

Vandals attack bus, windows Thursday

Vandals went to the Negro residence of destroying property Thursday night that has been witnessed here in several years, and even endangered the lives of a husband of Breckenridge football players.

Latest count received by local police is 10 vehicles attacked and two businesses. Their targets, windows. Their weapon, probably a pellet gun.

Police are investigating the numerous complaints in an effort to determine who caused more than \$5,000 in damage in one evening.

The most serious charge which came out of the evening of criminal mischief was that a back window of a Breckenridge school bus was shot out while it was leaving Iowa Park.

Local authorities were notified Friday morning that the bus loaded with football and junior varsity football players who had competed here earlier in the evening, was attacked on FM 365 about a mile south of town.

According to reports, an automobile, believed to be a dark colored General Motors product with two persons in it, pulled up behind the bus and fired at least once, shattering a rear window. None was injured.

Students in the bus said they were unable to get a better description of the vehicle because its lights were out.

Aggravating the situation, when the bus stopped at Olney for gasoline, it was egged by youths believed to be from that community.

Most of the window breakage is believed to have taken place between 10 and 11 p.m.

The damage comes on the heels of numerous tires being slashed a week earlier.

Investigators say they have not yet found a common cause or reason why

the automobiles and businesses were hit. Several were personal vehicles, one was a company car, and three belonged to law officers, though they were not official vehicles.

Windows of five vehicles in the Shaw Motor Company lot were shattered. Four were owned by the company, two automobiles and two pickups. The fifth was a pickup owned by A. L. Robinson.

Five vehicles had windows shattered at Noyl James Garage, 411 S. Wall.

Two vehicles at the Billy James Garage, 100 S. Wall, were attacked. One was an automobile and the other was a motor home.

Other vehicles attacked were: John Parker Department of Public Safety trucker, personal vehicle parked at 9M Pkwy.

Sandy Year, auto window, 307 Valley Drive.

Robert Dean, sergeant of the Iowa Park Police Department, personal car parked at 118 Hope.

Randy Rohrbaugh, pickup window, 400 Valley Drive.

Paul Callaway, 800 S. Wall, auto glass.

Wayne House, 317 Magnolia, Texas Electric Service Co. auto, two windows.

Famous Department Store, three holes in windows on west side of building.

and Bates Barina Chevrolet, six

holes on west side of building.

Investigators said they could not possibly say that the vehicle windows were shot out with a pellet gun, because of the way they shattered. It is possible some or all were knocked out with an instrument or some sort.

OTHER CASES

Laura Lewis reported that sometime between Thursday and Friday someone had entered her car parked in the driveway at 600 N. Wall and taken parts of her motor, several eight track tapes and two speakers.

Sometime between midnight Thursday and 10:30 a.m. Friday, a pickup belonging to Roger Dale Sampson was struck while parked at 205 S. Colorado, damaging the left front fender and bending the bumper

outward. A blue vehicle was believed involved, because of paint found on the bumper according to the report.

Sometime between 8:15 and 8:30 p.m. Sunday, Mrs. Johnny Nix said someone entered her home at 730 W. Rebecca and broke open a gun case.

Two rifles were found broken on the floor, another was found in the yard outside the house, and two were missing.

The rifles missing were described as a 20 cal. Remington Model 75 and a 177 cal. Crompton pellet.

Four batteries were reported stolen from a truck belonging to McCendon Reed and Paul sometime over the weekend. Values on the batteries were not. Loss was estimated at \$400.

HAWKS HOME

Lot of new faces in game Friday

Iowa Park's Hawks will play the first of six home games tomorrow night against a team they've never

met, and coach Tommie Watkins said he's excited about it.

The home team, which is a member of the 7 AAAA league, has a lot of talent. It looks like they're trying to build into a team, according to the scouting report.

The Bulldogs lost 38-8 last week to Fort Worth Riverside. But the loss was mainly due to their mistakes and lack of teamwork, more than the play of Riverside.

Besides showing little in their season opener last week, Trimble Tech has a lot of mostly undiscovered talent, apparently. Only six players return from last year's disappointing 2-7 club. Only Fort Worth Dunbar had worse record, 2-8, in that district.

"Trimble Tech is a large school," commented Coach Tommie Watkins. "They've got a lot of kids and a lot of talent. It looks like they're trying several (players) to find the ones they want to start. They didn't play well (Friday) but they have the kids to play well."

Returning on the Building offense are runningbacks Osie Thompson, 175, and Henry Blaylock, 196, center DeWayne Tension, 210, and guard Bryon Bowles, 150. Defensive starters returning are Raymond Williams, 155, secondary, and end Robert Gay, 160. All are seniors except Blaylock.

HAWKS MAKE CHANGES

Watkins said he was displeased with the matchup between the offensive and defensive lines against Breckenridge in Friday's season opener. He said the line was clearly outplayed by the Buckaroos, and he was working on improving that situation this week.

Also displeased was Watkins with the play of his linebackers. So he pulled the two linebackers up from the junior varsity this week, and early this week said Joel Rains and Mack Weaver would be his starters against Trimble Tech.

The Hawks gave 273 yards rushing to Breckenridge's talented backfield. Earlier in the season Watkins had said he had great confidence in his secondary, and they earned it Friday. Only one pass of nine attempts by Breck's third year starting quarterback, Brent Parker, was completed. But it was for a touchdown, however.

So fans who show up at 8 p.m. tomorrow in Hawk Stadium will see a new team, Trimble Tech, and a lot of new faces on the Hawk lineup as well.

Players' parents to be recognized

The cheerleaders of Iowa Park High School will sponsor "Parents Night" Friday at 7:30 p.m. when each football player and his parents will be recognized on the field preceding the game.

The cheerleaders explain that they feel the parents play an important part in a winning team and need to be recognized for their efforts and encouragement.

The parents are asked to be at the field house by 7:15 p.m. Friday.

Vol. 12, No. 1 IOWA PARK, WICHITA COUNTY, TEXAS 76367 THURSDAY, SEPTEMBER 11, 1980

Physical education building for Bradford study is begun

The first step toward construction of a physical education building at the Bradford Elementary campus was taken during Tuesday's meeting of Iowa Park school trustees.

The building and grounds committee, composed of Rusty Rusk and Delbert Catlin, are to work with Supt. Harold Cowley on a study of size and type construction which

would best fit the needs of students attending third, fourth and fifth grades at that campus.

A portion of this year's budget had been set aside for building the structure, estimated at approximately \$125,000.

The committee is to make its report at the October meeting, according to Roy Boutwell, board president.

Trustees heard a report on construction progress of the new high school gymnasium. Plumbing and goal installation are holding up other work areas before the facility can be completed.

However, students will be using the structure even before it is finished during bad weather, Cowley said, as long as they do not interfere with work.

Reporting on the new program of transporting between 800 and 900 students in the city to their respective campuses, when they must cross established hazardous thoroughfares, Bill Steger said the school has encountered only minor problems.

He credited Allen Showmake for working out the bus routes, and said the routes had been changed and would continue to be changed to meet the needs of the students, as best as possible.

Trustees approved sale of two lots in the east part of town. The lots, to be sold for taxes, will be advertised.

Vocational student trips, activities and fund-raising projects were all approved except one for the vocational agriculture students who had requested transportation to the state fair at Dallas for "Rural Youth Day."

Out of the trip was in line with a policy trustees started last year.

GEORGE TEEL WITH HAND-BUILT HARPSICORD

No objections voiced at city's tax hearing

No objections were brought before the Iowa Park city council during a public hearing Monday night concerning a technical tax increase.

As required by law, the city published a notice that taxes would be increased above a three percent limit which does not require notice, and the required public hearing was held along with the regular twice-monthly meeting of the council.

In response to one person's inquiry about the tax increase, Mayor Johnny Crawford explained that the tax rate would remain the same as last year, \$1.75 per \$100 evaluation, but because of new construction and reappraisal of certain properties, the net increase of tax revenues to the city this year would be 6.7 percent greater than last year.

Crawford said the law's requirements led to confusion, which has been echoed across the state by numerous taxing entities since the legislature passed the publication law.

The council will vote on adoption of the tax rate at its Sept. 22 meeting.

Three ordinances were passed by the council, all having to do with a cost-sharing program under the Texas Municipal Retirement System.

The city will match dollar for dollar employee contributions to the retirement fund, and the estimated cost to the city will be \$11,946.

Also approved was a proposal to contract Mathis, West, Huffines and Company of Wichita Falls to conduct the 1979-80 financial audit.

What's new that's old and sounds pretty? ...a harpsichord

If you're out walking down a street some evening and hear something that sounds like someone is playing a piano with newspapers over the strings, don't think anything about it.

The instrument will possibly be a new, old instrument called a harpsichord. And it will likely be built by Iowa Parkan George Teel.

There aren't many harpsichords around these days, because they gave way to the modern piano. But if Teel has his way, their numbers may increase, gradually.

The 1975 graduate of Iowa Park High school has recently completed building his first harpsichord. He's hoping to sell it, as are his parents, Mr. and Mrs. L.W. Teel, with an eye toward opening a shop of his own. The game room of the Teel's 1511 Rita home has been serving as his shop since March.

Teel attended North Texas State Univ. at Denton after graduation, and two years ago went into the piano tuning business. He has been sharing his time between work at Denton and

building his instrument here.

In return for his estimated 300 to 350 hours spent on the harpsichord, Teel is asking \$4,300.

The stringed keyboard looks somewhat like a small grand piano. It is of a Flemish design and is larger than most, seven feet, four inches in length.

When the keys of a harpsichord are struck, wooden jacks are raised with small tabs on which carved quills are at the ends. The quills pluck the strings to produce a short metallic tone.

The immediate forerunner of the modern piano, harpsichords were developed in the late 1300s and were popular instruments from 1500 to 1700.

Teel felt building a harpsichord would be a good way to develop and demonstrate his abilities with stringed instruments. "Just about everybody with cabinet-making skills could put a harpsichord kit together, but they probably would not make it

23 Study Club programs planned

The 23 Study Club will inaugurate the 1980-81 activities Oct. 2 at a 9 a.m. breakfast in the home of Mrs. Rollins Woodall, with Mrs. Homer Blalock serving as co-hostess.

Mrs. China B. Smith, president, has chosen "Evolve, Emerge, Evaluate" for the general theme, and "Education for an Emerging World" for the course of study during the current year.

The new year's work will evolve from the thoughts, inspirations, and challenges presented by the president; Mmes. C.E. Birk, Sam Hill, Keith Aulds and Miss Ethyle Kidwell, the program and yearbook committee; and the arts committee composed of Mmes. Aulds, Joe Singer and C.L. Metz.

The first meeting will be highlighted by the initiation of two new members, Mrs. Bill Bates and Mrs. Charlie Lee; the president's address based on her theme; a vocal solo by Mrs. Joe Singer, who will present "Unity in Diversity"; and a report on the General Federation of Women's Clubs meeting in St. Louis, Mo. in the spring by Mrs. E.F. Soell.

The yearbooks will be distributed, and Mrs. Fred Widmoyer will offer the invocation.

The conservation program for Oct. 16 will have for its aim to show that an awareness of the beauty of the earth emerges from practice of conservation in daily living.

Mrs. L.E. Brooks and Mrs. C.A. Hicks will be hostesses. Mrs. Travis Smith will serve as leader, and Mrs. Joe Singer will give the meditation.

The outstanding program features will be an illustrated lecture on "Native Wild Flowers" by Mrs. Earle Watson, and reading of nature poems by Mrs. Earle Denny.

The arts program for Nov. 6 when Mrs. Calvin Hansen of Wichita Falls will give the program on "Weaving As An Art," was planned to stress that an interest in the performing and creative arts evolves from know-

ledge, appreciation and observation of art as it is evaluated.

An exhibit of Mrs. Hansen's weaving will be on display to enhance interest in the program.

Miss Ethyle Kidwell will be the leader for the afternoon, and Mrs. Charlie Lee will contribute the meditation. For the arts number, Eric Birk will play "Impromptu in E Flat Opus 90 No. 2" by Schubert for a piano solo.

Hostesses will be Mrs. C.E. Birk, Mrs. China B. Smith and Miss Kidwell.

The Nov. 10 meeting will show that new ideas emerge from sharing concepts and programs with other club members when the 23 Study Club, Philia Study Club and Amity Study Club hold the annual joint meeting at the First United Methodist Church. The Philia Club will host the meeting.

Mrs. Harold H. Campbell of Matador, president of Santa Rosa District, will be the guest speaker for the Federation Heritage Day program. Her theme for her administration is "Looking at Ourselves - Yesterday and Tomorrow."

The 23 Study Club will make its twenty-first Christmas visit to Wichita Falls State Hospital Dec. 11 to sponsor a program and serve refreshments to patients, and present a monetary gift to the Volunteer Services at the hospital. In so doing, members will re-evaluate their lives realizing how much love, concern and service mean to the patients.

Mrs. China B. Smith will greet patients and workers and read the Christmas story from Luke's Gospel.

Mrs. E.F. Soell will introduce the program which will be highlighted by a concert presented by the Iowa Park High School Choir, under the direction of Janet Walker.

Mrs. Bill Bates, Mrs. Keith Aulds and Mrs. T.M. Thaxton will be the hostesses for the Christmas meeting

Dec. 18. The theme for the day will emphasize how the emergence from the celebration of Christmas will evolve the true value of the experience.

The program leader will be Mrs. C.L. Metz, and Miss Ethyle Kidwell will be responsible for the meditation. An organ solo featuring a Christmas medley, "Joy to the World," "Messiah" by Harold d' Cou, by Mrs. Bates will precede a Reader's Theater selection, "Tell It to the Wind", read by club members.

The first meeting of 1981 will be hosted Jan. 8 by Mmes. Joe Singer, O.E. Lochridge and Fred Widmoyer. In facing a new year, the planned Home Life program was designed to show how a new purpose of the club will emerge through reaching out to seek, to learn, to explore, to discover the possibilities of mind, body and heart.

Mrs. Keith Aulds will direct the presentation of the program which will include a meditation by Mrs. James A. Sewell, and topical discussions by Mmes. Sam Hill, C.E. Birk and E.F. Soell. Their respective subjects will be "New Year's Thoughts", "The Electric Church", and "Home Life in America."

During the Jan. 15 meeting hosted by Mrs. Travis Smith and Mrs. D.O. James, Miss Ethyle Kidwell will discuss "Human Rights Today", emphasizing how human rights must evolve from mankind's desire to improve the life of his fellowman.

Other club members who will appear on the program will include Mrs. Sam Hill, the leader; Mrs. L.E. Brooks, who will contribute the meditation; and Mrs. Rollins Woodall, who will read some of her original poems.

The Americanism program is scheduled for Feb. 5 and will have special importance through an address on "What It Means To Be An American" by Mrs. John Meux from the Social Studies Department of Iowa Park High School. A strong point in her address will undoubtedly be that those who re-evaluate the privilege of being citizens of America will emerge as united, patriotic American citizens.

The program leader will be Mrs. Charlie Lee. Mrs. C.A. Hicks will give the meditation and Mrs. Keith Aulds will sing "God Bless America". Hostesses will be Mrs. Earle Watson and Mrs. James A. Sewell.

The International program Feb. 19 in Texas Electric Reddy Room will call for an evaluation of China in the arts, philosophy and culture through "China in Review", a lecture illustrated with slides by Mrs. R.A. Tanner, who at the time of the meeting will have spent an entire month touring the republic; and a display of Chinese art by Mrs. C.L. Metz.

The leader for the afternoon will be Mrs. D.O. James and Mrs. Homer Blalock will bring the meditation.

During the social hour, an International Tasting Tea will spark interest. The meeting will be hosted

by Mmes. Keith Aulds, C.E. Birk, Sam Hill, China B. Smith and Miss Ethyle Kidwell.

The goal of the Texas Heritage Day program March 15 will be to refresh members' minds on how Texas has evolved from six nations, each emerging as a vital and integral part of our heritage.

The aim will be accomplished through an address, "A Picturesque View of Texas" by Mrs. W.G. Steele; a quiz on local pioneers by Mrs. O.E. Lochridge; and the arts feature, "A Texas Imagery in Wood" by Mrs. Joe Singer. The meditation will be given by Mrs. D.O. James, and the hostesses will be Mrs. Charlie Lee and Mrs. E.F. Soell.

The annual Guest Day luncheon, an event of March 19 in the Fellowship Hall of First Christian Church, will be an appropriate time to focus attention upon the Arts Department of General Federation of Women's Clubs. It will also give opportunity for club members to evaluate the friendship of others.

Miss Cindy Flanagan and Miss Janet Walker, local artists of distinction, will present the program. The first through a dramatic reading, and the latter through a musical program.

Mrs. Earl Watson will coordinate the program, and Mrs. Homer Blalock will offer the invocation. Mrs. Earle Denny and Mrs. C.L. Metz will head the decoration committee.

A panel discussion on "The Middle East" will heighten interest in the International Affairs program April 2. Topical discussions will be given by Mrs. Travis Smith on "Egypt"; Mrs. Charlie Lee on "Israel", and Mrs. C.A. Hicks on "Palestine" to stress the urgency of the U.S. re-evaluating the relationship with all countries as the changing world evolves.

Tying in with the theme, Mrs. W.G. Steele will play "Hear O Israel" by Jarome Weinberger for an organ solo. The meeting will be held in the home of Mrs. Steele and Mrs. Sam Hill will be the assistant hostess.

The last meeting of the year will be the customary youth awards luncheon in the Fellowship Hall of First Baptist Church.

Youth will be spotlighted during the meeting as some of their accomplishments are evaluated to make club members aware that through them a new world will evolve and new ideas will emerge.

Mrs. Rollins Woodall, Mrs. D.O. James and Mrs. Homer Blalock, members of the youth committee, will share places of leadership. Mrs. Woodall will serve as leader and Mrs. James will offer the invocation.

Mrs. Blalock will make the presentation of awards to the two high school seniors who have been chosen as Outstanding Boy and Girl for 1981.

Special music will be furnished by a trio from the high school choir, Merilyn McIlroy, Jane Dickey and Deena Hefner.

Hostesses will be Mmes. Sam Hill, Earle Denny and C.L. Metz.

Fellowships in meeting

Three Fellowships of United Methodist Women met separately Tuesday morning for their programs.

Mrs. James Todd was hostess for the Mary Fellowship meeting. Mrs. Bertha McDonald led the program on "Prayer".

Mrs. Cleghorn is meeting host

Ten members of Alpha Epsilon Omicron of Beta Sigma Phi met in the home of Gayle Cleghorn Monday evening. The hostess led the opening rituals and Mrs. John Conklin led the closing rituals.

Mrs. Danny Holman was in charge of business. Mrs. Conklin was elected international coordinator. Mrs. Ron Fullerton reported that six members of the chapter would be eligible for the Exemplar degree next year.

In other business, a rush party was planned for Sept. 29 at the ASCS building and the bubble bath walk for the Whoop-Do Oct. 4 was discussed.

Mrs. Conklin presented a program on music spotlighting album selections from the 1930s to the 1980s.

Ten members, and one guest, Mrs. Gene Owens, UMW president, were present. The group will meet Sept. 23 for a salad luncheon and crafts day in the home of Mrs. James Owens.

Members of the Ruth Fellowship met with Mrs. Floyd Boyd for a program on "God Can Use You" directed by Mrs. L.A. Thurlow. Eleven were in attendance.

Eleven members attended the Rebecca Fellowship meeting at the home of Mrs. China B. Smith, with Mrs. Chauncey Weiler the co-hostess.

The program on "Overall Review of Missions, Local and National" was led by Mrs. George Trammell. She was assisted by Mmes. Don Cook, Charlie Lee, M.L. Hines and James Sewell.

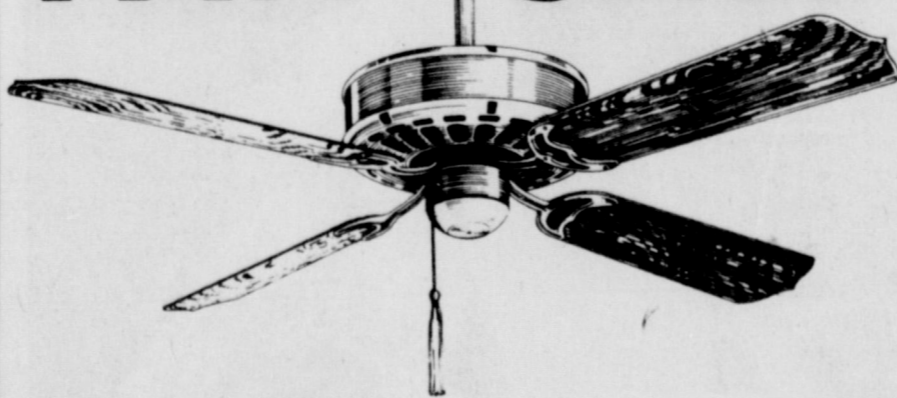

Lane heads group

The VOE Co-op elected officers to serve during 1980-81 at a meeting held last week.

Lisa Lane was elected president. Serving with her will be Vanesa Stucki, first vice president; Sandra Alambar, second vice president; Linda King, secretary; Connie Fitzgerald, treasurer; Lori Carender, reporter; Tracy Burch, historian; and Sarah Milner, chaplain.

Cook of the Week

This year, perhaps more than ever before, people are anticipating fall with a great deal of pleasure, and welcome even the slightest sign of it. A good way to catch its flavor when the weather begins to get cooler is in the variety of fruit breads that gain in popularity every year.

Torey (Mrs. Larry) Sossamon, a young housewife and mother and a newcomer to Iowa Park has already started digging in her file for fruit bread recipes. She shares two of these, Apricot Nut Bread and Cranberry Orange Bread, with us this week.

Apricots, the "golden seed of the sun", were brought to California early in the 18th century by Spanish missionaries, and they have been a favorite fruit in America for pies, other desserts, preserves, jelly and jam for many years. Cooks have only to preen their imaginations to use them in a variety of nourishing and exciting dishes. Apricot Mousse was a dessert served frequently in the White House during President Hoover's administration.

Spain is the world's leader in apricot production, followed by the U.S., France, Italy, Yugoslavia, Iran and Syria.

Mrs. Sossamon, the former Torey Jeter of Wichita Falls, was graduated from Hirschi High School where she belonged to A Cappella Choir and Madrigal Singers. She is a member of the First Church of the Nazarene in Wichita Falls where she teaches the toddlers in Sunday school. She enjoys cooking and is interested in macrame.

Larry works in maintenance for Dowell Tool Plant. The couple has a two-year-old son, Brandon.

Mrs. Larry Sossamon and Brandon

MEXICAN HOT SAUCE
 1/4 lb. fresh peppers
 1 large can (28 oz.) whole peeled tomatoes
 1 t garlic salt
 1/2 t onion salt
 1/4 t cumin powder
 Cook pepper 30-40 minutes till tender. Mix peppers, tomatoes and spices in blender; blend until well mixed.

CHERRY NO-MIX CAKE
 In a 9x13 inch cake pan, spread 1-24 ounce can pitted cherries.
 Sprinkle over cherries 1/2 cup sugar; over this, sprinkle 1 white cake mix, dry; melt and dribble over cake mix 1 stick oleo. Bake at 300 degrees for 1 hour. Serve with whipped topping or ice cream.

FRUIT PIZZA
 Spread 1 pkg. Pillsbury Sugar Cookie Dough into pizza pan. Bake at 350 degrees until brown. Cool.
 Combine 1-8 oz. pkg. cream cheese with 1/2 cup powdered sugar. Spread over cookie dough.
 Arrange the following fruits as to your own pleasure: sliced peaches, mandarin oranges, sliced bananas, sliced strawberries and pineapple chunks. Pour heated apricot preserves over fruit. Top with whipped cream before serving.

CORRECTION
 A mistake appeared in Mrs. Jim Arnold's Plenty For 20 recipe last week. The recipe as it was used called for 1 can milk and enchilada sauce, and this should have read 1 can mild enchilada sauce. The correct recipe is below:

PLENTY FOR 20
 Brown:
 3 lbs. hamburger meat
 2 or 3 medium onions, chopped
 1 medium green pepper, chopped
 Add:
 1 can tomatoes
 1 can Ro-tel tomatoes
 Simmer for 30 minutes
 Add:
 1 can mild enchilada sauce
 1 can whole kernel corn
 2 cans chopped ripe olives
 1 pkg. cooked wide noodles
 1 lbs. Velveeta cheese
 Stir until cheese is melted. Let stand 24 hours. Reheat in 350 degree oven. Freezes well.

1/4 cup water
 1/2 cup orange juice
 2 cups flour
 2 t baking powder
 1/2 t soda
 1/4 t salt
 1/2 cup nuts
 Soak apricots 30 minutes; drain and cut up. Mix sugars, butter, egg, water and juice. Sift dry ingredients and blend into creamed mixture. Stir in nuts and apricots. Let stand 30 minutes. Bake 350 degrees for 60 minutes.

CRANBERRY ORANGE BREAD
 2 cups sifted flour
 3/4 cup sugar
 1 1/2 t baking powder
 1 t salt
 1 beaten egg
 1 t grated orange peel
 3/4 cup orange juice
 2 T salad oil
 1 cup coarsely chopped fresh cranberries
 1/2 cup chopped walnuts
 Sift together flour, sugar, baking powder, salt and soda. Combine eggs, grated orange peel, orange juice, and salad oil. Add to dry ingredients, cranberries and walnuts. Bake in greased 9x5x3 inch loaf pan at 350 degrees for 60 minutes or till done. Remove from pan; cool. Wrap, store overnight.

APRICOT NUT BREAD
 1 cup dried apricots
 1 cup sugar
 1/2 cup brown sugar
 2 T butter
 1 egg

TOPS meets

Twenty-six weighed in for the TOPS Club meeting Monday night which was highlighted by giving awards to the winners in the partner contest that ended Monday night, and a skit, "You Can't Be Too Careful" by Mrs. Roy Farr.

First place winners in the contest were Mrs. Alice Roberts and Mrs. Ronald Putman. Second place winners were Mrs. B.G. House and Mrs. John Henry Jones; and Mrs. W.O. Chandler and Mrs. Michael Ehrlich came in third.

Mrs. C.O. Dodd was the KOPS who lost the most weight and Mrs. Robert English claimed the honor for the TOPS.

An invitation was read from TOPS 24 Club in Wichita Falls to attend the Fun Day Sept. 20 at the Highland Heights Christian Church in Wichita Falls.

CARD OF THANKS

We are most grateful for the many expressions of sympathy shown for us during the loss of our sister. She was well known in Iowa Park and your cards, calls and prayers honored her memory as well as lending comfort to us. Please accept our heartfelt thanks.

 Buy now and get a CASH REBATE direct from LITTON!
 Offer good from August 25 through September 28
 Litton's Incredible Microwave Oven with Auto-Cook™
 So simple and easy-to-use because it "asks" you questions and automatically guides you to delicious meals!
 \$50 REBATE
 50 rebate offer also available on Litton Models 1570, 1560, 1550 Model 1580

Livestock auction termed success

With contributions still coming in, total raised to date in the Crippled Children's Livestock Auction is \$182,597.86.

All proceeds from the annual sale go to help support the North Texas Easter Seal Rehabilitation Center in Wichita Falls where handicapped children and adults from throughout the North Texas and Southern Oklahoma area receive therapy.

Joe Parker, general chairman of the auction, said of the total - which is a record - "We are feeling mighty good about this. At first it seemed that the hot, dry weather this summer was going to work against us. But folks from every part of the area came through for us, for the rehab center.

"And," Parker said, "people still are coming through. Our final count may go even higher.

"It's just great how people respond when you ask them to help out," the Byers rancher said.

Noting that each year the sale is held, contributions increase, Parker said, "Who knows? Next year we may reach \$200,000."

Parker pointed that more than 500 handicapped children and adults receive therapy at the rehabilitation center each year. No one is refused therapy due to inability to pay. Fund-raising efforts such as the livestock auction make this possible.

Services provided at the center range from physical therapy for a child with cerebral palsy or an adult with arthritis, to speech therapy for a child who stutters or an adult recovering from a stroke, to audiological testing for the hard of hearing, to therapy for children with learning disabilities, to providing wheelchairs or other equipment, to counseling and referral.

There have been 158 people from Iowa Park who have received help at the rehabilitation center.

Livestock auction contributions from Wichita County totaled \$94,977.55, according to Parker.

Auction committee co-chairman from Iowa Park was Stanley Williamson. Also working on the committee was Bill Steger of Iowa Park.

As I See It...

By BOB HAMILTON

Our community has suffered a serious embarrassment by some more ne'er-do-wells.

Thursday night, just after the school bus loaded with Breckenridge football players had left our city limits, some punks shot out the rear window of the bus.

Now, it's bad enough that any idiot would pull something like that. Endangering the life of anyone is stupid. People who get kicks or thrills pulling something like that should be behind bars or under the care of a psychologist.

But when such an act embarrasses an entire community, they should be horsewhipped.

Relations between Iowa Park and Breckenridge had been strained since we played in Buckaroo stadium back in 1970. I purposely did not rehash that situation prior to last weekend's ball games just because of some ridiculous incident which occurred.

It was 10 years ago when the community of Breckenridge was embarrassed by a school dropout who threw a soft drink bottle into the Hawk fan section, striking a baby in the head and bouncing into the face of his mother. The baby was not seriously injured, though he could have been killed. The mother lost several teeth.

Breckenridge school, city and law personnel were enraged, and they set to work. They found out who the culprit was and dealt with him, harshly.

Now it is Iowa Park's turn to be shame faced. We must all suffer the pangs of insult, that our community is not safe for visitors to come here without fear for their lives and safety of their property.

We, too, must find out who is responsible and prosecute the culprits to the limit of the law.

I don't know what's happened, but Thursday night's rash of windows

being shattered, and the previous week's rampage of tire slashings does not reflect the type of community I think we have.

We need some help. . . if it's the only way to get cooperation with our police department. . . I will offer a \$500 reward for information leading to the arrest and conviction of the persons responsible for either or both the tires and windows being attacked.

Don't get me wrong, I don't have that kind of money to be throwing around. But innocent people have been attacked and we just can't have that sort of thing.

Four-home tour today

The Extension Homemakers will be touring four homes in Wichita Falls today. The tour will originate at the 4-H barn parking lot, 1626 Midwestern Pkwy at 9 a.m. and should be completed by noon.

The purpose of the tour is to provide insight on the latest innovations relating to energy conservation and weather refuge.

The first home on tour will be Mr. and Mrs. Sid Lamberts solar home. The home is the only one in Wichita Falls utilizing the parabolic reflector systems. Also the interior design and decor are geared toward comfortable temperatures through the use of nature's own energy source, the sun.

The second home belongs to Mrs. Jo Ellen Kosanke and is known as the "Dome Home." Not only does the geodesic architecture promote energy efficiency it will also withstand winds up to 250 miles per hour. A must for someone whose last home was destroyed by a tornado.

The third home belongs to Mr. and Mrs. Ken Small and is underground. The concrete structure has ceilings 12 inches thick and floors up to 2 1/2 feet thick. The home is located on a site where the original home was also destroyed by the tornado. The new home is totally electric with the warmest temperature reaching 80 degrees.

The last home on the tour belongs to Mr. and Mrs. Leo Harman and features an inresidence above ground

storm shelter. The shelter is built from eight-inch concrete blocks reinforced with steel rods and concrete fills the inside of the blocks. A three-inch concrete slab covers the top and the entry door is steel and opens to the inside.

The educational tour is sponsored by the Wichita County Extension Homemakers Council education committee and the Texas Agricultural Extension Service. Committee members include Mrs. Glenda Richey, chairman, Mrs. Maarzie Butler, Mrs. Nancy Driscoll, Mrs. Lee Beckham, and Madeline Weeks. Barbara Cornelius, Wichita County Extension Agent is assisting the committee.

City in middle of dispute

The city of Iowa Park is caught in the middle of a dispute which was aired Monday before the Public Utilities Commission in Austin.

Wichita Valley Water Supply Corp. is asking the PUC to overrule a contract under which Iowa Park would sell water to a housing development at Horseshoe Lake, southeast of town.

City Administrator Steve Morath testified before the PUC, but said yesterday that no decision from the PUC had been received.

At issue is a claim by representatives of housing development that they approached the Wichita Valley board for water service, were rejected, and then after seeking permission from Wichita Falls, sought and received permission to buy water from Iowa Park.

The development is near the transmission line through which Iowa Park receives water purchased from Wichita Falls. According to an agreement, any water sold outside Iowa Park must be with permission of Wichita Falls.

Wichita Valley's attorney, Frank Douthitt, reportedly told the PUC that they were not presented the same project plans as was Iowa Park, and that they wanted to serve the housing development.

Spencer Crouch, Wichita Falls lawyer representing the housing development, reportedly told PUC hearing examiner Alan Holman that his group would have to pay an additional \$90,000 above \$30,000 already invested in water service, if the PUC changed the water service it now has contracted.

The transmission line has, with Iowa Park permission, already been tapped and a line laid to the housing development.

Building Trades name officers

Barry Phillips was elected president of Building Trades for 1980-81 at a meeting held last week.

Other officers on the slate include Tim Thomason, vice-president; Jim Miesel, secretary; Kevin Thompson, treasurer; Bobby Bates, reporter; Robbie Wheeler, parliamentarian; Tim Smith, sergeant-at-arms.

Melvin Schupp, the new Building Trades instructor, reported that the house built by the class last year had sold for \$36,000.

Harpichord

Continued from page 1

sound good," he said.

Though he had no training in cabinet making, he says he has always been a pretty good handy man around the house, and his father has encouraged him to make do with what parts and tools he had available to do a job.

He ordered the parts and plans for the harpsichord, but said the key to successfully constructing such an instrument is having a knowledge of the sound board and carving of the quills.

Even after a harpsichord is completed, there is a six-month break-in period during which the

strings must stretch and the sound board matures and settles.

Besides building other harpsichords, Teel wants to write music for the instrument, hoping to fit it in with a popular pop band sound. If the music is carefully selected, he thinks it would make a good addition to a band.

He has a pretty good idea about what can sound good with a band, since he has been playing in dance bands some six years. Besides playing the piano, and as he did in the high school band, the drums, he is also trained to play woodwind instruments and the guitar.

An important message for customers of Texas Electric:

Electricity will cost more next year, partly because our biggest contract for low-cost* natural gas expires this December.

Next year, the gas we'll need to use to make your electricity will cost more. The chart below shows how this will affect your electric bill.

Check your bill; if you use this many kilowatt hours	Expiration of low-cost gas contract will add about
500	\$ 4.00
750	6.00
1000	8.00
1500	12.00
2000	16.00
3000	24.00

We're helping hold down costs by making as much electricity as possible in plants built to use lignite coal — a cheaper fuel.

You can help hold down your bill by conserving. Learn how at one of our Operation Tighten-Up workshops. Call us for information on a workshop in your neighborhood.

*This contract will have saved our customers more than \$700,000,000 on their electric bills by the time it expires.

My boyfriend gave me these, and I can't possibly take them off!
