Marie And Daughter

Marie McDonald holds her infant daughter Tina Marie, 5 months, one of her three children who were reportedly threatened when she said she was abducted from her Encino, Calif., home. The 33-year-old actress reluctantly posed for cameramen in the bedroom of her home as she talked with reporters for the first time since she was found wandering in the desert. She has been in seclusion since her return from an Indio, Calif., hospital.

FOR THE POLICE

Marie Makes Movie Of Year

By JAMES BACON
 ENCINO, Calif. (The Body) McDonald, whose curves are far more dramatic than her histrionics, could claim some kind of award today for her performance in the police movie of the year.

In an all-talkie, color film with police cameramen, the shapely actress re-enacted what she says was a terrifying midnight kidnaping from her palatial San Fernando Valley home.

The movie had everything any Cecil B. DeMille epic ever had — except camels. There were four scenes requiring six takes; a bedroom shot and an outdoor location; a producer and director (both policemen), and, of course, jet coverage by a small army of Hollywood press.

One policeman gave it a title (already used by Hollywood) — "The Body Snatchers."

An elaborate walkie-talkie system, manned by two police captains, gave the waiting reporters a blow-by-blow account of what took place inside. The officers, saying it heavily tongue-in-cheek,

American Petrofina Signs Pact To Buy Liberty Oil

DALLAS (AP)—Officials of American Petrofina, Inc., and American Liberty Oil Co. jointly announced today an agreement has been reached involving purchase of all outstanding stock of American Liberty by American Petrofina. The purchaser is better known by the retail trade name of Amlico.

The announcement was made by Harry Jackson, American Petrofina president, and Toddie L. Wynne, American Liberty president.

Incorporated early in 1956 by the large Belgian Petrofina organization, American Petrofina ac-

Treasurer's Pay Hike Is Agreed On

The majority of county commissioners agreed Monday afternoon to raise the county treasurer's salary 10 per cent to match raises granted most other elective officials.

Action to implement the pay hike was delayed, though.

County Attorney Harvey Hooser told the commissioners the treasurer's pay can't be adjusted at the same time other salaries are up for consideration next Monday. He said the law requires that 10-day notice be given in advance of any proposed change in an official's pay.

Notice was given Jan. 3 of the commissioners' plans for giving most other elective officials, including themselves, a 10 per cent boost in pay next Monday.

Also discussed Monday afternoon was the possibility of another adjustment in the salary of the tax assessor-collector, but no agreement was reached. Plans for a raise for the tax official are in-

Early Squabble On Segregation Bills Postponed

AUSTIN (AP)—An early squabble over touchy segregation legislation was postponed today by Rep. Joe Chapman.

"We got the votes to pass segregation legislation and we are in no hurry to bring it up," the Sulphur Springs representative said. "I can't say definitely how many legislators have signed the manifesto to preserve segregation in the state but I'd guess about 50 per cent or more," Chapman said. Last week he said he would announce today those signing the "Texas Manifesto," a petition pledging lawmakers to work for continued segregation in Texas.

Chapman made his comments when asked about reports that opposition has grown to the manifesto and several legislators were planning public statements on why they did not sign.

"I talked with Speaker Waggoner Carr yesterday and a bunch of us East Texas boys talked it over last night," Chapman said. "We decided to go ahead with the Speaker's plan of handling the money bills first, then getting to segregation. We're in no hurry because we know it will pass."

Chapman estimated segregation legislation would get about 100 votes in the House—"shouldn't take more than half a day even if some of the boys want to make a speech." He said the bills would "unquestionably get a majority" in the Senate.

Chapman said he believed the appropriation bills would be disposed of in six to eight weeks—a task Carr had said he would urge on the Legislature.

"Carr's plan is good if it will work," Chapman said, "and we will try to cooperate with him as much as possible."

Chapman said the proposed segregation legislation would include bills based on the three-point referendum approved in the July Democratic party primary and on the report returned by the governor's committee studying integration problems.

The referendum called for stronger laws against white-Negro intermarriage, against federal encroachment of states' rights, and for specific legislation exempting any child from compulsory attendance at integrated white-black schools.

Martin Jury Indicts Four

STANTON (SC)—Four indictments, including one alleging a misdemeanor, were returned Monday afternoon by the Martin County Grand Jury.

Named in the indictments were Robert P. Cardozo, Bobby Pursely, Ross Blackwell and Luis Mora.

The indictment against Mora charges the misdemeanor. It alleges he received and concealed stolen property, a set of spurs claimed to have been stolen from Ohmer Kelly by a 13-year-old boy on Oct. 13, 1956.

Cardozo is charged with having forged and passed a check for \$40.50 to the Payne Dry Goods Ltd. Nov. 13. Name of Francisco Madrid is signed on the check.

Pursely is alleged to have burglarized the Studebaker agency of R. C. Vest Jr. on June 26, 1955.

Blackwell is named in an indictment alleging theft by bailer. It is charged that he borrowed an automobile from J. O. House on Oct. 9, 1954, "to go to town" and that the automobile has never been returned. In the meantime, Blackwell has served a term in the penitentiary, said District Attorney Guilford Jones.

Seek Gas Fire Pressure Area

CRANE, Tex. (AP)—Efforts to determine the source of tremendous pressure feeding gas to a flaming well near Imperial continued today.

Magnolia Petroleum Co. officials decided against trying to smother the roaring fire because they feared that if they capped the well the gas might break through in other places.

Flames were shooting upward 75 to 100 feet.

The well hit heavy gas pressure at 489 feet. This was regarded as unusual in this area where such pressure usually isn't found above 1,500 feet.

Other nearby wells were being checked to determine if the gas isn't being leaked to a higher geological formation into the burning well.

In this event, capping the well might cause the gas to escape through water wells and other openings in the earth.

The well caught fire last Wednesday.

Heavy Docket Looms As Legislature Opens

Discuss Middle East Proposals

Secretary of State John Foster Dulles points to the Middle East on a map in Washington, D.C., as he talks with Adm. Radford (left), chairman of the Joint Chiefs of Staff, and Rep. Thomas Gordon (D-III) (right), before testifying at a House Foreign Affairs Committee hearing. Gordon is chairman of the committee, which called Dulles to discuss President Eisenhower's proposals for the area. Behind Adm. Radford is Capt. W. C. Mott of the Navy, his military assistant.

House Leaders Predict Approval Of Ike Policy

WASHINGTON (AP)—The chairman of the House Foreign Affairs Committee and a top Republican committee member both predicted today that the House group will speedily approve President Eisenhower's resolution on the Middle East.

Chairman Thomas S. Gordon (D-III) and Rep. Vorys (R-Ohio) expressed that opinion as the committee called Secretary of State Dulles back for more questioning.

Solon Protests Closed Hearing

WASHINGTON (AP)—Rep. Wayne Hays (D-Ohio) today stamped out of the hearing on President Eisenhower's emergency Middle East plan with a protest that the public wasn't admitted.

Hays denounced the "secrecy" he said was accorded to Dulles—"especially when Mr. Dulles' policy seems to be getting in hot water."

"I've protested, and so have many others, that there are too many executive (closed) sessions around here, and I'm going to dramatize it," Hays told newsmen.

Hays said "there may be some merit" in the Eisenhower resolution "but I don't think it will be debated behind closed doors."

U.S., Poland Plan To Discuss Issues

NEW YORK (AP)—The New York Times said today the United States has decided to negotiate with Poland on a wide range of questions that have divided the two countries.

The negotiations are expected to start within the next two weeks, according to the story by James Reston.

The dispatch also said: "A loan to finance purchases of U. S. agricultural surpluses, mainly cotton, wheat and fats. Poland also wants to buy U. S. farm machinery, chemical fertilizers and modern coal mining machinery."

Ike, GOP Seek To Continue Excise, Corporation Taxes

WASHINGTON (AP)—President Eisenhower and Republican congressional leaders formally decided today to seek a continuance of about three billion dollars in excise and corporation taxes beyond the April 1 expiration date.

The decision was announced at the White House by Senate GOP Leader Knowland of California. It underscored what administration leaders previously have said are slim prospects for any major tax reduction this year.

Heavy Balloting In Angelo Liquor Vote

SAN ANGELO (AP)—Heavy voting was on in Tom Green County today on the question of abolishing beer and liquor sales.

Campaigning has been vigorous. Only two precincts are now wet. Beer sales are allowed in Precinct 1. Beer and whiskey are sold in Precinct 3. It is a county-wide election.

Senate Meets In Secret Caucus

AUSTIN (AP)—The Legislature, faced with knotty problems affecting every citizen in the state, convened at noon today and swung rapidly into the business of organization.

Secretary of State Tom Reavley's pounding gavel convened the House. Lt. Gov. Ben Ramsey, starting an unprecedented fourth term as president, called the Senate to order at 12:02 p.m.

The Legislature, loaded with freshman members in both houses, plunged into its scheduled 120-day session under the leadership of a new and untested administration.

In the House, a pre-session agreement apparently had ended any prospects of an immediate flareup over the delicate question of race legislation. Rep. Joe Chapman of Sulphur Springs, leader of the segregation forces, said he would go along with Speaker Waggoner Carr's plan to shunt such questions aside until money bills have been passed.

The Senate caucus was expected to nail down selection of Sen. Otis Lock of Lubbock as president pro tem and perhaps work out other pre-session problems.

It is a traditional prelude to formal opening of a biennial session of the Legislature.

There were 58 new House members and 18 new senators among the 181 lawmakers who will try to find an answer to the water problem, balance the state's billion dollar budget, and probably battle over racial problems.

Principal business for today was swearing in of members, election of officers and top employes, canvassing of the general election vote for governor and lieutenant governor, naming an inaugural committee.

Rep. Waggoner Carr of Lubbock was assured of election as speaker. He had no opponent. Sen. Otis Lock of Lubbock was slated for election as president pro tem of the Senate to preside in the absence of Lt. Gov. Ben Ramsey.

Carr has suggested that the lawmakers not become involved in legislation growing out of the U.S. Supreme Court's desegregation decisions until money problems are disposed of. But pressure for immediate action on the question is being applied.

One of the 55th Legislature's biggest and toughest jobs is a mop-up from past failures: writing closed session details on some of the military matters he touched on during daylong questioning yesterday. He did tell the congressmen that:

1. There is no plan for stepping up American forces in the Middle East.

2. Despite manpower cuts in the U. S. armed forces, America's military "effectiveness" has increased and he is satisfied the United States has enough strength to commit itself against possible brush fire wars in addition to its other commitments. He said, for instance, that we have the power to protect Syria.

3. American military actions might not be confined to the country where the Reds attack, but could involve strikes in such other areas as the aggressor's staging areas and communications lines.

4. He does not envision an all-out attack on the Soviet Union, unless it is determined that a Communist invasion is really the beginning of World War III.

Generally, Dulles portrayed the Eisenhower resolution as a "declaration of peace" which would deter war by serving notice of U. S. willingness to fight a Red aggressor and by bolstering the military and economic strength of independent Middle Eastern countries.

By making a Middle East country more resistant to subversion, he added, the Eisenhower military economic plan would also counter any Red move to take over that country by other than open aggression.

Senate Republican Leader Knowland of California said after conferring with Eisenhower yesterday that he believes Congress will pass the resolution, but may make some changes in it.

Gordon said Dulles made a "pretty good" presentation of his case. He said he himself had no major alterations to propose, and "I'm happy to say" that he hasn't heard of any from other committee members.

He said the resolution should be ready for floor action within two weeks.

Vorys in a separate interview said Dulles gave a "lucid and persuasive explanation." He predicted "prompt and overwhelming" committee approval of the military part of the resolution, but said the case is yet to be made for the economic program.

He said Borchers, 45, former minister and insurance man, told him of a pistol discharging as he and Mrs. McCully drove near the Rose Bowl the night of Oct. 9. It wasn't until later when Borchers phoned the victim's mother, Mrs. Lillian Surber, in San Antonio—that he said it "was an accident," Fagg related.

Borchers told police after his arrest that he shot the woman accidentally and carried her body around in his car for more than 24 hours trying to decide what to do.

Fagg said Borchers had hired him to check Mrs. McCully's activities. She was formerly married to Louis (Chicken Louie) Ferrantello, Dallas bar owner who was slain after their divorce.

Fagg said he learned Mrs. McCully was associating with Marvin Prestridge and Nick Cascio of Dallas, whom he described as "underworld characters." Fagg told the eight-man, four-woman jury:

"I told him he was in over his head, that the type of people associated with Dotty had criminal backgrounds and he would be better off if he severed relations with her."

Among those present at yesterday's session was Mrs. Surber. She broke into tears once—at her first sight of Borchers.

Testimony Begins In Borchers Trial

PASADENA, Calif. (AP)—A private investigator says Walter Borchers chatted with him for an hour before suddenly bursting out: "You don't have to look for Dotty any more. Her body's in the trunk of my car."

In the car, said Jack Fagg, he found the body of Borchers' red-haired sweetheart and part-time secretary, Mary Dorothy McCully, 31.

Fagg was one of the first witnesses called yesterday as Borchers' trial for her murder got under way.

Serious Business

Sen. Lyndon Johnson (D-Tex.), right, emphasizes a point in serious conversation with former President Harry S. Truman at a reception prior to a dinner staged by the National Capital Democratic Club in Washington. Johnson and House Speaker Sam Rayburn (D-Tex.) were among key Democrats opposing the formation of a permanent advisory committee to make their party "more responsive and more responsible to its members and the public." Truman was in favor of establishing the group.

Optics Expert Made 'Upgrade' Into Skill

By HERMAN R. ALLEN
WASHINGTON, Jan. 8 (AP)—The sure swift fingers that had earned Everett Baker a living as a ladies' tailor attracted the Army's attention when he was drafted in World War II.

He was assigned to an ordnance outfit as an instrument maintenance man.

Fascinated by the beautiful precision of high-grade optical equipment, Baker signed up for GI Bill training as a grinder and polisher of fine lenses and prisms when he was mustered out.

Today he plies his new occupation in a shop in nearby Silver Spring, Md., that turns out glass components for every type of optical instrument from simple telescopes to highly complex testing devices used by the U. S. Bureau of Standards.

Much of his work entails polishing to an accuracy of one millionth of an inch, some of it closer than that. (Your eyeglasses may have

to be accurate only to about one hundredth of an inch.)

In the language of the manpower expert, Everett Baker is a "technician."

As a technician — not specifically as an optics man — he is an example of what the manpower expert calls "upgrading" into a skill critically needed in America's technological race with Russia, the world at large and its own standard of living.

Who is this mystery man, the technician? Why is he important? Just how scarce is he? Why is he scarce? What's being done about it?

Let Karl O. Werwath, president of the Milwaukee School of Engineering, answer the first question. "In general terms," says Werwath, whose school turns out 1,500 technicians a year, "he is the connecting link between the skilled artisan or craftsman, who is trained through apprenticeship or in a vocational high school, and the scientist or engineer, who is the product of four years or more of college level training."

"He is the man with two years' training of a technical institute type, after high school, or equivalent higher education and on-the-job training."

The technician is the chap who can lay out the circuit that will do what the electronics engineer wants done.

In aircraft, he may design the huge dies that will stamp out propellers or wing sections.

In medical research, he or she prepares the slides and cultures that may lead the scientist to a new wonder drug.

He may be surveyor, draftsman, cost estimator, inspector, tester, foreman, instructor of apprentices.

In some assignments, such as installation of equipment, he may be on his own.

"The big thing about technicians today," says Seymour Wolfbein, chief of the U. S. Department of Labor's Manpower Division, "is that they are becoming important, not just in a supporting role, but in their own right. As automation comes along, this will become even more true."

Nor is production of new technicians by the American educational plant, public and private, encouraging — maybe 20,000 a year, fewer than half as many new technicians as new scientists and engineers.

Russia, estimates M. H. Trytten, director of the Office of Scientific Personnel of the National Research Council, is turning out no less than 60,000.

Rape-Slayer Hunt Pressed

SIKESTON, Mo. (AP)—Authorities pressed their search today for the slayer of a 19-year-old high school senior but Chief of Police Arthur Bruce acknowledged they had about run out of leads.

Nine Negroes rounded up last night were released after 18-year-old June Castleberry, who told officers she was raped by the Negro slayer, failed to identify any of them.

Claude Lightsey, 61-year-old Sikeston handyman arrested earlier, was released after the Missouri highway patrol announced a lie detector test indicated he had nothing to do with the attacks.

Tension eased in the southeast Missouri Delta country 150 miles south of St. Louis. Col. Hugh Waggoner, head of the highway patrol, said the prospect of trouble diminished hourly.

Six members of the high school football team at nearby Charleston, Mo., were designated to act as pallbearers today at the funeral of 19-year-old John Malugen.

Charleston's star fullback was shot to death Saturday night while he and Miss Castleberry were parked in his car on a country road near Sikeston.

Early Arrivals

Rep. B. H. Dewey Jr., of Bryan (right) gets help from a couple of his colleagues, Rep. Harold Parish of Taft, (left), and Rep. Stanley Boyson of Yeakum after his arrival in Austin. The three were among the early arrivals preparing for the opening today of the 35th Legislature.

Dynamite Is N. Texas Style For Gangland Assassinations

By ROBERT E. FORD
DALLAS, Jan. 8 (AP)—A gambler picks up his telephone and the house crumples around him. Another steps at his mailbox on a quiet country lane and his automobile is torn apart.

That's assassination, North Texas professional style.

At least 19 underworld characters have been killed, gangland style, or are missing in the area since November 1944.

A new epidemic which began about 19 months ago has taken six lives. Five other underworld characters are missing and presumed dead.

The underworld often uses dynamite.

The gangs also have their gunmen. But the Texas variety strangely prefers shotguns, and they're better with shotguns than dynamite.

When he answered, the dynamite went off.

Then on Oct. 2 the gambler left his home in a hurry, apparently to keep a rendezvous, and had his head nearly blown off with a shotgun blast.

Gambler Herbert Noble got a topflight professional rubout with dynamite in August 1951. Some authorities think subsequent slayings were to avenge him.

Noble had survived an even dozen attempts on his life. Then he stopped his automobile at his rural mail box. An unknown person several hundred feet away set off a monstrous charge of dynamite that tore Noble and his automobile apart.

Officers say all the assassination victims were tied into one or more rackets, including narcotics, gambling, prostitution, robbery and hard killings.

Fact is, some underworld dynamite jobs have been botched.

Frank Cates is an example. He is the latest underworld victim.

Last Aug. 2 he lifted his telephone receiver and the house was wrecked by an explosion. The 61-year-old Cates was wounded but survived, temporarily.

Someone had placed dynamite under the floor of the Fort Worth house and had run wires from the explosive outside. Then the person or a confederate telephoned Cates.

The new epidemic started May 2, 1955, when gangster Cecil Green was ambushed and riddled with bullets in Fort Worth.

His partner, Leroy (Fence) Eggleston, escaped the ambush and was fished out of a well near Fort Worth Aug. 26, 1955. He had been killed by a shotgun blast also.

Edell Evans' body was dug up from a Fort Worth lakeside Nov. 2, 1955. He had been missing for weeks.

New angle in this case was that neither dynamite nor buckshot killed him. The best that autopsy experts could determine, he died from a severed artery.

Howard Dewayne Miller, narcotics informer and a shadowlike character in that trade, was found in a roadside ditch in February this year.

Authorities say he apparently was beaten in Dallas, taken to a railroad trestle and tossed into the ditch. He died shortly after he was found.

Orin Ray Tyler, 44, was killed by two shotgun blasts last Aug. 5 in a wooded section between Dallas and Fort Worth.

Edward Eugene Townley and his wife, Mrs. Betty Joe Meeks Townley, who was expecting a baby July 1. They have been missing since mid-June.

Billy Harrison French, missing since July.

Holmes March (Powerhouse) Davenport, missing for a couple of months.

Orville Lindsey Chambless of Oklahoma City, a friend of Green and Eggleston and who operated in this area.

Dynamite sometimes is used in nonprofessional rubouts.

A celebrated case occurred Jan. 18, 1955, when Mrs. Helen Harris Weaver, 51, was killed in San Angelo by 19 sticks of dynamite attached to her automobile. She was a wealthy San Angelo and Houston socialite.

Her former son-in-law, Harry L. Washburn, was given a life sentence. Authorities claim the assassination attempt was meant for the victim's husband, who had protested against Mrs. Weaver giving money to Washburn.

Woman Held In Dallas Death Case

DALLAS (AP)—Police arrested a woman, 30, yesterday after two teen-age boys charged with the killing of a girl said she bought the whisky, the boys drank before the killing.

Jeanette Mangan, 12, was raped and shot to death on New Year's Eve. Police have arrested Simon Rodriguez, 16, and Ernesto Lopez, 19.

Det. Capt. Frank Martin said the woman "admits buying the whisky, but says she did not give it to the boys. They said she did."

Hospitals Board Asks Revised Bills

AUSTIN (AP)—The State Hospitals Board wants a revised set of laws for Texas' mentally handicapped. The board approved yesterday the sponsorship of six measures including a mental health code.

The code would allow voluntary admissions to state mental institutions and allow a jury to be waived in a commitment hearing. Health and peace officers would be able to take violently insane persons directly to an institution without a court order or local confinement. The head of a hospital could discharge a patient if he determined that the patient no longer needed hospitalization.

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little PASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get PASTEETH at any drug counter.

The 9-passenger Country Squire

The 6-passenger Country Sedan

The 9-passenger Country Sedan

The Del Rio Ranch Wagon

The Ranch Wagon

FIVE NEW FORD glamour wagons long, low and loaded with Go!

Leave it to the station wagon leader to make the big station wagon news for '57! And what news! Wagons so big, so powerfully different, so full of fine-car prestige that you'll wonder how it can be done at low Ford prices.

Under the new front-hinged hood you'll find new power—Six power!—V-8 power!—proven-in-action power. The wheels, the frame, the chin-high roof lines—wherever you look you'll admire its long, lean greyhound grace.

Inside you'll find more usable loadspace than you ever dreamed possible. And for greater loading ease, the liftgate wraps right around the back of the car.

If your choice is the 9-passenger Country Squire, you'll be proud to pull up at the

finest places in this new kind of glamour wagon with its luxurious and smartly distinctive wood-like trim.

If your needs call for a 6-passenger station wagon with four doors, you'll love the spacious room of the new Country Sedan. And when you fold the rear seat into the floor, (a matter of mere seconds), you'll find there's almost nine feet of loadspace—nearly a foot more than ever before.

There's still another 4-door Country Sedan. Like the Country Squire, it has the extra third seat for 9-passenger room. And, as in all Ford wagons for '57, you have the new single-control handle which opens both the wrap-around liftgate and tailgate with one motion. And they can't be opened from inside!

There's good news, too, for fans of Ford's celebrated Ranch Wagon. This 6-passenger, 2-door model features Ford's new subdued tones, the last word in modern decor. The beautiful color-mated interiors are made of new wonder-wear fabrics which defy muddy little shoes and drippy chocolate cones. And for quiet, there's no wagon like Ford wagons!

In the wonderful way that Ford can take a fine thing and make it even finer, the Del Rio Ranch Wagon goes a step beyond the Ranch Wagon in style, fabrics and trim. It brings you 2-door, 6-passenger wagon-life at its luxurious best.

Better see for yourself—and soon. Take a Ford wagon for a spin. You'll agree that for styling it's a sweetheart... for work and power, it's a nimble, obedient slave!

New '57 Fords have toughest shakedown cruise in history!

It was real tough but it was worth it. The '57 Ford broke 450 national and international records from 1 kilometer to 50,000 miles at Bonneville, Utah, in the most savage test in automotive history. For 50,000 miles, two '57 Fords averaged over 107 and 108 mph respectively. This time included all pit stops... the greatest endurance feat of all time!

'Cowboy' Is Magic For Bus Survivor

LEXINGTON, Va. (AP)—Cowboys must be big and strong, and so, too, must Charles Duane Jackson, though he's only 2½.
Cowboys have pistols, Charles has a pistol too, though it's only a toy.
The pistol was about the first thing this mite-sized cowboy asked for Saturday when he finally was able to talk through his puffed and lacerated lips in Stonewall Jackson Hospital.
There is just one un-cowboy-like thing about Charles—Every now and again he calls for "Mommy," and this he must forget.
For "Mommy," Mrs. Marie Regina Jackson of Scranton, Pa., will never come. She, along with Charles' 3-week-old brother Edward, died Friday night in a bus crash near Lexington.
Five other lives also were lost when the bus slammed into the

rear of a parked tractor-trailer on U.S. 11. Thirteen persons—including little Charles—still are hospitalized.
Charles appears happy in the hospital in spite of a fractured leg and head cuts. He's become the pet of nurses, doctors and other patients.
The nurses have set him up in style, in a bed in a waiting room opposite the nurses' station where they can keep a watchful eye on him as he steadily grows well.
At first, the tot was something of a problem. When he was brought to the hospital, he had only the clothing he wore. Doctors and nurses found some books and toys which had been left at the hospital by previous patients.
Getting Charles to eat was an early, but minor, problem. Soon the nurses found that the word "cowboy" had a magic meaning for the youngster. Now, when he balks at meals, they tell him: "You must eat if you want to grow up to be a cowboy. . . . Cowboys must be big and strong."
And Charles eats.
Though he's not old enough to realize it, today was to be an important one in Charles' life. His father was coming to see him.
Edward E. Jackson was on a temporary work project in Dover, N.J., when the bus crash wiped out most of his family last week. Today will be his first opportunity to visit Charles.

Science Solves Pipe Problem

WOODBIDGE, N. J. (AP)—Technology takes over today where rats and mongooses have failed.
Electrical contractor Louis Salomon last night gave up trying to get the animals to run a fire alarm cable through a 730-foot pipe under the New Jersey Turnpike.
Starting before Christmas, his attempts to coax wild rats and domesticated mongooses through the conduit with wires attached to them captured the attention of the nation.
Some 500 spectators came to the scene for the finale yesterday when three mongooses were let loose in the pipe, singly and in combination. None of the animals emerged from the other end.
Today, the T. J. Cope Co. of Collegeville, Pa., will attach a quarter-inch cable to a float and blow it through the pipe. The firm manufactures electric underground installation equipment and offered to do the job free.

Reds Confuse Arabs On New U. S. Policy

WASHINGTON (AP)—Secretary of State Dulles is going to great lengths — perhaps too great to suit the British and French — to win Arab support of President Eisenhower's Middle East plan.
Acceptance is virtually a foregone conclusion among other elements of the area — Israel, Turkey, Pakistan, for example.
But Arab rumblings of suspicion and distrust are being nurtured by Soviet propaganda claims that Eisenhower's economic-military formula for halting communism in the Middle East is really old-fashioned Western colonialism in disguise.
It is to combat this propaganda that Eisenhower is sending former Rep. James P. Richards, the South Carolina Democrat who used to head the Foreign Affairs Committee, to the area. Richards was sworn in yesterday as a sort of ambassador for education and acceptance.
The Arab view apparently was on Dulles' mind when he told the House committee repeatedly yesterday that the British and French "invasion of Egypt" last October was an "error".
He declared his confidence that the Eisenhower plan as a whole — providing a military umbrella sheltering economic development — would "give as complete protection against internal subversion as is possible unless you want to go around the world invading

countries to throw out communism."
"That in effect is what the British and the French did," Dulles said. "If we did that it would start a series of wars over the world that, I am sure, would end up in a world war."
But while all this might have made the Arabs feel more kindly toward the Eisenhower plan, Dulles offered them no hope of any new offer of U.S. aid to help realize the Egyptian dream on the Nile.
"I can assure you of one thing," Dulles told the committee, "there is no intention on the part of the United States to finance the Aswan Dam."
Could a country get military or economic aid without endorsing the basis of the plan, which is that U.S. troops will be used if needed to deter overt Red aggression? Some Arab states might like U.S. aid but not at the price

of estrangement from the Soviet Union, which already has sent guns to Egypt and Syria.
Could a country get U.S. military aid at cut rates or easy-pay

Big Spring (Texas) Herald, Tuesday, Jan. 8, 1957 3
terms? Egypt asked vainly for 28 million dollars worth that way without success before getting 250 millions in Soviet arms. Israel has a similar request for 65 million dollars worth still on file.

Aid Urged For Egyptian Jews

WASHINGTON (AP)—President Eisenhower was urged last night to give serious thought to an "emergency immigration measure" to provide asylum in the United States for Egyptian Jews.
The assembly, sponsored by the Jewish Community Council of Greater Washington, heard strong pleas for action by Sen. O'Mahoney (D-Wyo.), Gov. Theodore R. McKeldin of Maryland and others.

Soap Fishing

JACKSONVILLE, Fla. (AP)—Soap fishing was the No. 1 sport on the St. Johns river at Jacksonville yesterday. The soap, cargo of a barge that sank, began floating to the surface in the downtown section. There were thousands of bars of it. Police reported people in boats and along the bank were using "crab nets, dip nets and everything else including rakes."

A Bible Thought For Today

Behold, a King shall reign in righteousness, and princes shall rule in judgment. And a man shall be as a hiding place from the wind, and a covert from the tempest; as rivers of water in a dry place, as the shadow of a great rock in a weary land. (Isaiah 32:1-2)

Editorial Unrealistic And Inequitable

There seems to have been some difference of opinion as to land values in connection with territory needed for the new county airport. Commissioners have indicated values at figures from around \$75 an acre to \$125 and higher.

We're not proposing to fix any values since that is a trifle outside our field. The most prominently mentioned levels are well beyond prices on options once held for a good portion of the same tract for the same purpose. However, the purpose is not to debate this matter because the land has to be secured at what officials and the owners consider a fair and reasonable figure.

The matter does, it seems to us, point

up once more the fact that our land values for such purposes are not realistic and equitable.

Land actually going for \$100 on the open market may be on the rolls for \$5 an acre, or at five per cent of today's value. Similarly, a piece of property such as a house, may be in for a third or more of its actual market value. Ostensibly there is a 7-1 disparity.

It is true that crop and range land are subject to serious fluctuations in productivity, and of late this has resulted in practically no return. But somehow this has not seriously reflected itself in the market price. And after all, is there any more realistic way to gauge the price of a thing than for what it will sell?

In Top Leadership Places

There was no element of surprise in the selection of Sam Rayburn as speaker of the House, since the Democrats have a margin of just above thirty votes there, and "Mr. Sam" is a popular presider among Democrats and Republicans alike. The Texas representative from Bonham has held that powerful job longer than any man in history.

There was no surprise that Lyndon B. Johnson of Texas was chosen, again, as Senate majority leader, though for awhile in there some people thought there was a chance the Republicans might maneuver themselves into a position to organize the Senate for themselves. The party division is 49 Democrats and 47 Republicans, and incoming Ohio Senator Frank Lausche, who wears a Democratic label but rather loosely, was thought to be contemplating a switch to the GOP side for the purpose of tying the vote even—Steven — 48-48. Had that happened, Vice President Nixon was

expected to break the tie by voting, naturally, for his party to organize the Senate.

In the showdown, though, Brother Lausche voted with the Democratic majority and the final vote was 49 Democrats, 46 Republicans. The missing Republican was newly-elected Jacob Javits of New York, who decided to finish out his term as attorney general of the Empire State before taking the Senate oath.

So the hullabaloo and speculation over which side would control the Senate came to naught, and Lyndon Johnson again joined his friend and mentor, Sam Rayburn, in the leadership of the two Houses.

As usual, Texans will be conspicuous in positions of power in the House, thanks to seniority and in most cases native ability and long experience.

Prospect: Continued cooperation between Congress and the administration on most issues where the chips are down.

Marquis Childs Year Of Opportunity For Republicans

WASHINGTON — The opportunity that now opens up before the Republicans is so magnificent, so remarkable that it would be hard to find any parallel for it in the American past.

The balance struck with the beginning of a new year shows up strong in almost every department. To begin with, there is the great Eisenhower sweep with the President gaining 2.4 per cent in his '56 showing over his '52 showing.

While the Republicans failed to win majorities in House and Senate, nevertheless long-term gains show up in this department, too. Not for many years have the Republicans held both the Senate seats of New York, the largest and most powerful state in the Union. They also have 23 out of 47 New York's delegation in the House which is the highest margin in a long time.

But it is in contrast with the Democrats that the strength of the Republican party is most evident. The meeting of the Democratic advisory committee last week served if nothing else to show that the party is divided like all Gaul into three parts. And that may be a charitable underestimate of the fragmenting process.

First is the national party insofar as it exists after the disaster of November. It was only the national party, represented by such distinguished figures as former President Truman, Mrs. Eleanor Roosevelt, Adlai Stevenson and Governor Averell Harriman of New York, that responded to Chairman Paul Butler's brave call for unity through an advisory committee.

A second province is the South, which in recent years has been moving toward greater isolation from the national party. The Southern governors invited to join the advisory committee said no.

The third Democratic province might be called the Congressional party and its twin pillars are Majority Leader Lyndon Johnson and Speaker Sam Rayburn, both of whom not only refused to have any part of the committee but discourage others in the Senate and House from taking part.

It is just here that the Republican opportunity appears, against the background of the most important factor in the Eisenhower sweep, in all its glittering magnificence. That factor was, of course, the switch of the Negro vote in most of the nation's large cities, both North and South, from the Democrats to the Republi-

cans. Republican chances of holding this vote, which is about 10 per cent of the total, are good. It is on this base that a new national mass party can be built.

In the table of percentage changes as between 1952 and 1956, compiled by L. Richard Gulyay, the able public relations director of the Republican National Committee, Louisiana with 9.7 per cent shows the greatest gain. Next come the populous Eastern states of Connecticut, New Jersey and Rhode Island, each with a gain of 7 per cent or more. Fifth is Alabama with a gain of 6.2 per cent. But not far behind are the industrial states of New York, Massachusetts, Illinois and Ohio—New York showing a 5.2 per cent gain and each of the others with nearly twice the national average.

The explanation may be simply prosperity. That is what the Democrats would like to think. As one Democratic leader, usually on the conservative side on domestic issues, put it:

"When prosperity is at the present level and virtually the whole press is chanting praise of the Republican party we don't have a chance. Perhaps we won't have a chance until the economy takes a down turn and that may not be as far off as you think."

The percentage table lends some credence to this view, for the greatest Republican losses were in the drought states and in the Northwest where the prosperity was minimal or nonexistent. Oregon showed a drop of 9.1 per cent and North and South Dakota, 46th and 47th in the Republican honor roll, losses of 10.6 and 12.9 per cent. Iowa showed a loss of 4.9 and Missouri 1.4.

What the losses above all point up is the Republican opportunity. The Administration must push positive and constructive measures that will win friends and influence people in those parts of the country where Senate and House Republicans suffered their chief defeats. If the "new Republicanism" is incapable of the positive steps so obviously needed, then today's glittering opportunity will seem in two or three years from now to have been hardly more than a mirage.

If A Body —

HOBBES, N. M. — To this Hobbs city policeman a body is a body — whether it's standing up or lying down.

The patrolman was dispatched recently after a telephone caller reported a man lying in the street "who may be injured."

The policeman's laconic report of the incident:

"I was unable to find anyone lying in the street but I saw a man nearby staggering along who appeared as if he might have just gotten up from the street. I took him into custody."

The man was booked for drunkenness.

Doggone Good

PONCA CITY, Okla. — The following headlines accidentally appeared side-by-side in columns of the Ponca City News:

Cooked Fine dinner;
Threw it to Dog!

Fat Dogs Get Special Diet, Low Calories.

Example

COLUMBIA, S. C. — There may have been a few red faces amongst teachers at Columbia High School recently.

At the height of a teachers' meeting, the principal was forced to reprimand the group for being too noisy.

"If we don't have a little silence," he scolded, "I'm going to keep all of you half an hour longer."

Orphans Of The Storm

James Marlow Where Does It Leave The U.N.?

WASHINGTON — Where does President Eisenhower's plan — for sending American forces into the Middle East to stop a Communist attack — leave the United Nations? About where it was before.

There was a difference between the language in the speech and that in the resolution. It's the language in the resolution which approves the resolution, that becomes the formal policy of the government.

In his address Eisenhower said: Any use made of American forces would be "subject to the overriding authority" of the U. N. Security Council. What does that mean? Nothing, if you then go on to read the wording of the resolution.

If an emergency arose and Eisenhower sent troops into the Middle East, he would notify the Security Council "immediately." In short, what he would really do is act first and tell the council about it later.

The reason, from Eisenhower's standpoint, is understandable. The

big powers have a veto over each other's actions in the Security Council. The United States and Russia both wanted the veto in the charter.

It was the crowning mark of their mutual distrust. It enables each to block the other in a tough situation, or to try to. For example:

Suppose a Communist-dominated nation attacked an Arab country which asked American help. Suppose then if, instead of responding at once, Eisenhower went before the Security Council and said: "I think the council should authorize joint action by the whole U. N. to stop this aggression."

Russia could veto that, just as it could veto a request by Eisenhower to approve his use of American forces before he sent them into battle. But if he used the forces first and told the council later, it would make no difference what Russia did then.

But doesn't the U. N. Charter in some way require its members to go through the international organization before taking military action, even in an emergency?

No. There's a loophole for that too. Once again the United States and Russia showed their suspicion of each other by building this loophole, called Article 51, into the charter. It says:

"Nothing in the present charter shall impair the inherent right of individual (that could be the United States) or collective defense (that could be the United States and some Arab country) which asked its help if an armed attack occurs against a member of the United Nations, to maintain international peace and security. Measures taken by members in the exercise of this right of self-defense shall be immediately reported to the Security Council and shall not in any way affect the authority and responsibility of the Security Council under the present charter to take at any time such action as it deems necessary in order to maintain or restore international peace and security."

That brings up another loophole. If, after sending American forces into battle, Eisenhower notified the Security Council and Russia tried to get this country to pull back, the United States could veto that.

Around The Rim A Simple Way To Handle Words

Around a newspaper office, words are held in very high esteem.

Instead of being handy tools—which was the purpose for which they were invented—newspaper folk are prone to make idols out of them.

A misspelled word in a news item is a dreadful catastrophe comparable only to the end of the world. The reporter who probably made the blunder in the first place tries to shunt the blame to the city editor who supposedly read the story over before it was sent back to the typesetters.

The typesetters pass the buck to the proof reader and the proof reader says that the correction wasn't made by the printers and the printers insist loftily that no one spotted the word and that's how it all happened.

Sometimes, I get downright unhappy at the situation. Newspaper men use a lot of words. They generally know what the words mean and a careful writer selects the particular word which most aptly describes what he has in mind. The trouble is most reporters are notoriously poor in spelling.

There is a huge dictionary readily available for the scribe to check if he worried over the spelling of some word but, nine times out of ten, the dictionary is the court of last resort. It is only referred to if all other sources fail. There is usually one person in every city room who is endowed with the reputation (often entirely unmerited) of being a competent authority on spelling.

The puzzled reporter queries this oracle. Such persons, conscious of their position, seldom admit they do not know how to spell the word they do not know how to spell the word they do not know how to spell.

They put on a learned expression and make a rough stab at the job. They can be right. Or, just as likely, they can be wrong. In general, the reporter accepts the edict of the high priest, or priestess as the case may be, of the cult. Sometimes though a brash and irresponsible bystander, not properly indoctrinated in the awe that is the natural

possession of the supreme authority files an objection.

He insists that the word is spelled another way. This loses the storm. Every one from the managing editor to the copy boy gets into the act. In no time at all so many versions of how the word is spelled that no one is certain any more. That's the time when the staff reluctantly goes to Mr. Webster's big book.

The pride that fills the heart of the one staff member who may turn out to have been right in the controversy is sometimes embarrassing to watch. He may crow so loud as to upset the entire office and he may hurl snide and biting remarks at all of the others involved.

What is even more revolting, though, is to have him adopt an air of utter superiority and look down his patrician nose at his fellow—contempt dripping from every glance.

"Illiterate peons!" he seems to say, "Can't spell for sour apples!"

And right then, of course, if he was honest he would have to admit that his victory was solely a lucky guess.

What irritates me is that words won't stay put. They change from time to time. When writing (English that is) was being pioneered, the early exponents had a pretty neat system. They spelled the words very much as they sounded.

Take Chaucer for example. Their successors weren't content to leave well enough alone. They had to invent a lot of complications and variations.

Actually, it all boils down to the issue as propounded by Humpty Dumpty in his statement to Alice:

"Are words to work for you or are you to work for the words?"

Mr. Dumpty had a good plan. He made any word he chose to elect mean whatever it was that he wanted it to mean.

We ought to go along with Humpty Dumpty and Chaucer, I say.

—SAM BLACKBURN

The Gallup Poll Public Optimistic About New Year

PRINCETON, N. J. — The experts have all made their predictions for 1957. Now here's what the non-experts — the typical citizens of the nation — have to say about the next twelve months:

John Q. Public is looking at 1957 with a good deal of optimism about the chances for peace and the prosperity of this country in general.

His optimism is tempered, however, by the fact that he believes that taxes will be higher in 1957 and the prices of most of the things he buys are going up.

In a special "New Year's" survey by the Institute, here's what John Q. and his wife have to say about the world they will live in during 1957:

1. They believe there will be no major war in 1957.

Two out of three adults guess that no global conflict will break out during the coming year. Only one in eight thinks there will be a major war.

2. They think business in general will be better.

The weight of sentiment among all adults in the survey is that there will be a higher level of prosperity during the coming year. Almost as many, however, think business will be about the same and one person in eight thinks it will be worse.

3. But they also believe taxes will be higher during the next 12 months.

Nearly six out of 10 persons forecast that the "tax bite" will be bigger in 1957. Only three persons in 100 believe taxes will be lower. Roughly one in three thinks they will stay the same.

4. They feel the prices of things they buy will go up.

Nearly seven out of 10 American believe that prices will go up during the forthcoming year. Only one in 20 looks for lower prices, while about one in five thinks prices will stay the same.

5. John Q. and his family say they will be about the same financially in 1957 as they were in 1956.

Nearly half of all adults in the survey believe there will be no appreciable dif-

ference in their financial status during the next 12 months. Better than one in three, however, are looking hopefully for things to get better in the "pocketbook" line, while about one in eight expects things to get worse.

In getting the public's guesses on the state of the world and their pocketbook in 1957, Institute interviewers put the following questions to a carefully drawn cross-section of U. S. adults:

"Many newspaper writers are making their predictions of what will happen during the coming year. What do you think will happen in 1957 about . . .

"War — will there be a major war in 1957?"

Per cent
Yes, will be 13

Inez Robb

Next Item: Enough Glue On Stamps

Well, sir, it surely is a pleasure to see by the papers that President Eisenhower intends to retain Arthur E. Summerfield as Postmaster General.

Summerfield is a Lord Chesterfield of bureaucracy, if ever there was one, and my favorite Cabinet officer. May his shadow never grow less. He has been my political dreamboat ever since he told the Post Office Department to simmer down and leave me and my yellow mailbox be.

For two years, I beefed aloud and beat my breast because an ancient postal regulation insisted that every rural mailbox in the U.S.A. be painted either white or aluminum, under penalty of non-delivery of mail to an offending or off-color box.

At the end of that period, Summerfield said the ordinance was ancient and just plain silly. He gallantly added that he would toss out that regulation and expressed his hope that I would live happily and unmoaned ever after with my yellow mailbox, which had so offended his subordinates.

So now I think Summerfield is just the man to solve the latest serious postal problem that confronts the nation. What this country needs is not a good five-cent cigar, but a good three-cent stamp with enough glue on the back to make it adhere to an envelope.

Obviously, a man of Summerfield's importance does not have to lick his own stamps as do lesser citizens. Otherwise, he would be aware that at least 50 per cent of Uncle Sam's stamps today are as innocent of glue as Nashville.

In the old days, citizens used to holler because of the flavor of stamp glue. Everyone agreed that it was awful. Some persons wanted raspberry flavor, and some were willing to settle for vanilla. (I could have licked all 500 stamps in that pre-Christmas roll purchased by Chez Robb

and my taste buds would still have remained virgin and unimpaired.)

As of now, citizens are willing to settle for glue, no matter what the flavor, if only the Post Office Department will return it to stamps. It can taste of old burned boot tops crossed with brussel sprouts, if need be, if only stamps demonstrate a little sticking power.

Only a week or so ago, I read that some bride-to-be in the Midwest was heartbroken because so many of her wedding invitations were returned when fickle stamps parted company with envelopes. This is a situation that is not apt to trouble me, as I was married 27 years ago when, in one woman's opinion, both glue and bridegrooms were of better quality. At least, if I read the postal complaints and the divorce statistics aright, both had more admirable adjectives characteristics in the past.

Is this current lack of glue on stamps an economy measure? Or is it subtle propaganda to raise the rates of first-class postage to four cents per letter? All right, I believe in economy in government but not in glue. And until the Post Office Department puts some glue on the three-centers, I'm agin the four-cent measure.

Mr. Summerfield, honey, I'm glad you are staying powers. But I wish I could say as much for your stamps.

(Copyright, 1957, by United Feature Syndicate, Inc.)

Laborious Prank

VICTORIA — Two young sailors pleaded guilty in police court to stealing a 150-pound granite tombstone from a monumental firm "as a lark." They said they had been drinking. Sentence was deferred.

Miss Rogers, J. Murphy Repeat Wedding Vows

Double ring vows, repeated Monday evening in the home of the bride's parents, united in marriage Rita Kay Rogers and Jim Murphy.

She is the daughter of Mr. and Mrs. F. D. Rogers, 1301 Wood; parents of the bridegroom are Mr. and Mrs. J. O. Murphy, 700 East 12th.

The Rev. Cecil Rhodes, pastor of the Westside Baptist Church, performed the ceremony assisted by the Rev. A. R. Posey, pastor of Baptist Temple.

Preceding the rites, Melva Turner read the poem, "How Do I Love Thee?" by Elizabeth Barrett Browning.

Wearing a dress in an ice-blue shade, the bride carried pink carnations atop a white Bible. This was a gift from the YWA of Baptist Temple.

The Bible also served as something new. Borrowed and old was a bracelet, belonging to Mrs. Hester Hull, an aunt of the bride. Her dress was blue.

Barbara Porch was maid of honor and H. G. Banard served as best man. Miss Porch was attired in a dress of pale green with white accessories.

Serving at the reception after the wedding were Mrs. Ralph Walker, a sister of the bridegroom, and Miss Turner.

Following a wedding trip, the couple will be at home at 2010 Gregg, Mrs. Murphy is a junior student in Big Spring High School, and he has been employed by the T&P Railroad.

MRS. JIM MURPHY

Mrs. Murphy is a junior student in Big Spring High School, and he has been employed by the T&P Railroad.

Out-of-town guests were Mr. and Mrs. O. D. Hair of Brownfield, uncle and aunt of the bride, and her grandparents, Mr. and Mrs. W. C. Rogers of Loraine.

Skin Care May Save Your Face

By VIVIAN BROWN
The fight for beauty is eternal. At every age the fair sex encounters a challenge to beauty.

Budding womanhood, 13 to 18, and the over-40 set are likely to have one thing in common: complexion woes. The young set worries about oily skin, pimples, acne and other blemishes; the older woman frets about dry skin, crow's feet, wrinkles in general.

Women are aware they may neglect hair, fingernails, even their figures, but complexion is another matter — it is staring at them constantly from the mirror through sickness and health, for better or worse. These reflections may elate or distress them.

One important beauty chore for the young modern is proper cleansing of the skin, insurance for a good complexion. A model agent says the trouble with young people and their first makeup is that they do not learn how to "make down" (remove it properly).

That is the key to a pretty complexion, he says. Remove all the goo when you are ready to go to bed and certainly before applying new makeup.

Makeup removal must be a thorough job. One beauty authority noted for her famous cover-up for troubled skins now has devised a liquid that is said to free pores completely of imbedded dirt that forms blackheads. It is good for blemishes when applied to disturbed areas and allowed to dry of its own accord.

This particular liquid also is good for women with combination oily and dry skin, excessively oily around the nose, forehead and chin, but dry on cheeks and near the eyes. The liquid in that case is applied only to oily areas.

Blemishes may be treated with the liquid before any other outbreaks occur. Pimples and blackheads should dry and heal. The liquid has been tested for more than 10 years and contains anti-septic properties such as hexachlorophene, resorcinol, and sulphur oil compound.

Easy Dessert
Easy dessert: dried fruit (prunes and raisins-on-the-stem), walnuts (in the shell), red apples. Add cheese if you like.

Engagement Announced

Mr. and Mrs. Tom Rossow, 108 Lincoln Ave., are announcing the engagement and approaching marriage of their daughter, Maxine, to A-C Robert Wayne Myers. He is the son of Mr. and Mrs. Albert Myers, Miamitown, Ohio. The couple will be married on Feb. 9, with the Rev. Clyde Nichols reading the wedding vows.

Installation Dinner Held By Desk, Derrick

An installation dinner was held by members of the Desk and Derrick Club Monday evening at the Howard House.

Speaker of the evening was Mrs. Katie Nabours of Abilene, regional director. She also was installing officer.

Evelyn Merrill took office as president; Mrs. Joe Roberts as vice president; Mrs. Delbert Stanley as recording secretary, and Pauline Sullivan, corresponding secretary. Mrs. Ruby Rowe will serve as treasurer.

A gift was presented to the speaker, and Mrs. G. C. Brough-

Bride

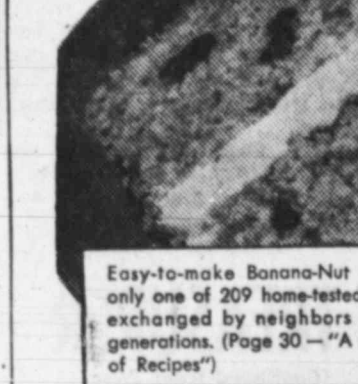

Mr. and Mrs. Porter Hanks, Vealmoor, are announcing the marriage of their daughter, Will-ella, to E. T. Tucker Jr. He is the son of Mr. and Mrs. E. T. Tucker, 713 Washington. The couple was married Monday in Lovington, N.M. Mrs. Tucker is a graduate of Ackerly High School and attended Howard County Junior College. Mr. Tucker was graduated from Big Spring High School and attended Midwestern College in Pueblo, Colo. Attending the couple at the wedding were Wilma Bradford and Grady Dorsey. After a wedding trip, the couple will be at home in Big Spring where Mr. Tucker is employed by the Big Spring Grain Company. Those attending the wedding from Big Spring were Jim Thorp, Billy Wayne Cochewick, Dick Fort, James Weaver and J. C. Armistead.

YMCA Delegates To Vernon Council Meet

Toni Thomas and Kathleen Thomas were elected as representatives of Seba Sophomore Tri-Hi-Y to the Hi Y Council to be held in Vernon Jan. 11 and 12.

At this convention, plans will be made for the spring conference to be held in Abilene March 1 and 2.

Members also made plans for a box supper and dance to be given at the Y on Jan. 26.

Easy-to-make Banana-Nut Cake — only one of 209 home-tested recipes exchanged by neighbors for two generations. (Page 30 — "A Bag Full of Recipes")

Thank You Gift

...12th edition of the Southwest's most popular cookbook... FREE!

"A Bag Full of Recipes" is probably the most widely circulated cookbook in the Southwest. It contains 209 home-tested recipes... each an asked-for recipe, the talk of the neighborhood from which it came. This all-around cookbook is offered free to users of quick-dissolving Imperial Pure Cane Sugar as a "thank you" for making Imperial the Southwest's largest selling sugar.

IMPERIAL SUGAR CO., Dept. I-18
Sugar Land, Texas
Enclosed is the red block marked "Pure Cane" from an empty Imperial Sugar bag or carton, for which please send me, postpaid, a copy of "A Bag Full of Recipes."

Presbyterian Women Have Business Meets

The Women of St. Paul Presbyterian Church met Monday evening at the church, Mrs. Jim Layman as hostess.

The opening prayer was offered by Mrs. D. T. Evans, and Mrs. Paul Gibson brought the lesson on "Forward with Christ Through Citizenship."

The budget for 1957 was adopted by the group. The next meeting of the women will be in February.

Refreshments were served to 13.

Baptist Groups Have Study On Missions At Monday Meetings

Mrs. Garland Land led the missionary program at the Monday afternoon meeting of the Westside Baptist WMS.

Mrs. J. C. Madry led the group singing of "Saviour Like a Shepherd Lead Us," with Mrs. C. L. Kirkland at the piano.

The devotion was given by Mrs. Kirkland from the 46th chapter of Psalms.

Others on the program were Mrs. Alice Monteth, "Our Foreign Neighbors"; Mrs. Jake Trantham, "Friends of the Fields"; Mrs. Doris Webb, "The Negro Advances"; Mrs. Sallie Sanders, "Sellers Home and Adoption Center" and Mrs. Ted Brown, "A Refuge for the Weak."

The special prayer for missionaries was given by Mrs. Perry Burleson.

Plans were discussed for the WMS Focus Week which will begin Jan. 14. The closing prayer was given by Mrs. Mack Sundry.

AIRPORT WMU
Circles of the Airport WMU met Monday afternoon at the church for a business meeting and a Royal Service program. Twenty attended the meeting.

Study of the afternoon was "Mis-

sions in The Mississippi Basin," with Mrs. Ted McAninch as leader. Posing as a river boat captain, she took the members on a "cruise" on the ship, "Brotherly Love."

Assisting in "the crew" were Mrs. Frank Early, Mrs. Ralph Barnes, Mrs. W. A. James, Mrs. Dewey Brown, Mrs. W. H. Peterson and Mrs. Sam Wells. Each

Missions were studied by members of the Hillcrest Baptist WMS at their meeting Monday. The topic was "Missions in the Mississippi Basin."

Those taking part on the study were Mrs. Leroy Minchew, Mrs. S. D. Vinson, Mrs. R. P. Beard, Mrs. Terry Carter, Mrs. W. D. Arnold and Mrs. Travis Balch.

Mrs. J. T. Grantham read the list of missionaries with birthdays this month and offered a special prayer for each.

The devotion, from Psalms 46, was given by Mrs. H. L. Bingham.

Mrs. Balch was introduced as a new member. Eight attended.

Use Cotton Squares For Carpeting

A new cotton carpeting can be laid easily by do-it-yourselfers.

The carpeting comes in 18-inch adhesive-backed squares of tufted cotton, laminated to its own cushion. All the user need do is simply peel off the protective paper backing, place it on the floor, and pat it.

No carpet pad is needed.

The cotton carpet squares are easy to apply and can be used on any clean, dry surface, free from wax and dirt. Once installed, the maintenance is as simple as with any carpet. They can be vacuumed or cleaned.

If any one square should be damaged by a cigarette burn or other type of accident, it can be replaced with a new one or switched with a clean one from under a sofa or chair.

The economical carpet squares afford the opportunity to carpet all the forgotten rooms that have been neglected. The new, inexpensive squares are suitable for any room and are expected to be especially popular for playroom, den, nursery, and bedroom.

At present the carpeting is made in 12 solid colors. The squares can be laid for a variety of effects — solid, checkerboard, stripes, or mixed color combinations.

Serve Gingerbread Hot From The Oven

Serve this gingerbread hot from the oven.

INGREDIENTS:
One and one-fourth cups sifted flour, 3/4 teaspoon baking soda, 1/4 teaspoon salt, 1/2 teaspoon cinnamon, 1/2 teaspoon ginger, 1/4 teaspoon cloves, 1/4 cup butter or margarine, 1/4 cup sugar, 1 egg, 1/2 cup molasses, 1/2 cup hot water.

Method:
Sift together the flour, baking soda, salt, cinnamon, ginger and cloves. Cream butter and sugar. Beat egg until thick and pale colored. Beat egg and molasses into creamed butter and sugar. Beat sifted dry ingredients alternately with hot water into molasses mixture; begin and end with flour. Turn into waxed-paper lined baking pan (8 by 8 by 2 inches). Bake in moderate (350 degrees) oven 30 to 35 minutes or until cake tester inserted in center comes out clean. Turn out on cooling rack and strip off paper. Any gingerbread left over may be wrapped in aluminum foil and reheated in a microwave oven.

Ducky Trim

Cute Mrs. Duck at work makes a delightful embroidery trim for a set of kitchen towels. No. 155 has hot-iron transfer—7 motifs.

Send 25 cents in coins for this pattern to MARTHA MADISON, Big Spring Herald, 367 W. Adams St., Chicago 6, Ill.

1542 12-42 Hostess Aprons

Ideal for that next kitchen shower—pretty hostess aprons that are fun to sew. Each style requires just a yard of fabric in the smaller sizes.

No. 1542 with PHOTO-GUIDE is in sizes 12, 14, 16, 18, 20, 40, 42. Size 14, 1 yard of 35 or 39-inch for each.

Send 35 cents in coins for this pattern to IRIS LANE, Big Spring Herald, 367 W. Adams St., Chicago 6, Ill.

155 Ducky Trim

'Speech' Is Topic For BSP Meet

Mrs. Darel Highley spoke on "Speech Reflects Your Personality" for members of the Mt. Zion Chapter of Beta Sigma Phi when the group met Monday evening.

Mrs. Highley told of ways to improve and enlarge one's vocabulary. She also gave tips for radio and television speaking.

Mrs. Ray Pipes and Mrs. Highley were named as directors from the club to serve on the board of the Howard County Society of Crippled Children and Adults.

The next meeting of the group will be Jan. 21 with Mrs. Jimmie Calmes, 2403 Morrison, as hostess. Mrs. Bill Priebe will be in charge of the program.

J. Johansen To Speak

Johnny Johansen will be the speaker for members of the Four O'Clock Garden Club Wednesday in the home of Mrs. Ray Adams, 1708 Scurry. Meeting at 3 p.m. the group will hear a discussion of "Conservation in the Yard."

APRIL 24-25

Fire Inspection Field Days Set

Plans were completed this morning for the fire inspection field days to be held in Big Spring April 24-25.

Representatives of the Texas Insurance Field Men's Association met with city and Chamber of Commerce officials to complete the schedule of activities.

Charles Colson of Lubbock and the TIFMA said some 40 members of the organization's West Texas division will be in Big Spring for the two-day search for fire hazards in public and semi-public buildings.

The inspectors will be employees of the capital stock fire insurance underwriters. Colson said a luncheon, at which results of the survey will be given and fire-prevention measures will be outlined, will be held to conclude the work.

Here with Colson were Dick Talbot, president of the West Texas division of the TIFMA, and Steve Orendek. They conferred with Chamber of Commerce Manager Red Smith, City Manager H. W. Whitney, Fire Marshal F. W. Bettle and Fire Chief H. V. Crocker.

New Appliances Seen By Dealers

Appliance distributors and representatives of newspapers and radio and television stations were guests of Nunn Electric Company in Lubbock Monday evening.

The occasion was the presentation of the 1957 line of RCA Whirlpool appliances at the Lubbock city auditorium. Carl Hare, Amarillo, president of Nunn Electric, was in charge and announced the addition of new refrigerator and freezer lines.

Among those attending the buffet supper and reception from here were Mr. and Mrs. Leon Farris and Mr. and Mrs. Jasper Atkins of Big Spring Hardware. John Stanley and J. R. Stanley of Stanley Hardware, John H. King of the Herald, and Bob McLelland of Radio Station KTXC.

Two Fire Alarms, But No Damages

No damage resulted from the lone fire here Monday. Although there was only one fire, there were two calls.

The fire started with a gas leak from the furnace at 1106 Birdwell, the residence of Archie Kenard. Firemen from the Eleventh and Birdwell station answered the call but reported no damage.

A false alarm was turned in Monday. The report was of a fire at the Lyric Theatre, but no fire was found.

Anderson Well Is Completed On Flow Of 212 Bbls. Of Oil

Williamson, Altrin, and South-west Development finished the No. 1 Anderson in the Big Spring field for 212 barrels of high-gravity oil through a partial choke.

The well is eight miles north of Big Spring. The gravity of oil is 50 degree.

Meanwhile the Forest No. 1 Minear wildcat north of Big Spring is shut in for storage. After acidizing in the Spraberry, it flowed 22 barrels of new oil in three hours and 20 minutes. This venture is 13 miles north of Big Spring.

Borden Standard No. 16-6-B T. L. Griffin drilled to 6,858 feet in lime. The Spraberry try is 1,820 feet from north and 1,120 feet from east lines, 29-25, H&TC Survey.

Continental No. 1 Johnson found sand, shale, and lime at 6,841 feet. The wildcat is C SW SW, 31-32-5n, T&P Survey, 16 miles north of Vealmoor.

Texas Pacific Coal No. 2-B Johnson is a new location in the Jo-Mill (Spraberry) field 12 miles southwest of Gail. It is 660 feet from south and 550 feet from west lines, 7-32-5n, T&P Survey. Rotary drills will carry to 7,250 feet.

Dawson Seaboard No. 1 Miers pumped 66 barrels of oil in 24 hours and is still pumping. The oil was cut 31 per cent water. The Mungerville Southeast field venture is 660 feet from south and west lines, Labor 19, League 2, Taylor CSL Survey.

Standard No. 1-1 Blue projected to 3,240 feet in lime and shale. The Jo-Mill (Canyon) venture is 467 feet from north and east lines of the west half, 24-34-4n, T&P Survey.

Skelly No. 1 Frank Freeman penetrated to 7,500 feet in lime and shale. Location of the wildcat is 2,118 feet from south and 660 feet from east lines, Labor 11, League 273, Glascock CSL Survey.

Cities Service No. 1 Key is stacked 680 feet from north and east lines of the south half, 12-C2S, PSL Survey, in the Welch field. It is three and a half miles west of Welch and will project to 5,050 feet.

Glasscock Advance Petroleum No. 1 G. A. Schaefer, in the Spraberry Trend Area, is 1,320 feet from north and west lines, 29-35-5s, T&P Survey, 21 miles southwest of Garden City. It will project to 7,600 feet.

Tidewater No. 1-A Reynolds-Bambill, 900 feet from south and west lines, 23-36-5s, T&P Survey, is in the Spraberry Trend 17 miles southwest of Garden City. Drilling depth is 7,700 feet.

Schwartz No. 1 Brnson, 13 miles west of Garden City, pumped 172.49 barrels of oil, plus seven per cent water, on 24-hour potential. Perforations in the Clear Fork are between 6,312-6,419 feet. Top of the pay zone is 6,150 feet, and total depth is 6,497 feet. Gravity is 33.7 degrees, and gas-oil ratio is 870-1. Site is C NW NW, 2-35-5s, T&P Survey.

Howard Williamson et al No. 1 Anderson, C SE NE, 24-32-1n, T&P Survey, flowed 212 barrels of oil through a 16-64-inch choke in 24 hours on potential. Gravity is 50 degrees, and gas-oil ratio is 722-1. No water was reported. Top of the pay zone is 9,574 feet. The well is in the Big Spring field, eight miles northeast of Big Spring.

Williamson et al No. 1 Davis, six miles north of Big Spring in the same field, drilled to 2,859 feet in anhydrite. It is C NW NW, 19-31-1n, T&P Survey.

Cosden No. 1 Garrett was reported swabbing between 6,706-32 feet with no gauges on production. The wildcat try is 1,980 feet from south and 2,010 feet from east lines, 40-32-2n, T&P Survey, seven miles north of Big Spring.

Forest No. 1 Minear, a wildcat 13 miles north of Big Spring, is shut in for storage. Operator permitted between 6,312-6,334 feet mud acid. It flowed load oil and then flowed 22 barrels of new oil in three hours and 20 minutes. Operator reacidized with 1,500 gallons, and after flowing back load, it produced 123.79 barrels of oil in four and a half hours. Gravity was 32 degrees, and the estimated gas-oil ratio was 500-1. The location is 2,310 feet from north and east lines, 19-34-1n, T&P Survey.

Duncan No. 1 Quinn, a wildcat 12 miles west of Big Spring, drilled today below 2,330 feet in hard lime. Operator found the San Andres barren and is now drilling on to 3,500 feet. The venture is 2,310 feet from north and 660 feet from east lines, 19-34-1n, T&P Survey.

Blue Dambe No. 1-A Morris Gay drilled to 2,829 feet in an unreported formation. The venture is in the Bond (Canyon) field 830 feet from north and 584.8 feet from east lines, 34-33-2n, T&P Survey, and 11 miles north of Big Spring.

Standard No. 1 Harvey Adams, five miles southeast of Ackery, is shut in. It is C NE SW, 47-34-3n, T&P Survey.

Fleming, Fleming, & Kimball No. 7-D Denman is located 1,650 feet from east and 330 feet from south lines of the northeast quarter, 16-30-1s, T&P Survey, in the Iatan, East Howard pool. It is five miles south of Coahoma. Drilling depth is 3,200 feet.

Fleming, Fleming, & Kimball No. 8-D Denman is 1,900 feet from north and east lines, 16-30-1s, T&P Survey, five miles south of Coahoma. Cable tools will carry to 3,200 feet.

Duncan No. 6 Patterson, in the Moore field, is 990 feet from north and 1,650 feet from west lines, 22-53-1s, T&P Survey. It is three miles southwest of Big Spring and will explore to 3,500 feet.

Mitchell In the Westbrook field, Brennan-Hefren No. 4 Hale pumped 119.34 barrels of oil, plus 14 per cent water, in 24 hours. It produced from perforations between 2,880-3,120 feet. Top of the pay area is 2,840 feet. Gravity is 23.5 degrees. The well is 12 miles north of Westbrook, 1,668 feet from north, 2-28-1n, T&P Survey, west and 1,633 feet from south

Polio League Faces Problem Of Switchover

NEW YORK (AP)—Now that polio is largely licked, the head of the National Foundation for Infantile Paralysis says the organization is faced with a big problem—what to do with itself.

Basil O'Connor, foundation president, said yesterday in an interview that the foundation hopes to come up with a solution by spring.

"We've been struggling with the problem for two years now and, believe me, it's one of the toughest I've yet had," said O'Connor, adding:

"As far as the foundation is concerned, we've considered three alternatives and we've had all the experts in the world advising us. Whatever is done, he said, the foundation has an obligation to the '80,000 old cases' and the continuation of support to research programs in which the foundation already has invested 25 million dollars.

But as these obligations ease off he said, the foundation must move toward a new status—one possibility being to "shut up shop."

"Another idea," he said, "would be to pick out another specific disease. And we have had all kinds of suggestions."

Jury Hearing DWI Testimony

J. A. Smith, charged with driving a car while intoxicated, is on trial in Howard County Court before a jury.

Smith was arrested last November, 12 miles northwest of Big Spring by state highway patrol officers. He has been at liberty on bail since his arrest.

The state rested its case at 11 a.m. George Thomas, defense counsel, said that he wanted time to locate a witness important to his case. Judge R. H. Weaver recessed the trial until 1:30 p.m.

The state's witnesses were the two state highway patrol officers who made the arrest. Jimmy Parks and Ben Walker, the officers, detailed the story of the incident from the witness stand.

Smith's case is the first of a week's docket in progress in county court.

Weaver has announced that he plans to conduct a series of jury trials docketed throughout 1957 in an effort to reduce the swollen county criminal case list.

Eighteen cases had been tentatively slated for disposal at the present session.

Stockholders Of Country Club Meet Jan. 15

Annual meeting of stockholders of the Big Spring Country Club has been called for January 15, at 7:15, at the club house.

Directors will be named and other matters of business transacted. It was announced by Neil G. Hilliard, secretary and treasurer. All members are urged to attend the meeting.

Dog Ordinance Is Due Final Reading

Final reading of the proposed dog ordinance will be made tonight at the regular meeting of the city commission.

The meeting is to start at 5:15 p.m. in the city hall. In addition to the dog ordinance, commissioners will purchase a pickup for the water department and consider traffic recommendations from the Citizens' Traffic Commission.

At the two previous meetings of the group, commissioners approved the dog ordinance, and no developments aside from ratification are expected tonight. Three readings and public notices in newspapers here are required to put the new regulation into effect.

The ordinance will call for a pound fee for all dogs picked up and impounded. This will be \$1, plus 50 cents per day or part of a day that the dog is held.

Also, it provides the city with power to impound any dog that is considered rabid, if the owner will not pen the animal for at least 10 days.

All dogs must be registered and vaccinated yearly, also. This portion of the ordinance was in the old regulation.

City, school, and CTC officials met in December and discussed traffic regulations on 10th Street in front of Junior High School, and these requests will be presented to the commission for action tonight.

The proposals would make 10th between Johnson and Main a one-way thoroughfare going westward. Also a traffic light would be installed at 10th and Runnels, and parking on the north side of 10th in the two-block area would be prohibited.

These changes would help control traffic and congestion in the area, school officials hoped.

Bids were asked for a new pickup for the water department. At noon today, Roy Anderson, purchasing agent, had received only one bid, but he said that three other firms had made inquiries about the trade-in.

The city will consider either a 1956 or '57 model pickup. To be traded in is a 1948 International, which at the present is used only for limited service. The new vehicle will be used full-time, however, and the oldest pickup in the department will be reduced to limited duty.

16 KILLED Pickup Smashes Into Sheep Herd

Highway patrol officers, deputies from the sheriff's office and other law enforcement agencies are endeavoring to locate a pickup truck which Monday afternoon plowed through a flock of sheep on U.S. 87, seven miles south of Big Spring. The truck killed and maimed 16 sheep. All of the injured animals were so badly hurt they had to be destroyed.

Patrol officers said that the pickup, traveling at high speed, crashed into the flock which was being driven across the highway. The sheep, the patrol said, were owned by Joe Fisher.

After ramming its way through the animals, the pickup proceeded on its way.

It was described as a blue pickup. It was not certain whether there was more than one person in the truck at the time.

Harvey Hooser Jr., county attorney, a private pilot, flew officers over the area Monday afternoon. An effort to spot the truck was made but no sight of it was found. It was thought possibly that the impact of the crash had damaged the vehicle sufficiently that it might have been abandoned.

The dead sheep posed a traffic hazard for a time and the road was temporarily closed until the bodies could be removed.

One Latin American has been arrested in connection with the crime, and C. L. Rogers, police chief, said that the department was looking for the other two.

City patrolmen arrived at the scene of a burglary early this morning just as the culprits were driving off. They have not been found, however.

The burglary occurred at Brown's Trading Post, 2407 Gregg, shortly after midnight. The burglars entered the building by prying open the door to the walk-in room. Nothing was found missing, however.

Nothing was missing from the Central Cafe, 501 1/2 NW 4th, which was burglarized Sunday night. The front door was the entrance.

Burglary Case Suspect Held

One man has been arrested and police are looking for two more after the burglary at the West Texas Complex on the Northside.

About \$300 of fire equipment was taken from the Complex Sunday. Included fire extinguishers, nozzles, and fire hose. Part of it belonged to the city. Police said all the gear has been recovered.

One Latin American has been arrested in connection with the crime, and C. L. Rogers, police chief, said that the department was looking for the other two.

City patrolmen arrived at the scene of a burglary early this morning just as the culprits were driving off. They have not been found, however.

The burglary occurred at Brown's Trading Post, 2407 Gregg, shortly after midnight. The burglars entered the building by prying open the door to the walk-in room. Nothing was found missing, however.

Nothing was missing from the Central Cafe, 501 1/2 NW 4th, which was burglarized Sunday night. The front door was the entrance.

Commissioners put off making offers to two landowners for tracts needed for airport development. A question arose as to how much of the land of Mrs. R. S. Anderson is in cultivation, and there was some doubt as to the quantity of another tract, owned by D. C. Buchanan, was needed.

Engineer Louis Jean Thompson was asked to determine the answers to the questions before commissioners make offers for purchase of the land.

Two other property owners rejected offers Monday morning. Mr. and Mrs. J. T. Sherrod turned down \$125 per acre for 270 acres of land and representatives of the Ora Johnson estate refused an offer of \$85 per acre for 46 acres.

After all initial offers are presented, commissioners will be in a position to negotiate or institute condemnation proceedings against the land needed for the new county airport.

Action on a petition to open a road in the northeast part of the county to the Borden County line was put off until commissioners can determine whether Borden commissioners intend to open an extension of the road in that county.

CARD OF THANKS To our friends, neighbors and relatives we wish to express our sincere appreciation for sympathetic attention, beautiful floral tributes and other courtesies extended to us at the passing of our beloved husband and father.

Mrs. P. R. Redding Mr. and Mrs. C. R. Redding Morris Redding Catharine Redding

CARD OF THANKS We wish to thank our many friends who sent food and flowers during our bereavement. May God Bless Each of You.

Three Highway Mishaps Listed With Patrolmen

Three accidents were reported Monday afternoon and night on area highways by the state highway patrol officers.

One involved the collision of a pickup truck and flock of sheep on the San Angelo highway at 2 p.m. Driver of the truck has not been apprehended. Sixteen sheep were killed.

The second occurred at 6 p.m. five miles north of Big Spring. A rear tire on a 1951 Chevrolet blew out and the car turned over.

Highway patrol officers were called to the scene but when they reached it, the occupants had disappeared. They had not been located at noon today.

Patrol officers said that a farmer, passing the scene, told them he brought two men to town but that he did not think either had been hurt. One was complaining of a painful shoulder but the farmer said he did not take the pair to the hospital.

The officers said they found numerous cases of beer which apparently had been removed from the wrecked car and dumped in a plowed field across from the crash.

Mrs. Nina King Rice, 822 W. 9th, escaped injury at 1 a.m. Tuesday, the patrol reported, when the car in which she was riding turned over three miles south on U. S. 87.

A fourth investigation of the period was made when a driver reported that his car had rammed into a wheel from a truck. The truck, it was said, had lost two wheels and had been incapacitated. The driver complained his car struck one of the wheels.

HOSPITAL NOTES

BIG SPRING HOSPITAL Admissions—Odett Lucille Gist, Roscoe; Manuela Duran, city; S. C. Flores, city; Mrs. Mary White, Rt. 1; Emily Barber, Big Lake; Helen Lara, 510 N. Lancaster; Barbara Brown, Vincent.

Hi-Y Club Names Planning Delegates

Members of the Sophomore Hi-Y Club Monday named James H. Stephens and Bill French Jr. as representatives to the council planning session in Vernon this weekend.

The council will set up plans for the spring Hi-Y conference in Abilene March 2-3. All Hi-Y and Tri-Hi-Y members will be invited to attend the Abilene session.

At the Monday meeting, members named Franklin Williamson and Bobby McAdams as co-chairmen of the father-and-son barbecue activity. Reports were heard from the Youth-in-Government project in Austin. Presiding over the meeting was James Stephens, president.

Bicycle Collides With Automobile

A car and bicycle collided here Monday, but no one was injured.

Mrs. W. J. Kattner, 2008 Scurry, reported the incident to the police department. She said that her son, riding a bicycle, collided with a car driven by Joe Kolb, 306 1/2 E. 21st.

Kolb brought the boy home and explained the incident. The boy was not hurt, however, Mrs. Kattner said.

MARIE

(Continued from Page 1) that she had been kidnapped. She didn't call police.

Late Friday night she was found wandering dazedly on the desert near India. A truck driver picked her up. Hospital attendants said she had a bruised face and two broken caps on her teeth. She was sent home in an ambulance to recover—and to re-enact the occurrence.

The final scene of yesterday's movie was shot outside. Lohrman's voice cracked.

"I have talked to the director of this film and he has agreed to have her come beyond the cars parked in the driveway."

Later, he announced temperament from the star. She didn't want the news photographers to take her picture.

"We're going to plead with her on bended knee," Lohrman assured.

The 33-year-old actress, by now wearing a fancy quilted robe that defied cheesecake, came out for the final fadeout. Carried away by the drama of the moment, she did not stop at the agreed upon spot but came right up to where the photographers were massed.

Putting a hand up to her blackened eye and swollen face, she exclaimed: "This is a great way to be photographed."

Later, she invited all the photographers into her living room and even posed for the newsmen. She repeated details of her ordeal, sobbed a little and then finished the interview in true actress fashion:

"I want to thank all of my friends and the many others who have been so kind as to write letters to me since this all happened. I want to say this is definitely not a hoax. And least of all, it's no publicity stunt."

"Why, I've had enough publicity. And anyway this is apt to ruin my career."

Tucked away in a corner — he denied that he was hiding — he British actor Michael Wilding, Miss McDonald's current romantic interest.

"I'm only here to cheer her up, and the poor kid needs it," Wilding, estranged husband of Liz Taylor, said gallantly. After the police movie was completed, Miss McDonald approached Wilding, leaning on a bar.

"Pour baby a drink," she cooed. "I've had it today."

W. C. Ragsdale Dies Here At 93

William C. Ragsdale, 93, whose earliest memories dipped into the post-bellum days of the South, died in a hospital here at 8 p.m. Monday.

He had been ill for several weeks.

The remains will be shipped by River Funeral Home at 11:30 p.m. today to Weatherford, where final rites will be said at 4 p.m. Wednesday at the Cotton-Bratton Funeral Home. Elder Strickland of Graham will officiate, and burial will be beside the grave of his wife, who died in 1951.

Mr. Ragsdale had resided here since 1955 with a son, G. C. Ragsdale, 711 Washington Blvd. He has another son, W. C. Ragsdale Jr., 1503 Pickens, residing here.

During his lifetime, Mr. Ragsdale had taken a hitch as a pioneer cowboy and an early-day cotton compressor. He had invented a wire buckle for fastening ties of compressed cotton bales. This patented device is still in use.

Mr. Ragsdale was born in Ringgold, Ga. on May 22, 1863, and his earliest recollection, he said, was when his mother evacuated her family from Ringgold to West Point, Ga., to escape Gen. Sherman's devastating march to the sea. The trip was made on a cattle train along with other refugees.

Not long afterwards one of the last actions of the War Between the States occurred there and his uncle Maj. William Camp, lost his eyesight in a clash with Union forces, ignorant of the fact that Gen. R. E. Lee had surrendered 12 days earlier.

In 1873 his family moved to Texas, making the trip by rail and side-wheel steamboat from Dallas to Orlenas in Dallas, the family initially at Dallas, the family moved to Fort Worth, Weatherford and Palo Pinto.

From that point young Ragsdale decided to try his hand on the Texas frontier and went to work on the famous old Frying Pan Ranch in the Panhandle. Later he worked for the Rock Island and the Fort Worth & Denver railroads.

In 1898 he had returned to Palo Pinto to marry Ida Alice Abernathy, a native Alabamian, and they experienced 61 years of wedded happiness together. He went to work as a compress engineer and served at various points in Texas and Oklahoma. It was during this time that he invented the bale buckle and several other lesser items. He returned to Palo Pinto in 1930 and came here three years ago, not long after his wife's death.

Mr. Ragsdale was a long time member of the Primitive Baptist Church.

Surviving him are three sons, W. C. Ragsdale, Jr. and G. C. Ragsdale, Big Spring, Charles A. Ragsdale, Fort Worth; one daughter, Mrs. David Fant, Watsonville, Calif.; eight grandchildren, 13 great-grandchildren; and a sister, Mrs. Cora Gillespie, El Paso. Two sons and a daughter preceded him in death.

Meters Collect Assorted Coins

All coins inserted in downtown parking meters are not nickels and pennies.

This is proven by the check of collections made here Monday.

The tax department, in sorting the coins Tuesday found, in addition to one and five-cent pieces, 17 dimes, a button, a Mexican coin the size of a nickel, a bus token, and four amusement center coins.

Auto Hits Gas Meter

A man dodged to keep from hitting another motorist this morning and as a result crashed over a gas meter.

The incident occurred at 1500 Lancaster. John Whisenand, 603 Caylor, driving a 1950 Mercury, dodged a car driven by Leah Cabanis, 1513A Sycamore, and bounced into the gas meter. The meter was registered to Mrs. E. C. Howard.

Whisenand, although hitting the meter, was successful in avoiding the other car.

Monday, Earl Richey, Sterling City Rt., and Billy Raney, 1110 Mulberry, were drivers of cars colliding at Third and Main. Richey was in a 1954 Chevrolet pickup, while Raney had a 1954 Studebaker.

Farm Bureau Leaders May Draft Drought Proposals

Howard County Farm Bureau directors are expected to name representatives tonight for a drought-assistance recommendations meeting to be held for a 31-county area in Lamesa Thursday.

The directors also may formulate some recommendations for the Lamesa meeting and for submission to President Eisenhower when he visits this area next Monday.

Farm groups of this section have been asked to outline what steps they think the federal government should take in providing drought assistance. Eisenhower and a Department of Agriculture delegation will be in San Angelo Monday for a short farm and ranch inspection tour and to receive drought aid suggestions.

Local Farm Bureau directors will hold their first 1957 meeting at 7:30 p.m. today in Farm Bureau offices, 117 Runnels.

Standind Hikes Crude Oil Prices

TULSA (AP)—Standind Oil Purchasing Co. said it is increasing the prices paid for crude oil today. A 25-cent increase is posted for West and West Central Texas.

MARKETS

WALL STREET NEW YORK (AP)—Mixed prices prevailed in early trading today, as the stock exchange shares moved narrowly in moderate fluctuations. The Dow Jones industrial average closed at 110.84, up 1/4 point from 110.59.

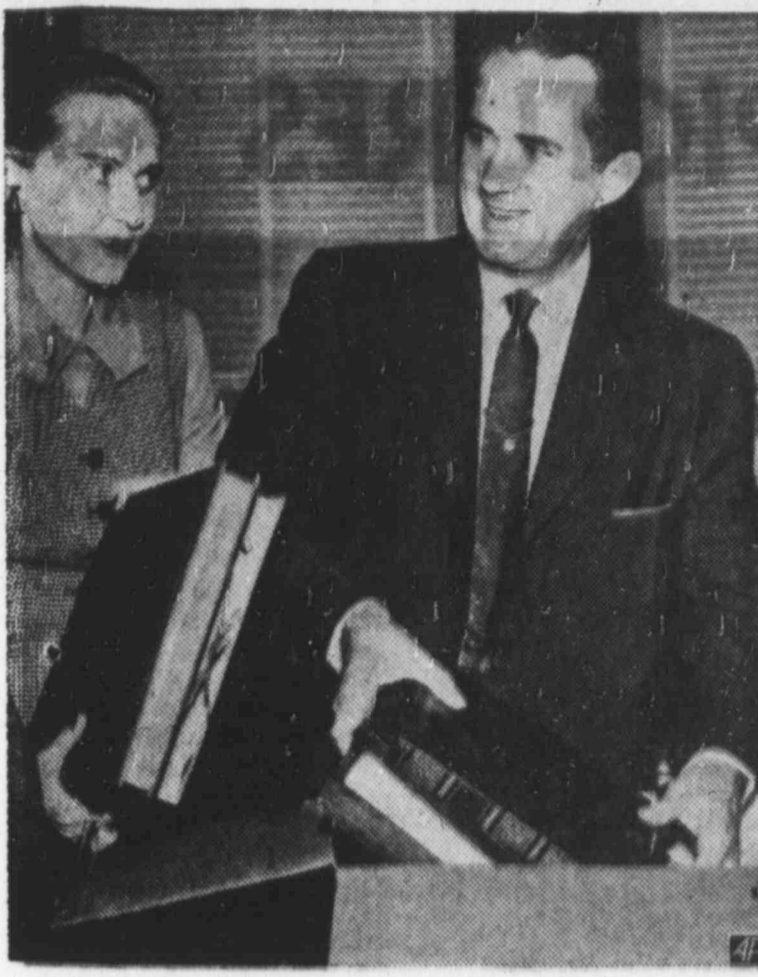

NEW YORK (AP)—Cotton was unchanged at 78 cents a bale lower at noon today. March 24-25 May 24-25, July 24-14.

PORT WORTH (AP)—Cattle 2,500; calves 600; steady; good to choice steers 15.00-16.00; common and medium 10.00-12.00; good to choice calves 15.00-18.00; common and medium 11.00-13.00; good to choice calves 14.0

locally assigned to antiaircraft defense. The Army said steps were being taken to recover any copies of the document which may have been distributed.

Allies Agree To Talks On Egyptian Canal Settlement

WASHINGTON (AP)—Britain and France were reported today to have agreed to a plan for indirect talks with Egypt on a Suez Canal settlement with U. N. Secretary General Dag Hammarskjold acting as intermediary. The Egyptian government refuses to meet face to face with British and French diplomats on the Suez problem. There is hope the discussions can be started within a few days, but no specific time has yet been fixed.

The United States would stay out of the talks, to be held in New York, but would be ready to use its influence with both sides to speed a settlement.

Under the plan, officials said, Hammarskjold would meet with the British and French to hear their views, then relay these views to the Egyptians, who would be in another room.

He would pass on their reaction to the British and French and continue to move back and forth between the two groups with the aim of drafting a settlement all could agree upon.

The starting point would be the six principles the parties agreed upon Oct. 18 in direct talks at the United Nations, before the British-French-Israeli attack on Egypt. The principles provide for un-

Attends Airliner Birth Via Radio

HONOLULU (AP)—A Honolulu doctor radioed instructions successfully to two stewardesses last night as a boy was born aboard a Transocean Air Lines plane en route to Honolulu from Oakland, Calif. Dr. Robert P. C. Ho said, "It was a routine delivery, except I wasn't there." Dr. Ho said the mother, Mrs. Lillian Palen of Honolulu, is the mother of four other children.

Meeting To Push Bus Integration Plan

The Associated Press
Plans for a stepped-up campaign to integrate buses in the South will be discussed in Atlanta this week by Negro leaders encouraged by a report the National Assn. for the Advancement of Colored People received more than a million dollars in receipts in 1956.

The Rev. Martin Luther King Jr. of Montgomery, Ala., last night called on Southern Negro leaders to attend a strategy meeting in Atlanta Thursday and Friday "in an effort to coordinate and spur the campaign for integrated transportation in the South."

"We have no moral choice, before God, but to delve deeper into the struggle," said King, leader of the 381-day Negro bus boycott which ended peacefully in Montgomery Dec. 21 with federally ordered bus integration.

"We are convinced that most white Southerners are prepared to accept integration as the law of the land," he said in a statement. "On the other hand, a small but willful minority, dedicated to violence, is resorting to threats, shootings, cross burnings and bombings."

The Rev. C. K. Steele of Tallahassee, Fla., and the Rev. F. L. Shuttlesworth of Birmingham, Ala., joined King in urging Negro leaders "from troubled areas all over the South" to attend. Both Steele and Shuttlesworth have been active in campaigns for integrated buses in their respective cities.

King said the meeting will be closed to the public but that a statement will be issued after it is over.

In New York, Roy Wilkins, NAACP executive secretary, said that court prosecution of the NAACP in some Southern cities and defiance of desegregation rulings stirred a record wave of "financial and moral support."

He told the organization's annual meeting that NAACP receipts hit a 1956 peak of more than a million dollars. He said the income came mostly in small contributions from thousands of individuals.

Thurgood Marshall, special counsel for the NAACP, said that the organization was going to continue to support legal efforts in the South and at the same time concentrate "on breaking down segregation in the North."

Marshall, who directs NAACP legal strategy, also said that "prejudiced state government officials" were forcing the NAACP to court to block "their unlawful purposes" to thwart advances in civil rights.

"Before long," Marshall told the meeting in New York, "we will have (legal) precedents enough to protect ourselves against all such moves. We will then be free to operate with the full benefit of the law of the land."

Other segregation developments included:
Pine Bluff, Ark.—A Negro foundry worker, William Dove, made an unsuccessful attempt to enroll his five children at the Dollarway School. Mrs. Hazel Watkins, school superintendent, said she told Dove the school "just hadn't planned" for integration this year and that she was anxious to avoid any incidents.

Tallahassee, Fla.—The City Commission approved a plan for bus drivers to issue tickets to riders assigning them to seats in an effort to get the buses running again on a segregated basis. Gov. Leroy Collins suspended bus service in the Florida capital by executive order Jan. 1 after an outbreak of violence.

Knoxville, Tenn.—Fourteen Negro children filed a petition in federal court seeking admission to two all-white secondary and two all-white elementary schools. The petition said the 11 girls and three boys were turned away in September.

Nashville, Tenn.—Gov. Frank Clement's legislative leaders introduced resolutions in the Tennessee General Assembly criticizing the U. S. Supreme Court's ban on segregated public schools. No action was taken on the resolutions immediately.

Evangelist

Buckner Fanning, 30-year-old Marine combat veteran who got his theological degree after World War II, is now being backed as the champion of evangelists. A group of businessmen from Texas, his native state, have formed the non-profit Buckner Fanning Evangelistic Foundation to boost his activity by nationwide publicity, planning and organization.

Coahoma Lions Collect Clothes
COAHOMA—The Lions Club is collecting clothing for needy children. Garments are wanted for youngsters between the ages of six and 14. Persons who have items to contribute should take them to the Coahoma Cleaners.

Bar Pushes Bills
AUSTIN (AP)—A \$50 a day pay for legislators, annual sessions of the Legislature and increased salaries for judges will be urged by the State Bar of Texas.

THIS IS THE BIG M FOR 1957

Styling from dream-cars

FAR BIGGER IN EVERY IMPORTANT DIMENSION—This year Mercury has grown bigger in every important dimension. Far more move-around comfort. For example, there's more headroom, more leg room, more shoulder room, more hip room.

action from sports cars

WIDEST RANGE AND CHOICE OF POWER IN MERCURY HISTORY—A 290-hp TURBOCHARGER V-8 engine is optional on all models. In the Montclair series the standard engine is a 255-hp Safety-Surge V-8 with a Power-Booster Fan that saves horsepower other cars waste. A 255-hp Safety-Surge V-8 is standard in the Monterey series. A special M-335 engine (335-hp) is available at extra cost in Monterey models equipped with standard transmissions.

price just above small cars

Never before has so much bigness and luxury cost so little. For this is the biggest Mercury you've ever seen. And although Mercury has moved up to a new size class, it has stayed in the same popular price class. It represents the biggest size increase—and the biggest value increase—in the industry. And Mercury introduces features you can't buy at any price in other cars. Mercury's new Dream-Car Design is Mercury's alone. It is sleek, daring, clean-cut—makes other cars look plump and old-fashioned. Mercury's exclusive Floating Ride is the finest combination of bump-smothering features ever put between you and the road. And you can get features like Keyboard Control—the most advanced automatic transmission control on any car. A power seat that "remembers" your favorite driving position at a touch of a dial. And Quadri-Beam headlights for a better pattern of illumination. Check the low price tags in our showroom. You'll find you can get a new Big M for little more down—or per month—than for the lowest price cars. And what a lot more you get!

Classes Start In Electronics At Jr. College

Two classes in electronics are in prospect at Howard County Junior College.

The first section of the fundamentals course in electronics began Monday evening and the second will be at 7 p.m. today in the Industrial Arts building. Dr. Marvin Baker, in charge of the adult education program, said that enrollment appeared heavy for one section. One class will meet from 7 p.m. to 10 p.m. on Monday and Wednesday, the other at the same hours on Tuesday and Thursday. Dick Hooper is the instructor.

Another class being launched is in citizenship, especially designed as an aid to wives of servicemen or any others studying to qualify for naturalization as an United States citizen. Miss Ina Mae McCullum will be the instructor for the course which will meet one night a week for four weeks.

Parliamentary procedure would be the target for another class which looks like a definite possibility, said Dr. Baker. This unit would be organized for club presidents, parliamentarians and others who are called on to preside over meetings. Such a course, Dr. Baker pointed out, would enable groups to accomplish a maximum of business within an allotted space of time.

There has been some inquiry on the part of women about a course on how to make draperies at home. Dr. Baker said that efforts would be made to offer such a course if there is a demand.

In fact, he invited any adult who is interested in special instruction in any subject to contact him at the college. Provided there are enough others interested in the same field, efforts will be made to organize a class in the subject, he said.

Ike Aide Pledges Aid To Cattlemen

PHOENIX, Ariz. (AP)—Secretary of the Interior Fred A. Seaton today promised that the Interior Department will cooperate "in any and all feasible emergency measures" to aid drought-stricken cattlemen.

In a speech prepared for delivery to the American National Cattlemen's Assn., Seaton said he was aware that federal agencies "occasionally have been accused of arbitrariness" in rulings on grazing rights.

"So far as the Department of Interior is concerned," Seaton said, "it is my intention to reduce these unfortunate occasions to the minimum and to have them rectified promptly when they come to my attention."

Big Spring (Texas) Herald, Tuesday, Jan. 8, 1957 9

"But what did I accomplish the last time I talked man to man with Sheldon... Except to give him a raise in his allowance."

E. Reich Promised Red Economic Help

MOSCOW (AP)—The Soviet Union has promised Communist East Germany more economic help and more control over Russian troops "temporarily" assigned to East German soil.

A communique signed last night at the Kremlin apparently did not go as far, however, as recent agreements on the Soviet forces stationed in Poland.

There was no suggestion, for example, that the East Berlin government would be given any say so on the number of Russian troops in East Germany and their movement about the country. This has been promised the Poles.

Instead the communique said an agreement on the Soviet forces in East Germany, to be concluded "shortly," would cover such matters as jurisdiction in "criminal cases and civil action, the use of housing and service premises occupied by Soviet military units, the use of lines and means of communication and means of transportation."

There also was no time limit set for the Soviets' stay in East Germany, something the Poles have not been told either.

(The East Berlin radio said Russia had pledged that its troops would not interfere in East Germany's internal affairs, but no such specific pledge was contained in the official text of the communique. Poland was given such a guarantee in an agreement

signed in Moscow in December.)

Signing of the communique completed three days of negotiations here between Soviet leaders and an East German delegation headed by Premier Otto Grotewohl. The talks took place in an atmosphere of "great friendship," the statement said.

On the economic side, the Soviet Union said it would grant East Germany during 1957 a credit of 340 million rubles (\$5 million dollars at Russia's official rate of exchange) in gold and free currencies for the purchase of "commodities needed by the national economy" of East Germany.

But politicians probed behind the reasons he gave and many of them thought they came up with a carefully drawn plan for Knowland to seek the California govern-

ment as a stepping stone for a renewed bid for the presidency.

To get the GOP governorship nomination Knowland probably would have to convince Republican Gov. Goodwin J. Knight that his best chance for political advancement lay in seeking to fill the Senate seat Knowland is vacating.

If Knight declined to be convinced, Knowland would have to face a primary battle with Knight if the senator chose to seek the nomination.

Knowland's announcement apparently caught Knight by surprise. He told newsmen in Sacramento, Calif., he didn't know what to make of it. He said he has no intention of running for the Senate but declined to say whether he would seek renomination to the governorship.

Some Knowland associates in Washington said they believed the senator had decided that if he wants to be president he will have to break the three-way knot that now exists over potential control of the hefty California delegation to the Republican convention four years from now.

As senator, he would have to deal with Knight or Nixon with the prospect that the delegation would be split two, or possibly three, ways. But as governor he would have disposed of Knight and probably could wrest the state's delegation away from Nixon, leaving the latter without a "home base."

Knowland filed for the GOP presidential nomination last year in several early primaries before Eisenhower announced his own second-term intentions, and the senator's friends say they don't think his desire for the post has lessened.

In California, Republican leader Clyde Thomas, attorney at law, First Nat'l Bank Building, Phone AM 4-4621.

Thomas, typewriter and office supply, has Royal Typewriters to fit any color scheme. Budget Priced.

Knowland Moving Into Position For 1960 Nomination Fight

WASHINGTON (AP)—Sen. Knowland (R-Calif.) appears to be moving himself toward a position where he can challenge Vice President Nixon and all other corners for 1960 GOP presidential nomination.

Knowland, the Senate's Republican leader, announced yesterday a carefully considered decision not to seek re-election to the Senate next year. His term expires in January 1958.

But he declined to eliminate himself as a possible contender for the Republican nomination for the California governorship in 1958. And neither would he close the door against another bid for the Republican presidential nomination.

Significantly, Knowland said he has "no plans" to relinquish his position as Republican leader during the two years remaining in his term. That job keeps him prominently in the public eye.

After first informing President Eisenhower and his GOP colleagues of his intentions, Knowland told a news conference that he is quitting the Senate to spend more time in California with his wife, three children, five grandchildren and elderly father.

He said he wants to become more active as assistant publisher of the Oakland Tribune, of which his father is publisher.

He replied only "No comment" to questions about whether he will seek the California governorship in 1958 or the presidential nomination in 1960.

But politicians probed behind the reasons he gave and many of them thought they came up with a carefully drawn plan for Knowland to seek the California govern-

ment as a stepping stone for a renewed bid for the presidency.

To get the GOP governorship nomination Knowland probably would have to convince Republican Gov. Goodwin J. Knight that his best chance for political advancement lay in seeking to fill the Senate seat Knowland is vacating.

If Knight declined to be convinced, Knowland would have to face a primary battle with Knight if the senator chose to seek the nomination.

Knowland's announcement apparently caught Knight by surprise. He told newsmen in Sacramento, Calif., he didn't know what to make of it. He said he has no intention of running for the Senate but declined to say whether he would seek renomination to the governorship.

Ben Ogden of Pampa, president of the association, said gasoline stocks now are 185 million barrels and could be safely reduced by 30 million barrels.

"Present oil export program to Europe resulting in accumulation of surplus gasoline at greatest rate in history... continuation of trend could set off disastrous nationwide gasoline price wars by spring," the telegram said.

Ben Ogden of Pampa, president of the association, said gasoline stocks now are 185 million barrels and could be safely reduced by 30 million barrels.

"Present oil export program to Europe resulting in accumulation of surplus gasoline at greatest rate in history... continuation of trend could set off disastrous nationwide gasoline price wars by spring," the telegram said.

Ben Ogden of Pampa, president of the association, said gasoline stocks now are 185 million barrels and could be safely reduced by 30 million barrels.

"Present oil export program to Europe resulting in accumulation of surplus gasoline at greatest rate in history... continuation of trend could set off disastrous nationwide gasoline price wars by spring," the telegram said.

Ben Ogden of Pampa, president of the association, said gasoline stocks now are 185 million barrels and could be safely reduced by 30 million barrels.

"Present oil export program to Europe resulting in accumulation of surplus gasoline at greatest rate in history... continuation of trend could set off disastrous nationwide gasoline price wars by spring," the telegram said.

ers were surprised, and Democrats talked with some gloom, of Knowland's decision to leave the Senate. Democratic Atty. Gen. Edmund G. Brown predicted that "the Republicans will have a good tussle among themselves during the next couple of years, and it will be good for the Democrats."

Within two hours of Knowland's announcement, California Controller Robert C. Kirkwood sent around a news release saying he will seek the Republican nomination for Knowland's Senate seat in 1958.

Giant S. S. United States holds Blue Ribbon for North Atlantic crossing—record time: 3 days, 10 hours, 40 minutes.

It takes
a GIANT
to bring
two worlds
together . . .

It takes a giant ship to bring the old and new worlds together. It takes a giant to bring products and prospects together, too. That giant is the newspaper, reaching into every city, every day.

Because the newspaper conveys all the news from around the world—and particularly from around the corner—readers are buying more newspapers than ever—more than 56,000,000 copies daily!

Because Americans read the newspaper for news of products, too, advertisers are buying more newspapers than ever. Last year, all advertisers invested a record \$3,087,800,000 in newspapers—more than was spent in radio, TV, magazines and outdoor combined!

In today's market, everyone—retailer, wholesaler, distributor and manufacturer—needs a giant to bring his products and prospects together. The newspaper will do the job economically, consistently, quickly.

All business is local . . . and so are all newspapers.

When you are engaged in conversation are you able to discuss all the current topics of interest?

If you are able to do this then you are probably a regular reader of the Big Spring Daily Herald.

Everyday, in the columns of The Herald, appear hundreds of news stories of interest to you and your friends.

When you subscribe regularly to The Herald you have at your fingertips the knowledge of all national, international and local happenings daily.

If you are not a Herald Subscriber . . . call the circulation department of The Herald today and have them to start delivering your Herald today . . . Dial AM 4-4331.

BUZ SAWYER

JUST NERVES, BARNEY, MY HUSBAND'S MAKING ANOTHER FLIGHT IN THAT ROCKET PLANE THIS MORNING.

WELL, NOW, MAYBE YOU SHOULDN'T BE TAKING A PLANE UP IF YOU'RE NERVOUS.

BUT I'VE GOT TO DO SOMETHING, BARNEY! I'LL GO AWAY IF I JUST SIT AROUND WAITING!

MEANWHILE THE DREAD, UNPREDICTABLE MOMENT WAS COME ONCE MORE... THE B-29 MAKES READY TO LAUNCH THE SKY WITCH.

31,000 FEET, SNEYER, ALL SET!

RODGE! LET 'ER GO.

DIXIE DUGAN

FIRST—I WISH TO THANK YOU FOR YOUR GENEROUS GESTURE.

—BEEN A LONG, LONG TIME SINCE I KNEW WHEN IT WAS THE HOLIDAY SEASON—OR CARED.

YOUR KINDNESS DESERVES A FULL EXPLANATION FOR THE TREATMENT YOU NO DOUBT RECEIVED FROM MY HELP.

HOW FAR DO YOU WANT TO GO?

SH—LET'S LISTEN!

NANCY

AUNT FRITZI... I LIKE OUR NEW MILK MAN.

HE'S MUCH MORE GENEROUS THAN OUR LAST ONE—

HE GIVES US MORE FOR OUR MONEY.

LFL ABNER

WEST CORNBALL OFFERED US \$100,000 TO ANNOUNCE HIS MARRIAGE. WAS BORN THERE?

SO WE'LL PUT UP THE STATUE, AND THE TOURIST MONEY WILL START ROLLING IN!

BUT, SUM—HE WAS BORN HERE!

OKAY—WE'LL ANNOUNCE THAT—IF YOU MAKE US A BETTER OFFER!

TH' TERMITES WIPED US OUT—WE GOT NOTHING TO OFFER HAWG!

OH, YES, YOU HAS!

BLONDIE

I DON'T KNOW, BUT IT'S SUPERBLY QUIET UPSTAIRS.

WHERE COOKIES?

SO.

COOKIE, I'VE TOLD YOU I DON'T WANT YOU TO USE MAKE-UP UNTIL YOU'RE SIXTEEN YEARS OF AGE.

BUT, MOTHER! YOU'RE ASKING ME TO WASTE THE BEST YEARS OF MY LIFE.

ANNIE ROONEY

SOFT MAZIE, REAL SOFT. J. K. FLING'S GUEST ROOM IS SOME DIFFERENT FROM THAT CRUMBY FURNISHED ROOM WE JUST LEFT.

YEAH, I CAN STAND IT. YOUR FRIEND WARNEY ISN'T HAPPY ABOUT OUR BEING HERE.

NEVER MIND THAT SUCKER! WE'RE INSIDE J. K. FLING'S APARTMENT—AND THAT'S ALL YOUR LITTLE BUB NEEDS TO FIGURE AN ANGLE TO TAKE HIM!

SURE, BUT IN YOUR ENTHUSIASM, DON'T FORGET WHY WE'RE HERE—TO MAKE LIKE LITTLE ANNIE'S PARENTS—FOR A WHOLE WEEK, YET!

YOU ARE SO RIGHT, M'LOVE. SO LET US GO FORTH AND MAKE LIKE SUCH A HAPPY MORNIA AND PORIA FOR HAVING RECOVERED OUR LOST CHILD THAT EVEN HARD-BOILED MR. FLING WILL BE DEWY-EYED.

SNUFFY SMITH

AUNT LOWEZEY—CAN I SLEEP UP IN MY TREE HOUSE TONIGHT?

GREAT BALLS O' FIRE! HAVE YE GONE SMACK-DAB OUT OF YORE MIND, JUSHUAD?

YE, DO YORE SLEEPIN' RIGHT HERE IN TH' HOUSE WHAR IT'S SAFE—

GRANDMA

YEP, THIS IS ABOUT THE BEST FLUDGE GRANDMA EVER MADE...

AN, GOLLY SHE'S IN TH' MOST GENEROUS MOOD TODAY!

DONALD DUCK

R.R. KING!

W. LOUIE! WANTA PLAY COPS 'N' ROBBERS?

SURE, GEE, THAT'S A SILLY PLACE FOR A NAR!

JOE PALOOKA

IT'S NO MUSTANE, KNOBBY DEAR... I KNEW IT HAD TO BE YOU THE FIRST MOMENT I SAW YOU. WE'LL BE MARRIED AS SOON AS POSSIBLE!

OH-BUT, MISS BLOBB—THERE'S SOME MISTAKE.

I KNOW I WON'T REGRET IT! MY—SUDDENLY YOU LOOK PALE.

OH, GET YOUR NERVE TONIC, DEARIE?

OH, YOGOSH! I WISH JOE AN' ANN WERE HERE... I GOTTA DO SOMETHIN' QUICK! WHEW!

SCORCHY SMITH

WHAT'S YOUR GAME, LUKE? WHO WAS HIDDEN OUT HERE?

NONE O' YER BUSINESS!

PERHAPS THE SHERIFF CAN FIND OUT MORE ABOUT THIS...

HE WON'T!

OAKY DOAKS

PRINCESS POMCHA! SIR OAKY DOAKS!

NEPHEW IS TRYING TO KILL ME WITH HIS SLINGSHOT!

BUT, SIR TERWILLIGER, YOU'RE WELL PROTECTED BY YOUR ARMOR!

WHEN SIR OAKY GETS BACK FROM THE DUCHY OF DEADHAM YOU OUGHT TO COMPLAIN TO HIM!

HE'S BACK NOW AND I DID COMPLAIN TO HIM!

YOU SAY OAKY IS BACK??

HMPH! I DON'T CARE WHERE THAT DOPE IS!

POGO

WELL, IF YOU'LL GIVE ME MY HAT, ALBERT, I'LL BE GON' HONEY.

LISTEN, I AIN'T NO GIRL, YOU DOG—BONE LIV' BOGGLE-HEADED KLUNK.

OH, IT'S AWFUL TO HEAR'S LADY CARRY'N ON—SWEARIN' LIKE THAT—BONKIN' SEE-GARS.

CORGS!

DRESSED UP IN THAT NIGHTIE AS YOU IS, I'S GOTTA ADMIT YOU IS PROBABLY A LADY! YOU GONNA HAPTA CHANGE ALL YOR HABITS—CUSSIN' AN' SEE-GARS GOTTA GO!

WHO KNOWS? SOME YOUNG INNOCENT CHAP MIGHT COME ALONG AN' BE CARRIED AWAY BY YOUR LINEARTALY BEAUTY... HE'LL ASK FO' YOR HAND AN' IT'S GOTTA SEE-GAR IN IT, OR IF YOU HAVO AN' IT'S GOTTA SEE-GAR IN IT, OR IF YOU HAVO AN' IT'S GOTTA SEE-GAR IN IT, OR IF YOU HAVO AN' IT'S GOTTA SEE-GAR IN IT.

DICKIE DARE

TAKE THIS TRAY TO THE CAPTAIN'S CABIN.

ABBY—THE CAPTAIN'S THE SPIDER AT THE CENTER OF THIS WEB.

COULD THIS BE THE BREAK I'M LOOKING FOR?

PUT THAT TRAY ON MY DESK, BOY—

—AND GET BACK TO WORK—WAIT, MISLAID MY CIGAR LIGHTER...

I SEE IT, SIR—

LITTLE SPORT

THE BOY WHO COULDN'T WAIT FOR AN OLD-FASHIONED SNOW STORM

Northern Areas Get Cold Air. Cold air spread across northern areas from western Montana into New England today and there was a general cooling from the Great Lakes region to the Gulf Coast.

C-C Directors Schedule Full Calendar For Start Of Year

Directors of the Chamber of Commerce lined up a busy month Monday as a starter for the new year. Besides electing officers and approving the appointment of an executive committee and committee coordinators and chairmen, the board firm dates for the SOS hot check warning system; endorsed Feb. 6 as the date for a dinner honoring Marshall Formby as a member of the State Highway Commission, and heard an announcement of a meeting of directors with the industrial foundation next Monday.

Witnesses Called. LAREDO (U-P) Dist. Atty. James Kazen of Laredo has subpoenaed 37 witnesses for a special court of inquiry opening in Zapata today, checking absentee voting.

Blast Hits Refinery

MONTREAL (U-P)—A series of explosions and a huge fire shook the Shell Oil of Canada refinery on the eastern outskirts of Montreal today. The blaze was reported "in check" two hours later, but smoke and flames were still pouring 200 feet into the air and the glow was visible 20 miles.

Uncle Ray: Bear's Pursuit Was Delayed By Mittens

By RAMON COFFMAN One day the captain of a whaling vessel decided to capture a polar bear alive. He landed on the coast of Greenland and laid down a long rope with a noose at one end. Inside the noose he placed a piece of white meat.

Instead of being frightened, the polar bear started to walk toward the man, and appeared to want to make a meal of him. Dropping the pike in his excitement, the man turned and started to run.
