Second Building Eyed

The second building for the Colorado City Food, Welfare and Health Department, which is now under construction, will be a two-story structure, approximately 10,000 square feet in area, located on the east side of the city. The building will house the department's various programs, including the food bank, welfare office, and health center. The first building, which was completed in 1967, is now being renovated to provide additional space for the department's growing programs.

The new building will be designed to provide a more efficient and functional space for the department's various programs. It will include a large kitchen area for the food bank, a waiting area for the welfare office, and a treatment room for the health center. The building will also have a parking lot for visitors and staff.

The department, which is headed by Director Melinda Morris, has been working on the plans for the new building for several months. The plans were approved by the city council in April, and the construction is now well underway. The estimated cost of the building is \$150,000.

The department is grateful for the support of the city and the community in providing the space for its programs. The new building will allow the department to better serve the needs of the community and to expand its programs to meet the growing demand for its services.

The department is also planning to expand its programs in the future. It is currently looking for volunteers and donors to help with its food bank and welfare programs. The health center is also planning to offer more services to the community.

The department is committed to providing a high quality of service to the community and to ensuring that all residents have access to the resources they need to live healthy and productive lives.

'Example' For Small Town

Colorado City's industrial development program is featured in a current newsletter of Texas Agricultural Extension Service.

The newsletter is from the Resources Development Department, emphasizing industrial development in non-metropolitan areas.

It focuses on the fact that recent statistical information indicates that manufacturing concerns are becoming less reluctant to locate in non-metropolitan areas.

And it cites Colorado City as an example of a small town going to work for industrial development.

The newsletter, circulated among all county extension agents in Texas and other allied personnel and groups, states:

CONVERSATION CORNER

CALENDAR says it's June again...and if anybody, anywhere, knows where March, April, and May went, please tell!

It's probably all due to Daylight Saving Time. All the clocks are fast, and naturally that speeds the calendar up like crazy.

So here it is June again before people even got used to May. It's almost like a case of "June In January."

June, long a favorite month for weddings, is also the favorite month for poets and old-fashioned song-writers.

That's because it rhymes fairly well with moon, croon, tune, soon, spoon, honeymoon, swoon...take it from there. It's definitely more than can be said for October or August, at any rate.

IT IS now three weeks until the official first day of summer.

But the feel of summer is in the air and signs of summer are everywhere...shorts on male and female alike...swimming parties...sandwiches and salad...fresh peach ice cream for sale...school-agers suddenly smitten with symptoms of June sleeping sickness.

Now is the time when everyone you meet is talking vacation...June does not rhyme with vacation but the two are extremely compatible.

MAIL CALL brought news of our Jamie Anderson, assistant to Senator Ralph Yarborough in his Austin office.

Jamie's glamorous wife Linda was graduated from University of Texas, Saturday, with a bachelor of arts in history.

Raymond Webb has gone to work on the sales staff, advertising department, of the Del Rio Herald, writes Jamie, Ray, former manager of the Palace and Lone Wolf Theatres here, is husband of the former Jane Pickens.

Jamie also adds "I see Temple Dickson almost every day in the (Texas) Legislature. He appears to be working very hard for the home folks and is gaining quite a reputation among other legislators for his hard and diligent work."

HEAR TELL that Don and Joyce Butler, former C-Citians now of Abilene, are parents of a boy baby, their first son and third child.

They have named him Bruce Russell Butler. His sisters are Beth Ann and Becky.

Hear, too, that Don recently resigned as city attorney for Abilene, and returned to private practice of law. He is, you remember, former law partner of our Charlie Thompson and former municipal judge here.

SPENDING this holiday weekend in Ft. Worth are Eleanor Jeffries, Thelma Tidwell, Margaret Oyler, and her daughter Margaret Ann Williams.

The quartet had tickets for "Sweet Chairty," and also for Casa Manana.

Up at Cloud Croft, New Mexico, are Dr. H. Jene and Bobbie Steakley, and the Austin McCloud family.

Hear tell the gals were planning bridge sessions while the guys played golf at the picturesque course at Cloud Croft Lodge.

DID you know that Jimmy Payne, father of the bride-to-be Arla Jo, was ring bearer at the age of five when his aunt Miss Dera Wulffen, was married to Everett Winn?

Did you know the Hulls, James, Mary Sue, and son Mike spent a recent weekend visiting friends in C-City? The Hulls live in Hereford now.

Know what the new driver's license Texas Highway Patrolman's name is? It's Jimmy DRIVER. How 'bout that?

SEEN Latelays included our Corky (Mrs. John) Shimer who moved to Midland from C-City. She's "brown as a berry" from indulging her yen for golf.

(Not that I can recall ever seeing a brown berry. Did you? All the ones familiar to me are red or black, and sometimes blue as in blueberry muffins.)

Saw Sharon (Mrs. Charles) Small on the downtown scene...Mavis and Truman Nix celebrating the end of school with a lunch hour date at the Villa...Lloyd McKee.

FAMILIAR FACES here and there places belonged to Charlie Godwin...Joe Morren...Jim Jeffrey and his wife Dorothy. She's blessed with a quiet, subtle kind of wit, plus more than her share of personal charm.

Office dropins were Ruth Latham, talking piano recital...Jim Hestand...Mary (Mrs. R. J.) Lloyd...Mary (Mrs. George) Fugate...pretty little Nancy Coffee of Lorraine who became the bride of Gary Lynn Vannoy Saturday night.

Bernice Hilliard (Mrs. John) was aglow with appreciation of her son Danny's wife Louetha who has just received her degree from Sul Ross in Elementary Education with a minor in music, summa cum laude.

Louetha lives in Andrews with her husband and two sons Bradley, 11, and Barry, who is 7.

OFF THE CUFF - Our Hattie (Mrs. Frank) Ramsdell has moved to Edina, Minnesota, to be nearer her only daughter Elsie Ann Scaife, her husband Fred, and their children Joyce, Jimmy, and Janet.

Virginia Standerfer Strain (Mrs. Jack) is recovering from surgery in Dallas.

Attractive Mrs. Billy Roach and her equally attractive daughters and son, of Snyder, were C-City visitors Thursday.

NOBODY pointed it out, but it hit me in the middle of the night of last press day. (Wednesday.)

There was an error in the Memorial Day column. One of the hazards of this trade is that a writer can know better and still get the wrong initials sometimes when under pressure and time is running out.

Robert Cooper was the son of the W. W. Coopers of route one. NOT the E. E. Coopers of TESCO village. Apologies to both families. And sincere appreciation because neither family has so much as mentioned it.

It just hit me in the middle of the night...too late to do anything about it except be sorry.

MET for the first time a new citizen named Blaine Lemons. He is the new son of Jan and Bobby and was sleeping like an angel.

pare communities to attract
industry recently released in-
formation that 98 new industries
located outside Standard Metro-
politan Statistical Areas in 1968
and 101 industries were ex-
panded outside SMS Areas in
1968.

"Harrison County led the list
of non-metropolitan counties
locating new industries in 1968
by securing 4 new plants.
Cherokee and Walker counties
both had three new industrial
plants in 1968. Twenty-three
counties located two new in-
dustries during the past year."

In the comment on the in-
dustrial development in small
town and rural areas, the news-
letter devoted the major portion
of its data to Colorado City.

"New industries with their
new jobs bring great satisfac-
tion to merchants as in-
creased sales," it added, "but
require the devoted efforts of
community leaders as evi-
denced by the work of the
Colorado City leaders."

"Non-metropolitan areas,
actually located 98 of 291 new
industries established in Texas
in 1968. This was slightly better
than 33.6 per cent of the total
new industries located in
Texas," another outstanding
performance," the newsletter
concluded.
