SLOW SOAKER BRINGS DROUTH RELIEF HERE

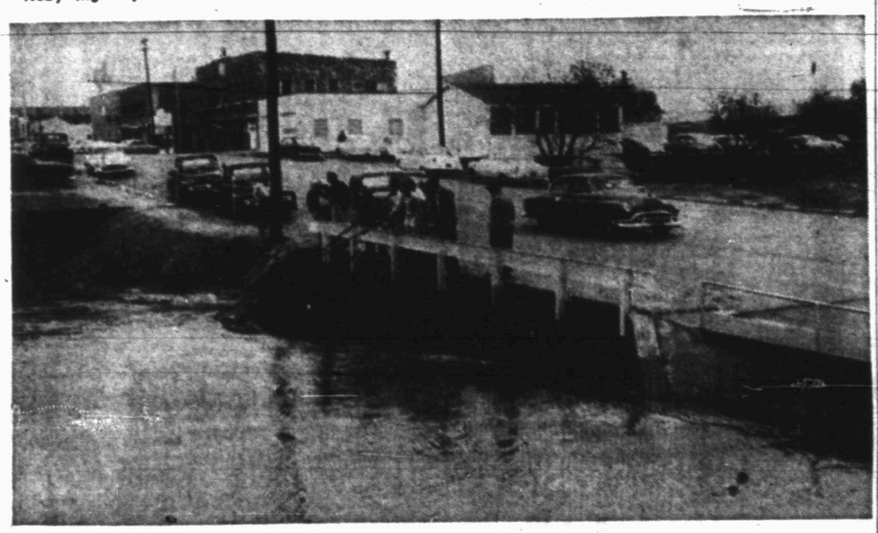

CAR MIRED IN MUD

The scene above was taken at the residence of Glen Holladay, 3010 Avenue T. Apparently the car had been left parked on the back yard and rains last night and this morning softened the ground so that the car sank up to the hub caps when an attempt was made to move it this morning.

WATER STANDS IN FIELDS

Water standing behind terraces and in furrows of the field above was a general scene over Scurry County this morning. The picture was taken three miles east of Snyder on the south side of the Roby highway.

DEBRIS CLEARED FROM BRIDGE

Employes of the city are shown above with fire poles using the hooks in an attempt to dislodge debris caught by the Twenty-sixth Street bridge across Deep Creek. The picture was made at 11:30 while the creek banks were about two-thirds full and the water level still rising. (Lee Watson photographs)

All West Texas Is Helped By Showers

By The Associated Press

Wild storms pounded drouth-dazed West Texas Monday, sweeping cars off highways, washing out fences and turning dry gullies into swollen, surging rivers.

At least one person drowned as lightning and thunder played a crashing symphony across Texas.

The heavy rains started Sunday night and reached a battering climax early Monday. Rain fell as far west as Tucumcari, N.M., and across the state in a jagged path into Louisana. Only scattered sections of South Texas failed to get even a drizzle.

Land that had dried and cracked across drouth-gripped West Texas, the South Plains and Panhandle was soaked.

The heavy rains came too late for some crops. But they were welcomed.

The rains measured from an inch up to nearly eight inches.

At Rankin, 100 miles west of San Angelo, W. H. (Bob) Burleson drowned when water pouring down from low, brush covered hills ran two feet high across a highway. The car in which he and two others were riding was swept from the road and into a draw running deep and wild.

The three were swept from the car. C. L. Chandler grabbed a timber on a bridge over the draw and pulled himself to safety. Mrs. Gertrude Hall was swept 150 yards before catching a tree. Burleson was swept 400 yards away.

Searchers found Mrs. Hall wet and shocked early Monday, a few hours before Burleson's body was found.

Two other cars were swept off the road at Rankin and several more between that West Texas town and McCamey. A truck driver swam to a rescue car. A couple marooned on top of their auto was tossed a life line.

Roads were blocked by the rain around Rankin and at other West Texas points.

Rankin itself had up to an estimated 4 inches of rain.

In the San Angelo area, the best general rains in five years flooded some towns. At least one family was evacuated from a low residential area in Ballinger and the city park was swamped. Over six inches of rain pounded Ballinger.

North Concho lake at San Angelo had already caught enough water to cover 3,757 acres a foot deep. It rose 1.68 feet overnight and the big rise was yet to come from the swollen Concho River.

Sterling County and Dawson County, both hard hit by nearly five years of drouth, had an average of two inches of rain. The fall in the north end of Dawson County was 4.6 and 2 to 3 inches in the south and west parts.

Blackwell, near San Angelo, had up to 4 inches of rain and it was still coming down.

Orient, in the same area, had up to 3.25 inches. Miles had 4.7 and up to 7½ inches a mile east of there. Rowena had 4.25 inches.

The farming county of Runnels caught 3.40 and it was still raining.

Lightning knocked out some power lines in storms Sunday night. At Denison they went out when lightning hit a line. Almost 2 inches of rain fell in the Sherman-Denison area.

Snyder, Borger, Electra were among towns reporting good rains. Early rainfall figures had to be revised upward.

The State Highway Department reported some highways blocked and under water.

In South Texas, State Highway 107 east of Edinburg was closed from heavy rains that have hit there late last week.

U.S. 67 between Rankin and McCamey and State 329 between Rankin and Crane were closed for 12 hours. Farm Road 181 was closed in Andrews County between State 176 and State 115 and expected to be closed for 24 hours.

Farm 382 closed 10 miles north of Ballinger and Farm 53 closed 7 miles east of Winters.

The rains pounded down for the fourth straight day in parts of Texas.

Thunderheads dotted the northwest two-thirds of the state.

Early Monday rain continued at Wichita Falls, Lufkin, Childress, Fort Worth, Dallas, Junction, Abilene, Big Spring, San Angelo, Dalhart and many other points.

It rained all night at Lubbock, which had 1.37 inches by Sunday midnight.

The Amarillo news reported rain in every Panhandle county, with these good figures: Three inches 1 miles east of Matador; Miami, more than an inch; Lark 1.60; Groom 1.04; Happy 2.10; Amarillo 1.11; Dimmitt .50, Matador .71; Olton .50; Floydada .53; Panhandle .80.

Marfa got 2 to 2½ inches. Heavy hail hammered an experimental station northeast of town. Cattle tanks and lakes in the area were filled up.

The Weather Bureau had warned of the "risk of an isolated" tornado in the Big Spring-Wink area of West Texas until 9 p.m. Sunday. A report said a twister apparently dipped to the ground in an uninhabited area near the Red Bluff Reservoir 40 miles northwest of Wink.

Two widely separated points—Alamo in the Rio Grande Valley of South Texas and Seminole in far West Texas—had flood problems.

At Alamo, stagnant, polluted water from an 11-inch downpour Friday drove more than 200 from their homes. They were put up in a church and given typhoid shots. Authorities were trying to figure out a way to drain the water out of the city, which is in flat, low country. Natural drainage is difficult.

Mossy Fudged On Death Fast

TEHRAN, Iran (AP)—A whopping dinner of boiled chicken, rice and vegetables has officially ended Mohammed Mossadegh's latest hunger strike. His prosecutor says the old man was fudging anyhow—sneaking cookies, chocolates and vitamin pills on the side.

The former Premier, who is appealing his three-year solitary confinement sentence, launched his "fast unto death" Saturday because the court didn't let in enough spectators to suit him and the papers weren't reprinting in full the 600 pages of appeal he's now presenting.

On those counts, the strike scored a victory and a defeat for the former Premier who was convicted of trying to overthrow the Shah.

The court relaxed its rules on attendance and an audience of more than 50 showed up today. Previously only a dozen or so had been let in .

But Mossadegh could still be hungering for all the papers cared. Etelaat gave him five inches last night and Keyhan three—on the last page. He got about the same treatment this morning.

Plane Crashes In City

LOMITA, Calif. (AP)—Residents of Lomita were surprised yesterday to see a plane skid down the street and come to rest in a front yard.

Rhondo Wheatley, the pilot, and James E. Lawrance, passenger and owner of the light plane, were not injured.

The two men, both of nearby Inglewood, told officers they were making an approach to Torrance Municipal Airport when the plane lost power, hit some wires, crashed into a parked car and continued down the street.

REPORTS LAG ON WATER RUN FOR LAKE THOMAS

There was no accurate information of the effect of the rains on the level of Lake Thomas in southwest Scurry County.

James Rosser, Colorado River Municipal Water District board member, said this morning that the district's headquarters in Big Spring only had reports up to last night.

At that time the Colorado River was running about five feet high and Bull Creek was not running at all. The effect on the Lake then was little. Since that time a report of two and a half inches falling in the middle of the watershed was being checked.

Heavy rains in the night south and west of Gail should make an appreciable change in the water level at the lake, it was believed.

Champ Snake Hunter About Ready To Quit

OKEENE, Okla. (AP)—The champion hunter of the 15th annual Rattlesnake Roundup said today he was ready to retire after capturing the biggest rattler in the history of the event.

"This might be a good time to quit," said Russell Strayhorn, a rugged, bronzed outdoorsman who collars the deadly diamondbacks in their own dens.

"At least my wife thinks so."

Strayhorn, 48, who lives at nearby Watinga, said the monster Texas diamondback he snared with his partner yesterday was the longest he had ever seen—75½ inches of buzzing, deadly reptile. And he estimates he has caught 2,000 of them alive in his 19-year career.

It topped the catch of 1,576 hauled squirming from their rocky havens in Salt Creek Canyon west of here in the safari sponsored by the International Assn. of Rattlesnake Hunters.

Billed as the world's most unusual sporting event, the hunt attracted an estimated 20,000 sportsmen from 26 states.

Strayhorn pocketed $51.50 auction proceeds for his champion, which he caught with H. H. Tomlinson, superintendent of Roman Nose state park, in the gypsum hills infested by hundred of thousands of the venomous rattlers.

The wranglers had a busy day, bringing in 71 snakes.

"We found the big one coiled and ready in a den that's usually empty," Strayhorn related. "His body must have been as big as a man's arm—and as strong. We didn't take any chances—pinned him with a forked stick, snapped the steel snake-catcher behind his head and dropped him into a bag."

Man Confesses 1 Of 2 Murders

MCALESTER, Okla. (AP)—Highway Patrol Lt. Andy Bidwell said a 25-year-old AWOL airman today admitted he shot a missing Dallas man to death last Friday and stuffed his body under a bridge west of Albuquerque, N.M.

James W. Hutchins, Forest City, N.C., absent without leave from Nellis Air Force Base, Las Vegas, Nev., made his oral confessional before Bidwell, two Dallas detectives and newsmen.

The victim was Bruce Weibell, Dallas, formerly of Derby, Colo. Weibell's family in Dallas had reported [illegible]ing and his wife came here today with Dallas deputies.

Hutchins denied he had any connection with the slaying of a blonde girl near Boulder, Colo.

Hutchins was picked up by trooper Harold Ragsdale for speeding Saturday and blood-stains were found in the back of his car.

The car was traced to Bruce Weibell, Dallas, formerly of Derby, Colo. Weibell's family in Dallas reported he was missing.

The highway patrol said Hutchins also denied knowing Weibell.

Mrs. Weibell, accompanied by two Dallas policemen, arrived here today and identified the blood-stained clothes found in the car as those of her husband.

Ask Ruling Against New South Texas Judge

AUSTIN (AP)—The Court of Criminal Appeals was asked today to set aside District Judge A. S. Broadfoot's order dissolving the Duval County grand jury and discharging the jury commission that named the panel.

Broadfoot had taken the action declaring the commissioners "did not use due care and diligence in selecting fair and impartial grand and petit jurors."

Attorneys for the three grand jury commissioners want a writ to prohibit enforcement of Broadfoot's March 31 order, a mandamus compelling him to test the qualifications of the jurors, and a writ forcing him to produce records they said he will not give up.

Up To Four Inches Dumped On Scurry

One of the best rains since the drouth began three years ago fell on the Snyder area during the week end and this morning.

The rain ranged from one and one-half inches across the south part of Scurry County to more than four inches in the north part and in scattered areas through the county.

In Snyder, the rainfall amounted to at least 1.6 inches by noon. That brought the total for the year to about 2.08 inches. The total for January was .30, for February .03, and for March .10.

This is the only rainfall so far in April, and it is the biggest rain in Snyder since last Oct. 22-23, when 2.10 fell here. The biggest rain prior to that time during the drouth was 2.20 on July 15, 1952.

Rainfall totals to this time in previous years was 2.30 last year, 1.11 in 1952, 1.26 in 1951, and less than two inches in 1950. The average for this period is more than three inches. The average for April is .98.

READY TO PLANT

In this entire area, rains were slow, with most of the moisture soaking into the ground. Jake Hodges, soil conservation chief here, said this rain is enough for farmers to put up their land in preparation to plant. Some farmers had already done that here.

One seed dealer here this morning said that there was a virtual rush on his establishment this morning by farmers wanting to plant.

He quickly sold out of this stock, but expects another truckload from Lubbock this afternoon.

Hodges said some farmers will plant their cotton on this rain. Those are in areas having the most rainfall, which will provide enough moisture for planting about May 1. Ordinarily, farmers here plant their cotton about May 15, but many times they plant earlier when moisture has fallen early.

Grass seeding on many farms and ranches will start within the next few days, he said. Hodges said this rain will help pastures in many parts of the county. Stock tanks in part of the county were filled, but in most areas the rain soaked in and there was not enough runoff to fill stock tanks. The majority of the tanks, however, had water from rains last fall, Hodges said.

NORTH SCURRY

Dan Gibson, who lives about 15 miles north of Snyder, said four inches of rain fell in his area yesterday and last night. The area had alreay had .4 of an inch Saturday. All the rain was slow, ideal for the ranches and farms here, Gibson said. The rain in his area filled stock tanks. Pastures in north Scurry will green out now, Gibson said, predicting that the county is now "going over the hump."

Farther north in Kent County, on the ranch of Leroy Spires, rainfall amounted to about three inches.

In the Fluvanna area, the rain totaled from two and one-half to four and one-half inches, with most of the rain just northwest of Fluvanna. Deep Creek, which heads near Fluvanna, was reported high enough that cars could not cross it on roads there early this morning. Both Bull Creek and Bluff Creek in Southwest Scurry were reported running this morning.

Cullen Toombs, who lives south of Fluvanna, said a rain gauge at his residence showed 2.8 inches and that rain in larger amounts was recorded by most of the other gauges in that area. This rain will give plenty of ground season for planting if weeds can be kept down, Toombs believes.

MORE IN WEST

West of Snyder, the rain was varied, with measurements of more than 1.75 at the R. J. Randals ranch eight miles west of Snyder, about three inches at the Lion Oil Camp 13 miles southwest of Snyder, and about four inches in some areas south of the Lion Camp. Rainfall at Gail was reported at three inches.

At Ira, rainfall was from 1.5 to 2.1 inches, reports indicated.

The rain was much the same all the way across the southern part of the county, with 1.5 reported at Dunn, 1.5 to 2 inches at Hermleigh.

Farmers and ranchers in all parts of the county were talking about the rain this morning. They were reported keeping the telephone lines busy in the Hermleigh area.

Telephone lines were soaked in some parts of Snyder and the county this morning. Roads were not reported bad, since most parts of the county have paved routes to Snyder and other areas now.

Atty. General Is Opposing Anti-Red Law

WASHINGTON (AP)—Atty. Gen. Brownell today strongly opposed legislative proposals to outlaw the Communist party in this country. He said such action would hinder rather than help the drive against communism.

The attorney general told a House Judiciary subcommittee that any law making it a crime, of itself, to join the party, would send the movement entirely underground and "increase the already difficult investigatory job of the FBI."

In addition, he asserted that such a law would raise constitutional questions which would certainly be tested at great length in the courts, thus interfering with the numerous action now being taken to curb communism by bringing the organization and its members into the full light of publicity.

In lieu of outlawing the party, the attorney general offered the subcommittee 10 suggestions of his own for tightening the laws relating to subversion. Some of these he had proposed as long ago as last year. He detailed all of them in a telecast last Friday night designed to reasure the country that although Communists are in our midst, much has been done and is being done to nullify their movement.

Flying Farmers Head Dies In Plane Crash

TRINIDAD, Colo. (AP)—Boyd Gal, 38, president of the Colorado Flying Farmers Assn., and four others were killed yesterday in the crash of Gal's private plane on a ranch northeast of here.

Three of the other victims were members of the prominent Yellowjacket, Colo., bean farmer's family. They were his wife, Audrey, and their two children, age 2 and 4. The fifth victim was John R. Becher, 73, a family friend, of Cortez, Colo.

The party was flying from Cortez, 250 miles west of Trinidad, to Kim, Colo., 64 miles east of Trinidad, yesterday afternoon when the Cessna 190 apparently went out of control in a heavy overcast and crashed.

WEATHER

NORTH CENTRAL AND WEST TEXAS: Mostly cloudy this afternoon, tonight and Tuesday with scattered showers and local thunderstorms. No important temperature changes.

SOUTH CENTRAL AND EAST TEXAS: Mostly cloudy this afternoon, tonight and Tuesday, with scattered showers and thundershowers. No important temperature changes. Moderate to locally fresh easterly winds on the coast.

Fisher County Wildcat Tests And Makes Oil

Signal Oil & Gas Co. of Fort Worth No. 1 Trammell and others, Northeast Fisher County wildcat, has reported pumping 30 barrels of oil with 70 barrels of water on a preliminary production test.

The gauge reported covered a 24-hour period. Production is from perforations at 4,994-5,000 feet. Testing is to continue.

This prospective lower Canyon sand discovery is about four and one-half miles northwest of Hamlin and 2,350 feet from south and 1,640 feet from west lines of subdivision 19, Austin & Williams survey No. 348.

HOWARD TESTER

Carl J. Westland of Midland No. 1 Ford, one-half mile north of production in the North Moore field of Howard County, is preparing to install a pump for a completion try.

The project is bottomed at 3,150 feet in lime with five and one-half-inch casing cemented at 3,106 feet. Pay is from 3,112-150 feet.

That zone was treated with 1,500 gallons of acid and fractured with 3,000 gallons of sand oil. Operator was swabbing oil at the rate of 90 to 100 barrels per day before preparation for the pump installation began.

Van Grisso Oil and Harvey No. 1 Carpenter, Howard wildcat in section 17-25-H&TC, is drilling in anhydrite and gyp below 2,485 feet.

Texas Pacific No. 1-12 Winnie Thompson is at total depth of 278 feet and preparing to run 13⅜-inch casing. Texas Crude No. 1-34 White is bottomed at 3,380 feet in lime and preparing to run eight and five-eighth-inch casing. Oceanic Oil & Gas No. 5 J. F. Winans is drilling in anhydrits and salt below 2,228 feet. Oceanic No. 4 Lou Winans is drilling in shale below 7,607 feet. Oceanic No. 2-A Anderson is drilling in lime and shale below 5,966 feet.

KENT FAILURE

J. A. Lavender, Jr., No. 1 G. M. Wallace has been plugged and abandoned on total depth of 7,569 feet in Pennsylvanian lime and shale.

This project was 670 feet from west and 656 feet from south lines of section 91-G-W&NW, about 14 miles west of Clairemont. It was

Anti-Red Bill Is Ready For Shivers

AUSTIN (AP)—A bill cracking down on Communists and other subversives went to Gov. Allan Shivers' desk today after final passage by both the House and Senate.

The Senate adopted a conference committee report on the bill writing heavier penalties for convicted subversives into the state law by a voice vote. The House vote was 127-7.

There was half an hour debate in the House in which opponents renewed arguments that the bill threatens constitutional freedoms.

Rep. Fred Meridith, Terrell, said such arguments against the bill represented "phony exaggerations of fear of what the bill does to constitutional rights." Proponents have said the measure will help drive Communists out of Texas.

The proposed law sets up jail terms of from one to 20 years and fines up to $20,000 for convicted subversives.

The anti-Communist measure and bills authorizing nearly $2,000,000 in new spending faced showdowns today as the Legislature began the last two days of its special session.

The Senate's final action on the Communist control bill came on a voice vote without any noes.

Early final action on the anti-subversives bill was expected in the House.

The proposed law to crack down on convicted subversives with heavy fines and jail penalties was ready for new submission to both houses.

A joint Senate-House conference committee got together on conflicting versions of the bill Friday night. Proponents believed senators and representatives would accept the rewritten version.

The Communism bill in its revised form reduces the appropriation for the internal security division of the Department of Public Safety from $87,000 to $75,000. It also would prevent use of the proposed new law in labor disputes.

Big hurdles faced the new money bills.

They were up against dwindling cash or cash prospects in the state treasury, plus stringent rules governing legislation in the closing hours of a session.

Many of these bills have been passed by the House, and companion measures were approved in a rapid-fire session of the Senate Finance Committee Saturday night.

Sen. Jimmy Phillips, Angleton, who had demanded the public hearing, failed to show up. The committee lost no time hearing a few witnesses for the measures, then shoving them out for Senate debate.

Exiled Prince Dies In Automobile Wreck

DATCHET, England (AP)—Exiled 26-year-old Prince Nicholas of Yugoslavia was killed in an automobile accident as he drove through this Buckinghamshire village early today.

He was a cousin of ex-King Peter and the younger son of Prince Paul, regent for the young King before World War II. He also was a nephew of the Duchess of Kent, the former Princess Marina of Greece.

Nicholas was alone in his car when it plunged into a ditch.

Dulles Asks British Backing In Warning On Red Asian Acts

LONDON (AP)—Secretary of State John Foster Dulles, seeking to patch up a Big Three rift over Southeast Asian policy, urged Britain today to join in an early Western warning intended to head off Communist seizure of Indochina.

Informants said Dulles told British Foreign Secretary Anthony Eden the Western Allies must show a united front on Asian affairs at the Geneva Conference and bargain from strength. Both Indochina and Korea are up for negotiation at Geneva beginning April 26. Soviet Russia and Red China will be sitting in.

Dulles and Eden, who met at the British Foreign Office, appeared to be searching for a compromise on the timing of the Washington proposal for a warning to Red China to keep hands off Southeast Asia. Paris and London want to postpone any gesture which could be interpreted as a strong arm move, fearing it would narrow the already slim chances of negotiating an Indochina settlement at Geneva.

Dulles is striving to get British backing for a pre-Geneva declaration before he flies to Paris tomorrow to persuade the even more reluctant French.

Official sources said Dulles feels a common declaration right now will help the French to maintain a firm position at Geneva against any compromise that might eventually lose Indochina to the Reds.

The French and British are ready to join in warning the Peiping regime against aggression in Indochina and to help sponsor a new Southeast Asia defense organization—but only if the Communists spurn a negotiated settlement at Geneva.

Across the English channel, the French press manifested a little less uneasiness today than previously over the Dulles proposals.

The independent Paris newspaper Le Figaro said "we should not refuse to join in a common declaration provided it does not take the form of an ultimatum."

The Socialist Le Populaire, evidently referring to a statement by Sen. Knowland (R-Calif.) that the United States could delay financial aid to nations which did not follow Dulles' proposals, said:

"The menacing gestures of certain particularly influential American politicians makes a conversation between governments indispensable. To speak of reprisals of such and such a nature between allies shows a lack of mutual friendship. A good mutual understanding can not exist if one ally tries to impose its views on another. Mr. Dulles appears to understand this. At least his trip to Europe indicates this."

Bond Forfeitures, Bootlegger Guilty

Five bond forfeitures were ordered in cases against a woman in county court this morning, one other forfeiture was ordered in a case against a man, and another man was given a five-month jail sentence and fined $100 by a six-man jury. Another man pleaded guilty and paid a fine for bootlegging.

Eddie Reed, Snyder Negro bootlegger who had previously been convicted here once, was found guilty this morning of illegally possessing liquor. The county court jury was in deliberation about 45 minutes before returning a verdict. Reed will be required also to pay court cost of $28.50.

Reed, formerly of Seattle, was taken to the county jail to begin his five-month sentence. He was not represented by legal counsel in the trial but pleaded his defense himself. He was previously convicted here Nov. 25 and was fined $150 plus court cost of $23.50 on a similar charge.

In today's case, the jury found he possessed 16 pints of wine for purpose of illegal sale at the time he was arrested March 26.

Bond forfeitures were ordered by Judge Edgar Taylor this morning in five cases against Mrs. Helen Zamora Clay, who failed to appear for trial. She has four charges of bootlegging pending against her and one case of contributing to the delinquency of her minor son, Will Clay, Jr.

The woman, a Latin-American, is the ex-common-law wife of Will Clay, Sr., Snyder Negro bootlegger, who told the court this morning he would make efforts today toward disposition of the cases against her.

Mrs. Clay was charged in county court last week with contributing to the boy's delinquency by sending him beneath her house for hidden liquor she sold to an agent of the state liquor control board, Fred Taylor, who signed the complaint against her. She is also charged

Week-End Violence Claimed Lives Of At Least 26 Persons

By The Associated Press

At least 26 persons died in week-end violence over Texas. Traffic was the big killer, claiming 14 lives.

Sue Nan Craig, 14, was killed and 3 other Dallas persons injured Sunday in the head-on collision between their auto and a truck at Jolly, east of Wichita Falls.

Ernest Nixon, 29, was shot to death at Abilene early Sunday by another Negro following a dice game argument.

Two persons were fatally injured Sunday when their car overturned on U.S. 80 one mile west of Pumnam in West Texas.

Johnny Crooms, 39, of Arlington, died at a Baird hospital, and Alice Celmmons Armstead, 50, of Odessa died in a Cisco clinic a few hours after the accident.

James Howard Hargrove, 31, of Diamond Hill in Fort Worth was found hanged with his belt in a city jail cell in Weatherford Sunday morning. He had been arrested at 1:30 a.m. following a traffic accident and was found dead at 4 a.m. He had a wife and two children.

Mrs. Arnulfo Paloma, 30, of Raymondville was killed Saturday night in a truck-car smashup near Weslaco.

Two persons were killed and six injured in a head-on collision two miles east of Yoakum Saturday night. Dead were Thomas B. Burke, about 46, of Normangee, and Eva Gill, about 55, also of Normangee. Mrs. Marguerite Day Burke, 56, wife of the dead man, was in critical condition at a hospital in Yoakum.

Robert Dale Adair, 11, was crushed to death Saturday night in an elevator shaft at the Fant Milling Co., Gainesville, where his father is a night watchman. The boy and his father, Burr Adair, were riding in an open-type service elevator. The child apparently looked over the edge of the elevator and his head was pinned between it and the second floor.

Two Lufkin men were killed Saturday near Woodville when their truck hit a tree. They were Fred Fredieu, 24, and his father, Drew Fredieu, 57.

Hunter Floyd Calloway, 13, of Elkhart near Palestine was killed Saturday by an automobile as he crossed a highway to pick flowers for his mother.

A 3-year-old boy drowned Saturday in a rice mill reservoir near Richmond. He was Clarence Virgil Uherek of Wharton.

Walter E. Folsom, 4, of Pecos, was killed in Pecos Saturday when struck by a car.

In Kingsville, Mrs. Velma Elizabeth Weaver died of burns received in a flash fire Saturday in her apartment.

Simon Alvarado, 24, McAllen, was killed and four persons hurt Sunday in the headon collision of two cars on the Austin highway near San Antonio.

Martin Sanchez Guillen, 28, Houston, was shot to death Saturday at the home of Maximo Arredondo, 67, in Houston. Arredondo was charged with murder.

Leroy Hutchins, 28-year-old fisherman at Port Aransas, was believed drowned in the Humble dock area of Harbor Island near Port Aransas Sunday. Coast guardsmen and others dragged the channel in an attempt to find the body.

A man identified as Roosevelt Rosebrough, 51, of Dallas was shot to death Sunday during an argument in an alley near his home. Police arrested a 54-year-old man who said he fired at Rosebrough when the victim threatened to knife him.

OIL NEWS

originally slated to drill to 7,500 feet to test the Pennsylvanian.

DRILLING REPORT

Union Oil and Lone Star No. 1 J. E. Boone, Northeast Scurry wildcat in section 98-2-H&TC, is drilling in red beds and anhydrite below 1,325 feet.

Sun Oil No. 2 J. W. Layne in Southwest Scurry is drilling in shale below 6,420 feet.

Superior Oil No. 14-535 Jones, Northeast Borden exploration is waiting on orders after a drillstem test from 7,940-990 feet. Recovery was 4,770 feet of fluid with no breakdown given.

Elsewhere in Borden County, Phillips No. 1-B Clayton is drilling in lime and shale below 5,966 feet. Falcon Seaboard and others No. 1-A Clayton & Johnson is drilling in sand and shale below 7,800 feet. Rowan Oil No. 1 Long is drilling in lime and sand below 6,752 feet. Texas Crude No. 1-44 A. D. Brown is tearing down rig. Brahaney No. 1 Acosta is waiting for cement to cure on five and one-half-inch casing.

BOND

with three counts of liquor sale to Taylor and one count of illegal liquor possession. She has previously been convicted once of bootlegging.

Mrs. Clay's sister, Elsie Zamora, also a neighbor of her, was convicted Saturday on two counts of bootlegging when a plea was entered in each case by her attorney, Lloyd Davis. She was fined $200 plus court cost in each case.

Jesse Beecher White, 53, operator of a second-hand hardware and car parts store at 2325 Avenue R, was taken to the county jail this morning after a bond forfeiture was ordered in a case pending against him.

He, like Mrs. Clay, was called for three times at the courthouse door when he failed to appear for trial. He was later arrested on orders of the county judge, Edgar Taylor, and confined in jail.

White is charged with willfully and knowingly receiving and concealing stolen property. Last September, he was fined $250 plus court cost of $23.50 in each of two cases against him, in which he was charged with contributing to the delinquency of a minor by encouraging him to steal property for purpose of selling it to White.

White's present bond is for $250. Mrs. Clay's were $500 each except one for $250.

A fine of $123.50, including court cost, was paid early today for J. W. Hanson, 38, of Snyder, when his attorney, Pat Beene, pleaded him guilty to a charge of illegal liquor possession.

Hanson was arrested in January at Riley's Apartments, 2401 Avenue S. He has been free on bond of $500.

Jurors in the Reed case were Everett Clarkson, Fred Bullard, John DeShazo, J. H. Higginbotham, Rea Falls, and Mel Zane Gilbert.

Less Dust To Help Disease

At least a few of the persons bothered with nasal and throat ailments may be relieved by the rainfall here yesterday and today.

Rain fell not only here but in most of West Texas, indicating that less dust will be blowing here for awhile.

Physicians here said a few days ago that blowing dust was complicating residents' troubles with sinus condition and other ailments connected with the nose and throat.

Streptococcal sore throat, including scarlet fever, heads the list of communicable diseases on the report of the County Health Unit here, which receives weekly reports from Snyder physicians. That classification of diseases so far this year has had 117 cases in Scurry County.

Other diseases reported to the health unit so far this year include three cases of infectious hepatitis, 19 measles, two polio, five dysentery, three tuberculosis, 17 gonorrhea, one syphillis, and four pneumonia.

Funeral Rites Held For Mrs. S. H. James

Funeral services for Mrs. S. H. James, 2101 Twenty-fourth Street, were held at 3 o'clock this afternoon in the Avenue D Baptist Church.

Mrs. James, 78, a resident of Scurry County since 1925, died Saturday afternoon at her residence. The Rev. Floyd Strickland, pastor of the Avenue D Baptist Church, officiated at funeral rites. He was assisted by the Rev. Euell Smith of Dublin and the Rev. E. K. Shepherd of Snyder. Burial in Snyder Cemetery was directed by Bolger Funeral Home.

Mr. and Mrs. James, who celebrated their sixty-first wedding anniversary on Jan. 1, came to Scurry County from Madisonville, Tex. Mrs. James was the former Miss Mary Georgia Baggett. She was a native of Madison County. Mr. James was engaged in farming here until his retirement in 1934.

Survivors in addition to the husband include two daughters, Mrs. W. L. Cobb of Bryan and Mrs. J. N. Mangum of Kermit; five sons, R. M. James of Lake Jackson, Tex.; S. H. James, Jr., of Galveston, B. M. James of Winters, M. L. James of Brownfield, T. M. James of LaMarque, Tex; two sisters, Mrs. L. E. Rayburn of Duncan, Okla., and Mrs. Cannie Lambert of Arkansas; 25 grandchildren and 25 great-grandchildren.

Grandsons of Mrs. James served as pallbearers.

House Will Be Ready To Quit By July 15th

WASHINGTON (AP)—Speaker Martin (R-Mass) predicted today that the House will be ready to adjourn by July 15, but Sen. Knowland (R-Calif) expressed doubt the Senate will be able to close before July 31.

Martin and Knowland, the Senate majority leader set forth their views after their regular Monday conference with President Eisenhower.

Today's session was cut short, the leaders explained, because of the death early today of Sen. Dwight P. Griswold (R-Neb).

Martin told newsmen at the White House that the House still is aiming for July 1 to July 15 "and I think we'll make it." He added that July 15 probably was more likely.

Knowland said he was not as optimistic as Martin.

"I think July 31 would be a closer approximation," Knowland added.

The House plans to recess late Thursday for a 10-day Easter holiday. The Senate will recess at the same time, but because of its heavier work load will return to the job next Monday.

Martin said the House would start debate today on an agriculture appropriation bill, and pass it Wednesday. He said several minor bills also are scheduled for action before the recess.

When the House reconvenes, Martin said, it will take up a military appropriation bill April 26 and pass it that week.

After that, he said, there will be action in sequence on the administration's health program, social security, amendments to the Taft-Hartley labor law, and on the foreign aid bill.

Knowland said next Wednesday he hopes to get a vote on a lease-purchase bill deadline with public buildings.

Next, Knowland said, is a wool bill—which he predicted will take several days of debate. The fight is expected over amendment proposals which would bring a showdown on the administration's plan for flexible farm price supports.

Guilty Plea In DWI Case Here

A fine of $73.50, including court cost of $23.50, was paid in county court late Saturday for ElRoy Paul Malick, 29, Snyder, who pleaded guilty to a charge of driving while intoxicated.

The mandatory three-day jail sentence was probated by County Judge Edgar Taylor.

Malick was driver of a pickup truck which overturned three and one-fourth miles south of Fluvanna on a farm-to-market road March 15, seriously injuring Mrs. Nancy Lankford, 29, of Snyder.

Mrs. Lankford was released from Battenfield Hospital here only last week. She suffered skull fracture, jaw injury, and three fractured ribs and was considered for several days in very serious condition.

Malick was not seriously hurt in the accident.

The charge of driving while intoxicated was filed against Malick the morning after the accident, and he was released on bond shortly afterward.

Big Anderson Goes To Jail

Anderson Davis, Sr., numerously convicted Snyder Negro bootlegger, was imprisoned this morning in the county jail in lieu of payment of a fine of $2,500 plus court cost.

"Big Anderson" was jailed immediately after receipt here of a mandate from the court of criminal appeals in Austin, where his conviction was upheld last Wednesday for the third time since a jury here last July 7 found him guilty on a charge of illegal liquor possession.

He appealed the case, the appeal was dismissed against him, he filed motion for rehearing, the motion was overruled, then he filed second motion for rehearing, and it was overruled Wednesday without written opinion.

Anderson will be required to serve one day for each $3 of the fine he is unable to pay. His son, Anderson Davis, Jr., is currently serving his 17th month of a four-year sentence for bootlegging.

Bad Check Fine Paid

E. H. Gray, 43, formerly of Sweetwater, Brownwood, and New Mexico, paid a fine of $43.50, including court cost, when he pleaded guilty late Saturday to a county court charge of swindling by worthless check.

Gray also redeemed the $20 check given to Dunlap's.

BIRTHS

Mr. and Mrs. Don Williams, 509 Thirty-third Street, are parents of a daughter, born at 4:18 o'clock this morning at Cogdell Memorial Hospital. The child weighed eight younds, eight and one-half ounces.

Chamber Board Meeting

The chamber of commerce board of directors will hold its regular meeting at 7:30 o'clock tonight in the chamber office.

The board, headed by H. W. Cargile, president, will hear reports of all committees which have met so far this year. Those include membership and finance, recreation, tourist development, and merchants committees.

Come in and see this New Beltone Triple - Transistor Hearing Aid that weighs only 2½ ozs. and practically pays for itself through amazing battery savings.

ADV.

Chamber Panel Holds Meeting

The membership and finance committee of the chamber of commerce held its first meeting of the year this morning and scheduled the chamber's annual membership drive for the week of April 26-May 1.

The group, headed by Stanley Noah, will hold a meeting to make final plans for the drive at a breakfast at 7:30 o'clock next Tuesday morning. Place for the meeting has not been definitely determined.

Noah said the chamber now has 329 members, adding that there are many firms and persons not yet members of the chamber. He said the chamber this year has added to its program, which operates under 14 committees, adding that the organization's program is designed to be handled entirely out of the budget. There was no solicitation for added funds last year, he said.

Membership in the chamber, Noah said, is open to firms, their owners or managers, or individuals.

Drunkenness In Arrest Lead

Fines from traffic citations totaling $475 collected in corporation court last month pushed the total of fines collected to $1,267, the monthly report of Walter Suttle, police chief, shows.

There were 80 traffic citations issued during the month.

A total if 43 persons were attested with various forms of intoxication charges leading the list of arrests.

Charges filed were: intoxication 15, intoxicated in automobile 13, intoxication and disturbance eight, auto theft two, theft under $50 one, sodomy one, disturbance one, failure to sign traffic ticket one, transportation of liquor for purpose of sale in dry area one.

The three police patrol cars were driven a total of 11,523 miles during the month using a total of 895.4 gallons of gasoline and 26 quarts of oil.

Officers of the police department investigated 16 traffic accidents during the month.

HOSPITAL NOTES

The following admissions and dismissals at the two Snyder hospitals are only those whose names have been released by the hospitals.

BATTENFIELD HOSPITAL

Admissions: D. W. Baldwin, Jr., 103 Milburn; John Grady Moore, route 1; Mrs. Louis J. Beurlein, 113 East Twentieth Street; Mrs. Carrie Harris, Snyder.

Dismissals: Mrs. Duaine Davis and baby boy, route 3; Mrs. L. B. Allgood and baby boy, Snyder; Mrs. Milton Mapes, 1910 Coleman.

COGDELL HOSPITAL

Admissions — Mrs. C. L. Nelson, 3007 Fortieth Street, surgical; Harold Makos, Canyon Courts, medical; Mrs. Don Williams, 509 Thirty-third Street, obstetric; H. G. Niedecken, 505 Nineteenth Street, medical.

Dismissals — Mrs. Erich Arnold, 504 Twenty-eighth Street, obstetric, and infant son; Clyde Sawyer, 2707 Avenue V, medical; Miss Eileen Knight, 2303½ Avenue H, medical; Mrs. S. A. Yates, 300 Thirty-fourth Street, surgical; Mrs. Amon Weaver, 3108 Hill Avenue, medical; Ruth Nichols, 104 Browning, medical.

Gulf Coast Dockers Trying To Change Over To Federation

LAKE CHARLES, La. (AP)—Representatives from 11 dock workers locals in Louisiana and Texas today are members of a council organized to operate within the AFL's new International Longshoremen's Association.

Walter R. Mayo, vice president of the old independent ILA before he resigned after union leaders were accused of racketeering, said local representatives came from Lake Charles, Orange, Beaumont, Port Arthur and Port Neches, Tex.

The 11 locals organized into the Sabine District Dock and Marine Council, Mayo said. Mayo, of Lake Charles, was named acting chairman, and James Farque of Lake Charles, acting recording secretary.

Representatives from New Orleans and Houston locals attended the meeting, Mayo said, but did not join the council.

City Council Meeting

A brief meeting of the city council is set for tomorrow at noon, B. J. Shelley, city manager, said.

It will be the first meeting of the council since members were installed in office last Wednesday following the city election Tuesday.

Imagine a Motor Oil that adds Octanes to Fuel Performance!

Boosts Gasoline Mileage Up to 23%!

No longer can motor oil be judged solely on the basis of engine protection.

Today, there is documented proof that New Mobiloil Special *actually boosts engine power*—equivalent to raising gasoline performance as much as 5 octane numbers. After just 2 crankcase changes, this amazing new kind of motor oil has given engines—which "knocked" badly before—new-car pep and knock-free power.

In hundreds of cars, it reduced the octane requirements of every type of engine tested—which, in effect, is the same as adding octanes to the gasoline used.

Maximum protection for all cars all year 'round!

Never before has a motor oil demonstrated such a complete range of protective properties.

- *New Moboiloil Special cleaned up engines of all ages and kept them clean as no other oil ever has before.*
- *It corrected or relieved spark plug misfiring and pre-ignition "ping" (most common in late model cars).*
- *It reduced the rate of corrosive and mechanical wear to practically zero*
- *It provided instant starts in sub-zero cold and complete protection at abnormally high temperatures.* This single grade is recommended for use in any climate, any season, in place of SAE 5W—10W—20W or 30 motor oil.

The BEST LUBRICANT for ANY Car.. NEW or OLD!

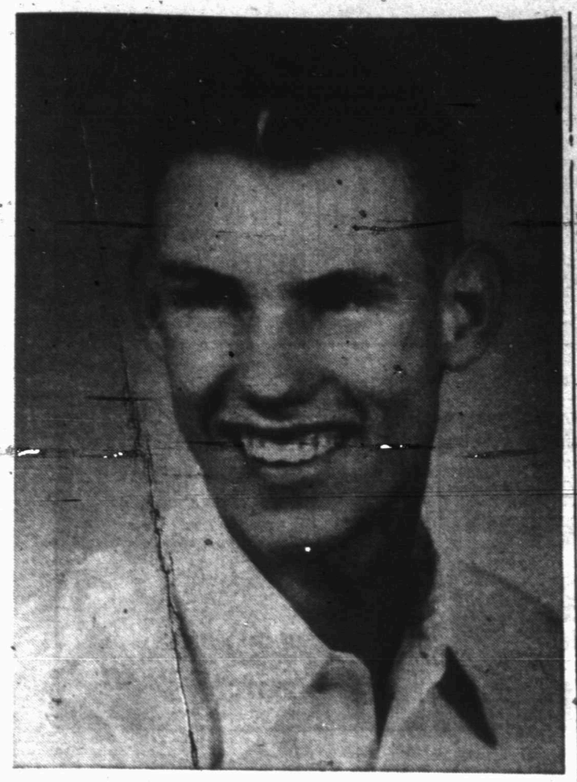

By raising efficiency and cutting waste, New Mobiloil Special will also *increase gas mileage up to 23%* and *add years to the life of any car engine.*

While New Mobiloil Special is priced higher than regular-quality motor oils, car owners will find that the extra power, extra performance and extra economy they get will more than pay back the small extra cost. Change to New Mobiloil Special . . . it's like adding octanes to fuel performance.

Air Force Selection Board Looks At Texas Academy Sites

FORT WORTH (AP)—Texas showed off its proposed sites for a $10,000,000 "West Point of the Air" over the weekend to a tight-lipped 5-man selection board.

Nobody knew how the sites stacked up in the minds of the Air Force Academy selection board. Its members winged on toward Enid, Okla., and Denver, Colo., without committing themselves.

Yesterday the group—including a camera-shy Charles A. Lindbergh—inspected proposed sites at Grapevine and Lake Texoma.

Saturday, the day they flew into the state, they saw Randolph Air Force Base and other possible San Antonio sites.

GROUP LEAVES STATE

The five left from here in Air Force Secretary Harold Talbott's private Constellation to continue their inspection tour. They said hardly a word about what they thought of the Texas locations.

Members of the commission are Lindbergh, a brigadier general; Merrill C. Meigs of Chicago, pioneer aviator and Hearst Corporation vice president; Lt. Gen. Hubert R. Harmon, Gen. Carl (Tooey) Spaatz and Virgil M. Hancher, president of the University of Iowa.

Meigs, who acted as spokesman, said, "We wait until we're back on the plane to discuss things."

Meigs added, however, "We like the hospitality and enthusiasm of the proponents."

A joint committee from the Sherman and Denison chambers of commerce drove the selection team over the 15,000-acre site on Lake Texoma, in Northeast Texas. The committee handed out copies of a brochure describing the site's good points in maps, pictures and descriptive matter.

An air-conditioned bus hauled the party over the 18,000-acre Grapevine site in the Fort Worth-Dallas area.

Meigs said the group would not express any opinion at any site.

Harmon did remark, while touring the Grapevine area, that it would be advantageous for academy cadets to be close to such an important strategic air command base as Fort Worth's Carswell.

He said: "We would have to take them to places like Carswell anyway....It would be very convenient."

The group landed at Fort Worth's Carter Field after flying from San Antonio. On hand to greet them were Fort Worth publisher Amon Carter and civic leaders from Fort Worth, Dallas, Grapevine, Denton and Sherman.

LINDBERGH CAMERA SHY

Confronted by flashbulbs and whirring television cameras, Gen. Lindbergh—the "Lone Eagle" who in 1927 first flew solo across the Atlantic Ocean—retreated into the plane. Later, he reappeared for a posed picture of the group.

The group toured Grapevine, then Texoma.

Their special bus drove 60 miles to, in and around Grapevine. The team did not stop and get out.

When they returned, William Holden, vice president of the Fort Worth Chamber of Commerce, used charts and maps to brief the commission on Grapevine.

He said: "The academy would be in a rural area but near metropolitan centers. It is isolated but at the same time accessible."

Holden listed such inducements as: A total of 21,000 college students in area schools—many potential cadets; nine area lakes, the State Fair of Texas; aviation experts at nearby Chance Vought Aircraft Corp. and other aircraft plants; 330 parks and playgrounds."

Quipped Amon Carter: "Tell them about the Cotton Bowl's seating capacity—even if it is in Dallas."

Navy Without Boat

QUINCY, Mass. (AP)—City police had to rescue two sailors adrift in a small boat yesterday because the Navy was caught without a boat.

Joseph E. Forti of Medford and Richard J. Greer of Quincy, both attached to the Squantum Naval Air Station, were rowing in the bay when they lost an oar.

Fellow Navy men on shore noticed their plight and called the harbor police to the rescue because the naval air station didn't have a boat available.

Nebraska Senator Dies Early Today

WASHINGTON (AP)—Sen. Dwight P. Griswold (R-Neb), three times governor of his state and former director of the American aid mission to Greece, died early today after a heart attack. He was 60.

Death, attributed to a coronary occlusion, came shortly after midnight at the naval hospital at suburban Bethesda, Md. Mrs. Griswold was at the bedside.

Griswold had been in the Senate since January 1953. He was elected to fill out two years remaining in the term of the late Sen. Kenneth S. Wherry. He had not announced publicly whether he would seek re-election this fall but had told friends he expected to be a candidate.

No change in the political lineup of the Senate is likely. The governor of Nebraska, Robert C. Crosby is a Republican and presumably will appoint a Republican successor to serve until the November election.

The Senate composition is now 46 Republicans, 48 Democrats and 1 Independent.

Griswold, although active in Republican political life for a quarter of a century, was named to several high positions in the Democratic administration of former President Truman. At the time of his appointment to head the Greek aid mission in June 1947, the White House said he had been selected because he was "a good man, forthright and an able administrator."

He was elected to three two-year terms as Nebraska governor in 1940, 1942 and 1944. While serving his third term, he unsuccessfully sought the Republican nomination for the U. S. Senate.

A big, plump, vigorous man, he listed fishing and hunting as among his favorite hobbies. He had played golf Saturday and again yesterday and attended an exhibition baseball game at Griffith Stadium yesterday afternoon.

He was stricken while driving home with Mrs. Griswold from a dinner at the home of Adm. and Mrs. Arthur Davis. The Griswolds returned to the Davis home, and the admiral arranged for an ambulance to take the senator to the Bethesda hospital. He died there about two hours after being stricken.

He was born Nov. 27, 1893, at Harrison, Neb. he was a student at Nebraska Wesleyan University from 1910 to 1912 and two years later received his degree from the university of Nebraska.

In 1919 he married the former Erma Elliott of Yorkville, Ill. They had two children. A daughter, Dorothy, is now Mrs. John H. Gayer. A son, Dwight, died of polio in 1951.

Mr. and Mrs. Craig Evans and their children, Richard, Mary Evelyn and Sammy, are getting ready for a long trip. They are moving to the Dutch East Indies soon. (Lee Watson photograph)

SOCIETY SCRIBBLINGS

By VIVIAN KILPATRICK

RICHARD CRAIG EVANS, son of Mr. and Mrs. CRAIG EVANS, Thirty-seventh Street is only eleven months old and so is yet unaware that he will learn to walk with a brace on his right leg.

Richard, it was announced to Mrs. Evans in a Dallas clinic last week, was an undetected victim of polio at the time or prior to the time his leg was broken last November.

Doctors in a Big Spring hospital, where he was taken for treatment, estimated that Richard's leg had been broken for a week before it was discovered and treated.

Mysteriously, the then six months old Richard had not cried or fretted, and the condition was discovered only when his parents became disturbed that he did not use his leg and took him to the hospital.

This mystery was explained to Mrs. Evans by an orthopedic surgeon and a neurologist at the Dallas clinic—Richard had felt no pain because his leg was paralyzed as a result of polio.

The diagnosis followed close observance of Richard's movements and a careful examination of his body, said Mrs. Evans.

The Doctors pronounced Richard otherwise unaffected from polio, said Mrs. Evans, and although they would not offer hope that he would definitely walk without a brace, they said there was a possibility that sometime in the future he might.

Meanwhile, Richard is to be fitted for his first brace within ten days. His leg will be massaged four times daily and the brace removed for sleeping at night and napping during the day.

The Evanses were to be transferred to Midland, but they changed their plans and Mr. Evans accepted a position as chief petroleum engineer with the Standard Vacuum Oil Co. on the island of Sumatra, Dutch East Indies.

It was prior to his acceptance of this job that Richard was examined in Dallas. The company is going to hire an orthopedic surgeon for Richard, Mrs. Evans said.

Friends calling to offer sympathy brought recurring tears to Mrs. Evans, she said, but now she is trying to see the brighter side.

For instance, she is looking forward to living in Sumatra where the family will have a cook, who Mrs. Evans understands will be temperamental and will tolerate no nonsense about cooking advice from the mistress of the house; a houseboy; two nursemaids and a laundress.

This will leave Mrs. Evans free to care for Richard and the Evanses other children, Sammy and Mary Evelyn. She plans also to take some advantage of the golf course, swimming pool, bowling alley and other activities offered by the company on the island which is to be the family's new home in about two months.

• • •

Guests of the JOHHNY WATSONS, Thirty-seventh Street, on Thursday and Friday were Mr. and Mrs. GEORGE FORD of Andrews.

Mrs. Watson and Mrs. Ford rested Thursday night while Mr. Watson and Mr. Ford with JIM BALDRIDGE and E. E. NEWNHAM attended a going away party in Pampa for Bill Thiebaud, retiring superintendent for Humble Oil Co. whose place Mr. Watson takes today.

Mrs. R. J. Randals, Lamesa highway, spent the week end in Lubbock with her daughter, Marianne, who is attending Texas Technological College.

Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-5486.

Ice cream pie literally melts in your mouth and is one of the simplest desserts to make. Any combination of flavors that suits you may be substituted for the ones given in the following recipe.

ICE CREAM PIE

2 tablespoons milk
1¼ cups fine macaroon cooky crumbs
1 pint chocolate ice cream
1 pint strawberry ice cream
½ cup heavy cream, whipped

Mix milk with macaroon crumbs. Form pie shell by pressing mixture over bottom and sides of eight inch pie pan. Bake ten minutes at 350 degrees F. Cool and place in refrigerator to chill. Line shell with chocolate ice cream. Fill with strawberry ice cream. Decorate edge and center of pie with whipped cream. Store in freezer until serving time.

• • •

Ideal for spring and summer meals are cool gelatin desserts and salads. There is an almost endless variety of these and here are two.

MOLDED CHEESE SQUARES

1 3-ounce package cream cheese
5 tablespoons crumbled (soft) Roquefort cheese
¼ cup mayonnaise
½ teaspoon salt
1 tablespoon plain gelatin
¼ cup cold water
¾ cup milk, hot
1 cup finely grated carrots
1 teaspoon finely chopped chives
1-3 cup chopped green pepper
½ cup heavy cream, whipped

Mash cream cheese. Stir in Roquefort cheese, mayonnaise and salt. Soften gelatin in cold water. Stir in hot milk. Stir in cheese mixture and mix well. Quick-chill, until mixture starts to thicken. Whip with a rotary beater until fluffy. Add prepared vegetables. Fold in whipped cream.

Pour into freezing tray and freeze until firm. Cut into cubes and serve on salad greens.

LIME APRICOT SURPRISE

1 package lime-flavored gelatin
1 cup hot water
1 cup cold water
1 3-ounce package cream cheese
6 drained canned apricot halves
Pecan halves

Dissolve gelatin in hot water. Add cold water. Chill until slightly thickened. Shape cheese into six balls. Place in bottom of six individual molds. Top with apricots, cut side down. Arrange two or three pecan halves around side of mold. Fill molds with slightly thickened gelatin. Chill until firm. Unmold on salad greens. Serve with mayonnaise. Makes six servings.

Murphy H-D Club With Mrs. Spencer

Mrs. Glynie Spencer was hostess to the Murphy Home Demonstration Club Friday in her home at the Amerada camp near Knapp.

Roll call was answered by 12 members, each of whom described a favorite Easter costume or gave a tip on highway safety.

Mrs. Edith Hughes, Borden County home demonstration agent, gave a demonstration on the making of a tailored buttonhole and several sewing helps. During the business meeting a family night to be held twice monthly was discussed.

A white elephant sale followed the business meeting. A total of $22 was made on the sale.

Team Demonstrations Are Held By 4-H For First Time

Nine demonstration teams made up of 4-H Club girls from five clubs participated in the county's first team demonstration contest held here Saturday.

Two of the teams will enter district competition in Lubbock May 1. One of these teams, the senior vegetable preparation team, may enter state competition if it is successful at the district meet. Entering district competition with this team will be the junior dairy food demonstration team.

Dianne Kerley and Lorita Stirling, members of the Ira 4-H Club, were the winning team in the senior vegetable demonstration. Sandra Leach from Hermleigh also entered this division.

Darla Kay Bryant and Barbara Ann Martin from Ira were winners in the junior vegetable demonstration. Also entering this division were Tennie Eades and Vera Shiflett from the Snyder High School 4-H Club, Alma Nell Hillis and Fern Hillis from the Plainview 4-H Club, Iva Jo Chitsey and Dorothy Freytag from the Hermleigh 4-H Club, and Marian Burrow and Melinda Cunningham from the Fluvanna 4-H Club.

Jacqueline Martin and Darlene Lemons from Fluvanna took first in the junior dairy foods demonstration. Peggy Brown and Margaret Clinkenbeard from Ira also competed.

During the noon intermission, Sandra Leach led group singing. Miss Ruby Butts, home demonstration agent, introduced new national report forms and gave instructions on their use.

Judges for the competition were Mrs. Guy Stoker and Mrs. J. F. Coffee of Snyder and Mrs. Modell May from Hermleigh. Mrs. Howard Hogue and Mrs. Roy Hanson helped with preparations for the contest.

William Holden And Actress Wife Finally Get Vacation

By BOB THOMAS

HOLLYWOOD (AP) — Today William Holden and his wife depart on a vacation he richly deserves. Oscar in hand, he stands at the top of his career.

Bill and the missus (Brenda Marshall) are leaving for Bimini Island, off the coast of Florida. There he will fish and study at the Lerner Marine Institute. Then they will head to New York to see the shows and have a ball.

"I'm not coming back until I get the cobwebs out of my mind," says Bill. "I've been working on sheer nerve, going from one picture to another without a day between. When I get home, I'm completely exhausted.

"Luckily, Ardis (his wife's real name) knows what I have been going through. It's not fair to her, and I'm going to make it up to her."

Bill is taking a breather after one of the most impressive strings of starring vehicles within memory. So many top films have been offered him that he has worked almost constantly for 18 months. His string includes: "The Moon Is Blue," "Forever Female," "Stalag 17," "Escape From Fort Bravo," "Executive Suite," "Sabrina Fair" (with Oscar winners Audrey Hepburn and Humphrey Bogart), "The Bridges at Toko-ri" and the film he finished last week, "Country Girl."

He has expressed disfavor with only one of those. That is "Forever Female," which he said he did because it was the last of his 14-year contract with Paramount. He now has a 15-year deal that calls for a reported $250,000 for three months' work each year.

How does he get such good pictures?

For one thing, he is one of the screen's best, most versatile actors. Unlike a good many of the other top male stars, he is still young enough (36) to play a variety of heroes. He is also a smart cookie.

"The studio wanted to put me in a couple of pictures I didn't like," he says. "So I told the bosses to loan me out to other studios. I told them they could keep whatever profit was made on my services."

This maneuver made him available for a wider variety of roles than he would have had if he had stayed at one studio. He has played everything from high comedy to heavy drama.

Whirlpool automatic washing and drying machines have been added to the growing list of appliances at Howard's Auto & Appliance Store on the East highway. R. T. Howard, owner, is shown above with the firms display of television sets, and automatic laundry machines. Howard says standby of the firm is still custom seat covers and upholstery for automobiles, and that the firm is offering a discount of $10 on custom seat covers now. (Lee Watson photograph)

AMONG OTHER THINGS

Howard's Adds New Line Of *Washing Machines, Dryers*

A new line of appliances, Whirlpool automatic washing and clothes drying machines, have been added at Howard's Auto & Appliance Store, located on the east Highway in East Snyder.

R. T. Howard, owner of the firm, said the new machines are now on display.

The Whirlpool automatic washing machine has several unique features that most other washing machines do not have, Howard said.

It has automatic water temperature controls that permits the user to pre-set the temperatue of the water in the machine for the needs of different types of fabric to be washed.

For the washing of delicate fabrics the person using the machine can set the dial to the warm position and be sure that the water will not be hot enough to damage fine fabrics, Howard said.

Other settings of the control lever permits the use of moderately hot water in the machine for printed and colored fabrics, and another setting permits the use of hot water for washing whites, cottons, or work clothes.

Prices of the washing machines start at $199.95, and the drying machine prices start at $179.95, Howard said.

Howard's Auto & Appliance is dealer for Hoffman television sets which are made especially for hard-of-hearing persons, Howard said.

The Huffman sets have plugs so that ear phones can be used by anyone needing the hearing aid without the volume having to be turned too loud for other persons in the room.

The ear phones can be controlled either at the television set or by the individual at the ear phone, he said.

A durable new fabric is being featured by Howard's Auto & Appliance in its custom seat cover department.

The new seat cover material is made of rayon, and it is fire proof, stain proof, and shock proof.

"We believe the new fabric is the best seat cover material ever put out so far," Howard said. A wide choice of patterns and colors are available in the material.

Howard is now offering a $10 disdiscount on custom seat covers for all automobiles. The prices of the custom seat covers are $49.95 for the best covers, $39.95 for a medium grade cover, and $29.95 for the economy cover, Howard said.

Being Chained To Tree Called Real Big Joke

EL DORADO SPRINGS, Mo. (AP)—Nelson Garrison of Denton, Tex., thinks it's a good joke that five fraternity brothers left him chained to a tree near here—460 miles from home.

"I learned to take it in the Navy," he said, laughing, after freeing himself yesterday and walking—clad only in the T-shirt, black shorts and tennis shoes they left him—to a nearby farmhouse. "The boys were just having fun."

The 22-year-old Garrison explained he had just finished a three-year Navy hitch and that he and his fraternity brothers drove to Kansas City to celebrate his return to Denton's North Texas State College. En route home the others chained him to the tree.

The farmer with whom Garrison spent the night gave him a shirt and overalls. Garrison wired home for bus fare.

Wife Of Holdup Man Stranded With Children

AUSTIN (AP)—The family of a man accused as a toy gun bank robber has been assured of transportation back to Nashville, Tenn.

The Travis County Welfare Department said Mrs. John William Price can be sure no effort will be made to take her five children away from her. The youngest is 2, the oldest 9.

Price is in jail here on federal charges of sticking up a Nashville bank with a dime store cap pistol painted to resemble a .38 calibre revolver. He is held under $20,000 bond after his arrest at an auto repair shop Saturday by FBI agents.

Mrs. Price says she wants to return to Nashville where her family lives, to get a job. She has worked there as a waitress and laundry employe. Mrs. Price told reporters the family had enough groceries to last them for a week. She had expressed fear "the law" might take her children away from her.

"If I can get there, I'll be okay," she said. "Mama can take care of the children while I work."

Miss Lola Peterson, administrator of the county welfare department, said she would help Mrs. Price take her children back home.

Price sought work many weeks before coming to Austin about six months ago, Mrs. Price said. She said their resources totalled $6 when they arrived here and that her husband had just set himself up in business when he was arrested. He is charged with having taken $973 in the bank robbery.

Dallas Representative Not Up For Re-Election

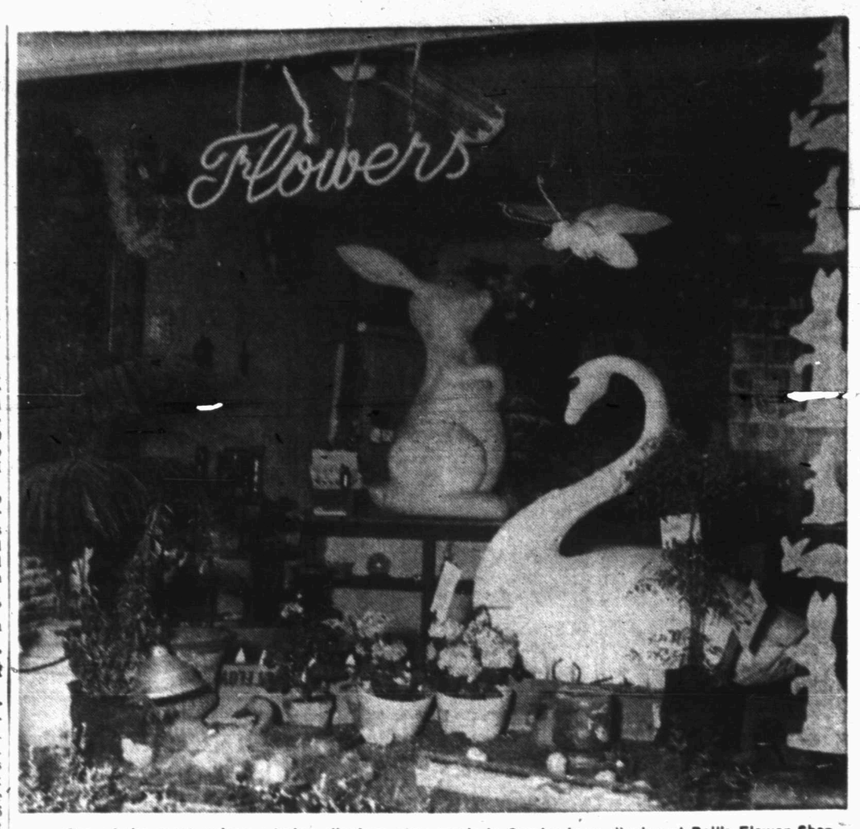

DALLAS (AP)—U.S. Rep. J. Frank Wilson of Dallas says he won't seek re-election.

Wilson made the announcement from Washington yesterday, saying he wants to resume his law practice here.

A Democrat, he has represented Dallas County in Congress since 1946.

His decision not to run was expected to bring several more candidates into the field. The only one who had filed was Lewis Hacklers, a young attorney and accountant.

Among possible candidates mentioned was Wallace Savage, State Democratic chairman and former Dallas mayor.

One of the most unique window displays ever made in Snyder is on display at Bell's Flower Shop. Roland Bell, owner, has carried animation of the display even to the point of having live baby chicks chirping in the window. (Lee Watson photograph)

BIG WINDOW DISPLAY

Bell Reminds Flower Buyers That Easter Only Days Away

One of the most unique window displays ever used in Snyder has been made by Roland Bell, owner of Bell's Flower Shop, 804 Twenty-fifth Street, in an attempt to remind flower purchasers to avoid the last minute rush in buying their Easter flowers.

The display has live baby chicks chirping among the life size imitation ducks and the hugh white swan and bunny.

Bell said that the idea of waiting until the last minute to order flowers is even more prevelant among flower shoppers for a number of reasons.

"Flower shoppers probably think their flowers will not look their best unless they are obtained at the very last minute," Bell said.

He said that getting the flowers at the latest possible time is a good idea, but techniques now used in the flower selling industry make the flowers resist wilting and look better for a longer time than was true a few years ago.

"We prepare flowers hours ahead and keep them fresh in refrigerated vaults here at the shop," Bell said. He said that the same handling of flowers by individuals would keep the flowers fresh amd attractive for several days.

He said that last minute delivery of flower orders can easily be handled by his firm, but that the orders should be placed early enough to allow time for proper arrangment and preparation of the flower order at the shop.

Stock Market Opens Slightly Higher Today

NEW YORK (AP)—The stock market was a little higher today at the opening, continuing the sweep ahead scored last week.

U.S. Steel opened on a block of 3,000 shares off ⅛ at 44⅛, and among other blocks were Anaconda Copper 1,500 up ¼, Bethlehem Steel 1,000 unchanged, Republic Steel 2,500 up ⅜, RKO Pictures 3,600 unchanged, J.I. Case 3,000 up ⅜, Studebaker 1,500 off ⅛, and Carborundum 1,600 up ¼.

Cotton Maid In Europe

FRANKFURT (AP)—Miss Beverly Pack, 20, El Paso, Tex., the pretty 1954 "Maid of Cotton," arrived in West Germany last night for fashion shows. H. L. Merkle, president of the German Cotton Manufacturers Assn., greeted her on her arrival here.

The steamboat "Yellow Stone," by chance at Groce's to load cotton, proved invaluable to the Texan army. Houston pressed it into service to transport his men across the swollen Brazos, from where they were to march to San Jacinto. Texan troops are pictured going aboard the river steamer in the above artist's conception, reproduced through permission of E. M. Schiwetz and Humble Way.

HERITAGE DAYS NO. 37

Texas Army Is Concentrated; Message-Bearer Held As Spy

With aid of the steamboat Yellow Stone, Sam Houston and his Texan army began a two-day crossing from the west to the east side of the Brazos River April 12, 1836. From this camp, at Groce's Retreat, the Texans were to start their march to Harrisburg—and on to San Jacinto.

Mexican forces, though small in number, also crossed the Brazos prompting the acting secretary of war, David Thomas, to fearfully predict "There is nothing to stop his march" to the coast and Galveston.

Pointing an accusing finger at Houston, the Texan official reminded the general: "You . . . assured . . . the enemy should never cross the Brazos" and "Your pledge is not verified. The country expects something from you; the government looks to you for action."

The Mexican invasion penetrated to the east bank of the Brazos through aid from a captured Negro.

Santa Anna's ambushed forces shortly after sunrise on April 12 appeared in force opposite the 46 man force under Major Wylie Martin, stationed at Thompsons' Ferry to repel Mexican attempts to cross.

Early that morning, Martin had sent three men to Martin's crossing to sink a small boat, left for the use of five families there. A Negro, though, had crossed in the boat before they arrived; and captured by the enemy, the Negro directed the Mexicans to the boat.

Major Martin, hearing an exchange of shots between his three men and the Mexicans, rushed Lieutenant Jones and 10 men to the scene. By the time they reached there, 150 Mexicans had crossed to the east bank, out-numbering Major Martin's forces three to one.

Major Martin and his men had no alternative but to retreat toward the main Texan army. The very thing Houston had sought to prevent had happened. He had issued strict orders that all means of crossing along the river should be secured or sunk, and that all cattle be driven to the east side. One small boat, left to aid five families, and its unauthorized use by the Negro, however, put Mexican forces in a position to attack.

Passenger Leaves

JOHORE BAHRU, Malaya (AP)—A Chinese fell or jumped to his death from the rear hatch of a Singapore-bound Malayan Airways plane today.

'BLOODY MARY' AT SHOR'S

Fruitless Search For How To Handle Hangovers Starts

By HAL BOYLE

NEW YORK (AP)—For some years a group of scholar scientists at Yale University has been studying the problem of what people do to alcohol (and vice versa), and now they are investigating hangovers.

Behind this probe is a merciful idea—the wish to find a cure for hangovers.

It can't be done. Frank Merriwell was unable to find a hangover remedy during the period when he made Yale famous. Tom Swift and the Rover Boys, I have heard, spent their adult years in quest of an electric or atomic answer to the hangover, and found no answer.

Even Toots Shor, the restaurant owner who collects the more interesting hangovers of his clients and pastes them in his memory book as a hobby, can recommend no morning after remedy better than "bloody mary," which is vodka tinted pink with tomato juice. Very popular with advertising men.

There are two reasons why they will never find a real medical cure for a hangover.

First, they started too late. They don't have the material to work on. The 24-karat genuine, double-throb vibrating hangover is a thing of the past. It went out with prohibition. The present day hangover is just a hangover phrase from the heyday of the real hangover. There were giants in the old days. There aren't any now. No one alive today that I know of could sustain the kind of hangovers the old-timers reminisce about.

Second, it is against nature that there should be any cure for a hangover except time and the acceptance of common sense.

Pleasure pursued too far must always be followed by pain, the penalty for foolishness. This is the iron law of living—that stupidity must pay its price.

Scientists are still puzzled over what a hangover really is. They seek a physical explanation to describe a rebellion of the soul.

Science would be better to look for a magic capsule to prevent stupidity rather than seek for a pill to cure hangovers. The hangover is nature's built-in barrier to protect a man from his own further foolishness.

It is an alarm clock of the conscience and the body, and anyone who finds a way to turn off that alarm clock is no real friend of the race of man.

Tomorrow Is Big Day Again For Baseball; Season Starts

By JOE REICHLER

NEW YORK (AP)—Were the major league races decided last March when Boston's Ted Williams fractured his collarbone and Milwaukee's Bobby Thomson broke his ankle?

Can the Red Sox overcome the early absence of Williams, their star slugger and put an end to the New York Yankees' long reign in the American League? Can Cleveland finally do it after finishing second to the Yankees three straight seasons? How about Chicago?

Can the Braves continue their momentum and overtake the Dodgers despite the loss of Thomson, their hard-hitting outfielder, for at least another month? Maybe the St. Louis Cardinals or the New York Giants can do it.

How much will Enos Slaughter help the Yankees? Only seven weeks after astounding the baseball world by selling 35-year-old Vic Raschi to the Cardinals, the world champions pulled off another shocker late yesterday by acquiring the 38-year-old outfield star from the same club.

And what about Baltimore, which returned to the majors after 51 years to inherit the franchise of the St. Louis Browns? Will the Orioles give the same shot in the arm to the American League that the Braves gave to the National last year after they moved from Boston to Milwaukee?

All these answers will begin to take shape tomorrow when the major league baseball season gets under way in eight cities. Approximately 200,000 fans are expected to attend the openers. For the first time in years all openers will take place the same day and all games will be played in daylight.

The opening schedule, starting times and estimated attendance:

NATIONAL LEAGUE

Chicago at St. Louis, 2:30 p.m., 18,000.

Milwaukee at Cincinnati, 2:30 p.m., 30,000.

Philadelphia at Pittsburgh, 1:30 p.m., 20,000.

Brooklyn at New York, 1:30 p.m., 35,000.

AMERICAN LEAGUE

Baltimore at Detroit, 2:00 p.m., 30,000.

Cleveland at Chicago, 2:30 p.m., 30,000.

Boston at Philadelphia, 2:05 p.m., 20,000.

New York at Washington, 3:00 p.m., 30,000.

Despite industrious efforts on the part of the 14 other clubs to strengthen themselves, the defending champion Yankees and Dodger are prohibitive favorites to add to their laurels—the Yankees are even money to capture their sixth straight flag and the Dodgers are 7 to 10 to make it three in a row.

Practically every club has altered its "face" either through trades, purchases or advancement of their minor league players. The opening day lineups of the 16 teams will show a player turnover of 40 per cent. Five clubs have hired new managers, one fired its manager during spring training, another fired its pilot even though he won two straight pennants. Even the Yankees and Dodgers have either added or changed something.

President Eisenhower will throw out the first ball in Washington at 3 p.m. tomorrow before a capacity crowd of 30,000. Either right-hander Bob Porterfield or southpaw Chuck Stobbs will hurl for Washington against lefty Ed (Whitey) Ford of the Yankees.

Mel Parnell, who has beaten the Athletics 21 out of 26 times, will open for the Red Sox against little Bobby Shantz.

Southpaw Billy Pierce will oppose veteran right-hander Early Wynn in the Chicago-Cleveland inaugural.

In the Detroit-Baltimore opener, neither manager is decided about his pitcher.

Bob Buhl, a hot pitcher all spring, will get the opening day shot for Milwaukee against Cincinnati's Bud Podbielan.

Pittsburgh, opening the season at home for the first time since 1893, will field a brand new team. Not one was in last season's opening day lineup. The Pirates pitch Bob Friend against Robin Roberts, the ace Philadelphia righthander.

Carl Erskine will hurl for the Dodgers who oppose their bitter rivals, the New York Giants, at the Polo Grounds. Sal Maglie, a Brooklyn nemesis for years, will be on the hill for the New Yorkers.

Harvey Haddix, the Cardinals' 20-game winner last year, will oppose Chicago's Paul Minner in a battle of lefthanders at St. Louis.

MASTER AT WORK

Playing in a drizzling rain, Ben Hogan chips to the second green in his second round play in the Masters Golf Tournament in Augusta, Ga. Hogan, who won the tournament last year, shot an even par 72 in the opening round and a second round 73 for a 145 total for second place at this point. The gallery is bundled up against the blustery weather which moved in during the first round of play. Sam Snead and Hogan are in an 18-hole playoff today.

Hogan And Snead In Playoff In Masters

AUGUSTA, Ga. (AP)—Ben Hogan and Sam Snead, called the "two greatest golfers in the world" by grand slam king Bob Jones, met today in an 18-hole playoff for the 1954 Masters championship.

The little man from Texas and the long ball hitter from West Virginia had 289 totals. That is 1 over par for the exacting 6,800-yard Augusta National course, and the highest score ever to earn first place in this prestige-packed tourney's 20-year history.

The winner will join Jimmy Demaret as a three-time Masters' champion. A victory for Hogan would make him the only man ever to win two Masters in succession.

Although neither of the keen rivals could break par in yesterday's final round—Snead had a 72 and Hogan a 75—the windup was perhaps the most exciting in Masters' history. Adding an extra touch of drama was the spectacular comeback after a poor third round by Billy Joe Patton, the happy-go-lucky amateur from Morganton, N. C.

Patton, who tied for the lead the first day and moved out by himself the second, finished with a 71 for a 290 total. Dutch Harrison, with a 68, and Lloyd Mangrum, with a 69, tied for fourth. Next came Jack Burke, Jerry Barber and Bob Rosburg at 292.

It looked for a while as if Patton would power his way to victory with his bold, shoot-for-the-pin brand of golf. A hole-in-one had helped him to a 4-under-par 32 on the front nine while Hogan was taking a 37.

Ben had started out with a 3-stroke lead over Snead and a 5-stroke margin over Billy Joe. With Snead sticking to par, Hogan thought Patton was the man he had to beat as he went off the 11th tee. He didn't know that Billy Joe had taken a disastrous 7 and lost two strokes at No. 13 when his second shot landed in a creek.

"I made my mistake on the 11th," Ben said afterwards. "I thought Patton was the one to play for. So I tried to hook a three iron shot onto the green, but it landed in the water and I took a double-bogey.

"If I'd known he'd shot that 7 I'd have played it safe."

Olton Sprinter Looking Good On 100 Yards

AUSTIN (AP)—J. Frank Daugherty has run 100 yards four times in college and his slowest time has been 9.7. Twice he has skipped off a 9.5 and another time it was 9.6.

Daugherty has run 220 yards three times and made it in 20.6 once and 20.7 twice.

He, the freshman sensation of the University of Texas had some competition there's no telling what he might have done by now.

RANCH BOY

Daugherty, a West Texas ranch boy who was given little instruction on how to run until his final season in high school, attracted attention last year when he did the 100 in 9.5 and the 220 in 20.5.

Coach Clyde Littlefield of Texas, who dotes on sprinters and always has one or more of the nation's best on his team, went after Daugherty in a hurry.

Now, after four meets for the 19-year-old Olton, Tex., star, Littlefield has this observation:

"Daugherty has a natural sprinter's stride and is one of the best prospects in the country. He still has to learn to run against competition but he has a competitive heart, loves competition and that's the reason I believe he can be a great sprinter."

GREATEST

Others hereabouts go further than that—they say he's going to be the greatest sprinter in Texas history. And the University has had some 9.4 boys like Chink Wallender, Charley Parker and this year, Dean Smith. The latter was caught by three watches Saturday in a meet against Texas A&M and Rice at 9.3 in the 100. But he had a favoring wind.

The same day Daugherty romped through a 9.5 in the freshman division of the meet. The first time J. Frank ran a 9.5 this season there was no wind at all. It was his initial start in college, and the long-legged youngster put on a show.

The boy, who was training for the sprints in high school by going out in the country five miles and running back, was given some instruction by Frank Guess, Amarillo High School coach, when Guess was asked to do so by Daugherty's father.

8-FOOT STRIDE

The 6-foot-1, 180-pound youngster has the longest stride ever seen on a sprinter in the Southwest. It's about eight feet. Most sprinters use a short, choppy stride at least in getting started.

J. Frank has one meet left—a triangular affair between Texas, Rice and Texas A&M May 6—then he'll be hopeful of an invitation to run in the Coliseum Relays at Los Angeles May 21.

Daugherty will compete in the National AAU in June, in both the junior and senior divisions.

C-City First In Track Meet Here Saturday

The Colorado City track team came out on top here Saturday in the district 6-A track and field meet.

Colorado City had 61 5-6 points, while Hamlin had 36, Roby 17 1-3, and Rotan 24 5-6.

Harold Hamlin of Rotan topped individuals, followed closely by Charles Small and Hollis Gainey, both of Colorado City.

Hamlin took first in the broad jump with a leap of 19 feet, 7 inches, second in the 100-yard dash, third in the 220, and third in the pole vault. Small took first in the high hurdles with a time of 15.3, first in the low hurdles with 21.1, was a member of the first place mile relay team, which had a time of 3:36.1, and was a member of the third place 440-yard relay team. Gainey took first in the 100-yard dash with 10.0, first in the 220 with 22.8, and was a member of C-City's relay squad.

Other firsts in the meet: David Cowan, Hamlin, 440-yard dash, 54.5 Jerry Grasslot, Colorado City, 880-yard run, 2:12.9; Doyle Brinegar, Hamlin, mile run, 5:26.2; Sonny Palmer, Colordo City, shot put, 42 feet, 1¼ inches; Morris Warsaw, Roby, discus, 151 feet, 1½ inches; J. D. Chandler, Colorado City, pole vault, 11 feet; Hamlin, (Boyd, Hester, Cowan, Ray), 440-yard relay, 47.2.

The eleven members of the Western States Fish and Game Commissions association will meet to discuss mutual problems May 3-5 at Las Vegas, Nev.

Snyderites Last In San Angelo Golf Meet

The Snyder High School golf team came in last Saturday in the district golf tourney at San Angelo.

The Brownwood B team and Sweetwater tied for first with totals of 647. Foursomes from each town in the district were playing 36 holes. Eugene Johnson of Abilene took the medalist title with a score of 150.

Both Sweetwater and the Brownwood B team will represent the district in the regional playoffs at Stephenville April 24.

For Snyder Joe Dorsey fired 173, P. W. Cloud, Jr., 188, Tommy Hensley 201, and Fritz Smith 225, giving them a total of 787.

The Abilene team had a total of 654, San Angelo 663, Brownwood A 666, and Abilene B 720.

Snyder Stands Even With Sweetwater

The Snyder Tigers will meet the Sweetwater Mustangs in a baseball game here at 4 o'clock tomorrow afternoon, providing the field is not too muddy.

The Tuesday game will be the third in a four-game series between the two teams.

So far, the two have won one each, with both games indicating the squads were evenly matched. Both games went an extra inning. Saturday night, the Mustangs downed the Tigers 10-9 in the eighth inning. Friday afternoon, the Tigers had won 6-5 in the eighth.

Alan Snead, Snyder hurler who has five wins to his credit, took his first loss in the Saturday game. Snead pitched the last two innings. Ray Courtney and Dwayne Prince had been on the mound three innings each before Snead took over.

Dale McKeehan was winner for Sweetwater. In the eighth inning Saturday night, the first Sweetwater batter got on first when Joe Baxter dropped a long fly ball to right field. He stole second, got to third on fielder's choice while another was being put out at first. He got home on a long fly ball.

Snead's 5-1 record is the top for Snyder pitchers. Other records include Paul Hayes' 2-0, Ronnie Baker's 1-0, Tommy Williams' 0-2, and Dwayne Prince's 0-1.

The team's record is now 8-5, with three wins over Rotan, two over Big Spring, and one each over Colorado City, Midland, and Sweetwater. Losses were two to Big Spring and one each to Midland, Rotan, and Sweetwater. After tomorrow's game, the Tigers will go to Sweetwater Friday and host Vernon Saturday in the first district game.

Batting averages for team members, not including records on the Saturday game, include .294 for Jerry Taylor, .200 for Don McNew, .250 for Tommy Pritchard, .333 for Paul Hayes, .380 for Mike Gibson, .206 for Bernie Hagins, .333 for Jimmie Rodgers, .285 for Snead, .200 for Joe Reeves, and .416 for Baxter. For those who have batted less than 10 times this season, averages are .500 for Bob Coffee, .400 for Williams, .250 for Courtney, .250 for Dwayne McMakin, and .1000 for Jimmy Bryant.

Girls Actually Win Playoffs

Volleyball teamsters from Snyder were consolation winners in the district tourney in Abilene Saturday.

In a story in yesterday's Daily News, scores got turned around in the consolation for the tourney, showing San Angelo to be the winner.

Actually, the Snyder girls won two out of three to take the third place title. They beat San Angelo 12-9 and 15-1, while San Angelo won one game 15-6. In the first round, Snyder had drawn Sweetwater and lost two games 15-2 and 15-6. The 15-6 game was close for a long time, with Snyder leading for a good portion of the game.

The Snyder team has finished its schedule for the season. Playing in the Abilene tourney were Carol McKinney, Mary Jon Angel, Ramona Thompson, Mikey Gillean, Doris Hataway, Sandra Scott, Anita Burris, Myrle Wayne Neal, and Lynda Smith.

Most of the girls on the Snyder team were juniors and sophomores, according to Mrs. Bertie Machel, coach, who said other coaches in the district predicted Snyder to be a leading contender for the title next year, since the top teams will lose most of their players.

Pony League Meeting Slated

The Pony League will hold its first meeting of the season at 7 o'clock tonight in the office of Forrest Beavers on the main floor of the courthouse.

Beavers, who is now president of the league, said the group will elect officers, discuss the league schedule, and take up other business of the league.

The president urged any persons interested in league activity for boys to attend the meeting.

This is the second year in Snyder for Pony League. Four teams are in the league.

The lowest batting average ever to win the American League championship was .306 hit by Elmer Flick of the Cleveland Indians in 1905.

Crucial Game In Conference Play Tuesday

By The Associated Press

Texas and Texas A&M play at College Station Tuesday in the first big crucial game of the season in Southwest Conference baseball.

Texas leads the race with a 5-1 record but A&M could pull into a tie for the top by beating the Longhorns. The Aggies have a 4-2 record.

Texas took over first place last week by beating Texas Christian twice, 3-2, 13-3. Texas A&M divided a series with Baylor, falling into second place. The Aggies won the first game 8-5 but lost the second 6-4.

Southern Methodist has lost only two games but hasn't played as many as Texas and A&M, so is in third place. The Methodists had two games with Rice postponed last week because of rain.

Four conference games are on the schedule this week. Rice and Texas Christian play at Fort Worth Tuesday and Wednesday, and Baylor and Southern Methodist meet at Dallas Tuesday.

But the interest is on the Aggie-Texas clash.

There also are some intersectional games. Texas plays Nebraska at Austin Wednesday and Thursday.

NEW! "JIM BO"

INTRODUCING JIM BO—the most sensational invention in the history of fishing—the artificial minnow that swims. No more live bait to buy. This is the lure sensation of the 20th century.

IT SWIMS—no springs, uses no fuel; it swims as long as you leave it in the water. Swims by unique process of balance and gravity. Fish any desired depth—in lake, stream, gulf, bay. Any fish that will strike a minnow will strike JIM BO. This is no gadget. Looks and swims like a live minnow.

This is the lure of all lures—beautiful silver leaf plastic. Buy one for your friends also. Satisfaction guaranteed. Send $1.00 only, for each lure. Send check or cash. We pay postage.

Illinois Goes Into Primary Tomorrow; Senate Race Hot

By DOUGLAS B. CORNELL

CHICAGO (AP)—The first political struggle of 1954, a preliminary skirmish to pick candidates for the crucial November battle over control of Congress, reaches a showdown tomorrow in the Illinois primary.

From the standpoint of national interest, the main result will be to tap a Republican for an attempt to tip Democrat Paul H. Douglas out of his Senate seat. Nine candidates are scuffling for the GOP senatorial nomination.

Joseph T. Meek and Edward A. Hayes are regarded as the top contenders. Between the two, observers are inclined to give Meek a shade the better of it.

Meek heads the Illinois Federation of Retail Associations. Hayes is a former national commander of the American Legion.

The nation's first primary tomorrow will determine, too, whether 10 House members, four of them chairmen of major committees, will get a chance to run again in November.

Over the country, politicians are eyeing the primary for straws in the wind. But they may have to strain to detect any real trends, any significant Midwestern sentiment on national issues, or any clear signs of approval or disapproval of what the Eisenhower administration and Congress are doing.

Various candidates have been bringing up such questions as farm and employment problems or thundering against sending any Americans to fight in Indochina. But voters seem to be more interested in local issues, and races involving city and county offices and seats in the state legislature.

Republican rivalries are attracting the major claim to attention, since none of the Democratic contests involves any statewide balloting. Sen. Douglas has no challenger in the primary.

Within the Illinois congressional delegation, nine of the 16 Republican House members are bucking primary opposition but only one of the nine Democrats has any competition.

All 25 incumbent congressmen look like fairly safe bets to win renomination. That includes, of course, the committee, chairmen, Harold H. Velde of the Un-American Activities Committee, Leo E. Allen of the Rules Committee, Robert B. Chiperfield of Foreign Affairs and Chauncey W. Reed of Judiciary. Plus Sid Simpson of the District of Columbia Committee, who has no opposition.

Reed isn't particularly alarmed about a pair of GOP rivals.

Chiperfield and Allen have been up against somewhat stiffer competition.

Velde has encountered a tough antagonist in one-armed Robert H. Allison, for 20 years a member of the State Legislature. And among some clergymen in his district there is an undercurrent of resentment that his committee has questioned a number of ministers.

Democrats probably would seize on defeats of any Republican congressmen, commjttee chairmen particularly, as a token of grass roots displeasure at the way the GOP has been running Congress.

As things stand now, the Republicans have a paper thin majority in the House and none at all in the Senate. So they are eager to pick off two or three house Democrats from Illinois in November and toss Douglas out of the Senate.

Prayers For Rain Answered In Rotan

ROTAN, Tex. (AP)—The pastor of Rotan's First Baptist Church announced at the start of morning services yesterday that prayers for rain would be held each Sabbath until it rained.

Minutes later light drizzle began falling.

Dr. Laurence Hays interrupted his sermon and exclaimed: "That's rain!"

A member spoke up, "Now is the time to pray," and prayers were offered.

The preaching resumed. Ten minut later it began to pour down on this drouth-hurt west Texas town. The pastor again interrupted his sermon and asked the congregation to stand and thank the Lord.

A total of .71 of an inch fell during the services.

Glass Partition Is Unseen By Tired Woman

BALTIMORE (AP)—After an afternoon stroll in Baltimore's 82 degree heat yesterday, the bench at Sears Roebuck & Co. must have looked mighty inviting to 72-year-old Mrs. Serama Crazi.

But before she realized the bench was on display behind the store window, Mrs. Crazi crashed through the 11x11 foot pane.

She was treated for a cut head and hand by a doctor. The store window was demolished.

Distraction Works

PEABODY, Mass. (AP)—Police said thieves laid lighted cigarettes [illegible] pile of clothing at the Peabody Steam Laundry yesterday [illegible] that while firefighters and police converged on the scene $16 was stolen from the public library, $60 and cigarettes from a variety store and $10 from a bus station.

Lutheran Convention

AUSTIN, April 12 (AP)—The 33rd convention of the Texas District of the Lutheran Church-Missouri Synod at Lutheran Concordia College convenes here April 19 for a five-day session. More than 500 delegates are expected.

New Business Study Started

DALLAS (AP)—Dallas is the guinea pig in a study that may help a merchant in Cleveland or Phoenix decide whether to put four more floors on his downtown building or to set up shop on the outskirts of town.

If you're just thinking about getting started in business for yourself, maybe it will help you to decide whether to rent space on main street or find a spot in the suburbs.

That's what the U. S. Census Bureau hopes will be the value of the most intensive retail business survey it has ever made in a single metropolitan area.

The survey was started last Jan. 12 under the direction of Henry Wulff of Washington, chief of the Census Bureau's retail trade section. From time to time he has come here to work on it with James W. Stroud, regional supervisor of the bureau.

Wulff said he expects the results to be published between late June and midsummer. He expects the field work to be completed within a week.

The main object of the survey is to study an apparent trend toward decentralization of retail business—find out what businesses are most affected and why.

Wulff said it's even possible the survey will show the trend has reversed itself — that downtown business centers are becoming more entrenched.

New Bank President

DALLAS, April 12 (AP)—Will H. Kelley of Victoria has been elected president of Fair Park National Bank here effective April 12, it was announced today. He succeeds Walter Johnson, who resigned recently to become president of the Farmers and Merchants National Bank of

HERMLEIGH MASCOTS

Harold Royce Mason and Carolyn Chitsey have served as mascots of the Hermleigh High School football team this year. Carolyn is the daughter of Mr. and Mrs. Eldon Chitsey and Harold Royce is the son of Mr. and Mrs. Harold Mason.

Tot Drowns In Pond

RICHMOND, April 12 (AP)—A 3-year-old boy drowned today in a rice mill reservoir at Crabb Switch, three miles south of here. He was Clarence Virgil Uherek, son of Mr. and Mrs. Jerry Uherek of Wharton.

Warns Against Relying On H-Bomb Too Much

WASHINGTON (AP)—Sen. Russell (D-Ga) said today it would be foolish for Congress to place too much dependence on the hydrogen bomb and unbalance the nation's military strength by cutting funds for conventional weapons.

Similar doubts about overstressing the H-bomb were voiced by Sen. Anderson (D-NM) and AFL President George Meany.

Russell, senior Democrat on the Senate Armed Services Committee and a member of the Senate-House Atomic Energy Committee, said in an interview he is "uneasy" about the Eisenhower administration's proposal to reduce the ground forces.

Neither, he said, is he satisfied with the amount of funds Congress has been asked to make available for the Air Force.

But he conceded that scattered Democratic protests against a proposed slash of about five billion dollars in over-all military funds are not likely to be effective.

He said President Eisenhower's prestige as a military man probably will defeat efforts to change budget figures.

Eisenhower has told Congress that the "new look" military program of major reliance on air power and new weapons justifies a reduction in defense outlays. He said that while Army divisions might be reduced, they would be more mobile, harder hitting and more dangerous to an enemy.

Meany, however, said yesterday that the "new look" should be altered so as to increase, rather than cut down, the number of U. S. troops in Europe and Asia.

Writing in the AFL's monthly magazine, the labor leader said the "new look" itself needs "a most searching look" because "the Democratic countries must spare no effort to strengthen their collective security systems in Europe, in the Near East and in Asia."

Anderson's comment about the H-bomb came during a televised panel discussion yesterday in which he declared the mighty new superweapon is not the answer to all military problems.

"Does the H-bomb mean anything in Indochina?" he asked. "It means nothing. It is not suited for that kind of warfare.

"I think what France does toward granting freedom to the people in Indochina is more important now than the size of the H-bomb."

Russell said he, for one, believes that the Air Force ought to get more funds. But he said such an increase ought not to be at the expense of the army.

Letter Results In 60 Years Of Marriage

LOS ANGELES (AP)—When Clovis Johnson proposed marriage, he was too bashful to do it in person so he wrote a letter.

The reply was a short note, "I do."

Yesterday Clovis and Martha Johnson celebrated their 60th wedding anniversary. Married in Arlington, Mass., they now have 19 grandchildren and 24 great-grandchildren.

Congregation Starts Keeling Over During Confirmation Service

COPENHAGEN, Denmark (AP) — Ten little girls in white lined up for Holy Week confirmation in the Egvad village church in Jutland yesterday. Suddenly a member of the congregation fainted.

One after another, 20 of the worshippers, including one of the confirmation candidates, keeled over.

Finally the pastor called off the service and the congregation fled to the churchyard.

Most of the congregation recovered after medical treatment in the open air. A few were hospitalized and later pronounced out of danger. A stove leaking carbon monoxide into the room was blamed.

Chemistry Of Body To Tell Many 'Whys' Of Individuals

By ALTON L. BLAKESLEE
Associated Press Science Writer

AUSTIN, Tex. April 12 (AP) — Our strange chemical fingerprints are being studied here for new clues to human wealth and happiness.

The chemical fingerprints are measurements of how our bodies work inside. And it appears that chemically, each one of us is as different as our actual fingerprints.

The studies promise to help tell why some people get fat, why some grow old rapidly, why some are mentally ill, why some fall victim to certain diseases, why some have personality problems.

For the kind of chemical fingerprint pattern we are born with seems to have much to do with what happens to us. Changing the chemical pattern, through nutrition or other means, might prevent or overcome physical or mental troubles.

This research is conceived and directed here by Dr. Roger J. Williams, professor of biochemistry at the University of Texas.

He already has found evidence that many alcoholics are apparently born with higher needs for certain vitamins and foodstuffs than other people. Alcohol gives the illusion of meeting these needs, becomes a substitute for food and craving for alcohol results. He reports complete success in some instances in killing the craving for alchool by giving the food material really needed.

Now he and a team of workers are finding chemical signs of differences between fat people and lean, the mentally ill and mentally healthy. Whether these chemical patterns come first, causing the later trouble, is still to be answered with certainty.

Dr. Williams is collecting amazing evidence of the differences within "normal" human bodies. As examples of differences, he cites:

The number of human eggs present in a baby girl's ovaries at the time of her birth varies from 30,000 to 400,000.

Some men excrete 35 times as much of a male sex hormone as others.

There are eight distinct patterns by which tendons in the back of the hand can be connected. Such differences in hand construction could explain why a person could or could not be a pianist or magician, or be unable to write legibly.

The artery which carries blood to the brain is smaller in some persons than in others. Do some people become senile sooner because the small artery is blocked more by hardening of arteries with age?

Some textbooks say the normal complement of parathyroid glands is four. But autopsies on 25 persons found only six actually had four, while the others had 2 to 12.

One human may have 200,000 pancreas gland islets, the source of insulin. Another has two million. This difference could explain why some children become diabetics, or why diabetes doesn't appear in other persons until middle age.

Some persons have hundreds of times as much pepsin in their stomachs as others, yet don't have any stomach complaints. There is a great range of iodine content in the blood, a 10-fold variation in the amount of neutral fat in the blood of healthy persons, great differences in the amounts of hormones and enzymes, in the amount of various chemicals in the urine, great variations in taste sensitivities.

By measuring various chemicals, researchers can draw a partial chemical pattern of human beings. So far, no pattern is found which is identical with another. Each chemical personality is different to a substantial degree in many or several chemical measurements.
