

IF IT'S NEWS IN BOVINA, YOU'LL FIND IT IN THE BLADE.

The Bovina Blade

"In the Agricultural Center of Parmer County"

THE NEWSPAPER THAT WORKS FOR A BIGGER, BETTER BOVINA.

WEDNESDAY, AUGUST 20, 1958

BOVINA, TEXAS

VOLUME 4, NUMBER 5

The Blunt Edge

By LELAND BOYD

Most of The Blade's readers know that Editor Leland Boyd is on vacation. Rev. Jack Jeter offered a letter for publication in Leland's absence which we think is fitting to print with the editor's usual column.

While Leland and Bonnah are gone on a much needed vacation, I want to take advantage of his absence to say some things which I believe are long past due.

Whether you agree completely with our Editor all the time or not I think you will agree with me that he is doing a tremendous job with our paper, The Bovina Blade. I am convinced that he has dedicated his talents and the power of the printed page to a BIGGER and BETTER Bovina. The promotion and information of the paved streets, the sewer system, the water well, along with the up-to-date report of the progress of our area spells out a deserved "WELL DONE" to Leland Boyd.

The personal touches that fill The Blade certainly add to the anticipation of reading every inch of print.

Many of us do not realize the man hours that go into a good readable newspaper. The countless occasions to cover news stories by print and by picture would stagger one's imagination. And the variety of coverage would give someone like me a "split personality."

From accidents to weddings, from social functions to political problems, from funerals to festivals—all this means there must be a broad mind to report consistently on ALL these events.

So to a great editor, Leland Boyd, and a great paper, The Bovina Blade, may I join the citizens of Bovina in wishing both Leland and Bonnah a most refreshing vacation. And if all this bragging hasn't ruined him, may he return to do even a greater task—we need him.

Jack Jeter

Kindergarten Registration To Be Aug. 29

Mrs. Margaret Caldwell, owner and instructor of the Kiddie Land Kindergarten, announced Monday morning that final registration for classes will be Friday, August 29. The school will be in her home on Third Street. As there are facilities to take care of only ten students, Mrs. Caldwell urges parents to contact her immediately.

Mothers of students are asked to bring the children to the school Friday morning at 10 o'clock. There will be a get-acquainted and play period and mothers will be welcome to stay the whole morning.

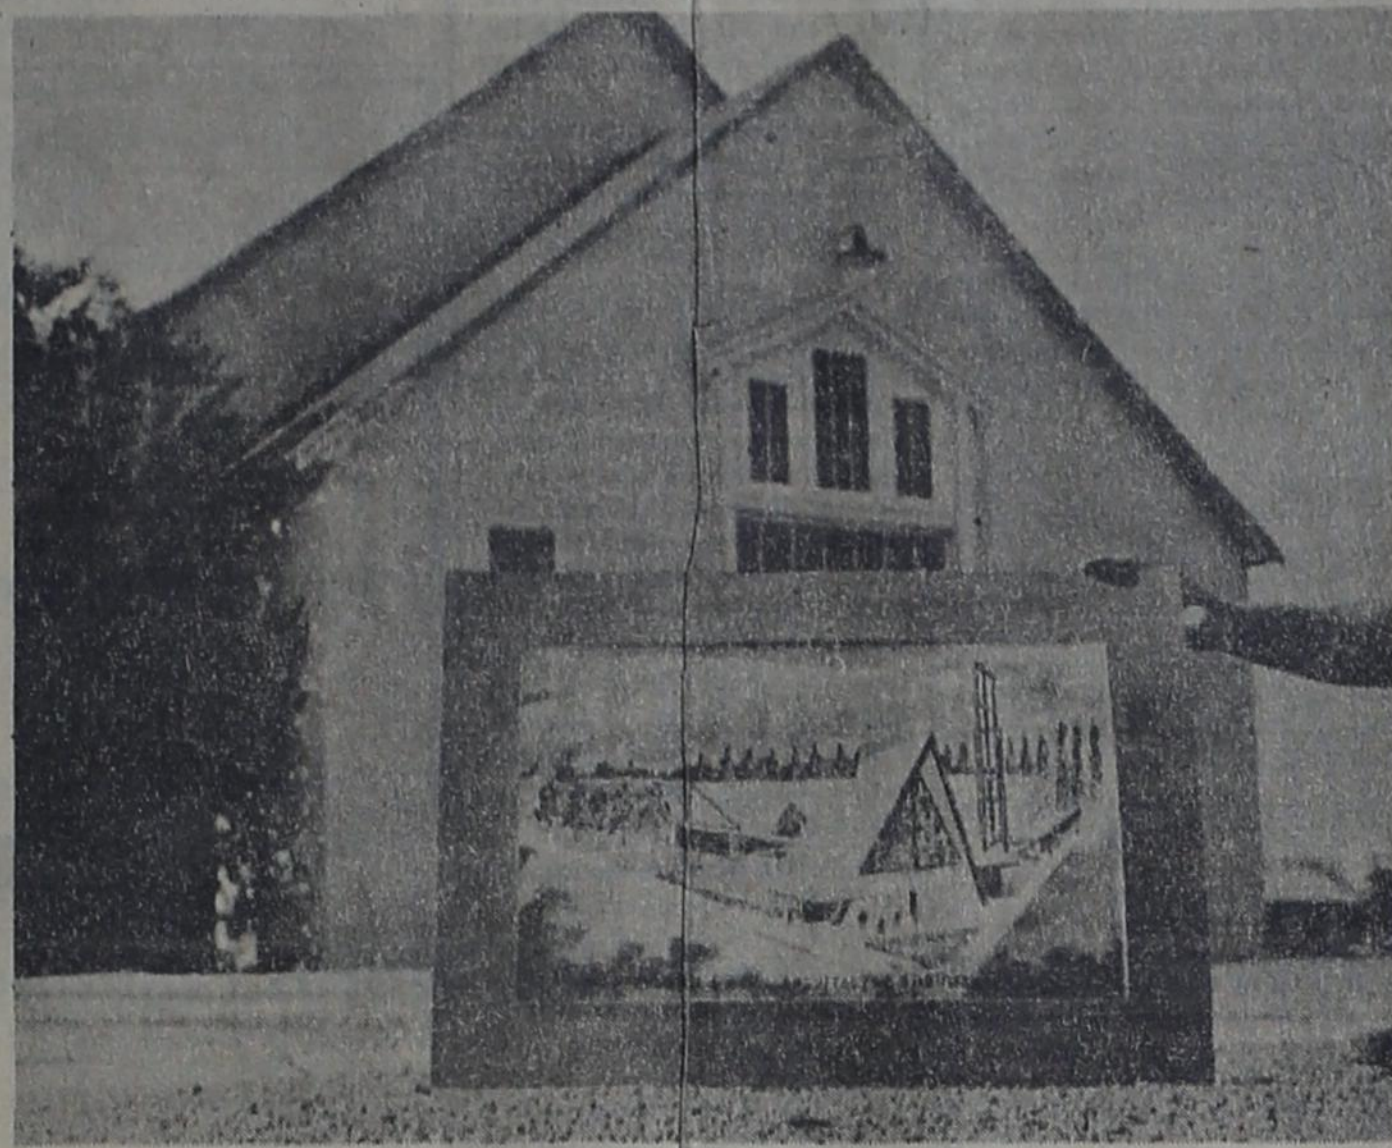

The school, reports Mrs. Caldwell, will open for formal classes Monday, September 1. Also, she stresses that the kindergarten will observe all holidays, throughout the year, that the public schools observe, for the convenience of parents with school-age children.

Mrs. Caldwell has operated her kindergarten in Bovina for a number of years. She has taken instruction from accredited kindergarten teachers and follows their recommendations closely. She is assisted by her daughter, Miss Rita Caldwell.

Lions To Sell Brooms Soon

Principal item of business for members of the Bovina Lions Thursday evening, was a discussion on the broom sale, and the date for the event was set for September 10, with an all-day canvass of the town.

The brooms are made by the Texas Lighthouse of the Blind and the local Lions annually sponsor local sales. Next meeting is August 28.

NEW AND OLD -- Pictured is the architect's drawing of the First Baptist Church's new building in the foreground. The present building in the background, will be removed and used for educational rooms or possibly a mission.

Bovina Baptists To Erect "Building Of Angles"

Members of the First Baptist Church of Bovina Wednesday night of last week approved architect's plans for building and additions costing about \$85,000.

The plans call for an auditorium seating 550 persons with modern architectural design, and addition of about 6,000 feet of classroom space for educational use.

Actual starting date of the building is indefinite. The plans were the first ones submitted to the church by a building planning committee composed of Don Murphy, J. W. Gooch, J. D. Kirkpatrick, Charles Hawkins, Arnold Hromas, and Al Kerby.

Starting date will be determined largely by progress of the finance committee including Roy Whisler, Henry Minter, A. L. Glasscock, Homer Kelley, and Leland Boyd.

Designed by Amarillo Architect Art Bond, the auditorium will be constructed on the present site of the church's auditorium. The present one, seating approximately 280, will be moved to the west side of the church's educational building, for use as additional space.

The new auditorium will be a "building of angles." The street entrance to the auditorium will be about 60 feet wide and angle to a width of about 50 feet at the front of the auditorium.

Roof will compose the larger portion of the auditorium, and will extend about 40 feet high at the rear of the auditorium. Another angle or slant will be formed by the roof when it is erected. The front will be about five feet

County Teachers To Attend Workshop

Approximately 130 teachers will meet in Bovina Thursday, August 28, for the initial Parmer County teachers workshop, planned as an annual affair in the future. Consultants from Lubbock, Austin and Portales will be on hand to aid the educators in their studies.

The workshop was planned during the summer by superintendents in the county, and Bovina was selected as the site of the sessions because of the central location, and adequate facilities.

Planners also urge all school board members of the four schools and anyone else who might be interested, to attend the workshops.

Three areas of discussion are planned. They include: "Improvement of the Instruction Program" with Dr. Berlie J. Fallon of Texas Tech as consultant. "Teacher Ethics and Public Relations" will be the subject directed by E. L. Galy-

lower than the par. Jack Jeter, pastor of the church, says that it will be the only building of its design in the immediate area. However, another building of similar structure has been built in Amarillo by another church.

At the business meeting of the church Wednesday night, members of the church discussed in detail the architect's plans. However, members of the church saw the picture of the building Sunday night, and amazement was expressed feeling of the people.

An one member expressed himself, "I have always wanted to attend church in a building of this type."

EDITOR AND WIFE VACATION THIS WEEK

Editor and Mrs. Leland Boyd are out of town this week, and as The Blade goes to press, should be enjoying a reunion of the Boyd family in Chilfin.

The Boyds left Bovina over the weekend and plan to return Thursday or Friday. They will be guests of his parents, Mr. and Mrs. Jack Boyd, and are also visiting with a sister of the local man and her family, Lt. Col. and Mrs. Charles Davis.

The Davis family has returned from Newfoundland and this is the first time Boyd has seen his sister in four years.

Band School In Session; Plan Instrument Display

"I'm very pleased with the pre-enrollment," stated W. Wayne Stevens, Bovina band instructor, at the conclusion of the first morning of pre-registration Monday. The band school will continue each day this week and next week, according to present plans.

Twenty-six students were enrolled Monday morning, and sessions are planned twice a day for two age groups. The advanced students, from seventh through eleventh grades, will meet from 9 to 11 each morning; and the beginners (fifth and sixth graders) will receive instruction from 1 until 3 each afternoon.

"I do want to stress that beginners are urged to attend," says Stevens, "so I can help them to select their instruments and start this summer." The advanced band will receive special instruction in marching.

Time for tryouts for band majorettes has not been set, and the drum major has not been named. The selections will be made during the summer band program however, Stevens adds.

Also on the agenda and of importance to parents of band students is a display of instruments planned for Thursday evening at the band hall, with a musical merchandise on hand to discuss instruments with parents. All parents are invited to come and talk to Stevens about instruments and to see the display. Time of the presentation will be 7-9 p.m.

Stevens especially urges parents of children who will be in the fifth grade, to take an interest in the band at this time.

"The fifth grade is the opportune time for youngsters to begin learning to play a band instrument," he adds. He also feels that it is important for a student to own his instrument if possible.

Stevens feels that many potential students are on vacation and others are waiting on scheduling of classes; therefore, there will probably be several to register later. The Bovina Band boasted 47 in the marching band last year.

The present school not only helps the student, but gives the band director an opportunity to work up a program for the first appearance of the marching band, which will probably be during the first football game of the season September 5 with Ft. Sumner on the local field.

Tuesday, plans were to check out uniforms and instruments, with the young people enrolled in the school receiving first choice on the items. "If a student wishes to enroll late, he may," says Stevens, and "uniforms and instruments will be checked out to the students at the instructor's convenience."

Time for tryouts for band majorettes has not been set, and the drum major has not been named. The selections will be made during the summer band program however, Stevens adds.

Also on the agenda and of importance to parents of band students is a display of instruments planned for Thursday evening at the band hall, with a musical merchandise on hand to discuss instruments with parents. All parents are invited to come and talk to Stevens about instruments and to see the display. Time of the presentation will be 7-9 p.m.

Stevens especially urges parents of children who will be in the fifth grade, to take an interest in the band at this time.

"The fifth grade is the opportune time for youngsters to begin learning to play a band instrument," he adds. He also feels that it is important for a student to own his instrument if possible.

23 Teachers Hired; One Vacancy Remains

One vacancy still remains in the high school faculty of Bovina Schools, as officials make final plans for the beginning of the 1958-59 term. In the meantime, 14 instructors are ready to begin duties in the lower grades and nine educators are contracted to teach in high school, says Warren Morton, superintendent, this week.

Still unhired is a vocational homemaker instructor to fill the vacancy left by Mrs. J. W. Whelan, who moved to Farmington.

Six new faces will be seen behind the teacher's desks in grade school this year; and two of the high school faculty members will be new at Bovina. One of the new teachers did practice teaching in the local school, however.

One extra section in the grades is to be added this year in the sixth grade. This will make two sections in all the lower grades. Teachers and the grades they will teach are: Mrs. Leola Williams and Miss Lillian Fisher, first grades; Mrs. Myrna Hammonds and Mrs. Davis Edens, second; Mrs. M. H. Laney and Mrs. Bonnah Boyd, third; Mrs. Hazel Rigdon and Mrs. Dorothy Donaldson, fourth;

Wess Smith and Mrs. Eunice Thornton, fifth; Mrs. Floa Terry and M. H. Laney, sixth; and Cecil Dykes, seventh. Miss Grace Paul is elementary principal, and will also teach seventh grade.

In the high school, Don Stark will be instructor in math and science; Doug Teter, commercial subjects; Bobby Wills, coach and history; Roy A. Crawford, vocational agriculture; Mrs. Louelle Foster, English; Wayne Stevens, music and band; Charles Don Smith, physical education; Roy C. Whisler, high school principal and Warren Morton, superintendent.

The new instructors have various backgrounds. Mrs. Davis Edens, second grade, is the wife of the Methodist pastor of Bovina, and has taught at Rochester. She holds a BA degree in elementary education. Mrs. Alpha Laney, third grade, taught at Lazbuddie last year, and has attended college at Southeastern Teachers College in Durant, Okla. She is working on her masters degree at the college this summer. She and her husband, who will also teach here, have two sons who are in college.

Mrs. Bonnah Boyd, third grade, completed her BA degree in elementary education with high honors, from North Texas State College in Denton in January. This will be her first teaching position, although she did substitute teaching in Bovina last year. She is the wife of the editor of Bovina Blade.

Wess Smith, fifth grade, has taught for the past nine years at Ada, Okla., in the elementary grades. He has also been in charge of physical education in junior high there, and will also work in that department in Bovina. He holds a BA degree.

M. H. Laney, sixth grade, also taught at Lazbuddie last year and holds a BA degree from Southeastern Teachers College of Durant.

Cecil Dykes, who last taught in Texico as vocational agriculture teacher, is now owner of Farwell Variety in Farwell. Morton says the Dykes family plans to move to Bovina. They now reside in Clovis. Dykes received his degree at San Marcos.

Don Stark, who will be instructor in science and math in high school, is no stranger in the community. He was graduated from Eastern New Mexico University in May of this year but has lived in Bovina. He did practice teaching in the local school.

Mrs. Louelle Foster, new English teacher, holds a BA in English from McMurry in Abilene. She has previously served as house mother in a dormitory at McMurry, and at one time, taught kindergarten classes in Farwell. She has a son and daughter in college and two married daughters.

Mrs. Eugene Esell will be in charge of the school cafeteria, and assisting her will be Mrs. Mae Hopingardner, Mrs. Opal Vines, Mrs. Earl Derrick, and Mrs. Helen Wasson.

Four bus drivers have been hired, with two still to be named. Already signed as drivers are Frank Wilson, J. D. Stevens, Cecil Dykes and Fern Kelso.

Year and holds a BA degree from Southeastern Teachers College of Durant.

Cecil Dykes, who last taught in Texico as vocational agriculture teacher, is now owner of Farwell Variety in Farwell. Morton says the Dykes family plans to move to Bovina. They now reside in Clovis. Dykes received his degree at San Marcos.

Officials Predict 100 Percent Vote

Interest in the second Democratic Primary election, on the local scene, is high this week, as the time draws near for voting on a Bovina commissioner and also for a county judge, in run-off races.

In the July primary, "we only lacked four votes having a 100 per cent vote of the poll tax list," says O. W. Rhinehart, Bovina precinct chairman, and some local observers feel that a 100 per cent vote is possible this time. Bovina poll tax list tallies 400 and 396 votes were cast in July.

Piano Classes To Begin Soon

Mrs. Margaret Caldwell announced the first of the week that her piano instruction classes will begin the first week in September. She asks that all who are interested in taking piano lessons this fall please register as soon as possible so as to be able to choose the most convenient time for their lessons. She accepts adult as well as children students. Mrs. Caldwell also emphasizes that anyone wishing state credit for their piano lessons must register immediately so she can get the required forms from the state. She says also that the Music Climbers Club will be reorganized this fall.

Mrs. Turner Is WSCS Program Chairman Tuesday

Mrs. George Turner was in charge of the program titled "My Life in the March of Missions" when members of the Woman's Society of Christian Service of the Methodist Church met last Tuesday. The meeting opened at 12:30 p.m., with the regular covered dish luncheon, followed later in the afternoon by the program. The worship part of the program was opened with a devotional, led by Mrs. E. M. Ware. Mrs. Turner then introduced the subject of her program and also introduced those who would assist her. Mrs. Wilbur Charles and

Miss Barbara Rea told of the responsibilities of a deaconess in Christian work in the form of a dialogue discussion between a deaconess and her niece. Mrs. John Dixon discussed the work, responsibilities and opportunities offered to a deaconess. Mrs. Warren Morton, president of the organization, presided at a business meeting following the program. Reports were given by Mrs. Rouel Barron, Mrs. Billie Sudderth and Miss Rea on their recent trip to Lubbock. The three attended an annual School of Missions last month.

Mrs. Sudderth also announced that the annual seminar will be Thursday at the Olton Methodist Church. At the seminar each year, all who are interested are introduced to the various studies which will be available to them for the next year. Members who wish to make the trip will meet in the morning at the local church and they will go as a group. Mrs. Davis Edens reports that it will be an all-day meeting and lunch will be provided by the host church.

Attending the Tuesday meeting were Mrs. Morton, Mrs. Frank Hastings, Mrs. Sudderth, Mrs. G. A. Bandy, Mrs. T. J. Hopingardner, Mrs. Barron, Mrs. Mabel Newberry, Mrs. Ware, Mrs. Dixon, Mrs. Turner, Mrs. Wilbur Charles, Miss Rea and Miss Patsy Richards.

15 Men Attend Layman Retreat

Fifteen local men attended a twelfth annual Layman Retreat at Ceta Canyon recently. The retreat, for men of the Methodist churches of the Northwest Texas Methodist Conference, was August 8-10.

For the 3-day meeting, at which study, worship, inspiration and fellowship were featured, Ray H. Nichols of Vernon presided. He is conference lay leader and assisting him were two speakers of national renown. Dr. Roy L. Smith of San Diego, Calif., former editor of the Christian Advocate, and R. J. Genins of Chicago, Ill., former publishing agent, spoke at group meetings. In the recreational department, swimming was a highlight of the retreat.

Attending from Bovina were Bedford Caldwell, Vernon Estes, H. J. Charles, J. T. Hammonds, Gene Rea, Warren Morton, W. E. Williams, Mark Charles and Billie Sudderth. Others were John Dixon, Alvin Farrell, Wilbur Charles, I. W. Quickel, L. M. Grissom and Rev. Davis Edens.

With Parents

Visiting this week in the home of Mr. and Mrs. T. J. Hopingardner are two of their daughters and families. Arriving Saturday and planning to stay until the latter part of the week are Mrs. George Whitesides and children, Wilda and Gary, of Odessa and Mrs. Bob Black and daughters of Denver City. Mrs. Whitesides is the former Gladys Hopingardner and Mrs. Black is the former Dortha Hopingardner.

Visiting this week in New Mexico are Mr. and Mrs. Roy Hawkins and Mrs. Jesse Vestal. The local people are guests in the home of Mr. and Mrs. Ewin Norton of Aztec. Mrs. Norton is a daughter of Mrs. Vestal.

HD CLUB MEETS WITH MRS. BERNARD

The home of Mrs. Don Bernard was the site of a regular, semi-monthly meeting of the Bovina Good Neighbor Home Demonstration Club Friday afternoon of last week. The group gathered about 1:30 for a covered dish salad luncheon, followed by a business meeting. Mrs. W. E. Sikes, president, presided and Mrs. Mabel Newberry gave a report on an art workshop which she recently attended.

Mrs. Sikes appointed a nominating committee, made up of Mrs. T. J. Hopingardner, Mrs. John Sikes and Mrs. Howard Looney. They will make their report at the next meeting of the organization and officers for the coming year will be elected.

Program for the day was on jewelry making. Mrs. G. A. Whitesides, a guest, showed the members the art of setting stones into jewelry findings. Each member took part

on the program.

Following the program, Mrs. Bernard was honored with a surprise farewell shower. She and her family are moving to Clovis the latter part of this week. Secret pal gifts were also distributed.

Those attending were Mrs. W. E. Sikes, Mrs. John Sikes, Mrs. Alfred Mills, Mrs. Newberry, Mrs. Stacy Queen, Mrs. J. A. Taylor, Mrs. J. D. Stevens, Mrs. Earl Dean Boyd, Mrs. Looney and the hostess. Guests for the afternoon were Mrs. Whitesides and Mrs. Bill Denney.

Next regular meeting of the club will be September 5 in the home of Mrs. D. H. Wilkerson.

A social for the members and their families was also planned during the business session. The social will be in the city park Friday evening.

My experience and observation has been that those who promise the most do the least—Selected

ATHLETES HONORED AT PARTY FRIDAY

A party for Bovina High School students who lettered in athletics last year and will be returning to school this fall was Friday evening, August 15, in the home of Mr. and Mrs. Charles D. Smith. Co-hosts for the evening were Mr. and Mrs. Bobby Willis. Willis and Smith are coaches of the local teams.

Refreshments of watermelon, homemade ice cream, and cookies were served. The evening was spent playing volleyball.

Students attending were Joy Redden, Joan Kay Ezell, Nancy Cumpston, Leslie Stevenson, Arlene Clayton, Kay Hartzog, Celia Berry, Mildred Young, Nickie Wolfel, Barbara Taylor and Virginia Embree.

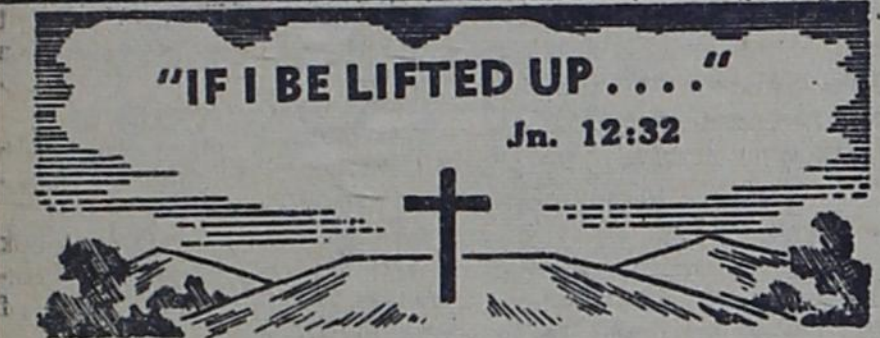

Others were Kent Glasscock, Ronnie Isham, Ferman Kelso, James Lawlis, Dwayne Rea, Jerry Barron, John Lorenz, Arnold Kriegel, Don Caldwell, James Clayton, Roger Ezell, John Lynn Riddle, Tommy Taylor and Jerry Wright.

FAMILY REUNION IN MOORE HOME

The home of Mr. and Mrs. L. C. Moore was the site of a reunion of the Moore family last weekend. Arriving Thursday for four days were his three sisters, Mrs. Nellie Goss, Mrs. Beatrice Winkelman and Mrs. Mary Kee, all of Fort Worth, and a niece,

Miss Darlene Kee of El Paso. Arriving Sunday for the day with the family were Moore's brother and wife, Mr. and Mrs. Jess Moore and their niece, Mrs. Hubert Love, all of Tulsa. This is the first time in several years that the family has been together.

"IF I BE LIFTED UP . . ."

Jn. 12:32

CHOOSING THE BEST

"Abram dwelled in the land of Canaan, and Lot dwelled in the cities of the plain, and pitched his tent toward Sodom." (Gen. 13:12)

There seemed little implicat on when Lot journeyed toward Sodom what great disaster should come upon him and his. Possibly laughing up his sleeve at the simpleton Abram who declared, "Is not the whole land before thee? Separate thyself, I pray thee from me; if thou wilt take the left hand, then I will go to the right." (Gen. 13:9) Yes, didn't I choose rightly? I beheld all the plain of Jordan, that it was well watered everywhere—even as the garden of the Lord" (Gen. 13:10). My flocks will not want for water nor grass, my family will be well provided, I will lack for nothing. What person would want the rocky hills and rough country of Abram? So must have been the reasoning of Lot as he chose the best.

Abram, humble and peace loving, chose what seemed the scanty and impoverished part of Canaan generously allowing Lot his choice. Abram, a man of faith, had never considered the selfish motives entertained by his nephew. Abram's trust in God for livelihood is an example to all generations.

Lot's choosing the best within his own eyes cost him his possessions, his wife, and ended in a sordid disgraceful life whose record will be known from everlasting until everlasting. Truly "Whatsoever a man soweth, that shall he also reap."

Abram received blessings and honors that shall be forevermore because he as other faithful, "confessed that they were strangers and pilgrims on the earth." He, "loved not the world, neither the things in the world" but as Moses, "Choosing rather to suffer afflictions with the people of God, than to enjoy the pleasures of sin for a season." Abram chose God and Lot chose Mammon.

To often men choose to throw away every hope of heaven for themselves, their families, their all to make the ALMIGHTY DOLLAR. They spare not anything to live comfortably and have the very best that wealth can provide for their physical comforts. They neglect nothing that will gratify their bodies and those of their children BUT ARE AS NAKED SPIRITUALLY AS SODOM AND GOMORRAH. Yes, allowing their families to shipwreck upon the rocks of immorality, their possessions to become idols, their lives monuments to kinship with Lot. A covetous and ruthless existence that can only lead to utter ruin.

My friend, are you choosing the path of Lot? Are you a living testimony to a covetous and wasted life? A travel that ends in Sodom and sure death? If you are, turn O sinner to Christ from your evil ways. Obey the gospel today and lead your family or your friends to heaven, the home of the soul.

CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT THE GENERAL ELECTION ON NOVEMBER 4, 1958.

SJR #4—Number Seven on the Ballot.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958.

HOUSE JOINT RESOLUTION NO. 17 proposing an amendment to the Constitution of the State of Texas, to be added thereto a new section to be known as Section 66, to provide that the Legislature shall have authority to provide a system of retirement and disability pensions to certain retiring Texas Rangers and their widows; stating the maximum of such pension; and providing a fund from which such pensions may be paid.

DE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. Article XVI of the Constitution of the State of Texas, shall be amended by adding thereto a new Section 66, to read as follows: "Section 66. The Legislature shall have authority to provide for a system of retirement and disability pensions for retiring Texas Rangers who have not been eligible at any time for membership in the Employees Retirement System of Texas as that retirement system was established by Chapter 352, Acts of the Fifth Legislature, Regular Session, 1947, and who have had as much as two (2) years service as a Texas Ranger, and to their widows; providing that no pension shall exceed Eighty Dollars (\$80) per month to any

such Texas Ranger or his widow, provided that such widow was legally married prior to January 1, 1957, to a Texas Ranger qualifying for such pension. "These pensions may be paid only from the special fund created by Section 17, Article VII for a payment of pensions for services in the Confederate army and navy, frontier organizations and the militia of the State of Texas, and for widows of such soldiers serving in said armies, navies, organizations or militia."

Sec. 2. The foregoing constitutional amendment shall be submitted to the vote of the qualified voters of this State at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1958, at which election all ballots shall have printed thereon: "FOR the Constitutional Amendment to the Constitution authorizing the Legislature to make appropriations and establish procedure for advertising the historical, natural, agricultural, industrial, educational, recreational and other resources of Texas."

CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT THE GENERAL ELECTION ON NOVEMBER 4, 1958.

HJR #17—Number Six on the Ballot.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958.

«The High Plains Farm and Home»

Cantaloupes Bright Spot In Vegetable Production

Cantaloupes, a new and attention-getting entry into Parmer County agriculture, are currently the only bright spot in the area's vegetable picture.

Promoted by Gateway Produce Company, which built its shed in Bovina this spring, the more than 600 acres of cantaloupes in the central part of the county are rolling to market at a good pace.

Prices, which started off at less than \$3 a crate, generally considered the break-even point, have now ebbed to between \$3.50 and \$4, depending on the size of the melons.

Generally, anything over \$3 is considered satisfactory, and with the good picks that are indicated for most farms, this will result in the melons being a profitable crop for farmers this year. The pre-harvest yield estimate of 200 crates an acre has been upped slightly. From 225 to 250 is expected to be a more accurate figure.

Bovina area growers, in getting into cantaloupes for the first time, had some trouble with the weather earlier in the season, but it has been cooperating with them nicely during the past two weeks, insuring good ripening conditions: hot and dry. They have also aided harvesting operations, which have continued uninterrupted. The Bovina deal is now at its peak of activity and will continue active for another week or 10 days unless weather disrupts the pattern.

All cantaloupes from Bovina are being moved out by

refrigerated truck.

Gateway is also ready to receive a smaller acreage of bell peppers—38 in all, from several area farms. Growing peppers this year are Sammy Sudderth, Arlin Hartzog, Billy Sudderth, Don Garrett, and Doyle Elliott.

Harvesting is expected to begin this weekend, and Otto Ables, Gateway shed manager at Bovina, says "Prospects are very good" for the bell pepper market.

The second big deal for Gateway will open "by September the first—possibly earlier," according to Ables. That will be when the more than 300 acres of tomatoes start rolling into the shed.

The tomato harvest is supposed to pick up about where cantaloupes leave off, but there may be some overlapping this year.

In other good-sized acreage vegetable deals, things were not so bright this week. Potatoes, which started at slightly over \$3 to open the season, have been sliding ever since the first loads came in.

The price is now down to \$1.65 a hundred "when you can sell a load," reports John O'Haughty, salesman for Friona Growers and Shippers, where the area's biggest potato deal is.

Rough estimates place the remaining Friona potato acreage at about 150, which is something less than a fourth of the original plantings. Not only is the price at a very low point, but the demand is weak, also, and shipments are being made very spottily.

"The potato market is down all over the country," says O'Haughty. "Some people think that we get poor prices while everybody else gets good prices, but it just isn't so." He furnished market quotations from a trade publication on points all across the nation to prove his point. Very few were as much as \$2.

The salesman does not see any prospect for the markets to improve before the Friona digging is over, either. All of the country is in production.

The first carrots were due to be dug Tuesday of this week, and the market for them also appeared to be down considerably. O'Haughty expects prices to open at about \$25 a ton. Last year, the carrot market opened at about \$45 a ton for this area.

This is not unexpected. Last year was an exceptional one for carrot growers. Demand and prices continued high all season long and carrots proved to be the leading money-maker among area vegetables.

A big jump in carrot acreage, especially on the High Plains, was expected on that account. Reports had it that carrot acreage would double or triple with ease, but the belief now is that many farmers had difficulty in getting stands and the volume may not be so great as had previously been thought. There are about 500 acres around Friona.

At any rate, \$25 a ton is considered only a "fair" price for the producers. If any money is made at that price, it is likely to be the result of high production instead of the market. There are no estimates on the yield prospects of carrots as yet. There should be by next week.

A CREW OF MEXICAN NATIONALIST farm workers is busy with harvesting the Bovina area cantaloupes. They pick the melons from the vines, put them in a satchel, and take the filled satchels to a truck in the center of the patch. The J. B. Sudderth farm is the scene.

At Friona, cabbage cutting began about 10 days ago. The leafy vegetable is bringing about \$27.50 a ton, which is not too bad, if enough tonnage can be obtained from the fields.

Growers are hoping for three cuttings.

The tail end of the onion harvest is coming at Friona, with about 30 acres left in the ground. Current prices are about \$1.40, which is unsatisfactory. However, O'Haughty says, "I look for the market to strengthen." He says the Hereford onion deal is about played out, which could help Friona at the last of the season.

Onions, like potatoes, have had pretty much of a dismal year. The onions still left at Friona are sweet Spanish.

Lettuce, the High Plains late crop, will not be due until early October, usually just before the first killing frost. Both Friona and Bovina will have lettuce this year, the combined acreage being somewhere around 600.

The market on lettuce just now is very poor. However, so much could happen between now and October that this is not necessarily an ill omen. All in all, the vegetable picture is weak to fair in the Parmer County area, with the single exception at this time being cantaloupes.

Maximum Payment Rates Different In New Program

The Conservation Reserve Program (the 5 and 10 year contract program) has been changed for producers who will enter land under contract for the first time beginning with crop year 1959 in that no maximum payment rate is established for all farms in the county as has been true in the past.

Instead, there will be a maximum payment rate established for a farm upon the request of a producer who is interested in participating in the program, announces the county ASC office.

There will be two maximum payment rates established for a farm. One maximum rate will apply if only a part of the eligible land in a farm is to be placed in the Conservation Reserve. The second maximum payment rate will be 10 per cent higher and will apply where all of the eligible land in the farm is to be placed in the Conservation Reserve for 5 or 10 years.

The annual payment rate previously established for land already under Conservation Reserve Contract will remain unchanged.

The basic rate for Parmer County is \$12 per acre. The maximum rate for a farm can, under no circumstances, exceed 150 per cent of the county basic rate, nor can it exceed 20 per cent of the

estimated value of the land. The county committee will estimate the value of the land on each farm.

Physical improvements such as houses, barns, fences or irrigation facilities will not be taken into consideration in estimating the value of the land on a farm.

Any person who feels that he may be interested in participating in the program must apply to have a maximum payment rate established on the farm. This application must be completed prior to September 26. Employees of the ASC office will assist producers in filing this application.

See Stan
Parmer County
Pump Company
Friona

4-H Boys Study Grain Marketing

Producers who have filed an application for establishment of maximum payment rate will be notified of this rate shortly after September 26, and if interested in participating will be afforded the opportunity to offer land and apply for a contract on such land. This offer and application for contract must be completed and filed with the county ASC office not later than October 17, says Prentice Mills, ASC office manager.

As soon as possible after October 17, the county committee will determine which contract offers are acceptable and applicants will be notified as to whether or not a contract may be entered into.

This program is not designed to cause irrigated farm land to come under contract and it is not anticipated that payment rates will be such that cause a farmer to be inclined to retire irrigated land from production, Mills says.

The aim of this program is to try to encourage the return of marginal farmland to grass; in other words the aim is to put land back in grass which probably never should have been placed in cultivation in the first place.

Producers who are interested in participating in this program are advised to call at the ASC office for information relative to their farm.

(Editor's note: Following is a report written by Cooper Young of the Lazbuddie 4-H Club on a recent field trip made by a group of 4-H members.)

Eleven 4-H boys were accompanied by three adult leaders and County Agent Joe Jones to Amarillo Thursday, August 14. Purpose of the trip was to learn more about grain marketing.

We first gathered in the Petroleum building where introductions were made by Knox Parr, district agent. Bill Nelson, executive secretary of Grain Sorghum Producers Assn., told us the importance of grain marketing.

Frank Phares, assistant manager of Producers Grain Corporation, told us how to interpret market reports.

We then had lunch at a restaurant. Our host was the Amarillo Grain Exchange.

After lunch we heard a talk by Richard Chitwood of Lazbuddie on the importance of the county elevator.

The afternoon tour took in PGC, Amarillo Grain Exchange and Mead's Bakery.

Boys attending from Parmer County were Chitwood, Dale Guber, Dickie Clayton, Danny Murphy, Randy Price, Gary Beauchamp, Johnny Mabry, Barry McCuan, Gary Renner, Ronnie Proctor, and Cooper Young.

Leaders were Tom Beauchamp, Ralph Price, Dee Chitwood and Jones.

We all had a very interesting and educational time.

NEWS

"The Place Where Most People Trade" Friona, Texas Wednesday, August 20, 1958

We've been lucky this week. Two friends sent us Texas jokes. Ethel Ruth Spring, visiting in the east, read this joke in the Chicago paper and sent it along to us. A Texas lad rushed home from kindergarten and insisted that his mother buy him a set of pistols, holsters, and a gun belt.

"Whatever for?" she asked. "You're not going to tell me you need them for school?" "Yes I do," he replied. Teacher said tomorrow she's going to teach us to draw."

The ideal travel car for people who are going places is Oldsmobile—gives you an extra measure of traveling pleasure. You, too, can afford an Oldsmobile.

Water shortage is becoming our nation's number one headache. Not because there is less rain and snow, but because we use more and more water. Since 1900 our population has doubled but our water consumption has more than quadrupled. Industrial users of water take 46% of our nation's supply; agriculture uses another 46% and domestic users take 8%. Water is also required for recreational facilities and for continuance of wildlife and fish resources. Our nation is seeking a solution to its water problem.

The Myer ditcher with rear screws for width of ditch control and front wheel operated screw for depth control will hitch direct to tractor drawbar for making field ditches. Ask us for a free demonstration.

Our John Bill is with the H. H. Hortons in Florida for a couple of weeks. When we talked with him the other day he said there was plenty of water but no fish.

Be sure your binder is ready for the heavy work ahead. We have plenty of genuine IH binder parts, knife clips, wear plates, knife heads, mower shoe soles, mower guards and guard bolts.

The Bill Sheehans are gone again—to Chicago. The J. T. Gees are spending a few days in the New Mexico mountains; the Sloan Osborns and Roy Clementses are at Tres Ritos for a few days; and Wesley Barnett and Phillip Weatherly spent the weekend at Red River. Mrs. Mabelle Hartwell is visiting her daughter in Philadelphia.

McCormick baler twine is made for high speed baling and rough handling. Tops in quality. Costs less per tie.

In 1956 the average family spent \$299 toward purchasing a car; \$154 for gasoline and motor oil; \$21 for tires and tubes; \$8 for spark plugs, batteries, and oil filters; and \$109 for other auto items. The average family is not a Texas family, their expenses are almost triple that of the nation's average.

Have you seen the McCormick manure spreader? Here's the new manure spreader built to take slam bang tractor loading in stride. Come in and see this spreader soon.

Our parts department is the most complete on the Golden Spread. Genuine IH parts give unexcelled quality and precision fit. For parts call 2091.

Our other Texas joke comes from Robert Horton, who lives in Rome, Georgia, but works in Alabama and has visited several times in Friona. "A Texan doesn't lie when he moves his feet, hands or head—only when he moves his mouth."

L. R. Dilger was back on his old job again last week. He was delivery man for Reed's Cleaners while the Reeds were out of town.

How are you set for the big hauling harvest season coming up? We have some excellent buys in new tandem trailers.

The happiest person we met this week was Mrs. Jael Wilhelm, only lately from Germany. At the shower for her, given last week at the Howard Mayfield home Monday, she was simply overcome by friendly neighbors saying, "Never, never does this happen at home" and saying it in German since she doesn't speak English. We nominate for a brave lady.

See it now! Biggest capacity ever! New McCormick cotton stripper. Strip up to 23 acres in a single day. Continuous cleaning to wagon—you market cleaner cotton. Ask about our finance plan.

A fresher car
Thunderbird-styled to stay in style
Inside or out, the 58 Ford has the distinctive Thunderbird touch. Power-Flow hood, sculptured rear deck, smooth, flowing lines... these are just a few of the features of the future that Ford has now. And Ford's Luxury Lounge interiors rival those in the most expensive cars.

A fairer price
Ford prices are easy on your budget
Sure, Ford offers the lowest-priced* car of the most popular three. But look what this low price buys! Magic-Circle steering, easy as pointing... a built-for-keeps body... plus a ride that compares with cars costing hundreds of dollars more.

A finer dealer!
Expect your Ford Dealer to care the most!
When you buy your new car from us mechanics thoroughly check your car before delivery and continue to pay the same careful attention to detail every time you stop by for service. So come see us. You'll see that we Ford Dealers not only sell the finest... but care the most!

The annual Parmer County Farm Bureau queen contest will be in the Friona High School auditorium this Friday night, starting at 8 o'clock. Eleven candidates from all over the county will compete.

Winner of the county contest will receive a check for \$100 and be eligible to compete in the District contest in Lubbock in September. All candidates will receive token gifts.

Mrs. Roy V. Miller of Friona will have charge of the musical program and entertainment for the contest, and the public is invited to enjoy the evening, says Mrs. Potts.

Judges will all be from out-

side the county, and will try to select the queen most likely to go beyond the district contest to the State Contest in Corpus Christi in November. Joe Ed Sullivan, service agent from Brownfield, will be master of ceremonies.

You can tell a married woman by the ring on her finger, but you can't tell her much.

The greatest wealth is contentment with a little.—Ray

"Up-to-date **ELECTRIC** water heating
gives Terri the bubble bath she enjoys!"

COUNTER-TOP MODELS

UP-RIGHT MODELS

says Mrs. Gary Wadley,
GUYMON, OKLAHOMA

Yes, Terri and all the Wadley family enjoy hot baths whenever they want thanks to a constant, dependable supply of really hot water that comes from their electric water heater. You, too, can have enough hot water in your home for baths, dishes, cleaning and the dozens of other hot water uses — you can if your water heater is electric. See your Reddy Kilowatt dealer and get a rapid recovery electric water heater. Electric water heating is as safe, clean and dependable as your electric light. Too, you get Reddy's low electric water heating rate — ask your Public Service manager.

lieves Jones. In the case of phosphate it must be done before seeding and should be placed in bands. Nitrogen fertilizers can be put on easier before wheat is seeded, but can be top-dressed dry or through water applications later. Farmers should keep in mind that fertilizer application through water is not considered a very good method because of poor water distribution, points out the agent.

"Several methods of getting wheat up have been followed and all have proven satisfactory. These include seeding wheat, then watering up; pre-watering and seeding, seeding on rainfall and waiting for a stand before watering," says Jones. "Keep in mind that wheat should go into winter with the soil profile well supplied with moisture. This will enable the plants to root deeply and stool well."

Soils high in clay particles with a reasonable amount of organic matter can hold rather large amounts of fertilizers for use later on in the year. This is not the case with sands unless they are high in organic matter.

"When getting your wheat land ready you should decide whether or not you plan to apply fertilizer in the fall and again next February or try to make one fall application, or one spring application," says the agent. "In most instances fall applications followed with a spring application result in higher yields. This will become increasingly true as time goes on and soils become more and more deficient in organic matter."

To be sure that wheat has the plant food needed at all times fall and spring applications will be necessary. In cases where phosphate is being applied, be sure this application is made before wheat is seeded, and either placed in the soil or worked in, says Jones. For best results phosphate fertilizers should be placed in bands.

It is also a good idea to always treat wheat seed with a fungicide to protect against seed-borne diseases and an insecticide to protect seed from wireworms. The wireworm protection is especially needed where seed are to be placed in a dry soil, says Jones.

H. D. AGENT'S CORNER

Jimmie Lou Wainscott

Persons interested in participating in a beginners' dressmaking workshop during September are asked to meet for a planning session Tuesday at 2 p.m. in the office of the home demonstration agent.

Membership in a home demonstration club is not required for participation in the workshop. Time and place and equipment needed will be designated during the Tuesday meeting.

August is the month for picnics for home demonstration clubs. I attended one last Thursday given by the Oklahoma Lane HD Club. Plenty of chicken and ice cream were served.

Monday the yearbook committee of the HD council met to plan the 1959 yearbook. Fortified with program suggestions from each club, Mesdames Rene Snead and Ellis Tatum and I completed plans for the yearbook and set up a penciled dummy.

Programs for the coming year include a series on home improvement, home management, foods, and homestead improvement. It all promises to be interesting.

A leader training meeting on salad making will be in my office Wednesday, August 27. All leaders are urged to be present for this training session for September meetings.

Iced milk beverages and sparkling fruit and vegetable juices offer a wonderful variety of thirst-quenching "coolers" for these hot summer days. Acid fruit juices are especially refreshing and cooling, as they contain less heat producing sugar.

In selecting fabrics or garments be sure to check the labels for washability before buying. Extension specialists remind us that much of the success or failure in laundering synthetic fibers lies in following directions given by the manufacturer.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Irrigation trials were conducted last Thursday on the Gilbert Kaltwasser farm southeast of Farwell. These trials are to obtain information as to the amount and rate that the soil is taking water. This check was made on a deep, medium textured, moderately permeable soil which is characteristic of the soil in that area. The rows at this location in the field were 1933 feet in length. The orifices that are used to determine the infiltration rate were set in the same row but on three different grades. The crop was cotton.

The Soil Conservation Service worked with one of the District's new cooperators in planning on building a waterway to stop the erosion caused by this excess water.

H. C. Wells is building an elevated ditch on his place north of Friona in addition to moving some dirt to improve the water application in one of his fields.

Jay Sanders and Glenn Floyd checked out the pipeline completed on Joe Jesko's farm north west of Clay's Corner.

A basic conservation plan was written on the Young and McGuire farm located 3 1/4 miles south of Clay's Corner. This makes 21 basic conservation plans written in the Parmer County Soil Conservation District for this year.

CONSERVATION THOUGHT: This world will burn soon enough without the unnecessary assistance of man.

Four Boys Attend Farm Union Camp

Parmer County was represented at the 1958 Farmers Union camp for juniors held from August 3-7 at the Methodist Assembly Grounds near Turner Falls in the Arbuckle Mountains in southern Oklahoma, by Gene Phillips, Don Watson, David Smith and Gene Huston.

counties attended the camp, which is a leadership training activity of the Farmers Union.

Among subjects studied were safety, "Know Your Farmers Union," human relations, recreation leadership, handicraft and library.

The camp was held jointly by the Oklahoma and Texas Unions. The camp admin-

istrators were George W. Stone, Oklahoma FU president, and Alex Dickie, Jr., president of Texas FU.

Little Tom had just been vaccinated. When the doctor tried to put a bandage over the spot, Tom insisted that he wanted the bandage on the other arm.

"Why Tom, the bandage should be put on the sore arm so the boys at school won't hit it," the doctor said.

"Put it on the other arm, Doc," Tom replied. "You don't know those guys."

Increase Yields and Profits With The

MARTIN HARVEST HOARDER SYSTEM

The MARTIN SYSTEM is a Drier & Storage Unit all in one. Yet it costs little more than ordinary storage facilities.

Large Farmer or Small Farmer - You can follow the 4 key steps to profits with A MARTIN HARVEST HOARDER SYSTEM.

1. Harvest early—at 33% moisture content. Gain 10 to 15 more bushels per acre because your crop doesn't stay in the field to dry, where it is at the mercy of the sun, wind and rain.
2. Dry with low cost forced air. Drying with forced air is cheap because the air is free and it takes only pennies a day to run the fan. Dry without danger of fire.
3. Store in the same bin. Just turn off the drying switch and your crop is in storage. No expensive handling equipment or labor. Condition the grain at any time by turning a switch.
4. Sell or feed more, better crops. Sell No. 1 corn or grain and you are free to sell any time of the year on better markets. Whether you feed or sell, the greater profits will soon pay for your Martin system.

The Martin System Qualifies For On - The - Farm Storage By ASC

LET'S
ELECT

LOYDE A. COUNTY
BREWER JUDGE

LETTUCE, TOO, REQUIRES ATTENTION---This weed-infested field of tender lettuce demonstrates the requirements of vegetable growing. Since weeds and vegetables do not mix well, labor is needed in larger quantities than is required for grain sorghum production. This scene of stooping laborers at the Earl Redden farm south of Bovina is typical to farms where vegetables are being grown.

THE PARMER FARMER

by W. H. Graham Jr.

It may be that our frequent disdain of the practice of letting irrigation water escape from a field with no apparent concern on the part of the land owner or renter grates on the nerves of some of our readers. We have, on occasion, heard some rather

acid comments to that effect. "I'd like to see YOU irrigate and not have any water in the bar ditches" seems to be the general attitude of our critics.

No doubt it is a difficult feat to make optimum use of irrigation water, especially on tighter soils and especially where there is a pronounced slope to the land.

But there must be a way to get it done, because there ARE some farmers here on the High Plains who seldom let a drop escape. Most of these farmers are either very water conservation conscious or they have a limited supply and must conserve and stretch it.

Also, we have had our eyes open when we visited other parts of the country where irrigation is practiced on a big scale. We can say without reservation that the High Plains is the most flagrant waste area we have ever seen.

We have seen the Lower and Middle Rio Grande, the big Pecos area of west Texas, the Portales Valley, South-eastern New Mexico, Western and Northwestern New Mexico, Southwestern Colorado, the Texas Coastal Plain, and many, many other projects, big and small, all over the Southwest. Some irrigation is from stored surface supplies, some from wells.

But there is no area in the Southwest that wastes water--precious water, without which our agricultural economy would crumble and fall in a few short months--as does the High Plains area.

In spite of all the arguments there are about how difficult it is to use irrigation water

without waste, the stark fact remains that only about a third of all the ground water pumped here on the High Plains is ever used by the plants themselves.

From the moment that the water reaches the surface, waste begins, especially in the open ditch type of system which is still in common use. Evaporation and seepage from the ditch take their toll as the water is carried from the well to the point in the field to be irrigated.

Then, much of the water released down the row wets soil that has no roots in it. Evaporation is still at work. The soil profile is usually irrigated to a greater depth than the root zone at the top of the field. Swags or low spots and the tail-end of the field often suffer the same

trouble. Add to this the water that is released from the lower end of the field into the bar ditch and you have a total waste that staggers the imagination.

If our irrigation water was unlimited, or even replenishable, there might be some justice in our present use of irrigation water. But with circumstances what they clearly are, we are obviously robbing ourselves (and our children) by careless methods.

Sorghum grain stocks on July 1 were more than triple supplies of just one year ago. That reflects the enormity of the 1957 crop. This fact casts a somber shadow over the milo producing areas of the High Plains, even though acreage nation-wide is down about 20 percent from last year.

However, there are some pressures at work which will be of some help to milo growers this year. The main one is the greatly increased feeding of livestock. Cattle prices have improved substantially in recent months, and feeding has been stimulated.

The growing acceptance--even preference--for grain sorghum in the feed lot is

noticeable in the disappearance of stocks. During the April to June quarter of this year 106 million bushels were moved out, compared with only 40 million the same quarter of last year, according to the Cargill grain reports.

In addition to feeding (in which case stocks usually go through normal, direct channels of trade), the government's loan program must be reckoned with, and since Commodity Credit Corporation has taken over such a huge chunk of the 1957 crop, the government's part in finding markets for grain sorghums is even greater at the moment.

What the government does with its grain is, unfortunately, largely a target of happenstance, politics, the state of our economy, and our relations with countries that could use these stocks.

Under Public Law 480, the government has been encouraged to move fairly large quantities of grain sorghum into export channels. There is no assurance that the heavy rate of disposal will continue, however. It just depends.

Gordon Fraser, former assistant administrator of market development for the Foreign Agricultural Service, says, "Of all our farm products, feed grains probably

Political Announcements

The following political announcements are made subject to action of the second Democratic Primary of 1958:

For County Judge:
A. D. SMITH
(Re-Election)
LOYDE A. BREWER
For Commissioners, Pct. 2:
CHARLIE JEFFERSON
(Re-Election)
C. L. CALAWAY

have the brightest export future. We are the world's greatest and most efficient producer of these grains and are already the largest exporter. We have competition from Argentina, Canada, Australia, and a few other countries, but we believe world import demand will expand at such a rate that much of the increased demand can only be satisfied here."

If that is a hint that the

Kershner's New Mexico
NURSERIES
1710 S. Prince Clovis, N. M.
Phone PO 3-7721
"Graduate Landscape Designer"

government will push its export program for feed grains, this will be welcome news. The government is getting most of the crop anyway, and

so what it does with the grain will have a lot to do with what ultimately becomes of grain sorghum as part of the USDA's farm program.

Your Supreme Court Is Your Protector

J. EDWIN SMITH

Character, Ability, Wisdom In The Law, Warm Sympathy For Mankind --Fit A Man For High Judicial Position.

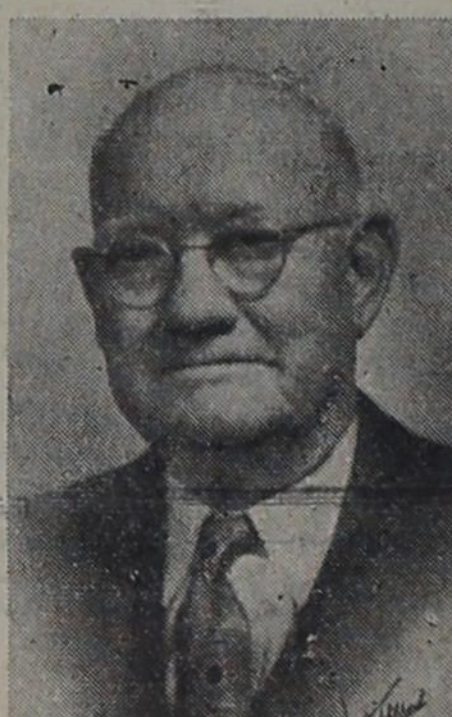

"A good Judge hears with a knowledge of life echoing in his ears--and so hearing, does that fit for a judge to do: JUSTICE."--From the writings of J. Edwin Smith.

It is the solemn duty of the judges of our courts of law to dispense justice and it is even a higher duty for the qualified voter to participate in the selection of our jurists:

Vote Saturday, August 23
and Vote for **J. EDWIN SMITH**
FOR ASSOCIATE JUSTICE, SUPREME COURT OF TEXAS

WITH AGE COMES EXPERIENCE AND WISDOM

The job of county judge and ex-officio county school superintendent requires both legal and public school training. County Judge A. D. Smith is an attorney by profession--has had years of experience in dealing with judicial matters. County Judge A. D. Smith is also a public educator, having served for many years in public school systems as both a teacher and an administrator. He knows LAW, he knows EDUCATION, and is the only candidate so qualified.

County Judge A. D. Smith is fair and honest. He believes in doing what is right for the county as a whole. He avoids sectionalism. He will work for the interest of the county--not any one city or school district.

County Judge A. D. Smith has always worked harmoniously with County Commissioners Court. During his tenure of office, Parmer County has received its full quota of farm-to-market roads.

County Judge A. D. Smith believes in efficiency and economy in government, and has personally followed that philosophy. He has no office secretary and keeps the administrative costs of his office at a minimum. County judges in neighboring counties DO use extra help, but County Judge A. D. Smith writes his own letters, runs his own errands, and personally attends to each item of business. County Judge A. D. Smith is ON THE JOB full-time. The way to keep costs of administering this office low is to keep A. D. Smith county judge.

Financial condition of Parmer County is one of the best in the entire state. Money has been used wisely and without selfish motives. You can assure the continuance of such an excellent financial picture by returning County Judge A. D. Smith to office. He does not and will not spend public money foolishly, unwisely, or selfishly.

County Judge A. D. Smith is in excellent health and is approximately the same age as the present Speaker of the House of Representatives.

By his training, by his experience, by the record he has established, we can be assured that County Judge A. D. Smith will continue to hold court, administer school and county affairs, and personally attend to the hundreds of details that go with this important office, and WE SHOULD RETURN THIS DEDICATED PUBLIC SERVANT TO ANOTHER TERM OF OFFICE.

Mr. and Mrs. Ray Weldon Phillips

Moody-Phillips Vows Exchanged Recently

In a quiet ceremony last Saturday evening, Miss Sue Moody of Bovina became the bride of Ray Weldon Phillips of Plainview. The wedding took place in the First Baptist Church of Bovina.

The bride is the daughter of Mr. and Mrs. E. H. Moody, Bovina. He is the son of Mr. and Mrs. O. W. Phillips of Odell. Rev. Gene Hawkins, pastor of the First Baptist Church of Matador and brother-in-law of the bride, officiated at the double ring ceremony.

The chosen colors of the bride, blue and yellow, were carried out in the church decorations. Twin baskets of white gladioli flanked the kneeling bench. Candelabras held white tapers.

Mrs. Leland Farr, Fort Worth, aunt of the bridegroom, provided traditional wedding music at the piano. Wilson Collins of Odell sang "I Love You Truly" and "The Lord's Prayer" prior to and during the ceremony.

Miss Joan Kay Ezell was bridesmaid. She wore a street-length dress of blue crystalline and taffeta. The dress had a fitted bodice with a full, gored skirt falling from a high, empire waistline. Streamers from the decorative bow in front fell to the hemline. Miss Ezell wore a white carnation corsage and her hat was made of material complementing her dress.

Nancy Carole Hawkins of Matador, niece of the bride, and Larry Loflin, of Bovina, were candlelighters. Little Miss Hawkins wore a yellow crystalline dress with a full skirt. Seed pearls highlighted the dainty collar.

Grover Phillips of Abnerath, brother of the bridegroom, was his only attendant. Ushers were Alfred Moody, brother of the bride, and Dick Horn, both of Bovina.

Given in marriage by her brother, Weldon Moody, the bride was attired in a ballerina-length gown of white faille. The princess styled dress featured a wide "V" neckline, a fitted waist and a wide, flared skirt. The neckline was finished with oat and seed pearls hand stitched around the edge.

The bride's finger-tip-length veil of tulle fell from a pearl designed headpiece. Her dress was complemented with white, elbow-length mitts which matched her gown and white accessories. She carried a single white orchid, surrounded by Stephanotis, on a white Bible. The Bible was a recent gift to

her from fellow members and counselors of the local Young Woman's Auxiliary of the First Baptist Church.

As something old, the bride wore her mother's wedding ring. Her ensemble was new; she borrowed a pearl necklace from Mrs. Gene Ezell and she wore a blue garter. She also carried in her shoe a penny minted in the year of her birth.

For her daughter's wedding, Mrs. Moody chose a crepe suit of blue print. She wore black accessories and had a corsage of white carnations. Mrs. Phillips wore a dress of navy blue with white accessories. She too wore a white carnation corsage.

Reception

Immediately following the ceremony, was a reception in the church annex. Hostesses were Mrs. Henry Minter, Mrs. Bill Bradshaw, and Mrs. Travis Lloyd. The bride's table was laid with a pale blue organdy cloth over deeper blue. Mrs. Lee H. Sudderth, friend of the bride's family, had created an arrangement of fresh flowers from her garden. This arrangement was used as the centerpiece and sterling and crystal appointments were used.

Soft background music was played by Miss Myrna Downs as the guests assembled and greeted the wedding party. Miss Helen Hartzog, a classmate of the bride, registered the guests. Refreshments of cake and punch were served by Mrs. Gene Hawkins of Matador and Mrs. Oakley Stevenson of Los Alamos, N. M., sisters of the bride and Mrs. Weldon Moody, Bovina, sister-in-law of the bride.

The cake was the traditional three tiers and was decorated with pastel rosebuds and "roping." It was topped with a miniature bride and bridegroom.

Wedding Trip

For the wedding trip, the bride chose a brown shantung sheath dress with a chemise top and white collar. Her accessories were white and her corsage was the orchid from the bridal bouquet. A small, sequined hat completed her attire.

Mrs. Phillips was graduated from Bovina High School in 1957. During the twelve years she attended the local school, she was outstanding in several activities. Among her accomplishments during high school were lettering three years in basketball and serving on both the Yucca and annual staffs. She was also an active member of the Future Homemakers of America and has been active in the YWA organization of the Bovina First Baptist Church. Since her graduation, Mrs. Phillips has been employed by the ABC Drug and Wilson's Super Market of Bovina.

The bridegroom was a 1954 graduate of Odell High School, attended Decatur Baptist College for two years and also spent two years at Wayland Baptist College of Plainview. He majored in physical education.

Upon their return from a wedding trip, the couple will be at home at 1702 West 11th Street, Plainview. He is employed at the Texan Elevators at Edmonson, west of Plainview.

Out-of-town guests included Mr. and Mrs. Lester Farr and Joyce Ann of Fort Worth; Mr. and Mrs. Lavender Farr of Iowa Park; Mr. and Mrs. Clay Thrash of Oluste, Okla.; Mr. and Mrs. Wilson Collins, Odell; Mr. and Mrs. Leland Phillips and Jerry, Abnerath; Miss Sandy Johnson, Odell; Miss Jody Redman, Ropesville; Mrs. Bob Jamerson, Clovis; Mrs. Leon Langford, Milnesand, N. M.; and Mr. and Mrs. Buddie Christenson of Melrose, N. M.

Others were the bride's maternal grandmother, Mrs. J. N. Shaw of Muenster, an uncle, Albert Shaw and daughter Paula, also Muenster; PFC and Mrs. Oakley Stevenson of Los Alamos, N. M.; and Rev. and

cessories were white and her corsage was the orchid from the bridal bouquet. A small, sequined hat completed her attire.

MYF Makes Plans For Retreat To Be Held Sunday

Plans for a young people's retreat were completed last week. The retreat, a period of social and religious fellowship for the Methodist Youth Fellowship of Bovina, will be at the local Methodist church.

Mrs. Bedford Caldwell a member of the planning committee for the retreat, listed the schedule for the overnight affair. The retreat will begin immediately after the regular Sunday morning church services are over Sunday, August 24. The noon meal will be served and a planning session for programs and schedules for the coming year will be in the fellowship hall. A series of these planning sessions, interspersed with fellowship and sharing programs will meet throughout the afternoon and evening.

Sunday evening, the group will attend church in a body, following a chicken fry in the church patio. At this time, the plans worked out for the coming year will be presented and agreed upon.

Lights will be out for the night, reports Mrs. Caldwell, at 10:45 p.m. Breakfast will be served around 7 the next morning and they will then adjourn.

This is the first such program planned for the local young people. An activities week had been planned but conflicting dates caused the change of plans.

Adults who will supervise the retreat include Mrs. Jimmie Ware, Mrs. Billie Sudderth, Mr. H. J. Charles, Mr. and Mrs. Caldwell, Mr. and Mrs. Dean Hastings, Rev. Davis Edens and J. T. Hammonds.

Mrs. Hawkins and children, Nancy and Keith, of Matador; and parents of the bridegroom, Mr. and Mrs. G. W. Phillips of Odell.

Cathy Sikes Is Party Honoree

Cathy Sikes, seven-year-old daughter of Mr. and Mrs. W. E. Sikes, was honored with a surprise birthday party Friday morning in the home of her grandparents, the John Sikeses. Guests and their mothers gathered about mid-morning for games and refreshments. Cathy's mother and grandmother served ice cream and birthday cake. The cake was white, trimmed in pink and green. The honoree received a number of gifts and favors were given to the guests.

Attending the party were Krita, Bonnie and Jerry Morris, Donna and Roy Lee Bernard, Joan, Alice and Jean Sullivan, Joe Don Stevens, Rose Marie Denney, Shirley Putman, George Burris, Benny Kent, and John Lowell Taylor.

Others present were Miss Charlotte Morris, Miss Bettie Mae Stevens, and Mrs. J. D. Stevens.

Shower Planned For Mrs. Phillips

A bridal shower is planned for Friday afternoon, at 3 for Mrs. Ray Phillips, the former Sue Moody. The shower will be in the annex of the Bovina First Baptist Church and friends of the couple are invited.

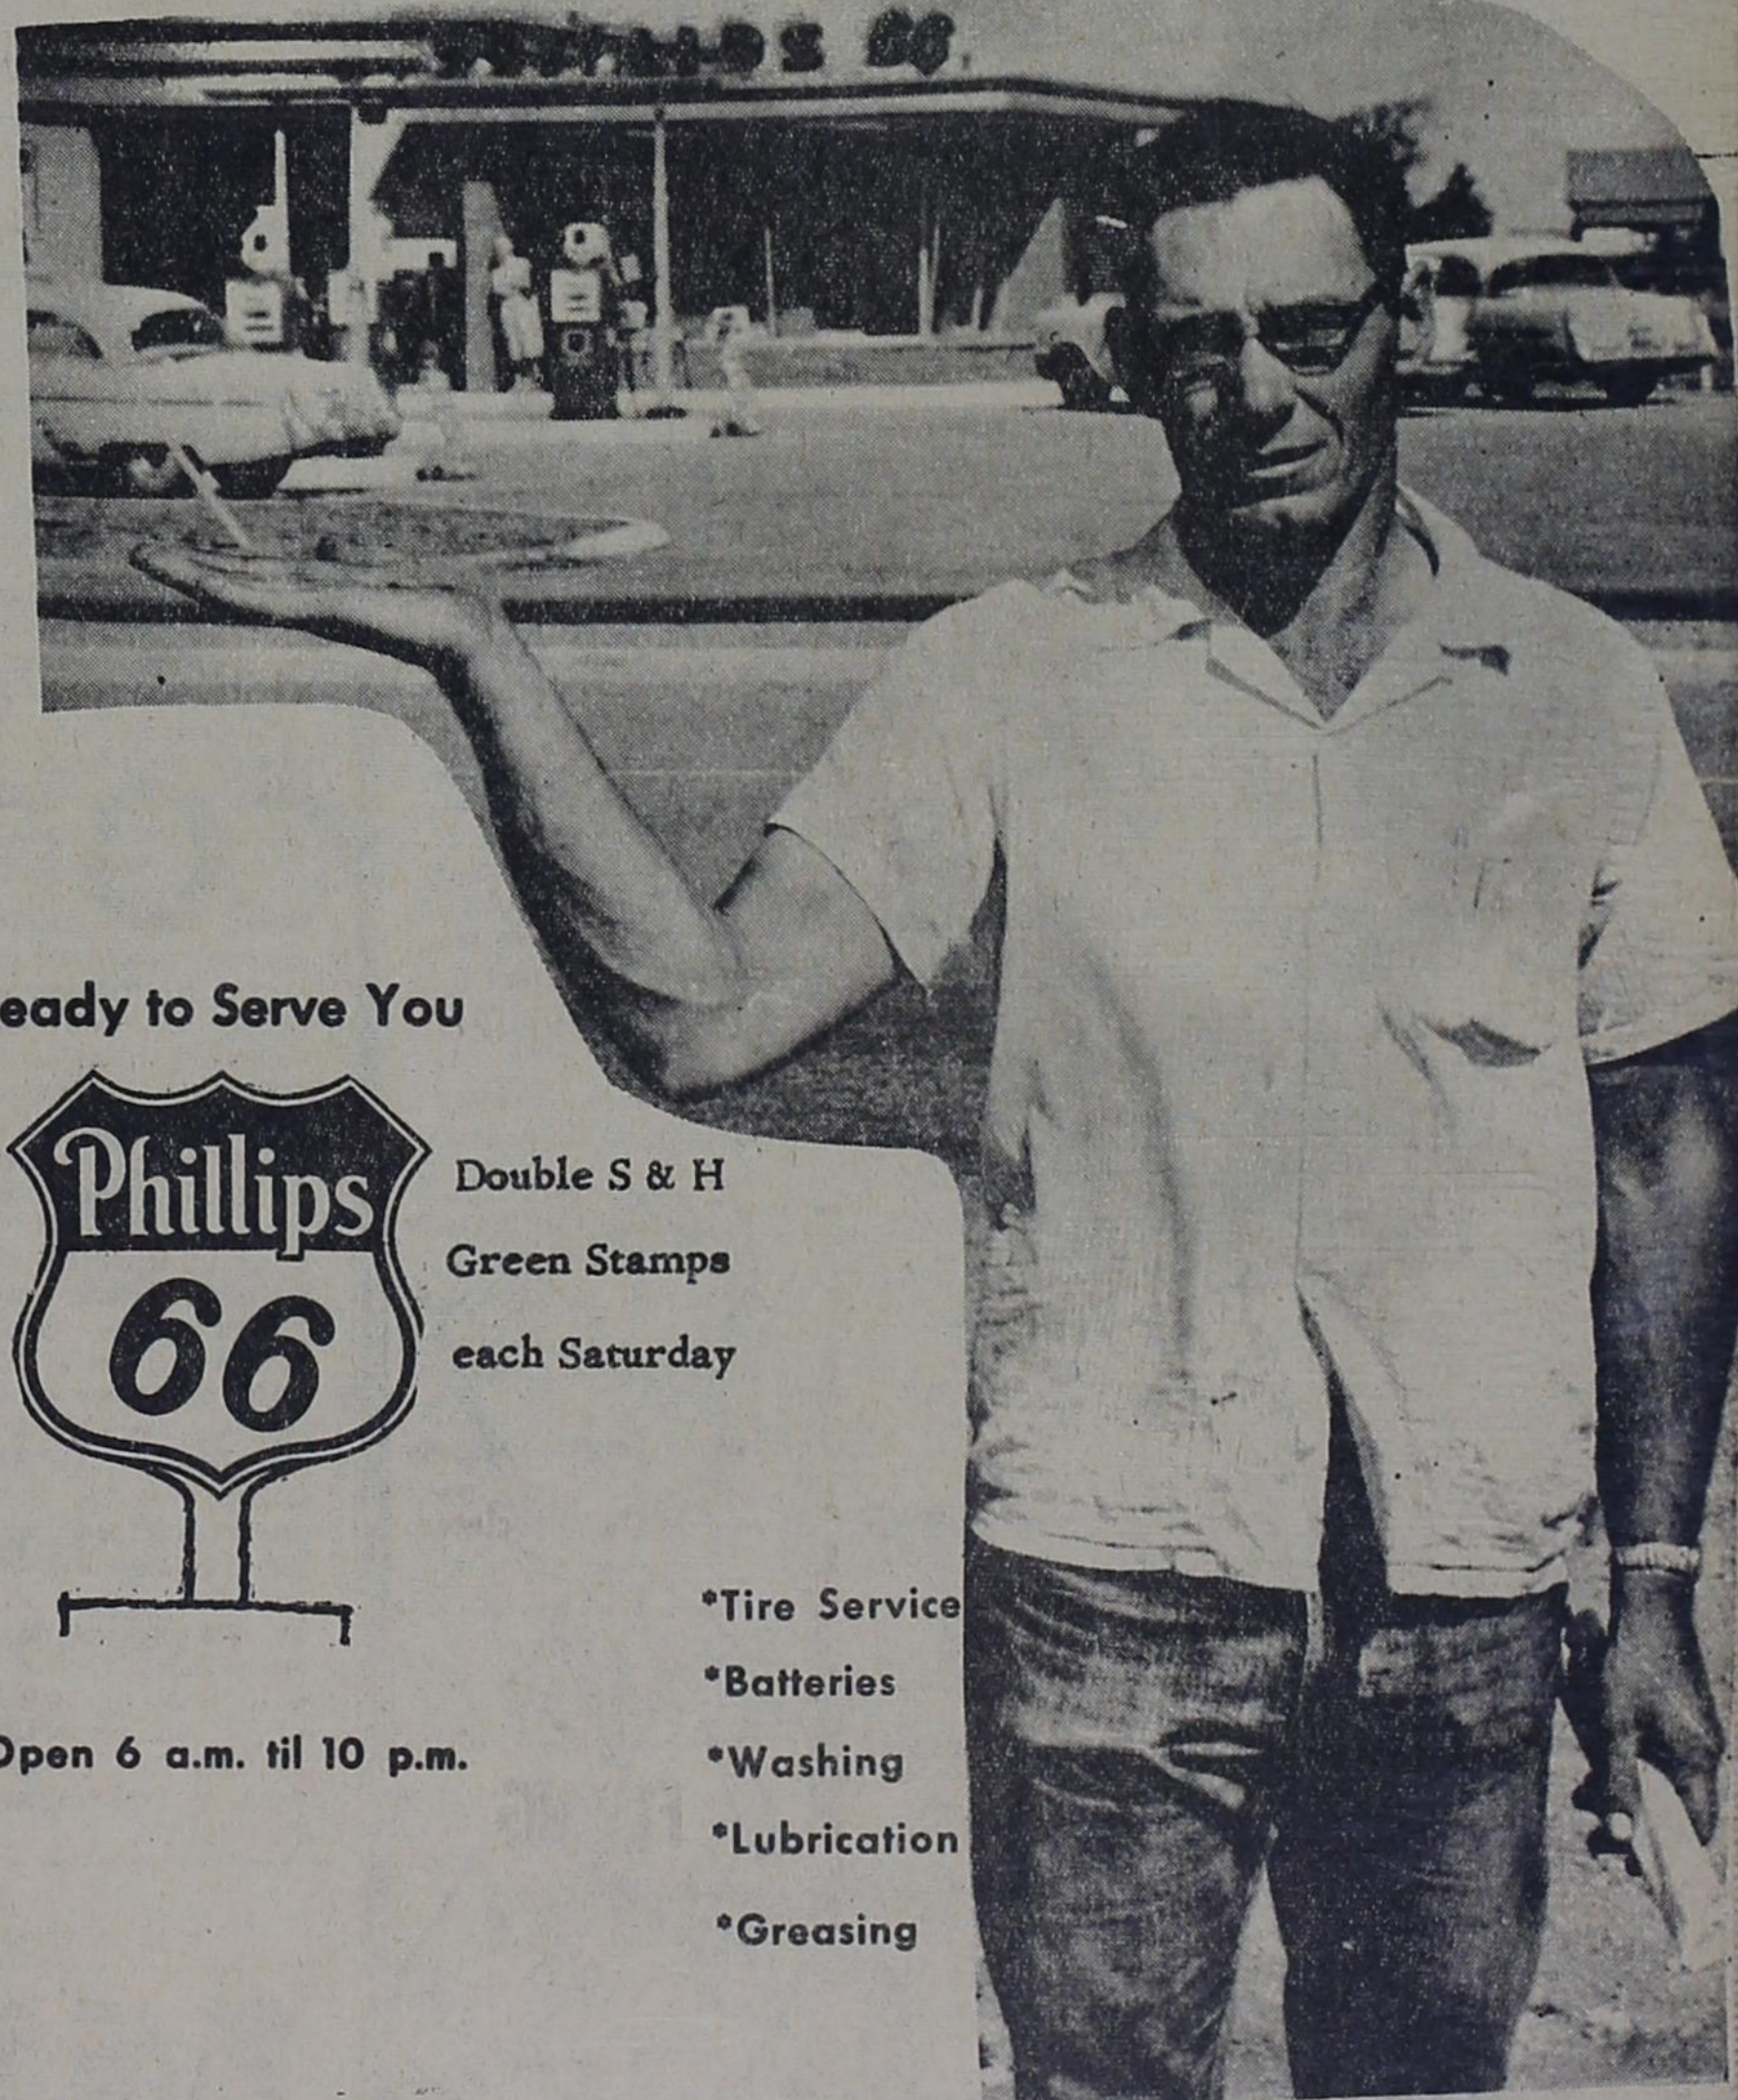

The couple was married in the local church two weeks ago and now lives in Plainview. She is the daughter of Mr. and Mrs. E. H. Moody.

In Jeter Home

Guests in the home of Rev. and Mrs. Jack Jeter and family over the weekend were Mr. and Mrs. John Dillon and daughter Dana of Dallas. The visitors are members of a church of which Jeter was former pastor. The Dallas family left Sunday to visit relatives in other states.

I've bought it ... Strictly for you!

I have traded for and taken over management of this station, formerly, Edd's '66' Station in Bovina. I hope you will allow me to continue to serve you with Phillips '66' products.

SLASH TRACTOR BILLS 4 WAYS with—

1. Cut engine maintenance costs. Gulfane is a dry, clean-burning fuel. Keeps engines clean year after year.

2. Save on fuel costs. Compare Gulfane with other fuels. This one convenient fuel can be used for many farm and home needs at savings that will surprise you.

3. Get more power—faster farming. Gulfane is an amazingly powerful fuel. Offers greater pulling power...higher speeds...faster farming.

4. Save on oil because Gulfane is so easy on your tractor engine. Oil can be changed less frequently.

Specialists in farm fuels, tractor and irrigation power!

BONDS OIL CO.
BOVINA, TEXAS

Mrs. Margaret Caldwell announced Monday that the regular, monthly meeting of the Bovina Widow's Club will be Thursday in the home of Mrs. Ola Free. The members will gather shortly before noon and have a covered dish luncheon. During the afternoon, a program, led by Mrs. Bessie Caldwell, will be given.

A number of local families gathered last Wednesday afternoon at Buffalo Lake, near Canyon, for a picnic, swimming, boating and water skiing.

Present were Mr. and Mrs. Bedford Caldwell and sons, Mr. and Mrs. Vernon Estes and daughters, Mr. and Mrs. Mark Charles and daughter, Mr. and Mrs. Jimmie Charles and family, Mrs. Johnnie Horn and sons and Mrs. H. J. Charles and family.

Sheryl Fern Moore, daughter of Mr. and Mrs. Bill Moore, celebrated her fifth birthday last Friday, with a party in her home.

Refreshments of cake, ice cream and punch were served after a game session. Sheryl was presented her gifts and she in turn presented each guest a favor.

Guests attending were Aulana Levins, Barbara Griffith, Myrna Fay, Susie and James Ritchie, Elaine Fuller, Glenda and Regina Kelley, Carresa and Bobby Wayne Englant and Buddy Clements.

Mrs. W. J. Parker was released from Clovis Memorial Hospital Friday of last week. She had been confined for three days following a back and leg injury, the result of a fall in her home Tuesday night.

The home of Mrs. Don Owens was the site of the regular, monthly meeting of the Bovina Town and Country Club last week. The meeting was Thursday afternoon and the members spent the afternoon planning a social to be Friday.

The social will be in the form of a progressive supper. Members and their husbands will gather in the home of Mr. and Mrs. Mark Charles for the entire; afterwards, they will visit a number of homes before the party's climax with games, and visiting in the Nicki Foster home.

The hostess served refreshments of fruit sherbet, cookies and iced tea to Mrs. Foster, Mrs. Sammy Sudderth, Mrs. Charles Embry, Mrs. Charles Vickers, Mrs. Glen Hromas, Mrs. Thomas Rhodes, Mrs. Tommy Bonds, and Mrs. Charles.

Members of the Bovina Order of the Rainbow for Girls were honored with a party Tuesday evening of last week. Hostess was the worthy advisor, Miss Nita Beth Estes. The group went to Muleshoe to a drive-in movie. Afterwards, they had refreshments of sandwiches and soft drinks. Attending were, Phil Caldwell, Lexie Stevenson, Gerald Harden, Joan Kay Ezell, Dick Horn, Harriette Charles, Jerry Wright, Carole Hammonds, Charles Stoner, Charlotte Hromas, Kenneth Gwinn and J. R. Knight.

Also Patsy Richards, Penny Lloyd, Patricia Crawford, Judy Crawford, Shirley Joplin, Gail Joplin and Leslie Fourmentin.

Adults attending were Mr. and Mrs. H. J. Charles and son Billy, and Mr. and Mrs. Roy Crawford and son, Roy Jr.

Mr. and Mrs. Dave Wines and sons returned home Saturday evening from a week's vacation in Colorado. The local family, accompanied by David Lawlis, son of Mr. and Mrs. Ovid Lawlis, spent six days at Monument Lake, west of Trinidad, Colo.

Mrs. Wines reports that they had exceptional luck in the fishing department at the lake and all enjoyed the cool, mountain air. On their way home, they stopped in Taos, N. M., and attended the annual Indian dances and pageants.
