Master Layout of High School Campus OK'd

General adoption of a master plan for the Artesia high school campus was recommended last night by a 17-man building committee.

Recommendation will be made to the board of education.

Plan calls for a new wing at corner of Tenth and Quay.

It would include space for administrative offices, a science department, commercial department, music arts, and crafts and gymnasium.

Immediately west of the wing, would join the old building.

It would be directly north of the existing pool and only a few feet from the gymnasium.

Charges Filed in Prison Farm Liquor Traffic

CHARGES—Felony charges were filed against three Artesia men in connection with attempt to smuggle liquor into state prison farm near here.

Three are being held in the county jail in lieu of \$10 bond each.

Dist. Atty. Tibo J. Chavez filed the men as Mike Lucero, Martin Sanchez, 23; and Philip Hernandez, 24. Chavez said all three are being held in lieu of previous records.

Chavez said an investigation had been held to see if such incident had been a regular occurrence at the prison farm.

Santa Fe, State Prison Warden Edwin Swope said that since the first such incident since the warden early this year, he said he had talked to the superintendent who had told him it was the first such incident at the prison farm.

This Is Artesia

Baseball officials have laid it on the line for Artesia sports fans—Having baseball costs money and the fans must put it up if the sport is to continue in Artesia. Ticket purchases are a "yes" vote.

Big Four Agree to Austrian Independence Treaty

Aides to Sign Pact Setting Country Free

VIENNA, Austria (AP)—The Big Four reached agreement today on an Austrian independence treaty.

This was reported by informed Western sources in advance of a communique.

The foreign ministers of the United States, Britain, France and the Soviet Union will fly to Vienna this weekend to put their signature on a treaty the Austrians have been wanting for 10 years.

Ratifications will mean that Austria will be free and sovereign for the first time in 17 years. Some 70,000 troops of Russia and the West will leave.

Agreement was reached after nine days of difficult negotiations which it was feared earlier today might break down.

For the past three days the Ambassadors of the four powers had been deadlocked on a Western demand that the Russians put into the treaty economic concessions granted the Austrians during talks in Moscow last month.

Western informants said the Russians finally gave way to the Western demand, thus paving the way for the actual signing.

Door Opened For Earmarked Tax Transfers

SANTA FE (AP)—An attorney general's opinion has put the spotlight on a way for the state to edge into funds from earmarked taxes, transferring them to the general fund.

The opinion held that a 5 per cent charge against state agencies for general administrative overhead amounts to an additional appropriation for each agency.

That makes it easier on the agency, officials said, but it also focused attention on a little-understood portion of a law passed by the 1955 Legislature.

The law assessed agencies—except highway and land office—5 per cent of their budget for administrative overhead, a nother way of saying "expenses of government operation."

This provides a way for the state to get at earmarked funds, since departments like education which gets the fat sales tax revenue, will have to fork over.

The opinion means agencies must add 5 per cent to their appropriations, with the money going into the general fund.

Late Bulletins

SANTA FE (AP)—The State Highway Department has asked again for some \$76,000 in flood relief funds in Eddy and Chaves counties.

The department estimated roads and bridges in those counties were damaged to the extent of \$153,000 as a result of the flood last October.

They asked the federal Civil Defense Agency for 50 per cent of that amount for flood relief.

The first request was made last November, according to Donald Rorer, administrative engineer. A reminder has been sent, he said.

The Bureau of Public Roads reimbursed the department for portions of damage done to roads on the federal system. Rorer said funds from Civil Defense had been asked for other roads in the two counties.

NIZHONI DANCES MAY 21 ALBUQUERQUE (AP)—Some 200 Indian dancers, singers and drummers will be at the University of New Mexico May 21st for the annual Nizhoni dances. Representing six pueblos, the dancers will participate in a fund raising program for the University Kiwa Club.

Slow Ticket Sales Put NuMexer Future Up in Air

Directors of the Artesia Baseball club laid the organization's financial situation on the line late yesterday and said the club may be out of business in 30 days unless more money starts coming in.

Ticket sales and home game attendance came under heaviest fire. Directors, headed up by club president Steve Lanning, were determined to "not go into debt again."

Charles K. Johnson, vice president of the club, said "we need to sell 40 season tickets to finance the club through this year."

The season that it was having financial difficulties because of several reasons. Exhibition game income was off because of bad weather; advertising income is down and the 50-50 club has been disbanded.

"But unless we get better crowds and sell these season tickets we're going to go in debt again or have to quit playing ball."

None of the members expressed a personal desire to see the club disbanded.

Central PTA Backs Fund Drive Cut; Comments Issued

Central school Parent Teachers Association has endorsed a recommendation that all civic fund drives and the savings stamp program be discontinued in Artesia schools.

Administrators, principals and teachers in our school system are active members and leaders in a large number of community organizations.

It was the second local school unit to agree with a recommendation by the city council of PTA's that the drives and stamp program cost too much in time and money and ought to be eliminated from Artesia schools.

Teachers at Central and Hermosa schools had these comments: "The stamp program has become routine. Other problems require various amounts of time, often as much as allowed for one subject, except that they do require too much time on the part of the teacher."

Hermosa PTA endorsed the plan Tuesday after the council's meeting Monday night. Other endorsements are expected to follow.

"As a classroom teacher I feel that the constant interruptions are a definite hindrance to good teaching. As a parent I can see that possibly much of this aids in the total development of the child."

In its report the city council said the fund collecting costs taxpayers \$22.50 a day in teachers' time.

"Time consumed after school hours in the conversation when money, stamps and books are lost. Other burdens—picking books off the floor, searching through books to find lost stamps."

The time, problems, and expense of a single fund drive conducted through schools may not seem so formidable, "but collectively creates problems, consumes time and money that are detrimental to the precise purpose of which our school personnel are trained and our children attend school," the report said.

Elementary education workshop periods will run four hours daily, five days a week. Six residential semester hours will be given. The fees are the same as for the music workshop, \$10 per credit hour and a \$5 registration fee for those who have not registered previously with ENMU.

The report followed a survey of parents, teachers and school administrators by the council in which 54 per cent of parents responded, 100 per cent of principals and 49.45 per cent of teachers.

The music workshop will run May 30 through June 10. Classes will meet four hours daily, five days a week. Two residential semester hours will be given, either graduate or undergraduate.

Removal of the drives from the schools would not cause school personnel to neglect their civic duty, the report said.

Cost of the music workshop will be \$10, per credit hour, plus \$5 matriculation fee for those who have not already enrolled in Eastern New Mexico University.

"Further study proves conclusively that practically all administrators, principals and teachers in our school system are active members and leaders in a large number of community organizations."

The board heard 47 convicts' bid for freedom yesterday and the day before. Their findings will not be released until Warden Edwin B. Swope has told the prisoners.

Junior High Gives Over 220 Awards

Over 220 awards were handed out at Artesia Junior high school yesterday in the school's annual awards day assembly.

The complaint charges a conspiracy in restraint of interstate commerce, alleging that the various associations had agreed upon uniform practices in connection with the placing of national advertising in newspapers and magazines.

A total of 76 band awards were made. Forty chorus letters and 16 chorus service bars were handed out.

The case is being tried here on a change of venue after Embry's attorneys argued he would not be assured of a fair trial in Estancia.

The Junior high band, under direction of Herb Beasley, opened and closed the program with music.

Mrs. Marie Holliday testified as the trial opened yesterday that Anderson's hands were still raised as he fell from the shots.

Award winners: Band, first year letters—Judy Adkins, Dan Baker, Kay Braswell, Betty Bullock, Martha Cabot, Royce Carter, Eugenia Cavin, Rita Caudle, Larry Davis, Bill Edmond, Billie Ruth Ellinger, Renelle Forsyth, Lana Garner, Sandra Gaskins.

She said she watched Embry arrest two airmen. She said Anderson had his hands above his head when Embry shot him. As Anderson turned to call to a companion, Embry jerked the airman's right hand down, pulled a gun, and shot him, she testified.

Gary Gilman, Carole Gray, Preston Hammons, Neal Johnson, Barbara Kelly, Pat Kiddie, Gene E. Lower, John Roy Meador, Jimmy Morgan, Ralph Nix, Jimmy Rupert, Floyd Sawyer, Butchie Thomas, Ralph Vandewart.

She said Anderson offered no resistance at any time. Anderson, 21, was stationed at Sandia Base, Albuquerque.

Junior Villa, Gary Yeager, Sandra Croom, Linda Alford, George Bunch, Claire Carper, Mike Currier, Martha Dampf, Evelyn Gill, Judy Hanson, Sandra Hickman, Ed Kinney, Glenda Johnson, D. E. Lee, Luba Landziak, Bob Laughlin, Nancy Lamb, Nonny Lamb, Mike McGuire, Sidney Mills, Bill Strook, Ann Stromberg, Joan Smith, Sally Turner and Max Johnson.

The case is being tried here on a change of venue after Embry's attorneys argued he would not be assured of a fair trial in Estancia.

Band awards, second year letters—Gene Autrey, Kenneth Childress, David Fezell, Jimmy Harray, Danny Heald, Don Ivers, Danny Knorr, Gene Lowrey, Patsy Marshall.

The case is being tried here on a change of venue after Embry's attorneys argued he would not be assured of a fair trial in Estancia.

Keith Mauldin, Glenna Northcutt, Jack Pearson, Ted Pearson, Arthur Peerman, Sandra Porter, James Powell, Tom Ray, Marilyn Seraper, Karen Shaid, Marilyn Snell, George Shoup and Patty Woerndel.

The case is being tried here on a change of venue after Embry's attorneys argued he would not be assured of a fair trial in Estancia.

Chorus group, two-year service bar—Betty Mann, Janet O'Neill, Loretta Wickham, Martha Watson, Eleanor Smith, Gloria Starkey, Brenda Petty, Patricia Jones, Sue Ingram, Anna Beth Boteler, Sally Turner, Patricia Perry, Luba Landziak, Claire Carper, Carolyn Hutson, Catherine Beaty.

The case is being tried here on a change of venue after Embry's attorneys argued he would not be assured of a fair trial in Estancia.

Two Workshops For Credit Set Here By School

Plans for a summer elementary education workshop and a two-week primary music workshop for teachers were announced Thursday by W. G. Short, director of special activities for Artesia schools.

City Eyes Income From Dumps' Cans

Those tin cans discarded in the city dump may turn out to be something of a very small-scale bonanza for the city of Artesia.

City council last night tentatively approved a contract with a Houston firm to sell the cans. The Houston outfit—Gulf Metals—wants to buy the cans and other metals tossed out, shred them, then sell them to a Silver City copper mining company. The copper company uses the cans in reclaiming copper ore which otherwise cannot be profitably mined.

Twenty in Two Banks Going To Convention

Twenty persons from Artesia will be in Santa Fe next week to attend the annual convention of the New Mexico Bankers Assn.

Audio-visual aids will be emphasized and two hours special credit can be specified for this course where desired.

Fourteen of the Artesia delegation will go from the First National Bank and six from Peoples State Bank.

Fred Cole, vice president of the First National and the association, will be installed as president during the convention.

Short said either graduate or undergraduate credit will be given. Graduate credit will be subject to Eastern New Mexico University requirements.

President J. W. Berry of Peoples State and Mrs. Berry will attend, along with Mr. and Mrs. L. W. Brummett. Brummett is Peoples State's executive vice president. William M. Siegenthaler, a director and Mrs. Siegenthaler, also will attend.

From the First National: Mr. and Mrs. Fred Cole, Mr. and Mrs. Ross Sears, Mr. and Mrs. Charles Johnson, Mr. and Mrs. B. Runyan, Mr. and Mrs. Neil Watson, and Mr. and Mrs. J. L. Taylor. Runyan, Watson and Taylor are directors. Johnson is the bank president, Cole is executive vice president and Mr. Sears is chairman of the board.

Cost of the music workshop will be \$10, per credit hour, plus \$5 matriculation fee for those who have not already enrolled in Eastern New Mexico University.

Cole said he would be in Santa Fe on May 18 to attend a meeting of the association executive board. Most of the others will make the trip on May 19.

Cole named top speakers of the convention as Homer J. Livingston, First National Bank of Chicago, who is president of the American Bankers Assn.; Dr. Norris E. Bradbury, director of the scientific laboratory at Los Alamos; Dr. Ralph Edgel, director of the bureau of business research at the University of New Mexico in Al.

Elementary education workshop periods will run four hours daily, five days a week. Six residential semester hours will be given. The fees are the same as for the music workshop, \$10 per credit hour and a \$5 registration fee for those who have not registered previously with ENMU.

Approved a transfer of \$200 from the legal fund into the prisoner feeding account after a police department report showed only \$80 left of a \$1,220 budget item to feed prisoners the next 1 1/2 months.

Also heard Watson report two of three budgetary transfer requests.

Parole Board Hears 47 Bids For Freedom

SANTA FE (AP)—With 40 to 45 applications for parole still to be heard the State Parole Board hopes to meet again next week.

Approved a transfer of \$200 from the legal fund into the prisoner feeding account after a police department report showed only \$80 left of a \$1,220 budget item to feed prisoners the next 1 1/2 months.

Also heard Watson report two of three budgetary transfer requests.

Agencies Facing Anti-Trust Suit

WASHINGTON (AP)—The Justice Department today filed an anti-trust suit against six major publishing and advertising agency associations. It charges violations in the placing of national advertising in newspapers and magazines.

Approved a transfer of \$200 from the legal fund into the prisoner feeding account after a police department report showed only \$80 left of a \$1,220 budget item to feed prisoners the next 1 1/2 months.

Also heard Watson report two of three budgetary transfer requests.

Rain Passing Over State

By THE ASSOCIATED PRESS Almost all of the rain clouds of recent days have passed over New Mexico today and generally fair weather was forecast today.

Approved a transfer of \$200 from the legal fund into the prisoner feeding account after a police department report showed only \$80 left of a \$1,220 budget item to feed prisoners the next 1 1/2 months.

Also heard Watson report two of three budgetary transfer requests.

Gallup to Host Geologic Meet

By THE ASSOCIATED PRESS More than 300 persons are expected in Gallup this weekend to discuss petroleum, natural gas, uranium, ground water and other subjects of geologic interest.

Approved a transfer of \$200 from the legal fund into the prisoner feeding account after a police department report showed only \$80 left of a \$1,220 budget item to feed prisoners the next 1 1/2 months.

Also heard Watson report two of three budgetary transfer requests.

Business Survey Shows 893 State Manufacturing Firms

ALBUQUERQUE (AP)—At least 893 manufacturing concerns, producing everything from ice cream to atomic energy equipment, and employing more than 16,000 people, are operating in New Mexico today.

Approved a transfer of \$200 from the legal fund into the prisoner feeding account after a police department report showed only \$80 left of a \$1,220 budget item to feed prisoners the next 1 1/2 months.

Also heard Watson report two of three budgetary transfer requests.

For the first time in history, the state has an almost complete directory of these manufacturers. Compiled by Vincente T. Ximenes of the University of New Mexico bureau of business research, the directory gives some indication of the importance of manufacturing in the state.

Approved a transfer of \$200 from the legal fund into the prisoner feeding account after a police department report showed only \$80 left of a \$1,220 budget item to feed prisoners the next 1 1/2 months.

Also heard Watson report two of three budgetary transfer requests.

The main objective has been to list as many establishments as possible," said a forward to the directory. "Many small processing concerns are included which are not strictly factories. In addition the hand trades and custom industries are listed, although they are not generally classified as manufacturing."

Approved a transfer of \$200 from the legal fund into the prisoner feeding account after a police department report showed only \$80 left of a \$1,220 budget item to feed prisoners the next 1 1/2 months.

Also heard Watson report two of three budgetary transfer requests.

Ximenes said the directory, to be released sometime next week, is presented "with the knowledge that it is incomplete." He said some firms not listed "in regular sources of information were undoubtedly left out."

Approved a transfer of \$200 from the legal fund into the prisoner feeding account after a police department report showed only \$80 left of a \$1,220 budget item to feed prisoners the next 1 1/2 months.

Also heard Watson report two of three budgetary transfer requests.

The directory has disclosed some surprising figures. Albuquerque leads the state in manufacturing concerns with 281, which is natural because of its size. But Santa Fe has taken second place with 75 concerns.

Approved a transfer of \$200 from the legal fund into the prisoner feeding account after a police department report showed only \$80 left of a \$1,220 budget item to feed prisoners the next 1 1/2 months.

Also heard Watson report two of three budgetary transfer requests.

### Central PTA Endorses Move To End School Fund Drives

Mrs. E. E. Kinney, PTA City Council president was guest of Central School Parent Teacher Assn. Wednesday afternoon for a discussion of civic drives.

The meeting opened with a prayer by V. F. Hickman and was followed by salute to the flag led by Mrs. Wallace Beck.

### Mrs. Miller Is Elected to Head Study Group

Mrs. J. R. Miller was elected president of study group of the Artesia Woman's club at a luncheon and meeting held Wednesday noon at the Old American dining room.

Other officers are Mrs. E. Jeffers vice president; and Mrs. F. L. Bays, secretary and treasurer.

Mrs. Blocker showed pictures and gave a talk on her recent trip to Mexico.

Mrs. J. B. Runyan in behalf of the club presented Mrs. George Teel, outgoing president, with a gift.

Those present were Mmes. B. E. Kennedy, E. M. Perry, Glenn Caskey, C. R. Blocker, Ray Fagan, Tonnie Cole, Fred Cole, Felix Cahape, J. R. Miller, E. Jeffers, Carl Lewis, Earle McDorman, B. A. DeMars, F. L. Bays, George Teel, and J. B. Runyan, members and Mrs. Jim Parmer, and Mrs. C. M. Cockran guests.

### FOLKLORE GROUP MEETS

LAS VEGAS (AP)—The New Mexico Folklore Society will hold its tenth annual meeting at Highlands University Saturday. Speakers from Denver University, Santa Fe, Las Cruces, Portales and Albuquerque are expected.

### DAYLIGHT TIME BANNED

SANTA FE (AP)—Santa Fe won't go on daylight saving time after all. Local citizens have been pushing for a change, but the proposal died before it even got going good at the City Council meeting last night.

### PLYMOUTH CALL ON FORD MAN

LOUIS LIPTACK looks over the damage where a haulway trailer tried to pry a call, right into the living room of his Detroit home. But it's something of an old story for Liptack. Seven years before, his home had to be shifted to make room for the Edsel Ford expressway. Five years later a dump truck missed the turn and spewed a load of dirt over the yard. A year after that a driver ripped through the back yard. The mysterious thing is, the autos here are Plymouths. Liptack is a Ford designer. (International)

### Lady Golfers' Luncheon Meet Attended By 35

Ladies Golf club met Wednesday noon at the Artesia Country club for luncheon, bridge, and golf with 35 members present.

Mrs. Tom Shively was awarded the door prize.

Mrs. Johnny Williams presided over the business meeting in the absence of Dr. Kathryn Rains, president. Mrs. Williams announced in the team tournament that Mrs. Nora B. Clayton's team is leading over Mrs. E. C. Kenny.

### Catholic Women See Slides of Alaskan Trip

A social meeting of Catholic Daughters of America, Queen of the Rosary Court 1673 was held Tuesday evening in the home of Mrs. G. P. Ruppert, 804 Runyan. Mrs. J. L. Long was co-hostess. Color slides of Alaska were shown by Andy Kordziel. These pictures were made in the summer of 1953 and 1954 while Kordziel was employed by the government.

Refreshments of sandwiches, potato chips, olives, coffee, and Cokes were served from a table covered with a red table cloth centered with a bouquet of roses, flanked with white tapers in silver holders. Mrs. Ruppert poured from the silver coffee service.

### Lucky Gal Has Two Husbands —And It's All Very Legal

By BOB THOMAS HOLLYWOOD (AP)—Jeff Donnell is a lucky girl. She has two delightful husbands—and it's legal.

Husband No. 1 is Aldo Ray, the big fellow with a voice like a fog horn on the San Francisco bay. He is her real-life hubby.

Husband No. 2 is George Gobel the sharp comic who was voted the most outstanding new personality of TV by the Television Academy. Jeff plays his wife Alice on the Saturday night show.

"Sure I'm lucky," said Jeff, a bright, fresh-faced girl with a lot of enthusiasm. "I can't think of any job I'd like more than playing Alice."

The alliance with George began two years ago when he and Jeff were appearing on NBC's Saturday Night Revue. They never appeared together on the big show, but Jeff became a Gobel fan. The closest they came to meeting was in a studio corridor.

other, Jeff said: "I think you're wonderful." He said: "Thank you." Both kept on walking.

Two years later, Gobel was being prepped for a show of his own. Various actresses were proposed to play his wife, and Gobel selected Jeff from the list. But she was getting married to Aldo that week and couldn't make it. Other actresses did the role in the first shows, and the idea was to have a different one each week.

But when Jeff finally played the part, all hands decided she should be the regular Alice. When she first reported to work, George told a bystander: "Two years ago I came to work greatly depressed; I thought things were going badly on the Saturday Night Revue. Then I looked over at rehearsal and saw this girl grinning at me. She thought I was funny even when I was contemplating suicide."

### They Were walking toward each

She still thinks George is the funniest man alive. The only way she can keep from busting out laughing in their domestic skits is to lose herself in the role of Alice.

What about "the real Alice," as George calls her?

"We get along wonderfully," Jeff said. "We're both the same age and have the same interests. We live close to each other and get together for dinner often."

"George and Aldo hit it off real well too. In fact, the other night they were up talking until 3:30 in the morning. And Aldo had to get up at 5:30 to catch a plane for Japan, where he is making a picture."

### Catholic Women See Slides of Alaskan Trip

A social meeting of Catholic Daughters of America, Queen of the Rosary Court 1673 was held Tuesday evening in the home of Mrs. G. P. Ruppert, 804 Runyan. Mrs. J. L. Long was co-hostess. Color slides of Alaska were shown by Andy Kordziel. These pictures were made in the summer of 1953 and 1954 while Kordziel was employed by the government.

Refreshments of sandwiches, potato chips, olives, coffee, and Cokes were served from a table covered with a red table cloth centered with a bouquet of roses, flanked with white tapers in silver holders. Mrs. Ruppert poured from the silver coffee service.

Those present were Mrs. Elton Tuttle, Mrs. Charles Snyder, Mrs. Florence Saul, Mrs. Charles Solga, Mrs. J. J. Clarke Sr., Mrs. J. J. Clarke Jr., Mrs. Ted Carder, Miss Kathryn Walterscheid, Mrs. Hooker, Mrs. Louis Campanella, Mrs. Paul Terry, Miss Florence Dooley, Mrs. Hazel Mills, Mrs. Ruppert and Mrs. Long, members, and Mr. and Mrs. Andy Kordziel and Miss Mickie Ruppert, guests.

### Personal Mention

Hagan McCaw and sister, Miss Lina McCaw, returned Monday from Baird, Texas, where they attended funeral services for their brother, Briece F. McCaw, who died Saturday.

Mr. and Mrs. W. D. Ellett and sons Jim and Billy of Denver, Colo., will arrive this evening to visit Mrs. Ellett's parents, Mr. and Mrs. J. B. Runyan. They came for graduation exercises of Mrs. Ellett's sister, Marilyn. Mrs. Ellett and children will remain for a longer visit and Mr. Ellett will return to Denver.

Mr. and Mrs. Thad Cox have as visitors in their home, Mrs. Cox's sister and family, Mr. and Mrs. Howard B. Kibler and twin sons, Briece and Bruce, of Newark, Ohio. They will visit the Carlsbad Caverns, Juarez and White Sands while here.

### Community Calendar

Wednesday, May 11  
Central School Parent-Teacher Assn., meeting at the school, 3:45 p. m.  
Christian Women Fellowship of First Christian Church, Group 4, meeting at the home of Mrs. Harold Edmonson, 506 W. Clayton, 7:30 p. m.  
Thursday, May 12  
Circle 1 and 2 of the Presbyterian Women's Assn. meeting, 9:30 a. m., in the Brainerd Parlor.  
Prayer group of Women's Society of Christian Service meets as follows at 9:30 a. m.:  
Mrs. F. L. Bays, 210 W. Grand; Mrs. Ed Thompson, 1106 Watson; Mrs. J. R. Miller, 1105 Merchant.  
Christian Women's Fellowship of First Christian church groups meeting at 2:30 p. m. as follows:  
Group 1, at the home of Mrs. Clark Storm  
Group 2, at the home of Mrs. Orvan Gilstrap  
Group 3, at the home of Mrs. Wirt Roney.  
Wesleyan Service Guild, covered-dish dinner at the home of Mrs. Nora Coppinger, 1103 Merchant, 6:30 p. m.  
Mary Gilbert circle, meeting at the home of Mrs. R. M. Stinnett, 7:30 p. m.  
Friday, May 13  
3 M's class party, covered-dish supper. Host couples, Mr. and Mrs. Troy Harris, Mr. and Mrs. Lloyd Traylor, and Mr. and Mrs. F. F. Blessing.

### Mrs. Means Is Elected ESA Unit President

Mrs. Lewis P. Means was elected president of Alpha Nu chapter of Epsilon Sigma Alpha sorority at the regular meeting held Tuesday evening in the home of Mrs. Homer Lowery, 1202 Sears.

Mrs. W. S. Hunter was elected vice president; Mrs. Bob Chipman, recording secretary; Mrs. J. H. Ansley, corresponding secretary and Mrs. Bill Jones, treasurer.

Installation of officers and Jewel pin ritual will be held at the last meeting in May. Members voted to purchase a campship for a Girl Scout to be used at Camp Mary White this summer.

Refreshments were served to Mrs. Bob Chipman, Mrs. Charles Gieghorn, Mrs. George Dunken, Mrs. George Lynch, Mrs. Bill Jones, Mrs. M. L. Worley, Mrs. Pete Elmore, Mrs. Eddie Strong, Mrs. F. F. Elvin, members, and a guest, Mrs. Alex Smith.

### Scotty Schrader Given Birthday Party Tuesday

Scotty Schrader was honored with a birthday party from 11 to 12 Tuesday morning in his home. The birthday cake was trimmed in green with the inscription "Happy Birthday Scotty, Mom, Dad, Mark and Joni Harris, Blessing, Andy Ashton, Susan, Jim Ed Wilson, Vernon Bob Kendall Schrader, brother of honor, and the honoree, Scotty Schrader, Hermosa, Ken."

The group sang "Happy Birthday." The birthday cake was served. The invited guest list included Lanny and Tanna Heaton, Don and Johnny Daugherty, Lynn Williams, Dickie Lou JoAnn Dungan, Sue Kell Vawart, Mark and Joni Harris, Blessing, Andy Ashton, Susan, Jim Ed Wilson, Vernon Bob Kendall Schrader, brother of honor, and the honoree, Scotty Schrader, Hermosa, Ken.

Mrs. Bob Williams, Mrs. O. Dungan, Mrs. Ralph Vandewar, Mrs. Troy Harris, Mrs. F. F. Elvin, Mrs. F. O. Ashton Jr., Ed Wilson and Mrs. Curtis Bo.

Kansas College recently learned that 800 of the 3,848 men study on its campus are married.

### Younger Brides Today Turning To Simplicity

By DOROTHY ROE Associated Press Women's Editor  
As brides grow younger, wedding gowns grow simpler and prettier.

The stately bride who goes up the aisle in ancestral lace and antique satin is becoming a rarity, outnumbered by the bright-eyed young brides who choose an inexpensive dress cut on simple, youthful lines, for the most important occasion of their lives.

Though there are many new miracle fabrics available for today's bride, the old favorites remain in high demand—fabrics such as cobweb-sheer organdie, veil-like batiste, old-fashioned eyelet-embroidered sheer cotton—all as well-loved in grandmother's day as today.

New finishes and treatments make these traditional wedding and durable today. The new Swiss gown fabrics even more beautiful organdies come in many versions—embroidered, embossed or plain, in snowy white or a range of delicate pastels. Eyelet-embroidered batiste also is newly popular, and even old-fashioned lawn is staging a comeback.

Formosa's people are 65 per cent literate—high by Asiatic standards.

#### MARCH OF EVENTS

Congress Adjournment Achieved by July 15? Capitol Hill Leaders Hope for Earlier Close

Special to Central Press  
WASHINGTON—The House and Senate progress on appropriate bills indicates that adjournment is quite possible this year by mid-July. Leaders have set a July 1 deadline but Capitol Hill observers point out that usual last-minute hitches in the legislative schedule make July 15 a more likely date.

The schedule of appropriation bills is the indicator of the length of a session. When these measures get bogged down, then a long session is certain; a fast cleanup means a relatively short one.

Many controversial problems remain. And several of them will, in all probability, be continued to next year. There is no tax fight—and that, too, will help pave the way for earlier adjournment.

The administration health insurance bill, the highway program, increasing the minimum wage, Taft-Hartley Act amendments and aid to schools are all bogged down in committees. The administration, aided by a committee of citizens, is pushing for action on the long-range road building program and chances are good that legislation will be enacted.

● DRAFT—The nation's businessmen are plugging for revision of the draft law to assure deferment of persons with exceptional ability in technical, scientific and engineering fields. This position is being presented to Congress by the United States Chamber of Commerce. Specifically, the Chamber is against a proposal to set up a "Scientific Specialists board" to handle requests for suspension of military service for scientists, technicians or engineers upon application. The Chamber, reflecting the views of businessmen, said it believes the proper approach to a solution of the occupational deferment question is to perfect the basic legislation needed to write such provisions into the draft law itself.

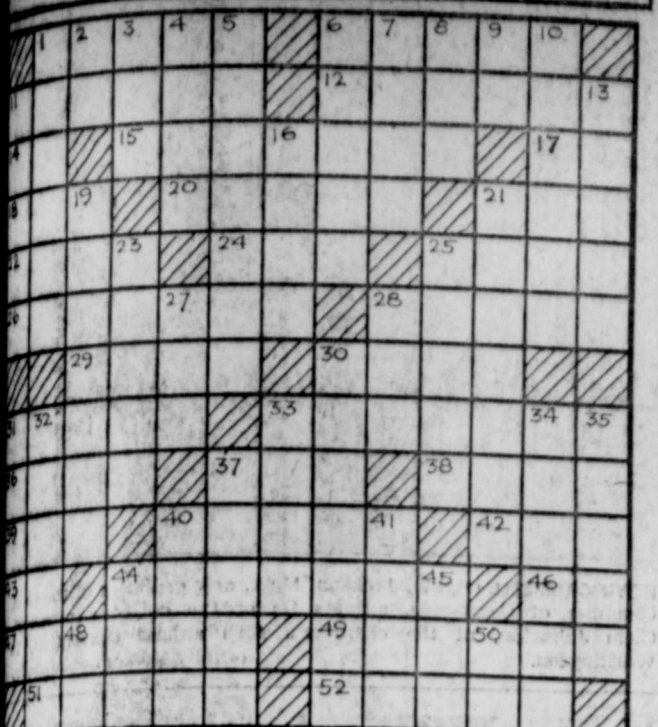

● SECURITY AND POLITICS—The Democrats are getting ready to capitalize on new political issue handed to them on a silver platter by—of all people—President Eisenhower. The issue is that while the Pentagon was clamping down in the name of security the information they can give newsmen, it had okayed use of previously secret military data for use of GOP campaigners for Congress. The material was prepared to answer Democratic charges that Republicans have weakened defense through too drastic spending cuts. The GOP pamphlet gave out information on several new rockets and rocket engines which newsmen had not been allowed to talk about. Defense Secretary Charles E. Wilson's new information-security assistant, Robert T. Ross, said there were some slips in the document but they were "minor" and did not "amount to a breach of security." He said the document was "on the whole reassuring."

However, President Eisenhower said it was a blunder and contained information he would not have given out. Thus, the Democrats now will contend that Wilson and Ross are acting as over-tough censors of news but not tough enough on censoring political documents.

● BORDER PATROL—The federal government, presumably alarmed over wide open border stretches between the United States and Mexico, is planning a tightening of its border patrol. The Immigration and Naturalization service is seeking at least 400 more patrolmen, and calls the need urgent. The FBI warned recently that it is possible that Communists can illegally enter the United States by posing as "Wet-backs" sneaking across the Mexican border. However, the Mexican government, which is working with the United States in preventing illegal immigration, reports that fewer people are now trying to cross over. However, the problem of Communists possibly moving in remains as an administration headache.

Privacy for Newlyweds Is Must on Honeymoon Trip

By CYNTHIA LOWRY  
AP Newsfeatures Writer

WHERE TO GO on a wedding trip? This is a problem on which any travel agent will be happy to help any soon-to-be-happy couple, whether it's the Niagara Falls or the royal suite on one of the Queens to Europe.

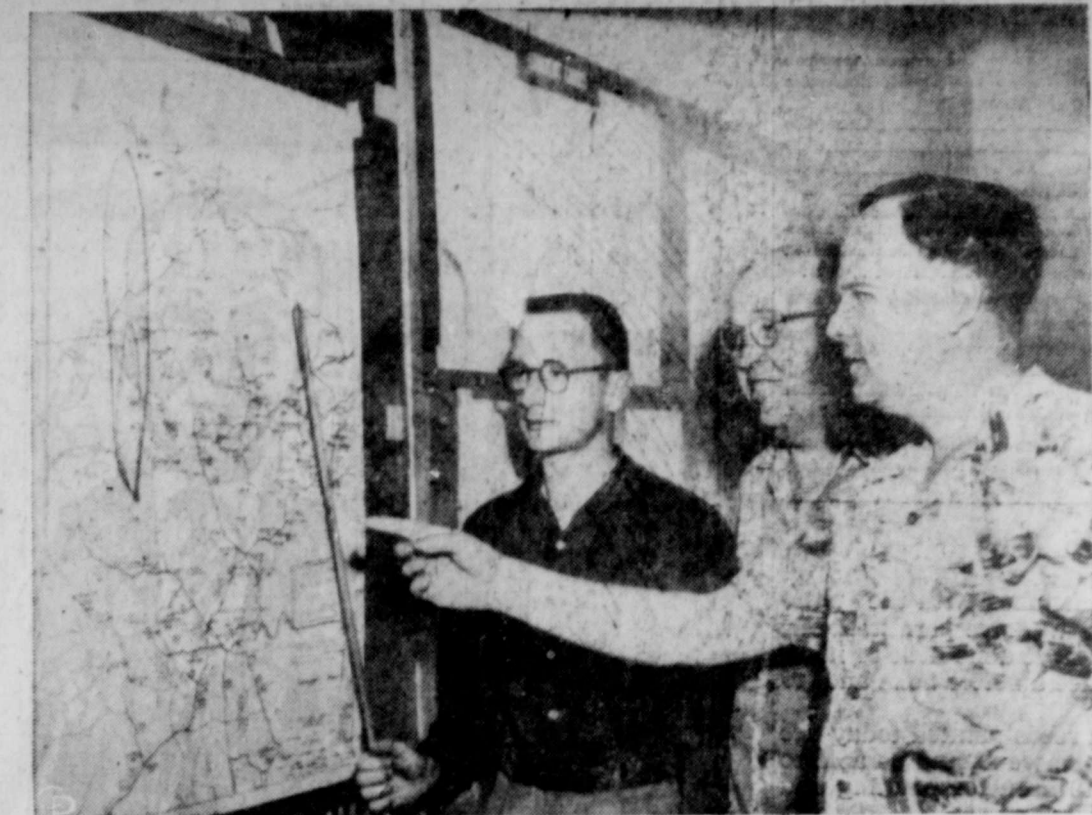

Dr. Marynia Farnham, psychiatrist, gives an unspecific answer to a specific question: "Go some place where you can enjoy some mutual interest—and that might be staying home and enjoying concerts, going out into the country and doing some painting or taking a motor trip to some place you've both wanted to see."

Unfortunately, says this New York psychiatrist and author, a wedding trip usually cannot be decided on such simple, uncomplicated advice. All sorts of factors play a part in the modern post-marriage convention which frequently is called the honeymoon.

"In the first place," she continues, "why are you taking a wedding trip? It is derived, undoubtedly, from ancient tribal customs to hide the couple which has been through a marriage ceremony.

"Then, too, marriage is something to more than the two young people primarily involved. Everyone connected with it has a renewal of hope, they identify with it and relive through it the charming and delightful fairy tale that it tells—and many of these seniors, including mothers and fathers, would be heartbroken if the bridal couple sensibly elected to take a

THEY DECIDE TO FIRE OR NOT TO FIRE IN NEVADA

HERE ARE THE SCIENTISTS who play major parts in making the decisions—to fire or not to fire—in the "open shot" firing of the atomic bomb. They are shown looking at the "fall-out prediction map" at the test site in Nevada. From left: Andrew V. Shelton, Livermore laboratory, radiation fall-out analyst; James E. Reeves, AEC test manager; Dr. Alvin C. Graves, scientific adviser and one of a group which decides from all available information whether shot will be fired or not. (International)

cab uptown a few blocks to their new apartment and spend their honeymoon at the Museum of Art—even if that was what they most wanted to do.

"A wedding trip is a vacation. All vacations are a recognition that grown-ups need a chance to play. So a wedding trip should take a young couple to some spot where they can have fun, where the bride will have a chance to wear her lovely clothes and they both will have the pleasure of having people KNOW they are glamorous honeymooners.

"And, of course, a wedding trip is an important symbol: the couple is asserting its right to get away from supervising elders. The most perfect description of a wedding trip is in Louisa May Alcott's "Little Women"—Meg took John's arm and walked across the meadow to the house that he had prepared for her. That is the essence of the wedding trip: Meg left the parental home for her own.

"The modern wedding trip is a deliberate prolonging of the delightful Cinderella story being enacted a postponement for a little

longer of the fact that soon alarm clocks will ring, the breakfast coffee will have to be made, and life, real life, will go on.

"There is also the practical side of the wedding trip. Society takes its toll. The bridal pair has been on a constant round of parties, they've had to visit both families—including Aunt Hettie whom nobody has seen for five years, there have been celebrations so tightly scheduled that by the time the wedding day comes, the bride, if she isn't a nervous wreck, is almost too tired to stand up and so it the bridegroom. Both of them need a vacation to get their strength back.

"So it doesn't matter where they go, provided they both want to go there and will have a good time once they are there. The main thing is for them to resist going some place neither one cares to visit, just to show the world they can afford to."

The Mississippi Valley flood of 1927 took 313 lives and the Ohio River flood of 1913 killed 167 people.

**SPLIT ON STATEHOOD**

WASHINGTON (AP)—New Mexico's two representatives split in the vote to defeat admission of Hawaii and Alaska as states. Rep. Dempsey voted with the 105 Democrats who supported the bill. Rep. Fernandez voted with the 107 Democrats against it. It failed to pass, 218, 170.

**SIMMS IN ILLINOIS**

SPRINGFIELD, Ill. (AP)—New Mexico Gov. John Simms and H. M. Fow of Roswell were among those attending a meeting of the Interstate Oil Compact Commission executive committee here yesterday. The group discussed policy matters but did not disclose conclusions. It is to make official recommendations before the entire commission June 16-18 in Denver.

"This studio takes good care of its people," he explained. "I'd be lost anywhere else. So last August signed on for another three years. It's the same kind of deal I had before—exclusive services for five pictures every two years.

"When the contract is over, I'll probably never quit entirely. But it will be nice to slow down a bit."

DEPORT COMMIE WILLIAMSON

JOHN B. WILLIAMSON, one of the top brass of the Communist party in the U. S., is shown with his wife May and sons Neal, 7, and Robert, 16, as they board a liner in New York. Williamson served a sentence for conspiring to overthrow the government, then was ordered deported. He and his family will go to his mother in Renfrewshire, Scotland. Young Neal wears a Brooklyn baseball cap. (International Soundphoto)

Business Seeks Tighter Control On Big Unions

WASHINGTON (AP)—Business interests are seeking to tighten federal and state controls on labor unions and further curb the power of organized labor.

These moves point to no "era of peace" between labor and management.

The National Assn. of Manufacturers is encouraging local business groups to press for "right-to-work" laws in the 30 states which do not have them. These laws would ban the union shop, in which a worker must join a union after accepting a job.

The Taft-Hartley law already forbids the closed shop, in which only union members can be hired by an employer.

The U. S. Chamber of Commerce has lined up with the NAM. And there is considerable sentiment among businessmen for amending federal law to outlaw the union shop.

The unions are fighting back, not only to prevent new curbs but also to wipe out present restrictive legislation.

Thus the battle lines are being drawn as the AFL and CIO work toward a merger which would give labor almost a solid front in the fight.

Business: "The AFL-CIO merger is heading in the direction of a labor monopoly and it must be curbed. The American workers shouldn't be compelled to join a union—and he should have the guarantee under law that he has a free choice to join or not to join a union."

Labor: "The right-to-work laws are actually right-to-wreck laws. They are nothing more than a move to destroy union security and destroy the trade union movement. The talk of a labor monopoly is nonsense because a minority of workers belongs to unions."

## Pretty Important Crops

WE are told by those close to and familiar with the pinto bean production in this state that we have permitted our bean seed to deteriorate and that we have done little or nothing along experimental lines to produce a better bean and to save this important crop.

Far too many of the pinto bean seeds planted today are purchased outside our own state while we should be able to raise these and to sell both the pinto bean for planting and for consumption.

There are some sections of the state that have a large income from the production of pinto beans. It means thousands and thousands of dollars in agriculture income in our state. Yet we have failed to carry on the research and the experiments necessary to improve the seed so it would produce a better bean and to make it possible for us to raise our own seed.

It is true of most crops that sooner or later we encounter trouble with that particular type of variety but in many agricultural lines by the time one strain is gone another has been developed to replace that one that no longer proves profitable to produce.

We know that in the rice industry there is constant study and experiments in process and that in the past 25 years a half dozen or more new strains and varieties of rice have been developed to withstand disease, insects and to provide a better production. The same is true of cotton.

Those working along these lines have done an outstanding job for rice. The same thing has been done with various kinds of fruits, vegetables and other farm crops.

We need to give some thought, some study and some consideration to the pinto bean. We need to develop a better quality of pinto bean; to make it possible for us to increase our production; to provide plenty of beans for our food market and for our seed market.

We have our experiment stations being operated over the state and our experiment work being done at the college in Las Cruces. We have done some fine jobs with other agricultural products and with livestock and we are confident we likewise could do plenty with the pinto bean if we give it the serious consideration and the attention we are told that it needs today if we expect to continue to produce it as a money crop.

## Right-to-Work Laws Win Very Limited 1955 Success

By RUSSELL LANE  
 CHICAGO (AP)—A drive to establish "right-to-work" laws in new states this year apparently has had very limited success.

The legislation, which bans union shop contracts, was adopted by Utah, bringing the list of states which have the law on their books to 13.

A similar bill in Kansas was vetoed by Gov. Fred Hall and a move to override the veto was defeated. However, the Senate tacked the bill on an administration-backed labor relations measure Wednesday despite the governor's announcement he will veto the legislation if it includes the right-to-work amendment.

The "right-to-work" laws have been a primary target of organized

labor leaders who contend they raise a barrier to effective union security. The measures have been backed principally by industrial and business interests.

LABOR EFFORTS to nullify the legislation in states which already have it were completely unsuccessful in this year's legislative sessions. The laws are on the books of agricultural states of the plains area and others in the South and Southeast.

An Associational Press survey of legislative trends in the states showed that proponents of the "right-to-work" measures made efforts this year to have them adopted in 11 states.

There were moves in six states having the law revoked or modify it.

Besides Utah, the states banning the union shop are Arizona, Arkansas, Alabama, Florida, Georgia, Iowa, Louisiana, Mississippi, Nevada, Nebraska, Tennessee, Texas, Virginia, North Carolina, South Carolina, North Dakota, and South Dakota.

In these states, the provision of the federal Taft-Hartley act permitting the union shop has no legal force.

ATTEMPTS TO MODIFY "right to work" laws in the 1955 state assemblies were balked in Arkansas, Nevada, South Carolina, South Dakota, and Tennessee. An attempt to eliminate the union shop ban from Iowa's 1947 act appears unlikely to succeed.

There was little attempt to bring about changes this year in other states where the "right to work" laws are firmly established.

Proposals for laws banning the Union shop are pending in Ohio, Missouri, Colorado and Michigan, where they have little apparent chance of passage. Such efforts were killed in Idaho, Indiana, Massachusetts, and West Virginia.

## 'It Took The ARMY To Carry Me Out In 1944!'

## U.S. May Buy Formosan Peace With UN Admission

By JAMES MARLOW  
 Associated Press News Analyst

WASHINGTON (AP)—What will the United States position be if Red China plays nice, maybe agrees to a cease-fire around Formosa, and then wants to get into the United Nations?

American opposition to U. N. membership for them might change.

One stumbling block to Red China's admittance—although not necessarily the final one—would be removed if the veto power of the

Security Council on new members was ended.

Henry Cabot Lodge, Jr., American ambassador to the U. N., this week suggested dropping the veto power on new members held by the Big Five powers on the Security Council—the United States, Russia, Britain, France, Nationalist China.

Under the present U. N. Charter, admittance of a new member hinges around what happens in the Security Council.

Seven of the 11 members—including all the Big Five—must vote Yes. A veto by any of the Big Five can block a nation from membership.

Under Lodge's proposal, eliminating the veto, neither the United States nor Nationalist China could keep out Red China if any seven of the remaining Security Council members voted yes.

It's possible that with removal of the veto, Red China still couldn't get seven votes that would let her in. Russia has proposed U. N. membership for Red China several times, but there were never seven votes for admittance making a veto unnecessary.

The veto to block membership for 14 other non-Communist nations.

Lodge made it plain, in testimony to a Senate foreign relations subcommittee, that he was speaking as an individual and was not expressing the views of the Eisenhower administration.

Up to the time the state department hasn't taken a position on charges in the charter. Its attitude seems to be now let's go carefully about this sort of thing. It may be waiting, before taking a stand, to find out what American public opinion is.

So, although Lodge said he was speaking for himself, his views can serve as a trial balloon.

## City Council—

(Continued from page 1)

quests had been refused by the assistant state comptroller, indicating a change may be needed in the city's bookkeeping system.

Confirmed the appointment of Billy G. Nunnelee to the city police department.

Heard Watson report the council might possibly increase local taxes to produce from \$925 to \$2,500 more revenue.

Approved a request by city clerk, Tom Ragsdale, for additional office help in June to set up city ledgers for the 1955-56 fiscal year.

## YOUNG HEROS NOMINATED

SANTA FE (AP)—June 1 is the deadline for New Mexico youngsters to be nominated for medals for outstanding service or bravery during the past year. Nominations will be made to the Department of Justice. Names should be sent to State School Supt. Georgia Lusk accompanied by a full statement and documentation of the act plus biographical material.

## Sowell Funeral Planned Friday

Funeral services for C. D. Sowell, 84, who died yesterday at his home in Pinon, have been set for 2 p.m. tomorrow at the First Baptist Church in Pinon.

The Rev. Ben R. Sullivan will officiate. Interment will be at Pinon cemetery.

Mr. Sowell had lived at Pinon for about 40 years and formerly owned and operated his own ranch.

Survivors include his widow and a son, Ray (former Otero county commissioner and state representative from the 30th district).

Other survivors were not immediately known.

## Police Blame Road Deaths On Speeding

SANTA FE May 7 (AP)—Speed is blamed by state police as the greatest single factor causing the highway accidents which claimed 17 lives in New Mexico in April.

Six of those who died might be alive today if someone had not been in too much of a hurry. That is the conclusion shown by the cold figures which reflect the research into cause of accidents.

The remaining 11 deaths were due to these causes: failure to yield right-of-way, 3; pedestrian, 2; driving on wrong side of road, 2; reckless driving, 1; fatigue, 2; undetermined, 1.

The element of liquor, to one degree or another, was present in accidents which accounted for five of the deaths.

Last month's total of 17 lives lost compared with 13 in April, 1954, the month that witnessed the record breaking period of two weeks without a fatality.

The fatalities last month were charged to these 10 counties: Chaves, three; Bernalillo, Grant, Eddy, Santa Fe and DeBaca, two each; and Socorro, Hidalgo, Torrance and Colfax, one each.

Four of last month's victims died in accidents inside city limits, 13 outside city limits. Fifteen victims were males and two were females. Eight of them—all males—were driving when they met death, and seven were passengers. Seven died as the result of a collision, 10 in non-collision accidents.

Nine of the deaths were charged to daylight accidents, eight occurred after dark. Sixteen deaths occurred on highways subject to state police patrol and one occurred on a secondary road.

The dead included 14 New Mexicans and one person each from Colorado, California and Texas.

## Twenty in Two—

(Continued from Page One)

buquerque and Chris P. Fox, vice president of the State National Bank in El Paso. Fox' subject will be public relations in the bank.

A special trip to Taos for the ladies has been planned with the First State Bank of Taos as host. The convention will close Saturday night, May 21, with a banquet at the LaFonda Hotel.

## PROBE LABOR SLAYING

LAS VEGAS, Nev. (AP)—Grand jury meets May 24 to hear testimony from John Geurcakis, sought for questioning in the unsolved slaying of a Las Vegas union leader, James Hartley, in February, 1954. Geurcakis, 36, of Las Vegas, and four other men were arrested in Albuquerque early Sunday in a gambling raid.

Officers said he was expected to be extradited from New Mexico.

## Sandy Willis Awarded Top Prize for Conservation Art

Sandy Willis has won first place in the junior high school's water conservation poster contest, it was announced Thursday by Wilbur Ahlvers, arts and crafts teacher.

Ida Mae Snow was second place

and Bill Jackson won third. He also mentioned to Franklin Hill, Danny Knorr, Charles Harlan and Charles Crenshaw.

Judges for the contest were: Howard Wither, high school art teacher, and Helen Marpes, local art teacher. Ahlvers said this was the year for the contest and expressed hope that other schools in the city would conduct similar contests next year.

"Since water is a very precious item the poster idea seemed an excellent way to caution people in the use of it and make them er conscious," he said.

The posters are on display at Drug, Penny's, Sanders of Supply, Thompson's, Price, Drug and Sproule-Reitz. Stores provided the winners gifts.

Ahlvers said the Artesian servancy District, headquarters Roswell, will "try to sponsor contest on a valley-wide basis" next year.

**AFTER 140-UNION MERGER— Organized Labor Planning Move Into 1965 Politics on Largest Scale Ever Attempted**

**By DON WHITEHEAD**

WASHINGTON (AP)—Organized labor is planning today to move into politics in the 1965 elections on a scale never before attempted in the history of the American trade union movement.

This move will begin after the AFL and CIO merge their 140-unions into one 15-million-man organization this fall—perhaps in December.

AFL President George Meany, who will head the new federation said in an interview: "We're going as far down that (political) road as it is necessary to go to achieve our objective—and that objective is the raising of the living standards of the working man."

This plunge into politics will be an historic turning point for labor as far as the 10-million-member AFL is concerned. In the past, the AFL has remained pretty much on the political sidelines except to endorse this or that candidate for public office, although the CIO has been active politically for years. Meany believes now labor must move onto the political front in force for self-protection. This is his reasoning: "We are being compelled by the force of events to take defensive action to make sure that we are not hampered and restricted at the bargaining table. We are being compelled to enter the political field in order to change the political picture that is developing against labor. And the job must be done not only on the national level—but on the state level."

The Taft-Hartley law and restrictive state laws are putting all the weapons in the hands of employers. So there is no other way left open to us but to take political action."

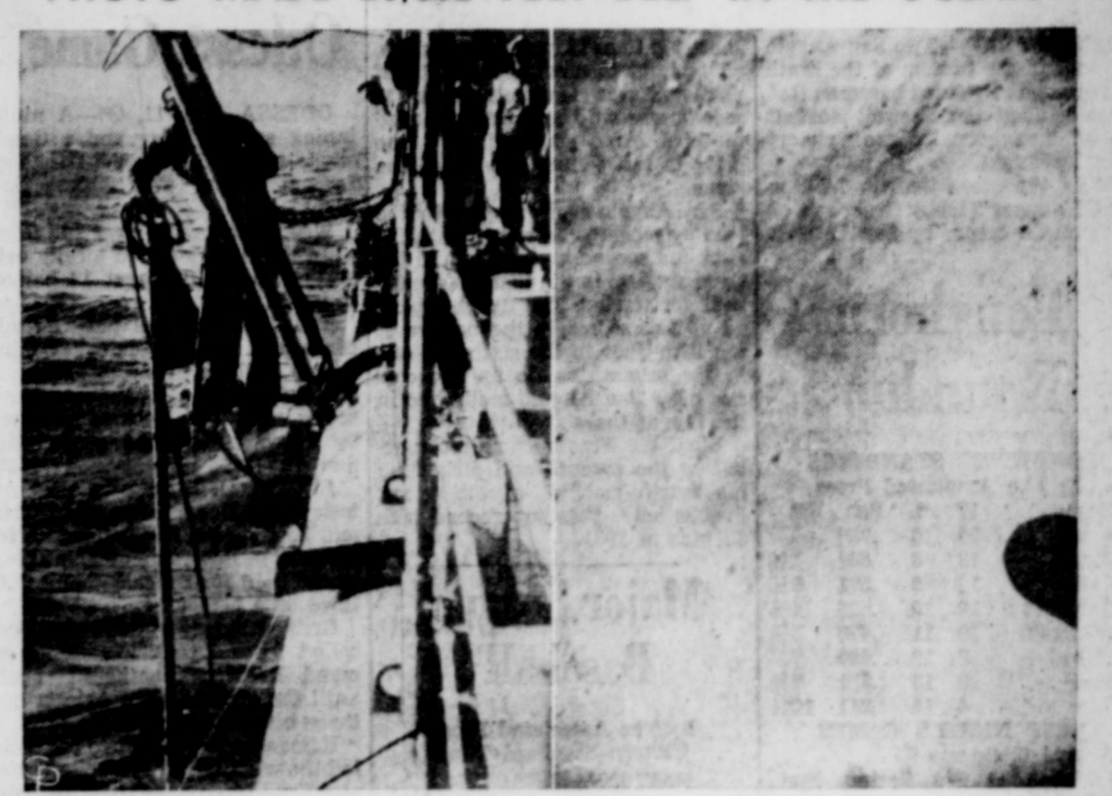

Meany referred to the spread of so-called "right to work" laws and laws which curb the use of union funds for political purposes.

The Taft-Hartley law forbids the use of union funds for political purposes and it also bans the closed shop, in which only union members may be hired. The law permits, under certain conditions, the union shop, in which a worker must become a union member within a certain period after he is hired. Now 18 states have the "right-to-work" laws, which for the most part ban the union shop. Some states are moving, too, to curb union political activity.

In referring to these laws, Meany said: "We are seeing right now a new move under way to strike at labor from a new direction. There is a new effort to block us on the political front and to prevent our members from taking action on a political level."

"But I say we are going to be political to the extent that we are forced to be in the protection of our own rights at the bargaining table. What the hell is the use of going to the bargaining table if you are going to have your hands

**PHOTO MADE 20,800 FEET DEEP IN THE OCEAN**

PHOTOGRAPHIC EQUIPMENT is lowered (left) from the U. S. Navy oceanographic ship San Pablo in the Sargasso sea, a part of the Atlantic some 1,000 miles from Cape Hatteras, N. C. Here (right) is what the camera caught at 20,800 feet, greatest depth the ocean ever has been photographed. It is the somewhat blank sea bottom, pocked by holes made by marine creatures. Dark object at right is part of light source used for making the picture. A 14-foot camera of aluminum in shape of a pipe was used for the operation. (International Soundphotos)

# NuMexers to Return Home Against Roswell, Odessa Wins 6-5

## San Angelo Errors Hand Roswell 8-7 Longhorn Win

ROSWELL (AP)—Two San Angelo miscues in the bottom of the ninth and a single by third baseman Rod Arco handed the Roswell Rockets an 8-7 Longhorn League victory here last night.

With the score tied up 7-7 Roswell Manager Stubby Greer got on base on an error by San Angelo

shortstop Gene Hauradou and made an attempt to steal second. Relief pitcher Audie Malone's throw to second was wild and Greer moved to third. Arco smashed his line drive to left center and ended the game.

San Angelo had jumped to the lead by scoring one run in both the first and second innings, two in the third and two in the fifth before Os well got started. The Rockets picked up two scores in the bottom of the fifth, four in the sixth and one in the seventh to tie up the contest after San Angelo made one in the top of the sixth.

Big Dean Franks came on in relief in the seventh and picked up his fourth victory of the year. Franks holds the loop record with 30 wins in 1951.

## Lopez Says NY Yankees Are Still Weak

NEW YORK (AP)—After sweeping a two-game series in New York, Manager Al Lopez of the Cleveland Indians was convinced today the 1955 Yankees are weaker than the team which finished eight games behind the pennant-winning Tribe last year.

"While I believe the Yankees are still the team we have to beat for the pennant," he said, "I also think they are weaker than they were a year ago. Just look whom they've lost—Allie Reynolds and Gene Woodling. And Phil Rizzuto can't play regularly any more. You can't lose such key men and expect to be as strong. You don't replace men of such caliber overnight."

"For years Reynolds was their money pitcher. He was the pitcher they depended upon to win the big game. He was doubly valuable because he was equally effective in relief."

"Stengel (Yankee Manager Casey Stengel) rarely had to ponder taking out his starting pitcher because he knew he had the Big Chief ready and able to take over. This year, with Allie gone, Casey is not so quick to pull a faltering starter."

## Weather Helps Put Lubbock Close to Dukes

By THE ASSOCIATED PRESS  
Weather lent a hand Wednesday night, idling Albuquerque and allowing Lubbock to get up to one game behind the Dukes, currently leading the West Texas-New Mexico League.

Lubbock trimmed El Paso 9-4. In the only other game, Plainview beat Amarillo 9-6. Clovis at Abilene was postponed by wet grounds, and rain washed out Albuquerque's game at Pampa.

Lubbock banged out six runs in the seventh, lived by Bob Galey's three-run pinch-hit double.

Plainview's Bob Upton struck out 11 to guide the Ponies to their victory.

## BORDER MATCHES OPEN

TEMPE, Ariz. (AP)—The Border conference golf and tennis tournaments opened today at Arizona State of Tempe with teams entered from Hardin-Simmons, West Texas, Texas Western, Texas Tech, New Mexico A & M, Arizona University and Arizona State.

## RACE DRIVER CRITICAL

PHOENIX (AP)—Wayne Miller, Albuquerque race driver injured in Phoenix Saturday, still was in critical condition today but reported slightly improved. His midsize racer rolled three times after colliding with another racer.

The University of North Carolina will be host to the U. S. Intercollegiate tennis championships June 20-25.

## Ninth-Inning Squeeze Gives Odessa Game

By ED WILKS  
The Associate Press  
The Philadelphia Phillies didn't think much of Terry Moore as a manager, but the Old Gas House Gang guy really belted one on the button when he wished his successor Mayo Smith "a lot of luck because he has a tough job ahead."

That was last October, after the Phils had wound up fifth, 22 games behind the pennant-winning New York Giants and owner Bob Carpenter decided Moore hadn't shown enough "experience" in his three months as manager.

So they called upon Mayo, six years a minor league manager, to take over.

Now Mayo and the Phillies are in the cellar, 14 games back of pace-setting Brooklyn and snarled in an 11-game losing streak. The St. Louis Cardinals extended Mayo's troubles last night, beating the Phils 6-5.

Brooklyn also "slumped" yesterday, or what amounts to a slump for the Dodgers. They lost one. The Chicago Cubs did it, beating Russ Meyer's hex and snapping the Brook's 11-game streak 10-8. It was only Brooklyn's third defeat.

Elsewhere in the National, Milwaukee finally beat Pittsburgh 8-3 and New York defeated Cincinnati 6-3.

In the American League, Cleveland swept its two-game series in New York, beating the Yankees 4-3 despite Bob Turley's three-hitter and 11 strikeouts. Boston edged Chicago 4-3, ending a five-game losing string. Ned Garver held Washington to three hits for a 7-0 Detroit victory, and Kansas City beat Baltimore 2-0.

The Cards tagged Robin Roberts for 11 hits in seven frames last night. Ron Mrozinski was the loser in relief as Harry Elliott, Stan Musial and Rip Repulski doubled for two runs in the eighth after the Phils had taken a 5-3 lead. Herb Moford was the winner, in relief of Larry Jackson and Bobby Tiefenauer.

## Gas Houser Cues Mayo Smith Right on 'Tough Job Ahead'

By ED WILKS  
The Associate Press  
The Philadelphia Phillies didn't think much of Terry Moore as a manager, but the Old Gas House Gang guy really belted one on the button when he wished his successor Mayo Smith "a lot of luck because he has a tough job ahead."

Herb Moford was the winner, in relief of Larry Jackson and Bobby Tiefenauer.

## Buffs Get Close To San Antonio In Texas League

By THE ASSOCIATED PRESS  
Rain and a top pitching performance by Bill Gresson proved Houston's allies Wednesday night as the Buffs moved back within a game and a half of leading San Antonio in the torrid Texas league race.

While San Antonio chafed under two nights of postponement because of the elements, Houston was clubbing Dallas 6-0 and taking over undisputed second place.

Gresson let Dallas down with six hits and fanned five as he hurled Houston to its victory.

San Antonio and Fort Worth got in five innings before the rains came. Neither team had scored and only San Antonio had a hit.

The clubs were to have played a doubleheader. They'll try again Thursday night.

Tulsa's Oilers gained a half-game on fifth-place Fort Worth by whipping Shreveport 3-1 in 11 innings.

Beaumont made its position secure in seventh place by banging Oklahoma City 7-4. The Exporters bashed five runs across in the fourth to sew up the game.

## Field of 100 Set for Golf Tournament

SANTA FE (AP)—A field of about 100 golfers is entered in the New Mexico Pro-Amateur Tournament here Sunday.

Foursomes are scheduled to start teeing off at 10 a. m., with cash prizes for the professionals and merchandise awards for the amateurs.

Women with a handicap of 36 or less have been invited to enter. Besides the professionals, a large number of amateurs from Albuquerque, Los Alamos, Socorro and Santa Fe indicated they would enter.

## Ball Player Says Bat Powered By Wife's Cooking

AP Newsfeatures  
DETROIT—Al Kaline, the Detroit Tiger slugger who eats like they won't be making food the next day, says the extra push he gets from his bat really comes from his wife's cooking.

Kaline weighed 155 last year when he joined Detroit as an outfielder. He is hitting as consistently as he did last year when the ball seldom landed in the stands for a homer.

This year he weighs 175 and the 19-year-old is hitting home runs like they were butts. He had three in one game.

Kaline's pretty blue-eyed wife, Louise, who was May Queen in her last year at Southern High School in Baltimore, says she has the answer.

"I just keep feeding him and he just keeps eating," she says. "Even before we were married Al would finish his own lunch and start on the rest of mine."

Fortunately for Louise, she's had plenty of experience on the chow line. She used to cook supper five nights a week for her family of eight.

The University of Texas is installing lights in its football stadium for night games this fall.

## Williams' Return To Baseball May Hike Attendance

BOSTON (AP)—Unpredictable Ted Williams' sudden decision to re-turn to baseball is expected to give American League attendance a shot in the arm as well as bolster the sagging Boston Red Sox.

Williams will fly here tomorrow from Miami, where final terms of his divorce settlement were recorded yesterday.

"I'm not going to wait any longer," Ted told General Manager Joe Crocin in a phone conversation yesterday. "I've spent two days with my daughter. I'd made up my mind to play baseball again before the settlement was completed."

Reached later in his Florida Keys seclusion by the Miami Herald, Williams said, "I'll just do the best I can, and hope I can help the club."

"I haven't done any running," he said. "I weigh 210 pounds 15 more than his playing weight and I may be lousy. But, the Red Sox seemed to want me, so I'm going back."

## WITHOUT STRIKES—Pitchers Quietly Achieve Shorter Hours, More Pay

By NICK ELLENA  
NEW YORK (AP)—Without recourse to walkouts or turbulent labor wars, baseball pitchers have quietly achieved a standard of shorter hours and more pay that union men might well envy.

The last time a pitcher threw two complete games in one day was 1927—John Scott of the Philadelphia Phillies. It might shame modern pitchers to learn that the Iron Man Joe McGinnity turned the trick five times, winning both ends of a doubleheader three times. But that was in 1903.

It seems they were a hardier breed in those days.

Dating back to 1876, enterprising pitchers started and completed both ends of a doubleheader six times, but not since 1927. The extra work did not weaken them either since in 45 instances, the pitcher won both games.

ROBIN Roberts of the Philadelphia Phillies is regarded as a workhorse, often pitching with three days rest. He led the league in 1954 in innings pitched with 337 to go along with his 23-15 won-lost record. He had 29 complete games in the American league. Ed Wynn of the Indians worked 23 1/2 innings and had a 23-11 record with 20 complete games. Ted mate Bob Lemon led the league with 21.

But they were practically part-time workers compared with pitchers of three or four decades ago. John Chesbro of the Yankees pitched 48 complete games in 1902. While Vic Willis had 45 for the old Boston Braves in 1902, Dineen of the Red Sox hurled 39 consecutive complete games in 1904, which is an astounding mark of skill as well as durability.

A banner year for Dineen in 1904, for while running up a complete games streak, he won 337 consecutive innings without relief for an American league record. The same year however, Taylor of the Cardinals, ran up a string of 352 for the all-time record.

Pitcher Ray Moore of the Baltimore Orioles is a tobacco farmer during the off-season.
