HAVANA BOUND—Les Thurman, left, and Bill Wright left Monday for an all-expense trip to Havana for winning a Ford Motor Co. parts and service sales prize. Thurman is service manager and Wright is parts manager. The A&B Motor Co. finished first in the Oklahoma City district of 38 cities and were second in the 9-state region.

Two Local Ford Men Leave for Expense-Paid Trip to Havana

Les Thurman, service manager, and Bill Wright, parts manager of the A & B Motor Co. left Monday on a free trip to Havana after winning the trips in a parts and service contest conducted among Ford dealers over the nation.

The Perryton Ford agency won first honors in the Oklahoma City division, composed of 38 cities, many larger than Perryton, and won second place in the 9-state region. A Tennessee agency was the only one placing higher than the local concern.

The contest was based on the percentage of increase in the sale of parts and services over last year. The contest period was for June, July and August.

Thuman and Wright boarded a chartered plane in Oklahoma City Monday and will go with other winners from the Southwest region to Cuba. They will return next week.

There are 70 winners in the United States and Thurman and Wright will be given a chance at winning a Ford Victoria coupe in a drawing to be held in Havana.

Gene Akers, owner of the local agency, said that the winning of the contest represented a lot of work, not only on the part of the parts and service managers, but of all the personnel.

"We planned to win this contest," he said, "But it was something of a surprise when we beat such cities as Ardmore, Okla., and Borger.

Bryan Store to Observe 25th Anniversary

The 25th Anniversary of the Bryan Food Store will be observed with a 10-day sale and open house beginning today, Louis Bryan has announced. The sale is the area wide event of the Panhandle Associated Grocers and will feature the giving away of two Buick automobiles.

The Bryan Food Store was opened in November, 1926, which this week a month early for the anniversary date, but Bryan said he decided to combine the sale and anniversary together this year.

W. C. Bryan and Son bought the store from Lilly and Son in 1926, and the business was located in a tin building at the same corner where it now stands. In 1928 the old building was torn down and the present brick structure erected.

From 1928 to 1939 the store combined dry goods and groceries, but in 1939 the dry goods department was taken out and the grocery department enlarged.

See No. 5, Page 6

To Show Calf at American Royal

Dick Hall, county 4-H boys who exhibited the grand champion at the Ochiltree County Junior Livestock Show in February, will show the same Hereford calf at the American Royal livestock show in Kansas City this week.

Judging of the club calves is to be on Saturday.

Dick is at present a freshman student at Texas Tech.

Free Midget Auto Races Here Sunday

Midget auto races will be held Sunday afternoon at the county fair grounds track, and the races will be free. Drivers of the midget cars have decided to put on the free races since there were several minor wrecks and some car trouble last Sunday and the drivers feel that perhaps people didn't get their money's worth. The races will begin at 3 p. m. Eight races are on the program.

Sinclair 7-G Well Is Gasser

Sinclair Oil and Gas Co. has an estimated 50 million foot gasser in its No. 7-G Lips well in Roberts county, about 26 miles south of Perryton, just across the Ochiltree-Roberts county line.

The well was plugged back to the Atoka sand and perforated with 196 shots from 8574-8614 feet and tested when the Morrow sand showed only 139,000 feet of gas on test at 8840-86 feet.

The Atoka sand, 40 feet unbroken, was tested through a 2-inch tubing and flowed 10 million feet. The open flow was estimated at 50 million feet. The tubing pressure shut in for 10 minutes was 2100 pounds.

The atoka sand in this well is thicker than in any other well in the pool, where in the other wells it had some shale breaks, in the 7-G it was continuous section.

Two more wells will start immediately on the Lips lease: the No. 8 on the west end of the ranch in section 31, block A, H&GN survey and the No. 9 which will be staked in the center of the SW NE of section 136, block C, G&M survey. The No. 9 will be one mile northwest of the 7-G between No. 7-G and No. 4. The No. 4 tested 38 million feet and the No. 2 on the lease 41 million feet of gas.

Tax Collections Are Coming In At Rapid Rate

Tax collections are being received at a rapid rate, with the total collections ahead of the rate last year, a check of local tax agencies reveals.

County and state taxes totaled $21,403.01 during the first week of October, compared with $17,019.10 last year. There have been 162 poll taxes paid, up to Tuesday noon, which is about double the number paid at this time last year. The big election year of 1952, of course, is the stimulant toward poll tax payments.

City taxes collected during the first week totaled $10,125.75, compared with $9,935.25 a year ago.

See No. 4, Page 6

Millions of Bushels of Milo Flow to Elevators As Harvest Reaches Peak

Estimate Crop 60 Per Cent Completed

Harvest in the Perryton area is an estimated 60 per cent complete, but another three or four weeks of harvesting remain before the record breaking milo crop is out of the fields. A check made early this week revealed that the local elevators are able to ship out the grain as fast as it is received, but the elevators are crammed full of grain.

The harvest is expected to total 6,000,000 bushels in Ochiltree county this year, with an average of 30 bushels per acre estimated. Aldon Bell, general manager of the Equity, said Tuesday that Equity elevators in this county have received over 2,000,000 bushels of grain, and there are thousands of bushels stored on the farm.

Lee Little, Chamber of Commerce secretary, who has been placing harvest hands through the local office, said Tuesday that the demand for labor has slacked up. In fact, there were more men wanting jobs Tuesday morning than there were jobs available. There are a number of idle combines around Perryton now.

At the Ellis Grain Co., manager J. H. Woodward said that thus far he has been able to ship out the grain as fast as it is received, although it has been a touch-and-go proposition the past week. The grain is coming in at a steady stream, with most of it coming from the south and southwest part of the county, Woodward said.

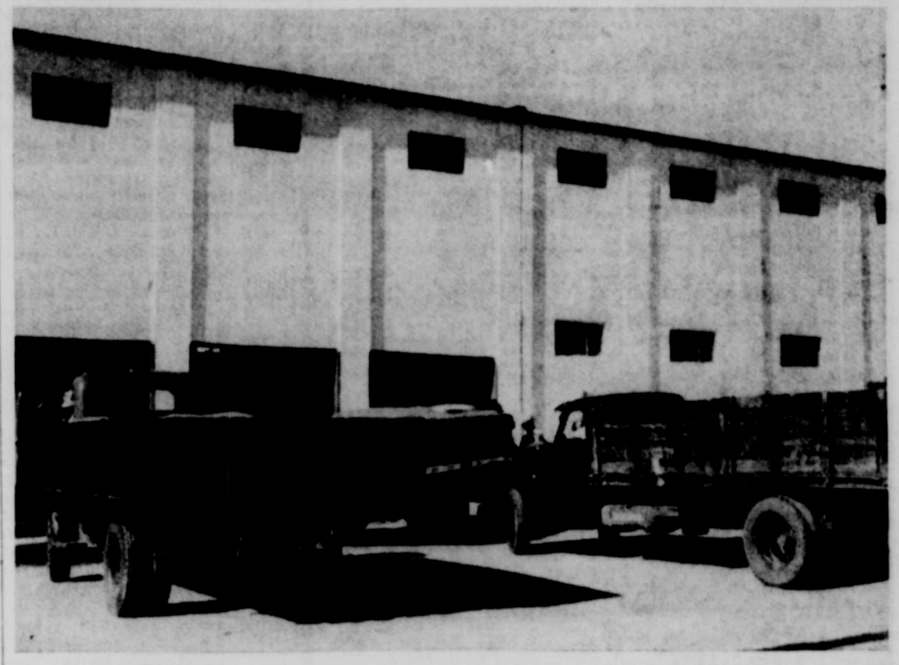

The Equity has been trucking the milo for the past week, sending it to southwest Oklahoma for the most part. Loads of milo have been sent over the country, however, and this has enabled the Equity to keep the elevators free to receive grain, Bell

HARVEST TIME—The grain sorghum harvest is at full swing now and these trucks loaded with milo at the Equity elevator in Perryton are one evidence of the record-breaking crop now being harvested. Ochiltree county is expected to harvest 6,000,000 bushels of milo this year and harvesting will continue for another three or four weeks.

Rangers Meet Guymon Tigers Friday Night; Local Team Given Good Chance for Victory

The final game for the Rangers before they embark upon a double-tough conference schedule will be played at Ranger Field Friday night when they meet the Guymon Tigers. The Rangers are given a good chance for victory in this one, since the Guymon record has been unimpressive to date.

The Tigers have been beaten by Dalhart, 32-6; lost to Beaver, 33-0; and were trimmed by Woodward last week, 35-7. The Guymon team is a heavy one, with the line averaging 180 pounds and the backfield 160.

Their game last week with Woodward was played in the rain and Guymon was behind, 28-7, at the half.

This will be the first time in a number of years that Perryton and Guymon have met. After this game, the Rangers meet game thus far.

Coaches James Peterson and Duane Byars have been devoting quite a bit of time this week to passing, attempting to bolster the Ranger running game. Against Wellington, the Rangers were unable to go against the big eight-man line, and their passing game never functioned well enough to make the Rockets shift into a six or seven man line.

There are no serious injuries on the Ranger squad, aside from a few routine bruises and sprains. All of the players will be ready for the game.

Probable starting lineups:

Perryton: Haar and Johnson, ends; Cooper and Kauffman, tackles; Carter and Mitchell, guards; Lovett, center; Langwell, Pletcher, Cummings and Devers, backs.

Guymon: Gibson and McDonald, ends; Behne and Grove, tackles; Watkins and Hodson, guards; Neville, center; Wadly, Williamson, Kenny and Morgan, backs.

Dumas, Shamrock, Phillips and Dalhart, in that order, and since these are four of the strongest teams in the Panhandle, victory in the district seems remote.

So far, the Rangers have won two and lost three games, but in spite of the losing season, they haven't been shut out in any

Large Crowd of Buyers Expected At Angus Sale

Arrangements have been completed for the second annual Aberdeen-Angus sale to be held at the Perryton sales pavilion on Monday, October 29. Sales catalogues have been printed and distributed and a large crowd of buyers is expected for the sale.

There will be 38 head of registered Angus cattle, 24 bulls and 14 cows, along with 800 head of commercial Angus sold that day.

Carlton Corbin of Ada, Okla., will be the judge for the show and Ray Sims of Belton, Missouri has been secured as the auctioneer.

Field men are Bill Castalaw, Texas Livestock Journal; Don Digg, Western Livestock; Milton Miller, American Aberdeen-Angus Association; and Benny Scott, The Cattleman.

The registered Angus cattle will be judged on Monday morning and will be sold that afternoon. The sale of commercial Angus cattle will be held after the registered Angus sale.

The sales committee of the Perryton Aberdeen-Angus Association, sponsors of the sale, are Roy Stinson, Roger Pearson, George Travis, Percy Powers and Clyde Jamison.

X-Ray Meeting Is Scheduled for Tuesday Night

A meeting of the committee chairmen for the county mass x-ray survey this month has been called for Tuesday night at 8 o'clock in the office of superintendent Gilbert Mize at the Perryton school.

Mrs. H. P. Richardson, health chairman of the Parent-Teachers Association, will be in charge of the meeting. It is planned to complete committees and make final arrangements for the survey, scheduled for October 26-27-29.

Mrs. Manse Wood is clerical chairman; Sidney Jines is loading chairman; Mrs. Jack Woodward, Harold Hudson and I. R. Buchanan are members of the publicity committee.

Members of the Ministerial Alliance have been asked to help by announcing the x-ray survey to their congregations.

Representatives from the Lions Club, Rotary, Jaycees, Home Demonstration Clubs, Beta Sigma Phi and other organizations have been asked to attend the Tuesday night meeting.

All persons over 15 years of age will be asked to have a chest

See No. 3, Page 6

Rotary to Fete School Faculty

The Perryton school faculty and the school board will be guests of the Rotary Club tonight at the annual Rotary party honoring the school.

The affair will begin at 7:30 p. m. in the Hotel Perryton lobby with a "get acquainted" period and dinner will be served at 8 p. m. in the Harvester Room.

Joe Erickson, Mark Burton and C. E. Whippo are in charge of the program, which will be held during and after the meal.

Local Board To Reclassify 70 Husbands

About 70 childless husbands are being reclassified by the local selective service as being available for military service under a new Selective Service order, according to Mrs. Norma G. Phelps, clerk of local board No. 99, serving Ochiltree, Lipscomb, Hansford and Hemphill counties.

Those that have children but have not notified the local board will be reclassified into 1-A, Mrs. Phelps said.

The local board has received instructions to complete this reclassification "as soon as possible" and report to state headquarters. The men thus reclassified will be inducted early, and ahead of those single registrants now being inducted, since under the law the oldest men take their turn for induction first when calls are received. Because of this provision, examined and acceptable married men in many cases will be inducted ahead of single men who have been examined and acceptable for many months.

If a registrant's wife has an unborn child, new regulations provide that he be deferred, provided he files with the local board a certificate from a licen-

LEARNING HOW—Miss Jorene Shinn, home economics teacher in Perryton high school, is showing one of her classes how to make hot rolls. Looking on are, left to right, Donna Swink, Donna Girouard, Dorla Easton, Icel Mae Bartel, Alwilda Red, Helen Halpain, Laura George and Berwyn Copeland.

News From ANTHONY

By Mrs. Carl Carter

We are a little behind with some of the news but, with everyone over their colds and going strong again perhaps the news will all be better than a week ago anyway.

* * *

The community sends its wishes of a speedy recovery to Mrs. Wendell Pittman, who was thrown from her horse last Sunday and suffered a head injury. Mr. Pittman said she was improving very slowly.

* * *

Congratulations go to the La-Vern Davis', who are the proud parents of a big baby boy. The new son has been named Jerry Lee. He was born at the Beaver Hospital last Wednesday morning. He and his mother came home on Sunday.

* * *

We of the Community extend our sympathy to the members of the Hayden family who lost their mother last Thursday. Mrs. Hayden, having come to Beaver county in 1904, was known by all the old timers. Other members of her family who live near are: Mr. and Mrs. Pete Nichols and family, and Mr. and Mrs. Nichols of Perryton. She was in the home of her son Ray, on the farm near Boyd, where she had lived for years.

* * *

The Anthony Home Demonstration Club met last Thursday at the Community Center. Mrs. Pyle, president, called the house to order at 2:30. The secretary Mrs. Johnnie Davis read the minutes and they were approved. During the new business members of the old Friendly Neighbor Club were given an invitation to join the Home Demonstration Club since the old club had dissolved in favor of this move. Mrs. Hoffman then took charge of the lesson for the day, which was on making and fitting slip covers. Mrs. Nellie Bobbitt, Mrs. Lois Kirton, Mrs. Carl Carter, Mrs. Mary Bobbitt, and Mrs. Hoffman presented the lesson. Mrs. Janzen gave the devotional, and Mrs. Ernestine Myers had the mystery envelope, and Mrs. Nellie Bobbitt read a poem, in keeping with the event which followed the regular meeting.

The meeting adjourned and the club presented the Mrs. Elsworth Hoover with a "pink and blue" shower. Mrs. Johnnie Davis and Mrs. John Davis served refreshments to the following ladies: Mrs. Hoover and her mother Mrs. Jones of Liberal, Mrs. Mary Bobbitt, Mrs. Nellie Bobbitt, Mrs. Jim Wallace, Mrs. Fred Janzen, Mrs. Carl Carter, Mrs. Leon Morris, Mrs. Pyle, Mrs. Glen Myers, Mrs. George Kirton, Mrs. Hoffman, Mrs. Lloyd Brown, and the hostess. It was voted during the business meeting to retain all the officers who had served only one year in their present office. The ones holding the offices for the coming year are Mrs. Pyle, president, Mrs. Johnnie Davis, secretary, Mrs. Glen Myers vice-president, and Mrs. Carter, reporter.

* * *

The Neighborhood received a nice rain Friday evening. It measured some over an inch. What a life saver for those who had already planted their wheat and those who had to plant yet. Most of the grain is harvested.

* * *

The Beaver Duster football team got their initiation of playing ball in the mud on Friday evening. The game was called one hour late because of the rain and then the field was just a mud hole, but that did not keep the boys from putting on a good game before some packed bleachers. No one seemed to mind the rain and cold, and the boys didn't seem to mind the mud, though they had a hard time holding onto the ball. The boys were downed by the Texhoma Devils 6 to nothing, so you can imagine what an evenly matched game it was. The week before the Dusters had downed Guymon 33 to nothing, and the week before the Buffaloes, 40 to 6. This Wednesday the Beaver Dusters play Lavern on their home field and hope to win this.

* * *

Mr. and Mrs. Ralph Bobbitt and family drove to Larned, Kansas, to a Hereford Ranch looking for breeding stock, on Sunday of this week.

* * *

Those visiting in the LaVern Davis home Sunday were Mr. and Mrs. C. E. Dain and family of Guymon, Mrs. Lester Janzen of Goodwell, Mr. and Mrs. Harry Sawyer and family of Liberal, Mr. and Mrs. Wayne Wilson and family, Mr. and Mrs. Edward Barr and daughter of Turpin, and Mr. and Mrs. Joel Fogleman of Liberal.

* * *

Mr. and Mrs. Harold Davis took their cattle to Texhoma Monday to sell them. They are planning to leave this week to make their home in Mananzola, Colo. again. They were living there before Harold was called back with the reserves.

(Herald Staff Photo Engraving)

PLENTY OF ENSILAGE—Troy Derryberry, on the tractor, figures on cutting enough ensilage from this field to keep his dairy cattle well fed and contented this winter. He and Harvey Ratzlaff bought this new type ensilage cutter recently and are now filling a large trench silo with the chopped feed.

Here Is America . . . Face to Face

General George C. Marshall and Newspaperboy Ray Jeffers of Longview, Texas, get together at the Pentagon in the nation's capital to exchange greetings over their contributions to the Defense Bond program. Each in his own way does his part. The General launches a world-wide drive to encourage the nation's defenders in the armed forces to buy Bonds regularly while the Texas youngster tells how he went house-to-house along his newspaper route to encourage subscribers to join the Payroll Savings or bank Bond-A-Month Plan. Note the expressions on the faces of these two Bond volunteers.

Sees India Turning Red

RANGOON (AP) — A three month's tour of principal Indian cities has convinced H. Kunz of Nurnberg, West Germany, there is growing sympathy in Nehru's India for the Communist system.

"The only explanation is these people have never seen what Communism is," he said.

Kunz speculated the wide gap between riches and poverty in teeming India "probably accounted for this feeling."

Mrs. Tom Slack and daughters visited her parents, Mr. and Mrs. J. J. Wright of Canyon, last week end.

Ranger B Team Plays Guymon

The Ranger B team, coached by Ernest Kendrick, went to Guymon Wednesday afternoon to meet the Guymon B team, but the results of the game had not been learned as the Herald went to press Wednesday night.

The Ranger seconds are seeking their first victory of the year, losing to Stinnett, Canadian and Wellington. Last week they were beaten at Wellington by a 13-7 score, after having one touchdown called back.

Marriage Licenses

Bids Sought On 12 More Miles On Highway 70

The State Highway Commission will ask for bids sometime this year on another 12 miles of paving on state highway 70 south of the Canadian River, according to the Pampa Daily News.

Plans for laying the base and double asphalt surfacing are now on the drawing boards in the Pampa office of the State Highway Department, the News said.

The 12-mile stretch will start at the end of the paving north of Pampa and run to a point 4.3 miles south of Chicken Creek bridge. This will leave approximately 9.5 miles of unpaved roadway on highway 70 between Pampa and the Canadian river.

The paved roadway will be 30 feet wide with 120-ft. right-of-way.

Completion of the contemplated 12-mile stretch sometime next year will leave about 18.5 miles of the Pampa-Perryton section unpaved. The unpaved portion south of the bridge has been excavated, graded and fitted with drainage structures. The unpaved nine miles north of the river is now little more than a trail built by Roberts county.

Unload Steel for Canadian Bridge

Leo Cantrell, resident engineer at Canadian, reported this week that the first carload of steel for test pilings on the Canadian river bridge at Canadian has arrived and has been unloaded.

Other carloads are expected to arrive sometime in November or December, Cantrell said.

Relocating the span—which will cross the Canadian River bridge south of Borger—will mean a 12-mile paving program to build new highway approaches to the new bridge. The bridge will be located about 300 feet downstream from the present span.

Miss Margie Pletcher, who attends Hesston College at Hesston, Kansas, visited her parents, Mr. and Mrs. B. B. Pletcher, and other friends and relatives last week end.

Mr. and Mrs. J. E. Richey of Wichita, Kansas, were in Perryton on business, last week.

Mr. and Mrs. Derrel Renfrow were hosts at a Stanley party held in the J. O. Renfrow home Tuesday evening. Quite a crowd was present to enjoy the evening.

* * *

School was dismissed Thursday and Friday so that the teachers might attend teachers' meeting in Oklahoma City, Okla.

* * *

Mr. and Mrs. Warder Hutton; Mr. and Mrs. Jack Bartel and Mr. and Mrs. Jack Colwell were Thursday evening guests in the C. M. McDonald home.

* * *

Mr. and Mrs. Jim Smith of Perryton and Mr. and Mrs. Forrest Robertson and Peggy Sue were Sunday evening guests in the Jack Colwell home.

* * *

Mr. and Mrs. Bob Duff were shopping in Liberal Saturday.

* * *

Pfc. John Chisum of the Enid Air Force Base spent the week-end with his wife and relatives. Mrs. Chisum accompanied him back to Enid for a short stay.

* * *

Mrs. Wendell Pittman is still bedfast and visitors are asked to please limit their visits to a few minutes. She is slowly improving but is still in a serious condition.

* * *

Mr. H. R. Hibbs and his father, M. E. Hibbs, went fishing on the Beaver river Monday.

* * *

Church News

Ae revival meeting began on Sunday night at the Baptist church. Rev. Chester O'Brien, pastor at Gruver, is doing the preaching. His mother, Mrs. Chester O'Brien, Sr. of Abilene, Texas, is assisting with Bible study, mission work and personal work.

* * *

Mrs. Marie McGlamery was able to attend church services Sunday night for the first time in over two months. She was heartily welcomed back by her many friends.

* * *

The funeral services of Mrs. Hayden, mother of Ray Hayden of Boyd, was held in the Baptist church on Monday afternoon. Interment was made in the Balko cemetery.

* * *

Dr. and Mrs. Mayfield of Perryton were Sunday guests in the Denny Sullivan home, attending both morning and evening services in the Baptist church.

* * *

Members of the Apostolic Faith church honored their Evangelist, Roy Wooster and party, by giving them a supper in the church basement on Tuesday night. Rev. Wooster was in charge of the revival meeting which closed Sunday night.

Miss Betty Fisher of Amarillo, visited her parents, Mr. and Mrs. L. H. Fisher, last week end.

FOR A BETTER CROP

TAKE the trash out of seed wheat for more uniform stands

CLEAN seed, treated to kill smut, produces bigger yields of quality grain that brings higher prices

BUNT or stinking smut can reduce healthy wheat to a worthless, hollow shell

"Seed cleaning and treating is the first step toward increased yields of quality grain."

The pictures above help explain why farm experts offer this advice. You can plainly see that if your grain drill is loaded with an assortment of seed grain, pieces of straw, grain hulls and weed seeds, your standing crop will show up with many bare or thin spots, where you have sown trash instead of good seeds. Thorough machine cleaning takes out almost all of this foreign matter.

It is not easy to see spores of bunt on the seed. In fact, to the unaided eye, the seed may appear free of stinking smut and with certain weather conditions the resulting field may be 50 percent bunted. So wheat growers should not take this chance when they can be absolutely sure of not having bunt for only 1¢ to 5¢ per acre. This insurance may be had by treating the seed with a good disinfectant just as it leaves the cleaner or 24 hours or more before planting. Your County Agent can direct you to a cleaning and treating machine, or tell you how to do it yourself.

Kirby to Preach

Dr. J. Edmond Kirby, district Methodist superintendent, will fill the pulpit at the First Methodist church for the Sunday morning and evening services in the absence of Rev. Lloyd H. Jones, pastor.

Mr. and Mrs. O. W. Dunkle and sons were guests of Mrs. Dunkle's parents, Mr. and Mrs. C. R. Patton of Higgins, last week end.

Dean Maberry, who attends West Texas State College at Canyon, visited his parents, Mr. and Mrs. J. D. Maberry, last week end.

To Pampa Meeting

Irvin Buchanan, Max Boyer, W. B. LaMaster and Lee Little will attend the annual meeting of the Pampa Chamber of Commerce tonight.

Martin Dies, former Congressman, will be the principal speaker.

T. B. Still Plagues Singapore

SINGAPORE (AP)—Tuberculosis still remains the chief killer of Singaporeans. In a seven-day period the "white plague" killed 46. Pneumonia, also a predominant cause of death, claimed 27 lives, followed by enteritis, 23.

There were 225 deaths (110 men and 115 women) and 611 births in the week.

Poker is believed to be an adaptation of a Persian game, "as nas," which came to the United States by way of New Orleans. It takes its name from the French game "poque" and the German game "pochen" which it resembles.

'The Mudlark' Is Scheduled At Pertex

"The Mudlark," selected for exceptional tribute in being chosen this year's Command Performance picture shown in London before the King and Queen, will come to the Pertex Theatre on Wednesday and Thursday, Oct. 17-18.

Filmed in authentic British settings, "The Mudlark" tells the legendary and romantic tale of a kid who wanted to sit on a queen's throne. Based on a novel by Theodore Bonnet, the story finds Andrew Ray, playing the titular mudlark, a poor young lad of the slum-side London Thames River region, in the Victorian era, gaining entrance to the royal castle and upsetting more than palace regality before he's through.

The boy becomes a political cause celebre when Disraeli, the queen's Prime Minister, suspects him as part of a plot, but the screen play resolves itself when the lad is befriended by the queen herself, who realizes it is only affection the motherless child seeks.

Irene Dunne is seen as Queen Victoria and a new star, Alec Guinness, portrays Disraeli.

Those Women Insurance Workers!

TULSA, Okla. (AP)—A woman rammed her automobile into that of Bruce Lovelace, chief criminal deputy of Tulsa county.

He got out of his car and asked for her insurance papers.

"I don't have any," she replied.

"Where do you work?" Lovelace asked.

"At an insurance office," was the answer.

When American printing began, the presses were still much like that used by Gutenburg two and a half centuries before.

TEXAS CROWD A'MIGHTY

To an eagle flying overhead, this is the way the crowds at the State Fair of Texas might have looked last year. This year, as more than 5,000 workmen ready the magnificent fairgrounds at Dallas for the 66th annual exposition, October 6-21, the flurry of activity might look like this picture too. The photograph shows only a small segment of the 187-acre, $35,000,000 fairgrounds, of course. More than 2,300,000 people are expected to visit the fair this year. It's the world's biggest and best state fair.

'People Will Talk' Stars Cary Grant as New Doctor

With Cary Grant and Jeanne Crain in the starring roles, "People Will Talk," pokes some fun at the medical profession and at the same time tells a charming love story. The picture comes to the Ellis Theatre on Tuesday-Thursday.

Cary Grant is a Dr. Praetorius about whom the story revolves and he plays his part in the customary polished performance. The story is about a physician who has some strange and unorthodox ideas about the practice of medicine.

With this idea, Grant and Jeanne Crain, the love interest, proceed to have a field day. Dr. Praetorius, who in the course of the story proves that he is a real human being, interested in miniature trains and symphonic music, expound on "faith, properly injected into a patient, to be as effective in mainfaining life as adrenalin."

The fabulous Dr. Praeorius even takes a snipe at the practice of hospitals waking patients from a "health-giving sleep" to feed them to suit the whims of the kitchen help, and states his conviction that patients are sick people—not inmates in an institution.

He's 'Dr. Autry' In 'Hills of Utah'

In his recent pictures, Gene Autry has portrayed an Army scout, an Army officer, a forest ranger, a sheriff, a railroad detective, a U. S. marshal, a Texas Ranger, a Post Office detective and an ordinary rancher. Now, in "The Hills of Utah," which comes to the Pertex on Friday and Saturday, he plays the deceptively peaceful role of a doctor on horseback.

Although the profession of medicine would seem like a nice peaceful occupation, it brings nothing but trouble to Gene. The cowboy star winds up by reaching for his guns much more frequently than for his pills.

Mickey Rooney Is Drummer Boy In 'The Strip'

Offering an exciting trip along Hollywood's Sunset Strip, Mickey Rooney's new picture "The Strip" offers unusual entertainment and some hot music.

The picture comes to the Ellis on Sunday and Monday.

Rooney is seen as Stan Maxton who, on his discharge from the army, plans to resume his career as a musician but instead is persuaded to pick up "easy money" by working for Sonny Johnson, a Los Angeles bookmaking racketeer. It is when he falls in love with Jane Tafford, a night club cigarette girl determined to crash the Hollywood studios, that Stan finds himself in a tight spot. He introduces Jane to his boss because of the latter's studio connections only to find that he is losing his girl to the unscrupulous racketeer. How this dilemma is finally resolved in a shock climax makes for a story that is compellingly dramatic and absorbing.

The new church board consists of Bertha Leicht, clerk; Dean Leighnor, nominating board; Melvin Hummer, deacon; Marvin Groves, trustee; David Burger, finance; Roy Leicht, ministerial board; Harold Simpson, board of religious education and Sunday School superintendent; Lena Elledge, children's director and Women's Work group; Maud Stump, music and worship and Harley Elledge, treasurer.

* * *

Wilma Pletcher attended the Teacher's Institute last Wednesday in Amarillo. Her mother, Mrs. B. R. Pletcher of Perryton taught during the absence of Wilma.

* * *

Mr. and Mrs. J. R. Stump and family visited in Vici, Okla., Sunday.

* * *

The Home Demonstration Club met with Mrs. Alvin Klotz last Wednesday. Mrs. Mary Watson Jones gave a demonstration on "Comparing Grades of Canned Foods." During the business meeting, the president, Mrs. J. R. Stump appointed a nominating committee of Mrs. Alvin Klotz, Mrs. Irvin Molesworth and Mrs. LeRoy Reeves.

Those attending the meeting were Mesdames J. R. Stump, C. J. Frantz, Jr., H. N. Elledge, Marvin Groves, LeRoy Reeves, Irvin Molesworth and the hostess.

The next meeting will be Oct. 17 in the home of Mrs. Irvin Molesworth. Everyone is asked to bring a flower, fruit or dried arrangement to make different table decorations. Maud Stump will present a book review.

* * *

Mr. and Mrs. Herbert Wilkins and son of Lyons, Kans., visited Monday in the homes of Rev. and Mrs. Alvin Klotz and Mr. nad Mrs. David Burger.

* * *

Mrs. Mae Newingham and Billy are sporting a new white Chevrolet. How about a ride, Billy?

* * *

Curtis Leicht, who is attending college in McPherson, visited with his parents, Mr. and Mrs. Roy Leicht over the week end.

* * *

Mr. and Mrs. Dean Leighnor and family were Borger visitors Saturday.

* * *

Mr. and Mrs. Jr. Dunnihoo are visiting in Missouri this week.

* * *

Had a letter from the Melvin Colemans who are now living in Berryville, Ark. The Colemans reported that all natives of Arkansas have two or three fox hounds. The natives believe the baying of a hound after a fox makes beautiful music. The Colemans also tell of an interesting incident about public auction sales. People in Arkansas sell their farms, then auction off their household goods and livestock. It proves to be quite a show when three or four cups without handles will bring 15 to 20 cents. Someone nearly always buys the articles. A set of cracked plates will bring as much as sixty or seventy-five cents. A worn rusty shovel will bring at least a dollar and yet good furniture just doesn't seem to sell for much.

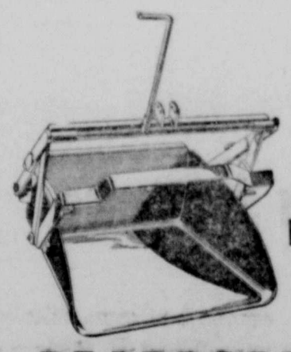

The Colemans also reported having attended a Texas Day Picnic at a nearby park in Arkansas. The Melvin Colemans are now full fledged farmers and invite their friends to visit them anytime in their new surroundings.

• East of Boyd

By Mrs. Aldeen Rodgers

The community received showers of varying amounts Friday evening and night. Light hail fell with some of the showers.

* * *

Many people are still busy combining maize and binding feed.

* * *

Mrs. Rosalie Hayden, who has been ill for several months, passed away Thursday evening at her home. She is a pioneer resident of this county having lived on the same farm near Boyd many years. She was always interested in the progress of the community and took part in church and Sunday school as long as her health permitted. She is survived by three sons, Verl W. of Crystal City, Leon of Denver, Colo., and Ray, several grandchildren and numerous other relatives.

Regular Service Comes Cheaper

MATTOON, Ill. (AP)—When the dog catching contract of Clarence J. Fryman, Jr., expired, the local police temporarily took over his job.

The cops had to kill two stray animals. The dogs had been injured by cars or fighting other dogs. One police officer tore his trousers chasing a dog. He said his pants cost $18.50.

Mayor G. W. Smith quickly requested the City Commission to renew Fryman's contract.

Veterans Forum

Q. Will the Veterans Administration find me a job? I am a World War II veteran.

A. The VA has no job-finding functions, under laws established by Congress. The place to go is your local state employment office.

Q. My daughter will be 18 next July—during the Summer vacation between school terms. She is receiving death pension payments because of the death of my husband, a World War I veteran. Will VA stop the payments between the time of her 18th birthday and the time she starts school in the Fall?

A. No. So long as your daughter enters school at the end of the vacation period, the payments may, with VA approval, be continued during the Summer after her 18th birthday—even though she is not actually in school during that time.

Q. I have just finished Public Law 16 training, and I expect to continue drawing subsistence checks for the two months following my rehabilitation. If I reenter military service, will the checks still keep coming to me?

A. No, you are not entitled to receive subsistence allowance if you are getting active service pay.

Q. Does time spent in the WAAC during World War II count toward building up entitlement for GI Bill training?

A. No. However, time spent in the WAC, after it became a component of the Army in 1943, does count.

WHAT! NO COWBOYS? Charles Torchia, 5, just knew he wasn't in Texas, because all he could see in San Antonio were city suits, white shirts and ties. He knew Texans wore boots, blue jeans and guns. It cost his parents, Mr. and Mrs. Joe Torchia of Pittsburgh, Pa., $45 for boots, shirts, hat and two guns to pacify Charles. Torchia said, "I get the same results in Pittsburg for 45-cents for a movie." (AP Photo)

NEW ROYAL

World's No. 1 Portable

Only Portable With MAGIC* MARGIN

Only on the Royal can margins be set automatically as on office typewriters. Completely new system sets both left and right margins instantly.

The easiest-writing portable ever built!

This beauty is the greatest value in portable typewriters—the finest portable ever made. Now for the first time 30 new "Office Typewriter" improvements.

Your fingers get away like a rabbit with the new Speed-King Keyboard. Truly, the world's fastest portable!

It is easier than rolling off a log to use the new, larger Finger-Comfort Carriage Controls.

Built-in quiet makes it a low-voiced, well-mannered family member, this new Royal Quiet De Luxe.

Beautiful, but strong—that describes Royal's new Contour Case! It's smartly tapered for added strength and beauty.

There's a new Rapid Ribbon Changer on this best-of-all portables. You can change ribbons blindfolded – it's so simple.

Not single spacing! Not double spacing! But new Triple Spacing. Another "Office Typewriter" feature.

Explorer Scouts Plan Open House

An open house for parents of boys 14 years of age or older who are interested in Scouting will be held Friday night, October 19, in the new Explorer Scout meeting room in the American Legion Hall.

With a permanent meeting place, the Explorer Scout Post plans to enlarge and invites more boys to become members, according to Troy Sullivan, Post advisor.

The Explorer Scouts will attend a meeting in Pampa on Oct. 17 and will attend a performance of Sheakespeare's "Macbeth" in Booker.

OFFICE GIRL—Miss Elaine McCartor, who works in the accounting department at the Equity general office, has been at the job for nearly five years and says she likes it. She operates a comptometer, calculator, adding machine and the other office machines in keeping accounts. "One thing I like about this job," she says, "is that it is cool in summer and warm in winter," and she may have a point there.

Six Concerts Are Scheduled

Although the dates have not been set definitely, a number of top flight artists have been secured by the North Plains Mutual Concert Association for the coming concert season.

First concert will be William Masselos, described as "perhaps the greatest, undoubtedly the most versatile of American pianists." This concert is tentatively scheduled for October 29.

In November, Lillian Moore, dance comedian, will appear here. "Miss Moore has fun and so does her audience," said the New York Herald-Tribune in describing her performance.

John Anglin, the popular young Negro tenor, will bring the January concert, with Martha Flowers and Kelley Wyatt. They present a joint recital featuring songs from "Porgy and Bess."

The headliner concert is tentatively scheduled for February when the Fred Waring piano duo of Morley and Gerheart will appear. Nationally known, these performers present a top notch evening of entertainment.

The Demi-Tasse Players, an evening of three delightful one-act plays, will be the March presentation.

Joan Field, said to be the most interesting of contemporary violinists, will come to Perryton in April. She has been seven times soloist with the New York Philharmonic, yet her arrangements of present-day jazz music makes people think it had been written for the fiddle.

SUPPER TIME—When one of a litter of pigs on the N. B. Barron farm near Tyler, Tex., refused the sow's milk, four-year-old Carey Dale Barron found the answer. He is shown bottle-feeding the pig which he named "Pickle Nose. Incidentally, "Pickle Nose" is now a very healthy pig. (AP Photo)

Gas Stolen At Wall Farm

Theft of 300 gallons of gasoline was reported to the sheriff's office last week by Carrol Wall, whose farm is located about 25 miles south of Perryton on highway 83.

Wall told deputy sheriff Clyde Tarbox that the theft was discovered last Wednesday when Mrs. Wall went to fill up the family car from the overhead tank and found it dry. It is not known when the theft was made and there were no evidences of tampering with the tank, Tarbox said.

Mr. and Mrs. Richard Morgan of Eads, Colo., spent Wednesday and Thursday visiting his parents, Mr. and Mrs. Arthur Morgan and grandparents, Mr. and Mrs. G. B. Mears.

The New York football Giants will start training at Saranac Lake, their "lucky" camp, on July 23.

Christian Church Director Here

Chester Crow, director of religious education for the Christian churches of Texas, is at the First Christian church Saturday and Sunday. He will meet with all church officers during his visit and preach both the morning and evening services.

Mr. Crow will meet with the educational committee at the church Saturday evening and will meet with all adult Sunday School classes in the sanctuary Saturday morning. Meetings are scheduled with the general board, Sunday School workers, the children's workers, and the youth leaders.

His Sunday morning sermon topic is "Building Material for the Church" and he will speak that evening on "Why Is the Church a Church?"

The oldest winner of the golf championship was Horace Rawlins who was 43 when he won the Inverness in 1920.

Parents Invited To Ranger Band Club Meeting

The Ranger Band Club will sponsor a basket supper in the school cafeteria on Tuesday evening, Oct. 16, for the families of all band students in the Perryton schools.

Purpose of the supper, according to Mrs. Dean McLarty, president of the club, is to better acquaint the parents of the band students with the aims and activities of the Ranger Band Club.

The supper will be served at 7 p. m. and will be followed by a short organizational meeting of the Ranger Band Club. Entertainment will be provided for the children in the gymnasium and a social hour for the adults will follow the business meeting.

said.

The Equity elevators at Twichell and Huntoon have been blocked for short periods, but there has not been much delay in getting some space at those elevators, Bell said.

About half of the grain being brought to the elevators is being stored.

Cutting started this week north and northeast of Perryton, where the best yield is expected to be. Yields in these fields are estimated at 60-70 bushels, while the county average is expected to be 30 bushels.

The ribbon or oar fish is sometimes taken for a sea monster.

Junior Team Meets Phillips

The Perryton junior high football team will meet the Phillips juniors at Ranger Field this afternoon in their third contest of the season. Phillips measured the Perryton team, 27-0, in their first game of the year.

Last week the Perryton juniors beat Liberal, 6-0, and have shown much improvement since they played Phillips.

Game time is 2:30 p. m.

Big Feet Bring Vacation

WITH THE FIRST MARINE DIVISION IN KOREA (AP) — Pfc. Saadi A. Ferris II has feet big enough to earn him a 20-day vacation from the front lines. The Austin, Texas Marine sports 14 double E's. He brought some of the gunboats with him from the States, but they wore out a few weeks ago, and the supply sergeant had nothing comparable in stock.

"Nobody," he insisted, looking unbelievingly at Ferris' huge feet, "has shoes that size."

The battalion doctor took a more realistic view of the expansive matter.

"Rear echelon for you, son," said he. "We'll send to Japan for a pair of shoes, but they'll probably get here one at a time. Our cargo planes are only so big, you know."

Twenty restful days later the 14 double E's were in, and Pfc. Ferris once again is leaving incredible footprints in the central Korean mountains.

School Health Check Shows Few Defects

The great majority of elementary school children in the Perryton schools are in excellent physical condition, the school health check, completed last week, revealed. Approximately 85 per cent of the children needed no corrective measures and the remaining 15 per cent were found to have minor physical defects.

Children from the first through the fifth grades were examined by local physicians, dentists and optometrists. There were over 500 in all.

Parents of the children found to have a remediable defect were notified by school authorities.

Mrs. Henry Richardson, Parent-Teachers Association health chairman, said this was the most successful health survey yet made locally.

Dr. Roy Sanford, Dr. D. B. Pearson, Jr., physicians; Dr. Manse Wood and Dr. Max Wood, dentists; and Dr. Reese Nowlin, optometrist, contributed their services in the survey.

PTA members who assisted were Mrs. Aldon Bell, Mrs. Ivan Lovett, Mrs. Paul Haywood, Mrs. Jack Todd, Mrs. Bill McLanahan, Mrs. Virgil Castle, Mrs. Vernon Hergert, Mrs. Manse Wood, Mrs. Max Boyer, Mrs. Clarence Neufeld, Mrs. Dale McLain, Mrs. Oscar Blank, Mrs. Ray Thomas and Mrs. Chester Williams.

Dick Bunting and Frank Hildrith of a Jackson, Mich., bowling team recently bowled identical scores of 152-199-146 for a 497 score.

LLINGTON GAINS—Tommy Wood (22) of the Willington Skyrockets made 8 yards on this play g the Rangers Friday night before being brought down by Rangers J. B. Langwell (68) and Gene (52). The Skyrockets won the game, 31-6.

rong Wellington Team Trims ngers Friday by 31-6 Score

much speed in the back- and too much defense prov- unbeatable combination night as the Wellington kets zoomed to a 31-6 vic- over the Rangers. Sparked fastest backfield in the ndle, the Rockets scored in period and had a 31-0 lead the Rangers could scratch zone.

eld was damp from the ich preceded the game, slick ball proved no to the passing game of am.

in the Rocket secondary big obstacle for the Ran- several occasions the ball carrier was cleared secondary, only to be down from behind. The situation prevailed when ton had the ball. Once a runner got clear, he out- ed the Ranger defenders. ut Wellington line throt- e Ranger attack, limiting 20 yards net on the The Rangers completed passes, good for 81 yards. f the Wellington scores one came on long distance The first one was a 69 yard gallop by big Seldon Wood, who ran from his own 31 around left end and went all the way to the end zone. The kick was no good and it was 6-0 when the first quarter ended.

In the second quarter, Wellington drove from their 46 to the Ranger 14, but the drive was stopped when B. R. Pletcher intercepted a pass on the 6. On the first play, however, the Rangers fumbled and Wellington recovered on the 6. Two plays later Hoot Gibson drove across for the touchdown and it was 12-0. The try for extra point was wide.

The third touchdown came after a thrilling kickoff return by Gene Clack of the Rangers and stunned the Perryton fans. Clack took the kickoff on his 10 and raced to the Wellington 15, being brought down from behind by Seldon Wood. Cummings punched to the 10, then Gibson intercepted a pass thrown by B. R. Pletcher to snuff out that scoring threat. A holding penalty set Wellington back to the 4, and then came the touchdown pass.

Tommy Wood faded back and heaved one out to the 40 where Seldon Wood took it over his shoulder and scampered all the way for the touchdown. Lonnie Wood kicked the extra point and it was 19-0 at the half.

In the third period, Douglas Duncan went 37 yards to score and made it 25-0. The Rangers drove to the Wellington 20 in that period but couldn't make the score.

In the final period, Tommy Wood went wide around left end for a 55-yard touchdown jaunt and it was 31-0.

Immediately following that touchdown, the Rangers scored. Pletcher threw a screen pass to J. B. Langwell from the 44 and Langwell was cleared into the secondary but was snagged from behind on the Rocket 11. On the next play Ed Cummings plowed across for the touchdown. Clack's try for the extra point was no good.

The work of Don Cooper, J. B. Langwell and B. R. Pletcher stood out for the Rangers, while the fleet-footed trio of Seldon Wood, Tommy Wood and Hoot Gibson were the stars for the visitors.

INTERCEPTED PASS—B. R. Pletcher, Ranger halfback, intercepted a Wellington pass on the Ranger 6-yard line Friday night to stop a scoring drive. However, the Rangers fumbled on the next play and the Skyrockets scored. Making the tackle on Pletcher is Charlie Johnson, Wellington end.

Photo by Perry Studio

RANGERS HOLD—Hoot Gibson, Wellington fullback, is hauled down for a short gain in the third quarter of the Wellington-Perryton game last Friday. Making the tackle is Doc Carter, with Clifford Kauffman, Verle Downey, Donald Cooper and Bobby Mitchell coming in to assist.

Mystery "Sword" Studied

CANTERBURY, England (AP) — Can you identify an iron "object," three feet long, shaped like a cricket bat with a rounded handle and weighing eleven pounds? If you can, the Canterbury Museum wants to hear from you.

The object was found at the Barton Fields cottage of E. A. Johnson during recent alterations. He kept it around until A. H. Russell, President of the Bristol Antiquarian Society, visiting the house, expressed the opinion that it was an ancient sword.

Other experts did not agree, however, and when the thing was put on show in the museum, with a request for suggestions as to what it might be, a small boy came forward with an exactly similar object, but weighing only nine pounds, which he found in a garden 200 yards from the scene of the original find. Local builders say that the objects have never been tools in their trade.

Trees produce a greater proportion of food in the tropics than anywhere else in the world.

Jona Janzen Buys Interest in Local Cabinet Shop

Jimmie Watters is announcing the sale of one-half interest in his cabinet shop and a change of the firm name to Perryton Cabinet Shop.

Jona Janzen, well known carpenter, has purchased one-half of the shop, located at 218 North Main, Watters said.

The new firm will offer all types of mill work, store fixtures, metal wall tile, asphalt and rubber floor tile and floor and wall linoleum, in addition to general contracting.

Latex for rubber is obtained by wounding a tree which responds by trying to heal the wound.

How to make plain foods taste better!

By MARY MANNING

You will be delighted with the way "every-day" dishes perk-up when you top them with Fairmont Half-and-Half. Fairmont Half-and-Half is a delicious blend of good, wholesome milk and fresh, country cream. Its rich, fresh goodness adds the finishing touch so many plain dishes need.

Mary Manning

Keep it on hand for coffee. Try it over baked apple, fresh fruits, puddings, or apple pie. You'll find all these dishes more delicious with the added flavor of Fairmont Half-and-Half.

You'll want to use Fairmont Half-and-Half for breakfast cereals, too. Morning appetites are usually dull. But, the wonderful flavor of Fairmont Half-and-Half makes cereals taste so good, you'll find your family eating all their cereal and asking for more.

Here's another treat you'll want to try. Mix 1/3 part Fairmont Half-and-Half with 2/3 parts prepared salad dressing. Blend together until mixture is creamy. Add two teaspoons sugar. Pour over cut-up apples, bananas, orange slices and marshmallows. Serve as a salad.

Get Fairmont Half-and-Half today and treat your whole family. They'll like it.

FAIRMONT MILK
THE GO FOOD — THE GROW FOOD

World populations began to grow rapidly about 1650 after the end of the 30 Year's War.

Size it up and you'll see why

More People Buy Chevrolets Than Any Other Car!

Longest of the Lot

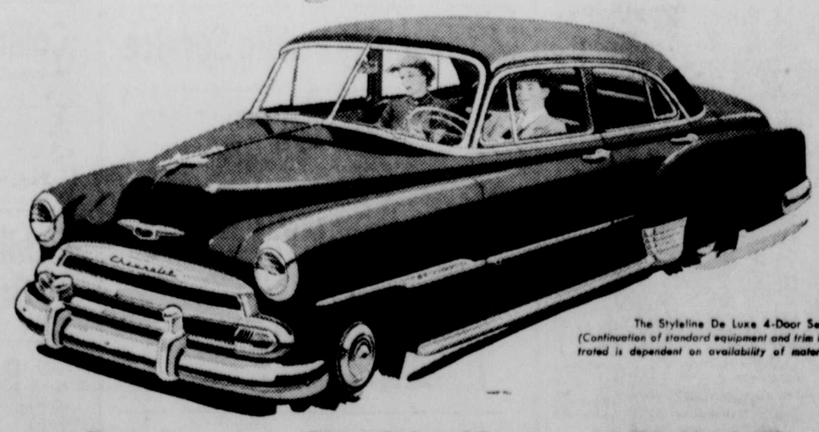

Chevrolet looks longest, Chevrolet *is* longest . . . a swank and sweeping 197⅝ inches over-all that tops any other car in the low-price field. Size up Chevrolet's greater length, and you'll find it hard to settle for less.

Most Road-Hugging Weight

Gives you more road-hugging, road-smoothing weight . . . a hefty 3140 pounds† in the model illustrated that no comparable car in the field can match. Get the feel of this big car, and you won't settle for less. (†Shipping weight.)

Widest Tread in Its Field

Here's the steadiness of the widest tread in the field . . . 58¾ inches between centers of rear wheels. Once you've known the better roadability of Chevrolet's wider tread, you wouldn't settle for less.

Christian Science

7th and Colgate
Services 11 a. m. each Sunday
Public Cordially Invited

Because God is the only creator and creates only good, He is not the maker of sin, disease, and death, asserts the Lesson-Sermon to be read in Christian Science churches, Sunday, Oct. 14, titled "Are Sin, Disease, and Death Real?"

Corroborating this assertion the Golden Text reads (Psalms 118:14, 17): "The Lord is my strength and song, and is become my salvation . . . I shall not die, but live, and declare the works of the Lord." And from the Bible text (Psalms 27: 1): "The Lord is my light and my salvation; whom shall I fear? the Lord is the strength of my life; of whom shall I be afraid?" Continuing the theme, these passages from "Science and Health with Key to the Scriptures" are cited: "The procuring cause and foundation of all sickness is fear, ignorance, or sin" (p. 411). "Disquisitions on disease have a mental effect similar to that produced on children telling ghost-stories in the dark . . . As frightened children look everywhere for the imaginary ghost, so sick humanity sees danger in every direction, and look for relief in all ways except the right one. Darkness induces fear. The adult, in bondage to his beliefs, no more comprehends his real being than does the child; and the adult must be taken out of his darkness, before he can get rid of the illusive sufferings which throng the gloaming. The way in divine Science is the only way out of this condition" (p. 371).

Woodward Range Day Program to Be On Saturday

Fred R. Merrifield, General Agent of the Farm Credit Administration of Wichita, Kans., will be principal speaker at the Fifteenth Annual Range Improvement Field Day of the USDA Southern Great Plains Field Station at Woodward and Fort Supply, Okla., on Saturday, October 13. He will discuss "Financial Problems of the Cattle Industry" following the noon-hour barbecue phase of the program.

Most of the day will be devoted to inspection tours and discussions of ten years of grazing results with beef cattle on native range and reseeded pastures. The many management practices under investigation will be evaluated in terms of net profits obtained during the decade of study. These economic appraisals have been made through the cooperation of specialists in the Oklahoma A. & M. College's Department of Agricultural Economics and the USDA Bureau of Agricultural Economics.

The economic theme of the meeting will be emphasized in the principal address by Merrifield. As leader of many financial agencies, his address will be of special interest. He is a graduate of Oklahoma A. & M. College and a veteran of World War I. After serving as a ranch manager in Texas he worked as County Agent in Woodward County, Okla., for three years and was District Agent in Northwestern Oklahoma for ten years. This included a large part of the area served by the Southern Great Plains Field Station. He was raised on a stock farm near Enid, Okla., and still owns and operates the farm there.

"What shall I render unto the Lord for all His benefits?" (Psalms 116:1 Every man of earnest and serious mind must ask himself this question as he medita on the goodness and the Grace of God toward him. We want to do what is right in o every association with God and man. The Government takes as its proper share at le twenty per cent of every man's income. WHAT IF GOD SHOULD REACH DOW INTO YOUR LIFE AND MINE AND TAKE WHAT REALLY BELONGS T HIM? How much would be left for us? Have you raised corn? Or did you and G work together in making the corn crop? And just which of you put more time a energy into the process? Have you "struck" oil? Who spent centuries creating the oil a holding it in the underground lake until you came along? Is the oil really all you What is God's share? YOU AND GOD ARE PARTNERS IN THE OIL BUSINES WHAT IS HIS PORTION?

Jesus Christ is our revelation of the generosity of God who has been the eter Giver, enriching us with every sort of good thing. From the day of the first creation G has been at work with and for man. Each of us represents in his body and in his so the everlasting toil of God, who truly wants to make us His children and who desir us to join Him in making an ever better world for His sons and daughters to live i JESUS IS OUR PATTERN OF WHAT A MAN CAN GIVE TO HELP IN TH PURPOSE OF GOD. HOW MUCH DID JESUS GIVE BACK TO GOD?

Jewish and Christian people have agreed that we ought to give at least a ten of our income to God and His Church for the carrying on of His redemptive program A tenth will not necessarily discharge all our debt, but it will show a sense of deep grat itude. Everything is His, even the cattle of a thousand hills and the abundant harve from the fields. He gives us everything which makes life abundant. Our ideal is to jo in the prayer, "Take my life and let it be consecrated, Lord to Thee." Let's be good partners with God. Let us be His co-workers. MAY WE GLADLY GIVE BACK TO HIM AT LEAST A TENTH OF WHAT HE SO FREELY GIVES US."

Making for Monopoly

A dangerous measure proposed these days by the rich is one to limit income taxes to 25 per cent except in extreme emergencies.

Several states have passed this amendment and it would take only 36 out of 48 to make it the law of the land. But a few states passed the amendment and in later sessions of the legislature repealed it.

Such an amendment would make the rich richer and would have America a land of serfs within a few years. Rich corporations and individuals would take their earnings and buy up smaller firms.

The small business man would be a thing of the past. He is having a hard time to stay on top now even in these boom days. Much clothing and food business has passed into the hands of corporations doing hundreds of millions of dollars annually.

The small business man should be the backbone of America, but he is rapidly being pushed aside by these large firms who do not put their profits back in the home town. They take away the financial vitality of large and small communities.

Wolf Creek Philosopher

Favors Plan for Tasty Weed Dish

(Ed. note: The Wolf Creek Philosopher is still looking for the easy way out, his letter this week reveals).

Dear editar:

It is always a pleasure to me to find scientists catchin up with us common folks.

Yesterday I was plannin on burnin a wasp nest down as a sort of birthday present for my wife, the nest was right at the back door and while me and the wasps ain't never bothered each other, live and let live is our policy, they sort of made her nervous and so I agreed to the undertakin and had a newspaper rolled up with the end flared ready to put a match to it when I noticed an article and got to readin it and walked off and sat down by the barn, I can get that wasp nest next year or the year after, there'll be other birthdays comin up.

What the article said was that a Nobel prize-winnin scientist, Sir Robert Robinson of Oxford University, England, was workin on an idea to increase the world's food supply by utilizin second class vegetation not now fit for human consumption.

I have been agitatin for this for years contendin A & M College could render a real service to humanity if it would perfect a breed of cows that could live on my weeds and thistles, instead of spending so much time workin on me to grow the kind of grass my cows happen to have taste for.

But if they've got a Nobel prize-winner workin on this problem, we may get somewhere and I will be happy to offer my farm out here on Wolf Creek as a sort of laboratory. I've got more second class vegetation unfit for human consumption out here than Sir Robert ever dreamed of.

If he can work out a menu includin say Johnson grass green salad, salted cockleburs, mashed gourds surrounded by bindweed blossoms and garnished with crabgrass, baked sunflower heads, goat head relish, pickled blueweeds and a few other items, topped off with ice cream made from bluejohn, I can turn my farm into a beehive of production for the hungry world, without liftin a hand.

Yours faithfully,
J. A.

Marine Recruiter Here October 17

M-Sgt. D. W. Hamilton, U. S. Marine Corps, will be at the Army and Air Force recruiting office in Perryton all day on October 17 to talk to persons interested in joining the Marine Corps.

Any person 17 years of age with their parents' consent may join the Marine Corps. Young men who have received their pre-induction physical examination may join the Marines.

America's first handmade pressed glass was made in the early 1800's at Cape Cod's Sandwich factory.

Stop Taking Harsh Drugs for Constipation

End Chronic Dosing! Regain Normal Regularity This All-Vegetable Way!

Taking harsh drugs for constipation can punish you brutally! Their cramps and griping disrupt normal bowel action, make you feel in need of repeated dosing.

When you occasionally feel constipated, get *gentle* but *sure* relief. Take Dr. Caldwell's Senna Laxative contained in Syrup Pepsin. It's *all-vegetable*. No salts, no harsh drugs. Dr. Caldwell's contains an extract of Senna, oldest and one of the finest *natural* laxatives known to medicine.

Dr. Caldwell's Senna Laxative tastes good, acts kindly, brings thorough relief *comfortably*. Helps you get regular, ends chronic dosing. Even relieves stomach sourness that constipation often brings.

INDEX OF TEXAS BUSINESS ACTIVITY

ADJUSTED FOR SEASONAL VARIATION

1935-39=100

BUSINESS ACTIVITY IN TEXAS—August business activity in Texas showed a small gain over July, which, in turn, was slightly below the June level. The index of business activity, compiled by the University of Texas Bureau of Business Research, rose 3 per cent in August from the July level, bringing it to 238 per cent of the 1935-39 base period. (AP Photo)

From the SIDELINE

with HAROLD HUDSON

We had a story last week about the district 1-AA basketball meeting at Dumas, and pointed out that Perryton has been awarded the district tournament this year, for both boys and girls. Now it has been called to our attention that we left out a vital part of that story. Gilbert Mize, superintendent of the Perryton schools was elected district basketball chairman for the coming year.

However, we're not going to apologize for this oversight. You see, our informant about the meeting was—you guessed it—none other than the modest Mr. Mize.

We are really happy about landing the district tournament. For years, district opponents refused to come to Perryton because of the small gym, and when we got the new one, some of them claimed it was too far to travel, making a home-and-home system of games out of the question in deciding the title. Last year Phillips had the tournament in their new gym and we are gratified that the other member schools saw fit to let Perryton fans see some good basketball this year at the big tournament.

Turning away from basketball and back to football—it looks as if the road ahead is long and rocky for the Rangers. They stand an excellent chance of beating Guymon, but after that they will hit four of the toughest teams in the Panhandle, and all of them district foes.

We have been intrigued with the story the past few days in the daily papers about the Houston boy who wants to marry an Egyptian "belly dancer." It seems to us that the correspondent who filed that story must have a stroke of genius in describing the sultry Egyptian miss as a "belly dancer," since this choice of an adjective landed the love affair on the front pages of America's newspapers.

At the risk of being considered perfectly naive—just what in the dickens is a "belly dancer?" Does she dance on her belly? Does she shake it or just uncover it? Does she have it decorated with neon lights? We know about a hootchy-kootchy dancer, a fan dancer, bubble dancer, bumps and grinds and all that, but we really don't know what a belly dancer is. Will someone please inform us?

The Beaver Herald-Democrat says that Beaver county has been forced to withdraw from the Panhandle Weather Improvement Association because of insufficient funds to meet the $2,263.00 payment due Dr. Irving Krick's organization this month. We wonder if the fact that there hasn't been any rain, and right at wheat sowing time, has anything to do with the shortage of funds. Beaver county has paid $5,940.48 and $1,782.00 to the Panhandle Weather Improvement Association at Guymon and to be quite frank, we can't see that any more rain has fallen there than in independent Ochiltree county, which didn't put up a cent.

A Dr. Konrad J. K. Buettner at San Antonio has words of cheer for us fair-haired people. He has determined, by the latest scientific methods, that the safest kind of person to be if an atom bomb falls near is a blue-eyed, fair-haired Scandinavian. Least safe, says Dr. Buettner, are the dark-skinned peoples of Africa and the tropics.

Reassuring, but they tell us that the fair-haired, blue-eyed folks are far more likely to be hit with an atom bomb than those dark boys in Africa.

And in Chicago, an economist says that no one now living will ever see the American dollar again buy what it did in 1940. Arthur A. Smith, vice president of the First National Bank in Dallas, says "We have gone quite a distance down inflation road, but we can go much farther—and likely will." One reason, he said, is that "Uncle Sam himself is the world's largest debtor" and debtors "always want to pay their debts in cheap dollars."

This expose of bureaucracy at work was clipped from Time Magazine: There were too many pratfalls in the Pentagon's terrazzo and waxed corridors. The complaints were duly referred through channels to the General Services Administration, Department of Buildings Management. Naturally, the situation called for a survey. That called for special equipment. So the matter was referred to the National Bureau of Standards, Division of Research and Development. There a machine was built, and labeled "Sigler Pendulum Impact Type Slipperiness Tester."

This device, designed to "determine the co-efficient of friction which is an index of relative slipperiness," was delivered to the General Services Administration, Department of Buildings Maintenance survey team. The team surveyed. After weeks came a report. Freely translated from the Pentagonese, it said: the floors aren't too slippery at all; people around here are just too careless.

So the Safety, Fire Prevention and Protection branch of the Public Buildings Service was called in. After study, it suggested that all chief clerks and administrative officers issue memorandums to employees warning them against unsafe acts.

Last week a ten point program was duly outlined, full of useful advice. Sample (Point Two): "Face in the direction you are walking."

An attraction at Morristown (N. J.) National Historical Park is the Ford House, where George Washington lived the winter of 1779-'80.

Power-Plus IN EVERY MILE!

(1.) ROAD TEST A MERCURY FOR PROOF OF PERFORMANCE

You'll know what real power *plus* means the first moment you ease a new Mercury out onto the highway. Mercury adds up. There's read-your-mind handling, foam-rubber comfort, sure-fire pickup from the V-8 "Hi-Power Compression" engine. There's everything you've ever wanted in a car—*plus* a lot of things you've never thought of. Try a few miles in a Mercury tomorrow.

Standard equipment, accessories, and trim illustrated are subject to change without notice.

Value-Plus IN EVERY INCH!

(2.) BUDGET TEST A MERCURY FOR PROOF OF VALUE

Does it have a down-to-earth first price? Mercury's price tag you can understand—a big dollar's worth for every dollar invested.

Will you be sure of good gasoline mileage? Mercury has continually proved its more-miles-per-gallon by winning officially sponsored economy tests.

Is it famous for long life? It is indeed! 92% of all Mercurys ever built for use in this country are still on the road, according to latest annual official registration figures.

Will upkeep stay low? You save money year after year. Mercury's famous stamina keeps repair bills at a rock-bottom low.

3-WAY CHOICE! For "the drive of your life!" Mercury offers you a triple choice in dependable transmissions. Merc-O-Matic Drive, the new simpler, smoother, more efficient automatic transmission—or thrifty Touch-O-Matic Overdrive are optional at extra cost. There's also silent-ease standard transmission.

MAKE THE **MERCURY** 2-WAY TEST

FOR THE "BUY OF YOUR LIFE!"

The crater of volcanic Mt. Katmai, Alaska, is three miles wide.

Portugal's overseas holdings today are Portuguese India, Timor in the East Indies and Macao in China.

Castor Beans Producing Well Near Vernon

VERNON, Texas (AP) — Here's bad news for little boys.

Farmers near this North Texas cotton and wheat center are growing a bumper crop of castor-oil beans this year.

It's good news for farmers here and in neighboring Oklahoma counties. They expect to stuff more than $2,000,000 into their blue jeans this fall when they sell their castor beans.

The present incentive for castor bean production is military stockpiling. Castor oil is used in manufacturing a special grease for jet airplanes. Its lubricating properties are constant in burning heat or at high altitude sub-zero temperatures. Castor oil has another military use in plastics made for light weight electrical insulation.

This Texas area has about 15,000 acres in castor beans—nearly one-third of the nation's total this year. Most of it is a contract crop for the Baker Castor Bean Corporation. In addition, the firm has about 12,000 acres of castor beans under contract cultivation across the Red River near Altus, Okla.

The company also contracts castor beans in the Panhandle near Wellington and Hereford.

There are plantings of an additional 11,500 acres of beans in 14 counties south of here in the Brownwood area.

The combined Vernon-Brownwood-Altus regions will produce about two-thirds of the U. S. domestic castor bean crop this year.

One of the leading producers in the Vernon area is Ira Turner who farms near Chillicothe south of here. He gave up cotton and wheat this summer and planted castor beans on his 300 acres.

The bean plants resemble cotton and can be cared for with cotton equipment. But they are easier to grow.

After a few early cultivations, Turner lets his cows graze between the rows to keep down weeds and grass. His cattle are smart enough to ignore castor beans and plants. The beans are toxic to animals.

Castor beans form in clusters on branches called "spikes." Hand harvesting of the summer crop is underway. Only the top, mature beans are picked the first time over the field.

Sometime after frost, beans on the lower and middle spikes will be harvested by machine. The Commodity Credit Corporation will rent tractor-powered strippers developed by the Oklahoma A&M extension service. Since the strippers clean the field, they cannot be used on the early crop at the top of the stalks.

A new Cimarron variety of castor bean is becoming a favorite with farmers. The dwarf plants harvest easier by machine than the taller Connor variety.

R. H. Nelson of Brownwood, director of the Commodity Credit Corporation castor bean program in Texas, said the government is asking farmers to plant 200,000 acres of castor beans next year. It recommends about 150,000 acres for dry-land areas common to northwest Texas.

Castor beans also thrive under irrigation. Some are being grown in Pecos and Reeves counties in West Texas.

T. L. McBride, Wilbarger county Production and Marketing administrator here, estimated the average yield at 800 pounds to the acre. Some sub-irrigated sections may produce 1,400 pounds to the acre.

An American group has sent 50,000 eucalptus trees to Israel to provide timber and help check soil erosion.

GAME EXPERT—Jimmy Cox (above) superintendent of the New Mexico game department farm at La Huerta, near Carlsbad, holds one of the strikingly-colored chukars he is raising at the farm. Cox has charge of the production of some 8,500 game birds at year. He is planning a scientific research trip to the Middle East. (AP Photo)

The U. S. Army has its own pilots, trained in U. S. Air Force schools.

During World War II about 140,000 women served in the Women's Army Corps.

Carpet Copyright To Be Auctioned

TORONTO (AP)—The copyright for Queen Mary's carpet has been assigned to the Imperial Order Daughters of the Empire and will be sold to the highest bidder.

Mrs. W. R. Walton, Jr., of Oakville, Ont., who has been in charge of the handsome piece of needlepoint since the order took charge of it 10 months ago, said in an interview that money from the sale of the copyright will go to swell the Dollars-for Britain fund established by the I.O.D.E. to buy the carpet for Canada.

Lepers Cured

KUALA LUMPUR (AP)—Health authorities reported 230 men, women and children were released from the Sungei Buloh Leper Settlement during 1950. Most of those listed as cured returned to their homes.

St. Francis Xavier was buried at Goa, Portuguese India.

St. Frances Xavier was known as the "apostle of the Indies" for his missionary work in the Far East.

In many Asiatic languages the words for rice and food are identical.

Carefulness prevents FIRE!
INSURANCE prevents loss!

You can lessen the possibility of fire, by developing the "carefulness" habit. But should the devastation of fire strike, regardless . . . if you are not insured you will be the first to accuse yourself of unforgivable carelessness. Be doubly protected! Prevent "careless" fires where possible; and loss through fire, with certainty, by insurance, now!

THE TEXAS POLL

Pinched Pocketbooks Feared For Future, Texans Report

AUSTIN, Texas—Looking toward 1952, most Texans expect an increasingly pinched pocketbook.

In its most recent check-up on cost-of-living expectations, The Texas Poll has found that out of every one hundred persons only two optimistic souls think it is going to be easier to make ends meet six months from now. About a third of the state's adults say conditions will probably remain as they are. But the majority, fifty-eight out of every hundred, believe it is going to become even more difficult to keep their budgets balanced.

These are the results of a survey completed during September. This gloomy state of public opinion has changed little from what it was a year ago, shortly after the outbreak of the Korean war. There has been an increase in the number of people who think that half a year from now conditions will still be the same. But the reason for the increase is that some folks who a year ago were looking forward to easier times, have now become more pessimistic.

The results are based on this section, which The Texas Poll has had its interviewers ask repeatedly since 1947: "Six months from now, do you think it is going to be harder to make ends meet, easier, or about the same as now?" Consumer expectations on what the cost of living is likely to be in the near future are an important ingredient of economic conditions in the making For this public opinion influences spending, and spending has direct effect on prices and inflation.

The question was asked in May, 1947 (three years before Korea), May, 1949 (one year before Korea), October, 1950 (four months after Korea), and Sept. 1951 (fifteen months after Korea):

"Six months from now, do you think it is going to be harder to make ends meet, easier, or about the same as now?"

	May 1947	May 1949	Oct. 1950	Sept. 1951
Will be harder	41%	38%	59%	58%
Same as now	40	42	29	35
Easier	13	15	5	2
No opinion	6	5	7	5
Total	100%	100%	100%	100%

Apprehension on the inability to reconcile income with expenses cuts across the population regardless of wealth. As this breakdown of the current results shows, opinion is practically the same among people in the upper and lower income classes:

	Upper Class	Lower Class
Will be harder	57%	58%
Same as now	37	34
Easier	2	3
No opinion	4	5
Total	100%	100%

PRIZE WATERMELON—Sen. Lyndon Johnson starts with a penknife, Speaker of the House Sam Rayburn is more realistic and Rep. Wright Patman (left to right) waits for a share as the Texas Democrats go to work on a prize winning watermelon shipped to Washington from Cass County, Tex. The 181-pound melon was sent to Patman by A. O. Brabham of Atlanta, Tex. (AP Photo)

POLIO VICTIMS—Mrs. B. F. Gray, (left) and her daughter, Janet Sue, 8, both of McAllen, Tex., were reunited in the polio ward after they had been under treatment for about seven weeks. Janet was stricken first and her mother a few days later. Mrs. Haidee DuRelle, Harlingen nurse watches the reunion. (AP Photo)

U. S. Toll Roads Fare Cheaters

MONTREAL (AP) — A useful maxim for tramway employees given here by Ivan Sheehan, director of investigation for the Montreal Transportation Commission, is "be polite to everybody but trust nobody." He said 171 persons were brought to court last year for failing to pay their fares, and all were convicted except two.

British to Guard Qutaibi

ADEN, Aden Protectorate (AP)—A British fortress is now under construction near Al Hamra, near Sumair, seat of the sultan of the state of Qutaibi, Arab news agency reported. The agency said the fortress will be garrisoned by about 250 troops and construction is being carried out with the approval of the Aden government.

Warring tribesmen have caused frequent trouble in this area in the past.

The Department of Agriculture says 283,000 acres were planted to watermelons in the U. S. in 1949.

More insects may be found in a single square mile than there are people in the world, says the Book of Knowledge.

From early times China's coast was subject to raids from Japan.

CITATION BY PUBLICATION

THE STATE OF TEXAS:

TO HENRY L. BRUCE, IF LIVING, AND IF DECEASED, THE UNKNOWN HEIRS AND LEGAL REPRESENTATIVES OF SAID HENRY L. BRUCE, DEFENDANTS IN THE HEREINAFTER STYLED AND NUMBERED CAUSE:

You, and each of you are hereby commanded to appear before the District Court of Ochiltree County, Texas, to be held at the Courthouse of said County in Perryton, Texas, at or before 10 o'clock, a. m., of the first Monday after the expiration of 42 days from date of issuance hereof; that is to say, at or before 10 o'clock a. m., of Monday, the 12th day of November, 1951, and answer the petition of Helen F. Taylor, et al, plaintiffs in Cause No. 1250, styled Helen F. Taylor, et al vs. Henry L. Bruce, et al, in which Helen F. Taylor, Rice E. Short, Bertie Idella Henry, A. W. Henry, Dora Ellen Sanders, R. F. Sanders, Jim C. Short, Sophia Ann Gardner, L. C. Gardner, Josephine Lance Lynch, John Lynch, Helen Lea Cox Buice, W. H. Buice, Margaret McCampbell, Alice Short Smith are plaintiff and Henry L. Bruce, if living, and if deceased, his unknown heirs and legal representatives, Ida Lackey, Myrtle Layton, F. B. Layton, Howard B. Bruce, Wayne Q. Bruce, Clarence L. Bruce, John D. Bruce and Guy R. Bruce are defendants, which petition was filed in said court on September 26, 1951, and the nature of which suit is as follows: Statutory trespass to try title suit, alleging that plaintiffs are the owners of, lawfully seized and possessed of the following land situated in Ochiltree County, Texas, holding and claiming same in fee simple, to-wit: Section 70, Block 11, W. Ahrenbeck and Brothers Survey; that afterwards defendants unlawfully entered upon and dispossessed plaintiffs of such premises, and unlawfully withhold from them possession thereof, to their damage in the sum of $5,000.00; plaintiffs pray for judgment for title and possession of said lands and for damages, all as more fully set out in plaintiffs' petition on file in said cause.

If this citation is not served within 90 days after date of its issuance, it shall be returned unserved. Witness, Sue Ragan, Clerk of the Dstrict Court of Ochiltree County, Texas. Given under my hand and seal of said court and issued at office in Perryton, Texas, this 26th day of September, 1951.

Sue Ragan, Clerk, District Court, Ochiltree County, Texas.
By Viola S. Miller, Deputy

This ½-ton INTERNATIONAL pickup will never let you down!

Model L-110, 115-in. wheelbase, 6½-ft. International pickup body 4,200 lbs. GVW. Pickups in L-120 and 130 Series offer 127 and 134-in. wheelbases, 8 and 9-ft. bodies, GVW's to 8,600 lbs. Specifications subject to change without notice.

When you choose an International pickup—you're picking a truck that will *never* let you down.

Like every one of International's 115 basic models, this ½-ton pickup gives extra long life, operating economy, and greater riding comfort.

Features that pay off on performance include the new Silver Diamond valve-in-head engine. Built for a steady diet of heavy work, it has a beautiful balance of pep and power . . . is designed to cut engine operating and maintenance costs.

A steelflex frame combines greater strength for heavier loads with the right flexibility for the roughest roads.

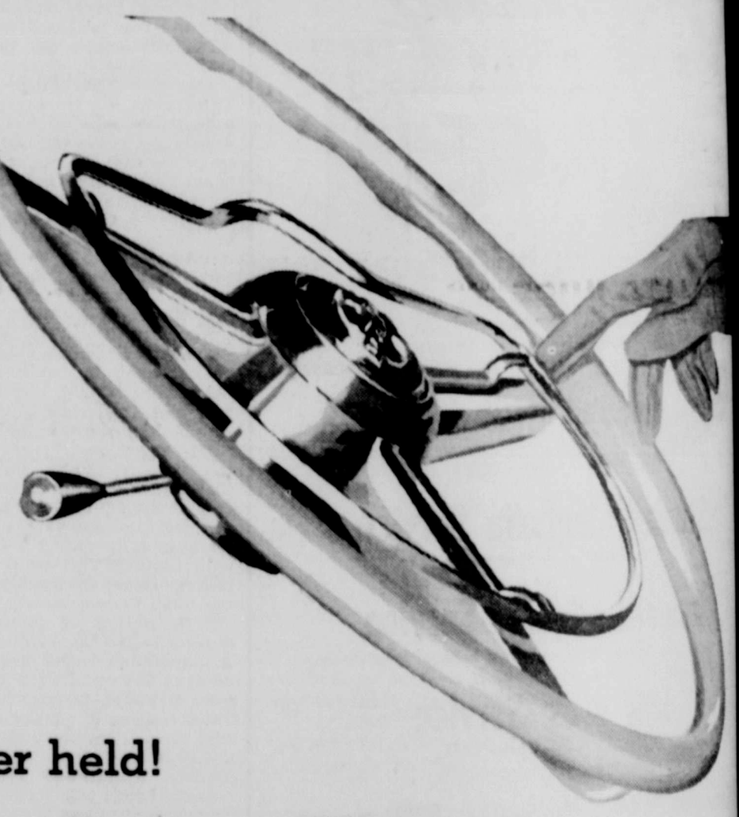

And in the COMFO-VISION CAB, you get "the roomiest on the road". Deep-cushioned seats give firm support. "Sweep-sight" windshield gives a full view of the road. Longer, stronger "cradle-action" springs cushion you over the bumps.

Come in and get the full story about International pickups. Or if you need multi-stop delivery trucks super-specialized to fit your business—ask us about Internationals with Metro or panel bodies. Whatever your hauling problem, we can give you an International Truck to do it better, at lower cost.

Easiest wheel you ever turned!

Safest wheel you ever held!

Come try it yourself . . .

Chrysler this year introduces the first power steering ever offered on an American passenger car. Many owners tell us it is the greatest advance in car driving since the self-starter! To a person who hasn't tried it, it is actually impossible to describe what a difference it makes. Driving becomes a new and wonderful experience. *At your touch on the wheel, hydraulic power instantly provides four-fifths of the energy needed to steer the car.* Gone is all sense of tug, strain, tension. In its place you find a wonderful sense of absolute front wheel control with almost no effort on your part. Hydraguide is regular equipment on Crown Imperials, optional at extra cost on other 8-cylinder models. Whatever car you're driving now, we invite you to . . .

Chrysler's new Hydraguide Power Steering

Come TRY Chrysler Hydraguide . . .
First power steering ever offered on an American passenger car!

Come TRY Chrysler FirePower . . .
180 Horsepower, finest and most powerful passenger car engine on America's highways today!

Come TRY Chrysler Power Braking . . .
Power from the engine helps apply the brakes . . . cuts foot pressure required as much as two-thirds!

NEW EASE! No more whirling or twirling, tugging and straining. The littlest lady you know can actually park the biggest Chrysler with her thumb and one finger on the wheel . . . drive all day with new freedom from arm-and-shoulder fatigue!

NEW CONTROL! Hydraguide gives your hands on the wheel a new feeling of complete command at any speed. In city traffic . . . on awkward driveways . . . in snug-fitting garage entrances . . . you never felt such steering control in any car before!

NEW SAFETY! Even off the road onto a soft shoulder, Hydraguide helps keep your car steady and true with almost no effort . . . takes the fight and strain out of driving in rain, snow, or sand . . . makes driving many times safer than ever before!

CROCHET WINNER—C. E. Rhodes of Hale county shows a 64x82 inch table cloth which took him 1,000 hours to crochet during an 18-month period. He entered his table cloth in competition against entries by about 100 women in the Panhandle-South Plains fair in Lubbock. Rhodes began crocheting 10 years ago as a hobby and compares it to whittling "only it's more tedious" (AP Photo)

Drivers Take High Toll Of Men Repairing Roads

AUSTIN, Texas — More Texas highway workers are being killed and injured by motorists than ever before.

"It's a real tragedy," State Highway Engineer D. C. Greer said Tuesday. "Just today I wrote a letter to the wife of one young man and to the parents of another, both killed by reckless motorists.

"We warn our men. We put out all the signs we can think of—but the slaughter continues.

Since V-J Day, thirteen highway workers have been killed and 181 injured.

This summer's toll was the highest. Three maintenance men died in June and two construction workrs were killed in Aug. by drivers who failed to heed the "men at work" signs and the barricades.

Near Wichita Falls one bright day last June a young woman sped her car through a construction barricade, killing two workers and hurting a third so seriously he may never be able to earn a living. This happened while she was adjusting the rear view mirror. The driver was uninjured.

"This killing of our people may force the Highway Department to block off the roads where we are working," Greer said.

"We dislike to put cars in the ditch, or send them over detours, but something must be done. The roads have to be patched."

The offending driver usually gets away without being hurt. But one who killed a highway worker near Beaumont three months ago is just getting out of the hospital. His car hit a tree after hitting the workman.

D. K. Harkrider, who handled the Highway Department's insurance payments to its employees, said claims this summer reached a record.

"People seem to be driving faster than ever before, as well as having more cars on the road, Harkrider said. "During the war, and for a while afterward, they drove carefuily. But they must be getting away from that now."

The state uses about 6,000 highway maintenance men. Few of them leave much money to their families.

"It is a sad situation," said Harkrider. "Last year, fourteen orphans were left by drivers running over our workers."—Dallas News.

CARD OF THANKS

I wish to thank my many friends for the visits, cards and beautiful flowers during my stay in the Sanford hospital. Especially do I thank the doctors and nurses for the splendid care and kind treatment. May the Lord bless you.

Mrs. Arthur Pearson

No Tidelands Action Seen In Washington

WASHINGTON (AP)— Prospects are slim that Congress will do anything definite this year about the controversial submerged offshore coastal lands.

The House has passed a bill giving the states clear title to them, but Senate opinion is so divided that the bill isn't likely to come up for a vote on the Senate floor this session.

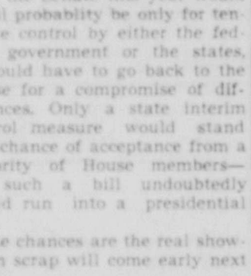

Since any measure that might pass the Senate this year would in all probablity be only for tentative control by either the federal government or the states, it would have to go back to the House for a compromise of differences. Only a state interim control measure would stand any chance of acceptance from a majority of House members—and such a bill undoubtedly would run into a presidential veto.

The chances are the real showdown scrap will come early next year.

Such timing would have some political significance; it would give legislators on both sides of the issue something to speak about that would get into the newspapers and set well with their constituents.

While almost every state, as an official body, has endorsed the states' ownership position in the tidelands fight, many lawmakers here think the man-on-the-street in their individual states would prefer federal control. Under that solution, inland states would enjoy revenues that would originate from along the shores of a few coastal states, primarily Texas, California and Louisiana.

The Calcutta to Kunming pipeline which carried oil to China during World War II has been dismantled to provide water systems for the communities along it.

Mrs. Thrasher Is Hostess to Huntoon 4-H Club

Members of the Huntoon 4-H Club met in the home of Mrs. J. S. Thrasher on Monday, Oct. 8.

During the demonstration Mrs. Mary Watson Jones, made and served Swedish tea ring and cinnamon rolls. Alice Payne cut cinnamon rolls with a string. Below is the recipe for the Basic Sweet Dough and Cinnamon Rolls demonstrated at this meeting and also used at the district baking contest.

Mrs. J. O. Cook invited the club to a Halloween party in her home on October 22, from 8 until 10 p. m. A brief business meeting will be held and officers elected.

Those present were Frances Payne, Alice Payne, Mary Lou Payne, Laverna Kay Kershman, Virginia Thrasher, Mrs. J. O. Cook, Mrs. Alvin Payne, Mrs. Martin Kershman and Mrs. Thrasher.

Basic Sweet Dough

1 package of dry yeast soaked in ¼ cup lukewarm water; ½ pint milk; ½ cup butter; 1 level teaspoon salt; ½ cup sugar; Rind and juice of ½ lemon; ¾ cup chopped nuts, raisins; 2 eggs; ¼ level teaspoon ground nutmeg; 4 to 5 cups all-purpose flour.

1. Scald milk and cool.
2. Sprinkle yeast on top of lukewarm water to soak.
3. Cream together butter, salt and sugar.
4. Add egg, lemon, spice, nuts, lukewarm milk and soaked yeast and mix thoroughly.
5. Work in flour.
6. Knead on a canvas covered board that is floured, and work until smooth and elastic (about 8 minutes).
7. Place ball of dough in greased bowl and turn over once or twice so the whole surface is thinly greased.
8. Cover with clean cloth or lid.
9. Place bowl in pan of warm water to rise (Keep dough at between 80° and 85°.
10. When dough has risen to double bulk, punch down in center and pull sides over center of the dough.
11. Place dough on canvas covered board and let rest for 10 minutes.
12. Make out into rolls.

Cinnamon Rolls

1. Roll dough gently into a rectangle ¼ inch thick, 15 inches wide, any length.
2. Brush with butter.
3. Sprinkle with sugar and cinnamon (2 T. cinnamon mixed with 1 cup sugar).
4. Roll up as for jelly rolls, pressing down least edge firmly.
5. With a string "tie off" dough in 1 inch slices.
6. Place in greased muffin pans or 9x2 pan.
7. Brush with butter and sprinkle with sugar.
8. Let rise in warm place until double in bulk, 30 to 60 minutes.
9. Bake in moderate oven (375° F.) 20 to 25 minutes.

Hub Club Meets Tuesday at Christian Church

The Perryton Hub Club met Tuesday afternoon at the First Christian church. The business meeting was followed by the program, with the theme "Child Development from Three to Nine Years," given by Mrs. Lois Thurman.

From where I sit ... by Joe Marsh

Our Bank Says "Help Yourself"

People around here need lots of small change these days — what with candy, gum, cigarette and soft drink machines . . . pay phones . . . and those penny sales taxes.

Used to put a strain on our bank. Changing money took up a lot of time. Then the Chief Teller Happy Wilson, read about another bank using a "help yourself" change system. The directors decided to see if it would work here.

They set out some big shallow bowls full of nickels, dimes and pennies with a sign saying "MAKE YOUR OWN CHANGE." Works fine, too. At the end of the day the totals are never more than a couple of cents under—or over—the right amount.

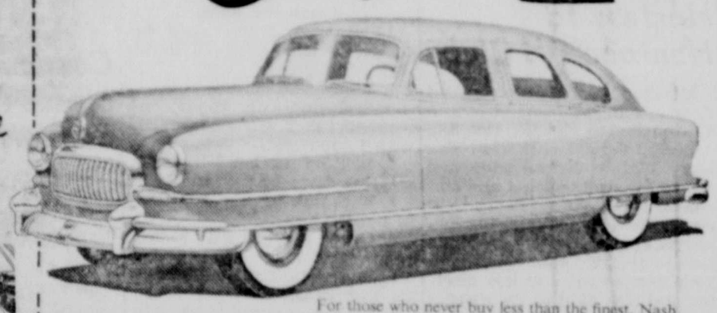

From where I sit, folks everywhere are pretty much alike, although they may *seem* different. Farmers and city folks, Republicans and Democrats, those who enjoy a glass of beer occasionally and those who prefer something else—we all usually try to live up to the trust others have in us.

Joe Marsh

NMENT OF CON-
he Congress continues
towards adjournment.
conjectural as to when
ary legislation will be
final decision. This
within the next few
days, or it could continue for several weeks. The major obstacle has been the appropriations bills—the failure of the House and the Senate to agree. The bills have been in conference committees and they have been working long and exhaustive hours, under pressure from both the Senate and the House. The reason for dissatisfaction upon the part of many House members has been the continued insistence by a number of Members of Congress for a one-package bill. Such a procedure is frowned upon by a number of the members, with whom I agree, for the reason that it defeats the opportunity to vote separately on matters for which money is being spent. That is, the particular appropriations bill may include several matters that are excellent and one or two that are distasteful. Under such a situation the member of Congress is left in the dilemma of having to vote against the entire bill or to swallow the distasteful part of it in order to vote for the good portions. It is my personal opinion that much time could have been saved and most of the matters disposed of by allowing separate votes on the several items. It is entirely possible that when the bills come out of conference if the one-package theory is attempted, the Congress might recommit the bills with instructions for certain changes. This could cause delay that would prevent adjournment this year. As I said in a previous newsletter, such a situation would not disturb me greatly, as there is much important legislation that will be lost this year by an early adjournment.

INVESTIGATIONS: The several investigations are proceeding on schedule. I have received some mail that is highly critical of the many investigations that Congress has had this year. Frankly, I am happy that the Congress has gone into these matters by its investigatory powers, so that the entire truth could be published. No democratic government could last long if truth is suppressed. It is deplorable that some people would use the Congressional powers of investigation for political and personal gain and undertake to create confusion and ill will by suspicion and innuendo. The committees which are doing investigation work are trying to do a good job and are trying to dig out, in the final analysis, the truth, the whole truth and nothing but the truth. Such a result should be the guiding light of any investigating body and the findings of that body should be made known to the entire citizenry, let the chips fall where they may.

INCREASE IN THE AIR FORCE: The proposed increase in the Air Force to approximately 140 groups will of course be of great interest to many of you. I have known for some time that such a program was looked upon with favor by some of the high officials in the Defense Department. This of course is going to cost a lot of money, and this money must come from the present income of the Government and not from additional taxes.

FOREIGN AID: The foreign aid issue is still a primary issue here and will probably be settled just before Congress adjourns. Seven billion dollars is a lot of money, and I have not yet been able to convince myself that we can afford it in addition to the other burdens that we are now bearing. If you have any suggestions, please let me hear from you.

CONGRESSMAN PAT SUTTON OF TENNESSEE: My good friend Congressman Pat Sutton of Tennessee was the victim of an attempted armed robbery the other night. He is possessed of plenty of courage and muscles. He clipped the would-be robber on the chin with a right, and kayoed him. Before he could get the police, the scoundrel had come to and departed. This little incident took place not too far distant from the Capitol building.

VISITORS: Recent visitors from the District are listed as follows: Mr. and Mrs. Burrell B. Evans, from Tulia; Mr. and Mrs. M. I. McGehee, from Happy; Miss Mildred Wilson, from Quitaque; R. A. Langhorne, J. E. Jones and W. D. Henson, from Dalhart; and Beck Atkinson, from Amarillo.

MIKE AND CURLY TAIL are the proud parents of triplets, yet unnamed. They were born in September and are chinchillas of Mr. and Mrs. James L. Wright, 601 South Fordham. Another pair of the Wright chinchillas are also parents of triplets, born Monday morning. The expensive fur-bearing little animals usually have litters of two.

Mental Hospital Opens Doors to Public Inspection

PITTSBURGH (AP)—Woodsville State Hospital near here has stripped away the veil of secrecy that usually surrounds treatment of the insane.

In an open house session, the hospital conducted hundreds of visitors on an hour and one-half bus and walking tours of its grounds and buildings. Special guides accompanied the groups and answered questions.

Guests saw nearly $3,000,000 of construction under way, including a $1,750,000 admissions and office building. They saw the million dollar 220-bed old-age building, a 900,000-gallon reservoir, 525 acres of contour farming land, a tuberculosis unit, and farm colony building.

Much interest was shown in the work-therapy shops, where patients learn trades.

Dr. and Mrs. J. W. Chase visited their children in Amarillo Saturday afternoon and Sunday. On Sunday morning Dr. Chase drove to Lubbock where he attended a regional meeting. They returned home Monday.

Europeans use lignite for fuel by drying it and pressing the remainder into briquets.

IN THE SERVICE

Pvt. Kenneth Hazel, son of Mr. and Mrs. C. B. Gift, is now in Korea with the 772nd MP Bn. He went overseas last month and visited his parents in August. He entered service on March 20, 1951 and took basic training at Fort Riley, Kansas.

His brother, Pvt. Ralph J. Hazel, is with the 32nd Infantry Regt. in Korea. Ralph enlisted in March, 1951, and was sent to Hawaii early in April for basic training.

The brothers sent their mother a 1000 Won bill from Korea.

Most large lumber and paper companies in the United States have placed their timber resources under management which will yield a continuous growth of trees.

Mexican Boys' Town Planned

McALLEN, Texas (AP) — The people of the lower Rio Grande Valley are going to help Mexico establish a Cuidad de los Ninos —a Boys' Town patterned after the famed boys' home in Nebraska.

Father Carlos Alvarez—"Mexico's Father Flannigan" — launched his campaign for a Mexican Boy's Town after seeing the movie "Boy's Town." The Mexican counterpart will be in Villa Guadalupe, on the outskirts of Monterrey. President Miguel Aleman's wife laid the cornerstone for the first building recently. So far about 6,000,000 pesos has been raised. Two million more are needed.

Week end guests in the J. H. Stephenson home were Mr. Stephenson's parents, Mr. and Mrs. J. H. Stephenson, Sr., of Happy and his sister and her husband, Mr. and Mrs. Clyde Speer of Happy.

"I've driven 50,000 Miles, so I know!
'50,000 Miles No Wear'
with New Conoco Super Motor Oil!"
says John Orahood
Crop Duster
Ordway, Colorado

"For a man who makes his living in a plane, I sure put a lot of miles on my automobile," says John Orahood, crop duster. "Contacting customers and looking over fields keeps me on the road. So when I heard about 50,000 Miles—No Wear, I changed over to new Conoco Super Motor Oil."

"I've driven more than 50,000 miles since then. So I know . . . 50,000 Miles—No Wear has sure been true for my car. It runs just like new, and the gasoline mileage is fine. And Conoco Super works just as well in my airplane, too!"

Change Now—For Summertime Performance All Winter! Protect your engine from winter's rasping wear. Change to new Conoco Super Motor Oil, with OIL-PLATING. Get quick starts, fast pickup, better performance all winter.

Proof of 50,000 Miles—No Wear! After a punishing 50,000 mile road test, *with proper drains and regular care*, engines lubricated with new Conoco Super Motor Oil showed *no wear of any consequence:* in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. Factory finishing marks were still visible on piston rings! Gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

TULANE GAINS THROUGH BAYLOR LINE—Max McGee (40), Tulane left halfback, plunges through the Baylor line for a 4-yard gain as he drags along Bill Athey, Baylor guard, on his back. Dick Calhoun (60), guard, and Ken Casner (79), tackle, both of Baylor, race in on the play. Baylor won 27-14. (AP)

TEXANS IN WASHINGTON

By TEX EASLEY

(AP) Special Washington Service

WASHINGTON (AP)—The Texas congressional delegation will lose no time heading for home when the first session of the 82nd Congress adjourns.

All expect to do some political fence-mending, but attention naturally is focused primarily on the veteran Senator Tom Connally.

He is up for re-election next year. He has never formally announced his candidacy for another term, but his colleagues do not doubt his intention.

The 74-year-old senator served in the Texas House of Representatives from 1901 through 1904; he was prosecuting attorney of Falls County from 1906 to 1910, and served in the U. S. House of Representatives from 1917 to 1929, when he entered the Senate.

Connally hasn't been able to accept definite speaking engagements, because of the uncertain date of congressional adjournment.

However, he has let it be known that when the gavel raps a sine die, he will be on his way. He plans to spend a few days at his home in Marlin, then be available to address various groups. He will probably get pretty well over the state before Christmas.

Senator Lyndon B. Johnson also expects to spend as much time as possible at his home and headquarters in Austin.

Members of the House have been waiting impatiently for weeks on the Senate. Unlimited debating privileges on that side of the Capitol have often delayed action on measures which had sped through the House.

One reason for the swift manner in which the House handles its business is the able leadership of its speakers—Bonham's Sam Rayburn. He is always anxious to get down to his North Texas ranch-farm, where he has a herd of herefords.

House members from many other states have already left, and plan to return this year only if some very important matters arise.

Rep. W. R. (Bob) Poage of Waco, expressing the view of many of the representatives who think the Senate should already be through, said:

"If they keep on fooling around over there until the middle of October, I'm going to get out of here.

"I am head of a House agriculture subcommittee which is studying soil conservation work in relation to flood control, and we want to check the situation in the mid-west. We also may hold some hearings in Texas, and I most certainly intend to get down and visit around in my district a lot."

Although few of the legislators remain here during the adjournment, most of them keep their offices open. Two or three secretaries remain to go through the daily mail.

Usually a congressman has reserved office space in the post office or some other federal building in his hometown. Some keep these offices open briefly each day, or occasionally, throughout the year. During the adjournment they may keep them open regularly, and staffed by a secretary who comes down from the Washington office. Secretaries do not get travel allowance, however, so most of them remain in Washington.

Machine Sorts Lemons

DAVIS, Calif. (AP)—Science had developed a machine that sorts lemons by color to determine which fruit goes to market earliest. Designed at the College of Agriculture of the University of California, the machine sorts 15,000 lemons an hour and may someday replace slower-working humans who now do the job by hand.

Since lemons ripen unevenly—one tree may have ripe, silver, light green and dark green fruit—they must be sorted so riper ones can be sent to market first.

The machine has a metering device that feeds lemons single file past a bank of light-sensitive cells. The cells measure the amount of light reflested from the skin. Different colors operate various gates which rout the fruit into bins. Agricultural Engineer John B. Powers, who designed the machine, believes it will sort other fruit, too, as the light cells are responsive to the chlorophyl they contain.

GOLDEN WEDDING ANNIVERSARY—Mr. and Mrs. C. A. Keith of La Feria, Tex., honeymooned in September 1901 at Niagra Falls. This month they flew from Brownsville to Corpus Christi for their first airplane ride, and a Golden Wedding Anniversary celebration. Braniff International Airways hostess Barbi Bittel gave them a special cake and corsage from the company. (AP Photo)

Cheers for The General

SINGAPORE (AP) — Teachers told their Chinese pupils to cheer whenever Major-General Dunlop, G.O.C. Singapore District, paused in his speech he was to give. Major-General Dunlop became ill and was unable to attend. Brigadier Harry Sparks took his place.

Brigadier Sparks told the children, who did not understand English, "I am very sorry to tell you that the General is sick." He paused.

"Hurray," the children shouted waving their paper Union Jacks.

The Brigadier continued: "As a matter of fact, General Dunlop is very sick today." Another pause.

"Hurray," the children yelled again.

"A classic example of misunderstanding," said Major-General Dunlop when told about it later.

Plaster of Paris received its name because it was first manufactured in the neighborhood of the French capital.

The load-line of a ship is generally known as Plimsoll's Mark, named after Samuel Plimsoll, 19th century British social reformer whose efforts were directed against overloaded, unsafe "coffinships."

The polar and grizzly are the largest members of the bear family.

Three Perryton Girls Enroll at TSCW, Denton

DENTON, Texas—Three Ochiltree County girls, Misses Martha Hummer and Mary Hummer and Miss Donita Gunter of Perryton are enrolled for the fall term at Texas State College for Women.

Students at TSCW this term represent 191 out of 254 counties. Also registered are 264 students from 27 other states, and 19 students from nine foreign countries.

Opening of classes this fall marks the completion on the campus of two three-story brick structures, one an upperclassman dormitory, and the other, the home of the newly-created College of Household Arts and Sciences.

Mr. and Mrs. D. D. Hummer and Florence, Mr. and Mrs. Martin Duke and children, Mr. and Mrs. Arthur Morgan and daughters, Leota Morgan and Mrs. Joe Cagle were in Mutual, Okla., Sunday, October 7, attending the funeral of Mrs. Lewis Morgan.

Germany pioneered in the conversion of lignite into gas before World War II.

Roman aristocrats designed plaids for their clothing, according to the National Geographic Society.

"Telephone Us If You Need Anything"

Parents today can confidently leave their young children with baby sitters. For they know that should any question of emergency arise — they are no further away than the telephone.

This typical confidence in its value and usefulness has given low-cost telephone service such a highly important place in the modern American home.

Southwestern Associated Telephone Company

IT'S A FIREBALL ENGINE

Some-where a Road is Call-ing

If the purr of a great-powered engine is music to your ears —

If command of two tons and more of nimble-footed and beautifully balanced automobile can step up your pulse beat —

You are just the man for whom a ROADMASTER was engineered.

Whatever it takes to give you a sense of complete and carefree freedom behind its wheel, you'll find in this proud master of the highways.

Added to the breadth and length that any fine car can give you are four soft-action coil springs to cushion the wheels, and a torque-tube to banish rear-wheel wander.

Added to its high-compression, valve-in-head engine are eight exclusive Fireball combustion chambers that get extra power from each whirling charge of fuel.

Added to the convenience of clutch-free driving is the torque-converter principle of Dynaflow Drive—that feeds a steady flow of power without lag or falter ever.

Added to the light responsiveness of its steering wheel is a Buick-engineered "front-end geometry" that gives this phenomenal performer a sense of direction straight and true.

But no roll call of engineering accomplishments can tell you the feel of a ROADMASTER out on the road.

That's something that only firsthand acquaintance can bring. Not just a trip around the block—but enough time and enough miles to let you discover what a joyous companion this great car can be.

That's something that is easily arranged. If you're truly interested, a phone call will bring a ROADMASTER to your door.

Equipment, accessories, trim and models are subject to change without notice.

Robins in Nest Fly

CALGARY (AP) — Two robins hatched at a Calgary amusement park were flying before they were out of their nest. Mother robin built her nest in one of the supporting arms of a mechanical ride.

For several hours a day the ride whirled around at a dizzy speed. But the nest remained firm and the birds soon got used to it.

When mother robin first built the nest the ride operators tore it out. But the persistent bird rebuilt the nest.

Public Scribes Dish Gossip In Iran

By JAMES M. LONG

(AP) Newsfeatures

KHORRAMSHAIR, Iran — In sweltering little heat-baked towns like this along the delta where the Tigris and Euphrates flow to the sea it's the Mirza-ha who know all the best gossip.

They're the barefoot, barelegged public letter writers who squat on their haunches in the sparse shade of dwarf palms along the dusty street near the postoffice and wait for customers.

They are love counselor, lawyer and business advisor — all thrown in free for the few cents they charge to write letters for the largely illiterate population that drifts in from the desert and up from the trade routes of the gulf.

As a sign of their trade they usually sit behind a wooden box. On top of it are paper, envelopes and a variety of ink, always including green—which the Arabs and many Persians prefer.

They must know two languages—there are as many nomadic Arab as Persian tribesmen in this southwest corner of Persia where temperatures rocket up to 125 in the shade and 175 in the sun.

There aren't many secrets from them. Their customers usually tell them the whole story and let the letter writer decide how best it should be written. That's why he throws in, free, his advice in matters of romance and business.

His customers squat alongside, fingering their black and silver Moslem prayer beads or plain counting beads. Next-in-line, or often mere listeners-in-squat in a circle around and nod in solemn attention.

Most of their deep-burned faces are pock-marked from the wide-spread ravages of smallpox. Past them unheeding go barefoot women swathed to the eyes in black silk or cotton veils that reach the ground. Some have little turquoise jewel pieces pierced through one side of the nose. Others have tattoo marks on their forehead or chin. Almost all walk to the tinkling music of silver anklets.

Beyond them in the shark infested river ply big slant-masted sailing boats and long canoes with upturned prows — hand hewn and hundreds of years old.

Probably the Mirza-ha know better than anyone else where the boats come from, what goods they have traded, and what they are taking home.

NEWSPAPERMAN OF THE YEAR—Lon Boynton (above) Editor and Publisher of the Lamar County Echo, was named "Texas Newspaperman of the Year" by the Dallas Professional Chapter of Sigma Delta Chi journalism fraternity. "He puts principles before parties and personalities," said Texas Atty. Gen. Price Daniel as he handed a plaque to the Paris, Tex., publisher. (AP Photo)

Israelis Rush to Leave Country

TEL AVIV, Israel (AP)—Israelis who want to go abroad are rushing to get out of the country before their exit permits expire—for it's going to be tough to get new ones. The Jewish National airline "El Al" and all foreign carriers operating from nearby Lydda airport are swamped with bookings.

Cheaper to Buy At Store, But Hunting's Fun

AUSTIN—Analyzing big game hunting costs, a Game and Fish Commission wildlife biologist reported the average hunter stalking deer and turkey spent $271.97 for the 1947 season.

He said the minimum expenditure per hunter that year was $2—the price of the old resident hunting license—and that the maximum individual expenditure was $3,618.50.

Broken down to the price of each prize bagged, he reported the cost of harvesting one wild turkey gobbler or one buck deer on the average was $186.98.

The study was made by Henry C. Hahn, Jr., of Kerrville, veteran Game and Fish Commission staffer. He was aided by 14 biologists and six game wardens.

The $271.97 spent by the average hunter included such items as the following:

Supplies and equipment, $107.48; transportation, $51.72; hunting lease, $37.34; food, $22.61; miscellaneous (camp cook, labor, insurance, etc.) $16.84; refreshments and amusements, $12.77; hunting dogs, $10.68; mounting and tanning, $3.88; game storage and processing, $2.66; hunting lease elsewhere in addition to the one on Edwards Plateau, $2.59; lodging, $1.91; telephone and telegraph, $1.49.

Another major item was hunting clothing. Transportation also was costly since the average hunter drove his automobile approximately 500 miles during the 1947 hunting season. Some of the mileage was made prior to the season in trips to hunting leases and on general reconnaissance.

Hardwood veneers for fine furniture and decorative panels are made from trees imported from all parts of the world.

Geiger Counter Sales Increase

NEW YORK (AP)—Across the counter Geiger Counter sales are on the increase, says The Radiac Co. of New York.

All types of people from all walks of life are responsible for this new interest.

Mountains Conquered

COLEMAN, Alta. (AP)—All but one of the "Seven Sisters," in the foothills of the Canadian Rockies, now have been climbed. The Sisters, bare and jagged rock spires averaging 750 feet, were tackled by two Swiss-born mountaineers, Bruno Engler and Fritz Frey.

Before their attack, only "The Placid One" had been climbed. It took them three week-ends to defeat five more. Their most difficult climb was the main spire, "The Old Sister."

Engler, an Alberta government photographer, said they had to inch their way up the last 120 feet using hand holds only. The descent was made with the help of rappels, rope-off, and the climbers swung through the air in 80-foot leaps.

They said they plan to come back to climb the only spire that they couldn't manage this time. It's No. 2—"The Witch"—with barren perpendicular sides and a bleak overhang.

To School Meeting

Superintendent and Mrs. Gilbert Mize will leave this week for the annual conference of the Texas Association of School Administrators, to be held in Austin on Monday and Tuesday.

They plan to stop in Dallas Saturday afternoon and see the State Fair and the Texas-Oklahoma football game.

Nazi Lie Recorded

VIENNA (AP)—The wrongs of the Nazis are righted as the years go by.

When the Nazis occupied Vienna, they found the great-great-grandfather of Johann Strauss, who wrote the immortal "Blue Danube Waltz," was listed as a "Christianized Jew" in a 1762 marriage register.

Rather than risk Viennese wrath by banning the "Blue Danube," the Nazis removed the register. They substituted a photostatic copy that indicated Strauss' ancestor was an "aryan."

The original, shipped off to Berlin, now has been returned to Vienna. The photostatic copy lies beside it as a permanent incrimination of the Nazi regime.

The Florida State University football team will face six new opponents on their 1951 schedule.

JUNIOR HIGH BAND—When the junior high football team plays, they have a band rooting for them just as hard as the big boys. Taken at half time in the Perryton-Liberal game last week, this picture shows the junior high band in halftime ceremonies.

Russians Short-Stop U. S. Food Parcels

FRANKFURT, Germany (AP) — The Kremlin's "Hate America" campaign has broadened even to include types of food sent to German prisoners of war in Russian prisons and camps.

Food packages containing canned goods with American labels or other items with U. S. markings never reach prisoners. Although Russia has claimed that all German prisoners of war she took have been repatriated, a recent United Nations estimate placed at "thousands" those still held.

Recently German Red Cross officials told relatives of war prisoners not to try to send American goods. Although the Russians have made no formal statement, the Red Cross officials made it plain that such consignments never reached the prisoners.

One hundred twenty eight players will qualify for the Junior Amateur Championship which will be conducted at the University of Illinois, Champaign, Ill., July 25 through 28.

"He couldn't keep me and the government."—Chorus girl telling why she lost her sugar daddy.

"A credit dollar is just as inflationary as a printing press dollar."—Earl Bunting, managing director of NAM.

"Taxes are like golf—you drive hard to get near the green and then wind up in a hole."—Eddie Davis.

"Government's function is not to dominate, but to lay down rules so everyone can act effectively."—AFL's "Labor Monthly Survey."

"A man usually falls in love with the woman who asks the kind of questions he is able to answer."—Ronald Colman.

New Congo Maps Due—in 2011

LEOPOLDVILLE (Belgian Congo) (AP)—Belgium will spend $14,000,000 mapping its vast colony in Africa, the Congo, during the next 10 years. This will principally be done by aerial photography.

Unless new methods are discovered authorities do not expect the task to be completed before the year 2011.

Harry Stein, backfield coach at Brandeis University, was quarterback of the CCNY team in 1937, '38 and '39. The coach of that team was Benny Friedman, now head coach at Brandeis.

Shirley Laurie Is Fourth In State Contest

Shirley Ann Laurie, daughter of Mr. and Mrs. J. M. Laurie of Darrouzett, won fourth place in the Texas 4-H Electric Contest for 1951.

This contest is sponsored by twelve Texas electric companies. These include Central Power and Light, Community Public Service, Dallas Power and Light, El Paso Electric, Gulf States Utilities, Houston Light and Power, Southwestern Electric Service, Southwestern Gas and Electric, Southwestern Public Service, Texas Electric Service, Texas Power and Light and West Texas Utility Company. The program is designed to teach boys and girls better methods of using electric-

SHIRLEY ANN LAURIE

ity on the farm and it is directed by the local Extension Service.

Shirley prepared poultry for their home freezer and learned to use their electric range and refrigerator to good advantage. She won second in the County 4-H Baking contest. Other food preparation included complete surface, deep well, oven, and broiler meals. She also learned to make good refrigerator desserts.

She will receive $20 for her prize.

Singapore Brothels Due for Axe

SINGAPORE (AP) — Police announced they're going to make an all-out drive against "red light" districts in Singapore.

They said they would have done it sooner to wipe out brothels and prostitution, but the anti-vice squad had its hands full the last several months investigating the Singapore riots of last Dec. 11.

Bob Bonebrake, the leading base stealer of the Cotton States League, beat a race horse in an exhibition recently. Bonebrake is the property of the Brooklyn Dodgers.

Rare Stamps Give Raffles $1,000,000

By SYD KRONISH
(AP) Newsfeatures Writer

NEW YORK—Raffles is on the loose again. Only this time his loot is rare stamps.

He strikes with lightning swiftness—and his victims are stamp dealers from coast to coast. New York, Chicago, Philadelphia, Los Angeles, Cincinnati and Toronto have felt his thieving touch.

Police believe these thefts, which have amounted to over $1,000,000 the past four years according to the American Stamp Dealers Association, are the work of one gang—with a stamp expert at the head.

His methods are the same each time, police officials explain.

Work of a Master Mind

Of course, Raffles is exceptionally clever. He master-minds the jobs—then assigns the actual duties to skilled performers.

Here's how it's done:

A dealer's shop is watched for sometime. Perhaps one of the gang will enter and make inquiries about certain stamps. Just to see where the most valuable are located.

Then comes time for the job. Sunday is the best day. Stamp dealers are usually closed that day.

The shop is neatly entered. The most valuable stamps are kept in the safe so the hirelings, who know the layout with their eyes closed, tackle that immediately. The "rip system" of removing the door with brace and bit (no dynamite charges) is used.

Only the rare items are taken Perhaps the multi-colored, pretty-looking stamps are right on top. But Raffles' boys know these are not the highpriced ones. The not-so pretty little stamps. But the boys know what to take. Then they make a hasty departure.

No clue has ever been left. No fingerprints have ever been found. None of the stamps have been located.

What happens to the stamps after Raffles gets them? Are the rare items sold for cash at once?

A Victim's Theory

Ervant Kirk of the New York Stamp Co., which was the victim of a $75,000 robbery in 1948, has a theory. Kirk believes the stamps are taken to Europe or South America. There they are exchanged for raw materials which in turn are sent back to the U. S.

Says Kirk: "They (the culprits) wouldn't dare sell the stamps in this country—at least not for 20 years. The stolen items are publicized and well known to every leading stamp dealer in America. For example, our valuable stamps had special identification marks on the back. (Some dealers place such marks on the back without depreciation). The crooks must either hold onto the issues for a long time or get rid of them abroad."

The police in several cities, postal authorities, insurance detectives and the American Stamp Dealers Association are cooperating to crack down on these philatelic thieves.

But Raffles is nowhere to be found. Neither are the stamps.

Carbon dioxide gas, from which dry ice, is made, is produc by several deep wells in New Mexico.

In World War II the Armed Forces used a greater tonnage of forest products than of steel.

Muscle-Building Pays Off

SANTA ANA, Calif. (AP) — A wrestling course [illegible] 46, took at a local gym paid off.

His car was rammed rear by another. The dr[illegible]er didn't stop. Key gave caught the other man next intersection and pinned to the ground "Boston crab hold" [illegible] arrived.

Here's why Fordomatic puts them all in the past
For the past year, automotive writers, engineers and owners have been raving about a new kind of automatic driving . . . and here's why you get it only in Ford Cars:

All the power you need when you need it!
It gives you instant "[illegible]
It practically drives [illegible]
Some automatics have this
The automatic drive some cars offer you is a torque converter which multiplies torque without the use of gears. Its advantage is a smooth flow of power. Its disadvantage is a smaller range of torque multiplication which requires more power from the engine and an uneconomical axle ratio which increases costs.
But Fordomatic has both
Yes, Fordomatic [illegible] torque converter plus [illegible] gears. It brings you [illegible] advantages of both [illegible]
Unlike cars with only a [illegible] converter (which start [illegible] all in one drive gear, [illegible] matic starts fast and [illegible] Intermediate Gear [illegible] itself into Drive Gear.
Some automatics have this
Other cars offer an automatic drive that uses automatic gears (as illustrated in simplified form at right) instead of a torque converter. The advantage here is more "go," more control and greater economy. The disadvantage is that this system is not as smooth, nor as jerk-free as a torque converter.
See our selection of A-1 USED CARS
Fordomatic FOR[illegible]
Fordomatic Drive optional on V-8 models at extra cost. Equipment, accessories and trim subject to change without notice.
