Dear Mr. Vice President, tell the truth, the whole truth and nothing but the truth

Wool And Mohair Incentive Program Under Attack

Donnie Laughlin, general manager of Wool Growers, was hopeful Monday that an article by a writer for *USA Today* will tell the ranchers' side of the incentive payment story ignored during Vice President Al Gore's recent tour of the talk show circuit.

The Wool Act, a 39-year-old program established to bolster the wool and mohair industries, has been under attack as part of the Clinton administration's plan to reinvent government. In his National Performance Review released last week, Gore recommended ending incentive wool and mohair payments to producers.

Mark Potok of Dallas, Southwest correspondent for *USA Today*, was in Ozona Sunday and Monday with San Angelo photographer David Tillery to do a story for the four million circulation daily.

Potok toured the Bud Cox, George Cox, Pleas Childress and Jeffrey Sutton ranches, saw shearing crews in operation and met with representatives of both banks during his stay here. He was accompanied at various times by Sutton, president of the Mohair Council, Pleas Childress III, a member of the executive board of the

American Sheep Industry Association and chairman of that organization's producers' education and research council, and Laughlin. He also met with Brian May, executive director of the Mohair Council.

The article for *USA Today* is expected to appear in Wednesday's edition. The daily paper has an eight to 10 million readership, Potok said.

The National Wool Act was approved through 1997 as part of the congressional budget approved by Clinton with provisions to reduce incentive payments for wool and mohair by \$25,000 a year from the current limit of \$150,000 to \$50,000 in 1997. After making it through House and Senate budget conferences, the act stalled in the Senate appropriations process due to a technical disagreement which resulted in a vote to eliminate funding for the honey program.

Since its beginning in 1954, the tariff which funds wool and mohair incentives has generated \$7.4 billion and only \$2.3 billion has been paid to producers, creating a net surplus to the U.S. Treasury of more than \$5 billion.

The payments to producers are being portrayed as coming from tax

dollars, which is not true.

"The vice president understands that eliminating the payments would cost 350,000 jobs in the U.S. and more in government spending than what the Wool Act has ever cost," Laughlin said. "He doesn't want to talk about the impact or fairness of the program."

"The battle now is the vice president's unqualified statements about the government subsidizing mohair sweaters. He has intentionally singled out mohair sweaters. Wool and mohair sweaters are a small part of the industry. I wish it all went into sweaters. We'd make a lot more money."

"The fiber business runs in cycles; sometimes higher than it should, sometimes lower than it should. The Wool Act was designed to help. The intention was probably ideal because it is not funded from taxpayer money."

"The government is not involved in storage or sales or prices. Every country we compete with has better government agriculture supports than we do. We can't compete with a country like Australia that produces 20 times what we produce," Laughlin said.

Last year the economic impact of wool, mohair, sheep, lambs and goats

in Texas was \$614.43 million. In Texas, the 1992 incentive and cash receipts from wool, mohair, sheep, lambs and goats totaled \$211.1 million. During the years since the Wool Act started, incentive payments have been made for mohair only 50 percent of the time. The wool incentive was small several years.

Ninety percent of the U.S. mohair production comes from 10 Texas counties. The most recent Extension Service statistics show Crockett County as third in the state in mohair production and second in sheep, lamb and wool production. There are 8,000 sheep producers in Texas and more than 100,000 in the U.S. There are more than 10,000 mohair producers in the U.S.

Ozona Wool and Mohair manager Terry Criner talked about the injustice of eliminating incentive funding at this time. "The vice president says he wants to make cuts over five years, but he wants to cut ours nine months into this year." Ranchers have already made their financial planning for the year based on 1993 incentive

payments which should be received in April of 1994. "Ranchers don't like it, but they need to be given time to make financial adjustments."

Pleas Childress III said that in many instances, the incentive is the

Commissioners Approve 1994 Budget

Commissioners approved a 1994 budget of \$6,481,256 at their meeting Monday. The county tax rate for 1994 is .73868 per \$100 valuation compared to .74807 in 1993. The school tax rate is \$1.21 compared to .15000 for the school and .91880 for the County Education District, a total of \$1.0688 in 1993. Emerald Underground Water District's rate has changed from .03 in 1993 to .02 for 1994.

Total tax rates per \$100 of taxable value for 1994 are \$1.96868 compared to \$1.84687 for 1993.

Commissioners voted to hire Charles Wittenburg of San Angelo to represent Crockett County in the state bar conflict of interest evidentiary hearing regarding a complaint filed by the court concerning action by the county attorney. Commissioners Rudy Martinez and Frank Tambunga voted against the motion with Commissioners Fred Deaton and Freddie Nicks and Judge Kathryn Mayfield voting to hire.

Nov. 2 was set as the date for a bingo option election. If voters approve having bingo in Crockett County, state permits still must be obtained before games are held.

The court voted to approve pooling of paving among the precincts for 1994. Paving will be applied where most needed with one mile to be reserved for paving projects in each individual precinct. They also voted to approve paving the parking lot across from the football practice field. The school is to pay for materials.

J. R. Bhakta, owner of Comfort Inn, met with the court concerning property lines to verify for survey purposes that part of his building is situated on part of AA Street. The issue was tabled until the next meeting in order to obtain a legal description of the property.

The legal procedure for removal of junked or abandoned vehicles was discussed at the request of Commissioner Tambunga.

Approval was given to repair the flat-wheeled roller. Cost will be \$3,000 with the county making the repairs according to Eddie Moore, road and parks department superintendent.

Crop Disaster Applications Due In ASCS Office Sept. 17

The ASCS office has announced that crop disaster applications must be filed in the Crockett County ASCS office by Sept. 17, 1993.

Moore was asked to proceed with plans to fog seal the airport runway. The procedure, which will be like a light coat of oil and includes sealing cracks, will take about an hour to dry on a hot day, Moore said.

Following a meeting in executive session, the court voted to approve a waiver of stop loss coverage on medical coverage.

Court members voted to approve a prisoner custody agreement, to execute a cooperative agreement for Title IV-D program with the Office of the Attorney General and to adopt Senate Bill 243 setting a fee, not to exceed \$5, allowing the county and district clerk to assess a fee per civil and probate case filed to be deposited in a special fund for court security. Also approved was increasing the starting salary for clerical employees to \$1,025 from \$925 effective Sept. 1.

Justice of the Peace Jim Hearne met with the court during the budget hearing portion of the meeting regarding a budget request for a salary increase for his office employee. He was told that raises which are being given are merit raises.

In response to a comment that his office had recently had an increase, Judge Hearne replied that the increase was to bring the office up to the pay level of others in the county.

Garland Young of the civic center and Louise Ledoux, librarian, were present to give their monthly reports. Reports were read by Judge Mayfield from the fire department and Helping Hands.

DeerFest Assn. To Meet Wednesday

Members and directors of the Crockett County DeerFest Association will meet Wednesday at 7:00 p.m. in the EMS Building to finalize plans for this year's fest.

Anyone wishing to volunteer their services with this year's fest is invited to attend. Please come.

Joe Connolly Top Grid Iron Picker

Joe Connolly came out the winner in this week's Grid Iron Pick'ems with 15 correct picks.

In second place with 14 picks were Gene Castro, Joe Connolly and Richard Vargas. Following in third place with 13 picks were Chris Martinez, Wayne Boyd, Ernesto Vargas and Byron Beasley.

Better luck next time, boys and girls.

DeerFest Association Gift Buys Hospital Equipment

A \$7,000 donation from the DeerFest Association will have the potential to benefit the community when the funds are used by Crockett County Hospital to buy new equipment. A check for \$7,000 was presented at a meeting of the hospital board Sept. 8 by John L. Henderson for a table top sterilizer, a patient monitor and two tympanic membrane temperature probes.

"Our goal is to reach out and touch everyone in our community," said Henderson of the DeerFest Association. "The hospital is a way we can indirectly benefit everyone in our community." Henderson stressed that without the donations of prizes and contributions to DeerFest, the organization could not give money to the community.

The donation was accepted on

behalf of the county by board president Jack Baggett Jr. and director of nurses Diane Schwertner.

More good news was forthcoming during the meeting's financial report by administrator Gerry Phillips. Phillips announced that the hospital/care center is approximately \$103,000 ahead of where it was at this time last year.

"I think that's fantastic," com-

mented Baggett.

Board members voted to use money allotted for a physical therapist they are not getting for purchase of a Cobas Mira chemistry analyzer for the lab. \$10,000 grant money will be used for the downpayment on the equipment which would cost \$33,950 if bought outright today.

Having the equipment in house will eliminate sending lab work out for testing and speed up results.

During a quality assurance quarterly report by Phillips, the board was told that there are three leaks in the new care center roof. The contractor has been notified.

Mrs. Schwertner told the board that in August there were 116 emergencies treated at the hospital, two deaths, one birth and an average of four boarder patients.

The board met in executive session with Fred Baker regarding home health care. Phillips said Monday that the proposed program has been shelved until the board gets more information on cash outlay and liability.

After returning to open session Wednesday night, the board voted to institute a new overtime policy for the hospital and care center. The policy provides that persons receiving overtime due to specific situations take off the following week time equal to the overtime monies accrued.

In the care center portion of the meeting, Phillips told the board that Medicaid reimbursement guidelines state that private pay residents cannot be charged less than the lowest rate for the facility. This rate is currently \$44.91 and the care center is out of compliance by charging \$44.00.

CROCKETT COUNTY HOSPITAL BOARD PRESIDENT JACK BAGGETT and director of nurses Diane Schwertner accept a check for \$7,000 from John L. Henderson in behalf of the DeerFest Association.

Blood Drive Slated For Sept. 23

Xi Sigma Omega will sponsor a blood drive from 1 p.m. to 7 p.m. Thursday, Sept. 23, in the Emergency Medical Services Building. All healthy persons age 17 and over are invited to give blood during the drive to help patients in this community.

Blood is one of the doctor's most valuable resources, and many people are alive today because blood was available when they needed it. In this area, 375 blood donations are needed each week to meet patients' needs. United Blood Services, the area's nonprofit community blood provider, relies entirely on volunteer donors to help maintain a constant, sufficient blood supply. Blood comes from only one source -- healthy people who are willing to give of themselves.

"Donating blood is simple and satisfying," said Janet E. Gallagher, Community Relations Director for United Blood Services. The body contains about 9 to 11 pints of blood

and, since the body constantly manufactures blood, the amount given is quickly replaced.

The donation process takes less than an hour, with about five to seven minutes for the actual donation. First, a medical history is taken. Temperature, blood pressure, pulse and blood iron levels are checked. After the blood is collected, it is typed and tested for diseases that might be transmitted to those receiving transfusions. This procedure benefits the donor as well as the patient because, if any of the tests indicate a need for medical attention, the donor is referred to his or her personal physician.

Blood can be separated into components, so one donation may help several patients. These components must be processed within a few hours of donation, so there is always a need for a constant, fresh supply of blood donated by volunteers in this community.

Phillips Speaks To Pandale Study Club

The Pandale Study Club met Saturday, Sept. 11, at the Pandale Community Center with Sara Hargraves and Sue Arledge serving as hostesses.

A review of the summer's activities included a report on the club's fried pie and cookbook booth in the park at the Fourth of July Celebration and during the Davy Crockett Birthday Celebration.

Oct. 23 was set as the Fall Clean-up Day at the community center and for the planning session for the annual Thanksgiving dinner.

Gerry Phillips, Crockett County Hospital and Care Center Administrator was the speaker for the afternoon.

In an informal question and answer session, Mr. Phillips shared information concerning rules and regulations affecting patients and staff in nursing homes.

Cookies, coffee and tea were served to members Sue Arledge, Shelba Faehl, Sara Hargraves, Susan Mills and Ginger Perner, and to guests Cindi Davis, Vivian Grimm, Crystal Hargraves, and Mr. Phillips. Miss Hargraves, who is the nursing home administrator in Sterling City, related some of her experiences encountered in a small rural nursing home.

Sue Arledge reporting.

Woman's Forum Has First Yearly Meeting

The Woman's Forum met in the gardens of Marcille Long and Shirley Kirby for their opening meeting-a Fiesta. Pinatas and colorful flowers adorned tables and patios as members enjoyed a Mexican luncheon.

Katharine Russell, president, presided and Barbara Malone gave the invocation. Marolyn Bean introduced the year book for the coming year. Maridel Dudley reported on the status of the handbells, and Arlene Clayton reported on the G.F.W.C. National Convention in Dallas this summer.

The president congratulated Arlene Clayton on being the president-elect of the Heart of Texas District.

Garden Club Meets At Civic Center

The Ozona Garden Club met at the civic center for its first meeting of the year. Mr. Burr Williams of Midland presented the program on Native Texas Plants.

A delicious brunch was served to members by hostess members Lou Deaton and Grace Williams to Marolyn Bean, Sue Burns, Nancy Forehand, Joycelyn Graves, Peggy Hagle, Sybil Howell, Ethel Miller, Virginia Hubbard, Mary Jo Mason, Dorothy Montgomery, Katharine Russell, Marge Smith Betty Tumlinson, Jonesey Williams and new member Jan Van Shoubrouck.

A business meeting followed led by new president Dorothy Montgomery and a plant auction was held.

Arts And Crafts Guild Plans Annual Fair

The Crockett County Arts and Crafts Guild will hold its annual arts and crafts fair Nov. 6. The fair will be at the 4-H Barn at the Ozona fairgrounds. Hours are from 9:30 a.m. until 5 p.m. A security guard will be in the barn overnight for those setting up on Friday.

Booth prices are \$30 to \$40 depending on the size, and a few are still available. Any interested craftsperson should contact T. K. O'Bryant at 392-3557 or you may write to the Guild at P. O. Box 141, Ozona, TX 76943.

Snips, Quips, and Lifts

by Lottie Lee Baker

Just because you are puffed up with conceit doesn't mean you are a swell guy.

Belief in yourself is a fine thing, but see to it that you are not too easily convinced.

Those who can remember the past with a clear conscience need have no fear of the future.

Nothing makes food less fattening than being too expensive.

The problem the average housewife faces is that she has too much month left over at the end of the money.

It's beginning to look like America had too many parttime parents.

Instead of letting their light shine,

some people spend their time trying to put out the lights of others.

Curiosity often gets mice into a trap - just like it does men and women.

A diet is something you went off yesterday - or expect to start tomorrow.

In the old days a woman married a man for his money, but now she divorces him for it.

When a man gets too big for his "britches", his hat doesn't fit either.

The more you talk about yourself the more you are apt to lie.

Some people make enemies instead of friends because it is less trouble.

A LIFT FOR THE WEEK

The best way to escape evil is to pursue good.

Happy Birthday!

Sept. 15 - Mutt Carnes
 Sept. 16 - Bud Coates, Brett Hood, Rosa Leal, Betty Ramirez, Desi Tijerina Jr., Ava Ramirez
 Sept. 17 - Debbie Phillips, Ida Villarreal, Isamel Castro
 Sept. 18 - Pablo S. Talamantez, Rex Fenton
 Sept. 19 - Michael Henry, Inez Gutierrez, Aimee Longoria, Tonya Petty
 Sept. 21 - Mark Ramirez, Lupe Gonzales Jr., Raymond Borrego, Felipe Castro Sr.

Belated wishes for a happy birthday go to Julia Ramirez whose special day was Sept. 11.

Friends of Travis Burks will be happy to hear of his promotion to sergeant on Aug. 2. Burks is stationed at 29 Palms, CA, with the U. S. Marine Corps.

Information, Please

A reader who is a former student of Gene Holland would like to have his current address.

If anyone has this information to share, please send it to The Stockman at Box 370, ZIP 76943 or call 392-2551 and we'll see that the information reaches the individual.

It's A Boy

Jap and Annette Vargas are the proud parents of a seven pound, 15 ounce baby boy, Kevin Everado, born on Aug. 23, 1993.

Welcoming him home were his grandparents, Frank and Mela Vargas of Ozona, Mary Lilly and great-grandmother Clara Mae McBride of Tchula, MS, and Grandpa Ernest Downs of Kosciusko, MS, numerous aunts and uncles of Austin and Ozona.

The whole object of travel is not to set foot on foreign land; it is at last to set foot on one's own country as a foreign land.

-G. K. Chesterton

THE OLD HIGH SCHOOL FISH POND COMES TO LIFE thanks to Brent Pool's FFA Class. The pond was constructed back in the late thirties and hasn't been in use for many years. The boys have painted and repaired the leaks and even added seven bright gold fish to its depths. Thanks men for keeping alive a little bit of school history. Photographed left to right are: Brent Pool (instructor), Thomas Galan, Bart Grimes, Paul Vargas, Rodney Munoz, Nathan Hubbard, Carlos Venegas and Victor Villa. *Stockman photo*

Lions Rally, Defeat Bearkats 12-6

by Neal Ulmer, Stockman sports-writer

Ozona's teamwork started coming together last Friday night in the Lions' home opener by defeating the Garden City Bearkats 12-6. A first play touchdown along with a late scoring drive in the third quarter proved to be enough to beat the Bearkats.

Ozona's initial score came on an exciting first play, when Chris Sanchez caught a 72-yard pass from QB Justin Castro and scored with 17 seconds gone. The extra point attempt failed.

Penalties and incomplete passes kept the Lions from making further progress in the first quarter. Likewise, similar things were happening to Garden City.

In the second quarter penalties again negated good runs, as well as one 30-yard pass play where the Lions went down to the Bearkats' 33-yard line. However, the Lions could not convert after an incomplete pass and a 5-yard penalty. Garden City took over on downs and drove the ball down the field for their only score, which came with 5:38 in the quarter on a 37-yard run by Brian Harp. The extra point attempt failed.

A good drive by the Lions in the latter part of the second quarter resulted in a pass interception thrown by Castro. Garden City took over, but time ran out in the first half with the

score tied Ozona 6, Garden City 6.

In the second half, the Lions came out of the locker room fired up. A good defense forced the Bearkats to punt, and the Lions drove the ball to the Garden City 9-yard line. On the next play the Lions fumbled and the Bearkats recovered, thus stopping an opportunity for the Lions to score.

The Lions' defense held the Bearkats and forced them to punt. Castro received the punt and returned it for 22 yards down to the Bearkat 26-yard line. Again the Lions had a tough time trying to score, and the Bearkats received the ball on downs.

Coach Don Payne said, "There was good effort offensively, but we shot ourselves in the foot by getting inside our opponents' 20-yard line six times and only scoring twice."

With the ball on their own 38-yard line the Lions started another scoring drive late in the third quarter. The Lions marched down the field with several short runs, including one run of 12 yards by Anthony Sanchez. Castro also scampered for a 27-yard run in the drive. Sanchez ended the scoring drive with a 1-yard plunge to give the Lions a 12-0 lead. The extra point attempt failed with 38 seconds left in the third quarter.

Payne said, "Anthony Sanchez

came in the game and gave Julio Martinez some rest. He did a good job of running, with 14 carries for 73 yards in two quarters."

A fired-up defense caused the Bearkats to fumble on two of their possessions, one fumble being recovered by Lion Luis Longoria.

Coach Payne commented, "The Lion defense got after it, holding Garden City to only two first downs in the second half."

Moments later the Lions had another good chance to score in the fourth quarter, getting the ball down to the Garden City 9-yard line. Castro was then intercepted, bringing the Lions up short one more.

The Lion defense once more stopped the Bearkats, forcing them to punt. Jesse Garza got in a good 18-yard run, returning the ball to the Garden City 29-yard line, but another untimely fumble kept the Lions from scoring again.

Commenting after the game, Coach Payne told the team, "In the second half there was effort--there was pride, there was guts, and there was heart and I knew that was the team out there."

Payne, in pointing out several things about the game and his team said, "Again, we played a lot better

(Continued on pg. 9)

•Wool (Continued From Page 1)

difference between breaking even and making money. Childress recently returned from the summer meeting of the American Sheep Industry Association in Rapid City, SD. There the largest concern was renewal of the Wool Act, he said. "The Wool Act is

necessary to the survival and economic stability of the industry."

Laughlin sees a domino effect in Texas if incentive payments are stopped now. "If we take a hit on this right now, it might take 10 years or more for some ranchers to get over it. Without a chance to adjust, there will

be a big decrease in sheep and goat numbers. Some ranchers would be forced out of business."

Directly or indirectly, every business in Crockett County would be affected as would the tax base. "Thirty-five to 50 percent of loans in Crockett County are agriculture loans," Laughlin said.

Criner, who will soon leave Ozona for a warehouse in San Angelo, said "I don't believe it's over 'til it's over." He expressed confidence in senatorial support for the incentive program. His company has a fall wool sale set for Sept. 22 with more than 100,000 pounds offered.

Wool Growers will hold its fall sale Oct. 7.

Meanwhile, "most of West Texas and Ozona are waiting to see what next Monday's Senate vote will be," Laughlin said.

Tambunga Family Celebrates Annual Reunion With Luau

The Eighth Annual Tambunga Family Reunion was held Sept. 3-5 at the Crockett County Fairgrounds Arena and Our Lady of Perpetual Help Parish Hall. This year's theme was "Hawaiian Luau"

The Renal Tambunga and Sofia T. Fierro families prepared supper for Friday's luau. A hut, Hawaiian girls, a canoe and palm trees decorated the location. The canoe held a lot of fresh fruit and tropical punch. Hula dancing, singing and many more activities took place after supper around the camp fire.

Saturday's breakfast was beef burritos prepared by Mr. and Mrs. Catarino Villarreal. Sloppy Joe's and trimmings were prepared for lunch by the Olivia T. Garza and Alejos Tambunga families.

The South Pool was the location for swimming, and watermelons were given for refreshments.

The Carlota T. Villarreal and Americo Tambunga families prepared a chicken spaghetti supper Saturday. Following supper was a dance with music by La Fuerza. Everyone wore their hula skirts and danced to the limbo.

Menudo was Sunday's breakfast prepared by the Santiago and Ruben Tambunga families. Mass was given in honor of Tambunga loved ones at

Our Lady of Perpetual Help Church.

Following a brisket lunch prepared by the Nato Tambunga and Julio Samaniego families, every family was presented with a trophy.

Special recognition went to Mr. and Mrs. Victor Lira and family who traveled the farthest to attend, coming from Germany. Recognized as the youngest to attend was Rae Lynn Arredondo, 7-week-old daughter of Mr. and Mrs. Raul Arredondo. They were also awarded trophies.

Volleyball, washer pitching and more games filled the afternoon Sunday. All families worked to prepare a hot dog supper, and the reunion ended with a D.J. dance with music by Big Ed of Big Lake.

Ribbons were given to the best dancers and for other competitions during the weekend. Also presented with ribbons were Mr. and Mrs. Reyes Tambunga Cisneros. Special thanks went to the Tambunga family committee for all the hard work that was put into the weekend.

Out-of-town families came from Houston, Big Spring, San Angelo, Sonora, Big Lake, Euless, Midland, Odessa, Austin, Dallas, Hurst, Arlington, El Paso, Rocksprings, Fort Lauderdale, FL, Lake Charles, LA, and Germany.

THE OZONA UNITED METHODIST CHURCH WILL HOST a program by the Huston-Tillotson College Choir on Sept. 18.

Huston-Tillotson College Choir To Appear At Methodist Church

The Huston-Tillotson College Choir will be in Ozona on Sept. 18 at 7 p.m. at Ozona United Methodist Church. The program will include gospel, spiritual, classical and popular music. The concert is open to the public and everyone is urged to be at

Ozona United Methodist Church. The choir will also perform on Sunday morning. A covered dish luncheon will follow the 11 a.m. service. Huston-Tillotson was the result of a union of two church related col-

leges founded for African-Americans in the 1870s. The college is dedicated to its purpose of providing a program which addresses the necessary skills, knowledge, experience, and attitudes essential for success in the 21st century.

Are You Sharing a P.O. Box?! Things You Should Know!!

by Ernest T. Jones, Postmaster

In the three months I have been here in Ozona, I average 3 phone calls per week concerning forwarding of mail.

Main Problem:

P.S. Form 1093, application for P.O. Box service requires a signature. The signature on that line is known to the Postal service as The Box Customer.

lomer. He/she is the one responsible for payment of box rent.

If your wife, husband, boyfriend, sister, brother, etc...is the Box Customer, it becomes his/her responsibility to forward your mail. (D.M.M. 951.753) Only the box customer may file a Change of Address P.S. form 3575.

Other problems:

Correspondents cards are an excellent tool to notify someone of your new address if you have moved or do not receive mail at your previous address. Most people do not use them, thus causing mail (by Postal Regulation) to be delivered as addressed, which will cause you or someone some problems.

Automation will be playing a major part in our mail distribution in the near future. With more and more optical code readers, remote barcod-

ing, new phases in our Central Forwarding System (C.F.S.), it would be to your advantage to have the correct address.

Do your self a favor and acquire your own individual P.O. box. Efforts are on the way to purchase new P.O. boxes to add to our existing ones. Please call or come by if you have any questions. Help us in helping you receive the service you well deserve.

"Pastabilities" Enjoyed By 4-H'ers

The "pastabilities" were endless at Saturday's annual 4-H Foods and Nutrition workshop, as 48 4-H members and leaders from five counties enjoyed a bounty of delicious foods and learning activities at the Ozona United Methodist Church.

4-H members and leaders from Crockett, Sutton, Upton, Pecos and Martin Counties learned from several special sessions. Carmen Ramos shared her talents in cake decorating with the group, who then divided into teams to decorate cakes. Jane Richardson and Katherine Foley of Pecos County showed how to make delicious homemade pasta - which was later devoured by the hungry mob.

Lamb and beef sessions were presented by senior 4-H members from Crockett County. Adrienne Dicker-

son and Amy Laughlin, assisted by Trey Hale and Ty Porter, gave a talk on nutrition and preparation of lamb. JoLyn Vannoy gave a slide presentation and demonstration on cooking beef.

County Extension Agent-Home Economics Tedra Ulmer presented leader training on nutrition, choosing topics and preparing lessons for 4-H'ers, and resources for teaching foods and nutrition projects.

"We appreciate all the leaders who assisted, all the parents who came and helped us control the group, and the 4-H'ers for giving up their Saturday to learn more about foods and nutrition," said Ulmer.

Ulmer noted that the workshop kicks off the 1993-94 Foods and Nutrition Project. All youth from third

grade through age 19 are invited to participate. It is not required that youngsters compete in the food show in order to complete the food project.

"If you are not yet signed up for the foods project but would like to join us for a series of fun workshops and project lessons, please call the Crockett County Extension Office at 392-2721. As with all programs conducted by the Texas Agricultural Extension Service, the 4-H Foods and Nutrition project is open to persons of all ages, regardless of socioeconomic level, race, color, sex, religion, national origin or handicap," explained the agent.

Ulmer added that upcoming workshops will include bread-making, foreign foods and other fun activities. "Don't miss out!" she said.

NOW AVAILABLE Handpainted Pant Sets One Size Plus Sizes The Foot Note 392-5227 1003 1st St.

The Proper Focus by Charles Huffman-Faith Lutheran Church

I'll never forget the first time my grandfather let me help with the plowing on his farm. It was a big challenge for a young boy, handling that big John Deere and trying to keep the front wheels at the right distance from the furrow he'd just made. I so wanted to do a good job that I couldn't help but look back frequently to see if I was in line with the last row. Of course, after about three rounds of that, my rows looked like a snake! Then, in his kind way, he gave me some good advice: "Don't look back, or even at the ground right in front of you - but pick out a point right beside the last row at the end of the field, and keep your eyes on that". You wouldn't believe the immediate improvement!

This is an important lesson for all of us to learn. In Luke 9:62 Jesus Christ says: "Anyone who puts his hand to a plow and keeps looking back is not fit for the Kingdom of God". One of the most difficult things for Christians today is keeping the PROPER FOCUS on life. If we keep looking back at the past, or even at our present situation - whether it involves good or bad times, our view becomes blurred and distorted. If we concentrate on the worldly pleasures of the past or present, we're tempted to seek them first instead of the Kingdom of God. On the other hand, if our thoughts are centered on the pain and suffering of the past or present, we may begin to doubt God's care and concern. Either way, we lose sight of the goal which God has set before us: Everlasting Life in the bliss of Heaven.

Jesus not only tells us about keeping THE PROPER FOCUS, trusting God's promise that at the end of the row He must plow was a Resurrection, and the everlasting joy of the whole world being given to Him. A Pharisee named Saul, who was a persecutor of Christ's followers, learned this lesson after he met the risen and glorified Lord on the road to Damascus. He became the greatest missionary the world has ever seen, the Apostle Paul, who was sent to the Gentiles. To the believers in Philippi he wrote a letter in which he says in chapter 3: "I don't mean I have already reached the goal, but I eagerly go after it to make it mine because Christ Jesus made me His own. Fellow Christians, I don't think I have it in my hands, but one thing I do: I forget what is behind, reach for what is ahead, and with my eyes on the mark I go after the heavenly prize to which God has called us in Christ Jesus."

Only those who have THE PROPER FOCUS - concentrating on the goal God's given us in His Son and seeing both the past and the present in the light of His plan for their lives, will accomplish what needs to be done now and still get where they are wanting to go. So remember, fellow Christians, that our Lord and Savior kept His eyes on the Victory - over Sin, Death, and the Evil One - and got it! Now He's given the Victory to you and I, as Paul declares in Galatians 3: "All of you who were Baptized into Christ have put on Christ". Through the Holy Spirit Jesus now lives daily in us, empowering us to lose our self-centeredness and enabling us to look beyond the past and the present to the ultimate goal of everlasting life. In this way the opportunities and the disappointments all take on meaning towards our destiny with our heavenly Father. To learn this is the will of our Lord - who has earned forgiveness of sins, salvation, and a new life for each of us. We can live day-by-day with THE PROPER FOCUS, because Jesus Christ lives in us!

Jackie Johnson

Jackie Johnson, Junior High Library Aide

Jackie Johnson has been the library aide at Ozona Junior High for two years. Jackie, in addition to general library duties, will be helping students select interesting books to read as well as assisting them with research projects.

Mrs. Johnson graduated from Houston High School in Houston, MO, and is currently working on a

computer science degree at Angelo State University. She is married to Coach Rodney Johnson, math teacher and coach at Ozona Junior High. They have three children, Kayla - 6 years old, Tara-20 months old, and Ryan - 1 month old.

Mrs. Johnson enjoys working with the students at Ozona Junior High and is looking forward to a great year.

Students Probe For Artifacts In Archaeological Dig

The sixth grade at Ozona Junior High spent two weeks on an interdisciplinary unit on Egypt involving activities in social studies, science, English and math. The culminating activity included an archaeological dig at the Crockett County Road Department.

Dr. Renee Schultz created facsimiles of Egyptian pottery. The students used a compass to locate the archaeological site prepared by sixth grade teachers. Each group measured off a square yard and staked it to designate a digging site.

The groups used tools to locate, clean and catalogue the artifacts they found.

Classroom activities the next day involved assembling the pieces and interpreting the hieroglyphics on the artifacts.

As well as being an academic learning experience, the students learned to cooperate in small teams. Each person in the team had a responsibility which would affect the whole teams' grade.

This interesting approach to education was made possible with the help of Richard Sanchez, Adam De La Garza, Dena Porter who provided refreshments, Neal Ulmer who filmed the dig and Fred Deaton who supplied material and guidance.

Special thanks go to the Crockett County Road Department for the use of their property.

THESE SIXTH GRADE STUDENTS are pictured designating their archaeological digging site with stakes. The area had been planted with facsimiled artifacts by the sixth grade teachers. The students have been studying Egypt in Social Studies, math, English and science for the last two weeks.

Photo by Neal Ulmer

Ozona Primary School Awarded \$250

The American Heart Association has awarded Ozona Primary School \$250 to purchase physical education equipment. The award was a direct result of the excellent job that Ozona Primary students did in raising \$5,071

for the Jump Rope for Heart campaign last year. They were top money raiser in the Central Texas, Concho Valley region. There are approximately 50 schools in this region.

Bobbie Renfro, P.E. teacher at Ozona Primary said, "We couldn't be successful without the students trying their hardest and the parents supporting us."

New Faces At Ozona Primary School This Year

Adriana Cox

Mrs. Adriana Cox joined the Ozona Primary School staff this fall as teacher of the pre-kindergarten 3-year-olds.

A graduate of Abilene Christian University with a bachelor of science in education, she previously taught in Jacksonville's pre-K 4-year-old program and in the early childhood/special education department at Rotan.

"I am excited about being here, and I am looking forward to a great year!" said the Fairbanks, Alaska, native. "I love my classes!"

Mrs. Cox and her husband John are the parents of two boys, Stefan, age 3, and Cameron, age 15 months.

Her hobbies are crafts, sports and reading.

Lynette Rodriguez

Lynette Rodriguez is new on staff at Ozona Primary School where she works as a Chapter I aide under Rosemae Whitehurst.

Before accepting the job with the school, Mrs. Rodriguez was employed by Crockett County Water Control. She attended American Commercial College.

Being with her husband Johnny and their children and seeing her mother are important to Mrs. Rodriguez. Lynette and Johnny are the parents of two children, John Bailey, a fourth grader at Ozona Intermediate School, and Janet, a second grader at Ozona Primary.

Leticia Payne

Ozona native Leticia Payne is new on the faculty at Ozona Primary School. She works as a Chapter I teacher aide under Rosemae Whitehurst. Mrs. Payne taught the 2 and 3-year-old toddler class at Ozona Community Center.

She is a graduate of Ozona High School and attended American Commercial College. Crafts and being with her family are Mrs. Payne's interests away from work.

Leticia and Willie Payne Jr. are the parents of two children, Brandon, a first grader, and Matthew, who attends Kiddie Klub at Ozona Community Center.

Mary Phillips New Pre-Kinderergarten Teacher

New teacher Mary Phillips is a familiar face to many who have occasion to be in the Ozona Primary building. She spent much of last year there as a substitute. This year she is on staff as the teacher of pre-kindergarten 4-year-olds.

Previous teaching experience includes special education classes for first, second and third graders in Albany, special education/early childhood classes in the Abilene ISD, and early childhood classes in Tye and Baird. Mrs. Phillips also taught for four years in a private pre-school program at Lexington, KY. She earned a bachelor of science in elementary education from Texas Tech University at Lubbock.

Mrs. Phillips enjoys reading, doing needlepoint and crafts. She and her husband, Gerry, have three children, Rebecca, age 10; Jonathon, age 8; and Tyler, age 6.

If you are ever at a loss to support a flagging conversation, introduce the subject of eating.
-Leigh Hunt

MARY PHILLIPS IS THE NEW PRE-KINDERGARTEN TEACHER at Ozona Primary School this year. She is pictured with some of her students.

PUBLIC NOTICE BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS SPECIAL ELECTION NOVEMBER 2, 1993

PROPOSITION NO. 1 ON THE BALLOT

Senate Joint Resolution 19 proposes a constitutional amendment that would authorize the Texas Legislature to provide for the issuance of bonds for the state financing of start-up costs for historically underutilized businesses. The amendment provides that the legislature by law may establish a Texas historically underutilized business capital growth and start-up fund. The money in the fund may be used without further appropriation and only for a program established by the legislature to aid in the start-up costs of a historically underutilized business, as defined by the legislature. To carry out the program, the legislature may issue up to \$50 million of general obligation bonds to provide funding. The legislature may require review and approval of the issuance of bonds, the use of the bond proceeds, or of the rules adopted by an agency to govern use of the bond proceeds. Bonds authorized by the amendment constitute a general obligation of the state.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to provide for the issuance of \$50 million of general obligation bonds for the recovery and further development of the state's economy and for increasing job opportunities and other benefits for Texas residents through state financing of the start-up costs of historically underutilized businesses."

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 86 proposes a constitutional amendment authorizing the legislature, by general law, to exempt from ad valorem taxation all or part of real and personal property used, constructed, acquired, or installed wholly or partly to meet or exceed rules or regulations adopted by any environmental protection agency of the United States, Texas, or a political subdivision of this state for the prevention, monitoring, control, or reduction of air, water, or land pollution. The amendment applies to real and personal property used as a facility, device, or method for the control of air, water, or land pollution that would otherwise be taxable for the first time on or after January 1, 1994. The amendment does not authorize the exemption from ad valorem taxation of real or personal property that was subject to a tax abatement agreement executed before January 1, 1994.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to promote the reduction of pollution and to encourage the preservation of jobs by authorizing the exemption from ad valorem taxation of real and personal property used for the control of air, water, or land pollution."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 3 proposes a constitutional amendment to clear land titles in which the State of Texas relinquishes and releases any claim of sovereign ownership or title to the lands and minerals within the Shelby, Frazier, and McCormick League (now located in Fort Bend and Austin counties) arising out of the interest in that league originally granted under the Mexican Colonization Law of 1823 to John McCormick on or about July 24, 1824, and subsequently voided by the governing body of Austin's Original Colony on or about December 15, 1830. Title to such interest in the lands and minerals is confirmed to the owners of the remaining interests in such lands and minerals.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing for the clearing of land titles by the release of a state claim in a fractional interest, arising out of the voiding of an interest under a Mexican land grant, to the owners of certain property in Fort Bend and Austin counties."

PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 49 proposes a constitutional amendment that would prohibit a state personal income tax without voter approval and would dedicate the proceeds of any income tax, if enacted, to property tax relief and education. The amendment provides that a general law enacted by the legislature that imposes a tax on the net incomes of natural persons, including a person's share of partnership and unincorporated association income, must provide that the portion of the law imposing the tax not take effect until approved by a majority of the registered voters voting in a statewide referendum held on the question of imposing the tax. The referendum must specify the rate of the tax that will apply to taxable income.

The amendment also provides that a general law enacted by the legislature that increases the rate of the tax, or changes the tax in a manner that results in an increase in the combined income tax liability of all persons subject to the tax, may not take effect until approved by a majority of the registered voters voting in a statewide referendum held on the question of increasing the income tax. The referendum must specify the manner in which the proposed law would increase the combined tax liability of all persons subject to the tax. The legislature may repeal, or amend without increasing, a tax approved by the voters without submitting the amendment or the repeal to the voters. If the legislature repeals a tax approved by the voters, the legislature may only reenact the tax without voter approval if the effective date of the reenactment of the tax is within one year of the effective date of the repeal of the tax.

The amendment also provides that, in the first year in which an income tax is imposed, and during the first year of any increase in the tax, not less than two-thirds of all net revenues from the tax shall be used to reduce the rate of ad valorem maintenance and operation taxes levied for the support of primary and secondary education. In subsequent years, not less than two-thirds of all net revenues of the tax shall be used to continue such ad valorem tax relief. The net revenues of the tax remaining after the dedication of money for reduction of ad valorem maintenance and operation taxes shall be used for support of education. The maximum rate at which a school district may impose ad valorem maintenance and operation taxes is reduced by an amount equal to one cent per \$100 valuation for each one cent per \$100 valuation that the school district's ad valorem maintenance and operation tax is reduced by the minimum amount of money dedicated under the amendment, provided that a school district may subsequently increase the maximum ad valorem maintenance and operation tax rate if the increased maximum rate is approved by a majority of the voters of the school district voting at an election called and held for that purpose. The portions of the amendment relating to dedicating tax revenues to reduce the rate of ad valorem maintenance and operation taxes apply on or after the first January 1 after the date on which an income tax takes effect, except that if the income tax begins to apply on a January 1, the amendment applies to ad valorem maintenance and operation taxes levied on or after that date.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment prohibiting a personal income tax without voter approval and, if an income tax is enacted, dedicating the revenue to education and limiting the rate of local school taxes."

PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 18 proposes a constitutional amendment that would authorize the legislature to prescribe the qualifications of sheriffs. Currently, the constitution authorizes the legislature to prescribe the duties, perquisites, and fees of office, but not the qualifications for the office of sheriff.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to allow the legislature to prescribe the qualifications of sheriffs."

PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 21 proposes a constitutional amendment that would abolish the office of county surveyor in Jackson County. The amendment also provides for the powers, duties, and functions of the county surveyor to be transferred to the county officer designated by the commissioners court.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment abolishing the office of county surveyor in Jackson County."

PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 57 proposes a constitutional amendment that repeals article XII, section 6, of the Texas Constitution, which currently provides that no corporation shall issue stock or bonds except for money paid, labor done, or property actually received, and that all fictitious increase of stock or indebtedness shall be void.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment repealing certain restrictions on the ability of corporations to raise capital."

PROPOSITION NO. 8 ON THE BALLOT

House Joint Resolution 22 proposes a constitutional amendment that would authorize the commissioners court of McLennan County to call an election to abolish the office of county surveyor. The office of county surveyor will be abolished if a majority of the qualified voters of McLennan County voting on the question favor the abolition. If the office of county surveyor is abolished, the amendment requires the maps, field notes, and other records in the custody of the county surveyor to be transferred to the county clerk of McLennan County. After abolition, the amendment also grants the commissioners court of McLennan County the authority to employ or contract with a qualified person to perform any of the functions that would have been performed by the county surveyor if the office had not been abolished.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to abolish the office of county surveyor in McLennan County."

PROPOSITION NO. 9 ON THE BALLOT

Senate Joint Resolution 19 proposes an amendment to article VIII, section 13 of the Texas Constitution that would modify the provisions for the redemption of real property sold at a tax sale. The amendment deletes current language in article VIII, section 13 that allows the legislature to provide for the sale of property without trial to pay for delinquent taxes. It also states that the deed to the new owner vests a good and perfect title subject only to redemption as set out in this amendment or impeachment for fraud. Language is added limiting application of the current two-year redemption period to former owners of residence homesteads and land designated for agricultural use sold for unpaid taxes. When property is sold as the result of a suit to enforce collection of unpaid taxes, the amendment would allow the legislature to limit redemption to property used as a residence homestead or designated for agricultural use at the time the suit was filed. The amendment creates a second type of redemption for former owners of real property when property is neither a residence homestead, nor designated for agricultural use. These owners would have a six-month period in which to redeem their property by paying the amount of money paid for the property, including the Tax Deed Recording Fee, all taxes, penalties, interest, and costs paid plus an amount not exceeding 25 percent of the aggregate total. The amendment applies to redemption of properties sold at a tax sale for which the purchaser's deed is filed on or after January 1, 1994. For redemption of properties sold at a tax sale for which the purchaser's deed was filed before January 1, 1994, the former law is applicable and remains in effect.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to modify the provisions for the redemption of real property sold at a tax sale."

PROPOSITION NO. 10 ON THE BALLOT

Senate Joint Resolution 34 proposes a constitutional amendment that adds a

new section 49-b-2 to article III of the Texas Constitution. This new section provides that, in addition to the general obligation bonds authorized to be issued and sold by the Veterans' Land Board (the "Board") by sections 49-b (\$950 million) and 49-b-1 (\$1.3 billion) of article III, the board may provide for, issue, and sell general obligation bonds of the state in an amount not to exceed \$750 million to provide financing to Texas veterans. \$250 million of the bonds authorized by this new section shall be used to augment the Veterans' Land Fund (the "Land Fund"). The Land Fund shall be used by the Board to purchase lands situated in Texas owned by the United States government, an agency of the United States government, the State of Texas, a political subdivision or agency of the State of Texas, or a person, firm, or corporation. The lands shall be sold to veterans in quantities, on terms, at prices, and at fixed, variable, floating, or other rates of interest determined by the Board. Lands in the Land Fund that are offered for sale to veterans and that are not sold may be sold or resold to the purchasers in quantities, terms, prices, and rates of interest determined by the Board.

New section 49-b-2 creates the Veterans' Housing Assistance Fund II (the "Housing Fund II"), and \$500 million of the general obligation bonds authorized by the section shall be used for the Housing Fund II. The Housing Fund II is a separate and distinct fund from the Veterans' Housing Assistance Fund (the "Housing Fund") established under section 49-b-1 of article III. Money in the Housing Fund II shall be administered by the Board and shall be used to make home mortgage loans to veterans for housing within this state in quantities, on terms, and at fixed, variable, floating, or other rates of interest determined by the Board. The principal of, and interest on, the general obligation bonds authorized by this section for the benefit of the Housing Fund II shall be paid out of the money of the Housing Fund II. The principal of, and interest on, the general obligation bonds authorized by section 49-b-1 of article III for the benefit of the Housing Fund shall be paid out of money in the Housing Fund. If there is not enough money in the Land Fund, the Housing Fund, or the Housing Fund II, as the case may be, available to pay the principal of, and interest on, the general obligation bonds authorized by this section or by sections 49-b or 49-b-1 of article III, there is appropriated out of the first money coming into the treasury in each fiscal year an amount that is sufficient to pay the principal of, and interest on, the general obligation bonds that mature or become due during that fiscal year.

If the Board determines that assets from the Land Fund, the Housing Fund, or the Housing Fund II are not required for purposes of the fund, the Board may transfer the assets to another of those funds or use the assets to secure revenue bonds issued by the Board. The revenue bonds shall be special obligations of the Board and payable only from and secured by receipts of the funds, assets transferred from the funds, and other revenues as determined by the Board and shall not constitute indebtedness of the State of Texas or the Board. The Board may issue revenue bonds from time to time, which bonds may not exceed an aggregate principal amount that the Board determines can be fully retired from the receipts of the funds. The revenue bonds shall be sold in forms, denominations, and in installments, and bear a rate or rates of interest as the Board determines.

The general obligation bonds authorized to be issued by the Board by this section or by sections 49-b and 49-b-1 of article III shall be issued and sold in forms and denominations, on terms, at times, in the manner, at places, in installments, and shall bear a rate or rates of interest the Board determines. The bonds shall be incontestable after execution by the Board, approval by the Attorney General of Texas, and delivery to the purchaser.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing issuance of \$750 million in general obligation bonds to augment the Veterans' Land Fund and the Veterans' Housing Assistance Fund and to fund the Veterans' Housing Assistance Fund II."

PROPOSITION NO. 11 ON THE BALLOT

Senate Joint Resolution 31 proposes a constitutional amendment relating to the duties of trustees of local retirement systems which provide retirement and related disability and death benefits for public officers and employees and that do not belong to a statewide retirement system. The amendment provides that the

NAFTA Information Presented To Lions Club By WTU Manager

Ozona Lions Club members learned more about the North American Free Trade Agreement Thursday during a talk by Robert Bryson. Bryson, local manager of West Texas Utilities, says his company is 100% behind the agreement.

NAFTA is scheduled to take effect Jan. 1, 1994, if it is approved by congress. The agreement, if approved, will bring Mexico into a free trade zone created by the United States and Canada in 1988. The agreement would, over a 15 year period, end tariffs and remove other barriers to movement of goods, services and investments among the three countries.

Supporters of the agreement maintain it will create a market of 360 million consumers and \$6 trillion of production and create at least 400,000 U.S. jobs by 1995.

Opponents say NAFTA will encourage U.S. businesses to move to Mexico, costing U.S. workers their jobs.

Handouts of information provided

by Bryson at the meeting included as the final question in one section "Why does Ross Perot oppose NAFTA if it's so great?"

The answer given is: "Ross Perot, along with other NAFTA opponents, are concerned about American job loss and lower wages. This myth is left over from the '70s when many companies relocated to Mexico to take advantage of low wages and lax environmental policies. This is not the case today. Mexico has implemented and enforced strict environmental policies. In addition, companies discovered that relocating to Mexico actually was more expensive. American workers have proven to be five times more productive. In actuality, NAFTA is predicted to create one million jobs by 1995."

Included in the presentation was information on NAFTA and the environment, Mexican labor issues, U.S. jobs and the economy, editorials and articles from major newspapers and government report figures.

board of trustees of such a system shall (1) administer the system of benefits; (2) hold the assets of the system for the exclusive purposes of providing benefits to participants and their beneficiaries and defraying reasonable expenses of administering the system; and (3) select legal counsel and an actuary and adopt sound actuarial assumptions to be used by the system.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing that the trustees of a local public pension system must administer the system for the benefit of the system's participants and beneficiaries."

PROPOSITION NO. 12 ON THE BALLOT

House Joint Resolution 23 proposes a constitutional amendment providing that any person accused of a violent or sexual offense committed while under the supervision of a criminal justice agency of this state or a political subdivision of this state for a prior felony may, after a hearing and evidence substantially showing the guilt of the accused, be denied bail pending trial. If the accused is not, however, accorded a trial within 60 days from the time of his incarceration upon the accusation or indictment, the order denying bail shall be set aside unless a continuance is obtained upon the request of the accused. In the amendment, the term "violent offense" means murder, aggravated assault (if a deadly weapon was used or exhibited during the commission of the assault), aggravated kidnapping, or aggravated robbery. The term "sexual offense" means aggravated sexual assault, sexual assault, or indecency with a child.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment permitting the denial of bail to certain persons charged with certain violent or sexual offenses committed while under the supervision of a criminal justice agency of the state or a political subdivision of the state."

PROPOSITION NO. 13 ON THE BALLOT

Senate Joint Resolution 13 proposes a constitutional amendment that amends article VII, section 17(a), of the Texas Constitution to provide that, of the \$100 million currently appropriated by that section for the use of public institutions of higher education during each fiscal year, those institutions may also utilize this money to pay for acquiring, constructing, or equipping or for major repair or rehabilitation of buildings, facilities, other permanent improvements, or capital equipment used jointly for educational and general activities and for auxiliary enterprises to the extent of their use for educational and general activities. For the five-year period beginning on September 1, 2000, and for each five-year period thereafter, the legislature, during a regular session that is nearest, but preceding, a five-year period may, by a two-thirds vote of the membership of each house, increase the amount of the \$100 million constitutional appropriation for the five-year period. The amendment also reflects name changes that have been made to some of the institutions of higher education for which such funding is available. The amendment adds the Texas State Technical College System to those institutions eligible to receive such funding, but limits its allocation of the annual appropriation to 2.2 percent of the total appropriation each fiscal year. The amendment also provides that each governing board authorized to participate in the distribution of money under article III, section 17, may also issue bonds and notes for the purposes of refunding bonds or notes issued under that section or prior law for the purposes of acquiring capital equipment, library books and library materials, paying for acquiring, constructing, or equipping or for major repair or rehabilitation of buildings, facilities, other permanent improvements, or capital equipment used jointly for educational and general activities and for auxiliary enterprises to the extent of their use for educational and general activities. The amendment deletes language in article III, section 17, which authorizes the legislature to designate a single agency to issue such bonds or notes in lieu of the governing bodies, and to transfer to that agency the authority to collect and pledge notes to the payment of such bonds and notes as directed by the governing body of each eligible institution. Funds appropriated under article III, section 17, may not be used for the purpose of constructing, equipping, repairing, or rehabilitating buildings or other permanent im-

provements that are to be used only for student housing, intercollegiate athletics, or auxiliary enterprises.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment relating to the amount and expenditure of certain constitutionally dedicated funding for public institutions of higher education."

PROPOSITION NO. 14 ON THE BALLOT

Senate Joint Resolution 45 proposes a constitutional amendment that adds a new subsection (e) to article III, section 49-h, of the Texas Constitution. The new subsection provides that, in addition to the amounts authorized by subsections (a) (\$500 million), (c) (\$400 million), and (d) (\$1.1 billion) of section 49-h, the legislature may authorize the issuance of up to \$1 billion in general obligation bonds and may use the proceeds of the bonds for acquiring, constructing, or equipping new corrections institutions, including youth corrections institutions, and mental health and mental retardation institutions and for major repair or renovation of existing facilities of those corrections and mental health and mental retardation facilities. The amendment also provides that the provisions of subsection (a) of section 49-h, relating to the review and approval of bonds, and the provisions of subsection (b) of section 49-h, relating to the status of the bonds as a general obligation of the state and to the manner in which the principal and interest on the bonds are paid, apply to bonds authorized by this amendment.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance of up to \$1 billion in general obligation bonds payable from the general revenues of the state for projects relating to facilities of corrections and mental health and mental retardation institutions."

PROPOSITION NO. 15 ON THE BALLOT

House Joint Resolution 37 proposes a constitutional amendment that would authorize the county commissioners court of a county to call an election to abolish the office of county surveyor. The office of county surveyor is abolished if a majority of voters of the county voting in the election approve the measure. If the office of county surveyor is abolished, the maps, field notes, and other records of the county surveyor are transferred to the county officer or employee designated by the commissioners court.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to permit the voters of a county to decide, at an election called by the commissioners court, whether to abolish the office of county surveyor in the county."

PROPOSITION NO. 16 ON THE BALLOT

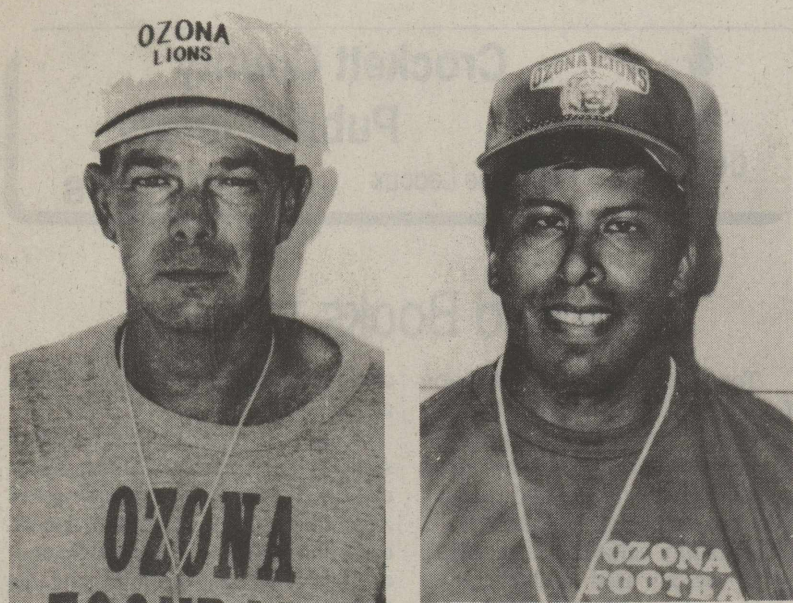

Senate Joint Resolution 44 proposes an amendment to article III, section 49-(b) of the Texas Constitution, which currently limits the principal amount of bonds outstanding at one time for the Texas agricultural fund to \$25 million and for the rural microenterprise development fund to \$5 million. The amendment would raise the principal amount limit for the Texas agricultural fund to \$100 million. The amendment would also make the principal amount limit for each fund apply to the total principal amounts of both bonds and notes issued or sold rather than just the principal amounts of bonds outstanding at one time.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing up to a total of \$100 million in bonds and notes to be issued or sold to finance the Texas agricultural fund for providing financial assistance to develop, increase, improve, or expand the production, processing, marketing, or export of crops or products grown or produced primarily in this state by agricultural businesses domiciled in the state."

Este es el informe explicatorio sobre la enmienda propuesta a la constitución que aparecerá en la boleta el día 2 de noviembre de 1993. Si usted no ha recibido una copia del informe en español, podrá obtener una gratis por llamar al 1/800/252/8683 o por escribir al Secretario de Estado, P.O. Box 12060, Austin, Texas 78711

Wilson Joins The Lions Coaching Staff

by Neal Ulmer, Stockman sports writer

Tommy Wilson has been a familiar face to the people of Crockett County for 21 years. Originally from Abilene and a graduate of Abilene High, he received a degree from Angelo State University with a P.E. major and an English minor.

In 1971, Wilson taught all subjects as a sixth grade teacher and coached junior high football and track. Two years later he moved to the high school and was head boys' basketball coach until the arrival of John Curry. Coach Wilson resigned in 1982 to pursue a position as pumper with Amox Oil & Gas Inc.

Currently, Coach Wilson is teaching health in high school and boys' physical education in the junior high school. He coaches the offensive and defensive line for varsity football, junior varsity boys' basketball, and boys' and girls' high school track.

Fishing, boating, hunting, and camping are other interests he enjoys when his busy schedule allows. Wilson is married to Leslie and they have two daughters: Adriane, 22 years old and attending Southwest Texas State; and Myra, 18 years old attending McMurry college.

His personal goal is for the football team to win first place in district. Other goals he hopes to accomplish are helping the students to see their own potential and achieve it. Wilson said, "These players have a good positive attitude and are very teachable and coachable."

Delgado Returns To Ozona To Coach

by Neal Ulmer, Stockman sports writer

An Ozona native and a 1985 graduate of Ozona High School, David Delgado has returned home to teach and coach. The son of Mr. and Mrs. Herculano Degado, he grew up with five sisters and two brothers and was Lion quarterback during his high school career.

In 1990 Delgado graduated from Angelo State University with a bachelor's degree in P.E. and a minor in Spanish. His first teaching job was in Cedar Hill near Dallas as a high school Spanish teacher. Currently he teaches Spanish at the junior high and high school in addition to ESL (English as a Second Language) classes. His coaching duties include junior high football, basketball and baseball.

When time allows, Delgado enjoys reading, spending time with his family, and watching sports on television.

Coach Delgado and wife Gracie are glad to be back in the friendly atmosphere of Ozona and look forward to working with the people. They are expecting their first child very soon.

Delgado is a strong believer in keeping the kids in school, teaching character, and "sticking to the three R's—reading, writing, and arithmetic as basics for a well-rounded education. Other goals he hopes to attain as a coach include teaching junior high students about teamwork, responsibility, and having a winning attitude.

Iraan Gives Ozona JV Tough Loss

by Neal Ulmer, Stockman sports writer

The Ozona JV Lions suffered their second defeat of the season at the hands of the Iraan JV Braves as Ozona traveled to Iraan last Thursday, Sept. 9, and were defeated 22-7.

Coach Brad Brevard, in discussing the loss, said "We outplayed them, had about 300-yards of offense, about 16 first downs, and we just shot ourselves in the foot."

Penalties, turnovers, and just plain mental mistakes can cause a good game plan to turn bad. The Lions took the ball and drove right down the field in a 15 play-drive that took the ball to the Iraan 3-yard line. Unfortunately, backup QB Jeremie Castro threw an interception that resulted in a 102-yard touchdown. An attempted 50-yard punt by Pete Castaneda was negated due to a penalty by Ozona, and second punt attempt was blocked by Iraan on the 10-yard line, where the Braves quickly scored.

The Lions' one TD came in the second quarter on a 14-yard pass from Richard Gonzales to Jon Sanchez after a good solid drive. Several 15-yard runs in the scoring drive as well as the extra point were made by sophomore Bryan Mendez, and the end of the first half the score was at Iraan 14, Ozona 7.

In the opening second half the Lions moved the ball down the field in a 12-yard drive to the Iraan six inch line and believed they had scored, as the ball was practically touching the goal line. On fourth down, a delay-of-game penalty was called against the Lions which placed the ball back on the 5-yard line. A pass play in the end zone was broken up by a defender and the Braves took over on downs.

After good defense by the Lions and a forced Brave punt, the Lions got the ball back and drove to their 20-yard line. A bad break came again as Gonzales threw an interception that was run back to the Lion 20-yard line. Within four plays the Braves had scored and converted two extra points, and the quarter ended with Iraan leading 22-7. A last chance to score in the fourth period was unsuccessful after a reverse pass play was missed.

Brevard said, "we had a lot of bad luck—two interceptions and two fumbles—but we had a chance to win. They are a good ball club, but they also had several turnovers."

Having a good game for the Lions were Bryan Mendez, Steve Montes, and Patrick Sanchez. Richard Gonzales looked very good at QB, according to Brevard, and has started to gain some poise. Receiver Lynne Haire caught 3 passes for 40 yards and flanker Jon Sanchez caught 3 passes for 60 yards.

Coach Brevard stated, "This team recognizes they are making mental mistakes but they know what it takes to win."

Thursday evening, Sept. 16, the Lions will take on the Sonora Broncos at 6:30 p.m. in Lion Stadium.

Cross Country Team Shines In Odessa

The Ozona boys' cross country team was runner-up at the Ector County ISD cross country meet Sept. 11 in Odessa. The boys were led by Bryan Valdez's fifth place finish and the team's efforts for each one to finish in the top 15 of 90 runners.

"The top five boys did an outstanding job by finishing in the top 15," said Coach Pete Maldonado.

Bryan Valdez, John Ramirez and Johnny Porras are returning lettermen from a team which placed fourth at regionals last year.

The returning lettermen are joined by some great prospects from the junior high program where they were district champions two years in a row. The boys' goal is to make it back to the state cross country meet. The team failed to make it to the state meet last year for the first time since the start of the program.

The prospects from the junior high are: Cody Porras, Charles Villarreal, Laramie Campbell and Pete Castaneda. The team will also be helped by Chris Sanchez, Anthony Sanchez and J. J. Lozano.

In Odessa, the boys' team finished second behind Plains, the Class A state champion last year. "We were only nine points behind the defending state champions; that's nothing to be ashamed of," said Maldonado.

Team results were: Plains 37, Ozona 46, McCamey 87, Central JV 138, Stanton 144, Coahoma 150 and

Iraan 187.

Individual placings for Ozona were: 5 Bryan Valdez, 9 John Ramirez, 10 Cody Porras, 13 Charles Villarreal, 15 Johnny Porras, and 18 Pete Castaneda. There were 90 runners in this division.

Ozona only has three girls running, and they were led by junior letterman Heather Hall who was 14th at regional last year and who is trying to make it to the state cross country meet this year. "This is a great way to start the year for Heather. She wants to make it to the state meet, and she sure is showing it by the way she is running," said the coach.

Heather placed second with a time of 14:10. Dana Bishop was 40th with 17:36 and Jamie Porter was 64th out of 74 girls running in this division.

Cross country is the fall sport for the track and field athlete and is mainly concentrated for distance runners. The boys run 3.1 miles or five kilometers.

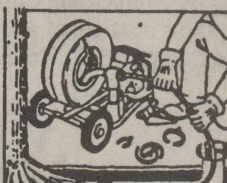

The girls run a distance of two miles or 3200 meters. The team is made up of seven runners, and the top five places count toward the final score. The team with the lesser score wins the meet.

"Ozona has had a great tradition of distance runners and will continue to add to the list of great athletes," Maldonado said. This group of boys will try to best the effort of the 1989 Ozona team that finished third at the state meet.

The Ozona cross country teams will compete in the San Angelo cross country meet at Santa Fe Golf Course on Sept. 18. The girls will run at 10 a.m. with the boys' team running at 11 a.m.

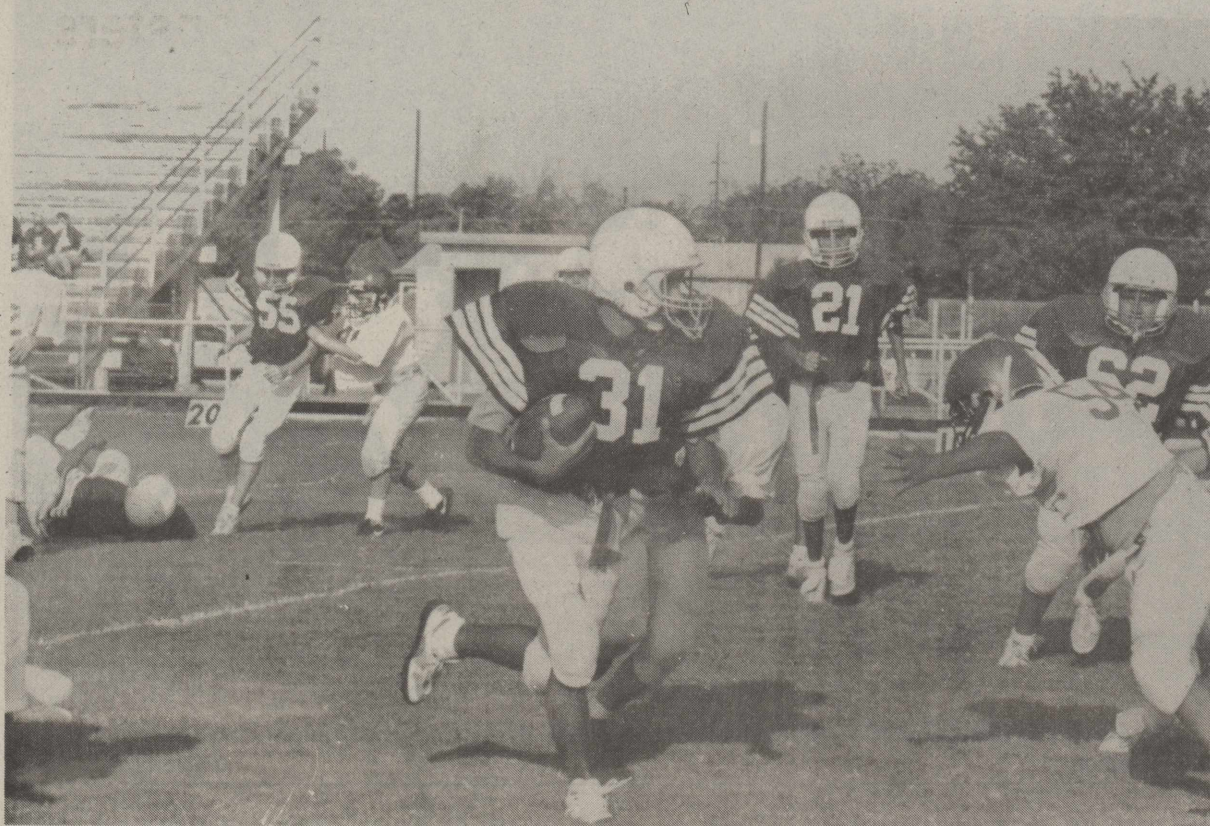

Interested individuals in the community who would like to train with the high school teams are welcome. The teams have a morning run of 50 minutes each morning leaving from Fierro Shell at 6 a.m. They work out at 2:30 p.m. in the fieldhouse.

SEVENTH GRADE CUB ALEX CASTENADA is looking for running room against a Grape Creek defender at Lion Stadium last Thursday.
Photo by Neal Ulmer

Eighth Grade Cubs Down The Eagles

by Neal Ulmer, Stockman Sports-writer

Thursday night might have been a good time to ask eighth grader Brian Badillo about those winning lottery numbers—it was definitely his night, as he ran for an impressive (unofficial) 240 yards in the Cubs' 22-14 win over Grape Creek.

Badillo's yardage was as impressive as his scoring, as he accounted for every Cub point—even having two touchdowns called back.

Ozona could have scored early in the first quarter on a 28-yard run by Badillo, but a holding penalty caused it to be called back. Lost fumbles also kept the Cubs from scoring.

Coach John Cox stated, "We had some problems. We got sloppy, we had problems with executions, and with just keeping our head in the game."

The second quarter was the start of the Cubs' coming together as Badillo, with good blocking, scored on a 49-yard run early in the second quarter. The linemen did an excellent job of blocking, adjusting to an eight-

man front.

Other good scoring drives came in the third and fourth quarters. After the Cubs received the ball on their own 17-yard line, Badillo, ran the ball for an 83-yard score on the first play.

The Cubs' last score came on a 57-yard run by Badillo. Grape Creek had two TD's in the fourth quarter, but one was called back due to a penalty. Their scoring drive was topped off with a four-yard run.

The defense did an excellent job of containing the Eagles, allowing them to score only in the latter part of the game. Scoring by Grape Creek was mainly due to the fact that the

Cubs starting players were taken out to avoid running up the score. Doing a good job in defense were Albert Flores, Justin Browne, Gary Dominguez and Raymond Longoria.

Coach Lee Gonzales told his players, "The victory is not such a big thing, but it is how you win that counts. Whether you win by one or a thousand points, it's how you accomplish that victory that really matters."

If you missed seeing the Cubs win last week you'll get a chance to see them in action this Thursday, Sept. 16, in Sonora. The game will immediately follow the seventh grade game, which starts at 5 p.m.

Seventh Grade Cubs Maul Eagles

by Neal Ulmer, Stockman Sports-writer

The Seventh grade Cubs defeated the Grape Creek Eagles 28-0 during junior high football action in Lion Stadium on Thursday, Sept. 9.

Running back David Gutierrez scored a 48-yard touchdown on a handoff from QB Anthony Ortiz halfway into the first quarter. The extra point attempt failed.

After a Grape Creek fumble recovery by Brad Sullivan, the Cubs scored quickly on a 10-yard run by Matt Galindo. The two-point conversion was good on a run by QB Ortiz.

Donika Martinez, number 15 on the 7th grade Cubs roster, made history in Crockett County by entering the second quarter of the game as the first female player on an Ozona football team. Donika, as fullback, carried the ball twice for five yards. She spent most of her time playing defensive end, where she made several good tackles.

The Cubs gathered up two more

TD's in the fourth quarter. One score was a 36-yard run by Galindo with the two-point conversion by Alex Castaneda. The final TD was scored on a 1-yard plunge by QB Brad Sullivan, after a good 24-yard run by Alex Castaneda. The point after failed due to a fumble.

Coach Rodney Johnson stated, "We played real good, with a couple of miscues, but overall the kids did a great job." There were also two holding penalties, one of which caused a touchdown to be called back.

Overall, the 7th grade Cubs played good defense holding the Eagles scoreless. Putting in good defensive efforts were Matt Galindo, Jesse Salazar, Robert Kelly, and Larry Don Luckie.

The Seventh Grade Cubs will be playing their next game at 5 p.m. on Thursday, Sept. 16, in Sonora.

Emergency Farm Loan Applications Being Accepted

Applications for emergency farm loans for losses caused by drought, high winds, range fire between Jan. 3, 1993, and April 19, 1993, are being accepted at the Farmers Home Administration (FmHA) office located in Eden, Texas, FmHA County Supervisor Fred Greenway said recently.

Crockett is one of four in Texas recently named by secretary of Agriculture Mike Espy as eligible for loans to cover part of actual production losses resulting from the drought, high winds, range fire.

Fred Greenway said farmers may be eligible for loans of up to 80 percent of their actual losses or the operating loan needed to continue in business or \$500,000, whichever is less. For farmers unable to obtain credit from private commercial lenders, the interest is 4.5 percent.

"As a general rule, a farmer must have suffered at least a 30 percent loss of production to be eligible for an FmHA emergency loan," Mr. Greenway said. Farmers participating in the PIK or Federal Crop Insurance program will have to figure in proceeds from those programs in determining their loss.

"Applications for loans under this emergency designation will be accepted until April 11, 1994, but farmers should apply as soon as possible. Delays in applying could create backlogs in processing and possibly over into the new farming season," Mr. Greenway said.

FmHA is a credit agency of the U.S. Department of Agriculture. It is authorized to provide disaster emergency loans to recognized farmers who work at and rely on farming for a substantial part of their living. Eligibility is extended to individual farmers who are U.S. citizens and to farming partnerships, corporations or co-operatives in which U.S. citizens hold a majority interest.

The FmHA office in Eden is open from 8:00 a.m. to 5:00 p.m. Monday through Friday.

If modern civilized man had to kill the animals he eats, the number of vegetarians would rise astronomically. -Christian Morgenstern

Crockett County Public Library News

By Louise Ledoux

Banned Books Week

Too much sex. The glorification of witchcraft. Intolerance for hunters. Religion. Halloween. A sad ending. A poor portrayal of Jews. Mythological figures like Zeus and Pollo threaten Western civilization's foundation. A lack of family values. Racism. These are all reasons used to challenge or ban books from schools and libraries across the U.S. in the past year.

In Brooklyn Center, NM, the Bible was challenged because its "Lewd, indecent and violent contents are hardly suitable for young students." In Eagle Pass, "Go Ask Alice" was removed from school libraries due to "objectionable language" and explicit sexual scenes. "Black Magic, White Magic" by Gary Jennings was challenged at the Ector County school library because the book might lure children into the occult. Madonna's "Sex" was challenged in Houston and Austin where public libraries were forced by court order to restrict access to the book for adults only. In Duval, FL, "Snow White" is restricted to students with parental permission because of its graphic violence.

Books like these, challenged or banned on similar grounds during the past year, will be displayed at the Crockett County Public Library during Banned Books Week - Celebrating the Freedom to Read, Sept. 27 - Oct. 1, 1993. Most of these books are well known but are considered dangerous or objectionable by individuals or groups who would deny others access to them.

als or groups who would deny others access to them.

Banned Book Week is co-sponsored by the American Library Association, the American Book-sellers Association, the Association of American Publishers, the American Society of Journalists and Authors, and the National Association of College Stores. It is endorsed by the Center for the Book of the Library of Congress. These organizations believe that most would-be book banners act with what they consider to be the highest motives - protecting themselves, their families and communities from perceived injustices and evils and preserving the values and ideals they would have the entire society embrace. The result, however, is always and ever the denial of another's right to read. CCPL believes that Americans support our basic right to read guaranteed in the First Amendment to the Constitution of the U.S.

CCPL encourages the public to view the books, posters and literature on display during Banned Books Week. Check it out. You'll be surprised at what other people do not want you to read.

Louise P. Ledoux
Crockett County Librarian

Marriage is one long conversation, chequered by disputes.
-Robert Louis Stevenson

MHMR Services Seeking Volunteers

MHMR Services for the Concho Valley is seeking volunteers in the Ozona area to assist case managers in providing outreach mental health and mental retardation services. Volunteers will receive orientation and training provided by MHMR staff and will be given the opportunity to share their experience, knowledge and skills with someone in need in Crockett County.

Volunteers serve in a variety of MHMR programs and come from diverse backgrounds and interests. However, they all share a common goal: giving of themselves to others.

Persons interested in volunteering may call Linda Stiner, MHMR Community Relations Coordinator at (915) 658-7750.

CORRECTION, PLEASE

The firetruck reported as being out of commission in a story in the Sept. 8 issue of The Stockman is not the tanker provided by the Texas Forestry Service.

The truck down for repairs is #205, a 1978 model firetruck according to fireman Dee Keilers.

New Eatery Open On The Square

Hero's Pizza opened on the square Sept. 10. The business is a partnership between Robert Searls of San Angelo, Mark Drea of Monahans and Victor Bassett of Monahans.

The Ozona location is the fourth outlet in a chain. The other pizza restaurants are located in Big Lake, Crane

and Jal, NM. The trio has a total of 10 years in the pizza business.

Sharon Farmer, formerly of Big Lake, is restaurant manager.

Hero's will be open seven days a week from 11 a.m. to 9 p.m. weekdays and from 11 a.m. to 10 p.m. Friday and Saturday.

Crockett County Sheriff's Report

Week ending Sept. 14, 1993

ARRESTS

09-07-93...41 year old Bonnie Jean Hohertz of Ozona surrendered voluntarily to sheriff's deputies on a Grand Jury indictment charging her with possession of Marijuana. She was released after posting bond. The case will be tried in District Court.

09-07-93...35 year old Daniel R. Rivera of Ozona was arrested on a warrant charging him with Probation Violation on an earlier DWI charge. He is in County Jail in lieu of bond. The case will be tried in County Court.

09-07-93...24 year old Rosendo A. Lara of Ozona was arrested on an Irion County warrant charging him with Probation Violation on an earlier DWI charge. On 09-08-93 he was turned over to Irion County officers. The case will be tried in Merton.

09-07-93...19 year old Freddy Ybarra of Ozona was returned to the Crockett County Jail from a state boot camp. He was being held on a separate charge of sexual assault. Ybarra was released on 09-03-93, after posting bond. The case will be tried in District Court.

09-08-93...26 year old Tommy Dean Coen of Lovington, New Mexico was arrested on charges of DWI. He is in County Jail in lieu of bond. The case will be tried in County Court.

09-12-93...40 year old Luis A. Martinez of Ozona was arrested on charges of Public Intoxication. He pleaded guilty in JP Court and was later released after paying his fine.

09-14-93...27 year old Juan Y. Ybarra of Ozona was arrested on charges of Public Intoxication. He pleaded guilty in JP Court and was later released after paying his fine.

INCIDENTS

09-07-93...Joel Ryals of Alabama reported the theft of 3 hubcaps from his motor home while it was parked at the Circle Bar RV park. Mr. Ryals reported that the offense occurred on 08-23-93.

09-07-93...Sarah Dellis of Ozona reported that she was threatened by another woman. The offense occurred near the high school field house. The case will be referred to the proper court for prosecution.

09-07-93...Sheriff's deputies are investigating a theft by check offense. The Crockett County Water District reported that an Ozona man paid his bill with a check written on a closed account. It appears that the suspect ignored a written notice to take care of the matter. Criminal charges will be filed.

09-09-93... Sheriff's deputies impounded a 1969 Ford van that was abandoned along I-10. The vehicle is registered to a man in Tujunfa, CA.

09-09-93...Sheriff's deputies are investigating the theft of crude oil from location owned by Energy Production Corp. The site is located on

Disaster Loans Available From Small Business Ad.

Businesses depending on farmers and ranchers in some Texas counties can now apply for low interest Economic Injury Disaster Loans from the U. S. Small Business Administration. These loans are available to help businesses meet normal operating expenses that cannot be met due to the effects of a disaster.

Drought, high winds and range fire which occurred Aug. 2, 1992, through April 19, 1993, caused many farmers and ranchers to experience reduced incomes which may have had an adverse economic effect on businesses depending upon these producers. Farmers and ranchers are not eligible for this loan program but may be eligible for disaster assistance through other Federal agencies. However, nurseries that are victims of drought disasters can apply.

Businesses located in Brewster, Pecos, Crockett, Terrell and Val Verde counties have until April 11, 1994, to file an application.

To obtain an application or receive additional information, interested business owners may call the SBA toll-free at 1-800-366-6303 or TDD 817-267-4688 for the hearing impaired.

To qualify, businesses must be small by SBA's size standard. Businesses which can meet their financial needs through other sources are not eligible.

Chamber Luncheon Today At El Chato's

Ozona Chamber of Commerce directors and merchants will meet at noon today, Sept. 15, to discuss Christmas and fall plans for the community.

The meeting will be held at Chato's.

Local DPS Communications Operator Transfers To Department of Public Safety In Kerrville

Local police communications operator Frank Galvan will transfer to DPS Kerrville, effective Oct. 18. He worked with DPS Ozona for 3 1/2 years before taking the opportunity to transfer to Kerrville, where a vacancy became available due to a retirement of one of their operators.

Frank has been an active member of the local volunteer fire department, where he last served as 2nd assistant fire chief. He was also an E.M.T. with Ozona EMS.

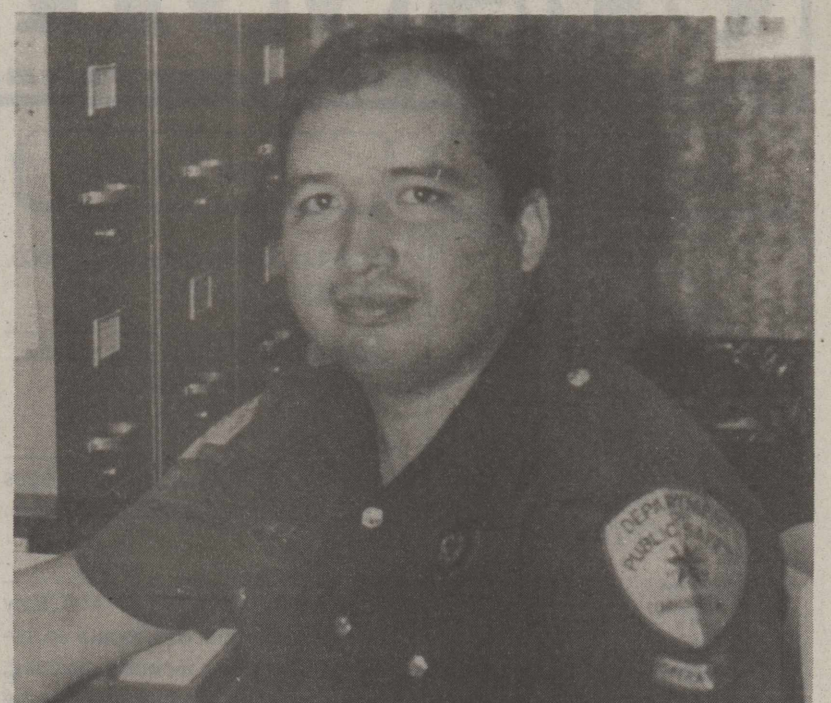

Frank's wife, Manie, and their two children, Grace (8) and Alex (2), are looking forward to the move. Manie will be employed as a medical receptionist for family practice associates. Grace will attend the 3rd grade at Nimitz Elementary. Friends and family of the Galvans bid them farewell and good luck in their new community.

Harper Trades Day Oct. 9

Harper's Chamber of Commerce is holding its 5th Annual Trades Day on Saturday, Oct. 9. This will be an all day activity in "downtown" Harper at the community park from 9 a.m. to 4:30 p.m. There is no admission charge and parking is free.

Under the spreading oak trees will be many booths selling antiques, collectibles, hand-crafted items and a wide selection of food and refreshments. There will also be free exhibits, and educational presentations, plus live music.

Trades Day is held annually for the benefit of the chamber and its senior citizen's project.
