Wellington Track Season Opens This Week

The track season for high school and junior high boys and girls gets under way this week end with the varsity teams going to the Panhandle Relays Friday and Saturday, March 12 and 13. Both boys and girls will compete. Participants will be mostly the schools in the top of the Panhandle.

In charge of the boys track team this year is Coach Curtis Smith, who coached track at Boise City, Ok., last year and who was an outstanding track star at Childress High School.

Dale Morris, head basketball coach, is in charge of girls track for the second year. Last year he had several regional qualifiers for the first time, reminds head coach James Williams.

Coach Bryan Hill will be the junior high boys coach, with Smith assisting with 7th and 8th grade boys.

Morris and Coach Allen Sanders will coach junior high girls and round out the coaching positions.

"We feel we have a pretty good track program, with a lot of potential regional and state qualifiers," said Coach Williams.

After the Panhandle meet, Wellington will go into its spring break and no meet is scheduled for that period.

The following week, Rockets go to the Angelo relays at San Angelo and the Rockettes will compete at Miami.

Wellington girls will be in the Amarillo relays Friday and Saturday, April 2 and 3, and the boys will be at Shamrock. The following week, April 9 and 10, the boys will compete at Amarillo and the girls have an open date.

The girls district meet, both high school and junior high, is slated at Canadian Tuesday, April 6.

The boys district track meet will be on April 21 at Shamrock, with varsity and junior high teams participating.

Coach Smith has 21 boys out for track, but only 5 are lettermen back from last year. We lost a number of seniors to graduation, Smith said. This includes Tim Anderson, who represented the Rockets at state.

Mack 1st Christian Minister

Joe Davis Mack began his ministry at First Christian Church, Wednesday, March 3, coming here with his family from Kansas City, Mo.

Although his ministry has been with churches in the Kansas City area, Mack is a native of Amarillo and graduated from Tascosa High School.

He began preaching in 1972, while he was attending Manhatten, Kan., Christian College. He received his B.A. degree in Ministries in 1976.

He was minister of a Christian Church in Peadoby, Kansas while attending college, and more recently was minister on a part time basis of 1st Christian

Church, Grandview, Mo. When that church grew to the point that it needed a full-time minister, Mack and his family chose to return to the Panhandle.

Mack has also worked in computer science, having been with Data Services Administration in Olathe, Kan., working with offices of Johnson County, Kan.; with Associated Wholesale Grocers, distributors in the Kansas City area for Shurfine foods; and more recently with Data Systems International, which did contract programming for businesses who do not have programmers of their own.

Bingo Election, Straw Vote on Taxes Called

The commissioners court Monday, March 8, called the Bingo election, setting the date for Saturday, April 3.

In short order court members changed the location of a voting box in the Hospital Board election, at the request of the Secretary of State, and then arranged for a public opinion poll, or straw vote, to be held in each voting box on election day to determine if the people would like to have all taxes collected by one agency in one location, such as the tax appraisal office.

The commissioners took care of one other major piece of business, approving Dr. Ralph Erdmann of Childress as the forensic pathologist for the county. Erdmann is already serving in this capacity if the need arises, but a move is under way presently to have him serve as forensic pathologist for all or most counties of the Panhandle.

Quick action by those seeking the bingo election in presenting a second petition and the action of the commissioners Monday in calling the election made possible the vote at the same time as the school board, city council and hospital board elections.

The second petition, presented to County Judge Bob Watson, Wednesday, March 3, by Commander Junior Castillo of the Veterans of Foreign Wars post, carried 167 signatures and this easily exceeded the required 126 valid signatures required.

Had the commissioners not been able to act on the petition at the Monday meeting, the county could not have voted on the bingo issue until the next date for special election, August 14.

All 8 election boxes in the county will be used in the election to determine if bingo shall be legalized for non-profit organizations.

Absentee voting, which will be in the office of the county clerk, begins Monday, March 15.

Election judges were appointed by the commissioners Monday and are being notified by Helen Gollihugh, county clerk.

There are:

Box 1, Wellington High School, John Coffee judge, Teddy Martin, assistant; Box 2, Dodson, Olan Farris, judge, Mrs. Howard Hunt, assistant; Box 3, court house, Mrs. Willie Faye Patrick judge, Mrs. Jo Rita Henard, assistant.

Box 4, Lutie, Willie Knoll, judge, Selba Rainey, assistant; Box 5-6, Samnorwood, Lenora Phillips, judge, Worth Shields, assistant; Box 7, community building, Mrs. Ernest Harwell, judge, Mrs. Buddy Carter, assistant; Box 8, Quail, Mrs. D.R. Langley, judge, Mrs. Donald Tarver, assistant; Box 9, Wellington Elementary School, Raymond Horton, judge, Mrs. Maxie Baker, assistant; Judge of the Absentee Box is Mrs. Harley W. Hatch and the assistant is Mrs. Lyman Daniel.

Four boxes have been used in the hospital board election, placed in Wellington, Dodson, Samnorwood and Quail. This has resulted in two boxes in Commissioners Precinct 1, and none in Precinct 2. The Secretary of State has told the acting hospital administrator, Perry Foster, that there must be one voting box in each precinct.

New location of the box will be in the office of J.R. Bowen, veteran's Service Officer, on the second floor of the court house--and located in Commissioner's Precinct 2.

The Commissioners Court authorized placing at each voting box separate sheets of paper in which the voters will be asked if they do or do not want to have all taxes collected in one central place. This would include county, city, school and hospital as well as any other taxes.

One tax bill would be

Seven Candidates for Hospital Board Places

Five candidates petitioned for places on the Collingsworth General Hospital ballot for the April 3 election, according to Mrs. H.H. Bowen, board secretary. This brings the total to 7.

A group of friends filed the name of Emory Ewing and he said that if he is elected to the post, he will serve. Ewing lived in the Quail community a number of years as a young man, then was with Phillips Petroleum Co., at Phillips 39 years. He and his wife, for former Agnes Weaver, returned to Wellington when he retired.

Others who filed petitions were Robert Owens, present president of the board, Willie Faye Henard Patrick, a member of the board, and Loretta Wright, wife of Lynn Wright, and president of the Hospital Auxiliary; and A.C. Shipley, retired farmer, who filed his petition Tuesday.

Tuesday was the last day for petitions to be filed to have a candidate's name placed on the ballot, Mrs. Bowen reminded.

Two candidates had filed earlier, Buddy Carter, who is seeking re-election and Donald Davis, manager of Living Retreat, 1207 15th Street.

There are four places to be filled, those now held by Owens, Mrs. Patrick and Carter. The fourth place is now held by Lyman Daniel, who is not seeking re-election.

Absentee voting, which will be in the office of the county clerk, begins, Monday, March 15.

Energy Crisis Has Its Humorous Side

The cold night did not chill the warm friendly humor of Bob Jett, Chamber of Commerce banquet speaker, as he put across his point about the energy crisis.

Speaking here Friday night, Jett is media representative of Lone Star Gas Company in Dallas.

Jett, whose chair at head table was vacant until many of the guests throught he would not be there, came in at a crucial point as Wiley Wingnut, ready to talk about his energy crisis. Asking his audience to view an imaginary slide presentation and using his dip stick as a pointer, he traced with barbed humor the rise in the price of gas and other problems of the petroleum industry. Some of this was aimed at OPEC, in a way that everyone understood.

His timely subject and the manner in which he presented it brought applause from his audience and favorable comments in later discussions.

This was the first year the Chamber has given a western style banquet, with decorations featuring red bandana cloth. Branding irons, horse shoes, and a saddle were accent notes. Tender barbecued beef with the traditional trimmings was served.

Four Wellington residents received awards for the contribution they have made in the fields of civic work and agriculture.

The Outstanding Service award went to Glen Taylor, city manager. His selection by a secret committee was made on the basis of his contribution beyond the requirements of his office, for his original approach to problems and improvements that have meant improvement for Wellington and its people.

Estelle French, received the Sales and Service Award for 50 years of courteous service while employed by Wellington business firms. She worked first with her husband, the late Johnny French. Later she worked in a sales capacity with others, and only a few days ago she retired from Town and County, after working 50 years with firms on all four sides of Wellington's courthouse square.

Bill Hatch received the Mr. Chamber of Commerce award for dedicated work to that organization over a long

Night of One-Act Plays Set Thursday

Wellington High School Speech Department will present its night of three one-act plays on Thursday March 11, in the auditorium. Curtain time will be at 7:30.

Included in the trio will be "Pinocchio" the well-loved children's story, which the Speech II class will give as its entry in the 2-AA Interscholastic League One Act Play contest in Clarendon Tuesday, March 23, said Gay McAlister, director.

The other plays will be presentations of the Speech I class, "The Boy Upstairs," a story of adolescence and a first date, and "The Bad, the Worse and Broccoli," a take-off on western motion pictures.

"Pinocchio," last of the three to be given Thursday evening, is based on the children's story by Carolo Collodi.

"There are lots of different versions for the stage, and also there was a Walt Disney version," said Mrs. McAlister.

It is the story of a puppet Pinocchio who wanted to become a real boy. To do this, he had to always tell the truth, which was difficult for him to do, she explained.

"Each time he does not tell the truth, his nose grows longer."

This includes a large cast and involves most of the Speech II class.

The title role, pinocchio, is taken by Camille Smith, and others in the cast are Glissandra, the blue fairy, Valerie Van Pelt; her elves, Spruce, Melanie Pendleton, Maple, Danna Jameson and Walnut, Lucyanne Hayes; Matroni, the puppet mistress, Lynette Spillman, and

Geppetto, the father, Kenneth Warren; the Fox, David Moore; the Cat, Lisa Hartman; Candlewick, Scott Shepard; and Carlotta, Sandi Seale;

Others are Tony, Todd Roberson; Marie, Jannon Thomason; Mario, Rodney Nash and the policeman, Hank Barnett;

Stage prople are Anthony Porter, Cathy Whitten, Leigh Myrick and Angela Watson.

Debbie Bergvall, Vernita Shrubs and Rand Johnson are in charge of tickets.

"The Boy Upstairs" will be the first of the Speech I plays to go on stage. In the role of Joanna is Vanda Wood, while Lisa Powell portrays her mother, Mrs. March.

Brandon Harper, the boy next door, is Scott Shepard, while Jack Bayfield, a sophisticated senior is Todd Roberson.

Stage crew members are Eddie Trimble, Eugene Mote and Michael Souder.

"The Bad, the Worse and Broccoli," is quite a spoof, as anyone who has groaned through Class B westerns will attest.

The cast includes a Grunt, Craig Outley; a Barmaid, Donna Blades; Sally Sweet, Allison Neeley; Baron Von Broccoli, Billy Dixon, and Caesar Salad, Dewayne Culpepper.

Others are Rhoda, Nita Glover; Zelda, Sandie Cobb; Prissy, Amy Williams; Tom O'Hawk, Chad Hooper; Buffalo Bill Chips, Barry Long; piano player, Calvin Culpepper;

Extras and the stage crew are Otis Lewis, Suzanne Campbell, Cathy Crelia, Debbie Hitchcock and Rhonda Garcia.

Barry Bowen will be master of ceremonies for the three plays.

period of years, for his willingness to handle any assignment or request made of him, and to do this efficiently.

Hatch service to the Chamber is one of the longest among those men and women presently active in it.

The Salt Fork Soil and Water Conservation District Outstanding Farmer award went to Cecil Shanks, who has farmed all of his adult life in the Wellington area. Conservation practices on his land have been outstanding, those who work with him believe, and the things he has done have proved to be the right things for this area.

The first three awards were presented by Virginia Robey, outgoing president. The Salt Fork SWCD award was presented to Shanks by Dan Henard, Jr., a member of Salt Fork SWCD board.

Tommy Hudson, the new president, was introduced, then he presented his officers and directors: Charles Darter, first vice president; Yates Parker, second vice president; Dorothy McGill, treasurer; and these directors: Howard Murdock, Tommy Thomas, Guy Blanchard, Jerry Duncan, Don Reeves, Walter Clements, Mrs. Jean Reynolds, James Shepard, Robert Owens, Bill Hatch, Guy Owens, Johnny Nash and Miss Robey, ex-officio director.

Hudson, in a brief speech, said his year as president will have as its main thrust promotion of business for the retail establishments in Wellington, with emphasis on trade in Wellington rather than having its residents go to other towns to trade.

The Rev. Don Bland gave the invocation. Decorations and arrangements were by the wives of officers and directors of the Collingsworth Chamber of Commerce.

sent, showing the taxpayer what he owed each taxing entity.

The law allows for a taxing entity to contract with another entity for the collection of taxes.

This poll is not binding, it is just a way of finding out what the people want, Judge Watson said.

In selecting Dr. Erdmann as the county's official forensic pathologist, Collingsworth joins Potter, Randall, Hale and possibly other counties.

The commissioners agreed to pay Dr. Erdmann an advance fee of $100 per year for 1982 to insure that the county intends to use him. This retainer will be returned to the county at the rate of $50 on each of the first two autopsies which he performs. If no autopsies are performed, the full $100 will be returned at the end of the year.

This will not alter the justice of the peace system of having that officer act as coroner, but it should provide better pathological services at a cheaper rate, Judge Watson said.

Dr. Erdmann has told the district attorneys and county judges of all area counties that he will set up a full-fleshed criminal laboratory and that he can secure the services of a second board qualified forensic pathologist who is considering joining Dr. Erdmann in his practice. Location of the laboratory has not been made.

"It would contain a toxicology laboratory, fiber analysis, ballistic examinations, weapons firing/testing facilities, residue examination and a morgue should be available as a minimum,." Erdmann told the county judges of the area.

Where such work is required at present, the body must be sent to Dallas, at considerable expense. Erdmann routinely reports to crime scenes, to assist law enforcement in investigations.

After completing this work, the commissioners had a work session on the rules and policies for county employees, which is being prepared; approved Mrs. Rhuia Ketchum's attending the district Library Association bi-monthly meeting in Amarillo March 23, and approved the county's joining the Texas Association of County Employees Unemployment Insurance.

Thomas Jefferson, the nation's third president, was one of the most accomplished and versatile of the nation's founders. He spoke six languages, was a surveyor, scientist, lawyer, musician, politician and architect, just to name a few.

This was previously announced for March 19.

Collingsworth is not in a district affected by the March 12 filing deadline for state senate and state house seats and U.S. Congress and state board of education districts. Congressman Jack Hightower is running in Congressional District 13; State Senator Bill Sarpalius Senatorial District 31; State Representative Foster Whaley in District 66; and W.W. QUIET STUDENTS?

For Public School Week, children of Mrs. Alcie Estes room at Wellington Elementary School brought their own clothes from home (including a few borrowed wigs), drew their faces on brown sack heads, stuffed them all with paper and placed them in their seats for the Thursday night open house. There were many teasing remarks of "what a quiet class!"

Response to Open House Praised

"This was one of the best open houses we've ever had, especially in the elementary and junior high departments," Supt. Kenneth McKay said of this event, held Thursday, March 4, in observance of Texas Public School Week.

The high school response was good in some departments, he added.

"This was a pleasure to the teachers, and they and I appreciate the fact that so many people turned out.

"This is a compliment to the students and their parents," he added.

Exhibits were featured throughout the elementary and junior high rooms. Jr. High speech students presented two performances of their melodramas, once Thursday night, and again for the elementary students on Friday.

Softballers to Elect Tuesday

There will be an organizational meeting of Wellington Softball Association Tuesday, March 16, at 8:30 p.m. at My-T-Burger. Officers will be elected and plans made for the 1982 season.

Randall Sims president, urges good attendance as it will be an important meeting and the only one he will be able to attend, since he is a student at Texas Tech, Lubbock.

Slow pitch softball has been a major summer sport for Wellington, with invitational tournaments each year drawing participation from a wide area and including some of the top teams.

Spectator interest has continued to build and with each season, the Wellington teams become more competitive.

Sims and his brother, Richard Sims, have been leaders in this sport here for several seasons.

DPS Relaxes Requirements For Training

Colonel Jim Adams, Department of Public Safety director, announced today that "effective with the June recruit class, DPS trooper candidates may substitute law enforcement-related experience for the current educational requirement of 60 college hours.

Thus, applicants with two years of commissioned law enforcement experience or two years of honorable active military service would be eligible for a waiver of the two-year college requirement. Likewise, one year of such qualifying experience could be substituted for one year of college work."

"This temporary modification is intended to increase the reservior of qualified applicants yet ensure a continuance of the high personal standards which have been the hallmark of the Department's success."

Colonel Adams, said the DPS hopes to recruit 268 new troopers this year, including the 92 who presently are in training.

Recruits live in the DPS law enforcement academy in Austin during the 18-week training course. The starting monthly salary for recruits is $1,223. Upon graduation, the officers are paid $1,347 per month plus allowances for uniforms and equipment. These salaries will increase September 1, 1982.

Foster Homes Needed in Collingsworth

The Texas Department of Human Resources is currently in great need of licensed foster homes. The Pampa office oversees Carson, Collingsworth, Donley, Gray, Hall, Hemphill, Roberts, and Wheeler counties. Foster homes are needed in all of these counties.

Licensed foster parents work in conjunction with the Department of Human Resources' staff to provide care for children who are temporarily removed from their homes, said Barbara Simms.

These children are removed only when there are no other possible solutions and when it is in the childs best interest. They range in age from infants to 17. It is the Department's goal to help correct the problems in the home so that the child can eventually return home.

"Foster parents are special people. Some are young, old, married, and un-married. These people accept children into their homes and help them work through an often difficult time," said Ms. Simms.

Families are reimbursed for caring for a child. The current rate allots $7.00 per day for a child under ten. For a child over ten, $8.00 per day is paid. This small amount helps with some of the added expenses incurred by the child.

Anyone interested in helping a child overcome a difficult time in his life, think about becoming a foster parent. For additional information, contact your local Department of Human Resources or call the foster home worker, Barbara Simms, at 806/669-6806.

Forehand Discusses "Family and the Future of America"

Garell Forehand, minister of the Church of Christ, was the guest speaker when La Paisana Chapter, Daughter of the American Revolution, held its regular meeting Monday, March 1.

Mrs. Les White was hostess at the Cherokee Inn Dining Room.

Forehand discussed "The Family and the Future of America," and at one point he made the comparision of the nation with ancient Greece, pointing to specific ways in which Americans are repeating the mistakes of that earlier nation.

During the business session, members considered the proposal made to La Paisana Chapter that they serve as a search group on the local level for persons doing geneological research. A number of the DAR members have already done research on their families and are familiar with the procedure. This work would be done for a fee, and it would serve largely those persons living in other parts of the country who cannot come to Wellington to do their own research.

Members also discussed means of securing photographs for a Panhandle book.

Eight delegates were named to attend the Texas State DAR Conference in Ft. Worth.

Guests attending were Mr. and Mrs. Forehand and children. Members present were Mrs. Bura Handley, Mrs. H.H. Bowen, Mrs. Jack Davis, Mrs. White, Mrs. Boyd Derryberry, Mrs. Jennie Holcomb, Mrs. J.D. Coleman, and Hattie D. Wells, and from Shamrock, Mrs. Walter Pendleton, Mrs. R.C. McNett and Mrs. John McDowell.

1954 Study Club Hosts Autograph Party for Author

The 1954 Study Club hosted an autograph party on Saturday morning Feb. 27, at the Heritage Room for Mrs. Jean Burchett.

Mrs. Burchett, acclaimed to be the "Erma Bombeck of the West," is author of the humorous book, "Daze of Our Lives," as well as a newspaper column by the same name.

Mrs. Burchett lives at Childress and is the niece of the late Ben Ratliff of Wellington.

Coffee and cookies were served to a number of guests who called between 10 and 11:30 a.m.

Greeting the guests were Mrs. Cal Hurst, club president, and Mrs. Lynn Wright, Mrs. Ben Ratliff assisted Mrs. Burchett.

Also assisting were Mrs. Bill Hatch, Mrs. R.L. Templeton, Mrs. Jerry Nix and Mrs. Virgil Patterson.

Copies of Mrs. Burchett's book may be purchased from Mrs. Ratliff or at the House of Jewelry and Gifts.

Store Paints and Tools Properly to Save Big

Sounds almost too simple, but store your paints and equipment properly and save big money, reminds Dr. Jane Berry, a housing and home furnishings specialist.

"True," she insists.

"Countless dollars are spent on brushes, rollers, paints and other supplies which must be discarded after only one use because of improper cleaning and storage," she says. Berry is on the home economics staff of the Texas Agricultural Extension Service,

Many paint items should give long-lasting results over several years -- with proper care, the specialist adds.

Whether painting projects are scheduled once a month or only several times a year, here are a few tips on cleaning and storage to assure tools and supplies in "ready-to-paint" condition:

SEAL IT UP: Tightly sealed paint containers will keep contents fresh.

Store leftover paints by selecting a small container that will be filled to the brim with the remaining paint.

Secure a piece of plastic wrap around the rim with a rubber band. Then secure the lid on tightly over the wrap. This will keep a skin from developing on the paint surface.

If a skin has developed because of improper storage, cut it away from the surface with a knife and lift it off in one piece -- otherwise leftover particles will give paint an uneven finish.

Be sure to store all paints away from heat, freezing temperatures and curious children.

PRESERVE PROTECT IT: Be sure to thoroughly clean all paint off of paint brushes after use.

If a latex paint was used, clean the brush with warm water and detergent. Be sure to rinse all detergent from the brush.

If a solvent-thinner paint or varnish was used, clean the brush with a recommended solvent or paint thinner.

Then wash it in warm water and detergent. After the brush has dried, comb the bristles straight out and carefully wrap the brush in heavy paper or plastic. Either lay brushes flat or hang them from hooks to store.

Wash paint rollers just as you do brushes, but be sure to remove excess paint from the roller before you clean it by rolling it back and forth over newspaper or paper towels.

After using latex paint on a roller, rinse it in water and detergent and allow it to dry completely.

Oil-based paint should be cleaned with paint remover or specially formulated brush cleaner -- not water.

Once the roller is clean and dry, place it in a plastic bag and hang it to store.

STORE SPRAY PAINT WITH CARE: Store all spray-paint cans under 120 degrees F.

To clear a clogged spray-paint can nozzle, turn the can upside down and press lightly on the spray button for a few seconds. Never use pins or other sharp objects to clear the nozzle.

Before discarding empty spray cans, repeat the above procedure to release leftover propellant.

Cooking for Just One? You'll Have to Plan...Plan

Cooking for one and finding it rather difficult?

Then plan, plan, plan -- your menus, says Dr. Cass Ryan-Crowe, a food and nutrition specialist.

Ryan-Crowe, on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System, says that menu planning is essential for the "single" to survive in the kitchen.

"At first you may think that planning your meals is a waste of time, but in the long run, you'll actually save time and you will definitely save money," she promises.

Meal or menu planning is not hard, either, especially when you have only yourself to please! the specialist notes.

"If you like to eat a big breakfast, plan for it. If you're on a diet, plan low-calorie meals.

"And don't forget to plan for nutritous snacks if you're a between-meal snacker.

Even though she admits it is difficult to cook for just one, Ryan-Crowe says with a plan -- and practice and patience, it pays off.

Certainly meals will be more satisfying than warming and eating the same thing day after day, not to mention the higher nutritional value of fresh-food menus each day, she adds.

Carnival Glass Discussed for Wellington YH

Wellington Young Homemakers met Tuesday, March 2, in the Greenbelt Electric Co-operative directors room, when hostesses were Juanita Upchurch and Rose Mary Throne.

Mrs. Sam Adams was the guest speaker, discussing Depression (Carnival) Glass.

The history of this distinctive yet inexpensive glass goes back to the 1920s. At one time, a person could get a piece of carnival glass as a premium in a sack of flour or box of oats.

Through the years, many persons have lost these pieces, through breakage during use or they were given away.

Their popularity has returned, and pieces are hard to get and quite expensive, Mrs. Adams explained.

The speaker has a collection of carnival glass, which she has acquired over a period of years.

Members voted to operate a booth at a fund raising event of the Wellington Satellite Center later in the year.

Those present were Vickey Parker, Brenda Ferguson, Merry Harvey, Mrs. Throne, Mrs. Upchurch, Lonetta Ingram and Sharon Bowen. Morene Childers was a guest.

Letters From The People

Dear Editor:

Your article about the great horned owl brought back fond memories of an owl I raised from a chick several years ago.

When I got the little owl it was sparsely covered with fluffy white feathers and looked very clumsy and helpless. It had a huge round head and big piercing eyes. Even as a baby it was very alert and cautious.

I found that the owl liked the canned food I fed my kitten better than any other. It always ate heartily and grew very fast.

After the owl overcame its shyness of me it was very playful. It would tell me when it was hungry or needed attention by making a loud clicking sound with its beak.

The owl and my kitten loved to play together when it got bigger. Sometimes they would play rather rough and other times they would groom each other affectionately.

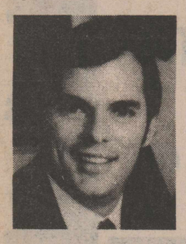

When I had company, the owl would peep around the corner from a bedroom its cage was, to observe the people in the living room. Then, satisfied that it was safe, the owl would walk in to stare at the people, untie their shoes or watch TV. It would watch TV for amazingly long periods and especially liked (you guessed it) animal shows.

Though the owl seemed happy enough, I felt it a shame to keep it in a cage so I gave it to a friend who lived in the country. There the owl would fly around outside and enjoyed the big trees around the house. It slept on a screened-in back porch.

After a few weeks in the country another great horned owl flew up and perched beside the pet owl on the roof. The next time the other owl came they flew away together. The pet owl returned the next day but about a week later they flew away together and never returned.

TEACHER CRISIS

AUSTIN -- Two things have made this state and country great. One is our abundant natural resources. The other is the ability of all children to get a quality education, whether their parents could afford it or not.

The emphasis on natural resources will change in the future. Our big two, oil and gas, will run out someday. This means our education must be better and better to hold the competitive edge we have enjoyed so long.

Unfortunately, our system of education is doing the opposite. As it becomes more important, it's getting worse.

The problem is that teachers do not make enough money. In any field, the way to attract the best people, and enough of them, is to offer a competitive salary. Texas hasn't done this.

The average pay for a classroom teacher in this state is somewhere around $14,000. This is probably the lowest pay for a person with a college degree of any profession.

Teachers are getting tired if it, too. Almost half of all teachers in this state with 12 years experience are ready to leave the profession. The average teacher works 13 to 14 hours a week on another job, just to try to make ends meet, according to a recent survey by Sam Houston State University.

Few students are entering teacher training programs, and the test scores of those who are have fallen dramatically in the last few years.

If that weren't enough, the birthrate on this state is still increasing. Families with young children are moving into Texas in record numbers, further adding to the problem.

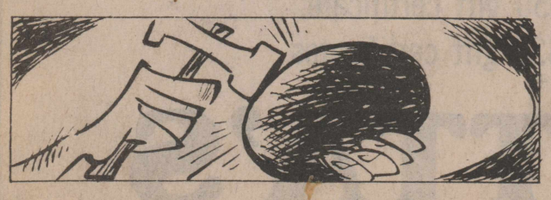

During the last session of the Legislature, we passed a bill to require prospective teachers to pass competency tests before they could be certified to teach. This is all well and good, but it won't mean a thing if there are not enough teachers to go around. The way teachers are becoming scarce, there will be few teachers who will be able to pass the test and will be willing to work for such a low salary.

It is very difficult to get people excited about a problem that is more than about five minutes down the road. This is particularly true in the Legislature. But the Legislature must be made to realize that Texas cannot maintain the healthy economic and social climate it now enjoys unless its citizens have a good education. If you want a better future for your children tomorrow, you must make sure they get a good education today.

We are all interested in the future of our children. Please write to us and tell us what we can do to attract the good teachers our children need. Write to Senator Bill Sarpalius, P.O. Box 12068, Austin, Texas 78711.

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN — Texas finally has a redistricting plan under which it will hold the 1982 congressional elections, and may soon have new plans to apportion the state House and Senate seats.

The three-judge federal court panel hearing the legal challenges to the state redistricting plans has handed down a new congressional plan to replace the one rejected by the U.S. Department of Justice.

That panel also is scheduled to make rulings soon on the House and Senate plans.

In the new congressional reapportionment, the judges —U.S. 5th Circuit Court of Appeals Judge Sam Johnson and U.S. District Judges William Wayne Justice of Tyler and Robert Parker of Beaumont—redrew only six of the 27 districts contained in the plan that failed to pass muster with the Justice Department.

Those districts included two in South Texas—the basis of the Justice Department rejection—and four in Dallas, where Gov. Bill Clements had insisted that legislators create a majority black district.

The judges undid that district, thereby restoring the 5th Congressional District of U.S. Rep. Jim Mattox, D-Dallas, who had decided to run for attorney general after previously being drawn out of the district.

Mattox, however, says he won't change his mind about the office he's seeking, even though some supporters have urged him to seek his old post.

Ogg Criticism

Instead, he seems to have more fully thrown himself into the attorney general's race attacking Democratic foe Sen. Jack Ogg of Houston, who has been named in a $50.2 million "racketeering" lawsuit.

Mattox has called on Ogg to drop out of the attorney general's race because of the suit, which contends Ogg used his influence as a state senator to defeat a landfill application before the Texas Department of Health.

However, Ogg appears to have no intention of letting the suit be used as a political weapon to force him out of the race.

Ogg has filed a countersuit seeking $20 million in slander damages against the firm that filed the racketeering suit, Conservation Management Inc., and he has begun his own attack on Mattox.

In response to Mattox's statement, Ogg called the congressman a "congressional ghost" who has set records for low attendance in Congress.

"He had one of the worst attendance records in Congress last year and it looks like he will break that attendance record this year," Ogg said.

Ogg has labeled the lawsuit against him a "political smear job."

War on Drugs

The Texans War on Drugs, headed by Dallas millionaire H. Ross Perot, has had great success pushing anti-drug legislation through the Texas Legislature, but a national magazine has labeled the effort a "fiery propaganda campaign" that is out to destroy civil liberties.

In an article published in the April edition of Playboy magazine, writer Laurence Gonzales says that "shock-troop moms" from the War on Drugs "have done more to undermine basic civil liberties than any other movement since Joe McCarthy's anti-communist crusade."

The War on Drugs crusaders were instrumental in gaining passage of laws authorizing wiretaps and outlawing the sale of drug paraphernalia during the last legislative session.

"It is our fear that if you look at what happened in Texas in 1981, we very well could see this happening on the national level, under the banner of the War on Drugs," said John Duncan, director of the Texas Civil Liberties Union, who is quoted in the Playboy article.

Spokesmen for the War on Drugs have denied that their efforts have harmed civil liberties or constitutional protections, but Duncan, who appeared at a Capitol press conference with a representative of Playboy, has charged that the Department of Public Safety has stripped away the protections contained in the new wiretap law by using "pen registers," devices which record telephone calls.

Fire Ants

Farmers and ranchers who were counting on the aid of the Texas Department of Agriculture in fighting the rapidly spreading fire ant problem may not be getting the assistance they hoped for.

The agriculture department had asked farmers to collect $1 per acre to help finance aerial spraying of the chemical Amdro in 10,000-acre blocks of rural land.

However, Milam County farmer Fred Debault, who helped raise $156,000 for Amdro spraying in his county, says the department now plans to give the county only one-sixth of the amount of the pesticide they had been promised.

Debault and State Rep. Dan Kubiak of Rockdale, who chairs a special committee studying fire ants, say Agriculture Commissioner Reagan Brown misled farmers and ranchers about the availability of the chemical. Kubiak said far more farmers asked for the chemical than Brown had anticipated.

Under the plan, the agriculture department would pay $3 for every $1 contributed by farmers.

"They simply do not have the funds nor do they have the materials," Kubiak said. "I think they just underestimated the magnitude of it."

Kubiak called on Brown to fulfill early commitments to Milam and other counties that have raised funds before giving Amdro to other counties who came into the program later.

Texas Independence Day

Texas celebrated the anniversary of its independence from Mexico with little fanfare March 2. Most state employees took the day off and a musical program was held in the Capitol rotunda (after those who did work had gone home), but otherwise the day passed rather uneventfully.

It seems Independence Day should have rated at least a 21-gun salute.

Reps. Charles Wilson, D-2, Jake Pickle, D-10, James Wright, D-12, William Patman, D-14, Kika de la Garza, D-15, Henry Gonzalez, D-20, Abraham Kazen, D-23, and Martin Frost, D-24, voted "yea."

Reps. Samuel Hall, D-1, James Collins, R-3, Ralph Hall, D-4, Phil Gramm, D-6, Bill Archer, R-7, Jack Fields, R-8, J. Marvin Leath, D-11, Jack Hightower, D-13, Richard White, D-16, Charles Stenholm, D-17, Tom Loeffler, R-21, and Ron Paul, R-22, voted "nay."

Reps. Jim Mattox, D-5, Jack Brooks, D-9, Mickey Leland, D-18, and Kent Hance D-19, did not vote.

CONTROLLING OIL--By a vote of 246 for and 144 against, the House gave final congressional approval to legislation giving the president power to allocate oil supplies in the event of another Arab oil embargo or some other crisis. President Reagan has threatened to veto the bill (S 1503). At issue is whether the free market can respond adequately to oil shortages. The president says it can, but critics say government intervention is needed to assure a fair distribution of limited supplies at affordable prices.

Members voting "yea" wanted the president to have an oil allocation plan waiting in the wings in the event of another severe shortage.

Sam Hall, Wilson, Ralph Hall, Pickle, Wright, Hightower, White, Stenholm, Hance, Gonzalez, Kazen and Frost voted "yea."

Collins, Gramm, Archer, Fields, Leath, Patman, Loeffler and Paul voted "nay".

Mattox, Brooks, de la Garza and Leland did not vote.

BUSING--The Senate adopted, 72 for and 22 against, an amendment that could terminate school busing programs that are now in effect as a result of federal court orders. The Justice Department would have the authority to seek nullification of such orders. The amendment was attached to S 951 (see following vote).

Senators voting "yea" wanted the Justice Department to be able to seek repeal of existing school desegregation busing orders.

Sens. Lloyd Bentsen D, and John Tower, R, voted "yea."

SCHOOLS--By a vote of 57 for and 37 against, the Senate passed and sent to the House a bill authorizing $2.45 billion to fund the Justice Department in fiscal 1982. The measure contains the strictest anti-busing language ever adopted by either house. It prohibits the department from seeking new busing orders and allows it to try to repeal existing ones. And it bars courts from ordering busing that would send students more than five miles or 15 minutes from their homes.

Senators voting "nay" opposed the anti-busing language.

Bentsen and Tower voted "yea."

The stamp on a letter is only a small part of the cost of doing business by mail. You have to include the cost of secretarial time, materials, mail handling and overhead. That adds up to something like $6.63.* You can do a lot of business with long distance for that amount, take care of orders faster, and save time and energy as well.

Plus you never have to lick stamps.

Most Farmers to Cut Cotton Acres

Most Texas cotton farmers will likely participate in the 15 percent acreage reduction program recently announced by the Secretary of Agriculture.

While participation is voluntary, farmers must comply if they wish to be eligible for target price protection and Commodity Credit Corporation loans on their 1982 cotton crop. And that's incentive enough.

"Cotton farmers in Texas as well as in other states really have little choice but to participate in the program" believes Dr. Carl Anderson, cotton marketing economist with the Texas Agricultural Extension Service, Texas A&M University System.

"Farmers are faced with a poor price outlook for this year's crop due to surplus cotton supplies," he says. "So they really need the price protection offered by the program, especially with current prices hovering near the loan rate."

Cotton farmers are getting their first deficiency payments in history on their 1981 crop because the average market price fell below the target price of 70.87 cents a pound. The target price for the '82 crop will be 71 cents a pound, and farmers will likely get another deficiency payment unless something happens to strengthen the market, notes the economist. The '82 loan rate will be 57.08 cents for Base Grade 41 Staple 34, Mike 35-49 Upland cotton.

To illustrate the bleak price situation that cotton farmers face, Anderson points out that the price of Upland cotton averaged 50 cents a pound in mid-January compared to 76.60 cents in January of 1981.

"This was brought on mainly by a bumper U.S. crop last year that was the largest since 1953," he says. "At the same time, domestic use of cotton has slackened so that carryover on August 1 is expected to be around six million bales--more than double last year's level."

As far as the acreage reduction program is concerned, Anderson says that farmers must reduce their plantings by at least 15 percent of their established cotton acreage base--the higher of their '81 acreage or the average of the '80-'81 acreages. However, where farms have been following a definite rotation pattern, the base will reflect such rotations.

Land taken out of production must be eligible cropland and must be devoted to conservation uses. It may be grazed except during the six principal growing months.

"Neither off-setting compliance or cross-compliance is a requirement in the program," adds the economist. "This means that farmers owning or operating more than one farm will not be required to participate on all farms to obtain program benefits on participating farms. Also, farmers need not participate in the Upland cotton program to qualify for program benefits on other crops. Of course, the $50,000 limitation on program benefits remains in effect."

Cotton farmers can obtain additional information about specific provisions of the acreage reduction program from their local ASCS offices, says Anderson.

Mrs. Somerville, Retired Teacher Dies March 6

Mrs. Mayme Somerville, 89, died Saturday, March 6, in Thomas Nursing Center.

She was a pioneer in Collingsworth County and had taught here during and after World War I for about 15 years at small schools.

These included Hackberry, Elm Calley, Cross Roads, Pleasant Hill, Shinnery, Bean Hill, Wilnulcer and Grassbur.

In 1953 she went to Glendive, Montana, where she taught in one of the few remaining one-teacher schools.

She was a member of First United Methodist Church, a former president of the Women's Society of Christian Service, a teacher of her Sunday School class, and earlier in her life, active in the children's department of the Sunday School.

Mayme Wilkerson Somerville was born in the Indian Territory near Duncan, now Oklahoma, on Feb. 28, 1893, to John and California Magness Wilkerson.

In that part of the Indian Territory, free schools were available only to the Indian children. She, with the children of other settlers, attended the schools that could be provided by their parents.

She was married to Marvin C. Somerville on Feb. 22, 1918, in San Antonio. He died Oct. 1, 1949.

Funeral services for Mrs. Somerville were conducted on Tuesday, March 9, at 11 a.m. in Guy Owens Funeral Chapel, with the Rev. Tom Thomson, pastor of First United Methodist Church officiating. Burial was in Fairview Cemetery under the direction of Guy Owens Funeral Home. Graveside rites were by members of the Eastern Star.

Pall bearers were George Barton, Robert Lewis, Bobo Castleberry, Jimmy Cochran, Keith Smith, and James Sullivan.

Survivors are a daughter, Mrs. Nicholas S. Louis (Jewell Frances) of Detroit, Michigan; three grandchildren, Mrs. Victoria Foedisch of Seattle, Washington; Nicholas Louis II and George Marvin Louis of Detroit; and one great-granddaughter, Lorien Foedisch of Seattle; a sister, Mrs. Carroll Jones of Chickasha, Oklahoma and a brother, Quanah Wilkerson of Anadarko, Oklahoma.

DEANNA LYNN TARRANT

Deanna Tarrant In High School Honor Book

Deanna Lynn Tarrant, a student in Bullard Independent School District High School, has been selected as a member of the Society of Distinguished American High School Students for 1982.

Deanna Lynn is the daughter of Mr. and Mrs. Bill Tarrant of Bullard and granddaughter of Mrs. Treva Stallings.

Each year high school principals and counselors across the county assist the Society in recognizing and rewarding distinguished students. "The honor is one of the highest that can be bestowed on a student," said L.B. Siegelman, executive director.

Only those students who have demonstrated academic excellence, leadership in extra-cirricular activities, or have been service-oriented in civic affairs are chosen to receive the honor.

Besides providing recognition, they may participate in a scholarship program conducted specifically for them. This program, the National Awards Program, is supported by 104 colleges and universities spanning the United States.

Deanna's membership will be announced in the 1982 edition of the Society of Distinguished American High School Students.

Texas Twisters Elect Officers

Wellington Texas Twisters Square Dance Club has elected 1982 officers, with Lee and Carolyn DeVoss as president.

Other officers are Wayne and Ernestine Cummings, vice president; John O'Rear & Becky Skelton, treasurer and secretary; Fred and Jackie Maxwell, reporters. Delegates are Grady and Barbara Reed and Tommy and Bobbie Thomas .

Square dance lessons to begin next Monday night, March 15th at 8 p.m. at the American Legion Hall. This will be the last attempt to have lessons for the Wellington people, and the surrounding area," said the president.

"There will be three chances to sign up for these lessons. The next three Monday nights will tell us how many people are interested in having some good clean fun with your whole family.

"Where else can you go in Wellington to have some entertainment for the young and old, have good exercise, meet new friends, bring your kids, eat and dance and have a good time. You don't have to know how to dance to square dance, if you can walk you can square dance. No alcoholic beverages are allowed at any square dance, and that is the number one rule," a club spokesman continued. Wellington has no theatre, no skating rink, no bowling alley and really has no entertainment, for the young people.

"The small children, teenagers, and newley weds couples in other towns around us are having a ball learning to square dance with their friends and families.

Wellington at one time, about five years ago, had the only teenage group and a younger group of square dancers in our district, and I was so proud of them and I enjoyed showing them to our visitors and taking them to other clubs to show them what Wellington had. Now we only have two are three that are still having fun. You might say that we are just trying to sell square dancing. Well, I am. I think it's the best exercise, and the best entertainment that Wellington has for the price, because it's not just for grown people, or just women, or men, it's for everyone.

"If you have never tried it, come on down next Monday night, and learn with us. In square dancing you never stop. For the single people there are new singles clubs not too far from us. For more information on this come down Monday night, we welcome everyone," said Carolyn Devoss.

At General Telephone... We're Not Simply Talking About Service Improvements We're Making Them In Wellington

At General Telephone, better service isn't just a goal, it's a solid commitment. General Telephone spent over 354 million dollars in 1981 on capital expenditure projects (i.e. new electronic switches, expanded cable projects, modernization), and GTE will spend over 410 million dollars in 1982 to provide you the best telecommunications available.

For Wellington this investment in service improvement is working as shown below. General Telephone is working hard to continually provide you with the best of service.

The Texas Public Utilities Commission (PUC) has established certain standards in public hearings, and our service results are listed against those standards.

GAVELS GRIT & GLORY
The Billy Clayton Story
By Jimmy Banks

Billy Wayne Clayton is a West Texan all the way. His family background sprang from the rich, sandy loam of the high plains but his success story in both money and politics is far from the ordinary. Author Jimmy Banks, a veteran newspaperman, tells it all in *Gavels, Grit and Glory* from his days as a boy at Springlake to his climb up the ladder to become Speaker of the Texas House of Representatives following acquittal from charges in the sensational Brilab trial. This is a book every West Texan should read. It's easy to order: either pick up a copy at the newspaper office or mail your order to:

Rockets in Vernon Tennis Tourney

Tennis, a game for the spring and summer brought out high school competitors on one of the coldest days of recent weeks at the Vernon Invitational tournament Friday and Saturday, March 5 and 6. It was their first outing of the 1982 season.

Jamie McKay won the freshman boys singles and Vanda Wood went to the quarter finals in the girls singles. Both play in the C division (freshmen only).

Wade Williams, in boys singles, A division (seniors only) went to the semi-finals.

The B Division team finished third overall behind Burkburnett and Vernon.

Individual results, announced by Coach Ronny Williams, included:

A DIVISION

Boys doubles: Brent Long and Scott Cochran lost in the last round to Adam Mejia and Quinton Floyd of Memphis.

Girls singles: Jannon Thomason won 8-3 over Carla Boone of Chillicothe, then lost in the second 6-0, 6-4 to Helzsaur of Electra.

Boys singles: Lynn Bartlett lost 8-6 to S. Curry of Burkburnett, No. 1 seed, who went on to win that division.

Wade Williams won the first round 8-4 over Hawley of Holiday, then took the second round 6-1, 3-6 and 7-5 from Duke of Vernon. He defeated Davis of Electra 6-2, 6-2 in the third round, before he lost the semi-finals 6-4, 6-2 to Roberts of Iowa Park. Roberts finished second behind Curry.

B DIVISION

Girls Singles: Lisa Powell won 8-4 over Stroud of Electra, but lost the second 6-3, 6-4 to Montgomery of Memphis. In boys doubles, Todd Roberson and Scott Shepard lost 6-1, 6-2 to Gilstrap and Starr of Iowa Park, and Barry Moseley and Rodney Nash lost 6-1, 6-2 to Pike and Bean also of Iowa Park.

Girls doubles: Belinda Crelia and Cathy Crelia took a 9-8 loss from Puerdie and Wise of Burkburnett.

Shanna Urban and Carla Nunnelley won 8-4 over Lander and Brown of Holiday, and took the second round 6-2, 6-2 over Dietrichson and Amerson of Iowa Park. Their third round victory was 4-6, 6-4, 6-4 over Mansack and Harris of Burkburnett. Their loss in the finals was 7-5, 6-3 to Manna and Dillingham of Vernon.

C DIVISION

Girls singles: Vanda Wood lost her first round 8-6 to Lozipone of Electra.

Lori Lacy won 8-1 over Federson of Iowa Park in the first round and 6-2, 6-0 over King of Burkburnett. She then lost in the quarter finals 6-4, 6-1 to Helzshuer of Electra.

In boys singles, Jamie McKay won 6-0, 6-0 over Enos of Petrolia in the first round, then took a 6-0, 6-1 win from Witt of Vernon in the second. He realized a third round win of 6-3, 6-0 from Chick of Electra, and took the finals 6-2, 6-4 over Schlgeal of Electra to win that classification.

Tennis Team in Triangle Meet

Wellington High School tennis teams will play in a triangular meet with Childress and Quanah Friday and Saturday, March 12 and 13, Coach Ronny Williams announced.

Participants will be those who played in the Vernon Invitational Friday and Saturday, March 5 and 6.

"That was really to bad (the weather) to play, but everyone did a good job and played hard," said the coach.

"We're a little bit behind where I'd like for them to be at this point, although some are ahead too."

Williams predicted a tight race for the 2-AA tennis championship between Wellington, Memphis, Canadian and Wheeler.

Wellington boys were second in their division in district last year, Williams said.

Among those who are due to play this week are Brent Long, Scott Cochran, Jannon Thomason, Carla Nunnelley, Lynn Bartlett, Wade Williams, Lisa Powell, Todd Roberson, Scott Shepard, Barry Moseley, Rodney Nash, Belinda Crelia, Cathy Crelia, Shanna Urban, Vanda Wood, Lori Lacy, and Jamie McKay.

Throckmorton Ranch Field Day April 8

THROCKMORTON--Report on a year's testing of a short duration grazing system and results of intensive research on range animal nutrition, control of pricklypear cactus, and the response of livestock and vegetation to grazing management will be featured here Thursday, April 8, at the field day of the Texas Experimental Ranch.

The program begins at 8:30 a.m. with registration, said Dr. Earl C. Gilmore, resident director of research with the Texas Agricultural Experiment Station (TAES) at Vernon. The experimental ranch, 11 sections on the Throckmorton Ranch of the Swen R. Swenson Cattle Co., is on U.S. Hwys. 183 and 283 between Throckmorton and Seymour.

Tours will begin at 9:30 a.m., with a barbecue lunch served at noon, said Dr. Rod Heitschmidt, TAES associate professor of range ecology.

One tour stop will be at the cell-designed short duration grazing (SDG) system, Heitschmidt said. Commonly known as the Savory Grazing Method, for its developer, Allan Savory of Albuquerque, N.M., this management method has gained wide interest for its potential of increasing livestock production while maintaining or improving the forage resource of the range.
