## SON CHARGED Fort Stockton Rancher, Wife Found Slain

FORT STOCKTON, Tex. (AP) — The son of a prominent West Texas couple found shot to death at their home Wednesday has been charged with murder with malice in connection with the slaying.

The body of J. Bert Kincaid Jr., a rancher and businessman, was found in his automobile parked in the driveway.

His wife, Ann, was found in a bedroom. Both had been shot in the head.

John Russell Kincaid, an 18-year-old freshman at Texas Christian University, merely shook his head when the charges against him were read.

Kincaid was ordered held without bond by Justice of the Peace L. M. Fielding and bound over to the grand jury to meet Friday. He was brought to the Pecos County Courthouse by an uncle.

Sheriff's deputies said Kincaid was apparently shot as he started to turn on the ignition. He normally left the house about 6 a.m. to have coffee with his friends.

## No School For Students

There will be no school tomorrow in the Big Spring Independent School District — for students that is.

Teachers will be behind their desks as usual, averaging grades and grading test papers to determine final grades for the first semester.

Classes were to be dismissed at the regular time today, and students will resume classes at the regular time Monday to begin the second semester.

## Nigerian Plea For Aid

WASHINGTON (AP) — The White House received an urgent Nigerian plea for aid today and President Nixon promptly ordered that the request be met "fully and on an emergency basis."

In announcing this, presidential press secretary Ronald L. Ziegler listed these items which will be rushed to Nigeria to help relieve suffering in the former secessionist state of Biafra:

—Four 18-ton C97 cargo planes. The craft are now in Cotonou, Dahomey, neighboring Nigeria, and will be supplied for airlifting of relief goods inside Nigeria. International Red Cross-hired crews will fly the planes.

—Two 10-ton DC6 planes. They are now in Iceland. They will also be flown to Lagos in Nigeria for service under arrangements similar to those for the C97s.

—Immediate airlifting from the United States to Nigeria of 50 generators, 10,000 blankets and 10,000 hurricane lamps for hospitals.

Ziegler said the aid ordered by Nixon, based upon a telephone call received from Lagos this morning, is in addition to U.S. relief previously earmarked to alleviate hunger and provide medical help in Biafra.

## Plane Crash Claims Eight?

ASPEN, Colo. (AP) — A Rocky Mountain Airways plane crashed into a mountainside, narrowly missing a house, on approach to the Aspen airport today. All aboard, believed to be eight persons, were killed.

Arthur Neumann of the National Transportation Safety Board in Denver said seven passengers and a pilot were aboard the plane when it left Denver at 7 a.m. on a nonstop flight.

A doctor reported finding six bodies in the mangle wreckage.

The twin-engine Aero Commander was Flight 10 from Denver to Aspen.

It crashed into a terrace a few feet in front of the home of Dr. and Mrs. William Murry, at White Horse Springs, on a mountainside overlooking the valley and the airport.

## Jumbo Jet Flight

LONDON (AP) — A Boeing 747 jetliner arrived in gray, wintry London from New York today on the maiden transatlantic commercial jumbo jet flight.

An overheated engine grounded the original aircraft and a substitute called Young America left New York at 1:32 a.m. EST, nearly seven hours after the scheduled departure time.

The jet, carrying 332 passengers and 18 crew, touched down at London's Heathrow Airport at 8:05 a.m. EST.

# Nixon Will Boost Spending To Fight Crime, Pollution

WASHINGTON (AP) — President Nixon told Congress and the nation today he will boost spending to fight crime and pollution at home and, in foreign affairs, can foresee "a generation of uninterrupted peace."

In his first State of the Union address, before a joint Senate-House session, Nixon said law

enforcement agencies will be the only ones to receive increased funds in his forthcoming federal budget.

And he said he will propose the biggest, costliest anti-pollution program ever—with \$10 billion to be spent on "clean water" projects alone. The outlays would be made over a five-year period.

**ROAD TO PEACE**

Touching briefly on foreign affairs, Nixon foresaw progress in achieving peace in Vietnam and looked hopefully toward fruitful negotiations with the Soviet Union and, possibly, Communist China.

"I would be the last to suggest that the road to peace is not difficult and dangerous," he said, "but I believe our new policies have contributed to the prospect that America may have the best chance since World War II to enjoy a generation of uninterrupted peace."

Announcing that he will submit at least a dozen major legislative programs during the 1970 congressional session, Nixon also called for early action on more than 40 bills he submitted last year that await attention.

**INFLATION**

Nixon, emphasizing domestic concerns in his 4,500-word address, placed particular stress on efforts to curb inflation, crime and pollution.

The chief executive, promising to submit his second straight balanced budget in the next two weeks, pointed to budget restraint as a key to warding off inflation, which he blamed largely on federal spending during the Democratic administrations that preceded him during the 60s.

"I recognize the political popularity of spending programs, particularly in an election year," he said. "But unless we stop the rise in prices, the cost of living for millions of American families will become unbearable and government's abil-

ity to plan programs for progress for the future will become impossible."

**BUDGET CUTS**

Referring to budget cuts, Nixon said: "There is one area where I have ordered an increase rather than a cut—the requests of those agencies with the responsibility of law enforcement."

He said federal spending to assist local law enforcement will double in the 1971 fiscal year that begins July 1.

Asserting that "we must declare and win the war against the criminal elements which increasingly threaten our cities, our homes and our lives," Nixon tossed in a passage aimed directly at his legislative audience:

"I doubt if there are many members of this Congress who live more than a few blocks from here who would dare leave their cars in the Capitol garage and walk home alone tonight."

Pointing to 13 anticrime bills submitted by the administration last year, the President complained that none has yet become law.

"We in the executive have done everything we can under existing law," he said, "but new and stronger weapons are needed in this fight."

Turning to pollution, he said the price tag for clean air, clean water and open spaces is high but must be paid now.

**WATER PROGRAM**

"The program I shall propose to Congress will be the most comprehensive and costly program in this field ever in the nation's history," he said.

He said his \$10 billion water program would "put modern municipal waste treatment plants in every place in America where they are needed to make our waters clean again, and to do it now."

Nixon also promised to "propose innovative financing methods for purchasing open space

and parklands, now, before they are lost to us."

As in most instances, he gave no details, withholding them for a series of special messages to be submitted later.

The President did hint at possible new levies on purchases of new automobiles. Without getting specific, he said that to the extent possible "the price of

goods should be made to include the costs of . . . disposing of them without damage to the environment."

He may have had auto junkyards in mind.

Nixon also stated that "the violent and decayed central cities of our great metropolitan complexes are the most conspicuous area of failure in American

life."

Again without saying how he would go about it, he said, the federal government must be in a position to assist in the building of new cities and the rebuilding of old ones. And he said the country must "create a new rural environment that will not only stem the migration to urban centers but reverse it."

**CHARGED IN YABLONSKI CASE** — The FBI announced in Washington Wednesday night that they have charged, left to right, Aubran Wayne Martin, Claude Edward Vealey, and Paul Eugene Gilly, all of Cleveland, Ohio, in connection with the murders of United Mine Workers official Joseph A. Yablonski, his wife Margaret, and his daughter Charlotte Joanne. The FBI said the three are charged with interfering with the rights of union members by force or violence; conspiring to interfere with the rights of union members by force or violence; and obstruction of justice.

## Was Yablonski Slain To Keep Him Silent?

CLEVELAND, Ohio (AP) — The first of three men arrested in connection with the death of Joseph Yablonski, United Mine Workers insurgent, and his wife and daughter, was accused today of conspiring to kill Yablonski to keep him from testifying before a federal grand jury investigating labor activities.

Claude Edward Vealey, 26, Cleveland, was charged with conspiring to kill Yablonski, illegally transporting a gun across state lines, and interfering with administration of justice. Arraignment was set for Jan. 30 in Cleveland.

Others to appear before a U.S. Commissioner today were Paul E. Gilly, 37, East Cleveland, and Aubran W. "Buddy" Martin, 23, Cleveland.

All three men were arrested in Cleveland Wednesday by FBI agents.

Bond for Vealey was set at \$250,000 on the conspiracy to kill charge, \$25,000 on the weapons. No bond was set on the interference charge, a misdemeanor.

Federal officials declined to elaborate on the accusation that Yablonski was killed to prevent him from testifying. The allegation was contained in the formal charge read to Vealey at his appearance for the setting of bond.

Vealey, an Ohio State Reformatory parolee, also was charged with violating the fed-

eral firearms act by transporting firearms across state lines.

Family members have asserted that the slayings of Yablonski, 59, his wife Margaret, 57, and daughter Charlotte Joanne, 25, stemmed from Yablonski's

unsuccessful bid to become president of the UMW.

Yablonski had made an unsuccessful attempt to unseat UMW President W. A. "Tony" Boyle in a bitter union battle shortly before the slayings.

## Grand Jury Expected To Make Report Today

The Howard County Grand Jury, currently in session to investigate local drug traffic, had questioned five youngsters by noon today, and four more recalled for testimony were still waiting in the hall. A report of the grand jury's findings was expected to be given to District Judge R. W. Caton later today.

The October grand jury was called back into session last week by its foreman, John Currie, and during the week-long session nearly 65 youngsters who had been subpoenaed to testify were quizzed. The jury adjourned Saturday at noon and reconvened this morning to conclude its investigation and issue a report.

Judge Caton said this morning the report issued by the grand jury will be made public, and

he will also issue a statement concerning the penalties for violating the Narcotic Drug Regulations and the Dangerous Drug Act.

Most of the youngsters who testified before the grand jury this morning had been recalled from last week's session, but at least one is known to have been subpoenaed since the close of the session Saturday. That person reportedly testified before the grand jury this morning.

The investigation into local drug traffic came as a result of the Dec. 18 arrest of five Big Spring persons and one from Denton on charges of selling LSD, and one for selling marijuana. All six have since been released from Howard County jail on various bonds.

## Says Smoking, Driving A Car More Dangerous Than 'Pill'

WASHINGTON (AP) — A birth control researcher armed with charts and graphs told Senate investigators today that smoking, driving a car or riding in a motor boat are hundreds of times more dangerous than taking the pill.

Dr. J. W. Goldzieher of the Southwest Foundation for Research and Education said no proof has been found that the pill even causes headaches or nausea.

In fact, he said, it may prevent these side effects as well as more serious ailments such as cancer.

"Still," he added, "when all is said and done a finite risk may well exist."

Goldzieher urged that current research go on while efforts are made to avoid alarmist reports and the ultimate question of who should take the pill is left up to each woman and her doctor—"and no one else."

Goldzieher's comments were contained in a 16-page single-

spaced statement, heavily larded with graphs and charts, prepared for the Senate monopoly subcommittee.

The panel, chaired by Democrat Gaylord Nelson of Wisconsin is looking into the safety of birth control pills.

Of 14 witnesses heard so far testimony by Goldzieher, suggested as a witness by the G. D. Searle Drug Co., was the most detailed and impassioned defense of the pill.

All but one of the others told the subcommittee of suspected—but not proven—links between the pill and a wide assortment of ailments, including fatal and nonfatal blood clots, diabetes and cancer of the cervix, breast and the uterus.

Three witnesses appearing with Goldzieher followed this pattern today, tentatively linking the pill to various forms of cancer and to metabolic changes.

They included Dr. Louis Hellman, chairman of the Federal

Food and Drug Administration's Advisory Committee on Obstetrics and Gynecology, which last fall issued the government's second report on the pill.

It cited a mounting number of studies pointing to potential hazards.

The problem of whether the pill causes cancer of the breast, said Hellman in his prepared statement, is "worrisome and unresolved" and studies continue to "enhance" the suspicion of a link with other forms of the disease.

Goldzieher presented his case by asking a series of seven questions, then answering them.

1. "Do we know how often women have adverse effects from the pill?"

Answering in the negative, Goldzieher cited a study in which a group of women took the same type of contraceptive pill for several years which was changed in appearance every six months.

## Texas' Nickel-A-Drink Tax Nets \$976,675

AUSTIN (AP) — Texas' new nickel-a-drink private club service tax netted the state \$976,674 in revenue in the last three months of 1969, the Alcoholic Beverage Commission reported Wednesday.

The tax, which took effect Oct. 1, is supposed to bring in \$13.2 million over the two-year 1970-71 fiscal period. It was part of the \$350 million revenue package approved by the legislature in September.

Another new revenue-raiser, a \$1,000 annual state license for airlines that want to serve drinks in the skies over Texas, had eight takers so far.

O. N. Humphreys Jr., ABC administrator, said a 1 d Braniff,

American, National, Delta, Texas International, Eastern and Continental airlines and Rio Airways have received the licenses.

Humphreys also said \$155,113 in state liquor taxes were collected at Rio Grande ports of entry in December, up sharply from the \$82,172 collected in November when "Operation Intercept" was at its peak.

"Intercept" was the big federal effort—criticized on both sides of the Rio Grande—which involved detailed searches of autos in an attempt to head off marijuana traffic.

Commission chairman Tom Gordon of Abilene was asked if

he felt intercept had caused liquor tax revenue at the border to dip during November.

"We ought to ask the United States government to reimburse us that amount (the difference)," he said, calling the November decline "an obvious reaction to the fact that people were afraid to go across the border."

It was the commission's first meeting under its new name. Before Jan. 1, the agency was called the Liquor Control Board.

"We are well pleased with our new name. The old name was a bit imprecise and was perhaps a misnomer," Gordon said.

## False Bargains

WASHINGTON (AP) — A rich vein of consumer unrest was tapped in two days of Federal Trade Commission hearings on proposed action against false supermarket advertising.

The hearing's purpose was to gather testimony on a proposed rule to require supermarkets to have their advertised bargains in stock at or below the price in the ad. FTC surveys of 10 chains found no bargain on the shelf or a higher price for it as much as a quarter of the time.

But witnesses often went beyond the point.

Father Robert McEwen of the Massachusetts Consumer Association said some terms applied to meat were deceiving and sometimes masked poor grades.

PLEDGING DEVOTION TO WHITE SUPREMACY

# Carswell Rejects Political Speech

IRWINGTON, Ga. (AP) — Supreme Court nominee G. Harold Carswell, who gave a political speech 22 years ago pledging unyielding devotion to segregation and white supremacy, says he now rejects the words and thoughts as "obnoxious and abhorrent."

"I yield to no man, as a fellow candidate or as a fellow citizen, in the firm, vigorous belief in principles of white supremacy and I shall always be so governed," Carswell said while campaigning unsuccessfully in 1948 for the Georgia legislature. Carswell, 50, repudiated the statement Wednesday night.

(AP WIREPHOTO)

**PARALLELS AND DIFFERENCES** — There are some parallels and some distinct differences in the case of Judge G. Harold Carswell, right, who made a speech espousing segregation in 1948, and that of Supreme Court Justice Hugo L. Black, left. Justice Black in 1937 had already been confirmed to the high court when it was revealed that he once was a member of the Ku Klux Klan.

Mitchell said. "All of the available evidence indicates that Judge Carswell is firmly committed to the constitutional and moral philosophy of racial equality."

**HIS RECORD** — "His judicial record on civil rights issues is highly commendable. I think it is unfortunate that a judge of Judge Carswell's high qualifications could be subjected to criticism based on remarks made 22 years ago."

**22 YEARS AGO** — President Nixon nominated Carswell Monday to fill the Supreme Court vacancy created when Abe Fortas resigned while under criticism last summer. Nixon had nominated U.S. 4th Circuit Court of Appeals Judge Clement F. Haynsworth Jr. for the opening, but the Senate rejected him after debate over his financial dealings.

The White House, which had said in announcing the nomination that Carswell had received a "complete clearance," had no immediate comment Wednesday.

But Atty. Gen. John N. Mitchell immediately came to Carswell's defense.

"The remarks attributed to Judge Carswell were made in the heat of a political controversy more than 20 years ago."

cause I was considered too liberal." The text of his speech was published in Carswell's own weekly newspaper, the Irwinton Bulletin, Aug. 13, 1948.

**TAKEN FROM FILES**

The 1948 file of the newspaper, the legal record of the county at the time, was taken from court files in Irwinton Wednesday by an attorney shortly after discovery of Carswell's speech.

Wilkinson County Court Clerk Willis I. Allen said the entire 1948 and 1949 volumes were removed under court order Wednesday shortly after a reporter saw him.

Alexander Boone, an attorney and a son of the man who defeated Carswell in 1948, obtained the court order from Superior Court Judge George Carpenter.

In an interview, Boone declined to say if he was acting for Carswell or had spoken to him about the matter. "It would be a personal affair if I had been," Boone said.

Boone also refused a reporter access to other newspapers in the files which he took.

**CAN'T LOCATE**

Files of the other weekly newspaper here, the Wilkinson County News, edited by Boone's brother Joseph, also were unavailable Wednesday. "So far, we haven't been able to locate them," Joseph Boone said.

Carswell dealt with other local issues in his speech, and in these paragraphs, stated his racial views of the day: "I am a Southerner by ancestry, birth, training, inclination, belief, and practice. And I believe that segregation of the

practices is proper and the only practical and correct way of life in our state. I have always so believed and I shall always so act. "I shall be the last to submit to any attempt on the part of anyone to break down and weaken this firmly established policy of our people."

2-A Big Spring (Texas) Herald, Thurs., Jan. 22, 1970

## Coahoma Begins School Census

COAHOMA — The annual census of school-age children is now under way in Coahoma according to Grady Tindol, school counselor.

Parents of a child who will begin school in Coahoma for the first time in September, 1970 and who have not been counted should contact Tindol or Mrs. James Fryar at the high school (phone 394-2272). The census is for all students who will be between the ages of 6 and 17 on Sept. 1, 1970.

## H-SU Receives \$225,000 From Mabee Foundation

ABILENE — Hardin-Simmons University has announced a gift of \$225,000 from the J. E. and L. E. Mabee Foundation, Inc., of Tulsa, Okla., for the construction of an ultra-modern building for the Reserve Officers Training Corps program.

The new structure will replace three separate buildings used by the Military Science Department. The buildings which house the ROTC classrooms and offices are more than 40 years old.

President Elwin L. Skiles said the exact location of the new facility will be determined "in the very near future" and that steps will be taken to obtain an architect to draw up final plans.

Dr. Skiles, in announcing the new facility which will contain approximately 15,000 square feet, said, "Since the early 1950's our University has enjoyed a favorable relationship with the Fourth United States Army in its Senior ROTC Program. The University is committed to this excellent program of leadership training designed to prepare young men for faith-

ful and effective service in defending our national interests. We are proud of the hundreds of young men who have successfully completed the ROTC program on this campus and have distinguished themselves in service to their nation.

"While we have been in position to give the ROTC program our strong moral support, we have lacked the resources required to provide an adequate armory-classroom building. We are indeed grateful to Mr. Joe Mabee and the trustees of the J. E. and L. E. Mabee Foundation, Inc., of Tulsa for their generosity in making this new building possible."

Lt. Col. Clark F. Kreidler, head of the ROTC program at H-SU, noted that the Military Science Department serves interested and eligible young men from Abilene Christian College and McMurry College as well as students from Hardin-Simmons University campus. Kreidler said that 53 young men were commissioned through the H-SU program in 1969.

## Horoscope TOMORROW —CARROLL RIGHTER

**GENERAL TENDENCIES:** A peculiar day and evening. The aspects shift. At one moment a convincing and deceptive influence, at the next, a clear-cut desire to please. Today one needs to take the minutes as they arrive and deal with the work at hand rather than daydream about the future.

**ARIES (March 21 to April 19)** Listen to advice of good friends of high standing instead of experts who really do not have your interests at heart. Get out for the amusements you like. Have a smiling exterior, though.

**TAURUS (April 20 to May 20)** An associate can be quite troublesome today particularly where home and family are concerned. Be sure you show loyalty to kin. Do not permit them to be derided. Avoid the limelight tonight!

**GEMINI (May 21 to June 21)** Try not to get yourself involved in some argument with an associate or you find it impossible to straighten matters out later. Later, meet with partners who have self-control. Be happy.

**MOON CHILDREN (June 22 to July 21)** Avoid such subjects as finance, expenditures. If you really want to cement better relations with mate at this time. Accepting invitations is fine but be sure they do not cost you too much. Be smart!

**LEO (July 22 to Aug. 21)** Certain situations at home today do not please you very much, but don't criticize; do whatever will improve your own character. Avoid the social. Keep at whatever is practical.

**VIRGO (Aug. 22 to Sept. 22)** If you plan your time wisely, you find you can handle both those outside affairs and duties you have at home. Work at an even pace. Evening is especially good for inviting a friend in for dinner.

**LIBRA (Sept. 23 to Oct. 23)** Steer clear of those greedy individuals who have their eye on your assets. Be with good friends you trust and enjoy. Get your budget improved. You have the right way of doing it now.

**SCORPIO (Oct. 24 to Nov. 21)** Instead of going against higher-ups, do something about improving your health and appearance. Keep out of trouble. A higher-up is too busy to be interested in your ambitions. Wait for a better day.

**SAGITTARIUS (Nov. 22 to Dec. 21)** Stop isolating yourself and get out to places where you can hear the ideas of others that can be most helpful to you. Be objective where some letter is concerned. Don't get so angry you see red.

**CAPRICORN (Dec. 22 to Jan. 20)** Good friends who are interested in your welfare want to be listened to before they do you the favors you want of them. Delve into responsibilities that are important early. Get yourself on the right track.

**AQUARIUS (Jan. 21 to Feb. 19)** You feel that what you want to do is right and not what others are trying to get you to do with regard to some civic or community affair. Use own judgment. Get the support of a good associate.

**PISCES (Feb. 20 to March 20)** Those new ideas you have are quite hazy you put them in operation. Avoid that stubborn co-worker who only understands own way of doing things. Be happy with mate in evening.

# Shootings In Chicago By Police 'Justifiable'

CHICAGO (AP) — A coroner's jury says the fatal shootings of two Black Panther party leaders during a police raid Dec. 4 were justifiable homicide.

None of the seven Panther members who survived the raid testified at the inquest which ended Wednesday.

The interracial jury of prominent Chicagoans deliberated more than five hours before returning its verdict in the slayings of Fred Hampton and Mark Clark.

Hampton, 21, Illinois leader of the party, and Clark, 22, a Peoria party organizer, were killed during a raid on Hampton's West Side apartment.

The verdict said the 14 Chicago policemen who took part had reason to believe use of firearms was "necessary to prevent death or bodily injury to themselves."

The raiding officers related they were met by gunfire when they attempted to serve a search warrant for a cache of weapons reportedly hidden at the flat. Police said they found 10 weapons and a large quantity of ammunition.

Black community groups charged police fired without provocation and killed Hampton as he slept.

Nearly two dozen witnesses appeared during the 12-day inquest conducted by Martin S. Gerber, a lawyer serving as deputy coroner. Gerber was selected after demands that the inquest be conducted by someone not connected with the government of Cook County (Chicago). Coroner Andrew J. Toman is an elected official.

Gerber gave attorneys for the Panthers wide latitude. "Sure, sure," he said repeatedly when they asked to introduce evidence or extend a line of questioning.

Witnesses included the five black and nine white policemen detailed to the state's attorney's office who participated in the predawn raid.

They said they were met by shotgun blasts as they entered the apartment. The raiding officers said they returned the shots and later called for ceasefires three times, but that firing continued.

The seven Panthers who survived the raid are awaiting trial on charges of attempted murder and other crimes.

## Judge Lee Porter Will Not Seek Third Term

Lee Porter made public announcement today that he will not be a candidate for re-election to the office of county judge, a position he will have held for eight years at the end of his second term this year.

Judge Porter said his decision was prompted solely by a desire simply to "enjoy some leisure time."

"My wife and I have talked about this and have agreed that the time has come for us to be able to do some of the things we have always wanted to do," he said he would be leaving the office "with nothing but good will toward all the people of Howard County."

Porter is a veteran of 35 years in local county government. He went to work for the late J. F. Wolcott as a deputy tax collector in 1935, then in 1938 was elected county clerk and was returned to that office each election year until he resigned in 1953 to accept appointment as county auditor. In 1962, he was elected to the judgeship, and was re-elected four years ago.

Porter issued the following statement:

"Since a number of people have asked me about my intentions, I feel that I should announce at this time that I will not be a candidate for re-election to the office of County Judge of Howard County.

"After 35 years in various county offices, I feel that the

LEE PORTER

time is appropriate for me to step down, so that I will be able to enjoy some time of personal leisure. This is the factor that has brought my decision.

"As I conclude eight years in the office at the end of this year, I will be departing with nothing but good will toward all the people of Howard County who have been generous toward me and understanding of the problems of conducting this office. I shall ever be grateful to all.

"Although I will not be in public office, I certainly shall continue to have an interest in good government for our county, always."

## Better World Award Winner

KANSAS CITY (AP) — Col. Frank Borman, the astronaut who read the story of the creation from Genesis while orbiting the moon on Christmas Eve 1968, will receive the first Better World award given by the Veterans of Foreign Wars Auxiliary.

The award will be made in Washington Feb. 7, Miss Erlene Mayberry, national auxiliary president, said Wednesday.

## Silage Talks Set Monday

LAMESA — Farmers in this area are alerted to a program on silage to be held Monday at 1:30 p.m. in the Forrest Park community center.

Specialists from the Texas Agricultural Extension Service will conduct these sessions.

Dr. Robert Metzger, A&M agronomist at the Lubbock station, will discuss the production of quality silage. Jim Valentine, Lubbock, area soil chemist for the extension service, will talk about fertilizing the silage crop.

Types of trench silos and feeding equipment to utilize the silage is the topic for William S. Allen, College Station, extension service agricultural engineer. Dr. Lowell Schake, College Station, extension service animal husbandman, will talk about feeding and utilizing the silage.

The session will be followed by a question and answer period so that farmers can get all the information they need on any phase of silage production, storage or feeding.

## Work, Drinking Times Differ

DAWSON CREEK, B.C. (AP) — Residents of this northern British Columbia town work on Mountain Standard Time but do their drinking on Pacific Time.

It is perfectly legal, District Judge K. F. Arkell ruled in Provincial Court Wednesday when he dismissed charges of selling beer after hours brought against the Columbia Hotel.

A police officer testified he bought beer at the hotel after 12:30 a.m. MST.

Judge Arkell explained that a statute governing interpretation of legal acts in British Columbia states that when times are referred to, they shall be Pacific Standard Time.

## Six Altar Boys In Big Trouble

CINCINNATI, Ohio (AP) — Six altar boys accused of stealing \$1,500 from offering baskets at St. Patrick Roman Catholic Church were being held today.

The boys were charged with juvenile delinquency. Police said they pilfered cash from the baskets from October through December while taking them to the church office.

### Death Penalty Is Overturned

SAN FRANCISCO (AP) — The California Supreme Court has overturned 4 to 3 the death penalty for a man because the trial judge told the jury not to be governed by sympathy.

The defendant, William Bandhauer, 32, a Riverside refrigeration worker, was convicted in the shooting death of Walter A. Smith at Riverside Feb. 25,

1966.

In 1967, the state Supreme Court overturned the first death penalty because of prejudicial misconduct by the prosecutor.

The latest decision, announced Wednesday, upheld the conviction but ordered a new penalty trial. It said the trial judge made "a substantial error" when he instructed the jury that "the law forbids you to be governed by mere sentiment, conjecture, sympathy, passion, prejudice, public opinion or public feeling."

A COLD SIGNAL—An ice covered traffic light makes a pretty picture after water from fire hoses froze while firemen were fighting a fire that razed an abandoned hotel in near zero temperatures in Detroit's near West Side Wednesday. More than a hundred firemen fought the blaze before bringing it under control.

## Engineers Due First Funds For Trinity River Project

AUSTIN (AP) — Col. R. S. Kristoferson, head of the Army Corps of Engineers' Fort Worth District, said Wednesday that the first \$150,000 for design work on the Trinity River project is expected to reach his office in about two weeks.

The \$1.1 billion project will make the river navigable for barges from Galveston Bay to Fort Worth. It also will prevent an average of \$15 million in flood damage each year, he said.

Three years' of design and planning time will be needed for the mammoth project, Kristoferson told the Arkansas-White-Red Basins Interagency Committee, a cabinet-level agency of federal and state officials.

The committee is interested in the project because it has a similar one on the Arkansas River.

President Nixon has approved the design appropriation for this fiscal year, which began last July 1, and the money is expected to filter down through

the Budget Bureau and upper echelons of the corps soon, Kristoferson said.

The project calls for the dredging of a 200-foot wide, 12-foot deep channel from Galveston Bay to Fort Worth. It will be 363 miles long, shortening the river's present length through straightening by almost 200 miles.

It will have 20 locks to overcome the 480-foot climb from the bay to Fort Worth.

The project will take an estimated 15 years to build, depending on how fast the money is appropriated for it. All but about 7 per cent will be federal money. The rest will be raised locally.

Kristoferson praised the Trinity River Authority as the ideal state agency for the corps to work with.

"At the time when there is a hue and cry throughout the nation against pollution, the Trinity River Authority stands out as an organization which is doing something about it. They have built a modern (sewage-treatment) plant in the Dallas area which serves 2 million people," he said.

"They are building another project which will tie together suburban communities too small to set up efficient plants of their own. In short, they are meeting current needs and anticipating future needs. They are one of the few organizations I know who are getting ahead of the pollution problem."

"TRA is modifying its Livingston Reservoir at its own expense to make easy the future construction of navigation locks through the structure."

### LETTERS TO THE EDITOR Dog Show At Webb Called Howling Success

To The Editor:  
The excellent relationship between Webb Air Force Base and the local community has been expressed many times in this newspaper. This relationship was displayed once again last Saturday when the Big Spring Kennel Club held its annual All Breed Dog Show and Obedience Trials in Hangar Building One at Webb.

One of the major problems of any local kennel club is to find an adequate building in which to hold its show. Our first show last year was such a tremendous success that we were advised we had already outgrown our show location. Our show date is set, by AKC, for the third Saturday of January and with weather conditions as unpredictable as they are at this time of the year it is imperative that we have inside facilities. Webb Air Force Base came to our rescue and provided these facilities.

We were complimented many times by the judges, professional handlers and exhibitors on the excellent facilities provided. The Periman Chapter of the NCOA provided the concession stand and we received numerous compliments on the quality of the food and drinks served, the low prices charged and the wonderful courtesies with which they were served. The Air Police directed traffic control of approximately two

thousand people and kept everything flowing smoothly — a very important function at a dog show as handlers and exhibitors are arriving and departing constantly during the day.

I find that words of praise are not adequate to describe the wonderful cooperation and courtesy displayed by all the personnel of Webb so will express our appreciation by saying "THANK YOU WEBB" for helping make our show such a howling success. We could not have done it without you.

Sincerely,  
DONALD G. BAILEY  
Show Chairman  
Big Spring Kennel Club

**Finds Fault With Critique By Speaker**

Re: Your front page article on bringing industry to this area. Mr. Jim Heath, from the Texas Industrial Council, is trying to persuade the people of this area to give \$180,000 (He says it should be \$360,000) to bring more industry to our area. He says and we quote "You are pompous. We all think we are the best people in the world and that others will want to move here." Maybe we are just honest and somehow resent having to bribe wealthy industry to move into our area.

How would the presence of an industry east of the city beautify what he quotes as "One of the worst eye sores in West Texas"? The million dollar annual payroll of the mentioned prospective industry, when divided by the 250 employees, would average about \$4,000 per year per family. That is scarcely enough to start a voluntary beautification trend on the individual family level area wide! If 250 semiskilled and unskilled families move into our area, will it help raise the standard of our school yards that he criticizes as having "rundown recreation facilities"? Unless an industry is willing to pay adequate wages to employ the citizens of that area will have their problems of schools, housing, streets, roads, police, recreation, etc. compounded drastically, while the industry and some of the non-local merchants remove the profits from the area. The \$4,000-income families will probably be economically forced to trade with the "Super and Discount" stores. I dare say they can ill afford to buy their clothes at Swartz. I'm wondering if the "Supers and Discounts" are contributing their equitable share of the \$180,000. I'm definitely for more industry here, preferably local enterprises, locally owned and managed, to utilize the present labor force. Rather than entice industry to condescendingly move here with an up turned nose, I believe they should come to utilize the labor, transportation, utilities, markets, etc. that exist, paying their own way, paying living wages, and their fair share of taxes like the rest of us.

## A Devotion For Today . . .

"I say to you, Love your enemies and pray for those who persecute you." (Matthew 5:44, RSV)  
PRAYER: Lord, teach us to look upon all human beings as persons for whom Jesus gave His life. Help us to open our hearts in love toward them. Reconcile them to Thyself and us to one another that peace may flourish everywhere on earth. Amen.

(From the 'Upper Room')

## Hopeful Move

One of the items advanced in the Monday meeting of the Howard County Commissioners Court was to seek help in reorganization of the county road department. Thurston Orenbaun was mentioned as a possible consultant on this chore, but he has indicated that he does not feel that he can undertake this. This is regrettable, for Mr. Orenbaun served as the initial engineer under the unit system in Howard County and is familiar with the county and

with the department. He is capable, candid, and concerned with the problem.

This development notwithstanding, we commend the commissioners on addressing themselves to this matter. It is our hope that a more diligent search can be made for a county engineer. This can be financed out of general revenues, or under contracted special services. However, it is done, we are persuaded it will be a good move for the county and for the commissioners.

## Campaign Funds Dilemma

Politics is a cruel business, especially bad for political contributors this year. Everything seemed rosy at first. There was to be no real opposition in the governor's race or the lieutenant governor's race. To be a financial contributor it must have been good to think that not much money would be needed in 1970.

Then came the race for U.S. senator. Before the incumbent, Ralph W. Yarborough, even had a chance to say what he is going to do he drew two opponents. They're well-heeled opponents, at that. First came Lloyd Bentsen of Houston, former U.S. representative from the Lower Rio Grande Valley. Then came U.S. Rep. George Bush, also of Houston, one of the brightest lights in the Republican party in Texas.

Now those who don't know any better may assume that Bentsen and Bush, both millionaires, can get along very nicely without any outside finan-

cial help. But this is not quite the case. There is nothing so upsetting for a fat cat than to look at someone who's been elected without help. There's just no easy way to do business with a man you refused to help. He's not properly grateful.

This means that a lot of Texas money and a lot of out-of-state money will be poured into the senatorial race. It's not going to be a holiday year after all for campaign giving. Give until it hurts may be the motto for 1970. The only consolation is that they won't have to give until it hurts to elect a governor and a lieutenant governor.

The real dilemma may be saved for November. If Bentsen happens to be the nominee, liberal Democrats may leave the reservation as they did to help elect Sen. John Tower. Some donors might see their investments go down the drain.

## Art Buchwald

### The Solution To Pollution

WASHINGTON — The big protest movement of the Seventies will concern itself with pollution. Students, teachers, conservation groups and public-spirited citizens are ready to wage war to improve the environment, and we can expect to see some very tense scenes between the anti-polluters and those forces in the country which are suspected of pollution.

While the anti-pollution protesters are just trying to get organized, the propolition people have already hired a lobbyist to head an organization called the American Pollution Anti-Defamation League.

THE LOBBYING group has a budget of \$25 million to start with, and it will work to persuade Congress and the public that pollution is not as bad as everyone makes it out to be.

Mr. Caleb Tergent, executive secretary of the APADL, told me in his offices in Washington, "We are providing all the good things in life to the American people, and we can't provide them if we are constantly being harassed by people yelling for clean air and clean water."

"You feel that the anti-pollution people are being unrealistic then?"

"THAT'S PUTTING it mildly," Tergent said. "The keystone to American industry has been its ability to get rid of its chemical waste through the skies and the streams. When you criticize pollution in America, you are criticizing the American way of life."

"Mr. Tergent, are you saying that

Billy Graham

Will you please explain Romans 11:16-23? I am uncertain of the meaning of these verses, although I have read them many times. S.F.

I am sorry, but space would forbid me explaining all of these verses to you. But let's take the one verse which I believe to be the key to the rest: "For if God spared not the natural branches, take heed lest he also spare not thee." (Romans 11:21).

The natural branches here mentioned, of course, were Israel. The warning is against spiritual smugness and carelessness. It is a very easy thing for nations, religious groups, or individuals to become smug, self-righteous, and complacent about their status before God. This was a warning to the Gentile Christians to not feel that they were God's pets, and that He would deliver them no matter how they conducted themselves.

The warning also has an individual implication. Christians have to guard against false piety, complacency and even hypocrisy. The key word of the New Testament is Love. Faith is important. Doctrine is important. But Paul said: "Now abideth faith, hope and love; but the greatest of these is love." We can never win the non-Christian by smugness, or by exhibiting un-Christian attitudes. Love is the spark that will set the world aflame for God.

### A Suitor Who Has Gone To Seed

NEW YORK (AP) — As every wife finds out in time, a man is an actor during courtship. It takes marriage to show him in his true colors.

Before the wedding there was nothing he wouldn't do for her. Now if she asks him to go to the store for an item she forgot he delivers an impassioned half-hour monologue on why do I have to do everything around here?

Lightly he picked her up in his arms and carried her across the threshold of their new home the day they returned from their honeymoon. But if she playfully starts to cuddle up in his lap now he complains his knee is sprung.

There was a time when he liked to read her romantic poetry by the hour. Now all he ever reads to her are grim items from the newspaper about the rising cost of living or people who are getting divorces for odd reasons.

A love light used to come into his eyes in the old days when he mischievously ran her fingers through his hair, and he would laugh and clasp her to him tightly. Now, she reflects bitterly, if she ran her fingers through his hair the only result would be to muss up his dandruff.

In the mad glad months when he was courting her, they used to go everywhere together. But now it's a big night out for her if he agrees to escort her to a PTA meeting.

Before they plighted their troth at the altar, he called her by pet names, such as "sweet thing," "Princess," and "my little queen bee." Now, unconsciously imitating the children, he absent-mindedly calls her "Mother."

When they first planned their future, heart to heart, he said it would be wonderful if they had a family of five children. When she reminds him of that now, he rejoins, "Yeah, but I said five kids—not five monsters."

He spent his salary on her like a profligate king in that vanished time when he showered her with roses and candy and wanted to buy her champagne

every Saturday night. But what happens now if she asks him for a small check to buy a bargain-basement dress? "Didn't your parents teach you that money doesn't grow on trees?" he moans.

Then he loved to listen to her and said her voice reminded him of soft music. Now if she even opens her mouth, he puts his fingers in his ears and says, "Oh, oh—who turned on Niagara Falls?"

Sometimes when alone she wonders whatever happened to the warm-hearted lover of her youth who always came to her door with flowers in his hand. Now all he has in his hand is a pound of bacon.

But it isn't her fault. A husband, after all, is only a suitor who has gone to seed.

## John Cunniff

### Inflation Pressures

NEW YORK (AP) — The battle against inflation is to Richard M. Nixon what the Cuban missile crisis was to John F. Kennedy. The consequences might be less, but the pressures are as great and the ordeal is longer.

The question that the President, his staff and the Federal Reserve Board are now asking themselves is this:

How do you break an inflationary psychology without breaking the spirit of the ordinary American and the company he works for and without incurring serious damage to the economic system?

This is the situation: Inflation is now consuming the value of the dollar at an annual rate in excess of 7 per cent, a fact so well known by most Americans that they are determined not to get burned in the future.

Whether it is businessmen or consumers, the nature of their plans is the same: Inflation is going to continue, they say, and so we must protect our interests.

When such an attitude takes hold, some people tend to spend with more abandon than their custom. There is a tendency also to borrow more on the assumption the debt can be paid in cheaper dollars.

How do you battle such a psychology? Standard practice is for the government to smother demands from both business and consumers by limiting the supply of money, by cutting govern-

ment spending, by maintaining high taxes.

Standard practice, however, has not proved itself. Mechanically speaking, it should work. But human nature is difficult to fathom. Many Americans refuse to believe inflation will be constrained.

The demands of labor provide a perfect example. On a treadmill for several years, some unions this year are determined to obtain settlements that will protect them against inflation in the future.

Evidence of the psychology is obvious also in the business world. Some professional consultants have stated flatly that inflation will continue, that you must spend to keep pace with it and even borrow to do so.

When such attitudes prevail, there is a natural tendency on the part of government and the Federal Reserve to persist in their efforts also, and so the two sides continue to increase the pressure like combatants in a painful Indian wrestling match.

Increasingly, however, the efforts of government to destroy the inflationary psychology are bringing the economy closer to recession. In fact, some economists routinely described the present economy—as in recession.

If the economy, over-all, is not in recession, certain segments are. The housing industry is being changed radically: Housing starts are less than one-half the number needed; small builders are being driven out of business.

## Around The Rim

### We've Come A Pretty Good Way

Depending upon how it is viewed, some of the criticisms offered by Mr. James Heath here Tuesday morning have roots in fact. At the same time, the community has made a lot of progress in the last score of years—an indication that it is not standing still, albeit there may still be a way to go. The progress of the future will build on a foundation carefully laid and nurtured through at least two decades.

IN THE 1950s, an apartment was all but impossible to find here, let alone a house, and anything with a roof and a few walls was in high demand. Today, the city has ample modern housing. In addition to many apartment complexes.

In those days, even if a new housing project were planned, it was a problem to serve it with utilities. Many residents were beyond the reach of water, sewage and garbage service. Residents approved a mammoth building program, which extended the city's limits, brought in new development, provided services for practically everyone asking. Parks were improved, fire and police protection extended.

THE SCHOOL system followed suit, and residents taxed themselves again, to provide modern and extensive plants to serve every area, equally.

At times it may not be so obvious,

but new programs have been initiated to remove junked cars, clear weed-covered lots, and tear down dilapidated buildings. There has been no dramatic change, but it has been a step toward solving a major problem.

PAVING IN the city and rural areas has moved at a steady clip. The city has maintained an almost continuous paving program through the last 10 years, and the county has been adding about five miles per year to its network of pavement. On top of this, the downtown area of the city has been modernized, with additional parking, modern curbsides, and some older buildings have been removed.

New commercial buildings have sprouted in all sections of the city, some housing new businesses while many firms have moved to more modern facilities.

IT IS NOT as though Big Spring must start at the bottom; much of the work facing other communities has already been done. Surely, there is a need, as Paul Meek said, "to get Big Spring rolling again."

One facet of this effort might be the reactivation of the "Master Plan Committee," which provided the framework for some of the biggest steps taken by the community thus far.

### A Look At News Management

WASHINGTON — As a working newspaperman, I am not surprised but merely bemused by the attack on Vice President Agnew uttered in a speech here by Billy Don Moyers, quondam news manager for Lyndon Johnson. Still, I will not take exception should some observer who takes Billy Don more seriously hail it as the demarche of the year.

MOYERS, who left his patron Johnson to become publisher of the newspaper, Newsday, on Long Island, declared that Agnew's "shrewd political attacks" on the news media are "a greater threat to the nation than the grumblings of an unfriendly press." Such a warning might send me scurrying for cover were it not for Moyers' own record as a White House Boswell.

BILLY DON spent a large part of his time as Johnson's press secretary criticizing the news media for getting only a "keyhole view" of what went on in his master's private principality. He complained that newsmen covering the White House weren't well-enough informed to comment on the President's grand doings. One of his periodic lectures to the press declared that the media was making a "circus" out of Presidential press conferences and that many of the questions asked the great man were "stupid."

(At the time, I wracked my memory to recall what press conferences Moyers referred to. His lecture was delivered in January, 1966, and at the time Johnson had staged only one scheduled meeting with the press since the preceding August.)

ANYWAY, times obviously have changed, and in the matter of White House press management the tempta-

tion is strong to suggest they have changed for the better. Moyers was not exactly a fund of information when he ran the show.

In condemning the press for being "poorly informed," Moyers was indicting himself. If he found our "keyhole" view of White House goings-on inadequate, he had only to open the door so we could see better. As press secretary, it was Moyers' job to make sure the press was apprised of his boss' activities.

INSTEAD, in Johnson's day — and Moyers' — it was almost always a day's work to get the answer to a simple question from a White House inmate. Publisher Moyers, during his tenure as White House press secretary, also was wont to deliver himself of remarks straight out of the pool hall. Newspapermen, he once deplored, were much like politicians: "When they're bought, they stay bought."

I NEVER MINDED being compared to a politician. Not all of them are self-serving loafers and many of them practice a kind of furtive honesty. But Moyers had to be kidding about buying newsmen, because the average Washington reporter could have retired to Acapulco years ago had he possessed the morals of some political types who hang their hats in the towers of our national government.

At the time, of course, Moyers was very young and still trying to recover from the discovery that he was a celebrity. Probably he could be forgiven for at times assuming the role of nagging wife. Now he is older. Apparently he has arranged, as he once put it, to "invest my talents in the broadest possible river." Unfortunately, his Agnew speech opens to question whether he is also wiser.

### The President And The Congress

WASHINGTON — Within ten months, the American people will go to the polls to elect all the members of the House of Representatives and one-third of the members of the Senate. Theoretically, the voters then will have an opportunity to express their views on national legislation already enacted or to be considered by Congress.

Since the President himself doesn't come up for election until 1972, there will be no change in the White House. But the people can definitely assist President Nixon in the last two years of his administration by giving him a Congress that feels a responsibility to him. At present, both houses are controlled by the Democrats.

IF THIS SHOULD be continued or, indeed, if more Democrats are elected in both houses, it will mean a repudiation of Mr. Nixon. It will, in effect, tell the world that the electorate in the United States has registered a vote of "no confidence" in President Nixon, as the phrase is used in parliamentary government abroad.

If the people want to express their support of Mr. Nixon, how can they do it? There are no indications as yet that if the administration asks for a Republican majority in Congress, it will submit a program on which the people may vote their approval or disapproval.

RESPONSIBLE government doesn't prevail when one party controls Congress and the other occupies the White House. Though this has happened before, it has not proved a beneficial development for the American people. Compromises and delay and often serious blockage of needed legislation and reform have occurred.

During the next few months, the Congress, which opened a new session this week, will resume its battles with the President. As leaders in both

parties attempt to work out compromises, the result is legislation which is least objectionable from a political standpoint to various groups. It doesn't necessarily mean that the public interest is heeded.

REPRESENTATIVE Gerald Ford, Republican leader in the House, was interviewed on "Meet the Press" over NBC-TV on Sunday, and suggested that the President's legislative program "would fare far better with committee chairmen who were responsive to the President's recommendations." He added that the President's legislative program calling for approximately 40 reform measures would get a lot more consideration if there were a larger number of Republicans in Congress. He put it this way:

"I think a Republican Congress would be more responsive to President Nixon's legislative reform package."

PARTIES IN Congress do not adopt platforms, nor do they meet in caucuses any more to endorse particular measures which the people can read and on which they can express a judgment. The relations between the President and the Congress — when the opposite party is in control in the national legislative body — are marked by constant maneuvering. There is hardly any way to focus responsibility for the errors that are made.

IF THE SAME party were in control of both the presidency and the Congress, the American people could fix responsibility. If there were an election every four years at which the President and the entire Congress were voted on, the people could express themselves about the candidates as well as the party programs. Maybe America then would have a responsible system of government.

## District Census Chief Named

Appointment of Richard R. Newton of Wichita Falls, as district manager of the 1970 Census of population and housing in this area was announced today by Director Percy R. Millard of the Census Bureau's regional office in Dallas.

Newton, a graduate of Pennsylvania University, is the owner and operator of an oil production business in Wichita Falls.

From the district office located at Scott & Eighth Street in Wichita Falls, Newton will supervise all phases of the census in the following counties: Archer, Baylor, Clay, Coke, Cooke, Denton, Dickens, Fisher, Foard, Glasscock, Hardeman,

Haskell, Howard, Jones, Kent, King, Knox, Jack, Mitchell, Montague, Nolan, Palo Pinto, Shackelford, Stephens, Sterling, Stonewall, Taylor, Throckmorton, Wichita, Willbarger, Wise, Young.

On Jan. 28, following several days of intensive training in the regional office, Newton will come on duty and begin setting up the district office. He will direct a force of 40 crew leaders and 600 census takers throughout the area.

Taking the 1970 Census nationally will require the services of 12,000 crew leaders, 160,000 census takers, and 393 district managers, in addition to 13,000 office personnel.

## Police Show Drug Film

Police continued their drug education programs this week, scheduling one showing of the recently controversial film "Marijuana" for both the Kiwanis Club noon meeting today in the Settles Ball Room and a noon meeting of the Civitan Club Friday.

Sgt. Pete Stone said this morning the department plans to offer as many presentations on drugs as possible in the future and to show the "Marijuana" film as often as they can arrange to borrow it.

The film was the center of a minor disturbance at Airport School earlier in the month at which several young people called before the Grand Jury were asked to leave by police and were somewhat reluctant to do so.

Stone said the department gave 11 presentations on drugs in December and has distributed some 1,500 copies of a Big Spring Police Association bulletin identifying the symptoms of drugs.

## Conference On Wage Law Set

All workers in this area who are interested in rights under Texas' new minimum wage law are invited to attend a conference in Odessa Jan. 28, it was announced today by D. J. Willis, Midland president of the Odessa Central Labor Union.

The new state minimum wage law becomes effective Feb. 1. The Central Labor Union is sponsoring the conference as a public service, especially for those who are not covered by the federal minimum wage law. The meeting will start at 7 p.m. in the Plumber's Hall, 2020 E. 8th, Odessa.

## Designer Named For Museum

Trustees and executors of the Permian Basin Petroleum Museum, Library, and Hall of Fame in Midland, have announced selection of an architectural designer for the \$6 million project.

The Houston firm of G. Pierce, Goodwin & Flanagan has been named to do consulting and design work on the building.

The firm did the architectural work on Houston's new Museum of Natural Science. The architects have earned recognition for design excellence in the form of more than 35 international, national, state, and local awards.

## Business Class May Be Offered

The Chamber of Commerce is planning to sponsor a course in business management offered by the University of Texas, Austin, if enough businessmen in the city express their desire to take it, Chamber Manager Tom Eastland said today.

The course, entitled "Planning for Growth," is offered as part of the university's extension program and would be taught through four consecutive nights if enough persons decide to register. Eastland said the

chamber would undertake sponsorship if 20 enroll before Feb. 15.

The classroom sessions last two and one-half hours and the subject matter includes practical planning routine, the planning checklist, the marketing plan, the financing plan, and the planning package. The total cost is \$15, Eastland said, and the classes would probably be held Monday through Thursday for one week.

## Credit Union Has Another Successful Year

Another outstanding year was reported to shareholders of the Texas & Pacific Credit Union at the annual meeting Saturday.

At the directors meeting held Tuesday, Hollis Shirlew was re-elected president; A. W. Page was named treasurer, and W. F. Schatell was elected secretary of the board.

The 157 attending the meeting at Howard County Junior College auditorium heard reports of 809 loans for \$1,575,392 during the year. At the end of 1969, there were 385 loans on the books for \$678,547.

The 774 members had shares aggregating \$875,875, on which a six per cent dividend was paid in the amount of \$50,409.

Since the credit union was organized, it has made 201,097 loans for \$7,493,057.

Directors re-elected were B. F. Mabe, F. W. Jarratt, and E. L. Belcher. Named to the credit committee were G. P. Morrison and H. R. Scott.

JANUARY CHRISTMAS SHOPPING? — Managers from 16 TG&Y Stores in this area met here today to discuss what merchandise to buy for the fall and Christmas selling season of 1970. Phil Thurmond (left), Cletus Vears, new manager of the Highland Center Store, D. L. Weitzel, area supervisor, and Jim Mason (right), discuss merchandise available.

## City Panel To Study New Insurance Needs

Members of the City Commission's insurance study committee will meet Friday at 1:15 p.m. in the commission room of city hall to discuss the city's liability insurance program, in relation to the Tort Claims Act, passed in the last session of the state legislature, Assistant City Manager Roy Anderson said today.

Mayor Arnold Marshall appointed Anderson and Commissioners Garner McAdams and Walter Stroup to the committee at the commission's last meeting and charged them with the responsibility of determining what adjustments, if any, are needed in the insurance program as a result of the broadening of city liability under the act.

Anderson said today he has compiled a study of the present insurance program and what information is available on the law, which became effective Jan. 1, to present at the meeting. The committee will discuss this study and hear from City Attorney Herb Prouty on certain aspects of the law.

The Tort Claims Act increases the liability of all governments in the state in the performance of "governmental" functions, a term somewhat vaguely defined, but including police and fire protection, some areas of street maintenance and traffic signals, Anderson said.

Previously the city had immunity against certain liability suits arising from these activities, but the act seems to limit immunity only to suits resulting from "emergencies," which as yet lacks a legal definition from the courts.

Anderson said the city was always liable for damages incurred in its "proprietary" functions and is insured against that problem. This term is defined generally as those functions in which the city is responsible for maintenance of property it owns.

Anderson said the city was always liable for damages incurred in its "proprietary" functions and is insured against that problem. This term is defined generally as those functions in which the city is responsible for maintenance of property it owns.

## Our Little Miss Pageant Scheduled

The Big Spring High School Choir Boosters will sponsor an "Our Little Miss" Pageant Feb. 28. Deadline for entries is 5 p.m. Feb. 27, although any entry after Feb. 14 will not appear in the program.

Mrs. Roy Cederberg, 2306 Merrily, and Mrs. Roy Watkins, 606 Drake, are in charge of contestants. Entry fee is \$17.50, and all checks and entry forms should be mailed to Mrs. Cederberg and Mrs. Watkins.

There will be two divisions: Miss La Petite, ages 3-6, and Our Little Miss, ages 7-12. A "top ten" will be chosen from preliminary competition in both divisions, from which the winners and first and second alternates will be chosen.

The La Petite contestants will compete in party dress and sportswear, and the Little Miss contestants will compete in party dress, sportswear and talent presentations not to exceed three minutes.

Preliminaries will be held during the morning and afternoon Feb. 28. Finals will begin at 7:30 p.m. A dress rehearsal for all contestants will be held Feb. 27.

Contestants should include a black-and-white portrait with the entry form. Entry blanks are available at Hemphill Wells and The Kid's Shop.

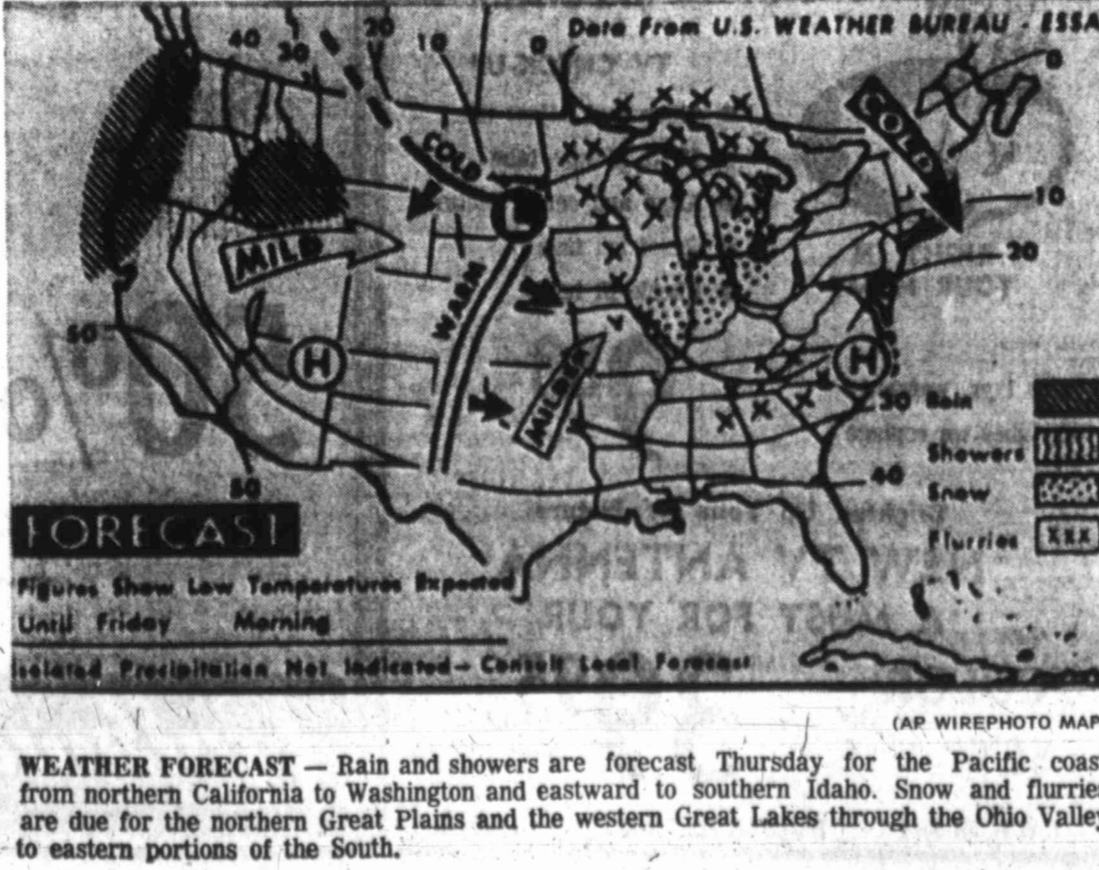

## Double Check Tax Returns

Before sending in your 1969 Federal income tax return, check it over to see if you've left anything out, Ellis Campbell Jr., district director of Internal Revenue for North Texas, said today.

North Texas taxpayers who do this often catch income or deductions they have omitted to report in arithmetic, he said.

Other things to check are whether the pre-addressed label is attached to the return, all W-2 Forms are enclosed and the return is signed.

This review is time well spent as it may prevent delays in processing the return and speed up any refund due, Campbell said.

# DEATHS

## James McDaniel, Dies In Midland

James Scott McDaniel, 8, son of Mr. and Mrs. Jack Parrott, Big Spring, died at 5:25 p.m. Wednesday in Midland Memorial Hospital. Services will be at 3 p.m. in Nalley-Pickle Rosewood Chapel. The Rev. Pat Bullock, Crestview Baptist Church, will officiate.

James was born Oct. 8, 1961, in Big Spring. He was a member of Crestview Baptist Church and a member of the Cub Scouts. He was in the third grade at Washington Elementary School and had attended the Christian Day School.

He is survived by his mother and step-father, Mr. and Mrs. Jack Parrott; father, J. O. McDaniel, Baton Rouge, La.; a brother, Rickey McDaniel; a sister, JaNa McDaniel; a step-sister, Craig Parrott; a step-sister, Sherree Parrott, all of the home; grandparents, Mr. and Mrs. Norman Holcombe, Big Spring; J. L. Orendorff, Phoenix, Ariz., and Mrs. E. N. Arrowood, Riverside, Calif.; great-grandparents, Mr. and Mrs. C. N. Young, Riverside, Calif.

## Mrs. Lela Creel, Saturday Rites

Mrs. Lela Ila Creel, 78, 1209 Wood, died today at 1:30 a.m. in a local hospital. Funeral will be Saturday at 3:30 p.m. in Trinity Baptist Church where she had been a member. Rev. Claude Craven will officiate, with the assistance of B. R. Howze. Burial will be in Trinity Memorial Park under the direction of River-Welch Funeral Home.

Mrs. Creel was born May 10, 1891, in Martinville and married Edgar R. Creel April 8, 1911, in Parker County. They moved to Lamesa in 1928, then to Big Spring three years ago.

Survivors include her husband; two sons, Virgil Creel, Big Spring, and Audrey W. Creel, Odessa; two daughters, Mrs. Maurine Chadwick and Mrs. Alton Lewis, both of Big Spring; a sister, Mrs. Allie Kern, Los Gatos, Calif.; eight grandchildren, 21 great-grandchildren, a son, Martin Creel, died during World War II.

## W. H. Kaester, Rites In Ohio

Services are pending at Carl Hall Funeral Home in Warren, Ohio, for Spec. 4 William H. Kaester, 21, who was killed here Monday in a fall from a balcony at the Ramada Inn.

The body has been at the Veteran's Administration Hospital since Monday night and is scheduled to be transferred to Midland before being sent to Ohio Friday.

Spec. 4 Kaester, Bristolville, Ohio, was stationed at Fort Bliss and was in Big Spring as part of a funeral detail for Raymond (Dub) White, who was killed Jan. 7 in Vietnam and buried here Monday.

## Patrick H. Adams, Oil Field Worker

PATRICK HENRY ADAMS, 66, a Colorado City oil field worker, died Tuesday morning in a Big Spring hospital after a week's illness.

The funeral was held at 2 p.m. Wednesday in the Kiker and Son Chapel with the Rev. C. W. Parmenter, pastor of St. Luke's Methodist Church, officiating. Burial was in Teeville Cemetery in the Rogers Community.

Mr. Adams was born in Mitchell County April 27, 1903. He married Ruth Jones in Coleman June 11, 1929. He had lived in Colorado City for the past 16 years and was a member of the Buford Methodist

## Willie Parker, 77, Loraine Resident

WILLIE (ROCK) PARKER, 77, Loraine, died at 5:10 p.m. Tuesday in the Johnson Hospital in Loraine after a long illness.

Funeral services are pending at the Kiker and Son Funeral Home in Colorado City. Burial will be in the Union Cemetery.

Mr. Parker was born in Gonzales County July 2, 1892, and had been a Mitchell County resident for about 27 years. He married Johnnie Mae Cook in

## W. H. Gross, Agent's Father

W. H. GROSS, 90-year-old, father of Howard County Agent Paul Gross, died Wednesday afternoon in a Levelland hospital following a brief illness. Services are tentatively set for 2 p.m. Friday at the Smith Funeral Chapel, Levelland. Dale Self, Levelland Church of Christ, will officiate.

Mr. Gross had been a resident of Levelland since 1943. He is survived by his wife, Flora, Levelland; one daughter, Mrs. Wayne Cearley, Lubbock; three sons, Gordon Gross, Brementon, Wash.; Max Gross, Levelland; Paul Gross, Big Spring; and six grandchildren.

## Veterans Will Be Honored

The Civitans will honor returned servicemen, Lonnie Self and Gary Bradbury, Friday at their noon luncheon at the Tea Room. Mayor Arnold Marshall will present each veteran with a framed letter of welcome. The Civitans also will give Self and Bradbury trophies for their military service.

Self is the son of Mr. and Mrs. J. C. Self, 817 W. 8th. He, his wife, Rita, and their infant son, Mike, live at 1660 Robin. Bradbury is the son of Mr. and Mrs. Bob Bradbury, 606 Bucknell. He and his wife, Terry, live at 1410 Park, with their son, Gary. Bradbury served three years with the Air Force and Self served in the Army for three years.

Two more veterans will be honored by the Evening Lions Club Monday at 6:30 p.m. in the Downtown Tea Room. Andrew F. Ortega and Steve Ayers will receive official letters welcoming them to Big Spring. Mrs. Ayers and Mrs. Ortega, wives of the men, will be dinner guests of the Lions Club.

## Army Speaker Gives Club Report On Viet Fighting

Capt. William P. Rosser Jr. gave members of the Downtown Lions a closeup of Vietnam and combat tactics Wednesday.

Addressing the weekly meeting of the club at the Settles, Capt. Rosser, 21-year-old Army aviator, took the members on a simulated trip with him over a combat zone, describing how his helicopter spotted enemy installations and directed artillery fire. The helicopter, he said, has given combat forces a mobility and dimension never before achieved. Without it, it would be almost impossible to fight a war under conditions in Vietnam where a triple canopy of trees is impenetrable and that helicopters have, by spreading a net, been able to land on top of the jungle forest.

It was his opinion that the Vietnamization program is progressing well, better than he had anticipated. By altering types of weaponry to fit the small stature of the Vietnam soldiers, the Army has given

## Mrs. Kimberlin, Henderson Rites

Funeral for Mrs. Eva Octavia Kimberlin, 87, mother of Mrs. R. C. Alexander, 2702 Apache, will be held Friday at 10 a.m. in Crawford-A. Crim Funeral Home, Henderson. Burial will be in Davis Cemetery, Henderson.

Mrs. Kimberlin is survived by her daughter, Mrs. Alexander; nine grandchildren, 18 great-grandchildren and 22 great-great-grandchildren. Two sons and a daughter as well as her husband preceded her in death.

## Shoplifting

Police arrested a woman at Cook's Discount Store, 2600 Gregg, around 2 p.m. Wednesday after a security guard reported the woman had taken a small quantity of merchandise without paying.

## John Wilson's Father Dies

Services for Earl Wilson, father of John P. Wilson, will be held at 10 a.m. Friday in Tom Bean, near Sherman. The Earnhart Funeral Home in Whitewright will be in charge of arrangements.

Mr. Wilson died of a heart attack Monday at El Paso.

He leaves two sons, John P. Wilson, Big Spring, and James Wilson, San Antonio; one daughter, Mrs. Nancy Ford, Sunset, Utah; three brothers and 10 grandchildren. Mrs. Wilson preceded him in death in 1947.

# Cards Clear Way For Drake Test

The Louisville Cardinals have nothing against man and eggs but they much prefer Bacon and Grosso.

ON THE MOVE — Fred Stolle of Australia, foreground, moves to return backhand shot by countryman Roy Emerson in Wednesday night's final of the Madison Square Garden Invitational Pro Tennis Tournament in New York. Stolle won the match 6-3, 7-5.

## LOOKING 'EM OVER

With Tommy Hart

When Big Spring's Spike Dykes succumbed to the sales pitch made by William Adams High School in Alice last week, the native West Texan succeeded a man named Joe Howard as head coach.

Howard was only filling in on the job, however. His title was "nominal head coach" and he was heading a "cooperative system of coaches," whatever those terms mean.

Dykes was told before he took the job that it was the best high school situation in South Texas, maybe in the state.

Dan Spika, basketball coach at North Texas State, is drumming up support for Joe Hamilton as an All-American.

The Detroit Tigers recently signed a coach named Ken Okrie.

Incidentally, most of those pro baseball scouts following high schools teams first look around for catchers.

The young player who is being courted by the pros and is holding out for a substantial bonus may get it but not because he holds off one team with the threat of a bigger offer by another one.

The big league teams, by necessity, had to reach an understanding on those bonuses. Consequently, each knows what the other is offering and doesn't violate the trust.

Now that the Mets have captured the fancy of the fandom in New York, look for the New York Yankees to put great emphasis on scouting throughout the country — something they've never done before.

Don Robbins, the former Big Spring coach who is now at the University of Idaho, and Jim Acree reportedly are the leading contenders for the Midland Lee coaching job.

# Seattle Case May Wind Up In Courts

SEATTLE (AP) — The city of Seattle, certain the game is lost on the financial scoreboard, is ready to try a legal appeals play as "a last resort" to keep its American League baseball franchise.

Mayor Wes Uhlman said at a news conference Wednesday financial efforts to keep the team apparently have broken down.

But Dan said as far as his group was concerned today's deadline had no meaning.

"It's just a number pulled out of thin air," he said. "A more realistic deadline is Jan. 27 when the league owners meet and reach a decision. In fact, financing is not as important a factor as it might appear to be."

What the league wants to do is anybody's guess. William Daley of Cleveland and Dewey Soriano of Seattle, principal officers of the Pilots, reportedly were in Dallas Tuesday to talk with Texas magnate Tommy Mercer about the franchise.

But Dan said as far as his group was concerned today's deadline had no meaning.

There had been speculation of a Beathard-Johnson trade since K. S. (Bud) Adams, owner of the Oilers, criticized Beathard after Oakland beat Houston, 5-7, in the AFL playoff game.

Adams said he did not believe Beathard was the answer to Houston's problems.

Smith is ranked No. 1 in the U.S. listings.

Crealy always appeared to have the edge in the second-round match, although the American fought back toward the end to win games when Crealy was serving for the match at 5-4 and 9-8.

But Crealy, who is seeded 12th, went on to a 6-4, 6-4 14-12 victory over Smith, seeded fifth in the tourney.

U.S. Davis Cup Coach Dennis Ralston of Bakersfield, Calif., had a quick straight set win over 11th-seeded Australian Allan Stone, 6-2, 6-3, 6-2.

Rain, which had prevented play on two days earlier this week, delayed the start today and the courts were very wet.

The tournament was to be continued this evening and in the big second round match under the lights, Arthur Ashe, of Richmond, Va., was to play Australia's Bill Bowrey.

# Bears, Oilers, Pack Involved In Trades

By The Associated Press more recent dynasty, the Green Bay Packers, once Bay Packers.

# Charley Pleased With New Club

HOUSTON (AP) — Houston Oilers head coach Wally Lemm says Charley Johnson will give us "many of the things we have been lacking in the past."

The Oilers obtained Johnson, a veteran quarterback, and Robert Atkins, a cornerback and wide receiver, from the St. Louis Cardinals Wednesday in exchange for quarterback Pete Beathard and cornerback Miller Farr.

Johnson is a native of Big Spring. Charley said he was "overwhelmed" by the trade.

"I wanted to play for Wally in Houston so badly I wouldn't even let myself think about it," he said.

There had been speculation of a Beathard-Johnson trade since K. S. (Bud) Adams, owner of the Oilers, criticized Beathard after Oakland beat Houston, 5-7, in the AFL playoff game.

Adams said he did not believe Beathard was the answer to Houston's problems.

# Yankees Know About Busher

FORT LAUDERDALE, Fla. (AP)—It'll be a spell before they erect one of those center-field monuments in Yankee Stadium to Jimmy Busher, but he's as well known to New York brass today as any 15-year minor leaguer in history.

"Who knows what promise Busher has," said Johnny Johnson, the Yankee vice president who handles player personnel.

"Since those 15 games in 1967 he hasn't been to bat once."

Johnson denied that the former powerhouse Yankees agreed to participate in the deal, but admitted meeting with Foss and Busher at the player's request on April 10, 1968.

"Busher had come to me with tears in his eyes for two weeks over his draft reclassification to 1-A," Johnson said. "Jim asked me to talk with the lawyer he was retaining to help him find some legal way to fulfill his obligation and remain active in baseball."

That confab was just five days before Busher was scheduled for induction into the Army. Foss' efforts failed, he testified, and the 20-year-old, Hampton, Mass., player was inducted en route to Fort Jackson, S.C., by April 16.

# Smith Ousted In Net Meet

SYDNEY (AP) — Lanky Australian Richard Crealy knocked U.S. Davis Cup star Stan Smith of Pasadena, Calif., out of the men's singles in the combined Australian and New South Wales Tennis Championships at White City today.

Crealy always appeared to have the edge in the second-round match, although the American fought back toward the end to win games when Crealy was serving for the match at 5-4 and 9-8.

But Crealy, who is seeded 12th, went on to a 6-4, 6-4 14-12 victory over Smith, seeded fifth in the tourney.

U.S. Davis Cup Coach Dennis Ralston of Bakersfield, Calif., had a quick straight set win over 11th-seeded Australian Allan Stone, 6-2, 6-3, 6-2.

Rain, which had prevented play on two days earlier this week, delayed the start today and the courts were very wet.

The tournament was to be continued this evening and in the big second round match under the lights, Arthur Ashe, of Richmond, Va., was to play Australia's Bill Bowrey.

# Alcindor, Hayes Tangle In NBA Bout At Houston

HOUSTON (AP) — Elvin Hayes and Lou Alcindor face each other again tonight in a National Basketball Association doubleheader amid speculation that Houston may soon become one of the NBA's newest cities.

Alcindor and the Milwaukee Bucks meet Hayes and the San Diego Rockets in the 9 p.m. CST second game after the Los Angeles Lakers and the San Francisco Warriors open the program.

A crowd of about 25,000 is expected for the Astrodom doubleheader which would be considerably short of the 41,163 official count given for the NBA's first twin bill in the Astrodom a year ago.

An Alcindor-Hayes match drew 52,693 fans to the Astrodom in 1967 but this time both were college players. Hayes' University of Houston Cougars defeated Alcindor and the UCLA Bruins in that one, 71-69, snapping the Californians' 47-game winning streak.

In all, college and professional, Hayes and Alcindor have met seven times, Alcindor winning six.

Houston reportedly is among four cities offered NBA expansion franchises. The franchise was offered to a California group headed by Alan I. Rothenberg, vice president of the Lakers. The group has retained former Texas Gov. John Connally, now a Houston attorney.

The NBA doubleheader is being promoted by Ben Kerner, former owner of the St. Louis Hawks. He also will promote single NBA games to follow Feb. 16 and March 9 in the downtown Sam Houston Coliseum.

Kerner had expressed interest in a Houston NBA franchise but recently indicated he does not believe the town is ready to back such an investment.

Houston was a charter member in the American Basketball Association but the team transferred to North Carolina last year because of poor support.

# BIG

IN HOME DEBUT TONIGHT — Christie Price (left) and Linda Halfmann are two sophomores who can expect to see action when the HCJC Jayhawk Queens make their home basketball debut against a Lamesa independent team at 7 o'clock this evening. The local collegians lost their opener in Temple last weekend, 63-26.

# Two Area Boys On Elite 11's

Two football players of the Big Spring area have been named to All West Texas Academic teams chosen by the West Texas Chamber of Commerce.

One is Johnny Ted Fowler of Coahoma, selected for the Class A offensive unit as a back; and Kelly Gaskins of Sands, named to the Class B offensive unit as a lineman.

Fowler has a classroom average of 90 while Gaskins' grade average is 93.

Ricky Menchaca, Christoval, with a grade average of 94, was chosen as a back on the Class B offensive team. Randy Barbee of Bronte, a back with a classroom mark of 93, was included on the Class B defensive squad as was cornerback Robert Doyle, whose grade norm is 92.

Among Class AAAA players honored were James Bond, Odessa Permian offensive lineman; and Danny Harries, Permian defensive lineman.

Bond grades out to 89, as does Harries.

Gaskins and Bond were also included on the Texas Sports Writers Association all-state squads.

The two boys with the highest scholastic average included on the squads were Larry Stockton, Lubbock High offensive end; and Gerald A. Knezek, Seymour linebacker, both of whom have marks of 100.

Stockton, of course, is attending a Class AAAA school while Knezek is in Class AA. Grades of 100 are given only

# HCJC Tries T-Birds In Hobbs At 8:30

Howard County will see if it can recapture some of its court magic in an 8:30 o'clock Western Conference game with New Mexico Junior College in Hobbs this evening.

The Jayhawks, upset by South Plains earlier this week, 105-95, probably couldn't have picked a tougher opponent. The Thunderbirds are 2-1 in conference and 12-4 over-all.

In their most recent start, the Hobbs team routed a good Clarendon College team in Clarendon, 117-88.

Howard County will carry a 10-5 over-all record into battle. Against league opponents, the Hawks are 2-2.

A month's layoff, no doubt, hurt the Big Springers. They looked rusty and slow against South Plains in a game which saw them trail from the start.

The Hawks come home Saturday night to clash with Clarendon. A sweep over NMJC and Clarendon would leave the locals in good shape for the title struggle but even a split would damage their hopes.

NMJC has been averaging 101.5 points a game while limiting the opposition to 88.8. Against Clarendon, the T-Birds grabbed a 59-39 lead at half time and increased that margin after the intermission.

Danny Whitlock, star sophomore guard for the Hobbs team, is a doubtful starter tonight. He missed the Clarendon game due to a knee injury. He has been averaging 16.3 points a game.

All ten T-Birds who saw ac-

# ABOUT LAW SUIT Trevino Refuses To Get In Flap

PEBBLE BEACH, Calif. (AP) — Lee Trevino set out in the first round of the Bing Crosby Pro-Am golf tournament today with the clouds of California and a multi-million dollar lawsuit in Cleveland hanging over his head.

But it was all sunshine and fair weather for the self-styled maverick Mexican from El Paso, Tex., a quick-quip artist who refused to get into a flap about his legal-financial tangle with a former business representative.

Woy countered, in Cleveland Federal District Court, Wednesday with a counter-suit for \$6,350,000. He asked \$3 million in punitive damages, \$1 million each on defamation of character and intent to deprive Consulting Services its right to do business, and \$1.35 million interference in the company's attempt to sign professional football players.

Consulting Services handles the affairs of U.S. Open titleholder Orville Moody, Julius Boros, Lee Elder, Larry Hinson and others.

"I hadn't heard about it (the suit)," Trevino said, "but I'm not surprised. My lawyer told me to expect it. They had to file a counter-suit or the trial would be in El Paso. Now it'll be somewhere else, maybe Dallas. I'm not worried about it."

He appeared to be no more concerned or worried about it than the weather rainy, windy and cold—typical conditions for this 29th Crosby Clambake that ranks among the most prestigious events on the pro tour.

Almost all the great names in the game, including Arnold Palmer, Jack Nicklaus and Billy Casper, are among the 168 pros who are paired with amateur partners, most of whom are celebrities from sports and show business.

# Foster Is Ready To Defend Title

WASHINGTON (AP) — Light heavyweight champion Bob Foster says he has a new manager and is ready to defend his title against No. 2 challenger Mark Tesson, The Washington Post said today.

Foster was quoted as saying his new manager is Lou Viscusi of Tampa, Fla., who handled former featherweight champ Willie Pep and now manages Manny Gonzales, the first-rated welterweight contender.

Foster, who lives in suburban Silver Spring, Md., expects to fight Tesson in March at Houston's Astrodome.

Dick Tiger of Nigeria is ranked as the No. 1 contender, but he lost the light heavyweight crown to Foster on a fourth round knockout in May, 1968.

Foster said his former manager, Morris Salow, had sold his contract to Viscusi. Salow was suspended indefinitely by the New York State Athletic Commission in July, 1969.

# Two Are Signed

SANTIAGO, Chile (AP) — Pele, world famed soccer player, scored his 1,007th goal of his career to become second on the all-time scoring list as his team, Santos of Brazil, lost to Colo Colo of Chile 4-3 Wednesday night.

Brazilian Artur Friedenreich is listed as the No. 1 all-time scorer with 1,329. Friedenreich played from 1909 to 1935.

SUNLAND PARK, N.M. — \$4,500 best, finishing a head behind Samoa Sands. She'll have the services of Robert Young as she breaks from the outside of the compact lineup.

Kancity Kitty, who drew the rail, will be ridden by R. A. Valdez as she seeks her first win of 1970. During the fall, the fleet mare turned in an upset score, defeating the powerful Tanorac over 5/8 furlongs.

Nova-Levu, winner of two claiming tests at the fall session, continues his climb up the claiming ladder under apprentice Edward Padilla. War Basket, recently a tough claiming competitor at Turf Paradise, makes his first start over the local strip. No rider has been listed as yet.

# Steinberg Quits Following Claim

MANHATTAN, Kan. (AP) — Kansas State University officials admitted Wednesday night the college is under investigation for a recruiting violation and that an assistant football coach has resigned in the wake of the investigation.

Dr. C. Clyde Jones, vice president of development at KSU issued a statement regarding the rumors concerning the resignation of Dick Steinberg, an offensive backfield coach.

"It was known at the beginning of the football season that Dick Steinberg was involved in a recruiting violation," the statement said.

"Steinberg admitted his involvement and was given the opportunity to resign at the end of the football season. He was then permitted to finish his contract, effective Jan. 31.

# Judges Rule Texas Sodomy Law Illegal

DALLAS (AP) — A three-judge federal court ruled Wednesday that Texas' sodomy law is unconstitutional and enjoined Dallas County Dist. Atty. Henry Wade from further enforcement of the statute.

Alvin Leon Buchanan of Dallas, charged with acts of sodomy with other males in public restrooms, filed the suit last May.

Buchanan sought to strike down sodomy law and to prohibit the Dallas police force from harassing homosexuals.

The three judges—Sarah T. Hughes, William M. Taylor Jr. and Irving Goldberg—declared the statute void for "unconstitutional overbreadth insofar as it reaches the private, consensual acts of married couples."

A married couple earlier intervened in the Buchanan suit, claiming the complaint did not protect the interest of married couples who practiced sodomy in private.

The judge ruled that the state sodomy law "sweeps unnecessarily broadly and invades" the private acts of the married couple, who are protected under the First Amendment.

The present law, the panel said, makes "no distinction between acts committed in public or in private, acts committed homosexually or heterosexually or acts committed by married or unmarried persons."

While the intimate relationship of husband and wife is not mentioned in the U. S. Constitution or its amendments, the federal judges said, "it has been held by the Supreme Court to be included in the First Amendment."

Sodomy is "probably offensive to the vast majority (of people), but such opinion is not sufficient reason for the state to encroach upon the liberty of married persons in their private conduct," the judges said.

Under the sodomy law, 449 homosexuals were arrested in Dallas between 1963 and 1969, including 71 last year, police records show.

# New Variety Is Available

LUBBOCK — Tamcot 788, a high quality, long staple cotton variety with an excellent performance record on the Texas South Plains, will be available for the first time to cotton producers for the 1970 planting season.

The variety, which was developed by Dr. Levon Ray at the Texas A&M University Agricultural Research and Extension Center north of Lubbock, has performed admirably in test plots and variety demonstrations in 32 counties on the South and Rolling Plains during the past three years.

"In 1968 this variety out-yielded all other varieties in tests near Welch in Dawson County, Lubbock and Tulia," said Ray. "Staple length is about one and one-sixteenth inches and fiber strength is about 90,000 pounds per square inch."

The fiber of Tamcot 788 is fine, however, and Ray cautions growers against overwatering or late irrigation which could result in low micronaire cotton. For this reason, the variety is not recommended for the northern part of the area or for late planting.

A limited amount of Tamcot 788 seed should be available for the coming planting season, according to Ray. In 1969 there were 985 acres of registered and certified seed grown, marking the first year that seed for this variety was produced for sale to growers.

The variety was developed from a cross of two experimental cottons made in the greenhouse in 1961. One of these was an Acala breeding line, P 1874, developed at A&M's Agricultural Research Station at El Paso. The other was a storm-proof, experimental cotton developed at the Lubbock Center, CA 348. The line CA 348 is also one of the parents used in the development of Dunn 56C and was utilized in developing Stripper-Cala S and Stripper-Cala N," said Ray.

Tamcot 24, a sister line to Tamcot 788, is being looked at as a possible variety for dryland production on the High and Rolling Plains, adds Ray. Tamcot 24 is not quite as early maturing and will not "cut-out" as quickly as Tamcot 788. This should favor it as a dryland cotton.

# New Moves To Cope With Traffic Deaths

AUSTIN (AP) — Gov. Preston Smith told his new Safety Committee Wednesday that Texas plans a statewide campaign — including "drive friendly" bumper, window and letter stickers — to cope with the "almost catastrophic problem" of traffic fatalities.

Bureau had branded Texas' traffic safety program as "weak." "We hope through this committee and through this office to build a massive program of public appeal through all media which will constantly bring home to the individual driver the need for what I call just basic good citizenship," Smith said.

He said he "wouldn't be surprised" to see insurance companies propose higher auto insurance rates because of the rising number of traffic fatalities in the state. It was estimated that more than 250,000 persons will be killed or injured in Texas traffic accidents in 1970.

The governor said Texas had to re-submit a traffic safety program last year to avoid the loss of \$35 million in federal highway funds. "We've got to come up with something quick as well as long-range," the governor said. "We now have the beginning of a strong public support effort, and we have launched an effort for public appeal and I hope that we are on our way."

A. Ross Rommel, former industrial safety expert with the Humble Oil & Refining Co. and now vice-chairman of the governor's committee, said the "real problem" was encouraging safety campaigns at the local level.

Sgt. Jim Wooten of the state police got a call at his office from a woman at Little Rock who inquired about ice and snow on Interstate 40 to Conway. Wooten said glaze of ice made the divided highway extremely hazardous, especially in the westbound lane, which runs from Little Rock to Conway. "In other words, if I went up the other lane, I could make it all right?" Wooten quoted her as relaying. "Wait a minute, ma'am," Wooten said, and began explaining.

Johnsons Arrive In Acapulco  
ACAPULCO, Mexico (AP) — Former President and Mrs. Lyndon B. Johnson, here for a vacation, plan to spend the next week in a house at nearby Puerto Marques owned by Former President Miguel Aleman of Mexico. The Johnsons arrived by private plane Wednesday from Austin, Tex. Their stay in Mexico is expected to last several weeks.

OPEN DAILY 9:00 A.M.-9:00 P.M. SUNDAY—1:00-6:00 P.M. 2600 GREGG STREET

If we sell out of any advertised special, you will receive a written order, "Back-Order" which entitles you to buy the item at these advertised prices when our stock is replenished. WE RESERVE THE RIGHT TO LIMIT QUANTITIES.

DEAR ABBY: Please do not disclose my name, or where this letter is from, just sign it "DISGUSTED WITH CELEBRITIES," and let me have my say:

I am in a business which caters to people who want the best and expect to pay for it. My problem, Dear Abby, is getting my money from some of these celebrities. If I were to mention the names of some celebrities who have stuck me for thousands of dollars, you'd say I was lying.

Don't say, "Sue them!" It costs money to sue people, and collection agencies take a big percentage of whatever they can get out of some of those deadbeats.

Give me the honest, quiet rich "nobodies" who pay their bills, and you can have the celebrities who think they're doing you a favor by "honoring" you with their accounts.

DISGUSTED WITH CELEBRITIES

DEAR DISGUSTED: Your complaint is not a new one. Most "celebrities" are notoriously inept when it comes to managing money. (The smart ones have business managers who dole out a living allowance.)

Your only protection against celebrities who eat chicken one week and feathers the next, is to check and double check their credit, or deliver C.O.D.

DEAR ABBY: I read your letter from "NO SAINT" and can appreciate his problem. I happen to be a SQUARE JOHN (never been convicted) who is associated with the SEVENTH STEP FOUNDATION, an organization to assist convicts and ex-convicts. We try to find jobs, living quarters and offer friendship, advice and counseling.

"NO SAINT" and any others with this problem can write to THE SEVENTH STEP FOUNDATION, SAN FRANCISCO, CALIF. 94106, and we will direct him to the nearest chapter who will take over from there. Sincerely yours, JOHN P. FINSLAND, President

DEAR JOHN: I have checked you out with the Shell Oil Company for whom you work, and you are A-O-K. A million thanks.

DEAR ABBY: For reasons of health, I must have all my teeth extracted soon, and here is my problem. First I should tell you that I am a 55-year-old grand-mother.

Abby, I have always had a very ugly mouth. My teeth stuck out in front, and to make matters worse, they were parted in the middle.

My dentist told me that he could give me a beautiful mouth with nicely spaced teeth and no sticking out in front. I was

really looking forward to having my teeth out and getting a prettier mouth until I told my sister-in-law about it, and she said, "Oh, no, don't do it! It won't look like YOU. A really good dentist would try to make you 'new' teeth look as much like your 'old' teeth as possible."

Abby, I don't want my "new" teeth to look like my "old" teeth. I've hated those ugly teeth all my life, and now I want to look as pretty as possible.

Please tell me if you think I'm wrong. Or is my sister-in-law? My dentist says it is up to me. He can do it either way.

DEAR WAITING: I don't blame you for wanting a new, prettier mouth. Stick with your original idea, and more power to you.

DEAR ABBY: Whenever any woman, or groups of women, come to our home, my husband immediately stops everything to join us.

To me, this is wrong. Whenever a man (or men) come to see HIM, I make myself scarce, and I wouldn't think of joining the men unless invited.

It is the same when we are in mixed company. He is always wherever the women are. What is wrong with him? It is very embarrassing.

SOMEBODY'S WIFE

DEAR WIFE: Your husband likes to be in the presence of women. And if he's the only man, he probably enjoys it all the more. It's not a serious offense, but rather a petty fault. Tell him (without ruffling his feathers) to leave the hen parties to the hens.

**Popcorn In Ear Proves Costly**

LOS ANGELES (AP) — If you are ever wondering how to get a piece of popcorn out of a little girl's ear, consider the costly experience of John Gomez.

Gomez returned home from his job as a city mechanic one day and learned that a piece of popcorn was lodged in the ear of his 4-year-old daughter, Cynthia. Cynthia couldn't say how it got there.

When Gomez failed to get it out with tweezers, he took Cynthia to a doctor, who tried to wash it out with warm water through a syringe and failed.

Next, an ear specialist put her in a hospital for two days during which he removed the popcorn surgically.

The bills for hospital, surgery and anesthetic charges and office calls came to a total of \$420.90.

"I think they thought I had insurance," Gomez wailed. "But I didn't. I had canceled it. It was costing too much."

 2♣    Pass    3♣    Pass  
 4♥    Pass    Pass    Pass

Opening lead: Jack of ♠. South was so pleased to see the king of clubs appear on the opening lead in today's hand that his sense of relief temporarily disorganized his thinking processes. The result was a setback that could have been avoided had he not given in so completely to his emotions.

The game contract in hearts was reached in easy stages. Altho both of his opponents had bid clubs, West opened the jack of that suit inasmuch as he had a perfect sequence. The deuce of clubs was played from dummy and, when East's king appeared, South impulsively produced the ace—so pleased was he to locate this key honor without having to resort to any guess.

A diamond was led over to the ace and a small heart was returned to declarer's king. West was in with the

ace of trumps and he returned the ten of clubs. North's queen was ruffed away by East, and there was no way for declarer to avoid losing two more club tricks. The outcome was a one trick defeat.

When East played the king of clubs at the first trick, South is in position to count 10 tricks, and only an incautious gesture will permit the prize to slip from his grasp. In addition to the five top tricks available in the side suits, declarer can arrange to ruff two diamonds in dummy and take three hearts in his hand. Since he cannot complete the trump drawing process until his side washing is attended to, however, South must take measures to protect his side winners from an adverse ruff.

Since East's king of clubs is an obvious singleton, West will be able to give his partner a ruff in the suit if he has the ace of hearts. Declarer must see to it that East is not offered the opportunity to trump an honor. The way to achieve this objective is to permit East to hold the first trick.

If he returns a spade, South puts up the king, and proceeds to go about his business. When West gets in with the heart ace to play the ten of clubs, declarer can follow from dummy with a small club since he retains the ace in his own hand. If East ruffs, it will be with a trick that South had to lose anyway. The defense will thus be restricted to three tricks—one heart, one club, and one club ruff.

### Discrimination Among Topless

DETROIT (AP) — A Detroit go-go bar owner has filed a suit charging his girl dancers are suffering discrimination since they cannot legally dance totally topless, but male dancers can.

Last Sept. 17, a girl dancer employed by Theodore Manolakas and John Kratsas at the Sip and Chat bar was arrested for indecent exposure when she peeled off her pasties.

The federal suit brought Monday alleges the ordinances used to arrest the dancer and owners are unconstitutional because the laws "deny the constitutional and civil rights to grant, seek, obtain and hold employment as entertainers without regard to sex."

The suit also maintains the laws "deny the dancers' freedom of expression, due process and equal protection of the law" under the federal constitution.

### Schools Closed Because Of Flu

ATHENS, Tex. (AP) — Athens, Lindale and Trinidad schools will close for two to four

days because of the flu. After that period, head counts will be taken to determine the percentage of absenteeism.

Almost one-quarter of the students and almost a dozen teachers were absent Monday, Athens school Supt. J. R. Lowe said.

Doctors said the illness takes about 72 hours to run its course and, relapses can occur.

Lindale school Supt. Grady Finch, one of the flu victims, dismissed classes when almost 300 of the 1,000 students were absent.

Local hospitals said there was no epidemic, however.

### Whoever You Are, You're Forgiven

BOZEMAN, Mont. (AP) — The Montana State University food service department says it has found someone with a conscience bigger than his stomach.

A letter with \$5 enclosed recently was delivered to the department.

"To get this off my mind and in order to feel better," the

anonymous correspondent explained, "I am returning in cash the value of food I had burgled two years ago."

Taken by the guilt-ridden gourmet were two loaves of bread, one pound of ham, one quart of ice cream, one box of shrimp and a jar of pickles.

"I am sorry for this unwarranted wrongdoing," he concluded.

"Whoever you are," said acting MSU President William A. Johnstone, "you are forgiven."

### District Census Offices Open In Texas Monday

DALLAS (AP) — A dozen district census offices will open across Texas Monday and the machinery for the once-a-decade job of counting all Texans will be ready to roll.

Between 9,000 and 10,000 temporary workers will be hired by April 1 to find out how accurate the Census Bureau's estimate of 11,187,000 Texans really is.

In a departure from previous headcounts, the mails will be used extensively in major metropolitan areas, an innovation it is hoped will reduce the legwork of enumerators, if not mailmen.

Monday, seven of the 19 district offices for Texas opened, including the biggest ones, both in Houston. Richard Henry runs the count for North Harris County and William Simmons is in charge of the South county census.

The Dallas County work load also is divided, with Frank Morrow in charge of the east county enumeration and Mrs. Stella Smith handling the west.

The other district offices and their managers: Amarillo, Robert L. Butler; Corpus Christi, Mary Bodger; El Paso, Conrad Ramirez; Fort Worth, Richard Hazlewood; Galveston, Tom Coffing; Greenville, Mrs. Blanche Martin; Longview, Charles Williams; Lubbock, Bill McCasland; Lufkin, Morgan Flournoy; McAllen, Felipe Ramon; San Angelo, Jim Farr; San Antonio, Aileen O'Callaghan; Waco, Bob Ford; and Wichita Falls, Richard Newton.

In Dallas, deputy regional director Michael Long has responsibility for training the top people in the district offices. Long's office will take in the reports from the districts and forward them to Washington.

### Young Airman Also Leading Citizen

The Big Spring Jaycees "Outstanding Young Airman of the Year" might also be termed an "outstanding young citizen."

S.Sgt. James W. Baldwin has numerous community-oriented activities above and beyond his regular military duties as a maintenance controller at Webb AFB.

Sgt. Baldwin was nominated for the Jaycee award by Lt. Col. Thomas Difloure, chief of maintenance. He received the award at the Jaycee banquet Jan. 13.

"Sgt. Baldwin has a variety of base activities and has made many noteworthy contributions to the community in addition to achieving outstanding job performance ratings," Col. Difloure said in his nominating letter.

While being a member and vice president of the Big Spring Five Watters Citizen's Band Radio Club, Baldwin donated time to the 1969 Enduro Kart Races held in the City Park, helped man the Labor Day Rest Stop which gave refreshment and advice to more than 1,600 holiday travelers through Big Spring, participated in the last efforts to achieve 100 per cent of the 1970 United Fund goal, and worked as a volunteer radio dispatcher for the Police Department on Halloween.

Sgt. Baldwin is also a member of the Howard County Civil Defense team during times of severe weather, stationed at a post in Elbow.

During 1969 he maintained active membership and participation in the Roman Catholic Chapel program and the Non-commissioned Officers Association (NCOA). Through NCOA

**OUTSTANDING AIRMAN** ... S. Sgt. James Baldwin

projects he devoted time to the Salvation Army Christmas Bell Ringing Corps and assisted in providing food and clothing to an underprivileged Big Spring family.

As an American Red Cross rated water safety instructor, he has given water safety instruction to children at the Webb swimming pool.

A native of Spencer, Iowa, Sgt. Baldwin entered the Air Force in January, 1961, and was stationed at Webb in May, 1968. Prior to that he was assigned to Wiesbaden AB, Germany. He is married to the former Miss Janet Wellam, Spencer.

### \$200 A MONTH PENSION

### Brody's Grandparents Are Struggling Along

PITTSBURGH (AP) — While Michael Brody Jr. contemplates giving his money to anyone who asks for it, his grandparents are struggling along on a \$200 a month steel-worker's pension.

Mrs. Michael Brody of nearby Duquesne, the mother of the young heir's father, says she hasn't asked for any of her grandson's money.

But Mrs. Brody and her husband, a 75-year-old retired millhand, are having trouble understanding why their grandson is being so free with the money he inherited from his other grandfather, John F. Jelke.

The Brodys, Czechoslovakian immigrants, said they haven't seen their grandson, who lives in New York, in many years, but they're worried about him.

"I just have to worry about this," said 73-year-old Mrs. Brody in broken English. "He did this all of a sudden. It's not like him."

"We used to write and talk over the telephone," she said, "but we haven't done that for awhile."

The grandparents live in a simple two-story frame house on the millhand's pension, but they've never forgotten their grandson at Christmas or on his

birthday. "Mike had so much and so many clothes that we just sent him a nice warm scarf for Christmas this year because it was so cold up there," Mrs. Brody said.

Brody's aunt, Mrs. Harold Williams said she could use some of the money her nephew's giving away.

"I'm not bashful," Mrs. Williams said. If he wants to give away his money, I'll take some.

"We could use it," said the mother of one who lives in a working class neighborhood near the steel mill where her husband works.

Mrs. Williams said her brother John, Brody's uncle, could use some money too.

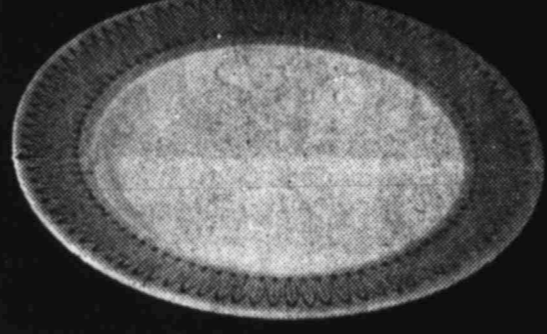

"He has ten kids," she said. "If he gave his money to charity or something it wouldn't be so bad," she said. "But it looks like he's forgotten about his poor relations."

Brody's grandfather, who suffered a stroke a few years ago, just shrugs his shoulders and laughs when he hears about his grandson's antics.

"My sons are good boys," he said. "Why should our grandson be any different?"

# Law Against Air Pollution Forces Plant To Shut Down

DALLAS, Tex. (AP) — Texas industries polluting the air are fast learning that the state's air pollution watchdog has teeth in its bite and is beginning to show it.

This week the Occidental Chemical Co. of Houston, which has a \$500,000 annual payroll, shut down its operation after the Texas Air Control Board denied it a variance.

A variance is a grace period to allow a company time to conform with state standards, normally by installing pollution abatement equipment.

Company vice-president John Harris said the plant was up for sale with no plans for reopening and that they have spent too much money on it already.

"If you take the pollution out of the air, you have to put it in the water and that would have meant a whole new set of problems," Harris said.

The company, which produces 50,000 tons of fertilizer annually, was once fined \$10,000 for not complying with board orders. The civil penalty, which the TACB favors, is a \$1,000 a day fine for each day of violation.

Charles Barden, executive secretary of the TACB, said the plant had not incorporated controls for the emissions of fluorides, which he described as chemicals "strong enough to etch glass."

"The board took a dim view of that," he said.

In 1969, the TACB shut down at least four plants—two East Texas lumber mills and two rock plants. One of the rock plants, near Austin, shut down because it was not able to meet state regulations and found it unwise to make changes.

The other merely opened a new plant with proper pollution abatement equipment elsewhere.

J. C. Bottcher, of Huntsville, who owned one of the sawmills, said it would have taken \$65,000 to meet state control requirements. The mill also had been unable to obtain qualified workers essential to a successful operation.

The denial of a variance for

Occidental was in line with actions of the Houston City Council and the Harris County Commissioners court. Both groups have gone on record in recent months opposing any variance or permit for companies polluting the air or water.

Although the state's greatest array of heavy industry—and thus the greatest amount of air and water pollution—lies on the Southeast Texas coast, other parts of the state don't escape ever increasing problems.

A new asphalt plant in Dallas is drawing complaints from residents. Ironically, the plant's president, H. B. Zachry Jr., is the son of the TACB chairman.

A plant spokesman said part of the operation emitting dust has been shut down and moved off the property. The rest of the operation is being modified continually and should be able to meet air control standards, he said.

At the western tip of the state, air pollution is proving it doesn't recognize boundaries, even international ones.

El Paso, Tex., and Juarez, Mexico, residents Tuesday filed a \$1 billion class action suit against American Smelting and Refining Co. It was the second one against the company this week.

The suit alleges the health of 750,000 residents in the border cities is threatened by a discharge that is "toxic and causes respiratory and other physical ailments."

An injunction is also being sought to halt current plant operations.

As the crackdown begins on the state level, the antipollution cry is being heard louder on the national level.

The Environmental Studies Board of the National Academy of Sciences has asked that a "fire brigade" of researchers be created.

# Whoopers Are 56 Strong

There are 56 wild whooping cranes on the Aransas National Wildlife Refuge.

While birdlovers were already overjoyed with the record number of 55 whoopers which had reached their winter home on the Texas Gulf Coast, the belated arrival of the extra bird has been cause for more rejoicing among conservationists who have watched the big white birds' gallant battle against extinction.

Refuge Manager Gordon Hansen, who supervises the Bureau of Sport Fisheries and Wildlife refuge, had observed a total of 56 cranes on an aerial count in December. This new record high was not announced by the Department of Interior until it could be confirmed by second aerial census. Fog, rain and low visibility prevented the confirming count until today.

From a low of 15 birds in 1941, the flock has shown a slow but steady increase ever since the Aransas Refuge was set aside as their winter sanctuary.

TO BE EVACUATED — A U.S. Air Force cargo plane is shown being loaded on the runway of the Wheelus Air Force Base in Tripoli, Libya, last week. Part of the huge base is to be transferred today to Libya in the second major step of a hurried evacuation. The evacuation is to be completed by June 30.

# Flames Kill 3 Children

HOUSTON (AP) — Flames roaring through a trailer house killed three small children Wednesday night.

The trailer was parked behind a residence on FM 1900 in northwest Harris County.

The victims were David Pope, 5, Jeffery Pope, 3, and Gene Pope, 2, children of Mr. and Mrs. Theodore Pope.

County criminal investigator J. D. Payton said the fire destroyed the 7-by-21-foot trailer house. The charred bodies of the children were found inside.

Payton said the fire broke out while Pope, 36, was seeking his wife Irene, who had gone to visit neighbors.

A neighbor told the Papes their trailer was burning. They returned to find smoke and flames billowing from the small mobile home and were unable to get inside.

The trailer was on land owned by Bob Hammon, whose traveling carnival stays there during the winter.

# Webb Third In Program

The water and sanitation section of the Civil Engineer Division of the AFB, was awarded third place in the annual Air Training Command Utilities Management Conservation award program for 1969.

The two finishing ahead of Webb were Keesler AFB, Miss., and Lackland AFB, who finished first and second respectively. A certificate will be presented to the third place winner.

According to S. Sgt. William J. Webster, monitor for the utilities and conservation program and noncommissioned officer-in-charge of the water and sanitation section, ATC initiated the program in 1962 to enable them to evaluate the conservation of utilities at each base in the command.

Each base in ATC submitted a brochure explaining usage and conservation of all utilities throughout the fiscal year. The brochures were evaluated at Headquarters ATC independently by each of four committees.

This was the first time since the program began that Webb has placed in the top three.

# Course Planned For Specialists

A fourth postgraduate course in the "Care of Spinal Cord Injury Patients" will be offered in the VA Hospital at Long Beach, Calif., May 18-22, Jack Powell, local VA Hospital director, announced.

The course will be given without charge to a limit of 30 physicians in non-Federal medical institutions and in the armed forces. It is designed primarily for specialists in neurosurgical, urological, orthopedic, plastic and general surgery, and for other specialists such as neurologists and psychiatrists.

Applications should be submitted to Director, Spinal Cord Injury Staff (11A1), VA Central Office, 610 Vermont Avenue, N.W., Washington, D.C., 20420. Deadline is April 1.

# Lee Young Files For Constable

Lee Young has filed for the Democratic nomination as constable for justice precinct No. 1. He has held this post for the past six years. The position carries the nominal pay of \$1 a year, but Young said he was desirous of being available for service to the residents of the precinct, which embraces Big Spring.

# Dark Future Of Africa

By WILLIAM L. RYAN  
AP Special Correspondent

Nigeria's 30-month nightmare of civil war was a warning symptom of what ails the immense continent of Africa. Lessons for all nations involved, big and small, powerful and weak, are fairly obvious. But nations have an uninspiring record of learning from such lessons, and the outlook for the African continent, as of now, remains gloomy.

Civil and guerrilla war, political instability, poverty, hunger, disease, backwardness, population explosion, division, suspicions—you name it, Africa has it. To complicate all this, its resources and geography make it an arena of global contest. It all threatens to produce, some day, a continental nervous breakdown with repercussions for the rest of the world.

Even after World War II there

were only four independent nations in the whole continent: South Africa, Liberia, Egypt and Ethiopia. Then what British Prime Minister Harold Macmillan called "the wind of change" blew the continent abruptly into the 20th century, unready and unable to cope. The avalanche of independence began when Ghana, the former British Ivory Coast, won freedom in 1947. France under Charles de Gaulle began liquidating its empire in 1958. In the 1960s alone, 31 new nations were born from the womb of colonialism, British, French and Belgian.

A sort of reverse, latter-day colonialism dictated frontiers. What had been colonial boundaries were demanded by new leaders as their own, regardless of racial, cultural, religious, tribal and other differences. Now, in a continent of close to 350 million people there are 40 states, some far too small to be viable.

In the 1960s there were 15 coups and mutinies, a variety of assassinations, two civil wars, several guerrilla wars.

For many countries the economic outlook is bleak. In 20 nations, the per capita income is less than \$100 a year. In the rest it is little better and the highest probably is under \$400. Most rely on basic agricultural products.

Some of the black nations find they cannot get along without whites. Their lack of skills cannot be overcome in the near future.

The vast Sahara and formidable mountains divide Africa, north from south. There are many other barriers, such as the arbitrary colonial boundaries of what are now independent states, lack of a common tongue. The north is mostly Moslem, much of it Arabic-speaking. The Islamic conquest of centuries ago failed to surmount the natural barriers. Below the Sahara are pagans and Christians. So the "Africa for Africans" slogan tends to lose meaning, since it is a world wrapped up in a continent, a world of many languages and cultures. Pan-Africanism is a goal for many, but it is distant, if not impossible.

If Africa did not have enough built-in misery of its own, global politics brought more. The West European powers seek to guard what the British call "residual colonial obligations." They value highly the market, the resources and the profits from the former colonial empires. As for the United States, for a long time its policy, seeking stability, seemed centered single-mindedly on anticommunism above all else. But the labels of "left" and "right" are not easily applied to Africa.

The Red Chinese and Russians have been having their own cold war in Africa. The Chinese staked out key areas like Tanzania, Burundi and the little Brazzaville Congo, but they had a tendency to fall on their faces, irking the Africans to the point where they were regarded with deep suspicion and sometimes expelled.

The Chinese aim had seemed to be to produce political and economic chaos to foster revolution. The Russians, more careful, recognized that conditions were unfavorable for forceful Communist takeovers. Moscow based its policy on eliminating other influences wherever possible and on trying to insure that whatever direction a target area might take, it would not be toward the West.

What, then, are the prospects? Many see possibilities of years of violence, war and struggle, with repercussions which can cause acute tension among the major powers. What can be done about it?

Africa needs time and lots of it. The urgent priorities are education, infusion of technology, upgrading backward agricultural methods, solution of ancient land problems, production of decent living standards. Africa lacks sufficient schools. It badly needs improved roads and other transport and communications facilities. It has a severe shortage of people trained in skills needed to construct viable economic and social systems.

Most of all, it needs help. But Africa suspects the help and will continue to suspect it so long as the aid tends to be predicated upon a big power struggle for influence, smacking of colonial days.

The frustrations among the small corps of the literate impel them to seek quick solutions, adopt prefabricated slogans, associate themselves with far-off political notions, because they blame everything that is wrong on imperialism and colonialism, both still frightening bogeys.

EMBARGOED RELIEF FOOD — Some of the 7,000 tons of food, enough to feed five million people for 20 days, fills an airport hangar on the island of Sao Tome, off the African coast. The food and medical supplies, provided by various European and American charity organizations, was originally destined for the former secessionist state of Biafra, but is being delayed by a Nigerian embargo.

NEAR TO DEATH — About 600 children, sick and starving, are seen at this crowded maternity home in Port Harcourt yesterday. Many have already died. Others cannot even crawl for food... they are Ibo children (no parents) from Oweri. They are looked after by Red Cross and a bunch of British construction workers. Dennis Le Royale, Associated Press staff photographer who took the picture, said "It is the most dreadful sight I have even seen or had to photo."

# 'The Johnny Cash Show' Beat Scores

By CYNTHIA LOWRY  
AP Television-Radio Writer  
NEW YORK (AP) — Three new series were offered by ABC Wednesday night, two hours of music and one half-hour situation comedy.

"The Johnny Cash Show" is not exactly new since it was on ABC last summer. "The Engelbert Humperdinck Show" stars the pleasant-voiced English singing star in an easy-paced and low-key hour. In Tandem, they ought to do nicely.

Cash's hour is produced in Nashville and almost everyone on the show carries a guitar. The music, by and large, is ballad with a beat. Country-western in mood and certainly in idiom, it is dominated by the interesting personality and style of the star. The program, in spite of being shot in an auditorium that looks as big as Monaco, has a family feel about it, partly because Cash's wife and members of her family appear as a singing group but also because of the warm response by the program's Nashville audience.

Perhaps the most distinctive feature of the premiere was a mini-musical documentary. As Cash sang "Ribbon and Steel" and "Casey Jones," and filled in the narration, the screen was filled with old pictures and old posters telling of the building of the transcontinental railroad track more than 100 years ago. Humperdinck's hour is almost entirely music, mostly middle-of-the-road numbers including old standards. The host, who has gracious and relaxed manner, strolled easily through the proceedings.

Two solid hours of musical entertainment may be a little much, particularly when television seems overendowed with shows of the same general stripe.

"The Nanny and the Professor" which started the evening schedule, obviously drew its inspiration from Mary Poppins, although the execution is considerably short of inspired.

The governess, played by pretty and English Juliet Mills, is possessed of assorted supernatural powers. Her mysterious arrival from England to our screens suggested a relationship to "The Flying Nun." She knows, without being told, everybody's business, strangers' names and she converses with assorted animals including her pet guinea pig and the family dog.

Nanny is absorbed instantly into the household of widowed Professor Everett and his three unruly, but cute, kids. Her first triumph is to have the family sheep dog win a local dog show. It is all harmless enough, but strictly for the children. But then, so are lots of other evening shows.

Recommended tonight: "Paris 7000," premiere, ABC, 10-11 EST, George Hamilton in a new action series against a European background.

## Warned To Take Zoom From Ads

MIAMI BEACH (AP) — Transportation Secretary John A. Volpe warned auto manufacturers to take the zoom out of their commercials.

Volpe told the National Automobile Dealers Association that advertising has reached an inflammatory level in its emphasis on speed.

"At the present time I have no authority to control advertising. But if the situation continues I won't be afraid to ask for it," Volpe said.

He said he would meet with executives of the auto industry soon to discuss their promotions.

The secretary suggested promotional emphasis on safety and appearance as alternatives to the appeal of speed.

## Top 10 Shows On Television

NEW YORK (AP) — CBS topped prime-time Nielsen ratings for the week Jan. 5-11 with a 22.6 rating. NBC was second with 20.0 and ABC third with 18.8.

For the season to date, NBC stays ahead with 20.1, to 19.5 for CBS and 16.2 for ABC.

The top 10 shows for Jan. 5-11:

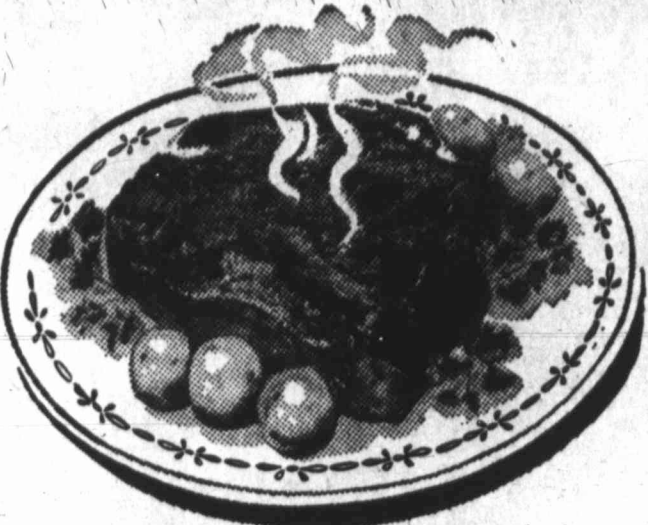

1. Marcus Welby ABC 31.5.
2. Family Affair CBS 28.7.
3. Gunsmoke CBS 28.2.
4. Rowan & Martin NBC 28.1.
5. Hawaii Five-O CBS 27.7.
6. Red Skelton CBS 27.6.
7. Mayberry RFD CBS 27.4.
8. Doris Day CBS 27.0.
9. Beverly Hillsbillies CBS 26.7.
10. Dean Martin NBC 26.4.

## Iraq Working Without Letup In Executing

DAMASCUS (AP) — Iraq's execution mill worked without letup today, with 29 persons put to death in less than 24 hours and another seven awaiting the firing squad or the hangman.

Baghdad Radio said trials of persons accused of attempting to overthrow the leftist government on Tuesday were continuing, and more sentences would be handed down later today.

The executioners worked past midnight Wednesday, carrying out death sentences given 22 persons convicted of the coup attempt. Then at dawn seven persons convicted last year of spying for the United States were put to death. They apparently had no connection with the coup plot.

A few hours later, Baghdad Radio said seven more Iraqis, six of them army officers and one a civilian, had been convicted today of participation in the coup attempt and sentenced to die. The broadcast said three others were sentenced to life imprisonment, an army colonel to 10 years and six officers acquitted.

Accusing Iran and the United States of being behind the coup attempt Tuesday, the Iraqi government also ordered Iranian Ambassador Eallah el Amili and four of his chief aides to leave the country within 24 hours.

The Iranian government denied the charge and ordered Iraqi Ambassador Mohammed al Yasin and four military attaches to leave Iran.

Iraq also closed the Iranian consulates in Baghdad, Basra and Kerbela, and the Tehran government issued closing orders for the Iraqi consulates in Iran.

Iraq broke diplomatic relations with the United States during the 1967 Arab-Israeli war and has never reopened them.

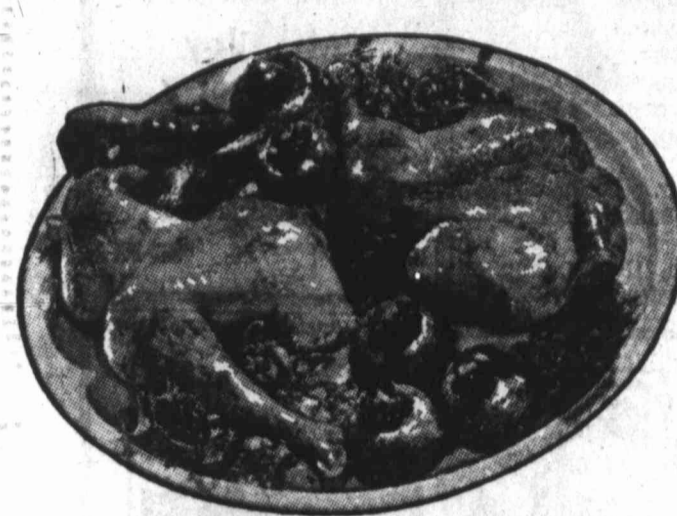

Baghdad Radio said that by 12:15 a.m. today 18 active or retired army and police officers had been executed by firing squad and four civilians had been hanged for an attempted coup which the government said failed Tuesday night.

The seven executed at dawn were convicted of spying for the United States. They included a former mayor of Baghdad and a former interior minister who once said in a Baghdad Radio interview he had worked for the U.S. Central Intelligence Agency.

At least four of those executed on coup charges were senior officers under the pro-Western regime of the late King Faisal. They were pensioned off after the republican revolt in 1958 in which the king was assassinated.

President Ahmed Hassan el Bakr's government charged the Iranian government with supplying 3,000 machine guns and 650,000 rounds of ammunition to the conspirators. Baghdad Radio said two American officers of the Central Intelligence Agency directed the smuggling of the arms into Iraq.

The Iranian embassy's third secretary, Daoud Taher, was accused of being the link between his government and the plotters. He was charged with paying the plotters \$30,800 during the past two months.

# Mrs. John Affleck Took Cooking Course

By RHODA LEMONS

Mrs. John Affleck is one of those super-energized women who can accomplish much in service to others and still have time left over for household chores, cooking and sewing.

Mrs. Affleck and her doctor husband live at 2904 Parkway. He is associated with Hall-Bennett Memorial Hospital. They have three children, John Jr., a student at Georgia State University; Linda, 17, a junior at Big Spring High School; and Richard, 11, a sixth-grader at Marcy Elementary School. They have a "cocker-poodle" dog named Mitzi, a Siamese cat, "Sam," and three other kittens. One of Mrs. Affleck's hobbies is decoupage of old Western advertisements. A favorite of the entire family is an advertisement of a lost mine and ghost town in Arizona. She has decoupage a number of other old prints which were gathered during their many trips throughout the West. The Afflecks love to travel, so when they are going someplace west, he buys all the Western history he can find to read up on interesting sights.

"My first love is ceramics," said Mrs. Affleck. She recently made a "fat, jolly, Southern gentleman" lamp base for which she bought and cleaned the greenware, then fired it in a kiln. Afterward, she painted it and sprayed it with a finish to keep the paint hard. Later, she made a ceramic bunny with a large Easter egg candy dish. This was finished with a harder, finer glaze.

Mrs. Affleck sews, and on the day of the interview, was wearing one of her creations. It was a bright red wool dress designed with straight lines in front and pleats in the back. When her daughter tells her mother she is "out of clothes," they check her wardrobe and see what she needs. Mrs. Affleck may make three or four garments at once and not sew

MRS. JOHN AFFLECK

again for several months.

Mrs. Affleck occasionally has domestic help, but most of the time, she and Linda manage the rather large house.

"I took adult extension courses in sewing and cooking at the Hoke Smith Vocational School in Atlanta," said Mrs. Affleck. "I really think it improved my cooking more than my sewing."

Mrs. Affleck volunteers as a "shopper" at the Veterans Administration Hospital. This entails visiting each patient and finding out what he or she needs purchased from the canteen or downtown. The patients give her the money, she does the shopping and delivers it to them. "I find this one of the most rewarding things I do," said

## Try Potato Pancakes Mornings

Potato pancakes are a traditional go-along with breakfast.

**POTATO PANCAKES**  
2 large eggs  
1 tsp. flour  
¼ tsp. baking powder  
1 tsp. salt  
1½ tps. finely grated onion, pulp, and juice (½ small onion)

1 lb. (7 medium) baking-type mealy potatoes, pared and coarsely grated (2¼ cups packed down)  
¼ cup salad (not olive) oil  
In a medium mixing bowl beat eggs until thick and ivory color; beat in flour, baking powder and salt; fold in onion and potatoes. In a 10-inch skillet, over moderate heat, heat one-fourth cup of the oil. Taking up some liquid at bottom of bowl each time, drop heaping tablespoonfuls of mixture, well apart, into hot oil; using back of spoon, immediately spread potato shreds thin.

Turn as necessary and fry until potatoes are soft and pancakes are golden-brown on both sides. Add more oil as needed for each batch of pancakes. Drain pancakes on absorbent paper and keep warm in a slow oven. Makes about 16.

Note: Try frying pancakes in two skillets at the same time to keep potato mixture from darkening.

## Bacon Gives Glamour To Breakfast

Can a woman put a handsome entree on the table quickly?

Yes, there are many ways. One is to use Canadian-style bacon. Slices of this fully or partially cooked meat are stacked alternately with orange and onion slices, then baked and served with a sauce to provide a dish attractive to both eye and palate.

Canadian-style bacon is the boneless loin of pork, cured and smoked. It comes to dinner as easily as it does to breakfast.

**CANADIAN-STYLE BACON WITH ORANGE SAUCE**  
1 lb. Canadian-style bacon, cut in 12 slices, ¼ inch thick  
6 thin onion slices  
6 orange slices, rind removed  
2 tps. sugar  
1 tps. cornstarch  
1 cup orange juice  
1 orange, cut in sections  
2 tps. grated orange rind

Arrange six slices Canadian-style bacon in a greased, shallow one and one-half quart baking dish. Top each with onion and orange slice and then Canadian-style bacon. Bake in a slow oven (300 degrees F.) for 25 to 30 minutes. Mix sugar and cornstarch. Add orange juice and cook, stirring constantly, until thick and clear. Stir in orange sections and orange rind. Serve over Canadian-style bacon. Makes six servings.

Mrs. Affleck.

Mrs. Affleck, a member of Big Spring Chapter No. 67, Order of Eastern Star, is on the advisory board of the Order of Rainbow for Girls and is a leader for Cub Scout Pack 202. She recently received an honor when she was listed in the book, "Personalities of the South." Mrs. Affleck belongs to two bridge clubs.

## Make Breakfast A Family Favorite

Cook ham and eggs in unusual manner.

**DEVILED HAM AND EGGS BENEDICT**

1 can (10½ oz.) condensed cream of celery soup  
½ cup milk  
4 eggs  
2 English muffins, split and toasted  
1 can (2½ oz.) deviled ham  
¼ cup sour cream  
In skillet, blend soup and milk; heat to boiling. Gently slip eggs into soup sauce; cook over low heat until whites are firm. Meanwhile, spread muffins with deviled ham; place eggs on muffins. Blend sour cream into soup sauce; heat. Pour sauce over eggs. Makes four servings.

## Serve Ham Slices For Breakfast

Serving a ham slice for luncheon, breakfast or dinner? Dress it up with crab apples and cooked or canned sweet potato chunks cut about an inch long. Brush with melted butter or margarine and broil eight to ten minutes, two or three inches from heat.

UNUSUAL BREAKFAST Makes a thrifty dish

## Serve Hearty Meal At Breakfast Time

When prices rise, let your imagination rise with them. It will help you to serve a delicious breakfast at low cost. Try Tuna Pancakes, a main dish fancy enough to encounter in a French restaurant, yet made only with budget ingredients. Canned tuna is one of the great bargains in protein foods. It is comparable in complete protein to lean meat, but tuna's price tag is so tiny. A can of soup makes delicious sauce for the tuna filling in the pancakes, and the pancakes themselves are a thrifty food. Brighten the season with luscious, tuna-filled pancakes, and you'll brighten your budget, too. Tastes delicious for dinner, too.

**TUNA PANCAKES**  
1 cup pancake mix  
1 egg  
1 tps. salad oil  
1½ cups milk, divided

2 cans (6½ or 7 oz. each) tuna in vegetable oil  
1 can condensed cream of mushroom soup, divided

Combine pancake mix, egg, salad oil and 1¼ cups of the milk. Beat only until smooth. Pour batter on a hot, lightly greased griddle, making pancakes about four inches in diameter. Bake to a golden brown, turning only once. While pancakes are baking, combine tuna and one-fourth cup of the soup; heat. Put a spoonful in the center of each pancake; fold pancake over filling. Place tuna filled pancakes in shallow casserole or on oven-proof platter. Add one-half cup milk to remaining soup; heat. Spoon over tuna filled pancakes. Bake in moderate oven (375 degrees) 15 minutes. Yield: Six servings of two pancakes each.

8-B Big Spring (Texas) Herald, Thurs., Jan. 22, 1970

**START DAY RIGHT** — Prepare the family a fine breakfast in order that they will have proper nutrition to start the day.

## Smart Mothers Fix Breakfast

It's the smart mother who gets behind the Better Breakfast Month drive. Skipping on breakfast is a health hazard to many children and teens. A nutrition study revealed that those who dash off to school without an adequate morning meal do not make up their nutritional needs later in the day.

Breakfast should supply a quarter of the day's essential nutrients. An acceptable breakfast to nutritionists may consist of fruit, cereal with milk, buttered toast and a glass of milk. There is always leeway for variety with this basic pattern. How about a hot bread, occasionally, such as English Oat Scones? They've been modernized with biscuit mix and uncooked oatmeal.

**ENGLISH OAT SCONES**  
2 cups prepared biscuit mix  
¼ cup sugar  
1 tsp. cinnamon  
½ cup butter or margarine  
1 cup rolled oats, quick or regular, uncooked  
½ cup currants or seedless raisins  
1 egg, slightly beaten  
¼ cup milk  
1 cup light molasses  
Combine biscuit mix, sugar and cinnamon in mixing bowl; mix. Cut butter or margarine

## PANTRY PICK-UPS

A delightful hors d'oeuvre is made this way: sandwich two halves of a large pimiento-stuffed green olive with a piece of cheddar cheese. Wrap in bacon and bake in a very hot oven until bacon is crisp. You can make an excellent salad from salad greens, grapefruit sections and strips of green pepper. If you like, you can peel the green pepper with a swivel-blade vegetable peeler. Yes, it works!

Unexpected guests for lunch? Devil some hard-cooked eggs and make a salad of them with salad greens and canned asparagus spears. Choose the green variety of spears to make the salad look especially attractive. Serve with Thousand Island Dressing.

When there's extra cooked ham in the refrigerator, grind some of it and mix with cream cheese and a little well-drained pickle relish. Roll into balls and use as a salad accompaniment or serve as a spread for crackers.

Ever marinate cubes of beef before using them for a stew? You may make the marinade of vinegar, water, chopped onion and such seasonings as bay leaf, thyme and garlic.

A mixture of lamb neck and shoulder makes an excellent combination for a stew.

Note to new cooks: before using beef kidneys, the fat and tubes should be removed before the kidneys are washed.

In making a meat stew, you may want to put the seasonings in a small cheesecloth bag for easy removal. Such seasonings might consist of a leafy celery top, parsley sprigs, thyme sprigs, peppercorns, a halved clove of garlic and a few whole cloves and allspice berries.

An interesting way to prepare a tomato aspic: Pour a thin layer of the tomato gelatin mixture into a mold and allow to set. Add a layer of cottage cheese mixed with minced chives and then pour on the rest of the tomato gelatin mixture. Chill until set. Unmold before serving and garnish with salad greens and pimiento-stuffed olives.

## Try Hash, Eggs For Tasty Meal

Serve a breakfast that will be different and tasty.

**HASH AND EGGS**

1 can (15½ oz.) corned beef hash  
4 eggs  
1 can (10½ oz.) condensed cheddar cheese soup  
¼ cup water  
2 tps. chopped pimiento  
½ to 1 tsp. prepared mustard  
¼ to ½ tsp. prepared horseradish  
Spread hash in buttered eight-inch square baking dish. Using back of spoon make four hollows in hash. Gently drop an egg into each. Bake at 325

degrees for 20 minutes or until eggs are set. Meanwhile, blend soup and water. Add remaining ingredients. Heat; stir now and then. Serve sauce over baked hash and eggs. Makes four servings.

**Oops, No Nail**

AUSTIN (AP) — More than trees were lost when workmen cleared an area on Waller Creek recently to expand Memorial Stadium. A nail went with them. The nail, hammered in one of the trees, pinpointed where a 36-inch sewer line made a bend under the creek bed. But the line was located Wednesday when workmen drilled into the top of it. There was no spillage.

**Tart Words Fly Between Yarborough, Rep. Bush**

WASHINGTON (AP) — The heat is on in the Texas Senate race, with Sen. Ralph W. Yarborough and challenger Rep. George Bush already quarreling. Their news conferences Tuesday and Wednesday brought out a multitude of differences of opinion. "The Republicans have a computer operation going in Texas that is fantastic," Yarborough claimed, "and it must cost millions to have that extensive a voter registration campaign." Not so, said the Republican Bush, adding that it's mostly a grass roots, local resident registration drive. The Republicans can't find out the precinct-by-precinct registration count as the Democrats mysteriously do, he said. Those who helped in President Nixon's television campaign have moved in to help Bush, Yarborough said. "They're sending people from Virginia, Florida, Washington and New York to work against me." Yarborough mentioned was publicist Harry Treleven. One of the "image shapers" Bush said Treleven first helped him in 1966, handling his advertising campaign, "and I hope he'll have time to come part-time this year." But no bevy of Madison Avenue image-makers exists, Bush said, unless it is in the form of press aide Peter Rousell "and I hope he gets me lots of publicity." Marvin Collins, Bush's campaign manager, was the political strategist for Linwood Holton's successful bid to be governor of Virginia. Sen. John Tower, who had urged Bush to make the race, also down played the amount of outside help the Republican candidates will get. He said both Bush and Paul Eggers would have adequate resources within Texas and no outside advisors are anticipated. Eggers was expected to be announced today for governor. On another topic, Yarborough said he expects the campaign issue to revolve around his success in putting through Congress many pieces of legislation and the lack of similar legislative expertise by Bush. Yarborough, chairman of the Labor and Public Welfare Committee, claims credit for many laws affecting veterans, education, health and minorities. Bush retorted by saying he had cosponsored many bills which became law. "But the main point is that we have passed a lot of bad legislation," Bush said. "I want the country to go in a different direction." He said his proposals such as tax credits and a human development act had gone nowhere mostly because of Democratic control. On the matter of impacted aid for schools enrolling children of federal employes, Yarborough said the full \$29 million for Texas districts is needed. He said the schools have budgeted for that amount, which was increased by Congress above the \$5 million President Nixon recommended, and to deny them the funds would force local taxes up. Bush said he thought schools had planned to get no more than the \$5 million Nixon suggested and that he'd go along with the lower amount.

**Their Mission Was The Same**

NEW DELHI (AP) — Prime Minister Indira Gandhi dedicated a memorial plaza here Wednesday in memory of Indian independence leader Mohandas K. Gandhi and American civil rights leader Martin Luther King Jr.

Mrs. Gandhi said that although the two men never met, their mission was the same: To put an end to inequalities and hatreds. The plaza has four stone pillars each with quotations from King and Gandhi. Mrs. Gandhi said the plaza symbolized joint efforts by India and the United States to eliminate hatred and violence.

**Astros Winging After Groundings**

SPACE CENTER, Houston (AP) — Alan Bean, the fourth man to walk on the moon, and two other astronauts have flown planes again after sitting out groundings imposed last month. Bean was grounded for taking off from Ellington Air Force Base without clearance. Walter Cunningham and Joseph Kerwin were cited for failing to file emergency landing plans.

MAN-HUNTING — Dauri Powell portrays Annie Oakley in "You Can't Get A Man With A Gun," one of the numbers included in Campus Revue '70 Feb. 5-7. Tickets went on sale Monday and so far more than 2,000 have been sold. Admission is \$1.50, \$3 and \$5, with all seats reserved.

**First Federal Reports Assets Gain In 1969**

Despite a tighter money market and rising costs which constricted building, the First Federal Savings and Loan Association experienced a gain in assets last year. Officers and directors predicted a good year in 1970.

Members at the 35th annual meeting re-elected Robert Stripling and Elmo Wasson to the board. They also adopted a change in the by-laws which will give the board greater latitude in acquisition of funds.

Wasson, president, called attention to raising of the FDIC insurance on accounts up to \$30,000. Management and employees each had good words to say about the spirit of the organization.

At the end of 1970, assets totaled \$18,453,927, a gain over the \$17,848,843 last year. First mortgage loans stood at \$15,408,698, up from the \$14,759,784 of the previous year. Member share accounts aggregated \$16,005,014, also up from the \$16,355,841 of 1968. During the year the association made 1,571 loans for \$1,847,120, of which \$947,276 were to finance purchases. A new type of loan gaining in popularity is that for college education, of which there was \$46,698 last year.

Income, principally on interest from loans and on government bonds and time deposits, aggregated \$1,156,991. Operating expenses stood at \$218,020, plus \$768,556 in dividends, leaving a net of \$140,767

after reserves. At the directors meeting following the members meeting, Elmo Wasson was re-elected president; Charles E. Bell, executive vice president; Malcolm Patterson, secretary-treasurer. Mrs. Helen Mahoney was named assistant secretary as was Mrs. Lou Norris, and Mrs. Lorene Minnick was named assistant treasurer.

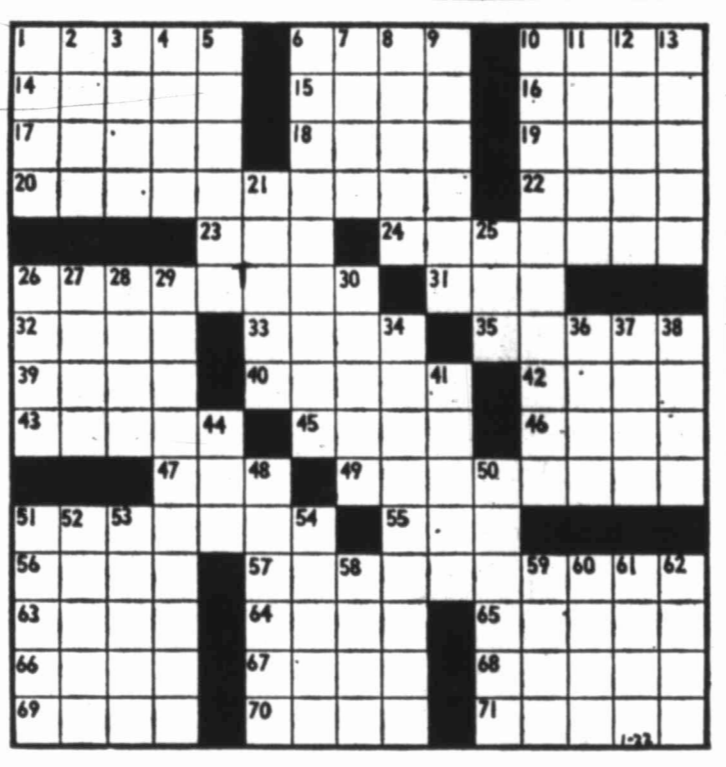

**Three To Get University Degrees**

Three Big Springers and one person from Snyder are among candidates for various degrees to be awarded by the University of Texas at Austin at the close of the fall semester, Jan. 24. Richard Francis Hall, 139-B Dow, is a candidate for the doctor of jurisprudence degree from the Texas School of Law; and Steven Glen Crowell is a candidate for the bachelor of science degree in electrical engineering. Two area persons are candidates for a bachelor of science degree in education, James Doyal Johnston, 1600 E. 16th; and Mrs. Vickie Dianne D. Flynn, 3501 40th, Snyder.

Puzzle of Wednesday, Jan. 21, Solved

**Margarine Heir Sells Recording**

NEW YORK (AP) — Oleomargarine heir Michael J. Brody says he has received \$10,600 for a recording he made. He says he gave the money away, but he isn't saying to whom. Brody, who drew public attention with his promises to give his fortune away to the needy, played a 12-string guitar and sang a song he wrote during the recording Wednesday at RCA Record's Manhattan studio. "War is Over," is the record title.
