000 grants furnished by the Forty and Eight. This fund made possible carrying out of the child policy of home aid, and the vital assistance to mothers who stumbled the latter to keep children in their own homes."

FRUIT AND MELONS GOOD
ALPINE, Sept. 1. (AP)—The fruit and melon crop in the entire Delta Mountain section is proving much better than was expected according to reports received here.

The gathering of the crops on recently was started, as most of them are of the last season variety.

# RECORDS SHOW WOMAN HANGED FOR FORGERY

FIRST DISTRICT COURT  
AT HOUSTON IN 1837  
WAS BUSY TERM

(By Associated Press)  
HOUSTON, Sept. 2.—Browsers among the records of the district court here have just unearthed the minutes of the first court held in Houston in which a man convicted of murder, sentenced on Wednesday, to be hanged was executed the following Wednesday; a woman was convicted of forgery and also was sentenced to be hanged by the neck until she is dead and may the Lord have mercy on her soul; and a man was ordered to restore \$25 to a complainant and in addition to be lashed 25 times on "his bare back and be branded on the right hand with the letter 'T.'" which apparently was to denote that he was a thief.

Held in March, 1837  
The first session of court was held on March 28, 1837. In the regime when Texas was a republic Congress had not yet passed criminal laws or set up a penal code, but under provisions by which the court was created, the English common law was adhered to in the interim. Benjamin C. Franklin was district judge, John W. Moore was sheriff and John Holman was clerk. The jail was a one room log building with its only entrance through a trap door in the roof and the court house was a two room log cabin. The jail, a grand jury report some time later said, was an inhuman contrivance, provided no privacy for women inmates and might become a source

of pestilence because of its lack of sanitary appliances.  
**Grand Jury Report**  
The grand jury directed its attention to the situation surrounding free negroes who "exert a mischievous influence over our slaves." Texas, the grand jury report added, is a slave-holding country and will, the grand jurors trust, ever remain such. A family of free negroes, "the report added, commonly presents the impregnations of indolence, ignorance and dishonesty. Such a family, unless strictly and perpetually watched and kept at a distance, will render the slaves of the plantations near which they are situated, dissatisfied, disobedient, restless and corrupt. The grand jurors are aware that they have not alluded to several very important points which suggest themselves in this consideration of the subject. It is not deemed necessary to do so in this community."  
The woman who was sentenced to be hanged for forgery was Pamela Mann. According to the

### Ross Beats Satan In Killarney Names

KILLARNEY, Irish Free State, Sept. 2 (AP)—The Devil and the great O'Donoghue Ross, a fourteenth century Irish leader, seem to have divided Killarney between them.  
Half the names of geographical spots refer either to his Satanic majesty or to the great O'Donoghue wins.  
The Devil has his "Punch Bowl" beyond Mount Turk, near the top of Mangerton Mountain, an experience 2,200 feet above the sea level and his "Ladder" and his "Chair," rock structures resembling their names. O'Donoghue, however, has his "Prison" his "Library," his "Pigeon House," his "Table," and his "Charger," all those being fanciful names given to rocks in the famous Killarney lakes.

## Much Interest In Short Course At Seagraves Shown

Representatives of many South Plains towns were in attendance at the Gaines County Farmers' Short Course which recently closed in Seagraves, D. F. Eaton, Lubbock county agent, who was one of the speakers. On the occasion, announces J. B. Jones, of Lubbock, district representative of the Texas Cotton Growers Finance Corporation, Prof. W. L. Stangel, of Texas Tech; Mr. Eaton, and Miss Louise Baird, county home demonstration agent, represented Lubbock county in speeches before the gathering.  
Miss Baird and Miss Mille Halsey, county home demonstration agent of Lynn county, spoke before the home demonstration club, giving demonstrations in cooking and canning.  
Professor Stangel talked to the farmers on subject of "Dairy and Beef Cattle." Mr. Eaton addressed the Gaines county group on "Poul-

try—Rations and Cullings."  
G. W. Eudaly, swine specialist of the extension department of Texas A. and M. gave an instructive talk on "Hog Rations and Cullings."  
Business men of Seagraves and Semboke, in a combined meeting, agreed to unite in preparing an exhibit for the South Plains fair, which will open here the latter part of this month, Mr. Eaton said.

## Noted Egyptian Feminist Lauds American Ideals

(By Associated Press)  
NEWPORT, R. I., Sept. 2.—Admiration for American civilization and for the liberty it gives to women everything in life, was expressed by Madame Hoda Charaoui Pasha, a leading Egyptian feminist, when she came to Newport this summer.  
"My own feeling as a servant in the feminist movement in Egypt," she says, "is that I have never seen a country yet in which women enjoy with men a share of liberty as

fully as in the United States."  
"Despite the fact that relations between the United States and the Near East are comparatively new, the feeling of the people of Egypt, as well as Turkey, Syria and other countries of the Near East toward you in one of a growing feeling of affection. The many institutions established by Americans in the Near East, with no other object than to educate, have further cemented that feeling among our people."  
Madame Hoda Charaoui has been visiting here with her daughter, Madame Mahmoud Samy Pasha, wife of the Egyptian minister to the United States, at the Egyptian summer legation. A daughter born to Madame Samy while in the United States has been named Hoda, after her grandmother.

**LEGION POSTAGE STAMPS**  
PARIS, Sept. 2 (AP)—Postoffices and tobacco shops will begin September 15 to sell special postage stamps commemorating the convention of the American Legion. The stamps bear the heads of Lafayette and Washington separated by the Atlantic Ocean. In the background are the statue of liberty, a ship and a monoplane.
