Two Blinded By Hoodlum's Bomb

CONVICT SOUGHT FOR ATTEMPT TO WRECK HOME OF JUDGE

(By The Associated Press)

CHICAGO, Sept. 21—A boy and girl, both 16, were in a hospital today, mangled and probably blinded for life, as the result of an underworld attempt to bomb the home of Superior Court Judge John P. McGoorty.

Meanwhile, police were searching the hidden retreats of gangland for James "Fur" Sammons, ex-convict, public enemy, and reputed machine gunner for the Capone syndicate, who was sent back to the penitentiary in 1931 by Judge McGoorty only to be released on a writ of habeas corpus by another judge.

Windows Shattered

Judge McGoorty and members of his family escaped injury, although the bomb, tossed last night from a slowly-moving automobile, shattered windows in his house, tore a hole in the sidewalk, and shook the neighborhood.

The injured boy and girl, Lee W. Koeppen and Ada Moyer, were strolling in the neighborhood of Judge McGoorty's home on the south side last night. The bombers' car passed them as they neared the jurist's home. They did not see the occupants toss out the bomb which, police conjectured, hit a fence in front of Judge McGoorty's house and bounded back onto the sidewalk.

As Koeppen and the girl walked past the McGoorty residence the youth saw what appeared to be a burning package on the sidewalk. He kicked at it. The bomb exploded. The boy and the girl were hurled to one side, blinded and mangled.

BAPTISTS ARE IN SESSION

MEMBER CANVASS FOR CHURCH TALKED AT MEETING TODAY

Associational conferences this afternoon, led by chairmen in the seven organizations in District No. 9, will bring to a close an all-day session at the First Baptist church which began this morning at 10 o'clock. Plans for an every-member canvass, sponsored by Texas Baptists, were made at the meeting.

Dr. W. R. White of Broadway Baptist church in Fort Worth spoke this afternoon. He is leaving late today for Amarillo to attend a similar conference.

The Rev. R. C. Campbell, pastor, presided for the meeting which was opened with a devotional period. T. C Gardner of Dallas spoke on "Plans and Program of the Every Member Canvass" and J. Howard Williams, Texas Baptist secretary, of Dallas made an inspirational address this morning.

Increase Shown In Building Activity

WASHINGTON, Sept. 21. (AP)—An increase in building activities during August was announced today by the labor department, which reported also that July employment gains were well sustained during the ensuing month.

Based on reports from 332 identical cities having populations of 25,000 or over, the department said, "There was an increase of 4.5 per cent in the estimated cost of all building operations" in August over July.

RANGERS HELP PROBE DEATH AT AUSTIN

YOUTH KILLED WHILE PARKED WITH YOUNG WOMAN IN AUTO

(By The Associated Press)

AUSTIN, Sept. 21.—Texas rangers and county officers were trying to fix responsibility today for the slaying of Edgar Collin Arledge, jr., 21, senior student of the University of Texas who was shot to death while seated in an automobile with a young woman.

Arledge, whose home was in Crockett, was killed late last night by a man who approached the parked automobile, on a road near the city, and fired a bullet into the student's head. The bullet slightly wounded Arledge's companion, Miss Margaret Jean Trull of Palacios, university graduate.

Miss Trull told officers a man approached their automobile and flashed a light in Arledge's face. The youth raised his hand to shade his eyes and the intruder fired. The shot struck Arledge in the left eye. It pierced his head and shattered the windshield of the automobile. Miss Trull's face was sprinkled with glass.

The man disappeared as quietly as he had approached. The girl drove to a hospital but the youth was dead and physicians concluded he was killed instantly.

Arledge came here three years ago from Schreiner institute at Kerrville. His mother and father survive him. He was a pledge to the Pi Kappa Alpha fraternity.

Officers early today believed they had located the bullet with which Arledge was killed. It was found lodged in the side of a house nearby. The calibre of the bullet was not made known immediately. Police expected the clue to aid materially in solving the case. The shooting occurred on the upper Georgetown road, behind the state insane asylum and near the blind institute.

The youth was the son of Mr. and Mrs. E. C. Arledge of Crockett and the nephew of Dr. Eugene Barker of the university history faculty. Miss Trull was here on a visit.

Al Capone Seeking To Obtain Freedom

ATLANTA, Sept. 21 (AP)—Attorneys for Al Capone, former Chicago gang chief, filed a writ of habeas corpus for his freedom in federal district court here today and Judge Marvin Underwood called an immediate hearing.

Capone was expected to appear personally in the courtroom to assist his attorneys.

OIL CLASH WILL BE INVESTIGATED

OKLAHOMA CITY, Sept. 21. (AP)—While re-enforced national guard troops, armed with pistols and tear gas bombs, patrolled the Oklahoma City oil field, County Attorney Lewis R. Morris began an investigation today of a clash between guardsmen and lease workers.

Meanwhile, the H. F. Wilcox Oil and Gas company, whose attempt to reopen ten wells in defiance of Governor William H. Murray's military control of the field led to the to seek a federal court injunction against the militia.

O. A. Kyle, a gauger for the Wilcox company, was struck on the head yesterday when he allegedly refused to obey guardsmen's orders to quit the short lease until after he had checked well connections. Others in the encounter were reported bruised.

HALL CONVICTED

PECOS, Sept. 21 (AP)—Jack Hall, Crane county cowpuncher, was under a four-year sentence today for killing T. C. Barnsley, a ranchman. The jury reported yesterday after deliberating 23 hours.

ROOSEVELT TO ENTER G. O. P. STRONGHOLD

DEMO NOMINEE MOVES TO OREGON; OFFERS NEW TARIFF PLAN

(By The Associated Press)

ABOARD ROOSEVELT SPECIAL, En Route to Portland, Sept. 21—Leaving behind a promise for "a new deal in the restoration of foreign trade" and encouraged by cheering crowds in northwest Washington, Governor Franklin D. Roosevelt today moved his presidential campaign into the normally Republican state of Oregon, the home of an administration leader, United States Senator Charles C. McNary.

The Democratic nominee tonight will speak at Portland, delivering the third of the major speeches of his 8,900-mile journey through 21 states. Roosevelt will discuss public utilities, a subject to which he, as governor of New York, has given much attention.

Raps Tariff Bill

Last night at Seattle, Roosevelt made a brief speech. Referring to the Hawley-Smoot "or Grundy tariff," as Mr. Roosevelt calls it, the nominee said, "President Hoover should have known that this tariff would raise havoc with any plans that he might have had to stimulate foreign markets."

"That tariff, as you in Washington will know," the Democratic candidate continued, "had the inevitable result of bringing about retaliations by other nations. Forty of them set up tariff defenses."

Offers Solution

"To remedy this," asserted Roosevelt, "I have advocated and continue to advocate a tariff policy based in a large part upon the simple principle of profitable exchange arrived at through negotiated tariffs with benefits to each nation. If I am any judge of conditions, this policy will be initiated on next March 4.

"Not charity, but a chance to earn a living. This is the hope and demand of the men forgotten in the policies of the present Republican leadership."

New High Set For Cattle Price Today

KANSAS CITY, Sept. 21 (AP)—A new 1932 top price for cattle on the Kansas City market was established today when Lee Schloss, inc., of Newark, N. J., paid $9.85 a hundred pounds for five carloads of choice Missouri Hereford steers fed by McNamara Bros., of Kearney, Mo.

The 91 head averaging 1344 pounds brought a price 20 cents per hundred higher than the previous top the year which was established last Monday.

Amarillo To Remit Delinquent Penalty

AMARILLO, Sept. 21. (AP) — The city of Amarillo has lined up with the state in remitting penalties on delinquent taxes.

The city commission last night approved an ordinance that would provide for the payment of delinquent taxes by November 30 without penalties.

MOROSE OVER MEMORIES OF NOOSE, FAMOUS HANGMAN TAKES OWN LIFE

(By The Associated Press)

LONDON, Sept. 21—The world's most widely-known hangman was dead here today by his own hand, a victim of years of brooding over having sent more murderers to death than any other living man.

JOHN ELLIS

He is John Ellis, who during 22 years as public hangman executed more than 200 criminals. His nerves began to fail him in 1924. He was found dead his throat slashed and a razor by his side.

Jan. 9, 1923 he put to death the notorious Mrs. Edith Thomson, who with young Frederick Bywaters was condemned to death for the murder of the woman's husband. She had to be dragged to the scaffold and this, with his previous worries over his job, was too much for Ellis.

He retired the following year but could not shake off the horrors that haunted him. On Aug. 20, 1924, he spent a sleepless night and was found next day, gravely wounded, with a revolver by his side. He recovered, however, and promised a magistrate he would not commit suicide. But the horror continued.

Among those who died in a noose he supervised was Roger Casement, who was put to death in 1916 after he was convicted of having sought German aid for an armed revolt in Ireland.

KOHLER AHEAD IN WISCONSIN

LAFOLLETTE TRAILING CONSERVATIVE; SEN. BLAINE BEHIND

(By The Associated Press)

A conservative Republican's defeat of Governor Philip LaFollette, exponent of the family progressive policies so long victorious in Wisconsin, today overshadowed prohibition battles in New York and Massachusetts party primaries.

Walter J. Kohler, whom LaFollette defeated for renomination two years ago, today was leading the youthful governor by over 75,000 votes in returns from more than two-thirds of the state's precincts. The vote was 325,586, to 247,301.

Blaine Behind

Also trailing in yesterday's primary was another LaFollette supported candidate, Senator John J. Blaine. In the race for the Republican senatorial nomination, John B. Chapple, Ashland editor, topped him by 987 votes in 1,689 of 2,899 precincts.

Massachusetts Republican piled up a lead of 25,000 for Lieutenant Governor William S. Youngman in gubernatorial race with more than half the precincts reported. Governor Joseph B. Ely, Democrat, was renamed without opposition.

Representatives George Holden Tinkham, Republican, and John W. McCormack, Democrat, again won Boston congressional nominations.

Drys Nominated

In upstate New York, four districts usually Republican nominated representatives who have supported prohibition and were opposed by repealists. They were Frank Crowther, in the thirtieth; Francis Culkin, thirty-second; Frederick M. Davenport, thirty-third and Dan-

OLTON SUSPECT RETURNED HERE

Jack Sullivan, 25, of Portales, N. M., wounded seriously in a gun battle with peace officers at Mountainair, N. M., September 13, was taken off a Santa Fe train from Clovis at 12:50 o'clock here this afternoon and was taken to Lubbock sanitarium in a Rix ambulance.

A sanitarium executive said he understood Sullivan was to be kept at the sanitarium under guard. Sheriff G. R. Crim of Lamb county recently said Sullivan would be placed in Lubbock county jail for safekeeping as soon as he had recovered sufficiently.

Sullivan is a suspect in the holdup July 15 of the Olton State bank, and in a subsequent exchange of gunfire in which a peace officer was killed and another wounded in New Mexico. Attempting to run a gauntlet of Texas and New Mexico officers at Mountainair, Sullivan was shot in the arm, leg, and abdomen. A young woman with him, in an automobile, was wounded less seriously.

TEXAS SOLONS TO ADJOURN

EXPECT TO COMPLETE BUSINESS TODAY; BILLS PENDING

(By The Associated Press)

AUSTIN, Sept. 21. — The Texas legislature expected to complete its business today and adjourn its tax relief session at 6 p. m. The lawmakers have been here 23 days.

Both houses had important bills pending but a two-thirds vote of the membership of each branch would be necessary to permit consideration on the final day of anything but free conference reports, and the possibility existed that the two-thirds vote could not be mustered.

Passage Doubtful

Pending business in the senate was a house bill to reduce the poll tax from $1.75 to $1.00. The bill had not been engrossed and supporters of the proposal admitted there was virtually no chance of final passage.

If the 24-hour rule should be suspended, the house likely would resume consideration of one of the highly controversial Small land bills. The bill had been engrossed yesterday and was ready for final action. It proposed to give West Texas purchasers of public lands ten years in which to pay mineral bonus and rental money due the state.

FRIENDS GATHER AT GARNER BIER

DETROIT, Sept. 21. (AP)—Acquaintances, young and old, passed silently through the old Garner home here today to pay their last respects to its mistress, Sarah Jane Garner, who died yesterday.

This afternoon at 2:30 o'clock the body of the 81-year-old mother of John Nance Garner, Democratic vice-presidential nominee, will be carried to the cemetery on the edge of this town of 900 odd inhabitants where simple services will be held.

MAHATMA GANDHI'S DEATH FAST IS EXPECTED TO BE ENDED IN FEW DAYS

(By The Associated Press)

POONA, Sept. 21.—A group of Indian political leaders from Bombay visited Mahatma Gandhi in his cell at Yeroda jail today and submitted to him a plan for a compromise on the communal elections question which they hoped would end the hunger strike he began yesterday.

They spent two hours closeted with the Mahatma and when they left, although no formal statement was made, the belief was expressed Gandhi's fast would be ended before many days.

The plan presented to him embraced a suggestion for joint elections, with proper safeguards for the untouchables, in whose interest he began the death fast.

His fast is in protest against the electoral system recently drawn up by the British cabinet and announced by Prime Minister Ramsay MacDonald. Gandhi contends this plan would continue the great gulf which separates the untouchables from the other communities in Indian life.

After a few days, he said, he expected the desire for food to vanish and he then expected to prolong his life as much as possible by drinking water.

ALLEGED CHOKING IN BROWN ARREST IS CLOSED AFFAIR, METCALFE SAYS

The incident of which Franklin D. Brown, a Lubbock lawyer, complained in connection with his arrest by two policemen at his office in the Leader building Monday afternoon, is closed so far as the police department is concerned, Chief of Police Wiley L. Metcalfe said this morning.

Dr. W. A. Maddox, a dentist having offices near Brown's on the second floor, Tuesday afternoon charged the policemen had choked Brown into unconsciousness.

Police Chief Metcalfe said versions of the two officers did not coincide with those of Brown and Doctor Maddox, and if the policemen's reports were correct, what occurred was justified. The police chief and Jess Levens, assistant city attorney, Tuesday said the policemen had told them Brown resisted arrest. There was no indication that the two officers' report of the scuffle would be questioned within their department.

The policemen, Eugene Smith, a plainclothes patrolman, and John Croft, a motorcycle patrolman, went to Brown's office with a capias to take him into custody for over-running a stop-sign in an automobile at Ave-

TECH ORIENTATION HELD

FIRST SESSION IS HELD FOR FRESHMEN

DR. KNAPP TALKS AT COLLEGE CONCLAVE THIS MORNING

Dr. Bradford Knapp, president of Texas Technological college; Cecil Horne, director of publicity; E. L. Dohoney, registrar; Prof. Carl Svensen of the engineering school, and Dr. A. B. Cunningham of the English department this morning addressed prospective freshmen in the college gymnasium, beginning at 8 o'clock, in opening a freshman orientation program. Names and Lubbock addresses of the freshmen-to-be were taken and cards for registration were issued before the assembly adjourned about 11:30 o'clock.

The college's object and its life, housing and outside work, details of registration, and the work of first-year students were discussed by this morning's speakers.

Budgeting to Be Talked

Budgeting of time, money and effort were the subjects of Doctor Knapp when the afternoon program began in the gymnasium at 1:15 o'clock this afternoon. He also was to discuss college spirit and activities. The concluding part of the program was to be the presentation of various college activities, including athletics, by Coach Pete Cawthon. Then, all students were to report to their various buildings, except liberal arts students, who will remain in the gymnasium.

All first year students and some upperclassmen will be enrolled Thursday. On Friday, all other students are to begin registration at 8 a. m.

Registration will begin at the main entrance of the administration building. There students will register religious affiliation, fill out employment blanks, have Lubbock address approved, and present entrance cards or student record books. Students in the schools of agriculture, engineering, and home economics will go to their respective buildings to complete registration. Only liberal arts students will complete enrollment in the administration building.

Physical examinations, now being given at West Texas hospital from 9 a. m. to 12 noon and from 2 to 5 p. m., will begin at the college Thursday.

McKee Wins Fight To Retain Office

NEW YORK, Sept. 21 (AP)—Mayor Joseph V. McKee won his fight today to prevent a mayoralty election in November.

When McKee recently succeeded to the office of mayor by virtue of the resignation of James J. Walker during an ouster hearing at Albany the city clerk certified to a vacancy which he ruled should be filled by a special election in conection with this year's general election.

Today Supreme Court Justice John McGeehan announced his decision that there should be no mayoralty election and that McKee should stay in office until the time of the regular election a year from November.

WITNESS SAYS SHOTS FIRED BY OTHERS

MRS. HILTON IS LAST TO GIVE TESTIMONY FOR THE STATE

Jess Covington, charged with murder in connection with the shooting of F. V. "Leatherhat" Brown, did not fire either one of the shots at the pioneer county stockman as he met his death on the night of May 30, Mrs. T. B. Hilton, a state's witness, testified on the stand in Covington's trial in 99th district court this morning.

Mrs. Hilton, at whose home Mr. Brown was slain, said "'Slim' Richardson fired the first shot with a pistol" and "Hugh Walker fired the second shot". Mrs. Hilton was an eye-witness to the shooting. Walker and Richardson are also charged with murder n the case. Their trials follow Covington's.

Mrs. Hilton was said to be the state's last witness and was to face cross-examination by defense counsel this afternoon before the state closed its case. State had rested with Mrs. Hilton as court recessed at noon.

New Light on Case

Her testimony this morning gave new light to the case, testimony of G. A. Ross, chief prosecution witness, Monday pointing to Covington as one of the men who took part in the actual shooting. Ross said Covington left the car in which he, Ross, stayed during the shooting with the 30-30 and that he came back to car still carrying the gun.

Ross' testimony Monday said he was with the trio on the trip to and from the scene of the shooting and that he sat in the car a hundred yards away from the scene of Brown's death.

Tells Her Story

Mrs. Hilton testified she was standing on the porch at the rear of her home and had "just poured out my dish water" when the three men walked up to the house "about 9 o'clock". She said the men attracted her attention because of "their dark clothes, the white handkerchiefs and their not saying anything".

"I saw 'Slim' Richardson, Hugh Walker and another man walking up," Mrs. Hilton said. Defense objected to her using the men's names, claiming that she did not know the names of them that night but Mrs. Hilton said she knew Hugh Walker's name that night.

Tells of Curses

Mrs. Hilton then related how the men walked around the car and they ordered by curses the family into the house and other details testified to by her husband and brother-in-law previously. Court objected to state's counsel, J. E. Vickers, drawing statements containing the curse words and Mrs. Hilton said the men used "bad names".

She illustrated how the men were standing just before the shooting took place and pointed out their positions on pictures exhibited by

COMMISSION LETS STATE CONTRACT

AUSTIN, Sept. 21. (AP)—The Texas highway commission today had authorized road and bridge construction aggregating $2,691,948 and had announced its intentions to award additional millions of dollars in highway work as quickly as plans could be prepared and contracts awarded.

The contracts will be awarded under the advance made to the state by the federal government to aid in relief of unemployed. Every effort will be made to earn the approximately $7,000,000 advanced by the government before next July 1, the expiration date of the offer, the commission said.

Border Joyous As Beer Supply Sent

MATAMOROS, Mexico, Sept. 21 (AP)—There was joy on both sides of the border today while the barkeepers of Matamoros impatiently awaited the arrival of the first shipment of beer since the Rio Grande rose recently and washed away the railroad.

Not the least of the damage wrought by the floods was to the dispositions of the barkeepers' clientele, large numbers of innocent customers being reduced to a state of involuntary abstinence.

The beer came from Monterey. Previous plans to send a consignment from Juarez through United States territory under seal were defeated.

Third Tuesday Society Dances; Assembly To Dance

Dinner Dance Will Open Club Season

Among the social occasions drawing interest this week are dances.

Following a dance for the Third Tuesday Dancing club last evening at the Hilton hotel, there is to be a dinner dance this evening at 8 o'clock at the Hilton for the Assembly. This affair tonight will open the season for the latter club.

During the afternoon a program of readings and musical numbers was heard. Mrs. O. B. Trifhkle sang, accompanied at the piano by Mrs. Townsen Waddill, and Miss Fern Holland played accompaniment for Miss Ruth Mildred Rylander. Mrs. A. O. Thomas and Miss Wildring B. Sherrod read and Miss Gwendolyn Thompson played piano numbers.

Mrs. J. H. Hackfield and Mrs. J. F. Gregory poured tea during the first hour and Mrs. L. R. Lane and Mrs. Fulbright poured tea during the last hour. Guests called between 3:30 and 5:30 o'clock.

BEAUMONT GOES ONE UP ON CHATTANOOGA IN DIXIE SER

SECOND CLASH TO BE THIS AFTERNOON

GREENBERG, HERRING STARS OF OPENER; WIN ONE TO 0

BY BILL PARKER
(Associated Press Sports Writer)

BEAUMONT, Sept. 21 (AP)—Beaumont is a fine old name that has stood through the ages, but the people of this metropolis are willing to rename the old town.

They probably would vote to call one side of the town Greenberg and the other Herring. They may desire to add other names after the second game of the twelfth annual Dixie series today between Chattanooga and Beaumont, Southern and Texas league pennant winners, but early today it was Greenberg and Herring.

Win 1 to 0

Greenberg who plays first base and hits home runs for Beaumont, and Art Herring, who tells about the big white courthouse in the middle of the square at Altus, Okla., instead of how he pitches for the Exporters, were the stars of Beaumont's 1 to 0 victory yesterday. Herring limited Chattanooga to five hits to win from Clyde Barfoot who held Beaumont to four hits. Greenberg hit a knuckle-ball over the left field wall in the seventh inning after one was out.

For the second game today Manager Del Baker wasn't sure whether he would start Izzy Goldstein or Schoolboy Rowe. Both are right-handers. Manager Burt Niehoff last night nominated Alex McColl to hurl the second contest for the Lookouts.

Team Careful

Although the Dixie championship is at stake neither team was tight yesterday. Both played careful and easy in a game that sparkled with brilliant fielding. In fact it was a freak catch by Greenberg that saved Herring's shutout and probably Beaumont's victory.

The Lookouts tried desperately to knot the count in the eighth. Kingdon, lead-off man, singled. Bonowitz rolled out to Greenberg. Kingdon moved to second. Tauby took Gill's fly and Kingdon went to third after the catch. Reese then slapped a stinging grounder at Herring who deflected the ball. Newsome at shortstop charged it and made an underhand throw while going at top speed. The ball was yards wide of the bag and hit the ground before reaching Greenberg. The huge first baseman reversed himself on the bag, stuck his gloved hand into the dirt and made a sensational backward catch that Manager Del Baker said was the greatest he had seen in his entire baseball career. Kingdon had crossed the plate with the tying run had Greenberg missed.

Failure to hit in the pinches cost Chattanooga. The Lookouts left six men stranded while Beaumont left two.

Joe and Clinton Baty, Greenville, S. C. boys, put 10,500 pieces of wood together in making a small table.

NEW YORK PREPARING FOR CHICAGO

WORLD SERIES RECORDS MAY BE BROKEN

YANKS PLAN TO MEET CUBS WITH BARRAGE OF BASE-HITS

NEW YORK, Sept. 21 (AP)—The New York Yankees are preparing to welcome the Chicago Cubs in the opening game of the world series next Wednesday with a barrage of base-hits and perhaps the greatest crowd in the history of baseball's fall classic.

They may fall of both their objectives but they'll be in there trying. Advance sales have been lighter so far than in many previous years but the Yankee management is counting on a capacity turn-out for the opening game. Should every one of the 69,000-odd seats be filled, a series record for attendance at a single game automatically would be shattered.

Heavy Attendance Seen

Should the series go the full limit of seven games, all records for attendance and receipts almost certainly would go by the boards. With the Yankee stadium seating almost 70,000 and Wrigley field accommodating more than 50,000, an aggregate attendance of close to 400,000 would not be out of reach, far beyond the record of 328,051 established by the Yankees and St. Louis Cardinals in 1926.

The first two games of the series will be played here next Wednesday and Thursday. After a day of rest the clubs will resume at Chicago with games on Oct. 1, 2 and 3. The last two games, if necessary, will be played here Oct. 5 and 6.

CHICUBS WILL ENJOY BASEBALL

CHICAGO, Sept. 21 (AP)—Chicago's Cubs were "in," with little in the way of serious business to worry them until a week from today when they oppose the New York Yankees in the opening game of the world series—and they intend-

SPYING ON SPORTS

BY COLLIER PARRIS

BETTER GET A HUSTLE ON, fans, if you want to ride the special train to Amarillo Saturday, else there won't be any special train.

The A. B. C.'rs and the Santa Fe people are anxious to put the train over, naturally, and friends of Texas Tech are likewise anxious. To make the train possible, 200 round trip tickets must be sold.

Too many people are grumbling about something they call the "depression." Come to think of it, we remember hearing ourself grumbling about that. But we're due our fun, all of us, and it would be sporting for all concerned if enough of us got together and put the train over.

* * *

"We're going to Amarillo Saturday to win—not to get beat nor to play to a tie, but to beat the Texas Aggies."

We liked the way Coach Smith put that over yesterday to his Matador linemen. It wasn't long before the phrase was all over the field, even up into the backfield community where Pete Cawthon drills his prize backs each afternoon in individual practice.

"That's the spirit out on the practice field this week, "We're going to Amarillo to win."

It is not usual for a coach to speak thusly for a team this many days before a game. So Coach Smith must believe it. It may be stretching a point, but we believe it, too.

* * *

Stagefright? What is that? On nearly every corner you find a gang of downtown experts wailing that the Matadors will be so scared of the Aggies Saturday that they'll lay down in their tracks.

What causes this sort of hypothesis? Just because the Texas Aggies come from an older school and from the Southwest Conference, just because they're considered "big time" stuff—does that mean that the little Tech boys will be a-scairt of 'em? Well, hardly.

If the Matadors have any fears along that line, if they feel that there is a hazard in playing a team from a big conference, if they do have an inferiority complex, somebody ought to tip 'em off that the Aggies can play only 11 men at a time, and that there'll be a Matador for every Aggie. As a matter of fact, there'll be about three Matadors for every Aggie before it's all over.

* * *

The boys from College Station are not city boys. College Station isn't as big as the Tech Campus, and the boys who go to school there are from no bigger home towns than the boys who go to school at Texas Tech.

If you think the Matadors are going to be frightened at the crowd and at the idea that they're playing Southwest Conference stuff, you have another think coming, or we do. Just another ball game. That's the way the Matadors ought to feel about it. A little tougher. A little rougher. But another football game withal.

* * *

Out at Fair Park the Westerners are going through their paces as befits a team which has the task of defending a district championship. Coaches Chapman and Huffman are losing no time, in spite of the fact that the season doesn't open until the last day of this month.

A bit of a scrimmage is set for this afternoon. It won't be a regular game, but if you have time to go out you might catch a glimpse of the team which will bear the brunt of this season's attack and carry most of the defense.

It is highly pleasing to see one Truman Hutson cavorting in the backfield with the Westerners. Truman, whose job of delivering copies of this paper to your doorstep sometimes keeps him away from the field, was one of the best bets on the spring training squad.

Hutson was out yesterday and the day before and looked good. He's the type with which football coaches fall in love. He seemed to lack ambition during the early part of the practice season, and was rarely at practice. Of late he appears to have taken an interest. We hope, and his coaches hope, that he continues. Richard Godeke almost had him beat for the fullback position, but yesterday Godeke, a good boy himself, was moved to a halfback position. If Truman and Godeke and Rufus Ryan come through, Coach Chapman ought to have a good backfield. Bill Davidson stands ready to hold down the other halfback position. That's a big if, but you may live to see the day when that quartet takes rizeable proportions.

Matadors Train For Aggie Game

TEAM DETERMINED TO DEFEAT A. & M. AT AMARILLO SAT.

While the battle for starting positions rages among the Tech Matadors, Coaches Cawthon and Smith are laying fortifications against another attack before Saturday's game at Amarillo with the Texas A. & M. college Aggies.

Instead of over-confidence, it is an inferiority complex which has threatened the Matador ranks. Their coaches are attempting to show them that there's nothing to it, this playing a Southwest conference eleven; no more than playing any other eleven.

Chances Held Good

With this psychological danger removed, the mentors believe their charges have a good chance to drub the Aggies at Amarillo Saturday.

"We're going up there to win," was the statement reiterated and flung over the field in yesterday's two workouts. The Matadors have developed a pep and enthusiasm this week that did not prevail so generally last week, and this is considered a good sign.

Practice this week consists largely of line defensive work. Morning drills are given over largely to offensive practice, while afternoon sessions involve every member of the big cast in individual and group work. The players are divided according to positions, and sent through rigorous workouts daily.

Nearly every team of note is popular for some particular style of offense. The S. M. U. Mustangs favor the fans and antagonize their enemies with an aerial circus; T. C. U. likes sweeping runs, and the Texas Aggies specialize in quick, sharp thrusts at the middle of the opposing line. Off-tackle play is their forte, and it is against this type of offense that the Matadors work this week.

The team leaves for Amarillo Friday afternoon. A special train, provided a sufficient number of tickets are sold, will carry Lubbock and South Plains rooters to Amarillo Saturday.

A Super-Race

It is possible that a race of supermen in intelligence could be obtained, if only people would persuade themselves to adopt a course of selective breeding.

So, anyway, says a University of California professor, who has succeeded in breeding a group of extra-smart rats in his laboratory. What rats can do, he says, humans can do; if we will we can develop a race that is far wiser than the one which peoples the earth today.

Probably it won't be done, but it makes an interesting thing to think about—especially when you consider the sweeping changes which the presence on earth of a higher level of general intelligence would make necessary.

Consider, for instance, the change it would make necessary in politics.

Men running for public office would actually have to talk about the really important issues of the day—and would have to talk as if they knew something about them, too. No more could a man be elected mayor of Chicago by denouncing the king of England, or mayor of New York by indulging in constant wisecracks. The day of political bunk would be over.

And in the field of public amusements—well, wouldn't 95 per cent of our movies and 98 per cent of our radio programs have to be junked? Wouldn't some of our colleges have to think up new and subtler ways of disguising the professionalism of their football teams? Wouldn't the boxing industry fall on evil days?

What, do you think, would happen to world statesmen? Would they continue to hold their jobs when they tried to remedy a world trade depression by putting up higher barriers to international trade? Would they be permitted to go on working for peace by building ever-larger armies and navies?

The field of economics might be changed, too. How long would a super-intelligent race put up with a situation in which the most productive era in all history sees constantly increasing unemployment and want?

Perhaps, all things considered, it's just as well we don't adopt this selective breeding program. Could we ever survive the shock?

The Panhandle-South Plains fair will cover 40 acres. That's fair enough.

* * *

Sixty years ago it used to be "40 acres and a mule". Now it appears to be 40 acres—and a fair!

* * *

THE Plainsman is looking forward, with no little potency and gusto, to the forthcoming general election campaign in Texas. A lot has been already said. There is plenty left to be said yet.

But at any rate, most of us will have a good time from about the middle of October to November 8, when the voting will be done.

* * *

Ired by the allegation of a Ferguson leader that "the Sterling bunch will bolt the ticket if Mrs. Ferguson is nominated", The Plainsman did some talking when he should have been listening.

He publicly agreed to vote for the nominee of the Democratic party and intends to keep his word if something more damaging to the Ferguson record is not forthcoming between now and election time.

But a lot of other people didn't make any fool promises and they'll bolt, just as sure as you're born.

* * *

IT is going to be funny, though, when the Fergusonites start howling about bolters. It's going to test the wiggling ability of even Old Jim, himself, to explain why Democrats should not forsake his wife now in the same way he forsook them back in the days of the Ferguson American party.

Everybody knows that Jim not only bolted like a wild mustang but that he also wrote inflammatory articles in his Forum, urging others to bolt and asking the question "why should anybody in Texas vote the Democratic ticket, anyway?"

Boy, oh boy, it's going to be a scream.

* * *

Personally, The Plainsman thinks Mrs. Ferguson will be the Democratic party's gubernatorial nominee and that she'll be elected as such.

Further than that—because of the Hoover debacle—he thinks Mr. Bullington will not run as good a race as was run for the GOP in 1924 by Doctor Butte.

But there'll be fun for all in the general election campaign and you can count on that.

* * *

ENERGETIC Joe Bowman believes in traveling by motor but in horses for recreation and his efforts to stage a jam up good horse show as a part of the fair should be commended.

There has never been a horse show at the fair here-to-fore and it should be an interesting feature for there are many lovers of horse flesh in this and neighboring communities.

* * *

Incidentally, Joe's thoroughbred mare, Eva Norman, is probably the best young saddle horse in these parts; certainly the highest bred that The Plainsman has seen.

She, alone, will make the horse show interesting to the admirers of good horses.

Mrs. R. J. Keller's mare, Black Beauty, L. E. Davis' Lady, Buddy Carroll's Nancy, and Dr. O. W. English's Shanghai Lily are also nice animals, not to mention Clara Bow, a bay mare occasionally operated by your humble servant.

Joe Bowman's horse is the only real fancy one of the lot but they're all worth looking at and should prove of interest to those who have a natural yen for equines.

AS West Texas moves along from the now hazy days of the old frontier into the new era of agriculture and, mayhap, industry, it is good to note that its citizens are become 'museum conscious'.

The Panhandle-Plains Historical society, with headquarters at Canyon, has long been building a museum and now is erecting a building to house it.

Down at San Angelo, citizens are busying themselves raising money to erect a building there for a museum dealing particularly with that portion of West Texas where the city is located.

* * *

For the benefit of posterity, as well as for ourselves, present day West Texans owe it to their section to preserve as many of the relics and as much of the history of bygone days as it is possible to preserve.

There is a fairly good museum being added to now and then at Texas Tech—a project which should be continued as time goes on.

"Because grass can't grow on a busy street", he replied tartly. "Now do you know?"

Another Livestock Blockade

Chances Of Democratic Victory In November Brighter To Most Political Observers Than At Any Time This Year

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON, Sept. 21—Right now the chances of a Democratic victory in November seem brighter to most political observers than at any time this year.

The Maine elections are no infallible barometer, but they do represent as definite an indicator as anyone thus far has to go on. Democratic success there astonished leaders in both parties and just about wiped out the growth of hope that had been apparent among Republicans in the preceding two or three months.

Dutcher

It can be argued plausibly that there really hasn't been any essential change in the elements of the political situation since the election of 1930, which put the Democrats in control of the House—a development often taken as presaging a presidential victory for the party two years later.

* * *

Over many long months the most common observation among politicians, including quite a few Republicans, was that "if the election were held today Hoover would be licked." There is as much justification for that assertion now as there ever was, possibly a little more. Political prediction is far from an exact science, but when more signs point one way than the other no one can be blamed for indulging in it.

Election results are concrete signs, whether they point accurately or not. They are likely to be reliable. And the results of state and both regular and special congressional elections during Mr. Hoover's term of office have given great comfort to the Democrats and none to the Republicans.

* * *

The party in power has leaned very heavily on the possibility of a business upturn. Many political experts have believed that only a substantial pickup could save the Hoover administration from the effects of a nation's half-blind bitterness in time of economic distress.

Lately there have been some small encouraging improvements but election time has drawn very near and the nearer it has come the less has been the likelihood that the election would be decided by an important change for the better.

Consequently, more and more attention is being paid to the question whether the mass of anti-Hoover voters among the submerged electorate is great enough to assure a Roosevelt-Garner victory. The recent stock market rise and other favorable developments have encouraged Republicans, but not to anything like a point of confident enthusiasm.

Maine probably would have stayed Republican had the Democrats not had the wet issue to help them. But Maine is an old prohibition state and an old Republican state, her Republican candidates stayed dry because they thought that was the way to win in their territory.

On the other hand, the results do not mean that Roosevelt can carry the state against Hoover. Some of Al Smith's friends won't vote for Roosevelt and if Hoover can run as well as his ticket he ought to hold Maine.

* * *

Of course, the fact that the Maine defeat is a bad omen for the Republicans doesn't mean that they might as well fold up and begin to think about electing a president in 1936. The result seems more indicative of the election of a Democratic Congress this year than of a Democratic president.

The resentment Al Smith's friends in certain eastern states hold for Roosevelt is still a very real factor and it may make just the difference between victory and defeat not only in some of those states but in the electoral college.

The Republicans have that fact to comfort them—and others, such as that Roosevelt hasn't aroused any enormous enthusiasm for himself, that the country is still relatively conservative and its business element relatively loyal to Republicanism and that any economic improvement helps the cause just so much even if it isn't large enough in itself to turn the tide.

INTERESTING BITS OF NEWS GROUND FROM THE GRIST OF THE DAY'S HAPPENINGS

By The Associated Press:

Trips Over Ship

COPENHAGEN—A deep-sea diver stubbed his toe on a cannon ball on the ocean floor near the cattegat. He looked around and found the Danish warship Prins Christian Frederick, sunk by English men o' war 124 years ago. One of the English shots, perhaps the very one the diver tripped on, blew the Danish commander's head off.

Learn To Dive

HARTFORD, Conn.—Kind to baby lobsters is the state of Connecticut, which hates to see big bully fish gobble them before they get their growth. During their youth lobsters float near the surface of the water and are pie for certain fish. Experimenting at the Noank hatchery with special diving compartments, the state has reared lobsters so that they dive when they are only 35 days old.

Strange Peas

STOCKHOLM, Sweden—Peas with a strange pedigree are the proud boast of a gentleman at Ronneby. A Danish professor who helped excavate the tomb of King Tutankhamen brought home a few peas which rested 3,000 years in the tomb. They were planted, and their possessor said they yielded a crop of 202 peas.

A Big Job

NEW YORK—It took six patrolmen and a sergeant to move Mrs. May Manning, 49, from the bushwick to the Kings county hospital. Mrs. Manning, who weighs more than 400 pounds, lay on the mattress of her sick bed as the policemen carried her down and up six flights of stairs.

Denies Davis Was "Moose Mussolini"

NEW YORK, Sept. 21 (AP)—Donald F. Stewart, for six years editor of the Moose magazine, testified today that far from being the "Mussolini of the Moose" United States Senator James J. Davis held a "merely honorary" post with the Loyal Order of Moose.

The Pennsylvania senator and former cabinet member is on trial in federal court on indictments charging him with violation of federal lottery laws in connection with activities of the Moose, of which he is director general.

Aviator Abandons Flight To Greece

LIBERTY, N. Y., Sept. 21 (AP)—Otto Hillig has abandoned for this year his plan to fly to Greece, because he wishes to "co-operate with the federal government."

Although their plane was in readiness and their lunch basket partly filled, Hillig and his pilot, Roger Q. Williams, decided last night not to attempt the flight which they had expected to undertake this week. Hillig told of an urgent request from the government not to attempt to cross the Atlantic in a plane this late in the season.

Man Waiting For Ticket To Series

NEW YORK, Sept. 21 (AP)—William Cunningham, who described himself as a former railroad fireman from Kansas City, completed the second day of his wait for the first world series ticket this afternoon. The series opens a week from today and Cunningham is still the whole line of aspirants for early entrance.

In the chivalrous Old South, a gentleman is always expected to offer his seat to a lady. . . . but evidently Governor Sterling of Texas couldn't see it that way when "Ma" Ferguson ran against him.

STUPENDOUS ECONOMIC LOSS YEARLY CHARGED OFF TO U. S. RACKETEERING

WASHINGTON, Sept. 21 (AP)—Racketeering by business men, leaders of organized labor, criminals and politicians was charged today by Gordon L. Hostetter of Chicago with causing a stupendous economic loss annually to the American public.

Hostetter is executive director of the Employers' association of Chicago. In an address before the National Conference on Government he asserted:

"Racketeering is an inside job and a native American product, for which business itself is too greatly responsible. The power and spread of the evil is traceable in a great part therefore to the sutlety of its operations and the respectable appearance of its abiding places. The cost of the racket is incalculable."

He said a federal judge had asserted the crime cost annually in the United States was between $11,000,000,000 and $13,000,000,000. Hostetter estimated racketeering costs in Chicago alone amount to $145,000,000 a year.

Racketeering has undergone a change for the worse in the past two years, he said.

Hostetter said the "true racket is comprised of four elements" and listed them as:

"1. The business man, business group, or association of business men.

"2. The leader or leaders of organized labor.

"3. The criminal underworld.

"4. The politician."

"The collective purpose and sole intent of this conspiracy, obviously, is exploitation of the public."

HAS POSSIBILITIES

BOSTON—Alimony slaves might take a tip from the actions of Salvatore Schepici, of Saugus, recently revealed in court. Salvatore was supposed to pay $8 a week for the support of his wife. It was discovered that, for the past five or six months, he has been using the same $8 he paid her the first week, paying it in to the probation office and then forcing her to return it to him as soon as she received it.

Improvement Seen For Finance Head

UTICA, N. Y., Sept. 21 (AP)—Charles A. Miller, president of the Reconstruction Finance corporation, in a hospital here suffering from carbuncles and still weak from a recent attack of pneumonia, is expected to improve following an incision performed last night in one of the infected regions.

"B. C." Relieves Your Headache In 3 Minutes

Realizing that no one drug can relieve all headaches, as they come from so many causes, a North Carolina pharmacist has developed a combination of several ingredients, so blended and proportioned as to relieve almost any headache in a few minutes. You can get this formula wherever drugs are sold under the name "B. C." 10c and 25c packages, and when you have one of those violent nerve-racking headaches, from inorganic causes, "B. C." will give you soothing relief in three minutes. "B. C." should also be used for the relief of muscular aches and pains, common colds and neuralgia, reducing fever, and for quiting a distressed nervous system without opiates, narcotics or such habit forming drugs. FARMERS OPEN NEW "WAR"

"STRIKE" FOR HIGHER PRICES UNDER WAY IN 11 STATES

DES MOINES, Ia., Sept. 21 (AP)—A new drive to keep farmers of 11 mid-western states from selling non-perishable products was under way today.

Leaders of the Farmers' Holiday association, sponsors of the non-selling movement which is designed to bring higher prices for producers, said they had asked nearly 2,000,000 farmers to join in the "strike."

Agriculturists in Minnesota, North Dakota, Oklahoma, Nebraska and Iowa, the strike leaders said, had given assurances they would participate. They added that farmers in Ohio, Wisconsin, South Dakota, Kansas and Illinois had "shown interest" in the movement.

The new strike order marked the beginning of a second "war" for higher prices.

The first drive, which began more than a month ago in Iowa, was marked by picketing and violence, but today's strike order carried an edict from farm holiday leaders forbidding attempts to blockade the highways.

Roads near Sioux City, Ia., and Worthington, Minn., two focal points of the strike, were clear today and little activity has been seen about Sioux City.

T. C. Meinecke, chairman of a goodwill trip which will be made Friday to advertise fair in Hale, Floyd, Lamb, and Crosby counties, and two aides, B. G. Williamson and Wyatt Hester, conferred this morning in the chamber of commerce on plans for the autocade, the last of three to carry invitations to the exposition.

Nineteen automobiles of Lubbock residents returned late Tuesday afternoon from a tour to Shallowater, Anton, Littlefield, Amherst, Sudan, Muleshoe, Morton, Levelland, and Smyer.

Music Feature Stops

Invitations to the fair were made by Mayor J. J. Clements and Dr. W. A. Jackson, head of Texas Technological college government department. The 36-member Lubbock high school Westerner band, directed by H. A. Anderson, played at the stops, and music was also given by Miss Louise Garrison and Mrs. Willette Merrell, accordion players. Nasal novelties were given by Geo. Meiser.

The airplane was piloted by Harry Peiser of Lubbock Airways. Manager W. C. Breedlove of Municipal airport also made the flight, sponsored by Moore Bros., Dee's cafe and Levine's. Landings were made at Anton, Littlefield, Morton, Levelland and Bledsoe, and circulars were distributed at other cities.

At all places, a large number of persons turned out to hear the band and speakers and receive souvenirs carried by the trippers. Heading the welcoming delegations were

BROWN ARREST

(Continued from Page One)

nue Q and Broadway.

Brown, who was a candidate for district attorney in the July primary election, said Smith came to the office earlier and agreed he would return with documents necessary for making bond. Instead, Brown related, Smith came back with Croft, and the two jerked him from his chair when he opined they were "acting like a couple of kids." Brown had sent his stenographer, Miss Zola M. Baker, 1920 Ninth street, to the police station for bail-making documents.

Says Lawyer Unconscious

Dr. Maddox, who attended Brown, who later also was examined by a physician, said the lawyer was unconscious at least five minutes, as a result of a reverse headlock, applied by Croft, which virtually cut off Brown's breathing. Brown also suffered a dislocated right shoulder, Doctor Maddox said.

Miss Irma Claye, 315 Avenue H, a stenographer in the law offices of Vickers & Campbell, a door of which permits a view of the hallway, confirmed Doctor Maddox's description of how the officers were holding Brown before he allegedly went limp in their arms. While Croft clamped on the headlock, Smith held Brown's right hand high against his back, the physician said.

Had Agreed To Bond

Miss Baker also said Smith had agreed Brown could make bond without going to police headquarters. Brown, of the law firm of Lockhart & Brown, said the time required to go to the station would be lost from his work.

Doctor Maddox, Miss Claye, and Miss Baker all said they had seen no resistance on Brown's part. Brown said he had asked permission to go into the office of another law firm, before going to the police station, as the trio rounded a corner of the hallway. Although he did not remember, he said, he presumed he pulled toward the door when they refused him permission.

Cotton Market

NEW YORK REPORT

NEW YORK, Sept. 21 (AP)—Cotton futures opened steady, 12-16 higher on Liverpool cables and trade buying.

Buyers found additional encouragement in the strong opening of the stock market, eastern belt rains and expectations of bullish features in the weekly weather report. The advance extended to 7.20 for December with the market at the end of the first half hour comparatively firm at net advances of about 22 to 30 points.

There were reports that farmers were showing more disposition to hold their cotton following the recent decline. Liverpool cables reported covering, Bombay buying and trade calling in that market, influenced by the rains in the south, and said there was a broadening demand for cotton cloths although delivery difficulties were restricting business.

Bullish features in the weekly report of the weather bureau may have brought in some additional buying but, after showing net advances of 30 to 34 points with December rising to 7.25, the market met a little more pressure. The market a midday was steady at reactions of 4 or 5 points from the best.

NEW ORLEANS REPORT

NEW ORLEANS, Sept. 21 (AP)—The cotton market had a firm and active opening today. Liverpool cables came in four to six penny points better than due and first trades here showed gains of 9 to 12 points. The market continued to improve after the start on good trade demand and owing to a strong opening of the stock market. October traded up to 6.98 and December to 7.13, or 17 to 18 points above yesterday's close.

Near the end of the first hour, the market was still firm and at the highs. There appeared to be less pressure from hedge-selling in the early transactions.

After easing off 5 to 8 points from the initial highs on a rather indifferent weekly weather report, the market turned firm and very active later in the morning on heavy trade buying and a sharp advance in stocks. October traded up to 7.14 and December to 7.26 and January to 7.32, or 21 to 22 points up from the earlier lows and 31 to 33 points above yesterday's close.

Around midsession the market continued very firm and was only two points under the top.

RYLANDER TALKS TO ROTARY CLUB

Representing City Schools Superintendent M. H. Duncan, W. C. Rylander, local insurance man, was principal speaker at noon today before the Lubbock Rotary club.

Mr. Rylander presented statistics covering education for Mr. Duncan, who is chairman of a committee functioning in this section of the state to fully advise citizens of school conditions in Texas and over the union.

The Rylander address was purely statistical, bringing out Texas' low standing in the field of education in the United States as a whole.

Dr. J. T. Hutchinson, school board president, was chairman of the program.

President Homer D. Grant was in the chair.

Mr. and Mrs. Carlisle A. Tubbs and family have moved to Brownfield where Mr. Tubbs has been stationed by the Texas Highway department.

Grain Market

CHICAGO REPORT

CHICAGO, Sept. 21. (AP)—Stimulated by jumps in securities, the grain markets today scored a brisk early advance. The fact that Chicago Liverpool wheat price difference was being fully maintained despite enormous Canadian marketings also was a bracing factor. Opening 5-8 to 1 1-8 up, wheat afterward rose further. Corn started at 1-4 to 3/8 gain and continued to mount.

Stock Market

WALL STREET REPORT

NEW YORK, Sept. 21. (AP)—Bullish enthusiasm, which had been waiting for further evidence of a pickup in business, flowered out today in the best rally the stock market had seen in ten days.

A number of leading stocks—rails, utilities, chemicals and specialties—led the upturn with gains of 2 to 5 points or more. Union Pacific ran up more than 5. Santa Fe, Norfolk & Western, Delaware & Hudson, New York Central and Atlantic coast line moved forward 3 to 5 points.

Buying quickly spread, after a brisk rally at the opening, to a wide list of industrial and utility stocks. U. S. Steel moved up 4. The preferred jumped about 7. National Steel and Bethlehem were up 3 or more. American Telephone gained more than 5 and advances of 3 or better developed in Consolidated Gas, Case, Harvester, Allied Chemical, American Can, American Smelting, Westinghouse Electric and American Tobacco B.

ELECTIONS

ill A. Reed, forty-third.

Three Republican incumbents, advocating repeal, won over candidates endorsed by temperance organizations. They were Representatives John D. Clarke, thirty-fourth; Walter G. Andrews, fortieth, and Edmund F. Cooke, forty-first.

John H. McCooey's Democratic organization named its candidates in contested districts in Brooklyn. Representative James M. Mead of Buffalo, was renominated by Democrats.

Ruth Pratt Wins

Republicans in the Seventeenth, or "silk stocking" district, in New York City renamed the state's only congresswoman, Representative Ruth Pratt.

Wisconsin Democrats put Mayor A. G. Schmedeman of Madison ahead in the race for the party's gubernatorial nomination in early returns. F. Ryan Duffy was unopposed for the Democratic senatorial nomination.

Grocerymen Gather For Banquet Here

Representatives of 38 South Plains Red and White stores gathered in a banquet session here last night at Asbury Methodist church. Tom Pierce, local wholesale grocer, said this morning.

Approximately 60 persons were present, he said.

Program for the evening included:

Toastmaster: F. Merritt Clark; Invocation: Rev. C. A. Bickley; Violin solo: Miss Elitabel Tilory with Miss Roma Gause at the piano; Reading: Miss Wildring B. Sherrod; Accordion solo: Miss Catherine Royalty; Humorous talk: Joseph Griggs; Fellowship talk: Rev. C. A. Bickley.

Mesdames Carl Patton and Pierce Magee have returned from a trip to Dallas.

COVINGTON TRIAL

(Continued from Page One)

the prosecution.

Illustrates Position

She said Hugh Walker "was setting out about 15 feet, down on his feet, aholdin' that long gun", and illustrated to the jury his position.

"'Slim' Richardson fired the first shot with a pistol", Mrs. Hilton said. "Hugh Walker fired the second shot." She said there were only two shots fired.

"Mr. Brown said 'My God,' and 'Slim' Richardson run over to Hugh Walker," she continued as she illustrated how Mr. Brown acted and walked after both shots had been fired. "The man standing by the radiator (whom she had not identified) ran over to where Hugh Walker was, then I ran".

Ran to Neighbors

Mrs. Hilton testified she ran through the house, out the front door and up north toward town and stopped at Mrs. Betts' and told them what had happened.

"And then I saw a car coming down the highway from the south and I ran out and hollered and screamed and they picked me up and brought me to town."

She said the car, a big one, came to town in "about 10 or 12 minutes". She said the man in the car came with her to the sheriff's office and reported the killing.

In answer to a state question, Mrs. Hilton said she was present at her home the next morning when officers extracted a piece of a bullet from a wall of the house and that "there was blood and pieces of flesh" around where the bullet went in.

Seven Others Testify

Seven more witnesses appeared for the state in the morning session, each testifying to minor details previously brought out in other testimony.

Deputy Sheriff Will Earnest was recalled for cross-examination by the defense as the morning session opened and questioned as to whether anyone besides himself and other officers had examined the tread tracks of the car which left Woodrow to see what kind of tires they were made by. He said he didn't know.

Farmer on Stand

Z. V. Betts, Woodrow farmer, testified he was running a tractor in a field just east of Woodrow and that while he was trying to exchange a battery from his car to the tractor to continue plowing that night that a car passed him going west toward Woodrow. Ross had brought out in his testimony that Covington, driver of the car, had turned off on a road east of Woodrow a mile or two and then turned around and came back before the killing.

Betts said on cross-examination that it was nothing unusual to see a car pass the field, day or night.

Car Sounded Like Plane

C. E. Boone, who said he lived three and one-half miles west of Woodrow, testified that he had been feeling "puny" on the day of the killing and had been taking some medicine. He said that he got up at 9:20 that night, declaring that he looked at his clock as he took the medicine, and that a "car passed there at an unusual high rate of speed." He said it "made an awful racket and bounced like it would turn over at a culvert in front of the house where the water had washed across the road." Boone said the car sounded like an airplane coming down the road.

On cross-examination, he said the car didn't sound like it was running in low gear. He said he had purchased the clock in 1903 in answer to another defense question.

Embalmer Testifies

Albert McCarty, an embalmer with the Rix funeral home, tesified he went to the scene of the killing in an ambulance. He described how the dead man's body lay at the house and then described wounds on the body.

On cross-examination, he said the officers had already arrived at Woodrow when he got there. He said he drove "about 75 miles an hour." en route to Woodrow.

Prosecutor On Stand

Burton S. Burks, assistant district attorney, then took the stand and told of finding a pistol in a lake six miles west of Woodrow on July 26. Burks said he and Joe Rieger, deputy sheriff, found the gun in water about four feet deep. He said it had five cartridges in the magazine and one in the barrel. At this point, the state offered the gun, a .380 Remington automatic, as evidence in the case and also the cartridges. It was the second "death gun" to be introduced as evidence in the trial. Defense objected.

Burks said that the day he found the gun was the first time he had been to the lake to look for it, in answer to a defense question.

District Attorney Durwood Bradley appeared on the stand and identified a .380 shell found at the scene of the shooting and also a 30-30 shell found there. He said the shell was similiar to those found in the gun.

Lawyers Clash Again

"The reason you testified to this is because you can't prove it by any other source?" Defense Counsel W. F. Schenck asked.

"I assume I am the only one to know the facts to testify in this particular," Bradley answered.

Joe Rieger then took the stand and related his version of discovery of the pistol. He identified the gun exhibited in court as the one he and Burks found in the lake. He was at the scene of the killing that night and told of Earnest finding the two shells.

He also said on cross-examination that the day he found the gun was the first time he had been at the lake to look for it.

County Attorney Vaughn Wilson was the next witness. He said he was at the Hilton home shortly after the killing and that he found a part of a steel jacket from a bullet in a bathtub in a little room in the rear of the residence. He said the jacket was made of material similiar to those on the other 30-30 bullets and identified a piece of metal exhibited in court as the one he found that night. The state offered the portion of the bullet in evidence and defense objected as to other evidence submitted.

On cross-examination, Wilson said he was "not an expert."

Bradley again took the stand and testified to splitting one of the 30-30 bullets in half with a saw and that the portion of jacket Wilson found was of similiar material as the jacket of the split bullet. Defense objected as he offered it for evidence.

Indictments Offered

The minutes of the court ordering the special term and also the indictments against "Barber John" Richardson and Hugh Walker were then offered as evidence in the trial at this juncture.

Defense objected, maintaining that "Ross, a co-defendant was not indicted."

Tuesday afternoon the state sent a parade of witnesses on the stand to corraborate portions of Ross' testimony.

Following state's close this afternoon, the defense will start its case and testimony to prove an alibi as examination of veniremen indicated. Covington, himself, may take the stand, defense counsel has intimated.

Little Change In Duvall Condition

Little change was reported at noon in the condition of O. E. Duvall of El Paso, in a serious condition at Lubbock sanitarium as a result of shotgun wounds. Edwin Barker, his brother-in-law, of 1811 Avenue L said Duvall was wounded when Barker fired across a lake about 10:30 o'clock Monday night between Tahoka and Brownfield.

Eight shot, which Barker said the doctor described as No. 6, penetrated Duvall's face and head, and two entered the brain. Brought to Lubbock Monday night and given emergency treatment at Barker's home, the injured man was carried to the sanitarium at 9:20 o'clock Tuesday morning for treatment. Barker said he was hunting with a .410 gauge shotgun and that Duvall was knocked down but not unconscious.

Mrs. Duvall last night was reported enroute here from El Paso.

Three Killed When Car Takes Plunge

MONTROSE, Colo., Sept. 21. (AP)—Three Montrose residents, one of them an 18-month old baby, were killed and a fourth person perhaps fatally injured last night when their car went over a 150-foot embankment on the Naturita Canon hill, a mile south of Red Vale, Colo.

The dead: Mrs. Floyd Burris, 22; Freddy Burris, 18 months, her son, and Olen Holybee, Mrs. Burris' brother.

Floyd Burris, husband, and father of two of the victims, was in Norwood hospital here, not expected to live.

HOUSTON, Sept. 21 (AP)—Colonel Andrew Jackson Houston, 78, last surviving son of the Texas hero, General Sam Houston, was near death today at St. Joseph's infirmary.

TECH TO HAVE EXTRA WORK

EXTENSION WORK WILL BE OFFERED HERE, DIRECTOR SAYS

Extension department work at Texas Technological college is to be offered this fall, as usual, J. F. McDonald, director, said this morning, with requests covering 17 courses already having been received.

Requests have been made for extension class work, during the fall term, in architecture, Bible, business English, freshman chemistry, dressmaking, education (practice teaching), freshman geology, house furnishing, physical education to meet state requirements, freshman physics, elementary radio, shorthand and typing, second year Spanish, speech correction, tailoring, and freshman zoology.

Ten Needed For Course

When ten persons request one of the courses named above, or some other course not in this list, a class can be organized to accommodate them. Those who are interested in taking an extension course are invited to list their names and choice of subjects with the Extension department.

Enrollment Fees

The fee for each extension course, which carries college credit, is ten dollars per term, excepting three non-credit courses for home-makers, namely, dressmaking, home furnishing, and tailoring are only two dollars each per term. These exceptions are made because of state and federal aid which are given for these three subjects.

Those who list their names with the Extension department will be notified as to when and where the classes will meet for organization and work.

Grocers Featuring Geographical Game

Lubbock grocers are now distributing to purchasers of Kellogg's whole wheat biscuit a little doo-dad that is apt to prove highly popular with school children, particularly those struggling with geography.

It is a piece of cardboard with a movable disk attached, called the Wheel of Knowledge. If you want information on any state—Maine for instance, you spin the disk until an arrow points to Maine. Then through slots in the cardboard disk, you gather the information that Maine has 33,040 square miles, 797,423 population, ranks 35th in population and 38th in size, and so on. A dozen or so questions that the pupil usually wants answered in a hurry are quickly solved by this device.

STRAY PONY IS HELD AWAITING CALL OF OWNER

A pony, dragging a long chain, came to 2419 Ninth street Tuesday, and last night a woman there informed police that the animal was there and she would like for the owner to come after it. The pony's owner had not been found this morning, so far as police knew.

* * *

Theft Reported—Theft of a brown coat, a pair of pliers, an air-gauge, a screwdriver, and a scabbard from 2223 Avenue H was reported to police late Tuesday.

* * *

Cars Collide—A Ford delivery car driven by J. W. Hightower of Lamesa, and a Ford coupe operated by B. Roberts, who lives at an airport here, collided Tuesday night at Main street and Avenue L, police reported. The cars were damaged slightly. No one was reported hurt.

* * *

Fire Reported—Fire of undetermined origin in servants quarters at Broadway and Avenue Q resulted in a fire alarm about noon today. Firemen reported damage was negligible.

* * *

Insects Thrive—Apparently as spry as they were when they came to the county agent's office, four insects do not seem to be showing the effects of an 80-day foodless period. The quartet of silver-colored insects were brought to the office in an attempt to find a poison which would eradicate them.

County Agent D. F. Eaton said the insects were common clothes moths. They have been confined in a small glass jar, lid of which has been down nearly all the time. The quartet, three large and one small insects, have shedded their skins several times. Flat, elongated, and with seven uneven bristles, they appear similar to what are known in some section as fish moths or silverfish.

* * *

Eleven Additions—There were eleven additions at the revival being conducted at the West End Baptist church last night, the Rev. Boyd P. Milburn, pastor who is preaching, said. Tonight the Rev. Mr. Milburn will discuss "Love."

* * *

Loot Recovered—Two wool-lined jumpers and two heavy wool sweaters, part of loot taken in a burglary of a railroad freight car presumably between Post and Slaton last Saturday, have been recovered after investigators learned where they had been sold, Sheriff-elect Tom Abel said. The merchandise, consigned to Plainview and Amarillo firms, included sweaters, scarfs, shirts, and jumpers estimated to value $65 or more.

* * *

Cases Dismissed—Cases against two women, one charged with disturbing the peace and the other injuring property, were dismissed by Justice of the Peace J. S. Connell Tuesday afternoon on the recommendation of the assistant county attorney, Wm. H. Evans.

Evans admonished members of three families, including the one filing complaint, "to be neighbors and stay out of the courthouse with family troubles."

* * *

Ankle Broken—A broken right ankle was suffered by Darwin Keeter, identified as a Texas Technological college student, when a horse he was riding fell in the business district. He was treated at West Texas hospital.

* * *

Farmer Dies—R. T. Thornton, 39-year-old farmer of Littlefield, died in a hospital here at 11:30 o'clock Tuesday night of general peritonitis, Mr. Thornton, a former Lubbock resident, was received at the hospital Tuesday afternoon. The body was taken to Littlefield.

RELEASED ON BOND

PECOS, Sept. 21. (AP)—Bob McElroy made $12,000 bond today on a charge of murder for the fatal stabbing of G. L. Donaldson and was released to await grand jury action. Donaldson, 33 year old railway bridge foreman, was stabbed after a dance at Kent.

ROBBER BEING SOUGHT HERE

LAMB DEPUTY TRYING TO LINK SHOOTING WITH BURGLARY

A Lamb county deputy sheriff and other investigators this morning were working in an attempt to connect a man allegedly shot accidentally with an attempted burglary of Hestand-Kimbell Grocery company's wholesale house at Littlefield. A man was wounded in the burglary attempt about 3 o'clock Tuesday morning by two charges from a shotgun in the hands of a man who had remained in the building as a precaution against a recurrence of break-ins.

As a man dropped partway through a skylight from the roof of the wholesale quarters, Sam T. Hodges, manager of the company's Littlefield place, fired a shotgun at the dangling legs of the burglar, Bob Miller, Lamb county deputy sheriff, said here. Blood stains indicated the man was wounded severely, the deputy sheriff said.

The wounded man pulled himself back up, ran on the roof to the west side of the building, and slid down a water pipe, while a confederate, evidently a lookout, dropped from the roof at the rear of the building to a freight car, according to Deputy Sheriff Miller.

Car Driven By Bank Robbers Was Stolen

BORGER, Sept. 21 (AP)—Borger officers have received information that the car which was driven by bank robbers at Nara Visa, N. M., Saturday was taken by force at a dance near here Friday night after the robbers had driven two young Borger men into the Canadian river brakes and released them 16 miles from a highway.

Tom Stewart nd Eldin Sechrist told officers the three men siezed their car as they started to leave a dance at Dixon Creek, the robbers forcing Stewart and Sechrist to accompany them. In the brakes east of Oil City they said the robbers met a woman, and probably another man. At that point Steward and Sechrist were set afoot.

Two Men Arrested As Counterfeiters

AMARILLO, Sept. 21 (AP)—Two employes of the United States helium plant here were held today on counterfeiting charges.

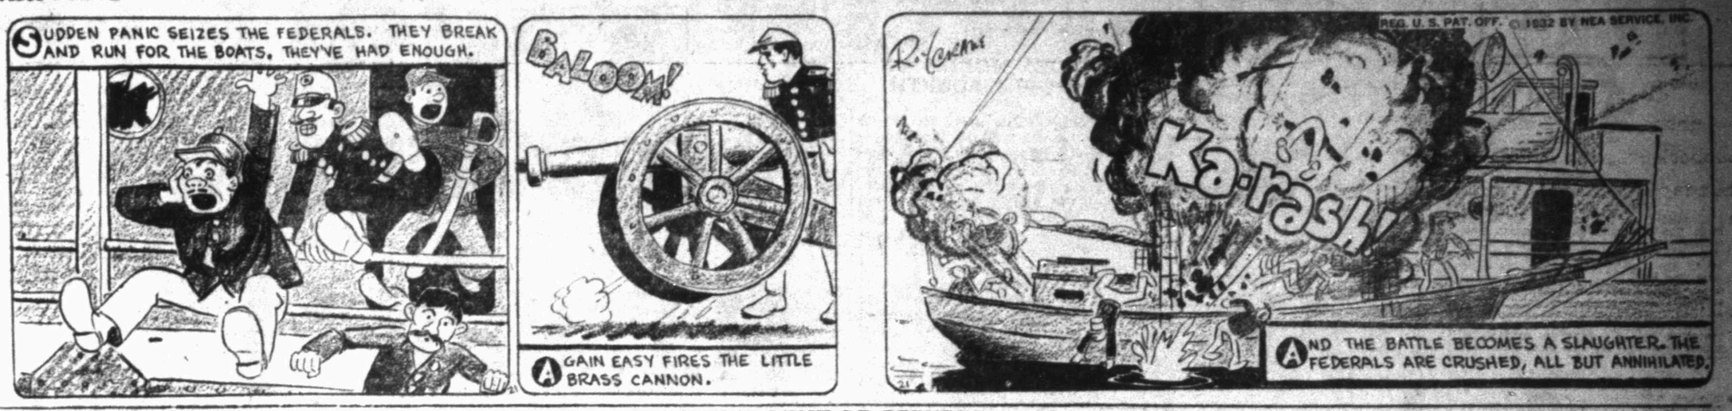

Harry F. Reed, 23, assistant helium operator since the plant was opened here three years ago, made bond of $2,000 after federal officers said they found molds for making 25-cent pieces in a barn at his residence. Leo M. Pavey, 27, a laborer, was charged with possession of counterfeit $10 federal reserve notes on the Federal Reserve bank of California. He had made no effort to make bond.

HOOVER IS TO TAKE STUMP

PRESIDENT TO SPEAK AT DES MOINES ON OCTOBER FOURTH

WASHINGTON, Sept. 21. (AP)—A city in the heart of the farm belt—Des Moines, Iowa—today was chosen for President Hoover's first direct appeal to voters for re-election.

The Republican candidate will speak there Tuesday evening, Oct. 4, traveling to and from Iowa's capital without making any other addresses en route.

The announcement of President Hoover's first campaign speech was made by Everett Sanders, chairman of the Republican national committee, in a formal statement. It came after a week of conferences that began with the Maine election and included a statement by Sanders on the White House steps Sunday night that "the most vigorous possible speaking campaign" was planned.

Sanders' announcement said:

"President Hoover will make his first speech of the campaign at Des Moines, Iowa, on the evening of Tuesday, October 4. Arrangements for a nation-wide radio hook-up are being made.

"The president will return immediately to Washington after his speech. He will make no other addresses en route. Time and place of other addresses by the president have not yet been arranged."

Mr. Hoover's trip west will coincide with Governor Roosevelt's return to Albany. It is expected in official quarters the president will discuss the farm problem, subject of the Topeka, Kansas, address of his Democratic opponent during Roosevelt's present western swing. The president already has starting writing on this theme.

The Sanders announcement, issued after the Republican chairman had returned to his Chicago headquarters, came just as Vice President Curtis departed for speeches in Tennessee, Kentucky and West Virginia, before starting a westward swing.

The French ministries of air, war and navy have been combined into one group under the title of ministry of national defence.

MAJOR LEAGUES

(Continued from Page 4)

ed to get a little fun out of their baseball.

As soon as Kiki Cuyler smashed one of Steve Swetonic's curves for a triple with the bases loaded in the seventh inning of the first game of yesterday's "crucial" doubleheader, the veteran regulars had earned a rest. They started taking it in the second game, and they don't have to go back to work until they have rested. Neither do they have to rest if they don't want to.

Manager Charlie Grimm almost went right back to work in the second game yesterday, although he long had planned to give Marvin Gudat a chance as soon as the National league title was won.

PHILLIES REACH FIRST DIVISION

BY GAYLE TALBOT
(Associated Press Sports Writer)

Generally overlooked in the excitement attending the winning of the National league pennant by Chicago has been the surprising fight put up by Burt Shotton's Phillies for a berth in the first division.

Sixth when the curtain went down a year ago, Shotton's sluggers have pounded their way into fourth place and right now are giving Brooklyn a battle for third. The Dodgers pulled away a little yesterday, increasing their lead to a game and a half by downing the Phillies, 3 to 1, but with four games to go there still as a possibility third place will go to the Quaker City crew.

Clark Wins 19th

Watson Clark, ace of the Brooklyn staff, chalked up his 19th victory in batting the Phils.

The Giants plastered the Braves 13 to 3, and St. Louis, with Tex Carleton pitching five-hit ball, beat Cincinnati, 3 to 1.

The Cubs closed the race proper with a 5 to 2 win over Pittsburgh in the first game of a doubleheader. The crestfallen Corsairs took the second, 5 to 0.

Monte Weaver further established himself as one of the year's greatest freshman pitchers as he set Boston down with four hits and Washington beat the Red Sox, 4 to 1.

Cleveland beat St. Louis a couple, 5 to 2 and 11 to 2.

GENERAL IMPROVEMENT IS NOTED IN WORLD GOLD SITUATION IN BULLETIN

WASHINGTON, Sept. 21. (AP)—General improvement in the world gold situation is reported by the federal reserve board on this anniversary of Great Britain's abandonment of the gold standard.

The United States gold stock, in board's latest monthly bulletin, was placed at $4,086,000,000, after a year which began with England's action included a sharp ebbing in domestic gold supplies, enactment of the Glass-Steagall law to aid the reserve system in handling these withdrawals and then a return flow of gold.

It was Sept. 20, 1931, that Great Britain gave notice gold payments temporarily would be suspended, effective the next day. Today, the reserve board placed British gold reserves at $676,000,000 for the end of August, the largest total in 14 months.

The board said central gold reserves of all the principal conutries outside the United States have increased $1,800,000,000 or 30 per cent as compared with the middle of 1928. This is explained by a large mine output and the release of gold from private holdings in Australia, China, India and Russia.

The board's bulletin reported British net imports of gold the past five months had exceeded $100,000,000. As for the United States, it said:

"The recent inflow of gold from abroad which began at the middle of June resulted in an increase in the country's stock of monetary gold between June 15 and August 31 of about $175,000,000. This increase brought the gold stock to $4,086,000,000.

"This is about the same level as of the second half of 1928 and the first quarter of 1929 before either the recent financial crisis or the prevailing business depression had begun to show itself."

Further discussing financial conditions in this country the board hoarding had decreased and banking conditions improved.

The bullfrog is the largest of North American frogs, and the largest representative of a genus of aquatic frogs widely distributed over the Northern Hemisphere.

Lost 20 Lbs. of Fat In Just 4 Weeks

Mrs. Mae West of St. Louis, Mo., writes: "I'm only 28 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy, and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—it's the SAFE, harmless way to reduce as tens of thousands of men and women know.

For your health's sake ask for and get Kruschen at Mark Halsey Drug, City Drug Store or any drug store—the cost for a bottle that lasts 4 weeks is but a trifle and if after the first bottle you are not joyfully satisfied with results—money back.—Adv.

Pioneer Cowboy On Visit In Lubbock

A man who came to the Plains as a young man in 1898 and punched cattle in a dozen different outfits, Cleve Law of Fort Worth has returned, this time for a two weeks visit with his brother, E. L. Law, [illegible] street.

Now engaged in cattle and real estate business in Ft. Worth, the visitor recalled working on a ranch in Yoakum county when there was not a single woman resident of the county.

Among other outfits, Mr. Law worked for the XIT's, the Turkey Track and Scharbauer Cattle company, Midland. He also was with the Matadors something like 20 years ago.

Display Of Books Will Be Arranged

A display of books will be arranged at Lubbock County library for Book Week, November 13 to 19 inclusive, Miss Lola Mae Rozzell, librarian, has announced.

"Books for Young America" is the theme of 1932 Book week, which is set aside for reading and buying good books for children. Libraries cooperate by exhibiting such books so that parents may see the most suggestions in Christmas buying, Miss Rozzell said.

This year's theme, the librarian said, will be "interpreted to include many books about our own country and books which give young Americans an understanding of the world in which we live."

They Satisfied in '17— and you can't Beat 'em Today

THIS picture will bring back memories to a lot of people of the days when the boys went marching away with flags flying and bands playing.

Chesterfields were very popular with those men who went overseas. They were "rookies" then. They're "old vets" today. And that milder, satisfying Chesterfield flavor is still their steady choice . . . after fifteen years!

It was mildness that first attracted smokers to Chesterfield. And it's mildness and better taste that is winning new friends for Chesterfield today . . . all over the country.

Next time you're short of cigarettes, ask for Chesterfields. They satisfied in '17, and you can't beat 'em today.
