COURTNEY HOPS OFF FOR AMERICA IN "WHALE"

WATER PROJECT PERMIT IS GRANTED TO BROWNWOOD BY STATE

PROPOSED SIZE OF DAM IS CUT TO BIG EXTENT

WORKMEN AND POWERMEN PROTEST TYPE OF DAM
LUICEWAY ASKED
AMOUNT OF IRRIGATED LAND SLASHED TO 25,295 ACRES

(By Associated Press)
AUSTIN, Sept. 2.—The Brownwood water district's newly contested application for a permit to build an irrigation and city water supply dam on tributaries of the Colorado river, was slashed late today by the state board of water engineers under an order enjoining the project to about its original size. A. H. Luiceway, manager dissented from the board's decision, but announced that the district, styled county number one is ready to provide a satisfactory dam to the board, in the event the passage of all other applications is delayed.

The dam is to be about nine miles long and will have a crest of 100 feet. The project will irrigate 25,295 acres, area of the Colorado river, and will also provide water for the city of Brownwood. The dam is to be built on the Colorado river, about 10 miles from Brownwood. The dam is to be built on the Colorado river, about 10 miles from Brownwood. The dam is to be built on the Colorado river, about 10 miles from Brownwood.

Business In This City Is On Up Grade

An era of prosperity is further proving itself in the city in the steady influx of people that is pouring into Lubbock daily, according to the records of various businesses of the city. Realty men report the sale of houses as exceedingly good and rent houses as getting scarce each day. A number of new homes are also appearing over the various residence districts of the city.

According to real estate men, the rent houses around the schools of the city are practically all taken. A large number of houses have been rented in the past three weeks and the dealers are expecting a good business during the coming weeks, they report.

In the office of the city water and light department, the records show that scores of orders for the connection of water and lights are being made daily. During August 21 and September 1, two days, there were 66 applications for connections for light and water, the city records show. A large number of cut-offs are being asked for, also, and the city is busy with the work of connecting up the new lines.

By the time for the opening of the two schools of the city, Lubbock will have several hundred more people, according to present indications.

THREE DIE AS CAR PLUNGES IN NIAGARA GORGE

OHIO COUPLE KILLED AND CHILD GIVEN FATAL WOUNDS
DROPPED 100 FEET
WERE FORCED OFF OF ROAD BY ANOTHER AUTOMOBILE

(By Associated Press)
NIAGARA FALLS, Ont., Sept. 2.—Mr. and Mrs. Desmond Huxley of Cleveland Heights, Ohio, were instantly killed and their 7-year-old daughter was fatally hurt this evening when their automobile crashed through a guard rail at the edge of Niagara Gorge and plunged downward 100 feet to a ledge of rocks. The child died at a hospital two hours later.

The accident occurred at the foot of Ellis street, midway between the upper and lower steel arch bridges. Spectators said that the Huxley car, going north on the river road, was crowded off the pavement by a southbound automobile.

All three occupants were thrown out as the car struck the ledge at the foot of the vertical face of the bank. The machine burst into flames and rolled still further down a gradual slope to within a few feet of the water.

Police and firemen extended a ladder in a horizontal position about ten feet over the edge of the cliff and an undertaker's basket was let down to the ledge. A block and tackle was rigged on the bank in a secure position and firemen worked their way down the ledge.

Warren Robinson, a contractor, stood on the end of the ladder, extending out into the gorge and directing the rescue work. As the basket was tied and released by the block and tackle, Robinson kept it clear of obstructions by another rope attached to the basket handles.

The basket made three trips, the injured girl being first brought up to the level of the street, followed by the bodies of the mother and father.

An inquest will be held tomorrow and the authorities will try to clear up the report that the Huxley machine was forced to its death position.

Anderson Identified As Flogger By Victims Who Are Placed Upon Stand

(By Associated Press)
TYLER, Texas, Sept. 2.—In the trial of Cain Anderson charged with participation in the flogging of J. H. Richardson, his wife, and his daughter-in-law, Mrs. Willie Steaps, the state created conditionally at 5:45 this afternoon.

Assistant Attorney General Galloway Calhoun, Austin, said that the state would introduce but one witness at opening of court Saturday morning and court adjourned for the day.

A murmur passed through the court room when Mrs. Richardson told of a difference, possibly the first between her family and Cain Anderson, after which "Anderson wasn't so friendly."

Refused Shooting Scheme
"Cain Anderson asked my husband to make whiskey, saying he would furnish the materials, and I told him that he couldn't make whiskey on my place," she said.

Shortly after, the Richardsons were requested to leave Anderson's farm, and they moved, she said.

The state today fired its big guns in its case against Anderson, charging on 14 counts with violating the state anti-murder law. It placed both J. H. Richardson and his wife who were flogged by four masked men on the night of June 3 on the witness stand.

It was a story of a night of terror and suffering, which the elderly, weather-beaten couple told the jury. He was related amid the tears of the women, school once or twice by a sob from the courtroom, to a court packed with a crowd of many men and some women who at times were nearly enough to bring a warning from the court.

Both both recognized Cain Anderson and DeWitt Osborn, one of Anderson's tenants, as members of the "flogging party." In a rigorous examination, defense counsel, led by E. Young, Longview, sought without success to make the jury doubt their Add told neighbors the day after the whipping they did not recognize Anderson, but only "thought" they recognized Osborn.

GOLDSTEIN NOT IDENTIFIED IS DEFENSE CLAIM

QUESTION AS TO BODY FOUND BEING BOY, RAISED
FUNERAL HALTED
THREE HELD CHARGED WITH MURDER FOR INSURANCE

(By The Associated Press)
NEW YORK, Sept. 2.—A question regarding the identity of the body found floating in Graves End Bay last Friday by Irving Rubinsahl and Harry Greenberg at the instigation of Joseph Lefkowitz, beneficiary of \$70,000 in insurance policies on Goldstein's life. The three are under arrest charged with homicide.

Rubinsahl and Greenberg are said to have confessed.

Identified By Father
The body was identified Wednesday by Samuel Goldstein as being that of his son, but an insurance company carrying one of the policies on the youth's life, reported to District Attorney Dodd today that investigators had been told by a defunct attorney that the body was that of young Goldstein.

Under a confession, held by the district attorney, Greenberg is said to have admitted that he and Rubinsahl lured Goldstein into the bay in a small boat, and then pushed him into the water, as part of the plan to collect the \$70,000 in insurance.

The funeral of the alleged drowning victim, which was scheduled for this afternoon was held up by an order from the district attorney on information given by the insurance company investigators, until the medical examiner and a coroner reached New York.

Goldstein's teeth have been an investigation of the body.

Distance Tests Of Aviation Censured For Loss Of Life

(By The Associated Press)
PLYMOUTH, Eng., Sept. 3. (AP)—Captain F. P. Courtney hopped off on a trans-Atlantic flight at 6:26 a. m. today.

Royal Windsor Ready
MONTREAL, Que., Sept. 2 (AP)—In the hope of an early hop off tomorrow morning from Windsor, Ont., to Windsor, England, Phil Wood and "Dixie" Schiller, pilots of the monoplane "Royal Windsor," left word tonight to be called at 6 a. m. when they will proceed to the St. Gregoire field.

If favorable weather conditions are reported, Schiller said, the monoplane, which was forced down when a wing caught fire yesterday, will make a second attempt to span the Atlantic.

NEW YORK, Sept. 2 (AP)—Strong revision against the false importance being given long distance flights, especially trans-oceanic, was manifested in three leading aviation countries today as fear for the lives of the St. Raphael's crew became a certainty.

At Buffalo, N. Y., the committee on air laws of the American Bar association expressed hope that legislation might be enacted to halt the mounting loss of life. The Stinson aircraft corporation of Detroit declared an order will be accepted hereafter for planes intended for solo oceanic hops.

From Washington, navy hydrographers called attention to the strikingly adverse conditions faced by the St. Raphael and declared these conditions might be expected to operate against other "immediate" seaward flights reported in prospect.

Gambler's Hazard
Characterizing the ocean flights as "a gambler's hazard," influential German gallees decried the importance being attached to them and urged the men, machine and money be better spent in other lines of development.

In London, the government weather bureau arrived at the same conclusion that adds its heavily against successful ocean flights at this stage of aviation. Not only in the present season, the analysis held, but for 300 days in any year, nature opposes the attempt with her twin weapons of fog and wind.

Airmen Held As Being Impostors

MEXICANS MISTAKE U. S. OFFICERS AS BEING IMPERSONATORS

SAN ANTONIO, Sept. 3 (AP)—A case of mistaken identity, in which he was mistaken for an impostor impersonating him, was responsible for the five day detention of Captain C. H. Reynolds, Marine aviator, at San Antonio, Texas, last night.

Reynolds and Newland were sent to Arizona from Fort Sam Houston here, to assist in the search for Albert Z. Menard, world war veteran, who was last seen in Mexico in the course of their search, an impostor, representing himself as Reynolds, reported that Menard had been seen from the plane.

Reynolds was forced down in Mexico half a mile south of the Rio Grande near Presidio, Texas, on his return trip to San Antonio. His release by Mexican authorities would have been only a matter of a few hours, he said tonight, if it had not been for the hoax in Arizona.

"Before Reynolds could get away reports that he was not Reynolds but in reality was the impostor responsible for the false Menard report came to the ears of Mexican officials.

This complication, Reynolds said resulted in the five day delay in the release of the plane. The aviator reached San Antonio this afternoon after a flight from Marfa, where they went after their release.

NEW YORK, Sept. 3 (AP)—Hansford MacNider tonight drank a report from Washington that he had resigned as assistant secretary of war.

"I have not resigned," MacNider said. "My stay in Washington will probably be regulated by my superiors."

PALESTINE, Texas, Sept. 2.—Texas program of road building now is the most ambitious in the state's history, including some 26,000 miles of highway, Governor Dan Moody told 10,000 persons here today at the formal opening of the project.

The governor's program was mainlined by the state representative R. M. Johnson of Palestine, candidate for Lieutenant Governor. Johnson told of some of the struggles of the early trail blazers of Texas.

REDFERN SEARCH COVERS BIG AREA

FRIENDS POINT OUT HIS EMERGENCY RATINGS IN MAINTAINING HOPE

(By The Associated Press)
BRUNSWICK, Ga., Sept. 3.—While the governments of British Guiana, Venezuela and Brazil, extended their search today for the missing Redfern, his friends in Brunswick in Brazil, friends who have not despaired of his safety, recounted again the emergency equipment by means of which the young flier hoped to land and sustain himself indefinitely.

The plan fell into the sea. Redfern planned to empty his gasoline tank and render the ship buoyant. Then, if possible, he would grab a rubber boat and take to it if the airplane sank. The boat was unshakable unless punctured. If Redfern landed safely in the jungle he still has about three days concentrated food supply and with the use of a rifle he could kill some small game.

Confident that reports from ships and from natives that the monoplane was seen in the vicinity of Venezuela and afterward flying over the Orinoco river delta, are true, friends look for Redfern to appear at some settlement soon.

Quimby's report is but a few miles from Acaponeta, some of two recent bandit attacks upon passenger trains of the Southern Pacific of Mexico railway. The dispatches estimate fifty men as the strength of the band.

Mexican military officers declared that 4,000 federal army men were to be moved, immediately from Sonora to Nayarit for action in the heart of the bandit infested country.

LABOR IS FOR OREGON

Party Convention Endorses Race Of Former President In New Resolution Yesterday

MEXICO CITY, Sept. 2 (AP)—The labor party convention by a unanimous vote today endorsed the presidential candidacy of General Obregon.

The convention, adopting a resolution, despite some vigorous opposition, approving the action of the last congress in annulling the constitution so as to permit the president of the republic to hold office again after an intervening term.

General Obregon's opponents desired fulfillment of the declaration on the constitution before last year's amendment, but no provision of Mexico's constitution forbids a second term.

INFLATES RAFT AS HE FALLS IN AIR

QUANTICO, Va., Sept. 2 (AP)—Corporal Richard L. Huffman, marine corps, inflated a collapsible rubber raft while falling 2,000 feet from an airplane to the Potomac river here today, dropped it and released himself from his parachute when near the water. He then climbed aboard and rowed to safety.

The feat was accomplished in testing the advisability of including such rafts as standard equipment for aviators flying over water.

Huffman jumped from a training plane piloted by Lieutenant V. M. Guymon of Salt Lake City, Utah. When his parachute opened 75 feet lower he unpacked the raft and inflated it with two tubes of carbon dioxide.

CHINA HIT BY CHOLERA

NORTHERN ARMY DEPLETED BY DREAD DISEASE AND HEAVY FIGHTING ALONG YANKS

SHANGHAI, Sept. 2 (AP)—Cholera is reported to have joined the forces of the nationalist troops in pushing General Sun Chuan-fang's northern army back from the Yangtze, where, according to nationalist accounts, the general lost 20,000 men in combat during the heavy fighting of the past week.

Foreign dispatches from Nanking state that cholera epidemics is taking a heavy toll among the soldiers in that district.

"Dodies are piled high on the river banks," says the Vernacular papers here, "and hundreds are floating in the river. It is a great pity to bury the dead. The medical aid is most inadequate."

DR. PRESTON APPROVED
New Chief Of State Division Of Elementary Institutions Confirmed By Board

AUSTIN, Sept. 2 (AP)—Appointment of Dr. John Preston, Austin, as chief of the division of state elementary institutions, virtually made by the forty-sixth legislature in special session, was confirmed today by the state board of control.

Dr. Preston formerly was superintendent of the Austin State hospital for the insane. He conferred with the board, discussing general problems and policy.

Confirmation of Dr. L. H. Kirk, also of Austin, was confirmed by the physician at the state school for the blind here.

SMALL FIRE EXTINGUISHED
Children playing with a broom and sticks in a house, caused a small fire at 213 Avenue V yesterday afternoon shortly after 6 o'clock. No damage resulted as the department rushed to the scene in time to extinguish the flames, which had made but little headway. The house was occupied by Mrs. Bobb Hamrick.

Mrs. J. P. Giles Is Cosmopolitan Club Hostess

Mrs. J. P. Giles, 1812 Dixie Drive, was business Thursday evening to members of the Cosmopolitan club and a number of visitors. Bridge was played, with Mrs. Harry Partilo winning high score among the club guests and Mrs. T. H. Carter making the visitors' high count. Mrs. Louise Hawkins was low.

Bridge Club Members Resume Meetings This Week

After discontinuing meetings during the month of August, members of the Idle-A-While club met again Thursday afternoon with Mrs. J. T. Hutchinson, 1211 Broadway, for games of bridge. Mrs. Anna Paulk, being high score at the close of the afternoon and the hostess passed a delicious ice course. Those present were Mesdames Earl Spore, Edgar Shelton, Anna Paulk, Homer Grant, W. H. Meador, J. H. Hankins and Ray Graham.

Announcement Is Made Of Wedding On July 9

Announcement yesterday of the marriage July 9 of Miss Lola Robinson and Raymond A. Coker, came as a surprise to their many friends here. They were married in Crosbyton and had kept their marriage secret until the first of this month when the announcement was made. Mrs. Coker is the daughter of Mrs. Jessie Robinson and Mr. Coker is the son of Mr. and Mrs. J. H. Coker, 684 Avenue K. The couple is at home now at 2261 17th street.

Duncan's Treatise Commented Upon

Following the publication of an article written by M. H. Duncan, superintendent of the Lubbock schools in the Texas Outlook, there appears this month a complimentary statement from the editor concerning the article. The article referred to was entitled "Take the Home to the Home." Below is a clipping of what the Outlook editor had to say about Mr. Duncan's writing: "In the August issue of the Texas Outlook appears an article under the above caption, from the pen of Mr. M. H. Duncan, superintendent of Lubbock schools. Your editor wishes to call attention of the Texas teachers to this article which contains the very best educational philosophy appearing in the columns of this educational journal. We have not seen from the pen of any man or woman such a succinct and clear statement of what teaching means in this modern day. If the teachers of Texas will study this article carefully and make its teachings their educational philosophy, the schools of Texas will become more interesting and attractive workshouses where boys and girls will love to go and where they will enjoy life more abundantly."

The Morning Avalanche Menu for the Day

BREAKFAST—Honeydew melon, cereal, cream, crisp broiled bacon, soft cooked eggs, coffee, milk. LUNCHEON—Cream of pea soup, toasted crackers, stuffed tomato salad, blueberry bread pudding, milk, tea. DINNER—Country fried spring chicken, milk gravy, mashed potatoes, corn on the cob, cold beef, apple pie, cheese, rolls, milk, coffee. A "fryer" should weigh from two to two and one-half pounds dressed. A chicken this size is disjointed rather than being split in half as a "broiler" is. Each joint is rolled in flour seasoned with salt and pepper and quickly browned on all sides in a mixture of butter and lard. Then the heat is reduced, the frying pan covered and the chicken cooked slowly for one hour. Blueberry Bread Pudding One pint blueberries, 1-2 cup granulated sugar, 1-2 teaspoon cinnamon, 1 teaspoon salt, 4 table-spoons water, brand butter, hard sauce. Mix berries, sugar, cinnamon, salt and water. Cook 10 minutes. The mixture must have several slices of bread cut about 1-2 inch thick. Spread one side evenly with butter and cut each slice into 1-2 inch cubes. Put one tablespoonful of the hot berry mixture into each of four cubed cups. Add a layer of bread and press down until bread is covered with berry mixture. Continue layer by layer, pressing each layer of bread firmly into fruit until all is used. Place on top to chill and serve with hard sauce. Copyright 1927, NEA Service, Inc.

The Woman's Day By Allene Sumner

"Let no one deceive you, theoretical feminists. Housekeeping for the home-makers who do not employ domestic servants—98 percent of the total—is a full-sized job, even in this enlightened factory age." So writes a lady in a current magazine article entitled "Trying to be Modern," which is the sad and true tale of a modern woman's attempt to be married but modern in a small town "where woman's work is as definitely fixed as a woman's and she does it as unquestioningly." The author also examines that glib theory "a good housekeeper and nurse" and asks where may "good home workers" be found. All in all, the theory of domesticity having one's cake and eating it, too, is proven as full of holes as a cheese.

"ONE AND TWO AND"

The proposed licensing of music teachers makes one wonder whether even today piano lessons for the progeny of each and every household are as taken for granted as necessary dental work and public school education. When I was a child it was no more assumed that the piano would continue to rise and set than that each of the 5 to 19 children in each 1000-a-month family of the hamlet would have music lessons. The chorus of "one and two and three" thundered up and down our village streets. Even at the tender age of 5 I recall "I sailed" with the boy next door who despised the piano and begged his parents to let him spend his weekly 50 cents for piano lessons in having the town taxidermist teach him how to stuff and mount owls. But the parents were firm—who ever heard of spending money to teach an offspring how to stuff owls? So Tommy kept on his "one and two and three" and it's no fault of his parents that today he's chief display man and taxidermist for a great natural history museum.

PARLOR TRICK

To be sure, knowing how to play the piano is a nice parlor accomplishment whether one becomes a professional or not. But so is learning how to talk, guinea pigs out at a caller's cost either or dancing a slave dance or reciting "Poise on the Bar Room Floor" or imitating Ethel Barrymore or cutting silhouettes of the crowd or making wax beads or giving a good recipe for nut popovers. I can see no more reason for all children being given piano lessons by parental compulsion than for all grown sons to enter dental schools and all daughters to take dressmaking courses.

IMITATION JEWELRY

Oh, what's the use? They tell me that Parisian women are trying to economize by wearing "imitation jewelry," which means that a bracelet of real platinum and diamonds may be reinforced with imitation emeralds or sapphires so that the cost is a mere \$250 rather than \$2500.

SAME IDEA

I just heard this morning that "old man Hill" caretaker of one of our town's cemeteries at a year's salary of five cents in the cemetery house shot himself last night. "Old man Hill" had worried for a year about how in the world he was going to manage a funeral for his wife who couldn't live the year out. Last night the cemetery association handed over to him a \$25,000 check to be used on the beautifying of one plot in the cemetery. He shot himself an hour later.

Black Undies

Newest of smart materials for elastic undies is transparent black, such as lace chiffon or black point d'esprit as used here. The back is very low with padded lower edges. Green velvet ribbons form the shoulder straps and drape about the waist.

Local Briefs

Mr. and Mrs. Eric Thompson and children have returned from Kansas City where they have been visiting Mrs. Thompson's former home.

Miss Dorothy McDonald, who is to be at the head of the high school violin department, is to arrive here Sunday from Gainesville, Ga., where she has been with Hrennu Conservatory.

Word has been received by Rev. R. F. Dunn and family that Miss Beulah Dunn is ill in Butte, Ia. She was enroute home from Chicago where she has been studying this summer but was forced to stop in Butte by her illness.

Mrs. R. L. Tubbs and son, Everett, are going to Berger today to spend a few days with Mr. Tubbs and Miss Lois Tubbs.

Mrs. Bob Shaw, of Arlington, is the guest of Mr. and Mrs. Claude Burrus and family.

Mr. and Mrs. W. E. Holder, 30th Street and Avenue H, have as their guests Mr. Holder's brother, G. B. H. older and wife, of Mount Pleasant.

Miss Maurine Mullican is leaving today for A marillo where she will re-enter the Amarillo College of Music. She is the daughter of Mr. and Mrs. Lon A. Mullican.

J. C. Levens has gone to Dallas this week-end to get Mrs. Levens who has been convalescing there following an operation about two weeks ago.

J. E. Vickers and W. W. Campbell were in Plainview on business yesterday.

Douglas Smythe, Tech student from Stauan, has returned to the city and will enter the Matador football training camp next week.

Givon And Corbu, French Aviators, Turn Back After Starting To U. S.

LEON GIVOU (left) AND PIERRE CORBU After plotting the route of their airplane, The Blue Bird toward New York City, Leon Givou and Pierre Corbu, French aviators, turned back to Le Bourget field, Paris, from whence they started. Their trip was halted by fog, they said.

FLOGGING CASE

(Continued From Page One) Anderson, who was the first witness at the afternoon session. "After being whipped I was led back to bed. Anderson bent over me, and I saw his face." At the afternoon session after Dr. Richard Granbury, Marshall, Harrison county physician, testified after having examined Richardson, his wife and Mr. and Mrs. Willie Strapps, stepson and daughter-in-law, respectively, of the Richardsons, and finding bruises Mrs. Richardson took the stand. After working for Anderson from last December until early this spring at odd jobs, the Richardsons left Anderson's farm when the planter told them to "get off the place", Mrs. Richardson testified.

Flogging Described They moved across the road to the farm of Earl Craig. "On the night of June 8, I was sick in bed, the children were asleep, and my husband was sitting beside me playing his fiddle," she told the jury. "My husband went into the hall to get me a drink of water, and I heard him shout. He was pushed through the door by four men, wearing masks and carrying pistols. "They ordered me to get out of bed. I said I was too sick. One jerked me out by the arm, and my husband and I were carried to a woody patch about 100 yards away. There one man caught my husband by the hair of the head, threw him to the ground and began beating him with a rope. Another man said the first man was whipping hard enough, grabbed the rope, and tried to beat every one in his body. "Dewitt Osborn was the man who took the rope the second time, she said. "They then threw me to the ground, pulled my clothing over my head and man struck me nine times, and another 15 times as I lay flat on my face."

Recognized Pair Mrs. Richardson began to cry and there were sobs in the rear of the court room. "I recognized C. In Anderson and D. Osborn," she said emphatically. They were taken back to their house on the Craig place, and Mrs. Richardson was told "to go to bed" she said. "Do you think you can leave the country now?" Anderson asked, she testified. Richardson earlier had testified Anderson had ordered them to pack their duds and leave the country. Then D. Osborn bent over me, said, you leave here by Sunday or you'll get worse than this, and don't you take that away," Mrs. Richardson testified. He referred to the saw the Richardsons had taken from their house on the Anderson farm when they moved, Mrs. Richardson said. "And then Anderson leaned over me and said 'Yes, and leave my stove also.'"

BOLLIE MACHINE INSTALLED BIG SPRING, Sept. 2.—In order to take care of the large cotton crop the Planters Gin, according to Jim Black, manager, of this city has installed a \$4,000.00 bollie machine, to extract and clean cotton. A permit was issued yesterday to W. M. Cobb to move and remodel a 2 room house from lot 19 Morton addition to lot 29 Block 130, Overton for N. P. Hadsell. The work is to cost \$450.

Mary Lou Is Gone Friends Grieving

Mary Lou is gone. Whether she has eloped or merely wandered into the macabre timelessness of cat-populated alleys and by-ways is a question. While her mistresses, who had developed a tender affection for her, were in their respective downtown places of employment, Thursday, she wandered a search for her whereabouts, has been of no avail. Mary Lou is a fluffy Persian kitty, 2 months old, the property of the occupants of an apartment at 1412 13th street.

WATER PERMIT

(Continued From Page 1) of the protestant power company and attempts were made to crystallize a policy of giving irrigation and municipal projects precedence over all power projects. The final paragraph of the board's order read: "It is ordered that permit issue under restrictions of the terms of this order, subject to rights of all prior appropriators, with the express proviso that the grantee shall comply with all the rules and regulations of this board and that construction shall begin within two years and shall be completed within seven years from date of issuance of permit."

Construction of the dam will be authorized "under revised plans to be submitted to and approved by the board." Under the order, the district can impound water from Jim Ned Creek and Pecan Bayou in Brown county for irrigation, municipal, industrial and domestic supply and for the generation of electric power; construct a dam and create a reservoir having a storage capacity of 125,000 acre feet; divert from the said reservoir not to exceed 16,500 acre feet of water per annum for municipal, industrial, and domestic purposes, (which volume is sufficient to care for the needs of a city of 100,000); divert not to exceed 50,500 acre feet of water per annum for the irrigation of lands in the district, gross acreage of which is 25,795. Any amount of the above allotments may be used for the generation of electric power.

DISTANCE FLIGHTS

(Continued From Page 1) a white light, probably belonging to an airplane was sighted by the Dutch Steamer Bijlendam at sea about 250 miles east southeast of New York. The light was traveling in an easterly direction, however, and if it was the St. Paphael the plane was far off its course and going in the wrong direction. Thick weather hid two more planes, the Sir John Carling, flying from London, Ont., to London, England, and the Royal Windsor, en route from Windsor, Ont., to Windsor, England, to the ground. They were forced down by fog, one near Montreal and the other near Carleton, Maine. Charles A. Levine was grooming his plane, the Columbia, today for a takeoff from Cranwell field, near London, with Captain Hinchcliffe as pilot. The Pride of Detroit flew from Constantinople to Bagdad, on the seventh day of its flight around the world and now has gone 3,925 miles.

EXPLOSION OF SHELL FATAL TO WACO BABY

WACO, Sept. 2 (AP)—Playing with a French shell proved fatal to five-year-old Charles Rivers, son of Rev. W. W. Rivers, Baptist evangelist, here late Thursday. The child died Thursday of injuries received when, dared by a brother, 14, he hurled a 37 millimeter shell found in a vacant house, the floor of the Rivers residence, while his parents were away from home. The shell known as a "one pounder" mutilated the child's legs and his right hand. The remains will be shipped today to Fort Worth, where funeral services will be held Saturday morning.

SOUTH PLAINS OIL NEWS

EDITED BY EARL THOMPSON, PHONE 13 OR 14

CONSUMPTION LOWER
Consumption of gasoline during the month of July fell below of June according to the figures just released by the Bureau of Mines, and slightly more than one year ago.

As a result, with an increase in production, was a greater use in the overproduction over of June.

Following government figures issued by the Bureau of Mines, the following figures are given:

1927	July 1927	July 1926
Production	\$1,569,000	\$7,974,000
Average	2,434,000	2,192,000
All oil	5,877,900	7,177,000
Apply	\$7,547,000	75,153,000
Average	2,527,000	2,516,000
Production	\$2,924,000	2,434,000
Average	227,000	55,000
total liquid oil stocks	\$71,418,000	\$24,596,000
stocks, east of Calif.	\$12,922,000	\$78,875,000
light crude	\$25,301,000	\$3,348,000
heavy crude	\$19,595,000	\$8,092,000

BOLES TEST 1,350 Feet
The Center (The Center company) No. 1 Boles, in the southeast corner of section 21, block 8, G. F. survey, Lubbock county, five miles southeast of Lubbock, is drilling below 1,350 feet.

TYLER ASSIGNED HERE
Butler, who has been assigned to East Texas country for the Texas Petroleum company, has been assigned to Lubbock to look after the oil development in the area, according to information from the office.

ENGINEER HERE
McClusky, chief engineer of West Texas Gas company, in Lubbock Friday afternoon was met by Joe Laley, who is making for the same. Mr. McClusky came down to Lubbock to take through the community, a map that has been surveyed by the West Texas Gas company.

DONNELL TEST ON MULLIGAN LAND STAKED
No. 1—Donnell Petroleum company has staked the location of a number three test to be made in the near future, on the corner of the Donnell Petroleum No. 1 Mulligan, in the southeast corner of section 21, block 8, G. F. survey, Lubbock county, about 25 miles north of Lubbock.

TEST HITS PAY
According to reports received at the office of the Texas Petroleum company, the test on section 21, block 8, G. F. survey, Lubbock county, is paying quantities at a depth of 250 feet.

High Schools Open Sept. 12
According to reports received from the superintendent W. D. Higgins, the high schools will open on September 12, with an estimated corps of teachers on the work here this year.

Only one teacher have been by the local board. On the number, only six are new, the balance having taught in the one or more years.

Teachers coming to Lubbock are: H. H. Nicholas of 2 Grady, Barton of 21, Willie Mary Glenn of 21, Pauline Stovall of 21, Frances Lee Mason of 21, Leola Dineen of 21, and one high school now has a certificate of affiliation with the Department of Education and also bears the distinction of having a affiliated school.

The rapid development of Lubbock is being talked of in sections. It is thought that suitable facilities will be in the near future.

Davis Will Have Lights Soon
Sept. 2—Port Davis electric lights in the near future. Large black poles have been set up over town, and it is expected to have on the site just north of the Trading Company, beside the road where it turns out. Machinery has already been ordered. It is expected that the lights will be in operation in a few days.

THEOLOGICAL ITEM
"You love to go to church, don't you, Robert?"
"Yes, sir."
"What do you expect to do?"
"The date of the picnic."

Slaton Couple Are Enroute To Paris

LUBBOCK, Sept. 2.—Mr. and Mrs. V. P. Williams of this city left this week to attend the American Legion Convention in Paris, France, sailing from Galveston, Sept. 1, on the U. S. S. Chicago. They are the only Lubbock County people who are making the trip. Williams is a Santa Fe engineer on the Slaton division. He spent many months in the front line trenches during the World War. He and his wife will return home via New York in October.

Workmen Busy On Slaton Gas Mains

LATON, Sept. 2.—Two ditching...

machines and crews of workmen...

numbering almost 100 men are...

now busy laying the pipe line...

distribution system which will...

supply Slaton with gas by Oct. 1...

according to present expectations...

The Williams Construction company...

and the Southwestern Construction...

company are in charge of the work...

here. The Lubbock-Slaton section...

of the line is now being laid...

at the rate of one mile per day...

It is stated by officials and at...

that pace only sixteen days will...

be required to bring the line here...

Thirty days will be needed to...

complete the work within Slaton's...

city limits, a task construction...

heads. About twenty miles of pipe...

are to be laid. An eight-inch line...

will extend from Slaton to Southland...

and on to Post, according to announce...

ment by gas company officials last...

week. This work has not been started...

however.
