Water That Did Not Fall Would Float All Navies

(By Associated Press)
WASHINGTON, Aug. 19.—All the navies in the world could float many times over in water which failed to fall upon the United States during the present drought.

J. B. Kincer, chief agricultural meteorologist of the federal weather bureau, today computed the total deficiency under the normal rainfall for states east of the Rocky Mountains as 230,000,000,000 tons, the daily average shortage being 7,400,000,000 tons. Against this total, the fighting ships of the United States, Great Britain and Japan, under the London naval treaty, displace only 3,000,000,000 tons of water.

In the meantime spotted weather prevailed over the nation, two and one-sixteenths inches of rain falling at Huron, South Dakota, and an inch and a half falling at Kansas City yesterday.

Phoenix, Arizona topped the nation's temperature reports with 106 degrees; Ft. Worth sweltered under 104 degree weather, while other hot spots were Shreveport, La., Abilene, Texas, and San Antonio with 102. Dallas' temperature was officially recorded at 101 degrees. No change was seen for Texas today, the weather forecast being for continued fair skies.

Cool spots in the United States were Des Moines, Iowa and Pittsburgh, Pa., with 78; San Francisco, 68; and Boston, 74 degrees.

Street Work Here Will Soon Start

Mayor W. C. McCarver stated Tuesday that a crew would be put to work on Ballinger streets in a few days to place them in first class condition again following the laying of water mains in practically all portions of the city. Water system improvements have been underway for several months, during which time all municipal employees have been used in making connections on the new lines.

With this improvement about finished employees are again free to do street work. The work would have been attended to sooner but officials were in hope that a good rain would fall to settle the dirt. It is now believed that when it rains ditches dug for new water lines will sink and will have to be filled and rolled.

Some of the bad spots on the principal streets will be attended to at once, the mayor said, and regardless of precipitation the work will continue until all streets have been graded, rock removed, and otherwise conditioned.

Approximately 5,000 more feet of pipe than the original contract specified was placed. Practically all four-inch pipe taken up from streets where larger lines were laid, has been placed in the ground along routes previously served by two-inch lines. This, it is believed, will be adequate for many years in those sections. This distributing network is about completed and connections changed. The system will be supplied by the new 250,000 gallon tank, which is expected to be finished in about 30 or 45 days. The tank on a high tower will add greatly to the pressure in certain sections.

TIME AND SPACE LINKED IN NEW THEORY OF SOUND

(By Associated Press)
NEW YORK, Aug. 16.—Space and time are linked in a theory of hearing advanced in a report to the Acoustical Society of America by its president, Dr. Harvey Fletcher.

In hearing, some scientists have held that time of the vibrations was the improper factor. Others have considered the pattern in sound waves make in space as the distinguishing difference between sounds.

Some sound waves are long and smooth; others crowded together choppy. Dr. Fletcher shows how both the time and space components are impressed on the membranes of the inner ear and concludes that "space-time" is the way to account for the effects.

Miller Will Speak For Mrs. Ferguson

(By Associated Press)
DALLAS, Aug. 19.—Barry Miller, of Dallas, defeated gubernatorial candidate in the first primary, announced here today that he would make three speeches supporting the candidacy of Mrs. Miriam A. Ferguson in the runoff.

Miller said he would give reasons for his support of Mrs. Ferguson in the speeches.

Fair Catalogue will Soon be Finished

Copy for the Runnels County Fair catalogue is now ready to be turned over to the printers and as soon as advertising can be solicited and copy secured the book will be printed and made ready for distribution. Changes in the catalogue, this year are few and in substance the premium list will remain about the same.

Using past experience as a basis, the catalogue committee made a number of changes in the lists and rules. Some rules that were more or less conflicting have been eliminated and others altered so that they will be more easily understood by exhibitors. Some prizes have been changed. A few lists have been cut slightly, while others have been increased to make the total amount of money expended for exhibits about equal that of previous years.

The book, as in the past, will cover all needed information. Official committees, community chairmen, department superintendents, judges, the unofficial program, announcements, and much other information will be given.

Merchants are buying space in which to send personal invitation to citizens of this territory to attend the biggest county fair in Texas, the Runnels County Fair.

It is doubtful if the catalogue will be ready for the beginning of the trade trip which commences August 26 in a visit to Norton, but Secretary J. D. Motley stated that as soon as the lists are ready he will mail them to all interested persons. Requests for 1930 catalogues have been numerous and in placing the order more books were ordered than have ever been used before. The supply last year ran short and during the fair it was difficult to find enough copies to supply department heads. Two thousand copies will be printed this year.

The fair will open here on October 14th and continue for five days.

BALLINGER BAND WILL VISIT WITH BRONTE

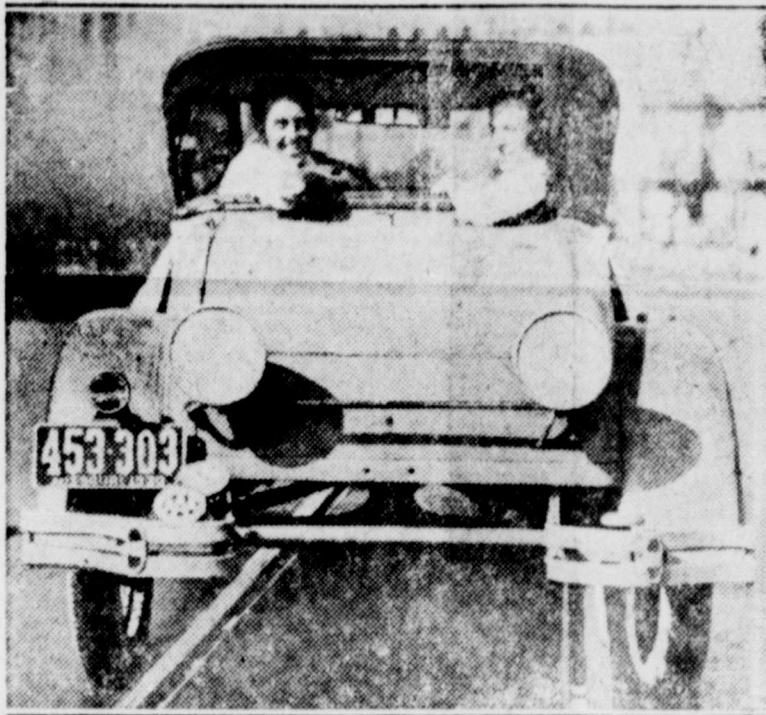

The Ballinger Band will leave here late this afternoon for Bronte to play a massed band concert in that town at 8:30. The local musicians are returning an obligation which they owe the Bronte musicians. A few weeks ago the Coleman and Bronte bands came to Ballinger for a massed concert when more than 100 musicians were assembled in the concert on the courthouse lawn here.

The following week the bands were invited to Coleman and all were asked to participate in the concert at Bronte tonight. The Ballinger boys used the baseball bus to make the trip and Director H. H. Carsey will leave here with a good sized organization to assist in the program. Mr. Carsey is director of both the Ballinger and Bronte bands and has been successful with both organizations.

Ballinger citizens are invited to accompany the music makers on the trip.

Corn Brings More as Pork
MOYOCK, N. C., Aug. 19.—(P)—By feeding his corn to hogs, W. F. Scaff, Currituck county farmer, realized from \$1.25 to \$1.50 for his last year's crop. This averaged approximately 50 cents above the market value.

SEEING AMERICA "BACKWARDS"

James B. Hargis (left) and Charles Creighton of Missouri drove in reverse gear all the way from New York to Los Angeles in 455 hours, making the 3,300 mile trip without stopping the motor. They are shown here in front of Los Angeles city hall.

Negro Lynched by Mob After Attacking Girls

Two Appear Before Justice Court Here

(By Associated Press)
TARBORO, N. C., Aug. 19.—Oliver Moore, 29, negro, who had been charged with criminally assaulting two small white girls, was taken from the Edgecombe county jail today by 200 masked men, and hanged to a tree 15 miles from here, near his home. The black's body was riddled with bullets.

The mob entered the jail through a ruse.

Fine Program for Rotary Luncheon

The Ballinger Rotary Club is working for a record attendance at its Wednesday meeting at the Central Hotel. A unique program has been arranged which includes a "chalk talk" by Miss Hortense Holt. Miss Holt will open an art studio in the Ballinger high school on September 1st and this will be her first public appearance here.

Assaulter is Given 99-Year Sentence

(By Associated Press)
DALLAS, Aug. 19.—Raymond Randolph Emmer, 23, returned to Dallas from Pocatello, Idaho, today was sentenced to 99 years in the state penitentiary on charges of attacking Mrs. E. R. Norman here on June 9th.

The state furnished evidence that Emmer pointed a pistol at Mrs. Norman while she was waiting for a street car, forcing her to enter his automobile, and beat her with a heavy iron bolt.

TEST WITH RATS FAILS TO SUPPORT EVOLUTION

(By Associated Press)
FLAGSTAFF, Ariz., Aug. 19.—One of the minor props of the evolution theory, called the Lamarckian factor, is considerably bent by experiments at the Museum of Northern Arizona.

This Lamarckian factor holds in effect that man loses what he does not use. It says: "In every animal which has not exceeded its term of development, the more frequent and sustained use of any organ, develops and enlarges it and gives it strength proportional to the length of time of such use."

"Constant lack of use imprecipitely weakens it, causing it to become reduced, and ends in its disappearance."

To test this contention Harold S. Colton amputated the forelegs of very young albino rats and their descendants for six generations. In a report to the southwestern division of the American Association for the Advancement of Science he says there was no demonstrable change in the lost bones of the last generation over those of the first.

"Therefore," he says "this experiment contributes no evidence supporting the Lamarckian factor in evolution."

There are 102 Italian cinemas equipped for sound films.

2 Mexican Groups Claiming Election

(By Associated Press)
MEXICO CITY, Aug. 19.—The newspaper Excelsior says two chambers of deputies, one legal, the other illegal, will convene here September 1st.

One group will meet in the regular chamber, the other in a theatre. One hundred and fifty seats are contested. Contestants were excluded in a preliminary session of congress last week because of faulty credentials.

STUDENTS PAY VISIT TO MEXICAN SCHOOLS

(By Associated Press)
ALPINE, Aug. 18.—A step which will cement further the friendship between the United States and Mexico was taken recently when 70 Texas school teachers made a five-day journey to Chihuahua City, capital of the state of Chihuahua, Mexico. They left from Alpine and made the journey by the way of Ojinaga.

While they were in the city they inspected the public, private and federal schools and were feted by officials of the city and members of the Chihuahua City school system. They brought back many examples of the hand-work of Mexican school children to show Texas pupils and promised to send the work of young Texas to the children of the state and the city of Chihuahua.

As a token of the friendliness between the two nations, the Texas teachers laid a wreath on the monument of Hidalgo, Mexican national hero.

The teachers represented 32 Texas counties. They were attending the summer session of the Sul Ross State Teachers College at Alpine, and the tour was headed by Stather Elliot, head of the college Spanish department and for many years a resident of Mexico, and Dr. H. W. Morelock, president of the college.

SALEM, Ore., Aug. 19.—(P)—Fire chiefs in Oregon plan to submit to the 1931 legislature a proposal that automobiles carry receptacles for matches, cigars and cigarette stubs, to curb the fire menace along highways.

Will Ask for New Hearing On Railroad Extension

Aimee McPherson Reported Blind

(By Associated Press)
LOS ANGELES, Aug. 19.—Emma Schaeffer, private secretary, today reported that her employer, Mrs. Aimee Semple McPherson, noted evangelist, had gone blind. The secretary said she spent the night with the evangelist at her Malibubeach cottage where Mrs. McPherson is fighting to regain her sight.

Hyde Made Head of Drouth Committee

(By Associated Press)
WASHINGTON, Aug. 19.—President Hoover today appointed Secretary of Agriculture Hyde chairman of the national drouth relief committee.

Court Receives Brady's Appeal

(By Associated Press)
AUSTIN, Aug. 19.—An appeal for John W. Brady, former judge of the court of civil appeals, convicted of the slaying here of Miss Lehlia Highsmith, capitol stenographer, was filed today in the court of criminal appeals.

Brady was sentenced to three years for stabbing the girl to death. The case was tried the second time in Dallas, after a jury in district court here had disagreed on the verdict.

The appeal today contained only a statement of facts, including records of the two trials.

Brady's defense was insanity induced by overindulgence in bootleg liquor. The state contended the girl, his admitted paramour, was killed in a fit of rage when the defendant found he was losing her affections to a younger man.

2 Mexican Groups Claiming Election

(By Associated Press)
MEXICO CITY, Aug. 19.—The newspaper Excelsior says two chambers of deputies, one legal, the other illegal, will convene here September 1st.

One group will meet in the regular chamber, the other in a theatre. One hundred and fifty seats are contested. Contestants were excluded in a preliminary session of congress last week because of faulty credentials.

Sterling Rallies Are Announced

(By Associated Press)
Final Sterling for governor rallies are being planned in Runnels county for the remainder of this week. Speakers have been secured for some of the proposed rallies, dates set, and Frank C. Dickey, county chairman, was busy making an effort Tuesday morning to call meetings at other places and assign speakers.

Two outstanding rallies will be held Thursday night at Miles and Rowena. At Rowena, Walter R. Ely, member of the state highway commission and former judge of Abilene, will be the speaker. The meeting has been set for Thursday evening at 8:15 and Judge Ely will be accompanied to Rowena by a number of local Sterling supporters. Judge Ely will explain the Sterling platform and other issues that he considers not thoroughly understood at this time.

Milburn Long, judge of the 42nd judicial district at Abilene, will address voters at Miles.

All plans have been perfected for both gatherings and large crowds are promised by those making preliminary arrangements.

A delegation will go to Coleman tonight to attend a district rally which is being staged in that city.

Another group of Sterling supporters will go to San Angelo Wednesday night, according to the county chairman, to hear Gov. Dan Moody speak in behalf of Sterling.

Mr. Dickey stated that other speakers were available and it was his intention to arrange rallies at other voting boxes in Runnels county before Friday night. Local speakers have volunteered to fill speaking dates in the county and are ready to go anywhere at the call of the chairman.

No rally has been planned for Ballinger for the last of the week and Ballinger voters will go to the polls without any further speaking unless a meeting is decided on later.

COLEMAN GOLF TEAM HERE FOR TOURNAMENT

The golf tournament scheduled here with the Coleman team last Friday afternoon postponed from last week until today. Sixteen players arrived here shortly after noon to engage the Ballinger Country Club team in an 18-hole contest on the local course. Play started at 2:00 o'clock, the best players teeing off in the first flight. Other flights began shortly afterward.

Coleman and Ballinger are members of the Runnels-Coleman Golf League which operated in this section this summer. Winters has already clinched the championship of the league, Ballinger standing in last place. It was necessary for the local team to forfeit one tournament on account of not being able to get enough players to make the trip. The game here Tuesday will have no effect on the standing in the percentage column.

Mr. and Mrs. M. B. Wardlaw returned home Monday afternoon from Glen Rose, where they had been visiting relatives.

Gem Paper Clips at Ballinger Printing Company.

(By Associated Press)
DALLAS, Aug. 19.—G. O. Bateman, attorney for the Texas & Pacific Railroad, of which the Abilene & Southern Railway is a subsidiary, today stated that a rehearing application on denial of the subsidiary's petition to extend its line from Ballinger to San Angelo, would be filed upon receipt of the ruling by the Interstate Commerce Commission.

The petition denied yesterday sought permission to build a thirty-nine mile extension between Ballinger and San Angelo and bore the recommendation of Examiner R. R. Molster that permission be granted unless the Santa Fe granted trackage rights within thirty days.

Three members of the commission considered the A. & S. petition. Bateman said, adding that he believed a hearing before the full commission of eleven members would reverse the finding.

Two Fliers Start On Chicago Flight

(By Associated Press)
BROWNSVILLE, Tex., Aug. 19.—W. C. Moore, of Kansas City, and Jack Livingston, of Aurora, Ill., were the only starters here today in the flight against time to Chicago. Several other entries failed to arrive in time for the start. The race ends at the Chicago air show grounds Saturday.

Livingston was leading by two minutes fifty-eight and three-fifths seconds at Corpus Christi. Tonight's stop is at San Antonio, tomorrow's at Fort Worth, Thursday's at Tulsa, and Friday's at St. Louis.

RESIGNATION OF SPANISH FINANCE MINISTER TAKEN

(By Associated Press)
MADRID, Spain, Aug. 19.—The cabinet today accepted the resignation of Minister of Finance Arguelles, appointing Julio Wais, minister of economy, to fill the vacancy.

Miss Maxie Hamilton and Mrs. Kirk Gregory, of Stamford, are here for a short visit with relatives and friends.

Member Associated Press

The Associated Press is exclusively
entitled to the use for republication of all
news dispatches credited to it or not other-
wise credited in this paper, and also the
local news published herein. All rights of
republication of special dispatches herein
are also reserved.

Projects now under construc-
tion in Ballinger will be finished
about the same time. The Colo-
rado River bridge, the new water
reservoir dam, the new tank and
tower, the water distributing sys-
tem and the city hall should all
be completed in the near future
and Ballinger will have some-
thing to celebrate. A combined
celebration could be arranged
when the city hall is completed
that would include the other pro-
jects. Citizens will be equally as
proud of one as the other.

Many voters in this section are
declaring that they may not even
go to the polls next Saturday.
Just what this means is not
known. Some politicians take it
to mean that these voters will
enter the general election and
vote as they please. Others say
that they lost their candidate in
the first primary and don't care
who is named in the run-off.
Those who entered the first pri-
mary pledged themselves to sup-
port the Democratic nominees
and to enter the second primary
would not make the pledge more
binding. Voting in the second pri-
mary is a duty every voter in
Texas should exercise and when
this done the best person for the
place will be elected. Don't fail
to vote and later regret that you
did not cast a ballot.

Very few parents are having
their children vaccinated before
the opening of school. Warning
has been issued that all students
will have to be vaccinated or else
show a successful vaccination
scar before they can enter school.
This warning was issued far
enough in advance so that every
child could have been completely
recovered before September 1st.
Why parents have delayed is not
known but City Health Officer E.
R. Walker has repeatedly an-
nounced since last spring that
vaccination against small pox
would be required this year in
the Ballinger schools. There is
yet time to get over the worst
of the pain and while a few
shields are seen on children's
arms many have not yet visited
a doctor.

Runnels county continues to be
a law abiding section and few
trials are held here. Most arrests
made by peace officers are for
minor offenses and after ap-
pearance in court, a plea of
guilty is entered, a fine assessed
and the matter closed. Except
for liquor law violations the
county docket has been fairly
free from criminal cases and it
has been a long time since any
sensational trial has been heard
in the courthouse here. We are
not bragging of this record, for
usually when this is done, some-
thing happens, but citizens are
proud that no heinous crimes
have been committed here and
we have not been advertised in
glaring headlines for such behav-
ior. Peace officers have had much
to do with maintaining this con-
dition and criminals realize that
to commit crime in this county
means to be caught and to be
tried by a jury willing to assess

THE HUMAN TORCH

A blow torch in the hands of a
mechanic working on a car in
front of a garage suddenly ex-
ploded and the flames quickly
enveloped the man's clothing.
Terrified, and crying out in pain,
he ran to the home of a neigh-
bor who endeavored to beat out
the flames with her hands. As a
result, the fire was communicated
to her clothing and to her house;
she was burned, her home was
damaged and the mechanic was
terribly scarred. Incidentally, two
automobiles were also destroyed.
When clothing catches fire, ac-
cording to literature published by
the National Board of Fire Un-
derwriters, one should get down
on the ground or the floor and
roll, in an attempt to smother
the flames. If possible wrap a rug
or other woolen material around
the body, starting at the neck,
to avoid inhaling the flames.
When one remains standing he
soon becomes a living torch, as
the flames spread quickest in this
position. Running is still worse,
as that fans the fire to greater
intensity.

The national board's literature
is widely distributed in an effort
to reduce the suffering and losses
from fire. Approximately 6,000
people die annually as a result
of fires in homes, 31 per cent of
the victims being women and
children. Fire occurs in an Ameri-
can home every two minutes in
the year, on the average. No fur-
ther incentive should be neces-
sary to urge the American peo-
ple to protect their homes and
families from the ravages of fire.

BANISHING FOOD PRODUCT-
ION WASTE

There should be a minimum of
waste in manufacturing and dis-
tributing human necessities. Since
time immemorial the production
and distribution of food has
been inefficient in comparison to
the standards of efficiency main-
tained by other industries.

Recognizing this condition, one
of the largest manufacturers of
table specialties has consolidated
over 40 non-competitive products
and is producing and distributing
them under unified management.
This is a tremendous step for-
ward. No commodity is so vital
as food. Mass production and
distribution is the industrial doc-
trine principally responsible for
the progress made by such in-
dustries as the electric, the auto-
mobile and the telephone. It
should prove to be a revolution-
ary force in raising the food in-
dustry to where it can give us
better and cheaper products.

SHE'S FEMININE ENOCH ARDEN

Mrs. Catherine R. Packard, who disappeared a year ago, has
reappeared, after her husband, George, identified a body as hers and
remarried. She is shown on the court house steps at Springfield,
Vt., with authorities who are trying to straighten out the strange
tangle.

HOW'S your HEALTH

Edited by DR. LAGO GALTSTON

For the New York Academy of Medicine

KISSING

Kissing is an ancient and hon-
orable indulgence, endorsed by
the Old Testament and in the
classical works of the Greeks. But
it is not a universal practice.
There are some races to whom
kissing is unknown and the sug-
gestion repulsive.

Since the science of germ life
(bacteriology) has come into
being, the subject of kissing and
its relation to disease transmis-
sion has been carefully studied.
The conclusions drawn are that
kissing is a hazardous practice.

The mouth is an ideal growing
place for germs. It is dark, warm
and moist. Minute particles of
food matter that are always to
be found in the mouth serve as
a feeding and breeding ground
for numerous kinds of bacteria.
The mouth, therefore, is really an
unsanitary place.

Anton von Leeuwenhoek, in the
latter part of the 18th century,
was the first to see through his
crude microscope the minute liv-
ing things called animacula
(minute little animals) that
abound in the scrapings from the
teeth and gums.

A large number of disease-
producing germs may be found in
the secretions of the mouth of
the average person, and the secre-
tions of the nose and throat are
known to be the vehicles in which
the infectious agents of many a
serious disease is transmitted.

Kissing an infant or a child is
a bad practice, particularly if the
child be kissed on the mouth.
The danger of the transmission
of infection is substantially de-
creased if the child is kissed on
the neck or on some other parts

of the body, remote from the
mouth.

While this item is bound to
provoke an indulgent smile, the
humor in it should not make us
indifferent to its importance.

NOTICE TO CONTRACTORS
for County Road Construction

Sealed proposals addressed to
Paul Trimmer, County Judge of
Runnels County, for the improve-
ment of Highway No. 30 in Run-
nels County, will be received at
the office of the County Judge at
Ballinger, Texas, until 10:00 o'-
clock a. m., August 21, 1930, and
then publicly opened and read.

Description of work to be done:
The work consists of construction
of 30-foot concrete pavement
from the end of the city paving
on Hutchings Avenue to connect
with the concrete highway near
the Colorado River bridge.

Approximate quantities: 4,819
sq. yds. of Concrete Pavement,
19,777 lbs. of Reinforcing Steel,
465 cu. yds. of Unclassified Exca-
vation.

Detailed plans and specifica-
tions of the work may be seen
for examination and information
may be obtained at the office of
G. M. Garrett, County Highway
Engineer, at Ballinger, Texas.

Neighborly
SERVICE

The cold impersonality often as-
sociated with business has no place in
the Ballinger State Bank. Here, you will
find the officers to be experienced and
authoritative financial counselors, and at
the same time neighbors who have your
individual interests at heart.

Ballinger State Bank

for Seven Hundred Dollars
(\$700.00) made payable without
recourse to the order of Paul
Trimmer, County Judge of Run-
nels County, must accompany
each proposal, as a guarantee
that the bidder, if successful, will
enter into contract and make
bond in accordance with the re-
quirements of the specifications.
The right is reserved by the party
of the first part to reject any and
all proposals or to waive all tech-
nicities.

Proposals shall be submitted in
sealed envelopes and marked,
"Bids for the Construction of
Concrete Pavement on Highway
No. 30 in Runnels County."

All bids received will be retained
by the Engineering Department
and will not be returned to the
bidders.

Conditional bids will not be
considered.

SUNDOWN
STORIES

THE TOYS

By Mary Graham Bonner
The toy shop up in the air was

so filled with toys that Peggy
and John did not know what to
look at first. The man who
owned the shop told them that
he hoped they wouldn't mind if
he took a rest.

They thought it was very nice
of him not to watch them and to
trust them to be careful with the
toys. The Little Black Clock wan-
dered around and looked at some
of the things, and then he, too,
took a rest.

John played with the new air-
planes. At first he couldn't under-
stand them at all, but after a
while he began to see how they
worked and he flew them about
the shop.

Peggy was fascinated with the
dolls and the dolls' houses. The
dolls were dressed in very lovely
clothes, very simple clothes, and
in baby clothes, but there were a
great many, too, wearing costumes
which would be comfortable for
flying.

The dolls' houses were much
taller than the dolls' houses of
Peggy's time. She found most
fascinating dirigibles and planes
fitted up so dolls could travel in
them, with many rooms for the

dolls just as there were in the
old-fashioned dolls' houses.

She took the dolls out and
played with them, giving them
names, dressing and undressing
them, putting them to bed, and
taking them up again.

In spite of all their airplanes
and dirigibles and gliders and
great tall buildings and air hotels
these dolls were not a bit spoilt
by living in such a far-advanced
world. They were just as nice
and simple and sweet as they
could be, and when Peggy talked
to them they answered her just
as her own dolls had always
done.

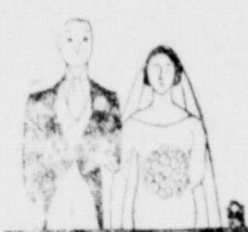

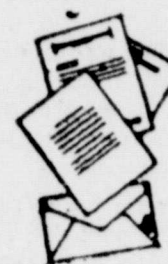

Of course she changed her voice
to talk for the dolls, but they did
not seem to mind that.

In fact they acted as though
they liked it.

DOROTHY DARNIT

Had Neuritis 20 Years; Famous Konjola Scored

Dallas Man Tells How Four Bottles of New Medicine Brought Glorious Relief.

MR. THOMAS HARDY

"For twenty years I had that dreadful ailment, neuritis, in my shoulders and arms," said Mr. Thomas Hardy, 2419 Clark Street, Dallas. "My arms were in such a condition that I could scarcely move them. A constant pain was present in my shoulders. Treatment after treatment failed but Konjola seemed to work immediately. Constipation was another ailment that I had to contend with. It seemed that none of my organs functioned as they should."

"Before I had completed the fourth bottle of Konjola my whole entire system had made a change for the better. The neuritis pains in my arms and shoulders have been greatly relieved. I shall continue the treatment until they have disappeared. Constipation has been relieved and my entire system is in great shape. Konjola is a real medicine and deserving of all the credit it gets." It is the same story of success wherever Konjola is introduced and given a real test. Most cases require a systematic treatment of from six to eight bottles in order to secure the most sure and lasting results.

Konjola is sold in Ballinger, Texas, at the Weeks Drug Store, and by all the best druggists in all towns throughout this entire section.

Amusements

"The Lady of Scandal," Drawing Room Comedy, Coming to Palace Theatre

Frederick Lonsdale's inimitably clever lines and dramatic situations, which made stage history, are blended with the more spectacular possibilities of the screen in "The Lady of Scandal," in which Metro-Goldwyn-Mayer features Ruth Chatterton. The picture will open tomorrow at the Palace Theatre.

The story is a smart drama of ultra-modern society, in which the heroine, as an actress, upsets aristocratic society through an engagement, a love affair, and finally a dramatic sacrifice. Sidney Franklin, known for "The Last of Mrs. Cheyney," "Wild Orchids" and "The Duchess of Buffalo," directed the new picture with a notable cast which includes several who played in "The Last of Mrs. Cheyney," also written by the London playwright.

Two members of the original stage cast, Mackenzie Ward and Fred Kerr, appear in the screen version, in which Miss Chatterton plays the heroine, Elsie, and Basil Rathbone the hero, Edward.

The story deals with an actress

A Sour Stomach

In the same time it takes a dose of soda to bring a little temporary relief of gas and sour stomach, Phillips Milk of Magnesia has actually completely checked, and the digestive organs all tranquilized. Once you have tried this form of relief you will cease to worry about your diet and experience a new freedom in eating.

This pleasant preparation is just as good for children, too. Use it whenever coated tongue or foetid breath signals need of a sweetener. Physicians will tell you that every spoonful of Phillips Milk of Magnesia neutralizes many times its volume in acid. Get the genuine, the name Phillips is important. Imitations do not act the same.

PHILLIPS
Milk
of Magnesia

who, through a freak of fate, becomes engaged to the son of a British peer. Parental opposition resolves itself into strategy, and she is asked to remain in the home of the aristocratic father, to accustom herself to society. Instead, society accustoms itself to her, and it upsets society considerably. Then a real love affair dawns, but finally she sacrifices her own happiness for that of a woman who needs her lover more than she does.

As the musical comedy star Miss Chatterton has a far different role from that in "Madame X." The luring, witty lines of Lonsdale, and the underlying vein of brilliant satire, make the new production one of pure entertainment, with the dramatic punch coming as a distinct surprise.

The cast includes Ralph Forbes as the lover. He is well known for his work in "The Trail of '98," "Under the Black Eagle," etc. Nance O'Neill, American stage star, plays the sarcastic Lady Trench, and Herbert Bunston, Effie Ellsler, Moon Carroll, Edgar Norton and Cyril Chadwick, who were seen in "The Last of Mrs. Cheyney," also appear. Basil Rathbone, who plays the hero, appeared in the other Lonsdale play as well as in "The Bishop Murder Case."

"Hit the Deck" to Close Run at the Palace Tonight

Tonight is the last time Radio Pictures' smashing musical comedy "Hit the Deck" will be seen and heard at the Palace Theatre. This lavish all-talking technicolor film has enjoyed full popularity in Ballinger.

Adapted from the stage hit by Vincent Youmans, it boasts a cast of fourteen well known players with hundreds in support. Polly Walker and Jack Oakie enact the leading roles. Miss Walker, known as the Cinderella of Broadway, is a former Folies star; Oakie is Hollywood's newest "big time" comedian. His part in "Hit the Deck" seems to have been written for him.

Roger Gray and Franker Woods have recreated roles they originated on the stage. Miss Padula, whose voice has the phenomenal range of four octaves,

Drought Unwelcome Aid to Farm Board

How drought swept middle America, cutting crops by millions of bushels, is strikingly shown in these pictures. Withered, stunted corn is shown in a Missouri field (right, top), typical of corn belt conditions, while below a Kentucky farm family is filling pans and tubs with water trucked to them. What lack of moisture does to corn is shown by the partly-filled car (right, below).

By Frank L. Weller

(Associated Press Farm Editor)

WASHINGTON, Aug. 19.—Were the drought to end without further damage, history might record it as having been as important to success of the farm board's program as the \$500,000,000 revolving fund.

Members of the board, while deploring the hardships and actual suffering of man and beast, says the drought probably has solved the problem of surplus crop removal.

They foresee great advantages in reduced stocks of surplus commodities, but declare the drought an "unwelcome aid."

Others in the east include Harry Sweet (former Ballinger boy), Ethel Clayton, Wallace MacDonald, George Ovey, Nate Slott, June Clyde, Dell Henderson, Charles Sullivan and Andy Clark. Luther Reed directed.

More than 200 negro and white singers and dancers contribute sensational production value to the Radio Pictures opus.

difficult and in some sections impossible, an important factor in holding down the 1931 winter wheat acreage.

In the meantime the board's acreage adjustment campaign is beginning to take effect.

There is said to be a chance that market stocks of wheat will so diminish and acreage be so curtailed that the tariff will become effective and put American prices above the world level.

The cotton yield undoubtedly will be definitely decreased, perhaps sufficiently to increase prices since American cotton sets the world price anyway.

A prime danger suggested by the drought lies in the possibility of beef cattle being unduly reduced in numbers. Once weakened, it takes several years to

build herds back to peak production.

Cattle numbers already are low and it is feared that wholesale destruction might result in a future beef famine or greatly increased prices.

Little seriousness has been attached yet to the forced sale of dairy cattle. Sam R. McKelvie, board member representing grain, says the bulk of dairy cattle going into the beef market have been culls which should have been slaughtered anyway. One packing house in Cincinnati has served notice that it will not accept any more dairy culls until their beef possibilities improve.

O. E. Reed, chief of the bureau of dairy industry, says that culling the lowest 10 per cent of dairy animals would not reduce the national milk supply more than 5 per cent and would not

reduce the dairy income a single dollar.

While a sudden culling might result in a milk famine, he says that by gradual elimination of culls and proper attention to replacement with good cows, dairymen could and should set the elimination of 30 per cent of the lowest producing animals as a national goal.

Mrs. H. H. Lockett, after a four-month visit with her sister, Mrs. W. E. Armstrong, of Austin, returned home Monday. She was accompanied by Mrs. Armstrong and Mrs. W. E. Odom, of Austin, who will visit relatives here for awhile.

The new Boulder dam will be 5 feet thick at the top and 650 feet at the bottom with a length of 1,054 feet.

A CROSS-SECTION OF CURRENT CONVERSATIONS IN CONOCOLAND

"YOU COULD NEVER SWITCH ME TO ANOTHER OIL SINCE I LEARNED HOW CONOCO PERFORMED IN THOSE PIKE'S PEAK AND RACING TESTS"

The story of Conoco Germ-Processed Motor Oil, as told in the advertising, and proven on Pike's Peak, at the Indianapolis Speedway and Altoona Flag Day races, has paralleled the story which this oil has been telling in hundreds of thousands of motors.

Conoco's original announcement stated that the virtues of the Germ-Process were so radically different from any other refining method, that this lubricant would out-perform other popular and nationally known American motor oils. You were told that the metal-penetrative safety factor of this oil was so vital that the film in the "pores" of the motor metal would protect your engine in emergencies, where other oils have failed.

Well, it has all been proven in the past eight months. In addition to sensational achievements on Pike's Peak and at the Indianapolis and Altoona Races, scores of satisfactory tests have been made on private cars by enthusiastic users. Now that summer heat is here to intensify and increase motor heat, remember that one of Conoco Germ-Processed oil's outstanding characteristics is heat resistance.

We invite you to begin using this first really new oil today. Just say "Germ-Processed" . . . at the Sign of the Conoco Red Triangle.

CONOCO
GERM
PROCESSED
PARAFFIN BASE
MOTOR OIL

Following the Pike's Peak Tests, where Conoco Germ-Processed Motor Oil was tested side by side with three other popular, nationally known oils, the Contest Board of the American Automobile Association issued Certificate of Performance number 2268, comprising 14 points, of which the point below is one.

POINT NO. 2

"That a reduction in the rate of wear occurring during the use of CONOCO Germ-Processed Motor Oil over that occurring with the other oils used to the extent of 76.4 per cent was shown during these tests."

BENOIT HOME DEMONSTRATION CLUB

Members of the Women's Home Demonstration Club of Benoit entertained their husbands and children with an ice cream supper Saturday night at the home of Mrs. Arch Brookshier.

All reported a very enjoyable time.

The club met with Mrs. W. D. Lewis, August 12.

Mrs. O. C. Cox and Mrs. Arch Brookshier made reports on their trip to the A. & M. short course which were very interesting.

All members were present but one.

One visitor, Mrs. Walter Cox, of Crews, attended the meeting.

The club adjourned to meet with Mrs. A. J. Pullen on August 28th.

Mrs. Lura Hollingsworth, home demonstration agent, will be with us for the next meeting.

Club Reporter.

COATED TONGUE

Often Sign of Biliousness That Indicates the Need of Black-Draught.

Austin, Texas.—"In the sixteen years of my own housekeeping, Theodor's Black-Draught has been my best stand-by in the way of medicine," says Mrs. J. M. Rich, of 1700 Holly Street, this city.

"I have found Black-Draught to be the best medicine I have ever used for the relief of colds. I have been using it in my home for years. My father used it also in his home and gave it to his children. Whenever we had the usual children's complaints, mother would make up a tea of Black-Draught and give us. We always felt better after taking it."

"I also give it to my children when they have colds or upset stomachs. Sometimes they get feverish from biliousness. If they begin to get yellow, or their tongues are coated, I make a tea of Black-Draught and give to them in small doses. They don't mind taking it at all."

In thousands of families, Theodor's Black-Draught has a corner all its own on the medicine shelf. In use nearly 100 years.

Theodor's Black-Draught is a purely vegetable medicine, free from harmful mineral drugs. Costs only 1 cent a dose.

for Constipation, Indigestion, Biliousness

South America Grows Fastest In Population

By P. I. Lipsey, Jr.

(Associated Press Correspondent)
GENEVA, Aug. 19.—The population of the world grew by approximately 35 million between 1926 and 1928, an average increase of about one per cent per annum, a League of Nations memorandum on production and trade discloses.

The rate of increase was highest in South America. World population in 1928 was about ten per cent greater than in 1913, while world production of foodstuffs and raw materials in the same period increased about 25 per cent and world trade grew about 22 per cent.

The league's experts found that in recent years the world production of foodstuffs has increased at a somewhat slower rate than that of industrial raw materials. The discrepancy was considerably reduced in 1928 as a result of exceptionally heavy food crops, but it was again accentuated in 1929.

Such information as the league could obtain suggested that the manufacturing industry has progressed more rapidly than the production of raw materials. Year by year, says the report, new economies in industrial processes are effected and a larger production is obtained from a given supply of raw materials.

The iron and steel industry, the mechanical industry, including engineering, ship-building and automobile manufacture, and the electrical industry appear to have raised their production by 25 per cent or more between 1925 and 1929, with electricity recording nearly 33 per cent.

In the textile group, the relatively slow development of the cotton and wool industries has been only partly offset by an increase in the output of natural and artificial silk.

SINGING SUNDAY

The Ballinger singing class will meet Sunday at 2:30 p. m. at the Methodist Church. Everybody is invited. Come and bring your song books.

Order Huge French Liner
SAINT NAZAIRE, France, Aug. 19.—(AP)—A huge steamship measuring 912 feet in length and 96 feet in width, with a draught of 34 feet, has been ordered by the Campaign Generale Transatlantique. The ship will be placed on stocks of which the foundation stone was laid by President Domergue.

WINGATE NEWS

The Christian meeting began Friday night. Rev. Rose is conducting the meeting with large attendance.

Mr. and Mrs. M. T. Hensley returned home Sunday night from Trudy where they have been attending a primitive Baptist association.

The party given by Mr. and Mrs. Roy Polk Saturday night was well attended, all reported a nice time.

Mr. and Mrs. Vernon Wood spent Saturday night with his parents.

Miss Euda May Foreman of Blanton, spent a few days last week with relatives here. Winona Wood returned home with her.

Mr. and Mrs. Gordon Hensley spent Sunday with his sister, Mrs. Hugh Dunn.

Elder Mahurin and family have gone to the Plains to visit their children and attend an association.

Mr. and Mrs. G. W. Blackwell have returned home from a visit in Bell county.

We are glad to report Mrs. Sam Morrison improving. We hope for her a speedy recovery.

Miss Tiny Wood was the guest of Mrs. Roy Polk Thursday.

Mr. and Mrs. Lloyd Perry and little daughter, Lucille spent Sunday night with Mr. and Mrs. Hulan Rodgers.

Mrs. Anice Autry of Miles, is visiting her brother, Bog Forehand.

Mr. and Mrs. Goodwin Blackwell and family and Mr. and Mrs. Roy Polk visited Mr. and Mrs. Charlie Polk Wednesday.

Jasper Bryan of Winters, was the guest of Owdin Brannon Sunday.

Mr. and Mrs. S. H. Wood had as their guests Sunday, Mr. and Mrs. C. E. McMillan and family. Mr. and Mrs. Clyde Brevard and family and Eldrege and Euda May Moreman, of Blanton; and Mr. and Mrs. Vernon Wood and Mr. and Mrs. Carl Wood, of Wilmett.

G. W. Barnett is building a new house in Wingate.

Saturday and Sunday will be regular meeting time of the Primitive Baptist. Hope to have a large attendance.

Miss Estell Ingle of Spring Hill, is visiting friends and relatives here this week.

Quite a few enjoyed Friday night playing croquet at Slaton. Mr. and Mrs. M. T. Hensley returned home Sunday night from Trudy where they have been attending a primitive Baptist association.

Mrs. T. L. Foreman and son, Hubert and daughters Robbie Sue and Eula May and Mrs. C. E. McMillan all of Blanton, spent Tuesday night and Wednesday with S. H. Wood and family.

"REPORTER."

BLANTON NEWS

The Baptist meeting began Friday night with a good attendance at each service. We invite everyone back and to bring your friends along.

Misses Junita Hubbleston, Eva Cox, Estell Ingle, Minnie Bee Wade, Ina Brown, Mildred Elkins and Jimmie Witter, were all guests of Miss Sula Fowler Sunday.

Miss Mary Francis Cotten of Ballinger, was a Saturday night guest of Miss Mamie Ruth Boothe.

Mr. and Mrs. Early Jones and family visited Friday night with Mr. and family of the Miller community Mrs. Robert Wood.

Mr. and Mrs. Jim Elkins made a business trip to Abilene Sunday.

The Blanton church organized a B. Y. P. U. Sunday night, organizing into three groups. The adult, senior and intermediates. The following officers were elected, Sid Hale, general director, Homer Wood, associate director, Miss Alice Foreman, general secretary, Joe Cooper, choir leader, Mrs. Hale pianist, Mrs. A. W. Malone, president of the adults and Miss Carrie Witter, president of the seniors, and Mrs. Velma Hale, president of the intermediates. We will meet again next Sunday evening at 7:15 and we invite each and every one to come and join us.

Mr. and Mrs. D. L. Brevard and daughter, Miss Mildred and a Miss Houston, of Belton, are spending this week visiting relatives and friends.

Misses Wilma Jones, and Katharine and Helen Smith, were guests of Miss Pauline Malone Sunday.

Mr. and Mrs. R. S. Boothe had as their guest Thursday night, Mr. and Mrs. Harvey Bradley and family, Mr. and Mrs. Hallibow

EARTH'S RUBBER LAND WOULD GIRDLE GLOBE

(By Associated Press)
NEW YORK, Aug. 19.—It takes a lot of land to produce the world's rubber supply.

Dr. E. G. Holt says in a report to the American Chemical society that this area would stretch in a band nearly a mile wide around the earth at the equator.

Yet all the rubber produced in 1929 made into a solid ball would be barely 600 feet in diameter.

Teacher of Piano and Pipe Organ

Graduate and former member of the faculty of Sherwood Music School of Chicago.

Studied piano under Dean Sidney Silber and pipe organ and harmony under Dr. Walter Keller of Chicago, and Horten Corbett, formerly of London, England.

Studio open September 1st. Telephone 416. Studio at 600 Eighth Street.

Society

Mary Edith Welhausen is Honoree on Birthday

The tenth birthday anniversary celebration for Mary Edith Welhausen was a happy occasion for the group of children included by her mother, Mrs. F. W. Welhausen at a party on last Friday afternoon.

Various games were played on the lawn of the Welhausen home on Fourth Street and interesting contests were conducted indoors.

A pink and white color scheme were used in the dining room where the pretty birthday cake with its ten burning tapers was the centerpiece of an attractively laid table. Favors were tiny dolls dressed in pink and game awards were larger dolls. The cake was cut and served with home-made ice cream.

Mrs. Welhausen was assisted by Mrs. Minnie Maud Alexander, Curtis Harber and J. H. Parks of Clarksville.

Included were: Mary Edith and Sam Welhausen, Bobbie Marie Avey, Juanita Averitt, Doris and Wanda Lane, Verna Leene McWilliams, Marjorie Lynn, Jane Flynt, Gladys Morgan, Katharine Seales, Jennie V. Tunnel, Juanita Farris, Teddy Wardlaw, Winnie Lee Jones, Madelyn Healer, Annie, Ruth and Mary Lou Davis, Curtis Harber Jr., and Joe Simmons, Jr.

Read today's news in The Ledger today.

Georgia Cow Sets Record
ATHENS, Ga., Aug. 19.—(AP)—Yielding 707.42 pounds of butterfat and 15,490 pounds of milk, Raleigh's Zilla, Jersey cow owned by J. C. Wooldridge, has just completed the highest butterfat production record ever made by a 12-year-old cow in Georgia. The test covered a period of 265 days.
