Return Of Segregation In Capital Recommended

NEGROES DELIBERATELY VIOLATE BIRMINGHAM BUS SEGREGATION—Negroes in Birmingham, Ala., began riding city buses on a "first come, first serve" basis, in violation of City segregation laws. Police immediately began making arrests. The Rev. F. L. Shuttlesworth, a leader in the integration movement, is in the second seat, next to the window.

Segregation Fight Is Taken To Court

TALLAHASSEE, Fla., (AP) — Two parties to Florida's capital city bus segregation row were locked in litigation today after a rash of technical arrests and a nonviolent street encounter between Negroes and white persons.

Cities Transit, Inc., asked a federal judge yesterday to rule whether it is bound by city and state laws that require Negroes to sit in the rear of buses.

At the same time, the City of Tallahassee petitioned Circuit Court for an order directing Cities Transit to run its buses on a segregated seating basis, or forfeit its franchise.

Busees continued running—under protection of a federal court temporary injunction against interference — despite municipal orders to the contrary and token arrests of bus line personnel.

The City Commission suspended Cities Transit's franchise at midnight Wednesday and when Thursday runs started, Manager Charles L. Carter of the bus company and nine drivers were arrested.

Bond of $100 was posted by each on charges involving operation of unfranchised transportation. Service was allowed to proceed, but Police Chief Frank Stoutamire warned drivers they must enforce seating segregation.

The Negro-White encounter occurred at the transit company's main terminal. About 40 jeering white teen-agers and 200 white adult bystanders met a Negro group which arrived to carry out its announced intention of sitting in front seats of buses.

The Negro group drew back and did not board the buses.

The Rev. C. K. Steele, president of the Negro Inter-Civic Council which spearheads the seating integration drive, said the teen-agers' demonstration caused him and 15 council officers to abondon their project of sitting en masse in front seats.

"We are not seeking trouble," Steele said. "Those young people looked as though they might mean trouble. I felt we had nothing to gain by precipitating any disturbance."

Smaller groups of Negroes and Negro individuals were seen riding in front sections of buses during the late afternoon.

Bakersfield Man Hurt In Mishap Here

A Bakersfield, Calif., man was injured in pedestrian-pickup truck accident at the intersection of Avenue W and Twenty-fifth Street about 4 o'clock yesterday afternoon.

He is Don E. Dahlquist, who was apparently crossing the street from north to south after having parked his car on the north side of the street.

Police who investigated said that a 1955 Chevrolet pickup truck driven by John A. Leeder, 2505 Avenue N, was the vehicle involved.

Apparently Dahlquist walked into the side of the pickup near the front wheel, Leeder said.

He was knocked to the pavement.

A Bell ambulance took Dahlquist to Cogdell Memorial Hospital where he was kept over night and released this morning.

The attending physician said he had multiple contusions in the pelvic area and a contused kidney. He was not seriously injured, however.

Bank Sales Explained

GALVESTON (AP)—A new federal bank holding act caused the American National Insurance Co. of Galveston to sell the First National Banks in Brownsville and Orange, according to a spokesman for the Moody interests.

It was also understood that negotiations were under way for the sale of the First National Bank of Enid, Okla., but details were not available.

The act, passed by Congress this year, provides that no corporation can hold more than 25 per cent interest in two or more banks. The act applies to all insurance companies.

The American National Insurance Co. of Galveston is one of the Moody interests.

Orange industrialist E. R. Odom said yesterday he had acquired a controlling interest in the First National Bank of Orange from the Moody interests. The amount of stock bought by Odom and the price were not disclosed.

New Police Chief

FORT WORTH (AP) — Leo Box, former lieutenant and assistant captain in the Amarillo police department, will become Haltom City's police chief Jan. 1. He was police chief at Hereford before taking the job in the Fort Worth suburb.

WEATHER

SNYDER TEMPERATURES: Yesterday's high 65; low 29; with a 37 degree reading at 7:30 a.m. today.

TEXAS: Fair and mild through Saturday, gentle to moderate winds on coast.

Oil Company Talks Held

DALLAS (AP) — Negotiations are continuing, company officials indicated today, between American Liberty Oil Co. and American Petrofina Inc., which wishes to purchase American Liberty holdings.

American Petrofina, controlled by a Belgian firm, has been conducting talks for several months with American Liberty of Dallas, headed by Toddie L. Wynne Sr., and owned by the Wynne family.

Officials of the two firms have reported no details of the negotiations.

American Liberty is a completely integrated firm and has holdings worth several million dollars, including reserves of about 15 million barrels of oil and daily production of about 4,000.

The firm has a refinery at Mt. Pleasant with a capacity of about 16,000 barrels.

American Petrofina entered the United States oil business last summer, buying 27 per cent of the stock of Panhandle Oil Corp. of Dallas.

Birmingham Case Might Go To Court

BIRMINGHAM, Ala. (AP) — Birmingham's bus segregation law apparently is headed for the federal courts.

Negro leaders directing a challenge of the city's bus segregation ordinance called off demonstrations yesterday after 22 Negroes had been arrested.

They are charged with violating laws requiring separate seating for white persons and Negroes aboard the buses. All are free in bond of $100 each, pending trial in Recorder's Court Jan. 3.

Police Commissioner Robert E. Lindbergh said the city would "use every legal means at its disposal" to block a possible federal court injunction against the bus segregation ordinance.

Negro leaders yesterday called for an immediate end of their demonstrations after a two-hour meeting of the Alabama Christian Movement for Human Rights, headed by the Rev. F. L. Shuttlesworth.

The Negroes deliberately violated the bus segregation ordinance Wednesday and Thursday. Twenty-one Negroes were arrested the first day and one yesterday.

'Shoe Burglar' Hits Again In Longview

LONGVIEW (AP)—For the third time in less than a year, the "shoe burglar" scored again last night.

As usual, nothing was missing but women's shoes.

Not pairs—just three left ones, size 6½.

Clearing Of Suez Delayed

PORT SAID (AP)—Operations to clear the blocked Suez Canal at its southern entrance were delayed today. Despite announcements from United Nations and Egyptian authorities yesterday that work would begin this morning, an official of the Egypt's Suez Canal Authority said at Suez that no orders had been received to commence the work.

Representatives of U.S. Lt. Gen. Raymond A. Wheeler, U.N. chief of salvage operations, arrived at Suez and said they had instructions to start work immediately and would meet with Egyptian officials in an effort to straighten out the situation.

Two salvage vessels, the Dutch ship Tyne and the Danish craft Protector, were at Suez.

The Tyne's skipper, Capt. P.W. Dekoe said his ship and the Protector "are ready to work but are waiting for orders."

It appeared that when work at Suez did start it would be more of a symbolic nature than anything else.

Sunken ships, damaged bridges and other debris have blocked the 103-mile canal for almost two months. British and French salvage men cleared a channel from Port Said to El Cap, a third of the way down the canal, but since the British-French withdrawal the only work toward reopening the waterway has been Egyptian clearance of some mines and continued operations by three British and French ships in Port Said harbor.

Clearing operations scheduled to begin yesterday were reportedly delayed after Egyptian authorities announced they had to clear mines first.

There was no indication whether the Egyptians had changed their position and were ready to permit eight more British and French salvage ships assembled in Port Said to move south into the canal. British and French crews remained with their vessels as volunteers under U.N. authorities after Britain and France pulled the last of their invasion forces from the canal zone last Saturday.

The U.N. is seeking to build up a fleet of about 30 ships to get the canal cleared and traffic moving again as quickly as possible. It now has 18 ready for work under a Danish-Dutch combination. Danish, Dutch, Swedish, Belgian and German vessels are included in the fleet.

Israel, meanwhile, offered Egypt an unconditional exchange of all prisoners of war. The Israelis said they hold 5,580 Egyptian prisoners which they are willing to exchange for the only four Israelis known to be held by the Egyptians.

Israel is known to be anxious to return her Egyptian prisoners because of the heavy cost of their upkeep.

LATE BULLETIN

AUSTIN (AP) — The Railroad Commission set the January oil allowable today at 3,421,058 barrels daily, the same as the permissive oil flow in Texas in December.

Statewide production also remained unchanged at 16 days.

Announcement of the allowable had been delayed since the Dec. 19 statewide proration hearing while commissioners considered conflicting requests. Independents generally agreed on a 16-day producing pattern for January. Major oil companies asked for 17 or 18 days.

The commission said it wanted more time to study the requests particularly concerning details of transporting the oil from West Texas and other points to the Gulf Coast for shipment.

Report Made On Schools

WASHINGTON (AP) — A majority of a House investigating subcommittee today recommended that racial segregation be restored in the District of Columbia public schools.

The majority — comprised of four of the six members—said in a report that integration of white and Negro pupils has "seriously damaged" the schools here.

"The evidence, taken as a whole, points to a definite impairment of educational opportunities for members of both white and Negro races as a result of integration, with little prospect of remedy in the future," the majority report said.

"Therefore, we recommend that racially separate public schools be re-established for the education of white and Negro pupils in the District of Columbia, and that such schools be maintained on a completely separate and equal basis."

Signing the recommendation were Chairman James C. Davis (D-Ga) and Reps. John Bell Williams (D-Miss), Woodrow W. Jones (D-NC) and Joel T. Broyhill (R-Va).

The two other members of the subcommittee are Reps. A. L. Miller (R-Neb) and DeWitt S. Hyde (R-Md).

The recommendation which was released as an addition to the subcommittee's majority report on an inquiry into how integration has worked here. The Washington public schools were integrated with the beginning of the 1954-55 school term.

In the spring of 1954, the Supreme Court had ruled that race segregation in public schools was unconstitutional.

The recommendation by the House subcommittee majority for a return to racially separate schools did not deal with the legal questions this might pose in the light of the high court's ruling.

It was contained in a three-paragraph statement of "additional views" which was appended to the draft of a general report on the inquiry. The draft-report, which became public last night, said that higher costs and an "appalling" increase in disciplinary and educational problems had resulted from integration.

The draft-report recommended legislation to permit children to be transferred from one school to another in accordance with the desires of the parents.

Following is the text of the statement of additional views which came out for a return to racially separate schools:

"We believe that the recommendations contained in the subcommittee report, if enacted, would serve to improve public school education, in the District of Columbia.

"However, on the basis of information furnished the subcommittee during the hearings, we are of the opinion that the act of integrating the former Division I and Division II schools has seriously damaged the public school system in the District of Columbia. The evidence, taken as a whole, points to a definite impairment of educational opportunities for members of both Negro and white races as a result of integration, with little prospect of remedy in the future.

"Therefore, we recommend that racially separate public schools be re-established for the education of white and Negro pupils in the District of Columbia, and that such schools be maintained on a completely separate and equal basis."

LIFE IS GRAY

Mars May Have Bad Drought

NEW YORK (AP)—Life on Mars is colored gray, or has just turned that way. And the planet perhaps is having a bad drought, an astronomer reported today.

These are findings from excellent peeks at Mars when it paid its closest visit this summer in 32 years.

Dark areas which presumably are plant life have long been seen on Mars. They have appeared in vivid greens and blues to observers during the height of the Martian spring.

This year they seemed to be an almost uniform gray in color tests said Carl Sagan of the Yerkes and McDonald observatories of the University of Chicago.

Perhaps the greens and blues seen before were optical illusions, or perhaps a severe drought cut down the lavish color this year, Sagan said.

Gray could be important for Martian life, he added. Gray-colored plants would absorb more of the weaker sun rays reaching that more distant planet.

Sagan described observations made by G. P. Kuiper and others in a speech prepared for the American Assn. for the Advancement of Science.

It still seems that Mars has plant life, but it must be a tougher, more efficient form than that found on earth, Sagan said.

The main evidence for life on Mars is seasonal color changes in its dark areas, and changes in their extent. Also, these dark areas reappear after being covered by huge Martian dust storms suggesting vegetation growing back again later.

Last summer the dark areas looked gray when compared with a color chart illiminated by daylight-quality light. Occasionally there were traces of green-blue pastels.

Great dust storms seen this year plus the re-formation of Mars' south polar ice cap after it melted may both indicate a drought in the equatorial regions of Mars, Sagan said. The dark areas are localized in this mid-belt.

His Fate Uncertain

KIM, Colo. (AP)—An advertiser in the weekly Kim Country-Record varied the usual "lost, strayed or stolen" heading when he sought trace of a steer missing since August. He headed the ad: "Lost, strayed or eaten."

Roby Lineman Is Injured In Accident

A Roby man was very seriously injured late yesterday when he fell from a highline pole near Justiceburg.

He was Donald Allen Morton, 19, son of Mr. and Mrs. Allen Morton of Roby.

Morton is a lineman for Midwest Electric Cooperative. He was taken by Bell ambulance to Battenfield-Jones Hospital, where his condition was still listed as very serious late this morning. Morton suffered severe spinal injuries in the fall. A Lubbock neuro-surgeon was here last night to aid local physicians.

Reports are that Morton had been working on the pole and was descending when he fell. He had just unhooked his safety belt, and his boot spikes slipped on the new, slick pole.

Morton's fall was estimated at about 32 feet.

The accident occurred at about 5 p.m. yesterday three miles west of Fullerville and one and one-half miles off U. S. Highway 84.

Juanita DeLaCruz Dies Here Today

Mrs. Juanita DeLaCruz, who lived on the Lubbock Highway died this morning at 2:20 a.m. in the Battenfield-Jones Hospital.

Mrs. DeLaCruz was born on Feb. 14, 1927 in Snyder, and was 29 years 10 months and 13 days of age at the time of her death.

Services will be held Sunday at 2 p.m. in the Templo Baptista Church, with the Rev. E. P. Gonzales officiating. Burial will be in the Snyder Cementery under the direction of Bolger Funeral Home.

Survivors include the husband Juan DeLaCruz; three daughters, Cecilia, Lula and Rose Marie; one step-daughter, Guadulupe; one step-son, Juan DeLaCruz Jr., and her mother, Mrs. Ben O'Balle of Snyder.

Highway Deaths Seem Inevitable

CHICAGO (AP)—Gas and oil and blood.

Those three vital fluids are associated with the operation of our automobiles these days.

They spilled on highways during the Christmas weekend, when 706 Americans were killed and an estimated 24,000 others were injured in thousands of traffic accidents.

The National Safety Council now predicts 490 fatalities during the New Year celebration. That would be a record for that holiday weekend. The Christmas total was an all-time high for any holiday period.

To a newsman who has been counting the dead, in season, for 15 years, the most disturbing thing about it is this: The abiding feeling that bumper harvests of bodies are inevitable.

The experts make the forecasts. And, holiday after holiday, the victims fulfill them.

J. O. Musick, general manager of the Texas Safety Assn., made this comment on the holiday season's huge toll:

"If a man from outer space happened to pick up one of our newspapers Wednesday, he might conclude that the approved way of celebrating the coming of a new year in the United States is with sacrificial highway suicide."

Texas had 43 motor vehicle fatalities during the Christmas period. It ranked third, behind Illinois with 56 and California with 73.

A veteran police officer, Bernard R. Caldwell, California's highway patrol commissioner, described his state's yuletide carnage as "the most useless, extravagant dissipation of life I've ever seen."

More Americans perished on the streets and roads during the Christmas holiday than in many major disasters, such as the San Francico earthquake and fire, with 452 dead; the 1937 Ohio-Mississippi River floods, with 360; the Texas City explosions, with 512.

Why the heavy toll? Officials suggested many reasons, but the one cited most often was speed.

The State Division of Traffic Safety found that the most common of several causes in Illinois was driving too fast for road conditions. Gov. William G. Stratton's office summed it up as: "Too much horsepower, too much bad weather, too much speed."

Brush Fire Controlled

LOS ANGELES (AP) — A brush fire, spotted in predawn hours by comedienne Imogene Coca, broke out in the exclusive Bel Air residential district today but was controlled after burning 40 acres.

Miss Coca said she was awakened by the passing of a speeding auto and when she got up to investigate a roaring sound saw the blaze crackling through underbrush.

Fourteen fire companies extinguished the fire, located near Stone Canyon. It caused no damage to structures. Residents in the area include Greer Garson, Eva Marie Saint, Walter Wanger and Joan Bennett.

The fire was not far from the scene of a 16-acre blaze Dec. 16 which threatened the home of actress Maureen O'Hara.

Santa Is Really Good To Atlanta Prisoners

ATLANTA (AP)—The Rev. Bill Allison, chaplain for the Fulton County Jail, gave all the prisoners a Christmas parcel containing a Bible, a book of devotionals, fruit, a pair of socks and a ball-point pen.

But Santa had to go into reverse. All the pens were taken up after a routine "shakedown" on Christmas night disclosed that one enterprising inmate had removed the cartridge from the pen and devised a near-perfect gadget for picking handcuff locks.

Infantry And Armored Units Will Be Modernized In U.S.

SAN FRANCISCO (AP) — Infantry divisions made up of five combat units and geared to fight atomic as well as conventional warfare, soon will replace the bulkier, three-regiment divisions.

Armored divisions also are to be modernized, but the changes in them at this time will be comparatively minor, the Army announced yesterday in Washington and at 6th Army headquarters here.

A special combat development and research center at Ft. Ord, Calif., has been taking the "bugs" out of the new basic combat unit around which the streamlined divisions will be created.

Field tests have shown that the unit best suited for modern warfare is "larger than the old battalion and smaller than the regiment."

Just how many men it will have was not disclosed.

The reorganized infantry divisions will be characterized by increased firepower, greater mobility and the capability of wide dispersal to survive under atomic attack.

The new division will have 3-700 fewer men.

A whole new group of weapons is contemplated.

The Army has announced a new 7.62 m.m. machine gun, which it describes as "a lightweight, general purpose gun developed to replace all three of the present .30-caliber machine guns. It can be fired from shoulder, hip, bipod or an aluminum tripod mount." The 7.26 bullet is just a fraction smaller than .30 caliber.

There is a new rifle on which tests have been completed which fires the NATO ammunition and embodies certain improvemnts.

The infantry will have a new guided missile known as the "Dart," transported by light truck and described as "a simple but effective antitank missile . . . with a high probability that a single hit would destroy a heavily armored tank."

Improved artillery, mortars, submachineguns, helicopters and the addition of Honest John and other type missiles will, the Army believes, make the smaller division much harder hitting.

License Hike, Tax Protested Sharply

AUSTIN (AP)—Charges of "unjust" were fired at the Texas Water Resources Committee today for its proposal to hike hunting and fishing licenses and slap a tax on motors and boats.

"Never has there been a more unfair or unjust proposal prepared for submission to the Legislature," said Bob Taylor, representing the Bay Shore Rod, Reel and Gun Club of Baytown and surrounding area. Taylor said the club had 2,400 members.

"We are here to express violent opposition to the proposal of the committee that hunters and fishermen as a group have a separate tax to be used to benefit an entirely different group," said Taylor.

He told the committee his group would work for the election of those that supported "our position on these matters."

"You didn't help your position one bit with that remark," said Sen. George Parkhouse of Dallas, chairman of the committee. "That last paragraph nullifies anything you may say, now or at anytime in the future.

"I don't like to be threatened by you or anybody. As far as I'm concerned they can abolish the Fish and Game Department. I'm not going to be threatened by you or any other jerk."

"I don't appreciate appearing before a board and being called a jerk by the chairman," shot back Taylor, adding his group would continue to object "to being taxed as a separate group."

Later, Parkhouse said "I apologize for the 'jerk' " remark, and Taylor said "It is accepted."

Dr. B. W. Beadle, chairman of the Department of Chemistry of Southwest Research Institute in San Antonio, was the first witness.

"Texas evaporates more water from surface area than it uses for all purpoes," he said.

The institute is studying a reservoir evaporating control research program. Beadle said many chemicals being tested allowed retention of at least half the surface water.

He said through chemicals it would be possible to conserve water at one-half cent a 1,000 gallons in reservoirs. Beadle asked for a $93,000 budget for two years to make further studies.

Later while questioning Taylor, Sen. Ray Roberts of McKinney said "Some one has given you the wrong information."

Other groups representing sportsmen in Texas converged on the committee to add their voices of protest to the proposed boosts.

AREA OIL ROUNDUP

New Pay Found In East Scurry

American Trading & Production Corp. of Midland No. 1-B Elmer Howell, East Scurry County operation found a new pay—the Canyon sand—in the Hermleigh (Strawn) area.

A three hour drillstem test was run at 6,196-6,252 feet in the Canyon sand. Gas surfaced in 23 minutes. Recovery was 990 feet of oil and 30 feet of slightly oil cut drilling mud. There were no signs of water.

Flowing pressure was 465 pounds. Shutin bottom hole pressure in 30 minutes was 2,460 pounds. The project is making hole below 6,324 feet and is to go on down to a possible 7,000 feet to test the Strawn.

The nearest production from the Strwn to the No. 1-B Howell gets its petroleum from pay around 6,500 feet. There is no Canyon sand production in the region.

The well is five miles northeast of Hermleigh and 660 feet from north and east lines of the northwest quarter of section 62, block 3, H&TC survey.

Oxford & Stasney of Albany spotted location for a northwest offset to its No. 1-B Alderman, recent 1-mile south extension to the Group 4,000 field of South Nolan County.

It is 467 feet from south and west lines of the northeast quarter of section 64, block 3-A, H&TC survey, six miles northwest of Blackwell. It is slated for a 4,500-foot bottom.

Five and one-half-inch casing has been set for completion attempt in Good Earth Oil & Gas of Dallas No. 1 W. C. Keener, Canyon discovery prospect six miles northwest of Roby in Central Fisher County.

Completion will be attempted in the Canyon at approximately 5,240-70 feet.

Location is 660 feet from sough and east lines of section 27, block 2, H&TC survey.

Forest Oil Corp. No. 1 Minear, North Howard County wildcat has set 5½ inch casing at 6,511 feet to test the Spraberry through perforations.

The operation is 13 miles northeast of Big Spring and 2,310 feet from north and east lines of section 24, block 31, T-2-N, T&P survey.

It surfaced gas and recovered 2,310 feet of 34 gravity oil, 40 feet of oil and gas cut drilling mud and 90 feet of oil in a two hour test at 6,248-6,352 feet.

After that test the well was deepened to 8,190 feet in the Pennsylvanian reef. That formation yielded only salt water.

Skies Clear Over Texas

By The Associated Press

A large high pressure system remained camped over Texas Friday, keeping winter's storms at bay.

Skies were clear and the Weather Bureau said they would remain that way. Predawn temperatures ranged from 54 degrees at Brownsville to 19 at Salt Flat.

Thursday's highs ran from 74 at Alice to 50 at Salt Flat.

It was wet and chilly today in most northern areas from the Midwest into New England. Generally fair weather prevailed in most other parts of the country.

The cold air which moved into the northern Great Lakes region yesterday extended into the northeastern Ohio Valley during the night, bringing snow flurries in the northern Great Lakes. Temperatures were in the teens and 20s.

Snow or snow flurries continued during the night from Pennsylvania to New England. South of the cold air, snow and rain fell in the middle Mississippi Valley, extending into the northern half of Illinois.

5 Killed In Plane Crash

HANNO, Japan (AP)—A U.S. Air Force weather reconnaissance plane carrying 11 men hurtled into a densely timbered forest slope near here tonight. Police said five persons were killed.

Bodies of four crewmen were dragged from the flaming wreckage. A Japanese farmer was fatally crushed by a tree felled in the crash, police said.

Two other crewmen were injured. Fate of the other five was not immediately known. Names were not available.

The Air Force identified the craft as from the 56th Weather Reconnaissance Squadron stationed at Yokota, 15 miles south of the crash scene.

Father Of Snyder Woman Dies Today

Oliver Dorman, father of Mrs. Paul Keaton, 3733 Dalton Drive, died at 7:30 a.m. today in a hospital in Jacksonville, friends here were advised.

Funeral services will be held at 2 p.m. Saturday in Centerville.

Mr. Dorman had been in ill health for some time, and Mr. and Mrs. Keaton had been called to his bedside several days ago.

Nehru Is Back Home

BOMBAY (AP) — Prime Minister Nehru returned to India today from his visit to the United States and talks with President Eisenhower. He stopped also in Canada, Britain, West Germany and Lebanon.

Woman Three Minutes Away From Death

NEW YORK (AP)—Seventeen days ago, Mrs. Marion Ingalls' heart stopped beating momentarily and she was three minutes away from almost certain death. Today she was home, apparently in good health.

The drama for Mrs. Ingalls, wife of a Staten Island banker, began the morning of Dec. 10 in a Montefiore hospital room.

Dr. Stephen Lobell, 26-year-old interne, said he was making a routine examination when, Mrs. Ingalls "gasped suddenly, collapsed and became rigid."

Finding no heartbeat, Dr. Lobell realized the woman would almost certainly die in three minutes because of a lack of fresh blood.

Dr. Aaron Schwartz, 28, another interne, happened by. He told Lobell to breathe into the patient's mouth. Schwartz also called quickly for a scalpel, made an incision into the woman's chest, reached between her ribs and began squeezing the heart. For 20 minutes the two doctors kept at their task. Finally, the patient's heart began beating normally.

Details of the operation, fairly common in operating rooms, were disclosed by Dr. Elliott Hurwitt, the hospital's chief surgeon.

Mrs. Ingalls, who had undergone heart surgery in 1952, returned to the hospital Dec. 5 for a checkup. She is 55 years old.

She Thought It Was Toy

KERRVILLE (AP)—Judge Virgil Storms ruled accidental death in the shooting yesterday of little Nancy Barton who would have been one year old Sunday.

The shooting occurred when a woman snapped a pistol she thought was a toy.

Investigating officers, Texas Ranger L. H. Purvis and patrolman James Hough, said Mrs. Kenneth Taylor reported she picked up what she thought was a toy pistol and jokingly snapped it at the child.

The gun fired.

The victim was the daughter of Mr. and Mrs. Douglas Barton of Kerrville. Mrs. Eddie Taylor the victim's aunt and Mrs. Kenneth Taylor were staying with the child in the absence of the parents.

The accident occurred at Center Point some 10 miles east of Kerrville.

Suspended Fines

BROWNSVILLE (AP)—Suspended $50 fines were handed four teenage boys yesterday after they were convicted of Christmas Eve violations of a city ordinance against firecrackers.

Local Band Prepares For Dallas Trip

The Snyder High School band and several faculty and parent sponsors will leave at 10 a.m. tomorrow for Dallas, where the band is to participate New Years Day in activities of the Cotton Bowl.

The band is one of five outstanding high school bands in Texas chosen to play prior to the Texas Christian-Syracuse game at the Cotton Bowl. The other bands are those from Amarillo High, Port Arthur, Marlin, and Pleasanton.

Melvin Montgomery, school instrumental music director, Tim Dennis, and Phil Cherry, have been rehearsing the Snyder High School band during the past several days for its part of the show. It will include a 20-minute concert before the game and participation with the other bands in several formations on the playing field.

Montgomery said it is likely a part of the pre-game show will be televised on NBC. For the benefit of those who will be watching, he said, the Snyder band will be on the left-hand side of all formations as the viewer see them on the TV screen.

During their stay in Dallas, band members will be housed in dormitories on the Cotton Bowl grounds. Included in the group will be 102 students and 12 sponsors. Practice sessions for bands will be held Sunday and Monday.

The band will see Cinerama in Dallas Monday. On Monday night, a New Years Eve party will be held for the Snyder band at the Oak Cliff YMCA. The Cotton Bowl committee will honor the five bands with a barbecue on the day of the game.

TODAY'S MARKETS

FORT WORTH (AP)—Hogs and choice to 25 lower; choice 18.00.

Sheep 1,100; steady; good and choice lambs 16.00-18.50; stock lambs 14.00-17.00; ewes 5.50-7.00.

Cattle 300; calves 100; steady; good and choice steers 16.00-20.00; medium and lower 10.00-15.00; fat cows 10.00-12.00; and choice calves 15.00-18.00.

AUSTIN (AP)—Poultry steady to firm. East Texas 2½-3¼ lb 17-18. South Texas 16-mostly 17. Waco 17½. Corsicana plant 18.

NEW YORK (AP)—Cotton was unchanged to 35 cents a bale higher at noon today. March 34.00, May 33.90, July 33.76.

5 Perish In House Fire

ST. MARYS, W. Va. (AP)—Five persons perished today in a fire which destroyed their rural home near here.

The sheriff's office said the fire was caused by exploding kerosene being used to ignite a wood stove.

Dead were Mr. and Mrs. Laymen Speece, their daughter and two grandchildren, the office reported.

The house, a one-room frame dwelling, was seven miles north of this Ohio River town.

It was not clear immediately how many of the family survived.

Ambassador For Britain Is Named

WASHINGTON (AP)—Millionaire John Hay (Jock) Whitney has arranged a monthlong series of briefings before taking on his assignment as new American ambassador to Great Britain.

The 52-year-old sportsman-financier, who was named yesterday by President Eisenhower for the London post, will put aside his varied New York civic and business activities early next month to begin his training.

Friends said Whitney has already made it clear he intends to be a "working ambassador," dealing personally with major diplomatic chores instead of passing them to a big staff of career employes.

Whitney has asked for a round of unusually long and detailed State Department briefing sessions on the problems that have jarred British-American relations, especially since the Middle East crisis.

About mid-February he will leave for London, accompanied by his attractive wife, the former Betsey Cushing Roosevelt, ready to stay on as long as the White House wants him.

The selection of Whitney to replace Ambassador Winthrop W. Aldrich, which had been widely forecast, was formally announced by the White House late yesterday.

An exchange of letters showed that Eisenhower accepted with "the utmost reluctance" the resignation of the 71-year-old Aldrich, U. S. envoy at London for the last four years. Aldrich said that for personal reasons he is anxious to return to the United States. He is a former chairman of the Chase National Bank.

The Whitney appointment is subject to confirmation by the Senate.

Whitney's main initial task will be to help direct U. S. moves to bolster Britain's present shaky financial footing while at the same time seeking to rebuild the traditionally intimate British-American partnership that existed before the Suez blowup.

One of his first major acts may be to help lay the groundwork for an expected Big Three conference bringing together Eisenhower, British Prime Minister Eden and French Premier Mollet.

Although Whitney has won many of his headlines as a polo player, movie producer, race horse owner and aviation enthusiast, he also has a reputation as a "serious millionaire."

For nearly 20 years he has been financing projects such as the J. H. Whitney & Co., which helps develop growth industries, promoting philanthropies to assist in education and better citizenship and backing studies of successful labor-management relations.

HOSPITAL NOTES

The following admissions and dismissals at the two Snyder hospitals are only those whose names have been released by the hospitals.

BATTENFIELD-JONES

ADMISSIONS: Miss Paula Borum, Clairemont Route; Mrs. Glenn Stansell, Clairemont Route; Miss Mary Beth McCloskey, Box 676; and Donald Morton, Route 1, Roby.

BIRTHS

Mr. and Mrs. James Lund, 2703 Twenty-fifth are the parents of a six pound, nine ounce daughter born at 4:09 p.m. Thursday in the Cogdell Memorial Hospital.

Blaze Fatal To 6 Persons

IRONWOOD, Mich. (AP)—A young mother and five children died today in a fire that destroyed their seven-room farm home.

The victims were 31-year-old Mrs. Ina Heileg, wife of an iron ore miner, and their four children, Dennis, 10; Sandra, 9, Linda, 7, and Keith, 2; and James Gallo, 13, a nephew.

The blaze broke out shortly after the father, William Heileg, 32, had left for work at the Stephenson mine in Bessemer, 10 miles away.

Neighbors saw flames and smoke pouring from the home at 7:30 a.m. They rushed to the house but were unable to enter. Four hours later the ruins were still too hot to permit firemen to remove the bodies.

Bond Is Set Here On Assault Charge

A charge of assault was filed yesterday afternoon in court against Robert Durst, who lives in south Snyder.

Durst was charged with assaulting J. W. Pruett. His bond was set at $100, and late this morning he made bond. Surety was Roy Taylor.

Car Strikes Bridge

GREENVILLE, Miss. (AP) — Mr. and Mrs. A. G. Shaw of Normangee, Tex., were killed when their car smashed into a bridge yesterday.

ANNOUNCE BETROTHAL—Mr. and Mrs. H. E. Grant of Rotan, N.M. announce the engagement and forthcoming marriage of their daughter, Glenda, to Jim White, son of Mr. and Mrs. J. C. Aiken 206 Thirty-fifth Street, Snyder. The wedding will take place Jan. 19 in the First Methodist Church in Clovis, N.M. with the church minister, Dr. L. B. Trone, officiating. Miss Grant is employed at a TV station in Clovis, and Mr. White is a senior student at Eastern New Mexico University.

WHAT'S GOING ON

Christmas guests in the home of MR. AND MRS. GENE WILLIAMS, 2103 Fortieth Street, were her parents and family, MR. AND MRS. DAWSON BROWN, and children, MELBA, JESSE, FOY, LINDA AND JANICE of Abilene.

• • •

MR. AND MRS. JOHN RAHN of Phoenix, Ariz., are spending the holidays with her mother, MRS. G. W. RALSTON, 1212 Twenty-ninth Street.

• • •

Visiting in the home of MRS. MOLLIE PINKERTON, 707 Twenty-eighth Street over the holidays were her brother, BARTON B. CHURCH of Hollywood, Cal., and her daughter and family, MR. AND MRS. H. V. WOODARD, RITA GAY AND RHONDA SUE of Haskell.

• • •

Pvt. DON HEAD stationed at Fort Gordon, Augusta Ga., is in Snyder spending a two week leave with his wife and parents, MR. AND MRS. AUDRY HEAD, Arah Route. Mrs. Head will accompany Mr. Head back to Fort Gordon where they will make their home.

Sandwiches On Parade

It's sandwich time—when slices of meat and fowl from the holiday ham or turkey are on parade.

These festive occasions call for the same simple spread, be it family supper, company buffet, or New Year's night snacks. Platters of mets, lettuce, relishes, bread and butter are set on the table. And of course, guests make their own sandwiches.

New this year for the sandwich table is a cheese bread, even-textured and delicious, yet made with ease from biscuit mix. The cheesy flavor is baked right into the bread; you'll find cheese bread topped with turkey gives a sandwich deluxe.

CHEESE BREAD

1 egg beaten
1½ cups milk
3¾ cups bisquick
¾ cup grated sharp cheese

Blend all together. Beat 30 seconds, until well blended. Pour into well greased waxed paperline 9x5x2½ loaf pan. Bake 1 hour at 350 degrees. When serving cold, slice thin.

Dance is Held At Sunray Hall

A Christmas dance was held the night of Dec. 22, at the Sunray recreation hall. Hosts for the evening were, Mr. and Mrs. Royce D. Pierce and Mr. and Mrs. Tommy Ivison.

A film of the 1954 Snyder High School football team was shown, of which most attending men were a member of. Dancing and cards were enjoyed between the films.

Refreshments were served to: Mr. and Mrs. Gerald Crawford, Mr. and Mrs. Robert Posey, Mr. and Mrs. Homer Stokes, Mr. and Mrs. Jimmy Rodgers, Mr. and Mrs. Douglas James, Mr. and Mrs. Jackie Grimmitt, Mr. and Mrs. Kenneth Williams, Mr. and Mrs. Johnny Roberts, Mr. and Mrs. Henry Maxwell, Mr. and Mrs. Jerry Smith, Reagan White, Baleria Eubanks, Hal Holladay, Robert Hagins, John Mengwasser and Jan Pierce.

Color Magic Can Improve Shape, Size

Houses, like women, come in many shapes and sizes. That's why color is so important to the appearance of both, says Beatrice West, a professional color stylist.

"Just as the colors a woman wears make her appear slimmer or broader, taller or shorter," Miss West points out, "the colors 'worn' by a house can make it higher or lower, wider or narrower, smaller or larger."

The magic of color not only changes shapes and sizes, the color stylist says, but can work "personality changes" in women and houses. The right colors can make a woman look fresh and young, gay and exciting, or cool and crisp. Similarly, correct colors can change a grim, foreboding-looking house into a warm, inviting home.

How does color perform these "near miracles"? By playing tricks on the eye, says Miss West. Light, bright shades appear to take up more space because they seem to advance on the eye or to "swell." Cool, deep shades, on the other hand, seem to recede and make objects look smaller.

"This is the reason," says Miss West, "that stout women rarely wear light colors. They know that darker shades make them appear slimmer."

Color stylists use these same "tricks" to improve the shapes of houses, says Miss West. Small homes look larger when they are painted in light colors and roofed with asphalt shingles in one of the many light, pastel shades available. This "highlights" the roof, increasing the illusion of height and at the same time making the house more colorful.

Tall, boxy houses can be made to appear lower and longer by painting the siding in muted tones and emphasizing horizontal lines with lighter, harmonizing colors on window boxes, horizontal trim on windows and doors. Several feet are "cut" from the height of the house with a roof of asphalt shingles in a rich, deep tone which tends to keep the gaze downward.

Window Washing

Window washing now can be made one of the easiest clean-up jobs in the house. This is made possible by new designs available in double-hung and sliding windows of ponderosa pine, which can be lifted right out of the frame, cleaned, and replaced in minutes. The outside of a modern wood window can be washed inside the house.

WOMEN

Gardeners Here To Plan For Their Spring Gardens Soon

With 1956 about to fade into 1957 it will not be long before local gardeners will be planting their spring gardens. The most valuable suggestion during the winter months for gardeners is looking ahead to the coming summer, and plan your program of activities and trips. Tailor your gardening plans to fit. If you do this you will end up with a balanced year-around program.

For example, there's no sense in having a vegetable reach its peak of production while you're away for a month's vacation. And if you plan to spend a number of summer weekends away from home, you should not plant tremendous garden areas that will be neglected. A well-groomed lawn, with well-kept trees and shrubs, is far more handsome than an array of neglected flowers.

We offer the following as a guide for January;

Start your garden diary, for recording locations, plantings and results.

Send for new seed catalogues and renew garden-magazine subscriptions.

Order seeds, bulbs and plant materials. Be sure to include labels and supplies.

Plan all new garden areas, using graph paper.

Inspect all tools and equipment. If you need replacement parts, order them.

Take equipment to repair shop for service, if necessary.

Make sure that all equipment was properly cleaned and protected against corrosion. Metal surfaces should be covered with rust-preventive grease.

Paint the ferrules of your hand tools a brilliant color so that you can find them easily if you mislay them in the garden next spring.

If handles have nicks, sand them smooth. Apply a protective coat of furniture wax.

Check to be sure that all sprayers and dusters are properly stored.

Bring indoors a few potted bulbs (which have been prerooted in a cold frame). Keep them in cool semi-lighted place for a week, then gradually move them into sunlight. Keep them properly watered.

Late-blooming rock-garden seeds may be potted now and placed out in a cold frame.

Label Offers Key In Quality Buying

Often the only way a purchaser can judge the quality of a product is by the information on the label bears. This is true in clothing, food, and appliances and now is being recognized by manufacturers of home-building materials.

For example, the American Wood Window Institute's seal of approval now is affixed to many top-quality double-hung, casement awning, and fixed windows of ponderosa pine.

This seal guarantees that the window meets the specifications of the U. S. Department of Commerce, as published in the department's booklets on commercial standards.

Wool Coat In Fashion For House All Summer

As much as you love your fur coat you wouldn't think of wearing it on a hot summer day. But a house to be most confortable needs a "fur coat" the year around.

In this case the "fur is mineral wool insulation—a hidden asset and very efficient. It works the same way a mink coat does in winter keeping heat inside. In summer the mineral wool acts as a barrier to heat from the outside keeping the house cooler.

Use For Sandpaper

Loose knobs on cabinet and dresser drawers can be tighened with sandpaper. Make a small washer from a piece of fine sandpaper and thread is onto the screw with the rough side next to he drawer. Tighten the screw and it will hold.

Remodeling May Answer Your Needs

If you and your family are in the "wondering" stage about a house—wondering whether to buy a new one or keep the old one—remodeling may be the answer.

There are many advantages to remodeling an old home, but the two principal ones that are important to almost every family are:

1. Economy. Remodeling often can give an old home most of the modern living features of a new house at a cost that's frequently less than the cost of buying or building.

2. Friends and neighborhood. Modernizing an old house lets a family stay among the friends and don't have to be introduced to a strange new school.

A good example of what can be done to bring an old house up to date both inside and out is shown in the illustrations.

The remodeling contractor removed the useless front porch, stripped off the "gingerbread" trim and took down the attic dormers. The house was widened to give it a longer, streamlined look, and a new roof of long-lasting asphalt shingles was applied. A deep tone was chosen for the roof to make the house look lower.

New double-hung windows of ponderosa pine were installed throughout to give the house more interior light. These Colonial-style, many-paned windows were matched with pine French doors opening onto a new porch built at the rear of the house.

One remodeling process which does not show in the finished product but which has a marked effect on comfort and economy is mineral wool insulation properly installed in exterior walls and attic floors. The mineral wool can reduce heating costs by as much as 40 percent. It makes a house cooler in summer too.

Colorful Bathroom

Colorful bathroom fixtures are Practical Builder Magazine reports 30 percent of the new houses put up last year had colored fixtures. Custom-built homes had a higher percentage. Pink blue and green predominate.

Wives Are Against Flat-Topped Houses

One of the demands for homes of the future made by delegates to the Women's Congress on Housing in Washington, D. C., was for an end to flat-topped house Instead, the women said, they want pitched roofs. Among the reasons listed by the delegates were that a pitched roof offers attic space for either storage or expansion, makes a house more distinctive in appearance, and can be covered with asphalt shingles for more color and long-lasting protection.

FOR GOOD EATING

Snappy, colorful, autumn days require foods with crisp textures and sharp flavors. Such a pudding is Apricot Bran Crisp Dessert — a combination of crisp, crunchy, sugared whole bran cereal, tart apricots, and instant vanilla pudding. Busy homemakers will like this quick and easy way to make a scrumptious, last-minute dessert. It's inexpensive and so easily prepared.

If preferable the sugared whole bran cereal and the pudding mixture can be prepared earlier in the day and then combined just before serving time. If combined too far ahead, the maximum crispness of the sugared bran will not be retained.

SUGARED WHOLE BRAN

½ cup brown sugar
¼ cup butter or margarine
2 cups whole bran cereal

Melt sugar and butter in large skillet over low heat. A whole bran. Mix carefully with fork until bran is evenly sugar coated. Spread cereal on waxed paper to cool. Separate the cereal particles. Yield: 2½ cups.

APRICOT BRAN CRISP

1 package instant pudding mix
2 cups cold milk
1 cup drained apricots, canned or cooked, dried
2 cups sugared whole bran cereal

Prepare pudding mix with milk as directed on package. Add fruit. Mix. Chill 5 minutes. Fill sherbet glasses by alternating 3 layers of sugared whole bran cereal with 2 of pudding-apricot mixture. Start and end with layer of sugared whole bran cereal. Yield: 6 large servings.

A NEW YEAR!

WITH FAITH. "Now faith is the substance of things hoped for, the evidence of things not seen." (Heb.11:1). Faith is the power that enables man to bridge the gap between the seen and the unseen—to see the unseen. Anyone can count the seed in an apple but it is a man of faith who can count the apples in a seed! Faith is that power that enables man to envision the reality of the ideal. The ideal is presented to man in the Bible; and ". . . faith "But without faith it is impossible to please . . . God . . ." (Heb. cometh by hearing, and hearing by the word of God." (Rom.10:17). 11:6).

WITH HOPE. "Hope is desire accompanied with expectation . . ." (Webster). The New Year, 1957, can be the very best year for every one if he be willing to become a Christian and to remain a faithful Christian. The Holy Spirit tells believing men to, ". . . Repent, and be baptized every one of you in the name of Jesus Christ for the remission of sins . . ." (Acts 2:38). Every person who complies with this command enjoys the blessings promised. He is a Christian but he must remain faithful to Christ, "For we are saved by hope: but hope that is seen is not hope; for what a man seeth, why doth he yet hope for? But if we hope for that we see not, then do we with patience wait for it." (Rom. 8:24,25).

WITH LOVE. Love is the most unused force at man's disposal! Because God loved, He gave His only Son! Because the Son loved, He gave His life! When man loves, he gives himself! Love is the highest motive to move man to obey God (Jno.14:15). It is easy for man to love those who love him, but in order for man to be like his Father, he must also love his enemies (Matt.5:44-48 cf. Rom.12:19-21; 13:10). Love is to permeate the three-fold relationship which every man bears—to God, to neighbor, and to self (Matt.22:37-40). Anyone who lives with faith, hope, and love dominating his life can realize 1957 as the very best year of his life! This can be so in spite of the turmoil and unrest around him! "But now abideth faith, hope, love . . ." (1Cor.13:13 ASV).

SEARS ROEBUCK AND CO.

Use your Christmas gift money at our Catalog Sales Office

OUR BEST KENMORE 2-SPEED AUTOMATIC WASHER CUT $40!

Regularly $249.95!

209.95 cash — $10 down, $9.50 month

26XM6580—Shpg. wt. 247 lbs.

- Choice of 3 different water levels!
- Choice of 3 different water temperatures!

Hard to believe . . . but true! You pocket a whopping $40 saving on this brand new, big 9-lb. size Kenmore! The washday wonder that does denims or dainties—safely, thoroughly, and automatically! All you do is set the dial for "regular" or "modern fabric" washing. Kenmore does the rest—and your clothes come out sparkling clean and sun-fresh!

KENMORE 36-INCH DOUBLE-OVEN GAS RANGE REDUCED $30!

$194.95 cash — $5 down, $9.50 mo.

22XM1707—Wt. 259 lbs. Reg. $224.95!

Big 20-in. Visi-Bake oven—you see what's cooking! A 2nd electric oven that converts to rotisserie-broiler — puts real flavor in meats! Save now!

CUT $20! COMPLETELY AUTOMATIC 12.1 CU. FT. COLDSPOT REFRIGERATOR

$229.95 cash — $10 down, $10.50 mo.

46XM6265—Wt. 344 lbs. Reg. $249.95!

Forget defrosting! No buttons to push, no pans to empty. Defrosts as needed—so fast frozen foods won't thaw! Deep door with Dairy-Mart for eggs, butter.

OUR BEST 15 CU. FT. COLDSPOT FREEZER AT $35 SAVING!

$284.95 cash — $10 down, $13.50 mo.

47XM61115—Wt. 430 lbs. Reg. $319.95!

Stores over ¼-ton (525 lbs.)! Quick - freezing compartment speeds freezing of fresh foods. Ready-Rack in lid for juices, soups—plus bulky-item rack.

Bible Thought

The righteous considereth the cause of the poor; but the wicked regardeth not to know it. Proverbs 29:7.

EDITORIALS

Biggest Story Of '56

Newspaper and radio news editors, voting in the annual Associated Press poll to determine the 10 biggest stories of 1956, had no difficulty at all agreeing on the No. 1 item—the crisis in the Middle East climaxed by Egypt's seizure of the Suez Canal and the subsequent Anglo-French-Israeli invasion of the Sinai Desert and the canal zone.

Then, in the order named ,they settled on the remaining nine big stories of the year: The election, revolt in Hungary, continuing desegregation and its problems, sinking of the Andrea Doria, collision of two airliners over the Grand Canyon, the denunciation of the dead Stalin, President Eisenhower's ileitis operation, riots and birth of independent communism in Poland, and the Marine deaths and court martial trail of Sgt. Matthew McKeon.

The magnitude of the Middle East crisis cannot be gainsaid. It is not merely a story of 1956, but it has ramifications that will be felt round the world for years, perhaps for decades and centuries to come.

It afforded Russia the opportunity to do something she has tried to do for centuries under the czars as under the Communist dictatorship—to gain a toe-hold in the Middle East.

It put an almost intolerable strain on the Western alliance of which the U.S., Great Britain and France are the principal ingredients, and this fission could well develop into outright enmity and opposition.

It placed the United States in the extraordinary, and until it actually happened, the unimaginable position of siding with the Afro-Asiatic groups of nations in a matter that involved the present economic wellbeing and perhaps the very existence of the West. That group includes Soviet Russia and indirectly Soviet China.

This breach of Western solidarity will not be easy to repair. It took place in the sight of all mankind, and never again will the Afro-Asiatic world have respect and—let us say it, fear—for the West that it once had.

The big unanswered question yet to be resolved is whether this rift in the Western Alliance can ever be repaired to the extent necessary for the solid economic, military and spiritual survival of the West.

The ability of Western civilization to survive under the rapidly growing threat of Communist extinction was touch and go at best. The debacle over the Suez Canal has dimmed that hope to an alarming extent.

With their unerring judgment on the relative value of news, the AP editors put their finger squarely on the biggest story not only of 1956, but of all the post-war years, a story the reverberations of which will plague the world for generations.

Prospect For 1957

The veteran business analyst Roger W. Babson sees no start of World War III in 1957. He thinks this country faces a gradually increasing inflation, manufacturers will be confronted with higher costs for both men and materials, and all businesses will face stiffer competition, both from within and from without their own particular lines.

More advertising will be necessary in 1957, Babson says, if profits of manufcturers and retailers are to equal those of 1956. In other words, competition for the consumer dollar will be stiffer and more urgent, and advertising is a necessary concomitant of any successful struggle for competitive equality.

He predicts thousands of small firms will be wiped out in 1957, and one or two big corporations will face bankruptcy or re-organization.

But on the whole Brother Babson is not unduly pessimistic. Most competent observers see a let-up during 1957 though they differ as to the time its effects will be felt. Some say by early spring, some say mid-summer, some say not until the fall—and some say not at all.

The Moon Shines Bright

MERIDIAN, Miss. (AP)—Meridian firemen battling a home blaze had the help of the owner until, digging in the ruins, they discovered a moonshine whisky still.

The householder left quickly.

Odds And Ends Left From '56

About Common Colds, Christmas Cards Lipstick, Contract Bridge, Pecan Hulls

By HAL BOYLE

NEW YORK (AP)—Oddities found by a columnist during his year-end desk cleaning:

That women get twice as many colds as men, but how does this jibe with the fact that well-to-do people generally catch only half as many colds as the poor?

That if, during a holiday cocktail party, you kiss a pretty blonde who has a cold, the odds are 9 to 1 you won't catch her cold. What you'll catch from your wife, if she sees you, is another matter.

That farmers suffer more colds than suburbanites, cautious old people suffer fewer than the young folks. And, to wind up the whole subject, January is national Take Care of Your Cold month.

That Dr. J. Schultz, head of a cosmetics firm, predicts that by the year 2,000 women will wear makeup that will last indefinitely. And one of the popular lipstick colors will be light blue!

That Mrs. Donna Workman, a Chicago business executive, says self - supporting working girls make the best wives.

That Santa Claus ranks not first but seventh in popularity as an adornment on the two billion Christmas cards Americans exchange annually. By the time the bills roll in next month, Santa will be a candidate for the FBI's 10 most-wanted list.

That the camel is the most popular animal on Christmas cards, followed by reindeer, the donkey and the lamb. Do you send your pet dog or cat a greeting card on its birthday? The custom is growing.

That there is a growing shortage of skilled mechanics as well as engineers. In 1950 there were 73 cars to each mechanic, now the 82-1, by 1965 is expected to reach 90-1.

That Frederick Jones, the hair stylist who thought up the idea of tinting Kim Novak's locks a pale lavender, has now created an "Elvis Presley bob" for teen-age girl fans of the singer. Now they not only can listen to their idol—they can also look like him!

That contract bridge is now taught in at least 20 U.S. colleges and universities. With some 32 million players, it is ranked second only to canasta among card games. Then why is it everyone I know plays gin rummy? Am I moving in the wrong circles?

That pert and pretty Mary Yates has one of the most unusual odd jobs in television. She gets $125 for about 15 seconds of work each week. Her job: To sniff the smoke from a burning stogie and tell how nice cigars smell—and she hasn't coughed once.

That pecan shells are used in making airplanes. They are employed in the blast cleaning of metal parts where it is important to avoid surface damage.

LITERARY GUIDEPOST

THE AMISH YEAR, by Rollin C. Steinmetz and Charles S. Rice Rutgers.

"The Amish Year" is one of the best books about the Amish which this reviewer, an ardent pursuer of lore relating to that quaint, stern Pennsylvania Dutch sect, has ever read. It is authentic, interesting, informative.

Rice has been taking pictures of the Amish for 20 years. The informality and intimacy of his studies of the Amish at work and at play add immeasurably to the charm of this book. Steinmetz, city editor of the Lancaster (Pa.) Sunday News, has written an understanding, sympathetic and yet objective, text.

The format is distinctive. It takes the Amishman and his family through the year. The reader goes to a farm sale, to buy a suit of clothes, attends a funeral and a wedding, goes into the fields to plow and harvest, and celebrates holidays. Altogether an enchanting book.

Bob Price

THINGS MAPS DON'T TELL US. By Armin K. Lobeck. Macmillan.

This is a book with a game on every page - showing you how the Alpine system wraps itself around and across the Mediterranean, where Long Island comes from and how it's cousin to a couple of capes, how easy it was in an earlier age to throw a stone across the English Channel. This tells us not only where rivers and mountains and shorelines are, but why, and it's a lot of fun.

(Perhaps you're interested in travel books to go with this? I suggest "The Andes: Roof of America," with photos, by Claude Arthaud and Francois Hebert-Stevens (Vanguard); "Yugoslavia," by Suzanne Normand and Jean Acker, also with photos (Essential); and one already noted at length: "Venice Observed," by Mary McCarthy.)

W. G. Rogers

WASHINGTON LETTER

Chef For Presidents Gives Tips On Cooking

By ANNETTE DAVIS
(For Jane Eads)

WASHINGTON—Time, patience, interest, imagination—the ingredients for success in anything are necessary to be a good cook. So spoke Nicholas Marchitelli, who has made a living from his knowledge of the art of cooking since he was a young man in Italy.

"To me cooking is a religion and like a good follower, I devote myself to it," Marchitelli told me as we sat in his office in the huge kitchen of Washington's Mayflower Hotel. His tall hat denoted the rank of executive chef, a job he has held for 25 years.

Marchitelli comes from Villa Santa Maria, a suburb of Rome where 80 per cent of the population is in some phase of the hotel business. His father and three of his brothers also are chefs. After serving a five-year apprenticeship in which 18 hours was considered a "short day," he got his first paying job. He still can't get used to an eight-hour day and says: "I'm too old to change and too young to quit."

Marchitelli married a native Washingtonian and has two married daughters and one grandchild. He admits giving his wife "a few lessons in cooking" but most of the time he stays out of the kitchen at home.

He believes the trouble with most home cooks is that they don't take enough time for the job. He feels most foods taste better if they're cooked slowly. He says: "A slow boil is just as hot as a fast boil and the foods don't stick or burn." He also recommends roasting in a slow oven.

Another cooking tip I learned was to take a roast out of the refrigerator long enough in advance to let it get to room temperature before putting it into the oven. And, when a roast is removed from the oven it should be allowed "to set" for 10 minutes. That way it won't bleed or curl when sliced.

Marchitelli says he has fed every president since Herbert Hoover. He told me Franklin D. Roosevelt's favorite dish was boned terrapin and that he used to deliver it to the White House himself as a late snack.

BUCKLEY

Hungarian Rebellion Experiences Have Put Radio Free Europe In The Doghouse

By HOLMES ALEXANDER

MUNICH, BAVARIA, GERMANY—Radio Free Europe, quasi-official and American-supported broadcast program, is in the European doghouse. It would be hard to find an informed German, Austrian or Hungarian who does not believe that RFE used double-talk and veiled braggadocio to incite the Hungarians to rebellion. Worse, RFE put itself in the position of fomenting a fight with no real intention either to support it or to join it. This is equivalent to the legendary boxer's manager who savagely yelled from ringside: "Fight him, Butch. He can't hurt us."

The West German Government is investigating the story. The German press has already reported the matter thoroughly and reached a verdict against RFE. It's something that the Senate Investigations Committee ought to open up, if for no other reason than its anti-American repercussions.

West Europeans who write and publish the news, and those who read below the headlines, are aware that RFE is not the same as USA. But people who have suffered from Communist oppression, or who have a bone to pick with America, do not bother with the fine distinctions. American reporters who were over here in November (I was not) when the fighting started can tell of many angry taunts by the rebels: "Where are the Americans? Send us bazookas so we can kill the Russian tanks!"

The Munich newspaper "Abendzeitung," a popular or so-called "boulevard" publication with 100,000 sales a day, has gone after RFE hammer and tongs. Under a red-ink headline on December 15th, this paper used five ferocious columns to rip the excuses and alibis which RFE was offering. I give a rough paraphrase and resume which I prepared with the aid of Dr. Peter Glas, a German journalist who is assisting the American press section in Munich.

"In this matter you can't get away with it. Radio Free Europe should come clean and admit its mistakes. This newspaper has already published explanations of RFE's actions through the U.S. Office of Information Service spokesman, Ernest Langendort. He should (not explain but) answer the direct charges and tell the public correctly what was going on. The German public does not believe so far what he has said.

"Hungarian refugees have stated that RFE promised each Hungarian who would cross the border the sum of (about $90) in cash, new suits of clothes and nice beds. We (Germans) do not believe that RFE had any business to make such promises.

"At a press conference in Bonn, December 8th, the Associated Press quoted Hungarian fighters as saying that RFE told us more than was true. No help was (directly) promised, but the speeches they made over the radio made us think that volunteers might come (if we kept the battle going.)' Hungarians are satisfied with the opposition of RFE against Communism, but they want more truth."

Continuing, "Abendzeitung" says in this paraphrase: "A member of the Budapest Revolution Committee has said:

'RFE did not always tell us the truth. It did not (directly) promise us anything which they could not give us, but before and during the fighting, this radio (broadcast) put things on the air that were not in the way that they showed us. The British Broadcasting Company has said it in a much different way. Radio Free Europe seems to think we are a little simple-minded.' "

It would take a Congressional committee or a law court with subpoena power to collect the testimony. The recordings of the broadcasts ought to be studied to see how much, if any, incitement-by-innuendo took place. I interviewed a Hungarian family named Vass who had a son in the street-fighting. The father, mother and sister all recalled that around December 5th the boy was fighting on in the belief that American troops or volunteers would intervene. The boy told his family that he and many other combat groups were so informed by persons who spoke English and German but not Hungarian.

We have here, I'm beginning to think, a patriots' war that will be fought for several years to come in the city streets, in the villages and in the fields of East Europe. It will be more like the Spanish anti-Communist civil war than the Korean police action.

A good many well-meaning persons and organizations will want to help the patriots. This is an admirable intention but Congress had better learn what's going on and lay down some ground rules. An investigation of Radio Free Europe and the Hungarian rebellion would be the place to start.

Automation Spreads From Factory To Office, Kitchen

By SAM DAWSON

NEW YORK (AP)—Automation is spreading fast from the factory to the office and the kitchen.

Mechanization we have long had with us. This is mechanical action served by a power source but guided or controlled by human brains and hands. Example: the electric washer that has to be turned on and off.

To mechanization automation adds guidance and control supplied by additional inanimate units built into the machine itself. Example; the automatic clothes washer.

Automation also often includes the ability to check automatically against mistakes and to apply past experience to future action. Example: the computers used in many offices.

Automated food preparation equipment run by punched cards may be built into tomorrow's kitchens. A punched card recipe would command the movements now performed by the cook. Scientists see the day when punched cards will tell the homemaker what food to order based on the machine's "memory" of what the family likes, how much is thrown away and what quantity of any type of food is consumed over a given period.

From the factory, perhaps, could come an automatic kitchen mixer like the Fairbanks-Morse scales that automatically dole out and measure industrial materials to be mixed.

Homes in the arid Southwest already are being equipped with mechanisms that cool the house when the weather outside is hot and reverse themselves to warm the house when the night chill sets in. And Carrier Corp. has just opened a weather engineering laboratory at Syracuse, N.Y., to seek still higher efficiency in home air conditioning.

Machines are taking over more office work all the time—whether it's the huge mathematical chores like those performed by Remington Rand's Univac, or central dictating machines such as those installed by the Gray Manufacturing Co. in the Stanvac building in Westchester County, N.Y.

In any one of 290 offices a Stanvac executive can pick up his phone and dial central dictating. Automatically his dictated words are channeled to any of 24 dictating machines in the central battery. After the typist has transcribed the discs, automation takes over again, carrying by pneumatic tubes the finished copy back to the man who dictated it.

Musical Comedy Is Below The Real Thing In Monaco

By INEX ROBB

Today's offering is a kind of catch-all column which will examine reincarnation, a talking horse, the Monaco wedding, the latest Broadway dreamboat, Fernando Lamas, Ethel Merman, that theatrical nonpariel, and a new Broadway musical called "Happy Hunting."

As a sequin-scarred veteran of the Great Wedding War of Monaco last spring, I have had more than a passing curiosity about "Happy Hunting," the Howard Lindsay-Russel Crouse musical based on the nuptials of Miss Grace Kelly and His Serene Highnes.

Let me say right off that the Messrs. Londsay and Crouse gave themselves an impossible assignment. They could not possibly hope to top in comic routine the original production and cast in Monte Carlo. They have left out one character altogether, Father Tucker, probably on the sound theory that he is too incredible even for Broadway.

But they have produced a song "I'm Fed Up to Here With the Wedding of the Year," carolled by a posse of stage reporters and photographers, that is engraved forever on my heart. ("Stop making a spectacle of youself!" hissed the head of Clan Robb when I did a bit of aisle-rolling at this point.)

Apart from my historic interest in this musical, my pulse was further quickened by word-of-mouth reports that the hero, Fernando Lamas, is the most gorgeous hunk of man to hit Broadway since that title was first coined for Victor Mature almost two decades ago (when he starred with the late Gertrude Lawrence in "Lady in the Dark.")

Well, Lamas is all of that. If I were 10 years younger, I might be tempted to hang around the stage door and trip him up. He is, in the fashion started by Ezio Pinza, tall, gray and handsome, and every bit as droolsome. What teeth! Shiny, white and just ready to bite a toothpaste endorsement!

By the time the curtain went up on the second act, I had plighted my troth to Lamas. But midway in the second act there appeared in the show the only character lacking in the original Monaco cast, a talking horse named Daisy. And Fernando was as if he had never been.

Because "Happy Hunting's" Daisy is the four-footed reincarnation of my first love, a white horse named Daisy that was a member of our family for 20 years. I learned to ride on Daisy. So did half the kids in the neighborhood. We were all convinced that Daisy could talk, too, just as Miss Merman is convinced that the stage Daisy is a wise conversationalsit.

It was like an extra, special Chritmas gift, after all these years, to behold Daisy, white, plump and wise, reincarnated on Broadway.

At the end of the show, there I was in love with a horse instead of the hero! (Instead of sending a mash-note to Fernando, I sent a bushel of carrits to Daisy.) It was a crazy, mixed-up thing, all right. But, then, so was the real thing in Monaco.

Nasser Lists Conditions For Action One At A Time

By JAMES MARLOW

WASHINGTON (AP) — United Nations prestige leaped upward with its success in Egypt, then sagged with its ineffectiveness in Hungary. The U.N. may yet be made a fool of by Egypt's President Nasser.

The U.N. — led by the United States and Russia — saved Nasser's skin by pressuring the British, French and Israelis into ceasing their attack on Egypt and withdrawing from the Suez Canal zone.

Nasser is developing a pattern of laying down conditions under which he'll do business one at a time. When he gets what he wants on one, he imposes another.

The result: The Suez Canal is still closed to world traffic almost two months after the attack on Egypt ended. When Nasser will let work start to clear it of sunken ships no one can be sure. Nor is there any end in sight to his demands.

Some of the demands he made for letting Suez clearance work start can be justified -- and have been backed by U.N. Secretary General Hammarskjold — on the ground that Egypt is a sovereign country and must not be pressured from outside.

He won his way on these demands: The British and French would have to clear out of the canal area before he would let salvage begin; the U.N. military forces, brought in to keep peace, could stay only as long as he wished; British and French salvage ships, ready to begin work, could work only if manned by civilians.

Still he hasn't permitted work to begin although last Nov. 2 the U.N. General Assembly adopted a resolution which said that when the cease-fire became effective, steps should be taken "to reopen the canal and secure full freedom of navigation."

Nasser's latest demand, as reported Christmas night, was that no clearance work could begin until all Israeli forces had quit Egyptian territory. The last British and French troops had sailed away Saturday.

RADIO-TV REPORT

By CHARLES MERCER

NEW YORK (AP) — Did you know that —

1. Men are fussier about their hair than women?

2. Actresses create coeffeur styles that millions of American women long to emulate?

Well, we didn't, until we talked to Virginia Darcy, who recently was placed in charge of hairdressing at NBC-TV . . . for actors and actresses, that is. All vice presidents of NBC have to comb their own hair, if they have any left.

Miss Darcy, a pleasant brunette, probably knows more about the shafts, roots and sebaceous glands of more famous thatches than anyone you can name. Her years of tonsorial triumphs and tribulations at Paramount and MGM in Hollywood were crowned by Grace Kelly selecting her as personal hair-dresser on the trip to Monaco when Miss Kelly married Prince Ranier.

Miss Kelly set millions of her hair style after that widely publicized marriage, Miss Darcy said.

To bring the ladies up to date on the Kelly coeffeur, Miss Darcy reports that Miss Kelly has now cut it shorter.

Other actresses whom Miss Darcy believes have changed women's hair styles are Marilyn Mongroe, Elizabeth Taylor, Kim Novak and Doris Day. How?

Now about the men (if there are any men still with us).

"Men are just as interested in their hair as women — in fact more so," said Miss Darcy. "Did you ever know a man who was growing bald? He counts every hair that comes off the comb. When a hair comes out, he says, "Cover it up," but usually there's nothing to cover it up with.

"Next to going bald, men worry most about getting grey. It's often very silly because a lot of men look better with gray hair. But they believe it's a sign they're getting old and so—' She shrugged eloquently.

SPORTS

BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

THERE'S SEVERAL COLLEGE football coaching jobs unfilled at the present but the coaching vacancy that has got the fans of this area wondering is not a college post but a high school head coaching job.

That would be of course the vacancy at Big Spring.

Rumors have been flying thick and fast over who is to be the new Big Spring coach. There's been at least a dozen names mentioned in connection with the Big Spring job.

As far as we have been able to learn no one apparently has an "upperhand" in landing the job.

If we were forced to make a prediction on who will be the next Steer coach we would say Stamford's Gordon Wood.

Wood, no doubt, is ready to move. He loses 20 of his first 24 boys off this year's state champion via graduation, including Mike McClellan who has carried the Bulldogs to two consecutive state championships.

Big Spring has some good material coming up and since the Steers had a dismal season last fall, the new Steer coach can't go any way but up.

That would be a pretty good promotion for Wood, from Double-A to Quadruple-A.

Battle Spikes Rumor

Another name that has been mentioned in connection with the Big Spring job is Tiger line coach Hal Battle.

However, we asked Hal about it and he said it was strictly a rumor.

"There's enough headaches in this coaching profession without going back to your home town to coach," Battle said when queried on the matter.

Among other names mentioned in line for the Big Spring job are Amarillo's Joe Kerbel, Sul Ross' Ali Milch, and Crane's Dan Andregg.

The coaching vacancy at Big Spring came about when Carl Coleman resigned before the 1956 season started.

Roy Baird and Harold Bentley, Coleman's assistants, moved up as co-coaches for the '56 season but school officials have indicated that a new man will be brought in for 1957.

Well, the Tigers have failed in their quest for a second straight title in the Howard Payne Invitational.

But the Bengals still have something to look forward to in the HPC tourney. The Black and Golders can still meet Big Spring before the tourney is completed.

Big Spring, like the Tigers, were upset in the opening round yesterday. So it's possible that the Tigers and Steers will meet in the consolation finals Saturday night.

We have learned that the Waco Tribune has picked the Tigers' Milton Ham at an end position on its all-state Triple-A football team.

The Tribune also selected another Tiger, center Joe Reaves, on the second team.

Speaking of Reaves, we hope Joe can put on about 25 or 30 pounds in the next year or so. No one plays the game harder than Reaves and if he can add on some poundage he'll make some college a fine footballer.

Meeting Set

NEW YORK (AP)—Player representatives of National Football eague teams will meet today with Creighton Miller their lawyer in an attempt to set up an organization similar to major league baseball players.

MENDYK GAINS YARDS ON RUNBACK—Dennis Mendyk of Michigan State picks up 7 yards on a runback in the fourth quarter of the All-Star Shrine benefit in the Orange Bowl in Miami, Florida. Don Bosseler of Miami grounds him with a leg hold. The North team won 17-7. (AP Wirephoto).

Tigers Upset In HPC Tourney Debut, 52-51

BROWNWOOD, Dec. 28—Holiday broke a tie in the final two seconds of play here Thursday night to edge the defending champion Snyder Tigers in the first round of the Howard Payne Invitational Tournament, 52-51.

The score stood at 51-51 when Holiday's Ken Knowles was fouled. Knowles hit his first free toss that won the game for the North Texans.

Snyder led 14-16 at the first quarter mark and after Holiday squared the count at halftime, 26-26, the Tigers moved ahead again after three periods, 37-36.

Faulty ball handling attributed to the Snyder downfall. It was estimated that the Tigers threw the ball away about 15 times.

Dwayne Prince led the Tiger attack with 17 points, followed closely by Milton Ham with 14. Prince was high for the game.

Knowles led Holiday with 15 point J. Holt with 13 and Dick Adams with 12 were other big guns in the Holiday attack.

Both Snyder and Holiday had the same number of field goals—20—with Holiday registering one more free toss, 12-11. Snyder fired 49 times from the field for 40 percent while Holiday tried 42 shots from the field for 47 percent.

Both teams were cold from the free throw line, the Tigers hitting 11 of 20 for 55 percent and Holiday 12 of 29 for 43 percent.

The Tigers will meet Gustine in the first round of consolation play at 2:15 p.m. Friday. Gustine bowed to the host Brownwood Lions in its opening round game last night, 76-27. Gustine is a replacement for Brady who withdrew.

Big Spring's Steers, who were established as the co-favorites with the Tigers in the pre-tourney ratings, also was upset in the first round, 80-53, by Lampasas.

Jan Loudermilk led Big Spring with 26 points.

In other first round games, of Austin, 40-38; Lamesa tripped Ballinger, 53-38; Granbury whipped Kerville, 80-47; Carter-Riverside of Fort Worth downed Brookesmith, Victoria, 71-61.

Aussies Complete Davis Cup Sweep

ADELADHE, Australia (AP)—Australia placed a resounding final stamp on its Davis Cup victory over the United States today when phlegmatic Ken Rosewall and blond blaster Lew Hoad won the final two singles matches for a perfect 5-0 triumph.

Rosewall had to go four bitter sets before subduing University of Texas junior Sam Giammalva 4-6, 6-1, 8-5, 7-5. Hoad polished off 33-year-old Vic Seixas 6-2, 7-5, 6-3 in a match that produced some brilliant tennis on both sides.

Now the United States must start all over again. This is the second year running the Aussies have shut out the Yanks. A check of the records also shows this is the fourth time the lads from Down Under have whitewashed the Americans.

On the other hand, the United States, which has been in 37 of the 45 Challenge Rounds that have been contested since 1900, also has blanked the Aussies four times. In that respect, at least, they are even.

Probably the most popular player on the court was Giammalva, who captured the hearts of the capacity crowd of 18,000 at the War Memorial Drive courts.

Texas Sammy shows his emotions with every shot. He alternately exhibits glee and despair.

Some experts thought Sam might have helped beat himself by playing strictly to Rosewall's forehand, the weakest link in Ken's armor.

Not once did Giammalva let up his relentless and booming attack on the Rosewall forehand. Again and again he slashed at it and in the first set, he was completely successful. Rosewall was somewhat ruffled.

In the second set, though, Rosewall began moving in on the net and quickly ran up a 4-0 lead. Giammalva conceded the set and started fresh.

Out rushed Giammalva in the third set and played Rosewall on even terms until Ken broke in the 13th game.

But, though he was down 2 sets to 1 against perhaps the world's top amateur, Giammalva was not ready to throw in the towel. He ran up a 5-1 lead in the fourth set, but he couldn't hold it.

Seixas played some of the best tennis of his career against Hoad, but there probably wasn't an amateur in the world who could have beaten Lew today.

It was Hoad's devastating forehand smashes that proved the undoing of Seixas. These shots are unpredictable, but when he can control them, they're practically untouchable.

Texas Southern Wins Opener, 91-81

OMAHA (AP) — Texas Southern, the tourney favorite lived up to its ranking in great style by setting a scoring record while whipping Arkansas Tech, 91-81, in the first round of the NAIA Tip-Off Basketball tourney last night.

Southern was paired tonight with Hamline of St. Paul, Minn., at 10:30 p.m., EST, and third-seeded St. Francis of Brooklyn with Gustavus Adolphus of St. Peter, Minn., at 9 p.m., EST in the winners bracket.

IN SWC TOURNEY

SMU, Hogs, Ags, Rice Win Openers

HOUSTON (AP) — The Southwest Conference Basketball Tournament followed smooth SMU, with its great Jim Krebs, along a trail of upsets and flaring tempers into the semi-finals today.

SMU, the nation's sixth ranking team and a heavy favorite, opened last night with a 74-65 triumph over TCU as Krebs scored 36 points.

Arkansas upset Texas 89-76, and a near fight came when Texas A&M nosed Navy, the guest team, 76-75.

Rice, favored to meet SMU in the finals, sped over Baylor 71-55.

In the semi-finals tonight SMU clashes with A&M while Arkansas and Rice tangle.

Consolation play begins this afternoon with Texas and Baylor battling and TCU meeting Navy.

TCU, with its great center, Dick O'Neal, flipping in 24 points, gave SMU a run. The score was tied four times and the lead changed hands three times before Krebes who made 19 points in the first half and 17 in the second shot the Methodists ahead to stay.

Larry Grisham was the hero in Arkansas' upending of a Texas team that had been rated with the best in the league. The score was tied 14 times and the lead switched 16 times but it was Grisham who was the difference. He led the Razorbacks with a solid 24 points.

Ray Downs Texas' all-conference forward flipped in 31 points 17 of them coming on free throws and tying the record set by Temple Tucker of Rice last year.

The A&M-Navy game was another hot one. The Aggies lost their ace, George Mehaffey, on personal fouls but not before he had scored 23 points and had a run-in with Dave Smalley, Navy star. They almost came to blows.

With the departure of Mehaffey, A&M sluffed off an 18-point lead. Smalley almost pulled Navy to victory—he rimmed the basket as the last gun fired. Frank Petinos and George Bouvet of Navy also made 23 points apiece.

Tommy Robitaille, a 6-foot-9 sophomore, led Rice to its fairly easy triumph over Baylor by scoring 29 points. The Bears were never seriously in the game.

Gator, 2-All Star Tilts Tomorrow

By DON WEISS
The Associated Press

The fine teams of Georgia Tech and Pitt together with senior aces from most of the big schools that didn't draw a postseason assignment play in three games tomorrow as college football throws the first of its New Year's holiday parties.

Tech and Pitt meet in the Gator Bowl at Jacksonville, Fla., in a rematch of last New Year's Sugar Bowl.

The all-star seniors are divided the Blue-Gray game at Montgomery, Ala., and the 32nd annual Shrine East-West game in San Francisco's Kezar Stadium.

All three will be broadcast and telecast.

The Jan. 1 program will be headed by the Big Four — Rose Bowl at Pasadena, Sugar Bowl at New Orelans, Cotton Bowl at Dallas and Orange Bowl at Miami.

Coach Bobby Dodd has taken seven Georgia Tech teams bowling and has won them all, including the last three years in succession. Both Tech and Pitt are packed with veterans from last January's Sugar Bowl game, in which Tech scored the only touchdown after a disputed pass interference play in the end zone.

The Rebels, with a 12-5 edge in the series so far, are 6-point favorites over the North for Montgomery's Blue-Gray annual. Jim Tatum of North Carolina is head coach for the Grays, who boast such aces as Mackie Prickett of South Carolina, Howell Tubbs of Auburn, Jack Pardee of Texas A&M and LSU's Earl Leggett.

Blue coach Don Faurot, who recently ended his career at Missouri, has a couple of dandy passers in Purdue's Lennie Dawson and Missouri's Jim Hunter.

The East-West lineup is just as star-spangled with such name players around as Notre Dame's Paul Hornung, Terry Barr of Michigan, Abe Woodson of Illinois Jim Parker and Bill Michael of Ohio State, Sam Valentine of Penn State and Navy's Wilson Whitmire of the East matched against the likes of the West's John Brodie of Stanford, Jon Arnett of Southern California, Bill Pricer of Oklahoma, Jim Crawford of Wyoming, Paul Wiggin of Stanford and Jack Hill of Utah State.

Buck Shaw, now of the Air Force Academy, coaches the West and Notre Dame's Terry Brennan the East, which rates a slight favorite.

Price To Remain On Texas Faculty

AUSTIN (AP)—Ed Price, whose resignation as Texas football coach becomes effective Monday, will take a job on the faculty starting Feb. 1.

He will be a lecturer in the department of physical and health education in the College of Education. Price will teach courses in sports to prospective high school physical education teachers.

Columbia Coach Named

NEW YORK (AP)—Buff Donnelli, formerly of Boston University, was appointed football coach at Columbia yesterday, replacing Lou Little.

Duncanville Tourney Reaches 2nd Round

DUNCANVILLE, Tex. (AP)—Flower Grove, Kress and Spade moved into the second round of the Southwest AAU High School Girls Basketball Tournament at Duncanville yesterday.

They joined seven teams which completed first-round play Wednesday.

Flower Grove whipped Eula 64-47; Kress defeated Yantis 45-34, and Spade edged Irving 55-49.

The three other winning teams advanced to the second round of the consolation bracket. Granbury whipped Glen Rose 29-21, Seagoville ousted Mesquite 49-26 and Alba-Golden tripped Jacksboro 34-19.

CHURCH NEWS

CHURCH NOTES

"The Day of Dedication" will be the subject of the Rev. Julian Hendren, pastor of the First Presbyterian Church, at the Sunday 10:55 a.m. service. There will be no vesper service. At 6:30 p.m. Wednesday, the church will hold a covered dish supper, with church reports to follow.

• • •

At the Sunday 10:55 a.m. service at the First Methodist Church, the Rev. J. Lennol Hester, pastor, will speak. Jackie Hughs will sing a solo, "Jesu Bambino." The pastor will also speak at the 7 p.m. service.

• • •

There will be a guest speaker at the Grace Evangelical Lutheran Church at the Sunday 10:45 a.m. service. He is the Rev. Walter Lentz of St. Timothy's Lutheran Church of Corpus Christi. After the service, there will be a co-op luncheon.

• • •

"Onward" will be the subject of the Rev. G. M. Cole, pastor of the First Baptist Church, at the Sunday 11 a.m. service, and the choir will sing the hymn-anthem, "Onward Christian Soldiers." At the 7:30 p.m. service, the pastor's subject will be "God's Purpose Fulfilled." Students home from college for the holidays will conduct part of the service. They include Fred Cross and George Herring, opening prayer and offeratory prayer; Reagan White and Don McNew, scriptures; Suzanne Houston, special music; and Joyce Blakely, Ann Fish, and Shirley Ramsey, testimonies.

• • •

Subjects of the Rev. T. Gerald Cates, pastor of the Calvary Baptist Church, for Sunday, are "A New Year's Wish" for the 11 a.m. service and "How to Face 1957 at the 7:30 p.m. service.

• • •

Subjects of Ted Norton, minister at the Twenty-fifth Street Church of Christ, Sunday will be "A New Creature" at 8:30 and 11 a.m. services and "The Church—Its Beginning" at the 7 p.m. service.

• • •

At the Avenue D Baptist Church, the Rev. A. J. Martin, pastor, will speak on "Forward" at the Sunday 11 a.m. service. At the 7:30 p.m. service, the Rev. Floyd Strickland of Mid City, Cal., formerly pastor of the church, is scheduled to speak. Sunday school is at 9:45 a.m., training union at 6:30 p.m.

On Monday night, the Brotherhood, WMU, and all auxiliaries will meet at 8 p.m. From 9 to 10 p.m. there will be a "singspiration," from 10 to 11:15 a fellowship period, and from 11:15 to 12:01 a worship service for the New Year. There will be the regular Good News broadcast at 7:45 a.m. Sunday on KSNY.

Snyderites Returned Here By Ambulance

Mr. and Mrs. Wade Davis and son, James Ernest, were returned to Snyder Thursday by a Bolger ambulance. They were brought to the Cogdell Hospital from a Brownwood hospital.

The Davis home is at 2709 Avenue Q. The Davises, along with their daughter, Cynthia, were returning to Snyder on Dec. 22 after having gone to Gonzales to get their son, James Ernest, a polio patient, to return him to their home for the Christmas holidays.

A two-car collision occurred near Brownwood. All four were injured but Cynthia's injuries were not as serious as the others. She was released from the hospital Tuesday and is in Port Arthur with her grandparents.

Snyder Dentist Gives Rotary Club Program

Dr. John Hamblen, Snyder dentist, presented a program of film slides yesterday at the weekly luncheon of the Snyder Rotary Club.

Hamblen, recently returned after a tour of active duty with the Army reserve, showed slides on trips he and his family made in Europe, principally in Holland.

The slides included scenes of flower gardens and farms, shipping, and other industries.

False Alarm Turned In To Firemen Here

Firemen answered a false alarm to the Yucca Construction Co. office about 8 o'clock last night when a fire in a trash barrel was erroneously reported as a fire in the building.

The trash barrel fire was put out without causing damage.

To Take Strike Vote

SAN ANTONIO (AP)—San Antonio bus drivers will hold a meeting Monday to take a strike vote, H. A. Laake, president of the bus drivers' union, said last night. The union has threatened to strike Dec. 31 if drivers are not given a raise.

Eddie Cantor made his first stage appearance in 1910 in a Bowery Theater. Five dollars a week was his salary.

Eastern Part Of State Has Good Showers

AUSTIN (AP) — The U.S. Department of Agriculture said today farmers and ranchers in the eastern two-thirds of the state got "the best Christmas gift of all" —a good rain.

The western third of the state still needs moisture.

The USDA weekly crop report said the rains fell slowly over a three-day period with very little runoff. The report said

"Fading small grain and winter pasture prospects were revived eastward from a line, about through Quanah, Abilene, San Antonio and Corpus Christi. To the west and south of that line only light, generally ineffective amounts were received."

The report said dryland wheat deteriorated steadily. Moisture was still deficient in most non-irrigated areas of South Texas. In the Lower Valley limited quantities of water for irrigation were expected but the amount that will be used for spring vegetable crops was uncertain.

Wheat, oats, barley, and rescue grass responded to the improved moisture but warm weather was needed to make much grazing. Feeding must continue even in the area where rains fell until pastures can develop.

Large Group Needs Lesson In Spelling

NEW YORK (AP)—Today's spelling lesson:

"A skeeter bit the human bean on the sholder of his boddy, drawing blud, and he called a docer and nerse before he diviliped brane fever."

If you fail to spot the errors, you can still go to college, says Dr. Kenneth B. M. Crooks, zoology professor of Fort Valley State College, Georgia.

He says he has seen from 100 to 500 college students make these same misspellings, and more. Words like ginny pig, brane, boddy, blud, nerse, colur, curcle, somthing, punkin, worf (for wharf), anamal.

Many college students can't spell common words, some do not know the alphabet, and something should be done about it, he told the American Assn. for the Advancement of Science.

"It is well known that college students do not read, write, nor comprehend as well as they should. This study (over a 26-year period) proves that they cannot spell either."

Dr. Crooks cited these among the probable reasons:

Children don't get enough drill in writing and spelling. We are addicted to slogans. Incorrect public signs and notices. Most school teachers seem to feel that teaching spelling is beneath their dignity.

Secrest Proposes Interim Senator

BARTLETT, Tex. (AP)—Sen. Jarrard Secrest of Temple said last night he has proposed Dr. W. R. White, president of Baylor, as interim U. S. Senator.

Secrest said he made the proposal in a letter to Gov.-elect Price Daniel, whose Senate seat will have to be filled in a special election in the spring. An interim senator must be appointed.

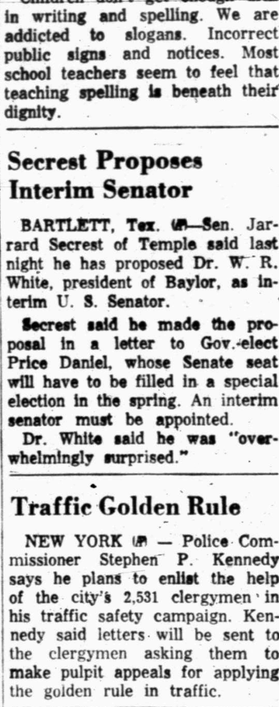

Dr. White said he was "overwhelmingly surprised."

Traffic Golden Rule

NEW YORK (AP) — Police Commissioner Stephen P. Kennedy says he plans to enlist the help of the city's 2,531 clergymen in his traffic safety campaign. Kennedy said letters will be sent to the clergymen asking them to make pulpit appeals for applying the golden rule in traffic.

Fire At Texarkana

TEXARKANA (AP)—Damage estimated at $30,000 was caused by a fire yesterday at Franklin's Women's Apparel Shop.

Pvt. Mickey H. Craig, son of Mr. and Mrs. E. H. Craig, 2704 Avenue O, is spending a 14 day furlough here. He is stationed at Fort Hood, Tex. He is a bridge specialist in the 24th Armored Engineers, 4th Armored Division. Pvt. Craig entered the service Sept. 4, 1956 and finished basic training in Nov. His division leaves for Germany in March for 16 months duty with the 4th Armored which is already stationed there.

Birthday Celebration

OKLAHOMA CITY (AP)—A gala opening for the Legislature is being planned for Jan. 8. The ceremonies will also kick off Oklahoma's 50th birthday celebration.

Insurance Firm Facing Hearing

AUSTIN (AP)—Legal Security Life had a chance today to answer charges of the Insurance Commission that the Dallas firm be put in the hands of a receiver.

Spokesmen for the company indicated they might ask for a postponement.

The Commission ordered the show-cause hearing Dec. 13 after a hearing on transactions between Legal Security Life Insurance Legal Reserve Insurance Trust also of Dallas, and the American National Investment Trust Co. of Houston.

"Said Legal Security Life Insurance Co. has transacted its business in such a manner as to make its continued operation hazardous to the insuring public," alleged the Commission. "During the interval from Aug. 1, 1955, the date on which it received its initial certificate of authority, and Sept. 30, 1956, the date of the most current examination made by the Board of Insurance Commissioners, said Legal Security Life Insurance Co. has reduced its cash assets from $198,770.86 to $8,050.16, part of which reduction being accounted for by the substitution of other assets of a lesser value than the amount paid therefore, and part of such reduction being accounted for by operating losses.

"The board therefore alleges that the rights of policy holders stockholders and creditors are in peril, and that there now exists an imperative necessity that said Legal Security Life Insurance Co. be placed in receivership to effect the preservation of its remaining assets."

Legal Security Life originated from Legal Reserve Insurance Trust, which was incorporated Feb. 25, 1955, by George Heath, James Wynn and Roman McPherson. Incorporators of Legal Security Life were Heath, Wynn and Merton Seese.

The board alleged that incorporators of Legal Reserve Insurance Trust sold 47,000 shares of stock for the purpose of "the creation of a life insurance company which would be almost wholly owned by the incorporators of Legal Reserve Insurance Trust."

American National Investment Trust Co. was incorporated Aug. 9, 1955 by Vernon Bergman, Dudley Veal, Walter Mangden Jr. and William Brown. The Board said the firm has "acquired real property and has executed promissory notes" to Legal Security Life for $84,907.03 cash and issued shares for $97,892.07. Such transactions, the Board alleged, resulted in "a fictitious increase in the assets of both corporations."

McPherson listed as one of the incorporators of Legal Reserve In- $15,000 bond after being charged in Fort Worth on two indictments of unlawful stock sales. He was identified as president of Provident American Trust, Legal Guaranty Life, and Legal Guaranty Trust, organizations implicated in the Oct. 15 collapse of the River Oaks Bank failure in Fort Worth. Receivership action against the three firms is now under way in Austin.

Dividend Is Declared By Loan Association

A dividend of three per cent, plus an extra dividend of one-fourth of one per cent for the plast savings period, July 1 to Dec. 31, has been declared by the directors of Colorado Federal Savings and Loan Association in Colorado City.

The board also voted that effective Jan. 1, 1957, the proposed dividend rate will be at three and one-half per cent on all types of savings and investment accounts.

Colorado Federal Savings and Loan Association was organized in 1934 and is a member of the Federal Home Loan Bank System. Savings and investment accounts are insured up to $10,000 by the Federal Savings and Loan Insurance Corp. The Association has loans in Colorado City, Snyder and several other West Texas cities.

Ike May Ask For Use Of Armed Forces

NEW YORK (AP)—The New York Times said today President Eisenhower is reported considering asking Congress for authority to use United States armed forces "as he deems necessary to maintain peace in the Middle East."

Quoting "a reliable source," the dispatch from Washington said congressional leaders would be asked to give their views on "the possibility of getting congressional sanction for the President to use the armed services . . . in accordance with his best judgment in the event of any aggression in the Middle East."

The Times article by James Reston said the conference would be held at the White House next Tuesday. Secrtary of State Dulles was expected to be on hand.

Dulles and the President met at the White House yestreday and discussed the Middle Eastern situation. But, said the newspaper account, "nothing was said about any decision" to ask Congress for authority to use force if necessary in the Middle East.

"Officials here," the dispatch continued, "have become increasingly disturbed about the possibility that trouble in Iraq, Syria, Egypt and Jordan may lead to further Soviet penetration of that part of the world.

"This fear has grown since the weakening of British influence in the Middle East as a result of the British-French-Israeli invasion of Egypt.

"Consequently, administration officials have been discussing what action can be taken by the United States to make it clear that it does not intend to stand aside and watch a chaotic situation develop there to the benefit of the Soviet Union."

He Never Had Auto Or Horse And Buggy

LOS ANGELES (AP) — Retired Municipal Judge Joseph F. Chambers is dead at the age of 94. He served as municipal judge for a half century, retiring in 1951. Scorning automobiles, Judge Chambers walked five miles daily from his home to his courtroom. "I've never driven an automobile, never wanted to own one, and I didn't have a horse and buggy, either," he said on his 93rd birthday.

Old Studio Becomes Historical Landmark

HOLLYWOOD (AP)—The State of California has officially recognized Sam Goldwyn's part in the creation of Hollywood. The old barn where Goldwyn, Cecil B. Demille and Jesse Lasky made "The Squaw Man," in 1913 was designated as "Hollywood's first major film company studio, registered state historic landmark No. 554."

Happy New Year!!!

And what will you do with it... 365 days with all their clean glorious possibilities??? As the leaves begin to fall from your calendar you must realize you are writing off each one with indelible ink—*no erasing!*

This New Year is a Divine gift; twelve precious months, 365 glorious days to be gobbled up as you like. As the clock nears the hour, as the church bells toll, and as you make new resolutions—may you resolve to travel nearer to God all the way. *As you tear off each old day may you have the consolation of a day well lived for Him*

Happy New Year!!!

YOU IN THE CHURCH
THE CHURCH IN YOU

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial arc molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you" form a combination for good. Be a regular CHURCH-GOER and a daily BIBLE READER.
