IN JAIL WITH BOND AT \$2,500

Operator of Taxi Firm Charged With Fondling 9-Year-Old Girl

A 39-year-old taxicab operator was in county jail here Thursday charged with sexually fondling a nine-year-old girl.

He is J. C. Moore, operator of City Cab Company, who two years ago faced in County Court a charge of driving while intoxicated.

Moore remained in jail Thursday in lieu of \$2,500 bond.

The fondling charge was filed against him Saturday. It is a felony charge based on a new statute involving fondling offenses against minors.

Investigating the case have been Sheriff R. E. (Dick) Gregory, County Attorney Frank Ginzler and District Attorney Eldon Mahon.

Moore was arrested Friday afternoon after the mother of the nine-year-old girl contacted Gregory.

The felony complaint against the taxi operator accused him of committing an offense against the girl May 7.

It is alleged to have taken place in a car near Primary School, where the girl is a student.

Mother of the child said her daughter did not report the incident to her until Friday. She then contacted a lawyer who advised her to contact law enforcement authorities.

Statements taken by the sheriff and county and district attorney allege that the child was fondled and kissed while being taken to school May 7.

The girl told her mother that she was picked up near a grocery store and that she was molested near the school.

It was reported also by the girl that she was picked up again in a car the day following the date of the alleged offense.

However, the girl said she would not get close to the driver of the car the second day. And the child refused to enter the car on a third day, she told authorities.

The girl kept the rides to school a secret until Friday.

Charge against Moore is the third filed here in recent months alleging sexual offenses. The other two charges — not against the taxi operator — involved three young men accused of rape.

Ordinance For City Recreation Plan Gets Unanimous Vote From Council

Councilmen Study Board Appointment

City Council by unanimous vote Monday night approved an ordinance setting up a parks and recreation board.

The action is considered a major step in a proposal for activating a permanent community park and recreation program here for all age groups.

Movement for the community recreation plan was originally proposed by Chamber of Commerce civic improvement program and has received widespread support from individuals and organizations, including Colorado City Ministerial Council.

The ordinance approved Monday night was drafted by City Attorney John Worrell at the request of councilmen. Last month the chamber's civic committee urged council to consider the ordinance.

General purpose of the ordinance is to create a parks and recreation board of the city, provide for appointment and qualifications and tenure of board members, and prescribe the powers and duties of the board.

The parks and recreation board created by the ordinance, which takes effect immediately, will consist of seven members representative of the entire city.

Board members will serve without pay. Terms will be staggered with two being named for two years, three for three years and three for four years.

After expiration of the original terms all appointments will be for four-year terms.

The ordinance calls for the board — after being appointed by council — to meet and elect a chairman, vice chairman and secretary.

Councilmen indicated, however, that they will not consider board appointments until the regular June council meeting.

They agreed Monday night that success of the municipal park and recreation program will depend to a great extent upon the capability, enthusiasm and leadership of the original board.

And they declared that by delegating appointments until June the councilmen would have more time for study of possible appointments.

Main purpose of the board, as outlined in the ordinance will be:

1. Make recommendations to the city manager regarding the appointment of a director of parks and recreation.

2. Study and recommend to City Council the policies and procedures for maintenance and operation of the parks and recreation program.

3. Submit recommendations to City Council for expansion of the city's system of parks, playgrounds, recreation centers and other recreation facilities which the board considers advisable.

4. To study and recommend to the city manager, through the city manager, ways and means for financing the entire recreation program of the city.

Council approved the ordinance Monday night immediately after it was read by City Secretary Ford Merritt.

"Isn't that about what we are looking for?" asked Councilman Jeff Taylor.

"I think it is," replied Mayor Trevor Crawford.

"There's nothing binding in there on finances," added Councilman Ste Hamm.

"All finances have to come back here," explained Councilman L. J. Taylor, "and if we haven't got the money then we can't go ahead."

"But I hope we can find the money."

Motion for passage of the ordinance came from Jeff Taylor. Councilman O. L. (Doc) Simpson provided the second.

The mayor then asked if it would be all right to wait until the next council meeting for consideration of board appointments.

Some councilmen asked representatives of the chamber's civic committee — John T. Merritt, Dr. R. D. Bridgford and Bill Quimby — if the chamber had any suggestions for the board appointments.

"It is the opinion of the committee," said Quimby, "that the appointments should be entirely to the chamber."

BIBLE COMMENT

Fruitfulness Is Christian's Test

The Bible is a book amazingly rich in illustrations and figures of speech.

There are literary devices to make meanings plain as well as to enrich the expression of thought.

We are often given a statement of resemblance which may make vivid in a few words something that much explanation might only make more obscure.

Let us take, for example, one of the clearest and most effective figures in all Scripture, as recorded according to John.

Instead of saying "the disciple is one with me, we are from the same root, we have the same substance, we partake of the same beauty and we have a common part in the fruitfulness of good living," Jesus puts it all in a figure that appeals simultaneously to the eye, the heart and the mind:

"I am the vine, ye are the branches."

His listeners, all vineyard folk, grasp the fact better than if it had been expressed in a long sermon. They also understand that the vine is of no use unless it bears fruit.

Jesus thus links the lesson of the vine and of union with Himself with the matter of bringing forth the fruit of Christian character and good works.

God has a meaning and purpose for our lives. It is that these lives should be productive and He is glorified when His children fulfill this purpose.

The test of our union with Christ is this fruitfulness of our own lives.

"Herein is my Father glorified that ye bear much fruit, so shall ye be my disciples."

LONE STAR FARMER

Cotton Prospects Remain In Doubt

By JOHN WHITE, Agriculture Commissioner.

Cotton prospects are very much in doubt in some areas of Texas this spring where farmers are plagued with either too much or too little rain.

"Too much rain" is only a temporary condition of course, but it occurred in one area where extreme drought prevailed only a few miles away. It was in the "hardship zone" between San Antonio, Laredo and Corpus Christi—a 17-county region that has been subnormal in moisture for nearly seven years.

Bee, Live Oak and McMullen counties are examples where drought has made the cotton outlook negative this year. Bee County has a cotton allotment of 15,000 acres and, until a few days ago only 9.00 had been seeded. Many of these were planted on a "risk" basis and about 3,000 may never come up unless rain is received immediately.

In Live Oak County only about 2.50 of the 20,000 cotton acres allotted had been planted the first of May and many of these allotments were returned for redistribution over the state. McMullen County has had less than one inch of rain since January 1st.

One 15.1 acre plot of the 1,500 allotment was sown by May 1st. Around Nueces County with Corpus Christi as the county seat, much of the cotton already planted was washed out by recent heavy rains. Counties to the north and northeast had the same problem.

These counties are not typical of the state, but each area has its own problems. Moisture is badly needed in the dry-land farming sections of the Panhandle and West Texas, where farmers soon will be planting.

Estimates of the cotton crop traditionally are released about the first week in August. A revised version of the 1955 crop was released this week which placed Texas production at 4,039,000 bales of 500 pounds gross weight. Value of the 1955 lint production amounted to \$611,388,000 based on the average price of 30.3 cents per pound for the season.

Cottonseed from the 1955 crop amounted to 1,687,000 tons or 2 per cent above the 1,647,000 tons of 1954. The increased production was more than offset however by lower prices with value of cotton seed last year amounting to \$77,433,000 or about three-fourths that of the year before.

ALL ARE STAUNCH SHIVERS SUPPORTERS

State Demo Executive Committeemen Await Final 'Sweep Out' By Johnson Delegation

By VERN SANFORD, Texas Press Association.

There is very little suspense left in connection with the State Democratic convention to be held in Dallas next week.

That U. S. Sen. Lyndon Johnson is the new party head was conclusively evidenced after county conventions. Named were at least 1,149 delegates, favorable to Johnson and only 66 definitely committed to his rival, Gov. Allan Shivers.

Only remaining question is how fast the Johnsonites will be in sweeping out Shivers' backers. Almost all members of the State Executive Committee are staunch Shivers supporters.

Ordinarily, new committee members would not be elected until the September conventions. But two factors reflect on the stability of their positions.

First, state law merely says the committee member shall hold office "until his successor is elected." Second, in a 1944 contest between party factions the Supreme Court held one convention could set aside the action of a previous convention.

At stake is Ben Ramsey's job as National Committeeman. And perhaps that of Mrs. Hilda Weinert of Seguin, Democratic National Committeewoman.

Also in doubt about how they will be treated on May 22 are members of the Dallas County delegation, one of the groups to go for Shivers. In this case, a rump convention named delegates favorable to Johnson.

Shivers' Dallas supporters expect the like-minded credentials committee to seat them. But they won't be surprised if other delegates vote to give them the heave-ho.

Two Texans Honored

Two outstanding Texans, who have contributed greatly to the cultural and educational life of Texas, were honored by the Texas Heritage Foundation.

Miss Ima Hogg of Houston received the Texian Woman of the Year award.

Texian Man of the Year honors went to H. H. Coffield of Rockdale.

Awards were presented by Foundation President Paul Wakefield at a banquet where Governor Shivers, honorary chairman of the Foundation, was principal speaker.

Miss Hogg is the daughter of the first native Texan to serve his state as its Chief Executive. Said Wakefield "She has lived and furthered her great family tradition of service to humanity that was passed on to her by her illustrious father."

Of Coffield, he said: "After graduating with highest honors from the university of adversity, in the rural area of Milam County, Pete Coffield lingered on the campus at Rockdale to become his native city's first citizen. His genius for multiple affairs and love of people soon spread his horizon to the borders of his state and beyond."

Change Proposed

A movement to insure reporters the right to cover precinct conventions may be spearheaded by the Texas Press Association.

Under the Texas Election Code only a qualified voter in the precinct may "vote, be present at, or participate in the business of such a convention."

TPA President Russell W. Bryant has suggested deletion of the words "be present at" from the law. He indicated the matter would probably be considered at the TPA convention in Amarillo next month.

Three precinct chairmen in Travis County refused reporters admission to conventions this year.

Stock Fraud Charge
Two Austin companies are defending themselves in district court—here—against charges of fraudulent stock selling.

A temporary restraining order is sought by the State against American Guaranty Underwriters, Inc., and the Karisch Company, Inc.

Calvin C. Huffman, American Guaranty president, denied the charges. His company was issued 25,000 shares of Karisch stock to cover a \$9,500 loan, he said.

"No stock of the Karisch Co. was sold to the public," said Huffman. "Nor have any of the officers named received any commissions."

In its allegations the state accused American Guaranty of collecting "gross and exorbitant commissions" on stock sales.

Insurance Change Sought
Just how valuable are treatments with fire-resistant chemicals, when it comes to reducing insurance risks? This question will be decided by the Texas Insurance Commission.

Texas Chemical Fireproofing Co. has asked that insurance credit on chemically fireproofed public buildings be extended from 15 to 25 per cent. Sen. Grady Hazlewood of Amarillo, representing the company, made the application.

Haralson Busy On Evangelism Team at HSU

Bible students at Hardin-Simmons University will conduct 66 separate youth revivals and church religious services in Texas, New Mexico, and Oklahoma during the spring semester, HSU campus religious activities director Truett Sheriff announced this week.

To point up the university religious activities services, Sheriff reported that during the present school year, the HSU Life Service Band has held three youth rallies, 11 youth revivals, and 49 Sunday services, other than youth revivals.

Accounting for the 66 gospel appearances of student non-pastors in the three-state area are Bob Aremaine of Albuquerque, N. M.; Gene Saur of Shreveport, La.; and Texas revivalists Charles Massague of Ranger, George Mullinax of Kermit, Lyndall Bingham of Spur, Verne Ellis of Houston, Hal Haralson of Lorraine, Richard Waters of Ranger, and three student preachers from Big Spring—R. B. Hall, Jackie Fryer, and James Smith.

Returning to his home state, Ronnie Ryan of Ponca City, Okla., preached at Frederick, Okla., on April 15. He has held previous revivals in Jayton and Postok.

"We are modestly proud of the fact that our religious activities program not only has given opportunity for hundreds on our campus to dedicate their abilities to the cause of Christ," Sheriff said, "but that such dedication can become so effective in carrying the message throughout the Southwest."

A daily newspaper was televised and acted out in Schenectady, N. Y. in 1943.

DEATHLY BEAUTY—Conditions which produced this "Swan Lake" on ice in London, England, are responsible for over 300 deaths. Cold, snow and storms, worst in a century, have whipped England and the continent this winter. Swans are roosting on the surface of Wimbledon Commons Lake, usually an open haven for the birds.

...when you're cruising at everyday speeds!

THE ROCKET'S EXTRA MARGIN OF POWER MEANS AN EXTRA MARGIN OF SAFETY!

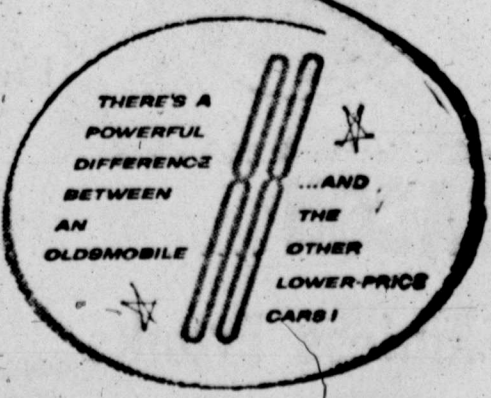

HIGH HORSEPOWER... high torque... high compression. It takes all three to describe Oldsmobile's Rocket! But there's still another important side to the picture. It's **reserve power**—in abundance! In fact, at normal cruising speeds the Rocket still has more than 175 horsepower left... beyond what it takes to propel the car! It's this reserve that whips you through a passing situation so quickly, so effortlessly. That means economy, too! The Rocket just eases along, when lesser engines are

straining. You can see the result in Oldsmobile's double victory in the *Motorists Economy Run!* The modern "big bore—short stroke" design cuts friction and power loss. The Rocket's design made high compression practical... and today's Rocket hits a high 9.25 to 1 compression!

Come take the wheel of a Rocket Oldsmobile. You will feel a distinct difference in performance, in riding and handling qualities... just as you see a glamorous difference in Oldsmobile's beauty. We'll be looking for you soon!

Fashion Draws a Sheath Line

BY EDNA MILES

THE sheath line, in some variation, is the important line for spring and summer.

Spiced by sleeve interest or little jackets or neckline interest, it's very different from the narrow tube of the past.

It's narrow, all right, but it fits the body with curves. It isn't reminiscent of the flapper. It's feminine and it can be either sophisticated or young.

For summer, it will vie with the fuller skirts. Many women feel that the wider skirt is cooler. On the other hand, many women feel that nothing is as cool and slick as the sheath on a hot day. Sheaths are cut, this year, in every fabric imaginable. But the two that most American women will buy are linen and cotton. Both look and feel cool; both are perennial favorites.

While the linen often will be cut from a solid color, it may also be combined with a pretty print or embroidered figure this year. Then shoes or gloves (but not both) can be chosen to pick up and repeat one of the colors in the print.

Summer sheath in white, moiré, gingham, or other fabrics. It's the fashion of the moment. It's the fashion of the moment. It's the fashion of the moment.

Class Presents Mothers Day Gift to Home

A Mothers Day gift of \$5 was sent to the C. C. Young Memorial Home in Dallas by Daughters of the King Sunday School Class of the First Methodist Church.

And in addition to that amount the family of the late Mrs. A. D. Kiker gave \$5 to the Dallas home in memorial to Mrs. Kiker.

The Methodist class voted to donate the cash gift to the home last Thursday during a monthly meeting in the home of Mrs. Etta Brandon.

Mrs. D. L. Buchanan presided in the afternoon session in absence of class president, Mrs. W. H. Garrett.

Mrs. Buchanan read the devotional scripture and led in prayer. Roll call was answered with reading and Bible quotations.

Refreshments of strawberry short cake, ice cream and punch were served after the business meeting.

Members attending were Mrs. Buchanan, Mrs. Etta Miller, Mrs. Georgia Phillips, Mrs. Gus Hardegree, Mrs. H. T. Coles, Mrs. Maggie Bush, Mrs. Van King of Midland, Mrs. Pearl Durham and Mrs. Brandon.

ATHLETICS AND WHITE SOX TIE

Cardinals Blast Braves 12-4 To Take Pony League Lead

Cardinals are at it again in the Pony League.

Manager Luke Treadwell's lads overwhelmed the Braves 12-4 in a decisive victory Tuesday night at League Park.

It was Dickie Richardson, a veteran of Little and Pony League ball who hurled the Cardinals to victory with a four hit-ter.

In the other Pony League tilt, Athletics and White Sox battled to a 10-10 tie.

The game will be resumed at a later date to determine the winner.

Treadwell's team, with five boys back from his last year's team, went behind 4-1 in the first inning when the Braves pounded Richardson for two hits.

One of the hits was a home run by Braves' Lucky Merkert with Douglas Hodges, Benny Greenfield and Jerry Williams scoring ahead of him.

Cardinal leadoff man Buddy Compton doubled and Jerry Cannon brought him around the basepaths with a single off Greenfield in bottom of the first inning.

Cardinals pushed across two more runs in the third to climb within one run of the Braves, 4-3. Compton scored the first Card run of the inning after blasting a single. With two outs, Shorty Thompson walked, stole a base and scored on an error.

Bottom of the fourth, the Cardinals really exploded, shoving across nine runs as 11 batters faced Brave pitcher Greenfield. Cards Jerry McKay and Hunter Mann both scored twice in the inning. Biggest hits were by Charles Rothwell with a double, Mann a double and Billy Bobo a triple.

Braves tried to come back in the fifth, but to no avail.

Toby Dearen's Athletics blew a 9-0 lead late in the game to end in a tie with the White Sox 10-10.

Athletics scored their first six runs in the third frame. Ronnie Bassinger led off with a double off Sox pitcher Red Lemons.

Billy Key and Alex Campbell walked and scored on Ronnie Stacy's booming double. Robert Bracy followed with a single to bring in Stacy.

Three more Athletic runs came in the fourth on singles by Bassinger and Stacy plus doubles from the bats of Key and Dwayne Spivey.

Bottom of the fourth the White Sox began pecking away at the big lead.

League Auxiliary In New Concession Stand

Auxiliary of the Little and Pony Leagues have a new concession stand this season.

The 12 by 24-foot building was finished last week. It's complete with a concrete floor and new cold drink box.

Storage room in the south end of the structure is 10 by 12 feet with the concession stand comprising the remainder of the space.

The structure was built with proceeds from the sale of concessions at the park for the past three years.

Coach Cecil Mackey's Sox tallied two in the fourth on double by Raymon Owens and single by John Johnson.

Successful hits by Lemons, Danny Fisher, William Houston, Don Vest, Owens and Johnson accounted for four more Sox runs in the fifth frame.

Athletics tallied their tenth run in the top of the sixth with Key scoring.

Sox pulled to within one run of the Athletics in bottom of the sixth with three runs. Fisher, Arlis Walker and Vest crossed the plate after each had hit safely.

Athletics led 10-9 going into the bottom of the final inning.

But then White Sox pitcher Fisher unloaded a bases-empty home run that tied the count at 10-10 and forced a renewal of the game at a later date.

GIANTS AND INDIANS LOSE

Pirates, Yankees Use Splendid Pitching to Gain League Wins

Roy Sweat's Pirates showed the greatest strength in the first game of the Little League Monday evening at League Park.

Pirates used only four innings to score a 11-0 victory over the Giants, last year's league winners.

Yankees, who finished third in the league last year, socked the Indians 7-1 in the other Little League outing.

Pirates used the pitching talents of Archie Biggers who hurled a masterful one-hitter at the Giants.

In fact, only 12 men faced Biggers in four innings with Giant Kenneth Cannon getting the only single.

While Biggers was holding the Giants in tow, the Pirates were leveling off on Giant pitchers Joel Shackelford and Sammie Vaughn for nine hits.

A single by Curtis Scott in the first inning scored Charles Houston to give the Pirates their first score.

They rolled across four in the third frame with Houston, Junior Garcia, Scott, and Biggers all scoring.

Six more Pirate tallies came in the fourth with the first six batters scoring—Martin, Dale Walker, Houston, Garcia, Scott and Biggers.

Doubles by Garcia, Scott and Danny Garcia were the biggest hits of the inning.

Yankees' Felix Salemeron pitched an equally splendid game

in their 7-1 win over the Indians. Salemeron hurled a no-hitter with the game called at the end of four innings.

Indians' lone score came in the fourth when Sylvester Williams got on base via an error and scampered home on another error.

Yankees started their run-scoring early with leadoff man Barney Barnett socking a single. Tommy Humphreys following him on an Indian error and Peter

Ramon bringing them home with a long single.

Salemeron, Barnett and Humphreys scored in the second without the advantage of a hit.

Salemeron added another run in the third after walking. Ramon tallied the seventh

Yank run in the fourth after strolling to first on a walk.

It was wildness of the Indian pitchers, plus errors afield, that aided the Yankees.

Yanks actually got only two hits, both off John Thompson in the first inning.

Fishing Facts

By Howard Bynum

Strong southern winds roughed up Lake Colorado City during the last week.

It was muddy, too — an aftermath of the recent rise in the lake level.

But small crappie and bream were biting good over the entire lake, according to fishermen.

The water wasn't clear enough for usual fine bass fishing. However, despite the unfavorable conditions for casting, several nice bass were caught with minnows.

Channel cat and yellow cat, though, were biting almost every kind of bait placed on trotlines.

Biggest catch on the trotlines was a 30-pound yellow cat landed by Earl Harris of Sweetwater. Harris baited his trotline with cutbait.

There were dozens of reports of good catfish fishing.

Few had better luck than Tom Coker, the Colorado City cafe owner, who in one week and on

the same trotline, counted a 26 1/2-pounder and a 17-pounder on his line. He was fishing in the lake's northern area.

Brooks Dorn, one of the busiest local fishermen, in addition to several fine channel cat, caught a 21 pound eight ounce yellow cat. His channel cat included a 12-pounder.

Also reporting more good luck was Truman Henderson, the local fireman, who added a 12-pound channel cat and several other cats — ranging from one to three pounds — to his recent good fishing. His trotline was baited with minnows.

Water in the lake has been warming up during the hot weather period of the last week. And the temperature — of the water — has been comfortable enough for water skiing and swimming.

Infact, there was plenty of activity in water sports at the lake Sunday.

AGAINST PRESS MANAGER

Court Rules Out Election Charge

The Court of Criminal Appeals has thrown out the penal provisions in the Texas Election Code which limited expenditures by individuals toward the election or defeat of a candidate for public office.

In issuing its opinion the court dismissed charges against Vern Sanford, general manager of the Texas Press Association, who had been indicted by a McLennan County Grand Jury on the charge that he had spent \$76 for political advertising with two Waco newspapers during the 1954 campaign.

Pointing out that one state law makes excessive expenditures by individuals a felony, while another law makes such expenditures both a felony and a misdemeanor,

ruling.

In order to rule any law unconstitutional, it is necessary first to have a law. Under the court's opinion, there is no valid penal law on the Texas statute books

which governs a person's right concerning such expenditures.

Other top officers elected for the WSCS are Mrs. J. E. McDonald, vice president; Mrs. Bond, recording secretary; Mrs. Frank Crowner, treasurer.

Secretaries selected to lead various phases of the WSCS program are Mrs. Clyde Smith, promotion; Mrs. J. G. Bruce, missionary education; Mrs. Josephine Marshall, Christian social relations; Mrs. K. L. Taylor, student work.

The annual election of officers followed the WSCS program, which was conducted by Mrs. Bond as a roundtable discussion to emphasize needs of the world.

Mrs. Taylor led the group in singing "Give of Your Best to the Master," accompanied by Mrs. Hallmark.

Devotion was by Mrs. Jim Johnson, who based her talk on several Old Testament scriptures and chapter 22 of Matthew.

Participating in the roundtable discussion were Mrs. Jack McDowell, Mrs. Taylor, Mrs. Bond and Mrs. Dobbs.

Mrs. Frank Crowner directed the entire group in a pledge service while Virginia Templeton provided background organ music.

Mrs. Templeton, after the pledge service, was presented a youth life membership certificate and pin from the WSCS.

The organization voted to send CARE packages to India.

It was voted also to send a Negro woman to the Methodist leadership training school next month in Amarillo.

Coke Here Now in King-Size Bottles

The familiar Coca-Cola bottle now has two "big brothers".

New king-size and family-size bottles of the famed soft drink—the first packaging change for Coke in 40 years—go on sale this week in local food and beverage stores in the territory served by the Texas Coca Cola Bottling Company.

Jack Roden, manager of the Big Spring plant, announced that shoppers here will be seeing the new-size bottles in advance of most of the country.

"It will be at least several months before the new sizes are sold on a national scale," Roden said.

The reason more cities don't now have them is because certain plant equipment has to be converted to handle the new packages. In some cases, this is a relatively simple change, in others it is a major job.

"Many plants have to install completely new machinery, as in our case," he said.

A shift in the public's consuming and buying habits has brought about the new bottles.

"Only 10 years ago," Roden said, "Cokes were sold in drug stores, luncheonettes, ball parks, offices and factories."

"Today all that has changed. Now people are drinking more soft drinks at home than anywhere else. And the trend is growing."

Take-home sales, for example, have increased every year since 1948. Five years ago, 40 per cent of the soft drinks were consumed at home. Now it's over 50 per cent.

A second reason for introducing the new packages, Roden said, is the trend toward suburban shopping, particularly in large

food stores.

"Today," he reported "more people are buying their groceries one day a week."

"With large bottles require less storage space than the same quantity in smaller bottles."

The emphasis on food store buying is shown by the fact that soft drink sales in these stores have increased 500 per cent since 1938.

Three-fourths of all take-home sales today are made in food stores.

Roden pointed out the introduction of the king-size and family-size bottles—still of the traditional "pinch-waist" shape—doesn't mean Coca-Cola intends to neglect the standard 6½-oz. bottle, which traces back to 1915.

"We think there's a need for all three," he explained.

Roden said the new bottles will not be in all food and beverage stores this week. Complete distribution throughout the territory will take several more days.
