Boredom Not Foreseen As Part Of Sports And Recreation Day "Fun"

Fun, fun and more fun is planned for "Sports and Recreation Day," July 22, in Ruddick Park, beginning at 3 p.m.

Ronnie Aston is in charge of events during the day and has spent many long hours dream-

ing up ideas to entertain centennial celebrators.

Aston's first brainstorm was to hold an "Egg Toss." An "Egg Toss," Aston explains, is where two people (partners) stand facing each other and toss an egg between them. As

long as the egg is caught, the couple stays in the game. Each time the egg is caught, the couple moves farther and farther apart before tossing the next egg.

"Now that doesn't sound so tough," Aston commented, then threw

in the clincher," the eggs, of course, will be raw."

The next contest will also require a team of two persons. The game is called "Molasses Drop."

This is a very simple contest, Aston said, with a slight gleam in his eye. It consists of one partner holding a paper cup and the other partner pouring molasses into the cup. The team catching the most molasses is the winner.

Then he smiled and said, "Of course, the cup is to be held on the forehead of one partner, flying flat on the ground,

and the pouring partner will be blindfolded, and positioned over this partner's head. Here, he snickered slightly before going on to the next planned event, a "Tug-Of-War."

Now, could anything be more harmless than a "Tug-Of-War," he asked.

Each team is limited to a combined total weight of 1,300 pounds. There will be a men's division and a women's division, but no combined team division.

The object is for one team to pull the other team at least 10 feet.

"Now that sounds perfectly harmless, doesn't it?" Aston asked, then smirked, "there is only one small catch, the space between the two

Grasshoppers Invade Cotton Fields Despite Insecticides

Grasshoppers are increasing in number in some areas of both Mitchell and Scurry Counties, while in others, they have begun to slack off.

Flying grasshoppers are beginning to cause problems in some areas

THE MOVE is on, as pasturelands begin to dry out. The Jumbo Grasshoppers are leaving the tougher grasses for the young tender cotton plants. Area producers are cautioned to watch for the invasion of these hungry creatures and take preventative measures if crops are threatened. of the county, Entomologist Bill Jany announced Friday.

The primary flying grasshopper causing damage is the Differential Grasshopper, which is bright yellow and can reach a length of one and one-half inches to two inches, he noted.

Two forms of insect control are available to rid fields of this pest, bait formulation and spray formulations. Spraying is more effective than bait, Jany noted.

"Because these insects can fly over a turn row into your cotton, the use of an insecticide with a long residual sprayed on border cotton and adjoining rangeland areas will provide the best control," he said.

Jumbo grasshoppers are still causing extensive damage in the southwestern areas of Mitchell County and in the northeastern area of Scurry County, Jany said.

"In many of these areas, border treatment of rangelands adjacent to cotton has failed because of dense vegetation preventing the insecticide from reaching the areas where jumbos are, or the jumbos are not eating the vegeta-

tion sprayed and are not getting a lethal dose of the insecticide in their bodies," Jany noted.

Fast knockdown insecticides have been tried by area producers and have worked in some cases, however, failures have also been noted, Jany said, because the insecticides were applied early in

Management Seminar Is Scheduled

The Colorado City "RECORD" is holding a luncheon for local businessmen and individuals in the Civic Center, Monday.

The purpose of the meeting is to express appreciation for patronage and friendship and to offer a special business seminar, RECORD Publisher Phil Riddle stated.

"We do need more flatbed and cotton trailers to decorate. Everyone is willing to participate, but we have run out of trailers to loan," Hoback noted.

"Anyone having such a trailer and willing to let a group use it to decorate as a float may telephone my wife at 728-2381," he stated.

More than 90 entries have been promised for the parade, with 50 of those coming from Mitchell County.

"Only an Orphan Girl," will open on the playhouse stage the weekend of July 30, 31, and August 1, and then August 6, 7 and 8.

According to Joan Luckadoo, director of the production, "this show will be the standard melodrama with the usual plot that finds the hero arriving just in the nick of time to rescue his lover.

Police Report

An estimated \$1,300 in merchandise was recovered by the Colorado City Police Department Wednesday after a local resident reported finding numerous items hidden in his cellar.

Robert Rocha, 604 Locust St., contacted police to report someone had hidden CB and radio equipment in his storm shelter.

Sergeant Johnny Slough and Chief of Pol-

ice Jimmy Roundtree investigated the report and found property which was reported stolen from the residence of Dixie Rogers, 616 Locust St., on June 8.

Ms. Rogers was contacted and identified the equipment and all items stolen, with the exception of a power pack, four large speakers and HBO Box were recovered.

"Distant Pioneer Recalls" Early Period In County

(Editor's Note: News of the Mitchell County centennial activities has spread across the state and many pioneer residents, who left this area to resettle in other locations, still remain in contact with local happenings. One such person is Pat Bullock, 5550 Harvest Hill, Dallas, Texas 75230.)

Since I subscribe to the "Record," I have kept up with the activities concerning the Centennial Celebration now in progress.

I thought maybe the following might be of interest to the older citizens of Mitchell County.

I was born in Brown County on March 18, 1895 and in 1897, my parents and brothers and sisters moved to Scurry County, where my father filed on free land.

He sold this claim in 1902 and bought a farm at Seven Mile Hill, northwest of Colorado City in the Rogers Community.

The land is now own-

ed, I believe, by the L. R. Shoemaker heirs.

I attended my first term of school at Rogers along with Kay Hooks, the Hastings and others.

In 1905, we moved to Westbrook, having sold the farm to Mr. E. L. Tiller.

I attended school at the Conaway School until about 1910, then rode a burro four miles to Westbrook, where I graduated second in my class.

(There being only two of us in the class.)

Lena McNary was valedictorian and I was salutatorian. That was in the spring of 1912.

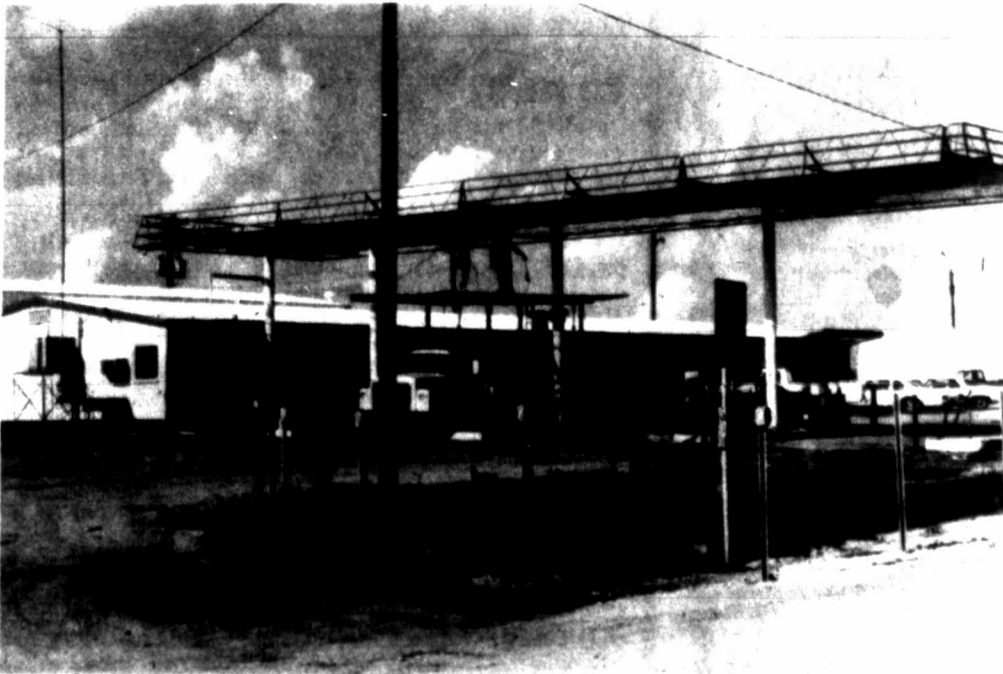

My sister, the late Mrs. H. L. May of Westbrook, and I went by buggy to Colorado City to see the first airplane land there.

My brother, John, who died recently in Abilene at the age of 92, and Mack Shaw had a Wild West Show and offered to ride any horse brought into the ball

park, south of the river, during a 4th of July celebration.

My Expectations

By Lulu Turner

Have you ever seen mothers of boys and girls from 7 years-old and up playing baseball? That's right, a hard ball and the works? If not, you will have the opportunity to do so tomorrow (Monday) at 8:30 p.m. at the Little League Ball Park in Ruddick Park.

Some are veterans of softball, as myself, some past baseball players, and some are rookies that have never even seen a baseball, much less come in contact with one.

We are divided up into two teams, the Reds and Whites and have been very busy this past week attending practice and getting some basics of the game...like now that I've got it, what do I do with it?

Not only are the players hard rugged athletes, but we can cook too! Each will bake a cake that will be

Ball Players Win In Big Tourney

Players from Colorado City, Sweetwater and Midland united together to form a team that won first place in the Coors Invitational Tournament held in

Midland this past weekend. Pete Parham of Colorado City was chosen as the MVP (most valuable player) as he hit nine home runs, five in one game.

Chosen from the team to the all-tournament team were Big Rock Smith, Randy Reeves and Tony Hernandez.

The team hit a total of 38 home runs during the tournament.

Making up the team were Parham, Smith, Rudy Castillo, Robert Henderson, Terry Haggerton and Pee-Wee Russel, all of Colorado City; Tommy Doyle, Reeves, Hernandez and Mingo Costillo of Sweetwater and from Midland were Ricky Moreno, Jesse Moreno, Robert Alarete, George Alarete and Coach Jr. Costillo.

The team represented Lupe's Day Care Center of Midland.

Dodgers Clinch 1st Place Title

The Dodgers clinched the Freshman League first place title Thursday night when they defeated the Indians 18-0, giving them a 13-0 win-loss record.

This title gives the opportunity to compete

in regional finals in Brownwood. There will be nine other first place teams contending for a chance to advance to the state finals that will be held in Monahans.

Friday night, the Yankees beat the Pirates 9-5, this leaves them in third place.

In the final game of the night, the Rangers downed the Astros 10-6.

the morning before grasshoppers began to move into the field. By afternoon, when most of the jumbos are in the field, many of these knockdown insecticides don't have enough residual available to kill.

The best control for jumbo grasshoppers has been a combination of border treatment with baits or long residual insecticides and timely applications of fast knockdown insecticides, he said.

Fleahoppers attack young squares and caused them to drop off. However, Jany explained, applying insecticides to destroy fleahoppers will also destroy beneficial insects at a time when the bollworm is beginning to emerge.

He advises producers to scout fields and make timely application of recommended rates of insecticides.

Jany will hold field discussions on the fleahopper Thursday at 9 a.m., at Costin Implement Co.; 1:30 p.m., at the Cree-mee in Loraine and 4 p.m., at the Westbrook Cafe.

Field demonstrations will be given to discuss and identify the pest and how to control it.

sold half-way through the game to raise money to sponsor a Little League team.

It will be both fun and entertaining and although the bruises are still blue from practice, I am looking forward to it.

I'm not promising that we will qualify for the World Series and we might not be the superstars of tomorrow, but I do think it will be a rewarding evening that you wouldn't want to miss. Oh yeah, I wouldn't want to influence you, but yell for the Red team.

For the last couple of weekends, I have had the opportunity to wet a hook, once at Lake Spence in Robert Lee and once at the Brady Reservoir in Brady.

Usually, when I go fishing, I get very impatient... forget the fishing and jump in for a swim. I don't know if it's old age setting in or what, but I actually sat without moving a muscle and it paid off. It really was a record catch, but you should have seen the one that got away.

There is so much activity going on in Mitchell County with the rodeo finishing up yesterday (Saturday), the Centennial and all the baseball and softball action, that it was really a break to just sit on the bank and enjoy some of the slower things in life.

It is really good therapy, because when Monday rolls around, I'm ready for something new and exciting. Try it, I'm sure you'll like it!

I have been employed with the RECORD for over a year and a half and I have always closed my column with a verse from the Bible and something occurred to me today, I haven't even scratched the cover. One doesn't really have to even look, because every verse means so much.

I'll close with II Cor. 1:4-5, which means a lot to me; "Who comforteth us in all our tribulation, that we may be able to comfort them which are in any trouble, by the comfort with which we ourselves are comforted of God. For as the sufferings of Christ abound in us, so our consolation also aboundeth by Christ."

First Assembly Of God

While serving my country as a member of the United States Armed Forces, I was a soldier in the Army, stationed in Vietnam. The location was Quin Yan, which is a city along the China Sea in about the middle of the country. The city itself was quite spread out with military installations of the different armed forces of South Vietnam, Korea, and the United States. Of course, in a war zone, the military personnel carry real weapons loaded with live ammunition.

As I reflect back to those days, I often find myself making a comparison of some of the Wild West shoot-out shows and the streets of Quin Yan. But the real difference is that war is real and in my mind I can still smell the sting of dead soldiers.

I can see the bullet ridden deformed bodies of men that died for a cause they did or did not believe in. Mothers and Fathers that weep and hurt and anguish over the death of sons and husbands. Loss on every side, buildings, homes destroyed, leveled to the ground by the bombardment of heavy guns.

Children spitting and urinating on the corpse of their enemies in hatred and disdain. To coin a phrase, "War is a living Hell" and I thank God with all that is within me, that these horrors have never reached the shores of our land within our life time.

We truly are most fortunate and Blessed of God that we have been spared such severe difficulties on our main streets and yes, even in our backyards.

 teams will be filled with drilling mud."
 He almost choked laughing on that one.
 When he regained his composure, he gave a brief description of the next contest planned.
 "Some lucky kid, under 15, will take home a real live pig, after winning this contest," Aston said.
 He related how a 50 pound pig is to be turned loose on the girls' softball field, inside the fenced area, then kids will

be turned loose to catch the pig.
 The child who can get the pig back to home base will win. The pig will be coated in grease.
 "This should be great fun," Aston snickered.
 He has also made plans for a sack race for different age divisions; a tobacco spitting contest and a watermelon or pie eating contest (depending on which of the two items he can find enough of by the day of the contest).

Following the contests, at 5:30 p.m., musical entertainment will be provided and everyone is invited to bring a picnic basket and share in a community picnic in the park.
 Teams may be formed through civic clubs or organizations, church groups, teachers' unions, city officers, businesses, baseball teams or any group of individuals who wish to participate and demonstrate their superiority.

A wash down area will be provided, with hoses and handblers.
 An entry fee of less than 25 cents per person is anticipated and teams for the "Tug-Of-War"

must preregister, so a schedule can be arranged and posted.
 For information or to register, contact Aston at 728-5522 prior to July 15.

Correction

"RECORD" extends apologies for the error in time listed in the article relating to the Fleahopper meeting. The correct time was 10 a.m.

BETTY OYLER and Joe Boyd were installed as Worthy Matron Elect and Worthy Patron Elect during installation ceremonies by the No. 58 Order of the Eastern Star at the Masonic Lodge recently.

Correction

In Thursday's edition of the "RECORD" in the story regarding the tour of homes, a mistake was made in the spelling of the name of Emily Barry. Mrs. Barry's name was spelled Berry. This correction is necessary because both surnames belong to pioneer families.

Q. What is the life span of an automotive drive belt, and what are some signs that a belt needs replacement?
A. The normal useful life of a drive or fan belt is about three years. It's a very good practice to give your belts an inspection each time you change oil. Things to look for include cracking or tearing which is evident along the V side when the belt is pushed inward. Check for oil soaking which is a visible as well as touch inspection. Glazing is also an indication a belt should be replaced. This shows up as shiny streaks on the sides of the belt, and is caused by wear of the belt against the metal pulley. Check for lamination separations by twisting the belt or by holding outer and inner surfaces and pulling.
