BUSINESS HOUSES TAKE UP NEW YEARS DUTIES

Immediately following the Christmas holidays Lamesa's business managers began to remove decorations, extra display tables and to place their goods back on the shelves and to rearrange the stores generally. The last week has been given to "taking stock" and now everything is in readiness for the new years business, with expectations for a better year than last.

Most of these firms have displayed great courage and determination throughout the past year. They have rendered their best services, extending credit courtesies every time they felt that they could, and many times going to their own jeopardy.

They have done their best to keep their own town up to its best, and entering upon the new 1932 they again show the penitence and co-operation, let's all unite now and resolve that 1932 will find us even better organized.

Pay Your Taxes And Avoid The Penalty

The current unpaid, become due February 1st of 1932. The Supreme Court has ruled that the penalty for late payment is 10% per month. It is your duty to pay up now or you will be in a bad way.

IF I DON'T PAY MY TAXES

The schools may shut down. The state cannot pay the full per capita distribution because like the local school tax, it depends on MY payment. Banks cannot advance further money to schools against unpaid taxes. It is my personal duty to pay up now or you will be in a bad way. The faithful citizens in some localities have organized "Pay Your Taxes" clubs. Occasionally larger tax payers are advancing help or all they owe, long before due date. After all of us have paid who are there yet will be left unpaid taxes that schools will have a struggle to start now to plan how to "pay bit".

This campaign will be carried into all parts of the county Judge Lowrie declared. "We would like to see all school yards beautified and it can be done if the proper interest is taken. This is the year when we are to remember our first President, George Washington with tree planting. We can think of no finer program for any school in the county than to have a tree setting about the school grounds.

Let's all get into this tree planting program and we will have the good seasons and help make our places more beautiful and of course more valuable. Plant a tree NOW.

::: HOME :::

By Wm. A. Wilson

"Be it ever so humble, there's no place like home."

Homes make communities, homes make nations and homes make life.

Without the home we cannot have community centers and we cannot have the nation. All we would have is a shiftless humanity roaming hither and thither with no desire to stabilize and progress; with no respect for the other fellow; no respect for self; no desire to build permanently and no ideals.

The community and the nation—a sum total of homes. They cannot be better than the homes are good. A majority of homes bad—a poor community and a tottering nation. A majority of homes good a worth while community and a sound nation.

"It takes a lot of living in a house to make it a home." It takes good homes to make a community. One cannot expect his home to give him all, he giving little or nothing in return, and still have a HOME. The home must be made by a supreme effort of those who live in it. The home must likewise contribute something outside its walls if it

is to fill its entire function in builds for its community that it community building. The home may stand and like individuals in the home must do a lot of living to make its community.

A home is bright without and happy within—that is a home in its true definition. On the outside—nature holds forth in the grass, the flowers, the trees and the landscape. On the inside—parents' ambition for culture, education, love, happiness and children in the mold of citizens with appreciation for the source of training, protection and respect for others.

"Water is purest at its fountain" and "We expect no more from the child than the environments of his home." Just so, the community can be no better than it's homes and the citizens who make its homes.

We should love our community as our homes for, "Be it ever so humble, there is no place like home," and no community like our community.

It's not one man or class of men, That makes this nation great; But the pure women in the homes The children at the gates.

UNUSUAL CALL SENT OUT

In 1931 the last bank of Plainview closed and for some time now citizens have been subjected to the handicap of banking in adjoining towns.

The Board of City Development has recently sent out a brief, giving figures of the city's business to bankers and business men of other Texas cities inviting establishment of a strong bank with assured connections.

With such a call, such a pledge and excellent business proportions we predict for Plainview a strong institution, with support as can be given only by those who have suffered such inconvenience as our neighbor townspeople have done.

HOLIDAY ACTIVITIES, TROOP 22 BOY SCOUTS

Christmas week was chock full of action and gaiety for members of Troop 22 and long will be remembered as one of the most joyous Yuletide seasons. Several fierce and hotly contested games of pass and tag between "The Harvards" and "The Yales," a Christmas party and a week end hike to Whatleys Ranch were headlines on the program. The presence of Willard McSpadden of Hereford, Arizona and Roy Skipper of Midland threw all the "Old Gang" together again and it is needless to say there was much ado.

The party held on Wednesday night at the Scout Hall, assumed the form of a freak indoor track and field meet between the three patrols, and competition and interest ran at fever heat. The order of events were as follows:

The hundred, the Discus throw, the long jump, the quarter, the hammer throw, the air flight, the half, the shot put, the mile, the Chongo Relay, the obstacle race.

Although the names of the events sounded very much like those of a regular track and field meet they turned out to be entirely different and often surprise and chargin reigned supreme on the faces of the contestants. A final check-up on the scores gave the Beavers a total of 35 points the Owls 32 and the Eagles 29. After this came the eats, consisting of an abundance of mixed nuts, candy and fruit and lots of soda pop. O'Boy what a time. After lively games of hat ball put a finish to a very happy meeting.

The hike to Whatleys Ranch beginning Christmas Day and ending Sunday noon brought a fitting climax to a week of joyous activities. Hunting and exploring new haunts, calvary charging, and over, follow the leader, wooden soldier, telling campfire tales, shooting fire works, cooking and above all eating are some of the things that kept the boy busy and enjoying themselves every minute of the time throughout the two days and nights.

Frank Davis, who was critically burned December 19th is improving nicely, but will be confined to his bed for several days yet.

Verrie Miller spent Christmas in Clovis, New Mexico.

5 Ways To Save Money In Heating!

... as told to us by a thrifty housewife.

The amount of your gas bill is largely in your hands. During winter months, with house heating needs causing a constant demand for gas, you may make a real saving in your gas bill by following the suggestions given below. Help us to help you SAVE MONEY ON YOUR GAS BILL.

1. Don't turn gas up to a point where the flame goes over the top in open top heaters. This wastes gas.
2. Don't try to heat the breakfast room, or adjoining rooms with the range oven. A small gas heater will do the work better and cheaper.
3. If you keep a fire burning in the bath room, see that it is turned low after the room has become comfortably warm.
4. When shopping, or going out for the evening, close the windows, turning out all gas heaters. The house will retain most of its warmth.
5. Don't open doors or windows to cool the room—turn down the gas instead. A wall thermometer will assist you to keep rooms at a uniform temperature.

WHAT IS A CHAMBER OF COMMERCE?

This question has been propounded at least one hundred years and has been answered at equally that long. Some have answered it correctly and others, have answered it with various and sundry answers, all of which to our minds are wrong. We do not guarantee to give a correct answer to this question here, but to our minds we are giving you what we think the answer to the question is.

A Chamber of Commerce is an organization, formed with a purpose of building and making a community a better place in which to live, every stand point considered, by the citizenship of that community working through it as a medium to accomplish these things.

Now, that we accept the above as a definition of a modern Chamber of Commerce, let us analyze it.

Note that we have in this definition organization, purpose, workers and equipment with which to accomplish the task. All of these are ample if properly functioned. Each of these is interdependent one upon the other, but let it be understood that nothing can be done without the workers. The organization is a figure head, equipment remains idle and purpose is an unknown quantity without workers. The organization furnishes only a medium through which the citizenship must labor toward accomplishing the purpose, thus making their community better. If the worker fails the organization fails. On the other hand much can be accomplished, a community or a city may be built, when the workers are on the alert and busy.

Did you ever hear a fellow knock the Chamber of Commerce in the town in which he lives? What did you think when you heard such? Did it not make you feel that this fellow had something left undone something that he could have done for his community? The reason for this fellow's knocking may be a fault of the Chamber of Commerce. It may have failed to give this fellow a job in the community building program. Did you ever notice that when a fellow is idle he is inclined to knock? It isn't his fault, it is nature's way of asking for a job.

To this end the Board of Directors of the Lamesa Chamber of Commerce has divided the work of the organization into the following departments, in order that the citizenship of Lamesa may have a part in her growth and development. It is the desire of this Board that when called on by the chairman of any of these departments, or the Secretary, that Lamesa's people will respond as she has always done—that willingly and enthusiastically. Read each Department together with its suggested duties then surrender yourself for work:

Public Relations: Carl Rountree Chairman; Finance, W. K. Crawley Chairman; Industrial W. W. Evans Chairman; Civic, J. R. Lowrie Chairman; Educational, V. Z. Rogers Chairman; Merchants, E. R. Yates Chairman; Agricultural, R. E. Echols Chairman; Transportation, J. H. Harp Chairman; Membership, W. D. Arnett Chairman; Publicity, Guy Travis Chairman; Entertainment, Mon D. Thaxton and C. A. Hollingsworth Co. Chairman; Executive, F. T. McCollom, J. W. Bryant, Owen C. Taylor and Wm. A. Wilson, members; Wm. A. Wilson manager and Miss Allene Howard office secretary.

Thus you have the organization set up of your Chamber of Commerce. Use it and if you are not a member—why not? It is your community's organization for protection, information and development and of course you should have a part in this program in 1932.

WHAT DO YOU WANT TO GET OUT OF LIFE?

Ask yourself the question seriously and see if your answer, as far as material things is concerned, is not food, clothing, shelter and satisfaction for my loved ones and for myself in the present and for the future—their future and mine.

The simplest way to assure such a measure of success is to map out a program and then to let a qualified life insurance agent underwrite your plans.

There is a contract to meet each of your needs.
