God and Country Award Presented To Phillip Dannelly

The God and Country award was presented to Phillip Dannelly of Boy Scout Troop 280 at the Sunday worship service of the First Methodist Church. In a special ceremony, Rev. Bohmfalk recognized those boys of the Church who are members of the Boy Scout troops in Rockport. He then explained the meaning of the God and Country award before presenting the medal to Scout Dannelly.

"A Scout is Reverent," is a part of the Scout Law. All Scouts show this by being faithful in their religious duties; but some go further and give special service to their church. This qualifies them for a religious award and is conferred on the Scout by his religious leader.

To earn this award, you must advance to First Class, give service to your church, and learn specific duties from your own minister, such as portions of the Bible, and the Methodist discipline, various phases of church work and leadership, and visits to church institutions.

Upon completion of these requirements mentioned above the Scout qualifies for the God and Country Award. This is a coveted award. Philip is the first boy Scout Troop 280 to ever receive this award and it has been several years since a Boy Scout in Rockport has achieved it.

Harvey R. Bullis, Jr., base director for such explorations, said that 129 fishing stations were completed during the cruise.

Six were handline sets, at two fish traps were put down, and the rest were made with trawl nets.

Trawl catches of finfish were less than commercial in all but one area, Bullis says. At this place 160 pounds of grouper and snapper were taken in one 39-foot trawl, but a follow up drag produced

Rotarians Hear Electrical Engineer

Wallace Ryland, of Corpus Christi, speaking to Rotarians and a large number of visitors at the regular luncheon of the Rotary Club, gave them a comprehensive view of electrical engineering as a vocation.

He pointed out that all too often a young man is influenced in his choice by the family assumption that he should follow in his father's footsteps as a doctor, engineer, or other professional man when it may entirely possible that the youth is not temperamentally fitted to do so.

The result is, he said, that frequently young men try to live up to family expectations with the end result that they may waste years of school trying to be something that is entirely contrary to their own nature.

Ryland advocated more and better school counselors, and less interference by parents, ending by giving some rule of thumb advice for high school students faced with college and choice of courses that will affect their whole lives.

"If they want to follow their fathers, or think they do, before making any decision, they should talk to at least three other older men in the same profession or business, endeavoring if possible to ask them all the questions they can think up. Then, if they are still of the same mind, they should go ahead."

Visitors at the luncheon were Dave Tandy, Fort Worth; Bill Plankly, Fort Worth; P. B. Mahoney and Gordon Cabaniss, Mathis; L. C. Liston, Seguin; Robert P. Wallace, George Taggart, Jr., and George Taggart III, all of Corpus Christi;

Ben Loring, Dallas; Billy Leonard, Fort Worth; Elbert D. Stewart, Lufkin; Judge John D. Miller, of Sinton, and Richard Hatch, of Aransas Pass.

The case was prosecuted by County Attorney Ellis L. Clark and tried before Judge Wendell and a jury consisting of David E. Harris, David Oualine, Miss Lorna Hamilton, Mrs. H. H. Dick, Ray Burns and Mrs. Henry Ballou.

Water Shortage Is Threatened Locally

Influx of Summer Visitors, More Homes and More Offshore Wells Place Unprecedented Demands on City's Water System and Wells

Unforeseen demands on the city's water supply, which have raised the July consumption to 400,000 gallons a day, plus declining production of some of the well field from which this supply is drawn, have brought about a water shortage in Rockport.

"If we could get a good

rain," City Water Supt. Tom Shults told councilmen at their regular meeting, "we may be able to get by."

He had reference to the fact that the city's water supply comes from shallow sands which depend upon surface water infiltration for replenishment.

One of the city's well fields, Shults told councilmen, instead of producing at the rate of 700 to 750 gallons a minute, has dropped to from 600 to 630 gallons, and some of the other wells have been sanding, although not seriously.

During the discussion, it was brought out that various water users has been asked to be as sparing as possible, but that even so, curtailment of some services such as lawn watering might be necessary.

The council, after study of the situation, asked Shults to check immediately on how soon it may be possible to get a well rig into the area, to start a new well field. It was felt that this should be done, although the probability is that, should such a well be drilled, it would do little to alleviate present conditions.

Shults recommended that at least two new wells should be drilled before next summer.

Shults recommended that at least two wells should be drilled before next summer, and estimated their probable cost, including pipelines and other installations, at around \$35,000.

The unprecedented demand was the result of several factors, the water superintendent said. More families, with higher incomes, to whom an added dollar or two on the water bill was of not too great importance, accounted for a good deal. In addition, oil activity was using more fresh water than ever before.

Sixty families dependent on the offshore wells, are located in and around Rockport, adding materially to the city's income, but also using more water, while fresh water for the drilling wells is also loaded here and not from cities on the San Patricio Municipal Water District pipelines, like Aransas Pass, Port Aransas and Ingleside.

Refusal to service these wells with water, it was pointed out, would probably result in removal of these families to wherever the offshore boats were serviced. One of these cities is making determined efforts to bring this about, and only superior loading accommodations at Cove Harbor have prevented such an exodus.

However, it was stated during the course of the discussion, if the water needs of Rockport can be met through August, most vacationing families will leave by then, in order to enter their children in school, and a crisis can be averted for another year or two by drilling the wells which Shults recommended.

No one was prepared to hazard a guess on how much longer local sands will be able to furnish enough water to support this rapidly-growing community.

In other action, the council denied the recent request of the Rockport Volunteer Fire Department personnel for pay for attending practice and fires, and discussed at some length the possibility of a county wide fire department, supported by a tax.

VFW COUNTY COUNCIL MEETING

The next VFW County Council meeting will be held Aug. 2, at the Ingleside Post of the VFW. All local VFW members are urged to attend. Groups will leave the local post at 6:45 p.m. Aug. 2.

County Efforts To Acquire Base Continue

Aransas County is continuing its efforts to acquire the buildings and facilities at Rockport Airport base, County Judge John D. Wendell said today, as he disclosed the fact that the University of Texas no longer had any interest in the property.

"If we can get it for a nominal sum," he said, "we could make use of many of the buildings and much of the equipment that remains. We have contacted Congressman John Young, and Emory M. Spencer, on behalf of the county has also contacted Sen. Ralph Yarborough.

"Appraisals on the buildings and other facilities are now under way, and should be in the hands of General Services Administration officials some time this month. Once they have this information we will have a better idea of what may be necessary.

"It is probable, if the county can obtain the facilities that a large portion of them could probably be used for the convention center which this area needs so badly."

The properties in question are those built on 59.17 acres of land leased from Aransas County Airport and used as an aircraft control and warning station for a number of years, before being inactivated.

It consists of five parcels. Parcel 1 contains the headquarters building, dining hall, operations buildings, multi-purpose recreation building, three dormitories, water wells and other improvements with the exception of family housing, located on a portion of the property.

Parcel 2 is the access roadway leading from Highway 35 into the station and contains 6.9 acres; parcel 3 joins parcel 1 on the east and contains 27 houses with attached garages.

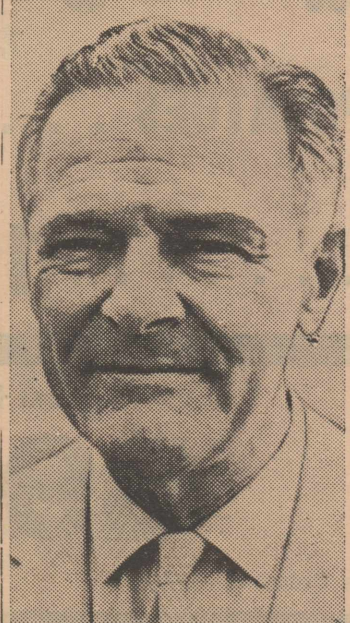

Parcel 4 lies approximately 700 feet west of Parcel 1, and contains sanitary sewer lines and an oxidation basin, and Parcel 5 is an easement for electrical and communication lines.

The property was first advertised as surplus on April 29 of this year, and at that time the period allotted for formation of a plan for its use was so short that Judge Wendell asked for an extension which was granted.

On May 5, Judge Wendell received a letter from Sam G. Wynn, Regional Representative, Division of Surplus Property Utilization of the Department of Health, Education and Welfare at Dallas, in which Wynn said:

"The University of Texas presently conducts an oceanography operation at Port Aransas; the operation suffers growing pains, and needs room for expansion. In discussion with University officials I mentioned the status of the Air Force Station, and explained the title situation. It was apparent that if the County approached the University with a proposal concerning the underlying land, the University would be greatly interested in use of at least part of the property."

Arrangements were subsequently made for a visit to

OLD BOOKS SHOW ANOTHER AMERICA

America of 100 years ago was far different than it is today, according to a set of books owned by Mrs. C. L. Grant of Rockport.

They were published in 1874 with the poet William Cullen Bryant acting as editor, and deal with the east, the Mississippi Valley, and the plains and the Far West, completely omitting Texas.

The two volumes are illustrated with woodcuts and steel engravings of various American scenes, many of the original pictures having been painted by artists now famous as depictees of the American scene.

Among the various portions of America described in the books are the coast of Maine; St. John's and Ocklawaha rivers in Florida; Richmond, Va.; up and down the Columbia River; and names long famous in American history like the Brandywine River, Lookout Mountain, the natural bridge in Virginia, the Delaware Water Gap, St. Augustine, and many others.

To a student of our early history, they are of considerable interest.

Their title is "Picturesque America, or The Land We Live In," and the publisher calls it "A Delineation by Pen and Pencil of The Mountains, Rivers, Lakes, Forests, Waterfalls, Shores, Canyons, Valleys, Cities, and other Picturesque Features of Our Country. With Illustrations on Steel and Wood by Eminent American Artists."

Mr. and Mrs. Grady Suttles spent last week in Kilgore. Their grandchildren Grady Wayne and Debra Rhodes accompanied them home for a vacation.

Wellborn's New RYSCO Boat Is Also For Red Shrimp

"If we ever get a market for them, they're the finest shrimp in the world," said J. D. Wellborn, of Ingleside, who has a new 75 foot steel hull on the ways at Rockport Yacht and Supply Co. here, due to enter the growing fleet of vessels that fish as far south as the Campeche Banks.

He was talking about Royal Red Shrimp and the scarlet prawns discovered some years ago, by the U. S. Fish and Wildlife Service vessel the Oregon.

These shrimp, unlike their more conventional cousins that appear on most tables, and which live in close to shore, are found far off shore in deep water, and, instead of being white or brown, are a deep-deep red, like a broiled lobster.

This same red color is what is keeping them off the market, for most housewives accustomed to the more conventional shrimp which turn pinkish when spoiled, regard the royal reds with suspicion. Actually the deep water shrimp, like deep water fish, have acquired their coloration because of the lightless depths in which they live, along with their bigger heads and eyes.

"They're a fire engine red when they come on board," Wellborn said, "while the scarlet prawns are still deeper in color."

"The deeper you get," he said, "the more breeds you'll find, and the bigger heads and eyes."

Conventional pink and brown shrimp found on the market are about 40 per cent and 60 per cent body when they come on board, Wellborn said. The royal reds have about 50 per cent head and 50 per cent body, while the scarlet prawns are 60 per cent head and only 40 per cent body. But, despite this loss in weight of deeper shrimp when they're headed, Wellborn believes that if the public ever learns of their magnificent flavor and texture so that a market is available, the fishery will be exceedingly profitable.

"They taste like lobster," he said, "and are crisp as only shrimp from exceedingly cold water can be."

Royal reds come from depths ranging between 1000 and 1500 feet, and are caught off the outer edge of the continental shelf. The scarlet prawns come from 1500 feet on down. Despite this, Wellborn says, there is no great difficulty in fishing for them.

"Of course, you need larger hoists and more cable," he said, "and more powerful fathometers to locate the fishing

ground, but outside of that there isn't too much difference between the deep water fishery and that for whites and browns which, of course, are rarely found far past the 50 fathom line."

One thing is definitely needed, however, before the deep water fishery can become successful, Wellborn said, even if there is a market.

Most Gulf Coast mariners are untrained in navigation, and they need some method of locating the fishing banks. LORAN stations along the coast should remedy this, he believes.

His new boat is the second one he will have engaged in the shrimp fishery. His first, the Mary BW, is a wooden hull, one of the pioneer vessels to be rigged for the royal red fishery. The one now on the ways at RYSCO is a 75 footer, seven feet longer than his older one, and is of steel, with a raised pilot house especially designed for him by Al Silchenstedt, RYSCO's production manager.

For the present, until a market is developed, Wellborn intends to employ his new boat in the conventional shrimp fishery, but hopes to fish for royal reds if and when a market is available for the royal reds and the scarlet prawns which, for more than a dozen years, have been known to marine biologists.

Their habitat is along the edge of the Continental shelf, starting at about 170 fathoms

and occurring from there down to, and perhaps a little below the 250-fathom curve.

The Oregon, in its Gulf research, discovered the west store of deep-water crustaceans, but for easily traceable reasons shrimpers have not explored the possibilities of these new shrimp grounds.

About the only source of income from these new fishing grounds so far has been from the sale of rare shells picked up in the trawls, some of which bring prices of as high as \$50 or \$100 or more from collectors.

Public resistance to the use of the shrimp has been the chief inhibiting factor.

Larry Ray, secretary of the Aransas Shrimp Association, is a man who's enthusiastic about the new shrimp.

"In preparing them," he said, "it's almost enough to show them steam from a pot of boiling water, they're so tender. Or fry or broil them very, very slightly. The result is a gourmet's dream of a shrimp that has gone to heaven."

Wellborn said royal reds are superiors keeps.

Returning from a trip with an iced load of white or brown shrimp, the odor when you open the hatches to unload, is quite strong, though the shrimp are perfectly fresh.

"To me this is pleasant, because it smells like money, but other people may not always find it so. I came back with one load of iced royal

reds which had been on ice for ten days, and when the hatch was opened there wasn't the slightest bit of odor. This may be because they spend so little time between the cold deep water in which they live and the colder temperature of the iced hold. Or it may be because their body chemistry is different than that of the more familiar white and browns.

Most of the royal reds caught so far have been in the 26-30 size; that is they produce tails than run from 26 to 30 per pound.

Practically nothing is known of their breeding habits, spawning grounds, or rate of reproduction, but at that there's not a great deal known about the whites, pinks and browns that form the bulk of the commercial shrimp catch, despite the years of study.

There are by products of the royal red fishery that may also become valuable. Every drag at the depths in which the crustaceans live also brings in sizable quantities of silver hake that may some day be filleted on the boats, iced down, and brought to market.

Local Banker On Board At St. Mary's University

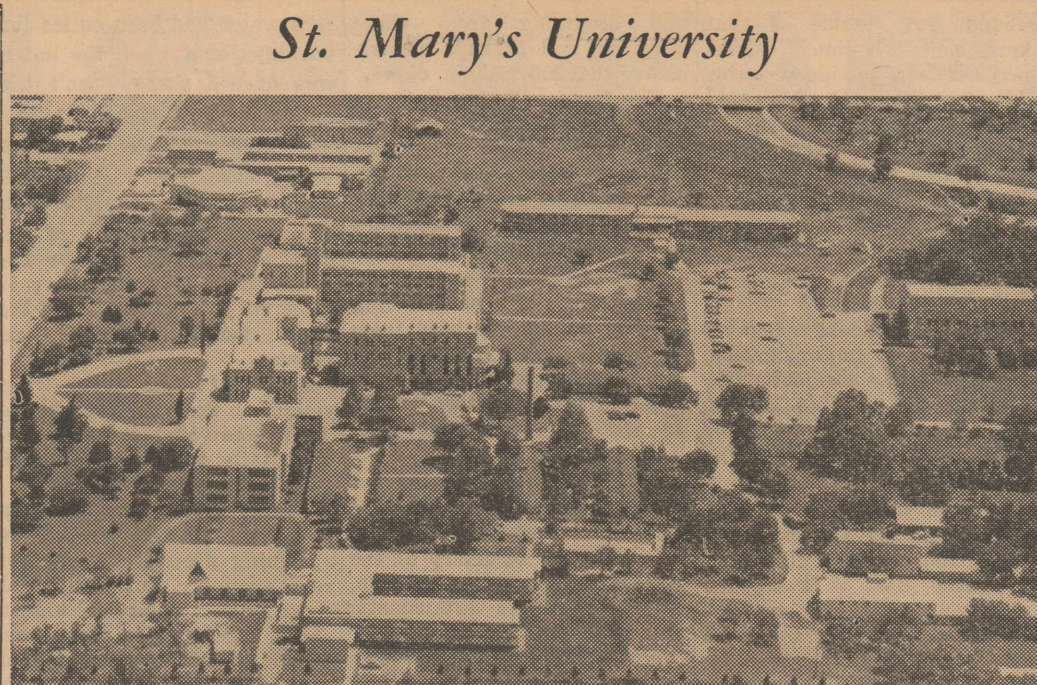

James H. Sorenson, Jr., of Rockport is a long time member of the Board of Governors of St. Mary's University of San Antonio, Texas, the fourth largest private university in Texas—after Baylor, Texas Christian, SMU. Origins of St. Mary's go

back to 1852—16 years after the fall of the Alamo—when four Brothers of the Society of Mary founded in France—arrived in San Antonio by stagecoach from Indianola to start a much-needed school at the invitation of the Bishop. Only one of the four brothers could speak English.

Consequently the new school came to be known as "the French school," to distinguish it from "the German school," an early public school operating a few blocks away.

The Brothers' school began in a second-floor loft over a store on Main Plaza and moved a year later to a new limestone building on the north bank of the San Antonio River. Students from the south side took a rowboat to reach the school—when the river didn't rise.

At the turn of the century, the campus was moved to a mesquite-covered 130-acre plot beyond the northwestern edge of the city, a mile above Woodlawn Lake. A railroad hand car on an uphill track transported passengers and supplies from the lakeside terminus of the West End street car line. Today the Woodlawn

ST. MARY'S UNIVERSITY—Main campus of St. Mary's is 130-acre Woodlawn campus in northwest section of San Antonio at 2700 Cincinnati Avenue. Construction is underway this summer on one new building and two more parking lots with complete redevelopment of campus to come before St. Mary's 125th year in 1977. With 3,500 expected enrollment in fall term to begin Sept. 15, St. Mary's is fourth largest private university in Texas—after TCU, Baylor and SMU.

Campus has been engulfed by the expanding city.

In the fall of 1964 there were 3100 students at St. Mary's. This fall of 1965 enrollment is expected to reach 3500 and by 1977 a maximum of 6,000 will have been achieved.

St. Mary's is a university in the accepted meaning of the word "university" as "a collection of colleges": the school of Arts and Sciences, the School of Business Administration, the School of Law, and the Graduate School.

The University offers Bachelor of Arts degrees, Bachelor of Science degrees, Bachelor of Business Administration degrees, the degree of Music Education, and pre-professional preparation in Medicine, Pharmacy, Veterinary Medicine, Optometry, Dentistry, and Agriculture.

In the Graduate School the University offers the Master of Arts degree, and the Master of Science degree.

In the School of Law it offers the degree of Doctor of Jurisprudence.

A four-year Army ROTC program leads to commissions in the Field Artillery or Guided Missile Artillery. Available to qualified ROTC cadets is flight training leading to licensing by the FAA to operate single-engine commercial aircraft or a career in military aviation.

In athletics, the University is a member of the Big State Conference, and the St. Mary's Rattlers consistently place high in inter-collegiate basketball and baseball competition.

In non-conference play the Rattlers challenge many top Southwest and Midwest teams. Approximate cost per year for tuition and room and board at St. Mary's is \$1,450. With-out room and board, tuition is approximately \$710. The University is coeducational, but housing on campus for women students will not be available until the fall of 1966.

Almost 8,500 living alumni of St. Mary's are kept in contact with alma mater by the St. Mary's University Alumni Association, which each year holds four major functions: the traditional Oyster Bake in April, the Midsummer Barbecue, the Alumni Reunion and Award Dinner in November, and Officers' Installation Party in January.

All those—campus, buildings, degree programs, and alumni—are St. Mary's.

On September 15 is the beginning of a new school year. Registration will be held Sept. 9-14. Contact the Registrar, St. Mary's University, 2700 Cincinnati Avenue, San Antonio, Texas 78282, for further information.

St. Mary's University School of Law is located in heart of San Antonio at 112 College Street on site of original school founded by Society of Mary in 1852.

St. Mary's is the only San Antonio institution offering degrees in engineering and doctor's degrees (Doctor of Jurisprudence offered by School of Law.)

Brownsville, Texas is closer to Panama than to New York.

DOVE HUNT SPANS 120 PART DAYS

Austin.—Texans will have a total of 120 half days, to pursue the popular sport of dove hunting this year. Many other states have only 60 full days.

limit of whitewings.

For mourning doves, the daily limit is 12 and 24 in possession after the first day. For whitewings, the daily limit is 10 and 20 in possession (after the first day).

Dates for the white-winged dove season which attracts gunners from as far away as New York City, are Saturday and Sunday, Sept. 4 and 5, and Saturday and Sunday, Sept. 11 and 12. Shooting hours are from noon to sunset.

On mourning doves, the season is the same as last year

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.

HOUSE JOINT RESOLUTION NO. 5 proposing an Amendment to Section 49-b, Article III of the Constitution of Texas so as to authorize an increase in the total amount of bonds or obligations that may be issued by the Veterans' Land Board to Four Hundred Million Dollars (\$400,000,000); providing for the issuance of said bonds or obligations and the conditions relating thereto and the use of the Veterans' Land Fund; and providing for a proclamation thereof.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-b, Article III of the Constitution of Texas, be amended so that the same will hereafter read as follows:

"Section 49-b. By virtue of prior Amendments to this Constitution, there has been created a governmental agency of the State of Texas performing governmental duties which has been designated the Veterans' Land Board. Said Board shall continue to function for the purposes specified in all of the prior Constitutional Amendments except as modified herein. Said Board shall be composed of the Commissioner of the General Land Office and two (2) citizens of the State of Texas, one (1) of whom shall be well versed in veterans' affairs and one (1) of whom shall be well versed in finances. One (1) such citizen member shall, with the advice and consent of the Senate, be appointed biennially by the Governor to serve for a term of four (4) years; but the terms of the members shall be staggered so that one shall be appointed on the date of adoption hereof shall complete the terms to which they were appointed. In the event of the resignation or death of any such citizen member, the Governor shall appoint a replacement to serve for the unexpired portion of the term to which the deceased or resigning member had been appointed. The compensation for said citizen members shall be as is now or may hereafter be fixed by the Legislature; and each shall make bond in such amount as is now or may hereafter be prescribed by the Legislature.

"The Commissioner of the General Land Office shall act as Chairman of said Board and shall be the administrator of the Veterans' Land Program under such terms and restrictions as are now or may hereafter be provided by law. In the absence or illness of said Commissioner, the Chief Clerk of the General Land Office shall be the Acting Chairman of said Board with the same duties and powers that said Commissioner would have if present.

"The Veterans' Land Board may provide for, issue and sell not to exceed Four Hundred Million Dollars (\$400,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund, Two Hundred Million Dollars (\$200,000,000) of which have heretofore been issued and sold. Such bonds or obligations shall be sold for

not less than par value and accrued interest; shall be issued in such forms, denominations, and upon such terms as are now or may hereafter be provided by law; shall be issued and sold at such times, at such places, and in such installments as may be determined by said Board; and all bonds or obligations issued and sold hereunder shall, after execution by the Board, approval by the Attorney General of Texas, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchaser or purchasers, be incontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas; and all bonds heretofore issued and sold by said Board are hereby in all respects validated and declared to be general obligations of the State of Texas. In order to prevent default in the payment of principal or interest on any such bonds, the Legislature shall appropriate a sufficient amount to pay the same.

"In the sale of any such bonds or obligations, a preferential right of purchase shall be given to the administrators of the various Teacher Retirement Funds, the Permanent University Funds, and the Permanent School Funds. "Said Veterans' Land Fund shall consist of any lands heretofore or hereafter purchased by said Board, until the sale price thereof, together with any interest and penalties due, have been received by said Board (although nothing herein shall be construed to prevent said Board from accepting full payment for a portion of any tract), and of the moneys attributable to any bonds heretofore or hereafter issued and sold by said Board which moneys so attributable shall include but shall not be limited to the proceeds from the issuance and sale of such bonds; the moneys received from the sale or resale of any lands, or rights therein, purchased with such proceeds; the moneys received from the sale or resale of any lands, or rights therein, purchased with other moneys attributable to such bonds; the interest and penalties received from the sale or resale of such lands, or rights therein; the bonuses, income, rents, royalties, and any other pecuniary benefit received by said Board from any such lands; sums received by way of indemnity or forfeiture for the failure of any bidder for the purchase of any such bonds to comply with his bid and accept and pay for such bonds or for the failure of any bidder for the purchase of any lands comprising a part of said Fund to comply with his bid and accept and pay for any such lands; and interest received from investments of any such moneys. The principal and interest on the bonds heretofore and hereafter issued by said Board shall be paid out of the

Proposed CONSTITUTIONAL AMENDMENT NUMBER SIX ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.

HOUSE JOINT RESOLUTION NO. 11 proposing an Amendment to Article III of the Constitution of the State of Texas authorizing loans to students at institutions of higher education creating the Texas Opportunity Plan Fund and making provisions relating thereto.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding a new Section to read as follows:

"Section 50b. STUDENT LOANS. (a) The Legislature may provide that the Coordinating Board, Texas College and University System, or its successor or successors, shall have the authority to provide for, issue and sell general obligation bonds of the State of Texas in an amount not to exceed Eighty-five Million Dollars (\$85,000,000). The bonds authorized herein shall be called 'Texas College Student Loan Bonds' and shall be executed in such form, denominations and upon such terms as may be prescribed by law, provided, however, that the bonds shall not bear more than four per cent (4%) interest per annum; they may be issued in such installments as the Board finds feasible and practical in accomplishing the purposes of this Section.

"(b) All moneys received from the sale of such bonds shall be deposited in a fund hereby created in the State Treasury to be known as the Texas Opportunity Plan Fund to be administered by the Coordinating Board, Texas College and University System, or its successor or successors to make loans to students who have been admitted to attend any institution of higher education within the State of Texas, public or private, including Junior Colleges, which are recognized or accredited under terms and conditions prescribed by the Legislature, and to pay interest and principal on such bonds and provide a sinking fund therefor under such conditions as the Legislature may prescribe.

"(c) While any of the bonds, or interest on said bonds authorized by this Section is outstanding and un-

paid, there is hereby appropriated out of the first moneys coming into the Treasury in each fiscal year, not otherwise appropriated by this Constitution, an amount sufficient to pay the principal and interest on such bonds that mature or become due during such fiscal year, less the amount in the sinking fund at the close of the prior fiscal year.

"(d) The Legislature may provide for the investment of moneys available in the Texas Opportunity Plan Fund, and the interest and sinking funds established for the payment of bonds issued by the Coordinating Board, Texas College and University System, or its successor or successors. Income from such investment shall be used for the purposes prescribed by the Legislature.

"(e) All bonds issued hereunder shall, after approval by the Attorney General, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute general obligations of the State of Texas under this Constitution.

"(f) Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such acts shall not be void because of their anticipatory nature."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1965, at which election all ballots shall have printed on them the following:

"FOR the Constitutional Amendment authorizing the Legislature to provide for loans to students at institutions of higher education to be known as the Texas Opportunity Plan."

"AGAINST the Constitutional Amendment authorizing the Legislature to provide for loans to students at institutions of higher education to be known as the Texas Opportunity Plan."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

moneys of said Fund in conformance with the Constitutional provisions authorizing such bonds; but the moneys of said Fund which are not immediately committed to the payment of principal and interest on such bonds, the purchase of lands as herein provided, or the payment of expenses as herein provided may be invested in bonds or obligations of the United States until such funds are needed for such purposes.

"All moneys comprising a part of said Fund and not expended for the purposes herein provided shall be a part of said Fund until there are sufficient moneys therein to retire fully all of the bonds heretofore or hereafter issued and sold by said Board, at which time all such moneys remaining in said Fund, except such portion thereof as may be necessary to retire all such bonds which portion shall be set aside and retained in said Fund for the purpose of retiring all such bonds, shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All moneys becoming a part of said Fund thereafter shall likewise be deposited to the credit of the General Revenue Fund.

"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds issued and sold pursuant to a single Constitutional authorization and the lands purchased therewith) contains sufficient moneys to retire all of the bonds secured by such Division, the moneys thereof, except such portion as may be needed to retire all of the bonds secured by such Division which portion shall be set aside and remain a part of such Division for the purpose of retiring all such bonds, may be used for the purpose of paying the principal and the interest thereon, together with the expenses herein authorized, of any other bonds heretofore or hereafter issued and sold by said Board. Such use shall be a matter for the discretion and direction of said Board; but there may be no such use of any such moneys contrary to the rights of any holder of any of the bonds issued and sold by said Board or violative of any contract to which said Board is a party.

"The Veterans' Land Fund shall be used by said Board for the purpose of purchasing lands situated in the State of Texas owned by the United States or any governmental agency thereof, owned by the Texas Prison System or any other governmental agency of the State of Texas, or owned by any person, firm, or corporation. All lands thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of said Fund. Such lands heretofore or hereafter purchased and comprising a part of said Fund are hereby declared to be held for a governmental purpose, although the individual purchasers thereof shall be subject to taxation to the same extent and in the same manner as are purchasers of lands dedicated to the Permanent Free Public School Fund.

"The lands of the Veterans' Land Fund shall be sold by said Board in such quantities, on such terms, at such prices, at such rates of interest and under such rules and regulations as are now or may hereafter be provided by law to

Texas veterans who served not less than ninety (90) continuous days, unless sooner discharged by reason of a service-connected disability, on active duty in the Army, Navy, Air Force, Coast Guard or Marine Corps of the United States between September 16, 1940, and March 31, 1955, and who upon the date of filing his or her application to purchase any such land is a citizen of the United States, is a bona fide resident of the State of Texas, and has not been dishonorably discharged from any branch of the Armed Forces above-named and who at the time of his or her enlistment, induction, commissioning, or drafting was a bona fide resident of the State of Texas. The foregoing notwithstanding, any lands in the Veterans' Land Fund which have been first offered for sale to veterans and which have not been sold may be sold or resold to such purchasers, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now or may hereafter be provided by law.

"Said Veterans' Land Fund, to the extent of the moneys attributable to any bonds heretofore issued and sold by said Board, as is now or may hereafter be provided by law, for the purpose of paying the expenses of surveying, monumenting, road construction, legal fees, recordation fees, advertising and other like costs necessary or incidental to the purchase and sale, or resale, of any lands purchased with any of the moneys attributable to such additional bonds, such expenses to be added to the price of such lands when sold, or resold, by said Board; for the purpose of paying the expenses of issuing, selling, and delivering any such additional bonds; and for the purpose of meeting the expenses of paying the interest or principal due or to become due on any such additional bonds.

"All moneys attributable to the bonds issued and sold pursuant to the Constitutional Amendment adopted on November 6, 1956, shall be credited to said Veterans' Land Fund and may be used for the purpose of purchasing additional lands, to be sold as provided herein, until December 1, 1965; provided, however, that so much of such moneys as may be necessary to pay interest on such bonds shall be set aside for that purpose. After December 1, 1965, all moneys attributable to such bonds shall be set aside for the retirement of such bonds and to pay interest thereon; and when there are sufficient moneys to retire all of such bonds, all of such moneys then remaining or thereafter becoming a part of said Veterans' Land Fund shall be governed as elsewhere provided herein.

"All of the moneys attributable to any series of bonds heretofore issued and sold by said Board (a series of bonds being all of the bonds issued and sold in a single transaction as a single installment of bonds) may be used for the purchase of lands as herein provided, to be sold as herein provided, for a period ending eight (8) years after the date of sale of such series of bonds; provided, however, that so much of such moneys as may be necessary to pay interest on bonds heretofore issued and sold

shall be set aside for that purpose in accordance with the resolution adopted by said Board authorizing the issuance and sale of such series of bonds. After such eight (8) year period, all of such moneys shall be set aside for the retirement of any bonds hereafter issued and sold and to pay interest thereon, together with any expenses as provided herein, in accordance with the resolution or resolutions authorizing the issuance and sale of such additional bonds, until there are sufficient moneys to retire all of the bonds hereafter issued and sold, at which time all such moneys then remaining a part of said Veterans' Land Fund and thereafter becoming a part of said Fund shall be governed as elsewhere provided herein.

"This Amendment being intended only to establish a basic framework and not to be a comprehensive treatment of the Veterans' Land Program, there is hereby reposed in the Legislature full power to implement and effectuate the design and objects of this Amendment, including the power to delegate such duties, responsibilities, functions, and authority to the Veterans' Land Board as it believes necessary.

"Should the Legislature enact any enabling laws in anticipation of this Amendment, no such law shall be void by reason of its anticipatory nature.

"This Amendment shall become effective upon its adoption."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1965, at which election all ballots shall have printed thereon the following:

"FOR the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$200,000,000; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1955; such funds to be expended in accordance with instructions and requirements that may be provided by law; and

"AGAINST the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$200,000,000; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1955; such funds to be expended in accordance with instructions and requirements that may be provided by law."

If it appears from the returns of said election that a majority of the votes cast were in favor of same Amendment, the same shall become a part of the State Constitution and be effective from the date set forth in said Amendment, and the Governor shall issue a proclamation in keeping therewith.

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and Laws of this state.

NEW LAW STRIKES AT ABUSIVE CALLER

A teenage Waco girl answered a phone at her home and listened in horror to the false report of an anonymous caller.

"We have your father tied up and we'll kill him unless you do exactly what we say," said the caller, a 17-year-old boy who later was apprehended by police.

Malicious telephone calls of this type can draw stiff punishment for the guilty person under a measure recently enacted by the Texas legislature. The bill provides maximum penalties of a \$1,000 fine and 12-month jail sentence for persons convicted of using "the telephone to harass, abuse or intimidate another."

The legislation followed a rash of obscene phone call complaints and some arrests this year in a number of major Texas cities, including Waco, San Antonio, Austin and other localities.

Specifically exempted in the abusive language bill introduced by State Rep. George Cowden of Waco are telephone calls made for "lawful business" purposes.

Company Solicitor Ford W. Hall made the following statement:

"Making an anonymous phone call to abuse, threaten or frighten a person is perhaps the cruelest and most cowardly form of intimidation. Naturally it is a matter of great concern to the telephone company when its facilities are used in this manner."

"For this reason, we were pleased when House Bill 391 was passed by the legislature and signed into law. It's our hope that the bill with its strong penalties, will result in a sharp reduction of cases where an individual uses the telephone for malicious mischiefmaking."

Calls of this nature also are a matter of concern to police officers who point out they sometimes are the forerunner of more serious offenses.

For people who receive abusive calls, the best advice appears to be: Hang up the phone quickly. In case of threats of bodily harm notify local police officials and give them full cooperation in their efforts to determine the identity of the caller.

Mrs. Nell Webb is visiting her son and family, Mr. and Mrs. Willis Webb, in Texas City.

Driftwood Remains Popular Among the Beachcombers

Beachcombing for driftwood treasures cast up by the sea has become increasingly popular along the hundreds of miles of shoreline along the barrier islands of the Texas coast and among the coves and bays between them and the mainland.

Evidence of the treasures gathered at the beach can be seen in many forms among the homes of the Texas coast, and even far inland, as vacationers fashion chairs from driftwood, construct vine covered trellises of salt soaked branches stripped of their bark, build outdoor fireplaces decorated with curving limbs, or use outstretched driftwood arms to hold mail boxes aloft.

Caricatures of birds, fish and dolphins are the most common finds, though no piece ever looks exactly the same to the different collectors. What one searcher casts aside as worthless, another will consider a treasure beyond price.

Often the beauty of a piece lies hidden underneath a crust of sand or salt. Rubbing to a high gloss with sandpaper or wax may reveal surprising color and twists of grain within the wood.

Some shapes, like the dolphin that enhances the front of Carl Krueger's home in Key Allegro, or the Donald Duck effect that supports Ed Harper's mail box in the same bay-side community, are almost complete replicas of birds or sea life in themselves. But it isn't against the rules of driftwood collecting to add eyes, nose or other lines to a figure to form a whimsical fantastic symbol of seaside living.

FISH EATS RATTLER; DITTO LUCKY ANGLER

Port Lavaca.—Game Warden Homer Roberson, as is so often the case among persons in his line of endeavor, was appealed to here to decide an unusual crisis overtaking six lucky fishermen.

The anglers had taken a fine catch along the beach, including eleven big redfish ranging in size up to eight pounds. After routine dressing of the fish which had bitten on live shrimp, they decided to explore their stomachs to satisfy curiosity about what natural food they had eaten.

One of larger redfish contained a rattlesnake. Hence the appeal to the game warden. His lofty decision: The fish definitely was edible.

At the present time, Judge Wendell said, Aransas County officials are awaiting the results of the appraisal, and advice by the GSA as to the minimum bid that would be acceptable.

GOOSE ISLE GETS SQUALL AS DIVIDEND

Austin.—Tales trickling in from far-away places to Texas Parks and Wildlife headquarters in Austin reflect the trying times encountered by park staff in handling record crowds, sometimes because of complications created by nature itself, which after all is the major lure.

Like Supt. Roy Norton at Rockport says, there's always something exciting at this enchanting spot which is the state's only developed coastal park. Somebody catches a big fish, or spots a rare song bird, or such.

One late evening a while back Norton was alerted to batten down for a squall, another one of those characteristic water-front attractions. Norton informed his campers back in the scenic live oak concentration area, and the folks across the bridge in the cabanas facing the gulf.

The thing struck with all fury of a Hollywood version of a jungle tempest. The camp grounds were quickly flooded. And the rush was made for the ancient headquarters building. But that was just shade better than the outside because the howling gale blew the rain through the window frames. And soon the "Refuge" was ankle deep in water.

Some of the visitors spent a rather soggy night. But Norton said they were rewarded by a beautiful sunrise

Built by Port Construction Co., in cooperation with Aransas Natural Gas Company, the home is equipped with natural gas appliances as specified by the American Gas Association to win the Blue Star designation.

The all-brick home with three bedrooms and two baths is located on a corner lot on Dana Drive in the new Shady Oaks subdivision. It has gas air conditioning and central heating, gas range and water heater, gas clothes dryer, gas barbecue grill and a gas light for the yard.

The home contains 1,800 sq. ft., with a sunken living room, formal dining room and den with breakfast bar. The master bedroom features a chandelier and walk-in closet. Principal rooms are carpeted and there is an oversize double attached garage.

"Gas-equipped Blue Star Homes have drawn crowds wherever they have been shown," said George K. Taggart, Jr., president of Aransas Natural Gas Company. The home will be open for inspection from 2 to 7 p.m.

Mr. and Mrs. John P. Mitchell left Wednesday for Port Isabel, where he will take part in the fishing tournament as he has done for many years.

All such designated institutions of higher learning shall not thereafter receive any general revenue funds for the acquiring or constructing of buildings or other permanent improvements for which said Ten Cent (10¢) ad valorem tax is herein provided, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the uninsured loss so incurred may be made by the Legislature out of any General Revenue Funds. NUMBER EIGHT ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. HOUSE JOINT RESOLUTION NO. 57 proposing an Amendment to Section 1-a of Article V of the Constitution of the State of Texas, by adding to said Section as presently written, the following provisions: requiring automatic retirement of certain District and Appellate Judges at age seventy-five (75) or such earlier age, not under seventy (70), as may be provided by law; creating a State Judicial Qualifications Commission and providing for its composition and the qualifications, methods of selection and terms of office of its members; defining the functions and procedures of said Commission, including the duty to investigate, and hold hearings in respect of disability within or for, the District and Appellate Judges and to make recommendations to the Supreme Court of Texas, in its discretion, to retire such Judges for disability and to remove them for misconduct, upon recommendation of the aforesaid Commission and consideration of the record made before it; defining misconduct for which said Judges may be so removed; providing that the proceedings of said Commission shall be confidential until filed in the Supreme Court with recommendation for retirement or removal; and providing that the removal provisions hereby established shall be alternative to and cumulative of those provided elsewhere in the Constitution.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 1-a of Article V of the Constitution of the State of Texas be amended so that said Section shall hereafter read as follows:

"Section 1-a. (1) Subject to the further provisions of this Section, the Legislature shall provide for the retirement and compensation of Justices and Judges of the Appellate Courts and District and Criminal District Courts on account of length of service, age and disability, and for their reassignment to active duty where and when needed. The office of every such Justice or Judge shall become vacant when the incumbent reaches the age of seventy-five (75) years or such earlier age, not less than seventy (70) years, as the Legislature may prescribe; but, in the case of an incumbent whose term of office includes the effective date of this Amendment, this provision shall not prevent

him from serving the remainder of said term nor be applicable to him before his period or periods of judicial service shall have reached a total of ten (10) years.

"(2) There is hereby created the State Judicial Qualifications Commission, to consist of nine (9) members, to wit: (i) two (2) Justices of Courts of Civil Appeals; (ii) two (2) District Judges; (iii) two (2) members of the State Bar, who have respectively practiced as such for over ten (10) consecutive years next preceding their selection; (iii) three (3) citizens, at least thirty (30) years of age, not licensed to practice law nor holding any salaried public office or employment; provided that no person shall be or remain a member of the Commission, who does not maintain physical residence within this State, or who resides in, or holds a judgeship within or for, the same Supreme Judicial District as another member of the Commission, or who shall have ceased to retain the qualifications above specified for his respective class of membership. Commissioners of classes (i) and (ii) above shall be chosen by the Supreme Court with advice and consent of the Senate, those of class (iii) by the Board of Directors of the State Bar under regulations to be prescribed by the Supreme Court with advice and consent of the Senate, and those of class (iii) by appointment of the Governor with advice and consent of the Senate.

"(3) The regular term of office of Commissioners shall be six (6) years; but the initial members of each of classes (i), (ii) and (iii) shall respectively be chosen for terms of four (4) and six (6) years, and the initial members of class (iii) for respective terms of two (2), four (4) and six (6) years. Interim vacancies shall be filled in the same manner as vacancies due to expiration of a full term, but only for the unexpired portion of the term in question. Commissioners may succeed themselves in office only if having served less than three (3) consecutive years.

"(4) Commissioners shall receive no compensation for their services as such. The Legislature shall provide for the payment of the necessary expense for the operation of the Commission.

"(5) The Commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine but shall meet at Austin at least once each year. It shall annually select one of its members as Chairman. A quorum shall consist of five (5) members. Proceed-

ings shall be by majority vote of those present, except that recommendations for retirement or removal of Justices or Judges shall be by affirmative vote of at least five (5) members.

"(6) Any Justice or Judge within the scope of this Section 1-a may, subject to the other provisions hereof, be removed from office for willful or persistent conduct, which is clearly inconsistent with the proper performance of his said duties, or for public discredit upon the judiciary or administration of justice; or any such Justice or Judge may be involuntarily retired for disability seriously interfering with the performance of his duties, which is, or is likely to become, permanent in nature.

"(7) The Commission shall keep itself informed as fully as may be of circumstances relating to misconduct or disability of particular Justices or Judges, receive complaints or reports, formal or informal, from any source in this behalf and make such preliminary investigations as it may determine. Its orders for the attendance or testimony of witnesses or for the production of documents at any hearing or investigation shall be enforceable by contempt proceedings in the District Court.

"(8) The Commission may, after such investigation as it deems necessary, order a hearing to be held before it concerning the removal or retirement of a Justice or Judge, or it may in its discretion request the Supreme Court to appoint an active or retired District Judge or Justice of a Court of Civil Appeals as a Master to hear and take evidence in any such matter and to report thereon to the Commission. If, after hearing, or after considering the record and report of a Master, the Commission finds good cause therefore, it shall recommend to the Supreme Court the removal or retirement, as the case may be, of the Justice or Judge in question and shall thereupon file with the Clerk of the Supreme Court the entire record before the Commission.

"(9) The Supreme Court shall review the record of the proceedings on the law and facts and in its discretion may, for good cause shown, permit the introduction of additional evidence and shall order removal or retirement, as it finds just and proper, or wholly reject the recommendation. Upon an order for involuntary retirement for disability or an order for removal, the office in question shall become vacant. The rights of an incumbent so retired to retirement benefits shall be the same as if his retirement had been voluntary.

"(10) All papers filed with and proceedings before the Commission or a Master shall be confidential, and the filing of papers with, and the giving of testimony before, the Commission, Master or the Supreme Court shall be privileged; provided that upon being filed in the Supreme Court the record loses its confidential character.

"(11) The Supreme Court shall by rule provide for the procedure before the Commission, Masters and the Supreme Court. Such rule shall afford to any judge against whom a proceeding is instituted to cause his retirement due process of law for the procedure before the Commission, Masters and the Supreme Court in the same manner that any person whose property rights are in jeopardy in an adjudicatory proceeding is entitled to due process of law, regardless of whether or not the interest of the judge in remaining in active status is considered to be a right or a privilege. Due process shall include the right to notice, counsel, hearing, confrontation of his accusers, and all such other incidents of due process as are ordinarily available in proceedings whether or not misfeasance is charged, upon proof of which a penalty may be imposed.

"(12) No Justice or Judge shall sit as a member of the Commission or Supreme Court in any proceeding involving his own retirement or removal.

"(13) This Section 1-a is alternative to, and cumulative of, the methods of removal of Justices and Judges provided elsewhere in this Constitution."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State at an election to be held on the first Tuesday after the first Monday in November, 1965, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment providing for the automatic retirement of District and Appellate Judges for old age, creating the State Judicial Qualifications Commission, defining its functions; and empowering the Supreme Court, upon recommendation of said Commission, to remove District and Appellate Judges for misconduct and to retire such judges in cases of disability."

"AGAINST the Constitutional Amendment providing for the automatic retirement of District and Appellate Judges for old age, creating the State Judicial Qualifications Commission, defining its functions; and empowering the Supreme Court, upon recommendation of said Commission, to remove District and Appellate Judges for misconduct and to retire such judges in cases of disability."

Sec. 3. The Governor shall issue the necessary proclamation for the election, and this Amendment shall be published as required by the Constitution and laws of this State.
